

[Demo] NLP Dataset for Customer Service Automation

Company Type	Electricity Suppliers
Inquiry Category	Expansion project planning assistance
Inquiry Sub-Category	Renewable energy integration
Description	Customers inquire about strategies and solutions to integrate renewable energy sources into their expansion project, aiming to achieve sustainability goals and reduce reliance on traditional energy sources.
Data Size	8,993 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Electricity Supplier" customer inquiry. (Purchased data will not be masked.)

_____ are _____ to _____ turbines into our expansion plans and _____ reliance _____ power _____?

What _____ the _____ to integrate more _____ turbines as part _____?

There are _____ windmills _____ reduce power use.

Is it possible to _____ turbines _____ dependence on _____?

_____ be _____ to _____ wind _____ in expansion plans?

How do we _____ turbine _____ in _____ while _____ regular power sources?

_____ incorporate wind _____ in our expansion _____ while _____ dependence on _____?

_____ are the _____ can _____ to incorporate _____ our growth strategy?

Adding wind turbines to _____ expansion _____ help _____ sources.

Can we _____ wind turbine to _____ electricity?

Steps _____ wind turbines and _____ on _____ sources?

_____ would _____ to _____ how _____ wind turbine into our _____ without _____ on _____.

_____ steps to _____ wind turbines _____ our _____ plans?

_____ clear _____ to mixing in _____ turbine and _____ on fossil _____?

How do we add wind _____ to our _____?

_____ we incorporate wind _____ into _____ plans when _____ want to reduce _____ regular energy _____?

Is there measures _____ integrate _____ energy?

_____ it _____ to our _____ and use less traditional power _____?

How can _____ wind-based systems be _____ while _____ conventional _____?

What _____ stages _____ get _____ turbine in _____ strategies?

Need _____ wind turbine _____ when _____

_____ are the _____ to _____ turbines?

_____ are the _____ wind turbine into _____ expansion _____?

Integration of wind-based systems _____ be _____ out _____ utilities.

Is there _____ the need for _____ electricity _____ introducing wind _____?

How do we _____ into _____ limit _____ on _____ power sources?

Can _____ me _____ steps that need to be _____ incorporate _____ turbine into our _____?

Can you tell us _____ the steps _____ to _____ to _____ wind _____?

The steps for _____ reduce _____ conventional _____.

How do _____ into expansion _____?

_____ we _____ wind turbines _____ reliance on _____ energy?

Expanding _____ dependence _____ regular power _____ can be accomplished _____ inclusion of _____.

What _____ of integrating _____ turbine into _____ plan?

_____ integrate _____ in _____ expansion _____ while reducing _____ on traditional energies?

How do you _____ to reduce _____ sources by _____ turbine _____ plans?

Are there steps _____ add _____ dependency _____ power sources?

Reducing _____ is _____ wind turbines.

Which _____ need to _____ taken to include wind _____?

How do _____ power sources _____ wind turbines into our expansion _____?

Should windmills be included _____ curtailing _____?

How _____ we _____ turbines _____ plans?

_____ are ways in which _____ be _____ expansion plan.

How do we reduce _____ wind turbine into expansion _____?

_____ to _____ wind _____ our expansion plans and _____ on conventional power _____.

_____ involved in adding wind turbine _____ setup.

_____ us the _____ we need to _____ order to _____ turbines _____ our expansion plans?

_____ best way to add wind turbine _____?

What _____ be _____ turbine into expansion _____ necessity for _____ electricity supply?

_____ the steps _____ use wind _____ in _____ expansion _____?

_____ wind _____ and _____ dependence _____ conventional power _____ are _____.

How can windturbines be used _____ and _____?

_____ possible _____ include _____ turbines into _____ plans and _____ conventional power sources?

Clear steps on mixing _____ on _____ fuels?

How _____ turbine _____ expansion _____ to _____ on old power sources?

_____ while decreasing _____ power would _____ the best _____ to go.

_____ there plans to add wind _____ on _____ energy?

We _____ to _____ dependence on _____ do we incorporate wind turbines _____ plans?

_____ there _____ integrating wind turbines _____ future development plans to _____ dependence _____ sources?

_____ decreasing dependence on _____ how _____ we _____ wind turbine _____?

_____ are _____ steps we should _____ incorporate _____ into _____ growth _____?

_____ we use wind _____ expansion _____ while not using _____ energies?

How _____ we _____ reliance on _____ also incorporating wind _____ in our _____?

There are steps _____ traditional energy _____ turbine _____.

_____ you tell _____ the process _____ integrating wind _____ future _____?

Integration _____ systems _____ while reducing _____ of conventional utilities.

_____ do _____ reliance on traditional power sources and _____ wind turbine _____?

_____ in _____ power into _____ plans?

_____ we add wind _____?

How _____ wind-based systems _____ with _____ use _____ conventional utilities?

Can you _____ us _____ integrating wind _____ into future plans _____ reduce _____ on traditional _____?

_____ in our _____ plan while _____ reliance on traditional energy?

How _____ of _____ be done while avoiding _____?

How _____ we use wind turbines _____ dependence on _____ energy?

_____ can wind _____ fit _____?

_____ there _____ way to _____ need _____ electricity while _____ wind turbine?

_____ we _____ on _____ and add wind turbine?

How should _____ reduce dependency _____ conventional power sources?

_____ there a process to _____ wind turbine _____ dependence _____ energy sources?

____ it ____ to ____ wind turbine ____ dependence on ____ sources?
 Can we cut ____ on traditional ____ turbine?
 ____ decreasing ____ regular power ____ how ____ we ____ wind turbine ____ in ____ operations?
 The ____ expansion ____ be less traditional power.
 What ____ steps we should ____ to incorporate wind ____ the ____?
 Could we add ____ our ____?
 ____ get rid of dependency ____ wind turbine in our growth ____.
 ____ steps to incorporate ____ turbine ____ expansion plans.
 ____ you ____ the ____ of ____ turbine into our ____ plan?
 ____ need ____ to blend wind turbines into ____ expansion ____ and ____ reliance on ____ sources.
 How can ____ cut back on ____ turbines?
 Is there a ____ wind turbines ____ plans ____ reduce dependence ____ sources?
 Can you tell us how to incorporate ____ our ____ and reduce ____?
 ____ there ____ way ____ incorporate wind ____ into ____ plans and decrease ____ on ____ sources?
 Steps needed ____ add ____ less power is the ____.
 ____ can ____ energy from wind turbine installations ____ decreasing ____ fossil fuel?
 ____ should ____ done to ____ in expansion plans?
 ____ decrease reliance ____ traditional energy sources by ____ turbines?
 ____ are ____ for wind ____ integration in our ____?
 ____ wind ____ into expansion?
 I ____ like ____ how ____ our business ____ relying on traditional grids.
 How can ____ traditional ____ sources ____ we integrate wind ____?
 ____ you give an overview ____ of integrating ____ turbine ____ plans?
 ____ you plan ____ reduce dependence ____ traditional ____ by ____ wind ____ into development ____?
 ____ is ____ step towards integrating wind ____.
 ____ to take to include the ____ turbine?
 Steps for ____ reduce ____ on ____.
 We need to ____ our ____ to diminish ____ dependence ____ power.
 Can ____ tell ____ about ____ of incorporating wind ____ the expansion ____?
 ____ want to reduce ____ energy ____ do we do ____ with wind turbine responsibility ____?
 Is there any measures ____ and reduce ____?
 ____ use wind turbine installations ____ lower our ____ fossil ____?
 What ____ that should ____ taken to ____ into ____ growth plan?
 How can wind ____ be done ____ reduce ____?
 ____ we reduce the need ____ regular ____ by ____ turbines?
 We need to blend ____ turbine ____ goals and reduce ____.
 ____ can ____ wind turbine into ____ expansion plans and reduce reliance ____ traditional power?
 ____ turbine, ____ traditional utilities ____ big plan?
 ____ are steps needed to ____ in expansion ____.
 Integration of ____ systems ____ be ____ minimizing usage of ____.
 What are ____ actions that ____ to ____ integrate ____ as part ____ expansion and reduce ____ on conventional ____?
 ____ to ____ to ____ while reducing the use of ____ power.
 Integrating wind-based ____ may be ____ of conventional ____.
 We want to add wind turbines ____ to cut ____.
 Is ____ to ____ need for regular ____ while ____ in ____ turbine?
 We ____ dependence ____ regular ____ how do ____ do that ____ in our expansion plans?
 ____ for adding wind involve ____ conventional ____.
 ____ should ____ incorporate ____ turbine into our ____ plans and how should ____ decrease ____ on ____?
 What can ____ done ____ for traditional electricity ____ into expansion goals?
 ____ there a way to ____ our expansion plans ____ dependence on ____ power ____?

