

[Demo] NLP Dataset for Customer Service Automation

Company Type	Telecommunications Equipment Manufacturers
Inquiry Category	Network connectivity and signal issues
Inquiry Sub-Category	Network security
Description	Customers seeking guidance and solutions for enhancing the security of their network, such as setting up firewalls, implementing VPNs, or addressing potential vulnerabilities.
Data Size	9,177 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Telecommunications Equipment Manufacturer" customer inquiry. (Purchased data will not be masked.)

Is it ____ to ____ of maintaining a ____ network environment?
 ____ frequent software ____ to maintain a ____ network?
 Does maintaining ____ secure network need ____ ?
 Is ____ the ____ for secure networks?
 Updating ____ software ____ firmware ____ required to ____ secure ____ setup.
 Why do ____ to constantly ____ network ____ software?
 ____ software is needed to ____ a ____ .
 Is ____ maintaining ____ secured networking setup?
 ____ necessary ____ update ____ to ____ the network?
 Do I ____ to ____ firmware ____ protect ____ network?
 ____ could require regularly ____ programming.
 Is ____ necessary ____ software ____ network ____ regularly?
 ____ updated for ____ security?
 Should ____ security ____ include ____ software ____ ?
 Ensuring optimal internet ____ require ____ programming ____ .
 Updating the ____ be a ____ the network ____ .
 Should ____ be regularly ____ to ensure ____ network?
 ____ it necessary ____ stable ____ their software frequently?
 ____ I ____ continually update ____ software ____ safe network?
 ____ software frequently for a ____ ?
 Keeping ____ network ____ regular updates to ____ software.
 ____ the ____ need to ____ constantly ____ ?
 Is ____ software ____ secure ____ ?
 ____ need to be ____ updates to ____ .
 Can routine ____ essential for ____ networking environment?
 ____ the ____ updating of ____ important ____ secure ____ ?
 Do ____ updates ____ be ____ for security ____ ?
 Do ____ recommend updating ____ software ____ keep ____ safe?

_____ periodic software _____ for a secure environment?

Is _____ always update our _____ keep our network _____?

_____ regular updates help _____ secured _____?

_____ software _____ protect the network?

Do _____ need _____ keep _____ to protect _____ network?

_____ network might _____ consistent _____.

_____ a good _____ to _____ the software _____ secure networks _____?

Is _____ necessary to _____ a secured _____?

periodic _____ of software are _____ for _____

_____ for secure networks _____ be _____.

_____ need _____ software _____ in secure _____?

Is _____ updates _____ maintaining _____ networking setup?

Is _____ essential for _____ security?

Should routine software _____ a secured _____ environment?

Is updating the _____ a _____?

Do _____ software _____ ensure a _____?

_____ necessary to have _____ updates of _____ software for _____.

_____ routine software updates essential to _____ networking _____?

_____ I need _____ keep updating _____ software _____ my _____ protected?

_____ it _____ requirement _____ I _____ on _____ updates for _____ security?

Maintaining _____ setup with _____ updates?

_____ is important _____ software _____ a regular _____ for network _____.

Do _____ networks need to _____ periodic _____ of _____?

Does _____ constant _____ of software help _____ from _____?

_____ needs _____ be updated _____ for a _____ network.

_____ secure network _____ needs periodic _____ of _____.

Does _____ security _____ updated often?

_____ networks _____ updates _____ their software?

_____ software updates _____ keep our _____ secure?

_____ software updates _____ to the _____ network _____?

_____ you need _____ update the _____ secure network?

Do _____ networks _____ regular _____ software?

_____ often _____ the software _____ a safe environment?

_____ it possible that I _____ on _____ software updates _____ network _____?

Is _____ worth _____ for _____ safety?

Will _____ updates _____ a _____ network _____?

_____ updates necessary _____ secure environment?

_____ routine _____ crucial _____ a _____ networking setup?

_____ necessary to guarantee _____ network _____?

_____ software _____ done _____ secure the _____?

It's _____ to _____ that software and firmware _____ build _____.

It's important to update _____ for _____ safety.

_____ an update _____ required _____ network?

Is updating the software necessary _____?

_____ software/firmware updates necessary to _____?

_____ necessary for _____ update _____ frequently for network _____?

_____ updates _____ software _____ for a secure _____?

Does _____ secure _____ need to _____?

_____ needs _____ updates to maintain a safe network _____.

Are _____ necessary to _____ the _____?

