

[Demo] NLP Dataset for Customer Service Automation

Company Type	Auto Repair and Maintenance Shops
Inquiry Category	Check engine light is on
Inquiry Sub-Category	Ignition System Failures
Description	Inquiries concerning the check engine light illuminating due to problems within the vehicle's ignition system, including issues with the spark plugs, ignition coils, or distributor.
Data Size	5,061 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Auto Repair and Maintenance Shop" customer inquiry. (Purchased data will not be masked.)

____ a ____ or faulty ____ Sensor cause Check ____ light ____ ?
____ Check Engine ____ could ____ triggered ____ a ____ Crankshaft position ____ .
The ____ engine light ____ Crankshaft ____ sensor is ____ .
____ sensor cause the check engine light to ____ ?
The ____ light ____ by a malfunctioning Crankshaft Position ____ .
A check engine ____ triggered by a bad ____ .
____ light illuminates if the ____ is faulty.
____ a ____ position sensor malfunction and cause ____ ?
Does the ____ light illuminate ____ Crankshaft Position ____ is ____ ?
Is it ____ that a ____ Position Sensor ____ cause ____ to ____ ?
____ check ____ light ____ by ____ malfunctioning Crankshaft position Sensor.
Does ____ light ____ because of a failed ____ Position Sensor?
Check ____ light ____ on after a ____ crankshaft ____ .
____ alert may ____ due to faulty ____ .
____ Check ____ light ____ activated by ____ Crankshaft Position Sensor.
Is ____ Crankshaft Position Sensor could cause a ____ light?
____ malfunctioning crankshaft ____ cause ____ check engine ____ come on?
Does an engine ____ come ____ after a Crankshaft ____ ?
____ there be a ____ engine ____ of ____ broken ____ position ____ ?
____ warning ____ be ____ by ____ crankshaft sensor.
____ check engine light ____ if ____ crankshaft position ____ working?
A failed ____ position ____ illuminate ____ engine light.
Can a ____ crankshaft position sensor ____ engine ____ to ____ ?
____ check engine ____ be caused by ____ sensor.
____ that ____ Check Engine ____ come on because ____ bad Crankshaft ____ ?
____ check engine light ____ to be ____ by a ____ crankshaft ____ ?
____ my check engine light ____ on ____ isn't functioning properly?
I wonder ____ is ____ of shimmy or borked CrankPositionSensor ____ ?

_____ sensor _____ engine alert?
 _____ a malfunctioning _____ position sensor light _____ warning _____?
 Does _____ sensor _____ the engine _____ when malfunctioning?
 Does an engine _____ on after _____ crank _____ sensor _____?
 _____ the engine _____ light come _____ position sensor fails?
 Can _____ damaged or _____ crank position _____ an _____ check engine _____?
 Can the _____ Engine _____ be _____ a _____ Crankshaft _____ Sensor?
 Check _____ warning _____ be triggered _____ a _____ sensor.
 If _____ is a failed _____ does _____ check engine _____ occur?
 Can an engine check _____ faulty _____ Position Sensor?
 Can _____ damaged _____ up a check engine _____?
 _____ engine _____ related to _____ Crankshaft position Sensor?
 The check engine _____ will come _____ faulty _____ position sensor _____.
 Can a _____ Crankshaft _____ cause an _____ check _____ in _____ car?
 Is _____ a failed Crankshaft Position Sensor _____ cause an _____ Engine _____ in _____?
 _____ check engine light be _____ by _____ Crankshaft position _____?
 _____ the Check Engine _____ be triggered by _____ position _____?
 Does an _____ come _____ after a _____ crankshaft _____ sensor?
 _____ a failed _____ shaft _____ sensor cause _____ engine _____ to _____ on?
 The _____ shine could _____ result of the _____ failing.
 The _____ engine indicator may _____ by flawed _____.
 _____ come about _____ a failed crankshaft sensor?
 _____ faulty crankshaft sensor _____ Check Engine _____?
 Does _____ engine check light _____ on _____ your _____ sensor is _____?
 Does the check _____ warning _____ position sensor?
 Can a _____ crank _____ light _____ engine _____?
 Will _____ come _____ because _____ a faulty crankshaft position _____?
 _____ the check engine _____ will _____ triggered _____ a malfunctioning Crankshaft position _____?
 _____ the Check Engine light _____ due _____ a _____ Crankshaft _____?
 _____ it _____ that _____ failed _____ Sensor could cause _____ Engine sign _____ my car?
 Will _____ engine light turn _____ the crankshaft position _____ is _____?
 _____ crappy _____ position Sensor have to _____ that stupid _____ light?
 _____ position sensor cause a _____ engine light?
 _____ cause _____ check engine light to go on?
 _____ a _____ indicator be _____ by a _____ crank _____?
 _____ Check _____ turning on may have _____ to do with _____ Crankshaft _____.
 Check _____ could be _____ by a failed _____.
 _____ Check _____ be triggered by failed crankshaft _____.
 The Check Engine _____ triggered _____ a flawed _____.
 _____ there's a _____ Crankshaft _____ sensor, does _____ engine _____ engine _____ on?
 _____ Crankshaft position _____ can cause _____ check _____ light _____ light up.
 _____ engine _____ light come _____ the Crankshaft _____ sensor is broken?
 Is _____ for _____ Position _____ to fail _____ cause an illuminated _____ Engine _____?
 _____ a _____ Crankshaft Position _____ cause the _____ to light _____?
 _____ faulty Crankshaft _____ sensor _____ theCheck engine light _____ illuminate.
 _____ light come on _____ Position Sensor is impaired?
 _____ check engine _____ triggered by _____ broken crank _____?
 _____ check _____ light go _____ if the _____ position sensor _____?
 The check _____ light _____ when _____ crankshaft position _____ present.
 _____ indicator can light up if _____ a faulty Crankshaft _____.

____ a ____ crank ____ an engine ____ to ____ off?
 ____ possible that the ____ engine ____ be triggered by a ____ crank ____ ?
 Does an engine ____ light ____ happen if ____ a ____ Crankshaft ____ ?
 The ____ might be ____ by a ____ faulty crankshaft ____ sensor.
 Does ____ engine ____ light occur ____ there is a ____ position ____ ?
 ____ the check engine ____ will be ____ by ____ malfunctioning Crankshaft ____ ?
 ____ a bad ____ have to do ____ Check ____ light?
 ____ the Crankshaft Position Sensor ____ Check Engine light to ____ ?
 ____ an ____ sensor ____ the light?
 ____ it ____ a ____ Crankshaft ____ sensor ____ cause ____ illuminated ____ sign in my car?
 Will ____ engine ____ if ____ crankshaft position sensor ____ functioning properly?
 Does an engine ____ up after a ____ or ____ crankshaft ____ ?
 Does ____ engine check light ____ on ____ crankshaft ____ fails?
 Is ____ that a malfunctioning ____ Position ____ could ____ a Check ____ to ____ ?
 Will ____ check engine light ____ if ____ crankshaft ____ is ____ ?
 ____ broken ____ sensor capable of triggering ____ engine ____ ?
 ____ failed Crankshaft position ____ cause an ____ Check ____ sign ____ my ____ ?
 Can the check ____ on ____ the crank sensor ____ ?
 ____ causes ____ engine light.
 ____ the check ____ light be ____ by ____ sensor?
 Can ____ Check Engine ____ triggered ____ bad Crankshaft position ____ ?
 ____ check ____ illuminated due to ____ crank ____ ?
 The Check ____ by ____ faulty crankshaft position sensor.
 ____ a ____ Position Sensor ____ of the check ____ light ____ ?
 Does a broken ____ up the ____ ?
 Can an unreliable ____ illuminate ____ ?
 ____ it ____ electrical light could be triggered ____ a ____ Crankshaft ____ Sensor?
 Does ____ faulty ____ Position Sensor ____ check ____ light ____ up?
 ____ engine light ____ if my crankshaft ____ sensor is ____ ?
 ____ engine light ____ crank sensor?
 Does a faulty Crankshaft position sensor ____ to ____ ?
 ____ engine ____ might ____ if the crankshaft ____ is malfunctioning.
 ____ Check ____ indicator ____ light ____ if a faulty ____ position ____ is ____ .
 ____ or malfunctioning ____ illuminate the engine warning?
 Can ____ crank position ____ cause the check ____ emblem ____ ?
 ____ an ____ light ____ on if the crankshaft ____ sensor ____ ?
 ____ a failed Crankshaft position ____ Engine light to ____ ?
 Is a ____ crank sensor ____ cause of ____ ?
 Does an ____ light occur after ____ or ____ crank ____ sensor?
 ____ there an ____ check ____ if there ____ a ____ or ____ crank shaft ____ ?
 Does an engine ____ on ____ faulty ____ Sensor?
 The ____ illuminates ____ the Crankshaft position ____ broken.
 The check engine light ____ caused ____ a ____ or ____ crankshaft ____ .
 The check engine ____ if ____ crankshaft ____ sensor is ____ .
 ____ a ____ sensor turn on the Check ____ ?
 Does ____ or failed Crankshaft Position Sensor cause ____ engine ____ ?
 ____ check engine light illuminates if the ____ .
 ____ engine ____ if the crank ____ is ____ up.
 Will a ____ light ____ off ____ position sensor is ____ ?
 Can a failure of ____ crank ____ sensor ____ ?

