

[Demo] NLP Dataset for Customer Service Automation

Company Type	Internet Service Providers
Inquiry Category	Internet connection troubleshooting
Inquiry Sub-Category	Wired/Wireless Network Setup
Description	Customers require guidance in setting up a wired or wireless network at their home or office, including connecting devices, configuring security settings, or resolving compatibility issues.
Data Size	5,066 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Internet Service Provider" customer inquiry. (Purchased data will not be masked.)

____ different routers/modems need different configurations ____ on ____ provider ____ vs Cable ____
 ____ there ____ difference ____ for routers/modems ____ I ____ cable ____ DSL service?
 If you ____ a ____ provider vs ____ DSL one, ____ likely to ____ adjustments ____ a routers.
 Can the ____ the modem androuter ____ with the ____ you ____ the ____ and ____?
 For example, ____ DSL ____ are there any changes ____ in the ____ configuration?
 Is ____ any ____ the modem ____ therouter when it ____ cable or ____?
 Do you ____ specific configurations for separate ____ internet ____?
 Is ____ a ____ in the ____ for the ____ and therouter ____ I ____ DSL?
 Do the settings ____ for cable ____?
 ____ it ____ the routers configuration between a ____ and a ____?
 The ____ setup may ____ different based ____ service ____ they're ____.
 For ____ a ____ provider's DSL ____ there a need ____ adjustments to the ____ configuration?
 I ____ if the ____ of ____ and ____ are different for cable ____.
 ____ providers ____ different settings ____ modem/router, for ____ cable ____ DSL?
 ____ there a ____ in settings for ____ modem ____ use a cable ____ internet service ____?
 Do ____ different ____ for separate ____ based on ____ provider ____?
 ____ there a way to set ____ modem ____ in a ____ whether I use cable ____?
 ____ the modem ____ with cable or DSL?
 For example, ____ a cable provider's ____ service and ____ one ____ there ____ in ____ configuration of ____ routers
 If you consider cable/dsi ____ vs a ____ likely to be ____ needed ____ reconfiguration ____ the ____.
 ____ to ____ DSL ____ does ____ of the modem and router differ?
 Do ____ require ____ for ____ than for cable or ____?
 ____ cable ____ DSL service ____ one ____ by another, ____ any adjustments needed in the configuration ____ the ____
 For example, between ____ cable provider'sDSL ____ are adjustments needed ____ the ____?
 ____ the ____ of the ____ routers different ____ cable or ____?
 If I choose ____ use either ____ dsi ____ my internet, ____ there differences ____ on ____ the routers?
 ____ want ____ know if the ____ of ____ different for ____ or dsl internet.

____ modem/router setup can be ____ cable ____ units.
 Do the setup of ____ if ____ choose ____ or ____ company?
 ____ between ____ service and another's, do there ____ to be adjustments ____ the routers ____?
 ____ necessary for certain changes to ____ Router configuration, for example ____ DSL?
 ____ example, between ____ cable provider's ____ and another's, are adjustments needed ____ a ____?
 ____ the setup ____ the modem and router ____ based ____ you get from ____ and ____ companies?
 ____ I choose to ____ cable or ____ my ____ is there ____ difference ____ settings on the ____ the ____?
 For example between a cable provider's ____ service ____ another's cable, are ____ setup ____.
 ____ there ____ difference ____ settings ____ modem and ____ if I use ____?
 ____ it necessary ____ change the configuration of ____ Router ____ you ____ provider ____ DSL service?
 modem/router ____ based on the ____ provider they ____
 Is ____ necessary ____ providers to ____ different settings ____ for ____ or DSL?
 I would ____ know if ____ the modem and ____ routers ____ cable or DSL internet.
 Differently ____ modem/router ____ may be needed ____.
 ____ between a cable ____ another's, do ____ be made in ____ configuration based on ____ ISPs
 ____ I ____ to use either ____ dsl ____ my internet, ____ differences ____ settings ____ modem and the routers?
 There might be ____ in ____ depending ____ service provider.
 ____ the modem/router setup ____ for the different ____?
 Is ____ possible ____ different technologies ____ cable and ____ require different ____ for ____?
 ____ it comes to cable ____ providers, ____ the modem ____ setup ____?
 ____ use different configurations for ____ routers and modems ____ on ____ cable or internet ____?
 If you ____ a cable/dsl provider ____ DSL one, ____ likely be adjustments necessary in ____.
 There ____ a question ____ modem/router ____ cable ____ service providers
 ____ it comes ____ or DSL, do modem ____ setup ____?
 Is ____ setup of the ____ different for cable ____?
 Can the ____ for the ____ and router ____ depending on the service you ____?
 Depending ____ cable or DSL provider, do ____?
 Do internet ____ modem/router settings ____ of internet, such ____ cable ____?
 ____ example, between ____ cable ____ service ____ do ____ need to be adjustments ____ the ____ configuration?
 There ____ be ____ in modem/router ____ on the internet ____.
 I'm ____ if there are ____ in ____ on the modem ____ the ____ if I ____.
 ____ setup of modem and router different ____ cable ____ DSL?
 Different technologies like ____ DSL might ____ different ____ the ____.
 ____ it necessary for ____ changes to ____ made ____ a Router configuration, ____ provider ____ DSL service.
 ____ modem and router setup ____ cable or the DSL ____?
 ____ internet providers require ____ their modem/routers, for ____ cable ____?
 Is ____ a difference in the ____ for ____ the router ____ use a ____ service?
 I am ____ if ____ in the ____ the modem and the ____ if ____ to use ____ dsl.
 ____ you think the routers would ____ if ____ is ____ DSL?
 ____ the service ____ they use, ____ setups could ____.
 Do ____ settings ____ their modem/router that ____ from Cable or DSL?
 ____ it ____ the ____ provider's modem/router would ____ differently if ____ used the DSL ____?
 I'm ____ are any ____ between ____ settings on ____ the routers if I use cable ____.
 When ____ use ____ or DSL, ____ might be different.
 ____ there a difference in ____ the ____ and the routers ____ I use ____?
 If you have ____ cable or DSL ____ change?
 ____ true ____ different ____ for their routers when ____ use a ____ service?
 As ____ the service you ____ from ____ cable ____ companies, can the ____ modem and router ____?
 Are ____ needed ____ configuration ____ the ____ cable and ____ DSL one?
 ____ on ____ service ____ they're ____ to, ____ configurations could ____.

Is the routers/modems going _____ differently if _____ service _____?

_____ you consider _____ vs a _____ one, there _____ to be adjustments required in _____ the _____.

_____ internet _____ may _____ different _____ settings.

modem/router _____ could _____ on _____ provider they're from

When it _____ the _____ providers, is modem and _____ setup _____?

The _____ setup could be _____ based on _____.

Is there _____ between _____ for _____ routers if I _____ to use the cable _____ service?

Is _____ a _____ routers set _____ on the internet _____ provider?

Do _____ if _____ required for different _____ such as cable _____ DSL?

_____ it necessary for certain changes to _____ a _____ you _____ a cable _____ DSL service.

_____ setup _____ depending _____ the _____ or DSL provider?

If you consider a cable/dsl _____ a DSL one, there _____ to _____ the _____ of _____.

_____ necessary to change the _____ of _____ you _____ a cable provider _____ a DSL _____.

_____ the modem and _____ different _____ cable or _____?

_____ internet _____ providers might _____ different _____.

_____ is _____ that the _____ setup _____ for _____ and DSL.

_____ your _____ setup _____ depending _____ your cable or DSL _____?

I'm _____ if there _____ settings _____ the modem and _____ I use a _____ or _____.

When _____ comes _____ and _____ modem/router setup might be _____.

Is _____ internet service provider's _____ work differently if they _____ option?

Is _____ difference _____ settings _____ and the _____ when I _____ cable or _____?

Can the setup _____ the _____ change based on the _____ you _____ the cable _____?

When it comes _____ do _____ and Router _____ differ?

_____ you _____ cable/dsl provider _____ DSL one, there are likely _____ made in the _____ the _____.

_____ is possible that _____ routers/modem _____ function _____ if _____ difference _____ the usage _____ cable _____ dsl.

It _____ possible that _____ routers/modem _____ work _____ there was a _____ usage _____ and dsl service.

When _____ cable _____ your modem/router _____ be different.

Is it necessary to _____ the configuration of the _____ on the service _____ between _____?

_____ necessary _____ setup _____ for different services such as, _____ cable versus _____?

_____ would _____ to _____ if _____ are different _____ for the modem and the _____ if _____ choose _____ cable _____.

The configurations _____ may be _____ ISPs.

If you consider a _____ provider _____ DSL _____ be adjustments necessary _____ the _____ a _____.

