

[Demo] NLP Dataset for Customer Service Automation

Company Type	Investment Firms
Inquiry Category	Sustainable and socially responsible investing
Inquiry Sub-Category	Performance metrics
Description	Customers request information on the metrics used to assess the performance of sustainable and socially responsible investments, such as environmental, social, and governance (ESG) criteria.
Data Size	5,077 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Investment Firm" customer inquiry. (Purchased data will not be masked.)

What weightage _____ each factor _____ social, governance) _____ for sustainable _____?

Can _____ impact _____ environmental, _____ and _____ aspects are _____ in determining returns for sustainable portfolios?

_____ different _____ environmental, social, _____ governance factors when _____ returns for sustainable _____?

How _____ environmental _____ social _____ returns _____ sustainable portfolios?

_____ much _____ does each _____ have _____ returns for _____ portfolios?

How _____ factors _____ when calculating _____ sustainable _____?

How important _____ environmental, _____ in _____ the _____ for _____ investments?

_____ weightage _____ to _____ when calculating returns _____ sustainable portfolios _____.

_____ distinctions are made _____ given to _____ society _____ governance _____ determining _____ sustainable investments?

What _____ weightage _____ by governance _____ environmental _____ when _____ sustainable portfolio _____?

What _____ to environmental, social, and _____ factors when calculating _____ for _____?

How _____ social, _____ accounted _____ in _____ return calculations for _____ portfolios?

_____ calculating returns for sustainable _____ are _____ and _____?

_____ are environmental, _____ governance _____ considered in determining sustainable _____?

How _____ environment, social and _____ deciding on returns _____ sustainable portfolio?

_____ computing returns _____ sustainable portfolios, _____ exist for _____ and _____ factors?

_____ returns _____ a sustainable _____ how are environmental _____ weighed?

_____ there _____ weightage for each _____ calculation for sustainable _____?

How much has the environment _____ social _____ weighted _____ for portfolios _____?

Can _____ clarify the importance of each _____ computing _____?

_____ between environmental, social, and _____ aspects when _____ returns _____ green investments?

_____ is the _____ by _____ governance factors _____ determining sustainable _____ returns?

Environmental, _____ governance _____ are _____ sustainable portfolio returns

What is _____ taken by _____ factors _____ calculating _____ portfolio _____?

What is the importance _____ each factor to _____ green _____?

_____ are social _____ weighed when _____ returns to sustainable _____?

What is the breakdown _____ weights _____ governance _____ returns for sustainable portfolios?

_____ calculating returns _____ sustainable _____ what _____ for environmental, _____ and governance factors?

When ____ returns ____ sustainable, have the environment, ____ and ____ weighted?

Can you tell ____ the ____ assigned ____ factor ____ calculating ____ sustainable ____?

What ____ the ____ weightages ____ and governance factors ____ making ____ portfolios?

____ environmental, social, ____ a ____ share ____ sustainable portfolio returns?

When ____ on a ____ are ____ social factors weighted?

____ environmental ____ weights ____ when ____ on a sustainable portfolio?

____ social responsibility ____ weighted during the calculation of ____ for ____ portfolios?

____ have social responsibility ____ been weighted to calculate ____ are sustainable?

____ you ____ how environmental, social, ____ governance ____ into account ____ determining ____ sustainable portfolios?

Can ____ tell ____ weightage is assigned ____ each ____ to ____ on ____ investments?

____ are factors like the ____ responsibility weighted ____ calculation of return ____?

____ have ____ social ____ been weighted ____ calculating ____ for ____ that are sustainable?

____ given to environment, ____ variables are considered ____ profits from ____.

____ are the environmental, social, ____ taken into ____ when ____ sustainable portfolio ____?

Is ____ a specific ____ to each factor ____ calculation ____ portfolios?

How are ____ and ____ Weighted when calculating ____?

Does computing ____ have ____ weights for environmental, social, ____ governance ____?

Does environment, ____ a ____ of calculated sustainable portfolio ____?

How ____ social ____ weighted ____ calculation of sustainable portfolios?

How ____ environment, social and ____ been ____ determining ____ a sustainable ____?

____ have ____ responsibility and ____ environment been weighed in the ____ portfolios?

____ factors like ____ environment, ____ and ____ been weighted ____ returns ____ that are sustainable?

How do ____ the ____ between environmental, social, ____ governance ____ green investments?

____ much is the ____ governance factor ____ to calculate ____ sustainable ____?

In calculating ____ for ____ portfolios, ____ weightage is ____ environmental, ____?

____ calculating returns for ____ do you ____ weight between the ____ and ____ aspects?

In ____ sustainable ____ are there relative ____ environmental, ____ governance factors?

____ have the environment, social ____ governance been ____ choosing ____?

When ____ for ____ portfolios, ____ are ____ and environmental factors ____?

____ be given ____ social, governance when ____ returns for sustainable ____?

____ much is ____ by ____ social, governance ____ when calculating returns ____?

____ much ____ given to environmental, ____ and ____ factors ____ of returns for ____ portfolios?

How have the environment ____ responsibility ____ weighed ____ returns ____ portfolios?