Is _____ software _____ a secure _____ environment?

_____ software important for _____ networks?

Can _____ be essential for _____ secured networking _____?

Maintaining _____ environment involves _____ updates.

_____ stable networks _____ periodic _____ software?

Can _____ be periodic _____ changes _____ order _____ safety?

Can updating software _____ network _____?

Can _____ be regularly _____ to _____ a _____?

_____ network _____ require periodic _____?

_____ we work on creating _____ network environment, _____ update _____ software frequently?

_____ maintain a _____ environment, _____ software _____ essential?

_____ we need _____ updates for _____ environment?

_____ should have periodic _____ of _____.

_____ you _____ for a secured _____?

Is _____ a _____ that _____ top _____ the latest updates for _____?

Is it _____ me to _____ and firmware frequently _____ a _____ setup?

Does _____ require frequent updates _____ network?

Is update of _____ for _____?

There needs _____ updates _____ software for secure _____.

Update _____ software _____ the _____ protected.

Ensuring optimal _____ could _____ demand more _____ updated _____.

Updating software regularly _____ needed _____ secure.

_____ keep the network secure _____ updating the _____?

_____ to update our software in _____ secure _____?

_____ have to _____ the software _____ order to _____ a secure _____?

_____ updates _____ software for secure _____.

_____ are regular updates of _____.

_____ a _____ network, must _____ software and firmware?

Do I have _____ keep _____ keep my _____ safe?

_____ on a regular basis _____ for a _____ environment?

_____ safety without periodic _____ changes _____.

It _____ frequent updates _____ software for _____ secure _____.

Is periodic _____ of _____ a secure network _____?

Can I _____ regularly to _____ my network _____?

_____ updates _____ a _____ network?

_____ network security _____ regular _____?

Should we _____ update _____ to _____ safe _____ the _____?

Is _____ software necessary _____ protect our _____ against _____ risks?

_____ network be _____ software/firmware updates?

_____ have periodic updating _____ software?

_____ necessary for security?

Areware _____ required _____ security _____?

Is regularupdating crucial to _____?

_____ think _____ should be regularly updated _____ a safe _____?

_____ regular software/firmware _____ network _____?

_____ protect _____ secure network environment?

Will regular _____ with _____ network environment?

_____ software updates _____ a secured _____?

_____ to keep _____ network safe?

Should _____ software _____ to _____ in order to _____ the _____ unhackable?

Updating software _____ regular basis is _____ for a _____ environment.

Should the _____ to keep the _____?

Is _____ worth _____ updates _____ ensure _____ security?

_____ maintaining a secure _____ to _____ updated?

Must _____ firmware be updated _____?

_____ our software _____ be _____ of network _____ measures.

_____ network _____ by regular _____ and firmware _____?

How _____ software and hardware updates _____ maintenance?

Should we _____ our _____ frequently as _____ our _____?

For _____ should there be frequent _____ the _____?

_____ software updates required _____ maintain _____ secured networking environment?

Is network safety _____ updates?

Do you think it's _____ keep _____ to build a _____?

Are frequent _____ essential _____?

_____ necessary to update _____ software to maintain _____ network _____?

_____ for regular updates of _____ for _____.

_____ to _____ the _____ and software _____ date to _____ a _____ network.

_____ safety may _____ software updates.

_____ I have to _____ software _____ to _____ the network _____?

_____ required _____ network _____?

Ain't _____ the software _____ to date _____ build _____ secure network?

Update the software _____ keep _____?

Is updated software _____ the _____?

Should _____ updates be put _____ to _____ security?

_____ regular software _____ essential for _____?

Does network _____ updated routinely?

_____ network environment may require _____ updates _____ the _____.

Do _____ think _____ should be _____ for _____ maintenance?

_____ a _____ network _____ to _____ updated daily?

Updating the _____ a _____ requires _____ updates.

Must the _____ be _____ to _____?

_____ necessary _____ update the _____ regularly _____ the network safe?

_____ on _____ regular _____ is _____ for network safety.

Is it _____ to maintain _____ secured _____ routine _____?

Are routine software _____ in _____ to _____ a secured _____?

Should _____ updates _____ into place _____ ensure _____ security?

_____ software is _____ the _____ secure.

Do _____ have _____ update _____ frequently _____ network _____?

_____ need to _____ up with the _____ software _____ networks?

_____ to always _____ software to keep the _____ safe?

Do we _____ software _____ a scheduled basis for _____?

