

[Demo] NLP Dataset for Customer Service Automation

Company Type	Electricity Suppliers
Inquiry Category	Power outage reports and updates
Inquiry Sub-Category	Outage safety
Description	Customers seeking guidance on how to stay safe during a power outage and mitigate risks.
Data Size	11,241 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Electricity Supplier" customer inquiry. (Purchased data will not be masked.)

_____ homeowners _____ circuit breakers _____ a power interruption _____ safety?

Is _____ shut down their primary _____ interruption device _____ of power loss _____ in mind?

Should homeowners _____ off their circuit _____ when _____?

Is _____ good idea for _____ keep _____ circuit breakers _____ during _____ cut?

Is it _____ idea to stop _____ when _____ out?

_____ their circuit _____ the event of a power _____?

_____ it permissible for people _____ switch off power _____?

Is it _____ shut down the circuitbreakers _____ electricity _____?

Should _____ switch off their _____ of a power _____?

Can _____ safer _____ the _____ shut down the _____?

_____ breakers in _____ homes be _____ during _____ cuts?

_____ no _____ is _____ advised for homeowners to _____ off their _____?

Should _____ switch _____ their _____ during times of _____?

Is _____ better _____ circuit _____ during a _____ loss?

_____ homeowners _____ off _____ in the _____ of a power _____?

_____ faced _____ an unexpected power _____ homeowners prioritize _____ circuit _____?

Do circuit breakers _____ turned _____ when there _____ interruption?

Is it _____ for _____ to _____ breakers?

Is _____ a _____ idea for homeowners _____ their _____ breaker turned off _____ there _____ electrical supply?

_____ it make _____ for _____ turn off circuitbreakers _____ a _____?

_____ it a _____ power down their circuitbreakers?

Do homeowners _____ to _____ breakers when _____ is _____ power _____?

Should homeowners turn off their _____ cut?

Circuit breakers should _____ times of _____ failure.

_____ a safer _____ for _____ to _____ down circuitbreakers?

In case of _____ black-out, _____ circuitbreakers?

Should _____ circuit breakers _____ turned _____ during _____ power _____?

_____ safer for owners _____ take _____ bad _____ the grid quits?

_____ would like _____ if disabling _____ circuit _____ for security _____ wise.

Is _____ to _____ off the circuit breakers _____ power _____?

Should _____ disabled _____ circuits _____ case of a _____?

_____ for _____ to switch _____ circuit breakers _____ event of a power _____?

Is it a good idea _____ main _____ during power failures?

Is _____ safer for households to _____ their circuit _____ out?

The circuit _____ in our homes _____ be _____ down _____.

_____ the circuit breaker wise _____ outage for security _____?

Is _____ wise to shut _____ circuit _____ cuts?

_____ it _____ have _____ off when the electricity goes out?

Should circuit breakers _____ turned off _____ a _____ security measure?

_____ wise _____ down electrical _____ during power interruption?

_____ residents enhance safety _____ electrical circuits _____ power _____?

Is it _____ switch _____ my _____ power failure?

_____ it be a _____ turn off their _____ when they _____ electrical supply?

Is it _____ turn off _____ a _____ failure?

_____ it _____ switch off my circuit _____ power goes _____?

If _____ off my circuit breakers _____ power _____ out, _____ it _____?

Is it better _____ to _____ circuit breakers during _____?

Is _____ for homeowners to use cut-off switches _____?

When there's no _____ is _____ good idea _____ the _____ breakers?

_____ circuitbreakers _____ off when _____ is no _____ a _____ measure?

When the _____ off, _____ homeowners cut _____ breakers _____?

Does a home _____ during _____ out _____ service?

_____ a necessity to _____ off our _____ power interruption?

If _____ have a _____ cut, _____ off _____ circuit breakers?

Is _____ a _____ idea _____ to turn off their circuit breaker _____ a loss _____?

_____ breakers _____ be turned off _____ a electricity _____?

_____ me if people _____ switch _____ power _____ when _____ goes out?

_____ homeowners need _____ shut _____ if they lose _____?

_____ it _____ to have _____ your circuit breaker off _____ the _____?

When the _____ goes out, _____ we _____ have _____ circuit _____ down?

Can _____ breaker _____ when there's a _____ outage?

