

[Demo] NLP Dataset for Customer Service Automation

Company Type	Car Dealerships
Inquiry Category	Vehicle specifications and features queries
Inquiry Sub-Category	Fuel Economy and Efficiency
Description	Customers seek information about the vehicle's fuel economy ratings, average MPG (miles per gallon), fuel tank capacity, and driving range to estimate fuel costs and determine if the vehicle meets their efficiency requirements.
Data Size	5,139 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Car Dealership" customer inquiry. (Purchased data will not be masked.)

How ____ will ____ cost to refuel ____ average ____ per ____?
 ____ to fill ____ the ____ mileage?
 ____ would ____ cost for ____ tank to be ____ based ____ its ____ gallon?
 ____ its average ____ cost of ____ it?
 ____ average ____ gallon is ____ how much will ____ spent ____?
 How much ____ spend ____ vehicle that has an ____ economy?
 ____ more ____ to refill your car ____ of ____ ratio?
 Is ____ more ____ based ____ your average miles-per-gallon ratio?
 ____ the ____ gallon ____ taken ____ account how much ____ be ____ to ____ it?
 ____ miles ____ gallon is a ____ consideration ____.
 ____ does ____ to refuel given ____ average ____ economy?
 How ____ be spent to ____ it ____ basis for determining ____ the average mileage ____
 ____ it cost ____ based on its mileage?
 ____ much ____ be ____ refill ____ the average ____ is taken ____ account?
 The ____ be based ____ mpg.
 ____ to ____ cost ____ filling up with ____ mileage.
 ____ much will be ____ on ____ its average mileage ____?
 ____ spent to refill ____ per gallon is used ____ the ____ for calculating it
 Is ____ possible ____ estimate the cost to refuel ____?
 How ____ if it's average mileage is ____ into account?
 ____ I spend on ____ according ____ my average ____ fuel ____?
 ____ will ____ spent to refill ____ it's average ____ per gallon ____ to ____.
 ____ much is ____ the fuel based ____ mileage?
 ____ price of ____ refill ____ on the average ____?
 ____ much ____ to ____ if ____ mileage per ____ is correct?
 ____ much will ____ refill it if it ____ mileage ____ account?
 How ____ does it ____ to ____ based on the ____?
 ____ much ____ it cost ____ refill ____ tank, ____ on its miles ____?

What is the price _____ the _____?

_____ much _____ have to _____ on _____ according to my _____ fuel _____?

_____ it _____ more _____ refill a vehicle's average _____ per _____?

When _____ how far _____ able _____ go _____ gallon, _____ should _____ tag _____ for a refill?

How much _____ to refill _____ average _____ considered?

_____ much should I _____ for an _____ vehicle's _____ economy?

_____ it _____ expensive _____ you _____ fill up when _____ an _____ ratio?

_____ cost of _____ a tank based on _____ per gallon?

_____ much will be spent _____ refill if it _____ mileage _____?

_____ it _____ fill up using the _____ amount of _____?

_____ mileage _____ gallon _____ what it _____ to go to a _____.

_____ like to know if you _____ give _____ estimated _____ for refueling _____.

How much _____ spent to _____ should _____ average mileage _____ taken _____?

What _____ the _____ to _____ to a _____ on its _____ mileage?

_____ much _____ spent to _____ it _____ average mileage _____ gallon is used _____ the _____ for _____?

How much _____ it _____ to _____ up _____ mileage?

_____ we pay to _____ up with average _____?

What _____ the _____ of _____ be _____ on _____ mileage?

_____ to _____ a _____ that has an _____ per gallon?

How _____ is it _____ average mileage?

It's _____ rate might _____ of _____ you have for.

_____ there a price _____ on mileage?

_____ average mileage per _____ into _____ how much _____ it _____ to refill _____?

_____ the average _____ per gallon _____ will _____ cost to _____ it?

_____ will be _____ when _____ average mileage is _____ into account?

Given its average gas mileage, _____ is _____?

It _____ possible _____ an estimate _____ the average _____ per gallon.

If _____ average mileage _____ correct how much _____ it _____?

Do _____ know the _____ filling up with _____?

_____ you talk about _____ mileage, _____ would _____ pay for a _____?

Is _____ based _____ miles per gallon?

The _____ filling _____ on average mileage.

_____ much does _____ a tank cost _____ on its _____?

How _____ will _____ spent _____ it if _____ average mileage _____ as _____ basis _____ calculating

How much can _____ for _____ vehicle's average _____ economy?

How much would _____ to refill a _____ it _____ on mile _____?

Is it _____ to _____ me _____ much _____ cost to replenish _____ according _____ miles per _____ usage _____?

How _____ do _____ think it _____ cost to fill _____?

_____ much _____ be spent to _____ it _____ gallon is _____ to _____ it

The price _____ a tank of _____ should _____ considered _____ vehicle's _____ gallon is _____.

How much _____ up a vehicle with _____ mileage?

How much the _____ cost _____ be based _____?

_____ refueling price _____ on mileage?

_____ mileage per gallon, what will it _____ the gas station?

_____ it _____ to refuel _____ you _____ your _____ per gallon?

The _____ for _____ tank _____ gas should be _____ into account, _____ is _____ factor.

How costly is _____ mileage?

_____ will _____ to refill it if the _____ for determining is _____ average _____ per _____.

_____ price to _____ is related _____ vehicle's _____.

Is _____ expensive to refill a _____ on the _____?

_____ mileage per gallon is _____ basis, _____ will be _____ to refill it?

The _____ gas _____ determined _____ the miles per gallon.

I _____ like to _____ for refueling _____ on _____ mileage.

_____ this mean _____ would cost to _____ based on _____ mileage _____?

_____ much will _____ for _____ the car's average mile per _____?

_____ would like _____ can give _____ estimated cost for _____ based _____ gas mileage.

_____ want to _____ if _____ an _____ how _____ it would cost to _____ based _____ gas mileage.

_____ its _____ economy, _____ the _____ cost?

_____ much is the _____ refilling based _____ the _____?

The _____ refill with _____ mileage?

_____ will be spent _____ it if it is _____ the basis _____ calculating its average _____

How _____ is _____ fill _____ based on the mileage?

_____ expensive to _____ your vehicle based on _____ ratio?

What _____ it cost to go _____ gas _____ on _____ gallon?

How _____ I _____ fuel if the _____ mpg is _____?

I _____ know _____ you have an estimate _____ a _____ average gas mileage _____.

_____ like _____ know _____ you can give an _____ for _____ costs to refuel based _____ the _____.

Is it _____ to _____ estimate of the fueling expense _____ regard _____ per _____ use rate?

How much _____ it _____ based on _____?

The _____ refilling a tank _____ be _____ on its _____ per _____.

How much _____ the _____ fuel _____ using _____ average _____?

How much _____ refill _____ on _____ mileage/gallon?

Is _____ a _____ to calculate _____ would cost to _____ according to _____ typical _____ per petrol _____?

_____ far it _____ able to go per _____ should the _____ tag _____ refueling?

The price of _____ mileage/gallon.

The cost _____ be based _____ mileage.

Given the _____ mileage _____ to replenish?

How _____ it _____ fill up using _____ number of _____ gallon?

How _____ it costs to _____ based _____?

_____ much _____ to refill with _____ average MPG?

How much _____ it would cost to fill _____?

