

[Demo] NLP Dataset for Customer Service Automation

Company Type	Home Security and Alarm Companies
Inquiry Category	Alarm system troubleshooting and maintenance
Inquiry Sub-Category	False alarms
Description	Customers may have issues with their alarm system frequently triggering false alarms, causing inconvenience and a waste of resources. This category involves troubleshooting the system to identify the root cause of the false alarms and implementing necessary maintenance to prevent them from occurring.
Data Size	5,034 paraphrases
Want to buy data?	Please contact nlp-data@qross.me via your business email address.

Masked sample paraphrases of one "Home Security and Alarm Company" customer inquiry. (Purchased data will not be masked.)
