

[Demo] NLP Dataset for Customer Service Automation

| | |
|-----------------------------|--|
| Company Type | Electricity Suppliers |
| Inquiry Category | Assistance in understanding the tariff structure |
| Inquiry Sub-Category | Tariff rates clarification |
| Description | Customers seek clarification on the different rates applied to various consumption tiers, such as peak, off-peak, and intermediate rates, to better manage their electricity usage and expenses. |
| Data Size | 6,604 paraphrases |
| Want to buy data? | Please contact nlp-data@gross.me via your business email address. |

Masked sample paraphrases of one "Electricity Supplier" customer inquiry. (Purchased data will not be masked.)

_____ do _____ pricing _____ with _____ energy initiatives _____ our region/country, if _____ all?

_____ with _____ energy goals in your area?

Is these _____ arrangements _____ cleanenergy _____?

Is _____ structures compatible _____ renewable energy _____?

_____ the _____ work together with renewable _____ initiatives?

_____ pricing models compatible _____ renewable _____ plans?

_____ pricing structures do _____ support _____?

How _____ do _____ different _____ with local green _____ efforts?

_____ you _____ how these prices _____ sustainable energy programs _____ our _____?

_____ options related to renewable _____?

_____ pricing structure _____ with _____ energy _____?

_____ do these _____ pricing structures _____ with _____ initiatives?

_____ systems _____ green ambitions in this region?

Do _____ charges _____ the sustainable energy pursuits _____?

_____ these _____ regional _____ efforts?

_____ well _____ the different pricing options work _____?

_____ have any _____ structures _____ with _____ energy goals?

_____ think _____ align with sustainable energy pursuits _____ us?

_____ these _____ options fit _____ local _____ power efforts?

_____ all of these _____ with our _____ renewable energy _____?

_____ prices _____ with the local _____ energy _____?

Is _____ local renewable _____ these prices?

_____ if these _____ models coincide with renewable _____.

Can we see a _____ between _____ our _____ sources?

_____ structure _____ with our renewable energy _____?

Are _____ structures _____ these renewable _____ initiatives?

_____ it possible _____ diverse charges _____ with _____ pursuit _____ us?

_____ pricing structures _____ with our _____ renewable _____ goals?

Are these _____ configurations _____ initiatives?

How _____ the prices relate _____ for _____ energy?

Are _____ price _____ with renewable _____?

_____ our _____ energy goals _____ with _____ pricing plans?

_____ tell _____ prices correspond to sustainable energy _____ our community/country?

_____ do _____ structures _____ the _____ initiatives in our region?

Do the pricing structures _____ with _____ goals?

_____ do _____ pricing options do _____ local _____ efforts?

_____ the different _____ with the _____?

_____ you _____ these prices _____ to current _____ energy _____ your community?

_____ prices fit with our _____ drive?

_____ the various pricing _____ with renewable _____ projects?

Do you _____ the _____ models _____ with _____ aims _____?

_____ there a _____ these _____ and _____ push for regional _____?

_____ you thought about _____ the _____ sustainable _____ interests _____ us?

_____ the _____ setup connected to _____ energy _____?

How _____ structures _____ to the _____ renewable energy?

_____ do _____ in common with local green power _____?

_____ do price plans impact _____?

_____ do the _____ models _____ local _____ energy projects?

_____ any _____ these prices aligned with _____ region's _____?

Do these pricing _____ with _____ energy efforts?

Is _____ possible that the _____ pricing _____ energy efforts?

_____ these pricing arrangements work _____ clean energy drives?

_____ do _____ different _____ structures _____ initiatives in our area?

_____ the _____ of _____ systems _____ green ambitions _____ this area?

_____ these _____ match _____ sustainable _____ programs in our _____?

_____ the _____ of pricing systems correspond _____ region's _____?

_____ various price _____ in _____ with renewable _____?

Is _____ plans aligned with _____ local renewable _____ goals?

Is _____ a _____ between _____ prices _____ our push _____ energy?

_____ the pricing options supporting _____ efforts _____?

What do these _____ have to do _____ local _____?

Is _____ a correlation _____ pricing _____ local _____ renewable sources?

_____ you tell _____ how _____ current sustainable energy programs in _____?

_____ price _____ similar to _____ objectives?

_____ pricing _____ line with our area's _____ goal?

Is these _____ connected _____ plans?

_____ these different prices _____ efforts _____?

Does _____ mesh with sustainable _____?

What is _____ these rates _____ renewable objectives?

_____ these different _____ in line _____?

Do your pricing _____ sustainable _____?

