

[Demo] NLP Dataset for Customer Service Automation

Company Type	Telecommunications Equipment Manufacturers
Inquiry Category	Customization and product configuration requests
Inquiry Sub-Category	Product compatibility
Description	Customers seeking information on which telecommunications products are compatible with their existing network or devices for seamless integration.
Data Size	5,528 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Telecommunications Equipment Manufacturer" customer inquiry. (Purchased data will not be masked.)

How _____ we configure _____ products _____ disrupting _____ functionality of other components _____?
_____ possible to adjust telecom gear _____ problems _____ components?
Can _____ products easy to use _____ disrupting _____ existing _____?
Can _____ of your telecom _____ as well?
_____ know if _____ gadgets can be put _____ not break _____ rest of _____?
Is _____ possible _____ set _____ with _____ on _____ current _____ of other components?
We _____ products _____ affecting _____ components.
Do _____ if _____ is _____ to set up your telecom _____ without _____ already installed _____?
_____ to _____ your telecom _____ without ruining _____ else?
_____ it _____ to set _____ without _____ other parts?

 _____ easy is _____ set up and _____ without _____ the _____ of pre-existing _____ ?
 _____ us that _____ our _____ products won't affect _____ existing _____ ?
 Can your telecom products _____ disrupting the _____ ?
 _____ you _____ us _____ that _____ our telecom _____ won't _____ our _____ components?
 _____ easy _____ changes to _____ devices?
 How _____ we set _____ your _____ seamless fashion?
 _____ to _____ telecommunications devices with existing _____ integrity?
 Are _____ products configured _____ components?
 Does _____ line _____ equipment _____ a _____ functioning, seamless _____ ?
 Do _____ think that _____ gadgets can _____ put _____ smoothly _____ rest of our shit?
 How can _____ up _____ is no interruption?
 _____ assure us that configuring _____ won't _____ our existing components?
 Is _____ possible to _____ telecom _____ without _____ other _____ functions?
 How _____ is it to _____ affecting the _____ installations?

Is telecom _____ seamless _____ disruptive with _____ system _____.

_____ you _____ ability to change your _____ with minimal _____?

_____ and _____ your telecom equipment _____ disrupting the _____ of _____ be easy.

_____ possible _____ modify _____ with minimal impact on _____ of other components?

Can _____ without changing other components?

Is _____ telecom _____ compatible _____ other components?

Does _____ telecom equipment _____ seamless _____?

_____ telecom _____ and undisturbed?

_____ possible we _____ fiddle _____ your telecom _____ without _____ with other _____?

_____ telecom equipment configuration _____ and _____?

_____ you give us assurance _____ your _____ will not affect _____?

_____ your _____ products _____ configured

What's _____ configuring telco _____?

Is _____ ensure smooth product _____ when _____ offerings for your _____?

_____ we make _____ easy _____ set up _____ products?

_____ you know _____ your _____ gadgets _____ be _____ and not _____ the rest of _____?

_____ have a way _____ set your _____ offerings without _____ parts' _____?

Can we _____ telecommunications devices _____?

How _____ set _____ your telecom _____ that there _____ no _____?

Can _____ modify telecommunication _____ affecting _____ installations?

Do _____ have hassle-free _____ telecom _____?

How _____ us to modify telecom products _____ other components?

Can you _____ me if it _____ possible _____ telecom _____ on _____ current setup of other _____?

_____ telecom _____ configured _____ existing components?

_____ made _____ your _____ products keep everything _____ functional?

_____ to setup your _____ easily?

_____ we setup _____ products _____ the existing components?

_____ you know if it _____ set up _____ products _____ to other components?

_____ it possible to _____ with _____ without ruining _____ system?

Can _____ adjust your telecom gear _____?

_____ of your _____ equipment match the already installed _____?

Is _____ to fiddle _____ telecom junk without _____ everything?

_____ telecom _____ have _____ configurability, meaning smooth functioning _____ installed _____?

_____ it _____ to make changes to _____ smoothly?

_____ it is possible _____ change _____ products with _____ impact on the current _____?

_____ it _____ be _____ to _____ telephone gizmos without _____ with _____ else?

Do _____ have _____ to change _____ telecom products with _____?

_____ adjust your _____ without problems?

How easy _____ to modify _____ telecom _____ disrupting _____ functions?

Is it _____ to change _____ with minimal impact _____ other components?

How easy _____ it to modify telecommunications _____ in _____?

Can adjustment _____ your telecom _____ be _____ to _____?

Can _____ tell us that _____ our _____ products won't _____?

How can _____ modify your _____ to _____ functional?

_____ you assure _____ our telecom products _____ have an _____ on _____?

Do _____ know _____ is possible to _____ products with minimal _____ other components?

_____ it possible _____ ensure _____ product integration _____ configuring telecommunications _____ for _____ company?

How can we _____ sure there _____ no _____ set _____ telecom _____?

Do _____ have the _____ to _____ your _____ junk _____ messing _____ everything _____?

Can _____ your _____ without interferences?

____ it feasible to ____ hassle-free configuration ____ telecom ____?
 Is ____ to ____ offerings without disrupting ____ parts?
 ____ to ____ setup your ____ products?
 Is it ____ to modify your telecom ____ on the ____ setup ____ components in ____?
 Is ____ possible ____ telecom ____ without affecting ____ parts?
 ____ hassle-free configuration ____ telecom devices?
 Is it possible ____ telecom ____ disrupting the ____?
 Is ____ possible to ____ disrupting existing components?
 ____ we ____ telecom equipment ____ avoid disruptions?
 How ____ ensure ____ no disruption occurs ____ we ____ telecom equipment?
 ____ configuring ____ offerings from ____ ensure smooth product integration that doesn't disrupt our ____?
 ____ we ____ your ____ without messing ____ the rest?
 Is ____ setup possible for ____?
 ____ customization with your telecom ____?
 Is ____ for us ____ your ____ without messing with ____?
 Is it possible to ____ the configuration ____ minimal impact on ____?
 Can we get your ____ without ____ with ____?
 Is it ____ to ____ telecom ____ without making ____?
 ____ you know ____ it ____ possible ____ change ____ telecom ____ with minimal ____.
 Can ____ modify the telecom ____ up ____ else?
 ____ you ____ your telecom ____ disrupting existing ____?
 We can ____ your ____ without ____ up the ____.
 How easy ____ it ____ devices?
 ____ know if it ____ up ____ products with ____ impact on other components?
 ____ we ____ set up your ____?
 ____ possible to easily ____ telecom ____ disrupting the components?
 Do ____ set up your telecom products ____ avoiding disruptions?
 Is it possible ____ setup your ____ without ____ other ____?
 ____ set up your telecom ____ so ____ there ____ no ____?
