

[Demo] NLP Dataset for Customer Service Automation

Company Type	Smartphone Manufacturers
Inquiry Category	Pre-sales inquiries and product recommendations
Inquiry Sub-Category	Battery Life and Charging
Description	Customers want insights into the battery life, charging mechanisms, and any additional features related to power management for extended daily usage.
Data Size	5,032 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Smartphone Manufacturer" customer inquiry. (Purchased data will not be masked.)

How efficient is the _____ or _____ periods of _____?

How _____ the _____ is during _____

How efficient the power _____ as when not _____.

A _____ regarding the _____ power consumption _____.

The _____ use _____ during off days _____ periods _____.

_____ no use is _____ a break, _____ the power _____.

What is the effectiveness _____ idling or _____?

What _____ effectiveness of idling _____ used.

_____ is during _____ such as during _____ break _____ when not _____ at _____.

_____ is of _____ efficiency _____ power _____ at rest.

Can _____ know how efficient _____ Standby _____ usage _____?

When _____ is nothing _____ on _____ is _____ use _____ power?

_____ want _____ how _____ the _____ power usage is.

_____ its _____ time, it is _____ of _____ efficiency _____ the power _____.

How efficient the _____ is during lulls, _____ as _____ use.

How efficient _____ when it _____ running?

_____ this _____ consumption efficient _____ times?

While at _____ power usage is a _____.

_____ power use _____ the _____ time?

_____ if power usage _____ rest _____ is _____.

How well _____ electricity use be _____?

_____ the power is _____ when _____ use is made.

The _____ is _____ efficiency _____ the power _____ while _____.

_____ you _____ efficient _____ was _____ idling?

I am _____ about its efficiency _____.

_____ use _____ during idling time?

_____ is the _____ of _____ in the case of _____ use?

_____ in _____ state _____ do the _____ use energy _____?

Is _____ when it's _____ running?

_____ efficiency of the _____ during off _____ and _____ of unused _____.

Are the _____ for devices that _____?

_____ are _____ to check the efficiency _____ silent _____ idling _____.

How efficient _____ lulls in usage, like _____ break _____ not being _____

What _____ efficient use of _____ for _____ time?

What _____ of the _____ rest times?

How _____ electricity be _____ in the _____?

Is _____ of _____ at _____?

_____ energy _____ for devices in the inactive _____?

_____ efficient for devices _____ they are inactive?

The use _____ power _____ rest is _____ question _____.

There are _____ to gauge _____ efficiency _____ or _____ consumption.

_____ the effectiveness of _____ or the _____ used?

Does the energy _____ utilized _____?

During off _____ of unused power _____ the _____ use _____.

_____ efficient during resting _____?

_____ question is posed as _____ energy expenditure is _____.

_____ the _____ hours what _____ the _____ rate _____ use?

_____ you tell us _____ Standby power _____?

_____ use effectively _____ during _____?

_____ was _____ power _____ lulls in _____?

Do _____ mean _____ power efficient _____ mode of _____ standby/idling mode?

_____ the power use efficient _____?

How _____ is power _____ when _____ no _____?

_____ you say _____ the power usage _____ during _____ hours?

_____ when it isn't running?

There _____ question _____ expenditure is minimal _____ idling _____

_____ the energy use efficient _____ devices are _____.

_____ efficient is the power used _____ is _____ going _____?

_____ the power _____ rest times?

_____ is Standby _____ use?

_____ the _____ power use?

What _____ the _____ efficient _____ there are off days _____ of _____?

Do _____ use energy _____ when _____ that _____ not active?

_____ the standby Power _____?

_____ know the amount _____ idling?

Is _____ used well _____ time?

Do you _____ idling?

_____ tell me _____ efficient the _____ is _____ it's not used _____ active _____?

_____ of _____ consumption during _____.

It's _____ of efficiency _____ the _____ usage _____ rest.

When _____ nothing else _____ on, _____ is _____ power's _____?

_____ use energy efficiently if they _____ state?

When _____ nothing _____ on, _____ is the power _____.

_____ efficient _____ is during _____ usage, such _____ a _____ or _____ in use.

_____ power consumption _____ during _____ off _____?

Is _____ amount _____ energy used by _____ in _____?

Is _____ use _____ in _____ inactive state?

What _____ optimum _____ use _____ days _____ periods of _____ power?

____ use ____ rest ____ is ____?
 ____ consumption ____ rest, ____?
 ____ rest ____ is the ____ usage ____?
 ____ this power ____ efficient during ____?
 I ____ know how ____ the Standby ____ is.
 ____ it ____ efficiency at ____?
 ____ resting, what ____ efficient ____ of ____ power?
 ____ is how efficient the ____ is ____ lulls ____ during ____ or not being used.
 ____ efficient ____ power ____ such as during ____ or not ____ used.
 How ____ is the power ____ off ____?
 ____ is the ____ of the ____ rest.
 ____ are ways to ____ efficiency with the ____.
 ____ a question about efficiency ____
 I have ____ efficiency while ____
 ____ the Energy ____ devices ____ a dormant state?
 ____ to use ____ when not doing ____?
 What ____ efficiency ____ the ____ during off ____ periods of unused ____?
 ____ you ____ me ____ efficient power usage is ____ active state?
 ____ how efficient the ____ is.
 I ____ its ____ it is idling.
 Is ____ during rest ____?
 Is the use of ____ efficient ____ are ____?
 ____ efficient when the devices are ____?
 During ____ use, how ____ the power ____ be ____.
 Is ____ efficient during off ____ and ____ of ____.
 When idling ____ question as to whether ____ expenditure ____.
 ____ is a question ____ to whether ____ expenditure ____ idling.
 ____ a question ____ to whether ____ was ____ when idling.
 ____ break ____ when not being used, ____ efficient ____ is ____.
 There ____ a question ____ the ____ the power use ____.
 I ____ know ____ power ____ during the off hours.
 When ____ not ____ how efficient ____ power ____.
 ____ devices are in ____ they use energy efficiently?
 ____ the ____ power use during off ____ of use?
 Are you talking about the ____ a mode ____ consumption such ____?
 When ____ a ____ that is ____ do ____ energy ____?
 Are you talking ____ the ____ mode ____ consumption such ____ backup/idling mode?
 ____ the ____ used by devices be ____ state?
 ____ is ____ effectiveness ____ idling ____ usage?
 Use ____ power during ____ times ____?
 When ____ nothing going on, ____ effective?
 ____ efficient the power is when ____ lulls in usage, ____ a ____ or ____ not ____.
 ____ effective is ____ or ____ power ____?
 Do ____ believe power consumption ____ rest ____?
 ____ is the power ____ in usage, such ____ not ____ use.
 There is ____ question ____ efficiency ____ while ____ rest.
 How ____ is the ____ in ____
 How ____ is ____ power consumption ____ in ____?
 The energy ____ in the ____ state ____ question.
 Was ____ of ____ rest?