Do _____ different pricing models _____ to _____ plans?

Is _____ pricing _____ energy initiatives?

_____ these _____ fit with the _____ energy _____?

Does _____ pricing _____ to local renewable _____?

_____ price _____ our green initiatives?

Are _____ renewable energy initiatives?

Do _____ or _____ region's _____ to green energy?

Is _____ prices _____ to _____ power _____?

_____ plans _____ green initiatives?

_____ these _____ fit _____ renewable energy drive?

Is there a _____ these _____ and _____ renewables _____?

_____ the price structures relate to _____ our _____?

_____ pricing _____ energy initiatives here?

Will these _____ be _____ by _____ region's _____ energy?

_____ is the _____ pricing _____ and sustainable _____ our country _____ state?

Do _____ know _____ the _____ charges _____ pursuits around us?

How do _____ fit with _____ local _____ projects?

_____ alignment _____ pricing _____ support green _____?

_____ options align _____ local green power _____?

Are _____ pricing _____ nearby _____ aims?

How do _____ fit _____ our _____ energy initiatives?

Do these _____ back renewable _____?

_____ you _____ me if these pricing arrangements are compatible _____?

_____ if the pricing models coincide with _____ renewable _____?

_____ you tell us _____ these _____ to sustainable energy _____ community?

_____ they linked _____ plans _____ the area?

Will _____ to the _____ aims?

_____ various _____ setups _____ with renewable initiatives here?

Does _____ pricing structures _____ region's renewable energy objectives?

I _____ to _____ how _____ different _____ measure _____ to _____ power goals.

Can _____ tell me if _____ prices are _____ commitment _____ green, sustainable _____?

_____ setup in _____ with the renewable initiatives _____?

How are _____ related to renewable _____ efforts?

Is the _____ pricing _____ this region indicative of _____?

How do _____ pricing _____ correspond to _____ energy _____?

Do _____ options support _____ efforts here?

_____ pricing structures _____ the local Renewable Energy _____?

_____ well _____ the different options _____ green _____ efforts?

How compatible are these _____ with local _____?

_____ different _____ plans measure _____ to renewable power _____?

Is _____ of these _____ structures aligned _____ the _____ energy _____?

Can you tell us _____ sustainable energy programs _____ community?

_____ of _____ plans align with _____ local renewable _____ goals?

_____ make _____ between these _____ and our push for _____?

_____ prices take account _____ our _____ push for _____ power sources?

What _____ these _____ green energy _____ in our region?

_____ is _____ between each _____ plan _____ sustainable practices _____ country?

How do they _____ green _____ objectives _____ country?

How _____ the different pricing _____ fit _____ goals?

Different price _____ relate to local/ regional _____.

_____ you think _____ the _____ align with sustainable _____ around _____?

Do _____ between _____ prices _____ our regional push _____ renewable energy?

_____ models meet _____ area's _____ goals?

Can _____ structures relate to green _____ our _____?

_____ there be _____ connection _____ prices and _____ regional _____ for renewable _____?

Are _____ of the _____ structures _____ renewable energy objectives?

Are these pricing _____ compatible with _____?

Will your pricing _____ with renewable _____ initiatives _____?

Do _____ pricing _____ to our area's _____?

Is there _____ correlation between _____ and renewable _____?

_____ those _____ models in line with _____ renewable _____?

Do _____ pricing structures mesh _____ for sustainable _____?

Is the _____ supporting _____ energy _____ the area?

Do _____ think _____ charges align _____ sustainable _____ around _____?

_____ am curious if _____ arrangements _____ compatible with _____ energy _____.

_____ you thought _____ how the _____ sustainable _____ pursuits _____ us?

Are your _____ structures following _____?

Are _____ of _____ pricing _____ compatible with _____ region's _____ objectives?

Are _____ in _____ with _____ initiatives?

_____ we see a _____ between _____ our push _____ renewable _____?

_____ different pricing models _____ with renewable _____?

_____ do the _____ goals relate to _____ structures?

Are there _____ plans _____ renewable energy around us?

_____ do the different price options have _____ energy _____?

_____ the pricing _____ to _____ renewable goals?

Is _____ pricing model _____ with _____ area's renewable _____?

_____ the _____ renewable _____ compatible with these _____?

Is _____ pricing _____ to local _____ efforts?

_____ do _____ pricing structures _____ the renewable energy _____?

_____ the _____ pricing structures align with _____ in our _____?

_____ pricing _____ with the _____ renewable energy drive.

Does _____ pricing structure match _____?

_____ these different prices _____ to _____ power _____?

Is the pricing _____ with _____ energy _____?

