 ____ the phenomenon ____ loss ____ faulty ____ appliances real?
 Is ____ possible ____ wrong cause ____ power ____ in a ____?
 Is there ____ loss due to faulty ____ appliances?
 Can ____ electrical appliances ____ frequent power ____ a ____?
 ____ faulty electrical devices are ____ for frequent ____ of ____ failure.
 The occurrence of ____ electrical ____ may be plausible.
 Is ____ for ____ devices to cause ____ building ____?
 Power ____ be related ____ equipment in ____ facility.
 ____ appliances ____ power losses ____ buildings.
 The ____ suffer repeated power ____ to faulty ____.
 Is ____ that gadgets gone ____ cause ____ cuts?
 ____ chance that faulty ____ appliances can ____ outages?
 ____ junky ____ responsible ____ multiple power ____ in this building.
 Can poor ____ result ____ cuts?
 Is ____ that ____ appliances can ____ power outages?
 Is it possible flawed electronics ____ blame ____ of the ____?
 Is ____ true ____ bum electrics ____ constant blackout ____?
 There ____ outages in this building, and ____ electrical ____ to ____?
 Is it possible that faulty ____ failures?

Does a _____ appliance affect _____ more than _____?

Is it possible that _____ gizmos _____ for _____ here?

_____ crappy electrical _____ the power _____ off all the _____?

Is _____ for fault devices to cause _____ outs?

broken electrical _____ can _____ periods _____ power _____ an establishment

Repeated power losses _____ be _____ appliances.

_____ electrical _____ capable _____ causing constant _____?

_____ cause power failures?

_____ there _____ occurrences of electricity outage _____ malfunctioning _____ a building?

_____ loss in _____ building _____ be _____ of faulty _____.

Could _____ be to _____ for the _____ loss?

Can _____ lead to _____ power _____?

_____ electric gizmos the cause _____ all _____ power _____?

_____ the power _____ go out?

_____ possible _____ appliances _____ cause _____ interruptions of electricity?

_____ possible _____ malfunctioning electronic _____ could cause _____ failures?

_____ electrical appliances _____ are faulty _____?

Is there a chance _____ loss due _____?

_____ faulty electrical appliances _____ power losses in a _____?

_____ chance that faulty appliances _____ power failures?

_____ it _____ that messed _____ gizmos _____ regular _____ here?

Are _____ failures _____ a _____ linked _____ electrical appliances?

_____ malfunctioning _____ cause power _____?

_____ the lousy appliances cause power _____ out _____?

There are _____ electric _____ can cause _____ losses _____ power _____.

Do the _____ losses in _____ come _____ appliances?

_____ equipment _____ more power _____?

_____ a possibility _____ another power loss _____ faulty electrical _____?

Is _____ a _____ between _____ electrical _____ building _____ outs?

_____ power _____ the structure because _____ faulty appliances?

_____ possible that faulty gizmos _____ outages?

Is a structure susceptible _____ of _____ to malfunctioning _____?

Is it _____ for bad _____ to _____ the _____ building?

_____ power losses _____ from faulty _____?

_____ problems the cause _____ power _____?

Will power _____ by electrical _____?

_____ it possible that _____ could cause _____ electricity _____ more than _____?

_____ for faulty appliances to _____ recurring _____ losses.

Is _____ possible _____ equipment can cause _____ electricity _____?

_____ appliances could cause _____ buildings.

Junky electronics could _____ building _____.

_____ these _____ electrical devices _____ blame for _____ power _____ in _____?

_____ caused by bad devices?

_____ gadgets _____ for the repeated _____?

Is it possible for _____ to _____ electrical _____?

_____ faulty _____ appliances be to _____ for _____ power _____?

_____ the power _____ lost because of _____?

Is it _____ power loss in _____ building _____ faulty appliances?

_____ faulty electrical _____ be to _____ for _____ power _____?

It's possible _____ the _____ mess with the _____.

_____ appliances that could cause _____ loss _____ power _____ buildings.

A _____ episode of facility-wide energy disruptions _____ be _____.

_____ appliances a cause _____ power _____?

_____ it possible _____ can cause a _____ loss of _____?

Is _____ a _____ that _____ appliances could cause _____ in a _____?

Does _____ malfunctioning appliance disrupt _____ in the _____?

_____ electrical appliances _____ the potential to _____?

Is a malfunctioning ____ supply multiple times?
____ for ____ supply at the premises ____ disrupted ____ case ____ malfunctioning electronics?
____ it possible ____ electrical ____ cause a building ____ experience power ____?

Are ____ faulty appliances?
____ are frequent ____ losses due ____ malfunctioning electrical ____ within ____.
____ malfunctioning gadgets ____ power failures?

Do ____ a building cause ____?

Is ____ possible ____ faulty ____ appliances to ____ here?

Is ____ likely that a broken electrical ____ of ____ loss?
____ bad gadgets cause ____ lost?

Is ____ that faulty ____ could cause ____ power ____?

Is malfunctioning ____ blame for ____ frequent ____?

Does flawed ____ devices ____ the ____ electricity to ____?
____ it possible ____ electrical issues ____ failures?

____ malfunctioning gadgets ____ to blame for ____ frequent ____ failures.

Are ____ junky electrical ____ responsible ____ multiple ____ failures ____ building?

Is ____ that ____ electronic ____ could ____ a recurring electricity ____?
____ it possible ____ problems with ____ could ____ power ____?

Is ____ structure to ____ power losses ____ faulty appliances?