_____ am wondering _____ it is _____ is idling.
 _____ the efficiency of _____ power use _____ off _____ and _____?
 The _____ of power _____ rest times _____?
 _____ efficient it is when it is _____?
 During lulls _____ power is?
 The efficiency of _____ power use _____ time _____ question.
 _____ use of _____ during _____ efficient?
 Is _____ optimum _____ use in _____?
 It's how _____ power _____ during lulls _____ as when _____ use is _____.
 _____ power is during lulls in _____ a _____ when no use _____.
 What _____ of idling or _____ power _____?
 It is a _____ efficiency of _____ use _____ off _____.
 There is _____ question _____ power _____ while _____ rest.
 _____ this _____ usage efficient _____ periods?
 _____ you know how _____ the _____ usage is when _____ used _____?
 How _____ the _____ lulls _____ usage such as during a _____ not being _____.
 _____ times, _____ use efficient?
 _____ the efficiency _____ use of silent or _____ power consumption.
 Can _____ tell _____ the _____ is _____ not in use.
 _____ during rest times efficient?
 Is the _____ used _____ devices efficient _____ inactive _____?
 _____ effective is the use _____?
 How _____ can _____ use _____ idling _____?
 There are _____ energy _____ minimal when idling.
 _____ power utilized during rest _____?
 _____ the _____ usage efficient _____?
 Will electricity consume _____?
 The efficiency of _____ time is _____.
 _____ there is _____ going on _____ is the _____ power.
 I have _____ while idling.
 _____ are _____ power use _____ during _____ days and _____?
 What is the _____ efficiency _____ are off days _____ power?
 How well _____ be used _____ idling _____?
 What is the efficiency of _____ is _____?
 _____ there an optimal amount _____ during _____?
 Can _____ the _____ when it _____ idling?
 _____ it _____ power when _____ in use?
 What _____ of the _____ use during the off _____ unused power?
 _____ it _____ power when resting?
 How _____ the _____ a break _____ when no use _____.
 How _____ power _____ during lulls _____ usage, such as during a _____ or _____
 When there is nothing _____ happening, _____ efficiency _____ using?
 _____ efficient _____ power _____ during _____ such _____ during a break or _____.
 _____ at _____ power usage is a question _____.
 _____ question _____ the effectiveness _____ idling or _____ usage of _____.
 It's how efficient _____ in usage, _____ as _____ a break _____ when no _____ is _____.
 _____ you tell _____ how _____ my power _____ is _____ hours?
 How well _____ the _____ be _____?
 _____ is _____ going on, how _____ is power _____?
 Is _____ use _____ when devices _____ inactive _____?

_____ the powerconsumption _____ rest?
 How efficient is _____ usage when _____ ?
 There _____ a _____ whether _____ is minimal when _____
 _____ the energy used _____ during _____ state?
 How _____ electricity _____ during idling?
 Is _____ to _____ use _____ rest?
 I _____ like _____ about its efficiency _____ .
 _____ is Standby Power _____ ?
 _____ power _____ lulls _____ usage or _____ not being used at.
 Is _____ usage _____ during _____ times?
 _____ effectiveness _____ idling or redundant use _____ question.
 _____ at rest is efficient.
 Will rest _____ use _____ efficient?
 _____ off _____ periods of unused power how _____ ?
 Is _____ power _____ time efficient?
 _____ me how efficient the _____ power _____ ?
 Is the _____ efficient _____ devices _____ use?
 I _____ questions _____ efficiency _____ idling.
 _____ use efficiency during off days _____ periods _____ is _____ question.
 _____ give me the _____ the power _____ the _____ hours?
 _____ is _____ lulls in usage, _____ during _____ break _____ being used at all.
 Is _____ use _____ efficient _____ it's not _____ ?
 _____ ways to _____ the efficiency with _____ or _____ power _____ .
 _____ the _____ usage _____ rest _____ efficient?
 _____ efficient _____ is during lulls in _____ a break _____ being used
 _____ you think it _____ efficient _____ use power _____ ?
 _____ effective is power _____ when there _____ going _____ ?
 What is _____ use _____ power _____ rest?
 I would _____ to know _____ is idling.
 _____ efficient _____ power is during lulls, _____ as during _____ when _____ made.
 _____ power _____ at rest?
 _____ there's _____ happening, what is _____ of _____ ?
 _____ efficiency when idling.
 Do _____ of the power during _____ time?
 _____ of _____ efficient when _____ working?
 I wanted to _____ its _____ .
 _____ usage _____ devices that are inactive?
 _____ a question of _____ energy expenditure _____ during _____ moments.
 _____ power use during _____ ?
 Do _____ consumption _____ is efficient?
 What _____ power consumption efficiency _____ off _____ ?
 _____ question is _____ efficiency _____ the power _____ while _____ .
 How efficient _____ there are lulls _____ use?
 What _____ efficiency of the electricity _____ the _____ standby use?
 Is the _____ it isn't _____ used?
 _____ the power _____ rate _____ Standby?
 Is _____ electricity _____ idling _____ ?
 What is the _____ use _____ when _____ off _____ and _____ ?
 _____ want _____ know _____ efficient the power _____ off _____ is.
 _____ nothing going on, how efficient _____ the _____ ?

Is _____ or _____ use _____?

What is _____ power use efficiency during _____ use.

_____ it _____ running, how _____ is _____?

There _____ as _____ whether energy expenditure is _____ moments.

_____ you know _____ efficient it is _____ is _____?

_____ silent or _____ power _____ there _____ to gauge _____.

_____ days _____ of unused power, what is the _____?

_____ me _____ power usage is when _____ used in _____ active state.

_____ a _____ about whether the energy expenditure _____ idling.

I want to know _____ usage is _____ in _____ state.

_____ is the use _____ optimal?

_____ the _____ expenditure _____ during _____ times?

_____ know how efficient it _____ when it's _____.

How _____ use be during the time _____?

_____ energy use _____ when _____ devices are _____ "

_____ efficient _____ power _____ at _____?

The efficiency _____ power _____ times is _____.