How _____ the _____ plans _____ green _____?

_____ do _____ pricing _____ to the _____ renewable energy _____?

_____ pricing _____ with our local Renewable Energy _____?

_____ your _____ structure consistent with _____ here?

Are _____ compatible _____ the sustainable _____ pursuit around _____?

Are _____ pricing _____ compatible _____ local renewable _____?

_____ you _____ these charges align with _____ energy _____ around _____?

_____ pricing _____ support _____ energy initiatives _____ the area?

_____ tell me _____ prices _____ to sustainable energy _____ our community?

_____ these _____ structures _____ green _____ in our region?

_____ it _____ your pricing _____ with sustainable energy _____?

How _____ the cost _____ with clean _____?

_____ these pricing _____ with _____ renewable energy drive?

_____ is _____ between pricing plans _____ practices _____ our country?

_____ price structures _____ green energy objectives within _____ region?

_____ pricing _____ compatible _____ the _____ Renewable Energy efforts?

Does the _____ offered _____ renewable _____ in our _____?

How do these options _____ the local _____?

_____ any _____ your _____ structures mesh with _____ goals?

_____ these different _____ fit _____ renewable energy _____ in our _____?

_____ do _____ relate _____ local _____ goals?

Will these _____ coincide with _____?

I would _____ arrangements are compatible with regional clean _____.

Does ____ alignment of ____ reflect green ____ area?

Are there ____ correlation between ____ and sustainable ____?

Can ____ me if the ____ models ____ targets?

Do you know ____ charges align ____ energy ____ us?

____ different pricing ____ supporting renewable ____?

Our ____ are these ____ models compatible with them?

Which ____ options ____ efforts for ____ energy?

____ these ____ similar to regional ____?

____ pricing ____ fit ____ local or ____ sustainable ____ goals?

Will ____ be compatible ____ clean energy drives?

How will ____ different ____ options ____ with ____ green ____ efforts?

____ the ____ structures align ____ renewable ____ initiatives in our ____?

____ pricing ____ fit with the ____ renewable ____ efforts?

____ are the ____ renewable energy goals?

____ the ____ options fit ____ local green ____?

How ____ pricing ____ to ____ for renewable energy?

____ your pricing structures ____ with ____ renewable energy ____?

____ if these pricing models coincide ____ near me?

____ these diverse charges compatible ____ sustainable ____ around ____?

How ____ different pricing ____ match with the ____ efforts?

____ these ____ options fit ____ the local green ____?

____ do these ____ relate to the ____ energy ____ our ____?

How do these ____ to ____?

Does ____ arrangements ____ clean ____ drives?

Can ____ tell us ____ sustainable energy programs ____ our country?

Can charges ____ to ____ aims?

Are these ____ compatible ____ here?

Can ____ see ____ correlation ____ these ____ and ____ for ____ energy?

____ pricing ____ support ____ initiatives in our area?

____ models ____ our area's renewable ____?

Are ____ applicable to ____ initiatives?

Does the ____ with ____ clean energy agenda ____ country?

____ options support the ____ energy ____?

Is the ____ compatible with these ____ structures?

____ you tell ____ if your ____ are ____ with ____ commitment ____ power sources?

____ the ____ match ____ with ____ aims?

____ any of ____ pricing ____ remotely ____ with the ____ goals?

How do the different ____ plans measure ____ goals?

How are the ____ with local ____ projects?

____ there ____ charges ____ eco-friendly goals?

____ do ____ price ____ to ____ energy objectives ____ our region and ____?

____ combinations in ____ with ____ initiatives?

____ plans ____ with local renewable ____ goals?

How do the various ____ match up ____?

____ these ____ price ____ to ____ environmental objectives?

Is ____ compatible ____ or national ____ goals?

Does ____ pricing structures ____ with ____ renewable ____?

Are ____ in line ____ initiatives?

How ____ rates contribute ____ push for ____ energy?

