

[Demo] NLP Dataset for Customer Service Automation

Company Type	Electricity Suppliers
Inquiry Category	Tariff rates and pricing information
Inquiry Sub-Category	Bill calculations
Description	Customers seeking assistance with understanding how their electricity bills are calculated, including explanations on unit rates, consumption charges, taxes, and any additional fees that may be included in their bill.
Data Size	5,102 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Electricity Supplier" customer inquiry. (Purchased data will not be masked.)

_____ variations factored _____ billing _____ there a different pricing _____ in peak seasons?
 During _____ is _____ a _____ pricing system for _____?
 _____ prices applied _____ high-demand _____ for my _____ bill?
 _____ you know if a _____ follow during _____ of peak _____ electricity?
 Is it _____ to _____ prices _____ energy _____ during times _____ peak _____?
 Can _____ be different _____ to high-demand _____ energy bill?
 Is _____ fluctuations in _____ use _____ calculating _____ billingprocess?
 _____ a different pricing _____ during _____?
 Do _____ pricing structure is _____ effect when _____ consumption peaks?
 _____ want to know _____ there _____ rates _____ using _____ during _____ times.
 Is there _____ pricing structure _____ electricity during _____?
 _____ that _____ rates for calculating charges in high demand _____?
 _____ there different prices charged _____ use _____ certain times _____?
 Is there a special _____ is _____ during peak _____?
 _____ structure be _____ periods of high power _____?
 _____ know if _____ special pricing _____ is _____ when peak _____ usage _____?
 _____ system developed _____ account for the _____ consumption at certain times of _____ year?
 _____ you know _____ there is a _____ structure _____ during times _____ electricity _____?
 Is _____ altered _____ during _____ of high power _____?
 _____ pricing _____ electricity use _____ the _____ season exist?
 _____ there _____ special _____ structure _____ place during _____ times?
 Do you _____ is a special pricing _____ place during _____ electricity consumption _____ highest?
 Is a special _____ during peak _____?
 Are _____ usage _____ different _____ reflected in the _____ bills?
 Do you know _____ is _____ during peak consumption?
 Is _____ pricing system _____ different intensities _____ consumption _____ the peak times?
 Do you know if a _____ is implemented during _____ consumption _____?
 _____ to _____ different prices _____ energy _____ peak times?

What ____ billing season ____ electric ____ and if there ____ in ____ .
 ____ there ____ different pricing ____ calculate bill ____ season?
 ____ the pricing structure ____ when calculating ____ during ____ ?
 ____ altered pricing structure be ____ during periods ____ power ____ ?
 How ____ our bills calculated ____ use ____ ?
 Will there ____ a ____ system during the ____ ?
 Do ____ if ____ pricing ____ followed at ____ of peak use ____ electricity?
 Is ____ pricing system ____ electricity ____ the peak ____ ?
 ____ know ____ a special pricing structure ____ available ____ of peak ____ for ____ ?
 Is there ____ in prices ____ for ____ during high ____ ?
 Is ____ pricing ____ during the peak season?
 Do ____ if ____ is ____ special ____ structure during peak ____ ?
 Is a different ____ calculation during peak ____ ?
 Do ____ know ____ special ____ followed during times ____ peak ____ consumption.
 When ____ the ____ are seasonal ____ in ____ use ____ ?
 Is ____ special ____ during ____ of peak usage?
 ____ possible ____ a changed rate structure for ____ peak times ____ ?
 ____ it ____ to have different ____ in high ____ in my bill?
 Is it ____ use a ____ system during ____ times ____ consumption ____ ?
 Do ____ if ____ pricing ____ followed at ____ of peak usage ____ electricity?
 Do ____ know ____ there is a ____ pricing ____ peak ____ ?
 ____ there ____ prices charged for ____ during ____ demand periods?
 ____ a ____ pricing structure in place?
 Is there a ____ system for ____ during ____ ?
 ____ get charged ____ rates during ____ ?
 ____ system that ____ into account ____ varying electricity ____ levels?
 ____ know ____ there is ____ special ____ structure ____ when ____ peak electricity consumption?
 Do ____ know ____ is ____ special ____ during peak usage?
 Is ____ different pricing ____ the ____ seasons?
 ____ whether a special ____ structure is followed ____ times ____ use ____ highest?
 When ____ of ____ occur, is it ____ a change ____ the rate ____ ?
 ____ a ____ pricing system ____ during ____ ?
 Is ____ a special ____ during ____ electricity use?
 ____ a ____ priced bill ____ seasons?
 ____ you ____ if a ____ pricing ____ is followed ____ peak ____ of ____ ?
 ____ you ____ if ____ special ____ is implemented ____ of peak ____ consumption?
 ____ for energy use during ____ high demand?
 ____ there ____ a special pricing structure ____ during peak electricity ____ ?
 Do ____ pricing ____ is followed during times ____ consumption happens?
 Do there differing prices ____ for energy ____ ?
 Is ____ structure followed ____ peak electricity ____ ?
 ____ there a ____ system for ____ ?
 ____ it possible to ____ my energy use during ____ ?
 ____ it ____ to have ____ for ____ bill during high-demand times?
 ____ a special ____ structure ____ during peak ____ for ____ ?
 Do ____ if a special ____ structure is ____ electricity ____ ?
 Are there ____ special pricing structure ____ place during ____ ?
 ____ a modified ____ for ____ use during peak times?
 ____ developed for the different ____ electricity consumption during ____ season?
 Is ____ different during peak ____ ?

_____ know if _____ is _____ special _____ in _____ during peak electricity _____?
 _____ certain _____ structure for _____ during peak season?
 Do you _____ a _____ pricing structure _____ during peak _____?
 _____ it _____ differing prices for _____ use during _____ periods?
 _____ different _____ for _____ use during _____ demand times?
 _____ system _____ to account for _____ peak season electricity _____?
 Is _____ pricing _____ to account _____ in electricity usage?
 _____ times _____ use occur, is it _____ a changed _____?
 _____ you know _____ is _____ special _____ periods when there is peak _____?
 _____ special _____ structure in place for _____ electricity use?
 Do you know if _____ structure _____ at times _____ usage is _____ peak?
 _____ a modified rate _____ times of usage?
 _____ know if there _____ structure when electricity use peaks?
 _____ seasonal electricity _____ considered when _____?
 When _____ electricity use in _____ the bills calculated?
 _____ there _____ special price _____ peak electricity _____?
 _____ you know if there is _____ during peak _____?
 Is a _____ pricing _____ in place _____ usage?
 Is _____ pricing system for _____ consumption during _____?
 Is seasonal _____ usage _____ calculating _____?
 _____ you know whether _____ special _____ is followed during _____ electricity _____ highest?
 _____ know _____ pricing structure is used during periods _____ high _____?
 Is a _____ pricing _____ of _____ electricity consumption?
 Can an _____ structure _____ seen _____ periods _____ high _____ demand?
 Is a pricing system developed to _____ for _____ of electricity consumption _____?
 Are seasonal changes _____ into _____ when determining how _____ charged?
 _____ the _____ modified _____ peak times of _____ use?
 _____ of peak electricity _____ a _____ pricing _____ be followed?
 Is _____ priced bill _____ during the peak _____?
 _____ do you _____ energy use _____ calculating _____ bills?
 Is the _____ to _____ for _____ use levels in the _____ season?
 _____ there's peak _____ you know if a special _____ structure is _____?
 _____ a modified rate structure for using power _____?
 _____ electricity _____ peaks, do you _____ there _____ a _____ pricing structure _____?
 _____ there _____ rate _____ for peak use _____ power.
 _____ it _____ case that _____ for calculating charges in _____ seasons?
 Is _____ pricing system _____ account for _____ different _____ of _____ consumption _____ the _____
 During periods _____ high _____ an _____ pricing _____ be observed?
 How do _____ incorporate seasonal variation _____ power _____ charges?
 Do differing _____ for energy _____ demand periods _____?
 How _____ billing calculations incorporate _____ use?
 Do _____ know _____ a special _____ is followed during peak _____?
 _____ a pricing _____ designed _____ the _____ electricity _____ levels during the _____ season?
 Is _____ to account for different peaks _____ electricity _____?
 _____ there _____ altered _____ system during _____ periods?
 _____ the pricing structure _____ during _____ bills?
 _____ know if there _____ rates during the busy season _____?
 _____ a special _____ system used during peak times _____ the _____ of _____?
 _____ a special pricing structure in place when _____ is at its _____?
 Do you know _____ there is a _____ during times _____?

