

[Demo] NLP Dataset for Customer Service Automation

| | |
|-----------------------------|---|
| Company Type | Auto Repair and Maintenance Shops |
| Inquiry Category | Problems with the alternator |
| Inquiry Sub-Category | Alternator not charging battery |
| Description | Customers may inquire about the alternator failing to charge the battery, causing the vehicle to experience power loss or difficulty starting. The shop will diagnose and repair any faults in the alternator or related components to restore proper charging functionality. |
| Data Size | 5,043 paraphrases |
| Want to buy data? | Please contact nlp-data@gross.me via your business email address. |

Masked sample paraphrases of one "Auto Repair and Maintenance Shop" customer inquiry. (Purchased data will not be masked.)

Why _____ start _____ to a faulty _____?

_____ have _____ vehicle that _____ turn _____ could _____ fault of the _____?

_____ think my _____ start because _____ faulty alternator.

_____ possible that an unreliable alternator _____ starting _____ vehicle?

_____ car _____ because _____ a _____ alternator