Do homeowners _____ to _____ off _____ in the _____ of _____ power _____?

_____ homeowners need to turn _____ their _____ when the _____?

_____ switch _____ circuit breakers when the power _____?

Is it _____ for _____ cut-off _____ on _____ during a power failure?

Is it a _____ idea for _____ their _____ circuit breaker during _____.

_____ circuit _____ off when _____ no power as _____ measure?

_____ homeowners switch _____ in _____ event _____ a power shortage?

Is it ok _____ homeowners _____ during power failures?

_____ circuit _____ to _____ turned off when power _____?

_____ faced with an unexpected _____ shortage, _____ homeowners _____ their _____?

When power _____ circuit breakers _____ off?

_____ safer _____ owners _____ the bad _____ off _____ grid quits.

_____ safe _____ homeowners _____ turn off _____ circuit _____ a power loss?

Is _____ homeowners to turn off _____ circuits _____ electricity?

Would cutting the _____ of _____ via circuit _____ safe _____ during _____ failure?

Do _____ think _____ is _____ homeowners to switch off _____ circuitbreakers?

During _____ power interruption, is _____ necessary _____ circuitbreakers?

_____ homeowners need _____ down circuit _____ if _____ power outage?

Is it a _____ for residents _____ off _____ main circuit _____ during _____?

Should households _____ circuit _____ turned _____?

_____ we _____ power circ should be switched off _____?

_____ circuitbreakers _____ off _____ case _____ black-out?
 _____ need to be shut _____ power _____?
 If _____ power goes out, _____ it wise _____?
 _____ out is it _____ to close _____ breaks?
 Do residents _____ to _____ the _____ for _____?
 _____ loss _____ people turn off household circuitry?
 _____ it safer for _____ to _____ all their circuit _____ when the _____?
 Is _____ a good _____ for _____ to turn off _____ circuit _____ goes _____?
 _____ there was a _____ should circuit _____ off?
 _____ circuit breakers be turned _____ in _____?
 _____ residents _____ their safety _____ disabling their _____ circuits _____ power _____?
 _____ circuit _____ during an emergency?
 _____ circuit breaker _____ homes _____ shut _____ during _____ power failure?
 _____ to close circuit _____ in case _____ a power _____?
 When faced _____ a power failure, _____ homeowners _____ deactivating _____?
 _____ it _____ for residents to _____ off _____ circuit _____ during _____ cuts?
 When the _____ should homeowners _____ circuit breakers?
 Is _____ the circuit _____ a _____ idea _____ power _____?
 There _____ security reasons _____ disabling _____ a power _____.
 Do you think _____ should switch _____ their circuitbreakers _____?
 Is it necessary _____ turn _____ circuit _____ during _____ power _____?
 The _____ off for safety.
 _____ the power goes out, _____ cut off _____?
 Do _____ think _____ switched off _____ a power loss?
 During _____ electricity shortage, _____ circuit _____ to _____ turned _____?
 Does it _____ for homeowners to shut _____ circuitbreakers _____?
 In power outages, _____ breakers?
 Is it _____ off their circuits during _____ power _____?
 Can it be _____ breakers _____ shut _____?
 Do circuit _____ to be disabled _____ there _____ interruption?
 Is _____ ok _____ people _____ off _____ power circ if it _____?
 _____ cut _____ circuits when _____ is a _____ failure?
 _____ circuit _____ be _____ way to _____ safety.
 _____ breakers _____ be _____ off during _____.
 Do _____ to _____ down _____ breaker _____ of _____ power failure?
 Should the homeowners _____ off _____?
 _____ it _____ idea for _____ to shut down their circuits _____?
 _____ residents _____ safety _____ disabling _____ circuits during power _____?
 Is it safer for homeowners _____ switches _____ their circuit _____?
 _____ shutting _____ breaks _____ wise to keep _____ secure?
 _____ it be _____ for homeowners _____ their _____ breakers during _____ cut?
 _____ I _____ shut _____ circuit _____ when the power goes _____?
 Should _____ in _____ shut down _____ safety _____ power disruptions?
 Is disabling circuit _____ good _____ during _____ loss?
 When _____ power cut _____ should homeowners turn _____?
 _____ off _____ in _____ of a power outage?
 When the power _____ do _____ have _____ off _____ breakers?
 _____ it safe _____ households _____ have all their _____ the electricity is _____?
 _____ circuit breakers be _____ a _____?
 _____ homeowners switch _____ their _____ breaker during _____ power _____?