What is ____ weightage given ____ different factors when ____?

When calculating ____ portfolios' ____ is ____ to ____ factor?

____ much consideration ____ to social, environmental, ____ factors when calculating ____ for ____?

____ returns to ____ are environmental and social ____?

Environmental, ____ and ____ factors are weighed ____ determining ____ portfolios.

Can ____ importance given ____ each ____ computing returns for sustainable portfolios?

____ are governance factors ____ portfolio ____?

____ social and environmental factors ____ returns on ____ sustainable ____?

____ do you consider ____ for sustainable portfolios?

____ important are ____ social, ____ to ____ returns for green ____?

The weightage ____ by the ____ factors ____ used ____ calculating ____ portfolio ____.

What ____ environmental, ____ governance factors that ____ sustainable portfolios?

____ calculating returns for ____ is the weightage ____ factors?

____ are environmental, ____ governance factors ____ in ____ calculation of ____ sustainable ____?

____ the weightage taken by ____ factors that ____ returns?

What ____ social, ____ factor weighed to ____ returns ____ sustainable ____?

____ is the ____ attributed to ____ factor when ____ portfolios?

How ____ you assess environmental, social and governance ____ on ____?

____ social and ____ factors ____ calculating returns for ____ portfolios?

What ____ social, ____ governance ____ taken ____ account when determining ____ sustainable ____?

When calculating ____ sustainable portfolios, what ____ to factors?

In calculating ____ returns, ____ significance ____ to ____ factor?

What is ____ given to factors when ____ for ____?

How do you balance environmental, ____ aspects ____ returns ____ investments?

How ____ environmental, ____ governance factors included ____ returns ____ portfolios?

How ____ are the environmental, social, ____ governance ____ portfolio ____?

The environment, social, and ____ factors are weighted ____.

____ calculating returns ____ a sustainable ____ are environmental ____ factors ____?

____ environment, ____ and governance ____ into account when ____ returns for ____ that are ____?

____ calculating ____ to ____ portfolios, what factors ____ and social ____?

____ much consideration is ____ to ____ social, and ____ when ____ returns for ____.

____ is the ____ the ____ social, ____ governance factors when ____ returns ____ portfolios?

____ do you ____ for ____ and ____ when ____ for green investments?

____ calculating ____ to sustainable portfolios, are ____ and ____?

How ____ the ____ of environmental, ____ governance factors ____ when calculating ____?

How ____ is ____ social and ____ when calculating returns ____ sustainable portfolios?

____ has ____ environment, ____ and governance ____ weighted when ____ returns ____ portfolios?

Is eco-friendly ____ dependent ____ weight of environmental, ____ governance elements?

____ weight does the ____ and ____ factor carry ____ calculations?

How ____ you ____ factors in your ____ portfolio returns?

____ when ____ sustainable portfolio returns?

____ significance are ____ each factor ____ sustainable portfolio ____?

How ____ consideration is ____ social and ____ factors in ____ returns ____ sustainable ____?

When ____ returns to ____ how ____ and ____ Weighted?

____ factors of environmental, ____ are weighted when calculating ____ for ____.

____ know how the impact of environmental, ____ is considered in determining returns ____.

____ like ____ environment, social ____ governance been taken ____ account when choosing ____ for ____ portfolio?

When ____ are there different ____ for ____ social, ____ governance factors?

How have social and ____ weighted ____ for portfolios ____ are sustainable?

How ____ given to each factor ____ returns ____ sustainable ____?

____ is ____ the factors environmental, ____ governance and ____ returns for ____ portfolios?

When ____ sustainable ____ do ____ do with ____ environmental, ____ and governance aspects?

____ placed on ____ factor while computing returns ____ sustainable portfolios?

____ have environmental and ____ weighted while ____ returns ____ sustainable ____?

Do computing ____ portfolios have different ____ for ____ social and ____?

____ environmental, social, ____ factors ____ into account in calculating ____ portfolios?

How are returns calculated for ____ and how ____ is ____?

What do you ____ with ____ social and governance ____ calculating the ____ portfolio?

How are ____ factors taken ____ in ____ returns ____ sustainable portfolios?

____ important ____ the environment, social, ____ governance ____ returns ____ green ____?

What ____ is ____ to ____ calculating ____ portfolio returns?

What ____ the ____ of ____ assigned to ____ and ____ calculating returns ____ sustainable ____?

How ____ the environment and ____ weighted ____ calculating ____ for ____ sustainable?

How ____ related to ____ weighted when calculating returns ____ portfolios?

____ are ____ governance ____ weighted ____ calculating returns for sustainable ____?

____ can ____ determine the importance of environmental, ____ and ____ returns ____ sustainable ____?

How much ____ is ____ social, ____ governance factors ____ calculating returns for ____?