Is it _____ integrate wind turbine _____ energy dependency?

How _____ wind turbine in our _____ strategies to _____ resources?

What _____ be _____ to incorporate wind _____ expansion _____ and _____ need _____?

_____ can wind turbines _____?

_____ are steps _____ could _____ in wind turbine while _____ the _____ for _____.

How can _____ turbines to _____?

_____ are the _____ to integrate more _____ turbines _____ part of expansion _____ reduce _____ power supplies?

_____ systems can be _____ minimizing conventional utilities.

_____ we _____ to include renewable energy from _____ turbine _____ while _____ on _____ fuel?

_____ it _____ bring in wind turbine and _____ electricity?

_____ we add wind turbines _____ on _____ power sources?

_____ we _____ wind turbines into our agenda _____ on power _____?

What are _____ for _____ integration in _____ growth plan.

What _____ the _____ to _____ incorporating wind turbines _____ goals?

There _____ steps _____ to blend wind _____ into _____.

_____ there _____ reduce reliance and integrate _____?

What _____ you _____ should _____ done _____ incorporate _____ turbine into _____ growth _____?

_____ me _____ incorporate wind turbine _____ business without _____ on grids.

_____ are the _____ more wind turbine as part _____ the _____?

_____ consider incorporating _____ turbines into _____ strategy _____ decrease _____ conventional electricity.

_____ possible to _____ of _____ wind turbines _____ future plans to _____ on traditional energy _____?

_____ you _____ to add _____ and _____ reliance on _____ energy?

What can _____ do to _____ wind _____ into _____?

_____ it possible to add _____ traditional _____ both?

Add wind turbines _____ cut _____ on fossil _____.

_____ we _____ dependence on traditional _____ sources _____ wind turbine?

Is _____ any clear steps _____ turbine _____ lessening _____ fossil fuels?

How can _____ diminish reliance _____ wind _____ into our expansion plan?

_____ we include wind turbines _____?

What _____ the _____ actions to integrate more wind _____ dependence _____ conventional _____?

How _____ integrate _____ turbines _____ our expansion _____?

_____ to _____ reliance _____ conventional power sources and incorporate _____ into our _____.

What are _____ to _____ in expansion plans?

_____ do _____ minimize _____ on _____ sources _____ integrate _____ turbine technology?

_____ we _____ wind _____ into our expansion plan while _____ using _____?

How do _____ turbine as part of _____ operations _____ on _____ power _____?

Integration _____ systems _____ be done while _____ conventional utilities.

I want _____ know _____ to _____ wind _____ into _____ expansion plans _____ diminish reliance _____ sources.

_____ can _____ of wind-based _____ be done in a _____ that _____ any _____?

_____ steps that _____ taken when incorporating wind _____ into _____.

Wind turbine _____ reduce _____.

_____ it _____ to _____ wind _____ curtail _____ utilities within _____ plan?

_____ are _____ stages _____ wind turbine and dependency on _____?

What _____ should _____ taken _____ more wind _____ as _____ of expansion to _____ conventional _____ supplies?

Are there _____ steps that _____ need to _____ turbine into _____ plans?

I'm interested in learning how to _____ wind _____ grids.

How can _____ from _____ installations be used _____ decrease _____ fossil _____?

How do _____ fit _____?

Reducing reliance could _____ steps towards integrating _____.

How can _____ energy from _____ while _____ our _____ on fossil fuel?

What ____ must ____ add wind turbine ____ expansion ____?
 ____ to ____ wind turbines ____ part of our ____?
 ____ want ____ cut reliance ____ traditional power sources ____ integrate ____.
 ____ want ____ cut back ____ fuels ____ add wind ____ our project.
 Is there a ____ to ____ turbines ____ development plans?
 ____ reduce our ____ fossil ____ when ____ use renewable ____ wind turbine installations?
 How ____ we reduce ____ on ____ sources with ____ addition of ____ turbine ____?
 We ____ dependence ____ providers ____ how do we incorporate wind ____ plans?
 ____ do ____ wind turbine efficiently ____ of ____ operations ____ decreasing dependence on ____ power ____?
 Talk to me ____ turbine into our ____ without ____ grids.
 We would like to reduce ____ traditional ____ sources ____ into ____ expansion plans.
 ____ reliance on ____ sources by integrating wind turbines?
 We want to reduce ____ regular energy ____ how ____ we ____ wind ____ ethically ____ our ____?
 Integrating ____ wind turbine as ____ of ____ will reduce ____ supplies.
 Can we use wind ____ strategies ____ diminish dependence ____ resources?
 ____ want to know how ____ mix wind turbine ____ on ____.
 ____ turbines, curb ____ utilities ____ plan?
 ____ wind ____ and ____ dependency on conventional ____ sources is ____.
 Reduce ____ traditional ____ by incorporating wind ____ as part ____ our ____.
 What ____ in which ____ turbines ____ be included ____ our growth ____?
 ____ can we ____ wind ____ to ____ old power sources?
 ____ curb traditional utilities within ____ plan?
 How ____ reliance ____ conventional ____ sources and ____ turbine into our expansion ____?
 What ____ the ____ needed ____ integrate more ____ turbine ____ part ____ and ____ dependence on ____ supplies?
 What should be done when ____ wind ____ into ____ goals ____ need ____ traditional ____?
 How can you ____ the ____ wind ____ future plans to reduce dependence on ____?
 Can ____ how we ____ reduce ____ dependence on power ____ adding ____ turbines?
 Can ____ power sources ____ using wind turbines?
 ____ we use ____ turbines in ____?
 ____ in making wind power a ____?
 ____ you ____ how to integrate ____ into our expansion ____ and diminish reliance ____ power ____?
 ____ plan ____ incorporate wind ____ into our ____ plans?
 ____ on ____ in ____ turbines and decreasing ____ on ____ fuels is ____.
 Reduce dependence ____ power ____ turbines as part of expansion ____?
 ____ are ____ going ____ diminish ____ power resources and ____ turbine ____ growth strategies?
 Are there any ____ we could ____ decrease ____ sources and incorporate ____?
 ____ it possible to include wind ____ of ____ while ____ on regular ____ sources?
 Can you give guidance ____ on ____ suppliers ____ of wind turbines?
 Reducing ____ on ____ sources is steps ____.
 ____ there measures ____ & reduce dependence?
 What ____ to do ____ blend wind turbine ____ expansion ____?
 How ____ we reduce ____ by ____ turbine expansion?
 Can ____ incorporate renewable ____ wind turbine ____ dependence on fossil ____?
 ____ we include ____ turbine ____ of expanding operations while ____ regular power ____?
 How do you plan ____ diminish reliance ____ integrate wind turbine into ____?
 There are ____ that need to ____ taken ____ more ____ the ____.
 ____ need to find a way to ____ wind ____ while decreasing ____ dependence on ____.
 ____ do we ____ wind ____ our ____ plans?
 We want to ____ dependence ____ energy providers, and ____ turbines ____ our expansion plans?
 We ____ dependence on regular energy providers, what do ____ do ____ incorporating wind ____ plans?

How do we _____ sources while integrating _____ turbine?

How do _____ to incorporate wind _____ into _____?

Reduce dependence _____ traditional power sources and _____ wind _____ plans?

Can _____ what we can do _____ the wind _____?

_____ me _____ process of integrating wind _____ expansion plan?

_____ there steps _____ old energy and add wind _____?

_____ are steps we _____ take _____ turbine into _____ strategy.

_____ can we _____ wind _____ the _____?

How do you _____ to _____ on traditional energy _____ with the integration _____ future _____?

Is _____ possible to _____ wind turbines _____ expansion _____ to _____?

_____ do _____ wind _____ into expansion goals and _____ reliance _____ typical _____?

How do _____ on _____ sources while expanding the _____ wind _____?

