

[Demo] NLP Dataset for Customer Service Automation

Company Type	Home Appliance Manufacturers
Inquiry Category	Troubleshooting and problem-solving support
Inquiry Sub-Category	Noise and Vibrations
Description	Assistance in identifying and resolving excessive noise and vibrations from appliances during operation.
Data Size	5,033 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Home Appliance Manufacturer" customer inquiry. (Purchased data will not be masked.)

I am concerned _____ damage caused by high _____ output and constant _____ of loud _____ and shaking.

Exposure to _____ output _____ trembling, _____ during operations, _____ damages. _____ a _____ of damage _____ to intense _____ and _____ trembling. _____ to high _____ and _____ trembling _____ damage. _____ am worried _____ will be _____ due to high decibel output _____ of normal _____.

I am _____ about _____ damage being done due _____ decibel output and _____ functioning.

Is exposure _____ and _____ shaking going to _____ consequences?

Exposure _____ constant _____ and _____ decibel output _____ potentially _____ to _____.

I am _____ working _____ high _____ output _____ could cause _____.

_____ possible that a _____ sound _____ shake all _____ is a _____.

I am _____ damage _____ due to high _____ constant trembling.

Exposure to _____ output _____ trembling _____ damages _____ time.

Is it possible _____ vibrating _____ could cause harm _____ everyday _____?

I _____ worried about damage being done _____ to _____ constant _____ a result _____ daily _____.

_____ be _____ about long-term consequences from high _____ settings and tremors in _____ usage?

_____ am concerned about the possible _____ with _____ high _____ output _____ constant _____.

_____ concerned _____ decibel _____ and constant _____ could cause damage.

_____ done by high decibel output and _____.

I'm _____ about the _____ that might _____ from constant _____ and _____.

The damage that _____ trembling _____ high _____ output _____ something _____ concerned about. _____ dangers _____ amplified _____ and shakes.

Exposure _____ high _____ trembling could cause damage if _____ exposure.

Exposure _____ loud output and _____ potentially _____ damage _____.

_____ am concerned _____ the damage that _____ the constant _____ and high _____.

I _____ concerned about _____ to be done due _____ decibel _____ trembling.

I worry _____ the damage _____ decibel _____ can cause.

I am _____ about _____ damage _____ done because of high _____ trembling _____ of normal _____.

_____ output and _____ could potentially _____.

I'm _____ about _____ done due _____ high decibel output _____ as _____ functioning.

_____ levels _____ shaking could cause _____.

_____ is wise _____ consequences of higher decibel settings _____ tremors.
 _____ was _____ that high volume _____ trembling _____ damage.
 _____ it important _____ to _____ careful _____ long-term _____ high decibel settings _____ tremors _____ a daily _____?
 I _____ damage _____ being _____ due to _____ decibel output and _____.
 _____ to _____ and _____ trembling could _____ if they _____ for _____ long period _____ time.
 _____ about _____ being _____ due to high decibel _____ and constant _____ as _____ functioning.
 It's _____ for _____ to _____ of _____ from _____ decibel _____ and tremors _____ everyday usage.
 _____ that high _____ or constant trembling could _____ injury.
 _____ sound _____ time is likely _____ be harmful.
 _____ important for _____ to _____ careful _____ from high decibel _____ and _____.
 Exposure to _____ which _____ in _____ may cause damage.
 I'm concerned that _____ decibel output _____ cause _____.
 Exposure to _____ and _____ decibel output _____ cause _____ if it _____.
 _____ about the possibility of _____ from high _____ and _____.
 I am _____ about _____ caused by high decibel output _____ routine _____.
 _____ high noise and _____ cause _____.
 _____ high _____ and constant trembling could _____ damages.
 I worry about _____ done _____ high _____ and trembling _____ part _____ routine functioning.
 _____ constant trembling and _____ could _____ damage.
 _____ worry _____ the effects of loud _____.
 I _____ damage being done due to _____ decibel _____ and _____ because _____ functioning.
 Does high _____ output and _____ regular _____ damage?
 _____ of harm _____ and shaking.
 _____ be harm from _____ noise _____ in _____ use.
 I worry _____ being done due to _____ trembling as _____ of _____.
 Loud _____ shaking _____ good _____ my things.
 Does _____ high _____ trembling in _____ operations _____ damage?
 _____ term _____ loud output _____ could result in _____ or _____.
 _____ concerns _____ harm from high decibel _____ trembling.
 Anxious _____ harm _____ noise _____ shaking
 I _____ harm _____ and shaking.
 _____ am concerned _____ the damage _____ be _____ decibel output _____ trembling.
 _____ is _____ to _____ of the long-term consequences _____ increased _____ tremors.
 I am concerned about _____ caused _____ constant trembling _____ high _____ output.
 _____ worried _____ damage done _____ to _____ decibel _____ and trembling.
 Exposure _____ constant trembling _____ high decibel _____ of time could _____.
 _____ to high _____ output _____ trembling could potentially _____ constant.
 Exposure _____ constant trembling and _____ decibel _____ can _____ is constant _____.
 There _____ concerns _____ from _____ decibel output _____ trembling.
 _____ are dangers _____ noise _____ shaking.
 _____ am worried about _____ being _____ due to _____ output _____ functioning.
 _____ it _____ that loud noise _____ vibration in _____ cause _____?
 _____ am concerned about the potential damage caused by _____.
 _____ high decibel _____ and _____ trembling _____ cause _____.
 It's important _____ me to _____ of _____ long-term effects _____ high _____ regular _____.
 I _____ worried about the _____ being _____ output and constant _____ as _____ of normal _____.
 Exposure to loud _____ trembling, which _____ happen _____ cause _____.
 _____ the _____ that _____ decibel output _____ trembling could do.
 _____ am _____ damage could _____ from _____ trembling and _____ output.
 Being _____ of long-term consequences _____ settings _____ regular _____ to me.

_____ about _____ that could come _____ high _____ output _____ trembling.

_____ about the damage _____ done _____ high decibel output _____ trembling, _____ part _____ daily functioning.

_____ to high _____ output and _____ trembling _____ cause _____ they are _____.

I'm worried about the _____ and _____.

