

[Demo] NLP Dataset for Customer Service Automation

Company Type	Smartphone Manufacturers
Inquiry Category	Compatibility with other devices inquiries
Inquiry Sub-Category	Network Compatibility
Description	Customers inquire about whether their smartphone is compatible with specific cellular networks or bands, such as GSM or CDMA, and if it supports 4G or 5G connectivity.
Data Size	6,082 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Smartphone Manufacturer" customer inquiry. (Purchased data will not be masked.)

Does _____ diverse LTE _____ 5G frequency bands utilized _____ various _____?
 _____ possible _____ your latest model to facilitate _____ of _____?
 Does _____ latest _____ have _____ for _____ upcoming _____ bands?
 _____ _____ give support _____ 5G frequencies _____ multiple carriers?
 _____ latest _____ with the different _____ used by _____ carriers?
 _____ I _____ able to use different _____ frequencies _____ your _____?
 Can we expect a robust support _____ your new model _____ to _____ a _____ range _____?
 Is your _____ able _____ handle _____?
 _____ be possible _____ most _____ release _____ accommodate different _____ bands?
 _____ your _____ support _____ confusing mix of 5G _____?
 _____ the _____ version support the _____ frequencies from _____?
 Will the _____ work _____ network _____?
 Can we _____ in your new model when _____ comes to accommodating _____ of LTE and _____?
 Will the _____ support both current _____ future _____?
 Does your new _____ work _____ fancy _____?
 Can we _____ robust _____ when it comes to _____ a wide _____ 5G bands?
 _____ version feature support for 5G from _____?
 _____ you know if your _____ work _____?
 _____ you _____ upcoming 5G frequencies in _____ latest _____?
 _____ your most _____ release accommodate the different bands _____ by _____?
 Will _____ handle _____ bands?
 Do any _____ phones _____ on _____?
 _____ it comes _____ accommodating _____ wide _____ lte _____ as anticipated carrier _____ bands, can _____ robust _____ in your
 _____ recent model _____ frequencies _____ 5G?
 _____ handling multiple 5G bands _____ different carriers?
 _____ the _____ of _____ product cater to different _____ 5G?
 _____ new release _____ different bands used _____ carriers?
 Does this _____ have _____ frequencies?

____ your model support different ____ both ____ ?
 Is the new phone ____ future ____ bands ____ carriers?
 Does ____ on future 5G frequencies ____ ?
 Is the latest release ____ 5G technologies?
 Does ____ latest device ____ frequencies adopted by ____ ?
 ____ newest ____ of handling ____ bands from carriers?
 ____ your ____ model ____ for ____ than ____ 5G band?
 ____ features of ____ version let ____ the upcoming carrier-used ____ frequencies?
 ____ device ____ 5G bands?
 ____ phone ____ the upcoming ____ needed ____ different cell services?
 Are ____ features ____ your ____ version ____ of compatibility ____ carrier-used ____ ?
 ____ those ____ 5G ____ on your new ____ ?
 ____ your latest model ____ both ____ mix of frequencies?
 ____ device ____ the upcoming ____ bands?
 ____ it possible ____ your new ____ to ____ 5G ____ ?
 Does ____ with a ____ of frequencies ____ 5G?
 ____ the ____ model ____ the 5G frequencies ____ many carriers?
 Does ____ newest device have ____ 5G ____ ?
 Does your ____ the ____ bands?
 Will ____ the different ____ that carriers use?
 Will ____ recent ____ accommodate ____ of multiple ____ frequencies?
 ____ device compatible with ____ bands used ____ carriers?
 Will ____ work ____ different ____ using different ____ for both ____ and ____ technologies?
 Can your ____ model ____ of ____ new ____ bands?
 Do ____ include the ____ bands in ____ latest ____ ?
 Can your ____ model ____ the frequencies used ____ ?
 Will the most recent ____ allow ____ to ____ ?
 ____ new device be ____ all ____ the upcoming ____ needed by ____ cell ____ ?
 ____ your ____ device ____ on ____ carriers using ____ frequencies for both ____ and ____ ?
 Does ____ device ____ the ____ and ____ 5G frequencies?
 ____ model ____ more ____ one ____ band?
 Is ____ product compatible with ____ bands ____ 5G?
 ____ your latest ____ compatible ____ upcoming ____ ?
 ____ your ____ model ____ the mix of ____ by ____ carriers?
 ____ new model ____ the ____ 5G ____ ?
 Does the new ____ on ____ ?
 Is your ____ compatible ____ the ____ 5G ____ ?
 ____ your ____ the ____ 5G bands?
 ____ own a device ____ supportsLTE ____ ?
 Do the ____ version make ____ compatible with other ____ 5G ____ ?
 ____ the mix ____ frequencies used by ____ supported ____ your ____ model?
 ____ various ____ adopted by ____ on your latest device?
 ____ expect ____ support in ____ new model when it comes ____ accommodating a wide ____ 5G ____ ?
 Do ____ support various ____ like ____ ?
 Does your newest ____ with ____ different ____ used ____ carriers?
 Do ____ know if your ____ is ____ with the ____ ?
 Will ____ the networks' current ____ 5G ____ be supported ____ selling?
 ____ support different frequencies used by ____ ?
 ____ device ____ to ____ new frequencies needed by different cell services?
 Is ____ new ____ with ____ future ____ bands?

