

[Demo] NLP Dataset for Customer Service Automation

Company Type	Telecommunications Equipment Manufacturers
Inquiry Category	Product specifications and features request
Inquiry Sub-Category	Connectivity options
Description	Customers request information about the various connectivity options available for the telecommunications equipment, such as Ethernet, Wi-Fi, or Bluetooth.
Data Size	5,126 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Telecommunications Equipment Manufacturer" customer inquiry. (Purchased data will not be masked.)

Does ____ product ____ connections through different ____ such as ____ and ____ ?

____ be able to use an wi-fi ____ an ____ connection ____ the ____ ?

____ it support ____ wi-fi ____ ?

Is ____ a ____ to use both ____ on this ____ ?

Does this ____ simultaneous ____ to ____ ?

____ my ____ to ____ both wi-fi and ethernet?

____ product ____ of ____ at the same time.

____ be connected ____ both networks?

____ this device ____ using both ____ simultaneously?

____ it be ____ use ____ ethernet ____ and ____ wi-fi ____ simultaneously?

____ I ____ able to use ____ an wi-fi connection ____ ethernet ____ at ____ ?

____ this ____ wired and ____ connections at once?

____ to connect to both wired and ____ internet ____ the same ____ ?

____ this ____ allow for more than ____ through both ____ ?

____ this ____ have ____ connections?

____ possible to use various modes like ____ ?

Can ____ handle both ____ and wireless ____ once?

I ____ to ____ to use the ____ multiple ____ on both wired and ____ networks.

____ I ____ to ____ a wi-fi connection and ____ the same ____ ?

Will ____ allow concurrent connections ____ wired ____ wireless ____ ?

____ product can support a number ____ modes, ____ with ____ connections

Is there ____ for connecting to ____ the ____ with ____ technology?

____ is possible ____ both ethernet and ____ fi ____ a ____ .

Can ____ wi-fi and Ethernet be ____ time on ____ ?

____ the product ____ simultaneous ____ networks?

____ way to use simultaneous ____ connections on ____ product?

Is it ____ for ____ product ____ support ____ one ____ through ____ technologies?

Is ____ network links support ____ combinations like ____ ?

_____ product compatible with _____ than one _____ both _____ and _____?
 _____ more than _____ connection through both wi-fi _____ Ethernet?
 _____ enable concurrent _____ access _____ both wired _____ wireless networks?
 Is there a _____ to _____ using _____ wireless at _____ on _____?
 _____ allow simultaneous _____ wired _____ wireless internet?
 _____ product _____ access to _____ and wireless networks?
 Is it _____ through both Ethernet _____ the same time?
 Does the _____ connections via _____?
 Both _____ of _____ be _____ at _____ same _____ with the _____.
 _____ want to _____ it's _____ use _____ product _____ multiple _____ through both wired _____ wireless networks.
 Is _____ to use this _____ connect _____ both _____ once?
 _____ I be able to use _____ an _____?
 _____ I use _____ device _____ connect _____ internets _____ once?
 _____ it _____ the _____ to handle both wired _____ the same time?
 Is _____ use _____ and Ethernet _____ same _____ on this device?
 Does the product _____ for _____ and wireless?
 Is _____ possible to _____ wi-fi _____ Ethernet _____?
 Does the product _____ more _____ one connection _____ wired _____?
 Does _____ both _____ of _____ once?
 _____ be possible to use both _____ ethernet _____?
 Does the _____ option _____ using both networks _____ once?
 _____ it support more _____ connection _____ and ethernet?
 _____ there a _____ Ethernet _____ wi-fi _____ the same time?
 _____ used for _____ and wireless networking _____ the same time?
 _____ the _____ able _____ handle _____ wired and _____ at once?
 Can both _____ be _____ at _____ time?
 _____ it _____ connect through both _____ and _____ simultaneously _____ device?
 Does this _____ support _____ and _____?
 _____ product _____ support _____ modes such as _____ with _____ simultaneous _____.
 _____ the _____ wired and wireless _____ at once?
 _____ can _____ a variety _____ different modes, _____ as _____ with multiple _____.
 Will _____ use _____ both networks?
 _____ it _____ the _____ to support more than one _____ technologies?
 Is it _____ to _____ product _____ wired _____ wireless _____ concurrently?
 _____ the product for both wired _____ networks at _____?
 Does the equipment _____ concurrent _____ both wi-fi _____?
 Does _____ wired and _____ at _____ same time?
 _____ this _____ possible _____ combination _____ connections?
 _____ the equipment allow _____ of _____ networks?
 Is _____ possible _____ the _____ with both _____ ethernet _____ the same time?
 _____ would like to know if _____ is _____ to use _____ product for _____.
 There _____ for using _____ ethernet _____ the _____ on _____ product.
 Do you _____ can connect _____ wi-fi _____ ethernet at _____ same time?
 _____ product _____ more than _____ connection through _____ networks?
 Can _____ both networks _____ the same _____?
 _____ product _____ you connect through _____ wired _____ networks?
 _____ this equipment _____ simultaneous connections _____ both _____ wireless _____?
 _____ for this _____ to _____ dual connectivity capacity?
 I _____ wondering _____ possible to use _____ to _____ multiple wired and _____.
 The product could _____ types _____ internet _____ once.

_____ this _____ enable concurrent connection through both _____ ?

I would like to _____ to _____ wi-fi _____ ethernet at _____ same _____.

I _____ to know if it is _____ use the product _____ multiple _____ wireless

I _____ like _____ if _____ possible to use the product _____ through _____ and _____ networks.

Is _____ a _____ both _____ wi fi _____ on the product?

_____ product can _____ wide variety of _____ example _____ simultaneous connections

Can _____ both _____ of networks at _____ ?

_____ thing handle both _____ of _____ at _____ time?

Can the _____ both _____ and _____ simultaneously?

_____ product is capable _____ handling _____ at _____ time

Is _____ possible _____ use _____ wi-fi to _____ diverse _____ at once?

_____ your fancy product _____ both _____ ethernet _____ same time?

Is it possible _____ this thing _____ do _____ ?

Do _____ think it's _____ fancy product _____ connect _____ both wi-fi and Ethernet _____ same _____ ?

_____ enable _____ wired and wireless _____ ?

Will _____ to use _____ ethernet _____ and _____ wi-fi connection _____ ?

_____ I be able _____ a _____ an ethernet connection?

Will _____ product _____ concurrent access _____ ?

_____ support both _____ connections?

Do _____ connecting with _____ like wi-fi and _____ ?

_____ product allow _____ connections _____ wi-fi and _____ ?

_____ it _____ both _____ methods?

There is _____ if _____ possible to _____ wi-fi and ethernet _____ same.

Do _____ product can _____ internet and _____ at the same _____ ?

Is it possible _____ through both _____ and _____ model?

Is _____ possible _____ have multiple concurrent _____ ?

_____ it possible _____ simultaneous _____ supported _____ this device, _____ both ethernet and _____ ?

_____ know _____ it's _____ to _____ wi-fi _____ ethernet in the same _____.

_____ I _____ able to use both _____ connection at _____ same time?

Can _____ use both an ethernet _____ wi-fi _____ network?

_____ you know _____ both _____ wi-fi connections at the same time?

_____ I _____ both an ethernet _____ connection _____ the _____ time?

_____ it's _____ to _____ both wi-fi _____ at the same time.

The product _____ support several _____ for _____ multiple _____ connections.

_____ support _____ of _____ modes, for example wi-fi _____ ethernet together?

_____ equipment allow _____ connections of _____ wi-fi _____ ?

Is _____ capable _____ and Ethernet?

_____ types of internet connections _____ the same time.

_____ product _____ concurrent _____ to both _____ wireless services?

Will I be _____ use both an ethernet _____ to my _____ ?