During _____ outage is _____ safe _____ to _____ off _____ breakers?

Is it _____ to _____ the _____ the _____ goes out?

_____ power _____ occurs, should homeowners turn off _____?

_____ an _____ people shut down the _____?

_____ sense _____ homeowners to turn off _____ circuit breakers _____ a _____?

_____ breaker _____ our _____ be shut down during power _____?

_____ circuit _____ to be _____ during a power _____?

_____ it advisable to shut down _____ interruption?

_____ off _____ when the power goes out?

_____ possible _____ people _____ off the _____ circ when it goes _____?

During an _____ shortage, does _____ safety require _____?

_____ there is a power _____ do _____ need _____ turn off _____?

Wouldn't _____ safer _____ homeowners _____ cut-off switches _____ their _____ an emergency?

_____ it _____ homeowners shut down _____ breakers during _____ disruptions?

_____ you switch _____ breakers?

Should homeowners turn off _____ circuit _____ power _____?

_____ homeowners switch _____ the circuit _____ at _____ of _____?

_____ power loss _____ home, should _____ breakers _____ down?

Do homeowners _____ when power is out?

Is it advisable for residents _____ circuit _____ is a power _____?

_____ need to close _____ breakers _____ goes out?

_____ you think _____ should be _____ during a power _____?

Is _____ possible to _____ off _____ circuit breakers when _____?

Is it _____ a homeowner to _____ circuit _____?

Residents should _____ circuits _____ protection.

Do we really _____ shut down _____ electricity goes _____?

Is _____ homeowners to power down _____?

_____ it make _____ for _____ to turn _____ when _____ power _____ out?

If there _____ black-out, should folks _____ off _____?

_____ it _____ for households _____ circuit breakers off _____ is off?

_____ necessary _____ off the _____ during power cuts?

Should _____ be _____ off _____ power _____?

Is it _____ for _____ to _____ their _____ there is _____ interruption?

I _____ disabling the circuit _____ for _____ reasons _____ wise.

_____ your _____ off _____ you safe _____ a _____ outage?

Is _____ homeowner _____ to _____ down electrical circuits?

Should homeowners switch _____ their _____ breakers _____ a _____?

Is _____ for homeowners to _____ switch _____ circuit breaker _____?

_____ circuit breaks be _____ goes _____?

Should the circuits _____ protection?

_____ power failures _____ homeowners _____ off _____ breakers?

Should they _____ off _____?

Is _____ idea for _____ to _____ using _____ home's primary _____ interruption _____ power is out?

_____ a good _____ homeowners _____ turn _____ their circuitbreakers _____ there is a _____?

Can residents _____ their _____ safety _____ disabling _____ electrical _____?

_____ it wise _____ to switch off _____ of _____ failures?

Can _____ if it's safe _____ turn off the _____?

When there _____ a power _____ off their circuit breakers?

_____ switch _____ circuitbreakers when _____ is _____ failure?

Do we _____ to shut down the _____ the _____ out?

_____ need _____ be turned off during _____ interruption for _____?

During a _____ loss _____ can circuit _____ shut _____?

When _____ electricity goes out do _____ really _____ shut down _____?

If _____ homeowners switch _____ circuit _____?

Do homeowners _____ to _____ a power loss?

Should _____ stop _____ breakers?

_____ off _____ circuit breakers _____ power is out?

Do _____ to _____ off circuit breaker _____ failures?

I _____ households _____ off their _____ breakers.

Should circuit _____ be shut _____ goes _____?

_____ off circuit _____ are a good _____ for _____?

Do circuitbreakers _____ turned off when _____ power _____?

_____ a good _____ homeowners _____ their circuit breakers _____ the power goes _____?

Should _____ deactivating their circuit _____ during _____ outage?

Should _____ switch _____ circuitbreakers _____ case _____ a _____ failure?

When power _____ out, should _____ down _____ keep _____ secure?

_____ the _____ goes out, _____ homeowners switch _____ breakers _____?

_____ turn _____ circuit breakers when there is _____ power _____?

_____ it _____ good idea to _____ down _____ breaks _____ is out?

Do _____ breakers need to _____ turned off if _____?

