Masked sample paraphrases of one "Home Repair and Maintenance Company" customer inquiry. (Purchased data will not be masked.)

Will cleaning _____ air _____ improve the _____ airflow problem with our home's _____ ?
 _____ it _____ to fix/replace the bad _____ of the filters _____ heating _____ ?
 _____ we see _____ improvement _____ or _____ our air filters?
 Is _____ air filters a _____ flow?
 Is it possible _____ poor _____ by servicing _____ installing _____ ?
 Is it _____ switch _____ the air filters _____ our _____ unit _____ the _____ ?
 Will _____ improve _____ and cooling?
 _____ air filters fix _____ ?
 _____ air filters be _____ or _____ to _____ airflow _____ ?
 Should _____ get _____ to correct our _____ cooling _____ low air _____ ?
 _____ air filters _____ heating and _____ ?
 _____ for _____ bad output of the _____ and air conditioning units.
 _____ air filters _____ improve our cooling _____ heating _____ .
 Can _____ be cleaned _____ replaced _____ solve _____ issue?
 Is _____ that _____ Ventilation _____ be achieved through _____ filters?
 Is it _____ better _____ achieved through the _____ of _____ air _____ ?
 Cleaning _____ the _____ improve the air _____ our house.
 _____ the cleaning/switching _____ help with the _____ heating/cooling _____ ?
 Can _____ air filters _____ our heating _____ systems?
 _____ we _____ to _____ clean _____ air _____ on the AC _____ ?
 Can filters _____ or _____ fix _____ air quality _____ the _____ ?
 _____ it possible _____ the weak _____ flow _____ changing air _____ ?
 Fix _____ weak home temperature _____ the air _____ ?
 _____ we be able _____ resolve low _____ our _____ and cooling _____ swap out the air _____ ?
 Is _____ better _____ be achieved with new/ _____ air _____ ?
 Is it _____ to _____ replace _____ filters _____ our _____ heating and cooling _____ ?
 _____ the _____ could _____ the _____ of air in _____ home.
 Does _____ make sense _____ out the _____ improve _____ flow of air _____ my house?

Can we clean _____ filters _____ our weak _____ flow?
 _____ the _____ airflow be fixed _____ changing air _____?
 _____ the _____ filter _____ the low _____ unit's _____ problem?
 _____ it _____ better _____ is achieved _____ clean air filters?
 Do we need _____ clean _____ air filters in _____ heating _____ cooling _____?
 Does a _____ replacement _____ with air flow _____?
 _____ I _____ or _____ out the air _____ trying to get _____ in _____ house?
 Will the air _____ change _____ improve _____ flow?
 _____ an improvement _____ flow of air if _____ or replace _____ filters?
 Is _____ to _____ air filters to improve _____ issues?
 Is it possible _____ the condition of air _____ to _____ performance _____?
 Can _____ filters be _____ or replaced _____ issue?
 _____ air filters _____ make air flow better?
 Is it possible _____ weak air _____ or _____ the air filters?
 _____ we _____ filters or clear out the bad _____ in _____?
 _____ to _____ or _____ improve the poor heating/cooling flow?
 Is it possible _____ issues by altering/cleaning _____?
 Replacing _____ may _____ our _____ and cooling _____.
 Is there any chance _____ problem _____ will be solved _____?
 _____ the condition of air _____ air conditioning?
 Does _____ filters _____ difference to the air circulation _____ home?
 Does a _____ with air flow in _____?
 _____ we clean or _____ filters in _____ heating and _____?
 _____ it _____ to _____ out air _____ improve _____ flow of _____ from the central _____ unit?
 Is _____ possible to improve _____ condition _____ filters _____ AC performance _____.
 Is it possible _____ change out _____ air filters _____ and _____ unit?
 Can the _____ be cleaned _____ to _____ airflow issue?
 Does changing _____ air filters help _____ flow _____ air _____?
 _____ I clean or swap _____ the _____ trying to improve the air _____?
 _____ it _____ to _____ the weak flow _____ air by changing or _____?
 _____ changing _____ air _____ the central heating and _____ system _____ difference?
 Changing or _____ air filters _____ improve the _____ air _____ home.
 _____ for _____ or _____ filters _____ boost heating/cooling flow?
 The AC _____ filters _____ be _____ or _____ better flow.
 Is _____ to clean _____ swap filters _____ improve _____?
 Is _____ possible _____ flow with _____ filters?
 Would _____ or _____ dirty _____ filters help our house's _____?
 _____ it _____ improve the _____ filters at the _____?
 Is _____ possible _____ fix _____ by cleaning _____ air filters?
 Can _____ to improve the heating and cooling _____?
 _____ the air _____ be cleaned/renewed to _____?
 _____ the _____ be cleaned or replaced in _____ to _____ flow _____?
 Should _____ swap _____ the air filters if _____ trying to _____ air flow in _____?
 Replacing air _____ improve our _____ cooling _____.
 Is _____ good idea to clean the _____ in order _____ improve the _____ air _____?
 _____ be cleaned or _____ fix the _____ flow?
 _____ it possible _____ clean or _____ dirty _____ filters in order _____ the _____ air _____ our _____?
 _____ filters may enhance the flow of _____ home.
 _____ air filters _____ the _____ heating/cooling flow?
 Is it _____ dirty _____ filters _____ our house to solve _____ flow problems?

_____ it possible _____ cleaning _____ solve some of the _____ our _____ and cooling units?

Will the air filters be cleaned _____ to _____ the _____ home's heating and _____?

