

[Demo] NLP Dataset for Customer Service Automation

Company Type	Mobile Network Operators
Inquiry Category	VoIP (Voice over IP) compatibility and setup
Inquiry Sub-Category	VoIP call quality issues
Description	Customers report poor call quality during VoIP calls, seeking troubleshooting assistance to identify and resolve the underlying causes, such as network congestion, packet loss, or low bandwidth.
Data Size	5,019 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Mobile Network Operator" customer inquiry. (Purchased data will not be masked.)

____ network ____ congestion, ____ call quality during ____ calls?
 ____ my ____ give ____ phone ____ inVoIP?
 ____ voice calls ____ quality if ____ network ____ crowded.
 ____ possible that ____ am experiencing ____ signals that affect ____ ?
 How ____ network congestion ____ quality on ____ ?
 Issues with the ____ voice overip ____ .
 ____ possible ____ I ____ having ____ making Voip calls?
 ____ network congestion and lousy call quality ____ VoIP?
 I'm ____ certain if my ____ is ____ to ____ my Voice ____ call ____ .
 Is ____ that I'm making less-than-good ____ ?
 connection ____ make ____ hard to ____ voice over internet ____ .
 ____ tell me ____ voic e ____ performance ____ affected by congested and ____ ?
 Is ____ causingVoIP call ____ ?
 There ____ bad calls ____ if ____ network ____ a ____ of traffic.
 Is the ____ quality ____ to network overloading or the ____ adequate ____ for voice ____ ?
 VoIP ____ quality ____ be ____ my ____ being too ____ .
 Is it ____ that ____ unable to ____ calls?
 Call ____ can be affected ____ when ____ a voice ____ .
 Is the bad ____ on ____ caused by ____ with ____ ?
 ____ congestion and bad ____ on VoiP.
 ____ there ____ connection ____ causes degraded ____ via voice ____ ?
 Network ____ and ____ VoIP ____ .
 Is ____ bad ____ caused by ____ issues with ____ network?
 ____ possible that I'm ____ to make ____ phone calls?
 ____ jacked up network ____ VoipCalls.
 Is ____ voice on VoiP ____ problems on the ____ ?
 ____ the poor quality of calls have to do with ____ overloading ____ over Internet ____ ?
 ____ does network congestion ____ ?

_____ with _____ internet Protocol talks, _____ that _____ I am _____ connections messing with?
 _____ causing _____ to _____ voice over _____ protocol conversations
 _____ that _____ less-than- good VoIP calls?
 Connection _____ up _____ over _____ conversations?
 _____ VoIP _____ because _____ network troubles?
 _____ issues _____ to messing _____ voice _____.
 Having _____ make _____ hard to make _____ over _____ calls.
 I'm concerned that _____ and _____ networks may _____ affecting _____ e _____.
 Is the poor _____ call _____ congestion?
 _____ congestion affects _____
 _____ may _____ the _____ for the bad voice _____.
 the connection _____ are _____ the voice _____
 Is it possible _____ I'm having _____ time _____ VoIP _____?
 _____ voice quality _____ bad or _____ network _____?
 Is _____ because of _____ or the _____ adequate _____ VoIP that _____ quality of _____ is _____?
 Is _____ problem that my _____ congested and I _____ good _____?
 Do you know _____ Voic _____ performance is _____ affected _____?
 Is _____ call clarity hampered _____?
 The network _____ voice quality is _____?
 _____ calls on _____ network _____ if my _____ has too _____ traffic.
 I _____ if I _____ congested _____ that impact VoIP _____?
 _____ it _____ that _____ making _____ than _____ Voip calls?
 Network issues _____ calls in _____ call category to _____.
 _____ poor _____ of calls have to do with _____ overloading _____ a _____ adequate _____ VoIP?
 _____ clarity impacted by network _____?
 Problems _____ connection are _____ voice over _____ protocol _____?
 Voice quality is _____ during talktime _____ is _____.
 _____ problems _____ to blame _____ the _____ voice on _____.
 _____ it congestion _____ over _____ Protocol to fall?
 _____ it possible _____ I'm _____ less-than _____ calls?
 _____ congestion _____ an effect _____ voice-call _____?
 _____ congested networks _____ be _____ my voics e _____
 _____ calls will occur _____ calls _____ my network _____ traffic.
 Network _____ congested _____ quality during _____
 How are _____ calls _____ by _____ jacked _____ network?
 Is _____ too much traffic _____ my _____ that results _____ voice _____?
 Are the _____ the network _____ reason _____ the _____ VoIP?
 _____ know if _____ Voic ECall _____ by congestion?
 _____ made _____ to _____ bad in the VoIP call _____.
 _____ have _____ quality if my network _____ much _____.
 _____ it _____ that _____ not having good _____?
 Network _____ have _____ bad _____ VoIP call category.
 Is _____ connection problem behind degraded _____ in _____?
 _____ is _____ the voice _____ is bad?
 _____ call _____ on _____ may _____ impacted by network _____.
 _____ possible that _____ having trouble _____ VoIP phone _____?
 _____ can be a result of heavy _____ the _____.
 _____ Voic eCall performance _____ affected by _____ networks' congestion?
 Can you tell _____ if _____ Voic _____ is _____ the _____ being _____?
 The _____ voice _____ because of _____ network troubles.

