

[Demo] NLP Dataset for Customer Service Automation

Company Type	Electricity Suppliers
Inquiry Category	Conversion from gas to electric request
Inquiry Sub-Category	Appliance compatibility and replacement options
Description	Customers wanting to know the compatibility of different appliances with electric systems, or seeking recommendations for suitable electric appliances to replace their existing gas appliances. They may inquire about the performance, energy efficiency, and cost of electric alternatives.
Data Size	5,694 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Electricity Supplier" customer inquiry. (Purchased data will not be masked.)

What ____ performance and cost differences ____ clothes dryers?
____ give ____ overview ____ and ____ differences between gas and electric ____?
Is there ____ efficiency ____ expense between ____ electric dryers?
Gas ____ electric ____ have different ____ and ____ levels.
The cost-performance ____ and ____ clothes ____.
I need to ____ costs and ____ of ____ clothes ____.
Are there ____ in performance ____ between ____ and ____?
____ an overview ____ cost ____ gas and electric dryers?
Which ____ the ____ the expense disparity between driers with ____ power ____ used to ____?
How do gas ____ differently?
Please ____ about ____ differences of cost and ____ electric dryers.
Are there ____ in ____ and cost ____ and ____?
There ____ and electric ____ performance.
How ____ gas and electric ____ differ ____ terms ____ and ____?
____ to electricity, ____ gas-powered dryers ____?
____ performance ____ the gas versus ____ clothes ____ machines?
Can you ____ me ____ price ____ difference between gas ____ dryers?
Looking for ____ and efficacy ____ electric ____ drying.
How do ____ and ____ dryers ____?
In ____ cost ____ does ____ gas clothes dryer ____ an electric one?
____ need to ____ costs and ____ of gas and ____.
What ____ the differences ____ and ____ between gas ____ electric ____?
____ performance ____ between gas ____ electric dryers were ____.
Gas vs ____ dryers ____ performance ____ benefits.
____ distinguishes ____ electric ____ dryers in terms ____ finances?
____ dryers ____ a difference in performance and ____.
Why do ____ clothes ____ have ____ performance and ____?
In terms ____ gas-powered dryers be compared to ____?

_____ are _____ expense _____ between gas-powered and electrical clothes _____
 gas and electric clothes _____ and _____.
 There _____ difference in _____ efficiency between _____ and electric _____.
 What can _____ us _____ gas _____ electric _____?
 The _____ distinction _____ gas-powered _____ electric _____.
 What _____ the _____ in _____ when using electric _____ clothes dryers?
 _____ gas _____ electric _____ or cheaper?
 _____ electric _____ are financially different.
 _____ you _____ overview of _____ performance _____ cost differences between _____ and _____ ?
 _____ gas or electric clothes _____ ?
 _____ differences _____ expenses and features _____ gas and electric _____ machines?
 _____ clothes dryers _____ in different _____.
 _____ need _____ compare _____ and cost of gas _____ electric _____
 How does _____ dryer _____ up _____ an electric _____?
 How _____ gas-powered and electric _____ compared _____ one _____?
 _____ do _____ dryers _____ their _____ powered _____ natural gas?
 How _____ gas _____ electric dryers _____ ?
 What _____ the differences in _____ electric clothes dryers?
 _____ are _____ electric _____ in cost?
 _____ there a difference in _____ and performance _____ electric _____ dryer?
 Tell me about _____ of gas and _____.
 _____ a _____ performance and _____ between gas-powered _____ electric _____ dryers?
 _____ for _____ efficiency and expense _____ between _____ electrical _____ appliances.
 Need to _____ costs and _____ electric clothes _____.
 Is it possible _____ and efficiency _____ for gas versus electric _____ ?
 Gas _____ electric one _____ effectiveness and cost.
 Looking _____ information about _____ expense between _____ and _____ drying _____.
 _____ you have _____ on _____ performance _____ differences of gas _____ electric _____ ?
 _____ do you _____ costs of gas _____ electric dryers?
 _____ do gas-powered and _____ have _____ performance _____ costs?
 _____ are differing _____ gas _____ dryer
 _____ know _____ gas or _____ perform better _____ be cheaper?
 Do _____ and _____ dryers have _____ and _____ ?
 _____ difference between _____ for gas and electric dryers?
 Looking _____ and efficacy for _____ versus _____ clothes _____.
 _____ dryers have performance _____ cost differences.
 _____ the _____ and _____ gas- and electric-fired dryers.
 What is the difference in _____ gas _____ electric _____ ?
 Is _____ cost _____ a gas _____ clothes dryer _____ ?
 _____ are _____ differences in cost and efficiency _____ dryers.
 _____ am interested _____ performance _____ of _____ electric clothes dryers.
 How _____ dryers compare _____ one another?
 Can you give _____ about the _____ performance _____ electric dryers?
 What distinguishes _____ dryers from electric ones _____ ?
 _____ you _____ about the cost and _____ of _____ vs _____ ?
 Which factors affect _____ well _____ the expense disparity between _____ with electricity or _____ to _____
 Provide _____ of _____ performance and _____ of _____ and _____ dryers.
 _____ do _____ and _____ clothes _____ have _____ costs _____ performance?
 _____ there _____ in price _____ efficiency between _____ electricity-powered _____ units?
 _____ differ between _____ and _____ dryers.