_____ your newest _____ the 5G _____ used _____ many carriers?
 Will your _____ recent _____ the different 5G bands _____ being _____?
 Can _____ new _____ handle _____ new _____?
 Can your _____ model handle _____ range of _____?
 _____ you _____ various frequencies adopted _____ carriers are supported _____ your _____ device?
 Can _____ model handle _____ upcoming 5G bands?
 _____ new _____ operate on _____ carrier _____ with different _____?
 Can your newest _____ handle _____ carriers.
 _____ the _____ of _____ carriers in regards to 5G?
 _____ latest _____ support diverse bands _____?
 _____ your most _____ be compatible with the _____?
 Are _____ upcoming 5G _____ with _____?
 _____ the _____ frequencies supported in _____ next _____?
 _____ the _____ model _____ all of the _____ carriers will use _____?
 _____ phone _____ support _____ and next-gen 5G networks?
 _____ your new _____ upcoming 5G _____ needed by _____ cell services?
 _____ your model _____ frequencies?
 Does _____ last model _____ different frequencies _____?
 Will _____ device handle the upcoming _____ different cell _____?
 _____ you be able _____ utilize _____ your new model?
 Will _____ carriers using different _____ both existing and new _____ technologies?
 Will _____ be compatible _____ carriers' use of different _____?
 _____ it possible _____ your _____ compatible _____ upcoming 5G frequencies?
 _____ you tell _____ if your latest _____ compatible with _____?
 _____ most _____ model support diverse _____ 5G?
 Does _____ latest _____ work with _____ future _____ frequencies?
 Is _____ latest _____ with the _____ 5G frequencies _____ by _____?
 _____ new model _____ all _____ the newer _____?
 Will _____ version have _____ 5G frequencies?
 Does it _____ upcoming _____?
 _____ next version include _____ 5G?
 _____ model handle _____ the bands used by _____?
 Will your _____ to _____ upcoming 5G frequencies _____ by different _____ services?
 _____ current _____ offer support _____ 5g frequencies?
 Does _____ release _____ the upcoming _____?
 Can the _____ handle the different bands _____?
 _____ the _____ of your _____ version compatible _____ the upcoming carrier-used _____?
 Does _____ model _____ upcoming _____ frequencies?
 Does _____ latest _____ like 5G?
 Can your _____ model _____ frequencies _____?
 _____ your _____ handle _____ frequencies?
 Will your _____ device work on _____ networks _____ both _____ and 5G _____?
 Is your newest _____ with the 5G _____ carriers?
 Will the most _____ various _____ of multiple LTE _____ 5G _____?
 Can _____ handle future _____ different _____?
 _____ your _____ release _____ with _____ employed by different providers?
 Are _____ features of your _____ version _____ with _____ carrier _____?
 _____ the _____ model _____ various _____ bands?
 _____ your new _____ work _____ all _____ 5G _____?
 Will the _____ recent _____ carriers using _____ frequencies?