_____ it necessary to set a _____ or _____ I _____ to _____ cable _____?

Is the _____ going to _____ differently if _____ vs. _____?

Depending on _____ provider they're used _____ change.

It's possible that a routers/modem _____ function _____ there was _____ difference _____ usage of _____.

_____ I _____ to use _____ dsl for _____ will there be differences _____ the _____ the modem _____ the _____?

_____ there _____ settings _____ router/modems _____ I choose cable _____ DSL?

_____ possible that the internet _____ modem/router _____ work _____ the DSL and Cable options?

_____ setup _____ and router change _____ on the service _____ get from _____ cable and dsl _____?

_____ the configuration of _____ the _____ different for _____ DSL?

Is there _____ difference between the _____ modem and the _____ or dsl _____ my internet?

Is the _____ if _____ is was DSL _____ cable?

As per the respective cable _____ there _____ question _____ modem/router _____.

Is _____ a _____ in settings _____ when using cable or _____ service?

_____ you _____ say that _____ need different settings for their _____ using a _____?

If I _____ do I _____ to _____ a modem or Router differently?

Is _____ of the _____ different for cable or _____?

I would like to _____ if the _____ modems and _____ routers _____ different for _____.

_____ setup may be different between cable _____.

____ curious if there ____ differences ____ settings on ____ modem or ____ if ____ dsl for ____ internet.
 For example, ____ a ____ DSL service ____ another's cable, ____ in the ____ of ____ routers
 Is it ____ different internet service ____ different ____ for different ____ like ____?
 ____ mean they ____ to set different ____ for their ____ using cable ____?
 Modem/router ____ could ____ on the ____ provider they're ____
 ____ there ____ in settings ____ routers and modems when ____ have a ____ broadband provider?
 ____ comes to the ____ DSL ____ is ____ and ____ setup different?
 For example, ____ cable ____ DSL service and another's cable, ____ the ____ routers?
 Is ____ any difference ____ settings for ____ and the router if I ____ DSL internet ____?
 Can the setup for ____ modem ____ change depending ____ get ____ cable or DSL ____?
 ____ curious ____ are ____ differences ____ the ____ on the ____ the routers for different cable/DSL ____.
 ____ there ____ need ____ in ____ of ____ routers between ____ cable and ____ DSL one?
 ____ a change ____ modem ____ router set up ____ on the ____?
 I am curious if ____ are ____ differences ____ modem and ____ routers ____ different cable/DSL ____.
 ____ I ____ do I need ____ set a modem or routers ____?
 Do ____ modem and router ____ according ____ the cable ____ provider?
 ____ modem/router setup ____ different ____ service provider they use.
 Does the ____ the ____ need to ____ changed between ____ DSL one?
 I am ____ if there ____ the settings on ____ modem ____ routers when I ____.
 Is it ____ a ____ or DSL internet ____ have different Modem ____?
 Is ____ true ____ they ____ settings for ____ when ____ a cable or ____?
 ____ modem/router ____ to have ____ settings compared to ____?
 When using a cable ____ DSL ____ you mean ____ need ____ routers?
 ____ between a cable ____ service and another's ____ are adjustments needed in ____ a ____.
 ____ differently if there is an ____ service ____ that ____ the DSL and Cable ____.
 Do adjustments need to ____ made in the configuration of ____ for ____ between ____ and ____
 When it comes to ____ and ____ setups differ?
 ____ they ____ a ____ or DSL provider, there is ____ question about ____.
 ____ there a difference ____ the ____ and the ____ when ____ use cable ____ DSL?
 ____ setup can ____ cable and DSL.
 ____ for the modem and router ____ your ____ the cable or DSL provider?
 ____ the modem/router setup ____ for ____ DSL ____?
 ____ each internet service provider requires different ____ for ____ and DSL?
 Is it ____ that ____ internet ____ modem/router will ____ if ____ use DSL ____?
 ____ to know if ____ the modem and ____ vary depending ____ my ____ provider: ____ or dsl.
 ____ example, between ____ DSL ____ one used ____ another, are ____ adjustments needed in the routers ____?
 ____ internet ____ require different settings ____ modem/router when compared ____?
 ____ example, ____ a cable provider's DSL ____ one used by ____ adjustments ____ in the ____ routers.
 Do internet ____ require different settings on ____ different ____ or DSL?
 Is ____ a difference between a ____ provider ____ in the ____ routers?
 Is ____ modem/router ____ different for ____?
 Can ____ setup for the ____ change ____ the ____ you ____ a ____ provider?
 ____ difference between ____ for routers and modem ____ use ____ or DSL?
 ____ the ____ providers that ____ you may want ____ configuration ____ your routers ____ modem.
 ____ per cable or DSL?
 ____ and router ____ change with ____ or the DSL provider?
 Is there ____ differences in ____ modem ____ the router ____ I use a cable ____ DSL ____?
 Is ____ possible that ____ require ____ on their modem/router ____ or DSL?
 Does the modem/router ____ for ____ cable and DSL ____?
 ____ they change with ____ or DSL provider, ____ a question ____ setup

Do _____ providers require different _____ on the _____ than _____?

_____ configuration of the modem _____ for cable _____ internet _____ providers?

Is _____ the settings for the _____ the router _____ a cable _____ internet service provider?

_____ cable provider's DSL service and _____ one _____ by another, _____ adjustments _____ the configuration _____ the _____?

_____ modem/router _____ might _____ different when _____ a _____ or DSL service.

Does _____ change for cable _____?

Do _____ and router settings _____ depending _____ cable _____ provider?

Is the _____ provider's _____ routers configurations different _____ dsl?

_____ setup of _____ router _____ different for cable _____ DSL _____?

Is it _____ there are _____ settings _____ the _____ routers _____ I _____ to _____ cable or DSL _____?

_____ modem/router _____ may be different _____ on _____ service provider they _____.

_____ any _____ in settings for a _____ cable or DSL?

The modem/router _____ for cable and DSL _____.

_____ wonder if _____ will _____ modem/router setup depending on _____ provider.

_____ necessary _____ internet providers _____ set different _____ on _____ modem/router _____ or ADSL?

In _____ different models _____ Cable, are different _____ required _____ own modem/router configurations?

_____ there a difference between _____ the modem and the _____ choose _____ use cable or _____ for _____?

_____ different ISPs _____ their own _____ configurations _____ relation _____ models _____ ADSL _____ Cable?

_____ the setup of _____ and router _____ with _____ cable _____ DSL _____?

_____ setup might change _____ on _____ cable _____ DSL _____.

Depending _____ internet _____ you use, _____ configuration _____ your modem and routers.

_____ the _____ for _____ modem _____ change _____ the _____ you _____ the cable or DSL provider?

Is there a difference _____ settings for the _____ if I _____ DSL _____?

_____ that _____ service provider's modem/router will _____ if they use _____ option?

_____ internet _____ require _____ their _____ than for their _____ or DSL _____?

_____ using _____ the cable _____ the modem/router _____ be different.

Is there a _____ the settings _____ routers _____ they _____ cable _____?

I'm _____ if _____ are _____ in _____ for _____ routers/modems if _____ choose cable _____.

Different technologies such as cable _____ could _____ to separate _____.

_____ not sure if _____ settings for the modem and _____ if _____ choose _____ cable _____.

_____ would like to _____ the _____ for _____ modem _____ routers _____ different for _____ or _____ service.

Is there any difference in _____ the _____ the router if _____ or DSL _____?

_____ internet _____ providers might need _____.

Can _____ setup _____ the _____ and router _____ depending on _____ get _____ the cable _____ DSL companies?

Is there _____ in _____ for _____ modem and the router _____ down _____ or DSL internet?

When using cable _____ modem/router _____ different.

_____ they _____ with cable or DSL, _____ about modem/router _____.

_____ you use _____ cable _____ service, _____ setup may _____ different.

Do I need _____ a _____ a different way _____ I want _____ cable or DSL?

_____ to _____ the routers and modems are different for cable _____.

_____ difference _____ for _____ if I choose cable _____ DSL?

It's possible _____ service _____ different settings _____ certain _____ and router _____.

If you consider _____ vs a DSL _____ adjustments are _____ to be _____ the reconfiguration _____.

_____ if _____ settings _____ the _____ are different for cable _____ dsl internet.

For _____ between a cable provider's _____ to be made in the configuration _____ a _____?

I'm curious if _____ to adapt my modem _____ to what _____ prefer: _____ or _____?

For example, _____ a cable _____ service and _____ adjustments _____ be made _____ configuration of a _____

When it _____ cable and DSL providers, _____ the _____ routers _____ different?

Is _____ necessary for _____ providers _____ set _____ on _____ for cable or _____?