_____ does the _____ and performance of _____ clothes dryers _____?
 _____ there differences _____ and _____ when _____ and _____ clothes dryers?
 There _____ costs _____ efficacy _____ gas and electric _____.
 Compare _____ and price _____ gas-powered dryers _____.
 _____ distinguishes electric _____ dryers?
 _____ and _____ clothes _____ different _____ and performance.
 Gas-powered vs. electric _____ have _____.
 Do _____ any _____ price and _____ difference _____ gas and electric clothes _____?
 I _____ to _____ for gas _____ electric clothes drying.
 Please _____ the _____ of cost _____ between _____ electric dryers.
 How _____ gas-powered _____ electric _____?
 _____ are _____ efficacy _____ gas versus electric _____ options.
 _____ electric clothes dryers _____ in terms of their _____ costs?
 Do you _____ an _____ for _____ in performance _____ cost _____ and _____ dryers?
 _____ distinguishes _____ and _____ drying appliances?
 _____ is _____ difference _____ expense _____ of gas and electric _____?
 _____ able to _____ of the performance _____ of gas _____ electric dryers?
 How _____ electric _____ gas-powered clothes dryers differ _____?
 When comparing gas _____ are _____ any differences?
 Do you _____ on _____ efficiency differences between gas- and _____ dryers?
 _____ there _____ efficiency difference _____ electric and _____ clothes dryers?
 _____ electric _____ have _____ performance and _____.
 _____ the cost _____ gas _____ different?
 _____ clothes _____ compares _____ electric one in terms _____ and _____
 _____ the cost _____ performance _____ between _____ electric clothes dryers.
 A comparison of _____ cost _____ gas-powered and _____ dryers _____.
 Do _____ powered _____ have better performance _____ electrical _____?
 What _____ different _____ gas-powered _____ clothes _____ financially?
 _____ different _____ gas and electric _____.
 Do _____ know _____ gas _____ electric _____ will _____ better or _____?
 Tell me _____ how _____ and _____ clothes _____.
 Need _____ costs _____ gas vs _____ drying.
 _____ the cost _____ performance different _____ comparing gas _____ dryers?
 Is _____ a difference _____ performance between _____ gas clothes _____?
 Can _____ explain the _____ in _____ and cost for _____?
 Can _____ performance and _____ of _____ and _____ dryers?
 Tell me about _____ performance _____ cost of _____ gas _____.
 _____ do electric _____ compare to _____?
 Gas and electric clothing _____ different _____ and pricing.
 The _____ disparity _____ gas and electric _____.
 _____ are costs _____ efficacy _____ electric _____ drying options.
 Are _____ or electric clothes _____?
 Is there a _____ or _____ between _____ electricity _____ dryer units?
 _____ performance _____ of _____ and electric _____ dryers _____ unknown.
 _____ for _____ efficiency _____ expense differences between _____ clothes dryers.
 Performance and cost of _____ dryers are _____.
 There are differences _____ of _____ vs _____ clothes _____.
 _____ is a _____ in cost and _____ between a _____ dryer _____.
 _____ an overview _____ cost _____ performance of electric _____ gas _____?
 _____ you _____ the performance _____ cost of _____ dryers?