_____ the _____ weightages of environmental, social, _____ when choosing _____ sustainable _____?
 _____ have factors _____ as the _____ and social responsibility _____ calculating _____ portfolios _____ are sustainable?
 _____ do environmental, social _____ governance factors _____ for sustainable _____?
 _____ the impact _____ is factored into _____ returns for sustainable _____ unclear.
 How _____ and _____ factors factored when _____ portfolio _____?
 _____ have _____ social _____ been weighted during _____ estimates for sustainable _____?
 Weights _____ environmental, _____ and governance _____ are computed _____ sustainable _____.
 _____ returns calculated for _____ how much consideration is _____ the environment _____ factors?
 How weightage is _____ to certain _____ returns _____ sustainable _____?
 _____ calculating sustainable portfolio returns, how _____ differ _____ social and _____?
 _____ have _____ social _____ been _____ in the calculation of _____ sustainable _____
 What is the weightage taken by _____ calculating _____ portfolio _____?
 Is there _____ different weight _____ environmental, _____ and _____ computing _____ on sustainable _____?
 What is the _____ to _____ factor to _____ the returns _____?
 _____ have _____ of the _____ governance _____ weighted _____ determine returns for a sustainable _____?
 How _____ you distribute _____ weight _____ social and _____ calculating _____ for green _____?
 _____ do you _____ out the importance _____ environmental, _____ factors in _____ for sustainable _____?
 _____ are _____ environmental _____ factors considered when _____ on a _____ portfolio?
 How _____ social and _____ choosing returns for portfolios?
 _____ does environmental, social, _____ have _____ portfolios' _____ calculations?
 _____ you weight environmental, _____ and _____ factors for _____?
 What weights _____ for _____ and governance factors _____ returns?
 _____ you _____ the _____ between _____ and governance _____ when calculating returns for _____?
 What _____ is attached _____ in calculating _____ portfolio _____?
 Is _____ weightage _____ to _____ factor during _____ for _____ portfolios?
 _____ weightage is _____ to each _____ returns _____ sustainable portfolios?
 _____ do you give _____ governance _____ when calculating returns for green _____?
 _____ assign significance to environmental, social and governance factors _____ calculating profits _____ focused _____?
 _____ returns for _____ what are _____ given _____ certain factors?
 How are _____ factors used in _____ calculation of _____ portfolio _____?
 What _____ given _____ calculating returns for sustainable portfolios?
 How are environmental, _____ factors weighed _____ calculating _____ returns?
 _____ calculating returns for _____ investments, _____ be divided between _____ social, and _____?
 How are _____ and social weighted _____ returns _____ sustainable _____?
 The weightage taken _____ governance factors _____ used _____ calculate _____ portfolio _____.
 How much weight _____ assigned to _____ sustainable portfolios?
 How _____ and governance factors weighted for calculating _____?
 When calculating _____ to sustainable portfolios, _____ are _____?
 What factors _____ been _____ when making _____ a _____?
 Hey, what _____ assigned to environmental, social, and governance factors when _____ returns _____?
 _____ have _____ environment, _____ and _____ weighted when deciding _____ returns for _____ portfolio?
 _____ weightage taken _____ environmental, social, _____ factors _____ returns for sustainable _____.
 What _____ do _____ environmental, _____ governance aspects _____ return _____ a sustainable portfolio?
 _____ are _____ governance factors _____ return calculations _____ sustainable portfolios?
 How _____ you _____ to _____ social, _____ governance when calculating _____ for green _____?
 _____ is _____ to _____ governance factors when calculating sustainable portfolio _____?
 What are _____ weightages _____ social, _____ governance _____ when determining returns _____ portfolios?
 Can _____ us know _____ of environmental, social, _____ is factored into determining _____ portfolios?
 _____ social, and governance aspects be _____ when _____ returns _____ green _____?

How _____ environment, _____ governance _____ weighted when selecting a _____?

_____ you determine returns _____ portfolios when _____ aspects are _____ into account?

How _____ do _____ and environmental factors _____ sustainable portfolio _____?

_____ are _____ for _____ and _____ determining returns for sustainable portfolios?

How _____ factors _____ as environment _____ weighted _____ returns on _____ portfolio?

_____ social, and _____ factors _____ account when determining _____ sustainable portfolios?

How _____ weight _____ each _____ in _____ for sustainable portfolios?

_____ are _____ social, and governance _____ when _____ sustainable portfolios?

When _____ returns for sustainable portfolios, _____ the _____ factors Weighted?

_____ and social weighted when calculating _____ in _____?

_____ calculating _____ portfolios, _____ significance given to each factor?

How do you determine the importance _____ and governance _____ the _____ of _____ sustainable _____?

_____ are _____ and _____ weighted when calculating _____ portfolios?

How _____ and _____ factors _____ when calculating _____ for sustainable _____?

How much consideration is _____ to the environment, _____ and _____ portfolios?

Is _____ social, _____ governance _____ calculating returns _____ sustainable portfolios?

What _____ environmental and _____ calculating returns for _____?

_____ social, and governance _____ weighted _____ portfolios?

_____ you distribute _____ weight _____ environmental, _____ governance when calculating _____ green investments?

_____ weight _____ distributed between _____ social, and _____ calculating returns for green _____?

When _____ returns on _____ sustainable portfolio, what _____ social _____?

_____ and social factors _____ in calculating _____ sustainable portfolios?

_____ the _____ of _____ and governance _____ into account in determining _____ sustainable _____?

How do _____ and governance _____ of _____ portfolio returns?

