

[Demo] NLP Dataset for Customer Service Automation

Company Type	Internet Service Providers
Inquiry Category	DNS and IP address configuration help
Inquiry Sub-Category	DNS Resolution Issues
Description	Assistance with troubleshooting and resolving DNS resolution problems, including issues related to DNS server configuration, caching, and domain name registration.
Data Size	10,222 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Internet Service Provider" customer inquiry. (Purchased data will not be masked.)

Is it ____ to ____ if ____ name ____ correctly configured for proper ____?

Can you ____ sure our ____ set ____ in ____ right ____?

____ our domain's registration ____ accurate DNS resolution could ____ out?

____ you confirm that ____ registration ____ configured correctly?

____ we ____ if our ____ is set ____ correctly?

____ you tell us ____ it's ____ to ____ correct resolution ____ name?

I ____ to know ____ our ____ name ____ correctly for ____ resolution.

____ a way ____ make sure ____ domain name ____ is ____?

Can ____ accuracy ____ the ____ domain's setup?

Can you make sure ____ is ____ up ____ correctly?

Do we ____ our domain name ____ for ____ DNS ____?

Is it ____ verify that ____ domain ____ the ____?

____ it possible to confirm ____ domain registration ____?

Is ____ to verify if the ____ resolution is ____ line ____ domain name registration?

Can ____ that ____ our ____ is configured correctly?

Did you ____ that ____ name registration is ____?

Can we ____ domain ____ registration?

____ it ____ make sure ____ our ____ resolution is configured ____?

Can we make sure ____ for ____ is ____ correctly?

Can ____ make ____ the ____ name is ____ up ____ way?

Do ____ know if ____ domain name registration ____ correctly for ____?

____ if our domain ____ are ____?

____ you ____ the registration ____ our domain is ____?

____ check ____ the domain's registration is done ____?

Could you ____ us know ____ the ____ domain name resolution?

____ would ____ know if ____ to ____ the correct domain ____ resolution.

Do you know ____ domain ____ has been ____?

____ check the domain ____ make sure the ____ is correct?

Is _____ a way to _____ registration is configured _____.

_____ there a _____ to check _____ registration has been set _____ for reliable _____?

_____ you _____ domain _____ registration has been _____ up correctly?

Can _____ our _____ name _____ has the _____ settings?

Are our _____ set _____ in _____ way?

Is there a _____ sure our domain _____ set up?

_____ we _____ if our _____ domain _____ has _____ configuration?

_____ the resolution of _____ domain _____?

_____ if the _____ our domain name registration allows _____ resolution?

You might _____ if the domain _____ registration _____ set _____ correctly.

_____ of _____ DNS setup in our registered domain?

Is _____ possible _____ if our domain _____ up _____?

If our _____ been _____ correctly, could _____ me?

_____ be _____ determine if _____ is set up correctly?

Is _____ if the _____ is _____ our registered domain name?

_____ you verify the _____ our domain _____ and _____ if the resolution _____ configured correctly _____?

Would _____ to _____ if _____ has been set up _____?

_____ possible to verify _____ resolution?

Can _____ the DNS resolution is _____ at the _____?

_____ possible to _____ for our domain name _____?

Do _____ the domain registration is legit _____ resolution?

_____ we confirm the correct configuration _____ the _____?

We _____ confirm _____ registered domain _____ set _____ correctly.

_____ make sure _____ the _____ is _____ the correct place?

Is _____ safe _____ that _____ configuration of _____ name registration _____ dns resolution?

Is it _____ to _____ that _____ registration handles _____ in a _____?

I _____ like to know _____ domain _____ registration _____ properly configured for _____.

Is _____ check out our _____ domain _____ make sure _____ properly?

Can you tell me if our _____ registration _____ the _____ of _____ Domain _____?

Does _____ have _____ make sure _____ our domain's _____ is configured _____?

Does _____ registration for _____ have _____ set up _____?

Can _____ check to see if _____ domain _____?

Has the _____ name _____ set _____?

Is _____ a _____ to verify _____ set _____ the _____ DNS for the _____?

Can you _____ the _____ name _____ in order?

Will _____ if the domain's _____ is configured correctly?

_____ to _____ if the _____ domain resolution configuration matches _____ domain _____?

_____ to check if the domain _____ is configured _____?

Can _____ find out _____ our _____ has _____ configured correctly for _____ resolution of _____ name _____?

How _____ we determine _____ our _____ domain _____ correctly?

Can you _____ sure that _____?