_____ it cost to fill up _____ its _____ per _____?

Is it more _____ to refill because _____ per-gallon _____.

The _____ fuel _____ to average miles per _____.

Is _____ cost to _____ it up _____ its _____?

_____ of fuel will be _____ mileage

Cost _____ up _____ miles _____ gallon?

I would _____ to know _____ much _____ cost to replenish _____ to _____ average miles _____ usage _____.

_____ you tell _____ the price _____ a _____ on _____ mileage?

Is it _____ expensive _____ normal _____ a _____ of _____ miles-per-gallon ratio?

_____ refilling a tank would _____ its _____ miles per _____.

_____ the average mileage _____ is the basis _____ much _____ spent to _____?

How _____ will _____ to refill _____ average mileage _____ is the sole basis for _____

_____ like to know _____ of the _____ based _____ gas mileage.

_____ a _____ based on its miles _____ gallon?

_____ average _____ mileage, what is _____ cost for _____?

_____ its _____ per _____ correct, _____ much will be spent to _____?

_____ of _____ a _____ depend _____ the miles per gallon.

_____ the _____ mean how much _____ costs _____ refuel?

If _____ gallon is used _____ calculation, how _____ will be _____ refill _____?

Depending _____ the _____ gallon, _____ much will it _____ refuel?

If average _____ gallon _____ used _____ the basis _____ calculating _____ cost, _____ will _____ to refill it?

Are _____ able _____ provide an _____ for refueling _____ on _____ gas _____?

If its average _____ is taken into _____ how _____ refill _____?

_____ want to _____ can _____ of how _____ refueling _____ will cost based on _____ gas mileage.

_____ much will _____ spent _____ refill it _____ average _____ per gallon _____

Is it _____ expensive to refill _____ miles _____?

_____ will it cost to _____ it's average _____ taken into _____?

I _____ like _____ if you _____ give _____ for _____ cost of _____ on _____ gas mileage.

How _____ be _____ its average mileage is accurate?

If _____ average mileage _____ gallon is _____ how _____ spent refilling _____?

_____ cost _____ based on average _____

What _____ the _____ with average _____?

_____ much _____ I spend on _____ depending on _____ vehicle's _____?

How _____ cost to _____ gas _____ on the average _____ usage?

_____ of fuel _____ I _____ my average _____ fuel economy?

_____ much do you think _____ based on the _____?

How much would I _____ charged _____ pumps _____?

How _____ cost _____ to the average mileage estimate?

Is _____ possible _____ give an _____ much it _____ cost _____ replenish _____ with its typical _____ petrol usage _____?

_____ much _____ spent to _____ it if it _____ average _____ per _____?

_____ much can _____ fuel based _____ vehicle's fuel economy?

_____ it possible _____ give a _____ estimate of _____ fueling expense with regards _____ per gallon _____?

Is _____ to _____ has _____ average miles per gallon?

With regards _____ the _____ rate, can you _____ a rough estimation of _____ fuel _____?

_____ my _____ at _____ pumps be based _____ mileage?

_____ mileage per gal _____ refuel.

_____ will be _____ on the average mile _____.

How much _____ fill up _____ amount of gas?

_____ much does it cost to refill a _____?

Does _____ mean _____ to refill based on _____ average _____ per _____?

_____ it _____ expensive _____ refueling based _____ your _____ ratio.

_____ want _____ how much I _____ spend _____ on _____ car's average mpg.

_____ it _____ than _____ for _____ based on _____ miles per gallon?

_____ mpg _____ will it cost for petrol?

_____ rate, how _____ will the fuel _____?

I _____ was the _____ of fueling _____ had for given it's _____.

_____ interested _____ if you have _____ for refueling based _____ average _____ mileage _____ gallon.

_____ will _____ cost to _____ tank _____ on the _____ per gallon?

_____ does it cost _____ to miles _____ gallon?

How _____ can _____ expect to spend on _____ the car's _____?

Given _____ average mileage _____ much to _____?

How _____ it costs _____ its _____ mileage per gallon?

_____ to replenish _____ on _____ mileage per gal.

_____ depend on _____ average mileage.

I _____ how _____ cost to replenish _____ based on _____ typical miles _____ petrol usage _____.

How much _____ refueling _____ based on _____ mileage?

_____ much can _____ spend _____ fuel according to _____ economy?

_____ the gas mileage prices you _____ to _____?

How much _____ spent _____ refill it _____ per gallon _____ the basis _____ determining.

_____ the average mileage per gallon _____ only basis _____ determining, _____ will _____ refill?
 _____ costs _____ it to fill up _____?
 Based _____ miles _____ gallon, how _____ it cost _____?
 _____ would like to _____ how _____ to _____ based on gas.
 How _____ do you _____ will _____ to fill _____ avg?
 Given _____ miles per _____ rate, can _____ a rough _____ the _____ expense?
 What is the _____ fill _____ with _____?
 _____ much is _____ of gas _____ on the _____?
 In regards _____ miles per gallon _____ rate, can _____ give a rough estimation _____?
 _____ much _____ spent to _____ it if its _____ mileage per _____ used _____ the basis _____.
 _____ per gallon _____ cost to go _____ the _____ station based on.
 _____ it _____ to replenish for a _____ gallon?
 _____ its average _____ much will _____ to refuel?
 How _____ does _____ to refuel _____ vehicle with an average _____?
 How much _____ it _____ to replenish _____ according to _____ usage?
 _____ much _____ spend _____ with gas _____ in mind?
 What would _____ price of _____ be based _____ its _____ gallon?
 _____ much do you _____ an average _____ mileage?
 Is it cost _____ for _____ vehicle _____ an _____ gallon?
 _____ be based on average _____.
 How _____ spent _____ refill _____ if it's _____ taken into account?
 _____ cost of _____ fuel based _____ the average _____?
 How _____ would a _____ cost _____ on _____ per gallon?
 _____ the _____ of filling it _____ on mileage?
 If the average _____ per _____ is _____ much will _____ refill _____.
 _____ expect to _____ on fuel _____ on _____ car's average mpg?
 _____ it cost _____ a _____ an _____ miles per gallon?
 _____ its average _____ what's _____ of _____ fuel?
 How _____ be _____ to refill _____ if the _____ was _____ account?
 How _____ refill _____ if the average mileage per gallon _____ as a _____.
 Is it _____ expensive for you to _____ on _____ miles-per-gallon _____?
 According _____ of my vehicle, how _____ spend on fuel?
 _____ much will _____ to _____ it _____ average mileage is _____ account?
 The _____ will be _____ on the _____.
 _____ you _____ costs to _____ on the miles per gallon?
 _____ is _____ to refuel _____ on miles _____ gallon?
 I _____ to _____ you _____ an estimate of _____ costs will be based on the _____.
 _____ its average _____ per gallon _____ correct _____ spent to refill _____?
 Is _____ for _____ refill _____ mileage?
 _____ price for _____ refill _____ on average mileage/gallon?
 How _____ will be spent to refill _____ its _____ account.
 _____ on average _____ is the _____ of _____ refill?
 _____ the costs _____ up with an average _____?
 Considering _____ rate, _____ cost of _____ pump?
 _____ much _____ be _____ it, if its _____ mileage _____ is used _____ the basis.
 _____ much _____ spent to refill it _____ per _____ is _____ basis of determining
 What will it cost to _____ gas _____ average _____?
 How _____ is _____ refill based _____ average mileage?
 Is it _____ calculate the cost of re-fuel _____?
 Does it _____ to refuel _____ that has an _____?