____ you tell me the differences ____ gas ____ one?
 ____ you ____ a description ____ in expenses between ____ and ____ machines?
 Is ____ possible ____ perks ____ prices ____ gas versus electric ____ dryers?
 ____ electrical dryer ____ to natural gas ____?
 ____ a ____ distinction between ____ and electric ____ dryers.
 What ____ the ____ and ____ of gas ____ clothes ____ vary ____?
 How ____ gas ____ dryer compare ____ a ____ one?
 What are the differences ____ performance ____ cost when ____ dryers?
 ____ provide a ____ of performance ____ cost between electric _____.
 ____ electric ____ dryers have different ____.
 Gas-powered and ____ dryers ____ performance distinctions.
 What ____ the differences between performance ____ gas ____ dryers?
 ____ cost and performance ____ electric clothes dryers ____.
 ____ differences ____ performance between gas ____ electric dryers
 What ____ the ____ between gas and ____ dryer ____?
 ____ is the ____ difference between gas- ____ electric ____?
 How ____ gas-powered and ____ dryers ____ in ____ and ____?
 Comparison ____ performance ____ of gas and electric ____
 Is ____ a difference in performance ____ and ____?
 ____ gas perform better than ____ dryers?
 How do ____ Dryers ____?
 How would ____ gas clothes ____ to ____ electric ____?
 How ____ electric ____ compare to ____ another?
 ____ of gas and ____ of ____ dryers ____ compared.
 ____ gas ____ electric dryers ____ differences in ____ performance.
 Is electric ____ different ____ terms ____ and cost?
 ____ are ____ and price ____ vs. electric ____ dryers?
 There ____ in ____ and electric ____.
 Gas and ____ cloth dryers ____ capabilities ____.
 ____ dryers differ ____ electricity in ____ price and efficiency?
 ____ expenses ____ gas versus electricity-run ____ machines ____ different.
 ____ you tell me about ____ of gas vs. ____ clothes ____?
 ____ you able ____ an ____ of the cost and ____ of gas ____?
 There ____ in performance and costs ____ dryers.
 ____ and electric dryers ____ in ____.
 How do ____ compared ____ electricity?
 Gas ____ electric dryers ____ cost difference.
 Which ____ the ____ and expense ____ between driers ____ use electricity ____ power ____?
 ____ vs ____ have a cost ____ disparity.
 Tell ____ about ____ and ____ of gas ____ clothes dryers?
 ____ is the ____ gas ____ electric dryers in ____ cost and ____?
 ____ there a ____ difference ____ price ____ efficiency between gas ____ electricity-based ____?
 Is ____ differences ____ and expense for gas ____?
 ____ costs ____ gas or electric ____ differ.
 ____ it ____ to ____ gas vs ____ dryer performance and ____.
 There ____ efficiency and expense ____ between ____ and ____.
 ____ is ____ difference ____ capability and price between gas ____.
 How ____ gas-powered ____ dryers ____ things?
 What ____ versus ____ when it comes ____ machines?
 What's ____ difference ____ cost and ____ between ____ dryers.

_____ and cost _____ vs _____ dryers.

Performance and _____ gas _____ electric _____ are different.

_____ versus _____ clothes _____ different _____ financial terms.

gas vs electric _____ performance _____.

_____ factors are _____ as _____ as the expense disparity between driers _____ natural-gas _____ sources?

_____ do _____ of _____ electric dryers differ?

The performance and _____ clothes dryers _____ unknown.

Can gas _____ electric _____ be _____ in _____ cost and _____?

So how does a gas _____ an _____?

_____ and elec dryers _____?

_____ are the _____ in performance _____ cost _____ and _____ dryers?

_____ do a _____ dryer _____ to _____ electric one?

What _____ exist between _____ gas dryer _____?

Gas _____ have different _____ costs.

_____ do _____ dryers _____ to electricity?

What _____ difference _____ machines for drying clothes?

_____ the cost and _____ between gas and _____?

_____ if _____ is _____ difference in expense and _____ between _____ and _____ dryers.

How does gas-powered _____ dryers _____ of performance and _____?

What do gas _____ electric _____ and _____?

Does _____ and electric dryers _____ different _____?

_____ there an _____ the performance _____ cost differences between _____ dryers?

Are there differences _____ and efficiency _____ gas and _____?

_____ cost _____ performance _____ gas- powered _____ are different.

Is it _____ to _____ me _____ the _____ differences between gas and _____ dryers?

How _____ gas-powered _____ in terms of _____ and efficiency?

Need _____ efficacy for _____ versus _____ clothes drying.

How does _____ dryers _____?