_____ unhackable business network should routine updates _____ software _____ prioritized?

The _____ a network _____ updates of the _____.

Will regular software _____ help _____ secured _____?

Should I keep _____ Firmware _____ protect _____?

Stable networks _____ of _____ software.

Is _____ important _____ software regularly _____ networks?

Is _____ important to _____ the _____ safety?

_____ might _____ updates _____ the software.

_____ maintaining a secured networking _____ crucial?

Is it _____ a _____ network _____ have _____ updates _____ software?

You need _____ update _____ software _____ network.

Is _____ necessary for _____ be _____ frequently?

_____ a _____ environment, _____ the _____ and _____ updated frequently?

Is _____ good idea _____ the firmware on _____ regularly?

_____ a _____ ensure a _____ environment?

Should routine _____ be implemented _____ make _____ ?

Is _____ really necessary for software _____ maintain _____ setup?

_____ do we have to constantly _____ security _____ ?

_____ software need _____ be _____ updated to _____ a safe _____ ?

Is updating software _____ secure _____ environment?

_____ any _____ for _____ updates _____ a safe network environment?

Is software/firmware _____ a _____ setup?

Does _____ ensure _____ on _____ network?

In _____ an unhackable business _____ we _____ on routine updates _____ ?

Do I _____ my network _____ software?

_____ do _____ constant Firmware updates for _____ security?

_____ to keep _____ network _____ continually updating it?

Is firmware _____ for security _____ ?

_____ updates _____ for _____ maintenance?

Is _____ vital to _____ software _____ secure _____ ?

_____ updates _____ done _____ the network?

_____ I have to regularly update _____ network safe?

_____ Firmware _____ keep it safe?

Is _____ necessary to _____ the _____ frequently to _____ secure _____ ?

_____ the _____ be updated to _____ network?

We are _____ a _____ network environment _____ do we _____ software frequently?

Maintaining _____ secure _____ environment _____ depend on _____ Firmware/software _____ .

Should I make routine _____ to _____ ?

Should software _____ updated to _____ the _____ ?

_____ regularly updated to ensure _____ safe _____ ?

Do we _____ our software _____ as _____ try to _____ a secure _____ ?

Should software _____ be _____ secure _____ ?

Can _____ my network _____ regular _____ updates?

_____ routine updates _____ put _____ place _____ network security?

_____ software _____ the net secure?

_____ make the networks safe?

Does maintaining a _____ require _____ ?

_____ a secure network setup?

There _____ regular updates _____ and _____ for secure networks.

_____ regular updating _____ secure network _____ ?

Is there _____ for a safe environment?

Should _____ updates be essential _____ networking environment?

_____ software andware updates _____ protect _____ ?

Maintaining _____ network _____ software and _____ be updated regularly.

_____ I need _____ stay on top _____ latest software updates _____ ?

Do _____ need regular _____ ?

We want _____ create a _____ network environment, _____ update software _____ ?

_____ be _____ a schedule _____ network safety?

_____ to _____ the _____ and _____ updated _____ build a _____ network.

Is updating the _____ required?

_____ regular software _____ for a safe network environment?

Do _____ need _____ keep _____ secure with _____ software _____?

Do _____ need _____ secure network?

Firmware updates are _____ to _____ a _____.

Updatingware _____ basis is important _____ network _____.

_____ updating _____ for _____ network?

_____ I need _____ keep _____ security software?

_____ keep _____ new software to protect _____ network?

_____ know if I should keep _____ firmware _____ network.

_____ software need _____ be _____ regularly _____ the _____ secure?

Is _____ software vital for the _____ networks?

_____ I need to _____ to keep my _____?

Is _____ updates _____ secured network?

Is it _____ updated _____ us _____ build a secure network?

Do _____ updates _____ software?

_____ we work to create _____ environment, _____ we need _____ update our _____?

How _____ routine updates _____ maintaining _____ secured _____ setup?

Updatingfirmware _____ is necessary _____.

_____ the network environment _____ software/firmware _____?

Should _____ use _____ to ensure _____?

Is _____ necessary _____ maintaining a _____ network environment?

_____ should be _____ updates _____ secure _____.

Is _____ me to update _____ software _____ for _____ safe _____?

_____ it because _____ constant updates for network _____?

_____ we need to _____ software regularly to _____ network _____?

Should _____ update the _____ in order _____ the _____ secure?

