

[Demo] NLP Dataset for Customer Service Automation

Company Type	Pet Insurance Companies
Inquiry Category	Submitting and tracking claims process
Inquiry Sub-Category	Claims Documentation
Description	Inquiries about the type of documentation required to support a claim, such as vet bills, medical records, and invoices, and how to obtain and submit these documents.
Data Size	5,028 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Pet Insurance Company" customer inquiry. (Purchased data will not be masked.)

____ the response ____ vary depending ____ complexity ____ information is requested ____ the initial ____?
 ____ response ____ depending ____ how ____ is, ____ more ____ is required after an examination?
 ____ there ____ discrepancy ____ time if supplementary data ____ of ____ is required?
 ____ response ____ by ____ complex ____ or if ____ information is needed after an initial ____?
 ____ is required, ____ the response ____ by complexity?
 The response duration ____ be different based ____ how complex ____ is ____ after the ____ examination.
 When ____ is ____ is ____ response ____ influenced by complexity?
 Will the response duration be ____ on how ____ gets ____ whether more ____ after ____ examination?
 ____ the reply ____ based on ____ complexity ____ and ____ is ____ after the ____ review?
 ____ response times ____ when ____ is more ____ and additional ____ is ____ first review.
 ____ difference ____ duration if it gets more complicated ____ if ____ information is required ____ the ____.
 ____ the ____ duration if it gets very complex ____ if more information ____?
 ____ response duration vary depending on ____ it ____ whether additional ____ needed ____ an ____?
 ____ details are required after the ____ review ____ difference ____ related ____ how complex?
 ____ a difference in ____ time ____ gets more complicated or ____ additional ____ are ____ after the ____?
 ____ there a difference in ____ duration ____ it ____ more complicated ____ there is ____ needed?
 ____ the response ____ depending ____ complex ____ gets and ____ additional ____ are ____ after ____ initial examination?
 ____ a difference in ____ response ____ it gets ____ complicated ____ if additional details ____ after the ____.
 If ____ are ____ is ____ affected by complexity?
 ____ time affected by ____ when follow-up ____ required?
 ____ the response duration ____ on ____ complex it ____ or if ____ is needed ____ examination?
 Does the response ____ change ____ complicated or ____ additional ____ needed?
 Is ____ response duration ____ complex ____ gets ____ if additional ____ are needed after the ____?
 ____ duration depend on how complex ____ more information ____ after an ____?
 Is ____ a ____ between the response ____ if it gets ____ if ____ are ____ after ____ examination?
 Does the response ____ on how ____ the request is ____ information?
 Will ____ response ____ be ____ based on ____ complex ____ much ____ is needed after ____ initial examination?
 Is the ____ determined ____ complexity level, ____ additional ____ is requested ____ the ____?

_____ times may depend _____ initial evaluation.
 Do the _____ times _____ when _____ request _____ complex and _____ added after _____ ?
 Is there _____ difference _____ the _____ duration _____ it gets _____ if additional _____ are needed _____ an _____ ?
 _____ reply _____ based on complexity _____ additional _____ asked _____ the initial review?
 _____ there is an _____ complexity _____ an _____ evaluation, _____ your reply _____ ?
 Is there a _____ in _____ response _____ gets complicated _____ if additional details _____ initial?
 Will the _____ becomes _____ whether more details are necessary after the initial examination.
 _____ time based on complexity, and if _____ is _____ review?
 _____ the request is _____ complex and _____ available after the _____ review does _____ response _____ ?
 Do _____ have to _____ in _____ ways _____ the request _____ more _____ your initial information?
 Is there a difference in _____ if it _____ or _____ there _____ additional _____ ?
 _____ the _____ time based _____ level _____ if _____ additional information _____ after the _____ review?
 _____ more information _____ is required _____ the _____ response time _____ by complexity?
 _____ time _____ depending _____ the request _____ additional info after the initial _____ ?
 _____ request is _____ complex and _____ information is _____ review, the _____ times _____ change.
 _____ the _____ time _____ complexity and additional information after _____ review?
 Does response _____ on _____ complex it gets, and _____ additional _____ needed after an _____ ?
 _____ reply time _____ level _____ whether additional information is needed _____ the _____ ?
 Is the reply _____ complexity level and how _____ is requested _____ ?
 Do _____ reply times change if _____ information _____ or the level of _____ initial _____ ?
 When _____ more complex, _____ the _____ times _____ initial reviews?
 _____ by complexity level _____ whether additional information _____ after the _____ review?
 _____ response _____ when additional information is needed?
 responsiveness _____ are affected _____ intricacy _____ evaluation
 _____ the request _____ complex and _____ added _____ an _____ the response times _____.
 Does response _____ vary _____ how _____ it is, _____ if additional _____ after _____ initial examination?
 _____ is _____ difference _____ duration _____ it _____ complicated or if _____ details are _____ after _____ initial.
 _____ the _____ time influenced by complexity _____ and _____ information _____ after the _____ ?
 Is there _____ difference _____ if the response gets more complicated _____ if more _____ are _____ after _____ ?
 Is _____ time _____ if more information is requested _____ the review?
 _____ the request _____ more _____ and additional _____ is _____ after initial review, _____ response _____.
 Will the response duration be _____ on how _____ it gets and _____ more _____ examination?
 _____ times change _____ the _____ more complex and information _____ added _____ reviews?
 Is _____ reply _____ complexity level or _____ information _____ after the initial _____ ?
 Is _____ reply _____ based on _____ level _____ whether _____ after the _____ review?
 Do you have to respond _____ because _____ is _____ after _____ information?
 _____ have _____ in _____ because the _____ is _____ complex after _____ have reviewed the information?
 _____ reply _____ based _____ complexity level and if _____ after _____ first review?
 _____ how complex it _____ or _____ additional information is _____ after an initial _____.
 Is _____ reply _____ based on _____ much you _____ know _____ first review?
 _____ required _____ a review, is the _____ time influenced by _____ ?
 Does the response _____ based on how _____ is _____ if _____ needed _____ an examination?
 _____ it gets more complicated or _____ more details _____ needed _____ the _____ a _____ the _____ time.
 Is the _____ time based on complexity level _____ more _____ the _____ ?
 When _____ information _____ required _____ review, _____ the _____ time _____ complexity?
 Response time _____ influenced _____ further information _____ needed.
 When _____ request _____ more complex and information _____ review, _____ response _____ change?
 _____ reply time _____ the _____ level _____ whether _____ information is _____ after the initial _____ ?
 When _____ information _____ a _____ response _____ influenced by complexity?
 Does response _____ change _____ how complex it is, _____ if _____ needed _____ an _____ examination?

_____ more _____ after _____ first _____ will _____ response time change?

_____ the _____ changes _____ on _____ complexity _____ the initial review?

Will the response _____ be different _____ complex _____ gets _____ whether _____ information _____ required _____ the _____ examination?

The _____ time could be _____ on _____ and _____ much _____ to _____ after _____ first _____.

_____ request is _____ additional _____ is _____ after _____ initial _____ does the response times _____?

_____ there _____ the response _____ it gets more complicated _____ more details are needed _____ contact?

After _____ review, _____ times _____ because the request is more _____?

Is response duration _____ on how _____ it _____ additional details _____ initial examination?

When _____ more _____ and _____ information is in _____ after the first review, the _____ might _____.

When the request is _____ and additional _____ is _____ the _____ review, does _____?

Do _____ have _____ different ways _____ is getting _____ complex after reviewing _____ initial information?

The _____ duration will _____ different based on _____ complex _____ and whether _____ information _____ needed _____ the _____.

Will _____ be different _____ complex it _____ and whether more _____ after the initial examination?

Is there _____ difference in _____ time _____ it _____ more complicated or _____ are _____ the _____.

Is _____ time _____ on the _____ and whether _____ is _____ after the initial _____.

_____ a _____ and information is added _____ does _____ response times change?

Do the response times change _____ first _____ is _____ complex?

Is _____ reply time dependent _____ complexity _____ requested after the _____ review?

_____ follow up data _____ needed, _____ response times _____ by _____?

_____ the response _____ changed _____ the _____ is _____ after _____ first review?

Does it take you more time _____ complicated _____ you've looked _____?

Is _____ on complexity _____ is requested after initial review?

Is _____ on the complexity _____ and _____ additional information _____ asked _____ initial review?

Is the reply time dependent _____ more _____ after the review?

_____ vary by how _____ is it, or _____ further _____ after an initial cursory _____.

When _____ information is _____ is the _____ influenced _____?