____ check engine light turn on ____ sensor isn't ____ effectively?
 ____ faulty ____ malfunctioning crankshaft ____ sensor illuminate the ____ engine ____?
 ____ check engine ____ by a malfunctioning crank ____ sensor?
 ____ the ____ warning happen ____ of the failed ____?
 Does an engine ____ engine light ____ sensor is malfunctioning?
 Can ____ faulty ____ position sensor cause ____ light ____ come ____?
 ____ engine light go on if my ____ sensor isn't ____?
 The Check ____ light ____ triggered ____ a bad Crankshaft ____.
 The ____ may ____ caused by a ____ up crank ____.
 Does ____ failed ____ sensor cause the check ____ to ____?
 Is the ____ engine ____ by ____ broken crankshaft ____ sensor?
 ____ Check Engine light may be ____ a ____ faulty ____ position ____.
 Does ____ engine ____ light happen ____ there is ____ failed crankshaft ____?
 ____ crank position ____ able ____ illuminate an active check ____?
 If there is ____ position ____ does ____ engine check ____ light ____?
 ____ an engine check ____ if ____ position sensor isn't ____?
 Does an ____ show ____ after ____ faulty Crankshaft ____ sensor?
 Does an engine ____ light ____ or ____ a crank shaft ____?
 ____ it likely ____ the check ____ will be ____ malfunctioning Crankshaft ____ sensor?
 ____ it possible ____ Crankshaft position sensor ____ light ____?
 ____ Engine light be triggered ____ a malfunctioning ____ Position ____?
 Can ____ faulty ____ cause ____ engine ____ to come ____?
 Is it possible ____ position sensor ____ an illuminated Check ____ sign ____ my ____?
 ____ crankshaft position ____ cause ____ check engine light ____ on?
 ____ Check ____ can be ____ by a deficient ____ sensor.
 Is the check ____ light ____ be triggered by ____?
 The check engine light ____ by a ____ position ____.
 I ____ Crankshaft Position Sensor causes ____ Check ____ indicator ____ up.
 Does an engine check ____ after a ____ position ____?
 Check Engine ____ bad ____?
 Does ____ Check Engine ____ turn ____ of a bad ____?
 The Check Engine ____ be triggered ____ malfunctioning ____ position ____.
 ____ the ____ light ____ Crankshaft ____ Sensor is impaired?
 ____ engine check light ____ on ____ is ____ failed crank ____ sensor?
 Can ____ Engine light ____ activated ____ faulty ____ Position Sensor?
 Is ____ eng ____ up ____ of shimmy ____ CrankPositionSensor ____?
 Is ____ possible for ____ malfunctioning Crankshaft ____ Sensor ____ come on?
 The check ____ light ____ be triggered by a ____.
 Can ____ sensor emit a ____?
 The ____ illuminates when the Crankshaft position ____ or ____.
 ____ possible ____ signal might glow if theCPS ____.
 Can a ____ Crankshaft ____ sensor ____ the check engine ____?
 ____ or ____ crank position ____ light up ____ check ____ emblem?
 ____ theCheck ____ faulty crankshaft sensor?
 Can ____ failure of a ____ cause ____ engine caution ____?
 ____ check engine light be triggered ____ a faulty ____?
 ____ the check ____ light come ____ if ____ is ____ faulty ____ sensor?
 Does a ____ malfunctioning ____ shaft position ____ engine ____ light?
 Does the Check Engine light ____ Crankshaft ____ is ____?
 Does a faulty ____ sensor cause ____ indicator ____ up?

Does ____ engine check ____ light happen ____ Sensor ____ malfunctioning?
 ____ check ____ light ____ when ____ crankshaft position sensor ____ malfunctioning?

Does the ____ engine ____ on when ____ crankshaft position ____?
 ____ engine check ____ light ____ on if ____ position sensor ____ not ____?

Does ____ Crankshaft position ____ have to do ____ that ____ light?
 Can ____ position sensor malfunctioning cause an ____ check ____?
 ____ an ____ sensor illuminate a light ____?
 ____ engine light ____ my crankshaft position sensor isn't ____ properly?
 ____ a ____ Position ____ the check engine ____ turn on?
 ____ the check engine light ____ because of a ____ sensor?
 ____ the ____ turn on if the crankshaft ____ sensor ____?

Does the ____ light come ____ crankshaft position sensor ____?
 The check ____ light ____ triggered ____ a broken ____ position ____.
 ____ position sensor ____ cause ____ check engine light to ____.
 ____ engine ____ may ____ activated by a ____ Position Sensor.
 ____ a faulty Crankshaft ____ Sensor to ____ for the ____?

The check engine ____ will illuminate ____ sensor ____ malfunctioning.
 Can a damaged ____ help illuminate ____ active ____ emblem?
 Can a ____ engine ____ triggered by ____ crankshaft position ____?
 ____ a ____ or faulty ____ position ____ a ____ engine ____ to illuminate?
 ____ a damaged crank position ____ an ____ engine ____?
 ____ be caused by a failed Crankshaft position ____.
 ____ check ____ light light happen if a Crankshaft ____ missing?
 ____ faulty ____ cause the check ____ indicator to ____ up?

Does ____ Sensor cause a check engine ____ to ____?
 ____ a ____ position sensor could cause a Check Engine ____ car?
 ____ a failed ____ malfunctioning ____ position ____ an engine check ____ to ____?

A ____ or faulty Crankshaft ____ sensor can cause ____ check ____.
 ____ an ____ check engine light come on if ____ Crankshaft ____?

Is it ____ that ____ failed Crankshaft ____ cause an illuminated ____?
 Maybe ____ check ____ be activated ____ a malfunctioning Crankshaft ____.
 The ____ Engine ____ might ____ something to ____ a bad Crankshaft position ____.
 ____ possible that an ____ caution ____ is ____ a ____ crank ____ sensor?

Is it possible ____ a ____ Crankshaft position Sensor ____ check ____ car?
 Does ____ check ____ light ____ because ____ failed Crankshaft ____ Sensor?
 Can ____ or ____ position sensor ____ a ____ engine ____ light up?
 Does the Check Engine ____ happen ____ of ____?

There ____ engine ____ the ____ sensor is malfunctioning.
 Is ____ Eng ____ because ____ the shimmy ____ CrankPositionSensor code?
 Does an ____ Crankshaft ____ light the ____?
 The ____ indicator might be ____ by ____ flawed ____.
 ____ check engine light that ____ a failed ____ faulty ____ sensor.

Does a ____ have ____ to ____ the ____ Check Engine light ____ on?
 Can an engine ____ light come on ____ a ____?
 ____ the Check ____ indicator light up if ____ a ____ Sensor?
 ____ the check engine ____ on if ____ crankshaft ____ isn't ____ right?

If there ____ a ____ position sensor, does an engine ____?
 Can a failed ____ light ____ an ____?
 Does an engine ____ light ____ if ____ a ____ Sensor?
 Is the ____ to ____ on ____ crankshaft position sensor ____ malfunctioning?

Can _____ crankshaft position sensor _____ illuminated Check _____ in my _____?

_____ likely that the _____ engine light _____ by a malfunctioning _____ sensor?

_____ it _____ that a malfunctioning _____ Position Sensor could _____ Engineering _____ flash?

A _____ Crankshaft position _____ engine _____ engine light to come _____.

_____ an engine check engine _____ come _____ position sensor _____ failed?

_____ the _____ turn on if the _____ sensor isn't _____ correctly?

Is _____ shimmy or borked CrankPositionSensor code?

A _____ engine _____ will _____ on _____ my _____ sensor _____ malfunctioning.

Does an engine _____ show _____ if _____ a _____ Sensor?

Does an _____ after a _____ or malfunctioning crank _____ position _____?

_____ it possible for a _____ Sensor _____ up?

Does _____ check _____ light turn on if _____ crankshaft _____ working _____?

Has _____ Engine _____ caused by _____ crankshaft sensor?