_____ we verify _____ registration to make sure _____ resolution?

Can _____ confirm _____ domain name _____ is _____ up _____?

I _____ like _____ know _____ there is a _____ if _____ have set up _____ domain _____.

_____ you _____ the _____ of _____ domain name?

Can _____ our _____ registration _____ right?

Can you _____ true _____ of _____ domain _____?

_____ to make sure our _____ resolution is configured _____?

_____ you tell _____ our domain name _____ set _____ correctly?

_____ we _____ of the _____ in the registration?

____ we check ____ see ____ our ____ registration has ____ setup?
 How ____ we ____ that our ____ up properly?
 Can we determine ____ domain ____ has the ____?
 Can we know ____ we ____ our ____?
 Do we know ____ our ____ registration ____ appropriately ____ resolution?
 Do ____ the domain ____ registration ____ configured ____ a way ____ sense?
 ____ possible to verify ____ correct ____ the registered ____?
 ____ you ____ if our ____ name registration ____ set up?
 ____ registration ____ the correct settings can you tell ____?
 ____ the registered domain's resolution ____?
 ____ check the ____ of the ____ our domain registration?
 ____ name registration ____ the ____ setup?
 ____ we confirm ____ our ____ registration is ____?
 ____ that our ____ registration is configured ____?
 ____ can we ____ the ____ our ____ domain?
 ____ you ____ me if our ____ name ____ is set ____?
 Can ____ tell ____ if the ____ registration ____ order?
 How ____ we confirm ____ our registered domain ____?
 ____ proper resolution ____ matches ____ domain name ____ we determine ____?
 Is ____ a way to ____ you've set ____ the ____ domain name?
 How ____ we determine the ____ of ____ resolution ____ for ____?
 ____ way ____ confirm that the domain ____ setup has been ____?
 ____ may be ____ to ____ that ____ exists in relation ____ domain ____ capabilities.
 How can ____ confirm ____ correctness ____ our ____ resolution ____?
 Is there ____ method to ____ domain name system ____ has ____?
 ____ way to check if ____ domain ____ registration ____ been ____ up ____ the ____ way?
 Did ____ our domain registration ____ sure there's ____?
 ____ the ____ of ____ domain ____ accurate DNS resolution, could ____ it?
 We need to verify ____ is configured ____ resolution.
 Is ____ to ensure ____ resolution by looking ____ domain ____.
 I would like ____ if it ____ possible ____ if ____ domain name registration ____.
 ____ confirm that our domain name is ____?
 ____ you tell us ____ possible to ____ the correct DNS resolution for ____?
 Did ____ verify our ____ sure ____ have the right ____?
 Can ____ if the domain ____ has ____ correctly?
 ____ we have ____ DNS ____?
 Can you verify our domain ____ see ____ is ____ correctly at ____?
 Do we know ____ domain ____ up properly?
 ____ sure that our domain's registration ____ the right resolution?
 ____ you ____ our ____ name registration is ____ right?
 Do you know ____ the ____ for ____ name is ____?
 You might be ____ us if it's ____ correct ____ for ____ domain name registration.
 Will we ____ determine whether our domain name ____ correctly?
 ____ be able to confirm if ____ domain ____ registration ____ up ____.
 ____ you ____ me if ____ domain ____ registration ____ out?
 Is ____ to ____ if our domain ____ up correctly for ____ DNS resolution?
 Is ____ if ____ proper ____ resolution ____ matches the registered name?
 ____ we ____ at ____ domain ____ sure ____ has proper resolution?
 Can ____ our domain's ____ configured right?
 I ____ to ____ domain name ____ is configured ____ for ____ resolution.

