

[Demo] NLP Dataset for Customer Service Automation

Company Type	Mobile Network Operators
Inquiry Category	Network outages and service disruptions
Inquiry Sub-Category	Network congestion
Description	Customers may experience slow speeds or difficulty in completing calls due to high network traffic or congestion in densely populated areas.
Data Size	5,244 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Mobile Network Operator" customer inquiry. (Purchased data will not be masked.)

Have there been ____ recent ____ may have ____ increased ____ and slower speeds?
 ____ change ____ the network ____ that is causing more ____ reduced ____?

The recent networking tweaking ____ jams ____.

Could ____ network cause slower ____?

Has any ____ to ____ network infrastructure caused ____ or ____?
 ____ recent ____ infrastructure caused congestion?
 ____ the network update affecting speed ____?

Is there ____ the ____ lately that ____ causing more ____?

Modifications ____ the network ____ might ____ congestion and ____.
 ____ affecting network speeds?

Increased congestion, ____ recent ____?

Recent ____ the network ____ and congestion.

Network ____ to blame ____ increased clogs ____?

Can ____ confirm ____ recent modifications ____ the ____ infrastructure ____ resulted ____ increased congestion ____?

Traffic jams may ____ been heightened ____.

Can you ____ me ____ changes ____ causing congestion?
 ____ changed in ____ network that ____ making ____ slow?
 ____ alterations to ____ slow ____ network?

Is the ____ cause ____ speed ____ traffic?
 ____ there any recent ____ to the ____ causing ____ congestion ____ speeds?
 ____ recent changes ____ infrastructure caused more congestion ____ speeds?
 ____ of the network system ____ and slower ____.
 ____ updates can ____ traffic ____ speeds.
 ____ will congest the net or ____ velocities.

Network modifications ____ believed ____ have added clogs ____.

Any ____ that lead to increased congestion?

Which ____ modifications ____ congestion ____ slower speeds?

Is it possible that ____ network ____ causing more ____ and ____?
 ____ changes to ____ slower traffic?

Are _____ to the network affecting _____ and _____?

Is it _____ that newly _____ may lead _____?

_____ speeds _____ caused by recent _____?

Is recent _____ changes _____ more congestion _____ internet _____?

Does _____ network infrastructure changes _____ congestion _____?

_____ you _____ any changes _____ network system recently that resulted in _____ and _____?

_____ changes _____ slow _____ network down?

_____ tell _____ network modifications are _____ traffic?

Is it _____ changes _____ have led to _____ slowdowns?

Any network _____ contributing to _____?

Did you _____ any changes to the _____ recently, _____ resulted _____ and a _____ in _____?

_____ verified _____ net config triggered _____?

_____ infrastructure changes _____ lead _____ more _____ and slower internet _____?

Is _____ in _____ causing it _____ be slow?

Alterations _____ may _____ the network.

Modifications to the network system lead to _____ congestion _____?

Alterations _____ net or induce _____ velocities.

_____ changes _____ or slowdowns?

Is _____ congest _____ net or induce reduced _____?

Recent network _____ and _____?

Is _____ network _____ contributing _____ slow speeds?

Infrastructure changes _____ have _____ to _____ congestion _____ speed.

_____ recent changes to _____ network _____ caused increased _____ speeds?

Did any modifications to _____ increased _____ or a drop _____ speeds?

Have network changes _____ speeds?

_____ recent _____ changes _____ increased _____ slower speeds?

Is the _____ changes _____ the _____ slowdowns and congestion?

How recent _____ the _____ speed _____ congestion?

_____ the net or cause _____ reduction _____ velocities.

Any _____ network system that lead to _____ slower _____?

_____ alterations can congest the _____ or _____ reduced _____.

_____ can _____ heavier traffic and slower _____.

_____ recent _____ to _____ network _____ or slower speeds?

Any recent network _____?

_____ infrastructure changes that caused slower _____?

_____ tell me about _____ infrastructure _____ that caused _____ slower speeds?

_____ any changes _____ the _____ speed?

_____ anything changed _____ the _____ slow?

Is there _____ to _____ infrastructure that _____ increased _____ and _____ speeds?

_____ it _____ that _____ networks have led _____ slowdowns?

_____ network changes causing _____ and _____ speeds?

Did _____ changes to _____ network _____?

Modifications _____ network system _____ increased _____ and _____ by chance?

_____ changes _____ the network _____ that _____ lead _____ increased _____ and _____ speeds?

Did network _____ congestion and sluggish _____?

_____ wondering _____ network changes caused congestion and _____.

Has _____ infrastructure changes caused _____?

_____ altered _____ configuration slow down _____?

_____ been _____ change in the _____ infrastructure _____ more congestion and _____ speeds?

_____ there a _____ network infrastructure lately _____ is _____ congestion _____ speeds?

I'm _____ about _____ acting _____ today, were _____ major _____ impacting _____ recently?
 _____ the _____ cause increased congestion _____ slower speeds.
 Is _____ that _____ on _____ have led _____ these issues?
 _____ cause congestion _____ slow speeds?
 Slow speeds _____ network changes?
 Is there _____ different _____ more _____ and slower internet _____?
 Were _____ made to the network setup _____ might have _____ increased _____?
 There is _____ for verification _____ recent net _____ caused _____.
 _____ network been updated recently _____ traffic _____?
 Recent updates _____ network _____ on speed _____ congestion.
 _____ it _____ that _____ caused _____ congestion and slower _____?
 Is _____ recent _____ changes causing _____ slower speeds?
 Is _____ any _____ the _____ has _____ in increased congestion _____ slower speeds?
 _____ different _____ the _____ leading _____ slower internet?
 Is _____ the network _____ increased congestion or slower _____?
 Any _____ network _____ that _____ lead to more _____ slower speeds?
 _____ it possible recent adjustments _____ networks have _____ problems?
 _____ there any recent _____ the network _____?
 _____ the infrastructure _____ to slower _____ and more _____?
 _____ a _____ update to the _____ affecting _____?
 Will _____ me _____ modifications _____ causing more congestion _____ speeds?
 _____ anything _____ the _____ of the _____ slow _____ and more _____?
 _____ the updated _____ set off _____?
 _____ the network system _____ lead _____ congestion and slower _____?
 Did _____ make any _____ to _____ network system recently _____ resulted _____ congestion and _____ in _____?
 Is _____ adjustments _____ networks leading _____ and congestion?
 _____ make _____ changes to _____ network _____ led _____ congestion _____ a decrease in internet speeds?
 Is _____ alterations to infrastructure?
 Did _____ contribute to _____ congestion _____ slow _____?
 Slower _____ possible now _____ changed?
 There may _____ to _____ setup that _____ decreased _____ and increased _____ today.
 Do network _____ contribute to more _____?
 Can _____ recent _____ changes _____ speeds?
 Is anything different _____ slowing _____ down?
 _____ you _____ any changes to _____ cause increased congestion and a _____ speeds?
 Has _____ recent _____ or slower speeds?
 _____ altered _____ reason for slower _____?
 Is _____ recent changes on networks _____ led to _____?
 Has there _____ a _____ infrastructure that is causing increased congestion _____?
 Did _____ make _____ changes _____ the _____ system _____ lead _____ a decrease in internet speeds?
 Did you _____ changes to _____ system recently that _____ more _____ drop in internet _____?
 _____ alterations might _____ net _____ reduced speeds.
 Is the _____ changes _____ congestion and _____ internet speed?
 _____ about the infrastructure that leads _____ and more _____?
 Is _____ recent _____ to _____ network infrastructure the reason _____ and _____?
 _____ network changes _____ caused increased _____ slower _____?
 _____ been any _____ to the network _____ are causing more _____ slower _____?
 _____ you _____ me if recent _____ to _____ infrastructure _____ increased congestion?
 _____ changes increased _____ or slowed _____?
 _____ there been _____ in _____ network _____ speed?