_____ integration into _____ plans _____ curb reliance _____ old power _____.

_____ are the _____ taken _____ turbine and _____ on conventional _____ sources?

How can _____ use wind _____ in _____ diminish dependence _____ power?

Clear _____ mixing _____ wind turbines and _____ on fossil fuels _____.

Wind turbine integration _____ plans to _____ reliance on _____

_____ can we _____ renewable _____ from _____ with less dependence _____ fuel?

_____ the _____ ways _____ integrate wind turbine _____ our _____ plan?

Reducing reliance on _____ sources _____ step _____ adding _____.

_____ you tell us how _____ use wind turbine _____?

_____ can we _____ traditional power _____ and integrate wind _____ expansion _____?

_____ we _____ reliance _____ traditional power _____ by incorporating wind _____ into _____ plans?

Is _____ to _____ wind _____ in our growth _____?

What _____ to _____ wind turbine into _____ goals?

Is _____ possible to incorporate _____ expansion plans to _____ power sources?

_____ need to _____ to add windmills while _____ of _____.

The _____ of _____ wind turbine _____ strategies.

_____ can be done _____ for traditional _____ supply when incorporating _____ turbine _____?

_____ are some _____ needed to _____ our expansion agenda.

We want to reduce dependence _____ providers, but _____ we incorporate _____ turbines _____?

_____ steps _____ to _____ include wind turbines _____ plans?

Use _____ old-fashioned electricity _____ be _____ by _____ devices.

_____ integrate _____ energy, _____ dependence.

_____ we reduce _____ on _____ sources by using _____ turbine expansion _____?

How are _____ to _____ and _____ traditional energy in _____ growth plan?

_____ incorporating wind _____ into expansion _____ for traditional electricity supply _____ should be _____?

_____ a _____ to integrate wind turbines _____ the _____ to _____ dependence _____ traditional energy _____?

Steps should _____ taken _____ turbine _____ expansion agenda.

_____ include wind turbine efficiently _____ part _____ operations _____ decreasing reliance _____ power sources?

How _____ use _____ in our _____ plan?

There _____ steps that _____ bring in _____ turbine and reduce need _____.

How do _____ dependence _____ expanding wind turbine _____?

_____ are a _____ steps involved _____ wind turbine to _____.

_____ integrate _____ turbine _____ reliance on power sources.

_____ can we _____ turbines in _____?

How _____ we _____ renewable _____ from wind _____ while decreasing _____ dependence _____ fuel?

Can you give us _____ description _____ we _____ incorporate _____ turbine into _____?

_____ integration _____ wind-based _____ done while not using _____ conventional utilities?

_____ need _____ learn how _____ wind turbine into _____ business _____ relying on _____.

_____ do _____ incorporate wind _____ in our _____ to diminish _____?
 _____ use of existing _____ sources to _____ turbine _____.
 What _____ which _____ turbine _____ is included _____ our growth strategies?
 How _____ dependence on traditional _____ when _____ integrate _____ turbines?
 Expanding operations _____ decreasing _____ regular power sources _____ we _____ turbines.
 Where to _____ while _____ fuels?
 _____ do you _____ into expansion _____?
 How _____ power into _____ plans?
 _____ going to _____ old _____ sources and put wind turbines _____?
 _____ are _____ that must _____ in order _____ integrate more wind turbine _____ of _____?
 Can you _____ process of _____ wind turbine into _____?
 What _____ incorporating wind _____ in the expansion _____?
 _____ is it _____ done to include wind _____ expansion _____?
 _____ there a way _____ reduce _____ for electricity _____ bringing _____ turbine?
 _____ a _____ of _____ turbine into _____ development plans?
 _____ dependence on _____ wind turbine.
 _____ wind _____ or curb traditional utilities _____ big _____?
 Can _____ tell _____ the steps that need _____ in order _____ wind turbine _____ expansion _____?
 _____ diminish reliance on _____ power _____ and _____ into our expansion plans.
 Is _____ a _____ integrate wind _____ into our _____ plans _____ diminish _____ on _____ sources?
 _____ you _____ me about _____ process _____ incorporating _____ turbine into _____?
 _____ need to incorporate wind _____ into _____ reduce reliance _____ traditional _____.
 Can _____ process of _____ wind turbine into our _____?
 There are _____ to reduce the need _____ regular _____ bringing _____.
 _____ can _____ of wind-based _____ done _____ usage of conventional utilities?
 We _____ turbines _____ agenda and minimize _____ on conventional power sources.
 Is there a way _____ while _____ fuels?
 _____ do we _____ old power sources for wind _____?
 _____ it _____ to _____ wind turbine and cut _____ on _____?
 We _____ integrate _____ turbine _____ our expansion _____ to diminish reliance _____ traditional _____.
 _____ to _____ wind turbine _____ to _____ reliance on conventional power _____.
 How can _____ back _____ fuels when _____ wind _____ our project?
 There _____ needed to _____ and _____ the use of _____.
 _____ wind turbines _____ integrated _____ expanding and reducing _____ energy _____?
 _____ way _____ integrate _____ turbine _____ plans to diminish reliance _____ traditional power sources?
 _____ possible to _____ dependence _____ integrating _____ turbines?
 _____ can we incorporate wind _____ plan?
 Suggestions on _____ to _____ wind _____ into _____ business _____ on _____ grids.
 _____ the _____ of windmills to _____?
 _____ it _____ reduce _____ and integrate wind _____?
 How _____ we _____ wind turbines _____ on _____ sources?
 _____ we include _____ turbine _____ of expanding operations?
 Steps need _____ be _____ to add _____ regular power.
 _____ about adding _____ turbine _____ cutting _____ on old _____.
 _____ to reduce power _____ integrating wind turbine?
 Can wind turbine _____ a _____ that _____ on traditional energy?
 _____ should _____ incorporating _____ turbines into _____ and reducing necessity _____ traditional _____ supply?
 _____ steps _____ we _____ incorporate wind turbine _____ growth strategy?
 Steps must _____ taken to _____ our _____ and minimize reliance on _____ power _____.
 What are _____ steps _____ should _____ to incorporate _____ the _____ plan?

Adding _____ to our project will _____ on _____.

_____ can _____ turbines part _____ our expansion?

Can you _____ an _____ the _____ of _____ wind _____ our expansion _____?

Wind _____ can _____ traditional power sources.

_____ could be _____ with steps _____ wind turbines.

How _____ integrate _____ into our _____?

_____ are _____ to _____ wind turbine _____ expansion plans?

_____ we _____ wind _____ and stop using _____ of _____?

Is _____ to _____ dependence on _____ resources _____ incorporating wind _____?

How can _____ cut _____ on _____ with _____ of wind _____?

What are _____ use wind _____ our _____ strategies?

You would like to _____ to _____ turbines _____ greener _____.

How can _____ turbines into _____ plans _____ reduce dependence _____ traditional _____ sources?

In _____ growth plan, what are _____ turbines?

_____ give _____ of the _____ need _____ take _____ incorporate wind turbine into our plans?

How _____ on conventional energy sources and _____ turbines?

How _____ we use _____ turbine installations as a _____ of _____ decreasing our _____ fossil _____?

Is _____ way _____ wind turbine _____ development plans?

Is _____ possible _____ add wind _____ curb _____ utilities _____ the _____?

How _____ we include _____ turbine _____?

Want _____ how to _____ wind _____?

Can _____ me _____ process _____ putting wind _____ into our _____ plans?

_____ wind-based systems _____ be carried _____ minimizing _____ conventional utilities.

Can _____ give a _____ of the steps _____ to _____ wind _____ our _____?

_____ are _____ integrate wind turbines in expanding _____ reducing _____.

_____ wind _____ curbing traditional _____ are some _____ measures.

How do _____ reduce _____ while expanding _____ turbine?

There _____ wind turbines and reduce dependency _____ sources.

We _____ decrease _____ on _____ sources _____ integrate wind turbine _____ expansion plans.

We want _____ reduce dependency _____ energy and integrate _____ turbine _____.

What are _____ for _____ and _____ on _____ energy _____ our growth plan?

What _____ be done to _____ in _____ turbine _____ reducing _____ electricity?

_____ to integrate wind energy _____?

We _____ on _____ and integrate wind turbine into our expansion plans.

How _____ we _____ on traditional power sources _____ wind _____?

There are _____ follow _____ incorporating _____ into _____ goals.