_____ domain _____ registration configured _____ for _____ resolution of _____ DNS?
 _____ you think _____ to _____ accurate configuration _____ our registered domain?
 Are we _____ to check if _____ domain _____ has _____ up _____?
 _____ the domain _____ set up in the _____ system?
 Can you let _____ domain _____ registration is set _____?
 _____ determine if _____ domain _____ properly?
 _____ have _____ right _____ name _____ settings?
 _____ to ensure proper dns resolution by _____?
 Is it _____ whether _____ registered _____ configured correctly?
 _____ we _____ to _____ if _____ assigned site _____ been _____ correctly _____ successful resolution _____ the domain name _____?
 Is _____ an accurate _____ domain _____?
 _____ sure our domain _____ properly?
 How can we _____ that _____ is set _____?
 _____ we _____ to _____ our _____ name registration has _____ settings?
 _____ you _____ me if our domain _____ set up _____ for _____?
 Is _____ verify _____ the set _____ for proper DNS resolution is _____?
 _____ know _____ the _____ name _____ set up _____ for DNS resolution?
 _____ have _____ and do we have _____ settings _____?
 Can we make _____ that our _____?
 _____ you verify _____ our _____ properly?
 Is there _____ way _____ confirm _____ of our _____ registration.
 Can you tell us if the _____ for _____?
 Do you know _____ the _____ our _____ done _____?
 _____ it possible to _____ set up correctly?
 _____ can we _____ registered domain _____ set up correctly?
 _____ we _____ if our domain _____ is _____ for precise resolution _____?
 _____ can _____ determine if our _____ is _____?
 _____ we made _____ configuration _____ domain _____ registration _____ for correct resolve?
 Can _____ check _____ registration of the domain _____ make _____ the _____?
 Is it _____ confirm if our _____ the _____?
 Is _____ we did _____ setup _____ a _____ functioning dns resolution with _____?
 Correct DNS _____ our _____ be _____.
 _____ our domain has _____ properly _____ up, _____ confirm _____?
 _____ confirm _____ our domain _____ registration is _____ one?
 _____ domain's registration configuration allows _____ accurateDNS _____ help?
 I _____ know if our domain name _____ configured _____ accurate _____.
 Can _____ tell _____ if it's _____ make _____ the _____ resolution _____ our domain _____?
 Is _____ a method _____ check the accuracy _____ System _____?
 Is there _____ to _____ the domain _____ registration _____ correctly?
 You might _____ able _____ if _____ allows _____ accurate DNS resolution.
 Is _____ to see _____ the _____ name _____ is _____ correctly?
 _____ our domain is correctly _____?
 I _____ to know if _____ confirm that _____ registration handles _____.
 Can we _____ that the _____ registration _____ the _____?
 Can you confirm _____ our registered _____ set _____?
 Can you _____ us _____ it's possible to make sure _____ done?
 Do you _____ if _____ registration of _____ is _____ correctly?
 _____ you _____ make sure _____ registration of the _____ correct?
 How _____ make _____ that the _____ of _____ domain is _____.
 How _____ make sure our _____ is _____ configured?

_____ sure our domain _____ is set _____ in the _____?
 Can _____ know _____ the domain name _____ has been _____?
 Is _____ a way to _____ the _____ of the _____?
 Does _____ setup _____ domain's registration allow seamless _____?
 _____ if _____ name registration is set _____ properly?
 Is it _____ to _____ sure _____ our _____ resolution _____ configured _____?
 _____ to confirm that _____ domain settings _____ correct?
 Can _____ check _____ accuracy _____ our registered domain's _____?
 _____ the _____ of _____ domain name _____ the correct _____ the DNS?
 If _____ configuration _____ for _____ DNS resolution, could you _____?
 _____ DNS settings correct?
 Can _____ that _____ domain is _____ registered?
 _____ a way to _____ sure that _____ domain's _____ is configured _____?
 _____ confirm that our domain _____ correctly _____ up?
 Can _____ confirm if _____ domain _____ been _____ set _____?
 _____ we _____ sure _____ resolution is configured?
 _____ sure that _____ domain _____ is configured _____ the _____ way?
 _____ our _____ set up in a way that it _____?
 We _____ be _____ if the proper _____ matches _____ domain name.
 Do you have _____ ability _____ the resolution _____ domain _____?
 _____ you know if _____ domain _____ set _____ properly?
 _____ can we _____ that the resolution is _____ our _____?
 Can you _____ our name is set _____ in _____?
 Do _____ a way _____ the _____ configuration of our _____?
 _____ configuration _____ our domain's _____ correct?
 _____ you confirm if the _____ for _____ name is _____?
 There _____ way _____ make sure _____ domain's resolution _____ properly.
 _____ we verify that _____ the right _____?
 Is _____ way _____ if the domain settings _____?
 Is _____ to _____ if the proper _____ configuration matches _____?
 _____ it possible _____ that _____ domain has _____ right setup?
 _____ want to _____ sure _____ our _____ is _____ correctly.
 Will _____ be _____ to _____ accuracy of our _____ domain's _____?
 _____ it feasible _____ if the domain _____ the correct _____?
 How _____ sure that _____ domain's resolution _____ set _____?
 _____ like to know if there is _____ to verify _____ you _____ up _____ DNS _____.
 Can _____ verify the _____ of our domain _____ make _____ the _____ correctly _____ your end?
 _____ if _____ to verify the correct domain _____ registration _____?
 Do you _____ our _____ set up the right _____ to _____?
 _____ like to check our _____ registration for _____.
 _____ make _____ that our _____ resolution is _____ properly?
 Can _____ tell _____ if it's _____ to get _____ resolution for _____ registration?
 Do you know if our domain's _____ the _____?
 Is _____ a _____ sure our domain _____ registration _____ set up _____?
 Can a _____ be _____ ensure that _____ domain functions _____?
 Should _____ be able _____ verify _____ the _____ has the _____?
 _____ you _____ to _____ the domain name _____ settings are _____?
 _____ are we _____ if our registered _____ is configured _____?
 Did _____ see if our domain name's configuration _____ for _____?
 _____ the configuration of _____ name registration _____ correct _____ resolution?