_____ it wise for residents _____ remove _____ primary _____ interruption device in _____ of _____ due _____?

_____ the _____ out, _____ we really need _____ shut _____ circuitbreakers?

Is it _____ homeowners to _____ during _____ cuts?

_____ wise _____ to _____ rid of _____ circuit _____ device in times of power _____ with _____ in mind?

Would it be _____ residents _____ turn _____ primary _____ interruption _____ during times _____ power loss _____ safety concerns _____?

_____ we _____ down _____ circuit breakers _____ our _____ during power _____?

If owners flick _____ boys _____ when _____ grid _____ it _____ be _____.

Do _____ shut down circuits when _____ power failure?

Do you _____ should switch _____ breakers _____ times of _____?

Is _____ good idea _____ residents to _____ use their _____ device _____ times _____ loss because of _____ concerns

Is _____ necessary to _____ off _____ power cut?

_____ power goes _____ homeowners switch off their _____?

Is it a good idea _____ to switch off _____ when _____ is _____ of _____?

_____ turn _____ circuit breaker _____ case of a _____?

_____ it _____ for residents _____ stop _____ circuit interruption device _____ times _____ power loss _____ to _____ concerns?

_____ power goes _____ breakers off.

When _____ goes _____ I _____ off my _____ breakers?

_____ safe for _____ their circuit breakers _____ off?

_____ it a _____ idea _____ shut down the _____ breakers _____ our _____ power _____?

Should _____ be turned _____ in _____ accident?

Do _____ recommend _____ down _____ when _____ is out?

Would it be a _____ idea _____ homeowners _____ off the _____ when _____ a loss _____ supply?

_____ a _____ failure, should homeowners shut off _____?

_____ it advisable _____ homeowners _____ circuitbreakers during _____ power outage?

_____ circuit breakers _____ off.

In case of _____ black-out, _____ people _____ the _____?

Is _____ shut down _____ if power goes _____?

_____ residents _____ their safety _____ disabling _____?

_____ homeowners _____ shut off circuit breakers _____ power _____?

If _____ cut, should homeowners turn off _____ breakers?

Shouldn't homeowners turn off ____ circuit ____ power ____?

Is it ____ homeowners ____ their circuit breaker ____ during a power ____?

Is it ____ stop circuit ____ during a ____?

____ it ____ good ____ homeowners to shut down ____ circuits ____ a ____?

____ the power goes ____ should homeowners ____ off ____?

____ off ____ circuits ____ power failures?

When there's no ____ circuitbreakers turned ____ measure?

____ circuits ____ when power is out?

Do ____ think ____ idea for homeowners to turn ____ circuit ____ during ____ outage?

____ homeowners turn ____ their ____ power cut for ____?

Is ____ people to ____ down ____ during an outage?

Would it ____ wise ____ to ____ primary circuit ____ when the ____ goes out?

Should ____ circuit breakers in ____ homes ____ powerouts?

____ we ____ to ____ down ____ circuitbreakers when ____ power ____ out?

____ it a requirement ____ homes ____ have switched-off ____ out ____ service?

Do ____ cut ____ their ____ breakers when ____ goes out?

Is ____ for homeowners to ____ circuit ____ during a ____?

Should ____ to turn ____ their circuit ____ case of ____ cut?

Should ____ protection be turned ____?

Should circuitbreakers ____ during ____ failures?

Is ____ necessary ____ off ____ circuits ____ a ____ failure?

____ the power ____ out, should ____ off household ____?

Do homeowners have to shut down ____ there ____?

____ it safer for ____ to ____ off circuits ____ is ____?

____ think ____ should ____ their ____ during power failures?

Is it advisable ____ circuit breakers ____ electrical disruptions?

Is it ____ for residents to ____ their ____ a ____ interruption?

____ it ____ switch ____ breakers?

Is it a ____ idea ____ to switch ____ breakers?

____ safer for households ____ have ____ circuitbreakers off when ____ is ____?

Is ____ okay for homeowners to ____ circuitbreakers ____ a ____?

In the ____ a ____ outage, ____ off their circuit ____?

____ safe for ____ stop using ____ circuit breakers?

____ circuit ____ shut down ____ power ____?

____ with a power ____ should homeowners ____ circuit ____ panel?

Should ____ circuit breakers be shut ____ power ____?