Connection _____ with _____ voice _____ talks
 Is _____ a problem that my _____ and the calls _____?
 _____ congestion _____ voice-call clarity _____?
 Voice _____ are _____ if my _____ has too _____.
 _____ wonder if the bad voice on VoiP _____.
 Network seems _____ causing _____ calls?
 Network _____ may _____ impacting _____ platforms.
 The _____ VoiP might have _____ with _____ troubles.
 There _____ a jacked _____ which is _____ awful _____.
 Is _____ or the _____ not good?
 The network _____ the voice _____ is bad _____ time?
 _____ issues messing _____ over _____ protocol talks, is _____ what _____ experiencing?
 _____ are _____ Voice over _____ Protocol conversations.
 Are the _____ the cause of _____ VoiP?
 _____ poor quality of the calls _____ do with network overloading _____ of _____ for _____?
 _____ issues messing with _____ internet _____ is what _____
 Is _____ voice _____ result of network problems?
 VoIP _____ by network congestion.
 The network is _____ and the _____ talktime
 _____ calls to be bad in the _____
 _____ call _____ may be _____ my network _____ too _____
 _____ issues _____ voice _____ internet _____ is what I amExperiencing
 Voice _____ over VoiP _____ not _____ good _____ the _____ busy.
 Connection problems _____ with _____ talks?
 _____ network congestion _____ with _____ clarity?
 Voice-call _____ can be _____ network _____.
 _____ messing _____ voice over _____ internet Protocol _____ talks?
 _____ the _____ on _____ come from _____ network issues?
 Is _____ that _____ congested signals that impact _____ negatively?
 The voice _____ have _____ quality, _____ network has _____ traffic.
 _____ are not _____ when my network has _____.
 _____ congestion, _____ quality _____ talktime?
 Is _____ that my network _____ congested _____ don't _____ right?
 _____ calls _____ quality _____ of congestion on _____ network.
 _____ networks _____ phone quality _____ theVoiP?
 _____ you know if network _____ affecting _____ performance?
 Do I have _____ traffic that _____ voice calls?
 Is _____ internet Protocol _____ by networking issues?
 Voice call problems _____ to _____ the _____
 Does _____ congestion affect _____ quality _____ calls?
 Is _____ on VoiP due _____ the _____ on _____ network?
 _____ voice over the internet _____?
 _____ with _____ over the _____ Protocol talks?
 _____ can be _____ congestion when on a voice _____.
 Talktime _____ quality is bad _____ congested.
 Is _____ related to network issues?
 _____ messing with voice over _____ is _____ it is
 _____ talks are _____ messed up by _____.
 Do you know _____ congestion is _____ performance?
 Low _____ voice calls can _____ network has too _____.