If its _____ mileage per gallon is used _____ base _____ much will _____ spent _____?
 _____ are _____ to get a refill for _____?
 Is there _____ price for _____ refill based _____?
 _____ this mean _____ cost to refill _____ mileage per gallon?
 _____ be spent to _____ it _____ the mileage _____ gallon _____ into account?
 Average _____ per gallon _____ be considered _____ determining _____ of _____.
 Is _____ price _____ a _____ based _____ the average _____?
 How much _____ cost _____ be based on _____ miles per _____?
 Does it _____ replenish a vehicle's _____ gallon?
 _____ average gas _____ what's the cost _____?
 How much will _____ spent _____ if its _____ per _____ is _____?
 _____ want to know the cost _____ per gallon.
 Is _____ a _____ to _____ a _____ average miles _____ gallon?
 How _____ should _____ fuel _____ be based on _____?
 How much _____ the fuel _____ on _____ average _____?
 _____ expect _____ on fuel based on _____ car's average mpg?
 What _____ the _____ refill on _____?
 _____ like _____ know _____ you have an _____ price for _____ based on _____ gas _____ per _____.
 _____ it cost to refill with average _____?
 How much _____ take _____ fill _____ with average _____?
 _____ I spend _____ according to my _____ vehicle's mileage?
 If _____ per gallon is _____ much will be spent _____?
 _____ spent on _____ average mileage?
 How _____ be spent _____ it _____ mileage is used as _____ basis.
 What will _____ with average mileage?
 How much _____ it to _____ a _____ average _____?
 I _____ to _____ the _____ cost is _____ its average _____.
 I'd _____ know if _____ can _____ estimate _____ the cost _____ refueling based _____ the gas _____.
 How _____ will _____ cost _____ go _____ the _____ based on average mileage _____?
 What _____ the price _____ the _____ based _____ gas mileage?
 How _____ do _____ to spend on _____ my average _____ fuel _____?
 If its average _____ is _____ the _____ for calculation, _____ much _____ be _____ to _____ it?
 _____ the _____ to gas _____ determined _____ miles per gallon?
 _____ possible to _____ an approximate _____ cost for its _____?
 What _____ gas _____ prices _____ you would _____ refill?
 How much is it _____ to _____ refill _____?
 How _____ will _____ refilling it _____ per gallon is _____ to calculate.
 How much should _____ spent _____ refill _____ average mileage _____ gallon _____?
 I _____ know if _____ an _____ of the _____ refueling based _____ gas mileage.
 _____ price to _____ on _____ MPG.
 _____ much will be _____ to _____ it if _____ average _____ is used _____ basis.
 _____ will _____ to _____ it if _____ average _____ per gallon _____ used _____ the basis for _____
 If the average mileage _____ is used as the _____ for _____ cost, _____ be spent _____?
 _____ cost _____ refuel _____ a _____ average _____ per gallon.
 It costs to _____ based _____.
 How _____ is _____ refueling based _____ the mileage?
 How _____ refill _____ on average _____ per gallon?
 _____ it _____ to estimate _____ to _____ using its _____ mile per _____?
 _____ much _____ it costing to _____ its _____ per gallon?
 What's the _____ up based on _____?

How much is _____ fuel by _____ mileage?

_____ can _____ fuel per my average _____ fuel economy?

_____ to _____ it up _____ based on _____

_____ will it _____ to go to _____ gas station based _____ average _____ ?

_____ the _____ the _____ based on _____ average MPG?

_____ it _____ expensive _____ normal for _____ your average miles-per-gallon ratio.

_____ much is _____ for filling it _____ mileage?

_____ does _____ cost to refill _____ mileage/Gal?

_____ it possible to _____ the _____ to _____ using _____ per gallon?

How _____ you think _____ cost to fill up _____ the _____ ?

_____ much would _____ the price at the _____ mileage?

How much will it _____ to go _____ on _____ mileage?

_____ the pumps be based on _____ mileage?

How much _____ cost at _____ based on gas _____ ?

_____ you pay _____ a _____ for its gas mileage?

_____ is _____ for _____ up with _____ mileage?

_____ know _____ it _____ to refill with _____ mileage?

If the _____ gallon _____ basis _____ how much will be spent _____ ?

How _____ cost to refuel for _____ vehicle's _____ miles _____ ?

_____ much _____ spent _____ refill it if its _____ per _____ is _____ a basis.

What _____ it cost to fill _____ an _____ ?

How _____ I _____ on _____ according to _____ car's fuel _____ ?

The cost _____ gas _____ on miles _____ .

If _____ average _____ is taken into _____ how _____ will _____ cost to _____ ?

What _____ it cost _____ up _____ gas _____ based on _____ average mileage _____ ?

Is _____ expensive for a refueling _____ your _____ gallon?

Is it cost _____ the miles _____ gallon?

What is the _____ to _____ on _____ mileage per _____ ?

If the average mileage _____ used _____ for calculating its _____ costs, _____ much _____ spent?

How _____ does _____ on its _____ ?

I would _____ to know _____ you _____ estimate _____ based on _____ per gallon.

I would _____ you have _____ for refueling based _____ mileage

_____ you're talking about _____ gas _____ much would _____ for _____ refill?

_____ you tell _____ how _____ it _____ refill with gas?

_____ much _____ I _____ based _____ my vehicle's average _____ economy?

_____ know how much _____ cost _____ with average mileage?

_____ the average _____ per _____ for the price _____ .

The fuel _____ be taken into _____ with _____ .

The _____ refilling a tank _____ be _____ on _____ typical miles _____ .

_____ the _____ efficiency, what _____ the _____ to fill _____ ?

Can you tell _____ of _____ ?

_____ cost _____ refuel _____ average miles per gallon?

_____ would like to _____ if there _____ any _____ fueling _____ based _____ MPGs.

I _____ the estimate for refueling based on the _____ gallon.

_____ to calculate _____ cost to refill using its _____ ?

How _____ going to _____ to _____ up _____ on mileage?

_____ to the car's _____ mpg, _____ I spend _____ fuel?

_____ will _____ on refilling it if _____ mileage _____ gallon is used as _____ .

Is _____ expensive to _____ on _____ ?

_____ much _____ it cost _____ on average miles-per-gallon?

Is _____ cost _____ refuel a _____ has _____ average miles per _____?

How _____ will be spent to _____ if the _____ mileage _____ a _____.

Price to _____ average _____ mileage?

_____ MPG is a factor, _____ price _____ a tank _____ gasoline _____ be _____.

Does _____ mean _____ much it takes to _____ average _____ gallon?

_____ the _____ fuel _____ what _____ price _____ a refill?

The price _____ considering _____ miles per _____.

_____ much will _____ to _____ it if its _____ mileage per _____ as the _____.

_____ would it _____ refill a _____ based _____ its _____ miles _____ gallon?

_____ much _____ be _____ to _____ the average mileage _____ correct?

_____ you _____ what the _____ for a _____ on _____ efficiency?

Based on mileage, _____ fill it _____?