Is regular software _____ for _____?

_____ software constantly _____ for network _____?

_____ software _____ be helpful in _____ secure network _____?

Are _____ required _____ software updates?

Are _____ maintaining a _____ networking setup?

Updating _____ on _____ scheduled _____ is important _____ network _____.

_____ make sure _____ secured _____ updated frequently?

_____ software/firmware _____ my network safe?

Should we _____ our software _____ the _____ secure?

Does _____ security require _____?

There needs to _____ regular _____ updates _____ network _____.

Is _____ software _____ to _____ secure _____ setup.

As we try _____ create a _____ network environment, _____ need _____ update _____?

Updating _____ frequently _____ be _____ of the network security _____.

Updatingfirmware on _____ scheduled _____ important _____ network _____.

Is it necessary _____ update _____ for _____ network?

_____ it _____ update _____ to _____ safe?

_____ we need _____ software _____ to _____ safe _____ network?

_____ always _____ software _____ keep a secure network?

Does keeping _____ network _____ updates?

_____ it _____ to _____ the software regularly to _____ network _____?

_____ optimal internet protection _____ potentially require frequently _____.

Do _____ update the _____ regularly _____ network security?

_____ networks need to be _____ updated of _____ ?
 _____ periodic updates of _____ required for _____ secure _____ ?
 _____ required to _____ network secure _____ software updates?
 _____ you _____ to _____ to protect the network?
 _____ software _____ for network security?
 _____ be done regularly to _____ a _____ ?
 For _____ should _____ be _____ often?
 Regular _____ for _____ of the _____ ?
 _____ it necessary to _____ network secure _____ updates?
 _____ for secure networks?
 _____ for a safe network?
 Does network _____ get regular _____ ?
 There _____ frequent updates _____ for _____ secure network.
 Is _____ necessary _____ the software frequently _____ order _____ the _____ secure?
 Why do _____ updates for _____ security?
 Is _____ software _____ for _____ security of _____ ?
 Is it necessary to _____ software to _____ safe _____ ?
 _____ regularupdating _____ to ensure _____ secure _____ ?
 _____ to update software frequently to keep _____ ?
 _____ safety without _____ changes is _____.
 Should _____ software updates _____ in _____ to _____ a secured _____ ?
 Is it wise _____ secure _____ regularly?
 _____ we _____ towards creating _____ do we need to _____ regularly?
 _____ the _____ required for keeping the _____ ?
 _____ I have to update _____ the network safe?
 _____ software _____ essential _____ a secured _____ environment?
 Are _____ software _____ necessary in order _____ a _____ networking _____ ?
 _____ it necessary to _____ software _____ to maintain a _____ ?
 _____ secured _____ frequent software _____ ?
 Isware _____ protect the _____.
 _____ maintaining _____ network need _____ often?
 Can _____ safe by _____ the software?
 Updating _____ software _____ a part _____ network security _____.
 _____ regularupdating _____ to ensure _____ secure _____ ?
 _____ it necessary to _____ in _____ maintain a _____ networking _____ ?
 It's important _____ firmware and software up _____ date _____ a secure _____.
 _____ to update the _____ protect the network?
 _____ any need _____ software updates _____ the secure _____ ?
 Is _____ update required for _____ ?
 _____ updates _____ security maintenance?
 Do _____ need to _____ our _____ if _____ want to create _____ ?
 To build _____ it's important to _____ the _____.
 Does it make _____ to _____ the _____ secure _____ updating _____ ?
 Do _____ updates _____ uphold a _____ ?
 _____ updates _____ be necessary _____ a secure network _____.
 Updating the _____ is _____ the _____ safe.
 Update _____ secured _____ ?
 Does software need _____ maintenance?
 _____ daily _____ updates _____ network _____ ?
 Should _____ to _____ the network?

_____ software _____ network security?

Is it _____ the software for _____?

_____ software and firmware updates _____ network setup?

_____ our _____ frequently may _____ necessary _____ security measures.

Is there _____ need for consistent _____ protect _____?

_____ is _____ for network security _____ have _____ firmware _____?

In _____ maintain an _____ should routine _____ of _____ and firmware be _____?

Do _____ networks _____ to have more _____?

Do I _____ keep _____ software _____ security?

Is _____ for _____ updates to _____ a _____ environment?

_____ always update our software _____ network more _____?

Do stable _____ to _____ software?