How _____ power _____ when there is nothing _____?

_____ there is _____ else _____ is the _____ the power?

What is the _____ electricity used _____ the _____ unused _____?

_____ it optimal to _____ electricity _____?

_____ effective _____ power usage during _____ off _____?

_____ efficient the power _____ in use, _____ as _____ break _____ when no _____ is _____.

_____ the _____ of _____ or use of _____?

There _____ question if _____ minimal during _____ moments

How Efficient _____ Power _____ it _____?

_____ power _____ efficient when rest _____?

Do the devices _____ energy _____?

_____ the _____ when there are _____ usage such _____ break or when _____ use is made.

I have _____ question _____ idling.

_____ mean the _____ when using _____ mode?

_____ used _____ dormant state efficient?

_____ at rest?

_____ you _____ us _____ the _____ efficiency _____ the _____ time?

_____ there _____ little _____ happening, what _____ efficiency of _____?

_____ the _____ use _____ if _____ devices are _____?

_____ of _____ of the power use during _____ off _____.

Is _____ use of idling _____?

_____ the energy efficient _____ in _____?

It _____ possible _____ the efficiency _____ silent _____ idling _____ consumption.

During _____ days _____ of unused power, _____ power use?

_____ the devices _____ inactive, _____ energy _____ efficient?

Is _____ utilized in a dormant _____?

_____ there a minimal _____ expenditure _____?

I'm curious _____ efficiency _____ it's _____.

Is _____ when things are _____?

_____ efficiency _____ powerconsumption at _____?

_____ question as to _____ expenditure _____ minimal _____ idling.

_____ you _____ me _____ efficiency of _____ idling?

_____ could electricity be _____ time?

During _____ and _____ use _____ power use efficient?

_____ is _____ efficiency of _____ days _____ periods _____ unused power?

Is _____ energy _____ devices that are _____?

The efficiency of the _____ at _____ is _____.

Can you tell us _____ Standby _____ usage _____?

_____ devices are not _____ use, _____ use efficient?

_____ efficient the power is _____ lulls of usage, such _____ during a _____ or _____.

When nothing else _____ what is _____ efficiency _____?

_____ the inactive state do _____?

There is a _____ if _____ energy expenditure _____.

When not in _____ how _____ the _____ is when _____ is _____.

_____ efficient _____ the _____ during lulls _____?

Power _____ while _____ time _____?

Is _____ power _____ times efficient?

Do you _____ consumed at _____?

How about the _____ efficient in a _____ such _____ standby/idling _____?

_____ the efficient _____ power usage when _____ in _____?

_____ question is the _____ power use during _____ time.

Is _____ time _____?

_____ the power _____ lulls in _____ during _____ or when _____ being used.

_____ energy _____ in the inactive state?

A _____ of efficiency _____ power usage _____ rest.

_____ rest _____ what is _____ of power?

How efficient _____ Standby _____ be?

_____ it _____ optimal electricity use _____ idling time?

_____ question about efficiency _____ power _____.

How _____ the _____ is during _____ as _____ a break _____ when _____ being _____.

_____ the energy _____ in inactive state _____?

Do devices _____ efficiently _____ an inactive state?

Is the energy _____ by _____ in _____?

_____ electricity _____ downtime?

_____ well _____ electricity _____ during an idling _____?

_____ power use efficient _____ wasteful _____?

_____ is _____ of idling or redundant usage _____?

Power use _____ rest _____ efficient.

_____ tell me _____ efficient _____ is _____ the off hours?

_____ the efficiency of power during _____?

Is _____ to _____ during resting _____?

Do _____ think power _____ rest _____ efficient?

What _____ the efficiency of _____ of power?

How efficient _____ is _____ a lull _____ usage, such _____ during a _____ not _____.

_____ of power used _____ is nothing else going _____?

_____ there _____ electricity _____ during idle _____?

Can _____ tell _____ if it _____ efficient _____?

How efficient the power _____ during lulls _____ break or _____ use is _____.

_____ times _____ power use is _____?

_____ rest time, what _____ efficient use of _____?

_____ how _____ power is _____ usage, _____ as when not _____ use.

_____ is the _____ power use _____ days _____ of unused _____?

_____ is _____ best use of _____ power _____ time?

_____ terms of _____ efficient _____ really is, _____ usage in terms _____ called _____ idling usage.

How _____ can electricity use _____ idling time?

_____ the _____ of _____ in Idling _____?

_____ the _____ use _____ when _____ aren't _____?

_____ question as _____ whether _____ is _____ during idling moments.

_____ what is the _____ of power?

Does _____ energy being _____ state _____?

Is the _____ efficiency rate _____?

_____ if power use _____ times is _____?

_____ question of _____ the _____ during off time.

During _____ times _____ efficient?

_____ is _____ consumption during off _____?

What _____ the efficiency _____ electricity used _____ standby power _____?

How _____ the _____ is when _____ is _____ break _____ being _____.

When there _____ anything else _____ is _____ of power?

_____ there is _____ question _____ to _____ energy _____ is minimal.

_____ this power usage _____ rest _____?

How efficient _____ power is during _____ such as _____ when _____ being _____.

_____ about _____ of _____ or _____ use of power.

Is energy _____ the _____ state _____?

Is _____ energy _____ used _____ state efficient?

_____ is _____ power use is _____ during the off _____.

Is _____ power _____ efficient _____ rest _____?

How _____ is during lulls in _____ as a break or _____.

_____ it _____ efficient _____ use power _____ time?

_____ efficiency _____ at rest.

_____ is a _____ efficiency of power _____ at _____

_____ idling moments is the _____?

What _____ power use _____ when there are periods _____?

_____ you tell me how _____ usage is _____ not _____ active _____?

_____ power _____ rest time?

_____ efficient _____ rest?

_____ effectively _____ during standby?

Is _____ power _____ efficient _____ in _____ active state?

_____ is _____ efficiency of _____ the case of standby _____?

_____ question of efficiency of _____ power usage _____.

_____ use _____ when _____ not running?

What _____ the _____ power efficient _____ off days _____?

When _____ you tell _____ efficient it is?

_____ to _____ how efficient _____ power _____ when _____ not used _____ active state.

Is _____ efficient to _____ when _____ use.

_____ about efficiency of _____ use during off _____.

When _____ happening, what is _____ efficiency _____ the power?

In a _____ inactive, _____ devices _____ energy _____?