Is _____ settings for _____ and the router if _____ use cable or _____?

_____ modem/router _____ change _____ the cable or _____ provider?

_____ am _____ are differences _____ settings _____ the _____ and the _____ if I am on _____ cable/DSL _____.

Does _____ change _____ the service _____ get from the _____ or DSL provider?

Are _____ needed in _____ of _____ routers, for example _____ a _____ service and _____ using _____ internet service

_____ providers _____ different _____ for modem/router _____ to _____ or DSL?

When you use a cable _____ setup _____.

Is _____ and _____ different for cable and _____ providers?

Is there any difference in _____ for _____ modem or _____ a _____ or DSL _____ provider?

_____ the _____ setups _____ the cable or DSL provider?

I _____ there are differences _____ the settings _____ the modem or _____ if _____ to _____ or dsl.

Is _____ a difference _____ for the modem and the router _____ I _____ or _____ internet _____?

_____ a _____ provider's DSL _____ another's, are _____ any adjustments that need to _____ the _____ configuration

Is there _____ need _____ in _____ of the routers, _____ between a _____ service _____ another's?

Do _____ need _____ in _____ configuration _____ between _____ cable provider's DSL _____ and a one using another

For example, between _____ provider's DSL service _____ another's, _____ adjustments needed _____ the _____?

Do modem/router setup _____ on _____ DSL provider?

_____ internet service _____ modem/router settings.

There are likely to _____ adjustments needed _____ routers, for _____ between a _____ provider _____.

_____ it _____ that _____ settings _____ routers/modems _____ different _____ cable _____ DSL?

_____ there any difference in settings _____ modem _____ the router _____ a cable _____ internet provider?

I'm wondering _____ there are differences in _____ modem and _____ routers for _____.

_____ the _____ change depending _____ the _____ or DSL provider?

Is the _____ and router _____ on _____ cable or DSL _____?

The _____ could _____ different _____ on the _____ used for.

If _____ cable/dsl provider vs a _____ one there _____ to _____ required _____ reconfiguration of _____ routers.

_____ the modem and router setup _____ the _____ provider.

_____ there a _____ in _____ for _____ and _____ if _____ go _____ a _____ DSL internet service?

_____ there any difference _____ settings _____ modem and _____ when _____ or DSL service?

I'm wondering if _____ differences _____ the _____ or _____ routers if _____ use either cable or _____.

_____ internet _____ have _____ modem/router settings _____ or cable?

_____ change _____ a cable or DSL provider _____ is _____ question _____ setup

_____ the _____ provider's routers _____ modem configurations different for _____?

It's possible _____ work differently _____ the usage of a _____ dsl _____ was _____.

Is _____ modem/router setup _____ the _____ and DSL provider _____?

_____ comes _____ cable and DSL units, _____ setup _____ different.

_____ modem/router setup change with cable _____ there _____ a _____.

_____ there any differences in _____ modem or the router when _____?

_____ that internet _____ providers require different _____ of modem and _____.

Is there _____ difference _____ for the modem _____ I _____ cable or DSL?

I am curious _____ there are _____ settings _____ routers if I _____ the cable or _____.

_____ on internet service provider, is _____ setup of _____ router?

Is _____ modem _____ different _____ it comes _____ cable or DSL?

Is _____ service provider's modem and router different _____ DSL?

Different _____ of cable/dsl may _____ modem/router configurations _____.

_____ if there _____ differences _____ the _____ the modem and the routers _____ services.

_____ if a cable _____ uses a _____ provider, are _____ needed _____ the _____ of the _____.

_____ adjustments needed in the _____ routers, _____ example _____ a cable provider's _____ service and another's, _____

_____ of ADSL _____ may require different _____ configurations _____ service providers.
 _____ there a _____ for _____ settings _____ modem/router for cable _____?
 _____ am _____ there _____ differences _____ the settings _____ the modem and the routers _____ cable _____ dsl.
 _____ on _____ internet _____ use, there could be a _____ for _____ routers _____.
 Do the _____ and router _____ change _____ the _____ provider?
 _____ the _____ setups change with _____ or the DSL _____?
 Is the _____ the modem _____ for cable or _____?
 _____ of modem _____ router different _____ cable and DSL?
 _____ different internet _____ providers require different _____ certain things, for example _____ DSL?
 Depending on _____ internet _____ that _____ use, _____ may _____ a different configuration _____ routers _____ modems.
 _____ a difference _____ settings for _____ routers _____ modems _____ I _____ a cable or _____?
 _____ modem/router _____ different depending _____ cable or _____ provider?
 Differently configured modem/router _____ required _____ internet _____ providers
 _____ setup different _____ different cable and DSL _____?
 _____ can _____ you _____ the cable or DSL service.
 Is the modem/router _____ by internet providers different _____ DSL?
 Is _____ a _____ in settings _____ the _____ when _____ cable or _____?
 Is _____ a difference _____ the _____ for the modem and the router _____?
 _____ it _____ need different settings for _____ when using _____?
 _____ the modem and router _____ change _____ on the _____ you _____ the _____ provider?
 _____ it _____ to _____ the configuration _____ the routers between a _____ and _____?
 _____ the _____ Modems and _____ for cable or internet _____?
 _____ am _____ there _____ in _____ settings on the modem _____ if I _____ either cable or _____.
 _____ am wondering if there _____ a difference in _____ modem _____ the routers _____ services.
 _____ different ISPs require _____ for _____ models of ADSL _____?
 If you consider _____ cable/dsl provider _____ a _____ likely _____ be adjustments necessary _____ reconfiguration of
 _____.
 _____ of _____ Cable might require _____ modem/router configurations _____ ISPs.
 _____ any differences in settings _____ the _____ if _____ use a cable _____ internet provider?
 I'd _____ to _____ the settings of _____ routers and modems _____ for cable _____.
 _____ models of _____ may _____ different _____ different ISPs.
 _____ between _____ cable provider's DSL _____ one used _____ another, _____ adjustments _____ the routers
 configuration?
 For _____ between a _____ and _____ is there _____ need _____ adjustments _____ the routers configuration?
 _____ for _____ particular internet _____ appear _____ like with _____ DSL versus Cable options.
 _____ am _____ differences _____ the settings on the modem _____ if _____ use either cable or _____.
 _____ it comes _____ and _____ the setup _____ the modem and _____?
 I'm curious _____ there are settings _____ the _____ that _____ different if I use _____ DSL _____.
 _____ internet service _____ may _____ different _____.
 If _____ to _____ cable _____ am _____ required _____ set a modem _____ differently?
 _____ modem and router _____ different _____ the _____ or DSL provider?
 For example _____ provider's DSL _____ cable, are adjustments _____ configuration _____ on various ISPs
 used.
 Is there a _____ settings for some _____ I have a cable _____?
 Does the _____ change _____ respect _____ cable _____ DSL providers?
 _____ comes to cable or DSL _____ modem and router _____?
 Is _____ different for cable _____?
 _____ the setup of modems _____ different for _____ providers?
 Is there _____ settings _____ and the router _____ I _____ cable or DSL?
 Is _____ a difference between _____ and router setup _____ or _____?
 _____ reconfiguration of a _____ is likely _____ between a cable provider and _____

_____ the _____ setup change _____ the cable or _____?

Is it _____ each _____ provider _____ different configurations for _____ for example, _____ and _____?

I _____ wondering if there _____ differences between the _____ on _____ the _____ I _____ either cable or _____.

If you _____ provider vs _____ DSL _____ there _____ needed in _____ reconfiguration of a _____.

Is _____ routers/modems _____ if _____ wasDSL _____?

Is _____ necessary to _____ adjustments to _____ configuration of _____ cable _____ a DSL _____?

Is there _____ in _____ for routers/modems if _____ cable _____?

_____ am wondering _____ there _____ differences in the _____ or _____ routers _____ use either _____ or DSL.

_____ modem/router setup _____ for _____ cable orDSL _____?

There are adjustments _____ the configuration _____ the routers, _____ a _____ provider's _____ service and _____ one _____ another.

_____ on the _____ that you _____ a different _____ for _____ routers and modems.

Does the _____ have _____ different _____ for _____ or _____?

For example between a cable _____ DSL _____ and _____ used _____ adjustments needed _____ the configuration _____ routers?

_____ there a difference in _____ modem and therouter if I _____ internet service?

If _____ the cable _____ the _____ setup may be _____.

_____ you _____ that they _____ settings _____ their routers when _____ a cable _____ service?

_____ different _____ cable _____ DSL need _____ configurations _____ the routers _____ modem?

Depending _____ providers give you, there could be _____ different configuration _____ the separate routers _____.

Does _____ modem/router _____ change _____ the _____?

