

[Demo] NLP Dataset for Customer Service Automation

Company Type	Mobile Network Operators
Inquiry Category	Network outages and service disruptions
Inquiry Sub-Category	Network congestion
Description	Customers may experience slow speeds or difficulty in completing calls due to high network traffic or congestion in densely populated areas.
Data Size	12,874 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Mobile Network Operator" customer inquiry. (Purchased data will not be masked.)

Does ____ our monthly subscription ____ guarantee ____ rate ____ outages ____ again anytime ____?

Is ____ charges ____ a ____ in service interruptions?

____ result in ____ lower rate ____?

Can ____ reduce outage frequencies?

____ we going ____ more to avoid the ____ outages?

Will ____ occurrence rates ____ if ____ is ____ adjustment to our ____?

____ monthly charges ____ will be less in ____ future?

Is it ____ to ____ each ____ and less ____ of ____ problems?

Are ____ that incidents like ____ will not ____ again ____ our ____ are ____?

____ in a lower rate ____?

____ the ____ in monthly ____ can we ____ a ____ accidents?

____ we ____ out ____ month would eventually minimize recurring ____ issues ____ abruptly.

____ in ____ lower outages rate?

____ subscription ____ going ____ sure ____ don't have this ____ again?

____ paying ____ per ____ reduce such ____ the future?

____ higher monthly ____ it harder ____ have ____?

____ monthly fees ____ likelihood of frequent outages in the ____?

With the ____ subscription fees, can ____ expect a ____ in ____ the ____?

____ an increase ____ subscription fees, can we expect ____?

____ more ____ fewer problems?

____ bills ____ lead to less outage incidents?

____ payments ____ outage rate?

Will a ____ monthly ____ interruptions?

Is ____ any guarantee ____ will ____ in fewer ____?

____ possible for ____ lower ____ outages with increased fees.

____ fees ____ prevent future issues?

Do ____ equate to ____ service ____ the ____ future?

____ subscribers ____ to minimized ____?

Is ____ possible that ____ the amount we ____ us less likely ____ outages?

_____ a _____ fee decrease the _____ future issues?

Increasing payments results _____ rate?

Do _____ monthly _____ equate to _____ reduced _____ of _____?

_____ be sure _____ these won't happen again if _____ our _____ charges?

Does _____ monthly _____ fees reduce the _____ outages?

With monthly subscription _____ expect a _____ outages?

_____ expected _____ believe _____ extra will make _____ less likely _____ have _____?

Will an _____ in subscription _____ a reduction _____?

We _____ an _____ in _____ charges _____ prevent these outages from _____.

_____ paying _____ month _____ fewer outages?

_____ rates going to fall if there _____ subscription fees?

_____ a lower _____ of future outages _____ increased subscription _____?

_____ that the _____ will decrease if we increase _____ fees?

_____ depend _____ increased subscription _____ to _____ them?

Will an _____ payment reduce the _____ power failure?

_____ increase _____ our _____ will _____ us less likely to experience _____ of disruptions again?

Do _____ think raising our _____ to _____ incidents?

_____ it possible that _____ rates will _____ service _____ likely?

Increasing payments _____ a _____ in the _____?

_____ you _____ a price hike _____ subscriptions will _____ to _____ the future?

Would an increase in _____ to a _____ interruption?

We _____ these won't happen _____ the future if we raise _____.

Is there _____ of a _____ in _____ rates _____ is _____ adjustment to _____ subscription fees?

_____ out more money guarantee that there _____ the future?

Will I _____ chance _____ another _____ I increase _____ payment?

_____ increases _____ to reduced _____?

Will _____ help reduce _____ occurrences _____ such outages?

Is it _____ will _____ network problems less _____ if _____ rates?

_____ subscription costs _____ to guarantee _____ reduced frequency _____ the _____?

Is it possible _____ increase our _____ fees _____ outage _____?

_____ monthly fees _____ downtime?

_____ subscription rates mean _____ we won't _____ again?

Will paying more _____ make it _____ there will _____ in the _____?

_____ ever _____ instances _____ again due to higher expenses _____ monthly _____?

_____ monthly fees reduce _____ of _____?

Is there any _____ incidents like these _____ happen _____ we _____?

Does _____ our subscription _____ us _____ frequencies?

Will raising _____ monthly fees reduce _____ outages?

Will _____ increase in _____ fee _____ in fewer _____?

_____ subscription costs _____ future _____.

Is _____ possible that boosting _____ fees _____ lead _____ fewer _____?

Is _____ certain that increasing our monthly _____ will _____?

Is _____ monthly _____ related to _____ occurrence _____ disruptions?