_____ to know costs _____ efficacy _____ gas _____ clothes _____ options.

What is _____ difference _____ performance _____ for gas _____ dryers?

_____ a gas clothes dryer _____ to _____ electric _____?

Provide _____ of performance and cost _____ dryers.

How _____ gas and _____ differ?

There are _____ and _____ differences between _____ and _____.

Can _____ and cost differences between gas _____ dryers?

_____ a _____ in performance _____ and electric clothing _____ appliances?

_____ there _____ differences in performance and _____ between gas _____?

Any difference in _____ and _____ electric _____ gas _____?

_____ comparing gas _____ clothes _____ there differences _____ performance and _____?

_____ are differences between _____ gas and _____ dryers.

_____ noticeable _____ price _____ efficiency between _____ and electricity-generated dryer units?

Is _____ in performance _____ gas and electric dryers?

There _____ differences _____ the cost _____ of gas _____ electric _____.

_____ price _____ performance of _____ and electric clothing drying _____.

What _____ the _____ gas versus _____ for _____ drying _____?

_____ me about _____ gas and electric _____ dryers?

Is there _____ efficiency difference _____ electric clothes dryers?

_____ do electric _____ do differently?

How _____ gas _____ dryers _____?

_____ electric clothes dryer _____ are different.

Do ____ costs ____ electric ____ drying differ?

How ____ gas and ____ dryers ____ in ____ cost?

Is it possible to give ____ of the ____ gas ____ dryers?

____ and ____ of ____ and electric clothes drying

In terms ____ performance and ____ distinguishes gas ____ clothes ____?

____ tell me ____ the costs of ____ clothes dryers ____ different?

____ gas-powered ____ electric clothes ____ in costs ____ performance?

____ and expense ____ between ____ electrical clothes ____ appliances is needed.

____ you ____ overview ____ cost and ____ of electric and ____ dryers?

____ a gas clothes dryer ____ an ____ one?

____ there differences ____ expenses between electric ____ machines?

Is there a noticeable ____ price ____ gas ____ electricity-generated dryer ____?

How ____ compare to ____ in terms of ____ efficiency?

____ and ____ clothes dryers cost and ____ like?

____ gas or ____ dryers ____ or ____?

What is ____ in cost ____ and ____ clothes dryers?

How will ____ models ____ their counterparts powered ____ gas?

____ performance and ____ of ____ and electric ____ dryers ____ not ____.

What ____ the difference between gas-powered and ____ clothes dryers ____?

Is ____ any ____ in cost and performance between ____?

Tell me ____ in performance and cost ____ electric ____.

How ____ gas and ____ differently?

What ____ different ____ electric dryer ____?

____ much ____ the performance and ____ of gas ____ electric ____?

____ and electric clothes dryers ____ one another?

____ are ____ in cost ____ performance between electric ____ dryers?

How ____ dryers ____ to electricity?

Is there a ____ of performance ____ gas-powered ____ electric clothes ____?

____ the gap ____ performance ____ gas and electric dryers?

Please ____ quick ____ performance and cost of ____ and electric ____.

What ____ cost ____ performance ____ between gas-powered ____ electric ____?

____ it ____ give an overview ____ and cost differences ____ gas ____ electric ____?

____ does ____ clothesdryer compare ____ electric one?

Can ____ tell ____ about the perks and ____ gas ____ dryers?

How do electrical ____ their ____ powered counterparts?

How ____ clothes dryer compare ____ an ____ one

Can you ____ us ____ between gas ____ electric clothes ____?

____ were differences in cost ____ performance ____ and ____.

The ____ in performance and ____ and electric ____.

____ there differences ____ cost between gas- ____ electric-powered ____?

How ____ and ____ compare to ____ other?

Is ____ in ____ between gas ____ electric ____ dryer?

Is ____ any difference ____ and ____ between ____ and ____ clothes ____?

How do electrical ____ compare ____ powered by ____?

The effectiveness ____ cost of ____ clothes ____ debated.

The performance ____ of ____ clothes dryers ____ from ____ dryers.

What ____ the ____ cost and ____ between ____ dryer ____ electric ____?

How does ____ compare ____ the electric one?

In terms ____ and cost, what ____ the ____ dryer ____ electric one?

____ to know ____ costs ____ efficacy ____ gas ____ electric clothes ____.

Can ____ explain the differences ____ and ____ difference ____ gas ____ drying ____?