_____ make sure _____ domain name is _____ in _____ correct _____?
 _____ can _____ correctness of the _____ for our _____?
 Do we _____ sure _____ configuration _____ name _____ allows for _____ resolution?
 _____ you _____ us _____ it is _____ to verify _____ correct _____ for _____ domain _____?
 How can _____ tell _____ our _____ configured properly?
 Is it _____ set _____ for _____ resolution is _____ line with the domain _____ registration?
 Is there _____ way _____ see if _____ domain _____ configured _____?
 _____ like to know _____ domain has been _____ up _____.
 _____ if our domain name has _____ correctly.
 _____ we know if our _____ name _____ configured _____ to _____ resolution?
 _____ we be able _____ verify the _____ of our _____?
 _____ want _____ make sure our domain _____ set _____.
 _____ possible to make _____ name is set up _____ the _____?
 Can _____ make _____ name _____ set in the right _____?
 _____ it _____ much _____ to _____ if our domain's registration works properly _____ DNS?
 Can _____ name is in _____ correct system?
 _____ we be able to _____ if _____ domain _____.
 Do we _____ whether _____ been set _____ correctly?
 Can you make sure _____ in the _____?
 Is it possible that _____ was _____ for _____ DNS _____ registered domain?
 _____ verify the _____ of _____ domain name registration?
 _____ it be possible for _____ our domain _____ registration _____ configured?
 _____ the _____ of our registered domain's _____ handled _____?
 Do you know _____ our _____ name _____ correct _____?
 _____ there _____ way _____ confirm _____ configuration _____ our domain?
 _____ to _____ our domain name registration has the _____?
 Can we verify _____ correct _____ and _____?
 How _____ we _____ our _____ is configured _____?
 _____ can we _____ that _____ is configured correctly?
 _____ we determine if _____ a proper _____ configuration?
 Can _____ make _____ the domain _____ registration _____?
 Can we check to _____ our _____ registration _____ correctly?
 Do _____ possible to verify that our _____ the _____ setup?
 Does _____ setup _____ our _____ allow _____ resolution _____ the name server?
 _____ there _____ to see _____ the domain _____ system setup is _____?
 Do you _____ domain _____ up right _____ work correctly?
 Did we _____ configuration of _____ name registration allows for _____ domain _____?
 _____ we know if _____ is set up correctly?
 _____ it _____ the domain name is _____ the _____ system?
 _____ should we _____ our domain's resolution _____?
 _____ possible _____ confirm that our domain _____ handles _____ in _____ correct _____?
 Can _____ our domain _____ registration for _____?
 _____ there _____ to _____ that _____ resolution _____ the domain _____ correct?
 We can check _____ correct _____ and _____.
 _____ know if _____ domain name registration _____ the _____ setup.
 _____ check for _____ resolution of _____ domain name?
 _____ it be _____ to _____ our _____ name registration is _____ correctly?
 _____ you check _____ sure _____ domain resolves _____?
 _____ know _____ domain name _____ is _____ correctly for _____ resolutions?
 Is it _____ say that _____ domain _____ registration allows for correctDNS _____?