____ it ____ the newest model ____ work ____ multiple ____ 5G?
 ____ your new ____ on ____ of ____ 5G bands?
 Will your device operate ____ with ____ both ____ and next-generation 5G ____?
 Do ____ have new phones ____ bands?
 ____ next version ____ the ____ frequencies ____ multiple carriers?
 Is ____ phone ____ future 5G ____?
 Is ____ new ____ compatible ____ different ____ of 5G?
 Can the ____ model ____ 5G ____?
 ____ your ____ the upcoming 5G ____?
 Is ____ model ____ to ____ multiple ____ from different ____?
 Are ____ upcoming ____ on your newest model ____?
 ____ the features of your ____ compatible with an ____ of ____ frequencies?
 ____ your ____ operate on ____ using different frequencies ____ existing and 5G ____?
 Are ____ product compatible with the ____ bands ____ different ____?
 ____ recent model ____ to use multiple LTE and 5G ____?
 ____ work ____ the 5G bands?
 Does ____ newest ____ have the ____ for ____?
 Do ____ new ____ on the ____ 5G ____?
 Can the ____ many ____ 5G bands?
 ____ support 5G from multiple ____?
 Will ____ new ____ be able ____ the upcoming 5G ____?
 ____ version compatible with ____ carrier-utilized ____ frequencies?
 Is ____ possible ____ latest purchase with fast ____ 5G bands ____?
 Does ____ newest ____ work ____ different ____?
 Can ____ different frequencies when used by ____?
 ____ your ____ multiple carrier bands?
 Can ____ model ____ all of the ____ frequencies?
 Do you ____ a ____ that ____ frequencies?
 ____ version have ____ for upcoming frequencies from ____?
 ____ the ____ phones ____ on the ____ 5G ____?
 Will ____ recent ____ allow ____ different carriers' usage ____ frequencies?
 Can your new model ____ with ____ by ____ carriers?
 ____ carriers ____ multiple 5G bands ____ your ____?
 Are the ____ of ____ compatible ____ assortment of 5G ____?
 ____ get ____ for the ____ from multiple carriers in ____ next ____?
 ____ this phone ____ good in ____ frequencies ____?
 Will the most recent ____ multiple ____ use ____?
 ____ model ____ all of the ____ bands?
 Will your ____ handle ____ upcoming ____?
 Are ____ latest ____ compatible ____ 5G frequencies?
 Are your new ____ to ____ different ____ of ____?
 ____ new ____ work with different ____ different providers?
 Can the model ____ use ____ multiple ____?
 Is your ____ compatible with ____ new ____ carriers?
 Is ____ new ____ compatible ____ frequencies?
 When ____ accommodating a ____ range ____ as well ____ carrier ____ bands can we expect ____ in ____ new ____
 ____ model allow multiple bands ____ for different ____?
 ____ your ____ recent release ____ different ____ of 5G?
 Can ____ expect robust ____ in ____ new ____ it comes to accommodating ____ range of LTE as ____ as ____
 ____ your ____ model ____ different ____ of ____?

Will ____ next ____ offer support ____ multiple carriers?

____ you ____ a model ____ different frequencies ____ multiple carriers?

Will your most recent ____ accommodate the ____ bands ____?

Does ____ diverse bands of ____?

____ new ____ handle the different ____ used ____ carriers?

____ the ____ release ____ wide range of ____ for multiple ____?

Will the ____ recent ____ allow ____ carriers' ____ multiple ____?

____ your newest ____ handle the ____ 5G ____ for ____ cell ____?

____ the ____ recent model ____ with various ____ of multiple ____?

Can ____ model work with ____ bands?

Can ____ model cope with ____ 5G ____?

____ you ____ new ____ compatible ____ fancy 5G bands?

Can you promise robust ____ in your ____ it ____ accommodating ____ wide ____ 5G bands?

Does your ____ device ____ all ____ 5G frequencies?

____ your most ____ release ____ the different 5G ____ carriers?

Is ____ compatible ____ the different bands used ____ the ____?

____ model support the ____ 5G?

____ device ____ diverse 5G frequencies?

____ product compatible with the different ____ of ____?

Are the ____ frequencies ____ by ____ supported on ____ device?

Can your ____ model ____ a range ____ are being ____ other ____?

____ for diverse LTE and upcoming 5g frequencies?

Will your newest device ____ too?

____ your ____ phones ____ the fancy ____ bands?

Is ____ latest version ____ with an ____ 5G ____?

Will ____ accommodate ____ carriers' usage ____ multiple frequencies?

____ the new ____ on ____?

Does ____ version ____ product support ____ frequencies of ____?

Does your ____ support the ____?

____ your device operate ____ different ____ different ____ for both ____ and ____ 5G ____?

____ your model ____ for 5G across ____?

Do the ____ of ____ version ____ compatibility ____ used 5G ____?

Is your ____ phone ____ with ____ carriers' ____ future ____?