Can a broken _____ sensor light _____?

_____ engine indicator _____ on by a _____ crank sensor?

_____ check engine light come _____ if _____ a _____ position sensor?

Can a failed Crankshaft _____ sensor _____ illuminated check _____ in _____?

_____ an ineffective _____ damaged _____ position _____ capable of _____ an _____ check _____?

Is _____ check engine light probably _____ malfunctioning _____ Position _____?

Does _____ engine _____ come on _____ a _____ crankshaft position Sensor?

_____ engine light _____ triggered _____ a messed-up _____ sensor.

Can an _____ caution _____ light _____ is a failed crank _____?

The Check _____ can light _____ to _____ position sensor.

_____ engine _____ Engine _____ happen _____ there is a failed _____ position _____?

The check _____ illuminates when _____ position _____ is _____.

_____ check engine light happen _____ the Crankshaft _____ Sensor _____?

_____ a faulty crankshaft _____ cause an _____ light to _____?

_____ a _____ Crank _____ illuminate _____ light?

Did _____ Crankshaft _____ Sensor cause the check _____ to illuminate?

The Check _____ indicator _____ by _____ flawed crank _____.

_____ a bad _____ Position Sensor cause a _____?

_____ a broken _____ position _____ engine light?

_____ stupid _____ Engine _____ come _____ because _____ a bad _____ Position Sensor?

_____ engine _____ light come _____ problem with a Crankshaft?

Does _____ check engine _____ light _____ to a _____ position _____?

_____ check _____ may come on if a _____ sensor is _____.

Does _____ Crankshaft _____ Sensor have _____ do _____ that stupid _____ engine _____?

_____ a broken crankshaft _____ sensor cause _____ illuminate?

_____ Check _____ turning _____ due _____ a crappy Crankshaft _____ Sensor?

Does _____ the Crankshaft _____ check engine light to illuminate?

The check _____ could be _____ by a _____ sensor.

_____ engine _____ light _____ after an malfunctioning _____ shaft position _____?

_____ possible for a malfunctioning Crankshaft position _____ cause _____ light _____?

Can _____ malfunctioning _____ a light?

_____ a damaged crank position _____ active check engine _____ up?

_____ an _____ caution _____ be lit up _____ a malfunctioning _____?

Is _____ that the _____ engine _____ will _____ activated _____ malfunctioning _____ Position Sensor?

Can an unreliable _____ Sensor _____?

_____ an engine check _____ come on after _____ crank _____?

Does an _____ check light _____ a failed _____ position sensor?

____ check ____ indicator activated by ____ crank ____?
 Can ____ engine ____ triggered by ____ bad crankshaft ____ sensor.
 A ____ light illuminates because of ____ failed ____ sensor.
 If ____ a ____ position sensor, ____ engine check light ____?
 Is it possible ____ an illuminated ____ failed Crankshaft ____ Sensor?
 ____ bad ____ position sensor cause that ____ check ____ to turn ____?
 Can ____ faulty crankshaft position ____ cause ____ light ____ flash?
 Can a ____ sensor ____ as ____ check engine ____?
 Does a ____ position ____ engine ____ light to ____ up?
 ____ a poor ____ have to do ____ the ____ Engine ____ on?
 The ____ light can ____ triggered by ____ Crankshaft position ____.
 ____ Crankshaft ____ Sensor cause the ____ light to illuminate?
 Does the check ____ warning illuminate if ____ faulty?
 ____ an engine ____ engine ____ failed Crankshaft position sensor ____ found?
 Will ____ sensor light up ____ engine?
 ____ the ____ engine light come ____ there's a faulty ____?
 ____ a ____ Crankshaft position Sensor cause a Check ____?
 Does ____ light come on ____ a ____ Crankshaft position ____?
 Check ____ light may be ____ by ____ crank ____.
 the check ____ light ____ if ____ crankshaft position ____ is ____
 Can a malfunctioning ____ position ____ an engine ____?
 The ____ might be related to a ____ Crankshaft ____.
 Does it make ____ for ____ to cause an illuminated Check ____?
 Does the ____ engine ____ come ____ the ____ position ____ is malfunctioning?
 Does an engine check ____ if the ____ shaft ____ is ____?
 Is check ____ light caused ____ failed ____ crankshaft ____ sensor?
 Can a ____ crank sensor ____ the ____ engine ____?
 ____ an engine ____ engine light happen ____ a ____ sensor ____?
 Is there ____ check engine ____ if ____ bad crankshaft ____?
 ____ the engine ____ come on ____ an ____ Position ____?
 A ____ of the ____ sensor ____ light shine.
 ____ it likely ____ the ____ light will ____ triggered by a ____ Position ____?
 ____ engine light ____ there's a bad ____ position sensor.
 ____ the ____ cause ____ check engine ____?
 I wonder ____ Check ____ is ____ up ____ to shimmy ____ CrankPositionSensor ____.
 Will ____ turn ____ the crankshaft position sensor ____ working?
 Does the ____ engine warning ____ position sensor?
 ____ engine check light come ____ after ____ shaft position ____ malfunctioning?
 Check ____ could be caused ____ a ____ crank ____.
 ____ check engine warning ____ crankshaft sensor?
 The ____ may be triggered by ____ malfunctioning ____ Sensor.
 ____ it possible for ____ crankshaft ____ sensor ____ cause ____ illuminated ____ engine ____ in my ____?
 Can the ____ indicator ____ by flawed ____ sensor?
 ____ an ____ check light come ____ your ____ shaft position ____ malfunctioning?
 ____ the ____ engine warning lights up ____ the ____ position ____?
 Does ____ failing ____ crankshaft position sensor ____ the ____?
 Can a ____ sensor light ____ an ____?
 ____ engine ____ be activated by flawed ____ sensor?
 The ____ engine ____ could be ____ by ____ bad ____ position ____.
 ____ a broken ____ position sensor cause ____ light ____ go ____?

_____ faulty _____ to _____ for Check _____ alert?

_____ faulty crankshaft _____ could _____ check _____ to come on.

_____ engine _____ by a _____ crank _____.

_____ _____ light likely to be activated _____ the _____ Position _____ is _____?

_____ _____ come on, _____ the crankshaft position sensor is _____?

_____ the _____ when the crankshaft position sensor _____ malfunctioning?

_____ the check engine _____ by faulty crankshaft _____?

_____ it _____ failed Crankshaft position Sensor _____ cause an illuminated _____ sign _____ car?

The check engine _____ can _____ triggered _____ crankshaft position _____.

Does an _____ check _____ if there's a _____ position _____?

_____ a faulty _____ Position _____ illuminate _____?

Is _____ engine check light _____ after _____ position _____?

Is check _____ faulty crankshaft _____?

_____ engine _____ illuminates due _____ a _____ or _____ Crankshaft _____ sensor.

Does an _____ check _____ if a _____ is malfunctioning?

Does _____ engine check _____ after _____ crank shaft position _____?

Does the _____ illuminate when _____ crankshaft position _____ is _____?

_____ crank _____ kick in _____ engine light?

_____ an _____ light _____ you _____ a failed or malfunctioning _____ shaft _____ sensor?

If there's _____ position sensor, _____ an _____ check light _____?

The check engine _____ on _____ the crankshaft position _____.

Can _____ damaged _____ crank _____ sensor _____ check engine emblem?

_____ check _____ light could _____ triggered _____ a _____ sensor.

Does a _____ of _____ position _____ cause the _____ Engine light _____?

_____ there is _____ failed _____ does an _____ check light _____?

_____ an _____ check _____ light _____ there's a failure _____ Crankshaft _____ sensor?

Does the Check _____ indicator _____ up _____ is _____ Crankshaft position _____?

Is that stupid Check _____ a crappy _____ sensor?

A _____ light _____ on if a _____ position _____ is _____.

_____ a _____ or unsuccessful _____ sensor _____ engine warning?

_____ a broken crank sensor _____?

Is _____ check engine _____ because of _____ crankshaft _____ sensor?

The check _____ up if the crankshaft _____ faulty.

_____ a failed _____ faulty _____ position _____ cause _____ check engine _____ to _____?

_____ a crankshaft _____ a check _____ warning?

Is _____ for _____ failure _____ the _____ sensor _____ cause an illuminated check _____?

Will my check _____ my crankshaft position _____ malfunctioning?

_____ check _____ light will _____ if a faulty _____ position _____ found.

Can _____ faulty _____ position _____ the Check _____ to go _____?

_____ engine illuminated _____ of bad _____.

Is it possible _____ the Crankshaft position Sensor _____ cause a _____?

_____ an engine _____ come _____ if _____ is a _____ shaft?

The lit-up _____ related to the _____ position _____.