_____ way _____ make sure that the _____ our stinkin' domain _____ up correctly?
 _____ there a way to _____ domain name _____ configured?
 _____ there _____ to _____ configuration of our domain's _____?
 _____ way _____ be sure that our _____ is configured _____?
 Did you _____ our _____ to make sure _____ works _____?
 _____ can we verify _____ resolutions for _____ domain registration?
 Is _____ possible _____ verify our _____?
 Is _____ way _____ sure that _____ registered domain _____ correctly?
 _____ we determine _____ is _____ correctly?
 _____ able _____ adequate setup exists _____ relation to _____ DNS resolution capabilities.
 Do _____ if _____ name _____ is set up correctly _____ proper _____?
 Can _____ that _____ domain name is _____?
 Is it _____ to _____ set _____ for proper DNS _____ with our domain _____?
 _____ registration _____ allows for accurate DNS resolution, _____ check _____?
 _____ it _____ an accurate configuration _____ domain names?
 _____ it _____ that _____ registered _____ is set up _____ to _____ proper _____?
 _____ know _____ domain name _____ is _____ for precise DNS resolution?
 _____ might be able to _____ it's _____ the correct domain _____ resolution.
 _____ tell me if the domain _____ to work?
 Did _____ to see _____ our domain name's _____ for _____ issues?
 _____ determine _____ our domain is set _____.
 Can you _____ me _____ resolution of the _____ correct?
 Can you _____ is set correctly?
 Can _____ name registration has proper configuration?
 Can _____ check _____ the domain name _____ correct?
 I _____ we have correct _____ settings.
 _____ if _____ have set up the _____ DNS for _____ domain name?
 _____ we _____ if our _____ name _____ the correct _____?
 _____ it possible _____ confirm that _____ domain _____ works _____?
 _____ it possible _____ verify _____ resolution of our domain _____?
 _____ know how _____ our _____ name registration has been _____ up _____?
 _____ it's possible _____ the correct DNS resolution for _____ domain _____ registration.
 _____ you _____ that _____ name is set up _____?
 Is _____ way to _____ resolution is configured correctly?
 _____ see if _____ registered domain _____ matches the proper _____?
 Do you _____ if our _____ is set _____?
 _____ ensure _____ our _____ registration allows for correct resolution of _____ dns?
 How can _____ figure out _____ domain name _____ policy?
 We _____ if we _____ verify _____ domain name _____.
 _____ it be _____ confirm the _____ the _____ in the registration _____?
 _____ know _____ name registration has the correct _____?
 _____ have _____ registered domain, so _____ the necessary _____ well-functioning resolution?
 Will _____ to verify _____ accuracy of _____ setup?
 _____ make sure _____ our domain _____ registration has _____ set up to _____?
 _____ can _____ be sure our _____ registration complies _____ the _____?
 _____ there _____ way _____ make _____ resolution is configured correctly?
 Is there a way to _____ the _____ has _____ correctly?
 Do _____ domain name registration is _____ handle _____ DNS resolution?
 Will _____ check _____ our domain resolves _____?
 _____ if we can verify our domain _____?

_____ be a way _____ make _____ our domain's resolution _____?

Can _____ confirm _____ our domain name _____ correctly?

Can you verify that _____ name _____ correctly?

Is _____ possible to make sure _____ set _____ for _____ resolution _____ in line _____ name _____?

_____ it _____ to _____ whether _____ our domain _____ set up correctly?

_____ we _____ if our _____ name registration _____ correctly?

Is _____ any _____ that the _____ set _____ to _____ proper resolution?

Can you _____ our _____ been properly configured?

Can _____ see _____ the _____ configuration _____ our _____ domain name?

_____ we determine _____ our registered _____ is configured _____?

_____ we _____ able _____ our assigned _____ been _____ for a successful _____ of the DNS?

Can _____ confirm _____ name registration is _____ correctly?

_____ we determine _____ domain is being _____?

_____ there a way _____ proper _____ of _____ domain?

Can _____ verify _____ domain _____ configured correctly?

_____ our domain has _____ set up properly?

_____ possible to verify that our _____ has _____?

Do _____ have the _____?

Is _____ a _____ the configuration of our _____?

Can _____ that _____ registered domain has _____ correctly?

Can _____ check the _____ of _____ name _____ make _____ it _____?

_____ to _____ configuration of _____ domain name registration?

Can _____ if our domain _____ up correctly.

_____ we figure _____ our domain's _____ is configured _____?

_____ find out if _____ setup of the _____ system _____ been accomplished?

_____ want to _____ the correctness _____ the resolution _____ domain _____.

Can _____ confirm _____ accuracy _____ configuration of our _____?

_____ there a _____ check if _____ domain is _____?

You _____ able to _____ our domain's registration _____.

Is a check possible to make _____ that _____?

We don't _____ name registration is appropriately configured _____.

Is it _____ check our registered domain _____ make _____?

Can we _____ the _____ name _____ has _____ right _____?

Can _____ if _____ is _____ correctly?

_____ a way to make sure that _____ our _____ domain _____ set _____?

_____ check _____ see if our _____ has _____ correct setup.

_____ can we _____ ensure _____ our domain's _____ correct?

Is it _____ to see _____ our _____ name _____ correct _____?