_____ is during _____ in use

_____ a question of _____ energy _____ is minimal _____ idling.

_____ you tell me _____ efficient the _____ usage _____ isn't _____ active state?

_____ is question as to whether energy _____.

_____ are _____ to assess the efficiency _____ power use.

_____ a question of the efficiency _____ usage _____.

_____ the energy _____ the dormant _____ efficient?
 How efficient _____ during lulls in _____ such as _____ or when _____ use _____
 _____ there _____ power consumption _____ rest?
 When _____ is _____ happening, how _____ the power _____?
 The _____ power usage at _____ is _____ questioned.
 _____ want to know _____ it's _____ it's _____.
 What _____ of power efficiency _____ off days and _____ unused _____?
 _____ would _____ how efficient it is _____ idling.
 What is the _____ use efficiency _____ off _____?
 A question _____ the power usage _____ at _____
 How efficient _____ is during lulls _____ usage, _____ as _____ break _____ no use _____.
 _____ efficient the _____ at lulls in usage, such as _____ a _____ being _____.
 _____ effective is electricity _____ unused _____?
 _____ the _____ is during _____ in usage, _____ a break or when no _____ is _____.
 When _____ efficient to use _____?
 _____ to use power _____ resting _____?
 _____ question is _____ efficiency _____ the _____ use _____ at _____.
 _____ are ways _____ gauge _____ or idling _____ consumption
 When _____ nothing else occurring, what is _____ of _____?
 When there _____ nothing _____ going on, _____ efficiency?
 How efficient _____ use _____ rest?
 _____ the power is during _____ in use, such _____ in _____.
 What _____ the effective rate of _____ hours?
 If _____ are _____ is _____ use efficient?
 How _____ the _____ is _____ when it's _____ being _____.
 _____ energy use efficient for _____ they are not _____?
 When it _____ efficient is power _____?
 There is _____ about how _____ be used _____ time.
 What is _____ usage _____ during rest _____?
 How effective _____ power _____ anything going on
 _____ use efficient _____ in _____ state?
 There is _____ question _____ idling
 What _____ of idling _____ the use of _____?
 How _____ the power _____ lulls _____.
 _____ the _____ by the devices _____ in inactive _____?
 How _____ is the _____ during _____ time?
 _____ is the _____ of _____ during _____ time?
 When _____ is power _____ effective?
 _____ this the _____ rest times _____?
 How effective _____ when _____ in _____?
 _____ can _____ power be _____ during _____?
 _____ of unused _____ what is _____ power use _____?
 The _____ efficient in a mode of consumption _____ as the _____?
 _____ are power _____ isn't on?
 _____ me _____ the power efficiency during _____ time?
 _____ have questions _____ efficiency when _____.
 Is _____ energy used by _____ inactive state _____?
 How effective _____ power _____ when _____ to do?
 _____ power _____ during _____ time?
 _____ of power used _____ there isn't anything else _____?

How _____ power _____ during _____ of lulls in _____ such _____ during a break _____ when _____ is _____.

Can you _____ an _____ of _____ efficient _____ power _____ is when _____ used in _____ state?

Is _____ usage _____ power effective?

The question _____ efficiency _____ while at rest.

How _____ the power is _____ lulls in usage, _____ when _____.

_____ with the _____ of silent or idling _____ can _____.

What is _____ power efficient in _____ consumption such _____ the _____?

_____ it efficient _____ while not _____?

Do you think that _____?

_____ power _____ rest periods?

How efficient the power _____ lulls in use like during _____ is _____.

I would like _____ know _____ the _____ is.

Whether _____ not _____ is minimal _____ idling _____ a _____.

How _____ is the _____ usage _____?

_____ measure the efficiency of the _____ or _____ power _____.

Is _____ energy use _____ it's _____?

_____ the _____ power _____ at rest?

Power _____ rest can _____.

_____ use efficiency during off _____ periods of _____.

_____ lulls in use, how efficient the _____.

_____ Efficient is the _____?

What _____ of power _____ during _____ off times?

Can you _____ how _____ usage _____ if it's _____ in _____ active state?

Do _____ use energy _____ their _____ is _____?

_____ power efficient is _____ mode _____ consumption _____ the _____ mode.

There is _____ as to whether _____ is _____ idling

Do _____ power consumption _____ rest _____?

Is _____ use _____ for the devices that _____?

_____ am wondering _____ the power _____ is when _____ in the active _____.

_____ a question of whether _____ expenditure _____ when _____.

_____ effective is _____ power _____ when _____ going on?

_____ can electricity use _____ used _____ needed?

_____ in the dormant _____ are _____ energy _____?

_____ is _____ to _____ using silent or _____ power consumption.

_____ the use of _____ optimal?

When _____ are _____ being _____ the _____ use efficient?

Do _____ use _____ efficiently _____ a state _____?

Is power _____ at _____?

_____ rest time _____ use?

_____ energy expenditure _____ at idling _____?

_____ question _____ to _____ energy expenditure is _____ moments

This is a question _____ of the _____ rest.

There are _____ to _____ efficiency with the _____ of _____ consumption.

_____ off time _____ power _____ is a question _____.

Is the power usage _____?

Is _____ being _____ dormant _____ efficient?

_____ in _____ state that's _____ do devices _____ efficiently?

_____ efficient _____ is during _____ in _____ such _____ during a break _____ when no _____ is _____.

Is _____ energy utilized _____ state _____?

How _____ consumption when there _____ little going _____?

_____ is _____ power use _____ off days and _____ of _____?

Is _____ consumption _____ when _____ anything going _____?

Is _____ used _____ inactive _____?

_____ is _____ efficiency _____ the _____ the _____ of a standby power _____?

Is _____ energy _____ it's not _____ use?

_____ power consumption _____ there is _____ going on?

Is the _____ usage _____ during _____?

What's _____ efficiency of _____ during _____?

Do you _____ what _____ idling?

Do you _____ power _____ during rest _____?

Power usage while at _____ of _____.

When _____ is no else going _____ the _____ of _____?

_____ energy being utilized in _____ state _____?

Is the _____ in _____ times?

How efficient _____ use when _____.

Do _____ use _____ in _____ state _____ is inactive?

How _____ is _____ when there isn't _____ going _____.

_____ me how _____ the _____ Power uses are?

I have a _____ idling.

_____ at rest efficient?

_____ it _____ running, _____ the _____ efficient?

_____ consumption _____ rest _____ efficiency?

What _____ use efficiency when _____ nothing _____ going on?

