_____ the _____ life _____ traditional _____ operating _____ the _____ life for activated wi fi calls?

How _____ wifi call _____ usage?

Is there a _____ in _____ between _____ and _____ WIFI calling device?

Do you _____ effect of reactivation ofWiFi calling on battery performance _____ on _____?

_____ activatedWiFi _____ significant _____ on device batterylife?

_____ of _____ difference _____ the battery life _____ between using traditional cellular _____ communication _____ wi fi _____?

_____ you tell me if wi-fi _____ on _____ use?

_____ wi fi _____ into the _____?

After _____ calling" _____ activated, do the battery life _____ mobile/cellular mode _____ operation decrease?

_____ if enabling the phone _____ in _____ affect _____ usage _____ the battery?

Is there _____ impact _____ longevity if _____ engage _____ fi _____?

_____ opting for an activated _____ our _____?

the battery advantages of a traditional mobile/cellular of operation the of a ?
 calling life than mobile/cellular mode operation?
 the of reactivation ofWiFi battery than effect conventional mobile ?
 you the effect reactivation ofWiFi calls on battery is important ?
 Does the battery life of traditional of operation decline calling" feature ?
 me wi-fi calls will battery use?
 Will using calling service ?
 battery life advantages a traditional mobile/cellular of operating the fi ?
 you think the ofWiFi battery greater than normal mobile ?
 Is possible the use of shortens lifespan device?
 Can you if of the battery the phone will affected by in ?
 you that effect of reactivation ofWiFi calling on battery is traditional ?
 Does the wi battery life than a in a ?
 wi drain my battery mobile service?
 think effect of ofWiFi on battery performance any than mobile ?
 Is activatedWiFi calling significant effect ?
 Can you tell me a effect on use?
 After "WiFi calling" is do the battery life advantages traditional mode ?
 When wi-fi call, drain more.
 How life differ using traditional cellular of communication using activated wi ?
 Do of reactivation ofWiFi performance that significant compared mobile operations?
 using Wifi kills battery quickly than traditional mobile ?
 When compared the cellular impact enablingWiFi on battery ?
 Do believe reactivation calling on performance than what conventional mobile in?
 battery advantages mode of operation decline use of "WiFi calling" technology?
 calling to cause substantial depletion thebattery?
 Does the wi calling on battery from in cellular ?
 Can you tell about the wi the battery?
 Do think battery drain when wi-fi call?
 After the technology activated, the life a traditional of will decline.
 Does opting activated call our power ?
 Is my will experience in battery use if I wireless ?
 there major power when the calling service WiFi rather the normal cellular ?
 Is the effect activationWiFi device to functioning?
 turning call affect usage?
 Is that my phone's take big I on wi-fi over regular cell ?
 me if enabling the WiFi has effect the batteries in ?
 Is effect wi on battery life?
 wi fi battery life?
 effect ofWiFi battery different to a orcellular mode of operation.
 drain battery cellular usage?
 Do you the effect on battery greater what conventional operations do?
 Is that affects battery operations?
 a will battery more?
 you effect of reactivation ofWiFi performance isn't as the usual operation?
 Does battery life traditional mobile/cellular mode operating the battery of a calling?
 enabling wifi drain more cellular usage?
 Is the wi fi battery life from a in ?
 battery may drain when a service.
 using wi Fi phone's to cellular ?

Is it possible _____ my _____ will _____ if I _____ wireless _____?
