

[Demo] NLP Dataset for Customer Service Automation

Company Type	Auto Repair and Maintenance Shops
Inquiry Category	Tires worn out and need replacement
Inquiry Sub-Category	Tire Pressure Maintenance
Description	Customers inquire about the ideal tire pressure for their vehicle, seeking guidance on proper inflation levels to maximize fuel efficiency, enhance handling, and prevent premature tire wear.
Data Size	9,719 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Auto Repair and Maintenance Shop" customer inquiry. (Purchased data will not be masked.)

_____ guide _____ on how _____ air _____ filled in each _____ so _____ not _____ safety _____ tread life?

_____ you have _____ advice _____ to fill up the _____?

What _____ air _____ my tires?

_____ be _____ tire so that it doesn't _____ out too fast?

What is _____ of air _____ that won't _____ safety?

What is the _____ air _____ to _____ tread _____?

Is _____ ensure correct adherence with _____ to _____ recommended _____ flow rates in _____?

How much air needs _____ tire _____ safe?

_____ the _____ amount of air _____ tire needs _____ to _____ safety?

_____ safety and long- _____ not compromised is what _____ amount of _____.

_____ air should I _____ tire so they don't _____?

Do you have any recommendations on how _____ air to use _____ there is _____ or _____?

_____ it _____ for _____ advise _____ optimal tire pressure?

I _____ know the _____ of air _____ be filled _____ every _____.

_____ possible _____ help maximize longevity _____ be safe by _____ tire _____?

Do you _____ suggestions _____ to how _____ air _____ be used for each _____ ensure no _____?

_____ suggest _____ much _____ should be _____ per _____ for safe _____ lifespan.

_____ you _____ the _____ air level?

How much air should _____ thrown into _____ so _____?

_____ it possible to advise _____ the _____ inflation _____ optimum _____ without _____ safety or tread _____?

Can you tell _____ how much _____ should _____ in _____ tire _____ order to _____ safety _____ life?

_____ you _____ if the _____ level _____ optimal tire performance without _____ safety?

_____ was _____ the _____ air per _____ was to save my hide _____.

Do you _____ a question about how _____ put in _____?

_____ there _____ way _____ advise on _____ tire _____ for _____ and _____?

_____ air should be put in each _____ as _____ safety?

_____ want _____ what _____ of _____ is for each tire.

_____ that I have _____ quantity.

_____ was wondering _____ safe _____ fill was for _____ tires _____ intact.

How much _____ needed per tire _____?

_____ suggest the _____ tire _____ level.

Can you recommend _____ tire _____?

_____ much air should _____ added per _____

What's _____ recommended _____ pressure to maximize _____?

How much _____ to have _____ performance?

Is _____ possible to _____ instructions for filling each _____ enough _____ hurt _____ or _____ life?

_____ amount of _____ it _____ maximum security without _____ longevity?

What _____ the _____ air _____ tire needs _____ work?

Please tell us _____ much _____ added to _____.

_____ is the recommended _____ each tire _____ be safe and _____?

_____ be able _____ on optimal tire _____ and longevity?

_____ you _____ me how _____ air _____ be _____ tire _____ order _____ not compromise safety or _____?

_____ you _____ on _____ right _____ pressure?

_____ tell _____ the right _____ level?

I have a question about _____ the tires.

How much _____ each tire to ensure _____ and long _____.

_____ air _____ I _____ in my tire _____ safety?

Can air amount _____ tire _____ harm _____?

What are _____ recommended tire _____ maximize _____ life?

Do you have a _____ on _____ much _____ used for _____ tire, _____ that _____ to _____ traction or lifespan?

How _____ bring in _____ tire?

_____ much _____ be _____ into each _____ keep it safe?

Is it possible _____ advise _____ level for ideal _____ compromising safety _____ tread longevity?

_____ curious _____ of _____ per _____ save my hide and tread.

Is _____ a way to ensure proper _____ to recommended _____ in _____ that _____?

Can _____ how _____ to use for _____ to ensure safety?

Do _____ know _____ knowledge on tire airfill _____?

_____ should _____ guidance regarding _____ tire inflation, considering _____ longevity.

_____ amount of _____ is _____ per _____?

How _____ air is needed _____ tread wear?

How _____ air _____ put in my tires _____ and _____?

_____ you please tell _____ appropriate _____ air _____?

Is _____ a _____ make sure that the recommended _____ rates _____ shorten _____ lifespan?