Will _____ number of outages?

_____ our _____ is a _____ outage incidents?

_____ raising our subscription _____ frequency?

Is _____ going to _____ reduction in outages with _____ fees?

Is it _____ to _____ disruptions by _____?

Will higher _____ fees _____ that _____ fewer _____?

_____ possible _____ paying extra _____ us less _____ to _____ outages?

Is raising _____ guarantee of _____ power failure?

Will _____ more _____ month prevent _____ occurrences in _____?

Is _____ enough _____ get a decrease _____ incidents?

Will _____ monthly fees make _____ more likely there _____?

Is it _____ higher _____ will mean _____ service _____?

Could an increase _____ monthly fees _____ reduction _____ incidents?

_____ increasing _____ subscription _____ less occurrences in the future?

Will paying more _____ fewer _____ in the _____?

_____ monthly _____ lead _____ fewer service _____.

Does _____ mean less _____ disruptions if you _____ month _____?

Are _____ to believe that _____ we _____ get outages _____?

Will an _____ of a _____ fee _____ fewer _____?

_____ it safe _____ paying more per month _____ in _____ failures?

_____ an _____ in _____ monthly fees result _____ reduction _____ interruptions?

_____ possible _____ in service by paying more money?

_____ want _____ if _____ more every month means less _____.

Can we _____ reliability _____ more _____ month?

_____ it likely _____ higher monthly _____ result in _____ service _____?

_____ in a _____ rate _____ downtime?

_____ we pay more _____ monthly, _____ we _____ breaks _____ service?

Would _____ rates mean _____?

_____ it _____ boosting our _____ will lead _____ fewer service _____?

Do _____ charges _____ to less service _____ the _____?

Is it _____ issues _____ the future by paying _____ month?

Can _____ by paying more for our _____?

_____ higher _____ make _____ less frequent?

_____ it likely _____ monthly _____ will _____ less service disruptions?

_____ it _____ the likelihood _____ outages _____ a higher monthly _____ fee?

Will _____ per _____ make it _____ such _____ will happen?

_____ higher monthly charges _____ service _____?

Will _____ able _____ in the future with _____ subscription costs?

Is _____ in our _____ fees _____ lead to fewer _____?

Will _____ lead to _____ occurrence rate of _____?

_____ you increase _____ monthly fees, _____ reduced Outage?

Is _____ correlation between _____ subscription _____ and fewer network issues _____?

_____ depend on _____ costs to _____ have these _____?

Is it possible to _____ experiencing _____ in the _____ more _____ month?

Is it likely _____ monthly _____ fewer service interruptions?

_____ monthly subscription _____ make a _____ the occurrence rate _____ service _____?

Are _____ to expect improved reliability _____ for _____ subscription?

Can I avoid _____ more?

_____ possible to raise our _____ cost _____ frequencies?

Will increasing _____ fees _____ outages less _____?

_____ likely _____ experience these types of disruptions _____ if our _____ charges _____.

Are _____ going to _____ us from having these _____?

Are higher _____ to _____ problems?

_____ increased _____ fee _____ in _____ service disruptions?

_____ charge associated with _____ service disruptions?

Is _____ fees going to _____ to _____?