_____ updates _____ to _____ congestion and _____ speeds.

Any network _____ and _____ speeds?

Verification _____ on whether _____ net _____ triggered jams/lag.

Have _____ any changes to the network lately that _____ increased _____ drop _____ internet _____?

Has _____ updated network _____ higher _____ of _____ lately?

Is it _____ network _____ these slowdowns and congestion?

Network updates _____ to congestion _____ slower _____.

_____ anything _____ the cause _____ slow internet _____ congestion _____ here?

_____ something different _____ it slow?

Is it _____ alterations to the _____ things _____?

Network _____ leading to _____ service.

Is _____ the _____ affecting speed?

_____ recent network _____ caused increased _____ or slower _____?

I need _____ know _____ are causing congestion and _____.

_____ different _____ the infrastructure _____ to slower internet _____ more _____?

_____ are _____ by recent network _____.

Can you tell _____ recent network _____ congestion?

Have _____ network _____ increased congestion?

Has _____ network _____ caused _____ congestion and slower _____?

Is _____ any _____ that _____ network slow?

Can _____ me if _____ changes _____ the _____ infrastructure has resulted in _____ slower _____?

_____ infrastructure changes cause _____ congestion and _____?

_____ a _____ change _____ the network _____ that has caused increased _____ slower _____?

_____ it _____ that _____ implemented infrastructure leads to _____?

_____ there any change to the _____ causing _____ reduced _____?

_____ cause congestion _____ sluggish speeds.

_____ the network _____ speed _____ traffic?

Is _____ network updated _____ to _____ higher _____ traffic _____?

_____ there _____ different with the infrastructure that _____ slower _____ and _____?

_____ in the network _____?

_____ slower _____ a result of _____ configuration?

Is alterations _____ the _____ network?

_____ the network _____ that _____ lead _____ congestion and slower speeds?

_____ impacting network speed?

_____ network led to _____ traffic _____?

_____ me if recent _____ to _____ infrastructure _____ in _____ congestion and _____ speeds?

Recent changes to _____ infrastructure _____ have _____ congestion and _____.

Is _____ a _____ behind _____ slowdowns?

_____ recent _____ network infrastructure the reason for _____ and slower _____?

_____ to know if network changes are _____ slower speeds.

_____ infrastructure _____ network speeds?

_____ wondering _____ recent _____ modifications are causing _____ speeds.

_____ a reason for _____ speeds?

_____ increase _____ and slow speeds.

Is _____ network updates _____ to _____?

Have _____ slowed down _____ network?

_____ changes might _____ heavier traffic _____.

Is _____ about _____ leads to slower internet and more _____?

Did _____ the network _____ things worse?

_____ updates affect the network's _____?

_____ the network could _____ traffic.

Alterations _____ weeks may _____ the _____ or _____ reduced _____.

_____ needs to be verification _____ whether _____ net _____ jams/lag.

_____ recent network _____ increased _____ slower speeds?

Slower internet _____ infrastructure _____?

_____ you make any _____ to the _____ recently, _____ to increased congestion _____ a _____ in _____?

_____ made _____ to the network _____ resulted in increased congestion _____ decrease _____ internet speeds?

Any _____ network _____ affect _____?

The alterations could _____ induce reduced _____.

Slow speeds _____ caused _____ network _____?

_____ there anything different that _____ lead to _____ internet _____?

_____ any recent updates _____ the _____ speed _____ congestion?

Can _____ if network _____ more congestion and _____ speeds?

Did _____ recent network _____ speeds?

The _____ might lead _____ traffic and _____ service.

_____ network _____ causing _____ slower speeds?

_____ you tell _____ network _____ causing more congestion?

_____ congestion _____ be _____ by recent updates to _____.

_____ causing _____ traffic _____ slower speeds recently?

_____ network slow _____ infrastructure alterations?

_____ made _____ the network _____ slower _____?

Can you tell _____ been _____ the network infrastructure that _____ congestion and slower speeds?

Infrastructure _____ speeds?

Is _____ different in _____ network that's _____?

What _____ updates cause _____ slow _____?

_____ there something different _____ the _____ causing heavier _____?

_____ may _____ because of _____ networking changes.

_____ the _____ recently _____ to slower _____?

_____ there recent _____ impacting network _____?

_____ the _____ network set _____ more _____ recently?

Network _____ heavier _____ slow service?

_____ it _____ that recent _____ adjustments _____ led to _____?

_____ possible that recent changes to _____ have _____ all _____?

_____ weeks' alterations congest _____ net _____ induce _____ velocities?

_____ altered network configurations _____ slower?

_____ network _____ caused traffic and slower _____?

Did any _____ decreased speeds and increased congestion _____?

The network _____ have _____ congestion and _____.

_____ to verify _____ recent net _____ triggered _____.

Did _____ recent infrastructure _____ to more _____ slower internet _____?

_____ network _____ causing slower speeds?

Did _____ change _____ speeds?

Any _____ to the _____ system _____ and slower speeds?

Is _____ to the network _____ things worse?

Are _____ slowdowns _____ to recent _____ adjustments?

Did any alterations to the _____ system _____?

_____ there _____ recent _____ to _____ infrastructure resulting _____ congestion _____ slower speeds?

_____ recent network changes _____ and slower _____?

_____ network _____ congestion and _____ speeds?

Modifications to _____ can _____ congestion and slow _____.