What _____ total weightage taken _____ the environmental, _____ in calculating returns _____?

How _____ environmental _____ when calculating returns to sustainable _____?

_____ weightage assigned _____ each factor in _____ sustainable portfolios?

_____ me if the _____ of environmental, _____ is factored _____ determining returns for sustainable _____?

_____ the weightage _____ by the _____ social factors in _____ returns _____ portfolios?

_____ environmental, social _____ governance factors _____ determining returns _____ portfolios?

_____ much _____ does _____ social, governance _____ in portfolios' _____?

The environmental, social, _____ into _____ when _____ returns for sustainable _____

Can you tell _____ how _____ environmental, _____ and governance is _____ when _____ returns for _____?

How _____ should be _____ each factor when computing _____ portfolios?

_____ is _____ by environmental, social, _____ factors _____ calculate sustainable portfolio _____?

_____ there be different _____ for _____ governance factors _____ returns on sustainable _____?

_____ the breakdown of _____ environmental, _____ and _____ when calculating returns for sustainable portfolios?

Can you tell me _____ the _____ social, and governance _____ returns for _____ portfolios?

_____ are _____ for _____ social and governance when calculating _____ for _____?

_____ environmental, _____ governance _____ should _____ weighted when _____ returns for sustainable _____.

_____ has the _____ and governance _____ weighted when _____ returns for portfolios _____?

Can _____ the impact of environmental, social, and governance is _____ sustainable _____?

How much _____ each _____ calculating _____ for sustainable portfolios?

weightage given _____ factors _____ calculating _____ for _____ portfolios

_____ are _____ different _____ environmental, social and _____ determining returns for _____ portfolios?

When calculating _____ sustainable portfolio, _____ and _____ factors _____ into account?

The _____ is given _____ various factors when _____ portfolios.

When calculating returns _____ sustainable portfolios, what _____ is _____?

_____ of the _____ factors in _____ portfolio returns is unknown.

How much weight _____ to _____ social, governance _____ calculating _____ for _____ portfolios?

How do _____ importance of _____ social _____ governance factors when calculating _____ for _____?

How _____ environment, social _____ been _____ when making decisions _____ returns _____ sustainable _____?

_____ calculating _____ for sustainable portfolios, _____ like environmental, social and _____?

_____ do you _____ governance, _____ environmental factors for _____?

What _____ environmental, _____ in calculating returns for sustainable portfolios?

How _____ factors like the _____ and _____ been _____ calculating _____ for _____ portfolios?

The _____ social, and _____ factors _____ determine returns for _____.

_____ and _____ factors used to _____ returns on _____ portfolios?

_____ want _____ know if _____ social, _____ governance is factored _____ determining _____ for sustainable portfolios.

_____ social, _____ governance factors are _____ calculating _____ portfolio _____.

How are _____ social, governance _____ for sustainable portfolios?

_____ weightage _____ by the environmental, _____ governance _____ for sustainable _____ not known.

How are _____ and _____ factors _____ into sustainable _____ return _____?

_____ taken _____ environmental, social, _____ calculating sustainable _____ returns was asked.

_____ return _____ for sustainable _____ specific weightage _____ to _____ factor?

When calculating returns for _____ environmental, _____ governance weighted

How have factors like _____ social _____ considered when choosing _____ portfolios that _____?

When _____ for _____ portfolios, what _____ the _____ weights of _____ governance?

How _____ the environmental, _____ governance factors _____ the _____ portfolio returns?

_____ have environment _____ social _____ calculating return for sustainable _____?

How _____ the _____ for calculating _____ for _____ weighted?

_____ is the weightage _____ each _____ in calculating _____ sustainable _____?

What _____ the environmental, _____ weighted _____ calculate _____ portfolio returns?

_____ social, and _____ are _____ sustainable portfolio returns?

What is the _____ by _____ environmental, social, _____ to _____ returns _____ portfolios?

What is the _____ by _____ governance _____ in calculating _____

_____ the weightage _____ by governance and the _____ calculating _____ portfolio _____?

How have _____ and _____ factors _____ weighted _____ deciding _____ for _____ that are _____?

How _____ Environmental, Social, _____ when calculating _____ sustainable portfolios?

What _____ the different _____ of _____ social, _____ governance _____ to _____ returns for _____?

What _____ the _____ to _____ social, _____ governance _____ when _____ focused on sustainable living?

What is the _____ environmental, social, _____ when determining _____ for _____ portfolios?

Can you give _____ of _____ assigned _____ each factor _____ calculating returns _____ sustainable _____?

_____ environment, _____ and governance been taken _____ deciding on _____ for _____ sustainable portfolio?

Can you _____ us _____ environmental, social, and governance aspects are _____?

How _____ weight is _____ social, _____ factors _____ calculating returns for sustainable _____?

_____ each factor have _____ specific _____ it _____ calculation for _____ portfolios?

How do _____ and _____ factors _____ sustainable portfolios?

When _____ for _____ investments, _____ you _____ environmental, social, _____ governance aspects?

How have social _____ weighted for _____ returns for portfolios _____ sustainable?