_____ more expenses _____ prevent more instances like this _____?

_____ subscription _____ make _____ that _____ would be service disruptions again?
 Is _____ raising _____ costs can _____ the number of _____?
 Will we _____ pay _____ to _____ these outages _____ the _____?
 _____ be _____ to reduce outage frequencies?
 _____ it _____ that outages _____ become rare _____ I pay _____ money _____?
 _____ we _____ see _____ like this again because of _____ subscriptions?
 Does raising _____ we'll _____ a reduced _____ the future?
 Does increasing _____ subscription fees _____ a difference _____ rate _____ disruptions?
 _____ possible that raising how _____ each _____ prevent _____ periods _____ network issues arise suddenly?
 Is it possible _____ increasing the _____ pay each _____ will _____ have _____?
 _____ a raise _____ of our _____ plans _____ frequent outages?
 There would be less _____ of _____ disruptions _____ again remotely _____.
 Will _____ increase _____ our _____ result in _____ service _____?
 _____ wonder _____ an _____ in our _____ us less likely to _____ disruptions _____.
 _____ higher _____ result _____ lower occurrence Rate _____ Outages?
 Can _____ expect _____ outages soon with the _____ subscription _____?
 _____ subscription _____ lead _____ a lower rate of _____ disruptions?
 Will _____ become _____ frequent _____ more?
 _____ know if _____ rates will mean _____ disruptions.
 _____ raising _____ to prevent more outages _____ the _____?
 _____ monthly fees _____ the chances _____ frequent _____ in the future?
 _____ higher fees _____ frequencies?
 _____ we going to _____ a reduction _____ outages _____ the increase _____ subscription _____?
 Are _____ increases in _____ linked _____?
 Can we expect less _____ service _____ continue _____ pay _____?
 _____ it _____ that raising _____ we shell _____ each _____ will minimize _____ network issues arise _____?
 Will _____ be possible to _____ another outage by _____ payment?
 The chances _____ future disruptions _____ by _____ subscription _____.
 _____ in _____ less frequent outage?
 Does _____ fees _____ a difference in the _____ rate for _____?
 Does increasing our _____ fees _____ to have such _____?
 _____ charges could mean a _____ interruptions in the _____.
 _____ possible to avoid _____ paying more each _____.
 _____ raising our _____ going _____ mean _____ Frequency in the _____?
 Does increasing _____ a difference _____ the occurrence rate _____?
 Is _____ monthly fee able _____ the _____ service disruptions?
 _____ cause fewer outages?
 Is raising the _____ plan _____ guarantee _____ less _____ outages?
 _____ you _____ less _____ disruptions because of _____ price hike?
 Will raising your _____ reduce _____ likelihood _____ frequent disruptions _____ future?
 Can _____ expect a reduced _____ soon _____ you _____ the _____?
 _____ raise my bill _____ I expect _____ downtime?
 Is it _____ increasing _____ will lead to less _____ rate?
 _____ monthly fees _____ to fewer service interruptions?
 _____ assurances that incidents like _____ won't happen _____ the _____ raise _____ charges?
 _____ supposed to believe _____ means we won't _____ to deal _____ same _____?
 _____ our _____ fees _____ result _____ less frequent disruptions?
 _____ possible that an increase in _____ reduces _____ number of _____ happening _____?
 _____ increase _____ fee, can _____ expect a reduced _____?
 _____ it possible _____ increasing _____ fees will decrease _____ occurrence rate _____ outages?

Is higher subscription rates _____ make sure that _____ issues _____?

Can _____ expect a decrease _____ the _____ of _____ if _____ fee?

Is it _____ in monthly fees could lead _____ a _____?

_____ our bill _____ result _____ less service _____?

_____ that increasing _____ fees will _____ less service disruptions in the _____?

Will _____ rise _____ reduce the likelihood of _____?

_____ we expect _____ reduced outage in _____ if _____ the _____?

Do you believe _____ price hike _____ subscriptions _____ less _____ network _____?

Is it _____ avoid similar outages _____ the _____ future _____ each _____?

Will _____ reduce _____ chances of intermittent _____ in _____ future?

_____ raised charges _____ lower occurrence _____ of outages?

_____ my _____ payment enough _____ reduce the chance of _____?

_____ we _____ a _____ outage _____ you _____ your _____ fees?

_____ think a price _____ the _____ cause _____ network disruptions?

_____ we _____ breaks _____ service by _____ money monthly?

We might _____ likely to experience _____ of _____ our monthly charges.

Is it possible _____ we pay _____ month _____ in _____ disruptions?

_____ subscription costs _____ in the future _____ avoid _____?

Is _____ subscription _____ to make _____ outages less _____?

_____ how much _____ out _____ month _____ eventually _____ recurring _____ network _____ arise unexpectedly.

Increasing _____ a reduced _____ rate?

Will _____ monthly fees _____ chances _____ experiencing frequent disruptions _____ the _____?

_____ raising our _____ reduce _____?

Is _____ costs going _____ guarantee a _____ Frequency?

_____ increasing _____ reduce the chance _____ an issue?

_____ an _____ fees reduce the number of service _____?

_____ we expect the _____ of these _____ if we increase _____?

Will _____ fewer _____ from _____ on _____ of _____ fees?

_____ there _____ to _____ reduction in _____ the _____ in monthly subscription _____?

Is an increased monthly _____ going to make _____ experience _____?

_____ how much _____ pay _____ month would _____ reduce _____ periods _____ network _____ suddenly.

Will _____ fees _____ a lower _____ of future _____?

_____ higher _____ lead _____ a _____ in _____?

_____ related to a decrease in _____ disruptions?

_____ it _____ to avoid these outages in _____ costs?

_____ you think the _____ on _____ subscriptions _____ lead _____ fewer network _____?

_____ we expect _____ in occurrence rates _____ there is an _____ subscription _____?

Is it _____ paying _____ month _____ result _____ fewer intermittent _____?

Will higher _____ service _____?

_____ our subscription fees _____ of future outages?

Can we depend _____ costs to _____ disruptions _____ future?

