

[Demo] NLP Dataset for Customer Service Automation

Company Type	Cable and Satellite TV Providers
Inquiry Category	Signal and reception troubleshooting
Inquiry Sub-Category	Signal drop during recordings
Description	Customers may seek troubleshooting assistance when their satellite or cable signal drops during recordings, resulting in incomplete or disrupted programs. This category involves reviewing the setup, checking for software/firmware updates, and advising on best practices for uninterrupted recordings.
Data Size	5,026 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Cable and Satellite TV Provider" customer inquiry. (Purchased data will not be masked.)

How can _____ recordings _____ signal drops _____ the program?
 _____ should I do if _____ to be lost during _____?
 What can _____ do _____ ensure _____ if _____ is _____ dropping?
 If _____ signal dies, _____ program _____?
 Is _____ possible _____ guarantee _____ even _____ signal loss?
 When _____ happens _____ a _____ can _____ do _____ make continuous recordings?
 _____ is a _____ what _____ I do _____ continuous recordings.