For example between _____ cable provider's DSL service and another's _____ are _____ routers?

_____ providers require _____ the _____ than they do on _____ DSL?

I _____ there are differences between _____ on _____ and the routers if _____ a cable/DSL _____.

For _____ between a cable _____ and _____ one used by _____ adjustments needed _____ configuration _____ the routers

_____ technologies of _____ andDSL require different configurations for _____?

_____ example _____ a _____ service _____ one used _____ another, are adjustments needed in the _____ routers.

_____ modem/router setup different for _____ provider?

_____ to adjust _____ of _____ routers between a _____ and DSL _____?

_____ service provider's _____ and _____ configurations different for _____ or _____?

I _____ to _____ if _____ settings of _____ and _____ different for _____ dsl.

Do _____ configurations of the _____ you _____ a cable orDSL _____?

If the _____ is cable _____ DSL, _____ the _____ differently?

_____ it _____ and DSL, the modem/router setup _____ be _____.

_____ there _____ in settings for _____ modem _____ therouter when _____ cable or _____ service?

_____ it comes to _____ do modem and _____ have _____?

_____ example, between _____ cable _____ DSL service and _____ cable _____ adjustments needed _____ configuration of _____.

If _____ consider a _____ vs _____ DSL _____ there will _____ adjustments necessary _____ the reconfiguration _____.

_____ example, _____ a _____ provider and _____ dsl _____ there will _____ adjustments _____ in the reconfiguration _____ a _____.

_____ the configuration _____ modem _____ routers for _____ service _____ or DSL?

Is _____ any _____ in _____ for _____ modem _____ therouter if I _____ or _____?

_____ example _____ a cable _____ service _____ used by _____ need to be _____ in the routers _____?

Is _____ different for the different cable _____?

_____ is the _____ with different _____ for _____ modem and _____ switch _____ either _____ cable _____ DSL connection?

I want to _____ routers and modems _____ different _____ cable orDSL _____.

_____ have _____ configurations _____ separate _____ based _____ internet provider connections?

For example _____ a _____ provider's DSL _____ a _____ using _____ adjustments needed in the configuration _____ routers.

Can _____ setup change _____ on _____ orDSL provider?

____ example, ____ a cable ____ service ____ a one used ____ are ____ configuration of a routers?
 I ____ to ____ if the settings ____ and the routers ____ cable ____ connections.
 ____ are ____ adjustments needed ____ reconfiguration of ____ routers, for ____ a ____ provider and a DSL ____.
 Do the setup ____ and router change ____ or ____ you choose?
 Depending on the ____ they ____ with, ____ setup could ____.
 Is ____ settings ____ modems and ____ different if ____ choose ____ or ____?
 When ____ use the cable ____ may be different
 ____ to be made in ____ for example between a cable ____ service and ____ using a
 ____ that ____ need different settings ____ router when ____ or DSL service?
 Is ____ configurations needed for ____ routers ____ different ____ service ____?
 Do the modem/router ____ with ____ the cable/DSL ____?
 When you switch ____ and DSL, what's ____ deal with ____ set ____ routers ____?
 Do ____ mean ____ they have to ____ for their ____ cable ____ DSL?
 ____ per ____ cable ____ providers there is a ____ about ____ setup.
 ____ it ____ to ____ do the ____ and router ____ differ?
 Modem/router setup may ____ different ____ DSL ____
 ____ there ____ difference in ____ the modem and therouter ____ cable or ____?
 ____ modem/router setup ____ depending ____ the DSL ____ provider?
 Do ____ require different settings ____ are different ____ orDSL?
 ____ a difference ____ modem and router setup ____?
 Is ____ change in modem/router ____ cable and ____?
 ____ setup ____ change ____ cable orDSL provider.
 ____ the modem ____ Router setup ____ cable ____?
 Do ____ to ____ routers configuration, for ____ between a cable provider's DSL service ____ based ____
 Is it possible ____ service ____ uses ____ andCable ____ the modem/router will ____?
 ____ you ____ they ____ for their routers ____ they ____ cable orDSL service?
 ____ the modem androuter setup ____ change ____ on ____ you get from the ____ and DSL ____?
 ____ needed ____ the configuration ____ a routers, for example ____ cable provider's DSL service ____ cable ____
 ____ example between a cable ____ DSL service and ____ cable, ____ adjustments ____ in the ____.
 Do ____ that ____ need ____ different ____ for their routers when ____ cable ____?
 Is there ____ the ____ have different settings ____ or DSL?
 ____ there a difference ____ settings ____ some ____ modems ____ I ____ a ____ of ____ or DSL?
 ____ internet ____ require ____ settings for their modem/router than ____ would ____?
 ____ provider the modem/router ____ could be different.
 ____ on ____ cable ____ Internet ____ used, ____ it necessary ____ use different configuration for ____ routers ____.
 If ____ cable ____ for ____ is there a difference ____ the settings on the ____ routers?
 ____ use a ____ modem/router setup might be different.
 Depending ____ providers ____ use, ____ could ____ different ____ for your modem ____ router.
 For example, ____ a cable ____ DSL ____ and another's, are ____ needed ____ routers?
 When you ____ the ____ modem/router setup may ____ different.
 Is ____ a ____ the ____ the modem ____ if I ____ cable orDSL?
 Depending on the connection ____ internet ____ you may ____ a ____ configuration for your ____ modem.
 Is ____ difference in ____ the modem ____ therouter if ____ use ____ orDSL internet service ____.
 ____ the ____ setup changes ____ the different cable and ____?
 Do ____ need different ____ on the ____ service ____?
 Do the modem/router ____ change ____ cable ____ DSL ____?
 ____ possible that a ____ work ____ there ____ difference ____ of cable and dsl.
 Is the ____ service ____ modem and ____ different ____ cable ____?
 I'm wondering ____ are ____ the ____ the modem ____ the ____ different cable/DSL services.
 Is there ____ difference in settings ____ some ____ have a cable ____?

____ modem/router setup ____ different ____ on the service provider _____.
 For example, ____ a ____ and ____ there are likely ____ adjustments ____ the reconfiguration of a ____.
 ____ there a ____ the modem and therouter if ____ go ____ cable ____?
 Is ____ a difference ____ between ____ and ____ go ____ with ____ cable or DSL internet service?
 ____ differences in ____ the modem and therouter ____ for ____ or DSL?
 ____ difference in ____ settings on ____ modem ____ when ____ comes to which ____ service I use?
 ____ choose to ____ cable or dsi ____ my internet, ____ the settings ____ the ____ the routers?
 ____ necessary to adjust ____ configuration of ____ on the different ____ the cable ____ providers?
 I ____ like ____ know ____ there ____ modem and routers ____ I use cable ____ DSL.
 ____ modem/router models ____ to ____ used for ____ service providers.
 ____ different ____ settings that ____ different from cable orDSL?
 ____ the modem/router setup ____ the cable ____ companies?
 ____ you consider a ____ provider ____ DSL ____ are ____ to ____ adjustments needed ____ the reconfiguration ____ a ____.
 ____ there ____ difference in ____ the routers and modem ____ cable or ____?
 ____ there ____ between the modem ____ router setup ____ cable ____?
 I am wondering ____ differences ____ on ____ and the ____ based on which type of ____ service I _____.
 Is it ____ for certain changes ____ made in ____ configuration, like ____ a ____ a ____ provider?
 modem/router ____ may be ____ cable ____
 ____ different internet service ____ different ____ configurations for ____ cable?
 ____ providers require different settings for ____ is ____ cable orDSL?
 Is ____ configuration of ____ and ____ for cable or ____?
 Do ____ setup of ____ and ____ for ____ or DSL ____?
 I want to ____ settings ____ modems are different for cable ____ dsl ____.
 Are there ____ configuration ____ for example between a cable ____ service and another's?
 I'd like ____ differences in ____ on the modem and ____ routers ____ cable/DSL services.
 Is ____ necessary ____ changes to ____ a ____ configuration ____ you ____ cable or ____ DSL service?
 Does the ____ change depending on ____ or ____ provider?
 ____ to know ____ there ____ differences in ____ and modem if I ____ cable or ____.
 ____ want to ____ if different ____ settings ____ needed ____ different services, such _____.
 Is the ____ setup different ____ the cable company ____?
 If ____ want ____ or cable, do ____ to adjust ____ modem or ____?
 Is ____ the modem and ____ different ____ cable ____ providers?
 I'd like to ____ are ____ settings for ____ routers ____ I ____ cable or DSL service.
 ____ for the ____ change according ____ the ____ you ____ the cable or DSL companies?
 ____ the internet ____ you use, you may want ____ have ____ for ____ and modem.
 ____ internet ____ may require ____ for certain modem and ____.
 ____ there a ____ of ____ modem ____ when I use cable or ____?
 Is there ____ settings ____ the modem ____ the routers ____ I ____ or dsi?
 ____ can ____ cable andDSL units
 Is ____ modem androuter ____ cable orDSL ____?
 ____ any difference in ____ the ____ and therouter ____ cable orDSL ____?
 Does the modem/router ____ the ____ or ____ provider?
 Do ____ modem androuter ____ the cable or ____?
 Do ____ setup ____ on your cable or ____?
 ____ to use ____ orDSL, ____ I have ____ set a modem or ____?
 For ____ cable provider's ____ service ____ adjustments needed in the configuration ____ the routers?
 ____ is the issue with different ____ your ____ routers ____ switch ____ either ____ cable or ____ DSL internet ____?
 Do the ____ of ____ routers change when ____ or ____ service?
 ____ example, between ____ cable provider's ____ service ____ another's ____ are adjustments needed ____ configuration of ____.
 For ____ between ____ DSL ____ and ____ cable ____ adjustments needed ____ the settings ____ the routers?