Is it _____ to _____ subscription _____ reduce _____ frequencies?

Will a _____ monthly _____ cause _____?

_____ fees make future problems _____?

_____ it _____ to _____ amount _____ month so we don't have _____ outages?

Can _____ higher monthly subscription _____ help _____ of _____ disruptions?

_____ we expect _____ in the _____ of these _____ failures _____ increase _____ monthly _____?

Increasing our _____ fees could lead _____ incidents quickly _____.

Is increasing _____ going to reduce _____ likelihood of _____?

Is it likely _____ problems will be less _____?

Is _____ that _____ expect fewer _____ service _____ paying more monthly?
 _____ an increase _____ our _____ charges mean _____ to be _____ again?

Increasing _____ monthly _____ may result in _____ outages _____.

Is _____ price of _____ plans _____ guarantee of _____ frequent _____ disruptions?

Will there _____ fewer _____ I _____ money?

Is _____ possible for us to _____ better _____ by _____ _____ subscriptions?
 _____ our _____ subscription _____ guaranteed _____ there _____ be any future _____?

Will _____ monthly fees _____ future _____?

Do _____ raising our bills _____ result _____ in incidents?

Will _____ the _____ amount _____ in less _____?

Are _____ to experience these types _____ disruptions _____ if we have an increase _____ _____
 _____ monthly _____ equivalent to a decrease _____ service _____?

Will an _____ in my monthly _____ of an _____?
 _____ it _____ that the _____ bill amount will result _____ ?
 _____ rates mean _____ service disruptions?

Will paying _____ per _____ reduce _____ of such _____?

If there is _____ can we _____ a _____ in incident rates?
 _____ we _____ reduced _____ raise the monthly fees?
 _____ expect _____ rate due _____ the increased fees?

Are _____ to believe _____ paying extra will _____ less _____ that we will _____ ?
 Will _____ fees mean _____ ?
 _____ a price _____ going to _____ less _____ disruptions?
 _____ possible _____ expect better _____ by _____ more each _____?
 _____ there any _____ occurrence rates _____ there is _____ adjustment to our subscription fees?

Is _____ possible to reduce _____ outages by increasing _____ fee?

Paying _____ could _____ of service _____.

I _____ like to _____ subscription rates would _____ less _____.

Will _____ in _____ amount result in _____ interruption?

Is the increased _____ to _____ ?

Are higher subscription rates _____ having these _____ the future?
 _____ higher _____ fees _____ reduce _____ frequencies?

Is it possible that _____ occurrence _____ these outages _____ if _____ our _____ ?
 _____ monthly charges may _____ to _____.

_____ paying more _____ month help _____ such occurrences in _____ ?
 _____ higher _____ to less _____ ?

Does raising monthly charges _____ service disruptions?

There is _____ disruptions because _____ the _____ subscription costs.

Are subscription _____ going to increase _____ that _____ these _____ ?

If you increase _____ can _____ expect a _____ outages _____ ?

Is _____ that paying _____ will result in _____ disruptions?
 _____ our _____ fees _____ to result _____ reduction _____ service disruptions?

Does raising _____ subscription _____ frequencies?
 _____ charges reduce _____ disruptions?
 _____ to _____ a _____ outage if _____ increase _____ monthly fees?
 _____ in _____ fees result in _____ disruptions?
 _____ higher fees mean _____ ?
 _____ raising your monthly _____ the _____ of _____ in the _____ future?

Can we _____ subscription costs _____ frequent?
 _____ think a _____ on _____ will _____ to less network disruptions?
 _____ more a month _____ disruptions?

Does raising our _____ a reduced _____ for _____ the future?

Do _____ think _____ on our _____ will lead _____ disruptions?

Will _____ fees reduce the _____?

_____ monthly charges might make _____ to experience these _____.

Will _____ payment _____ raised _____ the chance _____ another _____ failure?

_____ possible that _____ more _____ will result _____ fewer service _____?

Is _____ possible that _____ monthly _____ will lead _____ disruptions?

Less _____ outages _____ less likely _____ more _____ each month.

_____ it possible _____ higher subscription _____ will _____ less likely _____ disruptions _____ occur again _____?

Is it possible that _____ pay _____ month _____ eventually reduce recurring periods when _____ arise _____?

_____ expect a _____ if you change _____ fees?

Is an increase in _____ mean a _____ service interruption?

_____ subscription _____ to ensure _____ we _____ any more problems?

Is it _____ increasing _____ amount _____ pay each _____ will _____ the _____ problems?

_____ there _____ link _____ subscriptions _____ minimized outages ahead?

Are _____ see a _____ outages soon _____ the _____ subscription fees?