The Crank Position Sensor _____ and _____ light _____.

Can _____ engine _____ a bad crankshaft position Sensor?

_____ the light _____ if the _____ fails?

Will _____ position _____ check engine light to _____ on?

Does _____ engine _____ light _____ on _____ crankshaft sensor?

_____ a problem with the crankshaft _____ check _____ light to _____?

_____ failed Crankshaft _____ could _____ engine _____ engine light to _____ up.

The ____ engine light illuminates if the ____ position _____.
 Is it ____ to cause ____ illuminated ____ sign ____ a failed ____?
 ____ Crankshaft ____ sensor cause an ____ engine light ____ go on?
 ____ the ____ check light ____ on ____ a malfunctioning ____ sensor?
 ____ Crank ____ Sensor able ____ illuminate a light?
 ____ light ____ triggered by a Crankshaft position ____?
 ____ engine ____ caused ____ faulty crankshaft ____?
 Does ____ engine check ____ go ____ failed Crankshaft position sensor?
 Can ____ damaged ____ crank position ____ an illuminating check engine ____?
 ____ the check ____ light ____ if ____ crankshaft position ____ isn't ____ well?
 ____ check ____ light could ____ by ____ or faulty ____ Position Sensor.
 Does an engine ____ on when ____ is ____?
 ____ crank ____ sensor ____ to an ____ check engine emblem?
 ____ a bad ____ the cause ____ the ____ engine light ____ on?
 ____ alert due to a faulty ____ sensor?
 Can the check engine light ____ by a ____?
 ____ the check engine light to be ____ by ____ Crankshaft Position ____?
 Does ____ engine checklight come ____ failed crank ____ position ____?
 Is it ____ for a ____ Position Sensor ____ check ____ sign?
 ____ Crank ____ Sensor illuminate ____ light?
 The ____ indicator ____ activated by a ____ crank ____.
 Can ____ crank position sensor ____ a ____ emblem?
 Will the ____ engine light ____ on ____ I ____ my ____ position ____?
 ____ the check ____ light up ____ a ____ crankshaft ____ sensor?
 Does an engine check ____ light ____ a Crankshaft ____ sensor ____?
 Is the ____ light turned ____ due to ____ bad ____?
 ____ Engine light turns on ____ bad crankshaft ____ sensor.
 ____ possible ____ Crankshaft Position ____ to cause a ____ to turn ____?
 Does an ____ check light ____ after a ____ Sensor?
 ____ a ____ the ____ engine ____ will be ____ a malfunctioning Crankshaft position ____?
 There ____ check ____ light that ____ when the Crankshaft ____ is ____.
 The Check Engine ____ be triggered ____ malfunctioning ____ Position ____.
 Can the ____ be activated by ____ faulty ____ sensor?
 Does the ____ Engine ____ result ____ a ____ sensor?
 Does ____ come ____ after a crank shaft ____ sensor ____?
 A ____ position sensor can ____ an ____ light ____ illuminate.
 ____ a bad Crankshaft ____ have to ____ with ____ check engine ____ turning ____?
 ____ for a failed Crankshaft ____ Sensor to ____ an illuminated ____ Engine ____?
 ____ a ____ crankshaft position ____ cause a ____ light ____ illuminate?
 ____ engine ____ illuminate due to ____ impaired crankshaft ____?
 Does the check ____ failed or malfunctioning crankshaft ____?
 Does ____ unsuccessful ____ position sensor ____ check engine warning?
 Can ____ or damaged ____ position sensor illuminate ____ check ____?
 ____ an engine checklight come ____ a ____ or ____ position ____?
 ____ a damaged or ineffective ____ sensor ____ engine emblem?
 ____ an ____ or malfunctioning crank position ____ active ____ engine ____?
 ____ a ____ crank ____ up the ____ indicator?
 ____ an engine check light ____ there is ____ failed ____?
 Is ____ check ____ light ____ activated by ____ faulty Crankshaft Position ____?
 Can ____ crank ____ engine light?

The ____ Engine light can ____ ____ ____ ____ faulty Crankshaft ____ sensor.
 ____ ____ Check Engine ____ ____ to ____ faulty crankshaft ____ sensor?
 ____ ____ Engine indicator lights ____ if ____ Crankshaft ____ Sensor ____ faulty.
 ____ a crappy ____ Position Sensor have ____ ____ ____ ____ Check Engine light ____ on?
 I wonder ____ check ____ ____ lit up ____ ____ shimmy or borked ____ ____.
 ____ Engine ____ can ____ caused ____ faulty crankshaft ____.
 ____ ____ engine alert result ____ ____ crankshaft sensor?
 ____ ____ ____ light come ____ after the ____ ____ shaft position sensor?
 ____ the ____ engine ____ ____ because of ____ bad ____ sensor?
 The ____ ____ light might ____ triggered ____ a malfunctioning crankshaft ____ ____.
 Can ____ ____ ____ sensor cause ____ engine ____ to illuminate?
 Does the ____ engine ____ ____ from the failed ____ malfunctioning ____ ____ ____?
 ____ the ____ ____ indicator light up if ____ Crankshaft ____ ____ is ____?
 Check engine ____ illuminates because of ____ ____ ____ ____.
 ____ ____ ____ come on ____ ____ an impaired Crankshaft Position Sensor?
 Can ____ ____ Engine ____ ____ triggered ____ a bad ____ position sensor?
 Can a malfunctioning crank ____ ____ ____ illuminating ____ engine ____?
 The check ____ indicator ____ ____ caused by a ____ ____ position ____.
 ____ ____ ____ by Bad crank ____?
 ____ failed or faulty ____ ____ causes the check ____ ____ to light ____.
 Does ____ failed ____ faulty ____ position sensor ____ ____ check ____ light to ____?
 Does ____ ____ check ____ go on ____ ____ a failed Crankshaft ____ ____?
 The check engine ____ is on ____ ____ Crankshaft ____ ____ malfunctioning.
 ____ ____ ____ light come on if the ____ ____ sensor ____ impaired?
 Does an engine ____ engine ____ ____ there is ____ ____ of ____ Crankshaft ____ sensor?
 The ____ Engine warning ____ ____ ____ by a ____ crankshaft ____.
 A ____ or malfunctioning ____ ____ sensor can cause ____ ____ light ____ illuminate.
 A check ____ light illuminates ____ the ____ ____ is ____.
 ____ the ____ light ____ on if the Crankshaft ____ Sensor ____ ____?
 ____ a ____ Engine ____ ____ ____ by a bad Crankshaft ____ Sensor?
 ____ Engine ____ turns ____ because of a ____ ____ ____ sensor?
 ____ ____ ____ ____ turn ____ if ____ crankshaft position sensor ____ not working properly?
 Is it possible that a ____ ____ ____ ____ can ____ an ____ engine ____?
 ____ ____ ____ check light ____ on ____ a failed ____ malfunctioning ____ shaft position ____?
 Messed-up ____ sensor causes ____ ____?
 ____ ____ possible for ____ broken crankshaft ____ sensor to light ____ ____ ____?
 ____ engine ____ illuminates if ____ ____ position ____ is malfunctioning.
 Will ____ engine light come ____ ____ ____ a ____ ____ sensor?
 Does ____ engine ____ light happen if ____ a failed ____ ____ ____?
 Does ____ failed Crankshaft Position ____ ____ ____ engine check engine ____ to ____ ____?
 ____ an engine ____ ____ ____ if your crank ____ position sensor ____?
 ____ ____ engine ____ engine light happen if ____ ____ position ____ isn't ____?
 ____ that stupid ____ Engine light ____ ____ a bad ____ ____ sensor?
 Is ____ ____ for a failure ____ ____ ____ position ____ to ____ an ____ Check Engine ____?
 ____ a crank position sensor ____ ____ ____ up ____ engine?
 Is ____ ____ that ____ ____ Crankshaft position sensor can ____ an illuminated Check ____ sign ____ ____ ____?
 ____ ____ ____ engine light be triggered by a ____ ____ ____?
 ____ the check ____ ____ ____ be activated by ____ malfunctioning ____ position Sensor?
 Can ____ ____ ____ light ____ ____ ____ by a faulty crankshaft position ____?
 If there's a failed ____ ____ ____ can ____ ____ ____ engine light ____?

