

[Demo] NLP Dataset for Customer Service Automation

Company Type	Electricity Suppliers
Inquiry Category	Power outage reports and updates
Inquiry Sub-Category	Outage prevention
Description	Customers seeking advice on how to prevent power outages or minimize their impact.
Data Size	12,418 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Electricity Supplier" customer inquiry. (Purchased data will not be masked.)

Is it advisable ____ invest in backup generators ____ our ____ outages?
____ generators ____ best way ____ protect against ____?
Is ____ a good ____ in power ____?
____ it make sense to ____?
Should we use ____ our precautions during ____?
Should backup Geners ____ reduction plans?
Are ____ for the ____?
Is ____ generators ____ for ____?
____ incorporating backup ____ an efficient ____ preventing ____?
Is the ____ generators recommended ____ avoiding power ____?
____ a good idea ____ put generators ____ event ____ a power ____?
____ you ____ backup generators ____ save ____ from bad ____?
Is ____ possible that throwing money ____ the ____?
____ you tell ____ if ____ helpful ____ a generator?
____ up ____ smart investment?
I ____ to ____ a generator ____ anti-outage plan.
____ have ____ to deal with power ____?
____ it a ____ to ____ in ____ in ____ of power ____?
Does backup ____ power loss?
Are backup generators safe ____ avoid ____?
____ it necessary to include ____ generators in ____ power ____?
____ Geners ____ in ____ Reduction Plans?
____ invested in for ____ disruptions?
Is it ____ good idea ____?
Is ____ to ____ backup generator?
____ used for power cuts?
____ a good idea to ____ of a ____ failure?
____ a good idea to have backup ____ future ____?
____ you think ____ be wise ____ include generator ____?
Should we ____ backup ____ as part ____ power ____ prevention ____.
____ use ____ backup generators may ____ efficient ____ preventing power ____.
Adding ____ system ____ help mitigate ____ risks.

_____ a _____ of our plan to _____ blackouts?
_____ to _____ supplemental power _____ to avoid _____.
Do _____ make a smart investment _____ power _____?
Is it _____ idea to use _____ avoid _____?
_____ be _____ emergency Gen _____?
Are _____ part _____ our strategy to avoid _____?
_____ it logical _____ backup _____ for _____?
_____ Geners _____ used in _____ plans?
Is _____ idea to include generators in _____ outage _____?
What do _____ think _____ using _____ power failures?
_____ backup generators?
_____ of _____ gensets vital to _____?
_____ consider _____ a backup _____?
_____ measures _____ emergency electric sources?
_____ it make sense _____ use _____ generators for _____?
_____ it _____ good idea _____ in _____ generators _____ failure prevention?
Are _____ investment _____ power _____ in the future?
_____ it _____ include _____ generators into our outage _____?
Are _____ generators _____ move _____ blackouts?
Should _____ have preventative _____ include _____ sources?
Should we _____ ourselves _____?
_____ it _____ to include _____ generators in _____?
_____ investment to prevent future power disruptions?
Do you think it _____ to _____ backup _____?
Should _____ use backup generators _____?
_____ generators should be _____ our outage prevention efforts.
I would _____ to _____ it's a _____ idea _____ invest _____ generators _____ prevent _____.
Do _____ think _____ should _____ in the Outage prevention _____?
Is it _____ have backup _____ to _____ failures?
Should _____ be spending _____ backups or _____ suffer?
Is emergency _____ important _____?
_____ it _____ emergency _____ are vital in tackling _____?
Should we purchase _____ generators _____?
_____ you _____ me if I should invest _____ backups as _____?
_____ backup _____ recommended _____ a Power _____ plan?
_____ backup _____ curb _____ impact of _____ failures?
Emergency _____ help _____ failures.
Is _____ unit into _____ precautions _____ during disruptions?
Is _____ a _____ invest _____ as part of our strategy?
Does _____ sense _____ include backup _____ in our plan _____?
Should _____ generators _____ invested _____ power _____?
_____ to have backup _____ our power loss _____ measures?
_____ make _____ invest _____ generation as part _____ outage prep?
Should we _____ part of _____ prevention efforts?
Should _____ to minimize risks?
Is _____ good _____ backup generator for preventing outages?
Is _____ wise to include generator investment _____ strategy?
_____ include generator investment in _____ strategy _____ outages prevention?
_____ it _____ wise _____ include backup _____?
_____ makes _____ to include _____ generators for _____ disruptions.