If we _____ to _____ more, are _____ less _____?

_____ we _____ instances like this _____ greater _____ our monthly subscriptions?

_____ I _____ outages in _____ near future if I _____ more _____?

_____ fees reduce the frequent _____?

Is it possible that _____ increase _____ our charges _____ less _____?

_____ increasing our subscription _____ incidence of _____ outages?

Will _____ monthly fees _____ the Frequency _____?

Will _____ subscription _____ ensure _____ rate of future _____?

Are _____ a solution _____ reduce the _____ outages?

Less chance _____ to _____ money each month.

_____ raising how much _____ each month _____ eventually decrease recurring periods when network _____?

Will _____ higher monthly fees _____?

Do you _____ bring down incidents?

_____ a higher monthly fee able to _____ future _____?

Can _____ monthly _____ reduce the chances _____ problems?

Increasing _____ much we _____ each month _____ reduce _____ when _____ issues _____.

If _____ fees, can we see _____ outage?

Would higher subscription rates make _____ that _____ will _____ again _____?

Increased _____ might lead to a _____ service _____.

_____ higher _____ fees _____ Frequency of _____?

Is it _____ raise _____ to ensure fewer _____ future.

Is it likely _____ our monthly _____ will _____ fewer _____?

Increased _____ lead _____ an outage _____.

_____ increased subscription _____ make _____ difference _____ future _____?

Does _____ in monthly _____ reduce the _____ disruptions?

_____ monthly _____ the number _____ problems?

_____ to avoid similar disruptions _____ I pay _____ each month?

Is _____ chance of service disruptions _____ soon _____ rates are _____?

Is it possible _____ will lead to _____ disruptions?

Would an increase in our monthly _____ problems?

_____ the monthly bill _____ result in _____ disruptions?

_____ raising our _____ guarantee _____ frequency in _____ future?

Is _____ possible that _____ lead to fewer service _____?

_____ monthly fees _____ fewer future _____?

_____ to minimized outages ahead?

_____ expect _____ in these _____ if our monthly fees _____?

_____ a rise _____ monthly _____ prevent disruptions in _____?

_____ increase _____ monthly subscription fees, _____ be _____ in outages soon?

_____ raising the _____ monthly plans _____ less frequent _____ soon?

Will _____ be less _____ I _____ every month?

Is it _____ to _____ amount we _____ each month so that _____ many _____?

Outage _____ to _____ charges?

_____ subscription _____ may decrease _____ disruptions _____ the future.

With the _____ subscription _____ will there _____ reduction _____ the _____ of _____?

_____ raising _____ guarantee _____ won't have these _____ in the future?

Increasing how much we shell out _____ eventually reduce _____ periods _____ suddenly _____?

_____ the _____ subscriptions _____ to reduced _____?

Is there an assurance that _____ month _____ outages?

_____ it possible to avoid _____ in _____ future _____ more?

_____ we _____ lower _____ of future _____ the increase in subscription _____?

_____ subscription fees mean _____ problems?

Is _____ disruptions due to _____ monthly charges?

_____ increase in _____ mean we're less likely _____ have disruptions _____?

Is an increase _____ our monthly _____ going _____ cause _____ service _____?

Is _____ possible that raising our _____ result _____ service _____?

Is it _____ to _____ subscription costs _____ the _____ outages?

Will outages become less _____ I _____ more _____?

Will _____ costs increase _____ future to _____ these _____?

_____ higher _____ to make sure we _____ problems in the _____?

Is _____ that raising _____ each month _____ decrease the number of _____?

Do _____ monthly _____ mean _____ occurrence _____ service interruption?

Is there any _____ more per _____ will _____ in less _____?

_____ a _____ monthly subscription _____ reduce _____ likelihood _____ outages?

Is it _____ an increase in _____ charges _____ happening sooner?

_____ increase _____ subscription _____ will cause a _____ outages.

Are you going to raise _____ monthly _____ reduce _____ frequent _____?

Is an _____ monthly fees _____ fewer service disruptions?

_____ an _____ in monthly _____ fees make _____ difference in the _____ future _____?

Will higher monthly fees _____?

Will _____ our _____ the rate of future _____?

Is raised _____ charges _____ a decrease _____ interruption?

_____ increasing _____ charges _____ to make _____ less _____ types of disruptions again?

_____ a rise _____ monthly fees _____ such disruptions _____?

Will _____ increase _____ bill amount _____ less service _____?

_____ raising _____ price of the monthly _____ less frequent _____?

_____ there be _____ future outages _____ monthly fees?

_____ more per _____ make a _____ the near-future?

Will _____ outages go _____ because _____ raised charges?

