|-----------------------------|--|
| Company Type | Natural Gas Companies |
| Inquiry Category | Natural disaster response support |
| Inquiry Sub-Category | Safety information |
| Description | Customers requesting general safety information regarding natural gas usage during and after a natural disaster, including tips on detecting gas leaks and safe practices when using natural gas appliances. |
| Data Size | 5,027 paraphrases |
| Want to buy data? | Please contact nlp-data@gross.me via your business email address. |

Masked sample paraphrases of one "Natural Gas Company" customer inquiry. (Purchased data will not be masked.)

What ____ measures do ____ to follow ____ furnace connected ____ mainline post-storm?
 ____ the mainline-integrated ____ be ____ storminess?

What precautions should ____ my furnace ____ a storm?
 ____ be taken for operating a furnace ____ the ____?

How ____ my ____ after a nasty storm?

When ____ a ____ furnace what ____?

When ____ a furnace after ____ what precautions ____?

____ need to be ____ Connected furnace during a storm?

____ measures should be ____ furnace ____ after storms?

What precautions ____ be ____ when ____ a ____?

____ provisions ____ I take ____ my connected heater ____ storms?

Is ____ for me ____ follow any ____ measures for ____ be connected ____ mainline?

Do you ____ storm ____ precautions for operating ____ connected ____ mainline?

Do ____ to ____ certain ____ measures for ____ to work ____ it ____ connected to a ____?

____ I need ____ take precautions ____ storm ____ the furnace ____ connected ____ mainline?

What precautions ____ to be ____ when ____ furnace ____ storm?

Do I need ____ precautions ____ safety since the ____ to the ____?

____ need to ____ use ____ furnace ____ following a storm.

Key safety ____ when ____ mainline-integrated ____ a ____

____ have ____ safety ____ after ____ storm because ____ is connected to ____ mainline?

What's the ____ my ____ the mainline ____ storm?

____ need to follow safety precautions for ____ work ____ to ____ mainline?

Do I have ____ follow any ____ because ____ furnace is ____ mainline?

____ are the safety ____ operating ____ connected furnace ____ a ____?

In ____ storm, what are ____ used ____ the mainline ____?

Do ____ have ____ post-storm safety precautions ____ furnace ____ to the ____?

The ____ is connected ____ a ____ need ____ sure ____ is ____ to run it again?

____ using ____ mainline connected ____ after a storm, can ____ about ____ procedures?

_____ tips _____ furnace on mainline post _____.

Can _____ how to _____ storm-affected mains- _____ heater safely?

_____ to _____ a mainline-linked furnace _____?

What precautions _____ I _____ is hooked _____ the main _____ the storm?

_____ it _____ me to _____ safety precautions _____ that the _____ connected to a mainline?

When _____ mainline _____ storms?

_____ I _____ to _____ any _____ for _____ since _____ is connected to _____ mainline?

What _____ of precautions _____ I _____ my blasted _____ is connected _____ pipes?

How to safely run _____ mainline _____?

_____ are the _____ precautions _____ running a _____ furnace?

Do _____ follow certain safety _____ after _____ storm that _____ furnace _____ to?

_____ necessary _____ with _____ after a storm.

_____ have any _____ to _____ a storm-affected _____ connected heater safely?

What precautions _____ be _____ when _____ a _____ Furnace _____ a _____?

The _____ to _____ so _____ to follow _____ precautions while working on it?

_____ would _____ the precautions _____ a _____ connected to the _____ after the _____.

_____ precautions should you _____ when _____ your _____ a _____?

_____ precautions _____ operating _____ storm-linked furnace?

What precautions must be _____ while _____ Connected _____?

Do _____ need to _____ for the furnace _____ work _____ mainline?

_____ operating _____ furnace, what _____ precautions?

_____ there a post-storm _____ plan for operating _____ mainline?

What _____ taken _____ furnace _____ to the mainline after _____ storm?

_____ need to follow _____ precautions for the furnace to _____ after _____ to the _____?

The _____ connected to a mainline _____ I have to _____ certain _____ after _____?

Do I _____ to take _____ is connected _____ the _____ pipes?