_____ much is _____ for _____ social, _____ when calculating _____ for sustainable _____?

How are _____ and _____ weighted _____ calculate _____ portfolio returns?

What _____ weightage used to _____ sustainable portfolios?

How _____ the impact _____ environmental, social, _____ governance _____ factored _____ for sustainable _____?

What weightage _____ taken for _____ environmental, social, governance _____ calculate _____?

_____ have _____ social responsibility _____ weighted as _____ of the calculation _____ for sustainable _____?

What _____ the _____ governance and _____ when _____ returns _____ sustainable portfolios?

_____ the weightage taken _____ the environmental, _____ in _____ sustainable _____ returns?

How _____ does each _____ carry in _____ calculations _____ portfolios?

_____ the _____ social _____ weighted when _____ returns _____ portfolios that are sustainable.

____ have ____ like environment, social and ____ weighted ____ choosing ____ portfolios?
 ____ are the ____ and governance ____ in portfolios?
 How ____ governance ____ factored into the ____ calculation ____ portfolios?
 ____ are environmental, social, and ____ returns ____ sustainable portfolios?
 ____ environmental ____ social ____ when determining ____ on ____ sustainable portfolio?
 ____ different ____ environmental, ____ and governance factors ____ deciding returns ____ sustainable portfolios?
 ____ clarify how the impact ____ environmental, ____ and ____ in determining returns ____ portfolios?
 ____ do ____ assign significance to environmental, ____ and governance ____ in ____ from ____?
 How ____ social and ____ factors ____ into account when ____ to ____?
 How ____ the ____ of ____ social ____ governance been weighted when ____ on ____ for ____?
 ____ importance is ____ to each ____ determining returns ____ sustainable ____?
 ____ variables ____ environmental ____ social weighted ____ calculating ____ sustainable portfolios?
 How ____ and governance factors weighted ____ returns ____ portfolios?
 Can you tell us ____ impact ____ and governance ____ is factored into ____ returns ____?
 Is ____ clarify ____ the ____ environmental, ____ and governance aspects is ____ returns for sustainable portfolios.
 ____ much ____ environment and social ____ weighted in ____ calculation of ____ for sustainable ____?
 ____ how much ____ is ____ to ____ factor in ____ returns ____ sustainable portfolios?
 ____ are ____ social and governance factors ____ in ____ the ____ on ____?
 ____ returns for sustainable ____ is ____ taken ____ environmental, social, governance factor?
 How ____ and ____ factors considered ____ portfolio returns?
 When ____ sustainable portfolio returns, ____ significance ____ each factor?
 How are environmental, social ____ in determining returns ____?
 ____ significance is ____ each ____ when calculating sustainable ____ returns?
 When calculating ____ for sustainable ____ social, and governance ____?
 When calculating returns ____ sustainable portfolios the ____ to ____
 ____ are ____ and ____ when ____ sustainable portfolio returns?
 ____ are assigned ____ environmental, ____ and governance factors when calculating returns ____?
 ____ you talk ____ significance given ____ each factor ____ returns for ____?
 ____ is the ____ for environmental, ____ in ____ sustainable portfolios?
 What ____ by governance factors ____ returns for ____ portfolios?
 ____ calculating sustainable portfolio ____ how ____ the ____ vary ____ and ____ factors?
 ____ weights assigned ____ environmental, ____ and ____ factors when ____ returns ____ sustainable portfolios?
 How significant ____ social, governance ____ in ____ returns ____ investments?
 ____ the ____ placed ____ each factor ____ returns for ____ portfolios
 Is ____ of weights ____ to ____ and ____ factors when calculating returns ____ sustainable ____?
 Is ____ environmental weighted ____ returns to sustainable ____?
 What ____ environmental and ____ weighted when ____ for ____ portfolios?
 What ____ the weightage ____ by ____ governance ____ to calculate ____ portfolio?
 ____ computing returns to sustainable portfolios, ____ there ____ environmental, social, ____ governance ____?
 What ____ breakdown of ____ to environmental, ____ and ____ factors ____ determining returns ____ sustainable ____?
 How much weight ____ when ____ sustainable portfolios' ____ calculations?
 How ____ and governance factors weighted to calculate ____?
 ____ is ____ weightage taken ____ governance and environmental ____ in ____ portfolio ____?
 What ____ the weightage ____ certain ____ returns for sustainable ____?
 ____ returns ____ portfolios, what are ____ weights assigned to ____ social and ____?
 Can ____ tell ____ the ____ placed on each ____ computing returns ____?
 How ____ environment and ____ responsibility ____ weighted ____ calculating ____ for ____ are sustainable?
 What factors ____ in ____ creation of ____?
 What ____ weightage ____ things when ____ returns for ____ portfolios?
 ____ environmental, social, ____ governance factors ____ account ____ sustainable portfolios?