_____ you tell _____ the _____ of _____ wind turbine _____ future development _____?

Is there _____ way _____ integrate _____ expansion plans _____ reliance on traditional _____ sources?

_____ done to _____ wind turbines while _____ the need _____ regular _____?

Wind _____ the reduction of _____ electricity use.

_____ old electricity _____ with _____ turbines _____ our expansion?

Can _____ give _____ a _____ of _____ needed to incorporate _____ into our _____?

_____ can _____ wind turbines _____ expansion _____ and not _____ on _____ power _____?

How can _____ of _____ be _____ avoiding the _____ of conventional _____?

_____ can _____ reduce electricity dependence _____ turbine capacity?

Can _____ add wind turbines _____ order _____ eliminate _____?

_____ and steps towards _____ turbine _____?

We want to _____ dependence on regular energy providers, _____ turbines _____ our plans?

Can you tell _____ we can _____ turbines _____ expansion _____?

How _____ we use wind turbine _____ expand _____ on _____?

____ of ____ electricity can be reduced by ____ ____ _____.
 ____ steps on mixing ____ wind ____ and ____ fossil fuels ____ sought.
 ____ wind ____ our expansion ____ less traditional ____ sources?
 What ____ to integrate more ____ turbines as ____ of ____ expansion?
 How ____ turbines be used ____ and reducing ____?
 Where to ____ the use ____ fuels ____ include ____?
 Should ____ wind ____ traditional utilities in our ____?
 ____ do we reduce ____ on ____ sources and ____ turbines ____ expansions?
 What are ____ wind turbines ____ be ____ into our growth ____?
 Expanding ____ while ____ on ____ can ____ the inclusion of wind turbine.
 ____ need ____ add ____ turbine to our ____ to ____ back on _____.
 In order to reduce ____ conventional ____ supplies and ____ more ____ the necessary ____?
 We ____ on regular energy providers and ____ do ____ with ____ machines?
 ____ should be ____ blend wind ____ the expansion _____.
 Reducing reliance on ____ is one of the _____.
 ____ to ____ taken to blend ____ into our expanded _____.
 How ____ we ____ reliance ____ energy while incorporating ____ in our ____?
 ____ of ____ could be ____ reducing usage ____ conventional utilities.
 How do you ____ power ____?
 Steps for adding wind include _____.
 There are ____ to bring in wind turbine while ____ needing _____.
 What ____ done ____ reduce ____ need for traditional ____ supply ____ incorporating wind ____ expansion ____?
 ____ we ____ our dependence ____ traditional energy ____ turbines?
 ____ explain the process ____ integrating ____ turbine ____ expansion plans?
 Is ____ any way ____ the ____ the introduction ____ wind turbines?
 ____ be done to ____ turbines into expansion ____?
 What can we do ____ diminish dependence ____ power ____?
 Is it ____ wind turbines ____ power dependency?
 ____ we ____ turbine and cut reliance ____ energy?
 ____ are ____ wind turbines and ____ dependency on ____ energy.
 ____ done to incorporate ____ turbine ____ and reduce need for ____ electricity?
 How ____ you explain ____ of adding wind ____ our ____?
 ____ can ____ reduce ____ on traditional ____ while also ____ turbine in ____ expansion ____?
 ____ it possible ____ include ____ need for fossil fuels?
 ____ integrate wind ____ dependence?
 Is ____ to include ____ turbines into our ____ plans and ____ sources?
 What can ____ do ____ turbine goals into ____?
 ____ there any ____ turbine and cut ____ on ____ energy?
 What steps ____ be ____ to ____ turbine ____ expansions?
 How ____ we ____ dependence on traditional ____ when ____ wind ____?
 Is ____ a way to ____ wind ____ the future ____?
 Can you tell ____ take to ____ wind turbine into ____ plans?
 ____ need to ____ taken ____ decreasing use of power.
 ____ adding ____ turbines and reducing dependence ____ power ____?
 ____ do you ____ to diminish dependence on power ____?
 How can we ____ turbines ____ our ____ plans so ____ traditional ____ sources?
 ____ mixing in wind ____ and ____ reliance on fossil ____ are _____.
 How ____ wind ____ be used ____ while decreasing electricity ____?
 ____ do we reduce ____ power ____ integrating ____ turbine into ____ plans?
 ____ would ____ reliance ____ power sources and incorporate ____ turbine into ____ plans.

Reducing reliance _____ wind turbine?

_____ possible to blend wind _____ and _____ reliance on _____ sources?

Is it possible to _____ limiting _____ need _____ fossil _____?

How can _____ wind _____ in _____ expansion _____ while _____ using traditional _____?

_____ integration of wind-based _____ out with minimal usage _____ utilities?

How can we _____ to _____ dependence _____ sources _____ integrating wind turbines into _____?

What _____ we _____ to include _____ turbines _____ our _____?

How can wind _____ expansion?

_____ to mixing in _____ reducing reliance on _____ fuels?

We need _____ turbine _____ our agenda to minimize _____ on _____.

How do _____ dependence on traditional _____ when incorporating _____?

We _____ from wind turbine _____ decreasing _____ dependence _____ fossil fuel.

Clear _____ mixing in wind _____ and _____ on fossil fuels _____.

Reducing _____ one _____ wind turbine.

How _____ we _____ turbines into _____ expansion _____ minimize reliance on _____ sources?

_____ can we diminish _____ traditional power _____ by _____ wind _____ our _____ plans?

How can we _____ the _____ electricity _____ increasing the _____ wind _____?

How _____ integrate wind _____?

_____ wind turbine in _____ expansion?

What _____ used to _____ turbines in _____ growth _____?

_____ steps _____ reduce the need for _____ electricity and _____ wind _____.

Is _____ a _____ for integrating wind turbine _____ reducing reliance _____ traditional _____ sources?

Add _____ turbine, _____ the big plan?

Is _____ incorporate _____ turbine into our expansion plans and _____ our reliance _____ power _____?

We want _____ dependence on _____ energy _____ do _____ incorporate wind _____ responsible into our _____?

How do _____ reliance _____ old _____ sources _____ the integration of _____?

Clear _____ to mixing in wind _____ decreasing _____ fuels?

_____ to _____ wind turbines into _____ expansion _____ to decrease _____ on conventional power _____.

_____ in _____ wind power _____ expansion _____?

_____ operations _____ decreasing reliance on _____ sources can be _____ by _____.

What is _____ to _____ wind _____ into expansion goals _____ reduce _____ traditional _____ supply?

What steps are _____ turbine _____?

What are the necessary _____ integrate more _____ turbine as _____ of _____ dependence _____ supplies?

_____ steps can _____ take _____ blend _____ into expansion _____?

What _____ should _____ taken _____ include _____ in _____ plans?

Can _____ us _____ integrate _____ turbine in our _____?

We need _____ blend wind turbine _____ reliance on conventional _____.

_____ steps _____ to be _____ wind turbines in expansion _____?

Add _____ and _____ dependency on _____.

_____ steps _____ can _____ to _____ wind _____ into expansion goals?

How _____ we reduce _____ old _____ sources by _____ turbine _____ expansion _____?

_____ we _____ and _____ wind turbine?

How _____ on traditional _____ sources when _____ wind turbine?

_____ stages _____ use wind _____ in _____ growth strategies?

Can you _____ us the _____ need to take _____ our plans?

_____ we blend wind turbine _____ goals and be less _____?

Can _____ use wind _____ instead of old _____?

_____ the _____ for traditional _____ supply when using wind turbine expansion _____?

_____ we integrate wind turbines _____ plans _____ stop _____ old _____ sources?

What _____ the necessary actions _____ as _____ of expansion?

_____ wind turbine into _____ goals and reducing _____ electricity, _____ steps _____ taken?
 _____ reliance, _____ towards _____ of wind _____?

Is _____ way to include windmills _____ fossil _____?

_____ are _____ diminish reliance on traditional power _____ wind turbine into _____ expansion _____?

How do _____ to _____ on conventional power _____ and _____ wind turbine _____ plans?
 _____ with wind turbines, any insights?

Can _____ integration of wind turbines _____ our _____ plans?
 _____ wind turbines, _____ curb traditional _____ in _____ plan?
 _____ windmills _____ the expansion _____?

_____ do _____ force wind turbine _____ expansion _____?

How _____ we decrease _____ dependence on _____ energy from wind turbine _____?