_____ could be _____ from constant _____ and high _____ output _____ regular _____.

I am concerned _____ could be done by _____ high decibels _____.

There _____ of _____ by intense _____ and constant trembling.

_____ are concerns _____ harm from constant trembling _____.

_____ term _____ to loud _____ trembling could _____ cause injury _____.

_____ that working _____ high decibel _____ may cause damage.

I _____ damage _____ high _____ output and constant trembling _____ part of normal functioning.

Anxious about _____ excessive _____ levels _____ shaking.

Exposure to loud _____ could _____ be _____.

Exposure _____ decibel _____ and _____ could _____ injuries _____ there is _____ exposure.

can _____ harm _____ volume and shivering?

_____ am concerned _____ possible _____ high _____ output _____ trembling _____ functioning.

_____ for _____ be aware of the long term consequences _____ high _____ and _____.

_____ and _____ tremors can lead _____ long-term _____.

_____ to constant trembling and high _____ lead _____.

I _____ about _____ of loud _____ and _____.

_____ constant trembling _____ high decibel output could _____ damages if it _____ constant _____.

_____ concerned _____ any _____ occurring due to high _____ output and constant _____ as _____ of _____.

_____ am concerned that _____ output _____ constant _____ can _____ damage.

There are _____ harm _____ loud _____ and _____.

I _____ come _____ constant trembling _____ decibel output from routine functioning.

I'm worried _____ damage being done due to _____ decibel _____.

_____ are _____ and constant shaking.

Is it _____ be careful _____ long-term _____ of increased _____ increased _____.

Could _____ to loud _____ and trembling _____?

_____ am _____ about the _____ of damage _____ trembling _____ high _____ from routine _____.

Loud _____ all time _____ likely to _____ harmful.

There _____ fears about _____ output and trembling.

I worry about _____ to high decibel output _____.

I'm worried _____ damage _____ high decibel output _____.

I _____ about the _____ that can _____ from high _____ or _____.

I _____ any _____ done _____ high decibel _____ and trembling during _____.

_____ sound levels _____ shaking.

_____ am concerned about the _____ damage _____ high decibel _____ could _____.

I am _____ damage _____ be _____ by _____ decibel output _____.

_____ am worried _____ damage done due _____ high decibel _____ trembling _____ part _____ daily functioning.

I wonder if exposure _____ and _____ is a _____.

Loud _____ and shaking _____ is a _____ thing.

_____ output or constant trembling could _____ damage.

_____ remain regarding _____ from _____ decibel output _____.

_____ to _____ could be a _____ for damage.

Exposure to _____ decibel output _____ could potentially cause _____ if _____ time.

_____ to _____ constant trembling _____ potentially _____ harm _____ they stay for a _____ time.

_____ am concerned about _____ damage _____ be done by _____ decibel _____ trembling _____ routine _____.

_____ damage could come _____ trembling _____ high decibel output.

_____ constant trembling _____ output _____ lead to damage.

_____ term exposure _____ output and _____ are _____ cause _____ damages.

_____ to loud _____ and _____ cause _____.

Exposure _____ decibel output and _____ trembling _____ regular _____ cause damages.

Exposure _____ decibels and _____ can cause _____.

_____ noise _____ all the _____ likely to _____ harm.

_____ trembling and _____ decibel _____ could cause damages _____ constant _____.

Is _____ wise _____ with _____ long-term consequences _____ increased _____ and increased tremors.

Do _____ high decibel _____ and trembling _____ cause _____?

_____ worried that _____ from _____ decibel _____ or constant trembling.

_____ to be _____ of _____ caused _____ increased decibels and increased _____.

Exposure to _____ decibel output _____ during operation _____ cause _____.

I am _____ that _____ decibel _____ trembling _____ damage.

_____ may be damage _____ constant trembling and _____.

_____ is _____ to _____ careful of the _____ consequences _____ decibel settings and _____.

_____ about the _____ being done _____ decibel output and constant trembling _____ part of _____.

I'm _____ about the _____ could _____ done by _____ trembling _____ high _____.

_____ am _____ about _____ that could come from regular _____ and _____.

I _____ the damage _____ come from _____ decibel _____ trembling.

_____ concerned that damage _____ done _____ decibel output and constant _____.

_____ potential _____ that _____ come from constant trembling and _____ output.

_____ with a high _____ output and _____ trembling could cause _____.

Is _____ wise _____ be _____ the long-term _____ increased _____ and _____ everyday?

_____ am concerned about _____ decibel output and trembling _____ daily functioning.

_____ possible _____ that _____ constant trembling _____ high _____ output _____ I am worried about.

_____ noise _____ shaking may hurt _____.

_____ about _____ risks _____ and shaking.

_____ worried about _____ damage _____ high decibel output _____ can _____.

_____ the _____ from shaking _____ excessive _____.

It's _____ I'm careful _____ the _____ consequences _____ high _____ settings and _____.

It is _____ be careful _____ consequences _____ increased _____ and tremors.

_____ important _____ of the long-term consequences _____ high _____ settings and tremors.

I _____ concerned _____ damage that could _____ constant trembling _____ high _____ output from _____ functioning.

_____ am worried _____ the _____ damage _____ by _____ decibel output _____ constant _____.

_____ am _____ any damage _____ to high _____ output and constant trembling as _____ of _____.

Is _____ the long term consequences of _____ and increased tremors.

_____ about any _____ being done due to _____ trembling _____ part of routine functioning.

I _____ damage done _____ to high _____ and trembling.

Can a routine _____ cause _____ intense _____ shivering?

_____ shaking _____ the time is _____ harm thing.

Anxious _____ effects of _____ and _____.

_____ is wise _____ be _____ of the _____ consequences _____ and tremors.

_____ are _____ harm caused by high _____ trembling.

Is _____ for _____ be careful _____ the long-term consequences _____ high _____ and _____ everyday?

_____ damage _____ done _____ to high decibel output and _____.

Anxious about the _____ shaking.

Anxious about _____ and shaking.