Do _____ if my Voic _____ performance _____ by the _____?
 _____ with _____ over _____ Protocol _____ is that _____ they are?
 _____ voics _____ call performance could _____ by slow and _____.
 _____ too _____ to _____ VoIP calls?
 Does my _____ traffic _____ leads to _____ calls?
 _____ your _____ problems the _____ the _____ voice on _____?
 Do _____ if _____ on _____ networks _____ my Voic ECall _____?
 VoIP call _____ compromised _____ crowded network.
 _____ disruptions in _____ over internet protocol conversations?
 Voip conversations _____ from _____ of _____.
 Is _____ network _____ crowded and _____ call quality _____?
 _____ giving me poor phone _____ theVoIP?
 Is _____ VoIP _____ quality _____ the _____?
 _____ messing with voice _____ Protocol.
 Is _____ heavy _____ that affect _____ clarity in _____ conversations?
 There _____ network issues that _____ be _____ reason _____.
 Is _____ voice _____ down to network _____?
 Network _____ calls _____ go _____ theVoIP sector.
 If _____ a lot _____ voice calls are _____.
 Voice _____ over _____ are _____ network _____ a lot _____ traffic.
 _____ if my _____ e call _____ affected by slow _____ networks.
 _____ issues _____ voice over internet _____
 _____ have a poor _____ my _____ lot of traffic.
 Bad _____ may _____ sound onVoIP _____.
 _____ I _____ congested _____ that impact VoIP calls negatively.
 I'm _____ if _____ networks _____ voics _____ call performance
 It _____ is congested and distorts _____ calls.
 Do I _____ too _____ my network that _____ voice _____?
 _____ problems _____ caused calls _____ go bad _____ the _____.
 Do _____ network _____ cause _____ voice _____ VoiP?
 The voice calls _____ if _____ has _____ much _____.
 _____ over-Internet _____ conversations _____ be choppy because of _____.
 _____ I'm having difficulties with _____ calls?
 The _____ problems may have _____ bad _____ on _____.
 _____ causing network _____ and _____ call quality _____ VoiP?
 Is it possible _____ congested _____ that impact _____ calls?
 _____ issues are messing with _____ voice overip _____.
 _____ with voice _____ internet protocol _____?
 _____ issues seem _____ up the voice overip _____.
 Is _____ network getting _____ much _____ that _____ to _____ voice _____?
 _____ it possible that _____ making _____ VoiP calls?
 Connection _____ messing _____ voice _____ talk, can't figure it _____.
 _____ network is _____ terrible _____ calls.
 _____ possible that I'm _____ calls?
 _____ the _____ have _____ do _____ network _____ or the lack _____ adequate connection _____ VoIP?
 _____ Voip _____ by _____ of heavy _____?
 There is _____ congestion _____ poor _____ quality _____.
 _____ if networking issues _____ disrupting _____ voice _____ internet _____ conversations.
 _____ poor _____ impairingVoIP calling _____?
 _____ bad VoiP voice _____ network _____?

The bad voice on _____ be due _____.
 Voice-call _____ is being _____ congestion.
 Voice over Internet _____ bad _____ congestion _____ my _____.
 Does my network have _____ that _____ not _____?
 Is the poor _____ of calls due _____ network _____ or _____ of _____ connection _____ protocol?
 _____ messing _____ over internetprotocol talks?
 _____ possible that my Voic ECall _____ is affected _____?
 _____ making _____ sound in _____ conversations.
 _____ make voice over internet protocol, orVoIP, talks _____.
 VoiP call _____ is _____ congestion _____ happening.
 _____ it possible _____ I'm experiencing a _____ myVoIP _____?
 Voice calls over the _____ if _____ network has _____.
 _____ up network is _____ terribleVoIP _____.
 The _____ overcrowded _____ the voice _____ bad?
 _____ wondering _____ congested _____ that impactVoIP _____ negatively.
 Connection issues messing _____ protocol is _____ what _____ are?
 Do you _____ if _____ congestion _____ affecting my _____ ECall _____?
 _____ issues cause _____ go _____ the VoIP call _____.
 _____ can be poor _____ my network _____ busy.
 _____ issues _____ be _____ poor call _____ on my _____.
 Network _____ and _____ awfulVoIP calls.
 Network issues have made _____ in _____ VoIP _____.
 _____ the _____ VoIP due to _____ network's problems?
 Network issues are _____ bad _____ VoIP call _____.
 There are poor _____ network _____ too much _____.
 _____ networks giving me _____ phone _____ theVoIP?
 Is the bad _____ due _____ network _____
 Is _____ call quality ruined _____ network _____?
 _____ congestion and _____ of _____ over _____ calls?
 Is _____ possible _____ I _____ good VoiP _____?
 _____ calls are not _____ good _____ has too _____ traffic.
 _____ the bad _____ VoIP because of _____ with the _____?
 _____ problem _____ network that causes _____ voice on VoiP?
 Voice over internet _____ calls may _____ choppy _____.
 _____ that what _____ with _____ over _____ Protocol is?
 Connection issues _____ with voice _____ internet _____ it?
 Connection _____ messing with voice _____ is that _____ it _____?
 _____ network _____ getting _____ bad voice _____.
 _____ issues _____ voice over _____ internet _____ talks, is _____ what _____?
 The crowded _____ affect _____ call _____.
 _____ problems _____ with voice over _____ Protocol, is _____ what _____?
 Connection _____ voice over internet _____ talks, is that _____?
 _____ network problems affecting _____ voice?
 _____ call _____ caused _____ network _____?
 Network _____ distortsVoIP _____?
 Network _____ calls?
 It _____ like _____ issues _____ messing up _____ over internet _____.
 Is theVoIP _____ quality being _____ being crowded?
 _____ voice over the internet _____ is that what it _____?
 Network issues _____ be _____ theVoIP _____ problems.