____ these different charges align with ____ us?

_____ structures _____ renewable energy initiatives _____?
 How _____ various _____ the _____ for renewable energy?
 _____ your _____ structures consistent _____ the renewable _____?
 Are the prices _____ green _____ in the _____?
 _____ prices associated with green _____ plans _____ our _____?
 Is _____ push _____ power sources _____ account _____ these price structures?
 _____ pricing _____ our area support renewable _____?
 _____ different pricing _____ renewable _____ efforts?
 _____ does _____ different _____ contribute to _____ push _____ energy?
 _____ pricing options _____ energy?
 How are _____ structures _____ to _____ energy initiatives _____ region?
 _____ do _____ different _____ measure up _____ renewable power _____ here?
 Is _____ pricing _____ compatible _____ energy efforts.
 Will these _____ structures fit with the _____?
 _____ the _____ clean _____ agenda _____ to these pricing _____?
 _____ these _____ structures aligned _____ energy _____?
 Are any of these _____ aligned _____ renewable _____?
 Does any of _____ correlate with _____ energy _____?
 How do the _____ the _____ renewable energy?
 Do the charges _____ up _____ aims?
 _____ do these charges fit _____ around _____?
 Is the alignment _____ systems _____ green ambitions?
 Can you say _____ the pricing _____ renewable _____?
 How does _____ cost _____ correlate _____ endeavors?
 Is there _____ correlation between _____ shifts towards renewable _____?
 _____ correlation _____ pricing strategies and _____ structural _____ towards _____ sources?
 _____ prices compatible with regional _____?
 How _____ the _____ options _____ renewable _____?
 Can you _____ me _____ correspond to _____ energy programs _____ your _____?
 _____ are these _____ pricing structures _____ energy _____ our region?
 Is _____ these charges _____ with sustainable _____ endeavors around _____?
 _____ you _____ are _____ to the _____ plans we have hereabouts?
 _____ local _____ goals related to _____ pricing _____?
 _____ a connection between _____ prices and our _____ energy?
 Does the _____ pricing _____ green ambitions _____ this region?
 _____ charges with _____ push for more _____?
 How _____ the pricing _____ measure _____ to _____ power _____?
 Is _____ a chance _____ the pricing _____ with _____ nearby?
 How do _____ different pricing _____ with _____ local green _____?
 _____ these pricing _____ support _____ efforts?
 Are _____ with _____ area's renewable goals?
 Do _____ reckon _____ options _____ something _____ do _____ the _____ energy plans?
 Does the _____ contribute _____ green ambitions?
 _____ pricing _____ compatible with _____ energy _____?
 _____ at all, have _____ considered _____ charges _____ with sustainable energy _____?
 Are the _____ regional clean Energy _____?
 _____ our _____ models _____ line with the _____ goals?
 Can you _____ the various _____ compare _____ renewable _____ goals?
 Do _____ know how _____ diverse _____ energy practices around _____?
 Can you _____ if _____ prices _____ with _____ green, sustainable power sources?

_____ curious _____ pricing arrangements _____ with clean energy _____.
 Aligning your charges with _____ renewable _____ area?
 Can _____ me _____ your _____ with _____ commitment to green power _____?
 _____ different _____ options _____ renewable _____ efforts?
 Aligns your _____ push _____ renewables in _____ area _____ not?
 Is there a _____ prices and _____ push for _____?
 _____ know _____ diverse charges align with sustainable energy _____?
 _____ pricing structures mesh with _____ goals?
 Do these _____ support _____ renewable _____ efforts _____?
 _____ the pricing structures in alignment with _____?
 Are all of these _____ structures aligned _____ objectives?
 _____ wondering _____ these _____ compatible with regional clean _____ drives.
 _____ different pricing models fit with local _____?
 _____ the _____ the country's clean energy agenda?
 _____ the _____ structures considered the _____ initiatives _____ area?
 _____ the different _____ correspond _____ local renewable _____ projects?
 Are there any _____ between _____ energy around us?
 _____ we see _____ prices _____ push for renewable energy?
 Can you _____ the prices _____ energy programs _____ our community?
 Do _____ pricing _____ with the region's _____ energy _____?
 Please tell _____ pricing _____ with _____ clean energy drives.
 Does the _____ costs match _____ national _____?
 _____ there a _____ between _____ prices and _____ regional _____ renewable _____?
 _____ there _____ connection between _____ different cost _____ green initiatives?
 _____ costs _____ with local or _____ eco-friendly goals?
 Pricing structures _____ support _____ energy _____?
 _____ any of _____ plans _____ with our _____ renewable _____ goals?
 Is _____ different costs _____ with the _____ goals?
 _____ pricing options support _____?
 How _____ structures _____ to green _____?
 Do _____ the _____ correlate with _____ clean _____ agenda?
 _____ does _____ setup relate to _____ energy _____?
 _____ structures align _____ renewable energy initiatives in our _____?
 _____ options _____ to _____ and regional _____ renewable energy?
 _____ the pricing options _____ efforts?
 Is _____ aligned with _____ renewable _____ objectives?
 _____ of these _____ line with our local _____ goals?
 _____ these _____ in line _____ sustainable _____ our community?
 _____ models coincide with the _____ nearby?
 _____ pricing structures fit with our _____ energy _____?
 Are any _____ structures in _____ with _____ energy objectives?
 How does _____ cost setup _____?
 Will the price plans _____?
 How do _____ price structures relate to _____ region?
 _____ these _____ renewable energy efforts?
 _____ the alignment _____ affect the _____ green ambitions?
 _____ pricing _____ match _____ area's renewable _____?
 How do the _____ options _____ renewable _____?
 Are _____ prices affected by the region's _____?
 I _____ to _____ pricing _____ support renewable _____ initiatives.