_____ tires _____ go _____ on _____ what's the _____ air _____?

Safe, last _____ much _____ for _____?

_____ lasting treads are not _____ is what _____ amount of air each tire needs _____.

_____ recommended amount of air _____?

_____ it _____ inflation _____ consider safety and _____ life?

What is _____ proper _____ pressure for _____ tires _____ go _____ me?

_____ is _____ question _____ the optimal amount _____ tire.

_____ wonder how _____ air _____ safety and _____ life.

_____ is _____ amount _____ inflation _____ tire for _____ performance _____ safety?

_____ tell me _____ proper _____ levels for _____ tires?

_____ into account _____ and _____ when advising on _____ amount _____ to _____ a _____.

How _____ air per _____ not harm safety _____?

_____ recommend _____ right _____ air level?

I _____ know how much _____ to put _____.

_____ do you _____ safe _____ fill for _____ and _____ intact?

What is _____ amount _____ is safe _____ tire _____?

Do _____ know the _____ to _____ each tire, _____ into _____ and longevity?
_____ the _____ levels in tires with _____ risks?

What's the _____ amount _____ for _____ that will _____ with _____ or tires' _____?

Can _____ me decide _____ ideal tire pressure, _____ on _____?

What _____ the _____ air _____ tire to _____ me?

How much _____ in my _____?

_____ it _____ inflation _____ life and safety?

Is _____ ensure correct _____ with _____ to _____ rates in tyres that doesn't _____ lifespan?

_____ much air _____ each tire _____ help it _____ longer?

_____ it possible to _____ tire inflation _____ longevity _____ be safe?

_____ have _____ to what _____ of air _____ used for each tire, _____ that no harm _____ come _____ the _____
_____ proper _____ pressure for _____ tires so they don't _____ kaput _____?

_____ you _____ filling air levels in tires?

Is there _____ air inflation _____ tire performance _____ safety?

How _____ air _____ be put _____ maintain safety?

_____ much _____ per _____ is appropriate _____ and safety?

_____ on filling _____ tires

_____ correct amount _____ air to fill _____ tire?

_____ regarding _____ tire inflation?

What _____ the safe _____ the tires and tread _____?

_____ do _____ I need to fill _____ tire?

I would _____ how _____ in each _____ taking into account safety and _____.

How much air _____ be _____ tire to _____ safety _____ life?

_____ the amount _____ air to _____ added _____ tire.

_____ to know how to _____ proper inflation _____ all _____.

_____ would like _____ if _____ could _____ on _____ airfill quantity.

Is it possible for you to _____ inflation _____ tire performance?

_____ know _____ much air you recommend _____ safety and _____.

Do you have _____ to _____ of _____ is appropriate _____ each tire, _____ that it won't _____ either _____

How _____ air _____ be put _____.

_____ am in need of _____ air should _____ put _____ tire.

How do _____ levels in tires with _____?

Can _____ me the proper _____ of air _____ each tire to _____?

_____ inflation level _____ safety/security?

_____ air _____ in _____ tire to help _____ last longer?

I _____ like _____ know the right _____ of _____ to ensure _____.

How _____ is _____ for _____ tire?

What's the _____ of _____ tire performance?

_____ there _____ for filling air _____ tires?

Is _____ best amount _____ air _____?

_____ and _____ impact on _____ life, _____ air _____ tire need?

Proper air _____ and lifespan

_____ you _____ me _____ maintain _____ levels _____ all my tires?

In _____ to _____ please provide _____.

_____ it possible _____ you _____ on optimal tire _____ and longevity?

What is _____ amount of _____ per tire _____ longevity?

_____ advice on how _____ air _____ be _____ in _____ tire.

Assist desired _____ both safe _____ and _____ lasting _____ inflating _____.

How much _____ required _____ each tire to ensure _____ long-lasting _____ are _____?

Do you _____ advice _____ how to _____ tires?

Do you _____ to _____ on _____ best _____ air _____?

What is _____ correct _____ - _____ and _____?

_____ need _____ much _____ should be _____ my tires.

How _____ should I put _____ tires _____ order to _____ safe?

Is _____ an _____ tire that won't hurt _____?

How _____ air per tire _____ health and _____?

_____ it possible to _____ instructions for filling _____ with _____ air, _____ to _____ safety or _____?

Do _____ suggestions _____ much to fill up _____ tires?

_____ you tell me how _____ to _____ for _____?

Safe _____ tread life: _____ air does each tire need?

While _____ tread life, _____ I inflate _____?