_____ we check _____ of the domain _____ make sure it _____.

Do _____ if _____ name registration has _____ configured?

Do you know _____ the _____ set up?

Is it possible _____ check _____ sure our registered domain _____ properly?

Is _____ domain name _____ the _____ way?

Is it possible to _____ domain name _____ check _____ DNS _____ at _____?

_____ if the registration _____ our domain _____ correct?

_____ there _____ that the _____ of the domain name system has _____ done _____?

_____ be sure that our domain registration matches _____?

Is _____ to verify _____ our domain _____ correct set _____?

Is _____ our registered domain's _____ resolutions _____ correctly?

Is it possible our _____ name has _____?

____ you tell us ____ the domain name ____ is ____ for ____ ?
 Do ____ registration has the correct settings?
 ____ there a way to make ____ for ____ domain name ____ been set up ____ ?
 Is there ____ the ____ configuration of our ____ ?
 ____ you ____ to ____ if ____ name's configuration is ____ for ____ DNS?
 Do ____ that ____ our ____ name ____ allows for ____ of the DNS?
 ____ it ____ to check if ____ configured right?
 ____ configuration ____ our registered domain's ____ appropriately?
 ____ can ____ confirm the ____ of the ____ for ____ domain ____ ?
 ____ to ____ that ____ domain has ____ correct configuration?
 ____ possible to ____ the ____ DNS resolution ____ matches my domain ____ ?
 Is ____ correct ____ our domain's ____ to ____ seamless ____ ?
 ____ you verify our ____ ?
 Is it ____ to verify the ____ registered ____ resolution?
 Can you ____ me ____ name registration ____ been ____ in ____ right ____ ?
 Did ____ domain has been set ____ correctly?
 Do we know ____ the domain name ____ ?
 Is ____ possible to verify ____ our ____ domain?
 ____ possible ____ determine ____ the ____ DNS ____ matches our registered domain ____ ?
 ____ sure our domain name ____ the right way?
 ____ believe ____ is ____ to confirm that our ____ things accurately?
 ____ whether ____ registered ____ is configured correctly?
 ____ a ____ to ____ if our domain ____ set ____ correctly?
 ____ we determine ____ correct ____ our registered domain?
 Can you ____ me if ____ domain's ____ for the ____ the internet ____ ?
 Is ____ DNS ____ ?
 Can we tell ____ the ____ name ____ matches ____ ?
 ____ there a ____ to ____ whether ____ name ____ setup ____ done correctly?
 Can ____ if our ____ has ____ properly ____ up?
 ____ have a ____ and ____ we ____ setup for a resolution?
 There is ____ way to ____ our domain's ____ is ____ .
 ____ verify if ____ for ____ domain ____ configured correctly?
 ____ me ____ our domain name registration ____ up in ____ way?
 ____ it possible to ____ our domain registration handles ____ ?
 ____ sure the domain name is ____ up ____ .
 ____ us if it is ____ verify ____ correct ____ for ____ domain name registration.
 Are you ____ make ____ our ____ name is set ____ ?
 ____ domain name registration ____ can ____ .
 Is ____ for our ____ ?
 ____ it ____ to ____ if ____ registration is the ____ one?
 Is ____ to make sure ____ domain works correctly?
 Can we verify ____ our ____ correctly?
 Are we sure that the configuration ____ registration ____ the DNS?
 Is ____ to ____ that our ____ registration ____ correct?
 ____ ensure that our ____ is ____ ?
 ____ the correct ____ name registration?
 ____ check whether ____ name registration has ____ right setup?
 Can ____ the ____ registration is configured correctly?
 Is it ____ determine if our ____ is ____ ?
 ____ there ____ way to ____ whether ____ not the domain ____ setup ____ been ____ ?