_____ be _____ a backup generator?
 _____ generators be _____ efficient _____ to prevent _____ failures?
 _____ is _____ have backup _____.
 _____ generators _____ against _____ problems?
 Is it _____ to invest _____ Generators _____ prevent _____ failures.
 _____ it possible _____ are _____ in tackling outages?
 Should _____ invest in _____ to protect _____?
 _____ it possible _____ backup _____ systems will _____ mitigate _____ risks?
 _____ think backup _____ be _____ avoid power failures?
 _____ it _____ sense to _____ backup generators in _____?
 _____ a _____ idea _____ invest in _____ as part _____ the outage _____?
 Is _____ on generator _____ anti-outage _____?
 Factors _____ that _____ vital _____ tackling outages.
 Does it make _____ to _____ backup _____ the _____ outage _____?
 Wouldn't backups _____ to _____?
 Should _____ purchase _____ generators _____ protect myself from _____?
 _____ to invest in generators _____ backup _____?
 _____ I _____ an _____ power _____?
 Would _____ make sense _____ backup _____ our plan?
 Shouldn't _____ in _____ to _____ power _____?
 _____ we _____ backup _____ as part _____ our _____ loss prevention _____?
 _____ it _____ good idea to buy _____ part _____ our _____ efforts?
 Would having _____ for _____ power _____ prevention measures?
 Should we _____ generators _____ us against outages?
 Is it _____ for power _____ in Gens _____ disruptions?
 _____ to use _____ generators _____ power losses?
 Is _____ backup _____ a _____ move?
 Are _____ in favor of using _____ power _____?
 _____ a _____ idea to invest in Generators _____ power _____?
 Adding _____ would help mitigate _____.
 _____ believe _____ adding _____ generators?
 Does the use of _____ generators _____ them _____?
 _____ would be wise _____ generators _____ our plan.
 Is _____ wise _____ put backup _____ the _____ outage _____?
 Is a _____ investment _____ it to _____ future _____?
 _____ backup _____ be part of _____ strategy _____ of power?
 _____ backup _____ make sense _____?
 _____ advice on installing _____ power gear _____.
 Is _____ a _____ idea _____ resources _____ buy backup _____?
 _____ we get _____ keep _____ power on?
 Factors _____ emergency gensets _____ vital _____ tackling _____?
 _____ it _____ for us to _____ backup _____?
 Are backup gensets recommended _____ measure _____?
 Can _____ used _____ an _____ to prevent power cuts?
 Is it _____ good idea _____ invest _____ backup _____?
 Do backups _____?
 _____ we invest _____ keep power on?
 _____ to know if _____ on generator is _____.
 _____ generators help reduce electricity _____?
 Is _____ recommended to use _____ Geners _____ Power _____?

_____ make _____ difference in preventing _____?

_____ buying _____ backup _____ smart?

_____ you believe _____ get emergency _____?

Is _____ best to _____ backup _____?

Is a backup _____ failures?

_____ it possible _____ backup generator _____ would _____ minimize potential _____?

_____ backup generators _____ used _____ our power _____?

_____ a good idea _____ use _____ prevent power failures?

_____ adding _____ sources _____ for _____ grid failures?

_____ to _____ a backup generator?

Should _____ emergency Gen _____?

_____ possible _____ stop _____ power tomfoolery _____ throwing _____ at the _____ generators?

Is it a _____ idea to use _____ in _____?

_____ generators _____ good investment to _____ future _____ disruptions?

Do you _____ backup generators should _____ to _____?

_____ in _____ using backup generators to save _____?

_____ backup generators _____ a _____ reducing power _____?

_____ you suggesting _____ money at _____ generators stops _____ failures?

Is _____ an effective _____ power failures?

Do _____ that _____ generators _____ included?

Gens _____ be _____ the _____ outage _____ strategy.

Is it ok _____ buy _____?

Did _____ make _____ to include _____ generators _____ our _____ strategy?

_____ be included _____ plan to prevent power _____?

_____ backup generators in _____ plan?

Is _____ to _____ resources _____ that _____ stave off outages?

Is it _____ good _____ to purchase backup _____ part _____ outage _____?

Will _____ a good investment _____ outage prevention?

Should _____ invest _____ for _____ cuts?

Do backup _____ a _____ investment for avoiding _____?

_____ a _____ generator _____ minimizing power _____?

_____ backup _____ good _____ stop power failures?

_____ it a _____ idea _____ have _____ not having _____?

Is _____ Generators _____ plan?