Is ____ link between ____ electrical devices ____ blackouts?
____ it ____ that ____ electrical ____ cause continuous power losses for ____?

Is it possible ____ could cause power ____?

Is ____ for faulty ____ appliances ____ cause ____ failures in a ____?
____ cause frequent power ____?

The facility ____ malfunctioning electrical equipment that contributes ____.
____ gizmos to ____ for regular ____?

____ it possible that faulty ____ cause ____ electricity ____ our building?

Is it ____ equipment ____ lead to ____ failure?
____ losses ____ be possible with ____.

____ a ____ lead to power ____?

____ broken ____ to ____ power failures?

____ electrical appliances ____ to cut off?

Can ____ appliances ____ power to ____?

____ it ____ crummy electric gizmos could ____ of darkness in ____?
____ faulty appliances ____ cause interruption ____ electricity flow ____ the building?

Is ____ that ____ wrong cause a repeat of ____?

Is it possible ____ electrical ____ in a ____ be ____ faulty ____?

Can ____ that ____ cause ____ building to go ____?

____ it ____ that faulty ____ appliances can ____ failures?

It's possible faulty ____ are ____ blame ____ power ____.

Do ____ appliances cause ____ failures ____?

____ there a ____ devices and recurring building ____?

Is ____ possible that crappy electrical ____ to go ____ time?

Can ____ to blame ____ failures?

____ dumb electrical gadgets cause ____?

Can ____ appliances ____ the ____ in ____?

There is ____ faulty ____ can cause power failures ____ building.

Repeated instances ____ loss ____ building may be related ____.

the electrical devices the going out in ?
 it possible power could be caused by ?
 instances of power failure faulty electrical devices.
 be to blame repeated instances of ?
 broken electrical a cause continuous periods ?
 the loss the building due electrical ?
 the loss power building of faulty appliances?
 electrical appliances a building to again?
 it possible appliances could cause interruptions electricity in ?
 Is that faulty equipment leads ?
 power losses caused appliances?
 Do cause with the ?
 Do faulty could interruptions electricity the building?
 Is there gizmos responsible the frequent ?
 there chance of faulty appliances a building?
 is potential recurring losses of power appliances.
 electrical devices the electricity off?
 Is that lousy are blame repetitive outs?
 Is it that faulty devices cause off?
 flawed to for power failures?
 failures occur due to ?
 Is it that faulty electrical cause power ?
 Can broken appliances ?
 Is because bad gadgets?
 be to blame unreliable ?
 possible that could cause more interruption of building?
 Is it faulty devices to disruptions?
 it possible that there a repeat power loss electrical ?
 Is it malfunctioning could an electricity more ?
 the loss a is caused appliances?
 Are issues to recurring ?
 power caused faulty ?
 Are the crummy blame the in building?
 Is possible devices to repeated building ?
 Is possible that equipment be for failures?
 it likely power failures are appliances?
 bad cause power away.
 inferior electrical appliances the power to all ?
 it possible for faulty electrical cause ?
 appliances cause a constant interruption of in building?
 frequent power the due flawed electrical handling?
 Could malfunctioning equipment be the reason ?
 Is that faulty electrical could cause frequent ?
 Recurring power buildings could be by electric .
 Are garbage appliances capable cuts?
 loss caused by faulty ?
 a appliance have ability disrupt supply more once?
 faulty cut off power ?
 It's a if gadgets wrong of failures.
 Is a vulnerable to power loss ?

____ it possible ____ going wrong cause ____ power ____ in ____ ?
 Is there ____ faulty ____ can cause power ____ ?
 There might be ____ occurrences ____ power ____ malfunctioning ____ equipment.
 ____ electrical problems in ____ structure be ____ electronics?
 Is it ____ that ____ cause ____ issues?
 Is ____ gadgets going wrong cause repeat ____ in ____ ?
 ____ malfunctioning gadgets be ____ the frequent ____ failures around ____ ?
 Are there ____ of ____ due to ____ ?
 ____ can ____ go off.
 Is the ____ responsible ____ a bunch ____ power ____ ?
 Is it ____ faulty appliances ____ power ____ ?
 ____ a ____ affected ____ due to faulty appliances?
 Can ____ appliances ____ go out over time?
 Is ____ possible ____ electrical ____ lead to ____ power failures?
 Is ____ that a broken ____ cause ____ continuous ____ loss?
 ____ frequent power cuts ____ by ____ ?
 Is malfunctioning ____ blame for ____ ?
 Do ____ appliances ____ a chance ____ power outages?
 Could malfunctioning appliances ____ ?
 ____ it ____ that ____ lead to power failure?
 ____ think ____ appliances could ____ a ____ of electricity ____ our building?
 Defected equipment ____ frequent power failures.
 It's possible that ____ electric ____ could ____ in ____ joint.
 Do ____ electrical ____ losses?
 ____ a chance ____ power failures ____ due to faulty electrical ____ ?
 Are there ____ failures in a ____ to ____ electrical ____ ?
 Is ____ by faulty electrical ____ ?
 Is ____ for faulty ____ to ____ power ____ a building?
 ____ it possible ____ faulty ____ appliance to ____ power failure?
 ____ are malfunctioning have ____ chance ____ causing power outages?
 ____ that electricals can ____ repeated black outs?
 ____ crummy gizmos ____ to go ____ all the time?
 Do electrical appliances ____ power ____ ?
 Is ____ faulty ____ appliances will cause ____ in a building?
 Could ____ operation of electronic ____ ?
 Can ____ power to ____ off?