____ you ____ able ____ use different carrier's varied frequencies ____?

____ latest device support ____ frequencies?

____ model can handle ____ of ____?

____ your ____ phone compatible ____ bands?

____ your latest ____ support ____ technologies like ____?

____ model support 5G ____ utilized ____?

____ model compatible ____ the future 5G ____ by multiple ____?

Does your ____ various frequencies ____ by ____ carriers?

Is ____ product compatible ____ the different bands ____ carriers?

Can I ____ your ____ the upcoming 5G bands ____?

Does ____ most ____ support different ____ for ____?

Is ____ new ____ with ____ carriers' ____ frequencies?

____ the newest device have ____ the ____ 5G ____?

____ your latest model ____ frequencies being ____ by ____ carriers?

____ model handle ____ bands ____ different ____?

____ your ____ compatible ____ bands required by your carrier?

Do you ____ your ____ phones work ____ 5G ____?

Is _____ compatible with LTE _____?

Will _____ you're _____ support the current _____ the _____ 5G _____?

Can _____ new _____ handle _____?

_____ your new _____ the 5G _____?

_____ your _____ have support for _____?

Does _____ device support _____ 5G _____?

_____ the current _____ offer support _____ using _____ frequencies?

_____ your new _____ carriers with different _____ for _____ existing _____ next-generation _____ technologies?

_____ your _____ release accommodate the _____ 5G _____ your carriers _____?

_____ most recent _____ support the _____ 5G _____?

_____ recent model _____ carriers' use of _____ frequencies?

Will _____ next _____ support for _____ from different _____?

_____ latest product work with _____ different 5G bands _____?

_____ new _____ support diverse bands _____?

Does the _____ device _____ with _____?

_____ phone compatible _____ future 5G _____?

Is _____ current model compatible _____ upcoming _____?

_____ next _____ include _____ for the 5G _____ from _____ carriers?

_____ your new model handle _____ used _____ different _____?

Will there _____ support _____ frequencies _____ multiple carriers _____ next _____?

_____ current _____ support for _____ 5g frequencies?

Does _____ support _____ new _____ used by _____?

_____ the newest _____ work with _____ carriers?

_____ model handle _____ range of 5G _____ by _____ carriers?

Will the most _____ accommodate multiple _____ of _____?

Can we expect the _____ to support _____ range _____ 5G _____?

Will _____ to use the _____ the new model?

Can _____ new _____ all _____ carriers are using?

Can _____ facilitate multiple _____?

_____ our _____ version _____ for upcoming frequencies from _____?

Will our _____ version support _____ multiple carriers?

Can _____ newest model work _____ different bands?

_____ your latest model _____ by the different carriers?

Can _____ the 5G bands _____ use?

_____ newest product compatible with _____ different 5G _____ being _____ carriers?

Does your latest model _____ the _____ frequencies _____?

Does _____ latest _____ frequencies _____ technologies?

_____ be _____ use _____ different _____ on your new model?

Is _____ model compatible with _____ different _____ of _____?

Do you have _____ device _____ multiple _____ 5G?

_____ new _____ handle _____ different _____ bands?

_____ your product _____ with the _____ and _____?

_____ your _____ on a _____ of frequencies for _____ providers?

Is _____ latest model _____ frequencies _____ by different carriers?

_____ this model compatible _____ network _____?

_____ latest device compatible _____ upcoming _____ frequencies?

_____ your newest device _____ support for _____?

_____ the new release include _____ frequencies _____ different Carriers?

_____ your _____ release _____ compatible with _____ 5G _____?

Are your latest _____ compatible _____ different _____ bands _____ different carriers?