_____ there a need _____ backup _____ with power _____?

Is _____ other power sources _____ to _____?

Should we _____ generators _____ cuts?

Should _____ be thinking about _____ emergency _____?

Is _____ good idea to get _____ generators _____ to prevent _____?

_____ backup gensets recommended _____ measure _____ having power _____?

Is it wise _____ generators for _____?

_____ implementing supplemental _____ gear.

_____ it _____ backup generators into our _____?

Is _____ include backup generators in _____?

I _____ we should get _____.

Does _____ sense for _____ suppliers to invest in Gens _____ a _____?

_____ it _____ to have generators _____ power _____?

_____ backups be _____ prevent power _____?

backup _____ to _____ interruptions

Does backup generators _____ our _____?

_____ the generating unit into _____?

_____ tackling _____ emergency gensets _____?

_____ to _____ backup gensets as part of outage prep?

Should _____ generators _____ in _____ power outage prevention _____.

_____ in our Outage Prevention efforts?

_____ generators save _____ from power loss?

Is it a _____ idea to _____ prevention?

I _____ it makes sense _____ include backup _____ outage _____.

_____ to avoid power interruptions?

Is _____ possible to _____ auxiliary _____ generator sets _____ a power _____?

_____ there is _____ need for backup _____?

Is _____ reasonable _____ for power outages?

_____ it beneficial to have _____ power loss prevention _____?

Will _____ possible _____ commit resources _____ a set of _____?

_____ generators a _____ idea _____ failures?

_____ it a good idea _____ invest _____ as part of _____?

Are _____ backup _____?

_____ it a good _____ to _____ generators _____ to prevent _____ outages?

Are backup generators a _____ power _____?

Is _____ include backup generators _____ prevention?

Do you _____ is a _____ in _____ outage _____ plan?

Do _____ think _____ advisable _____ invest _____ generators?

_____ it _____ get backup generators _____ prevent power _____?

_____ power out reduction _____ recommend backup _____.

Should _____ generators _____ of the _____ to avoid _____?

Is it better _____ invest _____ for _____ disruptions?

_____ backup generators _____ avoiding _____ loss?

_____ people _____ gensets are vital in tackling _____.

Are you _____ favor _____ using backups _____ power _____?

Will backup _____ failures?

_____ Generators be _____ to _____ loss?

_____ people invest _____ to _____ power _____?

Is _____ to _____ backup generators _____ an efficient way _____?

Is it _____ commit _____ to _____ emergency _____ generators?

Are power _____ as a way of _____ outages?

Is it _____ good idea _____ resources _____ buy _____?

Is it _____ power _____?

_____ make _____ to _____ backup generator for preventing power _____?

Is it _____ good _____ put _____ generators _____ our power _____?

Does _____ make _____ to build _____ generators _____ our _____?

_____ you recommend that _____ in _____?

Is _____ generators _____ investment?

Will backup generators be an _____ to _____?

_____ you _____ it's _____ include generator _____ in the _____?

_____ might _____ include _____ in our power outage _____ plan.

_____ you prefer _____ avoid _____ disruptions?

Is _____ buy backup generators to prevent _____?

Should _____ get a generator _____?

Are _____ a _____ avoiding power outages?

Do _____ need _____ sources _____ sets?

Is it a good _____ buy _____ you _____ to _____ failures?
Do you _____ generators _____ avoid power interruptions?
There _____ generators.
Does the _____ prevent _____ outages?
Are backup _____ ideal _____ loss?
Would _____ a _____ generator system reduce _____ a _____ failure?
_____ backup generators _____ invested _____ prevent future _____?
_____ put in backup _____?
Should we _____?
Is the _____ generators part of _____ for _____ outages?
Should _____ in _____ for protection against _____ failures?
_____ backup generators a _____?
Are _____ the _____ to avoid _____ failures.
Is _____ a good _____ to _____?
Is a _____ a _____ investment for _____ cuts?
Should _____ generators be a _____ of _____ plan to _____?
Is _____ worth _____ backups for _____?
_____ it _____ sense _____ get emergency Gen sets _____ stop _____?
Is _____ smart investment?
_____ need advice on using _____ power _____ to _____.
Do you _____ wise to include _____ in _____?
_____ backup generators be _____ power _____ plan.
Should _____ get _____ sets.
Can _____ generators be an efficient _____ of _____?
Is _____ a way to _____ with _____?
_____ it a good _____ to install _____ prevent power _____?
_____ it _____ sense _____ in _____ prevent power failure?
_____ to invest in backup generators _____ prevention?
investing in _____ a wise _____.
Is _____ to _____ generators to _____ power failures?
Is _____ wise to _____ a _____ investment _____ your _____ plan?
Should backup generators _____ bought _____ of _____ outage prevention _____?
Is _____ a good idea _____ in _____ prevent power _____?
Do _____ help reduce _____ failure _____?
Is it a good _____ to _____ in generators _____ power _____?
Should backup _____ be _____ part _____ our strategy _____ power _____?
It is _____ to _____ for _____ failures.
Is _____ generator _____ good idea _____ prevent outages.
Is a _____ generator _____ smart _____ avoiding _____ losses?
Do _____ generators for protection?
_____ you _____ it's worth getting _____ backup generator.
Is _____ generators effective _____ power _____?
_____ backup generators _____ to _____ power _____?
Is _____ a _____ to prevent power _____?
Should you _____ backup _____ for _____ prevention?
_____ it a _____ to _____ backup generators in _____ prevention _____.
_____ make sense _____ backup generators in our _____?
Is using backup generators an _____ preventing _____.
_____ deployment of supplemental _____ gear.
Is _____ a way _____ can help _____ power _____?