_____ it be _____ I'm experiencing _____ signals and _____ effecting _____?

_____ have made calls difficult _____ VoIP _____.

Is the bad voice _____ network problems?

Network _____ be _____ disruptions in _____ voice over _____ conversations.

Is _____ a _____ Network causing _____?

The bad voice _____ might be because _____ on _____.

congestion _____ affect call _____ a voice call

The _____ issues might _____ messing _____ overip talks.

The _____ voice on _____ might _____ due _____ the issues _____.

Is _____ to use the _____ because of _____?

Is _____ making _____ good VoiP _____?

_____ the quality _____ calls _____ or _____ it have to do _____ network _____ the _____ of _____ forVoIP?

_____ you _____ me if congested and slow _____ my _____ performance?

Is my voics e _____ performance _____ and _____?

Network congestion might be _____.

_____ congestion making _____ bad?

_____ there a _____ up Network _____?

_____ calls _____ VoIP are _____ as good _____ my _____ congested.

Connection _____ up _____ internet protocol _____?

Is theVoIP _____ by the network _____?

Is it _____ I'm making less-than _____ calls?

Is VoiP _____ because _____?

Connection issues _____ over internet protocol _____ is _____ experiencing

If the networks _____ know if _____ is affecting my _____?

_____ my Voic _____ affected by congested and _____?

Voice _____ the phone _____ good if _____ network has too _____.

_____ connection _____ cause degraded calling via VoIP _____?

_____ issues have _____ in the VoIP _____

_____ make voice _____ internet protocol, orVoIP, talk _____ of connection _____.

_____ congestion _____ lousy call quality _____ VoiP call _____.

_____ congested networks _____ my _____ e call performance.

Connection _____ messing _____ over the _____ Protocol, is _____ what _____?

_____ it the _____ VoiP _____ of the _____ issues?

_____ quality may _____ affected by _____ being _____ crowded.

It _____ lead to bad _____ calls _____ my network _____ too _____.

I _____ if the bad _____ VoiP _____ because _____ problems.

Is it _____ that _____ trouble _____?

The _____ voice _____ VoiP _____ be _____ your network _____.

The _____ VoIP calls _____ be _____ by _____ network.

_____ issues messing _____ internet _____ is _____ it is?

Voice calls may have _____ due _____ my network.

Do you think _____ voice _____ VoiP _____ with your network?

_____ causing disruptions in my _____ over internet protocol _____.

If _____ too much traffic, the _____ are _____.

Connection _____ voice over Internet _____ is that what _____?

_____ and _____ call quality on _____.

Voice _____ poor because of congestion _____ network.

_____ the _____ the network problems?

_____ if slow _____ congested networks _____ my Voics e _____.

It _____ having connection _____ that _____ voice over _____ protocol _____.

Connection _____ voice over _____?

Does _____ poor quality of _____ to do with _____ overload or the _____ of _____?

_____ call quality is _____ congestion _____ occurring.

Does _____ have too much _____ to voice calls _____ are _____?

_____ be _____ reason for VoIP _____ trouble.

_____ call _____ my _____ is caused by network _____.

Is _____ VoIP _____ issues with your network?

Bad calls _____ occur _____ network has too much _____.

Voice calls have _____ if _____ has a lot _____.

_____ voice _____ quality if _____ network gets _____ much traffic.

Do _____ think _____ bad _____ on _____ to _____ network issues?

_____ connection _____ messing with my voice _____ internet _____?

_____ voice _____ have poor _____ if _____ has _____ much traffic.

The _____ voice _____ because _____ network troubles.

Is _____ congested _____ voice quality _____?

_____ a _____ on _____ because of your network _____?

_____ would _____ to _____ if I am _____ signals that _____ VoIP _____.

Is _____ voice _____ VoIP _____ problems?

Network _____ what is causing the _____?

Do you know if _____ affecting my Voic _____?

_____ congestion _____ VoIP _____.

It _____ hard _____ make voice over _____ due to connection _____.

Is it _____ issues _____ VoIP _____?

_____ the _____ voice on VoiP _____ of _____

Voice quality at _____ the _____ is congested?

_____ causes of _____ and lousy _____ quality on VoiP?

_____ there a _____ problem with _____ calling _____ systems?

Network _____ possible _____ for VoIP _____ trouble.

_____ if _____ network is _____ ruin my _____ over internet Protocol call quality.

Poor _____ calls may _____ network.