_____ settings of the routers are _____ for cable _____ for DSL.

The _____ setup _____ different _____ use the cable _____ service.

Depending _____ cable/DSL provider, modem/router _____.

When _____ comes to cable _____ do the modem _____?

Is the _____ modem and routers different _____ comes _____ cable _____ DSL _____?

_____ to cable or DSL, _____ modem _____ router setup differ?

_____ cable _____ service, modem/router _____ may be different.

Is there _____ need _____ adjustments _____ the _____ of _____ for _____ a cable _____ service and _____ service?

For example, between _____ provider's _____ service _____ another's cable, are _____ needed in _____ routers.

_____ the modem _____ setup _____ for _____ DSL provider?

_____ between _____ provider and one line DSL _____ are _____ in the configuration _____ the _____?

Is _____ a difference _____ the settings _____ modem and the _____ the _____ cable/DSL service _____ use?

Is it possible that the _____ for _____ cable _____ DSL service?

Do _____ configurations _____ the routers change _____ a _____ internet service?

I would like _____ the settings of _____ modem _____ routers are different _____.

For _____ if a cable _____ and a one-line DSL _____ adjustments needed _____ routers _____?

If _____ consider _____ DSL one, _____ are _____ to _____ adjustments needed _____ the reconfiguration of _____ router.

_____ they _____ with _____ there is a _____ about _____ setup.

_____ it different _____ cable or _____ provider _____ different modem and _____ configurations?

The _____ of _____ is likely to _____ adjustments, _____ a cable provider _____ DSL one

Different models _____ cable _____ require different _____ configurations.

For _____ a _____ service _____ another's, is _____ any _____ for adjustments _____ the _____ of the routers

Differently _____ might be _____ for certain _____ providers.

_____ there _____ adjustments _____ of the _____ between _____ cable and a DSL _____?

For _____ between a _____ provider's _____ service and another's, _____ to the configuration _____ the _____?

Is it necessary _____ the modem/router _____ have _____ for _____?

modem/router _____ may _____ different _____ units.

Do _____ setup _____ on your cable _____ DSL _____?

Does the configuration of _____ to be different _____ provider _____ one?

Is _____ any _____ for _____ modem _____ when _____ cable or DSL?

If _____ change with cable _____ there _____ question about _____.

_____ want _____ if there are _____ on the modem _____ the _____ I use cable or _____.

Do internet providers require _____ for different _____ or ADSL?

I'm _____ if there are any differences in _____ settings _____ modem _____ routers _____ of _____ service.

_____ on _____ providers you use, _____ want _____ different _____ for your _____ modem.

Different _____ require different settings on _____ modem/router

Is the _____ different based on _____ DSL _____?

_____ I _____ to use _____ dsl _____ my internet, _____ a difference in _____ the _____ and modem?

_____ a cable _____ a different ISPs, are adjustments needed in the routers configuration.

_____ on _____ providers _____ use, _____ may _____ a different configuration _____ separate _____ and _____.

Depending on _____ internet _____ you _____ be _____ different _____ for separate _____ modems.

Depending _____ connection your internet _____ you, _____ could _____ a _____ configuration _____ your routers and _____.

_____ might require different setup _____ and routers

For _____ cable provider and a DSL _____ there are likely to _____ necessary _____ the _____ a _____.

_____ cable or DSL _____ they are _____ the _____ could change.

Do _____ different settings based _____ the Internet _____?

modem/router setup _____ be _____ for _____.

Depending on internet _____ provider, _____ there _____ of modem and _____

Does _____ change for _____ DSL or _____ providers?

When it comes _____ or DSL, _____ modem _____ setup _____?

If _____ use _____ or _____ are _____ differences in _____ settings on the _____ the routers?
 _____ there _____ in settings for the modem _____ router if I _____ cable _____ internet _____?
 _____ there any _____ in settings for _____ modem _____ use cable _____?
 I _____ like to _____ if _____ are different _____ for the _____ and _____ if _____ use _____ DSL service.
 Can the _____ modem and router _____ according _____ the _____ you get from _____ cable _____ companies.
 _____ different _____ the service is cable _____?
 _____ modem/router _____ different for the different _____ and DSL _____?
 When it _____ to _____ internet service, _____ modem _____ setup _____?
 _____ it possible that _____ will work differently if _____ an _____ that _____ the DSL and Cable _____
 _____ possible _____ the _____ service _____ modem/router will _____ different _____ they use the DSL _____?
 _____ a _____ settings for the modem and _____ the router _____ go for _____ or _____?
 In _____ to different models of _____ do _____ providers _____ own _____ configurations?
 _____ setup _____ the modem and router change for the _____ you _____?
 _____ setup _____ and router different for cable and DSL _____?
 Is _____ in settings for _____ modem and _____ when _____ cable _____ DSL?
 Is there _____ adjustments in the configuration _____ for example _____ provider's _____ service and
 another's
 _____ the differences _____ and Cable _____ internet _____ company requires CONFIGURATION for routers/mode?
 _____ they _____ with _____ or DSL, there _____ question about _____ setup.
 _____ the _____ and the router different for _____ DSL providers?
 _____ it possible _____ settings _____ the modem _____ the router are _____ or DSL?
 Do internet _____ require settings _____ the _____ that are _____?
 If I _____ to _____ either cable or _____ there _____ in the _____ modem or the _____?
 Do you mean they have _____ set _____ settings _____ their _____ when _____ a _____?
 _____ internet providers require _____ settings for their modem/router _____ type, _____ or _____?
 The _____ can _____ different when you _____ cable _____.
 Is _____ for changes to _____ made _____ configuration for either cable _____?
 The modem/router _____ change _____ on the _____ or _____ provider they _____.
 _____ be different modem/router _____ cable and _____.
 For example, between a _____ DSL service _____ cable provider, _____ needed _____ the _____ of the _____?
 _____ connection your internet _____ you, there _____ be a different configuration for _____ modem.
 I am _____ there _____ differences in the _____ on the modem _____ the routers if _____.
 Do _____ require different modem/router settings for _____ as _____ service?
 Is _____ of _____ modem and the Router _____ for _____ cable _____?
 _____ a _____ in settings for _____ when _____ choose _____ use cable _____?
 Depending _____ service providers give you, you could _____ a _____ configuration _____ your modem _____.
 _____ internet providers require _____ on _____ modem/router compared to _____?
 _____ configuration _____ both _____ and routers different for _____ or _____?
 Is _____ setup different _____ DSL _____ cable providers?
 _____ it _____ that different _____ providers _____ different configurations for certain _____ DSL?
 _____ providers _____ different _____ on the modem/router for different _____ as _____ cable _____?
 modem/router setup may _____ units
 Depending _____ service _____ they're connected to, _____ be different.
 There are _____ to be adjustments _____ in _____ of a routers, for _____ between _____ one
 Is _____ true _____ need different _____ for _____ when using a _____ DSL _____?
 When _____ comes _____ or DSL, does modem _____ setup _____?
 _____ am wondering _____ there _____ differences in the settings _____ the modem _____ the _____ different _____.
 _____ DSL or cable _____ modem/router _____ could change.
 _____ the _____ for the _____ and router vary depending on the service you _____ cable _____?
 _____ is _____ modem/router setup is _____ when you use _____.
 _____ modem _____ different _____ cable or DSL?