_____ are suggestions _____ gensets being _____ in tackling _____.

Do you agree _____ generators to avoid _____?

_____ it _____ bring _____ alternative _____ sources?

Is investing _____ generators a good _____ prevention?

_____ invest in backup generators _____ prevent future _____ disruptions?

_____ gensets recommend _____ against power cuts?

_____ you think that _____ a _____ protection against outages?

Do _____ should _____ power _____ or just suffer?

Are backup _____ stop power _____?

_____ investing _____ generators _____ good strategy to prevent _____?

Is it possible _____ systems _____ help mitigate _____?

_____ backup generators _____ part _____ keeping power out?

_____ a _____ idea to _____ backup generators in _____?

Is _____ idea to invest in generators _____ of _____?

_____ generators able to help curb _____?

_____ generators _____ included _____ our power _____ plan?

_____ installing backup generators _____ power?

Is _____ include a generator into _____?

Is it _____ in backup generators _____ outages?

Does _____ generators _____ problems?

Is _____ necessary _____ have _____ our _____ outage strategy?

Should _____ backup _____ in _____ outage _____ efforts?

Is _____ in power units _____?

_____ should I _____ backup generators?

What are _____ thoughts on _____?

_____ out _____ plans might _____ Geners.

_____ you _____ it would be _____ idea _____ install _____ generators?

Would _____ smart to prevent _____?

_____ use _____ to make _____ for power failures?

Advice regarding _____ supplemental power _____.

_____ generators _____ invested in?

Is _____ have _____ generators?

_____ make _____ backup generators in an emergency?

_____ we _____ generators _____ prevent _____ problems?

_____ generators _____ invested?

Will it _____ resources to buy backup _____?

Can backup _____ failure impact?

_____ backup _____ used in order _____ power loss?

_____ it better _____ have _____ backup _____?

_____ purchasing some _____ power supply?

_____ sense for grid failures?

Is _____ to _____ backup generators for _____?

_____ what _____ think _____ good anti-outage plan.

Are _____ generators the _____ way to _____ with _____?

Is backup _____ power _____ plans?

Are backup _____ recommended if _____ is _____?

_____ smart to _____ generators to prevent _____ problems?

_____ the Power _____ reduction _____ recommend _____?

Throw money _____ backup generators _____ the constant _____?

Can we include the _____?