____ are returns for ____ portfolios ____ consideration ____ to the environment?
 ____ much ____ is given ____ environmental, social, ____ factors while ____ sustainable portfolios?
 ____ do ____ and governance factors ____ sustainable portfolios?
 ____ are factors ____ environmental and ____ weighted when ____ for ____
 ____ environmental, ____ and governance factors been ____ to ____ a sustainable ____?
 ____ computing returns ____ portfolios, ____ weights ____ for environmental, ____ and governance ____?
 Do ____ assign ____ and governance in ____ returns for sustainable portfolios?
 How have social responsibility and ____ returns for ____ portfolios?
 ____ to sustainable portfolios ____ different weights for environmental, ____ governance ____?
 ____ are ____ environmental, social, and ____ factors ____ portfolios?
 When ____ returns for portfolios that are ____ like ____ social ____ weighed?
 ____ much attention ____ environmental, social, ____ factors when ____ returns ____ sustainable portfolios?
 ____ you place on ____ social, and ____ factors ____ sustainable ____ returns?
 How ____ society, ____ governance in measuring ____ sustainable portfolios?
 ____ are ____ weightages of ____ governance factors ____ affect returns ____ sustainable portfolios?
 ____ much ____ does ____ carry for the return ____ sustainable portfolio?
 How ____ environmental, ____ governance ____ in ____ returns for ____ portfolios?
 The ____ of environmental, social, ____ governance factors ____ calculating ____ sustainable ____.
 ____ are environmental ____ weights used to calculate ____ to ____?
 When making returns ____ portfolios, ____ factors ____?
 ____ are ____ and ____ factors used ____ determining ____ on sustainable portfolios?
 Will ____ different weights for ____ and ____ when computing ____ portfolios?
 What ____ the ____ and ____ factors ____ when calculating ____ portfolio returns?
 ____ environmental ____ when figuring out returns ____ sustainable portfolios?
 The ____ the ____ governance ____ is used ____ calculate ____ for sustainable portfolios.
 ____ has the ____ and social ____ when calculating ____ portfolios that are ____?
 There is a weightage ____ by ____ in calculating sustainable ____.
 Do ____ know ____ significance given ____ factor ____ for sustainable portfolios?
 How ____ environmental and governance factors ____ returns ____ investments?
 How much importance is given to ____ while ____?
 How ____ the ____ and social factors ____ calculating ____ to ____?
 ____ you ____ the weightage taken ____ environmental, ____ factor ____ calculate returns ____ portfolios?
 ____ the use of ____ calculating returns on a sustainable portfolio?
 What is ____ weightage taken by ____ governance ____ calculating sustainable ____?
 How do ____ balance ____ governance ____ calculating returns ____ investments?
 ____ have ____ and ____ responsibility ____ weighed ____ the calculation of ____ estimates for ____?
 Does computing ____ on ____ portfolios have ____ weights for ____ and ____?
 ____ like environmental and social weighted ____ calculating ____ sustainable ____
 How do ____ importance of ____ governance factors ____ returns ____ sustainable portfolios?
 How ____ the ____ social ____ governance ____ weighted ____ deciding ____ returns for portfolios ____?
 ____ are weights ____ environmental, ____ and ____ when calculating ____ for sustainable ____?
 What is ____ of environmental, ____ governance factors when ____ portfolios?
 ____ social, ____ governance aspects ____ accounted ____ determining returns ____ sustainable portfolios?
 How have ____ the ____ and governance been weighted ____ for a ____ portfolio?
 How have factors ____ the environment and ____ in ____ of ____ for sustainable ____?
 ____ do you weigh ____ governance ____ for sustainable ____?
 ____ weight is ____ to some ____ calculating returns ____ sustainable ____?
 ____ weightage taken ____ the environmental, social, governance ____ in calculating ____ sustainable ____.
 What ____ to ____ sustainable ____ returns?
 How ____ environment, ____ and ____ been ____ when ____ returns ____ portfolios?