_____ levels of _____ required _____ initial review of provided materials, _____ may _____ in response time.

_____ the response _____ different for request complexity _____ after _____?

_____ change _____ how _____ gets, and if additional details are _____ an initial examination?

_____ further information is _____ response _____ depend on _____?

_____ vary _____ complex it is, or if _____ is _____ information needed _____ cursory examination.

_____ there's _____ know after the _____ review, may _____ different?

Is the _____ on _____ level and _____ more _____ is required after the _____?

Is the _____ time based on the _____ whether more information _____?

Is the reply _____ based on _____ if the _____ is _____ the _____ review?

_____ more data is _____ later, _____ the duration differ _____?

_____ response _____ be _____ depending on _____ complex it becomes and whether more information _____ after _____?

When _____ different levels of _____ are _____ any differences in response _____?

_____ you have to respond _____ the _____ is _____ complex after reviewing the information _____ already _____?

_____ more _____ is required _____ does the duration _____?

_____ duration vary by _____ is, _____ there _____ more _____ required after a cursory examination?

_____ response _____ depend on _____ complex _____ or if there _____ more _____ needed _____ an _____ examination?

Is _____ time determined _____ complexity _____ information is required _____ the initial review?

_____ additional data _____ needed, is _____ time _____ by _____?

_____ review, do _____ response times change when _____ request _____ complex?

Will the _____ be different _____ on _____ gets _____ more _____ is needed after the initial _____?

_____ times _____ based on _____ intricacy after initial _____.

_____ time affected by _____ request _____ after the initial _____?

_____ a _____ in the response duration if it gets _____ details are _____ an _____ response?
 _____ there a _____ in the _____ duration _____ it gets _____ complicated _____ are additional _____ needed?
 Does _____ duration depend on _____ complex _____ or _____ additional _____ needed after an _____ .
 Should _____ to _____ on request intricacy _____ the initial review?
 _____ time vary based on _____ initial review?
 _____ the request _____ more _____ and information _____ the first review, _____ response _____ .
 Is _____ time based on _____ whether _____ requested after initial review or _____ .
 responsiveness _____ change depending _____ intricacy _____ initial _____
 If _____ up _____ is _____ is _____ time _____ by complexity.
 _____ a _____ the _____ if _____ gets more complicated and if _____ details _____ needed?
 Is there a _____ the _____ duration if it gets _____ additional details _____ initial response?
 _____ you have to _____ different _____ the request is getting _____ complex _____ you've _____ your _____ ?
 _____ the _____ time based _____ level _____ is requested after the review?
 _____ reply time _____ complexity _____ and _____ additional _____ is _____ after the review?
 Does _____ vary _____ complex _____ is, or _____ additional _____ required _____ an initial examination.
 The _____ time _____ based on the _____ the initial review.
 _____ is a difference _____ the _____ duration _____ it gets _____ complicated _____ if additional _____ are _____ response.
 _____ the _____ time _____ on the _____ complexity _____ info after initial _____ ?
 Does _____ responsiveness _____ depend on request _____ after _____ ?
 When _____ needs to be _____ and its _____ complexity _____ after an _____ your _____ times vary?
 Does the _____ correlate with _____ how much _____ the initial review?
 _____ to respond differently because the _____ getting _____ after _____ the _____ you have?
 _____ time based on complexity _____ if _____ is requested _____ first review?
 _____ there is _____ levels of complexity, are there any _____ time?
 If _____ data _____ the _____ time affected by _____ ?
 When _____ and additional info is in the bag after the _____ times _____ change.
 _____ the response times change when the request _____ complex _____ additional _____ is _____ the _____ review?
 Will _____ response duration _____ different _____ how complex _____ becomes _____ if _____ after the initial examination?
 Is the reply _____ based _____ complexity _____ whether additional _____ is _____ the initial _____ not?
 _____ the response _____ change _____ the request _____ and information is _____ ?
 _____ the response duration different depending _____ how complex it gets _____ additional _____ after _____ ?
 Is there _____ duration if it gets _____ or if _____ after an examination?
 Is _____ in the _____ duration if it gets _____ if _____ is required _____ an _____ inquiry?
 _____ additional _____ is required and _____ after _____ evaluation, do your reply times change?
 _____ response _____ how complex it _____ and if additional details _____ after the initial _____ ?
 Is _____ a _____ in _____ if it gets more complicated or _____ are _____ an initial _____ ?
 _____ response _____ be _____ based on _____ and if _____ information is required after the initial _____ ?
 _____ is requested and the _____ of _____ increases after _____ initial evaluation, _____ times vary?
 Is response _____ affected _____ more information _____ required?
 Will _____ response _____ be _____ depending on how _____ whether _____ details are required after _____ examination
 _____ duration _____ on _____ complex it gets and whether more _____ is _____ after _____ initial _____ ?
 _____ response time might be _____ based on request _____ additional _____ review.
 _____ is _____ in _____ if it gets _____ complicated or _____ details are required after _____ .
 _____ on complexity _____ and _____ information is requested after the original _____ ?
 When _____ more information that _____ required after _____ time influenced _____ complexity?
 Is there _____ the response _____ gets _____ complicated _____ if _____ details _____ required after the _____ response?
 _____ the response duration be different _____ complex _____ becomes _____ more _____ are necessary _____ the initial _____ ?
 Is the response _____ influenced by _____ when _____ after a _____ ?
 When complicated _____ up _____ round one, _____ time change?

_____ the _____ is _____ complex _____ is added after _____ the response _____ may _____.
 Is the _____ time based _____ level and whether _____ is _____ review?
 The complexity _____ affects _____ long _____ takes to _____ additional _____ after _____ initial _____.
 _____ the response duration be different _____ it gets and _____ more _____ are required _____ examination?
 _____ depend _____ complex it _____ and if _____ is needed _____ an initial examination?
 _____ the _____ complexity level and if more _____ the initial review?
 Does _____ duration _____ on _____ complex _____ and if more details _____ needed after _____ examination?
 Can _____ be discrepancies _____ time if supplementary _____ has _____ complexity?
 _____ response _____ vary based on how _____ it is, _____ if _____ is _____ an _____ cursory _____.
 _____ the _____ time based _____ and _____ information is requested _____ the initial _____?
 _____ is _____ complex _____ additional _____ available _____ first review, does _____ times change?
 _____ the _____ time based _____ the _____ level and if _____ additional _____ is _____ the _____?
 Do _____ think the _____ based on _____ how _____ want to _____ after the _____ review?
 When supplementary _____ sought following _____ I _____ response times to _____ based _____ request intricacy?
 Is _____ difference _____ the _____ if _____ more _____ or if more details _____ after _____ initial inquiry?
 _____ is more complex and _____ is in _____ the _____ initial, the _____ times can change.
 When the request is more complex _____ additional _____ is _____ the initial _____ the _____ times _____.
 Does _____ duration _____ how complex it _____ if _____ is _____ after an initial _____ examination?
 _____ a request _____ more complex _____ information _____ given after _____ review, the response _____.
 The _____ depend on how _____ it _____ information is needed after _____ initial examination.
 _____ duration vary by _____ it is _____ if there is _____ after the _____ examination?
 The reply time may be _____ complexity _____ requested after the original _____.
 Is the _____ complex additions _____?
 The _____ time depends _____ level _____ whether _____ information _____ requested _____ review.
 Does response _____ by _____ complex _____ is, or if there is _____ needed _____?
 If more _____ is required _____ the duration _____ depending _____?
 Is _____ reply time _____ level _____ additional _____ is requested _____ the _____ review?
 _____ time altered _____ complex additions _____?
 _____ there is more _____ requires _____ time influenced by complexity?
 _____ there _____ in _____ duration if _____ more _____ or if additional information is _____ after _____.
 _____ a request is more complex _____ given _____ initial _____ does the _____ times change?
 When _____ request is more complex _____ additional information _____ available _____ review, does _____?
 There _____ difference in the response _____ it _____ more _____ if additional _____ after an initial.
 When the request _____ and _____ is _____ bag after the first _____ response times should _____.
 When the request _____ more complicated and additional _____ after _____ the response times _____.
 _____ a request _____ more _____ additional information _____ required after the _____ review, _____ change.
 If _____ is required later, _____ vary depending _____ complexity?
 _____ a difference in response _____ if _____ gets more complicated _____ details _____ after _____ examination?
 Does _____ complexity _____ how _____ want to know after the _____ review?
 _____ the reply time based _____ and _____ additional _____ required after _____ initial _____?
 When the _____ is _____ complex _____ information is _____ the first review, _____ change.
 The _____ time might _____ different _____ the _____ after the _____ review.
 _____ difference in response duration _____ complicated or if more _____ needed after an initial _____?
 _____ a difference in _____ time _____ it gets _____ complicated or _____ are required _____ an _____?
 _____ there _____ difference in response _____ it _____ more _____ information is _____ after the initial.
 Is _____ time _____ complexity _____ follow-up _____ is needed?
 _____ duration _____ depending on _____ complex it is, _____ if further information _____ an _____?
 Depending _____ how complex it becomes and whether _____ after _____ examination, _____ response _____ will _____ different.
 Is _____ between _____ response duration _____ more complicated or _____ details are needed after the _____.
 _____ the _____ time _____ complexity _____ how much _____ want _____ know after _____ review?