Gens _____ investment for _____ prevention?
 _____ we use _____ power failures?
 _____ backup _____ invested _____ as part of _____ preventing power outages?
 Is it _____ idea _____ add _____ generators to _____ risks?
 _____ be possible _____ commit _____ to _____ back up power _____?
 _____ it _____ generators _____ power outages?
 _____ backup _____ be a _____?
 _____ a good _____ to _____ a standby generator _____ prevent power _____?
 _____ it _____ idea to _____ power _____ part of outage prep.
 Should _____ get _____ protect against _____?
 _____ it make sense to _____ backup _____ plan?
 _____ included _____ our power _____ prevention plan?
 _____ reckon investing in _____ will _____ us?
 Is _____ wise _____ include _____?
 Should _____ standby _____ be included _____ our _____?
 _____ backup _____ bought to _____ power _____?
 _____ a _____ idea _____ invest _____ generators to _____ the _____ grid?
 _____ investment _____ against power failures?
 Will backup _____ be _____ for power _____ prevention?
 Do you _____ generators should be _____ protection _____?
 _____ invest in backup generators _____ prevent _____ failures?
 Would backup generator systems _____?
 _____ good _____ to _____ in _____ part of outage prep?
 _____ it _____ sense to add backup generators _____?
 _____ a good investment?
 Should _____ using backup generators _____ deal _____ failures?
 _____ backup generators _____ as part _____ prevention efforts.
 _____ backup generator be _____ for _____?
 Is backup _____ power _____?
 _____ that _____ gensets are vital to _____ outages.
 Is _____ throwing _____ backup generators stops the _____ disruptions?
 Seeking advice _____ to _____ by _____ power gear.
 _____ installing _____ generators _____ efficient _____ of preventing power _____?
 Do you think _____ to include _____ your outage _____?
 Is _____ worthwhile _____ in generators _____ be used in case _____?
 Should _____ generators?
 Is _____ possible to commit _____ back up _____?
 Should _____ to fix _____ issues?
 Is it advisable for _____ power _____?
 _____ a backup generator _____ investment _____ power failures?
 Is _____ emergency gensets _____ in _____?
 Is it _____ to invest in generators _____ can _____ used in _____?
 _____ it _____ to have backups _____?
 Should _____ emergency gen _____?
 _____ possible _____ include backup generators into our _____?
 Should I _____ backup _____ protect myself _____ failures?
 _____ generators help _____ outages?
 Is _____ against _____ failures?
 _____ sets might be good _____ stop _____.
 _____ necessary to include _____ in our strategy _____ power _____?

_____ buy _____ backup _____ to prevent _____ issues?
 Is it possible _____ generator _____ anti-outage _____?
 _____ backup _____ recommended _____ reduction of _____?
 Should _____ generators _____ against power failures?
 _____ backup _____ to _____ power loss?
 _____ generators be _____ our power _____ strategy?
 Can _____ generators _____ an efficient way _____ shortages?
 Do _____ generators _____ to _____ used to _____ outages?
 _____ backup generators _____ to prevent power _____?
 _____ generator smart _____ power failures?
 _____ backup generator systems be _____ potential black _____?
 Is _____ appropriate to _____ in backup _____ part _____ prep?
 Is _____ good idea _____ have _____ the _____ of _____ power failure?
 I want to _____ if backup generators _____ wise _____.
 Is _____ have _____ generators?
 Should _____ generators _____ power failures?
 Do you think _____ for _____ is _____ good _____?
 Is _____ a good strategy for _____?
 _____ make sense for avoiding _____?
 _____ think adding _____ generators _____ necessary?
 Should _____ invest _____ backup _____ of _____ for preventing power failures?
 Should _____ generators _____ protect _____ from power failures?
 Should _____ get backup _____ to _____ us _____ failures?
 _____ generators _____ a _____ of our _____ to avoid _____ shortages?
 _____ it _____ incorporate emergency _____ tackle outages?
 _____ it _____ to _____ in backup _____ prevent power _____?
 _____ you _____ about using _____ to avoid _____ interruption?
 _____ it _____ good _____ to _____ investment _____ outage prevention plan?
 _____ it _____ good idea to invest _____ generators _____ outage _____?
 _____ generators _____ of our plan to stay out _____ grid?
 _____ it wise _____ backup generators in _____ outage _____.
 _____ we _____ deal with power _____?
 Is _____ in _____ a smart _____?
 _____ wise strategy to invest _____ a backup _____?
 _____ be used _____ prevent _____ cuts?
 _____ purchase backup generators _____ part _____ our _____ to prevent _____?
 _____ Generators be used to _____ not?
 _____ help stop _____ failure?
 _____ makes sense to _____ backup _____ for _____ outages.
 _____ it make _____ to include _____ the Outage Prevention _____?
 Is _____ to _____ backup _____ to _____ outages?
 _____ invest _____ generators to _____ with _____ shortages?
 _____ include _____ generators?
 Should we _____ in _____ generators _____ power _____?
 Is it advisable to _____ outages _____ plan?
 Can _____ me _____ a _____ generator is _____ good idea _____ outages?
 Should _____ be _____ to the _____?
 _____ think this _____ good idea to include _____?
 _____ it possible _____ will help mitigate _____ risks?
 Is it wise _____ generators in order _____ prevent _____?

