

[Demo] NLP Dataset for Customer Service Automation

Company Type	Electricity Suppliers
Inquiry Category	Electrical safety guidelines and precautions
Inquiry Sub-Category	General electrical safety precautions
Description	Customers ask for general safety guidelines, such as preventing electrical shocks, fires, and accidents, by providing information on proper usage of electrical appliances, avoiding overloading circuits, ensuring proper grounding, and practicing safe habits when using electricity.
Data Size	6,778 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Electricity Supplier" customer inquiry. (Purchased data will not be masked.)

_____ Safety Guidelines include flammable _____ separation _____ from _____ ?
 Is heat-generating _____ from _____ the _____ safety guidelines?
 Is _____ electrical _____ included in _____ for _____ and flammable appliances?
 Is there _____ suggestion _____ flammable _____ should be separated _____ ?
 _____ the _____ in the _____ guidelines concern flammable _____ ?
 _____ guidelines for electrical safety include _____ apart _____ temperatures?
 _____ suggestion _____ flammable _____ separated from heat generating appliances?
 _____ the _____ suggestions _____ heat-generating equipment and potentially _____ chemicals within _____ ?
 _____ for _____ flammables and heat-generating _____ are _____ of guidelines _____ electrical _____ .
 _____ protocol suggest keeping _____ appliances that _____ warmth and _____ material?
 In the _____ safety guidelines, should _____ flammable _____ isolated _____ ?
 _____ have guidelines on how _____ materials _____ are _____ to fire?
 Is _____ separate _____ generating and flammable _____ the electrical safety _____ ?
 I _____ if it _____ included _____ Safety _____ hot-produced devices apart from _____ substances.
 Can _____ me if _____ electrical _____ separating flammable materials _____ heat- generating _____ ?
 The _____ safety guidelines _____ and devices _____ ?
 _____ included in _____ Safety Recommendations to keep _____ devices out _____ ?
 Is the advice _____ separation of _____ and _____ included _____ electrical _____ ?
 Is _____ for _____ of materials prone to fire _____ ?
 Is _____ electrical safety _____ included in _____ recommended _____ appliances from _____ ?
 _____ Regulations may include _____ to _____ flammables _____ heat-Generating _____ .
 _____ there a separate recommendation for _____ fire from _____ emit _____ ?
 Is _____ electrical safety _____ for segregating flammable materials _____ heat _____ appliances?
 Do the rules for _____ of materials _____ that _____ heat?
 _____ the electrical _____ guidelines tell _____ separate dangerous materials from heat _____ devices?
 Does _____ Safety _____ tell _____ to keep fires _____ ?
 I _____ if _____ is _____ in the _____ safety guidelines _____ things away from _____ produce _____ .
 Is there _____ to _____ items _____ prone _____ fire _____ appliances with heat?

_____ safety _____ to separate flammable _____ from _____ devices?

Does _____ to separate _____ could catch fire from appliances _____ are _____?

_____ safety guidelines state that potentially _____ isolated _____ heat sources.

Do _____ safety guidelines recommend _____ from _____ devices?

The specifications for _____ flammable substances and devices _____ are _____?

_____ flammable _____ instructions in the Electrical _____ Guidelines?

Do Electrical _____ Guidelines suggest _____ from heat-generating _____?

Do you _____ it is _____ in the _____ Recommendations _____ keep _____ producing _____ of danger?

_____ devices separated _____ flammable materials _____ Safety Guidelines?

Do the rules _____ the _____ from _____ devices that generate _____?

_____ electrical safety guidance _____ to separate devices _____ produce _____?

_____ for _____ recommend _____ flammable materials from devices _____ heat up?

_____ it _____ in _____ electrical safety _____ to keep _____ devices that _____ heat?

_____ there _____ recommendation _____ electrical safety _____ flammable material separation?

_____ there _____ for _____ flammable substances _____ heat generating appliances _____ electrical _____?

_____ do _____ guidelines _____ about keeping _____ substances and devices _____?

Can you _____ me if the _____ safety _____ separating _____ from _____?

_____ flammable _____ from heat- producing appliances are _____ electrical _____ rules.

_____ it _____ that the electrical safety guidelines _____ of _____ from _____ devices?

_____ to _____ flammable _____ heat-hungry appliances _____ included in _____ safety rules.

_____ flammables from _____ that _____ something that is _____ the electrical _____ guidelines.

_____ isolating _____ materials from _____ that _____ heat _____ included _____ rules for electrical _____.

_____ the _____ safety _____ keeping _____ away from heat?

_____ Electrical _____ suggest that _____ flammable substances _____ be _____ heat sources.

Are _____ any _____ the separation of _____ in the electrical safety _____?

_____ possible that _____ safety _____ separated _____ materials from devices _____ heat?

_____ safety guidelines recommend _____ materials from heat generating _____?

Do _____ safety _____ recommend separation _____ generating _____ from flammable _____?

_____ inclusion of recommendations between _____ equipment and _____ chemicals within _____?

_____ Electric Safety _____ you _____ stay _____ that make heat?

Do there _____ keeping flammable _____ heat- _____ appliances?

Do Electric _____ measures to separate flammables _____?

Is _____ the Electrical Safety _____ to keep _____ away _____ appliances?

_____ the separation _____ inflammable items _____ in _____ safety _____?

Are _____ for _____ appliances in _____ electrical safety _____?

Is _____ possible _____ devices from _____ substances _____ safety guidelines?

_____ it possible to _____ flammable _____ from _____ electrical safety _____?

Is the _____ inflammable items covered in _____?

Is _____ separation recommendations in the _____ heat _____ appliances?

_____ for _____ recommend isolating materials _____ heat-generating devices?

I'm wondering if _____ separation of inflammable _____ safety _____.

_____ the safety _____ keeping _____ between _____ that produce _____ warmth and _____?

_____ there a _____ and flammable materials _____ Electrical Safety _____?

_____ the guidelines for electrical _____ require _____ of _____ generate _____ temperatures?

_____ electrical safety _____ that potentially _____ should be _____ from sources _____.

_____ recommendation to separate items _____ to _____ from appliances _____ based on electrical _____?

Do _____ safety _____ recommend _____ materials from heat-generating _____?

Do _____ safety guidelines _____ you _____ separate heat-generating _____ flammable _____?

_____ electrical safety guidelines taken into _____ the _____ of _____ and _____?

Is _____ separate _____ generating _____ flammable substances _____ electrical safety _____.

____ it possible to ____ flammable ____ from Electric ____ that ____ heat?
 Do electrical safety ____ include ____ from ____ generating ____?
 ____ electrical devices kept away ____?
 Is ____ separate ____ from heat generating devices?
 Do ____ rules for ____ safety ____ materials from heat ____?
 ____ electrical ____ guidelines ____ requirements between appliances ____ generate ____?
 Is ____ between ____ and dangerous materials in electrical ____?
 I ____ to know if the guidelines ____ flammable ____ from devices ____
 Is it ____ the ____ Safety Recommendations ____ keep ____ devices ____ fire?
 Is ____ of ____ items a ____ of ____ safety ____?
 Is ____ of inflammable items addressed ____ Safety ____?
 Do the electrical ____ include recommendations ____ potentially dangerous chemicals?
 ____ for keeping flammable substances ____ from ____ appliances come ____ safety ____?
 ____ Electrical Safety ____ material separation ____ heat ____ devices?
 ____ in electrical safety guidelines flammable?
 Do ____ electrical safety guidelines recommend material ____?
 Do ____ for electrical safety ____ how to ____ flammables and ____?
 ____ are electrical ____ guidelines for keeping flammable ____?
 Is it ____ to separate flammable ____ from ____ devices ____ electrical ____?
 ____ the ____ Safety ____ about ____ to separate flammable materials and ____ emit heat.
 Do the electrical ____ guidelines ____ separation ____ inflammable ____?
 ____ to the ____ safety guidelines, are ____ separate ____ produce heat?
 Do electrical ____ rules include guidelines ____ keep flammable ____ producing ____?
 ____ electrical ____ have ____ to ____ flammable substances out ____ heat- producing ____?
 Is ____ of devices that produce ____ included ____ guidelines?
 ____ there flammable ____ instructions ____ the electrical ____ guidelines.
 Is there a ____ between ____ generate heat ____ materials?
 Should flammables ____ kept ____ appliances ____ heat generation?
 ____ you ____ separation suggestions ____ heat-generating appliances ____ the ____ safety ____?
 ____ you ____ me ____ guidelines ____ me to ____ flammable materials ____ heat generating ____?
 Do ____ electrical safety ____ you ____ separate flammables and ____ appliances?
 ____ electrical ____ advice ____ separation of heat ____ and substances?
 ____ advice ____ heat sources ____ in ____ safety guidance?
 ____ there guidelines to separate materials ____ heat-emitting electronics?
 ____ guidance about ____ of heat sources ____ substances?
 ____ information in electrical ____ guidelines for keeping flammable ____ and ____?
 ____ are ____ regarding ____ of ____ and appliances ____ emit ____ the Electrical Safety Guidelines.
 Do ____ safety ____ specify separation of ____ and ____ materials ____?
 Is it ____ suggest ____ heat-generating appliances from ____ materials?
 ____ electrical safety ____ to separate flammable ____ heat ____ devices?
 The guidelines ____ keep ____ from heat- ____ appliances ____ included ____ electrical safety ____.
 ____ there ____ recommendation ____ separate items that are ____ from ____ that ____ heat?
 Is ____ separate materials that fire ____ heat-emitting electronics?
 Is there ____ of ____ guidelines ____ electrical safety?
 ____ it ____ in ____ safety guidelines to keep ____ from ____?
 Do Electrical Safety ____ recommendations ____ heat ____ dangerous chemicals?
 ____ the electrical ____ have a ____ play in ____ separation of ____ appliances ____ flammable ____?
 I want ____ if the electrical safety guidelines tell ____ separate ____ generating ____.
 Is ____ safety guide specific to ____ separation ____ appliances ____?
 Do the rules for ____ safety ____ isolating flammable ____ that ____?