_____ pricing structures fit with renewable _____?

Are _____ pricing structures _____ initiatives here?

_____ charges match up with _____?

Are _____ pricing options _____ with _____ energy _____?

_____ me how _____ prices correlate with _____ energy _____ in our _____?

Is _____ that these pricing _____ support renewable _____ our _____?

_____ are _____ different pricing structures related _____ initiatives _____ region?

_____ pricing models in _____ renewable _____?

Is _____ supported _____ the different _____ here?

Can you _____ me _____ coincide _____ renewable aims nearby?

_____ can _____ related _____ renewable _____ initiatives.

How do these structures _____ energy _____ our _____?

Is _____ structure _____ local energy _____?

_____ options correlate with our country's _____?

_____ of these _____ structures align _____ our _____ renewable _____ objectives?

_____ pricing structures _____ with renewable energy _____ our region?

_____ pricing structures _____ renewable _____ efforts?

Is it possible to align _____ charges _____ in _____?

Does _____ of _____ systems _____ ambitions in this _____?

_____ pricing options _____ to do with _____ green power _____?

_____ reckon _____ have anything to do _____ our _____ energy plans?

We don't _____ different pricing _____ renewable energy _____.

How are these pricing _____ with _____?

How _____ different pricing options with local _____?

_____ price _____ line _____ the renewable initiatives?

How _____ do _____ work with local _____ power efforts?

_____ do _____ structures _____ energy initiatives?

_____ price setup _____ renewable _____ here?

Do _____ support _____ energy in _____?

Do these _____ mesh with _____ energy _____?

Can you _____ if your _____ are _____ with our _____ sustainable power _____?

Are _____ in _____ with _____ here?

Is _____ prices linked _____ power _____ in our _____?

Is there _____ connection between _____ and _____ promotion _____ energy?

Have any of your pricing _____ with _____?

Do _____ fit with _____ energy drive?

_____ your _____ structures correspond to the _____ energy _____?

_____ these pricing models coincide with _____?

Is the various _____ renewable energy projects?

Do the _____ support renewable energy _____?

_____ do _____ contribute to _____ push for _____ energy _____ our region?

Is there _____ connection _____ the _____ regional _____ push?

_____ price _____ follow regional _____ objectives?

In our area _____ pricing _____ energy initiatives?

Do _____ structures offer _____ renewable _____ in our area?

Are these different _____ helping _____ energy _____ here?

_____ tell me _____ pricing models _____ aims nearby?

How do these _____ options _____ local green _____?

_____ local renewable _____ the pricing structures?

Have you _____ about _____ with sustainable energy _____ us?

How do these _____ structures correspond _____ initiatives?

Is the _____ models _____ nearby?

_____ do _____ structures relate _____ objectives _____ our country?

_____ the _____ models in _____ renewable goal?

_____ this _____ structure fit with _____ energy drive?

_____ drive compatible with these _____?

Are _____ plans _____ with _____ renewable energy _____?

Is _____ options supporting _____ initiatives?

_____ these pricing structures related to _____ goals?

_____ the different costs _____ the _____ or _____ eco-friendly _____?

Is the _____ pricing systems related _____ in this _____?

Where _____ pricing _____ fit _____ renewable energy initiatives?

_____ these _____ structures compatible with our _____ energy?

_____ fit with local _____ national eco-friendly goals?

_____ prices _____ with _____ clean energy _____?

_____ this _____ compatible _____ renewable aims nearby?

_____ do price _____ to _____ energy _____ within our _____?

_____ this pricing _____ with _____ region's renewable energy _____?

_____ pricing structures _____ harmony with renewable _____?

_____ do _____ pricing plans _____ power goals here?

_____ it possible to tell _____ how _____ prices _____ energy _____?

Is _____ pricing structure compatible _____ energy drive?

Do these pricing structures _____ local _____?

_____ do the _____ measure _____ renewable power goals

_____ the pricing _____ with the area's renewable _____?

_____ pricing structures _____ renewable _____ our area?

Is _____ pricing _____ supporting _____ efforts?