_____ an increase in the _____ in _____ interruptions?

There _____ as to whether _____ in our _____ make these _____ less _____.

_____ raised monthly charges _____ to _____ interruption in _____?

_____ a _____ rate _____ subscription _____ less service _____?

_____ the _____ of _____ outage be _____ by _____ payment?

_____ fees _____ to fewer _____ in the _____?

_____ possible that extra _____ will _____ the chance _____ future _____?

Is it possible _____ by increasing the _____ month, there will _____?

_____ monthly _____ prevent more future _____?

Is _____ true _____ more per month _____ result in _____?

_____ it possible _____ raising _____ we pay _____ month _____ minimize recurring periods when network _____?

_____ fees could _____ decrease in the _____ of incidents.

_____ higher _____ rates _____ less _____ that service _____ occur again?

Does _____ rise in _____ fees _____ of disruptions?

Should I expect less _____ by _____?

Is _____ possible that _____ we _____ will result in _____ downtime?

_____ raising _____ fees _____ likelihood of frequent power _____?

_____ it possible that _____ amount _____ each _____ will _____ fewer disruptions?

_____ fees can make it _____ be outages _____ the future.

_____ to _____ improved reliability by _____ for our service?

_____ an _____ in monthly fees _____ reduction _____ disruptions?

Do _____ think paying more every _____ service _____?

Does _____ sense to _____ price _____ month _____ I _____ have to deal with these _____?

If I spend _____ be _____ outages?

_____ higher _____ fees _____ fewer _____ disruptions?

_____ pay each month _____ eventually _____ periods when network _____ arise abruptly _____.

_____ future disruptions due _____ more money each _____.

_____ monthly _____ lead _____ service disruptions?

_____ be a reduced _____ if _____ fees are _____?

_____ possible that more _____ month _____ the chance _____ future problems?

_____ fees _____ it _____ to experience frequent outages in the future?

_____ monthly _____ affect outage _____?

Is _____ that _____ our monthly fees will _____ to _____?

_____ don't know _____ increasing _____ monthly payment _____ reduce the _____ another _____.

_____ that _____ increase _____ our _____ fees _____ result _____ less frequent disruptions?

Can I avoid similar _____ pay _____ each _____?

_____ a connection _____ subscription costs _____ less network issues _____?

Is _____ occurrence _____ service disruptions _____ monthly charges?

Will _____ see _____ like this _____ of the greater _____ our monthly _____?

Can _____ expect _____ breaks in service _____ more _____ monthly?

_____ the _____ less _____ I pay more every _____?

_____ our _____ costs possible _____ the number _____ outages?

_____ in our monthly _____ going _____ result _____ reduction in _____ interruptions?

Increasing _____ to lower _____?

_____ possible higher subscription rates will mean _____?

Is raising _____ monthly _____ to _____ frequent outages?

Will _____ ever _____ instances _____ because of _____ expenses for our _____ subscriptions?

_____ a reduction in outages any _____ soon _____ the _____ monthly subscription _____?

Would _____ increase in our monthly _____ us _____?

Do _____ our subscription _____ a reduced _____ the _____?

We _____ supposed _____ that _____ extra will _____ it less likely _____ will _____ outages _____.

_____ is a _____ as to _____ an increase _____ will _____ less _____ outages.

_____ expect _____ by paying more _____ month for _____ subscription?

_____ our _____ fees _____ a _____ to the occurrence rate _____ outages?

_____ the _____ frequent _____ I pay _____ than once _____ month?

Will _____ expenses _____ our monthly _____ prevent _____ this _____ the future?

Is it possible that increasing our monthly _____ decrease _____?

Is _____ bill amount going to _____ lesser service _____?

Will higher _____ fees _____ the _____?

_____ monthly _____ be enough to prevent _____?

Are we supposed _____ paying _____ means less _____?

Is _____ a _____ that _____ more per _____ will result _____ fewer _____?

_____ you think raising _____ the _____ of outages?

Will _____ monthly fees _____?

_____ possible that raising _____ subscription _____ can _____ outage _____.

_____ charges _____ fewer service _____?

Does a rise _____ the likelihood of _____?

Will raising your _____ fees _____ chances of _____ failures?

Will increasing my _____ reduce _____ of _____?

_____ decrease in _____ occurrence _____ happen if we increase _____ fees?

Is increasing _____ monthly _____ fees _____ make it _____ to happen?

Does _____ monthly charges equate _____ less _____ disruptions _____?

If _____ to _____ more, are there less _____?

I wonder if an _____ monthly _____ make _____ less likely _____ types of disruptions _____.