Are _____ the configuration of the _____ a _____ a _____ one?
 _____ in settings for the modem or the router _____ a _____ or DSL _____ provider?
 Is it _____ certain changes _____ made in _____ depending on _____ used, _____ between a cable _____ a DSL
 Is the configuration of the _____ provider's _____ routers different _____ cable _____?
 _____ difference in _____ for the _____ the router when I _____ a cable _____ service?
 _____ am _____ if _____ are _____ in _____ on the modem _____ the _____ based _____ cable/DSL service I _____.
 Different _____ require different _____ for _____ or routers.
 Do _____ have different settings based _____ the _____?
 When _____ units, modem/router setup may be different
 When _____ comes _____ cable or DSL, do _____ and _____?
 There are _____ needed _____ the _____ cable provider's DSL service and another cable provider'.
 The modem/router setup _____ be _____ use _____ cable or DSL _____.
 Depending _____ the _____ modem/router setup _____ be different.
 _____ use _____ or DSL, the modem/router setup might _____.
 Different providers could _____ setup requirements for _____.
 _____ modem/router models _____ be _____ specific _____ service providers
 _____ setup _____ be different when _____ or DSL.
 Is there any difference _____ I choose cable or DSL?
 _____ between _____ provider's _____ service _____ another's, are there needed _____ to _____ routers _____?
 Can the _____ the _____ and router change depending _____ what _____ you get from the _____?
 I want _____ the settings of _____ and modem are different _____.
 _____ internet providers _____ different _____ the modem/router that _____ cable or DSL?
 For instance _____ DSL service and another's _____ are _____ the configuration _____ the routers?
 Is _____ modem and router setup _____ depending on the _____ company _____?
 _____ setup could be _____ when you use _____ service.
 _____ it _____ certain _____ to be made in _____ configuration if _____ is cable _____ DSL?
 I am _____ there _____ in _____ settings on _____ modem _____ the _____ I use _____ cable/DSL service.
 For _____ between a _____ and a DSL one, there _____ to _____ adjustments required _____ of _____.
 _____ that if _____ internet _____ provider _____ the DSL _____ option, _____ modem/router will _____ differently?
 _____ a need _____ different _____ on the modem/router _____ cable _____?
 Is _____ any differences in _____ the modem _____ using _____ or DSL _____ service provider?
 _____ providers _____ settings _____ than they do for _____ or DSL?
 _____ it _____ to cable _____ DSL, the _____ setup _____ different.
 I am _____ if there are _____ in _____ settings _____ the modem _____ routers _____ I _____ use cable _____ internet
 _____ used _____ cable vs. DSL, _____ routers/modems _____ work differently.
 Is _____ and routers different for cable _____?
 Does _____ setup _____ with _____ or the DSL service?
 _____ it possible that the _____ of the _____ for cable _____ internet?
 If I _____ to _____ or _____ my _____ or routers differently?
 Is _____ a _____ settings for _____ routers _____ if _____ have _____ choice _____ or DSL service?
 _____ an internet service provider _____ uses the DSL _____ option, the _____ work _____.
 _____ setup might _____ when _____ the cable or DSL service.
 When _____ a cable _____ modem/router setup _____ be different.
 I'm curious _____ are _____ settings for _____ modem _____ if _____ use a cable or _____.
 _____ that _____ require different configurations for certain things, for example, _____ and _____?
 Can _____ setup for _____ the service you get from _____ cable or DSL _____?
 Do _____ modem settings _____ different based _____ the internet _____ provider?
 Is _____ difference in _____ routers if I use cable or DSL?
 _____ a difference _____ settings _____ modem and the router _____ use a _____ internet _____ provider?

For _____ between a _____ provider's _____ and another's, _____ adjust the _____ of the routers?
 _____ configured modem/routers _____ be _____ for specific _____ providers.

There _____ likely to _____ adjustments in the _____ routers, for _____ between _____ provider _____ aDSL _____.

Is there a difference _____ the _____ modem _____ the router _____ cable _____?

_____ am curious if there _____ different _____ and the routers _____ use the cable _____ service.

Is _____ requirement _____ different settings _____ the modem/router for _____?

Do _____ require _____ on _____ modem/router _____ do for cable or _____?

I'm _____ if _____ are _____ settings for _____ routers if _____ to use _____ or DSL.

_____ example, between a _____ DSL service _____ one used by _____ are adjustments _____ in _____ configuration _____.

Is _____ to _____ Router _____ the service used, _____ a cable _____ and a DSL provider?
 _____ it different _____ cable or _____ internet _____ to have _____ Router configurations?

Is there a _____ settings for _____ modem and the _____ or DSL _____ service provider?

If _____ a _____ provider versus a _____ there _____ likely _____ adjustments needed in _____ of _____ routers.
 _____ comes _____ and DSL providers, is modem _____ different?

I am _____ if _____ are differences _____ the settings _____ modem _____ the _____ for _____.

Is _____ to change a _____ depending _____ service used, _____ between _____ cable _____ and a DSL _____?

I am _____ if there _____ between _____ the _____ the _____ if I _____ to use either _____ or _____.

When it comes _____ cable and _____ setup, do _____?

Is _____ a _____ on _____ modem _____ the routers _____ I use _____ or _____ my internet?
 _____ modem _____ setup _____ with _____ cable or DSL provider?

I am wondering _____ the settings _____ routers and _____ are _____ dsl.

Do _____ for the _____ that _____ different from Cable or DSL?

_____ a _____ settings for the modem and _____ comes to _____ providers: cable _____ DSL?
 _____ it possible that _____ there _____ an internet _____ the DSL _____ option, _____ router/modems will work _____

_____ am wondering if there _____ settings _____ the modem and _____ if _____ use _____.

Can _____ setup of the modem _____ change _____ on _____ from the _____ and DSL _____?

_____ providers _____ settings for their _____ compared _____ cable?

_____ any differences in _____ for _____ modem or the router _____ I use _____ or DSL internet _____?

_____ there _____ settings on the modem and the routers _____ a cable/DSL service.

The reconfiguration of a routers _____ to require adjustments, for _____ between a cable _____ one

Does the modem/router settings _____ provider?

_____ cable vs DSL, _____ it _____ certain changes to _____ the _____ of the _____?

Is there a _____ settings _____ and the _____ using a cable or DSL _____ service _____?

_____ to know if _____ are differences _____ settings on the _____ or _____ I use cable _____.

_____ modem _____ router _____ different for cable _____ DSL?

_____ a _____ DSL one, _____ likely to be adjustments needed _____ the reconfiguration _____ the routers.

Is _____ the modem/router that _____ different to cable or DSL?

Is _____ true that they _____ for _____ routers when _____ or DSL?

_____ the modem/router _____ for the _____ DSL providers?

Can _____ the _____ and router change depending _____ the service you _____ from _____ or DSL _____?

_____ the _____ and router setup _____ depending _____ get from the cable or DSL _____?

_____ it comes to _____ do _____ and router setup _____?

_____ setup for _____ and router change depending on the service _____ the _____ or _____ provider?

When _____ comes to _____ providers, do _____ and routers setup _____?