Where is _____ rate _____ power _____ off hours?

How effective is power _____ is nothing _____.

Can you _____ a _____ of _____ of _____ Standby power _____?

_____ you _____ me how _____ it _____ it's idling?

_____ question _____ whether the energy _____ minimal when idling.

_____ you reckon power use _____ rest _____?

_____ efficient the _____ during _____ in _____ like _____ in use.

Is _____ use of _____ in _____?

_____ it _____ to use _____ during _____.

_____ the energy used _____ devices _____ in inactive _____?

_____ using _____ efficient _____ working?

Is _____ efficiency _____ power _____ at _____?

When _____ inactive, do devices _____ energy _____?

_____ is there a question _____ to _____ expenditure is _____.

_____ well can _____ used for _____?

How efficient _____ is _____ lulls in _____ during a _____ or when _____ used.

_____ wondering how efficient the _____ usage is _____ used _____ active _____.

_____ this _____ efficient in rest _____?

_____ the energy use _____ devices are _____ functioning?

There _____ question _____ energy _____ is minimal during _____.

_____ efficient the power is during lulls, such as _____ there _____ no _____ all.

It's _____ to _____ the _____ or idling _____ consumption.

When _____ I _____ question _____ its _____.

_____ used, how _____ the _____ during lulls in usage.

What is _____ efficient _____ off days and periods _____?

When _____ I _____ a _____ about _____.

There _____ gauge efficiency _____ of silent _____ power consumption.

Is _____ at _____ efficient?

_____ efficient _____ during lulls _____ usage, like _____ no _____ is made

Are this _____ use _____ efficient?

How efficient _____ the use _____ the _____ time?

During _____ and periods of unused power, _____ is _____.

Power _____ in _____ is _____?

_____ there's _____ inactive state, _____ devices _____ energy _____?

What _____ the _____ use of _____ rest _____?

What is _____ efficiency rate _____ usage _____ off _____?

_____ the _____ is _____ lulls in _____ during a break or during _____.

_____ you _____ how efficient _____ power _____ is when _____ in _____?

How _____ is _____ power usage _____?

Is _____ efficient _____ there are inactive _____?

_____ days and _____ of _____ are _____ use efficient?

What is the _____ efficient _____ days and periods _____.

Can _____ us _____ efficient the _____ usage is?

Are you _____ about power _____ in _____ mode _____ the standby/idling _____?

When _____ isn't anything else _____ on, what _____ efficiency _____?

What _____ the _____ of _____ electricity _____ case of _____ power use?

_____ are ways to assess _____ silent _____ idling power _____.

_____ electricity _____ used when _____ idling?

_____ a _____ about efficiency, while _____.

_____ is _____ else _____ on what is the _____ of _____?

_____ the use _____ electricity _____ optimal

How _____ is the power _____ when _____ is _____?

How _____ can _____ used during _____ idling _____?

_____ to use _____ power _____ not working?

Is the _____ use _____ the _____ are _____?

_____ you think _____ use _____ rest _____?

What _____ the _____ of the _____ Standby _____ use?

Is it possible _____ efficiently when _____ a _____?

Can you _____ us the _____ of _____ power _____?

_____ efficient _____ usage is when it is not _____ in the active state.

_____ is _____ efficiency of the _____ in _____ case of the _____ power _____?

What is _____ of _____ for _____ rest time?

_____ electricity _____ effectively during _____?

_____ question _____ of the power usage while at _____.

How efficient the power _____ such _____ a break, or when _____ made.

When it's idling, _____ efficient is it?

How _____ the _____ of the power _____?

_____ electricity be _____ in idling _____?

_____ is _____ of _____ of the _____ use during _____ off time.

Is power use _____ during off _____ periods _____?

Do _____ think power consumption at _____.

How _____ the power use _____?

_____ energy expenditure minimal _____?

_____ efficient _____ use _____ during the idling _____?

_____ power is during lulls in usage, _____ not _____.

When _____ is nothing going on, _____ effective _____?

How efficient the _____ during lulls in _____ like _____ or _____.

_____ of the power during rest time _____.

_____ the power _____ during _____ as during _____ break, or _____ not being used _____ all.

_____ efficient _____ power is _____ lulls of _____ during _____ break or _____ no use _____ made.

_____ the power is _____ use such as _____ not being used at all.

Is _____ use of _____ during rest _____?

_____ of the power _____ during the _____ time _____ question.

_____ rest, _____ of _____ consumption?

How well can electricity _____ an _____ be _____?

When there _____ happening, what is _____ like?

_____ think _____ power consumption at _____ is _____.

When it isn't _____ use _____?

When there's _____ on, _____ is power?

Can _____ tell _____ about the _____ efficiency _____ is no _____?

There _____ ways to _____ efficiency _____ or idling power _____.

_____ rest, _____ of _____ use?

I want to know _____ the _____ usage is when _____.

What _____ of _____ electricity used for standby _____?

How _____ use _____ the off hours?

I _____ its efficiency, _____ idling.

_____ use of energy _____ devices _____ in inactive _____?

_____ it's _____ you tell me _____ its _____?

Do devices use energy _____?

How well _____ idling time.

Can _____ tell me the _____ of _____ power usage _____ is _____ in _____ state?

_____ use _____ is efficient?

Are _____ efficient _____ rest times?

_____ using silent _____ consumption, there are ways _____ efficiency.

_____ of _____ at rest

_____ is _____ or power usage?

When _____ about its efficiency?

Do _____ it _____ use power at rest?

_____ rest _____ power _____ is _____?

How efficient _____ use _____ when _____ working?

_____ effective _____ during idling?

I'm wondering _____ efficiency _____.

_____ electricity _____ in unused time?

How efficient _____ power is _____ such as _____ break, _____ no use _____.

_____ electricity be used during _____?

_____ of _____ consumption _____ rest?

_____ this power use efficient?

There _____ ways to gauge the effectiveness _____ power _____.

The _____ use _____ devices are inactive _____ questioned.

Can _____ me what the _____ is during the _____?

What _____ effective _____ of power usage in _____?

Does _____ amount _____ consume _____ during _____?

_____ in _____ is not active, _____ devices use _____ efficiently?

_____ mean _____ efficient in _____ such as the standby/idling?

How _____ are _____ during rest _____?

_____ question about _____ efficiency _____ idling.

How _____ electricity use be during _____?

When it isn't _____ efficient _____ use?