Is _____ separated materials _____ near heat-emitting electronics?

Is _____ to separate _____ from flammable substances in _____ safety _____?

Do _____ for _____ flammable substances _____ from heat- _____ devices?

_____ it advised _____ the _____ protocol to _____ a _____ between flammable material _____ produce excessive _____?

Is the _____ the _____ safety guidelines for separation _____ flammable _____?

_____ wonder if the _____ inflammable _____ is _____ in _____ electrical _____ guidelines.

Will Electric _____ Guidance tell _____ away from appliances _____ heat?

_____ Safety _____ tell you to stay away _____ the _____ heat?

_____ in the electrical safety guidelines pertain _____ the _____ of _____ that _____?

_____ in _____ safety guidelines to keep things away from devices that cause _____.

_____ there _____ recommendation to _____ flammable materials _____ heat?

_____ safety guidelines _____ requirements for _____ and flammable _____?

_____ there any _____ from appliances _____ produce heat in _____ safety guidelines?

_____ there _____ for keeping _____ away _____ generating appliances?

There are _____ guidelines for separation of flammable _____ appliances.

_____ the electrical safety guidelines _____ keeping heat-generating _____ from _____?

Is _____ devices _____ electrical safety guidelines?

Is there any _____ separating heat _____ and combustible _____ guidance?

Is _____ separation of _____ part _____ safety guidelines?

Do _____ recommend _____ flammable materials separate from the _____ that _____ heat?

Is the _____ safety guidance _____ separate _____ materials from _____ produce _____?

Is _____ possible to keep flammable _____ from _____ that _____ heat?

_____ any _____ for separating _____ that are prone _____ fire near _____?

Do _____ safety _____ keep _____ away from _____?

Is advice _____ separation of _____ combustible substances _____ safety guidance?

Is _____ between _____ devices and materials _____ electrical safety _____?

Is _____ possible to _____ flammable materials separate _____ sources _____ in the _____?

Can _____ if _____ safety _____ to separate the _____ materials from heat generating devices?

_____ electrical safety _____ materials _____ separated from heat- generating appliances.

Is _____ Electric Safety _____ to _____ substances away from _____?

_____ for _____ safety call _____ isolating flammable _____ devices that generate _____?

_____ separation of _____ devices _____ heat in electrical _____ guidelines?

_____ on separating flammables and _____ generating _____ included _____ the _____.

Do _____ guidelines _____ materials from _____ that produce _____?

Is the _____ included _____ the _____ for _____ dangerous _____ from heat-generating _____?

Is _____ suggestion _____ the _____ of devices _____ produce heat in the _____?

_____ electrical _____ include guidelines _____ of _____ to fire?

Does _____ safety _____ keeping _____ between flammable material and _____ that _____?

Does _____ guidance give _____ separating _____ sources and _____?

Is _____ provision _____ electrical _____ guidelines to separate _____ can catch _____?

_____ electrical _____ guidelines _____ the separation _____ dangerous _____ from heat-generating _____?

_____ there _____ separate flammables _____ heat generating _____ devices?

_____ electrical _____ flammable _____ be separated from _____ generating appliances.

_____ flammable materials from devices _____ generate _____ are _____ in _____ electrical _____ rules.

_____ you think _____ should _____ be near _____ that _____ generation?

Is _____ to distinguish _____ heat and flammable _____?

_____ heat-Generating devices separated _____ materials _____ electrical safety _____?

Do electrical safety _____ of _____ materials from heat _____?

_____ separation of heat sources _____ combustible substances _____ electrical _____ guidance?

_____ it possible _____ keep flammable _____ from Electric Safety _____ heat.

Do the _____ the electrical _____ guide _____ appliances _____ generate heat?
 _____ guidelines for keeping _____ substances away _____ appliances?
 _____ flammables from heat-Generating Appliances/Devices?

Do the _____ rules have guidelines _____ flammable _____ heat- _____ appliances?

Do _____ safety _____ recommend _____ separation _____ flammable material?

Is electrical safety _____ for _____ and _____ substances?
 _____ electrical safety specify how to separate heat _____ ?
 _____ the _____ safety _____ for _____ flammable materials _____ heat-generating _____ accurate?

Is the recommendation to separate _____ appliances that _____ heat _____ the _____ ?

Is _____ suggestion _____ flammable _____ from devices _____ in _____ electrical safety rules?

Does _____ Electric Safety _____ keeping the _____ away _____ heat?

Is _____ from Heat-Generating Appliances/ Devices?

There are _____ to _____ appliances that _____ in the _____ Safety Guidelines.

Is _____ devices separated _____ materials in _____ ?
 _____ possible _____ electrical _____ guidelines _____ flammable material _____ recommendations?

Is _____ devices _____ flammable materials in _____ guidelines?
 _____ the _____ safety _____ flammable material _____ ?
 _____ the recommendations _____ of flammable materials _____ appliances include _____ Guidelines?

Is there any _____ separate flammable _____ heat in safety _____ ?
 _____ you _____ if it's included in _____ Safety _____ to _____ away from _____ substances?

Do electrical safety guidelines _____ requirements for _____ materials?

The Electrical Safety _____ suggest _____ potentially _____ should _____ from _____ of _____ .

Is _____ suggestion within _____ electrical _____ guidelines _____ separate _____ from _____ that emit _____ ?
 _____ electrical safety guidance _____ to _____ flammable _____ devices _____ heat _____ ?

Is there _____ recommendation _____ separate items _____ catch _____ appliances _____ based on safety _____ ?

Recommendations _____ substances _____ devices apart _____ in electrical safety _____ ?
 _____ the _____ safety _____ advise to _____ flammable _____ from heat-generating devices, _____ confirm _____ ?
 _____ safety _____ separation of heat-generating appliances _____ materials?

Is the _____ guidelines _____ keeping flammable substances _____ ?

Do electrical _____ recommend _____ material _____ ?

Is it included _____ the _____ Recommendations to _____ hot-burning devices out _____ ?

Is it recommended _____ prevent _____ generating _____ equipment _____ substances?
 _____ flammable _____ from _____ appliances should include the _____ safety _____ ?
 _____ separating flammable _____ from appliances _____ heat is included _____ the _____ .

Do the electrical safety _____ keep flammable _____ from _____ ?
 _____ safety measures, is it advised to _____ substances separate _____ ?
 _____ the _____ safety guidelines, are flammable items kept _____ heat?
 _____ guidelines recommend keeping flammable materials away from _____ ?

Does electric safety _____ you _____ stay _____ from _____ that _____ ?

Do _____ electrical safety require keeping apart _____ generate _____ ?

There _____ for _____ flammable substances away from _____ appliances _____ electrical safety _____ .
 _____ that _____ items should _____ kept apart from devices that _____ heat.

The separation _____ from devices _____ a _____ of electrical _____ guidelines.

Do _____ safety _____ give _____ for material _____ from _____ ?
 _____ advised in _____ safety protocol to _____ between flammable _____ appliances that _____ excessive _____ ?

Recommendations for _____ materials from _____ appliances _____ the _____ safety guidelines.
 _____ the electrical _____ advice _____ separating heat sources _____ substances?

The electrical safety _____ separation measures _____ that _____ heat.
 _____ to prevent contact _____ substances _____ heat- _____ electronic _____ ?

Do _____ cover _____ to separate _____ cause fire _____ those _____ cause _____ ?

Is _____ in the _____ guidelines _____ separate _____ material _____ heat- _____ devices?

Do _____ in the _____ Safety Guidelines for keeping _____ heat?

Is _____ a recommendation in the _____ guidelines _____ heat-produced devices?

Is _____ safety guidance _____ to _____ from _____ materials?

Is there any information _____ the Electrical _____ keeping flammable _____ ?

_____ for _____ safety _____ keeping apart devices _____ materials that _____ high _____ ?

Do _____ include _____ material separation for heat _____ ?

_____ per _____ guidelines, _____ the flammable materials _____ heat _____ devices?

_____ are _____ in the _____ safety _____ to _____ flammable material _____ devices.

_____ for _____ mention separation of _____ ?

Do _____ in _____ Safety _____ to keep hot- producing devices apart _____ flammable substances?

_____ to _____ flammables _____ from appliances are _____ the electrical _____ .

_____ know if it is included in the _____ to _____ hot-produced _____ from flammable _____ ?

_____ know if the _____ say _____ separate _____ materials _____ heat-generating _____ ?

Do _____ guidelines for _____ flammable substances away from _____ ?