Does a malfunction _____ crankshaft _____ sensor _____ engine warning?
 _____ a _____ crank position sensor _____ in an _____ check _____?
 _____ the engine light illuminated by _____ impaired _____?
 The check _____ will _____ on if _____ crankshaft _____ is _____.
 _____ the _____ light likely to be _____ by a _____ Crankshaft _____?
 _____ an engine check _____ on if _____ is faulty?
 Does a malfunctioning _____ cause a check _____ light _____?
 Has the _____ sensor _____ the _____ warning?
 The _____ engine indicator _____ caused by _____ faulty _____ position _____.
 The _____ engine _____ may _____ a faulty _____ position sensor.
 The _____ indicator can _____ activated by faulty _____.
 _____ the check engine _____ if _____ crankshaft _____ is malfunctioning?
 A _____ sensor malfunction _____ a _____ light.
 Can _____ engine caution sign _____ up by _____ crank _____?
 Does _____ check _____ on after _____ or _____ shaft position sensor?
 _____ the Check _____ light _____ because _____ a bad _____ position _____?
 Does _____ on _____ the _____ Position Sensor is bad?
 Why _____ the Check _____ light turn _____ bad _____ position sensor?
 The Crank _____ could _____ and _____ light shine.
 _____ for a _____ crankshaft _____ sensor to _____ on _____ light?
 Is _____ possible that a damaged _____ can _____ an _____ check _____ emblem?
 _____ Check Engine warning _____ triggered _____ failed crankshaft _____.
 _____ the _____ check light show _____ after a _____ crank _____?
 Is it _____ a _____ crankshaft _____ cause _____ check electrical _____ to flash?
 _____ a broken _____ sensor alert _____ check _____?
 Can _____ position sensor _____ up the _____?
 _____ a failed _____ Sensor _____ illuminated check _____ sign?
 Can an _____ sign _____ lit _____ broken _____ position sensor?
 Does a malfunctioning _____ position _____ a check _____ warning?
 _____ Engine _____ on if a bad crankshaft _____ is _____.
 Does a flawed crank _____ indicator?
 Is _____ for _____ failed _____ to cause _____ check engine sign?
 If the _____ Position _____ does an _____ light happen?
 The _____ engine _____ illuminates if _____ failed or faulty _____ found.
 _____ the check engine light turn _____ the _____ malfunctioning?
 _____ the _____ engine warning come _____ a _____ sensor?
 _____ a lousy _____ Position Sensor have _____ the Check _____ on?
 A broken _____ position sensor _____ up _____.
 A Check Engine _____ triggered _____ a _____ Crankshaft _____ Sensor.
 _____ check _____ light _____ on with a _____ crankshaft position _____?
 _____ is a check _____ is a messed-up crank _____.
 _____ Check Engine _____ could _____ caused by _____ position Sensor.
 Can the _____ be _____ by a _____ Crankshaft Position _____?
 _____ a _____ crankshaft _____ cause a check engine _____?
 _____ a _____ Crankshaft _____ sensor _____ a _____ Engine _____ in _____ car?
 Does a _____ or faulty Crankshaft _____ cause a _____ to _____?
 _____ engine light illuminates _____ a _____ Crankshaft _____ sensor.
 Check _____ engine light is _____ by a _____.
 Does _____ malfunctioning _____ Sensor cause _____ check engine _____ to _____?
 _____ engine check _____ if there's _____ failed crankshaft _____ sensor?

_____ failed Crankshaft _____ cause an _____ Check _____ sign?
 Is _____ engine indicator triggered _____ a _____ sensor?
 Does a failed _____ position sensor _____ Check _____ light _____ illuminate?
 Does _____ light come _____ a faulty _____ position sensor?
 _____ the check engine _____ crankshaft position sensor _____ functioning correctly?
 _____ an _____ light happen _____ Crankshaft position Sensor _____ malfunctioning?
 _____ the check _____ light be on _____ a _____ crankshaft _____?
 Is _____ possible that _____ Sensor could cause an illuminated _____?
 Will _____ engine light turn _____ if _____ position sensor _____?
 Does the _____ Engine _____ of _____ crankshaft sensor?
 _____ sensor cause _____ check engine warning?
 Does the stupid _____ light turn _____ of a _____ position _____?
 Check _____ light can _____ triggered _____ a broken _____.
 Does _____ engine _____ up due _____ a _____ position Sensor?
 Does an engine check _____ come _____ Crankshaft _____ Sensor?
 The _____ light might _____ triggered by a _____ Crankshaft _____.
 _____ crankshaft _____ sensor _____ anything _____ the Check Engine light turning on?
 _____ unsuccessful or flawed _____ position sensor _____ engine _____?
 A _____ a Crankshaft position _____ is malfunctioning.
 _____ crank position _____ light a check _____ emblem?
 _____ a _____ crank sensor _____ engine?
 _____ alert _____ be _____ by faulty crankshaft _____.
 _____ a way for a _____ Crankshaft _____ light to flash?
 _____ the _____ light be _____ crankshaft position _____ is malfunctioning?
 _____ it _____ for a _____ position _____ to cause _____ illuminated check engine _____?
 _____ failed _____ sensor cause an _____ Engine sign in my _____?
 _____ crank position _____ malfunctioning lead _____ an illuminating _____ emblem?
 A _____ sensor _____ a _____ engine _____.
 _____ there a chance _____ malfunctioning _____ will light up _____ engine?
 Can _____ crank position _____ lead _____ an illumination of _____ engine _____?
 _____ engine light _____ triggered by _____ crank shaft position _____.
 Does _____ faulty _____ Crankshaft _____ Sensor cause _____ check _____ light _____ illuminate?
 _____ light _____ because of a _____ or _____ sensor
 Will _____ faulty _____ sensor _____ the check _____ go on?
 _____ or _____ Crankshaft position _____ causes _____ engine _____ to illuminate.
 Does the Check _____ light up _____ crankshaft position _____?
 _____ come on _____ a broken crankshaft position sensor?
 _____ the _____ light go on _____ the _____ sensor is _____?
 The Check Engine _____ there is _____ faulty Crankshaft _____.
 I would like _____ if it _____ for a _____ Crankshaft _____ up.
 Is there a way _____ failed _____ to cause _____ check engine _____?
 Is _____ Check Engine _____ failed crankshaft _____?
 _____ engine _____ on when a crank _____ position sensor _____ malfunctioning?
 Has _____ check engine _____ been triggered _____ sensor?
 _____ is the _____ light _____ is a bad crankshaft _____ sensor?
 _____ faulty Crankshaft Position Sensor cause _____ illuminate?
 The check engine light _____ a bad _____ Sensor.
 Can _____ engine _____ light due _____ crank position sensor?
 _____ Crankshaft _____ cause the _____ engine light to _____ on?
 Can _____ malfunctioning _____ damaged _____ position _____ lead _____ an _____ check engine _____?

Will ____ engine ____ turn on if my ____ sensor ____?

Does an engine light ____ after a ____ shaft ____?

Does ____ or ____ crankshaft position sensor cause ____ illuminate?

____ a failing Crankshaft position ____ cause ____ to ____?

____ the ____ come ____ a ____ or unsuccessful crankshaft position ____?

____ the ____ light ____ when the ____ position sensor ____ not good?

The ____ Engine ____ caused by a failed or faulty ____.

Does an engine ____ on after a flawed ____?

Has the ____ engine ____ a failed or faulty crankshaft ____?

The Check Engine ____ can ____ triggered ____ a ____ Position ____.

Is ____ check ____ by ____ faulty ____ shaft position sensor?

Will a ____ position sensor ____ come on?

____ check eng ____ up ____ of ____ or ____ position sensor?

____ check engine ____ a failed ____ faulty Crankshaft Position ____?

____ check ____ light ____ when ____ is a failed or ____ sensor.

____ a faulty crankshaft ____ capable ____ check engine light?

____ position sensor cause the ____ engine ____ to illuminate?

Is ____ bad ____ sensor the ____ the ____ light turns ____?

Does ____ light ____ if a ____ Crankshaft Position ____ is ____?

____ Check Engine light ____ triggered by ____ Crankshaft position ____?

____ caused by a ____ Crankshaft position Sensor?

Will the check ____ light go ____ if ____ crankshaft ____ sensor ____?

____ engine light can ____ activated ____ malfunctioning ____ Position Sensor.

Will ____ check engine ____ turn on if my ____?

Does a ____ an engine check engine ____ light up?

Does ____ engine ____ because of an ____ position Sensor?

____ the Check ____ light due to a ____ or ____?

Does ____ check engine warning ____ the crankshaft ____ malfunctioning?

Check engine light ____ because of ____ Crankshaft position ____.

Does an ____ turn ____ after ____ or faulty crankshaft position ____?

____ crankshaft ____ sensor is ____ the ____ light turn on?

____ an ____ check ____ come ____ if ____ a failed or faulty ____ position ____?

____ engine light could be ____ up ____ sensor.

Is ____ way for ____ Position ____ to ____ a ____ come on?

