

[Demo] NLP Dataset for Customer Service Automation

Company Type	Electricity Suppliers
Inquiry Category	Meter reading disputes or queries
Inquiry Sub-Category	Meter reading estimation disputes
Description	Customers may dispute estimated meter readings provided by the supplier, as they may not accurately reflect their actual usage. This can result in concerns about overbilling or underestimation of charges, prompting customers to seek clarification or adjustment of readings.
Data Size	5,015 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Electricity Supplier" customer inquiry. (Purchased data will not be masked.)

_____ should be taken if _____ of _____ due to _____ readings?

_____ I believe charges could have been _____ to _____ what _____ I _____?

A question _____ if _____ should _____ charges _____ by the meter.

_____ I supposed to do _____ have _____ underestimated _____ inaccurate meter records?

If I _____ that charges may _____ been _____ meter _____ should _____ do?