Will _____ swap _____ of _____ efficiency _____ with the heating and cooling setup?

Is _____ good _____ to clean or _____ filters to _____ our _____ and _____?

Will the _____ filters be changed _____ flow _____?

Replacing _____ to _____ low _____ issues with our heating and cooling _____.

Will _____ air _____ cleaned or _____ in order to _____ air _____ in our _____?

Can replacing the air _____ flow of air _____ our _____?

_____ air filters to fix _____ problem?

Replacing _____ fix _____ poor _____ flow?

Is _____ possible to _____ or _____ filters to _____ of _____ through our house?

_____ we _____ new air _____ in _____ to fix _____ heating _____ cooling _____ air _____?

_____ changing _____ filters make a _____ circulation in our _____?

_____ filters be _____ or replaced _____ bad _____ of _____ home heating and _____ conditioning units?

_____ heating/cooling _____ will _____ new air _____.

Can changing _____ filters fix the _____?

Do _____ believe _____ the filter _____ improve _____ fluid _____?

_____ replacing _____ cleaning air _____ cure our weak _____?

Does _____ help our heating _____ cooling _____?

Should we clean or replace _____ to fix _____ air _____ in _____ temperature _____ system?

_____ to clean or _____ the _____ filters _____ our _____ at home?

_____ it possible to _____ the quality of _____ adjusting or substituting the air _____?

Should _____ tired _____ or replaced _____ make the home temperature _____ better?

_____ to swap or clean _____ fix inadequate temperature _____?

_____ make sense to _____ air _____ for better heating _____ flow?

_____ it _____ fix or _____ the bad _____ of the _____ on _____ home _____ units.

Does changing _____ filters _____ system work better?

_____ the condition of air filters and _____ performance?

_____ filters _____ fix weak airing _____ home?

Should we swap out the _____ efficiency issues with _____ heating _____?

Is _____ to swap _____ air _____ to _____ issues?

Is _____ a _____ look into new _____ filters _____ solution _____ low air _____ efficiency?

_____ air filters fix _____?

_____ don't know _____ we _____ see _____ improvement in _____ flow if we _____ our air _____.

_____ changing _____ air filters make _____ and _____ better?

_____ air _____ help the heating _____ cooling system.

Can filters _____ changed to fix the _____ flow _____ our _____?

_____ cleaning _____ filters help improve air _____ in _____?

Does _____ improve _____ cooling system?

_____ filters _____ make _____ heating and _____ system better.

_____ the _____ of the air filters _____ home?

Is _____ to clean or replace _____ filters _____ the _____ of _____ home?

_____ heating/cooling unit's flow _____ can _____ by _____ air filter.

Can we improve _____ flow _____ air _____ our heating and _____ air _____?

Can _____ fix the _____ air flow _____ the air filters _____?

Better _____ our _____ and cooling _____ could be promoted _____ replacing _____ air filters.

_____ to improve the _____ flow _____ our _____ and cooling unit by cleaning _____ filters?

_____ it _____ to improve _____ air _____ to improve home _____ performance?

Is _____ to swap the _____ fix _____ issues?

_____ to _____ clean the AC unit's air _____?

____ it ____ that better ventilation ____ achieved ____ clean ____ filters?
 ____ filters will help ____ flow?
 Will ____ in weak ____ if ____ or replace our air ____?
 Is it ____ swap the ____ cooling/ heating problems?
 Does replacing ____ filters ____ heating ____ cooling system?
 Is ____ possible ____ improve air quality ____ changing the ____ filter or ____ heating and ____ system?
 ____ it be ____ to fix ____ air ____ replacing or cleaning ____ filters?
 ____ it possible ____ and ____ to fix insufficient temperature ____?
 ____ the ____ more ____ with new air filters?
 Can air ____ be cleaned ____ weak airflow?
 Is it possible ____ fix ____ in ____ by ____ or ____ the ____ filters?
 Can ____ air ____ be changed ____ problem?
 Is it advisable ____ the air ____ our ____ heating, ____ and air-conditioning ____?
 ____ it ____ good ____ to clean the ____ improve the flow ____ air into ____ home?
 ____ possible ____ can help ____ air in our ____ system?
 Is ____ the ____ output of ____ filters on ____ home ____ conditioning units.
 ____ it ____ to look ____ new air filters ____ a ____ low ac ____?
 Poor heating and ____ be improved ____ changing the ____.
 ____ it ____ to improve ____ ventilation issues by ____?
 Would ____ or ____ a difference ____ house's weak air flow?
 Will ____ be ____ to improve ____ weak air?
 Will the air ____ be ____ help ____ low ____?
 Does ____ replacement improve ____ air ____ the home?
 ____ a weak ____ temperature ____ by ____ filters ____ not?
 ____ don't know ____ we'll see an improvement in ____ if ____ clean ____ our ____.
 ____ it ____ good ____ clean or ____ air filters in our heating, ventilating ____ system?
 ____ the ____ unit have ____ filters?
 ____ I clean or ____ out ____ when ____ get more ____ my house?
 ____ it ____ to improve the air ____ in ____ filters?
 Can ____ be cleaned or ____ airflow in ____ system?
 Will ____ with the ____ heating or ____ flow?
 Can ____ the air filters ____ make a ____ to this ____?
 Our house's heating and cooling ____ problems ____ could ____ solved with cleaning ____ air ____.
 ____ possible to clean ____ the air ____ our ____ heating ____ cooling unit.
 ____ it ____ clean or ____ the air filters in ____ and ____ conditioning ____?
 ____ or changing ____ fix ____ cooling ____?
 Can ____ or replacing ____ increase ____?
 Will ____ replacing the air filters ____ our home's heating ____?
 Is it a ____ clean or purchase new air ____ our ____ system?
 Will ____ help with poor ____?
 Is it possible ____ our house's heating ____ cooling ____ more efficient ____?
 Replacing the ____ will help ____ low ____ our heating ____ setup
 Is ____ that cleaning filters ____ solve the ____ inside?
 Can ____ be cleaned or ____ fix the ____ system?
 ____ we should get new ____ to fix ____ and cooling ____ low ____.
 Is it ____ to improve ____ and ____ by ____ air filter?
 ____ filters ____ fixed to fix ____ at ____ unit?
 ____ air filters solve ____ heating/cooling unit's ____ issues?
 Is ____ possible to switch out the ____ filters ____?
 Is it possible ____ change ____ air ____ home ____ cooling unit.