_____ generators _____ to our strategy?
 Should _____ used _____ minimize power _____?
 Is _____ a good idea _____ in backup _____ prep?
 _____ it wise to put _____ backup generators in _____?
 _____ generators _____ to prevent _____ losses?
 Does _____ make sense _____ generators in _____ of _____?
 Should I _____ backup _____ stay _____?
 Is _____ a _____ to invest in _____ power outages?
 Do _____ it _____ be a good idea _____ generator _____?
 _____ it _____ put _____ power sources?
 _____ useful to _____ power loss?
 _____ it make sense to _____ backup generators _____ plan?
 Should _____ backup _____ as _____ of _____ outage _____ efforts.
 _____ backup _____ necessary _____ prevent future _____?
 It makes _____ generators to _____ our outage strategy.
 Adding _____ systems _____ reduce _____ of a power failure.
 Do _____ generators _____ to _____?
 _____ it advisable to invest _____ of outage prep?
 _____ if _____ am _____ on generator _____ anti-outage plan?
 _____ it make sense _____ backup _____?
 _____ getting _____ generator _____ to mitigate power disruptions?
 _____ we _____ as part of _____ outage prep?
 Are backup generators _____ idea _____ failures?
 Do _____ it _____ wise to include _____ generator _____?
 Do you think generator investment should _____ in _____?
 Is _____ generator _____ a _____ idea?
 Is _____ worth _____ in backup generators _____ loss _____?
 _____ invest _____ generators to save _____ unreliable power?
 _____ gensets _____ as a measure against power _____?
 Is _____ good idea to _____ Gen sets to _____ downs?
 We might want to _____.
 Should _____ minimize power risks?
 Shouldn't _____ spent _____ backup generators to _____ the _____ power _____?
 Should _____ get _____ sources _____ our _____ measures?
 Does _____ make _____ to _____ in backup _____ if we are _____?
 _____ a wise _____ to _____ backup _____?
 _____ request for advice regarding _____ gear.
 Are backup gensets _____ a _____?
 Is buying _____ wise _____?
 _____ emergency _____ important to _____?
 _____ you saying _____ throwing _____ stops the power _____ off?
 _____ having backup _____ our power loss prevention _____?
 Are _____ generators a wise _____ to _____?
 Is it worthwhile _____ alternative _____?
 Is _____ wise _____ have _____ in _____ power failure?
 _____ recommended for power suppliers to _____ in _____ in _____ avoid _____?
 _____ question _____ generators should be part _____ the strategy.
 _____ good _____ to avoiding _____ loss?
 _____ do you _____ about the _____ of _____?
 _____ regarding _____ of _____ power gear.

_____ think backup generators should _____ reduce risk _____ power _____?

_____ we _____ deal _____ power issues?

If _____ backup generators, _____ a wise move?

_____ an _____ for _____ power loss?

Is _____ generators _____ idea _____ outage _____.

_____ to _____ backup generators to _____ risks?

_____ think _____ generators _____ be added to reduce _____?

Can _____ me _____ getting a backup generator _____?

Should _____ backup generators _____ part of _____ outage _____?

Is the _____ generating unit _____ in our _____?

_____ generators _____ included _____ the _____ avoid power cuts?

Are backup _____ a _____ power _____?

Does _____ sense to _____ generators _____ prevention?

_____ backup _____ good way _____ reduce power _____?

Is backup _____ a _____?

Will _____ be a good investment _____ disruptions?

_____ it better _____ a generator _____ prevent _____ failures?

_____ a good idea to _____ backupGen _____ part _____ outage _____?

_____ think it's _____ good idea _____ a backup _____?

Is it _____ for _____ generators _____ against _____ problems?

_____ sense _____ include _____ generators for prevention?

_____ it _____ idea _____ backup generators to prevent power _____?

Should _____ be _____ to avoid _____?

_____ you think _____ appropriate _____ include generator investment in _____?

Would _____ be a good _____ include _____ in our outages _____?

There is a _____ about whether _____ of our _____.

_____ make _____ to prevent power _____?

_____ backup generators be a _____ power loss?

Is it _____ backup generators _____ outage strategy.

Is _____ a _____ to _____ power outages?

_____ you think buying a _____ generator _____?

It's _____ idea _____ invest _____ backup _____ for outage _____.

_____ it _____ plan _____ some generator action?

_____ important to _____ gensets _____ tackling outage?

_____ backup generator a _____ investment _____ emergencies?

Is _____ integrate _____ gensets _____ tackling outages?

_____ about using backups to avoid power _____?

Does investing in _____?

Is having _____ good _____?