____ circuit breakers ____ down ____ of a power cut?

Is ____ safe ____ off their circuits ____ power goes out?

Is it a ____ idea ____ to shut ____ a ____ shutdown?

____ is out, do ____ to ____ off circuit breakers?

____ the ____ goes out, ____ we really need ____ down?

____ there is no electricity, can ____ their ____?

Do ____ it's worth it ____ turn ____ circuit ____ there's ____ cut?

____ safety since ____ is gone?

____ homeowner ____ require ____ breakers?

____ if it's ____ for ____ power down circuit breakers.

In ____ failures, ____ switch off circuitbreakers?

When ____ with ____ power ____ should ____ deactivating their ____ panel?

____ homeowners ____ their ____ power cut in ____ to protect themselves?

When there ____ it ____ good idea for ____ to ____ circuit breakers?

_____ to turn _____ the _____ breakers?

_____ off their circuit breakers _____ a power cut _____ security?

When _____ is out, _____ breaker _____.

Do _____ advise _____ to _____ off their _____ a _____ outage?

Should _____ off power _____ there _____ a power _____?

Should _____ shut _____ during power _____ for _____ security?

_____ wise _____ off their _____ in case of a power outage?

Is _____ wise _____ stop _____ power goes out?

Is _____ necessary to _____ a power interruption?

Is _____ okay _____ homes _____ require _____ circuit breakers during _____?

Do you recommend _____ homeowners switch _____?

_____ circuit breakers should _____ turned off _____?

When faced _____ an _____ power _____ should _____ delude _____ circuit _____?

When the power _____ out _____ circuit breakers?

_____ is _____ electricity, _____ homeowners advised to _____ the circuitbreakers?

During _____ power outage is _____ homeowners _____ circuit breakers?

_____ national safety regulations tell _____ to _____ during _____ failures?

_____ loss, does _____ circuitbreakers increase safety?

Is _____ possible to shut _____ breaker _____ an _____?

_____ for _____ their circuits in the event of a _____ loss?

_____ homeowners _____ off _____ when _____ goes out?

When _____ power _____ out, _____ it _____ shut down the _____?

_____ the _____ goes out, should _____ off _____?

_____ the power _____ is _____ to shut _____ circuit breaks?

_____ it a _____ for _____ to _____ off their _____ breakers _____ the _____ of _____ power failure?

Can residents make _____ their _____ circuits _____ power disruptions?

_____ a _____ occurs, should _____ switch _____ circuit breakers?

_____ for me to shut off _____ circuit _____ if _____ out?

_____ a _____ for _____ to turn off _____ breakers?

When _____ is _____ off circuit _____.

_____ think it's _____ idea for homeowners to _____ breakers when _____ power is out?

_____ their _____ when there is _____ power failure?

How _____ it _____ homeowners to _____ circuit breakers?

_____ for _____ switch off circuit _____ in times _____ power failures?

Turn _____ breakers _____ when _____ power _____ out?

When faced with _____ power outage _____ homeowners focus _____ panel?

Is _____ to _____ circuit breakers _____ there is _____ power failure?

_____ disconnected for safety reasons?

_____ power goes _____ turn off the _____.

Can residents _____ by disabling _____ circuits _____ power interruptions?

Should household circuits _____ turned _____ the _____ goes _____?

_____ it _____ for residents _____ shut down _____ breakers during _____ disruption?

Is _____ for homeowners _____ their _____ breaker _____ the _____ goes out?

_____ the circuit be shut down _____ when _____ is _____ home?

_____ if it's worth _____ turn off _____ during _____ power cut?

_____ with an _____ surge, _____ homeowners _____ deactivating their _____ breaker panel?

_____ for homeowners to switch _____?

_____ there's no electricity, is _____ for homeowners _____ turn _____ their _____?

Is disabling circuit breakers _____ is _____ loss?

Is _____ possible _____ enhance _____ by disabling _____ during _____ interruptions?

_____ homeowners to shut down _____ during _____ disruptions?

When the _____ out does it _____ sense _____ homeowners _____ off _____?

Is _____ wise to close _____ breaks _____ out?

Is _____ good idea _____ residents _____ stop their home's primary circuit _____ in _____ power loss _____ concerns?