Is it _____ improve _____ heating and _____ by replacing the _____.

_____ filters _____ swapped or cleaned _____ and cooling _____?

Is there _____ air if _____ or _____ our air filters?

Can _____ air _____ cleaned _____ to cure our _____?

_____ be cleaned or _____ increase air flow _____ system?

_____ to improve heating and _____ flow?

Will _____ resolve _____ efficiency issues _____ the _____ cooling setup _____ swap _____ the air _____?

Does replacing _____ filter _____ air _____?

_____ it _____ to _____ or clean _____ to improve _____ heating/cooling _____?

_____ air _____ will help _____ heating/cooling _____

Can _____ filters _____ weak air _____?

_____ it possible _____ clean _____ to boost heating/cooling _____?

Is _____ repair _____ air flow by _____ the _____ filters?

Does _____ fix low air _____?

Can changing _____ cleaning _____ filters _____?

_____ cleaning _____ the air filters _____ flow _____ air _____ our home?

Are the _____ cleaned or replaced _____ air _____?

Will _____ air filters be _____ or _____ the _____ air _____ in _____ house?

Is it _____ the house's _____ and cooling system _____ air _____?

_____ filter _____ make a difference _____ fixing _____ home _____ control?

Is it _____ good _____ to _____ air _____ to improve the _____ flow in my home?

Can _____ clean _____ air filters _____ our _____ issue?

Does cleaning the air _____ air _____ home?

_____ system in our _____ helped by _____ filters?

Does _____ replacement _____ improve air _____ in _____?

_____ filters _____ the _____ of _____ our heating and cooling system.

_____ benefit _____ new air filters?

_____ it _____ or _____ the _____ to _____ better air flow _____ our house?

Should _____ tired _____ filters to _____ rid _____ the _____ air flow in _____?

_____ we should get new _____ filters _____ fix _____ and _____ system's _____ flow.

Is it _____ idea to _____ the air _____ in _____ house's heating _____?

Can filters _____ or _____ to fix _____ air _____?

Will _____ filters _____ cleaned to improve _____ and _____?

_____ the _____ filters be _____ or _____ to make _____ better?

_____ a _____ clean _____ replace the _____ filters _____ the home's heating, _____ and _____ conditioning system

_____ advisable _____ or swap out _____ filters when _____ to improve _____ flow of _____ in _____ home?

_____ air filters be _____ or replaced to _____ airflow _____?

Are _____ going _____ see an improvement in _____ we _____ or replace _____?

_____ possible to _____ the _____ air in _____ by changing the air _____?

Replacing _____ filters _____ the heating _____ system.

_____ cleaning or _____ filters _____ better air flow _____ home?

Is _____ filters and improve the _____ flow?

_____ we _____ or _____ the air filters in _____ and heating _____?

Can cleaning _____ changing _____ the weak _____ flow in _____?

Is it possible to _____ the _____ to _____ problems?

_____ it _____ that cleaning or replacing dirty _____ filters _____ solve _____ the problems _____ heating and _____?

Is _____ the AC/heat performance _____ replacement of the _____?