_____ important for _____ to _____ aware _____ the long-term _____ of _____ regular tremors.

There _____ possibility _____ due _____ intense sound output _____ constant _____.

_____ decibel output _____ constant trembling _____ potentially be _____.

The dangers _____ amplified noise and _____ made _____.

I'm _____ the _____ that _____ come from high _____ and trembling.
 Exposure _____ constant trembling and high decibel _____ could _____ cause _____ they _____ a _____.
 I am very _____ about damage _____ decibel output _____ trembling.
 Possible long _____ to loud _____ trembling _____ cause _____.
 Anxious _____ the effects _____ shaking.
 _____ to _____ decibels _____ trembling could _____ if they _____ for _____ time.
 Anxious _____ from shaking and _____.
 Exposure to _____ and _____ trembling _____ cause damages if there _____.
 It _____ possible that _____ loud _____ trembling could _____ injury _____ damage.
 _____ concerned about _____ damage being done _____ of high _____ constant trembling _____ part _____ functioning.
 _____ there a risk associated _____ routine functioning _____ decibel _____ shaking?
 Exposure _____ output and _____ could _____ damages _____ there _____ exposure for _____ periods of time.
 I am _____ about _____ from high decibel _____ constant _____.
 _____ loud _____ and trembling _____ operations _____ cause injury.
 I _____ worried about _____ damage done due to _____ output _____ as _____ normal functioning.
 I _____ harms from _____ and _____.
 _____ from loud noise and _____.
 _____ concerned _____ any _____ being done due _____ high decibel _____ and constant _____ in _____.
 Is _____ loud sound and _____ the time is _____ thing?
 _____ they remain for a long period of _____ to _____ trembling and _____ decibel _____.
 Exposure _____ trembling and _____ potentially _____ damage if _____ is _____ exposure for extended periods.
 I'm concerned about _____ damage _____ could _____ trembling _____ high decibel _____.
 It is likely _____ loud _____ and _____ time is _____ thing.
 _____ be careful _____ the _____ consequences caused _____ and increased tremors.
 _____ sound shaking all _____ likely _____ cause harm.
 _____ to _____ decibel output and _____ cause injuries.
 _____ possible _____ from high decibel _____ or constant trembling.
 Exposure to _____ trembling _____ decibel output _____ extended _____ of time _____ potentially _____.
 _____ high _____ output _____ could cause damages if _____ constant exposure.
 I am _____ that _____ be _____ to _____ output and constant _____.
 _____ am _____ the _____ constant trembling and _____ decibel output _____ come _____ functioning.
 There _____ chance _____ damage due to _____ output _____ continuous _____.
 I _____ concerned _____ the _____ will _____ done _____ high _____ and trembling.
 _____ am _____ about _____ that can _____ from high _____ and constant _____.
 _____ to be careful _____ the _____ of high decibel settings and regular tremors.
 Is _____ to be _____ about _____ long-term effects _____ higher _____ settings _____ tremors on _____?
 I'm worried about _____ from _____ output _____ trembling.
 _____ any _____ being _____ due to high _____ output and constant _____ as part _____ routine _____.
 It _____ that exposure to _____ output _____ could _____ damage.
 I am _____ about _____ damage _____ come from high _____ trembling.
 _____ that long _____ exposure _____ loud output and _____ cause damages.
 It _____ wise to _____ cautious _____ long-term consequences _____ increased noise _____.
 Anxious about the _____ harm _____ and excessive _____.
 _____ to know _____ from _____ noise _____ vibration in everyday use.
 _____ am worried _____ damage _____ due to _____ output and trembling _____ part _____ functioning
 _____ over the _____ of _____ levels and _____.
 I am worried _____ damage _____ by high _____ constant trembling.
 _____ to _____ trembling and _____ decibel _____ potentially cause _____ if there _____ constant _____.
 I'm _____ about _____ of _____ high decibel _____ or trembling.
 There _____ potential _____ with _____ intense trembling and _____.

I am worried that _____ could _____ from _____ or _____.
 _____ and _____ during operations _____ potentially cause damages.
 I _____ damage being _____ because of _____ output _____ trembling.
 I _____ concerned _____ possible damage _____ from high _____ or trembling.
 _____ am _____ about _____ possible damage _____ decibel _____ trembling could cause.
 _____ possible _____ to high decibel output and constant _____.
 I'm _____ about the _____ done by _____ output and _____.
 I _____ concerned _____ output and _____ could _____ damage to _____ body.
 Damage _____ by exposure to _____ high decibel output.
 _____ am _____ about _____ damage caused by high decibel _____.
 _____ concerned about damage _____ high _____ output and trembling.
 _____ am _____ the _____ done because _____ constant trembling _____ high decibel _____.
 I _____ concerned _____ being _____ to high _____ output _____ trembling.
 Long _____ intense sounds and _____ affect this product.
 _____ trembling can cause harm.
 I'm concerned that _____ output _____ could cause damage.
 I _____ potential _____ could _____ from high decibel output _____ trembling.
 _____ the damage caused by _____ and constant trembling as part of _____.
 Could _____ to _____ output and _____ cause for damages?
 _____ over the risk _____ from shaking _____ sound.
 _____ decibel Output and constant _____ cause damage.
 I _____ about the damage that _____ occur _____ output or _____.
 _____ to high _____ and trembling for extended periods _____ time _____.
 I am worried that the _____ by working with _____ high _____ constant _____.
 Exposure _____ and _____ trembling could potentially cause _____.
 I am very worried _____ the _____ done _____ high _____ trembling.
 _____ worried _____ the damage _____ come from _____ trembling and high _____.
 I am _____ that _____ come _____ trembling _____ high decibel output.
 _____ is important _____ me _____ decibel settings _____ tremors in everyday usage.
 _____ long _____ exposure to _____ output _____ can cause damages?
 _____ high decibel _____ could cause harm.
 _____ loud _____ and _____ a possible cause _____ damages.
 _____ to _____ decibels and trembling could _____ cause _____ there is _____.
 I'm _____ harm from _____ shaking.
 Exposure to high decibel _____ trembling _____ potentially _____ damages _____ remain for _____.
 _____ about _____ harm _____ shaking and _____.
 _____ the _____ constant trembling and high decibel output at _____ functioning times.
 There are dangers _____ sound and _____.
 _____ worry about _____ potential damage _____ decibel output _____ trembling.
 _____ am _____ any damage that might be done due _____ output _____.
 I am worried about possible _____ to _____ trembling.
 _____ worried about any _____ output and constant trembling as _____ of routine functioning.
 _____ decibel output and constant _____ can _____ harms.
 Exposure to _____ decibel _____ and _____ damage you.
 It's _____ for _____ to be _____ of _____ consequences of high _____ regular _____.
 I am _____ about the _____ be done due _____ high _____ trembling.
 _____ be careful _____ long-term consequences _____ increased decibels _____ increased tremors.
 _____ high decibel _____ and trembling _____ operation cause _____?
 _____ that working with a _____ output and trembling _____ cause _____.
 _____ output _____ trembling, _____ occur _____ operations, could cause damage.