_____ tell _____ about the _____ when using _____ mainline-connected _____ after a storm?

_____ to be _____ when running a _____ connected furnace after _____?

Is _____ to operate _____ furnace _____ the mainline _____ storm?

_____ the precautions that have _____ be _____ when _____ Main- _____ furnace?

Do _____ for operating a storm-tied _____?

Safety _____ on _____ post storms?

_____ know _____ essential _____ procedures to observe when _____ a mainline connected _____ after _____ severe _____.

Do you have _____ running _____ after _____ storm?

What do _____ to do _____ mainline _____ running after _____ storm _____?

Can you _____ the post-storm _____ operating _____ furnace connected _____ the _____?

_____ are _____ precautions _____ connected-furnace usage _____ a _____?

Do _____ to make certain _____ the _____ to function correctly after it _____ connected _____?

_____ you _____ me if it's safe to _____ a _____?

_____ keep the _____ on the mainline?

What _____ if _____ furnace is linked _____ pipe after a _____?

Do _____ need _____ follow _____ measures _____ the furnace to run after _____ mainline _____?

_____ it _____ to _____ certain safety measures for _____ furnace to _____ it's _____ to a _____?

_____ for running _____ mainline furnace _____ a _____.

_____ I need to follow certain _____ the _____ work while it _____ a mainline?

_____ precautions _____ you take _____ furnace after _____ storm?

What precautions _____ I _____ operate my _____ on the _____?

Have tips _____ safely running a _____ after _____.

Should I _____ safety precautions _____ in a mainline?

Is there _____ need _____ take _____ my connected post-storm Heater?

_____ need _____ how _____ safely run the _____ the mainline.

Is _____ any _____ post-storm safety precautions for _____ furnace _____ mainline?
_____ storm- connected _____ operation?

_____ are the _____ for _____ a _____ after a _____?

_____ furnace is _____ the _____ pipe, what precautions should _____?

After a _____ what _____ I do with _____ the _____?

Safety tips _____ The furnace _____.

_____ to follow any precautions for safety because _____ is _____ a _____?

Do _____ need _____ certain safety _____ for the _____ to run _____ it's _____ to _____?

_____ I _____ with the furnace connected to _____?

_____ necessary _____ a mainline furnace _____ a storm.

What precautions _____ I _____ I _____ after a storm?

Is there any post-storm safety _____ for _____ furnace _____?

_____ have to follow _____ measures _____ the _____ to _____ it is connected to a _____.

_____ how to operate _____ storm-Affected mains- _____ heater safely?

Do I _____ to _____ some _____ the _____ to function _____ it _____ connected to a _____?

_____ I have _____ after _____ storm _____ furnace is connected to the _____?

_____ is connected to a _____ I need _____ follow _____ measures to _____ it safe?

Is _____ to follow safety _____ for the _____ run _____ connected _____ the mainline?

What precautions _____ to be taken when _____ mainline?

Can _____ the safety rules for hooked _____ my _____?

_____ blasted _____ up to the _____ pipes, _____ should _____ do to protect _____?

I would like to know _____ I _____ to _____ certain _____ for _____ furnace _____ in _____.

Do _____ need to follow _____ precautions when my _____ is _____?

What _____ should _____ running your furnace after _____?

The furnace is connected to _____ to take safety _____?

Do _____ have _____ any _____ precautions after the _____ the furnace is _____?

The _____ connected to _____ and so do I need _____ follow safety _____ on _____?

_____ I need _____ take _____ precautions _____ the _____ again after _____ connected to a mainline?

_____ it necessary _____ certain safety _____ for the furnace to _____ it _____ connected to _____?

_____ know if I _____ to follow _____ measures _____ the _____ to run _____ is connected _____ mainline.

_____ about _____ the mainline after a storm?

Is it _____ for _____ certain safety _____ when _____ on _____ mainline?

_____ safety _____ using mainline-integrated heater during _____?

_____ be _____ precautions _____ connected-furnace _____ after a storm?

_____ need _____ follow _____ precautions _____ the furnace to _____ mainline?

_____ is connected _____ a _____ so _____ I need to take _____ for _____ to _____?

_____ a storm, _____ be precautions _____ operating a _____?

Proper precautions should _____ when _____ a _____ storm _____.

Do _____ to follow _____ the _____ properly after it's connected to a _____?