Does _____ equipment _____ both wired and wireless _____ ?

_____ the _____ to handle _____ networks _____ ?

Does the _____ simultaneous connections via _____ and _____ ?

It _____ for _____ be supported by the _____

Is this _____ capable of _____ ethernet?

Is _____ possible _____ connect _____ diverse networks _____ once _____ support for _____ ethernet?

_____ this _____ allow _____ use both _____ wireless networks at _____ time?

Does _____ gizmo _____ wi-fi and Ethernet _____ ?

_____ this product allow concurrent _____ to _____ resources?

_____ possible to use _____ modes _____ wi-fi and _____ ?

Does this equipment _____ simultaneous _____ wired and _____ ?

Is _____ possible for _____ to _____ wired and _____ connections at the _____ ?

Can _____ this product _____ both _____ and ethernet _____ the same _____ ?

Is _____ possible to _____ diverse networks _____ same _____ using _____ and _____ technology?

_____ there be _____ wired and _____ on _____ device?

_____ connect _____ both types of _____ at the same _____ ?

_____ it _____ to connect _____ device to _____ ethernet?

_____ this device support _____ and _____ at the _____ time?

_____ can support a number _____ modes, _____ wi-fi and _____ together

Is your _____ compatible _____ both wired _____ connections _____ same time?

_____ it _____ use both wi-fi _____ ethernet at _____ device?

Will this product _____ both wired _____ connections?

Is _____ possible _____ simultaneous connections to _____ this device using _____ wired _____ wireless connection?

Is the _____ capable _____ simultaneous _____ via _____ ?

Can I _____ my _____ both _____ and ethernet?

_____ the product permit _____ connections?

_____ the product _____ than one _____ wi-fi and Ethernet?

_____ your stuff compatible with _____ and _____ hooked up at _____ ?

_____ possible to use _____ wi-fi _____ Ethernet on the _____ ?

_____ I _____ able _____ a wi-fi _____ ethernet connection?

_____ it possible to _____ multiple times _____ wi-fi _____ ?

_____ product _____ both wired and _____ connections at once?

Will _____ product _____ use of _____ and Ethernet?

_____ it _____ to _____ to both _____ at the _____ time _____ product?

_____ allow _____ access to both wired _____ internet?

Does this _____ concurrent links _____ wired _____ networks?

Is _____ to connect _____ both _____ and Ethernet _____ same _____ ?

_____ able to handle _____ two internet _____ same time.

Is it _____ concurrent connection _____ wi-fi?

Is _____ possible for _____ fancy _____ to _____ via both _____ once?

Can I _____ both wired and _____ at _____ with _____ device?

_____ the product work with _____ ?

Is there a way _____ both _____ wi-fi at the _____ ?

The _____ concurrently _____ both types _____ internet _____

_____ it _____ to _____ both Ethernet-WiFi connections on _____ ?

_____ it handle both _____ of _____ at _____ time?

Is it possible _____ this _____ both wired and _____ connections _____ same _____ .

_____ it _____ to _____ a wi-fi _____ connection simultaneously?

Is _____ of _____ both networks _____ same time?

I _____ to know if _____ possible to use _____ at _____ .

I _____ it's _____ to use _____ for multiple connections on both wired and _____ .

_____ this _____ deal with both wired _____ the same _____ ?

_____ the product allow _____ both _____ ?

Is it _____ for _____ and wireless networking _____ the same time?

_____ it _____ to use both ethernet _____ internet _____ product?

Is _____ ethernet and _____ modes on _____ same product?

_____ the product handle _____ different _____ of connections _____ time?

_____ the product support both _____ at _____ same time?

_____ would like _____ know if _____ possible _____ both wi-fi _____ ethernet.

_____ to know _____ possible to use _____ multiple _____ through both wired _____ wireless _____ .

Is it ____ this ____ can ____ wired ____ wireless connections ____ ?
 ____ allow concurrent access through both ____ wireless ____ ?
 ____ to know ____ possible to use both wi-fi ____ at ____ same ____ .
 Can this ____ both ____ and ____ connections ____ one ____ ?
 Is it possible ____ diverse networks ____ with ____ technology?
 ____ wondering ____ it is possible ____ use ____ product ____ on both wired ____ wireless ____ .
 Does this ____ support concurrent connections ____ wi-fi ____ ?
 ____ it support ____ wired and wireless ____ the ____ ?
 The product is ____ two internet ____ at ____ time.
 ____ handle ____ internetconnections at the ____ time.
 ____ let ____ via both networks?
 Is the ____ capable ____ simultaneous ____ via ____ wireless?
 Is ____ of ____ over ____ different channels?
 ____ I use ____ both wi-fi and Ethernet at the ____ ?
 Is ____ thing ____ handle ____ and wireless ____ same time?
 ____ types of internet connections.
 ____ I use ____ ethernet ____ wi-fi at ____ with ____ ?
 Is it possible ____ your ____ to ____ and ____ at the ____ ?
 Do ____ your ____ can connect via both wi-fi and ____ the ____ ?
 ____ be used ____ different modes for ____ with multiple ____ connections.
 The ____ can ____ variety ____ example wi-fi and ethernet ____ .
 Does ____ gizmo support ____ wi-fi and ____ time?
 Is ____ to ____ product ____ wifi and ethernet?
 Does it ____ both ____ of ____ ?
 ____ it ____ more than one ____ and Ethernet?
 ____ product ____ able to ____ both ____ at once?
 Can ____ wired ____ wireless connections ____ on ____ product.
 Do ____ have ____ option to ____ and ethernet ____ the ____ ?
 ____ support both ____ and ethernet ____ ?
 ____ I ____ able to use ____ wi-fi ____ an ____ at once?
 ____ you think ____ stuff ____ and wireless ____ at ____ same time?
 I ____ to know if ____ with both ____ ethernet.
 Will ____ product allow ____ wired ____ wireless networks?
 ____ to know ____ can ____ product for multiple ____ both wired ____ wireless networks.
 Is ____ thing capable of ____ wi-fi ____ ?
 Is this thing ____ do ____ ethernet?
 Will I ____ to ____ and an ethernet connection at ____ same ____ ?
 ____ I ____ product for ____ and ____ networking at ____ ?
 ____ it ____ me to ____ both ____ and wireless ____ once?
 ____ this ____ using ____ networks ____ the same time?
 The product ____ usage ____ wi ____ and ____ .
 There are ____ ethernet and wi-fi ____ a ____ .
 ____ there built-in ____ diverse networks at once ____ wi-fi and ____ ?
 ____ enable ____ internet access ____ wired and wireless?
 Is it ____ to connect both wired ____ time with ____ ?
 Is ____ a ____ that allows ____ through ____ wired ____ wireless?
 ____ possible to connect ____ using ____ ethernet ____ wi-fi simultaneously?
 The product can ____ a number ____ different modes, for ____ .
 The product ____ support ____ modes, for example ____ with ____ .
 The ____ handle ____ kinds ____ internet ____

Is ____ possible ____ to ____ the same time, ____ both ____ and wi-fi?
 ____ to use both ____ and ethernet at ____ time?

Does this ____ support ____ ethernet?

Does ____ device ____ both wi-fi ____?

____ through both wired and ____ with ____ particular model?

____ product handle two ____ of connections ____ once?

Will ____ enable concurrent ____?

Is ____ network ____ for ____ likeWired-Ethernet + ____?

Does the device ____ multiple ____ using ____ a ____ connection?

Does ____ thing ____ wired ____ wireless in the ____?

____ it ____ connect ____ and ____ on this device?

There is ____ question if ____ the ____ for multiple ____ both wired ____ wireless networks.
 ____ this product allow ____ than one ____ through ____?
 ____ a ____ of different modes, for ____ wi-fi and ethernet ____.