_____ an _____ in our monthly _____ going _____ disruptions?

_____ a _____ subscription _____ less _____ disruptions?

_____ payments _____ in a lower _____?

_____ a _____ of _____ disruptions _____ to _____ monthly charges?

Will _____ higher monthly _____ outage _____?

_____ in _____ fees will we _____ a reduction _____ outages?

Are higher _____ going _____ that _____ don't _____ these problems again?

_____ an increase in _____ reduce _____?

_____ it possible that raising _____ shell _____ would eventually decrease _____ periods?

Is there any _____ between higher _____ and less _____?

Paying more _____ of _____ disruptions?

_____ bill increase _____ in less service _____?

_____ possible that a monthly _____ will lead to _____?

_____ we _____ reduction in _____ occurrences _____ these _____ if we increase our _____?

Increased _____ might make _____ likely _____ experience these types of _____.

Are _____ monthly _____ related to a _____ of _____?

Are higher subscription _____ prevent these issues _____?

_____ increase in _____ monthly _____ mean a _____ in _____ disruptions.

Is _____ more something _____ fewer problems _____ the _____?

Are _____ paying extra will mean fewer _____?

_____ an increase _____ fees _____ rate of future _____?

_____ going to go _____ so _____ we won't _____ again?

_____ rise in _____ likely to disrupt?

_____ higher monthly fees _____ fewer _____?

_____ it _____ will lead to fewer _____ disruptions?

Does _____ leads _____ fewer _____ disruptions?

Is _____ charges _____ to lead _____ service _____?

Is _____ the _____ of _____ plans _____ to prevent more _____?

Can we _____ in the _____ these events if _____ fees?

Is raising our subscription _____ reduced _____ in _____ coming _____?

Are there assurances _____ like _____ happen with _____ subscription _____?

_____ expect _____ decrease if we _____ monthly fees?

Does raising _____ subscription _____ a _____?

Can _____ if I pay more each _____?

Doesn't _____ every month _____ disruptions?

Will _____ lead _____ a lower _____ rate _____ disruptions?

Can we _____ avoid these _____ future with _____ costs?

_____ monthly charges _____ for less _____ disruptions?

_____ chance _____ disruptions _____ be _____ by _____ subscription costs.

_____ there _____ decline _____ occurrence _____ incidents if our _____ fees increase?

_____ we expect _____ the occurrences of these _____ increase our monthly _____?

_____ a _____ between _____ monthly charges and _____ disruptions?

_____ paying _____ month _____ service disruptions?

Should _____ expect _____ downtime _____ increasing my _____?

_____ our _____ going _____ number of outage incidents?

_____ increases in _____ linked to _____?

_____ we depend _____ increased subscription _____ avoid _____ the future?

Is it likely _____ will _____ problems _____ if we pay higher _____?

Does _____ rise _____ reduce the chances of _____?

_____ it possible for a higher _____ subscription _____ outages?

Is _____ a guarantee _____ paying more _____ fewer outages?

_____ an increase _____ fees lead _____ a _____ in _____ interruption?

_____ increase in charges _____ likely to experience _____ disruptions _____?

_____ paying more _____ it harder _____ such occurrences to _____ the _____?

_____ going _____ fees to _____ the chances of _____ outages in the _____?

_____ fees _____ to fewer power failures _____ now _____?

Is _____ certain that _____ will result _____ fewer _____?

Could _____ charges _____ service disruptions?

Is _____ us to _____ by paying more?

_____ that increasing _____ will result in less _____ problems?

Will higher _____ number _____ power outs?

_____ increased _____ amount _____ service _____?

Is _____ subscription rates _____ to _____ never _____ these problems again?

Does _____ monthly charges _____ service _____?

Should a price hike _____ to _____ network _____?

Does raising _____ of _____ plans guarantee no more _____?

Is _____ to see a reduced _____ if _____ the _____?

Is raising _____ going _____ a reduced _____ the future?

Is _____ to cause _____ decrease in incidents?

_____ an _____ our monthly _____ we're less likely to _____ disruptions _____?

Will _____ monthly _____ problems?

_____ cause less outages?

_____ lead _____ less outages?

Can we _____ improved reliability by _____ month for _____?

_____ raising your _____ it _____ that you'll _____ frequent outages?

_____ of future _____ more _____ each month?

Is it possible _____ we pay each _____ will _____ power failures?

Increased _____ lead to _____ lower _____?

_____ raised monthly charges equate _____?

_____ outages _____ if _____ continue to pay more?

_____ higher _____ going to result in _____?

_____ assurances _____ incidents like these _____ happen _____ future because _____ subscription charges?

Is an increase _____ charges _____ are less _____ to _____ again?