_____ often _____ software updates _____ net?

Is _____ necessary _____ have _____ environment?

_____ stable _____ require _____ software?

Network _____ may _____ software updating.

_____ routine _____ in maintaining a _____ networking _____?

_____ possible _____ stable networks require _____ updating of _____?

_____ security needs frequent _____ software _____.

_____ secured _____ have _____ their software _____?

Consistency in _____ updates is _____ network.

Do _____ ongoing software _____ networks?

Is it _____ update software frequently _____ a _____?

Should _____ regular software _____ to _____ safety?

Updating software and firmware _____ network _____.

Is it necessary _____ network to have _____?

Updating _____ be _____ of network security.

Do _____ to _____ the software for a _____.

_____ keep the network _____ the _____ updated?

_____ think it's important to _____ updated so we _____ a secure _____?

_____ it _____ update _____ software _____ secure networks regularly?

_____ it _____ to _____ software for _____?

_____ updated often for a _____?

_____ update _____ Firmware _____ keep _____ safe?

_____ you think _____ regularly for keeping the network _____?

Is updating software on _____ necessary _____?

Is it _____ to update _____ regularly for secure _____?

_____ we _____ more software _____ to _____ safe environment?

_____ our software _____ may be _____ network _____.

_____ stable _____ require _____ updating _____ their software and _____?

Is consistency _____ software _____ to _____ the _____?

_____ it _____ to update _____ keep my network _____?

_____ maintaining _____ necessitate _____ software updates?

Is _____ necessary in order to maintain a _____?

_____ internet protection _____ require _____ updated _____ elements.

Is _____ vital _____ secure _____ environment?

Is _____ the _____ network?

_____ environment requires _____ update to the software.

_____ updating _____ network security?

_____ software and firmware _____ essential for _____?

Do ____ updates ____ maintain ____ networks ____?

____ updates ____ for security ____?

There needs ____ be frequent updates on ____ network.

____ regular software updates ____.

Is it ____ the network ____ by ____ it?

Should I update my ____?

____ be software updates ____ network safe.

Should we always ____ our ____ to ____ secure ____?

____ updates ____ in ____ a secured ____ environment?

To ____ network ____ must ____ regularly update ____ software?

____ we ____ update ____ software ____ part of ____ security?

____ it ____ to ____ software ____ regular basis for ____ safety?

____ updates ____ keep a ____ networking ____?

Is regular updating ____ to ____ network ____.

____ needed for secure networks.

Do you ____ should ____ regularly ____ maintain a ____ network?

____ it ____ to keep the network ____ updating ____?

____ software/firmware ____ required ____ the network secure.

Is ____ updates ____ for ____?

____ to ____ updating my software ____ keep my network ____?

____ updates ____ a ____ network?

Network ____ should be ____ by regular software ____.

Regular software ____ firmware ____ maintenance?

____ for network safety?

____ I need ____ continually ____ software for ____ safe ____?

____ it necessary ____ update the ____ frequently ____ security ____ the ____?

____ you think it's crucial ____ keep ____ updated ____ build a ____?

____ it possible ____ the ____ by updating ____ software regularly?

____ it necessary ____ frequently ____ the ____ to remain secure?

Update the software ____ secure ____.

____ secure network setup possible ____ software/firmware ____?

Is ____ updates essential in ____ a ____ environment?

____ necessary ____ the ____ to be updated ____ secure environment?

____ daily software ____ network ____?

Do you ____ a secure ____ updates?

____ necessary ____ security maintenance?

Updating ____ and firmware ____ is ____ security.

Do I ____ to update ____ to ____ network ____?

Is updating ____ required ____ safety?

____ updating ____ a ____ required for a secure ____?

____ it ____ to ____ software ____ for network security?

____ periodic ____ of ____ a secure environment?

Does ____ regular software ____?

Does it ____ regular software ____ to ____ network?

____ constant ____ updates ____ the network?

____ frequently do I ____ to ____ for network ____?

____ is ____ need ____ updates ____ secure networks?

Is ____ regular ____ for ____ network ____.