_____ it better to _____ new _____ filters _____ our _____ cooling system?

_____ cleaning or replacing _____ air _____ a _____ idea _____ heating _____ unit?

_____ may help with _____ flow.

_____ possible _____ clean or _____ filters to boost _____?
 _____ the _____ air flow _____ the air filters?
 Is _____ to improve the performance of _____ and cooling system _____ or _____ the _____?
 _____ air filters going _____ low heating/cooling unit's _____ issue?
 _____ that addressing the _____ filters will help with _____?
 _____ clean the air _____ to _____ rid _____ air flow _____ our _____ control system?
 _____ possible _____ or _____ air filters of our heating _____ unit?
 _____ it _____ good _____ to _____ air _____ in our _____ heating, _____ and air conditioning system to
 _____ filters changed or cleaned _____ air _____?
 Could _____ the _____ filters improve the flow _____ our _____?
 Changing/cleaning _____ could _____ used _____ low _____ issues.
 Should we _____ or _____ the _____ to get rid _____ air _____ our _____?
 Does a _____ fix _____ system?
 _____ possible _____ have _____ air circulation in our home _____ air _____?
 _____ home _____ unit or change _____ filters?
 Will replacing the _____ filters help with _____?
 Is it _____ fix/replace the bad _____ the home air conditioning _____?
 Can _____ be cleaned or _____ fix _____ air _____ system?
 _____ weak _____ or _____ air Filters?
 _____ the _____ air filters be changed _____ improve _____ of _____ AC?
 Can _____ cleaned or replaced _____ fix _____ weak air _____?
 _____ it possible _____ or _____ the _____ for the home's _____ and cooling _____?
 Can _____ filter be _____ to solve _____ low _____ flow _____?
 _____ or replacing _____ air _____ a difference _____ weak _____ flow in our _____?
 _____ air filters _____ or replaced to _____ air flow in _____?
 _____ air _____ improve _____ and cooling.
 _____ changing air _____ fix the _____ air _____ in _____?
 _____ it _____ clean _____ replace air _____ to cure our _____ issue?
 Is _____ good _____ buy new air _____ to fix _____ heating _____ cooling system?
 _____ to improve our _____ cooling _____ flow by replacing _____ filters?
 _____ cleaning filters _____ solve _____ cooling/ heating problem inside?
 Changing _____ air filters may _____ increase the flow _____ home.
 _____ we going to resolve _____ efficiency _____ our _____ and cooling setup _____ swap out _____?
 _____ we replace the _____ filters _____ get _____ of the poor air _____ in _____ home _____?
 _____ replace _____ air filters _____ correct the _____ air flow in _____ home temperature _____?
 Will the _____ filter be _____ solve _____ of flow in _____?
 _____ or replace the tired _____ fix the _____ air in our home?
 cleaning/switching _____ help _____ heating/cooling flow.
 Can filters _____ cleaned to improve the _____?
 _____ be cleaned or replaced _____ the flow of air in _____?
 _____ we clean or replace _____ tired _____ to _____ our _____ control _____?
 Is _____ possible _____ out _____ air filters _____ ones _____ our central heat _____ A/C _____?
 _____ air _____ our heating and cooling systems.
 Replacing _____ to resolving _____ efficiency _____ with the heating and _____ setup.
 Should we _____ air _____ rid of bad _____ home _____ control system?
 _____ I _____ or swap _____ I'm trying to _____ air flow in _____ home?
 Can air _____ to improve our flow?
 Can changing _____ weak air _____?
 Might the air _____ be _____ with _____ issues?
 _____ changing the _____ help _____ air _____?

_____ filters would fix _____ air _____?

Is it _____ clean or replace the dirty _____ filters _____ heating _____ cooling _____ house?

Is _____ possible to _____ low efficiency _____ with _____ heating _____ setup by _____ air _____?

_____ filters can help _____ cooling and heating _____.

Does changing _____ any effect _____ better air circulation _____ home?

Does filter _____ airing at _____?

Should we _____ clean _____ for _____ heating and cooling unit?

Change _____ air filters _____ improve _____.

_____ to _____ the _____ of the _____ house _____ changing the air filter?

Is _____ possible _____ cleaning _____ air filters _____ our house's _____ air _____?

_____ there a chance _____ filters _____ fix _____ weak cooling _____?

Should _____ clean _____ swap _____ air filters if I'm _____ to _____ flow _____ into _____ house?

_____ it _____ to be _____ by new/ clean _____ filters?

Is it possible _____ out the _____ on _____ and A/C _____?

_____ fix the _____ airflow issue _____ the air filters?

Is it _____ to _____ weak _____ issue _____ replacing _____ cleaning _____ filters?

_____ replacing the _____ filters help _____ heating _____ system?

_____ air _____ help weak _____ and cooling _____?

Can changing _____ fix _____ airflow _____?

Poor heating _____ flow can be solved _____ the _____.

_____ or clean _____ air _____ our home's heating and cooling _____?

Is it possible _____ improve the _____ of _____ house's _____ system _____ adjusting _____ substituting the _____?

_____ we _____ or replace the tired _____ correct poor air _____ in _____ home temperature _____?

_____ it _____ the _____ filter _____ our house's heating and cooling _____?

Can cleaning _____ cure _____?

Does _____ air _____ fix _____ weak air flow _____ our home?

_____ changing _____ air filters help improve the _____ in _____ house?

_____ new filters help with _____ flow _____ AC _____?

_____ air filters _____ cleaned _____ replaced _____ improve the _____ of air _____ the _____?

Will _____ out _____ help with the _____ efficiency _____ heating and cooling _____?

_____ or _____ the air _____ in our home, will _____ see an _____ in _____ flow?

Is _____ to _____ air filters to fix our _____ system's low air flow?

_____ clean or _____ the air _____ on _____ house, will there _____ improvement in _____ air?

Is _____ filters able to _____ bad air?

_____ changing the _____ filters _____ air circulation _____ the home?

Is it _____ to fix the weakness in _____ flow _____?

Will the swap _____ air _____ low efficiency _____ in _____ heating _____ cooling _____?

_____ cleaning or changing _____ fix _____ in _____ system?

Will _____ cleaned or _____ to _____ the _____ heating and cooling _____ better?

Do you _____ out or _____ the air _____ will _____ flow _____ our home?

_____ it possible _____ the air _____ improve heating and _____?

_____ changing or _____ air _____ the flow of air _____ home?

_____ or cleaning _____ air filters help improve _____ in _____?

Will change the _____ filters _____?

Is it _____ to _____ heating _____ cooling _____ adjusting _____ substituting the air _____?

_____ there _____ that _____ will help _____ cooling/heating problem indoors?

Is _____ any _____ the _____ heating _____ will be _____ cleaning filters?

Is there any _____ that _____ weak _____ problem indoors?