_____ efficient during off _____ and _____ of unused power?

While _____ rest _____ question _____ efficiency _____ the power usage.

What _____ the power _____ when there _____ else _____?

_____ a question _____ to whether _____ is minimal _____.

When _____ nothing _____ the efficiency of power?

The _____ of power _____ at rest _____ a _____.

When _____ running, _____ efficient _____ power _____?

How efficient the _____ is _____ such as _____ used at all.

_____ is _____ efficiency _____ the _____ the off time?

_____ power use during _____ times.

How _____ usage _____ there's nothing going _____?

_____ talking about power efficient in _____ of _____ like _____ standby/idling _____?

Is _____ redundant usage _____ effective?

How _____ be utilized when _____?

There _____ ways to _____ the _____ of _____ power.

There _____ a question as _____ whether _____ are minimal _____.

_____ the _____ expenditure _____ minimal during _____?

Was it efficiency _____ consumption _____?

_____ this powerconsumption _____ rest?

_____ to gauge _____ with _____ or _____ power consumption.

_____ is the optimal _____ of _____ time?

_____ is during lulls in _____ as during _____ break or whenno use _____.

Will _____ during rest time?

During off days _____ is power use efficient?

_____ the energy use _____ when the _____ use?

_____ the _____ of the power _____ rest time?

Is _____ use _____ in _____ dormant _____?

_____ are _____ use efficiency during _____ days and _____ use?

_____ power consumption is _____ at _____?

How well can _____ be _____ the _____?

_____ you _____ consumption _____ is efficient?

_____ power _____ be _____ rest times?

_____ power _____ efficiency during _____ and periods _____ use is _____.

_____ the power consumption at rest _____?

The _____ whether the power usage _____ efficient _____.

_____ question regarding _____ expenditure during idling _____

_____ while idling is a _____.

It is a question _____ the _____ the _____ during _____ off _____.

_____ a question of power usage _____.

How well _____ electricity use _____ used _____?

How efficient is the power _____ such as _____ a _____ or _____ use is _____.

_____ of _____ use _____ time is a question.

I wonder _____ while _____.

_____ there _____ nobody _____ going on, _____ efficiency of power?

_____ use minimal _____ idling?

It is _____ efficient _____ is during the off time.

The _____ is efficiency _____ usage while _____.

_____ efficient _____ power _____ during lulls _____ such as when _____ use _____ a break.

How _____ is power _____ lulls _____?

How efficient ____ power ____ use ____ as a ____ or ____ being used.

____ nothing else is ____ what ____ efficiency of ____?

____ power consumption is ____ at ____?

____ it ____ running, ____ power use?

Is ____ electricity for idling?

____ the power is ____ such ____ during a break ____ when ____ is ____.

____ power ____ off time is being questioned.

____ there is ____ else going ____ the power ____ like?

When ____ is ____ other happening, ____ the efficiency ____?

____ you discuss the ____ efficiency during ____?

Is the ____ when ____ state is ____ active.

When there ____ no ____ on, how ____ power ____?

What's the ____ of ____ or ____ use ____?

There is ____ of it during idling.

____ use of electricity ____ when ____?

Is energy ____ inactive state ____?

____ the use ____ efficient ____ working?

____ efficient the ____ is ____ lulls ____ as during ____ break or ____ not ____ use.

Are ____ able to ____ efficient ____ Standby ____ is?

____ get an ____ electricity use in idling ____?

____ well ____ electricity use ____ during ____ time

____ wondering ____ its efficiency while ____.

____ efficient ____ rest times?

____ there an efficient ____ energy ____ dormant ____?

I am curious about the efficiency ____ the ____.

____ the power use efficient ____ there ____ off ____ periods of ____?

____ devices ____ while in ____ states?

____ use ____ rest efficient?

How efficient of ____ power ____ lulls ____?

What is the power ____ efficiency ____ off days ____?

There ____ a question ____ efficiency of ____ power use ____.

____ is a question ____ whether ____ expenditure is ____ during ____.

____ you ____ the ____ of the power during off ____?

____ isn't any else going ____ what ____ of power?

Are you talking ____ power efficient in ____ mode ____ standby ____?

In standby/idle mode, ____?

How ____ during lulls in ____ like when ____ use.

The efficiency of the ____ time ____.

____ is ____ regarding the ____ energy ____ when idling

____ believe power ____ efficient at rest?

____ mean the power efficient ____ a ____ of consumption ____ mode?

Are ____ power use efficient ____ off ____ periods ____?

____ the ____ use, when it ____ running?

Do devices ____ energy efficiently ____ they ____ in ____?

____ energy use ____ the inactive ____.

When not ____ how ____ power is ____ lulls in ____.

____ is the ____ of ____ the case of ____ power use?

Is ____ usage used during ____?

During idling ____ how ____ be?

When ____ running, ____ is power use?

How ____ is ____ power use ____ ____ ____?

Is ____ power usage ____ rest ____ ____?

____ is ____ efficient ____ of the ____ ____ resting?

____ well ____ electricity use ____ used in ____ idling ____?

____ rest ____ is a question of ____ ____ efficiency.

____ question ____ ____ efficient the ____ ____ ____ while at rest.

How ____ the ____ ____ used during ____ in ____?

____ there is ____ else ____ ____ what ____ the efficiency of ____

When there's nothing ____ happening ____ is ____ efficiency ____ ____?

____ there's ____ else happening, how efficient is ____ ____ ____?

____ the ____ are ____ is ____ use ____?

Is it efficient to ____ ____ when ____ ____ ____ happening?

How efficient ____ ____ power ____ ____ it ____ running

There ____ a question as ____ ____ ____ ____ minimal during idling ____

____ ____ ____ of ____ electricity ____ ____ the standby power use?

____ ____ ____ efficiency ____ power use ____ rest time?

____ ____ energy expenditure okay ____ ____ times?

During ____ moments ____ is a question ____ ____ ____ energy ____ ____ minimal.

____ ____ is the power ____ when it ____ ____?

Is there ____ ____ as to ____ energy expenditure ____ ____ when ____.

How ____ can ____ ____ ____ idling time?

During off ____ ____ ____ of use are ____ power ____ ____?

____ is ____ ____ about whether energy expenditure ____ ____ while ____.

There ____ a ____ ____ whether energy ____ is ____ ____ idling

____ ____ the power ____ during lulls ____ ____ or when ____ in ____.

What ____ the ____ of the ____ ____ ____ days and ____ of unused ____?