____ a request ____ complex and ____ is ____ after ____ reviews, ____ response ____ change.
 ____ on complexity level, ____ whether additional information is requested ____ initial ____?
 When the request is ____ complex ____ is gathered ____ will ____ response times change?
 Is there ____ difference in ____ response ____ it gets more ____ or ____ is needed ____ inquiry?
 Is the reply time based ____ complexity level, ____ additional ____ is requested ____ the ____?
 When supplementary facts ____ times to vary based ____ complexity?
 ____ difference in the response duration if ____ more complicated ____ additional ____ needed after the ____?
 Is the response ____ different ____ it gets more ____ or ____ details ____ the initial ____?
 ____ duration depend on ____ it ____ and whether ____ details are ____ initial examination?
 ____ be discrepancies ____ response ____ if supplementary ____ with varying levels of ____.
 Is the ____ time ____ complexity ____ if ____ is ____ after the ____ review?
 Is ____ based on complexity ____ and if ____ information ____ required ____ the initial ____?
 When ____ request is ____ after ____ first review, ____ response ____ change.
 Is the ____ based on complexity ____ if additional ____ should ____ the initial ____?
 ____ response time altered ____ additions ____ a ____?
 ____ response ____ by complexity ____ more information is ____ review?
 ____ the ____ complexity ____ and whether ____ information is needed after the ____ or not.
 ____ have ____ respond ____ a different way because ____ request ____ getting more complex ____ your ____?
 ____ time change if there ____ more ____ after ____ first review?
 ____ times differ ____ request intricacy ____ initial ____
 Is ____ response ____ the request ____ and ____ after the initial ____?
 Is the ____ time ____ on ____ level and ____ information is ____ original ____?
 When the ____ more ____ and additional ____ after ____ first review, ____ times change.
 Is there ____ difference in ____ if it ____ more ____ more details are needed after ____?
 ____ there a ____ it gets more complex or ____ details are needed ____ an ____ response?
 Does the response ____ how complex it ____ or ____ more information ____ an ____ look?
 When the ____ is more ____ and additional ____ in the ____ initial review, the ____ change.
 Is ____ reply ____ dependent on complexity level ____ whether ____ requested after ____.
 If further data ____ later, does ____ duration ____ complexity?
 ____ time ____ complexity level and whether or not ____ is requested after ____ review?
 ____ a difference in ____ duration if ____ complicated or if additional details ____ needed ____.
 ____ duration determined by ____ further data is ____?
 Does ____ based on the request ____ after the ____?
 ____ complicated ____ pops up after round one, ____ time ____?
 ____ response time ____ based on ____ and additional info after ____?
 ____ time depends ____ complexity level ____ not additional information ____ the initial review.
 Is the response time based on the ____ and whether ____?
 When ____ more ____ additional ____ arrives ____ the first review, ____ response ____ may change.
 ____ the response ____ complexity level ____ additional information is requested after ____ initial ____?
 Does response ____ depending ____ if additional information is needed ____ an initial examination?
 ____ responsiveness ____ change ____ intricacy after evaluation?
 Does response ____ on how complex ____ is ____ more ____ is ____ after an ____?
 Do ____ response ____ change ____ the initial ____ if the request ____?
 When ____ request is more complex ____ the bag after ____ first initial ____ the response ____.
 Will ____ response time change ____ there ____ details ____ the first ____?
 ____ the ____ time based ____ complexity ____ and whether ____ additional ____ is requested after the ____?
 When ____ information is ____ is ____ time ____ by complexity?
 Is ____ reply time ____ complexity ____ and whether the ____ is requested ____?
 ____ response ____ change ____ and more information ____ gathered after ____ first review.
 Is ____ based on ____ level, and whether additional ____ requested ____ review?

____ the reply time ____ complexity level, ____ if more ____ requested after ____ ?
 Is the ____ time ____ by complexity ____ and ____ information ____ the original ____ ?
 ____ supplementary facts are sought, ____ response ____ change based ____ complexity?
 Is responsiveness different ____ on ____ intricacy ____ ?
 Does ____ response ____ when ____ request ____ more ____ information ____ given after the initial review?
 Is ____ based on the ____ after the initial ____ .
 Is the ____ time ____ a ____ whether additional ____ requested ____ the initial review?
 ____ request ____ more complex and additional ____ initial review ____ the response ____ change?
 ____ reply ____ may be based on complexity ____ if additional ____ after the ____ .
 ____ response duration ____ on how ____ is, or if ____ after an initial cursory ____ .
 Will ____ due to ____ complex ____ whether more details are ____ after the initial examination?
 Is ____ difference ____ it gets more complicated or if ____ information ____ needed after ____ .
 ____ reply ____ by complexity ____ and ____ the ____ information is ____ after the initial ____ ?
 ____ the ____ time change based ____ complexity and additional ____ after ____ ?
 Is ____ based ____ complexity ____ and ____ more information is ____ after ____ review.
 Does ____ duration ____ on ____ complex it is, or ____ further ____ is needed after ____ ?
 ____ follow ____ data is needed Is the ____ affected ____ ?
 ____ reply time ____ complexity ____ and if ____ information ____ requested ____ the initial ____ .
 ____ more ____ are ____ the first review, ____ response time?
 Is the response ____ dependent on ____ complex ____ and ____ additional details are ____ initial ____ ?
 When a request ____ more ____ and ____ added ____ first review, ____ response ____ .
 Does ____ take more time ____ reply ____ a request ____ looked at it?
 Is ____ reply ____ based ____ complexity level ____ whether ____ requested after the ____ ?
 ____ the reply time dictated ____ level and whether ____ information ____ requested ____ ?
 ____ additional information ____ its complexity increases ____ an initial ____ times vary?
 ____ reply ____ based ____ complexity level or if additional ____ needed ____ initial ____ ?
 ____ response ____ be different based ____ how complex ____ whether ____ necessary after the initial examination.
 ____ more ____ is required later, ____ the ____ change based ____ ?
 ____ more ____ first review, will ____ time difference be different?
 Does ____ response ____ depend on how ____ it ____ and if ____ needed ____ examination?
 Does ____ duration ____ complex it ____ if additional ____ are ____ after an ____ examination?
 ____ the ____ is complex ____ info ____ the ____ the ____ review, ____ response times may change.
 ____ you ____ respond ____ different ways because the ____ is ____ more complex ____ you have reviewed ____ you ____ ?
 ____ on complexity and ____ additional information is ____ after the initial ____ ?
 ____ is ____ for ____ data, ____ the ____ time affected ____ complexity?
 ____ details ____ required after the first review, ____ the response ____ ?
 ____ more ____ are needed ____ the first review, ____ your ____ time ____ ?
 When ____ more information required after ____ response time ____ by ____ ?
 ____ supplementary data ____ varying ____ intricacy ____ required ____ initial review of ____ materials, ____ be discrepancies ____ response ____ ?
 ____ the reply ____ based ____ level ____ whether ____ is ____ after the original ____ ?
 ____ based on ____ whether ____ is needed after the initial review.
 ____ you ____ to respond ____ different ways ____ the ____ more complex ____ you ____ initial information?
 Does ____ change ____ on how ____ it gets ____ if additional ____ are required ____ initial ____ ?
 Do the ____ times change when the request is ____ ?
 When additional information needs to ____ complexity increases ____ an initial evaluation, ____ reply ____ vary?
 Is ____ response times ____ when ____ request ____ information is added?
 ____ the ____ time change ____ complexity and additional information ____ review?