_____ of _____ safe _____ optimal tire performance?

Is it possible to _____ them safely _____?

Considering _____ measures and _____ tread durability, please _____ about proper _____.

_____ it _____ advise _____ a _____ air _____ level _____ compromising safety or _____ longevity?

Do _____ suggest _____ I _____ to fill each _____ for?

What _____ of _____ use _____ my tires?

_____ you be able _____ on the _____ tire _____?

We would like _____ know how _____ air _____ added _____.

Is there _____ approach to ensure _____ adherence with regard _____ in _____ tires?

How _____ of the air _____ in _____ tires _____?

_____ you give _____ filling each _____ not _____ jeopardize _____ or _____ life?

_____ it possible _____ ensure correct _____ with _____ to _____ airflow _____ in _____ that don't _____?

How much _____ does a tire _____ security _____ longevity?

How much air _____ the _____ for _____ riding?

_____ do we keep _____ wellbeing _____ longevity _____ inflating _____?

_____ guidance _____ filling the _____ with _____?

Where is the _____ so _____ tires _____ go kaput _____?

_____ how much air should _____ to _____ tire _____

_____ tire air level _____?

_____ to know how much air _____ be _____ a _____.

We _____ guidance on _____ both _____ measures _____ prolonging tread lifespan.

_____ me _____ the safe _____ of air _____ per _____ safety.

_____ the optimum amount _____ air?

_____ want to _____ should _____ give my tires.

How much _____ should be put into _____ tire _____ they _____ fast?

_____ help me determine the _____ pressure, without compromising _____?

Do you know _____ much _____ be _____ to _____?

_____ correct _____ for tire _____ and _____?

What's _____ proper air _____ for _____ don't go kaput on _____?

Can _____ help _____ out the optimum _____ on safety?

Please _____ pressure without compromising safety or tread wear.

_____ assistance _____ determining _____ air-fill _____ tire.

_____ amount per _____ good for _____?

Is _____ best _____ per _____ for safety?

Can you give _____ an _____ on _____ much _____ should _____ in _____?

Seeking assistance _____ calculating _____ per tire.

_____ me know the proper amount _____ to fill in _____ safety and longevity.

Do you _____ to advise _____ the _____ pressure?

Ensuring both _____ and long lasting _____ not compromised is what _____ amount _____ tire _____.
_____ possible _____ fill those tires _____ without _____ the _____ tread life?

How _____ I _____ my _____?

_____ you have _____ as _____ amount _____ air that _____ for each _____ well as the lifespan of _____ tire?

Seeking _____ with figuring _____ ideal air-fill quantities _____.

_____ assistance with determining _____ quantities per tire, _____ jeopardizing _____ security.

Do _____ should be _____ for each _____ that no harm will _____ to either traction or lifespan?

I would _____ to know _____ much _____ be kept _____.

Tell me _____ air should _____ a tire.

_____ for _____ with _____ air, _____ care not _____ safety or _____ life, can be provided.

Do you _____ the ideal _____ air _____ putting _____ danger?

Can you _____ much _____ should _____ in each _____ order to not _____ safety _____ tread life?

What _____ correct amount of _____ for _____?

_____ it possible _____ the optimum air _____ level for tire _____ or tread longevity?

If you _____ not jeopardize _____ can you give _____ filling _____ tire?

Please _____ inflation, considering both safety _____ longevity.

Do _____ know what the _____ tire _____ is without _____?

_____ it possible _____ give _____ for _____ tire _____ enough air _____ jeopardize safety or _____ life?

Can _____ the _____ air inflation _____ for _____ performance?

_____ want to know if _____ me _____ to keep proper inflation _____.

_____ have any _____ the ideal tire _____ pressure?

_____ provide guidance _____ inflation, _____ both _____ measures and tread _____.

You should advise _____ proper _____ of _____ each tire, taking _____ account _____ longevity.

_____ you please _____ me the proper _____ air to fill _____ tire, _____ and longevity?

_____ right amount of _____ tire that won't affect _____ lifespan _____ the _____?

What _____ most optimal _____ of _____ tire?

Should _____ the _____ tire _____ pressure without _____ safety or _____ at _____?

_____ it _____ you to _____ on _____ inflation and maximize _____?

What _____ should _____ in each tire?

Is _____ for _____ to impart _____ on tire _____?

Could _____ tell _____ correct _____ level?

_____ guidance on how much air _____ be _____ each _____.

What _____ the optimum level _____ per tire for _____?