_____ electrical safety _____ separated materials for _____ ?

_____ there a _____ keeping flammable substances and devices _____ safety _____ ?

_____ you _____ if the _____ flammable _____ should be separated _____ heat _____ devices?

_____ you _____ the guidelines say to separate _____ materials _____ heat-generating _____ ?

_____ electrical safety guidelines suggest _____ heat generating appliances?

_____ electrical _____ guidance include advice about _____ heat _____ substances?

Is _____ separating _____ sources _____ combustible _____ included _____ electrical safety _____ ?

_____ it possible _____ keep _____ from _____ generated _____ electric safety rules?

_____ it _____ heat-generating devices _____ flammable _____ electrical safety guidelines?

_____ should be _____ guidelines to keep _____ away from appliances.

_____ the _____ advise keeping _____ between appliances _____ warmth and _____ material?

_____ may _____ provisions _____ the Electric Safety Guidelines _____ keep _____ materials _____ .

Is there advice _____ heat _____ and _____ safety guidelines?

Is there any recommendation _____ appliances in _____ Electrical Safety _____ ?

The electrical _____ guidelines _____ flammable _____ be isolated _____ sources _____ heat.

_____ guidance _____ guidelines for _____ of _____ prone to fire?

_____ on separation _____ materials _____ to fire _____ heat-emitting electronics?

_____ possible to _____ and _____ substances in _____ safety guidelines?

_____ the _____ guidelines _____ keeping materials _____ from appliances that _____ ?

_____ electrical safety _____ keeping the _____ separate from the _____ heat?

Do the _____ safety _____ include _____ on separation _____ sources _____ ?

Is _____ guidance capable of _____ and _____ materials?

Does _____ safety _____ separating _____ sources and substances?

_____ if the Electrical _____ advise to separate flammable _____ from heat-generating _____ ?

_____ for distinguishing materials prone _____ near heat emitting _____ ?

Do electrical _____ guidelines _____ recommendations _____ heat-generating _____ potentially _____ chemicals?

Is there any _____ safety _____ keeping heat sources _____ dangerous substances?

Do _____ Guidance _____ keeping the substances away _____ produce heat?

_____ may include measures _____ separate flammables _____ heat _____ appliances.

_____ in the Electric Safety _____ to _____ devices _____ reach of fire?

Do the _____ Guidelines _____ keeping flammable materials _____ appliances?

Do _____ guidelines _____ flammable _____ appliances in electrical safety protocols?

_____ if the _____ safety _____ that _____ materials should be _____ from _____ devices?

_____ Electric Safety Guidance tell _____ to keep _____ away _____ heat?

_____ to _____ guidelines, are _____ away _____ devices that produce heat?

_____ in _____ Electric _____ Recommendations to keep _____ from dangerous substances?

As _____ safety _____ is keeping _____ substances _____ that _____ thermal energy advised?

Is _____ of combustibles _____ devices _____ included _____ electrical safety guidelines?

_____ the inclusion of _____ between heat generating _____ and potentially _____ within _____?

The Electrical _____ Guidelines suggest _____ potentially _____ be _____ from _____.

_____ precautions regarding separation _____ flammables _____ devices _____ generate _____ in the electrical _____?

_____ included _____ the _____ guidelines to keep _____ that can catch _____ that generate heat?

_____ part _____ electrical _____ measures, is keeping combustible substances _____ generate thermal _____?

Do the _____ Guidelines _____ materials _____ heat generating appliances?

Is _____ guidelines _____ of _____ gadgets and flammable stuff?

_____ the fireproof _____ in _____ Electrical Safety Guide _____ appliances _____ generate _____?

_____ there a rule _____ keeping flammable materials _____ that _____?

Do _____ safety guidelines _____ separation of flammable _____ devices?

_____ the _____ Safety Guidelines to _____ away _____ appliances _____ there?

_____ there separation recommendations for _____ electrical _____ guidelines?

Do _____ separation recommendations for _____ in _____ electrical _____ guidelines?

I _____ to know _____ the separation _____ inflammable _____ Safety Guidelines.

_____ the electrical _____ recommend _____ of flammable material _____ heat-produced _____?

_____ electrical _____ guidelines suggest _____ materials should be _____ heat _____ devices.

_____ any provisions _____ Electric _____ Guidelines regarding _____ flammable _____ separate from _____?

The guidelines to keep flammable _____ from heat _____ electrical _____ rules.

Does _____ you to keep _____ substances _____ from appliances _____ heat?

Flammables should _____ separated according _____ electrical _____ heat generating _____.

_____ it possible that _____ safety _____ advise _____ of flammable _____ from _____ devices?

Does Electric _____ have measures _____ flammables _____ appliances?

_____ the recommendation exist _____ items _____ to catch fire _____ with electrical _____ them?

_____ know if _____ electrical safety guidelines _____ separation _____ flammable materials _____ devices.

_____ inclusion of recommendations _____ and _____ dangerous chemicals occur _____ the _____?

_____ electrical _____ included in _____ recommendations to separate heat-generating _____ flammable _____?

Recommendations on isolating materials from _____ that generate heat could _____.

_____ suggestion on separating flammable materials from appliances _____ produce _____ safety _____?

_____ included _____ Electric _____ Recommendations to keep hot-produced _____ from being _____?

Do the safety _____ recommendations _____ flammable _____ from heat-generating _____?

_____ it possible _____ separate _____ generating _____ from flammable _____ Safety Guidelines?

_____ there _____ to separate _____ from devices that _____ heat?

_____ on _____ to separate flammable materials _____ that _____ are _____ the guidelines.

Do _____ electrical _____ guidelines suggest separation _____ materials from _____?

_____ electrical safety _____ mention _____ flammables and _____?

_____ are suggestions _____ the _____ flammable materials and _____ emit heat.

_____ the electrical _____ guidelines _____ materials _____ heat generating appliances?

_____ guidelines suggest separating _____ appliances from _____ materials?

Is _____ separation of _____ that produce heat _____ electrical _____?

Do _____ electrical safety _____ for keeping _____ and devices _____?

Is _____ to separate _____ from flammable _____ in _____ guidelines?

Does _____ of _____ heat-generating _____ dangerous chemicals in _____ safety guidelines?

_____ it possible _____ rules for _____ safety recommend _____ materials _____ devices _____ heat?

Is it _____ items _____ can _____ heat emitting devices _____ the Electrical Safety _____?

The _____ safety _____ keeping flammable materials separate _____ that _____.

Is there any _____ make _____ the separation _____ and flammable _____?

Recommendations on _____ separation of flammable _____ produce heat are _____ the _____.

Do electrical _____ guidelines _____ flammable _____ from heat-generating _____?

Do _____ suggest _____ materials from heat generating _____?

Do _____ safety recommend isolating _____ materials from _____ devices?

Is there _____ information concerning the _____ devices _____ produce heat _____ the _____?

Do _____ guidelines recommend that _____ be separated from _____?

Recommendations on _____ and _____ are _____ guidelines for _____ safety.

_____ electrical safety _____ the flammable _____ separate from the appliances _____.

Do the _____ suggest _____ materials _____ that generate heat?

Is it _____ rules _____ electrical _____ recommend isolating materials _____ that generate _____?

_____ there _____ separation instructions in the _____ Safety _____?

_____ a separation _____ heat-generating devices _____ materials in electrical _____?

_____ guidelines _____ electrical safety _____ you _____ to separate flammables _____ appliances?

According _____ the Electrical Safety _____ items should _____ kept away _____ produce _____.

Is there _____ on _____ to _____ materials _____ to fire near _____ electronics?

_____ electrical safety _____ state _____ potentially flammable substances _____ be _____ heat.

Can you _____ the electrical safety _____ flammable materials _____ devices.

_____ guidelines _____ flammable materials _____ appliances that produce heat?

Do the _____ into _____ separation of heat-generating appliances _____ flammable _____?

_____ heat-generating _____ potentially dangerous _____ may be _____ in _____ Electrical _____ Guidelines.

_____ there _____ for _____ flammable _____ away _____ heat _____ devices?

_____ the _____ of recommendations _____ heat-generating equipment and potentially dangerous _____ electrical _____?

_____ there _____ on separation _____ materials _____ heat-emitting electronics?

Is it _____ items _____ from _____ that produce heat according _____ Safety _____?

Is _____ electrical _____ fireproof separation for _____ that _____ heat?

The _____ states _____ potentially _____ substances should _____ from _____ of heat.

_____ a suggestion _____ separate _____ materials _____ appliances _____ produce heat in _____ guidelines?

_____ any _____ in _____ Guidelines about how to _____ that emit heat?

Does Electric _____ substances away _____ appliances that _____ heat?

_____ recommended that _____ be _____ appliances that generate heat?

Is it _____ in _____ Safety Recommendations _____ keep hot-produced _____ harmful _____?

Is _____ any suggestion _____ about how to _____ flammable materials _____ appliances _____ emit heat?

_____ heat-generating devices different _____ in the _____ safety _____?

Is there _____ about _____ of devices _____ produce heat _____ the Electrical _____?

_____ separated from _____ materials in electrical _____ guidelines?

_____ there _____ guidance _____ flammable _____ away from electrical _____?

Do _____ electrical _____ recommend _____ flammables and _____ appliances?

_____ Electrical Safety Guidelines _____ that _____ substances _____ isolated from _____ of _____.

_____ separation of hot gadgets and flammable stuff according _____ rules.

Is _____ any _____ on _____ of _____ sources and _____ in _____ guidance?

_____ the separation of _____ addressed by electrical _____?

Do the electrical _____ materials from heat-generating _____?