I'm concerned about ____ potential ____ caused ____ high ____ and ____.
 I am ____ about the possible damage that ____ be ____ and ____.
 ____ worry about ____ from high decibel ____ and ____.
 ____ am concerned about ____ done by high ____ and constant ____.
 ____ it possible ____ exposure ____ loud output and ____ damage?
 ____ being ____ to ____ decibel output and ____ trembling ____ a result of routine functioning.
 I ____ concerned that the ____ caused ____ working ____ decibel output ____ trembling.
 I'm ____ about any ____ being done due to ____ trembling ____ part of ____.
 A ____ thing ____ likely because of the ____.
 Exposure ____ output and ____ for long ____ of time ____ damages.
 ____ the damage that high decibel output ____ do.
 ____ concerns ____ harm from ____ trembling and ____ decibel ____.
 ____ am ____ high decibel output and trembling.
 I ____ concerned about the damage that may ____ decibel ____.
 ____ am concerned ____ damage ____ decibel output ____ trembling.
 Exposure to ____ decibel ____ and ____ can lead ____.
 ____ nervous because of the dangers ____.
 ____ to high ____ and trembling ____.
 Long ____ to loud ____ and trembling ____ of damages.
 ____ am ____ about the damage being done ____ decibel output and trembling ____ daily ____.
 Is ____ possible ____ noise ____ vibration in daily ____ cause ____?
 ____ concerned about ____ damage being ____ by high decibel output ____ constant ____ of routine ____
 Exposure ____ constant ____ decibel output ____ if they are constant.
 ____ damage ____ done because of ____ output and ____ trembling as ____ of routine functioning.
 ____ of ____ excessive sound levels ____.
 ____ harm from ____ and loud ____
 I ____ worried ____ by working ____ high decibel output and constant trembling.
 ____ to ____ output ____ trembling can be damaging.
 ____ am ____ about ____ possible damage ____ could ____ from trembling ____ high ____.
 ____ it crucial that I ____ long-term ____ settings and ____ in everyday usage?
 ____ shaking ____ is likely to ____ harmful.
 Exposure ____ constant trembling ____ high ____ could be ____.
 ____ about ____ damage done due ____ decibel output and ____.
 ____ of ____ noise and shaking.
 If ____ remain ____ time, trembling and high ____ output ____ cause ____.
 I ____ damage being done because of high ____ as part ____ routine functioning.
 It ____ important ____ me ____ be careful ____ the ____ of ____ decibel settings and ____.
 Exposure ____ constant trembling ____ result in damages.
 I'm worried about ____ noise ____.
 ____ that ____ damage might ____ from constant ____ and high ____ output.
 ____ about the ____ excessive sound ____.
 I am ____ any damage ____ because ____ high decibel output ____ part ____ routine functioning
 ____ wise ____ careful about the ____ consequences of ____ noise ____ tremors.
 ____ shake all the time ____ to be ____ harm ____.
 ____ concerned about ____ could come from constant trembling ____ output.
 Is it ____ to be ____ with ____ settings ____ in everyday ____.
 ____ to ____ trembling and high ____ output ____ it ____ for a long time.
 ____ concerned that high ____ trembling ____ cause damage.
 Is ____ to ____ careful of ____ long-term consequences ____ by the ____ decibel ____ tremors.
 ____ to ____ constant ____ for extended ____ of time could ____ cause damage.

I am _____ that damage _____ done _____ output and trembling.
 _____ concerned about _____ that could come from high decibel output _____ functioning.
 _____ loud _____ trembling is _____ possibility of _____ damage.
 _____ loud _____ and trembling _____ operating could _____ damages.
 Exposure _____ high decibel _____ could _____.
 _____ is a chance of damage caused _____ sound _____.
 Exposure _____ trembling sounds could cause _____.
 _____ worry _____ being _____ loud noise _____ shaking.
 It _____ important _____ careful about long-term _____ high _____ settings _____ regular tremors.
 _____ to high decibel _____ can potentially _____.
 I'm concerned about _____ from loud _____.
 Is it _____ me to _____ careful with high _____ settings _____ in _____.
 _____ damage _____ constant trembling and _____ decibel output.
 _____ sound shake all _____ time, _____ be a _____.
 I am worried about the damage that _____ decibel _____
 Exposure _____ decibel output and _____ may cause _____.
 _____ term exposure _____ loud _____ and _____ may _____ cause of _____.
 _____ about harm _____ high decibel _____ and _____.
 Is it _____ be _____ about _____ of _____ decibel _____ constant tremors on _____?
 Increasing decibels and _____ cause _____.
 _____ important that _____ am _____ the _____ of high decibel settings and _____.
 _____ am _____ that working with _____ and constant _____ cause damage.
 I _____ about _____ damage that high _____ constant _____ can _____.
 Exposure _____ sounds _____ could cause a negative effect on _____ product _____.
 I am _____ that _____ be _____ by high _____ constant trembling.
 _____ am _____ output or constant _____ could cause damage.
 _____ and trembling during operations _____ damage.
 _____ am concerned that _____ volume _____ trembling could _____.
 Exposure to _____ trembling _____ potentially _____ damage.
 _____ the high _____ trembling _____ regular operation could cause damage?
 _____ decibels _____ constant trembling can cause _____.
 Exposure to _____ and _____ could possibly cause _____.
 _____ loud _____ and _____ be harmful.
 Anxious about _____ from _____ loud _____.
 _____ constant _____ high decibel output could _____ to _____.
 _____ concerned _____ that _____ from high decibel output and trembling.
 I _____ about _____ by high decibel output and _____.
 In _____ operation can the _____ trembling _____ damage?
 Troubled _____ effects of _____ noise _____?
 _____ am worried _____ any _____ being _____ high decibel output and trembling _____ normal functioning.
 _____ are worries _____ harm caused by _____ output _____.
 There _____ associated _____ and _____ noise.
 _____ am _____ being done by high _____ and trembling.
 It _____ wise to be _____ the long-term _____ caused _____ decibels _____ increased _____.
 _____ term exposure _____ output _____ trembling could be _____ damage.
 _____ about any _____ being done _____ to _____ decibel output _____ constant _____.
 _____ it _____ to be _____ long _____ from high decibel settings _____ tremors in everyday _____?
 _____ term _____ to loud output _____ can _____ damaging.
 _____ possible _____ can cause harm through intense _____ shivering.
 _____ exposure _____ loud _____ trembling could lead _____ injury or _____.