____ recent ____ the network infrastructure ____ more congestion and ____ ?
 ____ network infrastructure ____ cause ____ slower speeds.
 ____ any recent ____ to ____ infrastructure ____ increased ____ slower speeds?
 ____ any ____ causing slower ____ ?
 ____ to the network setup that might ____ affected the ____ ?
 Is recent modifications to ____ network ____ slower speeds?
 Changes to ____ network ____ slower ____ .
 ____ possible that ____ infrastructure ____ caused congestion and ____ ?
 ____ you make ____ changes to the ____ that ____ increased congestion and ____ in internet ____ ?
 Was there ____ made ____ network setup that ____ decreased ____ and ____ congestion ____ ?
 ____ congestion, slowed ____ were ____ adjustments ____ ?
 ____ any ____ in ____ network system ____ traffic ____ ?
 ____ the ____ down by infrastructure ____ ?
 ____ may make traffic jams ____ .
 ____ the ____ the network make ____ slower?
 Modifications ____ the ____ would ____ congestion and ____ speeds.
 Recent network ____ may ____ speed ____ .
 ____ anything ____ the network that's ____ it ____ ?
 ____ there anything ____ with ____ leading to ____ internet?
 Has there been ____ change to ____ network infrastructure ____ is ____ speeds?
 ____ you tell ____ Network ____ are ____ and slower speeds?
 Did ____ notice congestion and speed issues, ____ your ____ ?
 ____ there any recent updates that ____ speed ____ ?
 ____ changes might ____ heavier ____ slower service.
 ____ tell me ____ recent ____ the network ____ result ____ increased ____ and slower ____ ?
 ____ changes to the ____ increased congestion or slower ____ ?
 Is ____ anything different about ____ that ____ to slower ____ ?
 Might the newly implemented ____ ?
 Are ____ recent ____ modifications ____ congestion and ____ speeds?
 I ____ to ____ if recent ____ triggered ____ .
 ____ configurations ____ slower speeds?
 ____ network ____ and slow downs recently?
 ____ want to know ____ recent ____ increased congestion ____ speeds.
 ____ altered network ____ a ____ speeds?
 Is ____ that recent ____ to ____ caused congestion and ____ speeds?
 Are ____ recent ____ network infrastructure to ____ congestion ____ slower speeds?
 ____ it possible ____ altered network ____ slower ____ ?
 Is ____ connection ____ recent ____ on networks and ____ and congestion?
 ____ if ____ changes ____ have ____ to congestion?
 ____ cause congestion or ____ speeds.
 Can ____ me if there have ____ modifications ____ that have resulted ____ congestion ____ slower speeds?
 ____ you tell ____ if the recent changes ____ network ____ in ____ slower speeds?
 ____ higher levels of traffic jams ____ off by ____ ?
 ____ changes ____ cause ____ and ____ service.
 Does ____ have recent ____ that ____ and congestion?
 ____ to the ____ slow down ____ ?
 I ____ if ____ modifications are ____ more ____ .
 Do you ____ if ____ modifications to ____ network infrastructure ____ congestion ____ slower ____ ?
 Is the recent infrastructure changes ____ internet ____ ?
 Is it possible ____ causing slower speeds?

Is it _____ recent adjustments _____ have _____ these issues?

Has the recent changes _____ infrastructure _____ and _____ speeds?

Is _____ different the reason _____ slow internet _____ more _____?

_____ the _____ changed cause _____ speed?

_____ there any _____ to the network setup that _____ congestion _____?

Slower _____ and _____ could be _____ by _____ changes.

_____ whether _____ configurations resulted in slower speeds.

Do you know if there _____ recent changes _____ the _____ infrastructure that _____ in _____?

_____ different _____ the network that _____ causing heavy _____?

_____ speeds can be _____ by alterations _____ the _____ infrastructure.

Is _____ possible _____ are contributing to _____ congestion and _____?

Did _____ altered _____ result _____ speeds?

_____ recent _____ changes _____ cause _____ speeds?

_____ any recent changes _____ infrastructure _____ cause increased congestion and _____?

_____ there _____ recent updates _____ the _____ impacting speed _____?

_____ congestion possible _____ network changes?

Any _____ changes caused congestion and _____?

_____ infrastructure changes _____ more congestion and _____ internet speed?

Can _____ tell _____ if the _____ modifications _____ network infrastructure have _____ congestion?

_____ the _____ affecting speeds?

Network _____ could _____ congestion _____ speeds.

Is there _____ in _____ network infrastructure _____ causing _____ and slower _____?

_____ recent network updates _____ and _____?

Is _____ the _____ infrastructure _____ cause increased congestion _____ slower speeds?

_____ you _____ me _____ recent _____ the _____ infrastructure have _____ in increased _____ slower speeds?

_____ may lead to heavy _____ and _____.

_____ to the _____ slowing down _____?

Network changes could _____ heavier _____ and _____

Is anything different with _____ infrastructure _____ to _____?

Network changes could lead to _____.

_____ updates _____ traffic _____ slower _____?

Did _____ infrastructure changes increase _____ internet _____?

Is any _____ making _____ slow?

_____ network changes _____ congestion and _____ speeds?

Have you made _____ the _____ to increased congestion _____ drop in internet speeds?

_____ to _____ recent net _____ triggered jams/lag.

_____ any _____ the network infrastructure that _____ in _____ congestion and slower _____?

_____ it possible _____ recent _____ changes _____ and _____ speeds?

_____ changes _____ congestion or _____ speeds?

_____ the infrastructure slowing _____ down?

Are there any recent network _____ changes _____?

There _____ causing problems?

_____ any _____ the network system make things _____ like _____ detours _____?

_____ changes _____ infrastructure _____ increased congestion and slower speeds?

Is it possible _____ the recent _____ have caused _____ congestion?

Slower speed _____ traffic could _____ network _____.

_____ cause congestion and _____ speeds?

Slower _____ is _____ now that _____?

Is _____ the network making _____?

_____ leading to slower _____?

_____ and congestion possible _____ changes?

_____ is _____ on _____ recent net config _____.

_____ it _____ recent adjustments on _____ led to all _____?

_____ to _____ system _____ it worse?

Modifications of _____ network _____ increased congestion _____ slower speeds.

Did _____ changes _____ to _____ slower internet _____?

_____ any network _____ slower speeds?

_____ it _____ that _____ network changes _____ led to _____ and _____?

Did _____ recent network changes cause _____ slower _____?

_____ been any change _____ network infrastructure that is _____?

_____ recent _____ cause any _____?

_____ speeds might _____ by any _____ network _____.

Is _____ network _____ recently to set _____ traffic _____?

_____ leading to slower _____?

_____ to the network setup to cause increased _____?

Do _____ there have been _____ changes to _____ network _____ resulted in increased _____ slower _____?

Is the recent _____ on networks _____ and _____?

_____ there a _____ to the network _____ causing _____ congestion and _____ speeds _____?

It is _____ the _____ net config caused _____.

_____ newly implemented _____ cause _____ connections?

Is any network _____ to _____ slower _____?

_____ in the network that _____ it slow?

_____ it _____ that changes _____ slowed _____ the network?

_____ there changes _____ leading to traffic _____ up?

Can you _____ if there have _____ any _____ changes _____ infrastructure _____ resulted in _____ and slower speeds?

Have recent _____ changes increased _____ or _____?

Have _____ made _____ changes to the network system _____ congestion and _____ decrease _____ internet _____?

Is there any recent _____ network infrastructure _____ have _____ slower speeds?

Is any _____ to more _____ and _____ speeds?

_____ network changes _____ traffic _____ slower _____?

_____ changed in the _____ that is _____ slower?

Have _____ or slower speeds?

Is the recent network _____?

Is _____ possible that _____ the _____ things worse?

_____ to the _____ could lead _____ congestion.

I _____ to _____ slowed the _____.

Is _____ updated network set _____ higher _____?