____ safe environment, should ____ software ____ regularly ____?

____ have to ____ network ____ more updates?

_____ the software _____ network safe.
 _____ necessary to _____ for _____ security?
 _____ network _____ ensured by _____ update?
 Maintaining a _____ that _____ firmware/software _____ regularly updated.
 _____ networking setup _____ routine updates.
 _____ software is _____ for _____ safe _____.
 _____ network security _____ have regular _____?
 It _____ important _____ keep _____ software updated to _____ network.
 _____ it _____ update _____ to _____ secure network setup?
 Is _____ to update _____ software _____ network _____?
 Do _____ need to _____ our software as _____ efforts _____ create a _____?
 Maintaining a _____ without _____ software is questionable.
 _____ idea to update software _____ ensure secured _____?
 _____ the updates necessary _____ the _____?
 _____ networks need to _____ their _____?
 Do we _____ update _____ regularly _____ of _____ to create _____ secure network _____?
 _____ regularupdating important _____ of the _____?
 _____ secured _____ Firmware/software updates?
 _____ software updates necessary to _____.
 Do _____ updates _____ secured _____ environment?
 Is _____ a secured _____ environment to _____ regular software _____?
 _____ regularupdating needed _____ ensure _____ network?
 Is it _____ update _____ software to secure _____?
 _____ secure network _____ updates _____ software.
 Should _____ update _____ software to keep a _____?
 Does network security _____ updated _____?
 Maintaining _____ network _____ regular _____ updates.
 _____ technology _____ the network?
 _____ secured _____ to _____ software constantly?
 Should we _____ software to ensure _____ network?
 Does _____ require _____ updates?
 _____ I use routine _____ to keep _____?
 Is it proper _____ firmware _____ networks?
 _____ don't know if _____ to update my _____ to _____.
 _____ regular _____ vital for secure _____?
 _____ stable networks need _____ of _____?
 Do _____ need _____ up with _____ software _____ network security?
 _____ regularupdating _____ in _____ to _____ a _____ environment?
 _____ optimal internet protection _____ demand _____ frequently _____ elements.
 _____ updates help guarantee a _____?
 _____ necessary for _____ security?
 Is it _____ to _____ setup?
 _____ networks _____ periodic software _____?
 Should _____ sure that _____ secured networks _____ updated _____?
 _____ optimal _____ protection _____ more _____ programming.
 _____ a secure _____ necessary to regularly _____ software?
 _____ it necessary for _____ update _____ software and _____ a _____ network setup?
 Do firmware _____ network safety?
 _____ may require frequently updated programming _____.
 Is _____ possible to _____ software _____ Firmware to _____ a _____ network _____?

Do _____ help _____ the _____?
 _____ you think _____ maintained with firmware _____?
 _____ should _____ be continually updated?
 Is _____ to update _____ regularly to maintain _____ network?
 _____ updates of software _____ networks is needed.
 Is it _____ firmware updates _____ protect _____?
 _____ a _____ environment _____ software be _____ updated?
 Is _____ a good idea _____ regularly _____ software _____ a safe _____?
 How _____ updates to secure _____?
 _____ are _____ software _____ for maintaining _____ safe network _____.
 Do regular _____ the _____ network?
 _____ updating software _____ in _____ to keep the _____?
 Is software/firmware _____ secure _____ setup?
 _____ a network, must _____ updated?
 Don't you think it's _____ that software _____ a _____ network?
 _____ secured networks need _____?
 Can software _____ protect a _____?
 _____ good idea _____ firmware for the _____ networks?
 _____ to _____ software frequently for network _____?
 _____ you _____ to change software _____ for _____ secured _____?
 Is there an _____ required _____?
 _____ for one to update _____ software for _____?
 _____ needs _____ updated _____ for secure _____.
 Are _____ necessary _____ keeping _____ secure?
 _____ we required _____ update _____ networks?
 _____ internet protection _____ frequently updated programming elements, _____.
 Is the updating _____ secure _____?
 _____ software often should _____ network security.
 _____ software/firmware _____ for network _____?
 _____ network security _____ updates?
 _____ need ongoing software _____ in _____?
 Do _____ the firmware to _____ safe?
 Is _____ important _____ software updated for us _____ build _____ network.
 _____ regular _____ updates keep _____ safe?
 _____ it a good idea _____ update the software _____?
 To maintain _____ secure _____ setup, must I _____ firmware?
 It's important _____ software and _____ up _____ a secure network.
 Is _____ advisable to update _____ firmware _____?
 _____ secured _____ environment requires _____ software _____.
 _____ consistent software updates _____ the _____ safe?
 Is it _____ for _____ to update _____ software _____ a _____ network setup?
 Updating _____ to secure _____ network.
 _____ an _____ network, _____ we prioritize routine software and firmware _____?
 _____ we need _____ update the _____ to _____ a _____ network _____?
 Updating software _____ necessary for _____.
 _____ keep the network secure, _____ it _____ update _____?
 How frequently _____ the software _____ network _____?
 Is it _____ to _____ regularly to keep _____?
 _____ possible to keep the network secure _____?
 _____ updating the _____ required _____ networks?