How much air each tire _____ to _____ both _____ lasting _____ compromised?

_____ the _____ tire air _____ to _____ tread _____ and avoid safety _____?

_____ how much air should _____ kept in _____ tire.

What is the _____ of inflation per _____ for _____ safety _____ longevity?

Do _____ know _____ right _____ level?

There _____ question _____ the _____ amount _____ air for _____ performance.

What's the right amount _____ air _____ tires _____ mess _____ safety _____?

_____ to _____ on _____ for _____ tire performance without compromising safety or tread longevity?

Take into account safety and longevity _____ calculating _____ tire.

_____ to fill the air _____ tires with _____?

Can _____ maximize _____ with _____ tire _____?

Can _____ me the ideal tire pressure _____ tread _____ safety?

Seeking _____ determining _____ air-fill _____ tire.

Do _____ as to the amount of _____ used for _____ so that _____ won't cause harm _____

What is the right amount _____ air _____ keep _____ without _____ them?

_____ any _____ on _____ to fill up the _____ compromising my _____ lifespan?

Any advice on _____ the _____?

Do ____ have any suggestions ____ how much air should ____ for ____ that ____ doesn't ____ any ____?

How ____ air ____ need ____ my ____ to last?

____ much air should I ____ tire ____?

____ question ____ the safe ____ of air ____ tire performance.

Is ____ an ____ adherence with ____ to recommended air ____ rates ____ tyres ____ doesn't shorten their ____?

____ able ____ tell ____ how much air should be in ____ so ____ to ____ safety?

____ about tire ____ quantity ____ lifespan?

____ give knowledge on ____ airfill ____ and ____?

____ I fill my ____ with for ____ safety ____ wear?

____ is ____ best level ____ per tire for optimal performance ____ without ____?

____ air should be ____ in ____ taking ____ safety and longevity?

____ you ____ tell you ____ optimal tire pressure?

____ tire inflation, ____ kindly ____ me a solution.

____ you give me ____ on ____ to ____ with enough ____?

Which amount of ____ safe ____ optimal ____?

____ the ____ level ____ per tire ____ optimal ____ and safety?

____ should ____ sure ____ tires are inflated ____ safe way?

____ you ____ air for each tire to make it ____ longer?

How ____ air in ____ tires ____?

____ would ____ know how much air to ____ in each ____ account safety ____.

____ much ____ should be ____ in each ____ it ____ damage?

I ____ know ____ amount of air ____ each ____ that won't ____ safety or ____.

How much air ____ put ____ my tires ____?

____ be able to help ____ tire ____?

____ much air ____ tire so they don't ____ out ____ quickly?

____ much air ____ in each ____ so ____ not to compromise ____?

____ air should I blow ____ not ____ any damage?

Can you give instructions ____ each tire with ____ safety ____ tread life?

Is ____ to ____ these ____ without ____ safety or ____ life?

____ is the right ____ air to fill ____?

How much ____ be put ____ tire ____ they ____ wear ____ quickly?

Is it ____ the appropriate ____ air ____?

Can ____ me if the ____ inflation level is suitable ____ compromising ____?

Is ____ possible ____ adherence to ____ in tyres ____ doesn't shorten their ____?

Can ____ me how much ____ should be ____ tire ____ don't ____ safety?

What amount ____ air ____ in ____?

____ much air ____ for safety?

____ you ____ suitable air ____ level for optimal ____ without ____ tread longevity?

Can ____ inflation ____ help maximize longevity and be ____?

____ to fill ____ in ____ taking risks.

____ of ____ necessary ____ maximum security without ____ longevity?

What ____ recommended ____ air pressure for maximizing ____?

How much ____ is ____ for ____ not mess ____ or tire ____?

____ possible ____ you to ____ me how ____ proper inflation levels ____ all ____?

____ inflation for safety ____ tires?

____ correct ____ of air for ____ that won't ____ with safety or ____?

____ the amount ____ each ____ that ____ mess ____ safety or ____ lifespan?

____ should I inflate ____ in ____ safe ____?

Do ____ how ____ air should be used for ____ and longevity?

I'm ____ how much ____ be ____ per ____.

Is _____ to _____ instructions _____ filling _____ tire with enough _____.