_____ know if _____ special pricing _____ when electricity use peaks?
 Is there _____ structure _____ calculating _____ peak season?
 Does _____ different pricing _____ exist _____ during _____ season?
 Is _____ possible to have _____ for _____ use _____ my bill?
 _____ there an _____ pricing _____ during _____ of _____ demand?
 During _____ of _____ electricity _____ pricing structure follow?
 _____ it possible to _____ structure for using _____ higher consumption _____?
 _____ pricing structure different _____ the _____ for bills?
 _____ there a _____ pricing _____ used when peak _____?
 _____ you _____ if _____ is a _____ structure _____ high _____ use times?
 Is it possible _____ different _____ peak seasons?
 _____ system developed that takes into account _____ different intensities of electricity _____?
 _____ there _____ price _____ consumption that's _____ during _____ season?
 Is _____ in place during times _____ use?
 Is _____ power usage during _____ times _____ the _____ reflected _____ energy bills?
 _____ a question _____ is a _____ rate _____ for using power during _____.
 _____ there _____ special pricing _____ when there is _____?
 _____ an alternate _____ place during _____ of high electric _____?
 Do you _____ if _____ special _____ is followed _____ of _____ usage for _____?
 Do you know if there _____ special _____ there _____ a _____ electricity _____?
 _____ there a _____ rate _____ for using _____ during _____ times _____ use?
 _____ times _____ peak electricity consumption _____ special _____ structure?
 Is _____ pricing _____ electricity consumption goes up?
 Is there _____ different _____ the peak _____?
 _____ there _____ altered _____ structure during _____ high demand _____?
 _____ differnt prices for _____ use _____ high demand _____?
 Is there an alternate _____ structure _____ consumption _____ high?
 _____ you _____ there _____ during busy _____ in electric usage billing?
 _____ periods of _____ use, _____ a special _____ in place?
 Is there _____ prices _____ use _____ times?
 _____ you know if _____ special pricing structure is _____ of peak _____?
 Is _____ a different price during _____ electricity _____?
 Is there _____ system that takes into _____ electricity consumption _____?
 Is there a difference _____ bill _____ during _____ peak _____?
 _____ the calculations of _____ adjusted to _____ electricity use?
 Do _____ know _____ there is _____ for peaks in _____ usage?
 Do you _____ a special _____ followed during _____ electricity consumption _____?
 Is _____ possible _____ altered pricing structure _____ periods _____ high _____?
 _____ there different _____ for _____ use during _____ times _____ the _____?
 Is seasonal _____ in electricity _____ the _____ bills?
 _____ different price _____ during the peak season?
 _____ pricing _____ influenced _____ peak season demand _____ for _____?
 _____ you _____ is a special pricing structure _____ electricity during _____?
 _____ I have different _____ for _____ demand periods on _____ bill?
 How _____ the electricity _____ calculated _____ there _____ different _____ certain times of _____?
 _____ seasonal _____ into account when _____ electricity _____?
 Is a special pricing _____ used _____ done with _____?
 Do you _____ if _____ is a _____ pricing _____ electricity _____?
 Is _____ modified rate structure _____ using power during peak _____ of _____?
 _____ you _____ there is a special _____ times _____ peak consumption?

Is _____ a changed _____ structure for use _____ when it _____?

_____ a _____ during peak season?

I _____ like to _____ if there is _____ rate _____ for _____ during _____.

Is a _____ pricing structure _____?

Is there _____ special pricing _____ times _____ electricity _____?

Is _____ alternate _____ structures in _____ of _____ electric consumption?

Will _____ electric _____ be _____ differently based _____ seasonal _____?

_____ the _____ pricing _____ peak times?

Is it possible to have _____ prices _____ peak use _____ my _____?

Is _____ in the _____ season?

_____ want _____ know _____ there _____ prices _____ energy use during _____ demand _____.

_____ know _____ special pricing _____ is _____ when peak electricity use _____?

Are _____ of electricity _____ taken into _____ when _____?

Is there _____ at times of high _____ energy?

I _____ to _____ there is a _____ rate _____ peak usage.

How _____ the _____ when _____ different _____ during _____ times of the _____?

Is _____ pricing system _____ to _____ intensities _____ electricity consumption _____ the peak _____?

_____ like to know _____ a modified rate structure _____ use power _____.

Do _____ know if _____ special _____ is _____ during peak _____?

_____ pricing _____ for different levels _____ electricity consumption _____ peak season?

Is a _____ developed to _____ varying _____ consumption during _____ peak season?

How _____ use accounted for _____?

_____ the pricing _____ peak _____?

Do _____ know _____ special pricing _____ in _____ times of peak usage _____?

_____ the pricing _____ different for peak _____ when bills _____?

_____ you _____ special _____ structure is _____ when _____ is peak electricity _____?

_____ pricing _____ different _____ peak seasons for _____?

_____ there _____ in _____ during times _____ high electric consumption?

Is _____ special _____ structure _____ times of peak _____?

Do _____ if there's a _____ structure during _____ of peak _____?

_____ times of _____ a special pricing _____ followed?

Is there a special _____ usage?

_____ it _____ to have different prices _____ energy _____ demand _____ on _____?

Is _____ a structure for _____ electricity _____?

_____ special _____ structure _____ place _____ periods of peak _____?

Is there _____ rate structure for peak _____?

Does _____ bill _____ for energy _____ during high _____ times?

Is a _____ system developed to _____ electricity _____?

Is seasonal _____ considered _____ we _____ bills?

_____ a _____ developed to account _____ of electricity use in the _____?

_____ times when electricity consumption peaks, do _____ a _____ pricing structure _____?

_____ a special pricing system _____ place _____?

Is there _____ pricing structure _____ of _____ usage for _____?

_____ there _____ different pricing _____ seasons?

_____ bills _____ varies during certain times of the year?

_____ there _____ pricing for _____ during peak season?

_____ periods of _____ use, is _____ pricing structure in _____.

I _____ to _____ if there _____ modified rate structure for _____ use _____ power _____ times.

Are _____ structures in _____ during periods _____ electric _____?

Is there _____ for peak season?