If ____ is ____ to use ____ product for ____ wired and ____ networks.

Is ____ possible for multiple ____ connections ____ supported by ____ using both ____ wired ____ connection?

Is it ____ to use ____ and ____ for ____ product?

Does your ____ support ____ wired ____ at the ____ time?

____ possible ____ use both Ethernet ____ at the same time ____?

____ it ____ connect ____ both wi-fi and ____ simultaneously ____ this ____?

Does ____ product supports more than one ____ and ____?

Will ____ offer ____ via wi-fi?

Is it ____ both ____ wi-fi ____ to connect to diverse ____?

____ it ____ for ____ to ____ multiple ____ using ____ wi-fi and ethernet connection?

____ it possible ____ connect ____ fancy ____ wi-fi ____ Ethernet ____ the same time?

Is ____ a way ____ connections on ____ product?

____ it ____ to diverse ____ at the same ____ with the ____ wi-fi and ethernet?

____ your stuff supports having ____ and ____ connected ____ the same time?

There are ____ to use both ____ ethernet on ____.

The ____ can handle ____ types of ____ the ____

____ I be able ____ both a ____ an ____ connection?

____ there support for ____ diverse ____ at once ____ technology?

Will this ____ handle both ____ connections ____ once?

____ hook up the internet with both ____ and ____ once?

Does ____ equipment allow for ____ connections ____ both ____ and ____?

____ this equipment enable ____ connections ____ both ____ and ____?

____ to connect using wi-fi ____ ethernet simultaneously on ____?

The product can support ____ number of ____ modes, ____ and ____.

____ want to find ____ if ____ possible to use ____.

____ I use ____ wireless networks with this ____?

Is this product ____ combined ____?

____ there ____ simultaneous wired and wireless connections ____?

____ to use both ____ connection and a wi-fi ____ the same ____?

Can I have ____ at ____ same time?

Does ____ both ____ wi-fi at once?

Is ____ this ____ to support ____ simultaneous connections ____ both ____ wi-fi and ____ ethernet ____?

____ multiple ____ this ____ both a wired and a ____ connection?

Does ____ thing ____ both ____ of communication ____ time?

____ it ____ to connect to ____ at the ____ time with ____?

____ both wi-fi and ____ work ____?

___ it ___ that the product can ___ both ___ time?

___ it possible ___ use the product ___ wifi ___.

Will this product allow ___ wired and ___?

Will I ___ able ___ use an ethernet ___ connection ___ once?

___ this ___ support ___ than ___ connection ___ wi-fi ___ Ethernet?

___ this product allow ___ access ___ both ___ and ___?

___ dumb ___ your ___ product ___ via both ___ and ethernet ___ same time?

___ the product let for multipart ___ wired ___?

I'm ___ it's possible ___ for ___ connections ___ wired and wireless networks

___ want to ___ the product can support multiple ___ wireless.

I ___ to know if ___ both ___ and ethernet.

___ it possible to do both Ethernet ___ wi-fi ___?

___ it possible to use ___ once on ___ device?

I ___ like ___ if the product can ___ used for ___ both ___ wireless networks.

___ possible for multiple ___ connections ___ be ___ by ___ an internet connection and a wi-fi ___?

___ the ___ of both ___ and wireless devices?

Does ___ support multiple simultaneous ___ both ___ wi-fi ___ connection?

___ product can ___ a ___ of ___ modes, ___ as ___ together.

___ it ___ product ___ handle both ___ and ___ connections at the ___ time?

___ handle both ___ and wi-fi ___ at ___?

I ___ to know ___ is possible to use ___ and ___ same ___.

Is it ___ connect ___ product ___ ethernet ___ wi-fi?

Can ___ and Ethernet connections ___?

___ both internetconnections at ___ same time.

___ can ___ different modes for example ___ multiple ___ connections.

___ this ___ with wi-fi and ___?

___ be possible ___ link via ___ and wi-fi.

___ you ___ Ethernet and ___ simultaneously?

I ___ to ___ if it's ___ to use the ___ for multiple connections ___ wired ___.

Are ___ connect with different ___ like Ethernet ___?

Is it possible ___ to handle ___ wireless connections?

Is ___ for me ___ a ___ connection ___ an ___ at the ___ time?

___ the equipment ___ concurrent ___ of both wired ___?

___ it ___ that ___ handles ___ wired and ___ the same time.

Does ___ equipment ___ concurrent ___ of ___ wireless devices?

___ possible for this ___ to ___ wired and wireless simultaneously?

I ___ know if ___ and ___ can ___ used ___ the ___.

Is ___ possible ___ wi-fi and ethernet hooked ___?

Can the ___ be used for both ___ at the ___?

___ it ___ for ___ fancy ___ connect ___ both ethernet and ___ once?

___ product ___ multipart ___ including both ___ and wireless?

Does this ___ both Ethernet ___?

Is ___ possible for ___ to do ___ connections together?

___ a way to ___ both wi-fi ___ at ___ same ___?

___ it ___ wi-fi ___ ethernet connections?

___ capable of supporting multiple ___ both ___ ethernet ___ a wi-fi connection.

Does the product support ___ one ___ wi-fi and ___

___ it ___ to connect ___ product ___ both wired ___ wireless technologies ___ same ___?

___ you ___ it's possible for your ___ and Ethernet at the same ___?

___ product allow ___ of Ethernet and ___?

____ it possible for ____ product ____ connect ____ wired and wireless ____ time?
 ____ wondering if it was possible to ____ product to ____ both ____ and wireless.
 ____ wi-fi and ____ connections ____?
 ____ the ____ both ____ of ____ at the ____ time.
 ____ the product ____ both wired ____ wireless?
 ____ this ____ handle both ____ Ethernet ____ the same ____?
 ____ handle ____ Ethernet and ____ at the same ____?
 Can ____ both ____ and wireless ____ same ____ with this device?
 Can this ____ connect ____ and ____?
 Is ____ thing ____ both wired ____ wireless simultaneously?
 Is ____ possible ____ thing can ____ wi-fi ____ together?
 Is it ____ connect the ____ both ____ wireless connections?
 I'm wondering ____ it ____ possible ____ use ____ ethernet at ____ time.
 The ____ can ____ a ____ range of modes, for ____ simultaneous ____
 I ____ curious if ____ possible to ____ support multiple ____ through ____ wired and wireless.
 Is ____ hook up to the internet with ____ once?
 ____ the ____ enable concurrent ____ through ____ wireless networks?
 ____ the thing ____ types ____ connections ____ the same ____?
 ____ product allow concurrent access to ____ and ____?
 Is ____ using both wired and wireless ____ on this ____?
 Does ____ to connect ____ both ____ and Ethernet?
 If ____ product for ____ connections ____ both wired ____ wireless networks, I want ____ know.
 Can the system ____ concurrent ____ access with ____?
 ____ it ____ wi-fi at the same time?
 ____ it possible for my fancy product ____ wi-fi ____ ethernet ____ the ____?
 ____ would ____ if ____ to ____ the product ____ connections in both wired and wireless ____.
 ____ I use the ____ for ____ wireless ____ ethernet ____?
 Is it ____ both wi-fi ____ ethernet ____?
 Can ____ both ____ and wireless ____ the same time?
 ____ this ____ connect ____ the internet ____ wi-fi and ____?
 ____ using ____ and wireless networks at the same ____?
 Is it ____ to use a wi-fi ____ ethernet ____?
 ____ product ____ both wired and wireless ____ the same time?
 ____ there ____ to connect ____ multiple networks ____ with wi-fi technology?
 Can I use ____ connect ____ both ____ ethernet simultaneously?
 ____ used for multiple ____ through ____ wired and ____ networks?
 Is it possible ____ use both wi-fi ____?
 Is it possible ____ via ____ ethernet ____ wi- ____?
 ____ you have ____ solution that allows ____ through ____ and wireless ____?
 Is ____ use this ____ connect both wired and ____?
 I wish ____ know ____ the ____ can ____ used for ____ connections ____ both wired ____.
 Is it ____ to ____ both ____ and Ethernet ____ same ____?
 ____ support ____ than one ____ both wi-fi and ethernet?
 Is ____ wi-fi and ethernet?
 ____ wonder ____ thing can handle both wired ____ connections ____ time.
 Does this ____ both wired ____ wireless ____ at ____?
 Will ____ be possible ____ a wi-fi ____ an ethernet ____ time?
 Can the product handle the ____ time?
 Will ____ allow concurrent ____ of ____ wi-fi ____ ethernet?
 Is it possible ____ this thing ____ wired ____ connections?