_____ network _____ and _____ VoIP call quality _____ danger?

_____ possible _____ less-than desirable VoiP calls?

_____ may be _____ sound _____ calls

Voice overip _____ seem _____ be _____ by _____.

Connection _____ with voice _____ internet _____ is that?

_____ over _____ result if my network _____ too _____ traffic.

_____ can be _____ by network _____.

Is it possible _____ I'm not _____ call?

_____ the bad _____ VoIP due _____ your _____ issues?

Connection issues _____ with voice _____ is _____ it is?

Is _____ network _____ and distorts _____?

_____ voice _____ be _____ periods of heavy congestion.

_____ on the _____ may cause _____ on VoiP.

_____ calls might be bad because _____ my _____.

_____ issues _____ causing problems _____ calls.

_____ there a connection problem behind _____ systems?

Is _____ messing with voice _____ the internet _____?

Do _____ quality _____ calls have to _____ overloading or the _____ connection for _____ or both?

The _____ congested or _____ voice quality _____?

Connection issues messing _____ voice _____ is _____ it is?

How _____ congestion and lousy call _____ ?

_____ you know _____ congestion is affecting _____ performance?

Connection _____ with _____ internet _____ talk?

_____ is a _____ awful VoipCalls.

_____ issues seem to _____ messing _____ overip talks.

Network _____ affecting voice _____ clarity _____ platforms.

_____ are _____ to be _____ in theVoIP call _____.

_____ bad voice on _____ be _____ result _____ troubles.

Is it _____ problem _____ is _____ and my calls _____ sound _____ ?

_____ are _____ issues _____ with voice _____ internet Protocol _____.

There is a _____ up Network, _____ is _____ Voice _____ Protocol calls?

_____ crowded _____ affect the quality of my voice _____.

Network _____ the _____ call issues.

Network _____ calls to be bad _____ world.

Is that _____ messing _____ over internet _____ ?

My voices _____ performance _____ be affected by _____ congested _____.

Connection issues messing _____ internet _____ talks.

_____ may _____ why the bad _____ on VoiP.

_____ problems _____ with _____ over _____ is that what they _____ ?

_____ issues have _____ to _____ bad _____ call category.

Bad _____ over _____ from _____ network if it _____ much traffic.

_____ issues can _____ problems.

Does _____ congestion _____ clarity in _____ ?

Could you _____ me if _____ are _____ voic ecall performance?

_____ is _____ jacked up network, _____ the cause _____ calls?

Network _____ the _____ the _____ voice on VoiP.

Is _____ I'm having trouble _____ VoIP _____ ?

Network issues have _____ calls _____ bad _____ call _____.

_____ calls have _____ quality _____ is _____ on my network.

_____ there a _____ voice on VoiP _____ issues?

Problems with _____ network _____ the reason _____ voice on _____.

Is the _____ network _____ or the lack of _____ connection for _____ ?

Is there _____ voice _____ VoIP because _____ with your _____ ?

_____ there _____ bad _____ because of problems on _____ network?

Is network _____ affecting _____ VOIP calls?

Connection issues make it difficult to _____ over _____.

Network problems _____ be the _____ voice _____ VoIP.

_____ it possible _____ I _____ having a _____ time _____ calls?

_____ messing with _____ overip talk.

Network congestion _____ poor _____ VoIP, what _____ happening?

_____ issues _____ with voice over internet _____ talks?

I _____ wondering if my _____ VoIP _____ quality.

Network _____ may lead _____ the _____ on _____.

Network congestion and lousy call _____.

_____ is congested _____ distorts _____ ?

_____ VoIP _____ can be caused _____ jacked up _____.

_____ voice _____ be due to issues with _____ network.

Voice calls are having _____ heavy _____ on _____.

_____ may _____ blame for _____ voice on VoiP.

Is the _____ network overload or _____ lack of adequate _____ VoIP?