____ compare ____ costs ____ of gas and ____ dryers.

____ and ____ clothes drying ____ have different ____ figures.

The ____ and ____ of ____ and ____ dryers are ____.

Please ____ performance ____ cost ____ gas- and electric dryers.

____ the performance ____ of gas ____ electric clothes ____?

There ____ performance ____ differences between ____ and electric ____

There are ____ and ____ differences ____ and electrical ____ appliances

____ and ____ more or less?

____ gas ____ electric ____ dryers, ____ differences in cost and ____?

Please ____ about ____ differences in performance ____ cost between ____ dryers.

____ gas and ____ measure up?

____ give a concise comparison ____ the cost ____ performance of ____.

____ performance and cost differences ____ and ____.

Do ____ for gas or ____ dryers ____?

____ of ____ natural-gas powered dryer are different ____ an ____ one.

____ do electrical dryer ____ stack up ____ powered ____ gas?

____ any information on the ____ gas-powered versus electric ____ dryers?

What are the differences ____ cost ____ using ____ dryers?

Is ____ a difference ____ performance ____ gas and ____ clothes dryers?

____ are the ____ of ____ performance between gas ____ dryers?

____ information ____ efficiency and expense ____ gas and electrical ____.

Are there ____ and cost between ____ dryers?

____ there a ____ efficiency ____ and electric clothes dryers.

____ you ____ me about the price ____ differences ____ clothes dryers?

What ____ the cost ____ of gas ____ clothes ____ mean?

____ have ____ comparison of ____ and cost of ____ and ____ dryers?

Looking ____ on ____ and ____ between ____ and ____ clothes ____ appliances.

What ____ the ____ and elec dryers ____?

____ gas and ____ clothes dryers ____?

____ dryers have different performance ____ advantages.

____ you have ____ overview of cost ____ differences between gas ____?

In ____ both performance and ____ gas-powered ____ apart?

____ gas-powered ____ measure ____ to electricity?

What ____ of gas versus ____ clothes ____ machines?

What distinguishes ____ dryers from ____ ones ____ of performance ____?

How ____ electrical ____ models compare ____ their ____ by ____?

How ____ dryer performance different?

____ performance ____ cost difference between gas and ____.

____ it ____ to ____ me ____ the ____ and ____ for ____ and electric clothes dryers?

____ much ____ clothes dryers cost ____ to ____ dryers?

____ gas and ____ dryers ____ performance?

Do ____ and ____ have ____ expenses and ____?

Where ____ the cost and ____ differences between ____ and ____?

How ____ electric clothes ____ differ?

Which ____ impact ____ as well as ____ disparity ____ driers ____ electricity or ____ used ____ operate ____?

____ clothes dryers compare in terms of ____?

____ about the performance ____ and electric ____?

____ you have any insight into the ____ versus ____ dryers?

How ____ gas ____ electric clothes ____ in different ____?

_____ you _____ an overview _____ the _____ performance of _____ and electric _____?

Do you know _____ performance _____ and _____ clothes _____?

_____ regards to _____ cost implications, how _____ gas _____ electric _____ dryers _____?

What _____ gas _____ electric _____?

There are _____ in _____ and _____ between gas _____.

_____ cost can be different _____ and _____ dryers.

_____ dryers compare to electricity?

How _____ gas and _____ clothes _____ relative to _____?

The _____ and _____ of _____ compared to _____ one.

There are cost _____ efficiency _____ electrical clothes _____ machines.

_____ exists between _____ electric _____ performance?

_____ gas-powered _____ electric dryers _____ to _____ another?

_____ to _____ effectiveness _____ and electric clothes drying.

_____ the cost-performance _____ between gas _____ electric _____ dryers?

The _____ and _____ gas _____ electric _____ be different.

_____ there _____ and _____ between _____ dryer types _____ by electricity or natural/propane _____?

_____ vs electric dryers have _____ and _____.

_____ there a noticeable difference _____ price _____ gas _____ electricity-burning dryer _____?

_____ about the performance and _____ and electric _____?

What _____ difference _____ price and _____ capability _____ and electric?

Performance _____ between _____ dryers _____ sought.

_____ do _____ powered and electric _____?

_____ is _____ cost and efficiency _____ gas dryer _____ electric _____?

There is _____ the efficiency _____ price _____ an _____ a natural-gas one.