Can your product connect _____ at the same _____?

_____ it _____ to _____ both _____ and _____ at the same _____?

I would _____ know if it's _____ both _____ and _____ once.

_____ possible with _____ combination _____ Ethernet-WiFi connections?

Is it possible to _____ diverse _____ at the _____ with _____?

_____ it possible _____ to diverse networks _____ built-in _____ ethernet support?

Do both _____ and _____ together?

_____ possible _____ up _____ with both _____ and ethernet _____ the _____ time?

Does _____ handle both wired and wireless _____?

Is _____ to _____ the _____ for _____ ethernet and _____ networking _____?

Can both _____ wi-fi _____ used?

The product _____ both _____ of _____ same time.

_____ can _____ a variety _____ modes, like _____ multiple _____ connections.

_____ the _____ and wireless at once?

_____ more _____ simultaneous connection _____ by _____ device, using both a _____ wireless _____?

_____ can support _____ of _____ example wi-fi with multiple simultaneous _____

_____ and wi-fi _____ together?

Can _____ use the _____ two _____ networking at the _____ time?

_____ can handle a variety _____ modes, for _____ wi-fi _____ multiple _____.

_____ the equipment _____ concurrent _____ both wired _____ wireless _____?

Does _____ handle _____ network types at _____ same _____?

_____ product _____ modes, for _____ wi-fi together.

Can the product _____ of internet at _____?

_____ product allow simultaneous connections via _____ wireless?

It _____ support a _____ for example _____ with _____ connections.

Does this equipment _____ simultaneous _____ wired and _____?

_____ thing _____ of _____ and ethernet _____?

The product _____ of different modes for _____ ethernet _____ together.

_____ the equipment _____ me _____ use _____ and _____ connections concurrently?

Will I be able _____ the ethernet connection?

_____ equipment allow _____ to use _____ types of connections _____?

_____ product could handle both _____ internet _____ the same _____.

_____ it possible to _____ diverse networks using _____ wi-fi _____?

Can both _____ used on _____?

_____ able _____ connect with different modes _____ ethernet?

Will _____ enable _____ access to _____?

There _____ options _____ using _____ and ethernet.

_____ hooking _____ to the _____ with _____ and ethernet _____?

Does _____ equipment _____ both internet and wi-fi?

_____ wonder if _____ is _____ to _____ wi-fi _____ ethernet _____ the _____ time.

I want to know if _____ use _____ product _____ wired _____ wireless networks.

I have _____ question if it is _____ to _____ product for _____ wired _____ wireless _____.

_____ product can _____ a _____ of different modes, _____ multiple _____ connections.

Can _____ product handle _____ the same time?

_____ product can support a _____ of _____ for _____ and _____.

The product _____ capable of _____ at _____.

Does this equipment _____ of _____ wired and _____?

_____ product allow for _____ one connection through _____ ethernet?

_____ product allow concurrent _____ and ethernet?

_____ product allow one connection through _____ wi-fi _____?

Is it ____ for ____ handle ____ wired ____ connections simultaneously?
 ____ I ____ this ____ to both wired and ____?
 ____ way to ____ diverse ____ at the ____ time ____ wi-fi?
 ____ it possible ____ this ____ and ____ and wireless at ____ same time?
 ____ you have ____ allows ____ through ____ wired and wireless networks?
 Is it feasible to ____ and ____ at ____ same ____?
 ____ manage concurrent network ____ using wired & ____?
 ____ want to ____ if ____ is ____ to use both ethernet ____ time.
 The ____ support ____ modes, ____ wi-fi with multiple ____ connections.
 ____ product ____ concurrent internet ____ through both wired ____ connections?
 Will ____ product ____ concurrent ____ of ____?
 Does ____ support ____ wi-fi ____ connections?
 ____ able ____ a wi-fi ____ ethernet connection simultaneously?
 Does ____ concurrent ____ via ____ Ethernet?
 ____ connect to the ____ wi-fi and ____?
 I want ____ if ____ use both wi-fi ____ ethernet.
 ____ am wondering if ____ is ____ to ____ the ____ for ____ through both ____ and ____ networks
 ____ concurrent access through both wired ____ wireless?
 ____ device support ____ both ____ ethernet simultaneously?
 ____ know if this is possible ____ both ____ ethernet.
 ____ to ____ a ____ connection and an ethernet connection ____?
 ____ it support ____ connections ____ wi-fi ____?
 ____ allow ____ links of ____ wi-fi and ethernet?
 ____ there ____ Ethernet ____ wi-fi connections ____ this product?
 Is ____ device able to ____ the same time?
 Can ____ to both ____ wireless ____ same time ____ this product?
 ____ this product ____ for more ____ one connection ____ both ____?
 ____ I ____ both wireless and ____ at the same ____?
 Is it ____ Ethernet-WiFi connections?
 Can ____ use it ____ wired and ____ networking ____ the ____?
 Is it ____ to combine the ____ this ____?
 Can I use ____ connect ____ both ____ and ____ once?
 ____ Ethernet ____ be used at ____ same time?
 Does it work ____ wired and ____ once?
 I ____ wondering ____ it is possible for this ____ use ____ wi-fi ____ at ____.
 Can ____ manage ____ network access ____ wired ____ wireless?
 ____ it ____ to add ____ this product?
 Can this thing ____ connections ____ the same ____?
 ____ possible that ____ will handle both ____ and ____ simultaneously?
 Does ____ permit multipart ____ wired ____ wireless?
 ____ product ____ handle ____ kinds ____ the same time
 ____ to have combined Ethernet-WiFi ____?
 Is ____ product to allow ____ connections ____ both wired and ____?
 ____ product ____ of connections ____ the same time.
 Will ____ device ____ connect ____ of ____ at the same time?
 ____ I ____ my ____ both ____ and ethernet?
 Is it ____ the product to ____ over both wifi ____?
 Do you think ____ fancy ____ connect ____ both wi-fi ____ Ethernet ____ same ____?
 ____ it possible to connect ____ wi-fi ____ Ethernet ____ same ____?
 Is it possible ____ connect ____ wired and ____ simultaneously?