Do ____ know ____ there ____ structure for ____ in electricity consumption?
 ____ would like ____ know ____ for using ____ peak times has ____ changed.
 ____ you know if ____ special ____ is ____ peak times ____ electricity ____?
 I ____ there is a ____ rate structure for ____ of ____ peak ____.
 ____ there exist differing ____ energy ____ demand periods?
 Do ____ a special ____ is followed ____ electricity consumption?
 Do you know ____ is followed ____ electricity use goes high?
 Do ____ is a special pricing ____ periods when ____ peak ____ use?
 Is there a ____ to ____ applied ____ high-demand periods ____ use ____ bill?
 Is ____ special ____ when ____ consumption is at its ____?
 I ____ to know ____ is a modified rate ____ the ____ times.
 ____ you know ____ there ____ a ____ for periods ____ there's ____ electricity consumption?
 Do you ____ special pricing structure is ____ at times ____ for ____?
 Do ____ have ____ differentiated ____ system during ____?
 Is there ____ system for electricity ____ peak ____?
 Is ____ in electrical ____ when determining ____ we're billed?
 ____ pricing structure ____ when electricity ____ peaks?
 Do there different ____ use ____ certain periods?
 Is ____ pricing system ____ peak ____?
 Do ____ if a special ____ structure is followed when ____ a ____?
 ____ a ____ pricing structure ____ the ____ seasons?
 ____ there ____ different pricing structure for calculating ____ during ____?
 Is a ____ developed ____ account ____ the ____ of ____ use in ____ seasons.
 Is there a ____ pricing structure for ____ calculated?
 ____ there ____ charged for energy use ____ high ____?
 ____ there ____ different pricing structure for peak ____?
 Do ____ if ____ is a special pricing structure ____ electricity ____?
 I ____ like ____ know if there is a ____ for ____ of ____.
 ____ there a special pricing ____ in electricity ____?
 ____ anyone know ____ there ____ rate ____ for ____ during peak times?
 Is ____ a ____ pricing ____ periods ____ peak ____ use?
 Are there ____ pricing ____ periods of high ____?
 Do there ____ pricing structures ____ during periods ____ high ____?
 Do ____ if ____ a special pricing structure ____ use ____?
 ____ it ____ have a ____ rate structure ____ using ____ peak hours?
 ____ season ____ there be a ____ pricing structure ____ bill ____?
 ____ want to know ____ modified ____ structure is used for ____ during ____.
 Is ____ account for ____ varying ____ of electricity consumption ____ the peak ____?
 ____ it ____ a special ____ is ____ during peak electricity ____?
 Is ____ pricing ____ peak season for ____?
 ____ a different ____ electricity ____ during the ____ seasons?
 Is there ____ price structure ____ during ____ times?
 ____ possible ____ have ____ prices for ____ during the peak ____?
 Is ____ to ____ use ____ on my bill during ____ times?
 ____ pricing ____ developed ____ account for ____ in ____ use?
 Do ____ special pricing ____ is implemented at ____ electricity use?
 Is ____ possible to have ____ prices ____ my ____ demand periods?
 ____ you ____ if ____ a ____ structure ____ electricity usage?
 ____ know ____ there is ____ special pricing ____ in place ____ of ____ electricity ____?
 ____ a special ____ for peak times done with ____ in ____?

_____ system account _____ the _____ intensities _____ electricity consumption _____ the _____ season?
 Are the _____ bills _____ for seasonal _____ in electricity _____?
 _____ our bills _____ when electricity is _____?
 Is it possible _____ different _____ during _____ times _____ bill?
 Is _____ pricing _____ used during peak times _____ consumption levels _____?
 When peak times of _____ is _____ a _____ rate structure?
 _____ if there _____ different _____ busy periods in _____ bill season?
 _____ a pricing _____ developed _____ take into account _____ intensities _____ electricity _____ peak seasons?
 Is _____ pricing _____ to account _____ the _____ intensities _____ electricity consumption in _____?
 Do you _____ if _____ a _____ pricing structure _____ peak electricity _____?
 _____ a different _____ structure _____ peak _____?
 _____ there's _____ electricity usage _____ certain _____ the year how are _____?
 _____ know if _____ special pricing structure _____ place for peak _____?
 _____ it possible _____ energy use during periods of peak _____?
 _____ you know if _____ special _____ in place when there's _____ electricity _____?
 Is _____ different prices _____ use during peak times?
 Is it done _____ the _____ levels _____ a _____ pricing system during peak _____?
 Is _____ different _____ for peak season when _____ bills _____?
 _____ you _____ peak _____ into account when calculating _____?
 _____ a _____ system _____ at peak times?
 Is _____ different price for _____ seasons?
 _____ special _____ system used _____ times done with _____ in mind?
 Do _____ a special _____ structure _____ implemented _____ when _____ consumption is _____ highest?
 _____ you _____ seasonal variations into _____ calculating the _____ electricity?
 _____ special _____ structure used during _____?
 _____ there _____ pricing _____ during peaks?
 _____ an alternate _____ put in place _____ periods of _____ electric _____?
 Do _____ know if _____ structure _____ used at _____ of _____ usage _____ electricity?
 _____ there a specific _____ is _____ by peak _____?
 Is _____ to _____ prices _____ use during _____ on my bill?
 Is the _____ developed _____ intensities _____ electricity use during the peak _____?
 _____ pricing _____ developed to account _____ differing electricity _____ levels in _____?
 _____ it possible _____ my energy _____ to have _____ during _____ periods?
 _____ they _____ how _____ we're _____ on seasonal changes _____ use?
 Are _____ in _____ use _____ account in the _____ process?
 _____ modified rate structure _____ use _____ power during peak _____?
 _____ pricing structure during times _____ high demand for _____?
 _____ seasonal _____ taken into _____ when calculating _____?
 Is _____ to have _____ using power during peak times?
 _____ do _____ incorporate the seasonal _____ power use _____ your _____?
 _____ a special _____ during peak usage?
 _____ there _____ pricing structure during _____ season?
 _____ you _____ if _____ pricing _____ is followed _____ times _____ electricity usage?
 Is there _____ different _____ for _____ the _____ season?
 _____ you know _____ a special _____ structure _____ electricity use?
 Is it possible to _____ to _____ periods _____ use _____ the _____?
 Is _____ special pricing _____ peak _____ electricity usage?
 _____ know if a special _____ structure _____ during _____ usage?
 Is it possible _____ a _____ structure _____ times _____ use occur?
 Are _____ alternate _____ configurations used in _____ consumption?

_____ there different _____ for energy use during _____ on _____ ?
 During _____ electric consumption _____ alternate pricing _____ exist?
 How do _____ handle seasonal _____ purposes?
 _____ to know _____ rate structure for using power _____ peak _____.
 Is _____ system developed _____ for the _____ levels _____ consumption _____ peak season?
 Is _____ pricing _____ developed _____ account for _____ season electricity _____ ?
 _____ of _____ use _____ is it _____ for a _____ rate structure?
 Is _____ a _____ pricing electricity _____ during peak _____ ?
 _____ there an altered _____ during periods _____ demand _____ electricity?
 How are bills calculated when _____ usage _____ certain _____ ?
 _____ a special _____ used during _____ peak electricity _____ ?
 _____ know if _____ a special pricing structure for _____ usage _____ ?
 _____ the _____ structure _____ bills different _____ peak _____ ?
 Is there a _____ structure _____ during peak _____ use?
 During _____ of high _____ can _____ altered pricing _____ observed?
 _____ there a different pricing structure _____ during the _____ ?
 I _____ to _____ if _____ is _____ modified _____ structure _____ using power _____ peak _____.
 Is a pricing system _____ account _____ electricity consumption _____ peak season?
 Is _____ possible _____ for energy _____ in _____ periods _____ my bill?
 _____ know _____ special pricing structure _____ followed _____ times when _____ consumption is _____ its _____ ?
 _____ there is a special _____ place during peak _____ electricity consumption?
 Is _____ possible _____ have _____ modified rate _____ use during peak _____ ?
 I wonder _____ can _____ modified _____ for _____ power during _____ times.
 Do you _____ a special pricing _____ when _____ occurs?
 Is there _____ during _____ seasons?
 _____ is there _____ different pricing _____ during peak _____ ?
 Will _____ a differentiated _____ during peak _____ ?
 _____ about _____ billing _____ usage, _____ if there are different _____ during busy _____.
 _____ you _____ a _____ is in _____ during peak times for _____ ?
 Can _____ a modified rate _____ I use _____ during _____ ?
 _____ there _____ a _____ system used _____ times is _____ with different consumption _____ ?
 _____ seasonal _____ taken into account _____ calculating _____ bill?
 _____ a _____ pricing _____ followed _____ peak consumption _____ place?
 _____ a _____ pricing system _____ season?
 Do _____ know if a special _____ followed _____ times _____ peak _____ for _____.
 Is _____ possible _____ find a different _____ bill calculating _____ season?
 Do you know _____ a _____ structure is _____ times _____ usage for electricity?
 Do _____ know _____ special _____ structure _____ peaks in electricity use.
 _____ seasonal _____ in _____ use _____ into account for _____ ?
 Do you know _____ pricing _____ followed _____ peak electricity consumption?
 Do you _____ if _____ model is _____ during times of _____ usage _____ ?
 Do _____ a special _____ is implemented _____ times when _____ consumption _____ highest?
 _____ know _____ a _____ pricing structure for peak season?
 Is there a way _____ apply _____ prices to _____ energy _____ my _____ ?
 Do you know _____ a _____ during _____ peak electricity consumption?
 _____ a pricing _____ influenced _____ season _____ for electricity?
 _____ expect a modified _____ structure for _____ peak times?
 Is _____ pricing _____ developed to account for _____ of _____ in _____ ?
 Do _____ know if _____ is a special _____ usage?
 Do _____ know _____ special pricing structure is _____ times _____ electricity _____ ?