How _____ wind turbines into our expansion plans and _____ traditional _____?
 _____ need to add wind _____ to _____ fossil fuels.

While decreasing _____ regular power sources, _____ wind turbine _____?

How _____ we _____ wind _____ expansion plans?

_____ some actions _____ need to _____ taken _____ integrate more wind turbines as _____ expansion.

What steps should _____ taken to _____ traditional electricity _____ when _____ wind _____?

How could _____ integration of wind-based systems be done _____ of _____?

Can we use _____ in our _____ plan _____ reliance on _____?

Reducing _____ is _____ of _____ steps taken towards _____.

_____ can we _____ in _____ expansion plan _____ reliance on _____ energy?

We want _____ reduce _____ providers, _____ how _____ we incorporate wind _____ our expansion plans?
 _____ steps that need _____ be taken _____ add _____ use of regular _____.

Add _____ curb _____ in the _____ plan?

What are the _____ needed _____ turbine integration in _____?

_____ energy from wind _____ installations while decreasing _____ dependence on _____ fuel?

Can _____ us _____ on how to use _____ turbine _____ our _____?

_____ a _____ to _____ turbine, _____ traditional utilities within _____ big plan?

How _____ wind _____ expansion agenda and minimize our _____ conventional power _____?

How do _____ traditional power _____ integrate wind turbine?
 _____ do _____ get _____ into _____ expansion _____ without _____ old power sources?
 _____ done _____ include wind turbines in _____ plans?

Is _____ a way to _____ reliance _____ wind turbines?

How can _____ be used _____ our expansion _____ on traditional _____?

How _____ we integrate _____ turbine _____ our expansion _____ not _____ on _____?
 _____ do we _____ wind _____ our _____ agenda _____ minimize _____ on _____ power sources?
 _____ wind-based systems _____ be done _____ minimizing _____ of _____ utilities.

Can you _____ steps we need _____ take _____ wind turbine _____ expansion _____?

We want _____ regular energy _____ and how do _____ wind turbines?
 _____ steps needed _____ add _____ using _____ regular power.

Can you _____ description of _____ incorporating wind _____ into our expansion _____?

Can _____ tell us _____ process _____ integrating wind _____ our expansion _____?
 _____ we _____ renewable energy from wind _____ our dependency on _____?

How _____ renewable energy _____ installations be used _____ decrease _____ dependence _____ fuel?

How _____ old _____ sources by _____ turbines into expansion plans?
 _____ can _____ reduce _____ expanding the size of _____ turbines?

What _____ wind turbine in our growth _____?

What stages are _____ integrate _____ and dependence _____ our growth plan.

Steps _____ wind _____ and _____ reliance on _____ energy?

Less _____ power _____ integrate windmills _____ expansion plans.

Including _____ will help _____ the _____ of _____ electricity.

How do we make wind turbine _____?

What _____ the _____ that are necessary _____ more _____ turbines _____ expansion?

What _____ process _____ wind turbines into future plans to reduce _____?

Expanding operations while decreasing dependence on _____ power sources _____.

How _____ we incorporate wind _____ expansion plans _____ that _____ rely _____ conventional power _____?
_____ be taken to _____ wind turbines into our _____ and minimize reliance _____.

What _____ stages to _____ wind _____ growth strategies?

_____ can integration _____ wind-based systems _____ carried _____ minimal _____ conventional utilities?

What _____ be _____ blend wind _____ into our _____ agenda?

_____ a _____ way _____ mix _____ wind turbine _____ reliance on _____ fuels?

_____ and _____ dependence on old _____?

_____ necessary _____ more wind turbine as part of _____ and _____ on conventional _____ supplies?

_____ steps that _____ be taken to _____ wind _____ and _____ reliance _____ fuels.

When adding wind turbines to _____ steps _____?

What _____ the _____ wind turbine and dependency _____ traditional _____ our _____ plan?

_____ you _____ to diminish reliance on _____ sources and integrate wind _____ expansion _____?

_____ operations _____ on regular _____ sources can _____ accomplished with _____ inclusion _____ wind _____.

How _____ renewable _____ wind turbine _____ to _____ our _____ on fossil fuels?

_____ be _____ to expand while reducing _____ dependence?

Can you _____ me how to _____ wind _____ expansion _____?

_____ steps to _____ turbines _____ decrease reliance _____ fossil fuels?

_____ to _____ turbines?

How can _____ used _____ expand and _____ electricity _____?

Expanding operations and decreasing _____ regular power sources _____ considered when _____.

_____ be taken to _____ wind _____ expansion agenda.

What steps should _____ wind _____ into expansion _____.

_____ steps to _____ into our expansion plans?

There are steps _____ add _____ machines _____ our _____.

Reducing _____ traditional _____ incorporating wind turbines as part _____ expansion _____?

How _____ we _____ wind turbine _____?

We want _____ regular energy providers and how do _____ do _____ wind _____ are _____?

_____ steps _____ to incorporate wind turbine into _____ growth _____?

_____ are _____ steps _____ take to _____ in our growth strategy?

There are _____ we need _____ to blend _____ turbines _____ agenda.

What can _____ do _____ into our _____ strategy?

Suggestions on reducing dependence _____ with _____?

_____ should be _____ to _____ wind turbines in _____?

_____ can _____ add wind _____ dependence on _____ sources?

_____ can we minimize reliance _____ sources and blend _____ our _____?

Can you _____ that need to be _____ into _____ expansion plans?

_____ done to reduce the _____ for _____ electricity supply _____ turbine expansion _____?

When _____ turbines into expansion _____ need _____ electricity, _____ should be taken?

What _____ steps to _____ wind turbine _____ dependency?

How can _____ put wind _____ expansion _____?

What _____ are _____ use wind _____ growth strategies?

_____ you _____ about the _____ of _____ wind _____ the future _____ plans?

What are _____ steps _____ take to _____ wind _____ into our _____.

_____ steps for _____ turbine _____ expanding and reducing energy _____.

_____ to blend wind turbine _____ agenda and _____ reliance on conventional _____.

How can wind ____ be ____ dependency?

Are ____ add wind ____ use old electricity sources?

What are the ____ to ____ turbines into our ____ strategy?

How ____ fit into ____?

What ____ we do to blend ____ into ____?

____ there ____ we can take ____ reliance on ____ and incorporate wind ____?

____ be ____ to bring in wind ____ and ____ the ____ for ____?

____ discuss ____ integrating wind turbine into ____ expansion plans?

Can ____ energy ____ wind ____ installations ____ decreasing our dependence ____ fuel?

How ____ we ____ to cut ____ power dependence?

How ____ wind turbines in ____ expansion ____ while ____ on ____ energy?

There are steps ____ bring in ____ while ____ need ____.

____ while decreasing ____ on ____ power ____ is ____ we include wind ____.

____ can we ____ our dependence on fossil ____ by incorporating ____ energy ____?

____ reliance on ____ power ____ we integrate wind turbine?

How to ____?

Should steps ____ taken ____ reducing ____ of regular power?

____ are the ____ we ____ include ____ turbine into ____ growth strategy?

What ____ be ____ integrate ____ turbines as ____ of expansion ____ reduce dependence ____ conventional ____ supplies?

The ____ adding wind ____ reliance ____ sources.

We want ____ dependence on regular ____ providers; how ____ incorporating wind ____ responsible into our ____?

____ to ____ on traditional power sources ____ integrate wind ____ our ____.

Steps ____ be taken ____ windmills while ____ regular power.

How do ____ integrate ____ reduce ____ on power?

How can wind turbines be ____ to ____?

Could ____ to add wind turbine and ____ reliance ____?

Adding ____ the measures being ____ for the big ____.

____ a description of the ____ we need to take ____ in our ____ plans?

____ are required ____ integrate wind turbine ____ traditional energy ____ the growth ____?

____ can we use wind ____ expand ____ reducing ____?

What are ____ add ____ turbine ____ cut ____ on ____ energy?

____ way ____ our ____ plans and diminish reliance on traditional power sources?

____ are ____ steps to ____ wind ____?

Should ____ windmills ____ not using regular power?

Are ____ steps ____ take ____ incorporate wind ____ into our ____ plans?

What can ____ done ____ integrate ____ turbines as part of expansion ____ dependence ____ conventional ____?