_____ possible that recent changes _____ networks _____ all _____ congestion?

Is there _____ infrastructure change that caused _____?

Has _____ been _____ change _____ the _____ causing _____ congestion and slower speeds?

_____ to the _____ cause _____ traffic?

_____ been _____ recent _____ to the network _____ have caused _____?

_____ possible that the _____ changes on networks have _____ congestion?

Is any _____ changes causing _____ slower speeds?

Is there _____ changes _____ have led _____ speeds?

Is _____ anything _____ in _____ slowing it down?

Are _____ alterations _____ more _____ and _____?

_____ possible that _____ networking changes _____ increased traffic _____.

Are there any _____ changes to _____ infrastructure _____ increased congestion and _____?

_____ - more congestion, _____?

_____ to _____ network _____ cause increased congestion _____ slower _____ are _____.

_____ update causing congestion?

_____ possible that recent _____ network infrastructure caused slower _____?

Recent changes - _____?

_____ any recent network infrastructure _____ that _____?

Is _____ possible that the _____ have caused these slowdowns _____?

Did the network system _____ like _____ detours or traffic _____ day _____?

_____ to infrastructure slowing _____ down?

_____ any recent modifications _____ the network _____ that result in _____ speeds?

_____ any change that's making _____?

_____ to the _____ can affect _____ congestion.

Are _____ that _____ the network slow?

The network system may _____ increased congestion and _____.

Speed _____ congestion may _____ affected by _____ recent _____ to _____.

Did _____ network changes cause more _____ speeds?

_____ it _____ that _____ caused more congestion and _____ internet _____?

_____ networking alterations _____ have _____ traffic _____.

_____ it _____ that _____ network changes _____ caused increased _____?

Did changes to _____ make things _____ or traffic crowding?

_____ cause _____ congestion and sluggish _____.

_____ to infrastructure _____ have _____ the _____.

_____ made to the _____ setup _____ the _____ and increased congestion?

Is it _____ the recent _____ adjustments _____ congestion?

Network _____ to _____ congestion _____ sluggish speeds.

_____ may have _____ changes to _____ network setup _____ led _____ decreased speeds _____.

_____ any recent network changes _____?

Did _____ alterations to _____ network _____ make _____?

If _____ config triggered _____ verification.

_____ net _____ cause of jams/lag?

_____ wonder _____ anything _____ changed in _____ that is _____ it _____.

Did updates _____ cause increased _____?

_____ infrastructure _____ have slowed down _____.

Does _____ infrastructure _____ down the _____?

Alterations _____ net or cause _____.

_____ to make the _____ slow?

_____ network modifications causing _____ congestion _____ speeds?

It needs _____ verified if recent _____ config _____.

_____ have been slowed _____ by alterations _____ infrastructure.

Is the network causing _____?

_____ recent _____ changes caused increased congestion _____?

Has _____ created more traffic _____?

Network modifications lately _____ to blame _____ increased _____?

Any _____ the _____ that _____ cause _____ and slower speeds?

Did recent infrastructure _____ cause _____ slow internet _____?

_____ in the network _____ is causing congestion _____ slower speeds?

_____ true _____ infrastructure _____ more congestion and _____ internet speed?

Is _____ change affecting _____ slowdowns?

It _____ that _____ in _____ network _____ slower speeds.

_____ anything _____ can _____ to slower internet and more _____?

_____ change _____ the _____ causing increased congestion and reduced _____?

Is the network causing _____ recently?

_____ any recent changes to the network _____ have led _____ speeds?

Is any _____ congestion?

How recently _____ network _____ caused _____ and _____ speeds?

_____ updated _____ higher traffic jams recently?

Have _____ made any changes _____ system that have _____ to _____ a decrease _____ internet _____?

Did _____ the _____ slow _____ network?

Can you _____ if _____ recent network _____ are _____ slower _____?

Is _____ recent modifications to the network _____ that _____ in _____ speeds?

_____ the recent _____ cause traffic _____?

I _____ like to know if _____ network _____ more _____ slower _____.

_____ you tell me if _____ network _____ are causing _____?

Has _____ network been updated _____ traffic _____?

Is the recent _____ networks _____ cause _____ slowdowns and _____?

Has _____ updated _____ increased _____?

Is _____ possible _____ recent changes _____ the _____ to _____ and slower speeds?

_____ there an _____ in traffic _____ to infrastructure _____?

Does recent network _____?

_____ the network _____ can cause more congestion _____.

_____ to _____ may _____ the network.

_____ the _____ been updated recently _____ more _____?

Can _____ confirm if the recent _____ to the _____ infrastructure _____ congestion _____ slower _____?

Is _____ possible that recent _____ all _____ slowdowns and congestion?

Is _____ network _____ higher _____ traffic jams?

_____ there _____ network changes that have caused _____?

_____ are any _____ and slow speeds?

Maybe _____ weeks _____ will congest _____ net or _____?

Any _____ to _____ network _____ caused congestion?

Is there _____ traffic jams _____ due to _____ network?

Slower speeds and _____ are _____ any _____ changes _____.

Is _____ a change _____ affecting _____?

Network changes _____ be _____ to _____.

_____ may have throttled internet _____.

_____ change to _____ network infrastructure causing increased _____ reduced _____?

_____ that newly implemented infrastructure could _____ slower _____?

_____ infrastructure _____ could have _____ and slower _____.

Network _____ mean heavier _____ and _____.

_____ modifications _____ congestion or _____ speeds?

Is anything _____ the reason _____ internet and _____ congestion _____?

_____ change to _____ network infrastructure _____ caused _____ and slower speeds?

_____ the network _____ slower speeds?

Slow speeds _____ be a _____ recent _____.

Is _____ that recent adjustments _____ networks have _____ these slowdowns _____?

_____ there any changes made _____ the network _____ it worse?

Have _____ in the _____?

_____ do you _____ the infrastructure _____ to _____ and more congestion?

_____ infrastructure _____ caused congestion and _____?

Alterations _____ or _____ it slower.

Is slower speeds _____ result _____?

Something _____ with _____ infrastructure leading _____ internet and _____?

Are _____ to the _____ infrastructure _____ increased congestion _____ slower _____?

_____ network set _____ traffic jams recently?

_____ there been _____ recent changes to _____ network _____ have caused _____?

_____ it _____ that recent network adjustments _____ to all _____?

Changes _____ the _____ cause slower _____

Is there any _____ modifications to the _____ that _____ congestion and _____?

_____ know if _____ modifications _____ things worse?

Could _____ infrastructure changes _____?

_____ network _____ off more traffic _____?

_____ to _____ infrastructure that result _____ congestion and slower speeds?

_____ changes in the network _____ make _____ worse _____ detours _____ traffic _____?

Can _____ me _____ the _____ changes are _____ congestion _____ slower _____?

Is it _____ that newly _____ infrastructure _____ connections?

_____ any recent _____ updates affecting _____?

_____ different in the _____ that _____ making it _____?

Is it _____ that _____ to the _____ could _____?

_____ recent network _____ a _____ slower _____?

_____ changes caused _____ and slower _____.

Is it _____ that recent _____ slower _____?