_____ think _____ it to _____ off the _____ during a power _____?

_____ is a _____ of _____ should people _____ off household _____?

_____ I have to _____ off the circuitbreaker _____ out?

Are homeowners _____ to _____ if _____ no electricity?

_____ the _____ goes _____ should homeowners switch off _____?

Is it a good _____ residents to get _____ primary circuit _____ power _____ out?

_____ need to _____ off _____ circuitbreakers _____ there's _____ electricity?

Should homes switch _____?

_____ it wise for _____ to _____ off _____ breakers if there _____ power _____?

Do _____ have _____ shut off _____ during _____ outs?

_____ it _____ the effort for _____ to _____ their circuit _____ during _____ power _____?

Is _____ better for _____ to have _____ their _____ the _____ is off?

If _____ no _____ turn _____ their circuit breakers?

_____ for homeowners to _____ off circuits during _____?

When the _____ circuit _____ be off?

_____ safe for homeowners _____ off _____ circuitbreakers _____ a power _____?

_____ the power goes out, _____ turn off _____?

When _____ is _____ do _____ need to turn off _____?

Should homeowners turn off _____ power is _____?

Does _____ make _____ homeowners to _____ off their circuit _____ when _____?

_____ residents turn _____ the _____ is a _____ failure?

_____ an unexpected power outage, should _____ deactivating _____ circuit _____?

Is it _____ circuit _____ during power _____ for security _____?

_____ it _____ power _____ out _____ switch off my breakers?

_____ stop _____ breakers _____ homes during power failures?

_____ it a _____ idea _____ to _____ off their _____ breakers during a _____?

Is _____ advisable for _____ turn off _____ circuit _____?

During a power loss, _____ breaker _____?

Do I have _____ off my _____ breaker _____ power _____ not?

Is _____ for homeowners to switch off _____ circuit _____?

_____ a good _____ down their circuit _____ during a power shut _____?

_____ should _____ off circuit breakers?

Is it safe _____ to have _____ circuits shut off _____ electricity _____?

When _____ an _____ power _____ their circuit breaker panel?

_____ it best for homeowners to switch _____ in the _____ power _____?

Do _____ it's a good idea _____ to _____ circuit breakers?

_____ the circuit _____ be off _____?

Should we _____ the _____ in our _____?

Should homeowners _____ off _____ in _____ of power _____?

Is shutting down circuit _____ measure?

Should _____ breakers be _____ in _____ a problem?

Is _____ advisable _____ shut _____ electrical _____ when _____ is off?

Turn off _____ breakers _____ power _____ out?

When the _____ goes _____ I _____ shut _____ my circuit _____?

Can _____ shut _____ the _____ box _____ is _____ outage?

Turn off your circuit breakers during _____ cut _____.

When the _____ goes _____ do _____ need to shut _____?

_____ with _____ should _____ prioritize deactivating their circuits?

_____ circuit _____ to be turned off _____ a power _____?

_____ power _____ should _____ breaks _____ shut down?

Should residents turn _____ for _____ in _____ emergency?

_____ goes _____ do we _____ need to _____ circuitbreakers?

_____ good idea _____ residents _____ stop _____ their home's _____ interruption device _____ the power _____ out?

_____ the _____ out, _____ I switch off _____ circuitbreakers?

_____ power _____ households switch _____ circuits?

_____ circuitbreakers _____ turned off _____ a black-out?

_____ improve safety by disabling their _____ circuits _____?

Does _____ sense to _____ down circuit breaks if _____?

Is it a _____ idea _____ when power goes out?

Do _____ to shut _____ when power _____ out?

_____ the circuit _____ cut off _____ at home?

During a power _____ does _____ down _____?

_____ a _____ for _____ to _____ switch-off circuit breakers _____ an _____?

When _____ power outage, _____ homeowners _____ of their circuit _____ panel?

Is _____ idea for people to _____ power circ _____ out?

_____ goes out, turn _____ breakers?

_____ sense for homeowners _____ power _____ circuit _____ there is an _____?

_____ power goes out, _____ I _____ to _____ my _____ breaker, or _____?

_____ made _____ by disabling their electrical _____?

Is _____ have all _____ circuit breakers _____ power is out?

_____ switch off _____ circuits in _____ of _____ failure?

_____ interruption is it _____ turn off _____ breakers?

Is it _____ to _____ the _____ box in an _____ situation?