_____ about the _____ being _____ due _____ decibel output and _____.
 _____ about _____ risk of _____ from _____ decibel output and _____.
 I am _____ will _____ due _____ decibel output and _____ trembling.
 I'm nervous _____ dangers associated _____.
 _____ to _____ trembling and high decibel _____ could cause _____.
 There _____ dangers _____ with amplified noise _____ of _____.
 I am _____ if damage _____ done due to high _____ constant _____ as part _____.
 Exposure to _____ decibels could cause _____.
 _____ about damage being _____ due _____ decibel _____ trembling _____ part of daily _____.
 _____ they remain _____ a long _____ to trembling _____ output could potentially _____.
 _____ concerned _____ of damage _____ by working _____ decibel output and constant trembling.
 I _____ damage _____ could be _____ if you work with high _____ output and _____.
 _____ is _____ me _____ cautious _____ long-term _____ of _____ decibel _____ and regular tremors.
 _____ loud output _____ operations _____ result in damages.
 I _____ concerned about possible _____ by working _____ decibel _____ and _____.
 I'm worried _____ any damage being done because _____ output _____.
 I'm _____ the _____ noise and _____.
 _____ worried about the potential damage that _____ come _____ output _____.
 I am worried _____ damage _____ come _____ high decibel _____.
 Anxious about _____ loud _____ shaking.
 It _____ possible _____ exposure to loud output and trembling _____.
 Exposure to _____ decibel _____ as _____ constant trembling could _____.
 _____ could be _____ from _____ shaking.
 _____ to _____ high decibel output could _____.
 _____ that will be _____ due to high decibel output _____ trembling.
 I _____ about the _____ come from _____ trembling _____ decibel _____ from _____ functioning.
 _____ high _____ constant _____ in _____ operation _____ potentially cause damage.
 It _____ important for _____ of long-term consequences of _____ decibel settings _____.
 It's _____ be careful _____ long-term _____ from high _____ and _____ everyday use.
 _____ it possible _____ loud _____ in everyday use _____ you?
 I fear _____ damage _____ come _____ constant trembling _____ decibel _____ from routine _____.
 I am _____ about _____ high decibel output and _____.
 The possible _____ from high decibel output and _____ is _____ concerned _____.
 I am _____ damage being _____ to _____ decibel output _____ during _____ functioning.
 I am _____ damage _____ because _____ high decibel output _____.
 _____ were _____ about _____ loud noise _____ shaking.
 _____ decibel output and constant _____ could _____ cause _____.
 I am _____ being done because of _____ output and _____ trembling _____ daily functioning.
 _____ important for me to _____ careful of the _____ settings _____ tremors.
 Exposure _____ output and trembling is _____ for _____.
 Is _____ that routine functioning _____ through _____ and shivering?
 I am concerned _____ damage could come _____ output from routine _____.
 _____ decibel _____ and _____ trembling could cause problems.
 _____ part of _____ functioning, _____ decibel output _____ could cause _____.
 It's important _____ be _____ of _____ decibel settings and tremors.
 _____ and _____ decibel _____ could potentially cause damage if they remain for _____ of _____.
 Working with high _____ cause damage.
 I _____ about the _____ caused by _____ high _____ output and _____ trembling.
 _____ it important for _____ to be _____ long-term _____ from _____ settings and _____ in everyday _____?
 _____ am _____ possible damage _____ decibel output and trembling _____ part _____ functioning.

worried ____ harm ____ noise ____ ____

Is ____ risk of harm ____ consistent vibration ____ everyday use?

I ____ worried ____ that ____ come ____ high decibel ____ trembling.

____ potential damage ____ by ____ output is ____ I should ____ aware of.

I am ____ caused by ____ decibel output and ____.

____ am worried ____ possible damage that could come ____ constant ____ decibel ____ regular functioning ____.

____ to loud ____ trembling result in injury ____ damage?

____ to loud ____ and trembling could ____ a possible cause ____.

There are ____ of harm ____ constant trembling ____.

____ high decibel output and ____ trembling ____ damages.

I ____ high decibel ____ trembling can cause ____.

____ to ____ output and ____ which happens during ____ can ____.

____ am ____ possible damage ____ high ____ output and ____.

I am ____ could ____ by working ____ decibel output and trembling.

____ noises and ____ harmful.

____ to ____ and ____ decibel output could ____ to damages ____ they remain ____ time.

____ worried about ____ damage ____ high decibel output ____ trembling.

____ concerned about any ____ due ____ decibel output and constant ____.

Exposure ____ decibel ____ and ____ during ____ operation ____ possibly cause ____.

Exposure to ____ trembling ____ output could cause ____ it continues ____ extended ____.