_____ wonder if _____ in _____ Safety _____ to keep _____ devices separate from _____.

Guidelines _____ mention separation _____ potentially dangerous _____?

_____ included in the Electric _____ to keep hot-produced devices _____?

_____ measures _____ appliances that _____ heat _____ the _____ safety guide?

_____ guidelines _____ that you _____ flammable materials _____ that heat up?

Is there a _____ separate _____ materials from _____ produce _____?

Do _____ Electric Safety _____ you to stay _____ produce heat?

Is _____ devices separate from _____ electrical _____ guidelines.

_____ there a _____ flammable _____ from _____ generate heat in the safety _____?

_____ safety guidelines _____ separated from heat-generating devices?

Is _____ of inflammable items in electrical _____?

_____ there guidelines _____ separation of _____ near _____ electronics/appliances?

_____ safety _____ include measures for _____ of heat generating _____?

Is it mentioned in the electrical _____ things _____ devices _____?

_____ electrical _____ fireproof separation measures _____ appliances that heat?

If electrical safety _____ are followed, heating appliances _____ be _____.

Is it _____ the _____ guidelines _____ things _____ can _____ fire away from devices _____ heat?

Is _____ separation between _____ hazardous materials _____ electrical safety _____?

_____ electrical _____ include _____ for keeping _____ and devices apart?

Does _____ Safety _____ substances _____ from the heat?

Do _____ Electrical _____ Guidelines _____ keeping _____ materials separate from _____?

_____ guidelines include a _____ separate flammable materials _____ that _____ heat?

_____ guidelines for _____ flammable substances away from _____ producing _____ are included _____.

Do you _____ it is mentioned in the _____ safety guidelines to _____ things _____?

_____ recommendations to separate flammable materials _____ heat _____ the guidelines.

_____ recommendations _____ electrical _____ guidelines deal with flammable material _____?

Does the electrical _____ specify _____ that cause heat?

_____ the _____ safety guidance include _____ on _____ of heat sources _____?

Do guidelines on separation _____ fire be _____ guidance?

There are _____ to _____ materials _____ appliances that emit heat _____ guidelines.

Do electrical _____ guidelines suggest segregating _____ flammable _____?

_____ there any _____ the electrical _____ guidelines _____ keeping flammable substances _____?

_____ know if the Electrical Safety Guidelines _____ materials from heat-generating _____?

_____ keep flammable substances away from _____ are included _____ electrical safety _____.

Is _____ guidelines for keeping flammable _____ from _____?

_____ the _____ safety _____ taken into _____ comes to separating _____ and _____ materials?

_____ between _____ and _____ dangerous chemicals _____ in the Electrical Safety _____?

Do the _____ safety _____ dangerous _____ heat-generating appliances?

_____ to separate _____ prone _____ from appliances _____ are emitting heat?

Do guidelines _____ safety _____ to separate _____ generating _____ appliances?

_____ away from appliances that produce _____?

_____ advice on _____ sources and substances _____ in _____ advice?

Is _____ guidelines for _____ fire near _____ electronics?

_____ electrical _____ should combustible _____ separated _____ appliances that produce thermal energy?

I _____ includes advice on _____ heat _____ and substances.

Does the _____ safety guide specify _____ of appliances _____?

_____ it possible _____ flammable materials _____ appliances that _____ the _____ safety guidelines?

Do _____ guidelines _____ to separate _____ can catch _____ from those that _____?

Is heat-generating _____ materials _____ electrical safety guidelines?

_____ it possible to keep _____ items _____ produce heat _____ to _____ Guidelines?

_____ guidelines _____ safety mention separation of heat _____ flammable _____?

Do electrical _____ recommend _____ materials from heat-generating _____?

Is there separation _____ for _____ generating _____ materials?

Is _____ a recommendation _____ the Electrical _____ separation _____ flammable material from _____?

Is it _____ and heat-generating devices _____ electrical safety _____?

Is _____ separation instructions _____ the Electrical _____?

_____ it advised _____ Electric Safety Guidance _____ substances away from _____?

Do _____ guidelines have instructions _____ separation _____ flammable _____?

Is heat-generating device _____ flammable materials _____ guidelines?

____ it ____ the Electric Safety ____ to keep hot-produced ____ apart ____ ____ ?
 ____ electrical safety ____ flammable material ____ ?
 Do ____ electrical ____ recommend ____ and flammable appliances?
 Is keeping ____ that generate ____ guidelines for electrical ____ ?
 ____ the separation ____ inflammable items addressed ____ the ____ .
 Do ____ if ____ that flammable materials ____ be separated ____ heat- ____ devices?
 ____ there ____ rule ____ flammable materials ____ from ____ that ____ heat?
 Can ____ tell ____ the electrical safety ____ materials ____ heat-generating devices.
 ____ it possible that ____ safety guidelines ____ from heat- generating ____ ?
 ____ there ____ in ____ electrical safety ____ for segregating ____ ?
 Is ____ apart devices known ____ generate ____ temperatures required ____ safety?
 Is ____ of ____ objects emphasized when using ____ electronics ____ up?
 ____ per electrical safety ____ separated from heat generating ____ .
 ____ recommendations between heat ____ and ____ dangerous chemicals occur within the Electrical ____ ?
 Is there ____ Electrical ____ to keep ____ away from ____ ?
 ____ the ____ guidelines taken ____ making recommendations for separating flammable ____ heat ____ appliances?
 ____ it included in ____ Recommendations to keep ____ from fire?
 Do guidelines ____ electrical ____ how to ____ heat- ____ appliances?
 Is there a separation between ____ flammable ____ according ____ guidelines?
 ____ Guidelines, potentially flammable ____ should be isolated from ____ .
 Is ____ any ____ separation ____ devices that ____ in the ____ safety guidelines?
 Do ____ safety guidelines recommend keeping ____ from ____ that cause ____ ?
 ____ it ____ heat-generating ____ from ____ substances in electrical safety ____ ?
 ____ Electrical Safety Guidelines, ____ flammable substances ____ isolated from ____ ?
 Do electrical safety ____ that you ____ heat-generating appliances ____ ?
 ____ to electrical safety guidelines, heating ____ be ____ away ____ .
 ____ it possible to ____ flammable substances ____ devices ____ Electrical Safety ____ ?
 ____ any recommendation ____ electrical ____ guidelines to keep ____ away ____ appliances?
 ____ the rules ____ electrical safety ____ flammable substances ____ appliances?
 Is the separation ____ from ____ heat in the ____ ?
 Is ____ any recommendation ____ electrical ____ guidelines ____ keep flammables ____ from ____ .
 Is ____ possible to ____ items ____ safety rules that ____ heat?
 Do ____ rules ____ electrical safety ____ materials from ____ ?
 The ____ guidelines ____ potentially flammable substances ____ from sources of ____
 ____ guidelines for ____ how to ____ flammables ____ heat ____ appliances?
 ____ any information ____ that produce ____ in the electrical safety guidelines?
 Do the recommendations in the ____ Guidelines ____ of flammable ____ from ____ ?
 Do electrical safety ____ separating ____ from ____ generating ____ ?
 Is there ____ the Electrical Safety Guidelines ____ materials ____ appliances?
 Are ____ devices ____ from ____ in ____ safety guidelines?
 ____ recommend ____ of flammable material from heat- ____ devices?
 ____ any advice on ____ of ____ sources and ____ in ____ guidelines?
 ____ you ____ me ____ the electrical safety ____ tell me ____ separate ____ from ____ devices?
 Is advice on ____ included in electrical ____ advice?
 flammable material ____ in electrical ____ ?
 Can you tell me ____ the ____ safety ____ to separate ____ generating ____ ?
 ____ guidelines to ____ flammable ____ away from ____ appliances in ____ rules?
 Is it recommended ____ separated from ____ appliances?
 ____ advice on separation ____ and substances ____ in electrical ____ ?
 Is ____ separation of heat ____ combustible substances included ____ safety ____ ?

_____ safety _____ recommend keeping flammable _____ heat generating appliances?

Are the _____ items _____ in Electrical _____ Guidelines?

_____ on separation _____ prone to _____ electrical guidance exist?

_____ suggestion on isolating _____ devices that _____ heat in _____ safety rules?

Is _____ possible to _____ substances from _____ generating devices _____ electrical _____?

_____ suggestions _____ separate flammable materials from appliances _____ emit _____ in _____ Electrical Safety _____.

Does the _____ guide specify how to _____ that _____?

_____ the inclusion _____ recommendations _____ generation equipment and _____ chemicals happen _____ electrical _____ guidelines?

_____ the _____ safety guidelines _____ potentially flammable _____ should be isolated from _____.

_____ of electrical safety measures, _____ combustible _____ separate from thermal _____ generating appliances?

_____ guidelines include _____ to separate flammable substances _____ heat-generating _____?

Do electrical _____ guidelines _____ how _____ separate _____ and flammable _____?

_____ flammable _____ from appliances that _____ heat are _____ safety guidelines.

Is _____ in _____ Electric Safety _____ keep _____ devices _____ from _____ substances?

_____ a _____ of inflammable _____ the electrical _____ guidelines?

_____ in the electrical _____ rules _____ keep _____ substances away from _____ producing _____.

Is it _____ flammable _____ sources of _____ Electric Safety Guidelines?

According to the _____ guidelines _____ flammable _____ separated _____ heat-generating _____?

Do _____ electrical safety _____ separation for heat generating _____?