_____ you _____ our domain name registration _____ correct _____?
 Can you check to _____ sure _____ domain _____ correct _____?
 Does our domain's registration _____ resolution?
 Where can _____ find _____ if _____ domain name _____ the configured _____?
 _____ you _____ if _____ domain name registration has _____ right _____?
 _____ you _____ me _____ the domain name registration _____ up _____?
 _____ tell us if it's _____ verify _____ correct _____ resolution _____ our registration?
 _____ need _____ sure _____ domain name registration _____ properly _____ accurate DNS resolution.
 _____ a _____ make sure _____ have _____ up the correct domain _____?
 _____ there _____ way to _____ domain _____ configured properly?
 Do you _____ our _____ registration _____ correctly configured?
 Is _____ a _____ to check whether or not _____ setup has _____?
 How _____ to _____ the correctness _____ our _____ registration?
 _____ it _____ confirm _____ domain has the _____ setup?
 _____ it possible to _____ right _____ our _____ domain?
 _____ we _____ domain registration to _____ of the domain?
 Is it possible _____ a _____ to ensure _____ our _____ functions correctly?
 Is _____ to verify _____ domain _____ is correct?
 In _____ we confirm the _____ the DNS resolution?
 _____ the _____ name registration _____ up _____ proper resolution _____ dns?
 Do _____ know if _____ domain name _____ is _____ the _____ the domain _____?
 _____ you _____ that our domain _____ up right?
 Is _____ we did the _____ a well-functioning dns resolution _____ registered _____?
 I want to know _____ has _____ set up _____.
 I _____ if there is a way to _____ if _____ has _____ set up _____.
 _____ determine if we _____ the _____ correctly?
 Is it possible to _____ sure _____ set _____ for _____ DNS resolution _____ our _____?
 Is there a _____ having our _____ domain _____ up _____ proper _____?
 Is our _____ set _____?
 If the _____ registration _____ the correct _____ check it _____?
 _____ sure we _____ proper _____ for our domain?
 Is _____ make sure our _____ name is set _____ work?
 _____ a _____ to _____ our domain's _____?
 Is _____ if you have set up _____ correct domain _____?
 Is _____ a way _____ verify the _____ our domain _____?
 Is there _____ way to _____ sure _____ registration _____ set _____ correctly?
 Is _____ confirm _____ domain _____ handles it accurately?
 _____ a way to check if _____ of _____ Domain _____ System _____ done _____?
 Can _____ tell me _____ up _____ name registration correctly?
 How _____ tell _____ Domain Name _____ is in _____ with _____ Configuration _____?
 _____ possible to determine _____ registered domain is _____?
 Can _____ confirm the correctness _____ resolution _____ the _____?
 _____ if the domain _____ the correct settings?
 _____ sure that our _____ name registration _____ configured _____?
 _____ configuration _____ domain name _____ allow for correct _____ resolution.
 _____ it sure _____ our _____ name registration _____ up _____?
 How _____ we verify that _____ domain is _____?
 _____ assure us _____ domain's registration is _____ for _____ the internet address?
 _____ we _____ sure _____ configuration of our _____ name _____ for _____ DNS resolution?
 Is _____ verify the correct _____ of our _____ domains?

We need to make sure ____ the ____ of ____ registration ____ correct ____.
 Can you ____ domain name registration has the ____?
 ____ it ____ possible ____ verify if ____ registration has the ____?
 Are ____ registered domain's resolution?
 ____ possible ____ sure that ____ domain is working correctly?
 ____ it possible ____ up ____ proper dns resolution ____ in ____ with our ____ name registration?
 What ____ do to make ____ domain's ____ accurate?
 Is there a way ____ if a ____ been ____ up ____?
 ____ we ____ registration ____ the domain to make sure it ____?
 ____ it ____ to check ____ the ____ domain ____ registration?
 ____ it too much ____ tell me ____ our ____ registration works on ____?
 Is ____ possible to ensure proper ____ looking ____ the ____?
 How ____ confirm the ____ of ____ domain's ____?
 Is it ____ domain registration ____ the correct ____?
 ____ DNS ____ our ____ configured?
 ____ see ____ registration for our ____ configured correctly?
 Could ____ tell ____ if the registered ____ been set ____?
 Can you confirm ____ registered ____ is set ____?
 ____ possible to verify the ____ the domain ____?
 ____ you ____ the domain name's configuration ____ if ____ for ____ problems?
 ____ we ____ the ability to ____ accuracy ____ our domain's ____?
 Does the ____ setup ____ registration allow ____ resolution ____ dns?
 ____ it ____ find ____ if the domain has ____ right ____?
 ____ we do to make ____ our ____ resolution ____ configured ____?
 ____ it possible ____ whether ____ domain ____ has the appropriate ____?
 Will we be ____ to ____ domain is ____ correctly?
 You might be ____ possible to verify ____ name resolution.
 ____ think it is ____ confirm that our ____ handles the ____?
 ____ correct ____ our ____ allow for seamless resolution ____ the ____ Name System?
 Is ____ way ____ make sure that your domain ____ accurate?
 ____ you ____ domain has ____ set up correctly?
 ____ the correct setup ____ the ____ allow seamless ____ the ____ System?
 Is ____ the set up ____ properDNSresolution ____ in ____ with ____ domain name registration?
 ____ the ____ up ____ proper ____ resolution matches our domain ____ it ____ to ____?
 ____ we ____ our domain name ____ set up ____?
 ____ a way to ____ sure ____ domain ____ is ____ to par?
 Is the ____ registration ____ for accurate ____?
 Can ____ if the domain ____ registration ____ right ____?
 Do you ____ the ____ name is set ____ way?
 ____ there ____ to make ____ the DNS for ____ stinkin' ____ name ____ set ____ correctly.
 ____ there ____ way to confirm ____ our registered domain ____?
 Can ____ has been set up correctly?
 Is there ____ our domain is ____ correctly?
 Is there a ____ check ____ your domain ____ done correctly?
 ____ you ____ the ____ to ____ the proper ____ of the ____?
 ____ that ____ our domain name ____ allowed for correct resolution ____ DNS?
 ____ we confirm ____ the ____ for our domain registration?
 Can ____ if ____ configured correctly?
 ____ you ____ if ____ registration of our domain ____ configured ____?
 ____ the ____ of ____ resolution configurations ____ the domain?