Is it ____ to have ____ for ____ hours ____ my bill?
 ____ a changed rate structure possible when ____ of ____?
 ____ know ____ special ____ is ____ in place during high ____ consumption times?
 ____ you know if ____ a special ____ structure for ____ peak ____?
 Will ____ be charged differently ____ usage ____ on ____ bill?
 Is ____ pricing ____ calculating ____ during the ____ season?
 ____ of high electric ____ is there ____ alternate ____ structure ____?
 ____ if there's a ____ periods when electricity use is ____?
 ____ there ____ different ____ peak seasons?
 Is ____ to have different ____ for high-demand ____ energy ____?
 ____ there ____ for energy ____ high demand?
 ____ a ____ system developed ____ account ____ season ____ consumption ____?
 ____ I ____ prices ____ to high-demand periods ____ energy bill?
 Do you know if ____ a different ____ structure ____ calculating ____?
 ____ a ____ during peak times for ____ use?
 ____ you ____ if there ____ a ____ periods when the ____ use ____ high?
 Is it ____ to ____ energy usage during peak ____?
 Do we have different prices ____ energy ____?
 ____ there a ____ pricing system ____ electricity usage?
 Is it possible ____ have ____ for ____ use in ____?
 Is ____ changed ____ structure possible for use ____ during ____?
 ____ it possible for ____ changed ____ use of power ____ times ____ high ____?
 ____ possible to ____ different ____ for ____ use ____ my ____ peak demand?
 During periods of peak ____ use are ____ pricing ____?
 Is ____ changes ____ considered when ____ how much we're ____?
 ____ electricity ____ calculated ____ during peak ____?
 Does ____ possible ____ different ____ for ____ use during peak ____ on ____?
 ____ know ____ is ____ special ____ structure for peak ____ of electricity?
 ____ expect a ____ for using power ____ peak times ____ use?
 ____ rate structure be used during ____ of power ____?
 Is there a ____ calculating at ____ season?
 Is there ____ structure for peaks ____ power?
 ____ peak ____ there ____ special ____ system?
 ____ system developed ____ the different electricity consumption ____ of the peak ____?
 I want ____ if there ____ modified rate ____ during the peak ____.
 ____ a ____ account ____ different usage levels during ____ peak season?
 ____ a pricing ____ developed to account ____ different ____ levels in ____ "
 ____ periods ____ power ____ is a special pricing structure ____?
 ____ the calculations of bills ____ into ____ in electricity ____?
 Is the ____ structure ____?
 ____ a ____ pricing structure ____ during ____ of ____ usage for electricity, ____ you ____?
 Is ____ different ____ structure for calculating ____ in the ____?
 ____ you know ____ pricing structure ____ during ____ of electricity consumption ____?
 ____ if a special ____ structure is ____ during times ____ electricity use ____?
 Is ____ structure for ____ times ____ use of power?
 Is ____ structure different ____ peak ____?
 Is it ____ to ____ different ____ use during ____ on ____ bill?
 Do you ____ if a special ____ structure ____ while ____ consumption ____ its ____?
 ____ a separate pricing structure for ____ during ____?
 ____ think there ____ pricing system during peak ____?

____ you ____ a ____ structure ____ used during times of ____ use?
 ____ there ____ pricing ____ for ____ season?
 ____ structure for bill ____ during the peak season?
 ____ for ____ changed ____ structure for use ____ when ____ times of ____ occur?
 ____ pricing ____ during peak season when ____ bills?
 Is ____ special pricing ____ electricity during ____ season?
 Is ____ system developed to account for ____ consumption in the ____?
 ____ an altered pricing structure ____ high ____ for ____?
 During ____ of peak ____ use, is a ____ place?
 Is ____ to ____ different prices for ____ on ____ in high ____ periods?
 Do ____ know if ____ pricing ____ is used during ____?
 ____ a special pricing ____ peak times, is ____ with the different consumption ____?
 Is ____ a special pricing ____ peak times?
 ____ special ____ structure ____ place ____ times of peak electricity ____?
 Is there ____ special ____ structure ____ place when ____?
 How ____ bills ____ there is ____ electricity usage ____ the ____?
 Does ____ differentiated pricing system ____ seasons ____ considering ____ in ____ consumption?
 ____ electricity ____ accounted for in ____?
 ____ an altered ____ structure ____ demand for energy ____?
 Do ____ know if ____ are ____ during busy ____ for ____?
 ____ to ____ different ____ for energy use ____ in my bill?
 ____ pricing system during the ____ months?
 Can ____ to high-demand periods for energy ____?
 ____ there ____ rate structure ____ the ____ of use of ____?
 ____ there ____ prices ____ use at certain times?
 How are the ____ calculated ____ differing ____ during ____?
 ____ special ____ following during peak ____ consumption?
 ____ it possible to ____ pricing ____ during ____ power demand?
 ____ it ____ a ____ rate structure for ____ of ____ when peak ____ of ____ use ____?
 ____ prices ____ applied ____ periods of high ____ energy use?
 ____ know ____ there is a ____ structure ____ during ____ electricity use?
 Can ____ pricing ____ be ____ periods of ____ power demand?
 Do ____ know ____ there is ____ special pricing structure ____ times ____ electricity ____ is ____?
 ____ there a differentiated ____ system ____ electricity ____ peak ____?
 ____ it ____ that ____ rates for ____ charges ____ certain ____ demand seasons?
 Is there a ____ pricing ____ for peaks ____ use?
 I ____ find out if ____ a ____ rate ____ for ____ power during peak ____.
 ____ there a ____ pricing ____ during peak seasons?
 Is there ____ pricing ____ bill ____ during peak ____?
 ____ the calculations of ____ take ____ fluctuations in ____ usage?
 ____ do billing calculations ____ variation ____ use?
 When ____ do ____ get ____ differently during ____ seasons?
 ____ peak ____ is ____ a ____ pricing ____ in place?
 ____ pricing structure ____ during ____ of ____ power demand?
 Do ____ know if ____ special pricing structure ____ followed ____ peaks?
 ____ there a different ____ structure ____ bills ____ times?
 ____ a ____ to ____ for ____ different electricity consumption during the ____?
 ____ pricing ____ account ____ the ____ electricity consumption ____ during the peak ____?
 Is ____ a ____ pricing ____ peak electricity use?
 ____ a pricing system developed ____ account ____ electricity ____ in the ____ season?

_____ billing _____ seasonal fluctuations of electrical usage?

Can _____ expect _____ rate _____ for _____ times of _____ of _____?

During _____ of _____ a special pricing _____ in place?

_____ you know if there is a special _____?

_____ you _____ if _____ is a _____ there's peak electricity use?

Is _____ certain _____ for electricity _____ the _____ season?

_____ system developed _____ for different levels of _____ usage during _____ season?

_____ you know _____ a special _____ for periods _____ use _____ at its peak?

_____ differing electricity _____ the season so _____ the _____ calculated?

_____ the rate structure been changed for _____ times _____?

Is _____ possible _____ have different _____ for _____ on _____ bill during times _____?

_____ usage at _____ times _____ the year _____ your _____ bills?

_____ it _____ to have different _____ for _____ during high-demand _____ on _____?

_____ there _____ for energy _____ highdemand periods?

Is seasonal changes _____ electricity _____ taken _____ when _____?

Do _____ if _____ pricing _____ is followed _____ of _____ peak usage?

_____ you _____ structure is followed at times of peak _____?

_____ would _____ if _____ modified _____ exists for use of _____ during peak _____.

_____ there a _____ in the rate structure _____?

Is _____ bills _____ seasonal fluctuations _____ electricity usage?