____ calculating sustainable ____ returns, how does ____ weighting ____ social, ____ governance ____?
 ____ have ____ as the environment, social ____ governance been ____ choosing returns for ____ that ____?
 ____ much weight is ____ to ____ factor in determining ____?
 ____ is ____ weightage ____ for ____ social, governance ____ in ____ sustainable ____ returns?
 How have ____ like ____ and social ____ been ____ the calculation of ____?
 Is ____ weightage assigned to each factor in ____ portfolios?
 When calculating returns ____ portfolios, ____ are ____ social and ____?
 ____ social, ____ have a specific share ____ returns?
 ____ have factors ____ the ____ and social ____ weighted ____ calculation ____ return for sustainable portfolios?
 ____ factors ____ when ____ portfolio returns?
 What factors have been ____ returns ____ a ____?
 Can you tell ____ weightage assigned ____ calculate ____ on ____ investments?
 ____ is ____ by environmental, social, ____ factors ____ calculating sustainable portfolio ____?
 ____ consideration is ____ to ____ social and governance aspects ____ calculating ____ portfolios?
 Should ____ impact ____ and governance be ____ when determining ____ portfolios?
 ____ is ____ weightage taken by the ____ in ____ sustainable portfolio returns?
 ____ environmental, social, and governance factors considered ____ for ____?
 What ____ the ____ taken ____ factors ____ calculating returns for ____.
 ____ have factors like the environment, social ____ when ____ for a ____?
 How ____ the factors used ____ calculating ____ returns ____?
 I want to ____ the ____ assigned to ____ and governance ____ calculating returns ____ portfolios.
 ____ returns calculated ____ portfolios and how ____ given ____ social ____ environmental factors?
 ____ social, ____ governance have ____ sustainable portfolio ____.
 How ____ the environmental, ____ factors ____ into ____ sustainable portfolios?
 When ____ returns ____ sustainable portfolios, do ____ for ____ and ____ factors?
 ____ is the ____ each ____ calculating ____ for sustainable portfolios?
 Is the environmental, ____ factors ____ calculating returns ____ portfolios?
 ____ returns ____ sustainable portfolio, what do ____ do with ____ and ____ aspects?
 ____ weightage taken by ____ environmental, social, ____ factors in calculating ____?
 Is the environmental, social, ____ taken into account ____ calculate ____?
 ____ are environmental, ____ factored ____ the ____ calculations for sustainable ____?
 ____ calculating ____ portfolio ____ how ____ factors ____?
 ____ explain the ____ of each factor when ____ for ____?
 In ____ sustainable ____ the ____ of weights assigned to environmental, ____ governance factors?
 How ____ been ____ to calculate ____ portfolio ____?
 Do ____ have ____ specific share ____ calculated ____ portfolio returns?
 How important are ____ environmental, ____ and ____ in ____ for ____ investments?
 ____ social ____ factors weighed when calculating returns for ____?
 ____ is the weightage ____ by the factors ____ calculating ____?
 Can you ____ to ____ in ____ returns for sustainable portfolios?
 How ____ factors like ____ social ____ calculate returns on a ____?
 ____ calculating sustainable portfolio returns, ____ does ____ weight ____ social, ____ factors ____?
 ____ much importance is ____ environmental, social, governance ____ for ____ portfolios?
 ____ weightage ____ by ____ governance factors ____ sustainable portfolio returns?
 How ____ environmental, ____ and governance ____ weighted ____ portfolios?
 ____ and ____ weighted when calculating sustainable portfolios?
 What is ____ total ____ by ____ environmental, ____ in calculating ____ portfolio returns?
 When ____ returns ____ are environmental, ____ and governance weighted?
 ____ much consideration is given to ____ and governance ____ determining ____ sustainable ____?
 ____ calculating ____ for ____ do ____ the ____ of environmental, ____ and governance factors?

How ____ weight should be ____ to ____ for sustainable portfolios?

____ weight do the ____ factors ____ in calculating ____ for ____ portfolios?

How much ____ is ____ to the ____ social, ____ while ____ for ____ portfolios?

I want ____ what ____ is given to each factor in ____.

When ____ returns to ____ portfolios, ____ weights exist ____ and ____ factors?

____ calculating ____ to ____ portfolios, is ____ and ____ weighted?

____ is ____ importance ____ governance when calculating returns ____ green ____?

How ____ environmental and social ____ weighted ____ calculating ____ on a ____?

Do ____ know ____ weightage ____ factor for calculating returns ____ investments?

How ____ social, ____ included ____ the calculation ____ sustainable portfolios?

____ should ____ environmental, social, and ____ aspects ____ calculating returns ____ green investments?

____ much ____ is ____ factors in ____ for sustainable portfolios?

____ returns ____ sustainable ____ different ____ for environmental, social and governance?

What ____ social ____ governance factors that determine ____ for sustainable portfolios?

What ____ environmental ____ when determining sustainable portfolio ____?

Do you ____ how the ____ of ____ and governance aspects ____ for ____ for ____ portfolios?

____ much ____ is given to ____ environmental, ____ governance factors ____ returns?

How do environmental, ____ and ____ factor in ____ portfolios?

How is environmental ____ calculating returns ____ sustainable ____?

____ have factors such as the environment, ____ weighted when selecting ____ portfolios ____ sustainable?

____ environment ____ social responsibility been weighted ____ calculating ____ for sustainable ____?

____ given ____ certain factors when ____ return on ____ portfolios?

____ do you value the environmental, social, ____ sustainable portfolio ____?

What ____ the breakdown ____ the ____ assigned to ____ governance factors ____ returns for ____ portfolios.

____ is environmental, ____ governance in calculating ____ for ____ investments?

____ you tell us ____ the impact of ____ social, ____ governance ____ into determining ____ for ____?

____ is the ____ social, ____ in ____ returns for green ____?

____ calculating ____ portfolio returns, what ____ to environmental, social, ____?

When ____ return ____ sustainable ____ is the ____ assigned ____ environmental, ____ and governance factors?

How ____ assign ____ environmental, social, and governance ____ while ____ profits ____ on sustainable living?

What are ____ social, ____ governance ____ in ____ sustainable ____ returns?

When calculating ____ sustainable ____ much ____ attributed to each factor?

When ____ returns, what are ____ social weighted?

____ are environmental, social, ____ governance ____ considered ____ returns?

How ____ does ____ factor ____ return calculations ____ sustainable portfolios?

How ____ environmental and social weighted ____ return ____ portfolio?

How ____ decide which ____ governance factors are ____ returns for sustainable ____?

Computing returns on ____ do different ____ exist ____ governance factors?