_____ we make sure that _____ resolution is _____ registration of _____ domain?
 Is there a way to _____ Domain _____ has _____ properly?
 _____ we _____ sure that _____ domain resolution _____ proper _____ it?
 Is _____ if our domain name registration _____ correctly _____?
 Is _____ a way to ensure that _____ configured _____?
 _____ our domain _____ correctly _____?
 _____ we able to _____ correct configuration of _____?
 Can you verify _____ resolution _____ domain _____?
 Could we _____ our _____ is set up _____?
 We _____ the _____ resolution configuration _____ our registered _____ name.
 _____ can check _____ if _____ registration has the correct _____.
 _____ possible _____ if our domain is _____ right?
 _____ need _____ know if our _____ name _____ configured _____ for _____ resolution.
 _____ there _____ to _____ the configuration of _____ registration?
 _____ possible _____ ensure _____ domain's resolution is correct?
 Could we know _____ domain _____ been _____ correctly?
 _____ there _____ way to _____ domain name _____ resolution?
 _____ we tell if _____ configured _____?
 _____ it possible _____ have _____ of the _____ name?
 Can _____ confirm _____ the _____ registration is configured _____?
 _____ the configuration _____ for the domain name?
 Is _____ to check the correct _____ and _____?
 Is there _____ way _____ theDNS for _____ name is _____ up properly?
 Is _____ a _____ accuracy _____ your _____ name system setup?
 Can _____ if the domain _____ configured correctly?
 Can _____ check that the _____ name _____ right _____?
 _____ it possible _____ verify _____ our domain _____ appropriate _____?
 _____ we _____ certain that _____ domain _____ complies with _____ resolution _____?
 Is it _____ to verify _____ domain _____ registration and see _____ configured _____ at your _____?
 _____ up _____ proper DNS resolution is _____ with _____ name _____ it possible to verify?
 Can we _____ accuracy of _____ registered _____?
 _____ can we _____ if _____ is configured in _____ way?
 Are _____ sure if our _____ up correctly?
 _____ get the _____ configuration _____ our registered domain?
 Did _____ check to see _____ domain _____ is good _____ resolving _____?
 Can _____ tell _____ the _____ name _____ has _____ configured _____ for _____ resolution?
 _____ check _____ see _____ domain registration _____ configured correctly?
 Is _____ for _____ domain name registration _____ an _____ configuration?
 Can _____ make _____ domain _____ is set _____ work?
 _____ sure _____ domain's registration is _____ the right way?
 Is _____ domain _____ correct?
 _____ you _____ our _____ registration is _____ up _____ the correct way?
 _____ verify if the _____ registration is configured _____?
 _____ it _____ for _____ to verify _____ correct configuration _____ our _____?
 _____ confirm _____ the _____ domain has _____ up correctly?
 _____ you _____ domain _____ configuration to _____ sure it's good?
 Can you please _____ name registration is _____ correctly?
 Can we _____ registration _____ the domain _____ sure its resolution _____?
 _____ you _____ see _____ we _____ our domain correctly?
 _____ possible _____ us to verify _____ our domain has _____?

Is ____ setup ____?

____ we ____ if our domain ____ registration is ____ precise ____ internet address?

____ the ____ the ____ registration ____ for ____ resolution of the dns?

Is ____ a ____ to check ____ is configured ____?

____ there a ____ to ____ sure ____ the domain ____ system ____ up correctly?

Can we ____ if ____ configured ____?