Network _____ caused calls to be _____ theVoIP _____.
 _____ VoIP due _____ network problems.
 _____ ruining the VoIP call _____ being crowded?
 _____ eCall performance _____ network congestion?
 _____ network _____ and that _____ call quality is in _____?
 I'm _____ voics e _____ performance _____ being _____ slow _____ congested networks.
 _____ is _____ the network _____ congested?
 _____ over the internet Protocol, _____ what I amExperiencing?
 _____ a _____ problem behind poor calling via _____?
 _____ and causing terribleVoIP calls.
 Is _____ that I'm _____ poor VoiP _____?
 slow and _____ are affecting _____ e _____ performance.
 _____ voice over _____ conversations _____ because _____ networking issues?
 _____ there _____ degraded calling via VoIP systems?
 _____ messing with voice over the _____ is _____?
 Does _____ network have _____ to cause _____ voice _____?
 _____ don't sound _____ Is _____ a _____ my network _____ congested?
 Is there _____ degraded calling _____ VoIP systems?
 _____ quality of _____ with network overloading _____ lack of adequate connection _____?
 The connection issues _____ conversations.
 Network _____ calls in the _____ call _____ to go _____.
 Does the _____ have a lot _____ that _____ quality voice _____?
 Is _____ possible _____ I'm having _____ with myVoIP _____?
 _____ issues _____ with _____ the internet _____ talks, _____ what _____ am currently having _____ with?
 _____ internet _____ conversations may be _____ because _____ network.
 There _____ caused by the _____ network.
 poor VoIP _____ caused _____ congested _____.
 _____ is impacting _____ call _____.
 _____ with your network _____ be _____ cause of the _____.
 The _____ does _____ have to do with _____ overloading _____ lack of _____ connection for VoIP?
 Is Voice-Call _____ congestion?
 _____ impacting voice _____ clarity
 _____ congestion _____ causes _____ drop in voice _____ Internet _____?
 _____ possible that networking _____ in my _____ internet protocol conversations?
 Network problems may _____ bad _____ on _____.
 The _____ voice _____ VoiP _____ related to _____ troubles.
 _____ there _____ much _____ in my network _____ low-quality _____ calls?
 _____ voics e _____ performance may _____ hampered _____ congested networks.
 _____ my voice _____ internet _____ conversations interrupted by _____?
 _____ network _____ too _____ traffic, does it _____ in _____ quality _____ calls?
 _____ on VoiP _____ be due to _____ problems.
 I wonder _____ congested _____ and _____ effecting _____ calls.
 _____ voice _____ not _____ if _____ network _____ too busy.
 _____ clarity _____ impacted by network _____.
 Is _____ or _____ quality terrible?
 Network _____ be _____ call clarity.
 _____ it _____ that _____ lousy VoiP _____ calls?
 _____ don't sound great and _____ network _____ congested, _____ problem?
 _____ up _____ over calls?
 Call _____ can _____ affected _____ congestion _____ you are _____ voice calls.

_____ network is _____ jammed _____ the _____ quality _____ bad?

Voice calls _____ have good _____ if my _____ has _____.

The bad voice on _____ to problems _____.

The connection _____ voice overip _____.

_____ call _____ arise _____ of _____ traffic on the _____

_____ connection problems _____ messing with _____ overip talks.

_____ it _____ problem _____ my network is _____ and _____ calls don't _____?

Slow _____ can affect _____ voics _____ calls performance.

_____ if _____ and congested networks affect _____ call performance.

Slow _____ networks _____ affecting _____ e call performance.

_____ that I have _____ VoiP _____?

Do you _____ that the poor quality of _____ is due _____ of _____ forVoIP?

_____ know _____ Voic _____ is impacted by network _____?

Is it _____ that I _____ experiencing poor _____?

Connection _____ with _____ over _____ that _____ I am experiencing?

Is _____ VoiP voice _____ the _____ issues?

Is _____ possible _____ having _____ making _____ calls?

_____ made calls in _____ call category _____.

I am _____ if _____ congested _____ are affecting _____ Voics _____ performance.

Voice calls have low _____ if _____ lot _____ traffic.

The _____ is _____ the _____ quality is _____?

_____ the quality of calls _____ it _____ do _____ network _____ or the lack of _____ for VoIP?

When you are _____ a voice call, is _____ can _____ quality?

Is _____ bad voice on VoiP _____ with your _____?

Connection _____ with _____ Protocol talks

The _____ overcrowded, _____ quality is bad?

_____ voice _____ during _____ or the network is _____.

_____ the _____ voice _____ VoiP _____ to your _____?

_____ the bad _____ of the issues with _____ network?

The network _____ making it hard _____ use _____ calls.

_____ network congestion and lousy call _____?

_____ ruining _____ VoiP _____ quality if _____ network is _____?

Do you _____ the Voic ECall _____ is _____ network _____?

_____ possible that I'm _____ issues _____ my VoiP _____?

Network _____ calls?

Is it _____ is congested and the _____ sound good?

Do periods _____ voice clarity _____ Voip conversations?

The bad voice _____ is _____ to _____.

_____ issues _____ cause _____ bad _____ on _____.

_____ not sure _____ network _____ been too _____ my Voice _____ call quality.

The _____ calls _____ jacked _____ network.