Is _____ more expensive _____ refueling _____ on _____ miles- per-gallon _____.

_____ it possible to _____ to _____ based on miles _____?

How much is the _____ based on _____?

If the _____ gallon is _____ as _____ calculating, how much _____ spent to refill?

_____ be _____ to _____ it if its _____ mileage _____ gallon is _____

Is it _____ calculate an estimate for _____ gas mileage _____?

_____ expensive for _____ to refuel based _____ miles per gallon?

_____ its _____ a basis for calculating _____ refill costs, _____ much will be spent?

I want _____ have an _____ for the cost _____ on the _____ gas mileage.

_____ possible to _____ an _____ refueling based on _____ mileage _____ gallon?

How much _____ to fill up based _____ average _____ gallon?

_____ an _____ rate, _____ much will it cost _____?

What _____ I _____ on fuel _____ on the car's _____?

_____ to refill with _____ gas mileage considered?

How _____ do _____ pay _____ with average gas _____?

What is _____ price _____ on _____?

_____ fuel _____ be based _____ average mile per gallon?

Depending _____ its _____ much will _____ cost to refuel?

_____ would the pump _____ be _____ mileage?

How _____ it cost _____ refuel given the _____?

How _____ it _____ refueling _____ on _____?

_____ will _____ cost to refill if _____ average mileage _____ into _____?

_____ the average mileage per gallon is _____ much _____ be _____ it?

_____ average _____ per _____ used _____ much will be spent to _____ it?

_____ cost _____ to refuel based _____ the average _____ gallon?

How much _____ should be calculated _____ mpg.

Given its _____ what _____ the _____ refill?

_____ the cost _____ on its miles per gallon?

_____ at _____ vehicle's _____ what is the price _____?

Given the mileage per _____?

What is _____ cost of _____ up _____?

_____ much will be _____ to _____ it, _____ its _____ is taken into _____?

_____ would it _____ to refill _____ based _____ its miles _____ gallon?

Considering average _____ much _____ it cost _____ fuel?

How _____ can _____ on fuel _____ to my _____ vehicle's _____?

What does _____ to refill based on _____?

According _____ my _____ fuel _____ how much can _____ on _____?

_____ much will be spent to _____ if _____ average mileage per _____?

Considering the MPG rate, _____ at _____.

_____ much is the _____ for _____ on _____ mileage?

Is the _____ fuel based _____ mileage?

_____ spent on _____ with average _____ mileage?

How _____ does _____ to fuel up based _____ gallon?

_____ average mileage per gallon is _____ as the _____ basis for _____ will _____ on _____?

_____ you pay to fill _____ average mileage?

How much would _____ cost to _____ gas, based _____ its _____ miles _____?

What would my _____ the pump be _____ mileage?

The cost _____ going _____ station will _____ based on _____ average mileage _____.

The _____ refill _____ average _____ is _____.

_____ much will _____ spent to _____ if its average mileage _____?

_____ much _____ it cost _____ gas _____ it _____ typical miles per _____ ratio?

_____ much _____ to _____ pumps _____ on my gas mileage?

_____ you pay to _____ up with _____ mileage?

_____ the _____ for _____ based on _____ rate?

_____ cost to _____ a tank based _____ miles _____?

_____ will be _____ to refill _____ if its average _____ gallon _____ the basis _____ it.

Considering _____ vehicle's fuel economy, _____ price _____ refuel?

How much will _____ to _____ fuel economy?

Is _____ price to _____ it _____ on _____?

Average _____ to determine the price _____ fuel.

Is _____ more expensive _____ to _____ based _____ miles-per-gallon ratio?

Since the _____ MPG is a factor _____ a _____ be _____ into account.

Given its average _____ the _____?

How _____ would _____ take to _____ a tank _____ on _____ miles _____?

How much _____ it _____ to _____ if _____ has _____ mileage _____ gallon?

_____ cost with average _____ mileage?

I would _____ to know _____ the _____ is based _____ the _____ gas _____ gallon.

_____ will be _____ to _____ it if _____ mileage per gallon _____ the basis _____?

Is _____ to _____ a vehicle's average _____ per _____?

Is it _____ refill _____ vehicle's average miles _____?

Does _____ cost _____ up a vehicle's _____ gallon?

_____ the pump price be _____ on _____ mileage?

How _____ would _____ refill with an _____ mileage?

_____ will _____ cost _____ if average mileage per _____ is _____?

_____ you _____ for _____ refill if you _____ about the gas mileage?

How _____ cost to refill based on _____ gallon?

How _____ is _____ filling _____ with _____ average mileage?

How _____ for _____ is _____ on _____.

How _____ it cost to _____ based _____ the average _____ per _____?

If _____ average _____ per gallon _____ the sole _____ determining, _____ will be _____ to refill _____?

_____ like _____ for how much _____ costs are _____ on the gas mileage.

It _____ for a _____ miles per gallon.

Considering _____ mpg _____ how much _____ cost _____ fuel?

How _____ a refill _____ its average miles-per-gallon _____?

_____ to _____ tank if it's typical miles per gallon?

_____ the _____ a refill based on _____?

Assuming _____ mileage _____ is _____ much will be _____ to _____ it?

How much will _____ a refill if _____ is taken _____?

How much can _____ spend _____ according _____ average _____ economy?

_____ the _____ rate, _____ the _____ at _____.

_____ can _____ spend on _____ average vehicle's fuel economy?

_____ its _____ what is the _____ of _____ refueling?

How much _____ spent to _____ if _____ mileage per gallon _____ sole _____ for _____

_____ be _____ to _____ if _____ average mileage per gallon is used as _____ base _____ it

The _____ to _____ up a car is _____ per _____.

_____ miles per _____ for the _____ of _____.

If the average mileage _____ for calculating, _____ will be _____ on _____?

_____ would like _____ an _____ how much _____ costs are based upon the gas mileage.

Is the _____ of _____ based _____ MPG?

How much _____ spend on fuel based _____ vehicle's _____?

_____ will _____ spent _____ refill _____ its _____ mileage per gallon _____ used as a _____ calculating.

_____ much will _____ cost to _____ with _____?

_____ is the cost _____ based _____ mileage?

How _____ will be _____ refill it _____ average mileage _____ gallon is the _____?

What is _____ price for _____ vehicle's MPG?

I would _____ to _____ can give _____ for _____ much _____ costs _____ based on gas mileage.

_____ much is it _____ fill it up _____?

How much _____ refuel cost _____ the _____ gallon?

_____ cost to fill _____ up _____ on _____ mileage?

_____ on average mileage, _____ it cost to _____?

How _____ does _____ cost to fill _____ based _____?

_____ much is the price of _____ on _____?

How _____ price _____ refill based on mileage/gallon?

I _____ like _____ how much _____ refueling _____ based _____ gas.

How _____ would it cost to _____ average _____?

_____ will be _____ on fuel _____ average _____ mileage?

_____ calculation for _____ much _____ would cost _____ replenish _____ according _____ typical miles per petrol _____ ratio?

What _____ cost to _____ a gas _____ average mileage per _____?

_____ it _____ expensive to refill for _____ ratio?

_____ you think _____ cost is given its average _____?

_____ to know _____ have an estimate for fueling _____ average _____ mileage per _____.

_____ you _____ much _____ costs _____ fill up with _____ mileage?

_____ much can I _____ on fuel _____ on _____ vehicle's _____?

Considering _____ vehicle's fuel economy, _____ is the _____?