_____ there _____ structure for peak _____?

Do _____ know if _____ followed during times of _____ peaks?

If _____ special _____ system _____ is that done with different _____?

Can _____ altered pricing _____ times of high _____ demand?

Do _____ calculations _____ consider seasonal _____ in electricity _____?

Is _____ change in electrical _____ when determining _____ we're _____?

_____ there a _____ structure _____ calculating _____ bill in peak _____?

_____ you _____ if there are different electric _____ of _____ year?

Is there a _____ pricing _____ energy _____ high demand _____?

_____ possible to have different prices for _____ my bill?

Is _____ system _____ to _____ the differing _____ consumption _____ during peak _____?

Do you know if a _____ is _____ effect _____ times of _____?

Do you _____ a special pricing _____ followed during times when _____ its _____?

_____ know if a special _____ structure is _____ when _____ occurs?

_____ it _____ have a differentiated _____ during peak _____?

Is _____ special _____ structure _____ during _____ of _____ usage?

_____ special pricing structure for electricity _____ peak usage?

Do you know whether _____ special pricing _____ followed _____ of _____ usage _____?

Do you _____ a _____ pattern is _____ of peak usage for _____?

_____ to know _____ there is a modified _____ power during peak _____ during _____ season.

_____ there alternate _____ in place _____ periods _____ high _____ usage?

_____ know _____ a special _____ implemented during peak usage _____?

_____ a _____ by peak seasons' demand levels _____ electricity?

_____ it _____ that the rates for _____ charges _____ high-demand _____?

Is it possible _____ a changed rate structure for use _____ consumption _____?

_____ system _____ account for different peak season _____ usage _____?

_____ to account _____ intensities of _____ consumption during peak times?

_____ know if _____ special _____ is in _____ electricity consumption is _____ its _____?

_____ peak _____ of high consumption _____ be possible _____ a _____ structure?

_____ pricing _____ followed during times of _____ consumption?

_____ are the _____ calculated when there are _____ for electricity _____?
 _____ the bills calculated _____ are different _____ of the year _____?
 Is there a _____ system _____ the _____?
 _____ special pricing _____ in place _____ periods of peak _____?
 _____ a _____ for electricity _____ different during _____ peak _____?
 Is there _____ peak seasons?
 Does the _____ seasonal _____ in electricity use?
 Do you _____ special _____ is _____ when _____ consumption peak?
 _____ to know _____ a modified rate structure _____ power during peak times.
 When calculating _____ is there a _____ pricing _____?
 Is _____ special _____ used during _____ of peak _____?
 _____ it _____ usage _____ certain _____ of _____ year _____ reflected in your _____ bill?
 _____ system developed to _____ for the different electricity _____ the _____?
 _____ there different _____ for energy use _____ certain _____?
 I'm wondering _____ there is _____ modified rate _____ for _____ times.
 Is _____ a _____ system during _____ peak _____ for electricity _____?
 _____ of bills adjusted to reflect _____ electricity use?
 _____ am _____ if _____ is _____ rate _____ for using _____ during _____ times.
 Is _____ for a _____ rate structure for _____ when _____ times _____?
 _____ a pricing structure that takes into _____ levels for _____?
 _____ know _____ a special pricing _____ electricity use peaks?
 _____ special _____ used _____ peak _____ for the different consumption _____?
 Is _____ peak _____ of use of power
 Do you _____ is a _____ pricing _____ season?
 Do you _____ if _____ is a _____ electricity use goes up?
 Can different prices _____ to _____ demand _____ energy bill?
 How are _____ bills _____ when _____ is differing usage _____?
 Is _____ an _____ structure to _____ observed during times _____ power demand?
 Do _____ know _____ there is _____ pricing structure _____ times _____ electricity _____ high?
 Is _____ possible they _____ different _____ for _____ demand seasons?
 _____ you _____ special pricing _____ is followed during _____ when _____ consumption _____ higher?
 _____ there _____ pricing system _____ peak season _____ electricity?
 Do _____ a _____ pricing structure is _____ place during _____ electricity use?
 Is _____ possible _____ a _____ rate _____ peak times _____ consumption?
 _____ differences _____ charged _____ energy use _____ high demand periods?
 _____ the rate structure _____ times?
 _____ pricing system developed to _____ levels _____ electricity _____ in _____ peak season?
 Are there different _____ charged _____ energy _____ periods _____ my bill?
 Is there _____ structure _____ use of power?
 _____ there _____ for pricing _____ during peak season?
 _____ take seasonal _____ usage into account _____ bills?
 _____ the _____ structure _____ bill calculation _____ during peak _____?
 During periods _____ electricity _____ is _____ special pricing structure _____?
 _____ seasonal fluctuations _____ consumption _____ in calculating _____?
 Is _____ pricing _____ to _____ season intensities of _____ consumption?
 _____ know _____ special pricing _____ used when electricity use is _____ peak?
 _____ it possible to _____ prices applied to highdemand _____ my _____?
 Is there a way to _____ prices for energy use _____?
 Is _____ a _____ structure _____ use when peak times _____ higher?
 _____ would like to _____ there is _____ rate _____ for _____ peak times.

_____ that there _____ prices charged for _____ use _____ high demand _____?
 Do _____ if _____ special pricing _____ happens _____ peak _____ for electricity?
 _____ differentiated _____ for peak seasons?
 _____ it possible to _____ a _____ for peak _____?
 _____ peak _____ is there a pricing structure _____ place?
 During peak _____ is a _____ pricing _____?
 _____ my bill _____ differing prices for energy _____ demand _____?
 _____ my bill include _____ prices _____ during high _____ periods?
 _____ a _____ system _____ to _____ for _____ consumption levels during peak _____?
 _____ pricing _____ account for the different _____ season _____ usage levels?
 Do you _____ if _____ is _____ place during _____ electricity consumption is highest?
 I _____ like _____ know if _____ modified _____ structure _____ peaking power _____.
 Electric _____ can _____ on seasonal differences, _____ they factored _____?
 Are _____ fluctuations in _____ billing?
 _____ if a special pricing structure _____ during _____ peak electricity _____?
 Is _____ pricing _____ developed to _____ the different intensities _____ the peak _____?
 _____ there _____ pricing _____ that takes into account _____?
 _____ there is _____ structure for periods when peak _____ use is _____?
 _____ you take _____ account when calculating _____ prices?
 Do you know _____ a _____ pricing structure _____ times _____ use?
 _____ if a special _____ structure _____ provided _____ times of _____ for electricity?
 _____ expect _____ modified _____ structure when using _____ during _____ times of _____?
 Is _____ power usage at _____ the year _____ reflected _____ your _____ bills?
 _____ to have _____ prices _____ use during high _____ periods _____ my bill?
 _____ a _____ pricing structure in place _____ times _____?
 Does the _____ of _____ seasonal fluctuations in _____?
 _____ you know if a special _____ structure _____ during _____ usage _____?
 _____ a special pricing system _____ peak times _____ different _____?
 _____ it _____ see an _____ structure during high _____ demand?
 _____ billing calculations include seasonal _____ use?
 _____ the seasonal fluctuations _____ use taken _____ billing?
 Do you _____ if _____ pricing _____ is _____ there's peak _____ consumption?
 Do _____ know if a _____ during peak times for _____ usage?
 _____ you _____ if a _____ pricing structure is _____ electricity?
 I asked if _____ was _____ using power during peak _____.
 Is there an alternate _____ structure _____ of _____ consumption?
 Is _____ a differentiating _____ peak _____?
 _____ you know if _____ a _____ electricity _____ is at its peak?
 Is it _____ to _____ different _____ to high-demand periods _____?
 Do _____ have differing prices for _____ high _____?
 Do you _____ account _____ calculating _____ prices?
 Is _____ bill _____ different _____ season?
 Is a pricing _____ to _____ for _____ peak _____ consumption _____?
 Is _____ a _____ structure _____ calculating _____ during peak _____?
 Is seasonal _____ in _____ usage _____ when _____ much _____ billed?
 Is _____ a way _____ different prices for _____ hours?
 _____ pricing _____ to account _____ the intensities of _____ consumption _____ peak season?
 Do _____ know if a special pricing _____?
 _____ you _____ a special pricing structure _____ electricity consumption takes place?
 Is _____ for my _____ bill to have _____ high-demand _____?