_____ changing the _____ improve heating and cooling?

_____ a _____ replacement help the _____ in the _____?

Can air _____ fix _____ weak airflow?

Is it _____ idea to _____ out _____ air _____ trying _____ get _____ flow in _____ home?

Can _____ to improve the flow of _____ our furnace?

Should _____ replace _____ clean _____ filters for _____ and cooling _____?

Will we _____ to fix the _____ air flow _____ home _____ or changing _____ filters?

_____ possible to _____ replace _____ air _____ in _____ and heating unit?

Is _____ to switch _____ air filters in _____ unit?

_____ to improve air _____ to increase AC performance _____?

_____ low heating/cooling _____ flow issue _____ solved _____ filter is improved.

Can the _____ be cleaned or _____ to _____ airflow _____?

Is it _____ better _____ circulation in _____ by changing _____ air _____?

Changing air _____ low air _____ the system.

Can we _____ air filters _____ fix _____ air?

_____ air filter might _____ cooling/heating _____.

Should the tired air filters be _____ poor _____ of air _____ temperature control system?

_____ be _____ to fix the _____ air _____ system?

Is it necessary to _____ the _____ air _____ for _____?

_____ better air _____ help solve _____ unit's _____ issue?

_____ clean _____ to fix the _____ flow in our home?

_____ it possible _____ or _____ the air _____ in _____ house's _____ cooling unit?

_____ air _____ maintenance _____ heating/cooling flow?

Can the _____ of _____ filters be improved _____ increase _____?

_____ we clean _____ replace the _____ filters _____ our _____ heating, ventilating and _____?

_____ changing of the air filters improve _____?

_____ it _____ to _____ the effectiveness of our _____ the air filters?

Is _____ dirty _____ in our house's heating and cooling unit?

_____ the weak _____ temperature unit _____ changing _____?

Will _____ filters help solve _____ efficiency _____ heating _____ cooling setup?

_____ know _____ we _____ see an improvement in _____ flow _____ or _____ our air filters.

_____ it _____ good idea to clean _____ new _____ filters to _____ our _____ cooling system's _____ flow?

_____ it a good idea to _____ new air filters for _____ to _____?

Is _____ possible _____ the bad _____ of _____ filters in _____ air conditioning _____?

Is _____ good _____ or swap out the _____ filters _____ trying _____ get _____ flow _____ my house?

Is _____ possible _____ new _____ filters will help _____ poor _____?

Will _____ the air _____ solve _____ the _____ heating/cooling unit?

Can _____ air filters _____ weak _____ and _____ flow?

Can _____ cleaned or replaced to improve _____ system?

_____ it a good _____ filters in order _____ improve _____ weak _____ flow in our house?

Is it _____ to improve the air _____ by changing the air filters _____ the _____?

_____ it _____ the air _____ on the A/C unit to _____ flow of _____?

_____ improving _____ filter help the low _____?

_____ we _____ the air filters _____ heating and cooling _____?

Does _____ help weak air _____ in our _____?

Does _____ filter _____ performance _____ the AC?

_____ for us _____ improve our _____ heating _____ cooling system by changing _____?

_____ wondering if _____ should look _____ air _____ as a _____ low heating and _____.

Would it be possible _____ clean or _____ to improve the _____ air _____ the _____?

_____ the air _____ help _____ with the heating _____ cooling setup.

Cleaning air _____ will help _____ heating/cooling _____?

_____ to clean or _____ for better heating/cooling _____?

Can _____ be _____ to _____ the _____?

_____ we _____ new air _____ to _____ our _____ cooling system's low _____ issues.

_____ changing _____ air _____ fix the _____?

_____ improving the _____ filter solve the low _____?

Maybe we should clean or get _____ heating and _____?

_____ we replace the air _____ the _____ our _____ heating and _____ unit?

_____ new _____ increase the _____ the heating/cooling unit?

_____ or _____ tired air _____ to _____ rid of poor air flow _____ our home temperature _____?

Can improving the condition of air filters _____ the _____?

_____ filters can help improve our cooling _____.

_____ possible to change _____ air filters on _____ our property?

Cleaning _____ replacing _____ could _____ some of _____ our _____ heating _____ cooling units.

Will the air _____ improved to solve _____?

_____ I clean _____ air filters when I want _____ of _____ into my home?

Should _____ the tired _____ filters _____ to _____ the poor _____ flow _____ our _____?

The weak _____ cooling _____ can _____ improved _____ replacing _____ air _____.

Is _____ to improve _____ heating and cooling _____ adjusting or substituting the _____ filter?

Is it _____ idea _____ clean the _____ filters for our _____ heating, _____ conditioning _____?

Does changing _____ fix low _____?

Can the _____ filters _____ cleaned _____ make _____ air _____ better?

Should _____ clean _____ change air filters in _____ cooling _____?

Do you _____ home _____ or change _____ filters?

_____ a _____ idea to _____ air filters in _____ home's heating and _____ system?

_____ a _____ in _____ filters _____ low air _____?

Will the _____ to solve _____ flow _____ the unit?

Can _____ the air filters _____ bad _____ in _____?

Do the AC unit's air _____ cleaned _____?

Can _____ or _____ filters _____ heating _____ cooling _____?

Will _____ be _____ the weak _____ flow if _____ clean _____ our _____ filters?

Cleaning air _____ the weak _____ flow.

Do _____ it is _____ good _____ clean _____ replace the air filters for _____ heating, _____ air _____ it _____ good idea to _____ or _____ air filters _____ our home's _____ ventilating, _____ conditioning _____ filters be _____ or _____ to improve air _____ the _____.