_____ have a _____ safe tire _____?

_____ you _____ how much _____ is needed in _____ tire _____ I don't _____ safety _____ tread _____?

_____ much _____ to maintain _____ and longevity?

_____ know _____ amount of air for _____ ensure safety.

Do you _____ as to what _____ should _____ for each _____ so that _____ is _____ harm to the _____

_____ there _____ suitable _____ inflation _____ for ideal _____ performance without _____ or _____ longevity?

_____ any suggestions on _____ much air _____ be used _____ tire, _____ that no _____ done to _____ traction _____ lifespan

Proper air quantity _____ preserve _____ me.

Can _____ me how _____ inflation _____ in all the _____?

_____ much air _____ into my _____?

_____ are _____ assistance _____ determining _____ air-fill quantities per _____.

_____ it _____ to _____ inflation _____ sacrificing tread life?

_____ provide a solution _____ I can _____ tire _____.

_____ can I _____ air levels _____ with _____ risks?

_____ possible for _____ to tell me how to _____ all _____?

_____ you know how _____ correctly?

_____ would like to _____ appropriate _____ of air for each _____ longevity _____.

What _____ safe amount _____ air _____?

Do you _____ any suggestions _____ to how _____ should be _____ for _____ tire, so _____ there _____ harm _____ lifespan

_____ to know the appropriate amount _____ air _____ tire to _____ longevity.

Were _____ able _____ knowledge on tire _____?

How much _____ should be _____ each _____ to keep _____?

Can you _____ each tire _____ it doesn't endanger _____ or tread _____?

_____ do _____ need for _____ tires?

_____ can I _____ the air _____ in tires _____?

_____ tell me if _____ tire with enough air or _____?

_____ with determining _____ ideal _____ quantities _____ tire

Is there _____ airfill _____ that _____ impart safety and _____?

Can you please tell _____ air _____ be _____ per _____.

Is there _____ on _____ and _____ when inflating tires?

Is there _____ on _____ airfill quantity _____ could _____?

_____ is a _____ assistance _____ ideal air-fill quantities _____ tire.

How _____ air should I _____ tires _____ safety?

_____ should _____ put _____ tire in _____ to protect it?

What _____ optimal _____ air in my _____?

I would _____ to know _____ of _____ to ensure _____ safety and longevity.

Please tell _____ much _____ should be added _____.

Do you _____ any _____ on how _____ to _____ for _____ the _____.

How _____ air _____ we _____ tires?

Can _____ help maximize longevity _____ by using proper _____?

_____ is the best _____ air _____ to _____ and avoid _____?

_____ give _____ for filling each tire, _____ not to jeopardize _____ or _____.

How _____ I keep my _____ inflating my _____?

Is _____ suggest _____ ideal tire pressure _____ maximize _____ and driver's safety?

_____ can you _____ knowledge _____ quantity?

_____ me _____ tire air pressure without _____ safety _____ at risk.

_____ determining _____ air-fill quantities _____ tire.

_____ maximize _____ what is the recommended level _____ per _____?

Is it _____ the _____ tire pressure _____ maximize tread _____ driver's safety?

Can you _____ me _____ amount _____ air _____ in each tire, _____ into _____ safety and _____?

I need _____ the safe _____ fill _____ keepin' tires _____.

_____ amount of air each _____ needs _____ be safe _____ lasting?

_____ you suggest _____ best _____ inflation _____ for tire _____ without _____ or _____ longevity?

Please give _____ proper _____ inflation, considering both _____ durability.

What _____ amount of air per tire _____?

Can you explain to me how _____ all _____?

_____ air should I blow into _____ so they _____?

_____ the proper _____ air to put _____ tire, taking into account _____ and longevity?

How much air should _____?

Should _____ proper tire inflation _____ be _____ and maximize _____?

What's the _____ amount _____ for _____ tire _____ not mess with safety _____?

_____ both _____ measures and _____ durability, please provide guidance _____ inflation

What is the _____ amount _____ each tire to _____ with safety _____?

_____ want _____ know _____ safe _____ fill _____ for keepin' _____ and _____ intact.

_____ the right amount _____ each _____ to not mess with _____ lifespan of _____ tire?

_____ impart knowledge on _____ airfill _____?

_____ need _____ know _____ air needs to be filled _____.

To _____ recommended tire _____ pressure?

_____ much air per _____ guarantees _____ compromising _____?

Guidelines regarding _____ inflation should _____.

_____ determining _____ air fill quantities _____ tire.

_____ to _____ the right _____ inflation level for optimal tire _____?

_____ air should I _____ each _____ so they _____ eat _____ my money?

I _____ a _____ inflation _____.

How much air _____ I blow _____ to _____ them _____?

Information requested _____ air _____ tire.

