

[Demo] NLP Dataset for Customer Service Automation

| | |
|-----------------------------|---|
| Company Type | Online Banks and FinTech Companies |
| Inquiry Category | Fraudulent activity and security concerns |
| Inquiry Sub-Category | Malware Attacks |
| Description | Customers experience unusual activities on their devices, such as slow performance, unexpected pop-ups, or antivirus warnings, indicating potential malware or virus attacks compromising their financial data. |
| Data Size | 5,047 paraphrases |
| Want to buy data? | Please contact nlp-data@gross.me via your business email address. |

Masked sample paraphrases of one "Online Bank and FinTech Company" customer inquiry. (Purchased data will not be masked.)

Can _____ lead to _____ identification documents in _____ apps?
_____ be able to get _____ IDs _____ Fintech platforms.
_____ possible _____ this attack _____ the _____ entry _____ user identifications on finance _____?
Is there _____ risk _____ being compromised _____ apps?
_____ hackers _____ my personal _____ your _____ apps?
_____ attacks compromise _____ FinTech applications?
_____ hacks _____ a _____ IDs in financial apps?
Can _____ access to _____ ID documents via _____ apps?
Can _____ gain _____ to _____ identification _____ on _____ platform?
Personal ID info _____ financial _____ be _____ by _____ attacks.
Do _____ hackers _____ get _____ personal _____ through finance platforms?
Attacks might _____ financial applications.
_____ be _____ the theft _____ IDs on FinTech _____?
Do _____ attacks threaten _____ in _____?
_____ compromise _____ access of _____ app IDs?
Is _____ possible that _____ gain access _____ private _____ FinTech _____?
_____ are _____ threats _____ to illegal entry _____ documents on FinTech platforms.
Is _____ possible to _____ personal _____ documents in _____?
There are _____ on _____ in _____.
_____ the _____ a _____ the FinTech app _____?
Is it possible _____ these attacks _____ information _____?
Can _____ cause misuse _____ user _____ on finance _____?
Is _____ possible _____ to get _____ information from _____?
_____ are _____ documents in FinTech apps.
Could _____ be used _____ into _____ personal IDs?
Is it possible _____ access _____ to _____ due to _____ app _____?
_____ are attacks _____ the FinTech apps.
Unauthorized _____ to _____ identification documents _____ be _____ financial apps.

_____ identification details _____ FinTech _____ could be _____ .
 _____ could potentially _____ from FinTech apps.
 These attacks might _____ hackers to _____ on Fintech _____ .
 _____ could _____ attempts to gain _____ details on FinTech platforms.
 Should _____ about _____ security _____ on FinTech apps?
 _____ get _____ user _____ on _____ platforms
 What if these _____ personal ID in _____ ?
 _____ unauthorized _____ to _____ identification papers in finance _____ ?
 The _____ be used to hack _____ IDs of the _____ .
 Will _____ IDs in FinTech apps _____ ?
 Are these _____ to the _____ IDs?
 Unauthorized access _____ can _____ made possible _____ on financial apps.
 _____ unauthorized access _____ possible _____ attacks _____ online banking and FinTech platforms?
 Is there a risk _____ access to _____ apps.
 _____ know if the attacks _____ to _____ personal _____ in the _____ ?
 _____ lead _____ illegal entry into _____ ID documents on FinTech platforms?
 _____ that _____ ID theft could open _____ door _____ your _____ apps?
 _____ attacks could _____ identification _____ FinTech _____ .
 _____ attacks might _____ identification _____ FinTech _____ .
 Personal _____ info used _____ finance _____ exposed _____ attacks.
 Is there any _____ of _____ personal _____ in _____ apps?
 _____ these _____ affect _____ identity in _____ ?
 _____ worry about _____ of IDs _____ FinTech apps?
 Is there _____ chance _____ unauthorized _____ IDs _____ by _____ app breeches?
 There may _____ risk _____ to _____ through app attacks.
 Is _____ likely that personal _____ finance platforms?
 Is there _____ of _____ entry _____ ID documents _____ platforms?
 _____ be attacks on financial _____ lead _____ of personal identification _____ .
 _____ are _____ risks for _____ through FinTech.
 Is there _____ that _____ identity records _____ may be compromised?
 Can illegal _____ identifications be _____ ?
 _____ attacks _____ affect _____ papers _____ use.
 Can _____ attacks _____ in FinTech _____ ?
 Should we _____ about ID _____ ?
 _____ these hacks _____ risk _____ users' IDs in _____ ?
 _____ these attacks lead to _____ to my _____ ID documents _____ ?
 _____ if _____ ID _____ vulnerable to unauthorized access through FinTech _____ .
 There could be _____ gain _____ personal identification details of _____ .
 _____ attacks _____ the _____ to personal ID _____ apps?
 _____ attackers _____ access to private _____ FinTech _____ ?
 The attacks _____ FinTech apps.
 _____ worry _____ theft _____ IDs on _____ apps?
 _____ hacks gain _____ to _____ app _____ ?
 _____ are risks _____ accessing _____ using _____ .
 This hacking is _____ in finance _____ .
 App _____ money _____ could expose _____ to danger.
 Will these _____ ID docs _____ your FinTech _____ ?
 _____ if these attacks _____ get to _____ files in _____ apps?
 Is _____ possible that _____ will _____ illegal entering _____ identifications _____ finance apps?
 _____ a _____ to users' IDs _____ financial apps?

_____ possible that these _____ personal identification in _____?

_____ it possible that _____ ID theft _____ fancy FinTech apps?

_____ documents in FinTech apps _____ compromised.

_____ there _____ unauthorized access _____ personal _____ due to FinTech _____ hacks?

There _____ be _____ on financial _____ that _____ to personal _____.

Is _____ possible _____ hackers _____ get into _____ personal _____ docs _____ apps?

Is _____ possible for _____ get into my _____ FinTech _____?

Is there _____ concern that _____ confidential _____ in _____ Tech apps _____ penetrated?

_____ it _____ that the _____ identification _____ with FinTech _____?

Private _____ in financial _____ exposed.

_____ be exposed _____ the _____ apps.

_____ a concern _____ the _____ of _____ in Finance Tech apps?

Is it _____ to _____ into my personal _____ apps?

Can hackers get into my personal _____?

Is _____ a worry _____ confidential _____ Finance Tech _____ be penetrated?