_____ it a _____ idea _____ clean _____ replace the air _____ in _____ to _____ the _____ air _____ the _____?

_____ cleaning or _____ filters fix _____ weak _____ flow _____ system?

_____ think it is advisable _____ air filters in _____ home's heating, _____ and air _____ system?

Is _____ the _____ problem will be _____ by _____ filters?

Can _____ clean or change _____ our problem?

Will the air filters be _____ solve _____ issues?

Fix _____ weakness _____ the home _____ change _____ air filters?

Replacing _____ air _____ and cooling system work better.

Will clearing _____ replacing the air _____ difference to _____ weak _____ flow in _____?

Do _____ think _____ filters in _____ home _____ or cleaned?

_____ out _____ air _____ help _____ the pathetic airflow?

Changing the _____ can help _____ flow _____ air _____ our _____.

Will _____ resolve the _____ heating/cooling _____ flow issue?

Will the _____ filters be improved _____ the _____ unit's _____ issue?

_____ be _____ to _____ flow in our system?

Should _____ replace _____ air _____ air flow in _____ home temperature control system?

Replacing _____ cleaning _____ filters can be used to _____ air _____.

_____ cleaning air filters could improve _____ our home.
 _____ want to _____ filters or fix _____ temperature unit?
 _____ filters be cleaned _____ replaced _____ our problem?
 Will air _____ changed if _____ heating/cooling flow?
 Is _____ a _____ to clean or _____ the air _____ for _____ home's _____ air conditioning system _____
 Can _____ replace _____ filters to cure our _____?
 _____ filters can fix low air _____ the _____.
 New air _____ the heating/cooling _____.
 _____ the air _____ cleaned or _____ in _____ to improve the _____ flow _____ our _____?
 Is _____ cleaning or _____ air _____ could _____ house's weak airflow _____?
 Is _____ that cleaning filters _____ solve the _____ problem _____?
 If _____ or replace _____ air _____ will there _____ an improvement _____?
 Does _____ the _____ filters make _____ difference _____ heating _____ setup?
 _____ idea to _____ or get _____ filters to fix _____ heating or _____ system?
 Can the _____ filters be _____ to _____ the _____?
 Does changing the air filters _____ a _____ the _____ in _____?
 _____ it _____ good idea to swap _____ the air filters _____ get _____ my home?
 _____ the _____ will _____ with _____ efficiency of _____ heating and cooling _____.
 Is _____ to _____ AC/heat performance by _____ the _____?
 _____ to know if _____ look into _____ filters _____ a _____ to low _____ cooling efficiency.
 _____ there any chance that _____ the cooling/ _____ problem?
 Is _____ to improve _____ heating and cooling system's _____ by _____ filters?
 Should _____ replace or clean _____ filters _____ our _____ unit?
 Cleaning _____ the air filters _____ help _____ the _____ our house.
 Does _____ dirty air _____ on _____ heating and _____ setup matter?
 Will changing the air _____ help _____ heating _____?
 Is _____ possible _____ new/cleaned _____ filters _____ better ventilation?
 _____ the _____ filters _____ replaced to _____ the airflow issues?
 Is it _____ new _____ can fix _____ air flow?
 Change _____ filters _____ fix a weakness _____ unit?
 _____ the air filters _____ or replaced _____ improve _____ our home?
 Can changing _____ air _____ boost the _____ AC?
 _____ air _____ help with air flow _____ system?
 _____ be _____ or _____ to fix _____ air flow _____ our _____?
 Does _____ the air _____ in our home?
 Can changing the air _____ difference _____ the central _____ air conditioning _____?
 _____ change _____ air filters _____ our home's heating and _____?
 _____ possible _____ or _____ filters to solve weak _____ flow in _____ house?
 Is _____ new _____ help resolve poor air flow?
 _____ heating _____ system's _____ can increase the air _____.
 Is it _____ good idea to clean _____ ventilating, and _____ system?
 _____ it _____ that we _____ see an _____ in weak _____ flow if _____ or replace _____?
 Will the swap _____ air _____ resolve low _____ issues with _____ heating _____ cooling _____?
 _____ replacement _____ air flow in our home?
 Will improvements _____ air _____ solve _____ heating/cooling unit's flow _____?
 Is _____ the air _____ a _____ the _____ airflow _____?
 Is _____ to fix the weak _____ air _____ air filters?
 Can _____ filters be cleaned _____ to fix _____?
 Can air _____ be cleaned or _____ to _____?
 _____ to clean _____ replace the _____ unit's _____ filters?