Will the _____ duration _____ different _____ on _____ complex _____ becomes and _____ details _____ needed after _____ initial _____?
 _____ time _____ level and whether additional information _____ requested _____ the initial _____.
 _____ the response _____ different _____ how complex it gets _____ whether _____ required after _____ examination?
 _____ in _____ duration if _____ gets more _____ or if additional information is _____ after the _____.
 _____ reply time _____ on complexity and how _____ to _____ after _____ initial _____?
 Does it _____ more time _____ to _____ request if _____ you have _____ it?
 _____ required later, does the _____ vary depending on _____?
 When the _____ is _____ complex _____ additional information _____ after _____ review, the response times _____.
 _____ it take _____ to _____ if it's complicated after you review _____ initial _____?
 Does _____ depending on _____ complex _____ and _____ further information is _____ after an initial _____?
 Does _____ response time _____ based _____ and additional info _____ the _____?
 _____ response _____ by complexity _____ is more information _____ for _____ review?
 _____ more _____ after _____ first review, will your _____ change?
 _____ is requested, and _____ level of complexity _____ your reply _____?
 Is the _____ timeframe different _____ complex _____ review?
 Do the response times _____ is _____ complex, _____ the initial _____?
 _____ the response time _____ based _____ request complexity _____ information _____?
 Does _____ differ depending on how _____ gets and _____ details are _____ after the _____?
 Is _____ reply time _____ complexity level or _____ additional information _____ requested _____?
 After initial reviews _____ response times _____ when _____ complex?
 _____ the _____ determined by how complex it _____ whether additional details are _____ initial _____?
 When _____ is complex and _____ after initial review, _____ response _____ change?
 Does _____ change based on _____ it is, _____ more _____ required after an _____?
 _____ response _____ depend _____ is _____ more information is _____ after an examination?
 Does the response _____ on _____ complexity _____ additional _____ review?
 Is there a _____ response _____ gets _____ complicated _____ if _____ required after an initial inquiry?
 _____ duration may be _____ on _____ whether more details are needed _____ the initial examination.
 Does _____ time taken for you to _____ change _____ the _____ you _____ my initial information?
 _____ the response _____ change when _____ request is more _____ information needed?
 _____ is complicated stuff after _____ one, _____ response time _____?
 Is _____ difference in _____ it gets very _____ and if more _____ after?
 _____ response _____ vary depending on _____ complex it gets _____ if _____ is _____ after _____ initial _____?
 _____ the response _____ depend _____ how _____ request is after you have _____?
 Is there a difference _____ duration _____ it _____ very _____ and _____ are needed _____?
 Does the time _____ how _____ is after _____ my initial information?
 _____ reply time _____ on complexity _____ and _____ requested after the review.
 _____ response time _____ request _____ additional information after the initial _____.
 _____ the reply time _____ the complexity level _____ whether additional _____ the _____ review _____ not?
 Does the response _____ depend _____ it is or _____ additional information is _____?
 _____ the _____ duration _____ by how complex it _____ more _____ is needed _____ the _____ examination?
 _____ time _____ on the _____ and how _____ want to know _____ the _____?
 _____ time _____ level and if additional information is needed _____ the _____?
 _____ the _____ vary _____ how complex _____ is, or _____ is _____ after an examination?
 Does response _____ vary by _____ it _____ or if more information _____ cursory _____?
 When there is _____ data _____ levels of _____ any _____ response _____?
 Does _____ response _____ for _____ additions after the _____?
 _____ the _____ complexity _____ there is _____ information to review?
 _____ the _____ is more _____ information is obtained _____ the first review, _____ change.
 _____ response duration _____ based _____ it _____ and whether more _____ required after the initial _____?
 When _____ request is _____ complex _____ additional _____ is available _____ the first _____ change.

Is the reply time _____ on _____ additional information is _____ the _____?

If _____ to be _____ and its level of complexity _____ times _____?

Is _____ a difference _____ response duration if it _____ more complicated or if _____ details _____.

Will the _____ be different based _____ complex it _____ more details are necessary _____ examination?

_____ there a _____ the response _____ if _____ more complicated or if _____ details are _____ examination?

Is reply _____ complexity _____ and whether _____ information _____ the review?

Is there a _____ between _____ duration _____ gets _____ and if _____ are needed after?

Is _____ reply time _____ the _____ and _____ additional information _____ after the initial _____?

_____ the reply _____ based on _____ complexity level and _____ or not _____ requested _____ initial _____?

Is _____ times different when the request _____ complex _____ review?

_____ the reply time _____ on _____ complexity _____ and if _____ information _____ the initial review.

_____ request _____ more complex and _____ info _____ added _____ first initial, _____ response _____ change.

_____ a _____ is more _____ and _____ information _____ first review, does _____ times change?

When complicated stuff _____ up _____ one, _____ the response _____?

_____ the _____ time determined by complexity level _____ if more _____ is _____?

Is _____ time based _____ the complexity _____ and if _____ additional information _____ requested _____ the _____?

_____ duration change depending _____ how complex it _____ if _____ information is needed _____ initial _____.

There _____ a difference in the _____ time if _____ gets _____ additional details _____ required after _____.

_____ depend _____ the request _____ after the initial review?

_____ the reply time _____ level, _____ information _____ requested after the _____ review.

_____ reply time _____ on complexity level _____ whether _____ requested after _____?

The response _____ may _____ when the request _____ complex and _____ in the bag after _____.

_____ there a difference _____ response _____ it _____ more complicated or if more _____ is _____ the _____?

When the request is _____ additional information is gathered _____ the _____ review, _____ times _____?

_____ response duration _____ how _____ gets, and whether _____ are _____ after an _____ examination?

There _____ difference in the _____ time if it _____ more _____ if _____ are _____ after an _____.

When complicated stuff pops up after _____ will _____?

Does response _____ vary by how _____ it is, _____ there _____ more _____ after _____?

Is _____ a _____ in the _____ duration _____ it _____ more _____ or _____ additional _____ are _____?

_____ response _____ be different based _____ request complexity _____ initial _____.

_____ the response times change _____ is _____ additional information is in the bag _____ review?

_____ response duration may be different _____ on how complex _____ becomes _____ necessary after _____ initial _____.

_____ request _____ additional info is available after the initial review, _____ response _____.

_____ request _____ complicated _____ added after the _____ review, _____ response times may change.

_____ vary by how complex is _____ or _____ information _____ needed after _____ initial _____?

_____ discrepancies in _____ time if _____ data has _____ levels of complexity?

Is _____ duration dependent on _____ complex it _____ needed after an initial examination?

Is _____ level of complexity and _____ additional _____ is requested after _____ original review?

Is the response _____ different _____ after initial _____?

_____ a _____ complex and additional _____ is _____ after _____ first review, does the response _____?

Is _____ reply _____ on _____ of complexity and _____ additional information is _____ initial review.

Is _____ a _____ duration _____ it gets more _____ or if _____ is additional _____ needed?

If more details are necessary _____ review, _____ response _____?

Does response _____ differ _____ how complex it _____ and _____ additional details _____ needed _____ examination?

Is there _____ difference _____ the _____ duration _____ it gets more _____ are _____ after the initial _____?

_____ a request _____ complex and _____ information _____ first review, the _____ times may change.

_____ based on the complexity _____ and _____ requested after _____ initial review?

The _____ time _____ be different _____ complexity after _____ initial _____.

Does response _____ it is _____ there is further information _____ after an _____?

Is _____ based _____ the _____ level _____ if _____ is requested _____ the initial review?

Is there _____ response _____ it gets _____ complicated _____ if additional information _____ required?

When _____ request is _____ complex and _____ is _____ initial _____ the _____ might change.

Is response _____ dependent _____ if _____ information is _____ after an examination?

_____ your _____ times vary _____ information _____ requested _____ the level _____ complexity _____ after an _____ evaluation?

If following up _____ is the _____ time _____ complexity?

_____ more complex and _____ information _____ given _____ the _____ the response times change.

_____ reply time _____ be _____ on complexity level and whether _____ requested _____ original _____.

_____ response _____ vary by _____ complex it is or _____ more _____ initial cursory examination?

If additional information _____ requested and _____ of _____ do _____ vary?

Is the _____ time based _____ complexity _____ amount _____ you _____ to _____ after the _____ review?

Does the response _____ differ based _____ complexity _____ the _____ review?

Do _____ have _____ the request is _____ more _____ after _____ review the _____ originally provided?

_____ you _____ to reply _____ it is _____ after _____ review the initial _____?

_____ complicated or _____ additional details _____ needed, there _____ a _____ in the response duration.

_____ vary by how _____ it is, or _____ there is _____ information needed _____ initial _____?

Is the _____ time _____ on _____ of information requested after _____ review?

Is response duration _____ gets and _____ details are needed _____ an _____ examination?

Can _____ by _____ additions after a review?

Do _____ response _____ request _____ additional information after the initial _____?

Do _____ response times change _____ is complicated _____ additional information _____?

Is the reply _____ based on _____ if additional _____ after _____ first review?

Does _____ duration _____ gets and _____ additional details are needed after an initial _____?

There _____ a _____ in _____ response _____ if it gets more _____ if _____ details are _____ an _____.

_____ is _____ in the _____ duration _____ complicated or if _____ is additional _____ needed after _____ examination.

Does _____ depending on how complex it _____ if _____ more information needed after _____.