Can _____ software be _____ to _____ a _____ network?
_____ should be periodic updates _____ a secure network _____.
_____ update the software _____ order to maintain _____ secure _____?
Do _____ to _____ update the _____ for _____ network?
_____ networks _____ frequent _____ updates?
_____ our software _____ to keep _____ network.
Are software _____ for maintaining _____ secured _____?
Is it necessary for me _____ to keep _____ secure _____?
Regular _____ updates will contribute _____ secure network _____.
Update the _____ if you want your _____.
_____ software necessary _____ the network _____.
_____ have _____ stay on top _____ updates _____ security?
_____ regularupdating _____ to _____ network environment?
Does software need _____ be _____ to maintain _____?
Can _____ essential to ensure _____ environment?
Is _____ important _____ to constantly _____ for a safe _____?
_____ firmware updates are needed _____ network _____.
_____ frequently _____ for a safe _____?
_____ necessary _____ update our software frequently as part _____?
Will _____ a secure _____ environment?
_____ firmware to keep _____?
_____ to update _____ frequently for a _____ environment?
_____ updating _____ to _____ the network _____?
Is _____ necessary _____ software regularly _____ keeping _____ network _____?
Do _____ to constantly update software _____ secured _____?
_____ it _____ to periodically _____ software _____ network _____?
_____ a _____ idea to _____ update our _____ keep _____ network safe?
Is _____ for me to _____ software and _____ to _____ secure network _____?
_____ I _____ updates to _____ network secure?
_____ a _____ network _____ updated frequently?
Requires frequent _____ software _____ secure _____.
_____ software frequently as _____ of network security?
_____ software updates _____ to _____ network setup?
_____ security _____ to be _____ frequently?
_____ software necessary for _____?
Is _____ need _____ regular _____ updates to maintain _____ environment?
_____ get regular _____ updates?
_____ to update software _____ we try to _____ a _____ environment?
_____ secured networks _____ frequently?
Do _____ need _____ update _____ software frequently _____ security?
Is the _____ of _____ network _____?
Is regularupdating essential to _____?
Do regular _____ updates _____?
Regular _____ updates _____ net _____?
_____ updated _____ maintain a _____ network?
Does the _____ software updates?
_____ stable networks _____ updates _____ software and firmware?
Is updating the _____ networks a _____ idea?
_____ the _____ be _____ for a safe _____?
Should _____ be _____ network security?

Should software be _____ to keep _____?

Maintaining _____ network _____ requires regular update _____ software _____.

Is updated software _____ maintain _____ secure _____?

How often _____ software _____ for _____ maintenance?

_____ the _____ a _____ basis necessary _____ a _____ network environment?

_____ updating _____ help _____ network safe?

_____ we _____ our _____ order to keep a _____ network?

Is _____ vital for _____?

_____ need _____ the _____ updated to _____ secure network.

Software updates _____ maintain a secure _____.

_____ it important _____ software _____ be updated _____ for _____?

Is _____ have regular _____ updates _____ maintain a _____ network _____?

_____ secure networks require _____?

_____ we _____ in secure networks?

_____ have _____ update my _____ for network security?

_____ a _____ environment _____ updating of software.

_____ maintaining _____ require _____ frequent updates?

_____ be _____ updated to maintain a _____?

Should _____ make routine updates to _____?

_____ we _____ to update _____ frequently _____ part _____ network _____ measures?

_____ secure _____ to the software.

Ensuring a _____ environment requires updating _____ basis.

Will secure _____ updates?

_____ routine updates _____ important in maintaining _____ secured _____?

Can _____ update _____ as part of network _____?

Is _____ updates needed _____ ensure _____?

_____ regular software _____ to _____ safe on the _____?

Is it important _____ regularupdating to _____?

Updating _____ to keep _____ network?

_____ be _____ to _____ the network.

Is the _____ more _____ a _____ environment?

_____ we always _____ our _____ to keep _____ safe?

Would _____ maintain a _____ network _____?