____ am ____ about the ____ that ____ come ____ high decibel ____ constant ____.

____ am concerned about ____ being ____ due to ____ output ____ trembling as ____ part ____ routine ____.

Is ____ to ____ with the long-term effects of ____ and ____ on use?

____ am very concerned ____ damage ____ due to high ____ output ____.

____ to ____ decibel output and ____ operations could ____ damage.

There are worries ____ harm caused ____ decibel ____ trembling.

I am ____ that damage could ____ from constant trembling ____ functioning ____.

____ careful of ____ long-term consequences ____ increased decibels ____ increased tremors.

____ concerned ____ damage ____ done ____ of high decibel output ____ constant ____.

I ____ concerned ____ damage ____ due to ____ output ____ constant ____ being part of normal ____.

____ remain ____ a ____ trembling ____ high ____ output ____ potentially cause damages.

The ____ decibel output ____ may cause ____.

There ____ associated with ____ functioning that involves ____ and ____.

____ am ____ damage could be ____ by working ____ high decibel ____ trembling.

____ important ____ be careful ____ long-term ____ of high decibel ____ and ____.

____ am concerned ____ the risk ____ to high ____ output ____ trembling.

____ about ____ and trembling causing ____.

____ is bad for ____ stuff.

Is ____ term exposure to loud ____ and trembling will ____?

____ am ____ that ____ with ____ decibel output ____ constant trembling could ____ damage.

I am ____ about the damage ____ due ____ high decibel ____ in ____.

I am concerned ____ damage that could ____ high ____ and ____ routine ____.

There ____ be ____ with ____ trembling ____ output.

I'm ____ about ____ damage ____ done due to ____ and constant ____.

____ can be ____ high ____ and shaking.

I am worried that working ____ cause damage.

Constant ____ and ____ decibel ____ potentially cause ____.

____ concerned about the ____ can come ____ constant trembling and high ____.

Exposure to ____ trembling and ____ decibel ____ could ____ if ____ a long period ____ time.

____ am concerned ____ damage ____ due ____ high decibel ____ and ____ part of ____ functioning.

_____ to _____ careful _____ the long-term consequences _____ increased _____ and _____.

worried _____ the _____ from _____ shaking

_____ am _____ about _____ being _____ high decibel _____ during routine functioning.

Long term exposure to _____ sounds and _____ for this _____.

_____ about the damage that _____ be done by _____ and high _____ output _____ routine _____.

_____ to _____ and high _____ output for extended _____ cause _____.

If high _____ trembling cause _____.

Exposure _____ loud _____ trembling _____ cause of damages over _____.

_____ possible _____ caused by loud _____ shaking?

_____ to _____ trembling and _____ could potentially _____ damage over _____.

Exposure to _____ trembling _____ damage during operations.

_____ it _____ I be careful _____ repercussions from _____ settings and _____ everyday?

_____ to constant _____ and _____ decibel _____ damages _____ is continuous exposure.

I _____ about damage _____ done _____ to _____ output and trembling _____ part _____ normal _____.

_____ to loud output and trembling _____ could _____.

I am concerned _____ from _____ decibel output and trembling.

I _____ concerned _____ the damage that _____ be done from _____ decibel _____.

_____ routine functioning can cause harm _____ volume _____?

Exposure _____ trembling and _____ output could cause _____.

_____ decibel output could potentially _____ if _____ continues for a long period _____ time.

I _____ damage _____ could _____ from _____ decibel output _____ constant trembling.

_____ am concerned _____ can be _____ working _____ decibel output and constant trembling.

Could _____ exposure to loud output _____ causing _____?

_____ of _____ from excessive sound _____.

_____ loud _____ and _____ could cause harm over _____.

I'm _____ any damage _____ because of high _____ and _____.

I am concerned about the _____ the high decibel _____.

I'm concerned _____ the damage that can be _____ decibel _____.

_____ long term exposure to _____ output and _____ could result _____.

I am _____ about the _____ from _____ trembling _____ high _____ output.

_____ to constant trembling _____ could _____ lead to damages.

Exposure to high _____ output _____ constant _____ operation could _____.

_____ loud output and _____ could be _____ cause _____.

_____ concerned about _____ damage _____ could _____ caused _____ working _____ a high decibel _____ trembling.

I am _____ about damage being done _____ to _____ decibel output _____ trembling as _____.

_____ about _____ damage that high decibel output and _____ trembling _____.

_____ trembling and _____ decibel _____ can cause _____ functioning times.

Can routine _____ cause _____ due _____ intense _____ shivering?

_____ is important for _____ be careful _____ long-term repercussions _____ decibel _____ and tremors in _____.

I _____ worried that trembling _____ could _____ damage.

I am concerned about _____ possibility of _____ and _____ during routine _____.

_____ trembling _____ high decibel output _____ lead to damages.

I am concerned _____ and _____ output from _____ cause damage.

Exposure to loud _____ and _____ can cause _____.

The _____ damage caused _____ continuous _____ decibel output is something _____ should be _____.

I am _____ that could come from _____ decibel output _____.

_____ sound and _____ all the time is _____.

I'm _____ about damage due _____ high _____ and _____.

I am _____ about any damage done due _____ output _____ trembling _____ part of _____.

I am _____ damage _____ could be _____ from _____ and high decibel _____.

_____ it possible _____ exposure to _____ and _____ cause problems _____ time?
_____ the _____ levels and _____.

I _____ concerned about possible _____ to high _____ during routine _____.

Exposure to loud _____ and _____ are _____ causes _____.

_____ I _____ to _____ careful _____ long-term consequences _____ high _____ and _____ everyday usage?

_____ to high decibel output and _____ operation _____ damage.

Exposure _____ and _____ output for extended _____ of time _____ cause _____.

Exposure _____ and _____ for _____ long time _____ potentially cause damages.

_____ it wise to _____ about _____ effects _____ higher _____ and constant _____?

It's likely that _____ all time is a _____.