_____ product _____ with _____ different 5G bands used by _____?
 _____ newest _____ support the _____ frequencies?
 Is your _____ model _____ of _____?
 _____ model _____ carriers' 5G _____?
 _____ it possible _____ to facilitate _____ 5G bands?
 Are _____ frequencies _____ numerous carriers supported on _____ latest _____?
 _____ new phones _____ work on _____?
 Do all those 5G _____ on _____?
 Are you _____ with the _____ 5G _____ in _____?
 _____ have a _____ that supports multiple _____ frequencies?
 Is _____ model _____ to handle different _____?
 _____ your _____ model _____ with all of _____ 5G _____?
 _____ latest _____ handle multiple _____ different carriers?
 _____ support _____ your new _____ it comes to accommodating _____ wide _____ well _____ carrier specific
 5G bands?
 _____ your _____ recent _____ support different _____ carriers?
 _____ your new _____ compatible _____ the _____ 5G bands?
 _____ use _____ any of _____ current and _____ 5G networks?
 Are the _____ frequencies _____ multiple carriers _____ new device?
 _____ your new device _____ frequencies for _____ next-gen 5G?
 Can _____ model _____ more _____ one band _____ for _____ carriers?
 _____ version _____ support for 5g frequencies _____ the near _____?
 _____ have _____ device that supports _____ 5G?
 Is the _____ model able to _____?
 _____ model handle _____ bands _____ the carriers?
 _____ the current _____ for _____ and _____ 5g frequencies?
 Will _____ next version _____ carriers _____ 5G _____?
 _____ our next _____ support _____ frequencies _____ carriers?
 Does the latest _____ with _____ different _____?
 Will your _____ handle all those _____ frequencies?
 _____ your _____ support _____ different _____ frequencies used _____ different carriers?
 _____ latest model compatible _____ frequencies?
 _____ your _____ model fit in _____ the _____ frequencies?
 _____ the most _____ model _____ carriers' _____ of LTE and _____ frequencies?
 Are the different _____ adopted by _____ your _____ device?
 _____ there support for 5G _____ multiple _____ in _____ next _____?
 _____ the _____ recent _____ various carriers' use _____ multiple frequencies?
 _____ your newest device _____ all the _____?
 Does your _____ device _____ upcoming 5G bands?
 Does your most _____ model support _____ carriers?
 Are _____ able _____ different frequencies?
 _____ there _____ for _____ from multiple _____ next version?
 _____ newest model _____ upcoming 5G bands?
 _____ most recent model support _____ frequencies _____ 5G _____ carriers?
 _____ latest _____ compatible _____ the _____ frequencies used by many _____?
 _____ latest _____ support _____ carriers' frequencies?
 _____ the _____ model _____ carriers' usage of _____ frequencies?
 _____ the _____ support future 5G _____?
 _____ new _____ even _____ with 5G _____?
 _____ current _____ of your product support _____ 5G?
 Does your most _____ support _____ range _____ frequencies across _____?

Can ____ new model ____ the ____ networks?
 ____ newest model work ____ the ____?

Can your ____ all of the bands ____ different ____?

Does ____ current version ____ support ____ diverse LTE ____ frequencies?
 ____ the new ____ multiple bands?
 ____ capable of ____ of different carriers' 5G bandwidths?

Is ____ release frequencies ____ with upcoming ____?
 ____ your product ____ with the ____ of ____?
 ____ newest ____ support ____ bands of ____?

Does ____ release ____ the ____ technologies?

Does the ____ different ____ 5G?

Can your new ____ different ____ wireless ____?

Is ____ product compatible ____ the upcoming ____?
 ____ the ____ frequencies adopted by ____ newest device?

Can ____ model handle ____ 5G bands?
 ____ you ____ latest model is compatible with ____ 5G ____?

Does your model support ____?

Can ____ use ____ purchase with fast ____ bands from ____?

Can your new ____ a ____?

Will ____ new ____ compatible ____ future ____ frequencies?

Does your new model work ____ variety ____ for ____?

Will there ____ upcoming 5G ____ multiple carriers?

Is your latest ____ with ____?

Will the ____ model ____ different frequencies used ____?

Can ____ and 5G ____ from ____ carriers?
 ____ well ____ different frequencies for 5G?

Can your ____ model ____ than ____ band from ____?

Can your ____ 5G bands?

Is ____ with the ____ frequencies that ____ be ____ across many ____?

Can ____ model handle ____ of ____ soon-to-be ____?
 ____ to accommodating ____ wide range of LTE ____ well as ____ bands, can we ____ robust support ____?

Is ____ latest ____ any of the upcoming ____?

Will ____ be ____ to ____ the ____ 5G ____ multiple carriers?

Does ____ device ____ frequencies?
 ____ your ____ model compatible ____ different bands ____?
 ____ the ____ release ____ with ____ 5G technologies?
 ____ latest ____ allow ____ than one ____ band?
 ____ I ____ my ____ purchase with carriers ____ 5G?
 ____ work with LTE and ____?
 ____ the ____ with more than one band ____?

Will the ____ allow different carriers ____ use ____?

____ your ____ device ____ the ____ 5G ____?

____ your model compatible with ____ 5G frequencies ____?

Can your ____ all the new ____ that are ____?

Will ____ new device ____ frequencies for ____ and ____ technologies?
 ____ your ____ product ____ with the ____ and ____ bands?
 ____ back the 5G bands?

Are your newest ____ range of ____ frequencies?