Has _____ in _____ to make _____ slow?

Is it possible _____ recent network _____ have _____ all _____?

_____ networking changes might _____ worse.

_____ the updated network _____ off _____ traffic _____ recently?

Changes _____ to the _____ traffic.

Is _____ a _____ to _____ network infrastructure that's _____ reduced _____?

Is there _____ alterations to _____ causing _____ slower speeds?

_____ recent network _____ cause _____ congestion and _____?

_____ jams may _____ recent networking _____.

Network _____ are _____ increased _____ and _____ pace lately?

Is _____ that recent adjustments on _____ to _____ congestion?

There _____ changes _____ to _____ setup that might have _____ congestion.

Have _____ made _____ to the network lately that _____ in increased _____ internet speeds?

_____ it true that recent _____ to _____ in _____ congestion _____ slower speeds?

Does the _____ have set off _____ traffic _____?

I _____ to verify _____ recent _____ caused _____.

Has the network infrastructure changed recently _____ more _____?

Is the _____ on _____ the _____ all these _____ congestion?

_____ want _____ if the network modifications _____ more _____.

_____ network are to blame for _____ and decreased _____?

Slow speeds _____ caused _____ changes?

_____ network changes _____ cause of _____?

Did the _____ infrastructure slow _____ network?

Network changes could _____ heavy _____ service.

_____ changes _____ and slower internet speed?

_____ speeds may be _____ changes?

_____ may be heightened _____ networking _____.

_____ you know if recent changes _____ network _____ caused _____ slower speeds?

I'm _____ the internet _____ acting up recently because _____ changes.

Alterations _____ congest the _____ or cause _____ in _____.

_____ it _____ network modifications are causing _____ slower speeds?

Is _____ more congestion and _____ because _____ recent infrastructure _____?

Is _____ different _____ the _____ that leads _____ slower internet _____?

_____ you tell me _____ network changes _____ causing _____?

I _____ to _____ if the recent net _____.

Have _____ made _____ the _____ recently that resulted _____ and a _____ in internet speeds?

_____ something different about the _____ that _____ slower _____ and more _____?

_____ updated network setting _____ of traffic _____ recently?

_____ that the _____ adjustments on networks _____ led _____ these _____ and _____?

_____ congest the _____ or _____ velocities.

Did _____ the network _____ slower _____?

Slower speeds _____ congestion _____ if _____?

Changes _____ the _____ could cause _____.

_____ updated network _____ more _____ recently?

_____ network changes _____ problems?

Is _____ any recent _____ increased _____?

Does _____ changes _____ the _____ infrastructure _____ congestion _____ slower _____?

Have _____ made _____ changes to the _____ leading _____ drop in internet speeds?

Recent _____ cause _____ jams.

Is _____ any recent _____ to _____ that _____ in _____ congestion _____ slower speeds?

Is _____ change _____ the network _____ it _____?

Which _____ and slower speeds?

_____ a change to the _____ infrastructure _____ increased congestion?

_____ changes _____ in heavier _____ and slower _____.

Any _____ causing _____ speeds?

Does recent _____ infrastructure _____ congestion or _____?

Is _____ change to _____ more congestion or _____ speeds?

I want to _____ if _____ modifications _____ speeds.

Are _____ modifications _____ congestion and _____?

_____ speed _____ be impacted _____ recent _____?

Has _____ updated network _____ jams?

_____ anything _____ in the network _____ making _____ slow?

_____ you tell _____ if networks _____ more _____ and _____?

What recent _____ the _____ affect _____ congestion?

_____ you make _____ changes to _____ network system _____ led _____ increased congestion _____ a drop _____?

Recent infrastructure changes _____ have _____ congestion and _____ internet _____.

_____ network changes caused _____?

_____ tell _____ if recent network modifications _____ causing _____?

Have _____ changes _____ traffic?

_____ has changed in _____ network that is _____?

_____ recent _____ causing more congestion or _____ speeds?

Slower _____ and _____ caused _____ changes to _____ network.

Is _____ anything _____ about _____ leading _____ slow internet _____ congestion?

Is it possible _____ slowdowns?

Any recent network _____ that _____?

Is _____ infrastructure slowing _____?

Speed _____ congestion _____ affected _____ any _____ to the _____.

Is _____ possible _____ recent adjustments _____ have led _____ these _____?

Increased _____ slower speeds may be caused by _____ the _____.

_____ been network _____ speed?

_____ recently _____ cause slower _____?

Did _____ changes _____ network _____ cause traffic _____ get _____?
 Is _____ something different _____ the network _____?
 _____ changes can cause _____ service.
 Did the _____ result _____ slower _____?
 _____ the recent infrastructure changes to _____ and slower internet _____?
 _____ anything different with _____ causing _____ congestion and _____?
 Any _____ to _____ that could lead to _____ slower _____ by chance?
 Is _____ network _____ increased congestion and slower _____?
 Any changes to _____ system _____ lead to _____ congestion _____?
 _____ alterations _____ make matters worse?
 Do _____ if there _____ updates _____ network _____ causing slow internet speeds?
 _____ cause recent _____ yes _____ no?
 Can _____ tell me if _____ changes _____ making _____?
 _____ network may _____ been _____ cause slower _____.
 Did any changes _____ the _____ system _____ like _____ or _____ crowding?
 Were _____ made to the _____ setup that caused _____ slower?
 _____ you _____ modifications _____ the network infrastructure _____ to increased _____ and slower _____?
 _____ change causing congestion _____ slower _____?
 Is there any _____ made _____ the network _____ decreased _____ and _____ congestion?
 Did _____ network _____ congestion _____ speeds?
 Is _____ a change in _____ infrastructure that _____ and reduced _____?
 _____ possible that _____ to the network _____ may have caused increased _____?
 _____ recent network changes _____ congestion _____?
 Network _____ added _____ decreased pace?
 _____ updates _____ cause _____ slow speeds
 _____ network _____ are causing _____ congestion and slower speeds?
 Have _____ any recent changes to _____ infrastructure _____ have _____ congestion _____ slower _____?
 _____ there any _____ to _____ network _____ that _____ worse?
 _____ networks _____ slowdowns, _____ or no?
 _____ networking _____ slowed traffic.
 Is _____ any _____ updates _____ network affecting _____?
 _____ the recent _____ congestion _____ slower speeds?
 There _____ any network _____ congestion _____ speeds?
 Did the recent _____ changes _____ slower speeds?
 Is there _____ to _____ network setup _____ led to _____ speeds and _____?
 _____ any changes _____ the _____ setup _____ the _____ increased congestion today?
 Does anyone _____ recent _____ have _____ increased congestion and slower speeds?
 Does recent _____ changes cause _____ internet speed?
 _____ it possible that _____ changes _____ led to _____ slowdowns?
 _____ anything _____ that is making _____?
 _____ alterations in the network _____ things _____ get _____?
 _____ changes to _____ cause _____ traffic?
 _____ may _____ the _____ or _____ speeds.
 Is _____ any _____ that _____ congestion and _____ speeds?
 _____ network modifications _____ congestion _____ slower _____?
 Did _____ make any changes to the network _____ congestion _____ a _____ in _____ speeds?
 Is there any _____ traffic?
 Are there _____ modifications to _____ network _____ causing increased _____ slower _____?
 _____ there _____ the network system that made _____?
 It needs to be _____ net _____ jams.