Are the ____ ____ during rest ____ ____?

____ you think power consumption ____ rest ____ ____?

____ ____ rest ____ power use is ____?

____ ____ is ____ use when it ____ not ____?

____ ____ of ____ ____ usage of power was asked.

There are ____ to gauge ____ efficiency with ____ ____ ____ of ____ ____ ____ ____ consumption

Can you ____ ____ about the ____ efficiency ____ off ____ ____?

____ it ____ to ____ ____ during resting ____?

How ____ ____ the power ____ when ____ ____ no activity?

Is ____ ____ efficient ____ rest?

____ you ____ ____ ____ rest is efficient

____ ____ the ____ is during ____ ____ ____ during a break or ____ ____ being used.

____ ____ ____ electricity ____ ____ during idling time?

____ power consumption ____ ____ rest?

____ ____ energy use ____ during ____ dormant ____.

____ the energy ____ ____ for devices that ____ not ____?

How ____ ____ the ____ use ____ there ____ nothing ____ on?

How efficient the power ____ ____ there ____ ____ use or ____ there are ____ ____ ____.

Is the ____ ____ ____ efficient in ____ ____?

____ ____ think power consumption ____ rest is ____?

How ____ the ____ is ____ lulls ____ use such as ____ ____ ____ ____ made.

Is ____ efficient ____ use power when ____ ____ is ____?

____ ____ are inactive, ____ ____ ____ energy efficiently?

Do ____ know ____ ____ of ____ during ____?

_____ resting _____ it efficient to _____ ?
 Do _____ think _____ power consumption at _____ ?
 Is _____ use _____ that aren't running?
 Is _____ during rest time?
 What _____ the power _____ efficient _____ the _____ and periods of _____ ?
 There are _____ the _____ with _____ or idling _____ use.
 _____ use _____ time efficient?
 I want to know _____ the power _____ when _____ used _____ active _____.
 The question is _____ efficiency of _____ while _____.
 The efficiency of the _____ used _____ a question.
 _____ the efficiency of the _____ ?
 How efficient _____ lulls in usage such _____ a _____ or when there is _____ at _____.
 Can _____ me _____ power usage _____ when it _____ being used _____ active state?
 How efficient _____ power _____ during lulls _____ such _____ break or _____ use is _____.
 _____ is _____ effectiveness _____ idling or the _____ is _____ used?
 _____ is _____ question as _____ energy expenditure _____ minimal _____ idling _____
 _____ Power _____ efficient?
 There are _____ to _____ out _____ efficiency _____ idling _____ consumption.
 _____ you _____ me _____ efficient _____ power _____ when it's not being _____ in _____ state?
 Is _____ an optimal amount of _____ idling _____ ?
 The _____ use during _____ efficient?
 What _____ efficient _____ the _____ days and periods of _____.
 Can _____ amount _____ standby?
 Do you reckon _____ consumption _____ ?
 What _____ effectiveness _____ idling _____ redundant usage of _____ ?
 _____ believe _____ of power at _____ is efficient?
 What _____ the _____ of _____ power _____ off _____ and periods?
 The _____ when at _____ is a question.
 Can _____ give _____ of the power _____ when _____ isn't used _____ active _____ ?
 _____ how _____ it is _____ idling?
 _____ a question _____ efficiency _____ idling.
 What _____ the _____ idling _____ power usage?
 Is _____ energy _____ efficient _____ not in action?
 _____ is the power use efficiency _____ periods?
 There are _____ the _____ silent _____ idling power consumption.
 _____ effective can _____ use be _____ ?
 _____ the _____ are _____ is the energy _____ ?
 Can you _____ efficient _____ standby _____ is?
 _____ of _____ usage at rest?
 _____ is a _____ of _____ energy expenditure _____ while _____.
 _____ are _____ an inactive state, _____ they use _____ ?
 _____ to _____ efficient it is _____ idling.
 _____ effective _____ use _____ during resting _____ ?
 _____ a _____ if energy expenditure _____ minimal _____ idling.
 There _____ a _____ as to whether energy _____ minimal _____.
 _____ efficient _____ power _____ during lulls in use or _____ all.
 Is the _____ used _____ efficient in _____ state
 _____ there is _____ going on _____ effective?
 Do you know _____ ?
 _____ off time _____ is _____ of the _____ the power use.

____ effective ____ power usage ____ there ____ nothing ____ on?
 ____ there ____ nothing else happening, what ____ the ____?
 ____ idling there ____ a question ____ is minimal.
 Was powerconsumption ____?
 When ____ state, ____ devices ____ energy efficiently?
 What is ____ power ____ days ____ periods of unused ____?
 Does ____ consume efficiently ____?
 ____ the power ____ when not used ____ the active state.
 ____ effective is power ____ off ____?
 ____ of powerconsumption ____ rest?
 ____ effective ____ the power consumption ____ nothing ____ do?
 When ____ or ____ there are ways to gauge ____.
 ____ tell ____ how ____ it is ____ idling?
 There ____ question of whether or ____ expenditure ____ minimal ____.
 ____ it ____ run, how ____ power use?
 Is ____ power ____ rest?
 ____ power use ____ during off ____ unused ____ is questioned.
 ____ the energy ____ efficient ____ it's ____ used?
 There ____ regarding the ____ power ____ during ____ periods.
 ____ to ____ efficiency with silent ____ idling ____ consumption.
 I ____ question ____ its ____ while ____.
 How ____ is power use when ____ no ____?
 How ____ can electricity ____ idling?
 ____ a ____ about ____ while idling.
 ____ anything ____ on, how effective is ____ use?
 ____ is ____ else ____ on, how ____ is the ____ use?
 ____ efficient the power is during lulls ____ when ____ made.
 ____ well can ____ use ____ when ____?
 ____ of power use on off ____ and ____ of ____ power?
 Are power ____ rest ____?
 ____ is the ____ idling or power ____?
 ____ effective can ____ be when ____ nothing going ____?
 Is power use ____ off ____ and periods ____?
 It is ____ of ____ of ____ power ____ during off ____
 When ____ is ____ how efficient is the ____ used?
 During ____ how ____ is power ____?
 ____ the ____ being ____ or ____ effective?
 Can you ____ us ____ how efficient ____ Standby ____?
 How ____ Standby power ____?
 Is energy ____ are ____ on?
 Is ____ use ____ energy ____ when in ____ inactive ____?
 ____ there's ____ happening, how ____ power?
 During ____ and periods of use, what ____ power ____.
 ____ in ____ state ____ use energy ____?
 ____ usage be efficient during ____?
 ____ there is no other ____ happening, ____ efficiency of ____?
 How ____ is during ____ in ____ as a break ____ not used.
 ____ is the efficiency ____ power ____ off hours?
 ____ you ____ the Standby power use ____?
 ____ question ____ efficiency ____ at rest.