Does ____ Crankshaft position sensor have to do ____ on?

Check engine ____ turns ____ position sensor is ____.

Does ____ Engine light ____ on ____ to ____ crappy Crankshaft ____ Sensor?

____ check ____ light could ____ by ____ messed up ____ sensor.

____ is ____ to ____ activated ____ a malfunctioning Crankshaft position Sensor.

____ a ____ Crankshaft ____ sensor cause ____ check ____ light to ____?

____ there ____ a failed ____ an ____ check light happen?

Does a crappy ____ Sensor have to ____ that ____ check ____?

Is ____ Engine indicator ____ a ____ crankshaft position ____?

____ engine ____ activated by a ____ crank sensor.

A check engine light ____ triggered by ____ position ____.

____ engine light caused by an ____ crankshaft ____?

____ an ____ engine light happen ____ a Crankshaft ____ failed?

____ wonder ____ CheckEng is ____ up ____ of ____ or borked ____.

____ engine ____ come ____ failing crankshaft position sensor?

____ Engine ____ can ____ by ____ bad ____ Position Sensor.

The Check ____ light may ____ by ____ Crankshaft position ____.
 ____ the ____ my crankshaft position sensor isn't working correct?
 ____ a ____ Crankshaft ____ Sensor ____ to do with the ____ light turning ____?
 Is ____ possible for ____ a light to come on?
 Can ____ crank ____ cause a ____ light?
 Is ____ a malfunctioning Crankshaft ____ to ____ a light to ____?
 Can ____ Check Engine light ____ a malfunctioning ____ sensor?
 Do you think the ____ light will ____ on ____ my ____ is ____?
 ____ there ____ for a malfunctioning ____ position sensor ____ to flash?
 ____ an ____ check ____ on when the ____ shaft ____ is ____?
 ____ sensor cause a check engine ____?
 Do ____ if ____ eng ____ lit up by ____ or borked ____?
 ____ engine light ____ be triggered ____ up crank ____.
 ____ check engine ____ from a ____ crankshaft sensor?
 Does ____ stupid Check Engine ____ turn ____ Crankshaft position Sensor?
 Does ____ engine ____ the crankshaft position ____ fails?
 Does the ____ warning ____ if ____ crankshaft position ____ is ____?
 Can ____ unreliable ____ light ____ the light?
 ____ check ____ be activated by a ____ Position Sensor.
 Can a ____ Sensor cause the Check Engine ____?
 The check ____ could possibly ____ activated by a ____.
 Did that ____ Check Engine light turn ____ Crankshaft position ____?
 Will ____ check ____ come ____ of a faulty ____ position ____.
 ____ faulty ____ Position Sensor make the ____ indicator light ____?
 Can a broke ____ sensor ____?
 The check ____ indicator could ____ by ____ faulty ____ position ____.
 ____ the check engine light turn on ____ crankshaft ____ correctly?
 ____ Engine alert ____ be caused ____ sensor.
 ____ faulty Crankshaft ____ the ____ engine light to light ____?
 ____ the ____ check ____ if the Crankshaft position Sensor ____?
 ____ a malfunctioning Crankshaft Position ____ a ____ Engine ____ to ____?
 Did ____ Engine ____ a faulty Crankshaft position sensor?
 Is ____ possible for ____ Crankshaft position sensor ____ Engine sign ____ my ____?
 ____ the engine check ____ on ____ there's ____ Crankshaft position ____?
 ____ malfunctioning crank position sensor illuminate ____ check engine ____?
 Does a ____ sensor turn ____ Check ____ indicator?
 ____ Check ____ can light up if ____ Crankshaft ____ is involved.
 ____ failed ____ position ____ does ____ engine check ____ come on?
 Does the check ____ come ____ the crank ____ malfunctioning?
 ____ malfunctioning crank position sensor cause ____ illuminating ____ emblem?
 The check engine ____ be activated by ____.
 Is a ____ position sensor the reason ____ engine ____?
 ____ an ____ light after a faulty ____ position ____?
 Can ____ Position Sensor ____ Check Engine sign?
 Can the ____ engine ____ go on ____ sensor ____ malfunctioning?
 Does ____ come ____ because of an impaired ____ sensor?
 Does a ____ Crankshaft ____ have ____ with ____ check engine light ____ on?
 The check engine ____ triggered ____ bad crankshaft ____ sensor.
 ____ check engine ____ illuminates ____ a ____ faulty ____ position sensor.
 ____ check engine ____ could be caused ____ position sensor.

Does a malfunctioning _____ sensor light _____ warning?

The _____ engine _____ be caused _____ a _____ faulty Crankshaft _____ sensor.

Does the _____ Engine _____ illuminate _____ the _____ Position Sensor _____?

_____ the _____ light _____ the crankshaft position _____ is malfunctioning?

_____ a _____ Sensor, does an engine check _____ happen?

Can the _____ engine _____ be triggered _____ broken camshaft _____?

_____ a faulty _____ position _____ cause _____ check _____ come on?

_____ Crankshaft position _____ illuminate the _____ light?

Does an _____ check _____ there is a failed Crankshaft _____?

_____ engine _____ light _____ on _____ the crank _____ sensor is malfunctioning?

_____ a _____ crankshaft position sensor illuminate a _____?

Is _____ possible for _____ broken crank _____ cause _____ engine _____?

Does the Check _____ turn on _____ a _____ Crankshaft _____?

Does _____ sensor _____ up the _____?

_____ check engine _____ be triggered _____ broken _____ sensor.

_____ Engine alert _____ affected _____ faulty Crankshaft _____.

_____ a failed _____ position _____ turn _____ light?

Does an _____ malfunctioning crankshaft _____ sensor _____ check engine _____?

_____ a crappy Crankshaft Position _____ have _____ to _____ Check _____ light turning _____?

Does an unsuccessful _____ position sensor _____ engine _____?

The _____ could _____ caused by a _____ or faulty _____ position _____.

Does an unsuccessful _____ crankshaft _____ illuminate the _____?

Does the check _____ warning illuminate _____ position sensor?

_____ a _____ Crankshaft Position Sensor _____ do _____ Check Engine light turning _____?

_____ a check _____ if there _____ failed Crankshaft _____ Sensor?

Does _____ check light show _____ when the _____ shaft position _____?

Does an engine check _____ a _____ sensor?

Does the engine _____ light _____ crankshaft _____ sensor is _____?

_____ check light _____ on after _____ shaft position sensor _____ malfunctioning?

Does an engine check _____ if _____ failed _____ Sensor?

_____ engine check light come on after _____ position _____?

_____ an _____ check light _____ on when _____ failed _____ crankshaft position _____ involved?

_____ check _____ light come on _____ my crankshaft _____ sensor isn't _____?

The warning _____ be _____ by the _____ of the _____ position _____.

_____ a broken _____ position _____ cause _____ to _____ on?

_____ eng _____ by _____ or borked CrankPositionSensor code?

Will _____ check _____ if the crankshaft position _____ not work?

_____ an _____ light come on if _____ or _____ crankshaft _____ sensor?

_____ Engine light _____ on if a _____ position _____ involved.

A Check Engine light _____ be _____ by a _____.

_____ sensor malfunctioning could _____ a _____ engine _____.

_____ a _____ position sensor, does an _____ check engine _____?

Does the _____ on if _____ position sensor is _____?

_____ wonder if _____ Position _____ can cause an illuminated _____ in _____ car.

Will _____ engine light come _____ faulty crankshaft position _____?

_____ engine light illuminates _____ position sensor.

Can a broken _____ an engine _____ to _____?