_____ alterations last weeks _____ the net _____ cause _____ ?

The _____ have been _____ by _____ alterations.

Hey, any updates _____ to _____ network _____ be _____ speeds?

Any recent _____ to the network _____ congestion?

_____ the _____ changes leading to more congestion _____ internet _____ ?

_____ network can _____ slower speed and _____.

_____ network _____ and speeds?

Did _____ any changes _____ to increased _____ and a drop in internet _____ ?

_____ to infrastructure slow down _____ ?

Have _____ been _____ to the _____ that _____ increased congestion?

Are there _____ to _____ network infrastructure that _____ resulted _____ congestion _____ speeds?

Changed _____ have _____ the network.

Recent changes to _____ network infrastructure _____ congestion _____ speeds.

Have recent _____ network infrastructure caused _____ slow speeds?

_____ alterations _____ network _____ things _____ like increased detours or traffic _____ day _____ ?

Is there an increase in _____ congestion _____ ?

_____ know if recent _____ caused jams.

Increased _____ slower _____ have _____ by recent network _____ ?

_____ to the _____ is causing heightened congestion and reduced _____ ?

Could _____ the net _____ velocities?

Is _____ altered network configurations cause _____ ?

_____ of updates recently _____ crowding & decreased _____ ?

Is _____ different _____ network _____ heavier _____ ?

_____ the _____ changes _____ speeds?

_____ tell me if _____ recent _____ to the network _____ congestion and _____ speeds?

Network _____ might _____ contributing to _____ slower speeds.

Is there _____ network infrastructure _____ ?

_____ reduced _____ could be _____ by any alterations _____ infrastructure recently.

Did recent _____ to _____ infrastructure result in _____ slower _____ ?

Any changes to _____ network system _____ congestion and slower _____ ?

_____ infrastructure changes cause _____ and _____ ?

_____ it possible _____ to _____ network will _____ slower _____ ?

_____ a change to _____ network _____ is causing _____ congestion _____ reduced speeds _____ ?

_____ recent network _____ that _____ in _____ speeds?

Have _____ network _____ caused congestion or _____ ?

_____ you tell _____ recent modifications _____ the _____ have resulted _____ increased congestion _____ speeds?

Is _____ possible _____ network _____ resulted in _____ speeds?

Wondering if _____ on networks _____ led _____ congestion?

_____ the infrastructure leading to _____ internet here?

Any changes _____ the _____ system _____ and _____ speeds by _____ ?

_____ recent changes to _____ infrastructure _____ congestion and _____ speeds?

Did _____ network changes _____ ?

Have _____ made _____ changes _____ the network _____ lately, leading to _____ congestion _____ drop _____ internet _____ ?

_____ been any change to the network infrastructure _____ slower _____ ?

_____ possible that the _____ on _____ led to the _____ ?

Is _____ in _____ network causing it to _____ ?

Are _____ recent _____ to the network infrastructure _____ speeds?

_____ recent network infrastructure changes that _____ congestion?

Did _____ changes to _____ cause _____ and _____ speeds?

Is _____ alterations slowed the _____ ?

Is _____ anything different _____ network that's _____ it _____?

Did _____ network system's _____ worse?

_____ any _____ updates that cause _____?

The _____ have _____ of alterations to infrastructure.

_____ network _____ caused increased congestion?

Is _____ that the network changes could _____ and _____?

Do _____ know if network modifications _____ causing more _____?

The alterations _____ net _____ induce reduced _____.

Is _____ possible _____ implemented infrastructure _____ lead _____ connections?

_____ recent _____ changes cause increased congestion _____?

_____ made _____ changes _____ network recently that led to increased congestion and _____ in _____?

Which network updates _____ slower _____?

_____ infrastructure _____ cause the network _____?

Is there _____ updates _____ to _____ might make _____ slower?

_____ there a _____ on networks and _____ slowdowns and _____?

I _____ altered _____ configurations resulted in _____ speeds.

_____ the recent _____ to these slowdowns?

Did any _____ the network system _____ to _____ and _____ speeds recently?

Have any _____ to the _____ increased _____?

_____ can congest the net _____.

Any _____ that affect speed?

Has _____ caused _____ congestion and slower speeds?

_____ might _____ net _____ reduced velocities.

Network _____ traffic and slow _____.

_____ the network system _____ increase congestion and _____.

Modifications _____ the network system _____ and _____ by chance?

It's _____ to _____ if recent _____ config _____.

_____ with the infrastructure is _____ to _____ internet and _____.

Is _____ change to _____ network _____ that's _____ increased _____?

_____ that _____ making the network slow?

_____ know if recent _____ the network _____ caused _____ slower speeds?

Do _____ increased _____ slower speeds?

_____ changes _____ the network affecting _____ and congestion?

Recent _____ could have caused more congestion _____.

_____ recent updates _____ network _____ and _____?

_____ network changes are causing _____?

Alterations _____ net _____ cause _____ velocities?

_____ is _____ to verify if _____ net config _____.

_____ recent _____ networks _____ all these slowdowns and congestion?

Did you _____ any changes to the _____ system _____ that _____ congestion _____ a decrease _____?

Is there _____ recent _____ and slower speeds?

Did changes _____ the _____ increased congestion _____ speeds?

_____ recent _____ may have made _____ jams _____.

Does anyone _____ if any _____ made to _____ causing _____ speeds?

Did _____ infrastructure changes cause _____ traffic _____ speed?

_____ recent changes _____ the network _____ congestion and slower _____?

_____ network _____ lead _____ slower _____?

Network _____ traffic and _____ service?

Are _____ recent _____ to _____ infrastructure causing increased _____ and _____?

What _____ changes _____ congestion _____ slow _____?

_____ can lead to more congestion _____.

Is _____ slowed _____ alterations to _____ infrastructure?

Can _____ confirm _____ modifications _____ the _____ infrastructure _____ caused increased _____ slower speeds?

Is _____ network infrastructure changes _____ speeds?

_____ to the network system that _____ lead _____ congestion _____ speeds?

_____ network _____ congestion and slower speeds.

_____ needs to be verification on _____ triggered _____.

_____ tell _____ modifications are creating _____ and slower speeds?

_____ network system can _____ to _____ congestion and slower _____.

Did recent changes _____ congestion or slower _____?

Has there _____ change to _____ network infrastructure _____ has caused _____ reduced _____?

Altered _____ recent slowdowns _____ jams?

_____ it possible _____ recent network _____?

Is _____ recent _____ congestion _____ slower speeds?

_____ possible _____ resulted in slower speeds?

There _____ have been recent changes _____ that caused congestion _____.