Do I need _____ safety _____ the _____ to _____ it is connected _____ a _____?

_____ provide _____ how _____ my furnace _____ after a storm?

_____ operate _____ after a storm?

_____ I safely _____ on _____ mainline?

Do _____ to _____ safety measures to function in _____ that _____ to _____?

_____ stay safe running _____ furnace on the _____?

Can _____ tell _____ about _____ essential _____ procedures _____ using a _____ furnace?

Key safety _____ when using _____ heaters _____?

What _____ for connected-furnace usage _____ storm?

_____ for safety when using mainline- _____?

Can you tell _____ about _____ safety procedures when using _____?

Do _____ to follow safety measures for the furnace _____ when _____?

_____ are the safety precautions I _____ take _____ run _____ furnace _____ storm?

_____ mainline furnace _____ need _____ be operated _____ storm.

_____ I _____ follow certain safety _____ the _____ work _____ it is connected to a _____?

_____ to use _____ furnace _____ storm?

Should I _____ my connected _____ a storm?

_____ safety _____ for running _____ furnace after a storm?

_____ need to follow _____ safety _____ the furnace _____ run _____ it's _____ a mainline?

_____ are _____ necessary _____ precautions for running my _____ after _____?

Is it safe to _____ linked-furnace _____ the _____?

_____ run the mainline furnace after the _____.

_____ safety _____ mainline-integrated heating after _____ storm?

Is it necessary for _____ follow safety _____ if _____ connected _____ a _____?

Do _____ to _____ any safety _____ my mainline heater _____ the _____?

How should mainline-integrated _____ after _____?

I don't _____ if I _____ follow some _____ measures for _____ function _____ the _____.

_____ using the _____ after _____ storm _____?

_____ there _____ I can do _____ furnace linked _____ the _____ pipe _____ storm?

Do _____ need _____ measures _____ operate the furnace in a _____?

_____ I need to _____ safety precautions _____ the _____ to _____ connected to _____ mainline?

Is _____ to _____ safety precautions for _____ function in the mainline?

Do I _____ to take precautions _____ hooked up _____ the _____?

Do I need _____ precautions _____ furnace to operate in _____?

When _____ blasted furnace is _____ up to _____ main pipes _____ precautions _____?

_____ it _____ to operate _____ mains-connected _____?

I want _____ know _____ follow certain safety measures _____ after _____ connected to a mainline.

What are the _____ precautions _____ connected _____ after a _____?

_____ I need to take _____ for _____ run again _____ connected _____ a mainline?

Is there any safety _____ I _____ running my connected _____?

_____ running _____ furnace _____ a storm, _____ the necessary safety _____?

What _____ I do _____ the _____ my furnace _____ up to _____ pipes?

_____ I _____ to _____ safety procedures _____ the furnace _____ function correctly after it is _____?

Do I _____ to follow _____ precautions for _____ to _____ after _____ mainline?

_____ is _____ to _____ mainline, do I _____ to _____ safety _____ it to _____?

_____ for operating _____ furnace _____ storms?

Is there any _____ for _____ mainlines _____ storm?

Key safety _____ mainline-integrated heaters _____ a _____?

_____ to _____ furnaces safely after _____?

Do _____ to _____ certain precautions with the _____ mainline?

Do I need _____ with the _____ to _____ mainline?

There is a _____ for tips for _____ a _____ a _____.

When my furnace is _____ my _____ the _____ what _____ should _____ take?

In _____ storm _____ are the _____ mainline heater?

Do I _____ safety precautions for the _____ be _____ to a _____?

I _____ tips for _____ mainline furnace after _____.

Do _____ need _____ follow safety _____ after _____ storm _____ the furnace _____?

_____ are the _____ protocols _____ after a storm?

_____ is _____ mainline, so do _____ have _____ follow certain _____ measures?

Do _____ to _____ precautions _____ the furnace to run again after _____ to _____ mainline?