_____ am curious if _____ different settings _____ the _____ if I _____ the cable _____ DSL _____.

_____ it comes to _____ or DSL, is _____ in modem and _____?

_____ you _____ set ups _____ your _____ you switch between _____ and DSL?

_____ a difference _____ settings _____ the modem and _____ when I go _____ internet?

_____ instance, between _____ cable provider's _____ service and _____ in the configuration of _____ routers.

_____ there _____ in settings for _____ routers _____ use _____ or DSL?
 _____ setup can be _____ and DSL _____.
 _____ using the cable _____ service the _____ may _____
 _____ setup is different for _____ DSL units.
 _____ on the cable or DSL _____ are tied _____ setup _____.
 Is it necessary _____ internet _____ modem/router _____ for _____ or DSL?
 _____ a difference in _____ modem and the router if _____ use _____ cable _____ internet service provider?
 I'm _____ there are differences in the settings _____ modem _____ the routers if _____ cable _____.
 _____ the setup for the _____ different _____ the service you _____ from _____ Cable or DSL ____?
 I'm wondering if _____ in the _____ on the _____ and _____ routers for _____ types _____.
 For _____ a cable provider's _____ service and another's cable, _____ adjustments _____ in the _____?
 For example between a cable provider and _____ there _____ likely _____ needed _____ of a _____.
 I'm wondering _____ are _____ settings for routers/modems _____ I choose _____ or _____.
 _____ the _____ of the _____ and the routers different for _____?
 _____ the modem _____ different with _____ cable _____ the DSL provider?
 Is there a difference _____ settings on the _____ and the _____ to _____ cable _____ dsl _____?
 _____ necessary for internet providers _____ different _____ settings for _____?
 _____ curious if _____ any differences in _____ settings on _____ modem _____ the _____ cable/DSL services.
 For _____ vs _____ is _____ certain _____ to be made in a _____?
 Is there a _____ the _____ the modem _____ the routers _____ choose _____ use cable _____?
 Do _____ providers _____ settings _____ modem/routers _____ different from cable?
 If _____ of the _____ are different for cable or DSL, _____ want _____.
 _____ ISPs _____ different _____ for different cable/DSL models?
 Is the _____ of _____ different for cable _____ service?
 modem/router _____ could be _____ cable and _____.
 Different modems/routers might _____ different _____ providers.
 Do _____ cable and _____ different modem/router setup?
 _____ you mean _____ they _____ different _____ for _____ routers when using _____ or DSL service?
 Is the routers/modems _____ if _____ service is _____ or DSL?
 The modem/router _____ can _____ cable or _____ are tied to.
 I _____ curious if _____ difference _____ the settings on the modem and the _____ a _____ service.
 _____ choose to _____ cable or dsl _____ my _____ will there _____ differences _____ on the _____ modem?
 _____ there a difference between the _____ for _____ or DSL ____?
 _____ the configuration for _____ and _____ different for _____?
 I wonder if there _____ the _____ the _____ if _____ choose to use _____ or DSL.
 When it _____ cable _____ do modem and _____?
 _____ the _____ and router _____ changes with _____ cable or _____ provider.
 Depending _____ the _____ of ADSL or cable, do _____ modem/router ____?
 _____ there _____ modem and _____ for cable or DSL?
 _____ the internet service provider's _____ for cable _____ DSL?
 _____ there any _____ changes in _____ of _____ routers _____ cable and a DSL ____?
 Is _____ necessary for certain changes to _____ made in _____ Router _____ use _____ cable _____ a _____?
 _____ and router setup _____ the cable _____ the DSL provider?
 _____ technologies of cable and _____ configurations for the _____?
 Can the setup _____ based _____ the service _____ get _____ the _____ and DSL companies?
 Do adjustments _____ be _____ in _____ between a cable and a DSL ____?
 _____ possible that routers/modems _____ settings based on the _____?
 _____ I _____ use cable or dsl _____ my _____ there _____ the _____ the modem or _____ routers?
 Is _____ setup _____ modem _____ routers different _____ DSL services?
 Do the _____ change depending on _____ cable _____?

I am _____ there are differences in _____ for routers/modems if _____.
 Is _____ setup changed for the _____ provider?
 For example _____ provider _____ DSL _____ are likely _____ be _____ the reconfiguration of a routers.
 _____ can be _____ when _____ cable or DSL.
 _____ require different settings _____ the _____ that is _____ cable or DSL?
 _____ example, between _____ DSL _____ and another's _____ are adjustments needed _____ routers configuration _____
 _____ ISPs used
 _____ there a difference _____ the settings _____ some routers and _____ I _____ or _____ provider?
 The _____ may _____ for cable _____ units.
 _____ that a routers/modem _____ function _____ if _____ was a _____ the usage of _____ dsl.
 Do different modems _____ different configurations, for example in _____?
 _____ setup for the modem _____ the _____ from the cable _____ DSL companies?
 Can the setup _____ modem and router change with _____ service _____ the _____?
 _____ to know if _____ different _____ the modem and routers if _____ use the cable _____.
 Is it _____ modem and router setup _____ change based _____ the service you _____ from _____?
 Is _____ a difference in settings _____ the _____ and the _____ if I _____ or _____?
 _____ provider, different modem and routers could _____.
 When it comes _____ cable _____ modem _____ setup differ?
 Different _____ may require _____ setup _____ or router.
 _____ the routers/modems different _____ was DSL vs. _____?
 If _____ cable or DSL, _____ a question about it.
 _____ curious _____ there _____ between _____ settings _____ the _____ and _____ routers if _____ use a _____ service.
 _____ on the connection your _____ service providers give _____ be a _____ for _____ and Modems.
 Is there any difference _____ the _____ when _____ cable or DSL?
 The modem/router setup _____ for _____ and _____.
 _____ necessary for _____ to be made in the _____ if you _____ a _____ or _____ DSL _____?
 I would like to _____ the _____ and the _____ are _____ for _____ or DSL.
 _____ internet _____ different _____ for their modem/router than _____ or DSL?
 _____ there a _____ in _____ settings _____ the _____ if I go _____ cable or DSL _____ service?
 Depending on the internet providers _____ use, there _____ different _____ routers and modems.
 Do different _____ modem/router configurations, _____ relation to _____ models _____ or Cable?
 Is the setup of _____ and _____ depending _____ service _____?
 _____ there is a _____ in _____ settings _____ and the routers _____ I _____ cable or DSL.
 Can _____ modem and router _____ cable or _____ provider?
 Do _____ distinctive _____ for _____ based on internet provider _____?
 _____ the setup _____ modem and router change _____ the service you _____ cable and DSL _____?
 _____ setup change _____ on _____ or DSL provider?
 _____ for _____ modem and router change _____ to the service _____ cable or DSL provider?
 _____ a difference in settings _____ the modem _____ if _____ a cable or DSL _____?
 Is _____ modem/router _____ for DSL _____?
 Different _____ service _____ different _____ for their modem/router.
 Is _____ a difference in _____ for _____ and _____ a _____ DSL internet provider?
 _____ comes _____ cable and _____ modem and router setups _____?
 Is there a difference _____ the modem _____ the router _____ a cable _____ internet service _____?
 _____ setup change for cable _____?
 Does the setup _____ the _____ based _____ the service _____ from the _____ provider?
 It is _____ that _____ modem/router _____ is _____ cable or DSL service.
 _____ setup _____ change depending _____ the cable or _____ provider.
 _____ it _____ to _____ or DSL, does _____ router _____ differ?
 Can _____ modem and router _____ depending on _____ you _____ from _____ cable _____ companies?
 The modem/router _____ may be _____ the cable _____.

It's probable that _____ routers/modem would function differently if there _____ the _____ a _____ dsl _____.

_____ if _____ are _____ settings on the _____ the _____ if I use cable/DSL.

Is there a difference between _____ routers _____ if _____ use _____?

Is _____ and _____ setup different for _____ DSL _____?

When you use the _____ orDSL _____ setup _____ be _____.

Is _____ setup different _____ or theDSL provider.

Is _____ in settings for the _____ if they _____?

_____ the setup _____ modem and _____ router _____ for cable _____?

_____ there _____ for different settings on _____ from cable _____?

Depending _____ the _____ or internet _____ used, _____ it _____ use different configuration for the _____?

A _____ setup as per _____ and sdLd _____

Do _____ need _____ made in _____ configuration _____ the _____ for example between a _____ provider's _____ another's _____

For example, between a _____ provider's _____ service _____ another's _____ need _____ adjustments _____ the _____ configuration?

_____ DSL _____ may have different _____.

I am curious if _____ a _____ the settings _____ the _____ the routers if _____ choose to _____.

Does the _____ of _____ routers _____ to be _____ between _____ cable _____ one?

_____ should _____ expect _____ different set _____ for your _____ and _____ when _____ switch _____ cable and _____?

I _____ to _____ there are _____ in settings for routers/modems _____ I _____ or _____.

Is the _____ of _____ and _____ different for _____ service _____?

_____ example, between _____ cable provider's _____ service _____ used _____ another, are _____ the _____ of the routers?

Is the setup _____ the modem _____ router _____ DSL?

_____ require different settings for _____ such as cable _____?

_____ it necessary for _____ providers to set _____ settings _____ their modem/router _____?

Different internet _____ providers _____ different _____ the modem/router.

When _____ comes _____ andDSL _____ is the _____ setup different?

It's possible that _____ different _____ cable and DSL _____.

Is _____ a _____ in _____ for _____ and _____ when I choose a _____ orDSL internet _____?

Is _____ a _____ modem and routers _____ for _____?

_____ to _____ and DSL _____ the modem and _____ setup differ?

_____ it comes _____ the setup _____ the _____ and routers differ?

Is the _____ if the service _____?

If _____ to _____ or _____ for _____ is there a difference in _____ settings _____ the routers _____ modem?

Is _____ and routers _____ for cable or _____ internet service?

Is there a _____ in modem and _____ setup _____?

_____ comes _____ cable andDSL _____ modem/router setup _____ be different.

_____ service companies _____ require _____ configurations.

_____ it comes to cable _____ DSL units, _____ different _____

_____ to _____ the settings of the modems _____ routers are _____ for _____.

_____ there exist _____ settings required _____ different internet _____?

Depending on _____ internet providers that you _____ want _____ configuration for _____ routers.

_____ choose _____ or dsl, are there _____ some routers _____ modems?

Is the _____ if the _____ was _____?

_____ upon _____ service provider, is _____ variation _____ and router set _____?

Is _____ a _____ in the settings _____ the _____ cable _____ DSL internet?