_____ network changes cause _____ or _____?

_____ recent _____ have led to slowdowns and _____?

_____ you _____ if _____ are causing _____ and slower speeds?

_____ any updates _____ network _____ might _____ slow internet speeds?

_____ recent alterations _____ the _____ infrastructure _____ congestion and reduced speeds?

_____ it _____ newly implemented _____ lead _____ slower connections?

Is there _____ changes that _____ increased congestion and _____?

_____ you _____ modifications to the network system _____ in increased congestion _____ internet speeds?

Changes to _____ network _____ lead _____ increased _____ and _____ by chance.

_____ updates _____ to _____ congestion _____ speeds?

Were _____ any changes made _____ that _____ contributed _____ decrease in speeds?

What has changed in _____ network _____ is _____?

_____ needs _____ be _____ the recent _____ config caused _____.

Is _____ changes on networks led _____ slowdowns and _____?

_____ be _____ the _____ that cause slower speeds.

_____ wonder if _____ modifications throttled _____?

_____ alterations _____ slowing the _____?

_____ network _____ have _____ slower speeds?

_____ any changes _____ network setup to cause decreased speeds _____?

Did alterations _____ slow _____?

_____ anything different the infrastructure that _____ more congestion?

_____ possible that _____ on _____ have caused _____ problems?

_____ tell _____ recent _____ infrastructure changes caused _____ slower speeds?

_____ tell _____ if recent modifications to the _____ infrastructure _____ resulted _____ increased _____ slower _____?

_____ network _____ congestion?

Can _____ tell _____ if _____ the network _____ resulted in _____ traffic and slower _____?

_____ recent _____ cause _____ slower internet speed?

_____ traffic delays are included _____ network modifications?

_____ of _____ system could lead _____ congestion and slower _____.

Is _____ possible that the network _____ slower _____ recently?

Are _____ slowdowns _____ due _____ recent adjustments _____ networks?

Did _____ lead _____ slower speeds?

Do changes _____ infrastructure _____ the _____?

_____ it _____ recent network adjustments have caused these _____?

Have recent _____ increased congestion _____ speeds?

Any _____ to _____ caused _____ speeds?

_____ different _____ the infrastructure that leads _____ slower _____ more _____?

Traffic _____ heightened _____ recent networking _____.

Alterations to _____ may slow _____.

Is _____ different _____ network making it _____?

Did _____ in _____ network cause _____?

_____ any _____ updates _____ speeds?

_____ updates _____ lead _____ more congestion and _____.

_____ the infrastructure _____ down _____ network?

Does any network _____ slow _____?

_____ to _____ have _____ down the _____.

Are there _____ modifications _____ lead _____ traffic _____ up?

_____ network updates _____ congestion and slow _____?

_____ updates can _____ slow speeds.

Is something _____ about _____ causing _____ heavier _____?

_____ there new infrastructure _____ increase _____?

_____ you made _____ changes to _____ system _____ have _____ to increased _____ decrease in internet speeds?

Did any changes _____ things worse?

_____ configurations slow down _____?

_____ recent changes to the network infrastructure _____ increased congestion _____?

_____ alterations in the _____ cause _____ to get _____?

_____ there any _____ contributing to _____?

_____ the network _____ more _____ slowdowns _____?

_____ cause slower traffic?

Slow _____ may _____ by _____ changes.

Is there recent modifications to _____ and _____ speeds?

_____ the _____ alterations to infrastructure?

I am _____ if _____ network changes _____ more _____ and _____.

Recent _____ changes could _____ to more _____ and _____ internet _____.

I _____ recent infrastructure _____ more congestion and _____ internet _____.

Have you _____ and _____ issues recently _____ your _____?

Can _____ confirm _____ recent changes _____ network infrastructure have _____ congestion and _____?

Is there _____ infrastructure that _____ slower internet?

Did _____ to _____ make things worse?

_____ higher levels of traffic jams?

_____ it possible recent network _____?

_____ to the network system _____ things _____?

_____ different with the infrastructure _____ more congestion _____.

Network changes _____ causing heavier traffic _____.

Is _____ any change _____ network _____ makes it _____?

_____ traffic _____ be caused by _____ tweaks.

Did alterations to _____ infrastructure _____?

Have the _____ jams increased _____ of _____ network?

_____ implemented _____ could lead _____ connections?

network _____ may be _____ by _____

_____ tell me _____ recent _____ to the _____ in increased congestion?

_____ to the network system _____ situation _____ get worse?

Speed and _____ can _____ affected _____ updates.

Is there _____ about _____ infrastructure _____ slow internet and more _____?

_____ could bring heavier traffic _____.

Is it _____ newly _____ could slow _____?

Speed _____ congestion may _____ affected _____ recent network _____.

Has the recent _____ changes _____ and _____?

_____ network _____ slow the _____?

Does _____ changes cause slower _____?

I wonder if _____ different _____ network _____ heavier traffic.

Is _____ levels _____ traffic _____ off by _____ network?

Is _____ updated network _____ traffic jams?

_____ it _____ that recent _____ led to congestion?

Is _____ a _____ the network affecting _____?

_____ slow down the network?

If _____ causing more congestion _____ speeds?

Is it possible _____ on networks have _____ slowdowns _____ congestion?

Which _____ network _____ changes _____ and slow _____?

_____ that _____ internet bandwidths the _____ modifications?

_____ there anything _____ the infrastructure _____ leading to slower _____ more _____?

Do _____ network _____ speeds?

_____ recent network changes _____ things?

Is there anything _____ infrastructure that _____ slower _____ and more _____?

_____ any _____ the network _____ recently that _____ caused congestion and a _____ internet speeds?

_____ infrastructure _____ network speed?

_____ internet _____ that _____ has been _____?

_____ there _____ changes made _____ the _____ setup _____ might affect _____?

_____ changes to _____ network infrastructure _____ to increased _____ and _____?

Are _____ modifications to the _____ that _____ in increased congestion _____?

_____ tell me if _____ are _____ to _____ infrastructure that have _____ increased congestion _____ slower speeds?

Did recent _____ increased _____ speed?

_____ alterations to _____ systems make things _____?

_____ there _____ change in _____ causing _____ and reduced speeds?

_____ recent changes to _____ network infrastructure _____ increase in _____ slower _____?

_____ network _____ causing slower _____?

Is _____ recent network _____ are causing more congestion _____?

Modifications to the _____ are leading _____ congestion and _____ drop _____?

_____ any _____ to _____ network infrastructure that is _____ congestion?

_____ recent network _____ slowing _____ the _____?

_____ changes _____ slower internet?

Is it _____ that the _____ have led to _____?

_____ there a change _____ congestion and slower speeds?

Is _____ different with _____ the _____ of _____ internet?

Are there _____ modifications _____ the _____ infrastructure _____ resulted _____ congestion _____ slower speeds?

_____ you _____ if network modifications _____ problems?

Is anything different _____ for _____ slow _____ congestion?

Is there _____ the network _____ traffic?

Is recent network changes _____ of _____ congestion?

_____ possible _____ are contributing to _____ congestion and slow _____?

Something different with the infrastructure _____ more congestion _____?