_____ clarity being affected by _____?

It is possible _____ bad _____ choppy _____ conversations.

the network is _____ there _____ voice _____

Is the _____ bad because _____ the network _____?

The _____ seem to be _____ due to _____.

Network problems _____ be why _____ bad _____ is _____.

_____ calls have _____ my network carries _____ traffic.

_____ the _____ to _____ for poorVoIP _____?

Is the _____ voice on _____ network troubles?

Is my _____ internet protocol conversations _____?

Is _____ bad voice _____ due _____ with the _____?

_____ clarity may _____ impacted _____ network _____.

_____ issues _____ voice _____ talks difficult.

Network _____ lousy call quality _____ are _____ this.

_____ there _____ behind _____ calling via VoIP systems?

Do the poor _____ have _____ do _____ network _____ the lack of adequate _____ over _____ protocol?

Connection _____ over Internet Protocol _____?

Is there _____ with _____ over IP _____?

_____ network is busy _____ is lousy?

Is there _____ connection _____ behind _____ calling in _____?

Connection issues messing _____ protocol _____?

Is _____ am _____ less-than _____ VoIP phone calls?

Bad calls over voice _____ will _____ has _____ lot of _____.

_____ Voice over Internet Protocol _____ quality.

Voice calls have _____ if _____ of traffic.

_____ have poor _____ due to _____ on _____ network.

Network _____ be _____ reason for VoIP _____.

Network _____ might be _____ clarity.

_____ may affect the _____ on _____.

It seems that _____ issues are _____ overip _____

_____ network _____ disrupting _____ clarity?

_____ think the bad _____ VoIP is because _____ problems?

_____ was wondering if _____ was _____ that I _____ experiencing _____ signals _____ calls.

slow _____ congested networks _____ affect _____ e call _____.

_____ bad _____ VoIP may _____ because _____ network problems.

_____ my network _____ my voice calls are not _____.

Is _____ jammed _____ it's _____ the VoIP calls?

_____ voice _____ VoIP _____ be _____ of the network _____.

Is voice call _____ congestion?

The voice quality _____ not good _____ network _____?

_____ due to network troubles?

_____ the poor _____ calls have to _____ network overloading _____ of adequate connection for _____?

Do you know if _____ affected _____ congestion on the _____?

Voice over internet _____ calls may be _____ network.

The _____ VoIP is due _____ the _____ problems.

Connection issues _____ with _____ Protocol _____ is _____ what _____ are?

_____ calls _____ have low quality if _____ network _____ busy.

_____ lousy _____ quality _____ VoIP is related _____ congestion.

_____ congested, _____ calls.

Bad _____ may _____ sound _____ calls

_____ if I _____ experiencing congested signals _____ VoIP _____ negatively.

_____ know connection _____ are messing _____ internet protocol talks?

_____ calls can have _____ quality if _____ network _____ traffic.

The voice _____ my network has _____ lot _____ traffic.

Is _____ the VoIP _____ quality?

Voice _____ affected by network _____.

Is there _____ issues _____ with _____ over _____?

Connection problems messing _____ over internet _____ is _____ is?

Is _____ bad _____ on VoIP because _____ problems with _____?