____ renewable energy from wind turbine installations in ____ reduce our dependence ____?

____ wind-based systems could be ____ while ____ utilities.

____ dependence ____ sources ____ incorporate wind ____ as part of our ____?

Reducing ____ dependency can ____ done ____.

What are ____ in which the ____ be ____ our ____ plan?

____ there any ____ steps ____ wind turbine and ____ on fossil ____?

Can you tell ____ integrating wind ____ into ____ plans?

____ farms fit into ____?

____ on ____ sources is steps ____ adding ____.

____ wind turbines ____ in expansion plans ____ reliance on ____ power ____?

What ____ of ____ wind ____ our expansion plan.

____ any ____ incorporate ____ into our expansion plans and ____ dependence on ____ sources?

____ to include wind ____ in expanding ____ while decreasing ____ on ____ power ____.

Do ____ any ____ on how to incorporate ____ into our ____?

_____ do you integrate _____ turbine and reduce _____ conventional _____?

There _____ taken to blend _____ into our expansion agenda.

How _____ wind _____ while _____ dependence on electricity?

_____ can _____ use _____ installations for _____ while reducing our dependence _____ fuel?

_____ can we _____ dependence _____ electricity _____ turbine expansion?

Reduction _____ reliance, _____ integrating _____ turbine?

How _____ we _____ wind _____ into our _____?

Is it possible to add wind _____ not rely _____ power _____?

_____ the _____ wind turbine as part _____ expansion and to reduce _____ on _____ power supplies?

How _____ we blend wind _____ into _____ with _____ reliance on _____?

What _____ be _____ wind _____ in expansion plans?

We would like to _____ providers and how _____ we do _____ wind _____?

_____ are steps _____ in adding more wind _____.

We can _____ reliance on _____ using wind _____.

Is _____ to _____ into our _____ to decrease reliance _____ power sources?

Is it _____ to _____ the _____ of integrating _____ turbines into _____?

_____ are the steps for integrating _____?

_____ integrated into _____ expansion plans.

What should _____ done _____ reduce _____ electricity _____ wind turbine expansion goals?

How _____ the wind _____ to _____ while _____ electricity dependence?

How are _____ going to _____ incorporate wind turbines?

How do _____ wind _____ part of _____ decreasing _____ on _____ power sources?

_____ on traditional _____ or incorporate wind turbine as _____ of _____?

_____ wind-based systems _____ while not using conventional utilities?

There _____ steps you can _____ to _____ in _____ turbine and _____ the _____.

What _____ we do _____ expansion goals and reduce reliance _____ power _____?

Reducing _____ on traditional _____ wind _____?

How do _____ reduce _____ on old _____ by _____ turbines?

_____ reliance, steps _____ integration _____ turbines.

How _____ the _____ be _____ to expand _____ reducing dependence _____?

What _____ to _____ wind turbines in _____ growth _____?

_____ we _____ wind turbine in _____?

_____ we add _____ to our expansion to _____ sources?

_____ turbines _____ reducing _____ conventional power sources could _____ done.

_____ can _____ blend wind turbines _____ goals _____ reduce reliance _____ sources?

_____ can we _____ turbines into _____ expansion _____ while reducing reliance _____?

_____ is _____ to _____ turbines in expansion plans?

Can _____ we need _____ take _____ incorporate wind _____ into our expansion _____?

Is there a way _____ into _____ plans _____ reduce dependence _____ fuels?

How can _____ wind _____ instead of _____ power _____?

_____ wind turbine use _____ into _____?

There are _____ to be taken in _____ to integrate _____ wind _____ as _____ the _____.

Add wind _____ curb traditional _____ plan?

_____ reduce _____ energy providers, _____ how do we _____ wind _____ into our _____?

_____ a way _____ integrate wind turbine into _____ plans and _____ traditional power _____?

How can _____ cut _____ on _____ energy _____ turbines?

_____ do we cut _____ on _____ with the addition _____?

_____ how to _____ wind turbines in our _____ plans?

_____ do _____ turbines _____ our expansion plans to _____ on _____ energy providers?

_____ integrate _____ turbines in our _____ while not using _____ energies?

_____ steps to blend wind turbine _____ our _____ and _____ on _____.
 _____ steps _____ and lessening dependence on fossil fuels?
 How can we _____ our _____ on _____ energy _____ wind _____?
 _____ can we integrate _____ into our _____ while _____ on traditional _____?
 _____ possible to _____ wind _____ and _____ on energy?
 _____ the ways in _____ turbines are _____ into _____ expansion _____?
 _____ you tell us what to _____ in _____ plans?
 Can _____ me _____ the process _____ integrating _____ turbines _____ expansion plans?
 _____ possible _____ turbines and cut back _____ fossil fuels?
 _____ reduce dependence on traditional _____ when _____ wind turbine?
 Integrating _____ into plans _____.
 _____ operations while _____ power sources could be achieved by _____.
 What should _____ done _____ the _____ traditional electricity _____ when _____ wind _____ goals?
 Is it _____ on _____ power _____ wind turbine integration?
 Integrating windmills _____?
 How _____ we _____ wind turbines _____ expansion plans?
 There _____ steps _____ add _____ wind turbines to our _____.
 _____ needed _____ add windmills _____ the use _____ regular _____?
 _____ us how _____ incorporate wind _____ our _____ plans and _____ our reliance _____ traditional power?
 How do _____ more _____ to our _____?
 _____ can _____ used in expansion plans to _____ on _____ power _____?
 _____ can _____ turbine _____ a _____ of expanding operations _____ decreasing reliance _____ regular _____ sources?
 There are _____ in wind turbine _____ need for _____ electricity.
 Is it possible _____ wind _____ and _____ traditional utilities _____ plan?
 Is _____ to reduce dependence _____ power _____ by incorporating _____?
 Expanding operations while decreasing _____ regular _____ sources _____ us _____ include _____.
 Adding _____ turbine, curbing traditional utilities _____?
 How do _____ reduce traditional _____ by _____ turbines?
 _____ there be _____ to add wind _____ and _____ energy?
 Clear _____ on _____ and reducing reliance on _____ fuels are _____.
 Is it possible to _____ turbine in _____ regular power sources?
 _____ we take to incorporate wind _____ our _____ plans?
 We need to take steps _____ into our _____.
 How _____ windmills into _____?
 _____ do we _____ in expanding _____ decreasing reliance _____ regular power _____?
 How can _____ integrate _____ turbine _____ our _____ plans to diminish reliance _____?
 What _____ to the _____?
 _____ traditional _____ dependency _____ be _____ by integrating _____ turbines.
 How can _____ incorporate _____ turbine _____ of _____ plans?
 Expanding _____ while _____ reliance on regular power _____ accomplished _____ additions.
 _____ a _____ to integrate _____ in reducing traditional energy _____?
 Are _____ any _____ you can take _____ turbines _____ expansion plans?
 _____ can _____ do to _____ turbine _____ our growth _____?
 How can we use wind _____ in _____ while reducing _____?
 What _____ ways _____ which _____ turbines can _____ used in the _____?
 _____ towards integrating _____?
 How do _____ our _____ power _____ with _____ turbine _____ plans?
 How do _____ reduce dependence on old _____ turbine into _____?
 _____ are the _____ integrating wind _____ expansion plan?
 _____ can we _____ turbine _____ expansion?

Can _____ tell _____ to incorporate wind _____ expansion plans?

Are _____ we _____ to incorporate wind _____ into _____ expansion plans _____ reliance _____ traditional power?

_____ can _____ decrease _____ power _____ incorporate wind turbine into our _____ plans?

What _____ it _____ wind _____ into our _____ plans?

What do we _____ do in _____ to _____ and reduce _____ conventional power supplies?

How _____ wind _____ be _____ expand _____ electricity dependence.

Adding _____ to _____ project can cut _____ fuels.

_____ should consider incorporating _____ our growth _____ to _____ on conventional _____.

_____ we _____ our use _____ fossil fuels _____ adding _____ turbine?

_____ reliance, _____ towards _____ turbines?

What stages are _____ integration _____ our growth _____.

How do _____ integrate wind _____ the _____?

Is it _____ to _____ turbine and _____ need for _____ electricity?

How can wind _____ expansion _____?

_____ do you _____ the _____ of integrating _____ into our _____?

Reducing _____ be done by steps _____ turbines.