_____ alterations _____ network down?

Does _____ have _____ updates _____ affect speed and _____?

Alterations _____ congest _____ induce reduced _____.

Network _____ and _____ speeds?

The _____ has _____ that _____ speed and _____?

_____ to _____ network infrastructure may _____ caused congestion _____ speeds.

Is _____ anything different in _____ making _____ slower?

Have there _____ any _____ to _____ network _____ have _____ increased _____ reduced speeds?

Did any network updates _____ sluggish speeds?

_____ any network changes _____?

_____ the recent network _____ caused _____ congestion _____ speeds?

Is the _____ updates causing increased _____?

Is there _____ to _____ network _____ that's causing _____ and _____ speeds?

_____ could _____ to _____ traffic _____ slower service.

_____ you make _____ the network _____ that resulted _____ increased _____ a drop _____ internet speeds?

_____ that _____ changes to _____ have led to _____?

Can _____ me _____ changes _____ causing more _____ and slower _____?

Could recently _____ connections _____?

_____ network changes _____ caused congestion _____ speeds.

Did _____ traffic jams recently?

_____ you _____ me if the _____ modifications _____ speeds?

_____ updates can contribute to _____ and _____

Network _____ and _____ speeds?

Network _____ to _____ increased clogs _____ decreased pace?

Can you tell _____ recent _____ to _____ network _____ in _____ slower speeds?

_____ network changes _____ increased congestion or _____ speeds?

_____ any _____ in _____ make _____ like increased detours or traffic _____?

Did altered _____ the _____?

The network _____ have been _____ down by _____.

Modifications to the _____ recently added clogs _____.

Have you made _____ to the _____ system recently that _____ in _____ internet speeds?

Increased _____ slower _____ caused by modifications _____ the _____ system.

_____ to _____ network _____ can _____ increased traffic and _____.

_____ there anything changed in _____ making it _____?

_____ has changed _____ network _____ slowing it _____?

_____ there recent updates to _____ speed and _____?

Are _____ causing congestion or _____?

_____ you make any changes _____ the _____ that _____ increased _____ and dropped _____?

_____ could be slowing down _____.

Network _____ traffic and slower _____?

_____ there any _____ modifications to _____ infrastructure causing _____ slower speeds?

Network changes that _____ heavier traffic _____.

Will the alterations _____ net or _____?

_____ any alterations _____ the _____ things worse?

_____ recent _____ to the _____ infrastructure _____ traffic and _____ speeds?

Is there any _____ network infrastructure _____ cause _____?

_____ network _____ congestion _____ slower speeds recently?

_____ the _____ network caused _____ recently?

Modifications _____ system _____ lead to _____ and slower speeds.

Is _____ bandwidths _____ because of _____?

Is _____ different _____ network _____ it _____ slow?

Have recent _____ changes increased _____ the speeds?

_____ tell me if _____ changes _____ network infrastructure have increased _____ speeds?

Was the recent network _____ cause _____?

_____ alterations to the _____ cause things _____ worse, _____ increased _____ traffic crowding?

_____ possible _____ the _____ changes could cause _____ speeds.

_____ the recent _____ changes to _____ more congestion and _____?

_____ changes in _____ network system _____ things _____ worse?

_____ different with the _____ that _____ to _____ congestion and _____?

_____ changes _____ the _____ slower speed?

Could _____ the _____ cause a _____?

_____ updates can cause _____ slower _____.

Network _____ may _____ congestion _____ slower speeds.

_____ infrastructure _____ slow the _____?

_____ altered network configurations to _____ cause _____ slower _____?

_____ network changes _____ heavier _____ service?

_____ recent alterations _____ the _____ causing increased _____ and reduced speeds?

Is there _____ change to the _____ causing _____ and _____ speeds?

Did _____ make _____ changes to the _____ system _____ increased congestion _____ a _____ internet speeds?

_____ there _____ change _____ infrastructure _____ more congestion _____ reduced speeds?

_____ the _____ adjustments on networks _____ of the _____ congestion?

_____ speeds and congestion could _____ network _____.

Can _____ confirm _____ recent _____ network infrastructure _____ led _____ increased congestion and _____?

Can _____ tell _____ modifications _____ causing slower speeds.

Can any _____ more _____ and _____ speeds?

Can you _____ if _____ network _____ more traffic?

Is the _____ set off _____?

_____ there any updates _____ to _____ might be slowing _____ internet?

_____ there been any _____ to _____ that have caused increased _____ speeds?

_____ any recent network _____ speed?

Has there been _____ changes _____ the network _____ resulted _____ congestion _____ speeds?

Has _____ been a change _____ the network infrastructure _____ causing increased _____?

Recent _____ changes may have led _____ congestion _____ speed.

_____ a _____ infrastructure change that _____ and slower _____?

_____ changes caused _____ speeds?

_____ recent _____ modifications responsible _____ and decreased pace?

Is there _____ correlation _____ recent _____ on networks _____ the slowdowns _____?

_____ congestion and slower _____ result of _____ changes _____ the _____ infrastructure.

_____ there _____ change to _____ network infrastructure _____ reduced speeds lately?

Modifications _____ the network system could _____ to _____ speeds.

_____ changes _____ traffic and slower service?

I need to _____ modifications are causing _____ congestion _____.

_____ it possible _____ network adjustments _____ led _____ slowdowns?

Is _____ possible that recent changes _____ have led _____ slowdowns _____?

Modifications to _____ cause more congestion _____ speeds.

Can you _____ me if _____ modifications are _____?

_____ the _____ infrastructure _____ in _____ congestion and slower speeds?

_____ leading _____ heavier traffic?

Is _____ recent _____ changes affecting _____ things?

_____ recent _____ caused slow speeds?

_____ infrastructural modifications throttle _____?

_____ recent network changes led _____ and _____ speeds?

Has the _____ network created _____ traffic jams _____?

_____ the network _____ can increase _____ and _____ speeds.

_____ there _____ in _____ network affecting _____?

_____ the recent infrastructure changes _____ congestion _____ slower _____?

Alterations _____ network _____ could cause _____ congestion and slower _____.

It's possible _____ to the _____ could cause _____.

Is _____ recent network changes to cause _____?

_____ the _____ could cause traffic _____ down.

_____ that _____ changes to the _____ infrastructure _____ caused _____ congestion?

Is _____ possible _____ recent _____ have _____ to _____ these slowdowns and _____?

Is the recent network _____?

Do _____ the recent _____ causing _____ and slower speeds?

Have you made _____ to the _____ that _____ increased congestion _____ a drop _____ speeds?

_____ speeds _____ congestion _____ be _____ if _____ changes recently.

_____ it _____ that recent network _____ more congestion?

_____ the _____ cause _____ levels _____ traffic jams recently?

Alterations _____ congest the _____ or _____.

Did network updates contribute _____ speeds?

Is _____ change _____ network infrastructure _____ reduced speeds lately?

Network updates _____ be _____ to _____ traffic and _____.

_____ may have been _____ network _____.

Is _____ possible _____ recent _____ caused more _____ and slower _____?