_____ reply _____ on _____ complexity level _____ if more information is _____ the _____?

Is there a _____ in the _____ it _____ complicated _____ if _____ information is _____ an _____ inquiry?

The complexity _____ responding _____ additional _____ after the _____ review.

_____ the additional information _____ after _____ original _____ is _____ reply time _____ on _____?

_____ the response duration _____ complex _____ and _____ additional information _____ needed after _____ initial examination?

Does response duration _____ complex _____ and whether additional information is needed _____ an _____?

There is a difference in the _____ duration _____ it _____ more detail _____ after _____ initial.

_____ reply _____ based on complexity and _____ additional info _____ after _____ review?

_____ time _____ based _____ request _____ after the first review?

Is _____ duration _____ depending on _____ complex it is _____ if additional _____ are _____ an _____?

When more information is _____ review is _____ response time _____?

_____ response duration _____ different _____ on _____ and _____ more is _____ after the initial examination?

The _____ time is dependent _____ the _____ whether _____ information is _____ after _____.

_____ the response times _____ request is _____ after initial _____?

The _____ depends _____ how _____ is, and _____ more _____ is needed _____ an _____.

Does the _____ time _____ on _____ level and whether _____ requested _____ review?

_____ request _____ complex and _____ information is available _____ initial review does the _____?

When _____ stuff _____ up _____ one, _____ the response _____ change?

Is _____ a _____ response _____ it gets _____ complicated or _____ details are required after _____ examination?

_____ is _____ and additional _____ is _____ the _____ review, the response times _____ change.

Will the response duration be _____ how complex _____ more details _____ needed after _____ examination?

Is the response time _____ complexity _____ and _____ additional information _____ needed _____?

Is the _____ or _____ additional information is _____ after the initial review?

Is _____ response timeframe _____ complex additions _____ review?

The _____ times change when _____ complex _____ information _____ initial reviews.

Will the response duration be different _____ complex _____ more details are _____ the _____ examination.

The response _____ when the _____ is more _____ information _____ available after the _____.

When supplementary facts _____ should _____ expect response times _____ intricacy?

responsiveness _____ can _____ based on _____ after initial _____.

Does _____ change depending on how complex _____ gets and _____ are needed _____ examination?

_____ response _____ depending _____ how _____ it gets and _____ information _____ needed after _____ initial examination?

Is _____ time _____ the _____ the review and whether additional information is _____ the _____?

When there is _____ information _____ after _____ the _____ time _____ by _____?

The time _____ give it _____ may be _____ if _____ more _____ after the first _____.

responsiveness times _____ based on _____ initial evaluation

When _____ request is more _____ and information _____ added after the _____ the _____.

_____ reply _____ based _____ and _____ information is required after _____ initial review.

Is the _____ different _____ is _____ and _____ information is needed after the first _____?

Does the response _____ request _____ more complex and _____ is _____?

_____ the _____ is _____ is available after _____ initial review, the response times _____ change.

_____ the _____ duration _____ on how _____ it _____ and if more _____ are needed _____ initial _____?

responsiveness _____ depending on request _____ initial _____.

_____ you _____ to respond in a different way _____ getting more _____ review _____ information?

Does _____ duration _____ how _____ is, _____ if _____ information is _____ after an examination?

_____ the response _____ if _____ more _____ or _____ additional details _____ required?

_____ response time _____ on request _____ and _____ info after initial _____?

Is _____ time based _____ and whether additional info _____ the _____ review?

_____ the response times _____ when _____ request is more _____ information _____ initial _____?

Is the _____ on _____ level _____ whether additional information _____ after the _____?

Does the response _____ depend on how _____ is _____ more information is needed _____?

_____ time based _____ complexity _____ whether additional information _____ the initial review?

_____ response _____ dependent on the request _____ initial review?

_____ your _____ timesvary if additional _____ requested _____ level of complexity _____ an initial _____?

If _____ details _____ after the first review, _____ the response _____?

There is a _____ in _____ response _____ it gets more _____ if _____ after an _____ inquiry.

_____ supplementary _____ with varying _____ of _____ is required, are _____ any _____ time?

Does _____ duration vary by how _____ is, _____ if _____ is _____ information _____ an _____ exam?

Is there a difference _____ it gets _____ if additional details _____ an initial response?

_____ the time taken for you _____ respond _____ how _____ is after _____ initial information?

_____ the reply _____ determined _____ complexity _____ and whether additional _____ after _____ review?

_____ there _____ response duration _____ it gets _____ complicated _____ if additional details are required _____ examination.

_____ the response times _____ when the _____ additional info is available after _____ initial _____?

Is _____ a _____ in _____ duration if it gets more _____ if more _____?

_____ the _____ complex and _____ information _____ added after initial _____ do _____ response times _____?

_____ response _____ for _____ request complexity _____ additional info after _____ review?

_____ the response times _____ based _____ the _____ and additional _____ after _____?

When _____ more _____ and more information is _____ after the _____ review, the _____.

_____ the request _____ complex and additional _____ is _____ the _____ do _____ response _____ change?

If additional _____ needs _____ its complexity _____ initial evaluation, do your reply _____ vary?

The _____ time _____ the complexity level, _____ the additional _____ requested after the _____.

_____ response duration _____ how complex it _____ or _____ there _____ further information needed _____ initial _____?

If _____ information is required after the _____ be related to _____ complex _____ is?

Does _____ change based _____ it is, or if _____ information _____ needed _____ examination?

When _____ request _____ more complex and _____ available after first _____ the response _____?

Does the response duration differ _____ on _____ it gets _____ are needed after _____?

_____ to _____ ways because the _____ is becoming more _____ after _____ review your information?

_____ response duration depend _____ how _____ it _____ or if more information is _____ after _____.

_____ the request _____ and more _____ is available after _____ the _____ times may change.

_____ the request is complex _____ information _____ added _____ initial reviews, the _____.

Do the response times _____ the _____ when the _____ is _____?

Will _____ response duration be _____ on _____ complex _____ whether more details are _____ the initial _____?

_____ more _____ and information is _____ after a first _____ response _____ change.

_____ response _____ differently based on _____ and additional _____ after _____ initial _____?

When the complicated _____ round _____ will _____ time change?

The response _____ will be _____ based _____ how complex it becomes and _____ needed after _____.

_____ times _____ based on request _____ initial evaluation

Does _____ times _____ on request intricacy _____?

_____ duration different if _____ very _____ and if more _____ are _____ after?

_____ response _____ depend on _____ is, _____ if more information _____ an initial examination?

Is there _____ difference _____ the _____ if it _____ more complicated _____ if _____ are needed _____ an _____.

_____ on complexity _____ whether the additional information is requested _____ review.

Is there a difference in the response _____ if _____ becomes more _____ initial response?

When _____ request _____ more complex _____ additional _____ is given _____ response _____ change?

_____ the _____ based _____ and the additional _____ after the review?

When the _____ additional information _____ in the bag _____ the _____ response times _____ change.

_____ your reply times change when additional information _____ level of complexity _____ evaluation?

_____ additional _____ is requested and _____ of complexity _____ reply times _____?

_____ reply time based _____ complexity level _____ is asked _____ the original _____?

_____ difference _____ the response duration if _____ gets _____ complicated _____ if _____ details _____ required _____ an examination?

_____ response duration vary _____ how complex _____ further information is _____ after _____ examination?

_____ difference in the response duration _____ gets more complicated or if _____ needed?

Does response duration vary _____ on _____ and _____ additional details are needed _____ examination?

_____ difference in _____ response time _____ gets more complicated _____ more _____ are needed _____ the initial _____?

_____ the _____ time based _____ level and if _____ information _____ requested _____ initial _____

Does _____ response _____ differ _____ on request _____ and additional _____ after _____?

_____ it take more time _____ reply _____ request _____ complicated after you _____?

The _____ be _____ and whether more details are needed after the initial examination.

_____ gets more complicated _____ if _____ are needed after _____ initial, _____ there a _____ response duration?

Is _____ based on how complex _____ becomes _____ if more _____ needed _____ the _____ examination?

After _____ initial review, should I _____ response _____ based _____ request _____?

Does response duration vary by how _____ it is, _____ further information _____ initial _____.

When the _____ more complex _____ after _____ the _____ times change?

There _____ a difference _____ the response _____ it becomes more complicated _____ are required _____ examination.

When _____ request _____ complicated _____ additional _____ gathered after _____ review, _____ response times _____.

_____ by complexity _____ if additional _____ is requested after the _____ review?

_____ the _____ duration depend _____ how _____ or if more information is _____ initial examination?

Is _____ in the _____ duration _____ gets _____ complex or _____ additional _____ are needed?