_____ a _____ should software and _____ be frequently _____?

_____ software _____ kept up _____ maintain _____ safe network?

_____ regularupdating crucial _____ network environment?

_____ there _____ need to _____ firmware regularly _____ networks?

_____ update software _____ keep my network secure?

_____ to update _____ for _____ safety.

_____ it necessary _____ update software for _____ secure _____?

There _____ updates _____ software _____ a secure network _____.

Updatingfirmware _____ necessary _____ security.

Is _____ essential _____ maintaining _____ secured networking _____?

It _____ to _____ the _____ to _____ the network.

_____ firmware _____ secure _____ updated regularly?

_____ software/firmware updates _____ security _____?

Regular _____ ensure safe _____?

Do _____ for a secured _____?

Is _____ to make routine _____ ensure network _____?

Does _____ need constant updates?

Is _____ a good idea to _____ secure _____ regularly?

Is _____ possible to _____ firmware _____?

_____ software _____ necessary for network _____?

Will _____ help keep _____ environment?

Do _____ to update the _____ on _____?

Is _____ software really _____ secure network setup?

_____ environment _____ software _____ regularly updated?

_____ optimal internet protection _____ programming _____ be _____ updated.

Is _____ updates _____ for _____?

_____ you require _____ update _____ secure _____?

_____ that ensure secure net?

_____ software updates _____ safe _____?

Is _____ for _____ update _____ and _____ to maintain _____ secure network setup?

_____ it _____ to periodically _____ the _____ for a secure _____?

_____ updates help _____ a safe _____ environment?

Do _____ require _____ updates _____ a _____ environment?

Does _____ the software _____ security?

_____ is _____ need _____ regular updates _____ the software for _____.

_____ necessary to _____ updates _____ software _____ a _____ network.

_____ software _____ a secure environment?

Updating _____ frequently may _____ considered part _____ security _____.

To maintain a _____ network _____ I regularly _____ software _____?

Do _____ need _____ our _____ up to date _____ secure _____?

To _____ secure, _____ it _____ to update _____ frequently?

Maintaining a _____ routine _____ and Firmware updates.

Can _____ updates help with maintaining _____ environment?

Without regular _____ software _____ it _____ to maintain _____ safe network _____?

_____ regular software _____ Network _____?

Do _____ updates _____ maintain _____ environment?

Updating firmware _____ necessary _____ keep _____ secure.

_____ maintaining a _____ network have _____ updated _____?

_____ if _____ should make routine _____ ensure _____ security.

What _____ software updates _____ the _____?

_____ network _____ come with _____ software/firmware _____?

_____ secured network require _____ software _____?

Is _____ required to _____ network _____?

_____ the software _____ for _____ networks?

_____ important to _____ to date _____ build a secure _____.

_____ it necessary to update the _____ in _____ ensure a _____?

_____ I _____ software _____ for _____ security?

_____ we need to _____ our _____ often _____ order to _____ secure _____?

_____ regular software _____ security in _____?

_____ network security _____ regular _____?

If _____ network environment, do we need to update _____ regularly?

_____ a secure _____ environment might _____ updating the _____.

_____ optimal internet protection _____ potentially _____ periodically _____.

If _____ create a _____ network environment, do we _____ the software _____?

Is _____ necessary _____ secured networking setup?

_____ secure _____ frequent updates _____ its _____.

_____ the _____ be _____ weekly _____ keep the network _____?

Do _____ get frequent _____?

Is it _____ update _____ maintenance?

_____ want to _____ if _____ should _____ regular _____ for secure _____.

_____ periodic updates _____ software _____ for a _____ environment?

Ensuring optimal _____ potentially demand _____ programming _____.

Do I _____ keep _____ my _____ security _____?

_____ may be _____ of _____ a secure environment.

_____ the software must _____ done _____ keep _____ safe.

_____ the importance of _____ of _____ secure networks?

Is _____ to _____ the network _____ by _____?

We're trying to create _____ environment, _____ need _____ update _____ frequently?

Is there _____ need _____ regular _____ for a _____?

Is it _____ me _____ software _____ protect my network?

_____ regular _____ updates _____ the _____ secure?

It's crucial _____ the software _____ to _____ a secure network.

Do routine _____ matter _____ maintaining _____ setup?

Is regular updating _____ sure _____ network _____ safe?

_____ make _____ updates to _____ my _____ safe?

_____ a secure _____ environment _____ the software.

_____ secured networks need _____?

_____ updating software regularly required _____ keep _____?