____ this product enable concurrent ____ wired ____ internet?
 Does this product support ____ than ____ connection using ____?
 Is ____ way to connect multiple ____?
 ____ I be able ____ both ____ wi-fi and ____ ethernet ____ once?
 ____ to ____ wi-fi ____ ethernet together?
 The product could ____ handle both _____.
 Does ____ stuff support ____ up ____ the ____ and ____ at ____?
 Can the ____ use ____ and wireless modes?
 I would like to ____ if ____ for ____ use ____ wi-fi and ethernet at _____.
 Does it ____ both kinds ____ the same ____?
 I'm wondering ____ possible to ____ to support ____ and wireless ____.
 ____ allow ____ connect both wired and ____ at ____ same time?
 ____ product can ____ example ____ with multiple concurrent connections.
 ____ your product ____ the ____ wireless connections ____ once?
 ____ me ____ my product can handle both ____ wireless ____?
 ____ you specify ____ modes the product ____ example ____ ethernet ____?
 The ____ could handle both kinds ____ connections _____.
 ____ appliance ____ wired and ____ the same time?
 ____ it connect ____ the ____ using ____ ethernet?
 ____ this ____ connections ____ both wired and wireless ____?
 Can ____ product ____ both wired and ____ networks ____ the ____ time?
 There ____ options to ____ both ____ and wi ____ a ____.
 The product can support a number ____ different ____ multiple _____.
 Can I ____ the ____ both wired and ____ networking ____ time.
 Can this ____ done ____ ethernet?
 ____ to ____ and Ethernet simultaneously ____ this device?
 Is ____ possible to ____ connection ____ ethernet connection simultaneously?
 ____ for ____ to be ____ by this device, with both ____ wired and wireless ____?
 The ____ supports a ____ of ____ modes, ____ wi-fi ____ Ethernet ____.
 Can the system manage ____ network ____ wired ____?
 Will ____ enable concurrent ____ to both wired ____?
 ____ this device ____ both ____ and wireless connections ____?
 I would like ____ know ____ the product can ____ used ____ connections through ____ wireless ____.
 ____ this product support ____ one ____ through both ____ ethernet?
 ____ if ____ be used for ____ connections ____ wired and wireless networks.
 ____ it possible ____ and wireless connections ____ this product?
 ____ want to ____ it's ____ to ____ for multiple connections ____ wired and wireless networks.
 The ____ is ____ to ____ two ____ once
 I ____ to ____ if ____ possible ____ use ____ product ____ through both networks.
 ____ it ____ your fancy ____ connect via both wi-fi ____ ethernet ____ same ____.
 ____ to know ____ possible ____ this ____ use ____ ethernet and ____ at the same ____.
 Is ____ possible to ____ both ____ and ____ at this ____?
 Is ____ possible ____ multiple simultaneous ____ be ____ device, using both a ____ and ____ connection?
 ____ variety ____ modes, ____ example wi-fi and ethernet together.
 Can ____ use a ____ wired ____ wireless networking?
 ____ want to know whether it is possible ____ the ____ connections through both _____.
 Does ____ both wi-fi and Ethernet ____ same time?
 ____ device support multiple simultaneous ____ both an internet ____ connection?
 Is ____ a ____ use both wifi ____ ethernet ____ a ____?
 ____ I be able ____ a wi-fi and ____ at the ____ time?

Is it ____ that ____ thing ____ both ____ wireless at ____ same ____?

Is it ____ a fancy ____ to connect ____ both wi-fi ____?

Does this product ____ more ____ connection with ____ and ____?

Is ____ possible ____ have ____ ethernet and wi-fi ____?

____ use the product ____ and ethernet networking at ____?

Does it support ____ types at ____?

____ handle ____ Ethernet and wi-fi ____ once?

Will ____ be able ____ both ____ and a ____ connection at ____ time?

Will ____ product enable concurrent ____ both ____ wi-fi?

____ possible to ____ the device to ____ wired ____ simultaneously?

Is ____ product to support multiple wired ____ connections?

____ both ____ and ____ together?

____ I ____ the ____ to ____ using both ____ Ethernet?

____ product have the ability ____ wired and wireless ____?

Is ____ possible to connect the ____ using ____ and ____?

Will there be ____ connections ____ wi- ____?

The product ____ support ____ variety of different ____ with ____ simultaneous ____.

Is ____ possible ____ product to support ____ connections, ____ and ____?

Is ____ feasible ____ combined ____ connections?

____ this ____ allow for ____ connections ____ wired and ____ technologies?

Is ____ compatible with ____ connections including ____ and ____?

____ I ____ to ____ a ____ connection ____ an ____ connection at the ____ time.

____ it ____ both ____ and ____ simultaneously?

Yes, ____ support ____ and wireless ____ the same time?

The ____ is ____ handle ____ types ____ connections simultaneously.

Can this ____ use ____ wi-fi ____?

____ it ____ to ____ using ____ wireless at the ____ time on ____?

Is there ____ to ____ using ____ at ____ on ____ device?

Does this ____ concurrent connections of both wired ____?

____ multiple concurrent ____ possible ____ Ethernet?

____ to use both ____ and Ethernet ____ at ____ same ____?

Is it ____ for multiple ____ to ____ this device, using ____?

Does the ____ allow for ____ connections ____ both ____?

Is ____ device to be ____ both networks?

Is ____ possible ____ hook ____ the internet with ____ Ethernet?

____ equipment allow ____ both networks?

Is ____ to ____ Ethernet ____ wi-fi at once?

____ handle both ____ and wireless technologies at ____?

I ____ to see ____ possible to use ____ ethernet.

____ product ____ handle ____ internetconnections ____ the ____ time

____ want ____ know if ____ to ____ both ____ wi-fi at once.

____ it possible ____ support ____ ethernet and ____ simultaneously?

____ I ____ able to ____ an ethernet ____ wi-fi connection ____?

____ thing handle ____ networks ____ the same ____?

____ this product support ____ than ____ via both wi-fi ____?

____ possible to use the ____ for both wired ____ at ____?

____ like to ____ if ____ to use the ____ for multiple ____ through ____ wireless networks

Will I be ____ to use ____ and ____ connection ____?

Does ____ equipment ____ use ____ and wireless simultaneously?

Is ____ possible to ____ and an ethernet connection ____ the ____?

Does _____ using both wired and _____ at _____?

_____ it support _____ network _____ the same _____?

_____ this product _____ connections _____ networks?

Can _____ be _____ both _____ Ethernet at once?

_____ allow multipart connections with _____ and wireless?

_____ it _____ to _____ networks _____ once with built-in support for both _____?

_____ possible _____ use _____ product for wired _____ the same time?

Do _____ support _____ in different _____ with _____ Ethernet?

_____ possible to connect _____ networks at the same _____ with _____?

_____ are _____ to _____ ethernet and wi-fi modes on _____.

Is it possible for _____ fancy _____ to _____ via both _____ the _____?

Will _____ product allow concurrent connections _____ ethernet?

_____ it _____ for multiple _____ be _____ by this _____ both _____ and wi-fi?

Is there a _____ use _____ ethernet and wifi _____?

_____ to connect _____ diverse _____ at once with the help _____?

_____ the product handle _____ the wired and _____ at _____?

Can _____ product support _____ and wireless _____ once?

_____ it possible _____ hook _____ internet _____ both ethernet and _____ at _____?

Can the system use _____ and _____ access?

Will _____ able to _____ both _____ ethernet connection _____ connection?

Should _____ possible to _____ the product to _____ connections through _____ and _____?

Is it possible _____ fancy _____ connect via both _____ and _____?

Does it _____ for _____ connections including _____ wired _____?

_____ would like to know _____ possible _____ use both wi-fi _____.

_____ capable _____ handling _____ wired and wireless connections _____?

_____ want _____ know if it _____ be _____ multiple _____ through both _____ and _____

_____ me _____ use different _____ of wi fi simultaneously?

_____ be _____ with both _____ and ethernet _____ same time?

Does _____ thing have _____ both wired and _____ at _____ time?

_____ this _____ allow concurrent _____ of _____ the internet _____?

Is this device _____ support _____ simultaneous connections _____ wi-fi and _____ ethernet _____?

Does _____ equipment allow _____ of both _____?

Is _____ to _____ simultaneous _____ and ethernet connections?

Is it _____ to use _____ and wi-fi _____ time.

_____ it possible to use _____ wireless _____ networking simultaneously?

_____ it possible _____ combine _____ two _____ on _____ product?

Do you _____ solution that allows concurrent _____ both?

Can _____ this _____ connect both wired and wireless _____ the _____?

Is _____ possible _____ through both _____ and _____ simultaneously?

