

[Demo] NLP Dataset for Customer Service Automation

| | |
|-----------------------------|---|
| Company Type | Car Dealerships |
| Inquiry Category | Accessories and customization inquiries |
| Inquiry Sub-Category | Towing and Hauling Equipment |
| Description | Customers seek information on adding towing capabilities or upgrading existing ones, including trailer hitches, brake controllers, and adjustable suspension systems. They often inquire about weight capacities, towing restrictions, and installation procedures. |
| Data Size | 5,135 paraphrases |
| Want to buy data? | Please contact nlp-data@gross.me via your business email address. |

Masked sample paraphrases of one "Car Dealership" customer inquiry. (Purchased data will not be masked.)

What _____ of installing an _____ suspension _____ specifically _____ for heavy _____?

_____ benefits _____ adjusting suspension for _____?

I'm _____ about the _____ installing _____ adjusting _____ system.

_____ the installation of _____ suspension system for _____ heavy trucks _____?

I'm wondering about _____ a _____ adjustable suspension _____ for _____.

What _____ the _____ having a suspension system _____ designed _____?

There are _____ have a _____ system _____ heavy _____.

There are _____ installing _____ suspension _____ specifically for _____ trucks.

What are the advantages of _____?

What _____ of _____ a heavy _____ suspension system.

_____ does an adjust _____ needs?

_____ tell _____ about the advantages _____ installing a heavy-duty _____ system _____?

What _____ benefits of _____ a _____ haul suspension system _____?

_____ does _____ adjusting _____ help heavy-duty _____?

_____ are _____ benefits of installing _____ heavy hauling?

There _____ be benefits _____ suspension system for _____ loads.

Can _____ tell _____ of installing _____ heavy-duty _____ for hauling?

_____ you have _____ the _____ fitting a heavy-duty suspension _____?

_____ I _____ from _____ vehicle's _____ to carry heavy loads?

The _____ of having _____ suspension system _____ are _____.

The _____ of _____ suspension _____ designed for _____ asked.

What _____ the _____ a suspension _____ heavy Haulers?

_____ suspension system designed _____ Haulers _____ benefits.

_____ of adjusting _____ for _____ Hauling.

_____ of _____ suspension _____ hauling has _____.

What _____ a _____ system designed for _____ bring?

Is it _____ to install _____ to _____ big transport _____?

_____ you _____ an _____ suspension _____ for _____ heavy _____ what _____ you enjoy?

There ____ perks of ____ a specific suspension _____.
Installation of ____ ideal suspension _____ heavy trucks _____ you.
_____ be gained if you _____ ideal suspension system to _____.
_____ heavy-duty _____ what perks are _____ for _____ custom _____?
_____ specialized suspension for _____ loads?
I want _____ the advantages of _____ suspension system.
_____ suspension mod help when _____?
_____ benefits are _____ having a suspension system _____ for _____?
What perks _____ heavy-duty suspension system _____ loads?
_____ are _____ benefits _____ system for hauling heavy loads.
_____ the advantages of fitting _____ suspension system.
_____ are _____ to _____ suspended system that is specially _____ heavy _____.
How does _____ suspension benefit _____?
There _____ using custom _____ heavy-duty hauling.
What _____ of putting _____ a load-hauling _____ on a _____?
_____ some of the _____ having a _____ specifically made for hauling _____?
_____ are _____ have _____ suspension _____ for heavy trucks.
There _____ having a suspension system _____ for heavy _____
_____ is _____ choosing _____ specially formulated suspension _____ transporting heavy _____?
_____ are perks of utilizing an _____ suspension _____.
When _____ hauling, are there _____ adopting a _____?
Installation _____ ideal _____ system to carry _____ may gain _____.
_____ can the _____ help _____ pulling _____ loads?
What _____ from _____ ideal suspension _____ carry heavy cargo?
Can _____ tell _____ about the _____ of installing _____ suspension _____ for _____?
Is _____ benefit from _____ suspensions _____ heavy loads?
_____ the _____ of _____ a _____ formulated _____ built _____ heavy cargo?
_____ be adjusted _____ benefit heavy-duty transportation?
Installation _____ an _____ to carry _____ equipment _____ have benefits.
Installation of suspension _____ some _____.
_____ there _____ advantages _____ fitting a heavy-duty _____ system _____ loads?
_____ you _____ an _____ system specifically used for hauling _____ what _____ be _____?
Benefits of using specialized _____?
Installation _____ a suspended system _____ designed _____ heavy _____ has many _____.
Installation of specialized suspension _____ hauling _____.
_____ a suspension system _____ for _____ what are the _____?
_____ suspension mod helpful _____ loads?
_____ there _____ to tailoring _____ heavy transport?
What are _____ a _____ suspension system _____ loads?
_____ advantages to fitting a heavy-duty _____ loads.
What _____ can a _____ hauls provide?
There are _____ to adjusting suspension _____.
What benefits might _____ gained _____ you install an _____ heavy _____?
Can you _____ me about _____ advantages _____ heavy-duty _____?
_____ can I _____ from _____ my _____ suspension system _____ carry _____?
Can _____ heavy-duty _____ advantages?
_____ the _____ to be _____ from having a suspension _____ made _____ trucks?
_____ are benefits of _____ suspension _____.
_____ is the advantage of _____ formulated _____ for _____ heavy cargo?
There _____ to having a _____ system designed _____.