Would an _____ in _____ mean that _____ are _____ likely to be _____?

Would _____ rate _____ the _____ of service disruptions?

_____ possible _____ raise fees _____ the future to ensure _____?

Do you _____ hike _____ will result in _____ network disruptions _____ forward?

Do _____ monthly _____ lead _____ fewer _____?

If we increase our _____ service interruptions?

_____ our _____ fees could lead to _____.

_____ paying more every _____ service _____?

Is it _____ an increase _____ our charges _____ prevent _____ from _____ quickly?

Do raised _____ charges mean _____ of service _____ in _____?

Will _____ ever _____ instances _____ this _____ because of _____ monthly subscription?

Does _____ if you pay more _____ month?

Will a _____ help _____ disruptions?

Do _____ to _____ decrease in service interruptions?

Would an _____ in _____ result _____ a reduction in _____?

_____ more cash will make _____ intermittent outages disappear?

Is _____ the _____ our monthly plans a _____ interruptions?

Raising how much _____ each month _____ eventually _____ issues arise suddenly _____.

If we _____ pay a higher rate, will _____?

Is an _____ in _____ going to _____ in _____ in service _____?

_____ your _____ fees reduce _____ frequent disruptions _____ the future?

_____ that _____ like _____ won't happen in the _____ by _____ our charges?

Are _____ able _____ reliability by _____ more for our _____?

Would an increase _____ make us _____ likely _____ experience _____?

Increasing our monthly fees could _____ failures.

_____ we expect better _____ by spending _____?

_____ an increase _____ the _____ fee _____ fewer service disruptions _____?

Will _____ in _____ fees _____ future _____ less frequent?

Does raising our _____ costs _____ when it _____ to _____?

Can _____ expect fewer _____ in _____ we _____ more _____ a monthly _____?

_____ raising _____ less likely _____ there will be _____ in the _____ future?

_____ it possible _____ increasing _____ we pay _____ fewer disruptions?

Are _____ that _____ per _____ will result _____ fewer recurring _____?

_____ raising your _____ fees _____ occurrence _____ frequent outages _____ the _____?

_____ higher _____ lead _____ less _____?

_____ the _____ fees _____ to fewer _____?

I want _____ know if _____ monthly payment _____ reduce _____ another _____.

_____ there assurances that incidents like _____ happen in _____ raising _____ subscription _____?

_____ increasing _____ enough to decrease the _____ outage incidents?

Is higher _____ cause of less _____?

Is it _____ how _____ we pay each month would _____ reduce _____ periods _____ network _____ yet?

Do you _____ that a price hike _____ subscriptions will _____?

Can _____ be _____ rates _____ such incidents _____ there is _____ upward adjustment _____ subscription fees?

Do _____ believe _____ network problems will _____ less _____ if we _____?

_____ subscription fees _____ problems?

Are _____ assurances that _____ these _____ happen _____ the _____ if we _____ subscription _____?

Do _____ believe _____ hike will _____ in less _____ network _____?

_____ in _____ charges going _____ reduce the number _____ times these _____?

Is _____ our bills going _____?

Will outages _____ frequent if _____ pay _____?

Are _____ to _____ up so _____ we don't have _____ problems _____?

Will the _____ future outages?

_____ possible that _____ amount _____ each month will _____ in fewer _____ failures?

_____ monthly fees _____ result in less frequent _____.

Will an _____ the _____ decrease instances _____ service _____?

Will we _____ able to _____ outages in the _____ subscription _____?

_____ the price _____ our monthly _____ assurance _____ less frequent _____?

Is it _____ raising _____ less outages _____ the future?

_____ there any _____ per month will _____ in fewer _____ disruptions?

_____ your fees reduce the chances _____ frequent _____ future?

_____ it _____ expect less breaks _____ service by paying _____?

_____ think a price _____ our subscriptions will _____ network _____?

Will higher _____ less _____?

If _____ raise _____ will _____ be fewer _____ interruptions?

_____ more means _____ chances _____ future service _____?

Will higher _____ help reduce _____ number _____?

Is the _____ of future _____ higher _____ costs?

Will the _____ monthly bill amount _____ in _____?

Can _____ expect _____ more breaks in _____ by _____ money?

_____ raising your _____ fees reduce _____ chances _____ having _____ outages in _____?

Do monthly charges _____ occurrence of service _____?

_____ higher _____ fees have _____ on _____ frequencies?

_____ higher subscription rates going _____ for _____ these problems again?

Is _____ possible _____ reduce _____ outages _____ giving extra money?

_____ it possible that we _____ with _____ increase in subscription fees?

_____ possible that raising _____ will _____ fewer _____ in _____?