_____ like to know _____ much _____ be _____ in each tire _____ not to compromise _____.

Can you _____ appropriate _____ inflation _____ for optimal tire performance without _____ longevity?

_____ give _____ for filling _____ taking care _____ not _____ safety or _____ life?

_____ seeking _____ with _____ ideal air-fill _____ per tire.

Is the _____ per _____ good _____ safety _____ tread?

_____ possible to advise _____ tire _____ safety and longevity?

_____ amount _____ air each tire needs to be _____?

What _____ of air _____ tire guarantees _____?

Should _____ tell me how _____ to _____ into account _____ and longevity?

I want _____ amount of _____ to save _____ and tread.

I _____ to _____ if you can _____ maintain _____ inflation _____ tires.

_____ air _____ tire _____ maintain safety and longevity.

How _____ air should _____ tires?

Is _____ possible _____ to _____ for _____ each tire _____ enough air _____ not jeopardize safety _____ tread _____?

How _____ air _____ put _____ each _____ make it _____ longer.

_____ much air _____ I let _____ tires?

Is _____ for _____ advise on optimal _____ for _____ and longevity?

How _____ air _____ for a _____ last?

Is _____ adherence _____ recommended _____ flow rates in tires that don't _____?

_____ assistance _____ ideal air-fill quantities _____ tire.

Do you _____ any recommendations _____ to _____ air is suitable for _____ tire, _____ will _____ to either _____ or _____?

Guidance is needed _____ much _____ be _____ in every _____.

Seeking _____ calculating _____ ideal _____ per tire.

Can you recommend _____ ideal air _____ performance _____ safety _____ tread longevity?
_____ is _____ correct _____ of air _____?

Seeking assistance with determining _____ quantities _____ each _____
_____ much _____ per tire _____ best _____.

Seeking assistance _____ determining _____ quantities _____.

_____ you have the _____ to advise _____ pressure?

_____ should _____ in each tire, so as not _____ compromise safety, _____?

I need _____ know how _____ to every tire.

If _____ want to _____ tread _____ what is _____ air _____?

How _____ given _____ the tires?

_____ the _____ amount _____ air to _____ each tire?

Can you give _____ proper tire inflation _____?

_____ there _____ precise air levels in tires?

How much air _____ be _____?

What are _____ best _____ to maximize _____ life?

_____ you _____ me the _____ of air _____ for _____ tire?

_____ with _____ the ideal _____ air-fill for _____ tire.

Safe and _____ negative effects _____ how much _____ does _____ need?

_____ give _____ on proper _____ inflation to _____ longevity and be _____?

How much air _____ for each tire to _____.

I _____ wondering if you _____ tell me how _____ maintain _____ my _____.

Is _____ to advise _____ the best _____ air _____?

Is the _____ my tires _____ go kaput on _____?

_____ the _____ of _____ for each _____ to get?

_____ is _____ proper amount of air _____ tire _____ won't mess with _____?

I _____ to know _____ air should _____ put _____ without _____ safety or tire _____.

Do you have any _____ as _____ air should be _____ each _____ so _____ harm _____ come _____ either _____ or _____?

_____ much air should _____ tires?

Please provide guidance _____ proper _____ inflation, _____ measures and _____ tread _____.

Is _____ possible you _____ for _____ tire _____?

_____ you tell me _____ proper amount of _____ each _____ to _____?

_____ the _____ to _____ a tire?

_____ much air _____ there be _____ the _____?

_____ possible _____ advise _____ a suitable air _____ for _____ tire performance _____ safety?

_____ much _____ can you _____ tires?

_____ much air should _____ be _____?

Please provide _____ regarding _____ inflation, _____ both safety _____.

_____ to know _____ right amount _____ each tire.

Do _____ how _____ proper _____ for all tires?

Tell me what the _____ of _____ per tire _____ my _____ and _____.

_____ tell me how _____ each _____ taking _____ account safety and _____.

_____ keep my tread life _____ inflate _____ tires?

_____ know _____ the recommended _____ pressure is to _____ tread _____?

Do _____ know what _____ of _____ be added _____?

Can you _____ me _____ air should _____ kept _____ tire?

I _____ to _____ much _____ should be _____ into every _____.

Can _____ give _____ instructions _____ filling _____ tire _____ enough air so _____ don't jeopardize safety _____?

_____ safe _____ fill _____ without ruining their _____ life?

How much air _____ safe?

_____ to know how _____ air should _____ added each _____.

I _____ how much _____ should _____ in every tire.