____ improving the air ____ help with ____ flow ____ in ____ ?
 ____ be ____ or ____ fix weak air in ____ system?
 Is ____ good idea to ____ out ____ air ____ when trying to improve ____ flow of ____ ?
 ____ it possible ____ fix the weak ____ getting the ____ cleaned?
 ____ like to know ____ or replacing ____ filters ____ our house's ____ air ____ .
 ____ fix ____ weak air flow ____ the air ____ the system?
 Is ____ possible to ____ the air ____ fix ____ issue?
 Is ____ idea to ____ the ____ for our home's heating and ____ system?
 ____ the ____ air ____ improved to ____ AC performance?
 Are ____ going to ____ air flow if ____ or replace the ____ filters in our ____ ?
 ____ the ____ fix our issue?
 ____ the air filters help our ____ system?
 Is it ____ cleaning filters will ____ weak ____ problem ____ ?
 Is it possible ____ fix/replace the ____ filters on ____ home ____ .
 Could ____ filters help ____ the ____ ?
 Did ____ filters ____ low air flow in ____ ?
 Should ____ clean ____ replace the ____ in ____ heating, ____ airconditioning system?
 Is ____ possible to ____ by ____ or swapping filters?
 Replacing ____ air filters can help ____ air ____ .
 Can air ____ cleaned or ____ cure ____ poor ____ ?
 Will changing ____ air ____ the ____ and cooling ____ ?
 ____ it ____ to switch out ____ filters ____ the A/C ____ our ____ ?
 ____ replacing the ____ fix ____ with the ____ ?
 ____ filters be ____ to ____ at home units?
 ____ want ____ if we can fix the ____ replacing ____ air filters.
 ____ filters be ____ to make ____ difference in fixing ____ home ____ ?
 Is ____ trying ____ maintenance ____ get ____ heating/cooling flow?
 Will ____ the air ____ help ____ efficiency issues ____ our ____ and ____ setup?
 Replacing ____ air ____ might ____ problem.
 Can ____ air filters ____ to ____ air flow ____ ?
 Does cleaning ____ filters fix the ____ the system?
 ____ it possible ____ the ____ the home heating and cooling ____ ?
 Will ____ filters help ____ home's ____ ?
 ____ I ____ or ____ out the air filters ____ I want ____ air ____ in ____ house?
 ____ condition ____ air filters ____ to improve AC ____ ?
 Replacing the air ____ can help ____ systems.
 Is it ____ we ____ improvement in ____ if we clean ____ replace our air ____ ?
 Replacing or cleaning ____ used ____ fix ____ weak airflow issue.
 Is ____ to ____ to promote better ____ flow in ____ home?
 Is it possible to ____ low ____ cleaning ____ ?
 Should ____ clean ____ swap out ____ filters to ____ flow in ____ home?
 Can ____ see ____ improvement ____ weak air ____ we clean or ____ the ____ filters ____ our ____ ?
 Changing air ____ help ____ flow?
 ____ filters ____ to improve the weak ____ flow in our home?
 ____ replacing the ____ improve ____ and cooling system?
 Will ____ replacing the air filters ____ home's ____ flow?
 ____ changing ____ filters give ____ air circulation?
 ____ filters ____ or ____ in the ____ and ____ system?
 Are we able to ____ the ____ air flow issue ____ ?
 Can ____ change air ____ to ____ airflow ____ ?

I ____ if I ____ look ____ new air ____ as a ____ low heating _____.
 _____ out of _____ filters help _____ the _____ and cooling issues?
 Is it ____ good idea _____ new air _____ fix the low ____ flow ____ our _____ system?
 Is it ____ to ____ or _____ to increase ____ and _____?
 Can ____ fix the ____ air _____ cleaning ____ air filters?
 _____ to change out _____ improve the ____ flow ____ the A/C unit?
 _____ we ____ the ____ flow of air _____ air filters?
 Do you think clearing ____ the air _____ fix the weak _____?
 Does changing air filters ____ with _____ in _____?
 Can _____ or changed to ____ the flow in _____?
 _____ replacing ____ air _____ resolve low efficiency _____ our heating ____ cooling setup?
 Can _____ change filters ____ our ____ conditioning system?
 _____ or cleaning the _____ could _____ flow of air in _____.
 Should we ____ or replace _____ because ____ the poor ____ flow ____ our ____?
 _____ it a ____ idea _____ or ____ new ____ filters _____ heating & cooling ____?
 Is ____ possible ____ change _____ filters ____ our heating and _____.
 _____ temperature unit ____ switch ____ filters?
 _____ filters ____ cleaned or replaced _____ the flow?
 Is _____ to fix _____ the bad output of ____ filters _____ home _____?
 _____ air filters may help _____ cooling ____ heating _____.
 Does ____ the air filters do anything _____ in _____?
 Does ____ make ____ to clean or _____ filters in order ____ improve ____ flow of air _____?

 Should _____ in the ____ unit be _____ replaced?
 _____ the ____ filters help the ____ heating/cooling ____?
 Cleaning or replacing ____ air filters _____ of _____ with the ____ heating and ____ units.
 Is _____ to improve AC/heat ____ with ____ replacement _____ filter?
 Changing ____ air filters might _____ air in ____ home.
 Is it possible to clean _____ improve the flow ____ air?
 _____ or changing the air filters _____?
 Changing the ____ filters can ____ improve _____ in ____ house.
 Does _____ new air ____ to fix ____ heating and ____ system's low ____ issue?
 Does a replacement _____ in ____ home?
 Will _____ air _____ the air flow _____ house?
 Is it _____ fix ____ bad output ____ the filters on ____ home _____ air _____?
 _____ replacing air _____ of air in our ____ and cooling ____?
 _____ air filters be replaced _____ flow of air _____ home temperature control system?
 Is _____ air ____ going ____ solve the low ____ unit's _____?
 Is _____ chance ____ cleaning ____ will solve _____ heating problem?
 Changing air ____ may fix _____ flow ____ our _____.
 Is _____ chance that _____ fix the cooling/heating ____ indoors?
 _____ air filters need _____ or replaced ____ order to ____ the _____ flow ____ our home?
 _____ we change ____ air filters to _____ air?
 _____ it possible to switch out ____ air _____ central _____ unit?
 Does cleaning the air filters _____ our home?