_____ to _____ in different _____ because the request is _____ more complex _____ you _____ information you _____?

When a _____ is _____ additional information _____ the bag _____ the initial _____ the _____ times may _____.

If _____ is needed, will the _____ be _____ by _____?

Do you have to _____ because _____ is _____ you review _____ information?

Is _____ in response duration _____ it _____ more complicated _____ if _____ information _____ needed _____ the _____?

____ reply time can be ____ on complexity ____ and ____ needed after the ____ .
 ____ is dependent ____ complexity ____ and whether additional information ____ requested after the ____ .
 ____ reply time ____ the ____ if additional information is ____ after the ____ .
 Will ____ be ____ on how complex it ____ and ____ are required after ____ initial examination?
 Is ____ reply time ____ on the ____ and ____ requested after ____ review?
 When a request is more ____ and ____ information ____ after ____ response times may ____ .
 ____ responsiveness ____ differ from ____ after ____ evaluation?
 Do ____ times ____ the request is ____ complex and more ____ gathered ____ first review?
 Does the response ____ on ____ is, or if more ____ is required ____ examination?
 Is ____ time based on ____ level, ____ the ____ is requested after ____ review?
 Does ____ duration ____ on ____ complex ____ is, or if ____ is more ____ needed ____ an ____ ?
 ____ is ____ difference in the response ____ if it ____ more ____ or ____ is needed ____ initial ____ .
 When ____ is complicated and ____ after the first ____ the response times ____ change.
 ____ the response ____ affected ____ post review?
 ____ response time ____ based ____ complexity and additional information after ____ review?
 ____ duration vary based on how ____ if ____ information is ____ an examination?
 ____ response ____ on ____ it gets ____ additional details are ____ after ____ initial examination?
 ____ in ____ duration if it gets ____ or ____ details are ____ after an examination?
 ____ request is more complex and ____ information is ____ the ____ the ____ times ____ .
 ____ response duration ____ how ____ it gets and if ____ are ____ after ____ initial examination?
 ____ request ____ and additional ____ after the first ____ the response times change.
 Is the reply ____ on ____ level ____ additional ____ is asked after ____ ?
 When the ____ is more ____ is in ____ bag after ____ first review, ____ response times ____ .
 If there are ____ required ____ first ____ will your response ____ ?
 ____ difference in the response duration ____ it ____ more complicated or ____ more details ____ after ____ .
 Will ____ be ____ it becomes ____ complex ____ if more information ____ needed ____ the ____ examination?
 ____ response ____ on how complex ____ and whether more ____ are ____ after an initial ____ ?
 After ____ initial review, do ____ change ____ the ____ more complicated?
 ____ the ____ time dependent ____ and ____ additional information ____ the initial review?
 Will ____ duration be ____ it becomes and whether additional details are ____ after ____ examination?
 ____ reply ____ complexity level and if ____ is requested after the original ____ .
 Is there ____ in ____ duration if ____ and ____ more ____ are needed?
 ____ reply ____ the ____ level and if the additional ____ the initial review.
 Once requesting further ____ reviewed, do more intricate ____ a ____ ?
 ____ a difference in ____ response ____ gets more ____ if additional ____ is needed?
 ____ a ____ the response duration ____ it gets more ____ if more ____ required ____ the ____ response?
 When ____ is ____ is ____ time affected ____ complexity?
 ____ reply ____ depends on the ____ and whether ____ is ____ initial review.
 ____ the ____ is ____ and ____ is ____ initial reviews, the response ____ change.
 ____ a request is ____ and additional information ____ needed, ____ times ____ ?
 ____ a ____ in the response ____ gets more ____ if more info is ____ ?
 Do ____ different based ____ complexity ____ additional ____ after initial review?
 ____ difference ____ response duration if it gets ____ complicated or if ____ is required ____ an ____ .
 When ____ is needed after ____ review, is ____ time influenced ____ ?
 ____ follow-up data ____ necessary, ____ the response ____ complexity?
 Does response ____ depend on how ____ it ____ more information is needed ____ examination.
 Is the ____ complexity level and whether ____ information is requested ____ ?
 When the request is ____ and information ____ added ____ the ____ times ____ ?
 ____ the ____ and ____ information ____ available after the initial review, ____ response ____ .
 ____ the ____ duration be ____ how ____ it becomes and whether more details ____ after ____ first ____ ?

____ duration differ ____ complex it is ____ if ____ is ____ after ____ examination?
 Will ____ a different ____ more ____ are ____ after the first ____?
 Is the reply time ____ on complexity ____ whether ____ is ____ initial review or ____?
 ____ response duration ____ on how complex it ____ information is required ____ initial examination.
 Is ____ influenced by ____ when ____ info is ____?
 ____ on ____ level and if additional ____ is required after ____ review?
 Do ____ response times change ____ is more ____ additional information ____?
 ____ the ____ time related to ____ much ____ want ____ know ____ the initial ____?
 ____ time ____ based on request complexity ____ initial ____?
 ____ request is more complex ____ additional ____ is given after the ____ the ____ change?
 ____ the ____ complex and additional ____ available after ____ the response ____ change.
 Is there a ____ in ____ time ____ it ____ more ____ if ____ details ____?
 ____ is ____ between the response duration if it ____ complicated ____ additional ____ required ____ initial response.
 When ____ are ____ should ____ response ____ to vary based ____ intricacy?
 ____ the request is ____ complex and additional ____ is ____ initial review, ____ response ____ change.
 ____ depending on how ____ it is, or if additional ____ needed after an ____.
 ____ duration ____ by ____ complex ____ is, ____ if there is further information ____ a cursory ____.
 The reply time can be ____ complexity ____ and whether additional information ____.
 Does the response ____ request ____ more info ____ initial ____?
 Do responsiveness ____ depend ____ request complexity ____?
 ____ additional ____ needed after an ____ examination, ____ depending on how complex it gets?
 Is ____ reply time based on ____ and ____ requested ____ review?
 Does ____ duration varies by ____ complex it ____ or if ____ is ____ after ____.
 ____ affected ____ request complexity ____ additional ____ after initial review?
 ____ to respond ____ a different way because ____ request ____ getting ____ complex after ____ information ____ provided?
 After the first ____ do ____ times ____ when ____ request is ____?
 ____ you have ____ in ____ because ____ request ____ getting more ____ after reviewing the information you ____?
 ____ the ____ complex and additional information ____ available ____ first review, ____ times ____ change.
 ____ is required ____ level of ____ increases, do ____ reply times ____?
 When the request ____ more ____ and additional ____ available ____ first ____ response ____.
 ____ more information ____ a ____ is response time ____ by ____?
 When complicated ____ round one, will ____ response ____?
 ____ there a difference ____ the ____ if ____ gets ____ complicated or if ____ information ____?
 Is the reply time ____ on ____ and ____ or not ____ information ____ after ____ review?
 When the ____ more complex ____ initial review, do the response times ____?
 ____ the response ____ be different based ____ how complex it gets ____ more ____ is ____ after ____?
 ____ the reply time based ____ complexity ____ and ____ amount ____ information ____ after ____ review?
 ____ is the response time ____ by complexity?
 ____ the ____ with complexity ____ additional information is requested ____ the review?
 Can ____ response ____ altered by ____ additions ____ review?
 ____ reply time dependent ____ level and if ____ needed after the ____?
 Does ____ duration ____ by ____ it is, or ____ information ____ after the initial ____?
 When ____ is ____ after the first ____ the response times may ____.
 Is ____ reply ____ based on ____ or if ____ information is ____ review?
 Depending ____ how ____ becomes and ____ more ____ necessary ____ examination, the ____ duration will be different.
 ____ response time ____ based on request ____ and ____ info after ____?
 Is the reply time ____ the ____ additional information ____ after the ____?
 ____ the ____ based on ____ level and ____ more information ____ after ____ review?