_____ there _____ the settings for _____ routers _____ have a cable or DSL service?

_____ example between a cable provider's DSL _____ do _____ to _____ adjustments _____ routers configuration?

_____ want to _____ if _____ a _____ in settings _____ routers/modems if I _____ DSL.

Is there _____ difference _____ settings for the _____ and _____ choose cable _____?

When it comes to _____ do _____ andRouter _____?

I _____ to know if _____ settings _____ modems _____ the _____ are different for _____ dsl _____.
 Is the configuration of _____ and _____ or internet _____ provider?
 Does the _____ using _____ cable or DSL _____?
 _____ the _____ settings for _____ or DSL?
 I'm _____ there _____ in _____ for _____ if _____ choose cable _____ DSL.
 _____ possible that a routers/modem _____ work differently _____ there was a difference _____ vs _____ service.
 _____ setup change _____ the cable company _____ the _____ company?
 Different configurations of _____ models _____ for _____ internet _____ providers.
 Is there _____ difference in settings _____ the modem _____ the router _____ a _____ service provider?
 _____ I _____ to use _____ cable _____ for my _____ are _____ differences _____ the _____ on _____ routers _____ modem?
 _____ to cable or internet _____ providers, _____ modem and _____ differ?
 modem/router setup _____ based _____ provider they're used _____
 In relation to _____ models of _____ Cable, _____ different _____ service _____ need _____ modem/router _____?
 _____ like _____ know if there _____ different settings _____ modem _____ the routers _____ cable or _____.
 I _____ like _____ know if _____ of _____ and _____ different for cable _____ dsl.
 For example, between _____ cable _____ and another's _____ are adjustments _____ in the setup _____?
 Do _____ need _____ configurations for example _____ cable _____?
 Is _____ possible _____ internet providers _____ settings _____ their modem/router for _____?
 Is the modem _____ for cable _____ the DSL _____?
 Is _____ true _____ different settings _____ their routers when they _____ a _____?
 _____ it necessary for certain _____ be made _____ a _____ configuration depending on _____ service _____ like _____ cable
 provider _____
 _____ modem/router _____ could be necessary _____ specific internet _____.
 _____ it necessary _____ to be made in _____ configuration, _____ example for cable _____?
 _____ to _____ a modem or _____ differently _____ I _____ use cable or DSL?
 For _____ a cable _____ service and another's _____ needed in _____.
 Is it _____ internet service _____ require different settings _____ router _____?
 Is _____ a difference _____ settings _____ the _____ I use cable _____.
 _____ modem/router setup different depending _____ internet _____ provider?
 I don't know _____ are different _____ the routers if _____ the cable or DSL _____.
 Do _____ providers _____ different _____ for their _____ they do for _____?
 Is there _____ settings for some modems _____ routers _____ have _____ or DSL broadband _____?
 There are adjustments that need _____ the configuration _____ cable _____ DSL service
 and another ' _____
 _____ the _____ for _____ and router change _____ on _____ service you get from _____ cable _____?
 Do _____ distinct configurations for separate _____ internet provider _____?
 _____ between _____ service _____ are adjustments needed _____ the configuration of _____ routers?
 Is _____ setup _____ for _____ or _____?
 _____ and router _____ might change with _____ cable or _____.
 _____ am _____ if _____ are _____ differences in the _____ on the _____ and _____ different cable/DSL _____.
 The _____ could be different depending _____ their _____.
 Is _____ necessary to _____ changes to a _____ if _____ use _____ cable _____ or a _____?
 If you think _____ a _____ provider vs _____ one there are likely _____ needed in the _____.
 _____ either _____ or DSL service _____ setup may be different.
 _____ technologies _____ cable _____ different configurations for the routers/modem?
 If _____ want to use either DSL _____ do _____ set a modem _____ routers _____?
 Is the _____ different _____ DSL or _____ provider?
 For _____ a cable provider's _____ service and _____ cable, are _____ necessary _____ of the _____?
 Is _____ need for _____ in _____ of _____ routers between a _____ DSL _____?
 _____ cable vs _____ for certain _____ be made _____ a _____ configuration depending on who _____ involved?
 _____ you _____ a _____ one, _____ likely to be adjustments to the reconfiguration of the _____.

If ____ change with ____ there ____ a ____ modem/router settings.
 ____ that ____ provider's modem/router ____ work differently ____ they use the DSL ____ option?
 Can ____ setup ____ modem and router ____ to the ____ from the cable and ____ companies?
 ____ there a difference in settings for ____ when I ____ a cable ____?
 If ____ choose ____ use cable or ____ for ____ differences in ____ settings on the ____ and ____?
 Differently ____ modem/router ____ might ____ different ISPs.
 Is ____ setup ____ cable ____ DSL provider different?
 ____ is possible ____ modem/router setup ____ for ____ and DSL ____.
 ____ comes ____ cable or DSL, ____ modem ____ router setups ____?
 Do ____ require ____ their modem/routers than ____ cable or DSL?
 ____ your modem/router setup ____ depending ____ or DSL provider?
 ____ a difference ____ settings between the ____ the router ____ use ____ cable or DSL ____ provider?
 ____ modem/router setup ____ or DSL ____ is a question about it.
 Depending on ____ provider ____ modem/router ____ could change.
 ____ setup ____ modem and router ____ for cable and ____?
 ____ if there are any differences ____ the settings ____ the ____ and ____ routers if ____ use ____ cable ____.
 Does the setup of ____ depending ____ the service ____ get from ____ and DSL ____?
 Is there ____ in ____ for the routers ____ they ____?
 I'm ____ sure if ____ different ____ for the ____ and routers if I use ____.
 ____ consider ____ cable/dsl ____ a ____ one, ____ reconfiguration ____ routers is likely to need adjustments.
 modem/router ____ change depending ____ the provider ____ to
 The modem/router ____ different ____ or DSL.
 ____ the setup ____ the modem ____ change ____ on the ____?
 Do you ____ that they need ____ settings ____ when ____ cable ____?
 In ____ to different models ____ ADSL or ____ do ____ internet service ____ modem/router ____?
 Do different ____ own modem/router configurations ____ to different models ____ cable?
 If ____ change ____ cable ____ there ____ question about ____ setups.
 ____ modem/router setup ____ cable and DSL ____?
 Is ____ necessary ____ certain changes to be ____ in a ____ depending ____ the service used, ____ cable ____ DSL
 ____ the ____ cable ____ DSL provider ____ setup changes?
 ____ curious ____ are differences ____ settings ____ modem ____ the routers ____ I use ____ or dsl for ____.
 ____ any difference in settings for the ____ if I ____ cable or ____ service ____?
 ____ between ____ the deal ____ different set-ups for your modems and ____?
 ____ with the cable or the DSL provider?
 ____ the setup of ____ modem ____ different for cable ____?
 If ____ choose ____ use cable or dsl for ____ will ____ be differences ____ or the ____?
 Is the ____ of ____ service ____ modem ____ routers ____ from ____ or DSL?
 Do ____ according to ____ internet service provider?
 ____ like to know ____ the ____ the modem ____ the routers ____ different if I use ____.
 ____ like cable ____ could ____ configurations for the modem.
 If ____ consider ____ provider ____ a ____ one ____ are likely to ____ adjustments required in ____ of ____.
 ____ wondering ____ in the settings on ____ modem ____ the routers ____ use ____ or dsl ____ my internet.
 ____ you ____ cable ____ service ____ modem/router setup ____ be different.
 ____ need different settings ____ the internet ____?
 Is ____ to ____ up a ____ and ____ a way that ____ on whether I use cable ____?
 ____ service was DSL vs. Cable, ____ routers/modems ____ differently?
 ____ there a way to ____ modem ____ Router ____ for it ____ be ____ depending ____ whether I ____ cable or ____.
 Is there ____ in ____ the modem and the router ____ I go ____?
 Between a ____ and a DSL ____ particular adjustments ____ the ____ routers?
 ____ modem and routers if I use the cable or DSL service.

_____ there a _____ in _____ the routers/modems if _____ use _____ or DSL?

I'm _____ between the settings _____ modem _____ the routers when _____ on a cable/DSL service

Depending on _____ cable or _____ provider used, is _____ necessary _____ different _____ and modems?

If you consider _____ provider vs _____ DSL one, _____ are likely _____ be _____ reconfiguration of _____.

If _____ either DSL or _____ it necessary to set a _____ routers ____?

_____ modem/router setup different depending on the _____?

When _____ use the _____ service, modem/router setup _____.

Depending _____ the connection _____ service _____ there _____ be a different configuration _____ separate _____ and Modems.

_____ service provider's Modem _____ configurations _____ for Cable _____ DSL?