_____ it _____ to _____ backup generators?

_____ Geners _____ for _____ reduction plans?

_____ generators _____ good choice _____ prevent power _____?

Is it _____ to invest _____?

_____ good investment _____ power failures?

Should _____ Gen _____ to stop _____?

_____ that adding backup _____ would _____ a good _____?

Is _____ have backups _____ outage-prevention _____?

_____ are your opinions _____ generators?

Is a _____ helpful to _____?

Will _____ efficient _____ to prevent power failures?

Are _____ good investment _____ power failures?

Do you _____ should _____ a _____ of _____ strategy?

_____ it _____ to include _____ outage prevention.

Is _____ generators _____ investment for _____ of _____ outages?

_____ to deploy supplemental _____ gear _____.

_____ it _____ good idea to _____ backup _____?

_____ it smart _____ generators in _____ outage plan?

_____ generators _____ the _____ of electricity failure?

_____ generators be used to _____ disruptions _____?

_____ backup generators an _____ way _____ avoiding _____ cuts?

_____ Gens _____ the money?

Is _____ to stop the _____ power failures _____ throwing _____ generators?

_____ get backup _____ supplies?

Is _____ more _____ to prevent grid _____?

Emergency generators _____ able _____ help against _____.

Is _____ wise to invest in _____ prevent _____?

Should backup generators _____ used _____?

_____ I use generators to _____ from _____?

_____ backup generators _____ failure?

_____ there a _____ way _____ power _____ than _____ investing _____ standby generators?

_____ invest _____ generators for power outage prevention?

_____ mean _____ spending on generator a _____ plan?

Does it _____ sense _____ generators in the _____ strategy?

_____ buying a _____ generator _____ issues?

_____ it _____ to add backup generators _____?

_____ be _____ in the outage prevention _____?

_____ backup _____ be _____ this strategy?

Is _____ a _____ idea _____ generators?

_____ a good idea _____ invest in _____ can _____ used in _____ failures?

Is backup generators a _____ future _____?

Does _____ make _____ to invest in backup _____ power _____?

Will _____ backup Generators _____?

_____ backup _____ part of the power _____ measures?

_____ backup generators _____ a _____ way to avoid _____?

Does it _____ invest in backup _____ for _____ against _____?

Adding _____ worthwhile _____ prevent grid failures?

_____ it _____ to have backups _____ outage strategy?

Is it _____ include _____ generators _____ outage strategy?

Is it wise to _____?

_____ really need backup _____ failures?

_____ generators _____ reduce impact of _____?

Do _____ think backup _____ are _____ strategy for _____?

Do _____ generators would _____ good investment?

_____ do you think about using _____ to _____?

Is _____ in backup _____ good _____ prevent _____ outs?

Should I _____ to _____ power failures at _____?

_____ about _____ should invest _____ backup _____.

_____ in backup _____ as part _____ our strategy _____ prevent _____ failures?

I _____ if backup generators are _____ strategy.

Is backup _____ investment _____ prevention?

Is _____ for us _____ have _____ generators _____ our power loss _____?

Can backup _____ be a _____ investment _____ prevent _____?

Should _____ in generators?

Should we have _____ when _____ power _____?

_____ it a good idea _____ buy _____ generators as _____ our _____?

_____ a _____ for reducing _____ failures?

Do _____ think generator _____ included _____ outage prevention strategy?

_____ help against _____ failures.

_____ you invest _____ backup _____ us?

Can backup _____ used _____ prevention?

Is _____ generators a _____ idea?

Is it _____ use backup _____ an _____ way _____ power cuts?

_____ resources to _____ gensets going to _____?

The electricity _____ impact _____ implementing backup generators.

_____ we _____ emergency Gen _____ save _____?

Is it a _____ to _____ backups _____ problems?

_____ suggested _____ invest in _____ in _____ to avoid outages?

_____ if we _____ generators as part of our _____ prevention measures.

_____ backups generators _____ outages?

Can we depend on _____ generator _____ when the _____ out?

_____ I _____ backup generators to protect _____?

_____ it a good _____ in back _____ generators?

Does it make sense _____ generators in _____ power _____?

We _____ backup generators _____ part of _____ prevention efforts.

Will installing _____ generators _____ failure _____?

Is _____ backup generators _____ failures?

_____ backup generators _____ to _____ power _____ prevention measures?

Should we _____?

_____ prudent to _____ generators to prevent future _____ disruptions?

Would _____ be a good _____ against outages?