Can _____ wireless _____ be _____ for this product?

_____ is able _____ handle _____ internetconnections _____ the same time.

_____ possible to support _____ Ethernet and _____?

_____ support _____ with both networks?

_____ it allow _____ use both wired _____ concurrently?

_____ it possible _____ product _____ both _____ and ethernet at _____ same _____?

_____ could handle _____ different types _____ at the _____ time.

_____ this thing _____ both _____ at once?

_____ possible _____ multiple simultaneous connections to _____ supported _____ this device, using _____ and _____ wi-fi _____?

There is a _____ it is _____ for _____ and ethernet.

Both _____ of internet connections _____ simultaneously _____ by _____.

Does this _____ wi-fi _____ ethernet?

_____ it possible to _____ combined _____?

_____ this product _____ with _____ than one _____ through _____ and Ethernet?

_____ this product _____ than one connection between _____?

Would _____ possible _____ product _____ multiple connections through both _____ and wireless?

_____ ethernet and wi-fi _____?

_____ product _____ able to _____ two _____ the same _____.

_____ there _____ way _____ simultaneous Ethernet and wi-fi _____?

_____ a way to _____ using the _____ technologies _____ the _____ on _____ device?

Does this thing work with both _____ wireless _____?

It is possible to use both _____ on _____.

Is _____ possible that _____ can handle _____ and wired connections _____ time?

Does _____ product allow _____ than _____ through _____ wi-fi and _____?

_____ this _____ connect _____ both Ethernet and wi-fi?

Do _____ have _____ to _____ using both _____ ethernet?

_____ use _____ product with simultaneous _____ and wireless connections?

Will _____ you connect _____ both wired _____ wireless?

Is _____ possible to use _____ an ethernet _____ and _____?

Can _____ both _____ and wi-fi _____ model?

_____ product could manage _____ types _____ connections _____ the _____.

Does this _____ concurrent connections of _____ wireless _____?

_____ both wired and _____ networking at once?

There _____ options _____ using both _____ and _____ on _____ product.

Does this model _____ connect through _____ wi-fi _____?

_____ this product capable of _____ through both _____?

_____ it possible for _____ product _____ multiple connections _____ both wired _____?

_____ it connect with both _____?

Is _____ product _____ of _____ connections _____?

_____ it work _____ both wired and _____ same _____?

_____ product _____ a variety of _____ for example wi- _____ for _____.

_____ support both _____ wireless internet simultaneously?

_____ for the _____ be _____ for multiple _____ wired and wireless networks?

_____ the product _____ used _____ than one _____ through both _____ wireless _____?

_____ it _____ hook _____ the _____ wi-fi and Ethernet simultaneously?

_____ it handle both _____ and _____?

Is there _____ way to _____ both _____ at once?

_____ it support _____ these _____ of _____?

Does _____ for concurrent _____ ethernet connections?

Can the _____ and wireless _____ once?

The product can support a variety of _____ example _____ you _____?

_____ this thing _____ both networks _____ time?

_____ simultaneous ethernet and _____ be _____ for _____ product?

Is _____ way _____ connections?

Is _____ through both wired and wireless _____ once _____ this _____?

_____ both wi-fi and ethernet _____ supported _____?

Is it possible _____ product _____ wireless _____ ethernet _____ simultaneously?

Is it possible _____ connect _____ both networks at _____?

Can _____ be _____ wireless _____ on the product?

Does _____ equipment _____ access to both _____ internet?

_____ make _____ product that _____ handle both _____ wireless _____ the same time?

____ it possible ____ both wi-fi ____ ethernet?
 ____ it possible ____ to ____ same ____ using both wi-fi and ethernet?
 ____ possible ____ the ____ wired and ____ networking at the same ____?
 Can ____ product to ____ to both ____ and ____ simultaneously?
 Can ____ and ____ connections ____ simultaneously?
 The ____ is ____ supporting a variety ____ modes, ____ wi-fi ____ simultaneous connections.
 ____ equipment ____ for concurrent connections ____ both ____?
 ____ it possible ____ multiple times ____ wi-fi and ____?
 Can ____ handle both ____?
 ____ this product support ____ through wi-fi and Ethernet?
 ____ product support more ____ connection ____ the two ____?
 Can this ____ to both ____ and ____ networks?
 I ____ if it's ____ use the product to ____ multiple ____ both ____ and wireless.
 Does ____ connections ____ both Ethernet and wi-fi?
 The product ____ to support various modes, ____ multiple ____ connections.
 ____ it possible ____ to ____ networks ____ same ____ using ____ and ethernet?
 Can ____ handle both ____ communication ____ the same ____?
 Is it ____ that ____ do ____ and wi-fi?
 Is ____ to ____ both an ethernet connection ____ wi-fi ____?
 ____ this ____ capable of handling ____ at the same ____?
 ____ product allow ____ through both ____ and wi-fi?
 ____ product ____ support different ____ wi-fi with multiple simultaneous ____.
 ____ product capable ____ handling both wired ____ simultaneously?
 ____ product ____ than one connection through both ____ and ____?
 ____ multiple simultaneous ____ be supported by this device, using ____ networks?
 ____ am wondering ____ can ____ through both ____ and ____.
 ____ and wi-fi compatible?
 Do ____ if ____ thing ____ wired and wireless connections ____ same time?
 Is it ____ connect ____ both wire and ____ the ____?
 ____ allow simultaneous access ____ wired and ____ networks?
 Will ____ use a ____ connection and ____ ethernet connection ____?
 ____ use ____ same product for ____ ethernet networking?
 ____ this ____ both wi-fi and ____ same time?
 Do ____ the option ____ both ____ at ____ this device?
 Can I ____ product to ____ and ____ networks ____ the ____ time?
 Will I ____ able ____ use ____ network connection ____ both wi-fi ____?
 There are options ____ use ____ wi-fi ____ on ____.
 ____ this ____ more than one connection through ____ ethernet?
 ____ it possible ____ your product to ____ both ____ ethernet ____ once?
 Does ____ stuff ____ having both ____ wireless connected at ____?
 Is it ____ to have ____ combination of Ethernet-WiFi ____?
 Is ____ possible ____ have two ____ wireless connections ____ product?
 Is ____ to ____ using both ____ and ____ on ____ device?
 ____ this device capable ____ simultaneous connections using ____ Internet ____ a ____ connection?
 Do I ____ the option ____ both ____ ethernet ____ this ____?
 Is ____ possible ____ connect ____ both wired ____ networks at ____ time?
 Is ____ that ____ product ____ Ethernet-WiFi connections?
 Is it possible ____ wi-fi and Ethernet ____ same ____?
 Can ____ connect to both wired ____ wireless ____ same time ____?
 The ____ able ____ handle two internet connections ____ the ____

_____ device able _____ support _____ using both _____ ethernet and a _____ connection.

_____ product allow _____ through _____ wired _____ wireless infrastructure?

Is _____ to _____ with both wi-fi and Ethernet?

Is it possible _____ simultaneous connections to be _____ this _____ internet _____?

I _____ to _____ it _____ possible to _____ both wi-fi _____ ethernet.

_____ it _____ thing _____ both _____ and _____ networks at the _____ time?

_____ to use both wi-fi and _____ in the _____.

Is _____ possible _____ use _____ wireless with _____ product?

Does _____ equipment support _____ connections of both _____?

Will _____ product _____ concurrent connection _____ wired and _____?

_____ want _____ if _____ is _____ the product for multiple connections _____ both _____ and _____ networks.

Can the product be _____ for _____ and _____?

Does _____ simultaneous _____ of both _____ and Ethernet?

_____ this _____ through _____ wired and wireless networks?

Does your stuff _____ having both _____ wireless _____?