Can ____ new model ____ with different ____ carriers?

Can ____ new model ____ multiple ____?

_____ a new _____ that supports _____ wireless spectrum stuff?
 _____ your _____ phone compatible with _____ carriers _____ bands?
 _____ new _____ with the _____ bands?
 _____ the latest _____ with _____ different frequencies used _____ carriers?
 Is _____ new _____ good enough to _____ bands?
 Is _____ latest model compatible _____ frequencies _____ across _____ carriers?
 _____ multiple _____ of 5G for diverse carriers?
 Is your _____ handling _____ frequencies _____ 5G?
 _____ your latest device _____ frequencies adopted by _____ ?
 Can _____ latest _____ back _____ ?
 Does _____ version have _____ for diverse and carrier- _____ ?
 _____ release compatible _____ the different LTE and 5G _____ ?
 _____ your _____ model have the _____ use various _____ different _____ ?
 Do _____ think _____ will _____ the _____ frequencies _____ by different carriers?
 Will the _____ model allow _____ carriers _____ multiple _____ ?
 _____ carriers use _____ of 5G in _____ model?
 _____ latest _____ compatible _____ future _____ frequencies?
 Will the _____ to utilize multiple frequencies?
 Is your most _____ release _____ 5G _____ used by _____ ?
 Does your _____ have robust _____ when it comes to _____ a _____ as well _____ carrier _____ 5G _____ ?
 Will _____ version have _____ frequencies _____ multiple carriers?
 _____ your latest _____ any _____ for 5G _____ ?
 Is your new _____ with _____ frequencies _____ by different _____ ?
 _____ the _____ of frequencies used by _____ various carriers?
 _____ newest product compatible with _____ new _____ ?
 Does your _____ model support a _____ for 5G?
 _____ your _____ device support _____ too?
 Can _____ new model _____ a _____ of _____ 5G _____ ?
 _____ possible _____ use _____ purchase with fast and upcoming _____ ?
 _____ newest product compatible _____ the _____ bands _____ 5G?
 _____ your model _____ for _____ than _____ 5G _____ ?
 _____ it possible _____ your latest _____ to _____ from different _____ ?
 _____ newest _____ different bands _____ the carriers?
 _____ your _____ support the _____ frequencies?
 Can your _____ model handle _____ used _____ the different _____ ?
 _____ version have _____ upcoming 5G frequencies?
 Does _____ offer support _____ 5G _____ ?
 _____ your _____ model _____ various frequencies _____ by various _____ ?
 Do _____ if _____ adopted _____ carriers are supported on your _____ device?
 Will _____ support _____ frequencies used by different carriers?
 Does _____ latest _____ the newer _____ ?
 _____ the _____ include support for _____ 5g _____ ?
 _____ latest _____ with _____ upcoming frequencies?
 Do your _____ model work _____ for different _____ ?
 _____ the _____ 5G frequencies supported _____ device?
 Will your new _____ be _____ all _____ frequencies _____ different cell services?
 _____ recent model support _____ frequencies _____ different _____ ?
 Will _____ phone _____ are _____ networks' 5G bands?
 _____ your model _____ different frequencies _____ carriers?
 _____ recent releases _____ with the different 5G bands that _____ ?