Is it a good _____ to _____ investment _____ outage _____?

Shouldn't _____ in _____ power failures?

_____ buying backup _____ a _____?

_____ gensets recommended _____ measure against power _____?

Do you _____ it _____ wise to _____ investment _____ your outage _____?

Is _____ that backup generators be _____ in _____ prevention _____?

_____ backup _____ be invested _____ disruptions?

Do _____ backup _____ should _____ added to _____ risks of _____ power _____?

_____ generators helpful _____ breakdowns?

Is it _____ backup _____?

Is _____ generators _____ power _____ prevention?

_____ investment in outage prevention strategy.

_____ it make _____ to _____ backup _____ our outage _____?

Are backup _____ good _____ against _____?

Is it a _____ idea to _____ generator _____ power _____.

Will _____ generators _____ efficient _____ of _____ power cuts?

_____ backups _____ smart _____ prevent power _____?

_____ incorporating a generating unit _____ required during _____?

Do you _____ to include _____ investment _____ outage prevention strategy?

Asking for advice on how _____ power _____.

_____ we need to _____ generating unit _____ precautions?
 _____ backup _____ of our prevention _____?
 _____ backup _____ systems _____ mitigate the _____?
 _____ invest in backup generators _____ protect ourselves _____?
 Are _____ a _____ to prevent _____?
 Do _____ backup _____ should _____ of our plan _____ avoid power _____?
 _____ it a _____ strategy _____ invest _____?
 Is it worthwhile _____ invest _____ generators _____ disruptions?
 Are _____ generators _____ to _____ power failures?
 _____ backup _____ an efficient way _____ preventing power cuts?
 Emergency _____ can _____ prevent _____.
 _____ investing _____ power units _____ against _____?
 _____ you recommend _____ backup _____?
 _____ generators _____ with power _____ prevention?
 Should _____ protect _____ house from power failures?
 Is _____ generators _____ way _____ avoid power _____.
 _____ in backup generators _____ protection?
 _____ recommended _____ minimize _____ outages?
 Are _____ to keep _____ on?
 _____ it _____ to _____ backups in _____ of power _____?
 Emergency _____ should be _____ measures.
 _____ smart _____ backup generators?
 If _____ want _____ prevent _____ is _____ a good _____ to _____ in _____?
 Power _____ prevention depends _____ generators are _____ investment.
 _____ they _____ Gen sets?
 _____ it _____ it if you add _____?
 Should _____ use _____ protect the _____?
 _____ backup _____ help _____ the risk of a _____?
 Is _____ put backup generators _____ our outage _____?
 _____ it relevant _____ have _____?
 _____ a backup generator _____ investment _____ avoiding power _____?
 Is backup _____ of _____?
 Do we _____ sets?
 Is _____ that emergency _____ are essential _____ outages?
 Is _____ generator _____ to _____ power _____?
 Consider _____ power supply?
 Is _____ a _____ idea _____ to buy gensets.
 Is _____ wise _____ include _____ in your _____ prevention _____?
 Do you think _____ is a _____ preventing disruptions?
 _____ in _____ generators _____ power backups?
 Can _____ power failures?
 There is _____ to _____ generators _____ be _____ part of our _____.
 Do _____ backup generators can be _____ risks?
 _____ we need _____ electric _____ in _____ measures?
 Is _____ generators a good method _____?
 _____ it make _____ put _____ generators in place for _____?
 Is backup _____ a _____ power _____?
 Should _____ generators be _____ of our _____ prevent disruptions?
 _____ backup generators _____ for _____ power _____?
 Is _____ the _____ have backup _____?

Is _____ move _____ to invest in _____ generators?

Is _____ crucial for _____?

_____ think _____ makes sense _____ include backup generators _____ outage _____?

_____ possible _____ adding backup generator _____ could help _____ risks?

_____ backup generators recommended _____ minimize _____?

Is _____ generator a _____ idea _____ failures?

Should I _____ for _____?

_____ a _____ idea to _____ generators in our power _____ measures.

_____ a _____ generator _____ strategy?

Is _____ effective against _____ power failures?

Is it _____ idea _____ invest in _____ for _____ disruptions?

_____ need for backup _____ to _____ against _____ failures?

_____ to reduce power failures?

_____ smart to _____ backup generators for _____?

Is it wise to _____ in _____ prevent _____?

Are backups _____ power _____?

_____ plan include backup _____?

Should backup _____ be _____ outages?

Wouldn't _____ backup _____ smart?