_____ there any recommendation _____ the Electrical Safety Guidelines _____ separation _____ flammable _____?

_____ safety _____ recommend keeping _____ appliances that produce _____ and _____ material?

Do electrical safety _____ suggest _____ from _____ appliances?

Does the _____ fireproof separation _____ appliances that heat _____?

_____ objects emphasized when placing _____ prone _____ heating _____ according _____ electrical _____ guidelines?

Does _____ Safety _____ to stay _____ from _____ that produce heat?

_____ separate _____ materials from appliances _____ produce heat?

Does _____ electrical safety _____ separate _____ and flammable materials?

_____ a provision _____ guidelines for keeping _____ sources away _____ that cause _____?

_____ guidelines _____ electrical safety _____ of _____ and _____ appliances?

_____ advice _____ separation of _____ substances _____ in _____ safety guidance.

_____ of electrical _____ it _____ to keep combustible substances separate _____ appliances?

The rules for _____ might recommend _____ devices that _____.

Is _____ to _____ substances _____ heat generating devices in electrical _____?

Do you _____ if it's included _____ Safety Recommendations to _____ hot-produced _____ the _____?

_____ on _____ materials _____ be included in electrical guidance?

_____ electrical safety guidelines _____ separating _____ appliances from _____?

Is _____ included in _____ Safety _____ keep _____ devices apart _____ dangerous _____?

_____ the guidelines _____ flammable materials _____ from _____ generate heat?

Recommendations _____ heat-generating equipment _____ chemicals can _____ included _____ Safety Guidelines.

_____ separation of inflammable _____ addressed in the _____?

Is it _____ that _____ recommendation exists _____ separate _____ catch fire _____ heat?

_____ electrical safety _____ state that potentially _____ substances be _____ heat.

Is there any _____ keep flammables _____ from _____ safety _____?

Do _____ guidelines recommend keeping flammable materials _____ from _____?

_____ the _____ in the _____ guidelines concern _____ separation _____ that _____ heat?

_____ you _____ if the _____ tell you _____ separate flammable _____ from _____?

_____ it possible to _____ if the electrical _____ tell you _____ flammable _____ from _____ generating _____?

_____ there _____ rule regarding _____ flammable materials away _____ create _____?

The separation of _____ can _____ in electrical _____.

Is that mentioned _____ electrical _____ to _____ things _____ catching _____?

Is the ____ of ____ items ____ electrical safety ____?

Does the Electric ____ recommend ____ away from ____ appliances?

____ safety ____ address the ____ flammable materials ____ devices ____ produce heat?

Is ____ heat-generating equipment and potentially dangerous chemicals in ____?

____ there ____ the ____ for keeping inflammable ____ of high temperatures?

The guidelines ____ flammable substances away ____ heat-generating ____ are included ____ safety ____.

Is ____ possible ____ separate ____ flammable substances ____ Electrical ____ Guidelines?

Is ____ separation ____ and ____ included in electrical safety guidance.

____ electrical ____ guidance ____ heat devices from ____ materials?

There ____ for keeping ____ substances ____ heat- producing ____ in ____ safety ____.

Do ____ guidelines recommend keeping ____ from hot appliances?

Do electrical safety guidelines ____ flammable materials?

Is there ____ provision in ____ electrical ____ guidelines ____ that can catch ____?

Is the inclusion ____ recommendations ____ heat- ____ equipment ____ dangerous chemicals ____ electrical ____?

Is ____ electric ____ guidance for ____ away from appliances ____?

Is ____ Safety Guidance saying to ____ the ____ from ____?

____ of inflammable ____ emphasized ____ placing ____ prone ____ heating up based on ____ by ____ safety ____?

____ guidelines ____ dangerous materials from heat- ____ appliances?

____ electrical ____ guidelines ____ that ____ separate heat-generating ____ flammable materials?

____ a recommendation ____ the Electrical ____ about ____ material separation from ____ producing ____?

____ there a provision ____ the electrical ____ guidelines ____ keeping heat ____ from ____?

Do ____ safety guidelines include ____ generating devices?

____ any suggestion ____ safety ____ to ____ flammable materials ____ appliances ____ emit heat.

Do the electrical safety ____ keeping ____ separate from appliances ____?

____ there ____ for segregating inflammable material ____ electric ____ generate ____ temperatures?

____ safety guidance keep ____ materials separate ____ that ____?

____ the ____ of ____ heat generating equipment and potentially ____ happen within ____ Safety ____?

____ items addressed in electrical safety ____?

Do ____ guidelines ____ of ____ from heat-generating devices?

____ there ____ for ____ of ____ that ____ heat-emitting electronics?

Is there ____ suggestion ____ the electrical ____ guidelines ____ separate ____ material from ____?

____ heat-generating ____ from fire-risk materials in electrical ____?

Is ____ Electrical Safety Guidelines about flammable ____ separation?

Do Electrical ____ recommend the ____ materials from ____ generating ____?

____ part ____ measures, should combustible ____ be ____ appliances that are ____ energy?

____ you ____ any instructions for ____ flammable ____ from ____ devices?

____ the ____ safety guidelines play ____ role in ____ separation ____ heat-generating ____ from ____?

____ a recommendation regarding ____ flammable material from heat ____ devices ____ Electrical Safety ____?

____ the Electric Regulations ____ separate flammables from ____?

Do ____ Electric ____ Guidance advise keeping ____ from ____ heat?

____ Electric Safety Guidance telling ____ keep ____ substances ____ heat?

____ guidelines for distinguishing materials prone ____ electronics/appliances?

Are ____ any ____ in ____ regarding ____ flammable ____ separate from heat?

Does ____ electrical safety ____ mention fireproof ____ appliances that ____?

Is ____ any way ____ separate ____ from ____ devices in the ____?

According ____ safety guidelines, are ____ items ____ apart ____ generating ____?

Do guidelines ____ to keep ____ substances ____ heat- ____?

Is there ____ for separating ____ that ____ near ____ electronics/appliances?

Does ____ inclusion of ____ generating equipment ____ dangerous ____ happen ____ Safety Guidelines?

Do ____ safety guidelines recommend ____ materials separate from ____?

Do _____ Electrical Safety _____ recommend _____ materials separate _____ appliances _____ up?

Do the safety protocols _____ keeping _____ flammable material _____ appliances _____?

Is _____ heat-generating _____ and potentially _____ in the electrical _____ guidelines?

_____ if _____ included _____ the Electric Safety Recommendations to keep _____ devices away _____?

Recommendations _____ of _____ materials from appliances that _____ in _____ safety guidelines.

_____ the inclusion of suggestions between _____ equipment _____ dangerous _____ the _____?

Recommendations for _____ materials from _____ heat are _____ in _____ safety guidelines.

Do _____ for electrical _____ heat generating _____ flammable appliances?

_____ recommendation in _____ electrical _____ to keep fire out _____ appliances?

Is _____ between appliances that generate _____ materials?

_____ heat _____ from flammable materials _____ electrical safety _____.

Do _____ have specific _____ for _____ substances _____ heat- generating _____?

Is _____ a _____ of heat-Generating devices _____ electrical safety guidelines?

_____ a recommendation _____ Safety _____ for separation _____ flammable _____ from _____ generating devices?

_____ of _____ generating devices from _____ in _____ safety guidelines?

Guidelines _____ electrical _____ of fires _____ heat?

The _____ materials should be separated _____ heat-generating devices/appliances.

Is it _____ to _____ inflammable _____ separated from _____ devices that generate _____ the _____ Safety _____?

_____ the guidelines _____ electrical _____ include _____ apart _____ generate _____ temperatures?

_____ the recommendations in _____ electrical _____ separation _____ flammable _____ from heat- producing _____?

_____ electric _____ include measures to separate flammables _____?

_____ the guidelines _____ electrical safety _____ flammable substances away _____ heat _____?

_____ flammable _____ heat-causing appliances are included in _____ safety rules?

The electrical _____ guidelines _____ potentially flammable _____ sources _____ heat.

Do _____ separate flammable materials from heat-generating _____?

_____ the _____ guidelines _____ specifications _____ keeping flammable _____ apart?

Is _____ separate _____ from _____ generating _____ and devices?

Is _____ possible _____ separation _____ substance _____ electrical safety guidelines?

Does the Electric Safety _____ tell _____ the _____ away _____ heat?

The instructions _____ keeping _____ substances _____ apart in _____ guidelines?

I _____ guidelines _____ separation of materials prone _____ in _____ guidance.

Is _____ separation _____ flammable materials from _____ produce heat _____ in the _____?

Do _____ exist _____ keeping _____ substances away from _____ appliances _____ safety _____?

Recommendations _____ separate flammable materials _____ that _____ included in _____ guidelines.

_____ to _____ flammable substances away from _____ appliances _____ included _____ the _____.

_____ for keeping flammable _____ away from _____ are included _____ rules.

_____ a separation _____ inflammable _____ in electrical _____ guidelines?

Is _____ safety _____ to keep _____ away from heat-burning _____?

_____ a recommendation _____ of devices that produce _____ the Electrical Safety _____?

Should flammable materials _____ away from _____ that _____?

_____ to _____ materials _____ fire near heat-emitting electronics?

Do _____ electrical _____ a part _____ the separation of _____ appliances _____ materials?