I would like ____ know ____ there is ____ rate ____ for ____ peak ____.
 I ____ a question ____ there ____ a ____ for using power ____ times.
 Is ____ have different ____ applied to ____ during high ____ periods?
 Do ____ know ____ pricing ____ is put in ____ usage peaks?
 Do ____ if a ____ pricing structure ____ of ____ electricity use?
 ____ you know if a special ____ in ____ electricity ____ peaks?
 Do you ____ pricing ____ followed for periods ____ peak consumption?
 Do you know if ____ is ____ peak times for ____?
 ____ special ____ followed when ____ peaks?
 ____ structure in place during periods ____ high ____ consumption?
 ____ there a different ____ for calculating ____ in ____ season?
 ____ you ____ if there ____ a special pricing structure ____?
 ____ a ____ system developed ____ account ____ peak ____ electricity ____?
 ____ there ____ special ____ for ____ during peak ____?
 Is ____ possible for ____ rate ____ use ____ power when ____ times are ____?
 How ____ take into ____ seasonal variations in ____?
 Do you ____ there ____ a ____ structure in place ____ peak ____ use?
 I need to ____ is a ____ for ____ of ____ during peak ____.
 ____ know if there is ____ modified rate structure ____ power ____ peak ____.
 Is ____ pricing ____ the peak season for bill ____?
 ____ are differing ____ usage in the ____ how are ____?
 Do you ____ a special pricing structure ____?
 Is there a ____ structure for ____ bill ____ the ____?
 ____ know if ____ structure ____ during times of ____ usage for electricity?
 ____ special pricing ____ during peak times done ____ different consumption ____ mind?
 Is it ____ to ____ prices applied to ____ my electricity ____?
 Is a ____ built to ____ for ____ electricity ____ the peak season?
 ____ you ____ pricing structure ____ in place when ____ consumption peaks?
 Is there ____ pricing ____ place ____ of peak electricity ____?
 Is there ____ special pricing ____ during peak ____?
 ____ you know if there's a ____ in place ____?
 Is seasonal ____ in ____ usage ____ into ____ how much we're ____?
 ____ you know ____ there is ____ special ____ structure ____ when electricity ____ is ____?
 Is ____ a special ____ electricity consumption levels?
 ____ you know if there is ____ structure ____ when electricity ____?
 Do ____ know if ____ special ____ is included ____ electricity ____ its highest?
 ____ calculation ____ into account seasonal fluctuations ____ electricity use?
 ____ calculation factor ____ season variations ____ electricity use?
 Can an altered ____ be ____ for ____ high power ____?
 Is a ____ system used ____ times ____ with ____ different ____?
 Is ____ possible ____ a differentiated pricing ____ peak ____?
 ____ you ____ if a special ____ place when electricity ____ peaks?
 ____ there a specific pricing structure ____ peak ____?
 ____ you ____ there ____ rates ____ busy times for electric ____?
 ____ different prices applied to ____ periods ____ energy ____?
 ____ seasons, ____ we ____ differently for electricity usage?
 Do ____ different prices charged ____ demand periods?
 ____ if a ____ used during high electricity consumption times?
 Do ____ know ____ a ____ structure is ____ place during ____ electricity consumption ____?
 ____ differentiated ____ in peak seasons?

_____ a special pricing _____ in place _____ peak times _____ ?
 Is _____ special _____ with peak _____ consumption?
 _____ you _____ if a _____ pricing _____ is _____ when electricity _____ is at _____ ?
 When _____ high _____ occur, is it possible _____ a changed _____ ?
 _____ different in _____ seasons?
 _____ prices for _____ demand periods for energy _____ in my bill?
 I was _____ if _____ a _____ for _____ of power during _____ times.
 _____ I _____ modified rate structure for _____ of power _____ times?
 Is it _____ a _____ the rate _____ for _____ during peak _____ ?
 _____ apply different _____ high demand _____ for _____ use on my bill?
 Is _____ possible that _____ different _____ charged _____ during certain times?
 _____ a pricing _____ for the peaks in _____ use?
 Is there _____ for electricity _____ during _____ peak _____ ?
 _____ fluctuations in electricity _____ into _____ for _____ ?
 Is a pricing system _____ the different _____ consumption _____ the _____ seasons?
 Do you _____ if _____ a _____ pricing structure _____ consumption _____ up?
 _____ a special pricing _____ times _____ consumption is highest?
 _____ a special _____ structure _____ times of peak _____ use?
 _____ different prices _____ use during high demand _____ ?
 _____ you know if _____ is a special pricing _____ peak _____ use?
 During peak _____ there _____ different _____ for bill _____ ?
 Do _____ if _____ is _____ special pricing _____ during _____ seasons?
 _____ there _____ special pricing _____ electricity _____ peak seasons?
 "Is _____ system _____ account _____ the _____ of _____ consumption _____ the peak seasons? "
 Do you _____ if there _____ a special pricing _____ when _____ consumption _____ ?
 _____ pricing structure for peak seasons?
 Is _____ way _____ have different prices applied _____ high demand periods _____ ?
 I _____ like _____ know _____ rate _____ for utilizing power _____ peak times.
 Is the _____ adjusted _____ consider _____ fluctuations _____ electricity usage?
 Do _____ know if _____ special pricing structure _____ when _____ peaks?
 Is a _____ system _____ the different levels of _____ in _____ peak _____ ?
 _____ there _____ special pricing _____ during _____ times?
 Is _____ a _____ for peaks in electricity _____ ?
 Do _____ energy _____ during times of high _____ ?
 Do _____ if there's _____ structure _____ peaks in electricity _____ ?
 _____ do you _____ seasonal _____ use _____ when _____ bill?
 _____ there a _____ pricing _____ for _____ peak times?
 Is a _____ system _____ for _____ electricity _____ the peak season?
 Is _____ a _____ structure _____ periods of peak _____ ?
 Is there _____ model during _____ high demand for _____ ?
 If there _____ used during peak times _____ it _____ with the _____ levels?
 _____ you know if a _____ pricing structure is _____ peak _____ electricity?
 Do you _____ if a _____ structure _____ times of _____ consumption?
 Is there a special _____ system _____ electricity _____ .
 _____ you _____ if _____ special pricing _____ is _____ times when _____ usage _____ ?
 _____ it possible _____ see _____ structure _____ of _____ power demand?
 _____ bills _____ depending _____ season and _____ they included in _____ ?
 Is _____ pricing system _____ the different _____ of electricity consumption _____ ?
 _____ seasonal changes _____ usage _____ when _____ how _____ we _____ to pay?
 Can _____ modified _____ structure _____ expected during _____ higher use _____ power?

Do there different _____ use _____ high demand _____?

Is it done with the _____ levels _____ system _____ during peak times?

Is there an altered _____ for energy?

_____ billing process _____ fluctuations in electricity _____ included?

_____ a _____ structure in _____ during periods _____ peak electric _____?

_____ a changed rate _____ for peak _____ of _____ use?

_____ you _____ a special pricing _____ periods _____ peak electricity consumption?

How are _____ calculated _____ electricity usage during _____ the year?

_____ the calculations _____ adjusted to reflect _____ electricity consumption?

Do you _____ is a _____ effect during _____ of peak usage for _____?

Do you _____ if _____ special pricing structure _____ followed during _____ peak _____?

Do you _____ if _____ special _____ structure _____ used _____ takes place?

_____ you _____ there is _____ special pricing structure _____ effect when _____?

_____ special pricing structure _____ place during periods _____?

Do _____ if there is a _____ in _____ during _____ times?

_____ a _____ during periods of high _____ demand?

Is there _____ special _____ structure during _____ peak _____?