Is _____ idea to _____ or replace _____ air filters in order _____ improve _____ air _____ the _____?

Will air _____ changed _____ weak heating/cooling _____?

_____ a good idea _____ clean the air _____ in _____ air _____ system?

_____ with weak heating/cooling flow.

Changing/cleaning a filters could _____ used _____ ventilation _____.

Will changing air filters help _____ and _____?

_____ or _____ the _____ can be used to fix _____ weak _____.

_____ good idea _____ swap out _____ air _____ when _____ to _____ my home's air _____?

Is it possible _____ fix the _____ air _____ by cleaning _____ replacing _____?

_____ air _____ be changed in _____ home's _____ cooling _____?

_____ air filters _____ the _____ of air _____ our heating _____ cooling _____.

cleaning/switching _____ filters _____ heating/cooling flow

_____ it possible _____ or _____ air _____ our home heating _____ unit?

Do you _____ we'll _____ an improvement _____ weak _____ flow if _____ replace the _____?

Cleaning and replacing _____ with the poor _____.

Changing air filters will _____.

Is new _____ filters _____ help _____ heating/cooling _____?

_____ the air filters could _____ improve _____ heating _____.

Is it _____ that cleaning _____ filters _____ help _____ the _____?

_____ air filters can help _____.

_____ air _____ cleaned or _____ to _____ the issue?

Can _____ filters for a _____ airflow?

Do _____ to _____ AC unit's air _____ cleaned?

We might _____ new air _____ fix our _____ system's _____ air flow.

Is _____ possible to switch out the _____ A/C _____?

_____ swap and clean filters _____ fix _____ temperature circulation?

_____ the air filters to make the _____?

Can changing or cleaning _____ fix _____ weak _____ in _____?

_____ replacing air filters _____ heating _____ system?

_____ cleaning _____ swap _____ heating/cooling flow?

_____ air _____ improve _____ flow of _____ in our house?

Is it _____ to _____ the _____ for our home _____ and _____?

_____ or _____ the _____ filters _____ we _____ poor air flow in _____ home?

How _____ is it to change or _____ the _____ in _____ house's _____?

_____ it _____ that addressing the air _____ will _____ air _____?

Can _____ see _____ air _____ if we _____ or _____ air filters?

Does _____ the _____ help with poor _____ performance?

_____ changing _____ help _____ system?

_____ improving the _____ air filters improve _____ air conditioning?

_____ the heating/ _____ benefit _____ new _____ filters?

Is it _____ to clean or replace the _____ filters _____ improve _____ of _____ house?

Is _____ filters _____ to _____ and heating?

Does _____ the air filters help _____ the _____ house?

_____ cleaning or _____ filters help _____ heating _____ cooling units?

_____ air filters be cleaned _____ replaced _____ flow _____ air?

_____ there _____ chance _____ cleaning _____ will _____ the _____ problem inside?

_____ we _____ see _____ improvement in the weak air _____ if _____ clean or _____ filters?

_____ it possible that cleaning _____ replacing _____ filters _____ the _____ our house?

Can _____ filters help with _____ and _____ flow?

_____ the _____ filters, _____ improve the flow of air?

Does the AC _____ cleaned or replaced _____ air _____?

Is it _____ or _____ filters _____ solve the _____ air _____ in _____ house?

Is it _____ to _____ or _____ the _____ our _____ cooling unit?

_____ changing the _____ improve the _____ of _____?

_____ it _____ out _____ filters _____ our A/C unit?

_____ possible _____ fixing _____ air filters _____ solve _____ airflow problems?

Is it _____ Ventilation issues by altering/cleaning _____?

_____ it _____ to improve the _____ of _____ cooling system _____ changing _____ air filters?

Should we swap _____ clean air _____ heating _____ cooling _____?

Do you _____ should _____ air _____ to _____ heating and cooling _____?

Is changing the air filters _____ heat _____?

Is _____ possible _____ swap _____ filters _____ increase heating/cooling _____?

Can filters be changed to _____ flow of _____?

_____ to _____ issue by changing or _____ the air filters?

_____ the _____ be improved to solve _____ in _____ unit.

Do you _____ we _____ see an improvement in weak _____ or _____ the air _____ our _____?

Does _____ filter help _____ performance?

Is _____ the air filters any _____ for _____ circulation _____?

Is it _____ the _____ filter to _____ and heating _____?

Should we clean or _____ filters _____ order _____ poor air _____ in _____ control system?

Can filters _____ fix _____ weak airflow in _____ system?

_____ weak home _____ unit or _____ the air _____?

Will the _____ air filters _____ the low efficiency of our _____ setup?

Should I clean _____ out the air _____ I'm _____ the flow _____ into my _____?

_____ possible _____ weak air flow in _____ replacing the air filters?

Is it _____ to _____ the _____ by replacing _____ air _____?

Cleaning/switching _____ will _____ weak _____ flow.

_____ be used _____ fix crummy _____ temperature control.

_____ temperature unit _____ Change air filters?

Is it _____ filters _____ help _____ the weak _____ flow?

_____ air filters make _____ difference in _____ system?

_____ filters _____ the weak _____ in our home?

Replacing _____ filters _____ help improve the _____ heating and _____ system.

_____ a good idea to _____ or replace _____ air _____ for _____ ventilating, _____ air-conditioning system _____

_____ it _____ to clean _____ replace _____ filters for poor _____?

Can _____ the _____ of the AC at home?

_____ getting _____ of the air _____ help resolve low _____ the _____ cooling _____?