_____ an engine _____ light come _____ after _____ crank shaft position _____?

_____ Engine _____ can _____ triggered _____ crank shaft position sensor.

_____ a _____ Crankshaft Position Sensor _____ to do _____ Check Engine _____ turning _____?

_____ the engine check _____ come on _____ is a _____ crank _____ sensor?
 Is there _____ problem _____ the _____ Sensor _____ Check Engine indicator _____ light _____?
 Does an engine _____ a _____ Crankshaft position sensor?
 The _____ turns on _____ crankshaft position sensor _____ malfunctioning.
 Is _____ an engine check _____ the _____ sensor is _____?
 The check engine light may _____ to _____ position _____.
 _____ engine check _____ come _____ after a _____ malfunctioning _____ position sensor?
 _____ engine _____ turn on _____ the crankshaft position _____ working?
 Does _____ check _____ on after a _____ Position Sensor?
 Can _____ damaged _____ position _____ lead to _____ engine emblem?
 Warning _____ shine _____ be a result _____ a _____ position _____.
 Is _____ light if _____ a failed Crankshaft position _____?
 _____ there's a failed crankshaft position _____ check light _____?
 _____ faulty _____ position sensor cause _____ check light _____ light up?
 _____ bad crankshaft _____ sensor cause a _____ light?
 Does _____ failed _____ Position _____ cause the _____ Engine _____ to _____?
 Can _____ crank _____ sensor lead to _____ illuminating _____ engine _____?
 _____ check _____ light will come on if _____ faulty crankshaft _____.
 Is _____ position sensor _____ fail and cause _____ illuminated check _____ sign?
 The _____ engine _____ triggered by _____ crank sensor.
 Check _____ light _____ messed-up crank sensor.
 Does a _____ sensor cause _____ check _____ light to _____?
 Can _____ crankshaft _____ illuminate _____ check engine _____?
 Is _____ Check _____ light _____ a bad _____ Sensor?
 Does _____ engine _____ happen _____ a failed _____ sensor?
 Can _____ light up if the crank position _____?
 _____ an engine _____ up _____ crank position sensor fails?
 _____ bad _____ sensor have _____ do _____ the Check Engine light _____ on?
 Can _____ damaged _____ position sensor _____ emblem _____ light up?
 Is it _____ a _____ Pos Failure will _____?
 _____ crankshaft _____ cause the check engine light?
 The check engine _____ crankshaft position sensor _____ working properly.
 Does _____ malfunction of the _____ position _____ the _____ light _____ illuminate?
 Is the check engine _____ or malfunctioning _____ Sensor?
 _____ an engine _____ on after _____ failure of _____ position sensor?
 _____ failed or malfunctioning _____ illuminate _____ engine warning?
 Is it _____ position _____ cause an illuminated _____ Engine _____ in my car?
 Is there _____ position _____ that _____ cause _____ engine check _____ to _____ up?
 _____ check engine _____ illuminate _____ my crankshaft _____ is malfunctioning?
 Is _____ Check _____ indicator caused _____ shaft position sensor?
 Does _____ poor _____ Sensor have _____ do _____ the Check _____ turning _____?
 _____ injured crank position sensor lead _____ illuminating check _____?
 Is a _____ position _____ blame _____ the _____ Engine indicator _____ up?
 The check engine _____ could _____ caused _____ malfunctioning _____ Sensor.
 _____ a _____ sensor cause the engine _____ to _____?
 _____ a faulty crankshaft _____ cause the check _____ to _____?
 _____ there's _____ failed Crankshaft _____ Sensor, _____ an _____ check _____ light _____?
 _____ the _____ light likely _____ by the malfunctioning _____ Position Sensor?
 _____ a _____ sensor, can _____ engine check engine light happen?
 Is _____ engine check light _____ after a _____?

____ a malfunctioning ____ cause ____ Check ____ light to illuminate?
 ____ an engine ____ on ____ crank shaft position sensor?
 Is a ____ position ____ the cause ____ the Check ____ turning ____?
 ____ check engine ____ due to ____ malfunctioning Crankshaft ____?
 Is ____ check ____ indicator ____ by a ____ Sensor?
 ____ engine ____ might be ____ by ____ sensor.
 ____ possible for a failed Crankshaft position ____ a ____ engine ____?
 ____ the check engine light go ____ if my crankshaft ____?
 Does a failure of the ____ position Sensor ____ the ____?
 Will ____ engine ____ on ____ my ____ sensor is malfunctioning?
 Check engine ____ because ____ a failed ____ malfunctioning ____ sensor
 Does ____ check engine light go off if there's ____?
 ____ the check ____ likely to be triggered by ____ malfunctioning ____?
 ____ a failed ____ malfunctioning crank shaft ____ engine check ____ on?
 ____ Engine warning happen because ____ failed crankshaft ____?
 ____ faulty crank position ____ the ____?
 Is ____ eng ____ up ____ of ____ CrankPositionSensor code?
 Can ____ malfunctioning light up ____ check ____ emblem?
 The check engine ____ turn on if ____ sensor ____ working ____.
 ____ the ____ Engine light ____ activated ____ a ____ position sensor?
 faulty crankshaft position ____ engine ____.
 ____ crankshaft position sensor ____ a ____ to come ____?
 Does ____ check ____ come ____ a faulty Crankshaft ____ sensor?
 Can the ____ light be triggered by ____?
 ____ check ____ light ____ on ____ the crankshaft position sensor ____?
 A check ____ can ____ triggered ____ shaft position sensor.
 ____ engine warning is ____ to a ____ Crankshaft ____.
 Is ____ faulty ____ sensor that ____ the check ____?
 ____ crankshaft ____ sensor malfunctioning light up ____ warning?
 ____ faulty ____ position Sensor ____ check engine light ____?
 Does ____ engine check ____ if ____ Crankshaft Position ____ is ____?
 Will a ____ light ____ if my crankshaft ____ doesn't ____?
 ____ the Check ____ by ____ bad Crankshaft ____ Sensor?
 Can a failed Crankshaft ____ an ____ engine sign ____ car?
 ____ for a ____ position sensor ____ and cause a light ____?
 Is ____ engine ____ on after ____ crank shaft position ____?
 ____ engine ____ come on if the ____ position ____ impaired?
 Did the ____ engine ____ on because of ____ bad ____?
 Can ____ check ____ triggered by a ____ Sensor?
 The ____ light can ____ by ____ broken ____ position sensor
 Can ____ light turn on if ____ crankshaft ____ sensor isn't ____?
 ____ engine check ____ on ____ faulty ____ shaft position sensor?
 Can an ____ Crank ____ illuminate ____
 ____ will likely ____ by a malfunctioning Crankshaft Position ____.
 Does a ____ Crankshaft ____ have something ____ do ____ that ____ Engine light ____?
 If the crankshaft ____ is malfunctioning, ____ light come ____?
 ____ Check Engine light ____ on if ____ position sensor.
 ____ the ____ engine ____ be ____ if ____ a ____ crankshaft position sensor?
 Does an engine ____ come on after a malfunction ____?
 ____ an engine ____ be ____ by a ____ sensor?

Will the check engine _____ if the crankshaft _____?

Does an engine check _____ on _____ the crank _____ isn't _____?

Can _____ faulty _____ Position Sensor _____ the _____ to illuminate?

_____ that Check Engine _____ because of a _____ Crankshaft _____?

Does an _____ on when _____ crank shaft _____ sensor _____ not _____?

Is the check engine _____ if _____ crankshaft _____ malfunctioning?

Is it possible _____ faulty _____ to cause a _____ flash?

_____ check _____ come on _____ malfunctioning crank shaft position _____?

_____ a _____ Sensor _____ the light?

Can _____ crank _____ cause the check _____?

_____ check _____ warning caused by _____ crankshaft position _____?

I am _____ if _____ lit _____ of shimmy or _____ code.

A _____ or _____ position sensor _____ the reason _____ check _____ light _____.

_____ engine _____ triggered by a _____ crankshaft position sensor.

There is _____ check engine light _____ by _____ crankshaft _____ sensor.

_____ a check _____ light that _____ turn on if my _____ position _____.

_____ bad _____ Position Sensor _____ with that _____ Engine light turning on?

Is check _____ up by _____ sensor code now?

The _____ might have _____ triggering _____ light.

Does _____ check _____ light happen when _____ a failed _____?

_____ wonder if _____ check engine _____ be triggered _____ Crankshaft _____ Sensor.

_____ the engine _____ light come _____ when _____ or _____ shaft position sensor?

_____ you know if CheckEng is _____ or _____ CrankPositionSensor _____?

_____ alert caused by faulty _____?

Is _____ a _____ Crankshaft Position Sensor _____ cause an illuminated _____?

_____ know if Check _____ of shimmy _____ borked CrankPositionSensor code?

Does a _____ sensor _____ the _____ engine indicator?

_____ crank sensor may be malfunctioning and _____.

A broken crank _____ can cause _____ to _____.

_____ crank _____ malfunctioning affect _____ check engine _____?

_____ unreliable crank _____ light up _____ light?

Does the engine light _____ Position _____ malfunctioning?

Does _____ faulty _____ sensor cause _____ indicator _____ light _____?

_____ a malfunctioning crankshaft _____ sensor will _____ a check engine _____?

_____ possible for _____ Position Sensor to illuminate _____ light?

Does a _____ Crankshaft _____ Sensor _____ Check _____ light up?

_____ an _____ crank shaft position _____ engine light?

Does a _____ Crankshaft _____ Sensor _____ to _____ stupid _____ light turning on?

_____ wonder _____ is lit _____ shimmy or borked CrankPositionSensor _____.

Does a _____ illuminate _____ engine warning?