How do _____ needs _____ changing your suspension?

What will _____ benefits of _____ system for _____?

An _____ suspension system for _____ trucks _____ have _____.

_____ you _____ me _____ the _____ adding _____ system for carrying _____ loads?

_____ the benefits of _____ suspension system _____ for _____ heavy _____?

_____ suspension adjustments for _____?

What _____ may _____ you _____ an ideal _____ system _____ heavy trucks?

What are _____ of _____ of _____ system _____ heavy hauls?

Does _____ to install _____ heavy-duty suspender _____ hauling _____?

_____ there any _____ to _____ a _____ system _____ for heavy _____?

_____ you _____ an _____ for hauling heavy loads, _____ will _____ gained?

Benefits _____ specialized _____ heavy loads.

Do custom _____ handle heavy _____ come _____ advantages?

_____ a suspension _____ made for _____ hauls will _____.

_____ is _____ benefit of choosing a specifically formulated _____ cargo?

_____ installing specialized suspension for _____ hauling.

_____ is the advantage of _____ a _____ involving _____ cargo?

_____ any benefits _____ suspension _____ for heavy hauling?

_____ suspension designed to _____ large _____ have _____ advantages?

The advantages _____ heavy hauling

_____ the advantage of _____ a specifically formulated _____ cargo _____?

What are _____ advantages to having _____ suspension _____?

What _____ a suspension system _____ for heavy _____?

_____ installing specialized suspension _____ hauling _____?

_____ would _____ benefits of a _____ system for _____?

_____ are the _____ a suspension system specifically _____ for _____?

What are the _____ of _____ suspension _____ for heavy _____.

_____ the _____ mod help _____ pulling heavy _____?

_____ does _____ an adjust _____ transport?

What are the advantages _____ suspension _____ for _____ loads?

What benefits _____ suspension system _____ for heavy _____?

There are some benefits to have a _____ for _____.

_____ are _____ a custom heavy-duty _____.

There are _____ a _____ system that's _____ made _____ hauls.

There _____ custom suspension in _____ hauling.

How can a _____ specifically _____ needs _____ heavy _____?

_____ benefits _____ a suspension system specially made _____ hauling _____.

_____ is the advantage _____ a _____ formulated suspension _____ transportation with _____?

Can you talk _____ the _____ of _____ system _____ can carry _____?

_____ are _____ of using a specific suspension _____.

_____ suspension _____ for heavy hauling?

_____ are _____ benefits _____ a suspension _____ for hauling _____ loads?

_____ are benefits _____ adjusted suspension.

There _____ have a _____ system _____ made for _____ loads.

_____ the suspension designed _____ cargo give _____?

_____ suspension _____ specially made for _____ heavy loads, what _____?

_____ the benefits of installing _____ haul _____ system?

Installation of an ideal _____ system for _____ may _____.

_____ choosing a _____ formulated suspension for _____ with heavy cargo?

What _____ the _____ of choosing _____ specifically _____ for heavy _____?

Are there benefits _____ for _____?

_____ an _____ suspension system that _____ specifically used for hauling heavy _____.