What amount _____ air guarantees _____ best _____ without _____?

_____ should I use for _____?

Can you _____ me _____ of air _____ for each _____ ensure _____?

_____ need _____ know the _____ amount _____ air for each _____ safety.

Please _____ tire inflation, _____ safety measures and longevity.

Please _____ much _____ be added to a _____.

_____ recommend how much _____ to _____ tire?

_____ it possible to _____ on proper tire _____ maximize _____ be _____.

How _____ fill air _____ in tires _____.

How can we _____ wellbeing _____ longevity when _____?

How _____ air _____ put into each tire _____?

How should _____ my _____ are inflated _____?

_____ air _____ each _____ have?

Is there _____ in my tires?

How _____ air should _____ the _____?

_____ how much air to use _____ tire to _____ safety _____ longevity.

How much air _____ put _____ tires without sacrificing _____?

How much _____ each _____ need in order for it _____ long _____?

Are you _____ knowledge on _____ quantity?

Please _____ me _____ much air _____ fill each _____ with, _____ safety and _____.

_____ a way _____ correct adherence _____ the _____ air _____ in _____ that doesn't shorten their _____?

_____ help _____ longevity by _____ advice on _____ inflation?

I _____ know what the safe air _____ is _____ tires _____!

How _____ air _____ be _____ each tire to _____?

_____ much air _____ is optimal _____ safety.

I _____ how much _____ should be _____ into _____ tire.

_____ how _____ should be _____ to a _____.

Do you _____ any recommendations for _____?

What _____ proper inflation _____ safety and _____?

How should _____ by inflating my _____?

_____ amount _____ is _____ for maximum _____ without _____ longevity?

_____ have _____ suggestions as _____ amount of _____ should be used _____ each _____ that no _____ will _____ done _____

_____ tire

_____ ought to be added _____ the _____?

_____ would _____ to know how _____ air should be kept in _____ so as _____.

Please advise on proper _____ and prolonging tread _____.

_____ much air _____ give _____ tires?

Can _____ tell _____ the ideal _____ pressure?

I would _____ safe amount of air _____ and tread.

Is _____ ensure proper _____ to recommended _____ flow rates _____ tires that doesn't shorten _____?

How _____ is _____ to ensure _____?

_____ right tire air level?

What is _____ safe _____ per tire to save _____ hides _____?

_____ want _____ the _____ air for each _____ that won't _____ safety or tires' _____.

Is _____ an appropriate _____ for each tire _____ longevity?

What's _____ pressure _____ maximize tread _____?

How _____ air _____ to stay safe _____ ruining them?

_____ to advise on the _____ tire _____ putting _____ at risk?

I _____ to know how _____ be _____ each tire _____ not to _____ tread _____.

_____ is the _____ for each _____ not _____ with the safety or lifespan of _____?

Could _____ tell me _____ level?

_____ want _____ how much air should _____ in each _____ not _____ safety.

_____ it _____ a tire inflation level _____ security?

_____ much _____ should _____ put _____ my _____ with?

_____ question mark _____ air do _____ for each tire?

Do you know anything _____ proper _____?

_____ know _____ correct _____ air level?

How can you advise on the _____ tire _____ maximize _____?

_____ there _____ air pressure _____ so they _____ go kaput _____ me?

How _____ put _____ to keep them safe?

_____ me _____ amount of air.

How _____ correctly?

_____ you _____ how _____ should _____ per _____ for safe operation?

Information is _____ how _____ air _____ tire _____ security.

_____ for _____ to give knowledge _____ tire _____ quantity?

_____ much air _____ tire in order _____ not compromise safety?

Is it feasible _____ you _____ advise _____ tire _____?

_____ recommend a _____ for ideal tire performance?

_____ advise _____ proper tire _____ maximize longevity _____ remain safe?

_____ need guidance _____ how much _____ should _____ filled _____ each _____.

_____ able _____ maximize _____ advising on proper tire inflation?

Do you _____ amount of _____ each tire _____ won't _____ safety?

Can _____ tell me how _____ inflation levels _____ all _____?

_____ any recommendations _____ how to inflated _____?

What is the _____ on safety and _____?

A _____ for assistance _____ determining _____ air-fill _____ per _____.

_____ much air should _____ put _____ my _____ for safety _____?

_____ life and _____ what's _____ right _____?

So _____ don't _____ kaput _____ what's the right air _____?

Instructions _____ filling each tire _____ should _____ provided.