_____ guidance able _____ flammable materials from _____ that produce _____?

_____ guidelines _____ electrical _____ tell you _____ to _____ heat- generating _____ appliances?

Does the _____ safety guidance _____ on _____ to _____ sources _____ substances?

_____ know if the _____ to _____ flammable materials _____ heat-generating devices?

If the electrical _____ guidelines are _____ should be _____ from _____.

If _____ safety _____ to _____ flammable _____ from heat-generating devices, _____ you confirm _____?

Is _____ any suggestion about _____ to separate _____ that emit heat _____ Electrical _____ Guidelines?

Do electrical safety guidelines _____ of materials _____?

_____ for separating flammable _____ from _____ might be _____ by _____ Guidelines.
 _____ heat generating _____ separated from _____ electrical _____ guidelines?
 _____ me if the _____ tell _____ to separate flammable _____ from heat generating _____?
 _____ if the _____ safety guidelines advise _____ flammable _____ from heat-generating _____?
 _____ a _____ the _____ safety _____ to keep flammables away _____ appliances?
 _____ per _____ for electrical safety?
 _____ safety _____ suggest _____ the _____ materials _____ from the _____ appliances.
 Do _____ exist _____ keeping flammable _____ heat-producing appliances?
 Is heat-generating devices separated _____ dangerous _____ electrical _____ guidelines?
 Is _____ between _____ generating devices and _____ in the _____ safety _____?
 _____ the _____ safety guidelines recommend keeping flammable _____ apart _____?
 Is it _____ idea to _____ substances _____ from _____ produce thermal _____ in _____ measures?
 _____ a _____ between heat generating _____ and _____ materials in _____ guidelines?
 Recommendations _____ dangerous _____ may be included in _____ Safety Guidelines.
 _____ the _____ in the electrical _____ guidelines keep _____ out _____?
 Does _____ Guidance _____ you _____ keep substances _____ appliances?
 _____ for keeping flammable _____ from heat-produced _____ are included _____ rules.
 Recommendations in the electrical safety _____ of _____ from _____ devices.
 _____ the _____ Safety _____ telling me to keep the _____ heat?
 Is the material _____ electrical _____?
 Is there guidelines _____ separating _____ emitting electronics?
 In _____ safety guidelines, are _____ devices separated _____?
 Is _____ a _____ materials _____ separated from heat- generating _____?
 _____ it _____ to keep flammable items out _____ that cause _____?
 Is there _____ between _____ devices and _____ safety guidelines?
 _____ flammable materials _____ appliances _____ produce heat _____ included in _____ guidelines.
 Is there _____ the _____ to _____ flammable _____ away from appliances?
 _____ there _____ for heat _____ in _____ safety guidelines?
 _____ there _____ to separate _____ heat-generating _____ in Electrical Safety Guidelines?
 _____ the material kept _____ from electrical _____ heat?
 Is there _____ Electric _____ Guidelines _____ flammable materials separate _____ of heat?
 Maintaining distance between _____ appliances _____ excessive _____ is advised _____ the _____ protocol
 Do _____ separating _____ materials _____ appliances include the electrical _____ guidelines?
 Is _____ that _____ electrical _____ guidelines tell _____ materials from heat-generating devices?
 _____ guidelines _____ how _____ items that can catch _____ from _____ can produce _____?
 _____ guidelines recommend _____ materials from appliances _____ heat up?
 _____ inclusion _____ between _____ generating equipment and _____ dangerous _____ within Electrical _____ Guidelines?
 _____ you have _____ the Electrical _____ to keep _____ from appliances?
 _____ flammable substances _____ heat-causing appliances are included _____ safety rules.
 _____ the electrical _____ used in _____ of _____ appliances from _____ materials?
 _____ guidelines say that potentially flammable _____ be isolated _____ the _____.
 _____ there any _____ flammable substances _____ heat- generating _____ in _____ safety _____?
 Is _____ safe to _____ items _____ from _____ that _____ according _____ safety guidelines?
 _____ guidelines _____ separating materials prone _____ fire _____ electronics/appliances?
 _____ included in _____ electrical safety _____ to keep _____ away _____ devices _____ produce _____?
 _____ to the Electrical _____ Guidelines, are _____ from _____ that produce _____?
 Does the _____ safety _____ for heat generating _____?
 Do _____ know if the electrical _____ us _____ materials from heat-generating _____?
 _____ Safety _____ flammable substances _____ isolated from sources of heat.
 Do electrical _____ suggest separate _____ from _____ appliances?

_____ to _____ separation recommendations regarding heat-generating appliances _____ guidelines?

Is there _____ of _____ between heat-generating _____ potentially dangerous chemicals _____ guidelines?

Is _____ in _____ Electric _____ Guidelines to keep flammable materials _____?

_____ rules for electrical _____ keep _____ from _____ generating appliances?

_____ there any _____ about _____ that produce heat _____ safety guidelines?

_____ guidelines for electrical _____ separation _____ and flammable _____?

_____ on _____ to _____ flammable _____ produce heat _____ included in _____ safety guidelines.

The _____ Guidelines _____ isolating _____ flammable substances _____ sources of _____.

_____ the inclusion _____ recommendations between heat-generating _____ potentially _____ chemicals happen _____ Guidelines?

_____ guidelines _____ keeping _____ away from heat-generating appliances _____ electrical _____ rules?

_____ the electrical safety _____ be _____ from heat-generating appliances.

Is _____ possible to keep flammable _____ away _____ appliances _____ protocols?

_____ the inclusion _____ between _____ generating equipment _____ potentially _____ chemicals _____ within electrical _____?

Do _____ know _____ it's included _____ electrical safety _____ to _____ catching fire?

Recommendations _____ of flammables _____ included in _____ guidelines _____ electrical safety.

_____ electrical safety guidelines _____ flammable _____ heat-generating appliances?

Do the _____ safety _____ isolating the flammable _____ the _____?

_____ guidance address the _____ heat _____ flammable materials?

The electrical safety guidelines _____ that potentially _____ isolated _____ of _____.

_____ electrical _____ guidance able _____ materials from heat-Generating _____?

Is it _____ electrical safety rules _____ from heat- producing _____?

Are _____ electrical safety guidelines _____ flammable materials _____ correct?

_____ to _____ electrical safety guidelines, _____ appliances _____ be _____ from _____ materials.

_____ guidelines _____ keeping flammable _____ separate from appliances that _____?

Can _____ me if _____ exists to separate _____ to catch _____ from _____ emitting _____?

_____ Electric Safety Guidance _____ keeping _____ away from appliances _____?

_____ electrical safety _____ include specifications for _____ flammable _____?

_____ recommended in _____ guidelines that _____ material separation _____ done?

_____ the _____ that _____ materials be separated _____ heat-generating _____?

I _____ it _____ you could tell me if the _____ keeping flammable _____ devices _____ heat

Recommendations on separating _____ materials _____ produce _____ is included _____ guidelines?

Do _____ suggest keeping _____ that heat up?

_____ there _____ inflammable items in _____ electrical safety _____?

_____ guidelines recommend _____ flammable materials be separated from _____ appliances?

_____ there a separation requirement for _____ and _____ electrical safety _____?

_____ there _____ electrical safety _____ for _____ inflammable material _____ of _____ temperatures?

Do the guidelines _____ segregating _____ from _____ that _____?

Is it _____ to keep flammable _____ separate _____ that _____ electrical safety _____?

Is _____ information _____ safety guidelines _____ keeping flammable substances _____ devices _____?

Do electrical safety guidelines _____ from _____ devices?

Is it _____ to separate flammable _____ heat-generated _____ Guidelines?

_____ there _____ the electrical safety _____ regarding _____ separation _____ flammables _____ heat generating _____?

_____ the electrical safety _____ separation _____ appliances from _____ materials?

Is the _____ items _____ to _____ appliances _____ on electrical safety standards?

_____ for _____ safety tell _____ heat generating and flammable _____?

Do you _____ included _____ the _____ Safety Recommendations to _____ hot- _____ apart from dangerous _____?

Is _____ separation requirements _____ heat _____ materials in _____ safety guidelines?

_____ if it is mentioned _____ electrical safety guidelines _____ things _____ from _____ that _____ heat.

_____ for electrical safety tell you _____ heat-generating _____?

Does _____ electric _____ separate flammables _____ heat generating appliances?

Is _____ recommendation on _____ from devices that generate _____?

_____ it _____ safety _____ keep things away _____ devices that generate _____?

Recommendations on separating flammables _____ appliances are _____ of _____.

Does the safety _____ between _____ and appliances _____ warm _____ up?

Do the _____ for electrical safety _____ generating devices?

_____ electrical safety _____ mention _____ separation from _____ generating _____?

Does _____ rules for electrical _____ isolating _____ from devices _____ heat?

Is the _____ safety guidelines _____ in _____ recommendations _____ flammable _____ from _____ generating _____?

_____ wonder _____ electrical safety _____ includes advice _____ separation _____ heat _____ combustible _____.

_____ there separation recommendations for _____ generating _____ guidelines?

Recommendations _____ isolating flammable _____ devices that _____ heat _____ be _____ the _____ electrical safety.

Do electrical safety _____ suggest _____ heat _____?

Can you _____ me _____ in the guidelines to separate _____ devices _____ generate heat?

Is _____ me to _____ the substances away _____ produce heat?

_____ the electrical safety guidelines _____ from heat-produced devices?

Does the recommendation _____ items _____ to catch _____ appliances _____ cause heat?

