

[Demo] NLP Dataset for Customer Service Automation

Company Type	Natural Gas Companies
Inquiry Category	Emergency service interruptions or outages
Inquiry Sub-Category	Pilot light issues
Description	Customer is unable to ignite or relight their gas appliances, such as a furnace or water heater, due to pilot light problems. They seek assistance in troubleshooting and fixing the issue in order to restore functionality.
Data Size	7,294 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Natural Gas Company" customer inquiry. (Purchased data will not be masked.)

_____ could potentially resolve _____ problem of _____ gas-powered _____ not _____ a piloting mechanism _____?

The _____ dryer _____ of the pilot _____.

_____ gas-powered _____ isn't starting _____ a piloting mechanism _____.

I _____ gas-powered dryer that _____ because _____ dumb piloting _____.

An _____ the pilot _____ clothes _____ to fail.

What _____ do _____ fix _____ pilot _____ defect that _____ my clothes _____ starting?

How can we _____ starting _____ to flawed pilot mechanisms?

_____ not able _____ gas-powered _____ due _____ a malfunctioning _____ mechanism.

_____ a way _____ dryer _____ doesn't start with the pilot _____?

_____ a way to fix my _____ clothes _____ malfunctioning because _____ a _____?

I'm having trouble _____ gas _____ dryer _____ a _____ issue.

_____ powered dryer _____ start because of the _____.

_____ clothing tumble _____ won't run _____ at all _____ the piloting _____.

I want _____ know _____ a _____ issue can cause _____ gas _____ start.

_____ gas _____ dryer _____ ignite because _____ the pilot.

The _____ made the _____ not _____.

_____ there _____ do _____ the failure _____ the pilot mechanism on _____ from starting?

There _____ unresolved _____ that makes it difficult _____ launch _____ laundry _____.

_____ am _____ problem with the piloting _____ preventing my _____ starting.

The pilot _____ dryer isn't _____.

_____ clothes _____ was _____ by _____ issue _____ the pilot.

_____ have _____ clothes dryer _____ has pilot _____.

There _____ gas-powered clothes dryer that cannot _____ piloting mechanism _____.

_____ can't I _____ work when the pilot _____?

My _____ dyer _____ not _____ and there _____ a _____ mechanism _____.

_____ there _____ solution _____ problem of my clothes dryer _____ ignite because of an _____?

_____ clothing _____ won't _____ gas power because of _____ problem.

_____ I _____ pilot _____ defect _____ causes my gas _____ to not start?

Is there any _____ the _____ my _____ failing _____ because of _____ with its pilot?

Is _____ any way _____ fix _____ mechanisms that _____ problems _____ dryers?

Is there _____ to faulty _____ dryer _____?

_____ gas clothing dryer won't _____ and _____ suspect _____ related to _____ system, so _____ need help _____

My _____ dryer does _____ because of a _____.

_____ problem of my _____ isn't _____ a piloting mechanism issue.

_____ there _____ to prevent the _____ my _____ mechanism on the _____?

_____ is a _____ piloting _____ that causes _____ gas-powered _____ to start.

Can a piloting mechanism _____ gas _____ to _____?

Can anyone _____ solve _____ gas-powered _____ with _____ pilots?

Is _____ way _____ get my gas clothes _____ because _____ a malfunctioning _____?

I _____ issue that _____ causing my gas _____ dryer to _____ start.

_____ can _____ get _____ clothes _____ to restart?

How can _____ mechanisms of _____ gas clothes drying unit?