_____ the request _____ more complex _____ the initial review do the _____ times change?
 Will the response duration _____ depending on _____ becomes and _____ is needed _____ the initial _____
 _____ the reply time _____ complexity level _____ is requested _____ the _____ review?
 _____ depending _____ complex _____ and if more information is needed after an _____ examination?
 Does the _____ on request _____ after _____ review?
 _____ the _____ more _____ times change when more _____ is gathered?
 _____ time it _____ respond change _____ on how _____ the _____ after reviewing _____ initial information?
 _____ there _____ difference in _____ duration _____ complicated or if more _____ is _____ after an examination?
 Is there a _____ in response duration _____ it _____ more complicated or _____ details are _____?
 Is _____ duration _____ depending _____ complex it is _____ if additional _____ are needed after _____?
 _____ there a _____ in _____ more _____ or _____ more information is needed after _____ initial contact?
 Does _____ duration _____ based _____ how complex _____ is _____ if _____ information _____ required after _____?
 _____ the response time _____ on request _____ more _____ after the _____?
 _____ response duration be _____ how _____ it becomes _____ what more _____ after the _____ examination?
 Is _____ a difference _____ the response _____ it gets more complicated _____ required after the _____?
 Is the _____ based on complexity level and whether _____ after _____ original _____?
 _____ response duration may _____ different _____ on how complex it _____ and _____ more _____ the initial _____.
 _____ the reply time determined _____ complexity level, _____ additional _____ is _____ after _____?
 Is _____ based on _____ and _____ information is needed _____ initial review, or _____?
 Is _____ time based on how _____ you _____ know _____ review?
 Does _____ duration depend _____ it _____ or _____ additional information is _____ after an _____ examination?
 _____ response _____ depending on how _____ it is, or _____ more _____ required _____ an _____ examination.
 _____ your response time _____ need _____ details _____ the first _____?
 Is _____ time based on complexity _____ and whether _____ is _____ the _____?
 _____ response duration _____ by how _____ or _____ there is further _____ an initial examination?
 When _____ is _____ complicated _____ information is added after _____ first _____ response _____ change?
 Is _____ the _____ duration if it _____ complicated or if additional _____ needed?
 _____ the reply _____ on _____ level and _____ additional _____ is requested after _____?
 Do _____ response _____ differ _____ request complexity after the _____?
 _____ change based on _____ after _____ evaluation
 _____ the response times different _____ request _____ more _____ initial _____?
 _____ the request is _____ and additional info _____ the first _____ the response _____ will change.
 _____ more intricate _____ take more time _____ reply _____ requesting more _____?
 _____ the reply _____ based on complexity _____ if the additional information _____ review?
 Does response _____ complex it _____ further information _____ needed after the initial _____?
 _____ response _____ on _____ complexity and additional _____ after initial review?
 _____ response time changed _____ additions _____?
 Does _____ duration vary by how _____ it is, _____ if additional _____ after _____ examination?
 Is there a difference _____ the _____ if _____ more _____ or _____ additional details _____ initial response?
 Is the _____ time _____ the _____ level and _____ more _____ needed?
 Is the response _____ on how complex _____ gets _____ more _____ is _____ an _____ examination?
 _____ duration _____ by _____ complex _____ is, or _____ is more information needed after an _____
 Is _____ determined by _____ level _____ whether or _____ additional information _____ requested after _____?
 Do you _____ to respond in different _____ because _____ is _____ after reviewing the _____ already _____?
 If _____ data _____ levels _____ are there differences in _____ time?
 _____ based _____ the _____ level _____ if the additional _____ is requested _____ the initial review?
 _____ time _____ whether more information is required after the initial _____?
 _____ data is _____ does the _____ based on complexity?
 Does response _____ vary based _____ how _____ it is, _____ information _____ needed _____ initial examination?
 _____ response times _____ on the _____ complexity _____ additional _____ after _____ initial review?

Is the reply time _____ review and if more _____ is _____?

_____ supplementary data _____ levels of complexity is required _____ are there _____ response time?

Does response duration vary depending _____ how complex _____ is _____ after _____ initial examination?

There is a _____ in _____ duration if it _____ more _____ or _____ is _____ after _____ initial.

_____ data has different _____ of _____ there any discrepancies _____ time?

Does response duration vary by how _____ is _____ after an _____ examination?

If _____ information is requested _____ complexity increases following an _____ reply _____?

Is _____ different when _____ request _____ complex and _____ is needed after _____ first review?

Is the _____ time based _____ level, and _____ information _____ the initial review.

Is there _____ in the response _____ if _____ response gets _____ or _____ details _____ needed after _____ initial _____?

_____ based _____ complexity level and if _____ information is requested _____ the _____ review.

_____ reply time based _____ the complexity _____ and whether _____ after the _____ review?

_____ the reply _____ complexity level and _____ after the initial review?

_____ will be _____ depending on _____ it becomes and _____ more _____ needed after _____ initial examination.

_____ a difference in _____ duration if _____ becomes _____ complex or if _____ are _____?

_____ more information _____ is response time influenced by _____?

Is there a _____ in _____ response _____ it _____ complicated _____ if _____ details _____ needed _____ an _____?

When the _____ is _____ complicated and _____ the bag _____ review, the response times may _____.

_____ is more complex and additional _____ is _____ first review, does _____ times change?

_____ reply time _____ on complexity level and whether additional _____ requested _____?

When _____ more complex and additional _____ does _____ response _____ change?

Is there a _____ in _____ duration if it _____ complicated or _____ additional _____ the initial _____?

_____ different _____ the request complexity and _____ info _____ initial review?

There is a difference in the _____ if it _____ or _____ additional _____ after an _____.

When a request _____ more complex _____ additional _____ is _____ the _____ initial _____ response times _____ change.

Does _____ duration vary by how complex _____ if _____ information _____ needed after _____?

Is the _____ based _____ and _____ the additional _____ is requested _____ the first _____?

If _____ data is _____ time impacted by _____?

If supplementary data with _____ levels of _____ is _____ after initial review of _____ there _____.

_____ response _____ vary _____ complex it is and _____ more _____ is needed after _____ cursory _____?

Does _____ duration vary based _____ complex it is, or _____ information _____ needed _____ the _____?

Is the _____ on complexity _____ what _____ information is _____ the _____?

_____ reply _____ determined _____ level _____ whether _____ information is _____ after the _____ review.

The _____ be _____ on _____ complex it becomes and _____ are needed after the initial _____

When _____ information _____ needed post _____ time influenced _____ complexity?

_____ there _____ the _____ time if it _____ more _____ if additional details are _____?

Is the reply time _____ complexity level, and _____ additional _____ is _____ after _____?

_____ the reply _____ dependent _____ complexity level and _____ the _____ information _____ requested _____ initial review?

_____ required after the _____ review, _____ difference affect how complex it is?

_____ on _____ what information is requested after the review?

The response _____ based on _____ additional info after _____ initial _____.

_____ reply _____ by _____ information later?

_____ a _____ the response duration if it _____ complicated or _____ are needed _____ initial.

_____ response _____ depend _____ complex it is, _____ if _____ is _____ information needed _____ examination?

If follow-up _____ response time _____ by complexity?

_____ you _____ respond _____ because the request is getting more _____ after _____ your _____ information?

Is _____ response time _____ request complexity after _____ first _____?

_____ duration _____ depending on how _____ it gets and whether more _____ are _____ examination?

Does _____ reply _____ much you want to know _____ initial review?

Is the response _____ dependent _____ complex _____ whether additional _____ are _____ after an initial _____?

_____ there a _____ response _____ if it _____ more _____ or _____ more _____ after the initial _____?

When the request _____ more _____ additional _____ is _____ bag after _____ initial _____ do _____ response _____ change?

Is there _____ difference in the _____ duration if _____ if there _____ more _____ needed?

_____ response _____ different when _____ request is more complex _____ is gathered after the _____?

Is the reply _____ dependent _____ level _____ additional information _____ after _____ review?

Is _____ time _____ on _____ level, _____ if _____ information is necessary after _____?

_____ the _____ time _____ complexity level _____ if more _____ is _____ after _____ initial _____?

If additional _____ needs _____ and the _____ complexity increases following _____ evaluation, do your _____ change?

_____ vary _____ on the _____ complexity and additional _____ the initial review?

Do the response _____ based _____ the request _____ and additional _____ after _____?

_____ the request is more _____ and additional _____ is _____ bag after the initial _____ times _____.

Do you _____ to _____ a _____ the request _____ more complicated after you _____ initial information?

Is _____ a difference in the response _____ if _____ or if _____ information _____?

Does the _____ times _____ when the _____ is more _____ is _____ review?

_____ is _____ complex and additional _____ is in _____ bag after _____ initial _____ the _____ times _____ change.

Is the reply time based _____ and _____ want to _____ after _____?

_____ request _____ and additional information _____ first review, the _____ times change.

Does response _____ based on how complex it _____ an initial cursory examination?

Is the reply _____ complexity level _____ what _____ information _____ after _____ review?

When _____ request is complex _____ more information _____ after _____ the response _____.

_____ response _____ depending _____ how _____ is, or if more information _____ required _____ an _____?

_____ vary by _____ complex it _____ or if additional _____ is _____ after _____ cursory _____.

When the _____ complex _____ more info is in the _____ first _____ response _____ will change.

_____ response _____ may be _____ on _____ it becomes and whether _____ needed after the _____ examination.

Is _____ reply time _____ and if _____ information is _____ the initial review _____?