_____ we _____ wind _____ our dependency on power sources?

What can we do to blend _____ with _____ goals _____ sources?

_____ turbines and reduce dependency on conventional _____ sources?

How _____ we _____ on traditional _____ when _____ wind turbines?

How _____ less dependence on _____ sources _____ we integrate _____?

We would _____ to _____ wind _____ into our _____ plans _____ conventional power _____.

_____ are steps to adding _____ turbine _____ setup.

_____ can _____ wind turbines _____ our _____?

There are _____ reduce _____ need for regular electricity _____ turbine.

How _____ integrate wind _____ plans _____ expansion?

How can wind _____ be _____ into _____ reduce _____?

_____ dependence _____ traditional _____ with _____ turbine can be _____.

Take steps to _____ wind _____ as part _____.

_____ want _____ regular _____ providers, _____ how do we incorporate wind turbines in _____ plans?

_____ into _____ plans?

Can you tell _____ how _____ use wind _____ expansion _____?

_____ there any _____ to _____ wind _____ reliance on old _____?

How do _____ into _____ expansion _____?

_____ are _____ that _____ taken to blend _____ turbines into _____ agenda.

_____ should _____ reduce the necessity _____ traditional electricity _____ when _____ wind _____?

_____ be _____ to _____ wind turbines into _____ agenda.

Is it _____ include wind _____ in _____ reliance on _____ power sources?

Can _____ give us an _____ of _____ integrating wind turbines into _____?

_____ wind _____ expansion plan while reducing _____ on traditional energy?

We were curious about _____ involved _____ adding _____ wind _____ to _____.

_____ systems could be _____ while _____ usage of _____.

Measures _____ integrate wind _____ reduce _____.

What are _____ wind turbine inclusion _____ growth _____?

_____ we _____ our dependence _____ energy by using wind _____?

_____ a _____ to incorporate wind turbine _____ our expansion _____ decrease _____ on _____ sources?

There _____ to add wind _____ reduce _____ on _____ sources.

Increased _____ of windmills _____ less traditional _____?

Expanding _____ while _____ on _____ power _____ should _____ turbine be included?

Is it _____ to _____ turbine to our expansion _____ sources?

There _____ be taken _____ wind turbines while reducing the _____ for _____ electricity.

_____ for _____ are reduce reliance on _____ sources.

_____ wind power into an _____?

_____ for adding _____ Reduce _____ conventional _____

How _____ we _____ more wind turbine _____ and reduce _____ on conventional _____?

I'd like _____ learn how _____ wind turbine _____ our _____ without _____.

Is it possible to _____?

_____ incorporating wind _____ into your _____?

_____ add wind _____ expand?

_____ reduce reliance on _____ power sources, and integrate wind _____ plans?

_____ blend wind _____ into expansion goals and reduce dependence _____?

What _____ to incorporate wind turbine in _____?

Steps for adding wind _____ reliance _____

_____ possible to describe the process _____ integrating _____ turbines _____ plans?

How can _____ explain _____ process of integrating wind _____ into future plans _____ sources?

How are _____ expansion?

_____ use renewable _____ wind turbine installations _____ our _____ on _____ fuels?

_____ windmills while _____ use of _____ step needed.

_____ do we take _____ turbine into _____ goals?

_____ we add wind turbine to _____ relying on traditional _____?

How _____ use wind _____ reduce power _____?

_____ can we _____ wind turbine _____ reduce _____ fuels?

The _____ to add wind _____ reliance _____ sources.

Are you able _____ integrating _____ turbine _____ our expansion plans?

_____ need to _____ to our _____ to use less _____ sources.

What _____ the actions needed _____ more _____ turbine _____ of _____ to reduce _____ conventional _____ supplies?

_____ wind turbines _____ used to reduce _____ need _____ electricity?

What steps must be followed _____ in _____?

_____ will wind _____ into _____?

There are _____ add more _____ turbines to _____.

_____ the stages _____ incorporate wind turbine _____ our _____?

_____ steps to _____ turbines _____ of our _____ plans?

Reducing _____ on traditional energy _____ wind _____?

Is _____ to _____ windmills _____ use of regular _____?

How can _____ back on fossil fuels _____ turbines _____ project?

_____ steps _____ to blend wind turbine _____ and minimize reliance _____ power _____.

We _____ to _____ dependence _____ resources _____ wind turbines into _____ strategies.

_____ turbine into expansion goals _____ the need for _____ what should _____?

_____ systems should be _____ out while _____ of _____ utilities.

_____ how _____ mix wind turbine into _____ business without _____ grids.

_____ are _____ to add _____ and cut reliance _____ energy.

I'm _____ to add _____ turbines to our _____.

Add _____ turbine _____ curb traditional utilities _____ the _____?

We want _____ reduce _____ on _____ energy _____ how do we do _____?

_____ into expansion plans would be _____.

_____ you _____ a description _____ the _____ to be _____ to incorporate wind turbine _____ plans?

We _____ reduce dependence _____ regular _____ providers, how do _____ wind _____ into our _____?

Are you _____ give a _____ of the _____ integrating _____ future _____ plans?

There _____ certain _____ that _____ to _____ taken _____ order _____ integrate more wind _____ as _____ expansion.

To _____ on _____ we need to integrate wind _____ into _____ plans.

What can we do _____ our _____ plan?

_____ on traditional power _____ incorporating _____ part _____ our expansion plans?

_____ steps can we _____ to _____ turbine _____ our expansion _____?

_____ we _____ to _____ blend wind _____ into expansion goals?

When _____ wind _____ actions should be taken?

_____ wind generators _____ expansion?

What are the _____ should take to integrate _____ strategy?

There are _____ to _____ windmills _____ reducing use of _____.

_____ for reducing traditional energy _____ by _____ wind _____.

_____ reduce _____ traditional _____ sources, _____ are _____ steps _____ turbine into expansion plans?

_____ tell us how _____ reduce _____ dependence on _____ while _____ wind _____?

_____ ways _____ energy from wind _____ installations while decreasing _____ dependence _____ fuel?

_____ stop the need for _____ fuels by _____?

How _____ the integration of _____ less use of conventional _____?

_____ steps _____ mixing in _____ turbine _____ decreasing reliance _____ fossil fuels?

_____ need _____ be _____ wind turbine as part of expansion _____ reduce dependence _____ power _____?

_____ steps _____ taken _____ include wind turbine _____ plans?

How do _____ turbine _____ the _____?

Is there _____ mixing _____ turbine _____ reliance on fossil fuels?

Integrating windmills into _____ plans _____.

We want to _____ traditional energy sources, _____ do that _____ wind _____?

How _____ we reduce electricity _____ while expanding _____?

_____ the steps _____ integrate _____ the expansion plan?

_____ would _____ great if _____ give us steps to _____ turbine _____ our _____.

Can you _____ us how to incorporate wind _____ expansion plans _____ reliance on _____?

_____ dependence on _____ do _____ integrate wind turbines _____ expansion plans?

Measures to _____ energy _____ dependence.

Integration of _____ plans?

_____ wind _____ and growth to _____ of old energy?

_____ can we reduce reliance _____?

Integration of _____ be _____ with less _____ conventional utilities.

What _____ we do to incorporate _____ turbine _____ while decreasing _____ dependence _____ fossil _____?

_____ are _____ best _____ to use _____ in _____ expansion plan?

Is it possible to incorporate _____ turbines _____ dependence _____?

_____ are _____ to _____ turbines and _____ dependence on _____ energy.

_____ we incorporate _____ into expansion _____?

_____ are the stages _____ wind _____ into our _____?

_____ can _____ done to reduce _____ traditional electricity _____ by _____ wind turbines into _____?

Adding _____ reducing _____ regular power is best way _____.

_____ can we _____ turbine _____ cut back on _____ fuels?

_____ the process of adding _____ turbine to _____ plans?

_____ use wind farms to _____ while reducing _____ on _____?

_____ should be steps _____ add wind turbine and _____.

What _____ to be _____ include _____ in the _____ plans?

_____ should we take _____ order to incorporate _____ turbines _____ growth _____?

_____ give a _____ of integrating wind turbines into _____ development plans?

_____ is one of _____ that _____ be considered.

Are _____ any _____ take _____ blend wind _____ expansion goals?

Will _____ be _____ to _____ energy?

Expanding _____ while _____ on regular power _____ achieved _____ the inclusion of _____.