_____ are _____ precautions required _____ operate my furnace _____ ?
 _____ are _____ storm _____ for operating _____ furnace connected to the _____ ?
 Is _____ any post-storm precautions for operating _____ connected _____ ?
 _____ don't know _____ I need to _____ certain safety _____ for _____ furnace to function correctly _____ .
 Can _____ the essential _____ procedures when using _____ mainline connected furnace _____ ?
 When running a post-storm _____ ?
 What _____ taken when running a Main-Connected _____ in _____ aftermath _____ ?
 _____ have _____ safety measures for _____ furnace _____ run _____ after it is connected _____ mainline?
 What _____ to operate the connected _____ a storm?
 _____ you _____ me _____ safely using my furnace after _____ ?
 Is it necessary _____ me to _____ certain _____ precautions _____ a mainline?
 When _____ furnace _____ hooked _____ main _____ storm, _____ precautions should I take?
 _____ tell _____ what to look _____ for _____ using _____ furnace?
 _____ it necessary to follow _____ measures _____ the furnace to run _____ it's _____ ?
 I _____ to _____ how _____ run _____ furnace _____ the mainline.
 _____ precautions _____ to take to keep my mainline _____ ?
 _____ you _____ safety protocols for _____ after a _____ ?
 _____ to follow _____ with the furnace connected _____ the _____ ?
 _____ to take _____ the _____ is connected to a mainline?
 _____ to _____ the _____ rules for _____ and main pipe.
 What _____ taken when operating _____ furnace _____ the _____ ?
 _____ the _____ for operating my furnace _____ the storm?
 _____ to be safe when _____ furnaces _____ ?
 Is it necessary _____ me _____ precautions when the _____ is _____ a _____ ?
 Can _____ what the safety _____ are, _____ furnace _____ hooked up _____ a _____ ?
 _____ I need to follow safety measures _____ to function _____ a _____ .
 What _____ to _____ connected-furnace after a _____ ?
 Do I _____ to follow safety precautions _____ run after _____ to _____ ?
 _____ precautions have _____ taken _____ running a _____ furnace?
 _____ protocols _____ linked-furnace after _____ storm?
 _____ the _____ for my furnace _____ mainline after _____ nasty _____ ?
 What _____ taken when running a _____ furnace?
 _____ have to _____ some safety _____ keep my mainline _____ running.
 _____ I need to _____ measures for _____ to function _____ the _____ ?
 _____ have to follow safety _____ the _____ to _____ it's connected to _____ ?

 _____ precautions _____ take after my _____ is connected _____ main _____ ?
 _____ me _____ essential _____ to observe _____ using a mainline-connected furnace?
 What precautionary measures should _____ when _____ blasted _____ to _____ main _____ ?
 Can _____ tell me _____ the _____ procedures are _____ connected furnace?
 _____ are the precautions _____ taken _____ main- connected furnace?
 _____ is connected _____ so do I need to take _____ storm?
 _____ precautions for operating a _____ connected _____ mainline _____ storm?
 Do _____ safety _____ after _____ storm with _____ connected to a mainline?
 Do I need to _____ measures _____ the _____ again _____ it's connected to _____ mainline?
 _____ safety _____ for using _____ heaters _____ event _____ a storm?
 _____ furnace _____ to _____ so do I need _____ take precautions to _____ it runs _____ ?
 _____ need _____ safety measures for _____ furnace _____ run successfully after _____ mainline is _____ ?
 _____ a _____ connected furnace, what precautions _____ taken?
 Can you tell _____ about _____ safety rules? My furnace _____ .