_____ there a _____ in _____ if it _____ complicated or _____ additional details _____ needed _____ an examination

_____ response duration vary depending _____ and _____ additional _____ are needed after _____ initial examination?

When the request _____ more _____ info is _____ bag _____ the _____ the response times change.

The _____ time may _____ on _____ and _____ information may be requested _____ review.

_____ a difference _____ the response _____ if _____ gets _____ or if more _____ is required after _____.

_____ in _____ duration if _____ gets more complicated _____ if _____ details are needed after an _____?

Do the response times change when _____ more _____ and _____ is available _____?

If further _____ is _____ does _____ depending on complexity?

_____ response _____ will be different _____ on _____ becomes, _____ whether _____ details _____ needed _____ the initial examination.

_____ the reply time _____ complexity level _____ additional _____ requested after _____?

_____ there a _____ the _____ duration if _____ gets _____ or if _____ details are _____ after an _____?

Post _____ are _____ any _____ in _____ if supplementary data _____ levels _____ complexity?

_____ duration vary _____ how complex _____ or _____ additional _____ is required after _____ examination?

_____ required for a review, _____ response time influenced _____?

When there _____ more information needed _____ is _____ influenced by _____?

_____ reply time based on _____ if more _____ needed _____ the initial _____.

Does the reply _____ depend _____ complexity _____ and _____ information is _____ after _____ review?

_____ reply time related _____ complexity and how _____ you want _____ know _____?

_____ the _____ based _____ how _____ the request is after _____ initial information?

Does _____ duration _____ on how _____ it _____ and _____ further information is _____ initial cursory _____?

If additional _____ needs _____ be _____ complexity increases following _____ evaluation, do your reply _____?

Is _____ differently based _____ request complexity _____ the initial _____?

_____ there _____ the response time if it gets _____ or _____ additional _____ are _____ the initial _____?

Do the _____ change when the _____ more complex and the _____ is _____ review?

Is _____ based _____ complexity _____ whether more information _____ after _____ initial review?

There is _____ response duration _____ it _____ more complicated or _____ more _____ after _____ initial response.

_____ request is _____ complex and additional information is _____ after the _____ the _____ times _____.

If supplementary _____ different _____ intricacy, _____ there discrepancies _____ the _____ time?

The reply _____ depends _____ complexity and _____ requested after the initial _____.

_____ the _____ on _____ and whether more information _____ after the _____ review?

_____ response _____ how _____ it is _____ if more _____ is _____ an examination?

_____ is a _____ duration _____ it _____ complicated or if more details _____ after the initial.

_____ reply time _____ on _____ and how _____ you _____ to _____ out after _____ review?

_____ the response _____ affected _____ complex _____ after _____ review?

_____ more _____ required _____ response time affected by complexity?

Is _____ by _____ after the review?

_____ the response duration _____ based _____ how _____ and _____ more _____ is _____ after the initial examination?

_____ the _____ the complexity level and _____ additional information is _____ the initial _____?

_____ in _____ response duration _____ gets _____ or if _____ details are _____ after an initial interaction.

If _____ gets _____ complicated or _____ more _____ needed after _____ initial, _____ there a _____ in _____ duration?

If supplementary _____ with varying _____ complexity _____ required, are there _____ in _____?

If more details are _____ time _____ be related to _____?

Is _____ reply _____ based _____ complexity and _____ more information _____ after the _____?

Does _____ duration vary _____ on how complex it _____ further information is _____ initial _____.

_____ response duration differ _____ on _____ complex _____ and _____ additional _____ are needed after _____ initial _____?

If the _____ based on complexity _____ and if _____ is _____ the _____ review.

_____ on how _____ becomes and _____ details _____ necessary _____ initial examination, the _____ duration may _____ different.

Will the response _____ be _____ based on _____ becomes _____ details are needed after the _____

_____ the reply time based _____ complexity _____ what _____ to _____ the _____ review?

Is _____ reply time _____ the _____ and _____ information _____ after the initial review?

Does response _____ on how complex it _____ or _____ after an examination?

Does the time _____ you _____ respond _____ based _____ the complexity of the _____ after _____ my _____?

_____ a difference in response _____ gets more _____ or _____ more information is needed _____.

Does _____ vary by _____ complex _____ and if further _____ needed _____ examination?

_____ reply time can be _____ on complexity _____ whether additional _____ after _____.

_____ the reply time based _____ complexity _____ and _____ additional information is requested _____.

_____ there a _____ duration _____ gets more complicated _____ if _____ are needed?

When _____ complex and additional information _____ first review, the response times can _____.

There is _____ difference _____ response _____ complicated or _____ additional details _____ needed after the initial _____.

_____ vary based on _____ complex _____ is _____ if _____ is needed _____ an examination?

_____ the response _____ be different _____ on how _____ becomes, and _____ required _____ the initial examination?

_____ response _____ after initial _____ when _____ request is more _____?

_____ initial _____ supplementary _____ has _____ levels of _____ any discrepancies in _____ time?

_____ reply time based on _____ and whether additional _____ is _____ the _____ or not?

When _____ is _____ complex _____ is added after initial _____ the _____ can _____.

Is _____ time based _____ level and _____ information should be _____ the _____?

Do the _____ change when the _____ is _____ an initial _____?

Is _____ time _____ on _____ level _____ if more _____ is _____ after the _____?

_____ the _____ duration change based on _____ it becomes and _____ more _____ is needed _____?

_____ reply time _____ complexity _____ additional _____ is requested after the review?

_____ the response times change _____ the request _____ more complex and more information _____?

There is _____ difference between the _____ it gets more _____ if _____ details _____ after an _____.

There is a _____ in _____ response duration if _____ complicated _____ if additional details _____ after _____.

_____ there _____ difference in _____ if _____ more complicated _____ if there is more _____ needed?
 Is _____ time _____ on complexity _____ info is requested after the _____?
 _____ time depend on complexity _____ whether additional _____ is _____ the _____ review?
 _____ review, _____ the response time _____ on the request _____?
 Do the _____ times _____ when _____ is _____ and information is _____ the initial _____?
 _____ a request is _____ complex and additional _____ available _____ first review, _____ times _____?
 Do the _____ time _____ and additional information after the _____ review?
 _____ a _____ in the _____ time if it _____ more _____ information is needed?
 If _____ is required, _____ time _____ be _____ by complexity.
 _____ a request is more _____ and there is more _____ the bag _____ the _____ review, _____.
 Is _____ time _____ by request complexity _____ after initial _____?
 Is the reply time based _____ complexity _____ you want to _____ review?
 _____ the response duration be different _____ it becomes _____ or if _____ details _____ after _____?
 _____ different depending on _____ complex _____ becomes and whether _____ details _____ necessary after the initial _____.
 Do you _____ in different ways because the request is _____ complicated after _____ review _____?
 _____ reply time can be based _____ additional _____ is requested _____ the _____.
 Do you need _____ respond _____ ways because _____ is getting _____ after _____ review _____ you have?
 _____ duration differ _____ on how _____ it _____ and _____ additional _____ are needed after an _____?
 _____ response duration differ _____ it _____ or if _____ information _____ needed after an initial _____.
 _____ times change after _____ when the _____ is more _____?
 When _____ request is more complex and _____ after _____ reviews, _____ response _____.
 _____ the _____ time _____ complexity _____ and _____ information is _____ after the _____ review.
 When there is _____ that _____ is the response _____ complexity?
 _____ response _____ determined by request _____ with _____ information after _____?
 _____ duration vary by _____ it is, or _____ further information _____ an initial _____.
 Does _____ depend _____ how complex it is, or _____ needed _____ an _____ cursory examination?
 _____ the reply _____ by complexity level _____ if _____ information is _____ initial _____?
 When the _____ is _____ complex _____ information _____ review, _____ response times change.
 _____ response duration _____ by how _____ is _____ if _____ further information _____ after _____ cursory examination
 _____ there _____ difference in the _____ duration if _____ more complicated _____ details _____ needed?
 _____ the _____ time change based _____ the request complexity _____ info _____ review?
 _____ required, _____ the response time be affected _____ complexity?
 When the _____ complex _____ information _____ after _____ do _____ response times change?
 _____ more _____ does response time _____ on complexity?
 Is the _____ based on _____ level _____ additional information _____ after _____ initial _____.
 When the request _____ and additional information is required _____ review, _____ times _____.
 When _____ is required after _____ response time _____ by _____?
 _____ there is more _____ required _____ is the _____ time _____ complexity?
 Do _____ times change based on _____ after _____?
 There is _____ response duration _____ it _____ if _____ details _____ needed after the initial contact.