Do _____ to separate items _____ can catch _____ from those that _____ produce _____?

_____ Safety Guidance _____ stay away _____ hot appliances?

Do you _____ the _____ items prone _____ fire from _____ emitting heat?

Does the _____ safety guide _____ separation for _____ up?

_____ advice on _____ heat and _____ included in electrical _____?

Is there guidelines _____ distinguishing _____ fire _____ electronics?

Should _____ be taken _____ flammable _____ from _____ devices _____ electrical safety _____?

Is there _____ the _____ separate flammable material _____ heat-produced devices?

_____ it included _____ Safety Recommendations _____ keep the hot devices _____ the _____?

Is _____ electrical safety _____ to _____ heat and _____?

_____ it included _____ safety _____ to keep _____ producing _____ away _____ dangerous substances?

Is _____ safety guidelines for _____ flammable _____?

Is _____ guidelines _____ flammable _____ away _____ heat- _____ appliances _____ electrical _____ rules?

Can _____ confirm if the guidelines _____ separate _____ from _____ devices?

Do you _____ separation of heat-generating _____ electrical safety _____?

_____ electrical _____ guidance include _____ on separating _____ and _____?

Is it _____ separate _____ devices _____ in electrical _____ guidelines?

_____ to keep flammable items separated from _____ that _____ heat according to _____?

_____ any advice on _____ and _____ substances _____ in electrical safety _____?

The _____ state _____ potentially flammable _____ should _____ isolated from _____ sources.

Do _____ guidelines include _____ material _____ from _____?

Guidelines _____ electrical _____ of flammables?

Is heat-generating _____ from materials that _____ hazardous _____ safety _____?

Do you _____ if _____ are separation recommendations for _____ appliances _____?

_____ any recommendation _____ the electrical safety _____ flammable _____ away _____ appliances?

_____ electrical _____ suggest that potentially flammable substances should _____ isolated from _____.

_____ electrical _____ guidelines _____ separation _____ appliances from fire-causing _____?

_____ the electrical _____ recommend keeping _____ materials separate _____ appliances?

_____ wonder _____ it's included in _____ Electric _____ to _____ devices apart _____ substances.

_____ to _____ flammable material separate from sources of _____ in the _____?

Do the _____ for electrical _____ recommend _____ potentially dangerous materials _____?

_____ know if _____ are _____ in _____ safety _____ to _____ flammables _____ from appliances?

Recommendations _____ Safety Guidelines _____ keep _____ appliances, are there?

_____ the Electric _____ keep the _____ away _____ the heat?

Is _____ included _____ the electrical _____ guidelines to _____ catching _____?

Is _____ material _____ from electrical devices _____ heat?

_____ any guidelines _____ materials prone to _____ near heat emitting _____?

Is _____ objects _____ using electronics that _____ up _____ electrical safety guidelines?

Do _____ rules have _____ to _____ flammable substances _____ heat generating _____?

_____ to _____ appliances _____ produce heat are _____ in the safety _____.

_____ fireproof _____ measures _____ the electrical safety _____ apply _____ heat _____ appliances?

_____ there a recommendation _____ separate items _____ are _____ from _____ that _____ heat?

Per electrical safety _____ flammable _____ heat _____ devices?

Is _____ in the _____ things out of _____ of heat-generating devices?

_____ a flammable _____ separation instructions in _____ safety _____?

The guidelines _____ keep flammable substances away from _____ appliances _____ in _____.

Does _____ regulations include _____ to _____ flammables _____ heat-Generating _____?

Is _____ electrical safety _____ account when considering the separation _____ heat-generating _____?

_____ a separation between heat _____ devices and _____ the _____ safety _____?

_____ are recommendations _____ electrical _____ guidelines for separation _____ material from _____ producing _____.

_____ the _____ guidelines recommend _____ flammable materials separated _____?

Do _____ the Electrical Safety _____ concern _____ separation of _____ produce _____?

Flammables separated in _____ with _____?

What _____ the _____ safety _____ say about _____ separation _____?

_____ guidelines to keep _____ substances away _____ included in electrical _____.

You can _____ me know if the _____ address keeping _____ away _____

Do _____ safety guidelines recommend _____ of _____ heat- _____?

Does _____ of _____ between heat-Generating equipment _____ happen within _____ electrical safety _____?

_____ to _____ safety guidelines, _____ materials separated _____ heat- generating _____?

_____ you _____ instructions about keeping flammable _____ from heat _____?

Do electrical _____ suggest removing dangerous _____ heat- _____?

Are _____ for _____ materials _____ are _____ to _____ near _____ electronics?

_____ keeping _____ separate _____ recommended by _____ electrical safety guidelines?

Is _____ able _____ separate _____ from devices _____ produce heat?

Do electrical safety _____ separation between _____ heat?

_____ there _____ recommendation in _____ electrical safety guidelines for _____ from _____ producing _____?

Is _____ provision in the guidelines _____ separate _____ devices _____ items _____ catch _____?

Is there _____ the Electrical Safety Guidelines _____ flammables out _____?

_____ devices _____ from flammable materials in the _____?

_____ inflammable _____ emphasized when using electronics _____ up based _____ electrical safety _____?

_____ safety guidelines recommend _____ separation of hazardous _____ devices?

Does _____ Safety Guidance tell _____ stay _____ from the _____ the _____?

Guidelines _____ flammable _____ away from heat-producing appliances _____ included _____ safety _____.

Can _____ tell _____ the electrical _____ guidelines _____ me to _____ heat-generating _____ from _____?

I wonder if it's _____ the _____ guidelines _____ away from _____ devices.

Is _____ for separating fire-prone _____ electrical _____?

Recommendations _____ electrical safety guidelines _____ separation _____ material from heat _____

Is _____ separation of flammable _____ in the _____ safety _____?

_____ for keeping flammable substances away _____ heat- _____?

_____ the _____ guidelines taken into _____ when _____ comes _____ heat generating _____ flammable materials?

Should _____ for electrical _____ mention the _____?

_____ generating _____ materials that are dangerous _____ electrical _____ guidelines?

_____ are _____ the electrical safety _____ regarding _____ flammables _____ devices that _____ heat

Recommendations _____ isolating flammable _____ devices _____ heat are included _____ electrical _____.

Are _____ guidelines for _____ contact of _____ with _____ Electric Safety Codes?
_____ recommendations _____ in the _____ for the _____ of _____ that _____ heat?

According to the _____ should be _____ from _____ of heat.
_____ a separation _____ devices from dangerous materials _____ electrical _____?
_____ material kept _____ from the _____ devices?
_____ part of _____ is it _____ keep _____ substances separate from appliances _____ produce _____ energy?
_____ the Electric _____ Guidelines include _____ flammable materials separate _____ heat?
_____ to _____ whether the guidelines address _____ flammable _____ away _____ produce heat
_____ electrical safety _____ specify fireproof separation _____ hot _____?
_____ the separation _____ items addressed in the _____?

Do _____ safety guidelines _____ of _____ appliances from _____ materials?
Do _____ to _____ items _____ are _____ catch fire _____ appliances that are _____ heat?
_____ provision in _____ Safety _____ for keeping flammable materials _____ from _____?
_____ recommendations between _____ generating _____ and potentially _____ occur _____ the Electrical Safety
Guidelines?

The Electrical _____ Guidelines state _____ substances _____ be _____ heat.
_____ you know if _____ electrical _____ guidelines advise _____ from _____ devices.

Is there any _____ in _____ the separation _____ flammables _____ generating devices?

Are _____ keeping flammable substances and devices apart _____ the _____?
_____ guidelines suggest _____ flammable materials be separated from _____ heat?
_____ recommended in _____ safety _____ to separate flammable _____ from _____ produce _____?
_____ the guidelines tell _____ to keep flammable _____ appliances?
_____ guidelines _____ electrical safety involve keeping apart _____ that _____?
Is _____ anything in the _____ Guidelines to keep flammable _____?
Do guidelines _____ substances away from _____ appliances?
_____ the electrical safety guidelines _____ separation _____ generating and flammable materials?
_____ prevent contact _____ flammable substances and _____ electronic _____?

Should flammables _____ appliances _____ heat generation?

Recommendations on _____ flammables _____ heat generating appliances _____ the _____ for _____.
_____ standards for _____ flammable _____ and _____ apart _____ electrical _____ guidelines?
_____ heat-generating _____ flammable _____ in electrical safety guidelines?
_____ advice _____ heat sources included in _____ guidelines?
_____ it possible _____ separate flammable _____ appliances _____ emit _____ Electrical Safety Guidelines?
Do the _____ safety _____ from heat- generating appliances?

Is _____ electrical safety guidelines to separate _____ materials _____ appliances _____ heat?

Is _____ distinction between heat-generating _____ flammable materials in _____?

Is _____ separation _____ flammable _____ in _____ electrical safety guidelines?

Is _____ any _____ on _____ to separate flammable materials _____ heat?
_____ it included in the electrical safety guidelines _____ out _____ generating devices?

Is _____ suggestion in _____ electrical _____ about what _____ do _____ that _____ heat?
_____ electrical safety _____ able to separate _____ from _____ devices?

Does the electrical _____ mention _____ separation _____ heat?
_____ if _____ guidelines address _____ flammable substances _____ devices that heat _____?

Do _____ for electrical _____ tell you _____ to separate _____ appliances?

Do guidelines _____ away from _____ appliances exist _____ electrical safety _____?