_____ it _____ be cautious _____ long-term repercussions _____ settings and _____ everyday use?

_____ wise _____ be _____ the consequences _____ by increased decibels and _____.

Anxious over _____ of _____ from shaking _____ levels.

_____ high decibel _____ constant trembling _____ cause damage.

_____ important _____ careful of _____ long-term repercussions _____ decibel settings and tremors.

_____ worry _____ from noise _____ shaking.

_____ it important _____ be _____ of the consequences of _____ decibel _____ tremors.

Exposure _____ loud _____ and trembling _____ cause damage _____ time.

I _____ concerned _____ possible damage that could _____ by _____ with _____ and constant trembling.

I'm _____ possible damage from _____ or trembling.

I worry about possible damage _____ trembling.

_____ constant trembling and _____ output _____ possibly cause _____.

_____ to loud output _____ trembling, which _____ can _____ damage.

_____ is _____ be careful _____ long-term _____ by _____ decibel _____ and tremors.

I _____ about _____ damage _____ can _____ by _____ output and trembling.

I _____ safety from loud _____ and constant _____.

Exposure to _____ and _____ can lead _____ damage.

_____ are _____ associated with high _____ levels _____.

Loud noise and shake all the _____.

_____ it important to _____ careful _____ consequences _____ high decibel settings _____ in _____.

I am concerned _____ damage _____ regular _____ and high decibel _____.

The damage _____ from _____ trembling _____ decibel output from _____.

_____ to high _____ output _____ could lead _____ damage.

I _____ the potential _____ done _____ high decibel _____ and constant _____.

_____ term _____ loud output _____ trembling could potentially _____.

Is _____ possible for high decibel output _____ in _____ operation _____?

Exposure to _____ output _____ constant _____ cause _____ if _____ constant exposure.

Exposure to _____ output _____ could _____ permanent damage.

Exposure _____ output and _____ in operations _____ cause _____.

Anxious over _____ dangers of _____.

_____ am concerned _____ possible _____ due to high _____ and _____.

I _____ concerned _____ the possibility _____ being _____ output and constant trembling.

Damage is possible due to _____ constant _____.

_____ am _____ about the possibility of _____ due to _____ trembling.

Exposure to constant trembling _____ high _____ output for _____ could _____ cause _____.

_____ exposure to _____ constant _____ could cause damages.

_____ concerned about _____ from _____ decibel _____ or trembling.

It is important _____ me _____ be _____ with _____ settings and _____ in _____.

_____ concerned about _____ damage _____ may be _____ by _____ decibel _____ trembling.

I'm _____ decibel output and trembling _____ cause damage.

Exposure ____ high decibel output and ____ injury.

____ damage can be ____ high decibel ____ constant ____ as ____ of routine ____.

____ and high decibel output ____ cause damages ____ they ____ a long ____.

I ____ damage that will be ____ to ____ decibel ____ and constant ____.

____ are ____ with harm from ____ decibel ____ trembling.

____ of harm from ____ decibel output and ____.

____ part of ____ functioning, high ____ output ____ can damage ____ body.

It ____ important ____ me to ____ careful about ____ consequences ____ and regular ____.

____ be harm ____ loud ____ shaking.

I am ____ high volume ____ could cause ____.

I worried ____ harm ____ shaking.

____ that the damage ____ from high decibel ____ and ____.

____ concerned that high ____ constant trembling could ____.

____ concerned ____ being done ____ high decibel output ____ constant trembling.

Exposure ____ decibel output could potentially cause damage ____ long ____ time.

____ am ____ about ____ potential ____ that could be ____ with ____ decibel output and constant ____.

____ fear ____ harm from ____ noise ____ shaking.

It is ____ me ____ be aware of ____ of ____ decibel settings and ____.

Exposure ____ output and trembling ____ could be ____.

____ constant ____ high decibel ____ can damage.

____ loud noise ____ cause harm.

They are ____ from loud noise ____.

____ concerns regarding harm from high ____.

It's ____ that ____ careful ____ long-term repercussions ____ decibel settings and ____ everyday ____.

There are ____ linked ____ noise ____ persistent ____.

I ____ about ____ damage done ____ decibel ____ and trembling.

____ occurrence ____ injury ____ to ____ noise and ____ vibrations unsettles ____.

I ____ the damage ____ come from high ____ output ____.

____ am ____ about any ____ done ____ high ____ and constant trembling as ____ of routine ____.

____ am ____ about ____ risk of injury ____ high decibel ____.

____ am ____ about ____ damage ____ can be ____ due ____ output and constant ____.

____ that ____ functioning ____ cause harm ____ volume and shivering?

____ know about the ____ harm from ____ noise and ____ in ____ use.

I ____ concerned about ____ damage ____ come from ____ trembling and ____ output.

____ am concerned about ____ done ____ to ____ output and ____ trembling ____ part ____ normal functioning.

I ____ about ____ damage that could come from ____ output ____ routine ____.

I ____ about ____ damage from high decibel ____ and ____.

____ to ____ and trembling for ____ long time could ____.

____ long term exposure to ____ output ____ trembling ____?

____ to constant trembling and high decibel ____ damages.

Repeated exposure ____ decibel ____ and ____ cause damages.

____ am ____ high ____ trembling could lead to injury.

____ for me to be ____ of ____ consequences of ____ decibel ____ and ____.

____ from ____ and ____ sound levels.

Long ____ to loud ____ could hurt.

There ____ fears of ____ from ____ and trembling.

____ to high decibel ____ during ____ could possibly ____ damages.

Is ____ me to be cautious ____ long-term consequences of ____ and ____.

____ concerned about high decibel output ____ trembling ____.

Anxious ____ high sound ____.

Fearing _____ from _____ noise and _____.

_____ long-term exposure _____ output _____ cause damages?

_____ am _____ that working _____ decibel _____ and constant trembling _____ lead to _____.

_____ be damage from _____ decibel output _____ constant _____.

_____ about _____ harm that could come _____ constant trembling _____ high decibel _____.

Long term _____ loud _____ trembling _____ be damaging.

Exposure _____ decibel _____ and constant _____ during _____ could _____ damage.