_____ per tire for optimal performance and _____?

_____ it _____ for you _____ give _____ for filling _____ air?

What is _____ right amount _____ air for each _____ problems?

_____ proper _____ should be given.

Is _____ possible _____ on _____ tire inflation so _____ maximize longevity _____ safe?

Can _____ me the ideal _____ pressure _____ maximize _____ and _____?

Do you suggest how much _____ I _____?

How _____ air should I have in _____?

Do _____ have any _____ on how _____ a _____?

_____ correct _____ to the recommended _____ flow rates in tires?

For safety _____ is _____ best amount _____ air _____ tire?

_____ need _____ proper tire _____ considering _____ safety _____ and _____ tread longevity.

Is it possible _____ advise _____ the _____ air _____?

Can _____ maximize longevity and _____ safe _____ the _____ inflation?

_____ is the recommended amount _____ air each _____ to _____?

Can you _____ me _____ appropriate _____ of _____ tire to ensure _____ and _____?

You should _____ regarding _____ tire _____ safety measures _____ longevity.

To _____ safe, what _____ right _____ of air _____ them?

How much _____ should _____ put _____ each _____ protect it?

Taking into account safety and _____ please _____ amount of _____ fill _____ each tire?
 _____ give _____ on _____ tire inflation, _____ measures _____ longevity.
 Is _____ possible _____ you to _____ on the right air _____ tire _____?
 _____ it _____ for you _____ air _____ use for each tire?
 _____ air _____ I _____ the tires _____ they _____ bust _____ eat up my _____?
 What's the _____ air _____ tire so _____ ruin safety or _____?
 Information _____ the _____ of _____ tire.
 Do you _____ advice on how _____ put in _____?
 _____ want _____ recommend the ideal _____ pressure without _____ yourself _____ risk?
 _____ air _____ my _____ take in?
 How _____ must _____ put _____ my _____ to keep them _____?
 What's _____ safest amount _____ for _____?
 _____ to ensure _____ air flow rates in _____ that _____ shorten their lifespan?
 I need _____ safe _____ of air per tire _____ and tread.
 Proper air _____ lifespan
 _____ you know _____ air should _____ in _____ tires?
 _____ help _____ decide the _____ tire pressure without _____ safety?
 Is _____ for _____ to _____ on the appropriate _____ inflation level _____ tire _____.
 Do you have _____ about _____ should _____ use in my _____?
 _____ advise on the _____ tire _____ to maximize _____ and _____?
 Is _____ advised approach _____ ensure correct _____ with _____ to the recommended _____ tyres?
 How _____ per tire?
 _____ amount _____ air is needed per tire _____ guarantee maximum _____?
 How _____ air should _____ into _____ without sacrificing _____?
 _____ help with tire _____ without _____ or tread _____ risk?
 If _____ advise _____ tire inflation, _____ you help maximize _____ be _____?
 _____ much air _____ I _____ tire for _____ to last _____ long _____?
 Is _____ possible _____ optimal tire pressure _____ safety and longevity?
 _____ is the _____ of _____ per _____ recommended _____ performance _____ safety?
 Do _____ as _____ of air is _____ for _____ tire, so that no _____ will come _____ either _____ lifespan?
 Is it possible to _____ ruining safety _____ tread _____?
 The _____ amount of air _____ fill _____ takes _____ account safety _____.
 _____ amount of _____ tire guarantees optimum security _____?
 _____ give knowledge _____ tire airfill quantity?
 What is _____ amount _____ air each _____ have?
 What is the _____ air in _____?
 Do you _____ air fill _____ tires _____ tread _____?
 Guide _____ a _____ quantity.
 _____ you _____ the _____ air _____ is for keepin' tires and _____?
 What amount of _____ bring _____ tires for?
 _____ is the best amount _____ to give _____?
 How to _____ air _____ tires without _____?
 _____ possible _____ on _____ tire inflation _____ maximize longevity and _____ safe?
 Please _____ guidance on proper _____ both safety _____ prolonging tread _____
 We need to _____ be added per _____.
 Can _____ on _____ air inflation level _____ tire performance?
 _____ much air should _____ put _____ to _____ them safe _____ not _____ them?
 _____ of air _____ tire need?
 I want to _____ how _____ proper _____ all _____ tires.
 Any _____ how _____ air levels _____ tires with _____ risks?

_____ want _____ know _____ safe _____ for optimal tire performance.

_____ air _____ be put into _____ to _____ it last _____?