_____ connected _____ a mainline so _____ need to _____ certain _____ measures to run _____?
 Can _____ me about _____ safety _____ when using _____ furnace?
 _____ is connected to a _____ do _____ to _____ certain _____ to make _____ run smoothly?
 _____ I _____ after _____ storm with my _____ heater?
 Should _____ safety _____ after the storm _____ the _____ is _____ to?
 Can _____ about the _____ precautions for _____ a furnace connected to _____ mainline _____?
 _____ I need _____ follow _____ precautions for _____ furnace _____ work in _____?
 Can _____ about _____ safety _____ furnace _____ up after a storm.
 _____ it _____ give guidance on operating _____ mains- _____ heater _____?
 There _____ safety _____ a _____ mainline connected furnace.
 _____ safe operate _____ furnace _____ a _____?
 Is there _____ precautions _____ when using my _____ after a _____?
 Do I need _____ to function correctly _____ it's connected to _____ mainline?
 _____ should I take _____ when _____ my _____ heater _____ storms?
 _____ you able to give _____ on _____ mains- connected _____?
 Can _____ me _____ to operate a furnace _____?
 _____ I have to _____ the furnace _____ be _____ a mainline?
 After a _____ what's _____ procedure _____ on the mainline?
 When _____ furnace is _____ the main _____ what _____ should I _____?
 _____ precautions _____ a storm-connection furnace?
 _____ give me _____ for safely running _____ mainline _____ storm.
 _____ need _____ be taken _____ running _____ Main-connected furnace?
 When my blasted _____ is hooked _____ pipes _____ storm what _____ should I _____?
 _____ connected _____ a mainline so _____ I need _____ take _____ precautions _____ safety?
 Is it _____ follow safety measures for the _____ mainline?
 _____ precautions _____ we take _____ using the furnace _____?
 _____ is connected to a _____ do _____ to follow _____ to function?
 _____ I _____ follow _____ safety measures _____ furnace _____ work correctly after _____ connected to a _____?
 _____ to _____ after the storm that _____ is connected to?
 _____ my furnace be operated _____ storm?
 Is there any _____ safety _____ a _____ connected to _____?
 What are the _____ be taken _____ running _____ Main _____?
 _____ to follow safety _____ function in the _____ that _____ connected _____ mainline?
 How to operate a mainline-connected _____ the _____?
 I _____ know if I need to _____ some _____ run after it's _____ to a _____.
 _____ I need _____ use _____ measures _____ furnace to _____ after _____ is connected to _____ mainline?
 _____ precautions should be _____ when _____ Furnace?
 What are _____ operating _____ furnace on _____ mainline?
 _____ do _____ need _____ take when _____ my furnace on _____?
 _____ operating a storm _____?
 What _____ necessary _____ for my _____ to _____ the storm?
 _____ precautions should be taken when using _____?
 Do I _____ take _____ if _____ furnace _____ connected _____ the _____?
 Do _____ need to follow _____ safety precautions for _____ furnace _____ after _____?
 When _____ the storm, _____ safety precautions should I _____?
 _____ to take precautions _____ safety _____ furnace is connected _____ mainline?
 Safety _____ the _____ on mainline _____ storms?
 _____ there any safety _____ for _____ mainline connected _____?
 Do I need _____ certain _____ on _____ because it _____ to a mainline?
 _____ how _____ safely run _____ mainline furnace after a _____.

The ____ is ____ a ____ so ____ I ____ follow ____ safety measures ____ it to run ____?

The ____ to ____ mainline so does ____ follow ____ safety measures to ____?

There are safety routines for ____ mainline-integrated ____.

____ please, ____ furnace after the ____?

____ furnace ____ to ____ mainline, so ____ I need ____ follow certain safety ____ run successfully?

Do I ____ certain ____ to ____ the furnace running after ____ the ____?

Do I ____ to ____ certain ____ measures ____ the furnace to function ____ it is ____?

I ____ connected to the mainline after ____.

What precautions should ____ take ____ my furnace connected ____ storm?

____ it possible ____ give ____ on operating ____ heaters safely?

____ safety precautions must I take ____ mainline ____?

____ I ____ follow certain safety precautions ____ furnace ____ in ____ mainline?

____ storm, ____ to ____ a mainline-connected ____?

____ you ____ me ____ about the ____ when using a mainline ____ furnace?

Do ____ need to take certain ____ the ____ my ____ is ____?

The ____ is ____ to the ____ so do I have ____ any ____?

____ precautions for ____ furnace ____?

Should we ____ a connected ____ the ____?

Do I ____ take ____ after ____ furnace is connected ____ a mainline?

Is there ____ protocols ____ on ____ after ____ storm?

____ you ____ me guidelines on ____ my furnace safely ____ storm?

____ the ____ of a ____ furnace after a ____?

____ want ____ safety protocols for running my ____ a ____.

What are the ____ must ____ running a ____ furnace?

____ are the ____ precautions for operating ____ furnace ____ the ____ after ____?

The ____ when using mainline-integrated ____ after ____?

____ furnace ____ to ____ mainline so ____ I need ____ certain ____ to keep it ____?

____ tips for using ____ storms?

There are precautions ____ be taken ____ a ____.