_____ know _____ there are different _____ for energy _____ during _____ demand _____?

_____ you _____ if _____ pricing structure is _____ during times _____ is highest?

_____ if _____ structure is in place _____ electricity consumption peaks?

_____ there _____ different pricing structure for bills _____?

_____ they _____ rates _____ calculating charges _____ demand seasons?

_____ possible to have _____ prices applied _____ electricity _____ demand periods?

_____ you know if there is a modified _____ of use _____?

_____ there a different _____ during _____?

_____ pricing system designed to account _____ the _____ intensities _____ electricity _____ seasons?

_____ there _____ difference _____ prices _____ energy _____ during high _____ periods?

I would like to _____ there _____ a _____ rate _____ using _____ peak _____.

I _____ to _____ a modified rate _____ for _____ peak times.

Is _____ fluctuations in _____ taken _____ account _____ billing?

How _____ how _____ usage is accounted _____ in _____ bill?

I'm _____ if _____ configurations used _____ periods _____ high electric consumption

Do you _____ special pricing _____ during _____ electricity consumption times?

Are _____ alternate pricing structures _____ high _____?

_____ altered _____ be seen _____ high power _____ periods?

Do electric bills _____ depending _____ and are _____ in _____?

_____ there differing _____ charged _____ use _____ high demand _____?

How _____ seasonal changes in electricity _____?

Is it _____ different prices _____ be applied _____ for energy _____?

Do you _____ special _____ used _____ times of peak usage?

_____ there _____ special _____ used during peak _____?

_____ a special pricing structure in place?

_____ a _____ for electricity in peak _____?

_____ there _____ system to _____ for _____ different electricity consumption _____ the peak _____?

_____ am wondering if _____ can _____ a modified _____ structure _____ using _____ peak _____.

_____ I expect a _____ rate structure for _____ of _____?

Is _____ a _____ structure in _____ when there's peak _____?

_____ to know if _____ is a _____ peak times.

_____ developed to _____ for the different _____ consumption levels _____ high season?

_____ the calculations _____ adjusted for _____ electricity consumption?

____ you know ____ a special ____ is ____ during ____ of ____ usage for ____?
 ____ have different prices for ____ demand for energy in my ____?
 Is ____ pricing system ____ for the ____ consumption ____ in ____ peak ____?
 Is ____ variable rate ____ for ____ use of power?
 Do ____ if a ____ structure is followed during ____ when ____ peak?
 Is there a ____ system ____ takes into account ____ peak ____?
 Is a ____ structure ____ bill calculating ____ season?
 During periods ____ peak electricity ____ is a ____?
 Is ____ a pricing structure ____ calculation ____ peak ____?
 ____ the ____ high power demand?
 ____ pricing structure is ____ during peak usage times?
 ____ a special pricing structure ____ following ____ times of peak ____?
 ____ you know whether ____ pricing structure is ____ times ____ peak ____?
 ____ altered ____ system for ____ high demand periods?
 Do you ____ a ____ pricing ____ for times ____ peak electricity use?
 Do ____ if there ____ a ____ structure when ____ use occurs?
 Does the ____ of bills take ____ consumption into ____?
 How are ____ bills calculated ____ electricity usage ____ the ____?
 ____ there ____ pricing system in place ____ peak ____?
 Is ____ special ____ structure in place ____?
 ____ the bills calculated when ____ different electricity ____ during ____ year?
 Is ____ a separate pricing structure ____ during ____ season?
 Can a modified rate structure be ____ power ____?
 Can a ____ rate ____ be used ____ times ____ power ____?
 ____ know ____ a special pricing structure ____ when ____ consumption ____ place?
 Is ____ a ____ for peak ____ usage?
 ____ a difference in prices ____ energy use ____ certain ____?
 Do you ____ a ____ structure in place during times of ____ electricity?
 ____ a special pricing ____ use goes up?
 Are the calculations ____ adjusted ____ seasonal ____ electricity ____?
 Is ____ a ____ pricing ____ peak ____ occur?
 Is there ____ different ____ bill calculating during ____ season?
 ____ there ____ pricing structure ____ bills during ____?
 Do ____ know ____ a special ____ structure is followed ____ there ____ electricity ____?
 ____ you ____ if there ____ a special ____ system during ____?
 Is ____ in place during ____ of peak ____ use?
 ____ there a special system ____ pricing electricity ____?
 Is there a different ____ for ____ peak ____?
 When ____ our ____ do we ____ differently ____ the peak ____?
 Is there ____ system at ____?
 Do ____ know if ____ pricing ____ is followed during ____ is high?
 I ____ like to ____ if there is ____ during peak times.
 Do ____ know ____ a special ____ structure ____ followed ____ during ____ times?
 ____ altered pricing ____ be ____ during periods of ____ power ____?
 Is there a ____ for ____ during ____ season?
 ____ there alternate pricing structures ____ place during periods ____?
 Is ____ pricing ____ developed to account ____ much ____ consumed ____ the ____ season?
 Is ____ a change in ____ rate ____ for ____ use ____?
 Are ____ structures in ____ for periods ____ high ____ consumption?
 ____ a ____ in place during ____ peak electricity ____?

_____ altered _____ during high energy demand?
 _____ pricing _____ in place during periods _____ electricity use?
 Is _____ an _____ pricing structure during times _____?
 _____ know _____ is a special pricing _____ in electricity consumption?
 _____ there a special pricing _____ in _____ for _____?
 I _____ if there is a modified _____ power _____ the _____ times.
 Is _____ possible to _____ modified _____ structure for _____ peak times?
 Do you _____ if there _____ pricing _____ peak season?
 _____ a _____ for bill calculation _____ peak season?
 Is there a _____ pricing _____ during _____ seasons?
 _____ alternate _____ implemented during high _____ consumption?
 _____ know _____ a _____ pricing structure _____ followed during _____ that _____ is highest?
 Is there _____ pricing system used _____?
 Do _____ a _____ structure is _____ during peak _____ usage?
 _____ there a _____ pricing _____ bill _____ during peak _____?
 _____ there a pricing _____ peak _____?
 How _____ billing calculations account _____ variations in _____?
 _____ a pricing system _____ account _____ differing _____ consumption levels _____ the _____?
 Is _____ modified rate _____ times?
 _____ a pricing _____ accounts _____ the _____ intensities _____ electricity _____ in the _____ seasons?
 Electric bills vary _____ on _____ season, are _____ included _____?
 _____ to have a different pricing _____ season?
 _____ pricing _____ to account for _____ of _____ use during peak _____?
 I'm wondering _____ there's a modified _____ using _____ times.
 _____ prices for _____ during peak times?
 _____ there alternate _____ implemented _____ of high electric _____?
 Is _____ for _____ consumption at peak times?
 _____ is _____ special pricing _____ for periods _____ peak electricity consumption?
 _____ different pricing _____ in _____ seasons?
 _____ possible _____ different pricing structure in _____ season?
 _____ is _____ about a _____ rate structure _____ use of power.
 _____ there _____ alternate pricing structure _____ when _____ occurs?
 Is _____ pricing system _____ account for _____ season's electricity _____?
 _____ it possible _____ my bill to _____ for _____ use during _____ periods?
 Is there _____ structures _____ periods _____ electric consumption?
 _____ know _____ special _____ is implemented _____ times of peak _____ for electricity?
 Do you know if _____ electricity _____ at its peak?
 Do _____ know _____ there _____ a special _____ for periods when peak _____?
 _____ alternate pricing structure used _____ of _____ electric consumption?
 _____ alternate _____ structure implemented during _____ electric consumption?
 _____ a pricing system used _____ done _____ levels _____ consumption _____ mind?
 _____ structure be _____ during periods _____ power demand?
 Do you know if there _____ special _____ used _____ times _____ high _____?
 _____ know _____ there is a special pricing structure _____ electricity _____ usage?
 _____ periods of _____ an altered pricing _____ be seen?
 _____ calculations of _____ take _____ fluctuations _____ electricity consumption _____ account?
 _____ an alternate pricing _____ put _____ place during _____ high electric _____?
 Are _____ changes _____ electrical usage taken _____ much we're _____ each month?
 _____ the pricing _____ peak _____?
 _____ you _____ if a _____ is used at times _____ electricity consumption _____?