_____ performance capabilities _____ prices _____ gas _____ electric cloth _____ different.

Is _____ a _____ expense and efficiency _____ gas _____ electric _____?

Need to _____ costs _____ efficacy for _____ clothes drying _____

_____ cost _____ distinguishes electric _____ from gas-powered ones.

What _____ the differences _____ performance _____ of gas _____ cloth _____?

How _____ gas-powered _____ dryers perform?

Can you _____ more _____ and performance _____ gas versus _____ dryers?

Is it possible _____ compare gas _____ performance _____ cost?

_____ there any information on _____ price _____ gas _____ electric clothes _____?

_____ do you _____ about the performance _____ cost _____ of _____ electric _____?

Any _____ in expense and efficiency between _____?

_____ the differences _____ gas _____ clothes dryers in _____ of _____ cost?

_____ there a _____ between _____ performance _____ gas versus electricity-run _____?

Need _____ the _____ and _____ of gas _____ clothes drying.

Looking _____ information _____ the _____ between _____ electrical clothes drying _____.

_____ do _____ powered _____ stack up _____?

Please provide _____ comparison of _____ gas _____ electric dryers

_____ would _____ to _____ the differences _____ expenses _____ gas _____ clothes drying _____.

In _____ cost and performance, _____ gas and _____ dryers _____?

What distinguishes _____ and _____ of _____ versus electricity _____?

The performance _____ electric and _____ dryers _____ different.

_____ to know costs and _____ of _____ drying _____.

We _____ compare the _____ of gas- and _____ dryers.

Can _____ show us _____ cost _____ and electric dryers?

What distinguishes _____ of _____ electricity for clothes _____?

There _____ efficiency and _____ differences between _____ clothes _____ machines.

Is _____ any _____ and financially between traditional _____ electricity or _____ gas?

_____ do _____ dryers _____ to _____ terms of _____ and price?

What distinguishes _____ and _____ dryers in _____ performance?

What are the _____ and cost _____ gas and electric _____?

What _____ the overall performance _____ electricity-run _____ machines?

_____ much _____ electric _____ clothes dryers cost _____ perform?

Are _____ differences in _____ for gas-powered and _____?

Is _____ noticeable difference in cost and _____ gas dryer _____?

Are _____ and electric _____ in _____ of _____?

_____ about cost and performance of _____ and _____.

_____ any difference in _____ cost for electric _____ gas _____?

_____ there _____ difference in expenses between _____ drying _____?

What _____ differences in performance _____ cost _____ gas and _____?

_____ performance _____ cost differences _____ gas _____ electric dryers?

_____ a _____ and efficiency difference between _____ electric _____ dryers.

_____ do electric _____ gas clothes _____?

There _____ differences _____ and gas _____.

Is there _____ difference _____ efficiency between _____ gas dryers?

_____ us about the differences in cost _____ electric _____.

With _____ and cost, _____ a gas clothes dryer _____ an _____ one?

_____ and efficiency _____ gas dryers are _____ from _____.

_____ dryers cost and perform like?

_____ would like _____ the price _____ differences _____ gas-powered and electric _____.

_____ vs _____ dryers has _____ and _____.

_____ dryer _____ compare to their counterparts using _____?

_____ factors affect the effectiveness _____ the _____ disparity between _____ with _____ natural-gas power _____ them?

Is there a difference _____ comparing _____ clothes _____?

Can you _____ me about the performance _____?

Performance and _____ differences _____ gas _____ clothes _____.

_____ costs _____ for gas versus electric drying _____.

_____ are efficiency and expense _____ between _____ and _____ drying _____.

_____ and _____ dryers have _____ cost and _____?

Will there be _____ in _____ and efficiency between _____?

Is there a noticeable _____ efficiency _____ gas and _____ dryer _____?

_____ vs electric clothes _____ are _____ differences _____ performance _____ cost?

_____ you _____ if _____ dryers _____ perform better and be _____?

Gas vs electric dryers _____ disparity.

_____ about _____ cost _____ performance _____ electric _____ gas dryers?

Is there _____ in _____ efficiency _____ and electric dryers.

There are _____ and effectiveness _____ gas _____ electric _____.

_____ cost _____ among gas _____ dryers.

Which _____ type _____ better performance _____ affordability: gas _____?

What _____ the _____ in the performance and _____ of _____?

Is _____ or _____ clothes _____ or _____?

How are _____ electric _____ in terms of _____?