_____ the average _____ gallon, how much _____ to refill?

_____ much _____ think it costs _____ refill _____ miles _____ gallon?

Is it _____ vehicle's _____ average miles per gallon?

I wonder if _____ is _____ fueling that _____ have for given _____ per _____.

_____ regard _____ its _____ gallon use _____ can _____ give a _____ the fuel cost?

How much does it _____ mileage?

_____ average mileage _____ how _____ to _____?

If the average _____ is _____ a basis _____ how _____ will _____ to refill it?

_____ expensive is _____ refill _____ on the _____?

_____ its _____ gallon is correct, how _____ will _____ spent _____ refill _____?

_____ mileage _____ is correct, _____ much _____ we _____ to refill it?

_____ it _____ to _____ on average miles per _____?

How _____ is _____ expense _____ average gas mileage?

How much will it _____ visit _____ based _____ its average _____ per _____?

Considering average ____ per ____ to ____?
 How much ____ to ____ based on its ____ gallon?
 Given average ____ gal, ____ to fuel ____?
 What ____ cost to fill up ____ station ____ on average mileage ____?
 how ____ cost ____ refuel based ____ per gallon
 ____ price ____ is considering ____ miles per ____.
 ____ much ____ be spent ____ it ____ average ____ per gallon is ____ as ____.
 ____ its ____ per gallon ____ the sole basis for ____ how much ____ refill?
 I wonder ____ the ____ of fueling ____ given ____ per gallon rate.
 ____ will ____ spent on ____ it ____ is taken ____ account?
 Recharging ____ an ____ miles-per-gallon ____ is ____ expensive ____ is.
 The ____ of ____ is ____ average ____ per gallon.
 Is ____ expensive to refuel ____ the average miles ____?
 How ____ it cost to refuel given ____?
 ____ spend on ____ based ____ my average vehicle's fuel ____?
 What will it ____ go to ____ gas station ____ on ____ mileage ____?
 ____ it expensive ____ based on ____?
 How much will be ____ refill ____ if ____ average ____ per gallon ____ as ____ basis for ____.
 How ____ can I spend on ____ the ____ economy?
 The ____ per ____ can ____ a ____ estimation of the fueling expense?
 Is ____ estimate ____ refuel using its average gas ____?
 If the average mileage per ____ is ____ it cost ____?
 How expensive ____ the ____ miles-per-gallon?
 ____ would like ____ know ____ cost ____ refueling based ____ the gas ____.
 Is it possible ____ estimation of the fueling expense with ____ to ____ usual ____ per ____?
 ____ average mileage ____ will ____ how ____ will ____ spent to ____ it.
 ____ expensive to get ____ refill ____ average miles-per ____ ratio?
 How much would it ____ to ____ with ____?
 How ____ will ____ cost ____ refill ____ the average mileage ____?
 How ____ am ____ to ____ fuel ____ on my average vehicle's ____?
 ____ it cost to ____ gas ____ when it has ____ average ____ gallon?
 Given its ____ the ____ cost?
 ____ would like to know if ____ can give ____ the cost ____ based ____ the ____.
 How ____ will be ____ refill it ____ the average ____ is used ____ a ____ for calculating ____
 What ____ the cost ____ based?
 I ____ the cost ____ fueling ____ have ____ given the miles per ____.
 If the average ____ gallon ____ basis for calculating, ____ spent on ____ it?
 Is ____ more expensive ____ refueling ____ average ____ per gallon.
 ____ the cost of ____ based ____ miles per gallon?
 ____ is the fuel cost ____ mpg?
 given average ____ how much ____
 ____ cost ____ refill ____ vehicle's average miles ____?
 I ____ like ____ if you can ____ an estimate ____ much refueling costs ____ gas mileage.
 How much ____ think the ____ cost will ____ mileage?
 The ____ ratio ____ used ____ estimate the ____ refueling.
 How ____ be spent to ____ it ____ its average mileage per ____ is ____ its.
 ____ of ____ a tank ____ be determined by ____ average ____ per ____.
 ____ much ____ cost ____ based on ____ average mileage?
 ____ much ____ costs to refuel based on its ____ gallon?
 If its average ____ taken ____ account, how much ____ to ____?

It's miles per _____ the cost of _____.
 _____ money _____ I spend _____ fuel based _____ vehicle's average fuel _____?
 _____ the average mileage per _____ is the sole _____ determining, _____ much will _____ refilling _____?
 _____ much _____ it for _____ refueling given its _____?
 According _____ average _____ ratio, how expensive _____?
 I wonder _____ the cost _____ fueling _____ miles per _____.
 How much _____ be _____ refill it _____ is taken into _____?
 _____ to refuel _____ the _____ MPG.
 _____ is the cost _____ according _____ average _____ estimate?
 _____ would like to _____ cost is based on the _____.
 _____ much does _____ based _____ the _____?
 How will the fuel cost be _____?
 _____ the average _____ rate, how _____ will _____ cost _____?
 _____ the _____ based on the _____ per gallon?
 How much _____ it _____ gas _____ a _____ average mileage per gallon?
 How much _____ cost based _____?
 Does _____ to refill a _____ average _____ per _____?
 _____ would be the _____ the _____ I had _____ typical gas _____?
 _____ average _____ gallon is the sole basis for _____ how much _____ refilling _____?
 _____ much _____ replenish gas according to its typical _____ usage _____ is _____ for debate.
 _____ be _____ on _____ average mileage per _____ is used _____ the basis for calculating _____
 _____ much _____ it _____ to go to _____ gas _____ because _____ average _____ gallon?
 _____ much _____ think it _____ up with its usual miles _____ gallon _____ rate?
 I would like _____ know if _____ give _____ estimate of _____ cost of _____ mileage.
 How _____ will _____ on fuel according _____ car's _____ mile _____ gallon?
 Do _____ much _____ would _____ to _____ its average mileage?
 Average _____ is taken _____ account in determining _____ fuel.
 How much is _____ for _____ average _____ mileage?
 _____ it _____ expensive _____ get a refill _____ on _____ ratio?
 What _____ cost _____ refilling a tank _____ it _____ based on _____ per _____?
 _____ it more _____ to refill _____ tank _____ on your average _____?
 The fuel cost _____ based _____ miles _____ gallon.
 I want _____ know _____ you can _____ an estimated _____ for _____ refueling would _____ average _____.
 Considering _____ rate, _____ the cost at _____ pump.
 _____ much _____ it cost _____ a _____ average _____ per gallon?
 I _____ like _____ the amount of the refueling _____ the _____.
 _____ much _____ will _____ to _____ based on _____ mileage per _____?
 How _____ I can spend _____ on _____ average _____ fuel _____?
 Average _____ per _____ gives how _____.
 _____ spent _____ it if its average _____ is _____ into account?
 How much _____ depending _____ my average vehicle's fuel _____?
 _____ the cost of fueling up given _____ mileage _____.
 Can _____ tell me _____ much _____ costs _____ refuel _____ per gallon?
 The _____ to _____ up _____ on _____ per gallon?
 How _____ I spend _____ my average vehicle's fuel _____?
 _____ much _____ based on average _____?
 _____ much _____ I pay _____ fill up with _____?
 How much _____ you spend for _____ with _____?
 _____ cost _____ gas up _____ is _____ by _____ per gallon.
 Given _____ how _____ to refill?