_____ circuit breakers _____ when _____ goes _____?

Should homeowners cut off _____ circuit _____ power _____?

_____ household switch off _____ circuit _____?

_____ it _____ safe _____ off my _____ breakers _____ the _____ goes out?

Is it compulsory for _____ to _____ off _____ during _____?

_____ a _____ for residents to stop using their _____ device when _____ a power loss?

Will it _____ homeowners to _____ off the circuit _____ power _____?

_____ the _____ goes _____ circuits _____ shut down?

Is it safe _____ homeowners _____ switch _____ circuit _____ power _____?

_____ circuit breakers be turned off _____ cut to be _____?

_____ safe for homeowners to _____ the _____ when there is _____ power _____?

I _____ wondering _____ the circuit _____ security reasons is _____.

If the power _____ do _____ shut off the _____?

In _____ should _____ switch off circuit breakers?

_____ necessity to turn off _____ circuit _____ power interruption?

To _____ things safe, _____ breaks _____ shut _____?

_____ circuit _____ to be _____ off _____ electricity shortages?

When _____ a power _____ it necessary _____ turn off _____?

_____ option to _____ circuit breakers for _____?

When _____ an _____ power outage, _____ be deactivating their _____ panel?

If _____ goes _____ do _____ to shut down _____ circuit breakers?

Is _____ possible to turn _____ the circuit _____ when _____?

Should _____ down their circuits _____ is an _____ beyond _____ procedures?

____ it ____ for homeowners ____ off ____ circuit breakers ____ event ____ a ____ failure?
 ____ it ____ for ____ shut down ____ circuit breaker ____ a loss ____ electrical supply?
 Do circuitbreakers need ____ power outages?
 Is it ____ to shut ____ the circuit ____ power ____?
 Do you ____ it's ____ turn ____ circuit breakers ____ powercut?
 Is it ____ homes to ____ switched-off ____?
 Do you ____ it's ____ idea ____ switch off ____ a ____ cut?
 When there is ____ to ____ off the circuit ____?
 ____ ok ____ homeowners to ____ off circuit ____ power failures?
 ____ there ____ power interruption, ____ that circuit breakers ____ disabled.
 ____ you ____ a ____ idea for ____ to switch ____ their ____ during a ____ shortage?
 Is ____ to ____ circuitbreakers during ____ power failure?
 Should ____ be shut ____ a power ____ home?
 Is it possible to shut ____ box ____ emergency?
 Do you think it's ____ for homeowners ____ their ____ breaker during ____ power ____?
 Is it necessary ____ homeowners ____ power ____ circuitbreakers ____ power failure?
 Is it ____ good idea ____ residents ____ turn ____ home's ____ device when ____ goes out?
 ____ off their ____ breaker ____ a power outage?
 ____ off ____ breaker safer for ____?
 Is it wise ____ to ____ use ____ primary circuit interruption device during ____ with ____ concerns ____?
 ____ the ____ goes ____ is ____ to switch ____ my circuit ____?
 ____ it best for ____ their ____ breakers ____ the power goes ____?
 ____ out, is ____ a ____ idea to stop circuit ____?
 ____ it necessary ____ homes ____ off circuit ____ during an ____?
 Is ____ safe ____ turn off circuit ____ there is ____?
 ____ be a good ____ to ____ off ____ breakers when there ____ a ____ of electrical supply?
 Should ____ cut off ____ breakers ____ is a power ____?
 ____ homeowners cut off ____ in an ____?
 ____ a power ____ should ____ be turned ____ for ____?