How _____ the _____ options relate to _____ regional _____ energy?

Do _____ these price _____ the community's push _____ sources?

Can _____ tell me _____ these _____ renewable aims?

_____ your _____ jive with _____ energy initiatives _____?

_____ do these price structures _____ green energy objectives _____?

Can _____ with regional clean energy drives?

_____ do _____ different pricing models _____ renewable _____?

Do _____ consider _____ initiatives in our _____?

_____ our _____ renewable energy goals _____ with _____ of these _____?

Is it _____ coincide with _____ aims?

_____ there _____ between _____ plans and promoting renewable _____ us?

_____ the pricing models fit _____ renewable energy _____?

_____ do these pricing _____ have to do _____ local _____?

Does _____ local or _____ eco-friendly goals?

_____ you _____ options _____ to the renewable energy plans?

_____ do the _____ fit _____ local green power _____?

I _____ prices _____ linked to green power _____.

Can _____ see any _____ these _____ and _____ push _____ energy?

_____ you tell _____ these _____ correspond to _____ energy _____ in _____ country?

_____ pricing models in _____ renewable _____?

_____ we _____ link between _____ prices _____ our _____ for renewable _____?

Aligns your charges _____ renewable _____ in _____ not?

Do _____ structures _____ local _____ efforts?

Does _____ pricing _____ local renewable energy _____?

_____ these pricing structures _____ with our renewable _____?

Is _____ rates _____ of _____ efforts?

_____ the _____ plans support _____?

Are _____ structures compatible with the _____?

_____ do these prices _____ renewable _____?

The _____ do _____ support _____ plans?

_____ these pricing _____ fit with local _____ efforts?

Does the _____ models _____ local _____ energy projects?

_____ different pricing _____ any renewable _____ efforts here?

How _____ compatible _____ local renewable energy projects?

How do these _____ energy _____ around us?

_____ pricing _____ with _____ clean energy drives?

Do _____ know _____ prices _____ current _____ energy programs _____ our community?

_____ prices tied to green _____?

How _____ related to _____ energy _____?

_____ are _____ various _____ compatible with _____ energy initiatives?

_____ the _____ up _____ the _____ aims?

Is _____ arrangements _____ with _____ clean _____ drives?

_____ local _____ drive compatible with pricing _____?

_____ you tell me _____ these prices compare _____ in the _____?

Can _____ price structures relate _____ objectives within _____?

_____ national sustainable _____ goals mesh with your _____?

How _____ do _____ pricing _____ work _____ the _____ power efforts?

_____ we _____ a _____ and regional _____ for renewable energy?

Does _____ region's _____ to green _____ influence _____?

Do the _____ structures fit our _____?

_____ prices _____ commitment to sustainable power sources?

_____ the _____ models in line with _____ goals?

Do _____ options _____ the _____ clean _____ agenda?

_____ to green energy objectives?

_____ there _____ correlation between pricing _____ local _____ shift _____ renewable _____?

_____ pricing _____ with the region's renewable energy _____?

Can _____ us if _____ prices _____ with _____ commitment _____ sustainable power _____?

_____ if _____ arrangements _____ compatible with _____ energy drives.

_____ plans _____ with our local renewable energy _____?

_____ you reckon _____ pricing options are _____ to _____ plans we _____?

_____ pricing structures in _____ with _____ initiatives here?

_____ that these charges _____ sustainable _____ activities around us?

_____ plans connected to _____ renewable energy _____ us?

Different _____ options relate to _____ regional _____ for _____

Are _____ rates _____ with _____ sustainable _____?

Are these pricing structures _____ support of _____ energy _____?

_____ do the _____ pricing models _____ local _____ energy?

What is the _____ between these _____ and _____ renewable _____?

_____ pricing structures _____ energy efforts?

How do _____ correspond with _____ local green power _____?

How _____ structures relate to renewable _____?

Does the _____ structure correspond _____ renewable _____?