_____ latest model _____ different _____ 5G?
 _____ the _____ handle the _____ bands from _____?
 _____ work _____ 5G network bands?
 Does _____ the diverse _____ and _____ frequencies adopted by _____ carriers?
 _____ you know if _____ newest version of _____ product _____ frequencies?
 _____ device _____ on different _____ different frequencies for both _____ and _____ technologies?
 _____ your _____ with upcoming bands?
 Are _____ different frequencies _____ carriers on _____ device?
 Can _____ latest _____ 5G bands?
 Will _____ phone you're _____ the _____ the next-gen _____ bands?
 Is _____ newest model _____ the _____ frequencies?
 Are _____ upcoming 5G _____ future _____ your _____ model for _____?
 Does your _____ 5G bands used by different _____?
 Will _____ the ability _____ various carrier's frequencies?
 Do _____ your _____ device will _____ carrier _____ with different frequencies?
 _____ your newest _____ any _____ the upcoming 5G _____?
 _____ your _____ compatible with _____ future _____ frequencies?
 _____ the _____ your latest version _____ with _____ 5G frequencies?
 Can _____ a robust _____ model when it _____ to _____ wide range of LTE _____ anticipated carrier specific 5G
 Can _____ a wide range _____ for _____ model _____ to carrier specific 5G bands?
 _____ your _____ work on _____ providers' _____?
 Will _____ new _____ different frequencies _____ 5G?
 Is it possible _____ new _____ on the fancy _____?
 Will you be _____ frequencies on your new _____?
 Does _____ device _____ for upcoming _____ frequencies?
 _____ new _____ work on diverse frequencies _____ different _____?
 _____ your latest release _____ a _____ of _____ frequencies?
 Will _____ model support _____ 5G frequencies?
 Is _____ compatible _____ the 5G _____ being _____ many carriers?
 Can your _____ model _____ new 5G _____?
 _____ the most _____ allow _____ to _____ multiple frequencies?
 Is the _____ future _____ bands?
 Can _____ different frequencies from the _____?
 _____ handle a variety _____ bands?
 _____ most recent model support _____ than _____ 5G?
 _____ your _____ compatible _____ different 5G bands?
 _____ recent _____ the different 5G _____ the carriers use?
 Do your _____ work in _____ 5G _____?
 Is it _____ with _____ 5G _____ in _____ latest _____?
 Can _____ new model _____ of the different _____?
 Does _____ newest _____ upcoming _____ frequencies?
 Will _____ model _____ the different types _____ used by _____?
 _____ support diverse LTE _____ well as upcoming 5G _____?
 Are _____ frequencies future- ready _____ for carriers worldwide?
 _____ new phones _____ with the _____?
 _____ latest model _____ with _____ 5G frequencies?
 _____ model handle _____ bands from _____ carriers?
 Does _____ model work on _____ for _____ providers?
 Will _____ device work _____ carrier _____ with _____ existing and next-generation 5G technologies?
 Can _____ model _____ multiple bands _____ different _____?

Does the _____ support _____ and carrier- _____ 5g frequencies?
 _____ I use this _____ with other _____ 5G _____?
 _____ your model _____ 5G _____ from different carriers?

Are the _____ adopted by multiple _____ supported _____ your _____?
 Will all _____ current _____ next-gen 5G bands _____ selling?
 Does _____ new _____ support for upcoming _____ frequencies _____?
 When it comes _____ a _____ range of LTE _____ well as anticipated _____ expect robust _____ your
 _____ your new _____ offer support _____ upcoming _____?

Will _____ release _____ the _____ 5G _____ are being _____ carriers?
 _____ device have _____ the upcoming 5G frequencies?
 Is _____ model for _____?

Will your new _____ to use _____ for both existing _____ 5G _____?
 Will _____ include support _____ frequencies _____ other carriers?
 Will we _____ for _____ upcoming _____ frequencies _____ carriers _____ next version?
 Is _____ phone _____ future _____ frequencies _____ multiple providers?
 _____ I use _____ upcoming _____ on _____ new model?

Does your model _____ different _____ of _____?
 Is your _____ with _____ upcoming 5G _____ used _____?
 _____ your _____ device _____ the upcoming _____ bands?
 _____ newest version _____ product _____ 5G?
 _____ the new _____ the 5G _____ used _____ many carriers?
 _____ next version include support _____ from _____ carriers?

Does _____ support _____ future _____ frequencies?
 _____ the _____ work _____ 5G network _____?
 _____ the recent model _____ use _____ various frequencies?
 Is your _____ phone _____ with _____ carriers and _____?

Will _____ be _____ use _____ frequencies on _____ new model?
 Can _____ if the _____ of _____ version _____ carrier used 5G frequencies?
 Is your most _____ release _____ with _____ 5G _____ that various _____?
 _____ your _____ release _____ support various network _____ 5G?
 _____ the _____ the different carriers' _____?

Will there be _____ upcoming _____ carriers in _____ next version?
 Can your _____ model _____ bands?
 _____ current device _____ the upcoming 5G _____?
 _____ new _____ back _____ upcoming _____ bands?
 _____ model _____ all _____ bands of different carriers?
 _____ model can handle multiple _____ from _____.
 _____ it _____ your _____ model to _____ 5G frequencies?

Can _____ model handle _____ of _____?
 _____ newest model _____ with different _____ different frequencies?
 _____ your _____ recent models support _____ for _____ and _____?

Can your model accommodate more _____?
 Is _____ latest model _____ with _____?
 _____ the features of the latest _____ an _____ of _____ frequencies?
 _____ version have support _____ the _____ from multiple carriers?
 _____ your new _____ all the new frequencies _____ services?
 _____ your new phones work _____ 5G _____?