Is _____ possible that _____ guidance includes _____ separating _____ sources and _____?

Are there _____ in _____ about the separation _____ devices _____ produce heat?
_____ electrical safety _____ for separating _____ sources _____ combustible _____?
_____ generating _____ from dangerous _____ in electrical safety _____.
_____ electrical safety _____ you find _____ recommendations for heat _____?
_____ the Electric Safety _____ saying _____ from appliances that _____ heat?

_____ guidelines _____ the _____ be separated _____ the heat generating appliances?

I _____ it's included _____ the _____ guidelines _____ things away from devices _____ generate _____.

_____ safety guidelines _____ flammable materials separate from _____ appliances?

_____ don't know if it's _____ the Electric _____ Recommendations to _____ hot-produced devices _____.

_____ it possible _____ on _____ materials prone to _____ are _____ in _____ electrical _____?

_____ electrical safety _____ suggest separating dangerous materials _____?

Is _____ guidance _____ the separation of _____ and _____?

Do electrical safety _____ to _____ from heat-burning appliances?

_____ are _____ to keep _____ away from _____ in _____ electrical _____.

_____ for _____ materials from devices that _____ heat _____ included in the _____.

_____ safety _____ are heat-generating devices _____ flammable materials?

Is there a recommendation in _____ for _____ offflammable _____ from heat _____?

_____ of _____ Safety Guidance to _____ combustible substances _____ from appliances?

_____ you _____ me _____ guidelines advise separated flammable _____ from _____ generating devices?

Is _____ measures _____ separate flammables _____?

Is the advice _____ heat _____ included _____ the _____ safety guidance?

Does _____ Safety Guidance _____ away from appliances _____ heat?

The electrical _____ guidelines _____ potentially flammable _____ should _____ isolated _____.

_____ separation requirements between appliances _____ generate _____ materials _____ electrical safety _____.

_____ safety protocol _____ keeping _____ that produce excessive warmth _____ flammable _____?

_____ separation _____ for flammable substance and heat _____ appliances _____ safety _____.

_____ keep flammable substances away _____ producing _____ in the _____ safety rules.

Is _____ advice _____ separation of _____ substances _____ electrical safety _____?

_____ any _____ separate _____ devices from flammable substances in _____ Guidelines?

_____ want to know _____ it is _____ in the electrical safety _____ to _____ away _____ that _____.

_____ there _____ a _____ to separate flammable materials from _____ generate heat?

There are _____ safety _____ keeping flammable _____ away _____ producing _____.

_____ there any _____ the separation of devices that _____ Electrical Safety _____?

Recommendations _____ isolating _____ materials from devices _____ can _____ electrical safety rules.

_____ recommend keeping _____ away from _____?

_____ there _____ in _____ guidelines for _____ of flammables _____ that generate _____?

Do you _____ recommendations _____ separation of _____ appliances _____ guidelines?

_____ flammable substances _____ producing appliances _____ included in electrical safety _____.

_____ recommend keeping _____ materials separate from the appliances _____ generate _____?

Do _____ protocols advise keeping a _____ between _____ that _____ and _____ material?

_____ electrical _____ guidelines may be _____ of _____ from flammable materials.

_____ should _____ electrical safety _____ to _____ substances away from heat-generating _____.

Does the _____ safety _____ tell _____ the substances _____ from the _____?

_____ there a _____ regarding _____ separation _____ devices _____ produce heat _____ the electrical _____?

_____ there any _____ to _____ from _____ of heat in _____ Electric Safety _____?

Do Electrical Safety Guidelines include _____ from _____?

Is the _____ for separation _____ flammable _____ safety _____?

Are _____ producing _____ devices _____ away _____ materials?

I _____ if _____ separation of inflammable items _____ addressed _____ safety _____.

Is electrical safety _____ to separate flammable materials _____.

_____ it's included _____ the Electric _____ to keep hot-produced devices _____ harms _____?

I _____ inflammable items is _____ in electrical safety _____.

_____ heat generating _____ from flammable substances _____ Electrical Safety Guidelines?

Is _____ included in _____ guidelines _____ keep _____ catching fire?

_____ separation for appliances that _____ heat in _____ guide?

Is there any _____ in the _____ Safety _____ of _____ flammable _____ sources _____?

Do you mean to _____ appliances _____ safety guidelines?

_____ for electrical _____ how to _____ and flammables?

_____ there _____ in _____ to _____ flammable materials from devices that _____?

_____ it _____ in _____ electric safety _____ keep hot-produced _____ away from _____?

_____ the _____ recommendations between heat _____ equipment and potentially _____ chemicals _____ electrical _____?

_____ you have instructions _____ keeping flammable _____ generating devices?

_____ rules _____ safety _____ recommend _____ flammable _____ devices that generate heat.

Is it _____ Guidance to keep _____ from appliances?

_____ electrical safety _____ say keep flammable _____ separate from _____?

Is flammable _____ from heat-generating _____ according to _____ safety _____?

Is _____ instructions _____ flammable material _____ safety guidelines?

Is the _____ safety _____ recommendations _____ separation of _____ flammable materials?

_____ any precautions _____ Safety Guidelines _____ the separation of flammables _____ devices?

_____ the _____ you how to _____ items that _____ catch _____ those _____ heat?

Is _____ separated _____ flammable material _____ safety guidelines?

_____ you _____ that flammables should _____ away from _____ cause heat _____?

Does _____ you to _____ away from burning _____?

Recommendations on separating _____ are _____ of guidelines _____ safety.

_____ recommendations for heat _____ appliances _____ the Electrical _____ Guidelines?

Is there measures _____ from _____ appliances?

Do _____ guidelines _____ safety _____ of materials _____ generate _____ temperatures?

Do electrical _____ guidelines _____ heat generating appliances?

Is _____ specifications _____ flammable _____ and _____ in the electrical safety _____?

Recommendations _____ the _____ guidelines to keep _____ away _____.

Are there any _____ that _____ heat in the electrical safety _____?

Is _____ safety guidelines taken _____ account when _____ recommendations for separation _____ flammable _____?

The _____ guidelines _____ flammable substances _____ isolated _____ sources of heat.

_____ recommendation _____ to separate appliances _____ to _____ from those _____ heat?

According to _____ safety _____ kept apart from devices _____ produce _____?

Is _____ rules for electrical safety _____ to _____ that generate _____?

There are guidelines _____ flammable substances _____ appliances in _____ protocols.

_____ on isolating flammable materials from devices _____ heat _____ the _____ rules.

Do you know _____ recommendations _____ heat-generating appliances _____ the _____ safety _____?

_____ it advised in _____ protocol _____ between flammable material _____ that heat _____?

_____ electrical safety guidance designed _____ separate _____ from _____ that _____?

The _____ safety guidelines _____ that potentially flammable _____ be isolated from _____.

Does the _____ heat-Generating _____ and potentially dangerous chemicals happen _____ the _____?

Do you _____ if the _____ safety _____ that flammable _____ separated _____ heat-generating _____?

Is _____ how _____ heat sources and combustible substances in _____ guidance?

_____ devices _____ from flammable materials _____ the _____ guidelines?

Do _____ safety guidelines recommend _____ appliances that _____ materials?

Does the _____ safety guide _____ fireproof _____ for _____ heat?

Is _____ to separate _____ materials _____ appliances _____ heat _____ electrical _____ guidelines?

_____ on separation _____ materials prone _____ fire _____ in electrical _____?

According to electrical _____ are _____ materials separated _____ generating _____?

Are _____ items _____ separate _____ devices _____ produce heat according _____ guidelines?

_____ know _____ it's included in the _____ to keep hot- producing devices _____ dangerous _____?

_____ you have instructions on _____ substances away _____ devices?

The _____ safety guidelines suggest _____ materials _____ from appliances _____

_____ specifications for keeping flammable _____ the electrical _____ guidelines?

Is _____ separation of _____ items _____ the _____ Guidelines?

Is separation _____ objects _____ using _____ electronics _____ heating up?

Recommendations on isolating _____ from devices that _____ heat _____ in _____.

Should _____ away _____ appliances that could _____ heat _____?

Do _____ guidelines _____ separation _____ flammable _____ from heat generating _____?

_____ possible to keep flammables away _____ appliances in _____.

There are _____ in the electrical _____ rules to _____ flammable _____ heat _____.

_____ it true _____ the _____ electrical safety _____ isolating _____ from devices that _____?

_____ suggestions _____ separation _____ and appliances that emit heat in _____ Electrical _____.

_____ it safe to separate _____ devices _____ electrical safety guidelines?

guidelines _____ keep _____ heat _____ appliances are _____ in _____ safety rules?

_____ that _____ catch fire away _____ heat mentioned in the electrical _____ guidelines?

_____ advice _____ of heat and smoke _____ electrical _____ guidance?

_____ there _____ separation _____ substances _____ heat sources in electrical safety _____?

Is there _____ between _____ devices and materials in the _____?

_____ the _____ safety guidelines _____ you to _____ materials from _____ devices?

Is _____ flammable _____ separate from sources _____ in the electric _____ guidelines?

Is there a distinction _____ heat-generating _____ and _____ the _____ safety _____?

Does the electrical safety _____ fireproof separation _____ heat _____?

Is _____ electrical safety _____ for _____ flammable _____ and _____ apart?

Does electrical _____ guidance tell _____ heat sources _____?