_____ structures support _____ renewable _____ initiatives?

_____ there _____ link _____ prices and _____ for renewable energy?
 How _____ various _____ structures match the _____ energy _____ our _____?
 Do you think _____ options have _____ renewable energy _____ we have?
 _____ any of the _____ plans _____ the local renewable _____?
 Are any _____ the pricing _____ renewable _____ objectives?
 Are _____ pricing _____ linked _____ initiatives?
 How the _____ measure up to _____ power _____?
 Do _____ of pricing _____ reflect the _____ green _____?
 _____ pricing structure _____ the region's renewable energy _____?
 How _____ these _____ structures _____ green energy _____?
 Does the various _____ with local _____ projects?
 How _____ the _____ pricing plans compare _____ renewable _____?
 Do _____ of these _____ include _____ for _____ power sources?
 How _____ the _____ structures relate to _____ objectives _____ region?
 _____ arrangements are compatible with regional _____ energy drives.
 How do these _____ pricing structures _____ to _____?
 _____ alignment of pricing _____ green ambitions _____ this _____?
 Does _____ pricing arrangements compatible with the _____?
 _____ you thought about how the _____ energy _____ around _____?
 In our _____ do these _____ energy initiatives?
 _____ the pricing structure _____ our local _____?
 _____ any _____ the pricing structures _____ energy goals?
 _____ the different _____ mean for local efforts for _____?
 How well _____ the different _____ for _____ green _____ efforts?
 Do the pricing _____ initiatives _____?
 Were the _____ with _____ energy drives?
 _____ you _____ me if _____ pricing models _____ aims nearby?
 Are _____ set _____ line with renewable _____?
 How do _____ options _____ with _____ local _____ power _____?
 Do the _____ support _____ energy _____?
 Do _____ pricing structures benefit _____ initiatives _____ our _____?
 How do _____ pricing _____ the local renewable _____ projects?
 _____ prices _____ to current _____ energy programs in _____ community?
 _____ your pricing _____ energy goals?
 _____ well _____ the different options fit with _____ efforts?
 _____ the _____ take account of _____ push for renewable _____?
 Is _____ of _____ plans remotely _____ with _____ renewable energy _____?
 _____ there any links _____ your _____ and _____ energy _____?
 How _____ these _____ structures relate to green _____ in _____?
 _____ the pricing _____ compatible _____ our _____ renewable _____?
 Have you thought _____ how _____ charges _____ sustainable _____ around _____?
 _____ me how _____ prices correspond _____ sustainable energy _____ in _____ community?
 How do _____ price _____ fit _____ our green _____?
 _____ our _____ energy agenda related _____ these _____ options?
 Are _____ models compatible _____ the area's _____?
 _____ pricing structures _____ to _____ energy initiatives in the _____?
 Is _____ any correlation between pricing _____ the _____ to _____?
 Do _____ correlate with _____ clean energy _____ in our _____?
 _____ do the various _____ match with _____ initiatives _____ region?
 _____ it possible _____ charges align with _____ energy pursuits _____?

Are _____ pricing models _____ with _____ area's _____ goals?
 _____ alignment of pricing _____ correspond with _____?

Is there _____ your _____ and renewable energy around _____?
 _____ tell me if _____ pricing _____ are compatible _____ regional clean _____?

How _____ relate to our local _____ goals?
 _____ structures complement sustainable _____ goals?
 _____ structures _____ renewable energy?

I _____ these _____ structures are compatible _____ local _____ efforts.

Is your price _____ connected _____ the _____ renewable _____ us?

How do the _____ plans _____ the _____?

Are the _____ structures supporting _____ energy _____ the _____?

How _____ various pricing _____ work _____ renewable _____ projects?

Are _____ these _____ aligned with _____ region's renewable energy _____?

How do the _____ fit with local _____?

_____ are _____ related to _____ energy _____ in our _____?

_____ these _____ to renewable initiatives?

_____ these _____ structures fit into _____ energy _____ in our _____?

_____ the _____ with local renewable energy efforts?

_____ the different _____ options relate _____ efforts _____ renewable energy?

Are _____ models _____ to _____ renewable goals?

_____ structures considered for renewable energy _____ area?

_____ diverse charges compatible with _____ pursuits _____ us?

_____ these price _____ to _____ environmental _____?

_____ you _____ the charges align with the _____ pursuit _____?

_____ you _____ if _____ pricing models correspond with _____?

_____ like to _____ if _____ pricing _____ with regional _____ energy drives.

We _____ know if there _____ connection between _____ our _____ renewables _____.

Is _____ your _____ structures are in _____ with _____ energy _____?

_____ structures _____ to local _____ goals

_____ how the pricing plans measure up to _____ power _____.

Is _____ with our renewable energy _____?

Are any _____ aligned with our renewable _____?

Are _____ compatible with _____ drives?

How do these _____ pricing _____ renewable _____ initiatives?

Is there _____ between _____ pricing options _____ our _____ energy _____?

Do you think _____ charges align _____ pursuits around _____?

How _____ these _____ structures _____ to _____ energy objectives?

Is _____ between these _____ and _____ regional push _____ renewable _____?

Is _____ with renewable energy _____?

How _____ structures _____ green _____ objectives in _____ region?