_____ that excessive sound _____ and _____ harm.

It's _____ that I'm careful of long-term _____ settings _____ tremors.

There are _____ of harm _____ and trembling.

_____ over _____ harm _____ shaking _____ excessive _____.

_____ necessary for me to _____ of high _____ settings and _____ tremors.

I _____ concerned _____ risk of _____ from high _____ output _____ constant _____.

_____ routine _____ harm through intense volume _____.

I am worried _____ the damage _____ come _____ decibel _____ constant _____.

_____ are _____ from _____ decibel output _____.

_____ worried that _____ trembling and _____ decibel output from routine _____.

Exposure to high _____ trembling _____ cause damages _____ constant exposure.

Exposure to _____ output _____ trembling _____ regular operation could potentially _____.

There _____ about harms _____ decibel _____ and trembling.

_____ am _____ any damage _____ done _____ high decibel output _____ constant trembling _____ functioning.

_____ are fears about _____ high _____ trembling.

I'm _____ potential damage _____ high _____ trembling can cause.

_____ am _____ the _____ caused by working with _____ decibel output and trembling.

There are worries about _____ high decibel _____.

_____ damage that could come _____ decibel output and trembling _____ am _____.

I _____ worried about damage being done due to _____ output _____ constant _____ functioning.

_____ output and trembling could _____ damage.

_____ about the damage that may _____ decibel output or _____.

_____ it _____ to be _____ of _____ decibel settings _____ regular tremors.

I am afraid _____ loud noise _____.

_____ worried _____ damage from _____ output and _____ during _____ functioning.

_____ potential _____ decibel output and trembling can cause.

_____ important for _____ to _____ long-term _____ of _____ decibel settings _____ regular tremors.

Exposure to _____ cause injury.

Exposure _____ loud output and _____ which _____ during operations, _____.

I am concerned about _____ risk _____ that could _____ trembling and _____.

I am _____ being _____ to _____ output _____ constant trembling as part _____ routine functioning.

I'm worried _____ damage that could _____ working _____ decibel output _____ constant _____.

_____ worry about the harm _____ loud _____.

_____ wise _____ be careful about _____ consequences _____ increased _____ and _____.

_____ concerned _____ high decibel output and constant trembling.

_____ it _____ me _____ be careful of _____ from _____ and tremors in everyday usage

_____ loud _____ and _____ cause damage.

There _____ functioning _____ involves high decibel levels and shaking.

_____ and _____ trembling in regular operation may _____ damage.

_____ am concerned about _____ potential _____ due to _____ decibel output _____ trembling.

_____ decibel _____ and constant trembling could potentially lead _____.

Exposure _____ high decibel output _____ could _____ damage _____ is constant.

There _____ pertaining _____ from high _____ and trembling.

_____ shaking _____ dangerous to my things.

_____ exposure to _____ and trembling _____ cause damages.

_____ exposure _____ loud output _____ trembling cause _____?

_____ it _____ to be cautious about the _____ of _____ settings and frequent _____?

Exposure _____ high _____ constant trembling _____ cause damages.

Exposure _____ trembling and high decibel _____ damage if there _____.

Exposure _____ output and _____ cause damage if it's _____.

I am concerned _____ to constant trembling and _____ decibel _____.

_____ am _____ the _____ might come from high _____ trembling.

fear of _____ noise _____ shaking

_____ being _____ excessive sound levels _____ shaking.

_____ it possible that _____ noises and _____ to significant _____ eventually?

Exposure _____ constant _____ decibel output could potentially _____ if _____ constant.

I _____ the _____ caused _____ constant trembling _____ high _____ at _____ functioning times.

Exposure _____ trembling could cause _____.

I _____ that damage _____ from constant _____ and high _____.

It's important _____ me to _____ the consequences of _____ decibel _____ tremors.

_____ are harms _____ and _____ shaking.

There _____ concerns _____ harm _____ high decibels _____.

Long _____ to loud _____ and trembling could lead _____.

Exposure _____ output could possibly cause harm.

Exposure to _____ decibel output and _____ cause damages.

_____ worried about the damage _____ and trembling could _____.

I _____ about the _____ come from _____ decibels _____ constant trembling.

_____ am _____ about potential _____ to _____ output _____ constant trembling.

Loud _____ and _____ time _____ likely _____ a harm thing.

Exposure _____ loud output _____ while _____ can _____ damages.

Anxious about _____ effects _____ excessive sound _____.

_____ be _____ potential damage threat _____ the sound _____ tremors _____ out _____.

Exposure _____ high _____ output and trembling _____ could _____ cause _____.

_____ am concerned _____ the damage _____ decibel _____ and trembling during routine _____

_____ am _____ any _____ done _____ high decibel output and constant trembling _____ part _____ normal _____

Is _____ a risk associated with _____ and continuous _____ functioning?

Loud _____ and shake all _____ is _____ to be _____.

_____ am _____ damage being _____ because _____ decibel output _____ trembling during _____ functioning.

_____ about the damage that could occur _____ and _____ output.

_____ concerned about _____ due _____ output _____ constant trembling as _____ of normal functioning.

I _____ worried _____ the _____ could _____ from constant _____ high _____ regular functioning times.

_____ constant trembling could potentially cause harm _____ they remain _____ a long _____.

Long _____ exposure to loud _____ could cause _____.

I am concerned about _____ done _____ high decibel _____ and _____ as part _____.

Constant _____ sound output _____ damage.

_____ am concerned about _____ being done _____ decibel output _____ trembling _____ part _____ daily _____.

It _____ wise _____ careful _____ the long-term _____ by increased _____ and _____ tremors.

Exposure _____ and _____ is a _____ of damage.

There _____ about _____ from high decibel _____ trembling.

I am _____ about _____ from constant _____ and high _____ output _____ regular _____.

_____ long term _____ loud _____ and trembling _____ injury or _____.

_____ am concerned that damage _____ done due to _____ trembling.

Long term exposure _____ loud _____ could be _____.

Is long _____ sounds _____ repetitive shaking _____ to have _____ consequences _____?

I _____ worried about _____ from high decibel _____ constant _____.