How much _____ it cost to _____ average _____?

_____ much _____ for _____ according to the car's _____ mile per _____?

_____ much will _____ it _____ the average _____ per _____ is _____ as the _____ for calculating its _____ cost _____ a vehicle's _____ miles per gallon?

_____ fuel cost _____ based on average mile _____.

_____ would be _____ cost _____ pumps _____ gas mileage?

Average _____ per gal _____ how _____.

_____ much would _____ pay _____ on gas mileage?

_____ have _____ estimate on _____ for mpg?

Is _____ based on mileage?

What _____ the cost _____ according to _____ estimate?

_____ cost _____ for a car _____ an average _____ per gallon?

What is the _____ for _____ refill considering _____?

_____ would be the _____ a tank _____ were _____ miles per gallon?

_____ miles _____ is considered for the price _____.

_____ MPG _____ what is the cost _____ the _____?

_____ cost _____ up _____ car _____ the miles per gallon.

What is the price _____ a _____ given _____?

_____ can _____ spend on fuel _____ vehicle's average _____ economy?

_____ it _____ to estimate the _____ using _____ averagempg?

_____ how expensive it _____ to refill _____ gas?

_____ it more expensive to refuel _____ average _____?

How _____ I _____ on _____ according to my vehicle's _____?

_____ the _____ to go to _____ be _____ on the _____ per gallon?

_____ is _____ based on mileage?

How much is it _____ to _____ on _____?

How much should _____ at pumps based _____?

_____ does it _____ up with average _____?

_____ for _____ depends on the _____ MPG.

_____ will be _____ to _____ when _____ average _____ is correct?

_____ expensive _____ normal _____ fill _____ based on average miles _____ gallon?

Is _____ refueling when you _____ an average _____ gallon ratio?

_____ average mpg _____ much will it cost _____?

_____ to know _____ cost of refilling a _____ based _____ miles _____.

_____ would _____ know _____ much _____ is based on the gas _____.

What is the _____ to _____ to _____ station with _____ gallon?

_____ is _____ going to _____ with average mileage?

How _____ to _____ based _____ the average _____ per gallon?

Considering _____ what's _____ cost _____ gas?

_____ much is _____ fuel refill _____?

How _____ will _____ spent to refill it _____ it's _____ used _____ a basis _____ think _____ to refill a _____ average miles per gallon?

_____ much gas _____ based _____ mileage?

Given the usual _____ gallon _____ rate, _____ give _____ estimation _____ fuel cost?

_____ the _____ to _____ based on the _____ gallon?

When _____ mpg rate, how much _____ fuel?

_____ much _____ I _____ to _____ fuel _____ on the car's average _____?

_____ about _____ gas _____ what are the _____ pay to _____ it?

The _____ of _____ is _____ the _____ mileage/gallon.

Given its _____ what's the cost _____?

_____ much is _____ refill it _____ the _____ is taken _____?
 What are the _____ for _____ talk about _____ gas _____?
 _____ for _____ is dependent _____ the _____.
 I _____ looking _____ estimate for refueling _____ on _____ mileage per _____.
 _____ would _____ know how much it would cost _____ refill _____ to _____ miles _____ petrol _____.
 How much will _____ cost _____ if it _____ average _____?
 Average _____ per gallon is _____ go to _____ gas station.
 It _____ to figure _____ estimate _____ on average gas _____ per gallon.
 How much _____ be _____ refill _____ its _____ mileage is _____?
 How much _____ be spent _____ if its average _____ correct?
 Is _____ refuel _____ a vehicle's _____ miles per _____?
 How _____ to refuel _____ average _____?
 _____ to refill _____ average mileage _____?
 _____ price for a refill _____ mileage?
 _____ can I _____ on gas according _____ vehicle's _____ economy?
 Is it _____ to _____ for its average _____ mileage?
 _____ mileage per gallon is _____ into _____ will _____ to refill _____?
 If its average _____ is _____ for _____ how much will be spent _____?
 _____ would like to _____ can _____ estimate _____ the cost of _____ based _____ gas.
 I would like _____ can give an estimate _____ refueling _____ based on the gas _____.
 _____ do _____ have to spend on _____ to the _____ average _____?
 _____ much _____ costs _____ refill _____ on the _____ mileage per _____?
 Is it cost _____ vehicle's _____ miles _____ gallon?
 What _____ the cost at _____ on gas _____?
 _____ more _____ to _____ a refill _____ you have _____ miles _____ gallon ratio?
 _____ average mileage per gallon is _____ will it cost _____?
 How _____ will _____ spent on refilling it if _____ mileage _____ is _____ basis for _____?
 How _____ cost to _____ with _____ typical miles per gallon?
 _____ refueling cost based _____ its _____ miles per _____?
 How _____ it _____ to _____ tank based _____ miles _____ gallon?
 _____ the _____ mileage _____ used for determining, how much _____ to _____ it.
 _____ much _____ Cost to _____ it up _____ mileage
 _____ it cost to fill _____ on mileage?
 Based _____ mileage, how much will it cost _____?
 How much _____ spent _____ a refill if _____ average _____?
 How much will _____ spent to _____ it _____ average mileage _____ used _____ basis for _____
 Is it _____ to _____ based _____ miles per gallon?
 _____ much will _____ cost to _____ MPG?
 _____ it _____ refuel based _____ its _____ miles per _____?
 _____ much does it cost _____ with average _____?
 If its average _____ gallon _____ the only basis _____ determining, _____ much _____ spent _____ it?
 How _____ will be spent _____ the average _____ gallon is _____ sole _____ for determining
 Is _____ expensive to _____ on _____ ratio.
 How much _____ it cost _____ with average _____?
 Considering the average _____ much will _____ fuel _____?
 _____ much _____ be _____ refill _____ if its _____ mileage per _____ used?
 Is _____ it _____ more _____ refuel based _____ the _____ mileage _____ gallon?
 When _____ average mileage, _____ the cost?
 How much _____ it cost _____ a _____ based _____ miles _____ gallon.
 If its _____ mileage per _____ correct _____ much will _____ refill?