____ you ____ a ____ pricing ____ place when electricity consumption goes up?
 ____ there a modified ____ peak times ____ of power?
 When peak times ____ high consumption ____ can there ____ use of ____?
 Is it ____ changed rate ____ for use of power ____ occur?
 ____ prices for ____ during certain periods?
 ____ are ____ bills ____ for differing ____ use during ____ times ____ year?
 ____ pricing structure exist during periods ____ use?
 Do ____ if ____ are different electric rates ____?
 ____ peak ____ use ____ possible for a changed rate ____ power use?
 I'm ____ as to if there are ____ pricing ____ periods of ____.
 ____ there a different ____ in ____ season ____ calculating ____?
 ____ if ____ pricing configurations used ____ periods of high electric ____
 Do ____ know ____ a special ____ is followed ____ times of ____ electricity?
 ____ know if ____ modified rate structure for power ____ during peak ____.
 ____ bills are ____ different price for peak season?
 ____ do you ____ for ____ energy ____ when ____ bill?
 ____ structure possible during ____ of high power ____?
 During ____ peak electricity consumption is ____ a special ____?
 ____ there ____ for energy use in ____?
 Is ____ possible to have different ____ my ____ bill ____ demand ____?
 Is a pricing system ____ account ____ of ____ in the peak ____?
 Does there ____ different pricing ____?
 ____ you know ____ there ____ for periods of peak electricity ____.
 Are there ____ pricing structure for ____ during ____?
 Is there ____ special ____ system for electricity ____?
 ____ special pricing ____ followed during periods ____ electricity ____?
 Is ____ pricing ____ peak season?
 ____ seasonal changes ____ usage factor ____ we're charged each ____?
 Are there ____ pricing structures ____ place during periods ____?
 ____ a ____ system devised ____ intensities of electricity ____ in ____ peak seasons?
 Is ____ possible for ____ changed ____ use occurs?
 Do you know if ____ special pricing structure ____ electricity ____ peak?
 ____ like ____ know ____ a ____ structure ____ for using power ____ times.
 ____ you know ____ special pricing ____ is ____ when electricity ____ peak?
 ____ to ____ different ____ use during the ____ periods on my bill?
 Is seasonal ____ electrical usage considered ____ determining the ____?
 Is ____ pricing system ____ account ____ the ____ electricity usage during ____ seasons?
 Is ____ special ____ structure ____ when electricity ____ gets ____?
 ____ a ____ pricing ____ during peak ____?
 ____ there an ____ pricing ____ relates to ____ periods?
 Can different prices ____ applied ____ periods for ____?
 ____ would ____ to know ____ the rate ____ for using ____ during ____ changed.
 Is ____ special pricing ____ during ____ electricity consumption ____?
 ____ know if ____ pricing structure ____ adopted ____ peak ____ usage?
 Is ____ change in the ____ structure ____ power ____ peak times occur?
 Is ____ pricing ____ bills during peak seasons?
 Is it possible for ____ different ____ of power during ____?
 ____ you know if ____ pricing structure is ____ place during ____ electricity ____?
 Is there ____ price ____ for energy ____ certain ____?
 Is ____ possible to have a different ____ for peak ____ bills ____?

_____ a different _____ structure during peak season _____ bills _____ ?
 I _____ know whether there _____ a _____ structure for _____ power _____ times.
 Is _____ special _____ followed _____ peak _____ electricity consumption?
 _____ altered _____ in periods of high _____ demand?
 _____ know _____ a _____ pricing structure is followed _____ times _____ peak _____ ?
 Are _____ different during _____ ?
 Is there an _____ in _____ for _____ of _____ electric _____ ?
 Is _____ pricing _____ for peak _____ ?
 _____ it be _____ different _____ for energy use _____ peak _____ on _____ bill?
 When calculating _____ do _____ differently during _____ season?
 _____ there _____ specific pricing structure _____ during _____ times?
 Are _____ pricing structures implemented during _____ consumption?
 _____ know if _____ structure is followed at _____ when _____ gets high?
 _____ when peak _____ consumption takes _____ you _____ a _____ structure is followed?
 Is _____ structure _____ peak season?
 Is _____ a different _____ for electricity _____ the _____ ?
 Does the _____ for bill _____ differ _____ season?
 Does there _____ bill calculation during peak _____ ?
 Is _____ special pricing system _____ done with the different _____ ?
 _____ to know _____ is _____ rate _____ for _____ use of power during _____ times.
 _____ a structure for pricing _____ is influenced _____ seasons?
 Do _____ if there _____ for busy times _____ the _____ for _____ usage?
 _____ a special pricing _____ used _____ times _____ with _____ levels?
 _____ a special _____ structure in place _____ electricity usage?
 Is the _____ adjusted _____ into account seasonal _____ in electricity _____ ?
 Do you know _____ there's _____ for periods when _____ occurs?
 Is a special _____ structure _____ there's peak electricity _____ ?
 _____ a modified rate structure be _____ using _____ peak _____ ?
 Do you know _____ a special _____ is _____ there's _____ peak _____ ?
 _____ you know _____ is a _____ pricing structure during _____ is highest?
 _____ a _____ pricing _____ for peak _____ ?
 During peak _____ there a differentiated pricing _____ ?
 _____ a _____ structure followed when electricity consumption _____ at _____ ?
 Is there _____ rate _____ for peak _____ power?
 _____ know if _____ special _____ structure is _____ during _____ Electricity _____ ?
 Do you _____ if there is _____ structure _____ times _____ for electricity?
 _____ calculation of bills adjusted _____ consider seasonal fluctuations _____ ?
 _____ do bills _____ seasonal _____ electricity _____ ?
 _____ there any _____ to the _____ for peak times _____ use _____ ?
 Is _____ considered when _____ how much we're charged?
 _____ of peak electricity _____ a _____ pricing structure?
 Can I _____ a modified rate _____ power _____ peak _____ ?
 Do _____ pricing _____ is in place during times _____ electricity demand?
 _____ pricing structure be _____ periods of _____ demand?
 Do you _____ there is _____ pricing structure when _____ occurring?
 _____ the pricing structure _____ high _____ energy?
 _____ think _____ a differentiated pricing system _____ the _____ seasons?
 _____ know if there _____ structure during times _____ electricity _____ gets high?
 Do _____ know if _____ special pricing _____ is _____ during _____ ?
 If _____ is _____ special pricing _____ used _____ done with the different _____ levels _____ mind?

Is a special pricing _____ the different _____ levels in _____?

Is _____ pricing system developed _____ for the _____ electricity?

Is _____ pricing system developed _____ account _____ electricity _____ peak season?

Is the pricing _____ account for _____ electricity _____?

Do you _____ a special pricing structure is _____ times when _____?

Is there a _____ pricing _____ bills _____ time?

Is there _____ pricing _____ seen during _____ high power _____?

_____ times of _____ occur, _____ a _____ rate _____ be used?

_____ bills _____ for _____ fluctuations in electricity use?

Does _____ exist alternate pricing structures _____ of _____?

_____ different _____ charged _____ use _____ high demand periods?

I'm curious if there are _____ in periods of _____.

Is a _____ available _____ peak _____ use?

Do _____ take _____ in _____ into _____ when calculating _____ bill?

Can _____ altered _____ be _____ periods of _____ power demand?

Do _____ special _____ structure is followed for _____ when _____ is peak _____?

_____ if there _____ a _____ rate _____ use of _____ during peak times.

Is it possible _____ different prices _____ the _____ demand periods _____ electricity _____?

_____ use different rates for _____ in high-demand seasons?

Do _____ know _____ special pricing _____ is followed if _____ peak _____?

_____ it possible _____ a _____ for energy use _____ peak _____?

Do you _____ if _____ special _____ structure _____ during times _____ electricity _____?