_____ there _____ connection _____ these prices _____ renewables push?

How do your various rates _____ the _____?

How are these different pricing _____ with _____?

Is it possible that these _____ coincide _____?

Is _____ setups in _____ with _____ renewable _____?

Does _____ of these _____ structures _____ region's renewable energy _____?

_____ different pricing _____ support _____ energy _____ here?

Is local green _____ efforts _____ with _____ options?

_____ may _____ sustainable energy goals.

Can _____ how _____ compare _____ sustainable energy programs in _____ community?

_____ tell me _____ the pricing _____ are near _____ renewable _____?
 Aligns _____ charges with _____ renewable energy _____ area?
 _____ the _____ support renewable _____ plans?
 How _____ you _____ if _____ correspond _____ sustainable energy programs?
 _____ are these _____ green _____ objectives within our country?
 Does the alignment _____ systems _____ of this area?
 _____ local renewable _____ relate to _____ pricing structures?
 _____ pricing _____ regional clean _____ drives?
 Is _____ pricing _____ with sustainable _____?
 _____ price _____ to local/regional efforts for _____ energy.
 Do _____ mesh with _____ for sustainable _____?
 _____ if _____ prices _____ up _____ our commitment to green, _____ power sources?
 _____ of these pricing _____ with _____ Renewable Energy _____?
 _____ these pricing options _____ renewable _____?
 _____ these various pricing _____ align _____ energy initiatives?
 _____ charges fit _____ sustainable _____ us?
 Do _____ different _____ models _____ for renewable _____ plans?
 _____ you thought _____ charges align with _____ activities _____ us?
 Are _____ compatible with _____ renewable _____?
 _____ the different _____ affect _____ efforts for renewable _____?
 Do _____ renewable Energy initiatives?
 Can you _____ if _____ pricing _____ coincide _____ aims near _____?
 Have _____ thought _____ how _____ fit _____ energy _____ around us?
 How do these various _____ renewable energy _____ region?
 Does _____ country's clean _____ correlate _____ pricing options?
 Are _____ line _____ initiatives here?
 I'm curious if the pricing _____ compatible _____ energy _____.
 _____ these pricing _____ energy initiatives.
 Does _____ of pricing _____ to _____ ambitions?
 _____ the _____ plans measure up to _____ goal of _____?
 _____ do the price _____ support regional green _____?
 Is _____ price settings _____ renewable _____?
 _____ the _____ models _____ with our Renewable _____?
 How do _____ various _____ models fit _____ renewable _____?
 Can _____ correlation _____ prices and _____ for regional renewables?
 _____ of these _____ structures take _____ the _____ push _____ power sources?
 Does the pricing plans _____ goals?
 _____ the alignment of prices reflect _____ region?
 Are they _____ green power _____ our _____?
 _____ these _____ structures _____ renewable energy _____ in _____ area?
 Does the _____ of _____ the _____ of _____ region?
 I don't _____ if _____ pricing arrangements are _____ energy _____.
 Are _____ charges linked _____ energy in the area?
 _____ there any _____ between _____ energy in the area?
 _____ has renewable goals _____ these pricing models _____ them?
 Can _____ prices be _____ to _____ plans?
 _____ region's commitment to green energy _____?
 How do _____ various _____ models fit _____ energy _____?
 Is the pricing _____ our local energy _____?
 _____ different _____ affect local _____ national eco-friendly _____?

Are these _____ structures _____ energy objectives?
 _____ correspond with the _____ renewable energy _____?

Are these charges _____ with _____ around _____?
 _____ these different _____ green power _____?

How _____ various pricing structures _____ initiatives in _____ region?
 _____ pricing structures work with renewable energy _____?
 _____ prices connected _____ green _____ in the area?
 _____ these _____ influenced by _____ commitment _____ our region?
 _____ price _____ support _____ green _____?
 _____ do _____ various pricing structures fit _____ renewable energy _____?
 _____ the various _____ structures _____ renewable _____ initiatives?
 _____ various rates contribute to _____ push _____ energy?
 _____ do _____ pricing models work with _____ energy _____?

Does the _____ with _____ nearby?

Do _____ connection _____ your price plans _____ the promotion of _____?
 _____ your _____ with the _____ renewables?

Are these prices _____ our region's _____ to _____?

Is these pricing _____ compatible _____ in _____ area?

How will the _____ pricing plans _____ power _____?

Does the different _____ options _____?
 _____ are _____ structures related _____ energy objectives within _____ region?

Does _____ to green _____ these prices?

Can you _____ us an _____ of _____ setups fit with our _____?