When _____ effective _____ power use?

_____ the _____ usage _____ at _____?

When _____ how _____ is the power _____.

_____ is _____ efficiency of _____ that _____ used _____ power use?

The efficiency _____ power use during _____ time _____.

Can you tell _____ about the power _____?

Do devices _____ energy _____ when _____?

How efficient _____ power is during _____ such _____ during _____ or not being _____.

_____ there _____ else _____ what _____ the efficiency of _____ power?

When _____ state, do you know how efficient _____ power _____?

When _____ isn't _____ happening, what _____ the power?

_____ during rest time be _____?

How efficient _____ power is during lulls in _____ such _____ during _____ or not _____.

Do you think _____ rest _____.

How _____ is the _____ time?

_____ the use _____ energy _____ for _____?

During lulls _____ how _____ the _____ is discussed.

_____ power usage during rest _____?

How _____ electricity _____ in _____ time?

_____ is _____ of power _____ resting?

What is _____ power use efficient _____ of unused _____.

The power _____ during _____ time _____?

Is _____ used _____ standby?

I have a _____ while _____.

During _____ periods of unused _____ the _____ use efficient?

Was inefficiency of _____?

Can _____ know _____ efficient the _____ is during the _____ hours?

_____ is _____ efficiency rate of power _____ hours?

The _____ used _____ the effectiveness _____ are _____.

_____ moments, _____ the energy _____ minimal?

_____ well can _____ use _____?

_____ power is _____ lulls in use, such _____ break or when there is _____.

Is _____ power _____ rest time?

_____ the _____ at _____ is efficient?

_____ being utilized during _____ dormant state _____?

How _____ electricity _____ be _____ idling _____?

There are _____ to _____ the _____ of _____ or _____ power _____.

_____ there isn't anything _____ happening, how _____ used?

When there _____ nothing going _____ effective _____ consumption _____?

The _____ of the power _____ in usage, _____ as _____ or _____ not _____.

_____ believe _____ at _____ is efficient?

Is _____ of _____ in _____?

Do you _____ power _____ rest time is _____?

During off _____ periods _____ what is _____ efficient power _____?

_____ use _____ during off days _____ of unused power

There _____ ways to gauge _____ using _____ power consumption.

When _____ is _____ else _____ the _____ of power?

_____ electrical _____ be used _____ idling?

_____ are _____ is the energy use _____?

_____ you know _____ of _____ idling?

Are _____ referring to the _____ mode _____ consumption such _____ the _____?

_____ efficient _____ is _____ lull, such as during a _____ or not _____.

_____ you tell me how efficient _____ the off _____?

_____ is idling _____ use _____ power?

Is _____ use efficient _____ are _____ used?

_____ you _____ me how _____ the _____ in _____ inactive state?

_____ power efficient in a _____ consumption such _____ standby/idling _____?

Does _____ use efficient _____ are inactive?

Can you _____ idea _____ the efficiency of _____ usage?

I _____ curious _____ efficiency _____ it _____ idling.

_____ powerconsumption at rest?

When there _____ going _____ what _____ power use _____ like?

_____ Efficient _____ Power use?

There _____ a _____ if _____ energy _____ minimal during idling _____.

_____ like _____ know how _____ power _____ is when _____ isn't used in _____ state.

There is _____ question _____ whether _____ expenditure _____ idling

Is it _____ to _____ when not _____?

Is _____ of energy _____ for _____?

Was it electricity _____?

When there is _____ what is the _____ of _____?

_____ efficient to use _____ resting time?

_____ not _____ efficient _____ power _____ in usage is a question.

How _____ is power consumption _____ there _____ on?

_____ using power, _____ the _____ idling?

_____ the _____ of energy _____ devices _____ not _____ use?

When _____ are in _____ state that _____ they _____ energy _____?

When in _____ do _____ energy _____?

_____ power use _____ it _____ run?

Are you _____ to the power efficient _____ consumption _____ the _____?

_____ it's _____ devices _____ energy efficiently?

_____ efficiently used by _____ inactive state?

_____ efficient at rest?

What _____ of _____ or redundant power _____?

_____ the _____ use _____ it isn't _____?

_____ efficiency during off days _____ periods of _____

Do you _____ how _____ the _____ usage _____ when it isn't _____ the _____?

_____ well _____ electricity _____ be _____ during _____ time?

_____ power _____ efficiency at _____?

The power use during off _____ is _____.

_____ can electricity be used _____ is an _____?

In _____ is _____ use _____ electricity _____?

Is Energy _____ efficient in _____?

_____ efficiency at rest?

_____ state, _____ devices use _____ efficiently?

_____ use of energy _____ devices in _____ state _____?

The _____ of _____ use during _____ off time _____ a _____

How efficient _____ power _____ running.

_____ how efficient it is when _____ idling.

_____ are ways to measure _____ efficiency _____ idling _____.

What _____ the _____ of the _____ utilized _____ case _____ the standby _____?

When there isn't _____ happening, _____ the _____ power?

What's the effectiveness _____ idling _____?

_____ efficiency of the _____ at rest _____ question.

There _____ efficiency of _____ power use during _____ time.

How _____ the power _____ during _____ such as during a _____ or _____ not _____

How _____ power _____ such as a _____ when not _____ use.

Do _____ mean _____ efficient _____ consumption such as the _____ mode?

What is _____ efficiency of _____ during _____ days and periods _____?

_____ is the efficiency _____ power _____?

_____ is _____ or power being _____?

Is _____ consumption effective during _____?

_____ efficient the power _____ in usage, such as _____ break _____ when _____.

When _____ happening, what is the _____ of _____?

How _____ the power _____ during _____ in usage, _____ as during break or _____

How efficient _____ are lulls _____ usage, _____ as _____ a break or not _____ used.

How efficient _____ during lulls in usage, such as _____ a _____ in _____.

How efficient are _____?

_____ have a question _____ its efficiency _____.

When not in _____ the power _____ lulls in _____

_____ this _____ during rest times _____?

_____ tell _____ the efficiency of the _____ usage in _____?

What _____ the most efficient use _____ power _____?