____ the cost ____ refuel ____ average ____ per gallon?
 ____ it ____ a vehicle's ____ miles per gallon?
 ____ it more expensive to refuel with ____ miles-per-gallon ____?
 How much ____ be ____ to ____ if ____ mileage per ____ sole ____ for ____
 ____ fuel ____ will ____ the average ____ per gallon.
 ____ talking about ____ gas mileage, ____ much would it ____?
 How much ____ the price ____ with ____ economy?
 How much ____ if its average ____ gallon ____ used as a ____.
 I ____ if ____ cost of fueling for ____ gallon?
 ____ it ____ expensive ____ refill ____ the average miles-per-gallon ratio?
 Is it ____ up ____ with an average ____ per ____?
 ____ much I ____ based ____ my vehicle's ____ fuel economy?
 If its ____ gallon ____ used, how ____ will be spent ____?
 The average ____ gallon will affect the ____ at ____.
 ____ it ____ to use ____ gas ____ based on ____ mileage per ____?
 Depending on ____ mileage ____ can ____ give ____ for refueling?
 ____ there a rough estimate ____ the fueling ____ with ____ the usual ____ use ____?
 ____ much ____ cost to ____ an ____ MPG estimate?
 The price ____ a tank ____ should be ____ account since ____ MPG ____ factor.
 ____ much ____ you pay ____ using the MPG?
 Is it cost ____ a tank based ____ gallon?
 ____ much ____ it cost to ____ based ____?
 ____ the ____ the pump when ____ the MPG ____?
 Is ____ cost of the ____ based on ____?
 ____ much is ____ refueling cost when ____ has ____?
 How ____ fuel cost with ____ mileage?
 Considering ____ mpg ____ much will ____ cost for ____.
 ____ price ____ a tank of ____ should ____ taken ____ account ____ MPG ____ a factor.
 ____ it cost ____ replenish ____ according ____ typical miles per petrol ____ ratio?
 What ____ of ____ be based on ____ mileage?
 Does it mean ____ costs to refill based ____ average ____?
 How much ____ for fuel according ____ vehicle's ____ economy?
 Is ____ possible ____ calculate how ____ would ____ replenish gas according ____ per petrol ____?
 How ____ is the refueling ____ the average ____?
 Is ____ expensive to ____ station ____ on the ____ miles-per gallon ____?
 ____ for a refill based ____ the ____ mileage?
 ____ it ____ expensive ____ refueling ____ on your average ____ gallon?
 ____ it ____ get ____ based on your ____ miles-per-gallon ratio?
 ____ much ____ would ____ gas using the average miles per ____?
 ____ it ____ refill ____ a car's average ____ per ____?
 ____ much ____ it ____ to refill if its ____ mileage per ____ into ____?
 ____ more ____ than normal for refueling ____ miles- ____ ratio?
 Is ____ to ____ vehicle's average miles ____ gallon?
 ____ much ____ be ____ to refill it if its ____ mileage per gallon ____ as the ____.
 Does ____ much ____ to ____ based on ____ average ____ per gallon?
 For ____ miles ____ gallon use rate, ____ a rough ____ of ____ cost?
 How ____ will be spent ____ refill ____ if ____ is based on ____.
 How ____ spent on ____ its ____ per gallon ____ the sole basis for ____
 Considering average ____ much will it cost ____?
 ____ it cost ____ refuel ____ a ____ that has ____ per gallon?

The ____ to ____ to the ____ be ____ on its ____ mileage ____ gallon.

I would ____ to know ____ will cost based ____.

____ does ____ up based ____ the miles per gallon?

How ____ for gas should be ____.

How ____ is the ____ average mileage?

____ is the ____ to go to ____ based on ____ mileage ____?

How ____ do ____ on ____ with average mileage?

____ much ____ be ____ it ____ mileage per ____ the basis for calculating?

____ would like ____ know ____ you ____ an ____ for ____ much ____ based on the gas mileage.

____ cost to ____ vehicle's average ____ per gallon.

When ____ comes ____ refueling ____ the average MPG?

The ____ on the vehicle's ____.

If average ____ is ____ sole basis of ____ how much will ____ spent to ____?

Is ____ to refill with ____ mileage?

____ the ____ to ____ a car on the ____ per ____?

How ____ I spend ____ based ____ my average vehicle's average ____?

____ it ____ expensive ____ refueling ____ on the average ____ per ____ ratio?

How much ____ gas ____ the mile per ____?

____ would ____ to know ____ can give ____ of the ____ for refueling ____ on gas ____.

Given its ____ what's the ____ of ____?

____ it cost to refill ____ tank if it ____ the ____ per gallon?

How much ____ be spent ____ refill if ____ mileage per ____ basis for ____.

____ cost to ____ with average mileage?

____ cost ____ for a vehicle ____ an ____ miles ____ gallon?

____ the cost ____ fill it ____ mileage?

____ is ____ fuel with average ____ mileage?

____ average ____ how much can I expect ____ pay ____ fuel?

It ____ possible ____ average gas ____ gallon estimate ____ refueling.

____ cost to fill up ____ MPG?

Can ____ tell ____ how ____ it is to ____ gas?

How much for ____ on ____ of miles ____ gallon?

____ you know ____ refueling based on ____?

Is ____ of the fueling expense ____ regard to ____ miles ____ gallon ____?

____ is the ____ expenses ____ on the average ____?

____ is it ____ to ____ up based ____ mileage?

How ____ spent ____ refill if its average mileage ____?

How ____ to refuel ____ miles-per-gallon?

How much ____ have to ____ for ____ average vehicle's ____ economy?

What would the ____ at ____ pumps ____ based ____ gas ____?

Can ____ tell ____ much ____ refuel ____ a gallon?

____ is used to calculate the ____ of ____.

How ____ spend on ____ on the ____ average ____ economy?

How much would ____ average MPG?

____ is ____ of ____ MPG-based?

How ____ it would ____ to ____ a ____ if it ____ based ____ per ____?

____ would like ____ you can ____ an ____ of refueling based on the gas mileage.

The ____ of refilling a ____ its ____ per gallon

____ the ____ fuel determined ____ the average ____ per ____?

____ cost ____ go to ____ based ____ its average mileage ____ gallon.

____ know ____ you can give an ____ how ____ it ____ cost ____ refuel ____ on ____ gas mileage.

_____ much _____ cost to _____ is based on its _____ per gallon?
 Considering _____ miles _____ gallon, the price _____?
 How much _____ I spend on _____ average _____ economy?
 I'd _____ to know _____ would cost _____ on the _____ mileage.
 _____ of _____ based _____ an average MPG estimate?
 How much _____ I spend _____ with _____ average _____ economy?
 The usual _____ per _____ rate, _____ you give _____ rough estimation _____ the _____?
 How much _____ cost _____ fill up using _____?
 What will it cost _____ up at _____ with an _____ mileage _____?
 _____ a cost to _____ for a vehicle's _____ gallon?
 _____ cost to refill a _____ based on its miles _____?
 _____ I _____ to _____ on _____ based on my _____ vehicle's _____ economy?
 Is it more expensive _____ a _____ on _____ average _____ gallon?
 _____ it _____ expensive _____ your tank when _____ have an average _____?
 On miles _____ gallon _____ cost to gas _____?
 Is _____ cost to refuel _____ average miles _____.
 How _____ it cost _____ refuel on the _____ per _____?
 _____ would like to _____ if _____ can _____ an estimate for _____ it _____ refuel based on _____ gas _____.
 _____ can I _____ on fuel _____ to _____ car's average _____?
 Assuming average mileage per gallon _____ basis _____ much _____ spent _____ refill it?
 Factor _____ the _____ to calculate _____ expense.
 _____ refill _____ an average MPG is _____.
 I _____ like to _____ you _____ give _____ estimate _____ refueling costs are _____ on the _____ mileage.
 _____ gallon should be considered _____ the _____ of fuel.
 How _____ would cost _____ fill _____ based on _____?
 I wonder if it's the _____ fueling that _____ have _____ the _____.
 _____ to _____ on fuel according to my vehicle's _____ fuel _____?
 How _____ will be _____ to refill _____ if _____ mileage _____ is _____ basis _____ calculation.
 _____ expensive _____ refueling _____ on _____ average miles per gallon?
 How _____ it cost _____ the miles per gallon?
 I want to _____ it is to _____ average _____.
 _____ much _____ be spent _____ it _____ average mileage per _____ is _____
 _____ per _____ correct, _____ much will be spent _____ refilling it?
 _____ can _____ expect to spend _____ fuel _____ on the _____ miles _____ gallon?
 _____ its average mileage _____ correct, how _____ will _____ spend _____ it?
 _____ much is it for _____ based on _____?
 _____ be spent _____ refill _____ if it's average mileage _____?
 How much _____ cost to _____ gas at _____ station _____ an _____ mileage _____?
 _____ mileage per gal, how _____?
 Is it _____ expensive than _____ based _____ average miles _____ gallon?
 How much _____ price _____ fueling _____ average mileage?
 I wonder if _____ fueling _____ based on _____ gallon.
 _____ much is the _____ gas _____?
 If the _____ basis _____ determining _____ mileage _____ gallon, _____ be spent to refill it?
 _____ it cost to refill _____ average _____ per _____?
 If its average mileage _____ gallon is the _____ determining, how much _____.
 _____ fuel up based _____ its mileage?
 I _____ know if you _____ an estimate _____ refueling _____ gas mileage _____.
 Price _____ refill with _____?
 If the average mileage per gallon _____ the _____ for _____ how _____ spent _____ refill?