Connection _____ with _____ over _____ protocol?
 During VoIP _____ net _____ congested.
 _____ jacked _____ is the cause _____ awful _____ calls?
 Is it _____ that I'm _____ than good _____?
 Is there _____ that _____ degraded _____ via _____ systems?
 _____ it possible _____ I'm _____ pleasant VoIP _____?
 Network _____ have caused _____ go to be _____ VoIP call _____.
 Do _____ know _____ the _____ performance _____ affected by _____ network?
 Voip _____ might be _____ by _____ heavy _____.
 _____ the poor quality _____ result of network overloading _____ the lack of _____ for voice _____?
 I _____ if _____ call performance _____ being affected _____ slow _____ congested _____.
 _____ my network _____ much _____ causes low-quality _____ calls?
 Does the _____ of _____ have _____ do _____ overload or lack of _____ for _____?
 _____ the _____ quality of calls _____ to _____ or the lack of adequate _____ internet protocol?
 _____ seems jacked _____ it causing the _____ calls?
 Connection _____ voice _____ Protocol is that what _____ am having?
 Bad voice _____ VoIP _____ to _____?
 _____ with voice over _____ protocol _____ can't figure it _____
 _____ connection _____ VoIP _____ experience?
 Bad calls over _____ if my network _____ much _____.
 Network issues _____ calls _____ the VoIP sector _____ go _____.
 _____ quality on my _____ is _____ by network _____.
 Voice call _____ on the _____
 _____ congested _____ may be _____ voices e _____ performance
 Is _____ overloading or the _____ of adequate _____ for VoIP _____ quality of _____ is _____?
 _____ have too much traffic _____ my network _____ in _____ calls?
 _____ might _____ poor _____ to congestion on _____ network.
 _____ clarity can _____ impacted _____ congestion
 The _____ jacked _____ and there are _____.
 Is _____ I _____ making less-than- _____ VoIP calls?
 _____ network is congested _____ the quality _____ bad?
 Connection _____ messing _____ voice over _____ that _____ I am having?
 Is there a _____ degraded calling _____?
 Making _____ calls sound bad _____ hitting _____.
 _____ calls _____ voice _____ internet protocol _____ network _____ too much traffic.
 Connection _____ the _____ internetProtocol talks?
 _____ know _____ network is crowded enough to _____ my Voice _____ internetProtocol _____.
 _____ there a possibility that _____ VoIP calls?
 _____ with voice over _____ internet protocol talks, _____ it is?
 _____ the network jammed and _____ it _____ VoIP _____?
 Is it _____ that my network _____ congested _____ calls _____?
 _____ seem _____ be causing problems _____ overip talks.
 _____ wonder _____ I am _____ that impact VoIP calls _____.
 _____ calls _____ poor quality if _____ has _____ many _____.
 Network jammed _____ voice _____ during _____
 Network issues _____ caused calls _____ the VoIP _____.
 Voice-call _____ may _____ by _____ congestion
 _____ the voice _____ bad during talktime _____ network _____?
 _____ not _____ if _____ amExperiencing congested _____ that _____ VoIP _____ negatively.
 The _____ voice _____ be _____ of the _____ troubles.

Network issues _____ calls to _____ the _____ category
 _____ traffic is affecting _____

If _____ voice _____ is affected _____ slow _____ I am _____.

Is it possible _____ connection _____ are _____ up _____ protocol?
 _____ is congested or _____ voice quality _____ not _____?

I _____ congested _____ are affecting my voice call _____.

Network _____ jacked up, _____ is _____ terrible VoIP _____?

Network congestion _____ VoIP _____.

Network _____ are making calls _____ sector.

Network congestion _____ Internet _____ (VoIP) _____?

Is it _____ that _____ congested and calls _____ sound _____?

Network congestion impacts _____.

_____ hard _____ make _____ over internet _____ talks because _____ issues.

A jacked _____ Network _____ horrible _____.

_____ it _____ I am _____ a _____ with my VoIP calls?

Is _____ my voice over the _____ Protocol talks?
 _____ possible that I'm _____ trouble with _____?

_____ my networks give _____ phone _____ the VoIP?

_____ my networks _____ giving me _____ phone quality _____ the VoIP.

_____ the _____ voice on VoIP related _____?

Network congestion _____ voice-call _____.

_____ up, what is the cause of _____?

Is _____ for poor VoIP calls?

The _____ on VoIP is due _____ network _____.

Is _____ problem of my _____ being _____ and _____ sounding _____?

Can it _____ making less _____ VoIP calls?
 _____ issues _____ calls _____ be _____ in the _____ sector
 _____ with _____ over the _____ Protocol talks _____ that what it _____?
 _____ network _____ much traffic the voice _____ bad.
 _____ network _____ be causing _____ conversations
 _____ is a jacked _____ is _____ terrible VoIP calls?

In _____ have made calls bad.

What is Connection _____ messing _____ over _____ internet _____?

Is _____ affected by _____?

Is it _____ issues that _____ calls to _____ the _____?
 _____ the voice on _____ bad _____ to _____?
 _____ issues have _____ the calls _____ in _____ call _____.
 _____ voice calls on _____ have low _____ if I _____ traffic.
 _____ voice caused by network _____?

Is it _____ I'm _____ problems _____ VoIP _____?

The voice _____ quality _____ network has _____ of traffic.

Network _____ VoIP call _____

_____ a connection _____ behind _____ calling via _____ VoIP _____?

_____ my network can _____ poor call quality _____.

_____ not sure if _____ been _____ enough to ruin my Voice _____.

Voice calls _____ a _____ quality if _____ gets too _____.

Is _____ bad _____ on VoIP _____ network _____?

There _____ network _____ and lousy call _____.

Network _____ poor call _____ are _____ VoIP.

network issues _____ disrupting _____ voice _____ internet _____

Voice calls _____ not be _____ good because _____ on _____.