_____ the check _____ warning show _____ the _____ position _____ is _____?

_____ for _____ Crankshaft Position Sensor to cause _____ illuminatedCheck Engine _____?

_____ it possible _____ position _____ could cause a _____ sign in _____ car?

_____ check engine light going _____ the _____ position sensor is _____?

_____ a faulty crankshaft _____ a Check Engine _____?

A failed _____ Crankshaft _____ sensor _____ why the check _____.

Is it _____ a malfunctioning _____ turn on the _____?

_____ an engine _____ come _____ if there is _____ position _____?

_____ failed _____ position sensor _____ an illuminated Check _____ in my _____?

The _____ light _____ on if _____ crankshaft position sensor.

_____ a faulty _____ position _____ cause _____ engine _____ to come _____?

Can the _____ engine _____ be _____ a malfunctioning _____ sensor?

Can a malfunctioning Crankshaft _____ Sensor _____ the _____ engine _____?

_____ or _____ crank _____ sensor _____ an _____ check engine emblem?

_____ the check _____ warning _____ of a _____ sensor?

Is _____ engine _____ light _____ after a _____ or _____ position _____?

_____ engine check light _____ a _____ crank shaft _____ sensor?

The _____ may be _____ a _____ or faulty Crankshaft _____ sensor.

Can _____ position sensor illuminate a _____ emblem?

A check engine _____ may _____ by _____ messed _____ crank _____.

_____ a broken crank sensor fire _____?

The Check Engine light can be _____ Sensor.

Is the check _____ light likely to go _____ position _____?

Can a _____ engine _____ triggered by _____ broken _____ position _____?

Is the check _____ a faulty _____ position _____?

_____ engine _____ if there's a failed position sensor?

_____ bad _____ sensor the reason the _____ engine _____ is _____?

_____ Check Engine light can be _____ a faulty _____.

The _____ engine indicator _____ activated if _____ sensor is _____.

_____ Check _____ warning occur _____ the failed _____ sensor?

Is _____ engine _____ light if the crankshaft _____ is _____?

_____ engine _____ illuminates _____ a faulty _____ position sensor is _____.

_____ a broken crank _____ the _____?

Is _____ faulty Crankshaft Position _____ causes _____ check _____ indicator to _____?

Will _____ faulty _____ sensor cause _____ come on?

A _____ crank sensor _____ check engine _____.

_____ that _____ engine _____ on because of _____ position sensor?

Can a malfunctioning crankshaft _____ sensor _____ light _____ come _____?

Is it _____ position _____ cause a light to go _____?

Does an engine _____ light _____ position sensor _____ missing?

Will there be a check engine _____ sensor _____?

_____ check engine _____ by a malfunctioning Crankshaft _____?

_____ the check _____ light _____ the crankshaft position _____ isn't working _____?

_____ engine check engine _____ light happen _____ failed position _____?

_____ Engine _____ turn on _____ to a _____ Crankshaft position _____?

Will _____ crankshaft position _____ the engine _____ to _____ on?

_____ check _____ light _____ come _____ if a faulty crankshaft _____ not _____.

_____ an engine check _____ come _____ after _____ failed _____ malfunctioning _____ shaft _____?

Can _____ check _____ light be _____ by _____ bad _____ position _____?

_____ an malfunctioning crank _____ sensor light the _____?

Can a broken _____ fire _____?

_____ check engine _____ if _____ Crankshaft position _____ isn't _____.

_____ an engine check light come _____ a faulty _____ sensor?

Does a bad Crankshaft _____ have _____ do _____ stupid _____ light?

Is the _____ engine _____ activated _____ Crankshaft Position Sensor?

Can a broken _____ sensor bring about _____?

Can the _____ Engine _____ be triggered by _____ camshaft _____?

Does an engine _____ come on after _____ Crankshaft _____?

_____ an _____ position sensor light _____ engine?

Does _____ engine check light _____ a _____ or failed crankshaft _____?

_____ check _____ light can be triggered _____ messed-up _____.

Can _____ crank _____ check engine light?

_____ a _____ crank _____ lead to _____ check engine _____?

Is _____ engine _____ by the _____ crankshaft sensor?

Does _____ check _____ come on _____ the _____ shaft _____ fails?

_____ check engine warning illuminate _____ the crankshaft _____ is _____?

Is _____ failed Crankshaft _____ Sensor _____ a _____ engine sign _____ my car?

Check engine light can _____ messed _____ crank _____.

Will _____ check _____ light _____ of _____ malfunctioning crankshaft _____ sensor?

Is _____ engine _____ to be _____ by a malfunctioning _____ sensor?

_____ a _____ Crankshaft _____ have anything _____ with the _____ Engine _____ turning on?

_____ broken _____ cause a check _____ to go off?

Does _____ or malfunctioning crankshaft _____ engine warning?

Does an engine check engine _____ the crankshaft _____ sensor _____?

_____ the _____ lit up by a bad _____?

Is a _____ Crankshaft position Sensor _____ Engine light?

Can _____ check _____ light be _____ by _____ broken crank _____?

The check engine _____ be _____ by _____ bad _____ position _____.

Does a _____ or _____ position sensor illuminate _____ warning?

Is _____ a problem _____ Crankshaft Position _____ the _____ light to illuminate?

_____ a _____ Crankshaft _____ cause the _____ Engine _____ to flash?

Does an _____ check light come _____ of a _____ shaft _____?

Can the crank position _____ malfunctioning _____?

_____ an _____ check _____ happen _____ a failed _____ position _____ is _____?

Does an _____ light _____ there's _____ failed Crankshaft _____ Sensor?

_____ an unsuccessful or _____ crankshaft _____ up the engine _____?

If _____ position sensor _____ the light _____.

Is _____ likely _____ be activated _____ of _____ malfunctioning _____ Position Sensor?

_____ position sensor _____ is malfunctioning lead to an _____ engine _____?

Does the _____ Engine indicator light _____ of a _____?

_____ light up the check engine warning?

_____ engine check light _____ on if _____ is a _____ sensor?

Is _____ possible that _____ illuminated _____ Engine sign can be _____ Sensor?

There _____ light _____ a crank sensor is _____.

Does _____ crankshaft position sensor light up _____?

_____ triggered by _____ up crank sensor?

Does the check _____ come on _____ malfunctioning _____ shaft _____?

Does an _____ engine _____ come _____ there's a failed _____?

_____ engine check light come _____ when the crankshaft _____?

Does the _____ light _____ the _____ Sensor _____ not functioning?

_____ the _____ engine _____ come on if _____ crankshaft _____ wrong?

A crank sensor _____ light _____ illuminate.

Does _____ illuminate if _____ position sensor is malfunctioning?

_____ a failing _____ position _____ illuminate _____ engine warning?

_____ engine check _____ light come on if _____ isn't working?

_____ position sensor _____ illuminate the check engine _____?

Is it _____ a failed _____ could cause a _____ sign?

_____ the _____ Engine sign _____ caused _____ a _____ Crankshaft position Sensor?

_____ the _____ engine _____ will be activated by a _____ Crankshaft _____?

_____ engine _____ on if the crankshaft _____ sensor is _____.

_____ engine light turn on _____ the _____ sensor is _____?

Can an unreliable _____ Sensor _____?

_____ Check _____ light turning _____ might _____ to do with a _____ position _____.

_____ an engine _____ light _____ a failed or malfunctioning crank shaft _____?

Can a failed Crankshaft Position _____ illuminated Check _____ car?

Can _____ engine _____ sign _____ crank _____ sensor is malfunctioning?

_____ engine light illuminates _____ a _____ or faulty Crankshaft _____ found.

It is possible _____ check _____ light will _____ malfunctioning _____ Position Sensor.

Did _____ engine _____ on after _____ failed or _____ crank _____ sensor?

_____ engine light caused _____ failed _____ Position Sensor?

Can a failed _____ the _____ warning sign?

_____ failed or faulty _____ Position _____ cause _____ Check Engine light _____?

Is _____ up _____ a _____ shimmy or borked _____ code?

The _____ engine _____ can _____ a broken crank _____.

_____ lit-up engine _____ related to _____ crankshaft position _____?

Can the _____ Engine _____ be _____ by _____ crank _____?

_____ possible that a _____ position _____ can _____ illuminated check _____ sign?

_____ an _____ light come _____ when _____ a faulty Crankshaft?

_____ the lit-up engine _____ a malfunctioning _____ position _____?

_____ Check _____ indicator may _____ by a faulty _____ Sensor.

_____ crank _____ cause _____ check engine light?

Can _____ crank _____ light _____ check _____ light?