_____ product _____ accommodate a _____ of different _____ for _____ wi-fi with _____.

The product _____ support _____ modes, _____ wi- _____ for concurrent _____.

_____ the _____ simultaneous connections on _____?

_____ the product _____ more than one _____ through _____ wi-fi _____?

Is _____ up to the internet _____ ethernet _____ the same time?

Does the device _____ networks?

Is it possible for _____ handle both _____?

_____ product enable concurrent connections through _____ wi-fi?

_____ it _____ both types _____ the same time?

The _____ can support a _____ of _____ example _____ simultaneous connections

_____ the _____ concurrent connections _____ both wi-fi and _____?

Is _____ possible _____ your product _____ wi-fi and Ethernet _____ same time?

_____ I able _____ wi-fi and _____ at the same _____?

_____ it possible to _____ connections _____ this _____?

_____ know if it _____ to use _____ wi-fi in _____ same.

_____ both ethernet _____ connections _____ used at _____ time?

_____ product can _____ variety _____ different modes, _____ wi-fi and _____ together.

Will I _____ able _____ use _____ an _____ wi-fi connection _____?

_____ to combine Ethernet-WiFi _____ this product?

Does _____ support _____ wi-fi?

The product _____ take both types _____ at _____.

Does _____ device support _____ both _____ ethernet at _____?

Ethernet and wi-fi _____ supported with _____.

I want _____ know if ethernet _____ in _____ same way.

_____ to _____ the internet to _____ wi-fi and ethernet _____?

Is _____ for connecting _____ networks _____ the same _____ wi-fi technology?

Is _____ do multiple _____ connections via _____?

Is _____ of _____ simultaneous _____ using both an ethernet and _____ connection?

Can this _____ be connected _____ both _____ the same _____?

Will this _____ enable concurrent _____ access through both _____?

Can this thing handle _____ ethernet _____ the _____ time?

_____ product can _____ a range of _____ modes, for example _____

_____ equipment capable _____ concurrent _____ wired and wireless?

Can _____ use this _____ connect _____ ethernet and wi-fi _____?

_____ it is possible to use _____ the same.

Is it ____ for this ____ to ____ simultaneous ____ wi-fi ____?

Can you hook ____ internet ____ both ____ and ____ at ____ time?

____ this product ____ than one ____ through ____ networks?

Is it possible ____ a wi-fi ____ at ____ same time.

____ it possible ____ product to both ____ and ethernet ____ the same ____?

Is ____ possible ____ connect ____ wi-fi ____ ethernet?

____ this ____ support ____ through both wi-fi and Ethernet?

____ handle ____ and wireless ____ at the same time?

____ this product ____ through wi-fi and ____?

Is ____ possible ____ this ____ can do ____ Ethernet ____?

Can I use ____ product to connect ____ and ____?

____ handle concurrent ____ using wired and wireless?

____ it possible ____ hook ____ the ____ wired and ____ options at ____ time?

____ this ____ more than one connection ____ wi-fi ____ Ethernet?

____ would like ____ the ____ multiple connections through both wired ____ wireless.

____ it possible ____ product to allow concurrent ____ wired and ____?

Is multiple ____ connections supported ____ using ____ Ethernet ____ a wi-fi ____.

Can your ____ wired and ____ the same time?

Does ____ handle ____ and ____ at the ____ time?

____ I use ____ product ____ to both wireless and wired ____ time?

____ thing handle both wired and ____ same ____.

Can the ____ wired ____ at ____ same time?

The product ____ both ____ internet connections at the ____.

Can ____ both wired ____ wireless ____ at ____ time?

____ this ____ support ____ than ____ connection ____ wi-fi and ethernet

Is it ____ to ____ and Ethernet with ____ model?

Will ____ device allow me ____ use ____ wi-fi ____ the ____ time?

____ it ____ to connect ____ diverse networks ____ time with ____ ethernet?

Is ____ supporting more ____ one ____ through both wi-fi ____ ethernet?

Can ____ ethernet ____ wi-fi be ____ the ____ time?

The product ____ simultaneously ____ both types ____.

Will ____ product ____ you ____ through both ____ wi-fi?

____ device be ____ different networks ____ the same time?

____ you ____ can connect via ____ wired and wireless ____ same ____?

I would ____ to ____ is possible to ____ wi-fi ____ together.

Does this device ____ both wi-fi ____ the ____?

Is ____ an option to connect ____ wired ____ the ____ time?

Is this ____ able ____ handle both wired and ____?

Does ____ support ____ wireless ____ at the same time?

Is ____ a way ____ support both ____ and ____?

____ possible to ____ up ____ with both ____ and ____ at ____ same time?

____ it possible to ____ wi-fi ____ time at this device?

Is ____ concurrent connection ____ using ____?

I ____ like ____ know if this ____ used ____ and ethernet.

I ____ wondering ____ it's ____ use both ____ and ____ in ____ same.

____ the ____ enable concurrent ____ through ____?

____ the ____ of ____ both wired and wireless ____?

Does ____ product ____ than ____ connection through both wi-fi ____?

____ handle both networks at ____ time?

The ____ can ____ types ____ internet ____ simultaneously.

____ I use ____ connect to both wired ____ at ____ time?
 ____ product could handle ____ internet ____ .
 Does it allow using ____ wired and ____ same ____?
 Is ____ product capable of handling ____ wired ____ at the ____?
 ____ the system ____ concurrent ____ access ____ wired and ____?
 ____ you ____ can handle both ____ and Ethernet ____ the same time?
 ____ it ____ to use simultaneous ethernet ____ .
 The product ____ a number ____ different modes, ____ wi-fi ____ connections
 Is it ____ to hook this ____ to the internet with ____?
 ____ this ____ concurrent access ____ both ____ and wireless ____?
 Is it ____ have a ____ connections ____ product?
 Is ____ possible to ____ wi-fi ____ connection simultaneously?
 ____ this ____ support ____ ethernet and ____ simultaneously?
 ____ handle ____ and wireless communications at once?
 Does the product allow ____ wireless ____?
 Does ____ concurrent links of ____ wired ____ wireless ____?
 I ____ wondering ____ is ____ to ____ product for ____ connections in both ____ and ____ networks.
 ____ product handle both ____ connections ____?
 The ____ different modes, ____ example ____ and ____ can you ____?
 Is it ____ connect ____ same ____ using ____ wi-fi and ethernet?
 ____ this product ____ than one connection ____ both ____ Ethernet?
 Will ____ work ____ both ____ ethernet?
 ____ this device handle ____ networks ____ time?
 ____ dual-mode ____ by ____ product, simultaneous over ____ networks.
 ____ this product allow ____ access ____ wi-fi and ____?
 ____ can support ____ variety of ____ example wi-fi together.
 Does ____ allow ____ connections ____ both ____ and ____ network?
 Can this ____ with the ____ and ethernet?
 ____ product can be used in a ____ of ____ simultaneous connections
 Do ____ think ____ product can ____ wi-fi ____ ethernet at ____ same ____?
 ____ this ____ work ____ both ____ and ____ connections at ____ same ____?
 ____ this product support more than ____ single ____ Ethernet?
 The ____ to handle ____ types of ____ at once.
 ____ your ____ product ____ via both ____ at the same ____?
 the product is ____ handle ____ the same ____
 ____ can ____ for example ____ and Ethernet together.
 Will ____ be ____ to use both ____ connections at ____ same ____?
 Does it ____ using ____ and ____ simultaneously?
 The ____ can ____ a ____ different modes, ____ example Ethernet ____ you specify.
 Does ____ work with ____ ethernet?
 Can ____ both ethernet ____ wi-fi ____?
 ____ you specify which ____ product ____ support, for ____ and ____ together?
 ____ it ____ to have ____ wi-fi and ____?
 ____ the product ____ than one connection ____?
 ____ it ____ hook up to the ____ with ____ ethernet and ____?
 Does it let ____ use both ____?
 Will this ____ allow ____ to ____ through both ____ wi-fi?
 ____ there a way ____ wifi and ____ on a ____?
 Is ____ possible ____ to do wi-fi and ____?
 ____ I use the product ____ multiple connections on ____?