 Should _____ breaker _____ off during _____ interruption _____ safety?
 Is it _____ for homeowners _____ turn off _____ shortage?
 _____ outage can _____ breakers be turned _____?
 _____ safer _____ cut-off switches on their circuits _____ event of _____ power failure?
 During _____ outage _____ circuit breakers?
 Should _____ switch _____ times _____ power failure?
 Is it safer _____ their _____ breakers turned _____ the _____ is out?
 Should circuitbreakers be switched _____ in _____?
 _____ it safe for homeowners to switch _____ breakers _____ goes _____?
 Is _____ safer _____ shut _____ when electricity _____ disrupted?
 _____ folks kill the circuit for _____ is _____ juice _____?
 Is _____ safe to _____ all your _____ when _____ goes out?
 _____ turning off _____ breakers during a power cut _____?
 _____ it safe _____ homeowners to turn _____ during _____ failures?
 _____ out, turn circuit breakers _____?
 _____ to _____ down circuit _____ during _____ power failure?
 If _____ power goes out, is _____ safe _____ circuits?
 _____ households _____ their _____ during power _____?
 _____ it a _____ for homeowners to _____ their circuitbreakers _____ failure?
 When _____ goes _____ homeowners deactivating _____ circuit breaker _____?
 Should circuit breakers _____ turned off, _____ a _____?
 Is _____ safe to turn _____ circuit _____ during _____?
 _____ power goes out, should _____ circuitbreakers _____ off?
 _____ it a _____ for homeowners to switch _____ their _____ during _____ failure?
 When the _____ is out, _____.
 Do homeowners _____ down circuit breakers _____ event _____ power outage?
 _____ people _____ using circuitbreakers _____ case _____ a _____?
 Is _____ recommended when _____ is _____ power disruption?
 _____ it safe _____ residents _____ their _____?
 _____ it _____ for homeowners _____ use _____ switches on their circuits _____ of a power _____?
 Do _____ need _____ breakers _____ an out of _____?
 _____ a _____ for homeowners to _____ their _____ electrical disruptions?
 Is it necessary _____ homes to have _____ circuit _____?

Should _____ shut down when the _____ goes _____?

_____ need _____ turn off _____ main _____ breaker during power _____?

_____ homeowners _____ off _____ when the _____ goes out?

Is it wise _____ disabling _____ a _____ cut?

Should the _____ for _____ in _____ power interruption?

_____ breakers be switched _____ when there's _____ failure?

When _____ electricity _____ the _____ breakers be turned _____?

When _____ are homeowners _____ to _____ circuit breakers?

_____ the power _____ out, _____ off _____ circuit breakers?

Will _____ safe for _____ to _____ circuit breakers?

_____ turned _____ in case of an accident?

_____ for residents to _____ their _____ breakers during a _____ shortage?

Should homeowners take the _____ off _____ circuit breakers _____ a _____?

During an _____ do homes _____?

Can _____ off our _____ for _____?

When _____ power _____ out, should _____ cut their _____?

Is _____ to _____ your circuit _____ when the _____ not on?

Is it _____ idea _____ not _____ breakers during _____ power shutdown?

_____ the power _____ I have to switch _____ circuitbreakers?

_____ the power goes _____ can _____ my circuit _____?

_____ off the _____ when _____ goes _____.

_____ resident's _____ into _____ is _____ precautions that may recommend shutting down _____ distribution _____ during temporary _____.

Do we need _____ shut _____ circuitbreakers _____ our _____?

Is it _____ to turn off _____ circuit breakers _____ power _____?

_____ idea for _____ off their circuit breaker if they _____ electrical supply?

_____ it a _____ for _____ to reduce the _____ circuit interruption device _____ of power loss?

Is it _____ for homes _____ have switched-off circuit _____?

_____ power _____ kaput, is _____ down circuit breaks?

Does it _____ homeowners to power _____?

_____ advised for homeowners to cut _____ breakers?

Is it safe to _____ circuit _____ when _____ power _____?

Do homeowners _____ to _____ breakers when there isn't _____?

_____ the electricity goes _____ down _____ blasted circuit breakers?

Will it be _____ to _____ off _____ circuit _____?

_____ it possible for _____ to have _____ during _____ power _____?

In power _____ shut _____ breakers?

_____ it be safe for _____ to _____ off _____?

circuit _____ turned off when _____?

Should _____ off their _____ power goes _____?

Is it necessary to shut _____ circuit _____ goes _____?

When faced with an _____ outage, should _____ prioritize _____ their _____.

_____ it necessary _____ down circuit breakers when _____ power _____ out?

Do _____ think it is _____ good idea _____ homeowners _____ their _____?

Is _____ for _____ cut off their _____ when the _____ is _____?

When _____ power failures, should homeowners _____ circuit _____?

_____ there is a power _____ off circuit breakers?

_____ safe _____ it _____ circuit breakers during a power outage?

_____ to shut down _____ breaks _____ the power goes _____?

Do homeowners need to _____ down _____ a power _____?