We can _____ turbine _____ part of our _____.

Is there _____ to _____ wind _____ dependency _____ conventional _____ sources?

Increasing operations while decreasing reliance _____ is _____ include _____ turbine _____.

How _____ use _____ our _____ plan while _____ reliance _____ traditional energy?

How _____ turbine _____ to get rid _____ old energy?

What are _____ steps _____ wind turbines _____ to expand?

_____ incorporating wind turbines in _____ expansion plan.

_____ can _____ blend wind turbines into _____ and decrease _____ sources?

How _____ you minimize dependency on _____ sources _____ integrating _____?

Are _____ considering _____ wind _____ into _____?

There are _____ energy from _____ installations _____ decreasing _____ dependence _____ fossil fuel.

There _____ that _____ taken _____ need for _____ electricity and bring in wind _____.

Reducing _____ is _____ steps _____ towards _____ wind turbine.

_____ on regular power _____ how _____ include _____ turbine in operations?

_____ there _____ steps we _____ take _____ incorporate wind turbine _____ plans?

We _____ diminish dependence _____ power resources _____ wind _____ in _____ plans.

How _____ integration _____ systems _____ done _____ a way _____ does not _____ conventional _____?

We want _____ reduce _____ regular _____ but how do _____ do _____ turbines?

_____ are the _____ to _____ wind _____ in our _____?

_____ stages needed _____ integrate wind turbine _____ dependence _____ in a growth _____?

_____ can _____ electricity dependence _____ wind turbine expansion?

How do we integrate _____ turbine into _____?

How _____ we make more use _____ sources?

_____ we blend _____ turbine into _____ goals and _____ power sources?

_____ while decreasing use of _____ power is _____ done.

While decreasing dependence _____ regular power sources, _____ do we include _____ expanding _____?

Is _____ idea _____ the _____ of integrating wind _____ into future _____ plans?

Are _____ to _____ wind turbine _____ less _____ on fossil fuels?

_____ can wind turbine _____?

I _____ to mix wind _____ into our business _____ on _____.

_____ reduce dependence _____ how do _____ do that _____ wind turbines?

_____ we use _____ turbine to _____ back _____ fossil _____.

We want _____ diminish _____ reliance on _____ power _____ by _____ wind _____ our _____.

_____ are _____ more wind turbine _____ our setup

_____ steps _____ taken to include _____ turbine _____ plans?

_____ steps _____ mixing in _____ and _____ reliance on _____ fuels.

_____ steps to add wind _____ and reduce _____ power _____.

_____ turbines into expansion _____ what should _____ done?

How can _____ wind turbine installation _____ on fossil _____?

_____ power dependency by using wind _____?

_____ it possible _____ wind turbines _____ expansion _____ and reduce reliance _____ sources?

_____ want _____ reduce _____ energy providers, but _____ do we incorporate wind turbines _____ our _____?

We want to _____ turbines _____ growth strategy, but _____ do?

_____ want to _____ dependence _____ energy providers and how _____ we do _____ use?

_____ to _____ into plans for expansion?

Is the _____ of integrating wind _____ future plans _____ energy sources?

Can _____ explain the _____ integrating wind _____ into future _____?

How _____ plan _____ on _____ energy sources with the _____ wind turbines?

How _____ we _____ power sources while _____ wind _____ into _____ expansion plans?

_____ should be _____ to _____ expansion _____ and reduce necessity for traditional _____ supply?

_____ there a way to _____ need for regular _____ wind _____?
 _____ it possible to _____ wind _____ reducing the _____ electricity?
 _____ it _____ to _____ need _____ electricity by bringing in wind _____?
 _____ are _____ steps _____ should take _____ incorporate wind _____ our _____ plans?
 _____ you tell me about _____ of incorporating wind _____?
 How _____ dependence _____ traditional _____ sources _____ wind _____ into our expansion plans?
 _____ we incorporate _____ growth _____ to diminish dependence on power?
 How should _____ about incorporating _____ turbine _____ our _____?
 Where _____ windmills while reducing _____?
 How do _____ make wind turbine _____ less _____ traditional _____?
 _____ it possible _____ include _____ while _____ fossil _____?
 _____ there any _____ can take _____ wind _____ into _____ growth strategy?
 _____ you _____ what we can _____ to integrate _____ wind _____?
 Should _____ add wind turbines, _____ curb _____ our big _____?
 Is _____ way _____ reduce the need _____ electricity by bringing _____?
 _____ it possible _____ describe _____ process of _____ wind _____ into future _____ to _____?
 _____ reduce _____ on electricity with _____ turbines?
 _____ any _____ need to _____ to incorporate wind turbines _____ our _____?
 What _____ done to _____ wind _____ and _____ on conventional power _____?
 How _____ we put wind turbines _____?
 _____ decreasing reliance _____ power sources, _____ do we _____ wind _____ in _____?
 _____ are we going _____ get _____ of dependency _____ energy and _____ wind turbines in _____?
 I _____ steps involved in _____ more windmills _____ setup.
 _____ can _____ use wind turbines in _____ plans to _____ old _____?
 _____ do we _____ power dependency _____?
 To _____ wind _____ cut reliance _____ old _____?
 _____ and decreasing reliance _____ regular _____ sources _____ be _____ by including _____.
 _____ there _____ to _____ need for regular _____ bringing _____ wind turbine?
 _____ can _____ integrate wind turbine _____ our expansion _____ while _____?
 _____ dependence on traditional power _____ when we have _____?
 _____ do we _____ windmills _____ expansion _____?
 _____ steps should we _____ incorporate _____ turbine into _____ plans and _____ dependence _____ power?
 _____ integrate _____ energy or _____ dependence?
 _____ want _____ wind turbine into expansion goals _____ typical power _____.
 How _____ we _____ wind _____ part of expansion _____?
 Expanding _____ while _____ reliance on regular _____ are _____ we include _____.
 How _____ our dependence _____ traditional _____ with wind _____?
 We _____ reduce _____ on _____ how do we incorporate _____ that _____ into our expansion plans?
 _____ are _____ to cut reliance on _____ and _____ wind _____.
 How do _____ decrease reliance on _____ sources _____ increasing _____?
 How can _____ traditional power sources _____ addition to _____?
 _____ steps _____ we take to _____ wind _____ expansion _____?
 There _____ steps needed _____ decreasing use _____ regular power.
 What _____ to _____ wind turbine and dependency _____ traditional _____?
 _____ can _____ reduce electricity _____ wind _____?
 _____ steps to mixing _____ wind turbines and _____ reliance on _____?
 Is there _____ way _____ integrate _____ turbine _____ development plans _____ reduce _____ fossil _____?
 Wind _____ be included in _____ of _____ use.
 _____ there be measures to integrate wind _____?
 _____ are _____ taken _____ wind turbine into our expansion agenda.

_____ taken to _____ wind turbines _____ expansion plans?
_____ power dependency with _____ .
_____ have to _____ turbine _____ our _____ agenda and _____ reliance on conventional _____ .
_____ we able _____ wind _____ expansion without using traditional power _____ ?
_____ want _____ dependence _____ regular energy _____ and _____ do _____ go about _____ that with _____ turbines?
_____ done _____ decrease dependence on traditional energy _____ wind _____ ?
How can _____ and reduce _____ conventional power sources.
What _____ be _____ when _____ wind _____ goals and _____ necessity for _____ ?
_____ reduce electricity dependence while expanding _____ turbine _____ .
_____ can _____ back _____ power _____ by _____ wind turbines.
_____ to add wind turbine _____ cut _____ on _____ energy?
_____ reliance on _____ sources _____ how we should include wind _____ .
Is _____ to _____ wind turbines _____ minimize _____ conventional energy _____ ?
How do _____ put _____ plans?
What _____ can _____ take _____ turbines _____ expansion goals?
_____ are _____ mixing _____ wind turbine and lessening _____ fossil _____ .
We _____ to reduce _____ on _____ energy _____ do we _____ wind turbine ethically _____ our _____ ?
_____ there _____ wind _____ and less reliance on _____ fuels?
_____ you tell us _____ we _____ in our expansion _____ ?
How do you _____ reduce dependence _____ by integrating _____ turbines into your _____ ?
_____ steps should we take _____ turbines into _____ strategy?
How can we _____ wind _____ part _____ expanding operations while _____ power _____ ?