Do I ____ precautions when ____ is connected to ____?

After ____ storm, ____ I take for ____ furnace?

The ____ to a mainline ____ do I need ____ follow ____ precautions for ____ work?

Do ____ need ____ follow certain safety precautions after ____ the ____ is ____ mainline?

____ need to ____ to ____ mainline ____ running ____ the storm hits?

What ____ I take ____ I operate ____ to the ____?

Is ____ any safety ____ for ____ to the mainline after ____?

Do ____ need to follow some ____ measures ____ the furnace to ____ to the ____?

____ are required for ____ use ____ a ____?

Can ____ tell ____ how ____ operate a storm-affected ____?

____ are safety ____ for ____ mainline-connected furnace.

The ____ is connected to ____ so do ____ need ____ safety ____ work ____ it?

Guidelines for safely running ____ furnace ____.

____ necessary to follow certain safety ____ for ____ to run ____ is ____?

Do ____ need ____ follow ____ measures for the ____ run again ____ to ____ mainline?

____ precautions ____ be taken when running ____ Main-Connected furnace ____ storm?

____ operate the ____ furnace ____ storminess?

Do I ____ follow safety measures for ____ furnace ____ run ____ connected to ____?

____ are ____ precautions ____ take ____ operating my ____ on the mainline after ____?

____ you can tell ____ about ____ a ____ mains- ____ heater?

____ tips, ____ furnace on ____ post-storms.

_____ if _____ need to _____ for the furnace to _____ correctly after _____ is connected _____ a mainline.

What are _____ to _____ furnace _____ a storm?

_____ a _____ what's _____ drill _____ runnin' my furnace on _____?

_____ it possible to give _____ on _____ operate a _____ heater _____?

_____ it _____ safety _____ the _____ to run again _____ it is connected to _____ mainline?

storm aftermath, _____ mainline _____?

_____ me how _____ operate my furnace safely after _____?

_____ I _____ furnace is connected to the _____ after _____ storm?

_____ furnace _____ connected _____ a mainline _____ have to _____ precautions _____ safety?

I _____ if _____ to follow certain _____ for the _____ function in _____ mainline.

Do _____ to _____ any measures for safety _____ the furnace _____ connected _____?

Is _____ any _____ precautions _____ using _____ furnace _____ a storm?

_____ furnace _____ to a mainline and so _____ I need _____ safety precautions _____ it _____?

Should I follow _____ the furnace connected _____ a _____?

_____ necessary for me to follow certain safety _____ for _____ to _____ after it _____ a _____?

_____ operating a storm-linked _____?

Do _____ to follow _____ safety _____ the _____ run after _____ connected to the _____?

_____ you have _____ post-storm safety precautions for _____ in _____?

_____ if _____ to follow _____ safety measures for _____ furnace _____ run _____ it's connected to a _____.

_____ tell _____ how _____ a storm-affected mains-connected Heaters _____?

When _____ furnace _____ linked to the main _____ a _____ are _____ safety protocols?

How do _____ safety _____ my _____ the mainline _____ the storm?

_____ tips for _____ using mainline connected furnaces _____.

Can _____ provide _____ essential safety _____ a mainline connected furnace?

There are safety _____ furnace after storms.

_____ furnace was hooked up to _____ main _____ after _____ storm, can _____ me _____ rules?

What _____ be taken _____ run _____ Main-Connected furnace?

_____ don't _____ need to follow certain safety measures for _____ to run _____ connected _____ mainline.

Should precautions _____ a Main-Connected _____?

_____ to follow _____ after _____ storm if the furnace is _____ to _____?

_____ precautions with the _____ after the storm.

_____ have to follow _____ precautions for _____ to _____ correctly _____ it's _____ to a _____?

_____ need to follow certain safety _____ to _____ the furnace _____ correctly _____ it's _____ mainline?

_____ it _____ to take _____ while running _____ furnace?

The furnace is connected to _____ do _____ follow safety precautions _____ to _____?

_____ I need to _____ when _____ furnace is _____ a mainline?

I _____ to _____ my furnace is _____ up to _____ main pipes.

_____ I need to take _____ the _____ function _____ mainline?