_____ are _____ differences in _____ gas _____ electric _____ drying appliances?

_____ the _____ and price of _____ versus _____ clothes _____?

_____ you have an _____ costs and _____ of electric and _____?

_____ you tell _____ and _____ differences for gas and _____ clothes _____?

_____ cost _____ of gas _____ electric _____.

_____ are _____ differences _____ efficiency between gas _____ and electric _____?

_____ there a difference in cost _____ efficiency _____ gas _____?

What _____ the performance and _____ of _____ and electric _____ dryers?

In _____ performance _____ cost implications, how do gas _____ clothes _____?

There are _____ in efficiency _____ clothes drying appliances.

The _____ performance of gas and _____ dryers _____.

What _____ difference in _____ performance between _____ and electric _____?

How do _____ and _____ perform _____?

_____ gaps in performance or pricing _____ electric dryers?

_____ the _____ in _____ performance when using _____ gas clothes dryers?

_____ gas _____ different _____ electricity in terms _____ and efficiency?

_____ performance and cost different for _____ dryers?

Is there _____ difference in _____ and performance _____ gas _____?

_____ to give insight into _____ differences of gas and _____ dryers?

_____ costs _____ gas or _____ clothes _____ differ?

_____ vs electricity _____ clothes drying?

Performance _____ cost _____ dryers are different.

Electric _____ gas _____ different _____ cost.

Is _____ any _____ in _____ and _____ and electric _____ dryer?

How _____ compare _____ electricity in _____ price and efficiency?

_____ costs and _____ electric _____ gas-powered clothes dryers?

The _____ and _____ gas _____ electricity-run clothes drying _____ is _____.

_____ the _____ in expenses and the _____ between gas and _____ machines?

_____ distinguishes gas-powered _____ dryers _____ electric ones is _____ and _____?

_____ know costs and efficacy for _____ clothes _____ electric.

_____ differences _____ the cost of _____ and _____ clothes dryers.

Do _____ know about the performance _____ cost _____ and _____.

Gas _____ electric dryers _____ cost _____.

Tell _____ the differences _____ and performance between _____ and _____.

_____ of performance and cost _____ and electric _____?

In terms _____ performance _____ cost, _____ is _____ difference _____ gas _____ electric _____?

_____ to _____ costs _____ effectiveness of gas versus _____.

_____ comparing _____ and _____ clothes dryers, _____ there _____ in _____ cost?

Is _____ a big difference _____ cost _____ gas and _____?

_____ there _____ in _____ and electric clothes drying _____?

_____ are the _____ in performance _____ cost _____ electric dryers?

What _____ differences of performance and _____ gas and _____?

_____ have _____ different cost and performance.

_____ efficacy for gas _____ electric clothes drying

What _____ the _____ the cost and _____ gas and electric _____?

_____ different performances of gas _____ electric _____?

Can _____ tell _____ about _____ price and _____ vs electric clothes _____?

I _____ costs and _____ gas and _____ clothes drying.

_____ is _____ and _____ disparity between _____ electric dryers.

_____ there any difference in performance and expense _____?

Performance _____ cost differences _____ between _____ dryers.

_____ or _____ have a performance _____ difference.

There are _____ in _____ and cost _____ using gas _____.

What is _____ and _____ of _____ and electric _____?

_____ you _____ performance and cost differences _____ gas and electric _____?

____ me about ____ differences between ____ and electric ____
 There ____ expense differences between ____ and ____ drying appliances.
 Do you know ____ the ____ cost ____ gas and ____?
 What can you tell me ____ of ____ versus ____ dryers?
 ____ there ____ differences ____ expense between electric and gas ____?
 ____ gas-powered and electric ____ fare?
 ____ of ____ performance and cost, what are the ____ between ____ electric ____?
 Can you ____ an ____ of ____ differences in ____ and cost ____ electric ____?
 Is there a ____ in ____ and electric dryer?
 Provide ____ differences in performance and ____ between ____ and ____ dryers.
 ____ a cost-performance ____ between gas-powered vs. ____ dryers.
 ____ know the ____ cost ____ of gas ____ clothes dryers?
 I ____ costs and efficacy of ____ or ____ drying.
 Is there a ____ in ____ and ____ and electric ____?
 The performance ____ cost ____ gas and ____ different.
 ____ the ____ gas ____ dryer performance and cost?
 Gas-powered ____ dryers, what ____ about them financially?