_____ to refill a _____ for a _____ miles per _____?
 _____ more _____ to _____ a _____ based on the _____ miles per _____?
 _____ it _____ fill up _____ gas station based on the _____?
 _____ cost at the pump _____ consider _____ rate?
 How much should the refueling _____ MPG?
 What prices _____ pay for _____ talking about _____ gas mileage?
 _____ much will _____ fuel _____ based _____ average gas mileage?

 _____ cost to _____ up _____ on mileage?
 _____ much _____ it cost to _____ mileage/gal?
 _____ do I _____ on fuel for _____ vehicle's _____ economy?
 Can _____ give _____ estimate for _____ refueling based on the _____ mileage _____?
 _____ it more _____ to _____ your _____ based _____ your _____ ratio?
 If the _____ gallon _____ the sole _____ how _____ will _____ to _____ it?
 _____ the fuel cost _____ based on average miles _____?
 _____ it _____ to get a refill _____ average miles _____ ratio?
 The _____ will _____ determined by average _____.
 How _____ it cost _____ using the _____ average?
 _____ the _____ mileage per _____ used as the _____ how _____ it cost to refill _____?
 How much _____ it cost to _____ a _____?
 How _____ is the _____ of _____ with an _____?
 Is _____ refuel a vehicle _____ average _____ per gallon?
 _____ much will it _____ using the average?
 How much _____ fill up _____ average mileage.
 How _____ you spending to _____ up with _____?
 Is _____ price of _____ mileage?
 If it's _____ mileage per _____ is used _____ the sole _____ how _____ will _____ spent to _____?
 The _____ per gallon will _____ to _____ refill cost.
 I _____ if _____ provide _____ estimate for the cost _____ based on the _____ mileage.

How _____ will be spent _____ its _____ taken into _____?

What is _____ cost _____ with Avg. _____?

Can you tell me how _____ cost _____ with _____?

The average _____ affect _____ cost _____ fuel.

The cost _____ refilling _____ on miles _____ gallon.

_____ much would _____ cost to _____ a tank based _____ its _____?

_____ into account with the _____ mpg.

How _____ it cost to replenish _____ its _____ per _____ usage?

_____ it _____ to refill _____ vehicle's _____ per gallon.

_____ the _____ when _____ the price to _____.

_____ much _____ be _____ to _____ if _____ average _____ per gallon _____ used _____ calculate.

_____ refill based on miles per _____?

Does _____ how much it _____ to refuel based on _____?

_____ possible to _____ the _____ a tank based _____ miles per gallon?

_____ wondering _____ any estimates for _____ costs based _____ MPGs.

How much do you _____ on _____ gas _____?

_____ of _____ depends _____ average mileage/gallon.

_____ will be spent to refill _____ if _____ gallon _____ used _____ a basis for _____ its.

_____ spent to refill _____ its average _____ per _____ is the only basis _____?

_____ much do I _____ to _____ fuel for my _____ fuel _____?

I am _____ if _____ an _____ refueling based _____ average _____ per gallon.

_____ it _____ for fuel with the _____ mileage?

I would like to know how much _____ the gas _____.

How much will _____ it if its average _____ used to figure _____.

What is the _____ to _____ a vehicle's _____?

_____ is _____ going _____ cost _____ refuel _____ on the _____ per gallon?

_____ this mean _____ much _____ would cost _____ refill _____ the _____ mileage?

_____ price _____ mileage?

Average miles _____ is a consideration of _____.

_____ mileage _____ is _____ only basis _____ determining, how much will be spent _____ refill _____?

_____ the price to _____ up using _____?

_____ are associated with filling _____ with _____?

_____ it cost to _____ a _____ based upon its miles _____?

How _____ should I _____ fuel _____ vehicle's average fuel _____?

If _____ mileage _____ gallon _____ of determining, how _____ will be spent to _____?

_____ to _____ an estimate _____ refueling by _____ mileage per gallon?

How much will be _____ it if _____ used as a base.

_____ average mileage per gallon is _____ much _____ spent to _____?

_____ you _____ is more _____ to _____ based _____ average miles _____ gallon?

_____ cost _____ a car is _____ by miles _____ gallon.

_____ it possible _____ give _____ rough _____ of the _____ expense _____ regard _____ its miles _____ use _____?

_____ much _____ have to pay _____ up with _____ mileage?

If _____ average mileage per _____ used _____ the basis for _____ its, _____ will _____ to refill _____?

The _____ to _____ car is _____ miles per gallon.

Can you _____ me _____ of _____ much _____ replenish gas _____ to its miles _____ usage ratio?

If _____ average mileage per _____ is _____ how much _____ spent _____ it?

How _____ costing _____ refuel based on the average _____?

Can _____ the cost to refuel _____ miles _____ gallon?

The price of _____ on _____.

How _____ does it cost _____ refill _____ on its _____?

What's _____ for _____ refill _____ on _____?
 _____ of _____ a tank would _____ based _____ its _____ miles per _____.
 What _____ at the _____ station be _____ on _____ average mileage _____?
 _____ is _____ to determine an _____ by _____ mileage per gallon.
 How much _____ be spent _____ average _____ gallon is used as _____ for calculating _____.
 The cost _____ refuel will _____ its _____ gallon.
 How much is _____ fuel _____ mile _____ gallon?
 _____ MPG _____ the cost _____ the pump?
 _____ is _____ of filling _____ average?
 Factor _____ for fuel _____?
 If it has an _____ per gallon _____ spent _____ refill it?
 How much _____ it take _____ based _____ the _____?
 _____ it _____ pump at a _____ station _____ MPG rate?
 The _____ of gas is _____ per _____.
 How _____ is _____ for _____ mileage to be _____?
 _____ the average mpg _____ the cost _____ fuel?
 _____ the _____ filling up with average _____?
 How _____ does it _____ to _____ with an _____ gas _____?
 How _____ is it _____ fill _____ with _____ mileage?
 According _____ my _____ vehicle's _____ how _____ should _____ spend _____ fuel?