Is your new _____ with _____ that _____ carriers use?
 Does _____ latest device _____ the _____ being _____ carriers?
 Can _____ my latest purchase _____ the _____ 5G bands?

_____ the _____ selling support the _____ future 5G _____?

Is your new phone _____ 5G bands _____ various _____?

Can _____ new model _____ for _____ carriers?

_____ diverse _____ use multiple _____ bands in your _____ model?

_____ new _____ able to _____ the _____ bands carriers will _____?

Does your _____ device _____ bands?

_____ your _____ device _____ too?

Is _____ 5G bands used by various carriers?

_____ your _____ model support a _____ bands for different _____?

_____ your latest _____ work with a range _____ by _____?

_____ new model handle all _____ different carriers?

_____ model _____ able to handle _____?

Will the _____ carriers' _____ spectrum stuff?

_____ your _____ new _____ required by different cell services?

_____ the _____ frequencies _____ latest device?

Does _____ handle different _____?

_____ your newest _____ support _____ 5G _____ as well?

_____ your _____ handle _____ bands from _____?

_____ your _____ back many _____ bands?

Is _____ with _____ bands utilized by different carriers?

_____ your _____ device _____ support for _____ frequencies?

_____ model _____ with _____ 5G bands?

_____ handle _____ bands of 5G?

_____ newest model _____ a variety _____ frequencies?

_____ the _____ selling support the _____ and _____ 5G bands?

Does _____ new _____ bands?

Does _____ product _____ support for the _____ 5G frequencies?

_____ the _____ recent _____ use of _____ wireless frequencies?

Can _____ model facilitate multiple _____ different _____?

Does _____ new release _____ range _____ for different carriers?

_____ model _____ with _____ different bands?

Are there different _____ adopted by _____ carriers _____?

_____ the _____ one compatible with _____?

Will your new device operate _____ different _____ different _____ for _____ 5G?

Does _____ model support _____ of frequencies for various _____?

_____ it _____ accommodating a wide range _____ carrier _____ we expect _____ in your new model?

Will _____ able to handle _____ 5G?

_____ latest model _____ with _____ bands from different _____?

_____ your most _____ different bands _____ different carriers?

_____ your most recent release be _____ with _____?

Does _____ latest _____ a variety of _____ used _____?

When _____ comes to _____ a _____ range of _____ bands, can _____ robust _____ your _____ model?

_____ your latest release _____ support the _____?

Can _____ handle all of the _____ bands _____ use?

_____ your new _____ handle all the _____ by _____ carriers?

Do _____ features _____ your _____ version allow _____ 5G?

Can _____ model _____ bandwidths that different carriers _____ using?

Does _____ offer support _____ upcoming 5G _____ too?

Will _____ new device _____ the upcoming _____ by _____ cell _____?

_____ model compatible with the mix _____ used _____ different _____?

Is your _____ with the _____ bands?

Is _____ phone compatible _____ 5G _____?

Will _____ model be able to _____ 5G bands?

_____ your _____ work on different _____ providers?

_____ your new _____ with different _____?

Can _____ model _____ of _____ upcoming 5G bands?

_____ comes _____ wide range of LTE _____ carrier _____ bands, can we _____ robust _____ in your _____ model?

Are your _____ recent _____ with the _____ by carriers?

Will _____ carriers _____ different frequencies for both existing _____ next-Generation _____ technologies?

_____ newest device offer _____ for _____ 5G _____?

Are you _____ to _____ all _____ 5G _____ use?

Will your new device _____ existing _____ networks?

_____ have a _____ that _____ multiple carriers' _____?

Can _____ new model _____ the _____ carriers will use _____?

_____ of the upcoming 5G frequencies?

Is your _____ to handle different _____?

_____ the _____ model work _____ multiple _____ different bands?

When it comes _____ accommodating _____ wide _____ of LTE and _____ carrier-specific 5G bands, _____ robust _____ your _____

_____ the new model _____ bands that _____ be used _____?

_____ version offer support for _____ and carrier _____ frequencies?

_____ you own _____ device that supports _____ frequencies?

_____ the newest version of your product _____ frequencies?

_____ your _____ model _____ to use different _____ frequencies?

_____ new _____ compatible _____ upcoming 5G _____?

_____ new phones work _____?

_____ recent release accommodate the _____ 5G _____ by different carriers?

Can _____ new model _____ 5G bands?

Can _____ newest model work with _____ that _____?

Will you be able _____ use _____ different _____ on _____?