_____ to both networks concurrently?

Did _____ work _____ multiple network _____?

Is it _____ product _____ both networks concurrently?

Will _____ allow _____ through _____ wired and wireless?

Is _____ possible _____ this _____ to be _____ to _____ wireless concurrently?

Is it possible _____ connections on _____?

The product _____ to handle _____ of internet _____ the same _____.

Can _____ thing do _____ and _____?

I _____ like to _____ is _____ to use _____ product for _____ connections _____ both wired and _____.

Is there any _____ for Wireless-WiFi and _____ combinations?

Is _____ that your _____ wi-fi and ethernet _____ the same time?

Will _____ allow _____ both wired and _____ networks?

_____ the _____ handle both _____ wireless _____ concurrently?

The product _____ different modes, for _____ with _____ connections.

Do _____ solution _____ concurrent connections through _____ avenues, including _____ wired _____ wireless?

_____ it _____ to connect _____ like _____ along with wi-fi?

Will _____ be _____ to _____ wi-fi connection _____ as _____ ethernet connection?

_____ manage wired and _____ access?

Does _____ equipment _____ connections _____ and wireless?

_____ to connect your fancy product _____ via both _____ and ethernet at the _____?

_____ possible _____ both _____ and ethernet?

The _____ could handle _____ types of _____ internet _____ time.

_____ you know _____ is _____ for your fancy product _____ via both _____ and _____ the same _____?

_____ product _____ handle both _____.

Can _____ product _____ used for both wireless and _____ same _____?

_____ I use _____ product for _____ different _____ networking _____ once?

_____ there _____ use both ethernet _____ wifi modes _____ product?

The product can _____ types _____

_____ capable of _____ and Ethernet _____?

Does _____ allow _____ connect _____ both wired _____ wireless simultaneously?

_____ it possible to _____ devices with this model?

_____ handle _____ wired and _____ at the same time?

Is _____ possible _____ via _____ wi-fi

Do you guys know if _____ to _____ ethernet at _____ same _____?

Does _____ both wi-fi _____ Ethernet?

Can _____ product _____ wi-fi _____ simultaneously?

Will I _____ to use both a _____ and an _____ connection _____?

Is there _____ way to _____ both networks at _____ this _____?

_____ the product _____ and _____ networking at the _____ time.

_____ it possible _____ connect _____ modes, _____ wi-fi _____ Ethernet?

_____ it handle _____ wi-fi and Ethernet _____ time?

_____ the system _____ concurrent _____ wired and _____?

_____ of modes _____ be _____ the product, for example _____ with multiple _____.

Do it _____ both _____ wireless connections _____ time?

The product _____ a _____ modes, for example wi-fi _____ connections.

_____ your stuff support _____ both _____ hooked _____ at _____ same _____?

_____ the product _____ networking types?

Is it _____ to _____ through both _____ and _____ with _____?

The product can _____ Ethernet and _____ simultaneous _____.

_____ can support _____ modes, _____ wi-fi with multiple simultaneous _____

Is it ____ to use ____ product _____ and wireless ____?

_____ product permit more ____ one connection _____ and Ethernet?

_____ product ____ support many different _____ example ____ and ethernet ____.

Is ____ possible to support _____ and wi-fi _____ same ____?

_____ your ____ handle ____ types of connections _____ same ____?

Can ____ be simultaneous ethernet _____ the product?

Is ____ thing ____ to _____ Ethernet together?

The product ____ handle ____ different ____ of connections ____ the ____.

Does this _____ concurrent connections _____ and ____ networks?

The product can support ____ different modes, _____ with _____

_____ it possible _____ both ____ and ____ at the same ____?

I _____ if ____ is ____ to use the product for ____ than one _____ and ____ networks.

_____ support using both ethernet and ____ at ____?

Will _____ concurrent internet access ____ both wi-fi _____?

Is _____ multiple simultaneous _____ both a wired and ____ wireless connection?

Is it ____ connect _____ and wi-fi at ____ same ____ on this ____?

_____ to know _____ product is _____ multiple connections through both _____ wireless

Can _____ both ____ at the ____ time?

_____ system combine _____ wireless for concurrent network ____?

I'm ____ if ____ possible to _____ product _____ connections ____ both ____ and wireless ____.

Is concurrent network links supported _____ like _____?

_____ concurrent ____ links supported for combinations _____ + ____?

_____ the _____ use both wired and _____ at the ____ time?

_____ could handle both ____ of ____ at _____ time.

Does _____ allow ____ connections of _____ and ____ technology?

_____ this _____ to connect ____ both ____ at the ____ time?

Is it possible for this _____ connections _____ wired and ____ connection.

_____ this ____ allow concurrent _____ internet networks?

_____ this ____ allow ____ internet _____ both wired ____ wireless?

Can ____ support ____ Ethernet and _____?

_____ are ____ options _____ both ____ and wi _____ the product.

Does _____ manage concurrent _____ with wired and ____?

I want ____ know _____ possible to _____ and wi-fi.

_____ the product ____ to ____ both _____ the same ____?

I _____ possible to use both ____ and wi-fi.

Is ____ possible ____ the ____ to _____ use of _____ wireless technologies?

_____ know if ____ product ____ handle both _____ connections at the ____ time?

Will ____ be able to _____ a wi-fi _____ anEthernet ____?

_____ both ethernet ____ wi-fi ____ once?

_____ use _____ and wireless networking at the same ____?

_____ it possible _____ a ____ connection on ____ product?

_____ it possible ____ work with ____ and _____ options?

Is ____ possible ____ do ____ wi-fi ____ ethernet at ____ time?

_____ support ____ ethernet ____ wi-fi at ____?

_____ connected to ____ wired and ____ networks at ____ same time?

Does this _____ concurrent connections of ____ and _____?

_____ it _____ wi-fi _____ at the same time at this ____?

I want to know ____ it's ____ use _____.

_____ the same ____ for ____ wireless ____ ethernet networks?

Is ____ device compatible ____ multiple _____ using _____ and a wireless ____?

Does the _____ multiple _____ connections _____ both _____ Ethernet _____ a wi-fi _____?

Is it _____ connect _____ with both wired and _____?

_____ the _____ enable _____ of _____ networks?

Is it _____ for a _____ connect via _____ wi-fi _____ ethernet _____ time?

Is it _____ for _____ simultaneous connections to be _____ this _____ using either _____ connection?

I'd like _____ know _____ the _____ be _____ multiple connections through both _____ and _____.

Does this _____ for simultaneous _____ of both _____ and _____?

_____ possible for _____ fancy _____ to _____ both _____ Ethernet at the _____ time?

_____ this product _____ concurrent _____ both _____ and wireless _____?

_____ I _____ to _____ both networks at once _____ this device?

_____ it _____ product to be connected via both _____ Ethernet at the _____?

_____ equipment allow _____ connections _____ wired and _____ connections?

Can the _____ both _____ and wireless connections _____ same _____?

_____ it _____ connect multiple networks _____ once _____ the help _____ wi-fi _____?

Does _____ wired and wireless _____ same time?

Is it _____ thing _____ handle both ethernet and _____ same _____?

_____ this device be connected _____ at _____?

_____ both ethernet _____ connections be _____?

_____ is _____ to use _____ ethernet and _____ on the _____.

Do you have a _____ that _____ concurrent connections _____ both wired _____?

Will _____ product allow _____ access _____ wired and _____?

_____ possible to _____ the product for multiple connections _____ both wired and _____ networks.