____ are ____ and ____ Weighted when ____ sustainable ____ returns?

____ is the impact of ____ social, ____ factored into determining ____?

While ____ returns for sustainable portfolios ____ you ____ the ____ factor?

What is ____ of weights ____ to ____ social, ____ governance ____ calculating returns ____ portfolios?

____ are returns ____ sustainable ____ environmental, social ____ governance factors?

____ returns on ____ portfolio, what ____ do ____ the social, ____ and ____ aspects?

What ____ by the ____ and environmental factors ____ calculating ____ for sustainable ____?

____ weights are ____ and ____ when calculating ____ for sustainable portfolios?

____ environmental, ____ and governance factors ____ when ____ returns for ____.

How should ____ social, and governance be considered in ____ returns ____?

What ____ and governance ____ calculating returns ____ sustainable portfolios?

____ are ____ social ____ governance variables ____ returns for sustainable ____?

How ____ do you ____ environmental, ____ and governance factors ____ your ____?

What importance ____ each ____ when ____ sustainable ____ returns?

____ social, ____ governance factors ____ used to ____ returns ____ sustainable portfolios.

____ are ____ like the ____ and ____ the ____ of sustainable portfolios?

Can ____ tell ____ the impact ____ and ____ aspects is considered ____ determining returns ____ sustainable ____?

____ are ____ of environmental, ____ and governance ____ making returns ____ sustainable ____?

____ weights ____ environmental, social, ____ governance factors to calculate returns for ____?

What is the value ____ environmental, ____ and ____ in ____ portfolio ____?

When ____ sustainable ____ what ____ breakdown ____ weights assigned ____ environmental, social, and governance factors?

____ returns for portfolios ____ are sustainable, have environmental, ____ and ____ weighted?

____ environmental and ____ weighed when ____ returns ____ a sustainable ____?

How ____ to ____ social, ____ governance ____ calculating returns ____ sustainable portfolios?

____ does ____ social, and governance ____ affect ____ portfolio returns?

____ the ____ social ____ been ____ choosing ____ sustainable portfolio of returns?

How ____ do ____ consider the ____ and governance factors ____ returns?

____ want to know how environmental, ____ governance are ____ when ____ for ____.

____ governance ____ environmental factors in ____ for green investments?

____ do ____ distribute ____ between environmental, ____ and governance ____ calculating ____ for ____ investments?

____ the ____ social and ____ weighted when ____ returns for a ____?

What ____ the ____ for each ____ calculating ____ for sustainable ____?

What are the ____ of ____ factors ____ to ____ returns for ____ portfolios?

How do ____ the significance ____ environmental, social, ____ governance factors ____ investments ____ on ____ development?

How are environmental, social, ____ governance ____ determine ____ returns ____ sustainable ____?

How ____ while computing returns to sustainable portfolios?

____ the importance of each ____ calculating returns for ____ investments?

How do ____ social, and ____ factor ____ portfolio ____?

____ have the environment, ____ when choosing returns ____ sustainable portfolio.

What are the ____ weightages of ____ factors ____ on ____ sustainable portfolios?

____ factor carry in ____ calculations for a ____ portfolio?

____ weights assigned to ____ social, ____ governance ____ calculating ____ for sustainable ____?

What should ____ with ____ environmental, ____ and governance ____ when ____ a ____ portfolio?

____ environmental ____ factors accounted ____ when ____ returns on a ____ portfolio?

During return calculation for ____ weightage ____ to ____ factor?

____ give ____ to environmental, social and governance ____ calculating returns ____ investments?

How have ____ the ____ social responsibility ____ weighted while calculating ____?

____ have the environment and social ____ weighted to ____ are sustainable?

____ the ____ weights ____ to environmental, social and ____ returns for sustainable portfolios?

How ____ factors factored into the calculation ____ sustainable ____?

How ____ returns ____ and how much ____ is ____ environmental factors?

What significance is ____ various ____ sustainable portfolio ____?

____ social, and governance ____ that ____ weighted ____ sustainable portfolio ____.

____ to environmental, ____ and governance ____ when calculating the returns for ____?

____ the ____ taken ____ the social, governance ____ in calculating ____ portfolio returns?

What is ____ environmental, ____ factors in calculating returns for ____?

How are ____ weights assigned ____ environmental, ____ and ____ calculating returns for ____?

What ____ importance ____ factor ____ the calculation ____ for green investments?

How ____ are the ____ and ____ calculating returns for green ____?

How ____ environmental, social, ____ governance ____ affect ____ calculating sustainable ____ returns?

____ the breakdown ____ the weights assigned ____ environmental, social, and ____ factors ____ for sustainable ____?

Can _____ us how _____ of environmental, social and _____ is factored into determining _____?

How important _____ social, governance _____ other _____ in calculating _____ investments?

_____ the _____ by environmental, _____ in calculating sustainable portfolio returns?

How are _____ social _____ when calculating sustainable _____

How have factors _____ social _____ been _____ when calculating return _____ portfolios?

_____ is the _____ taken by _____ in _____ sustainable portfolio _____

How _____ environmental, _____ and governance _____ weighted in returns _____?

_____ like the _____ been weighted when choosing _____ for portfolios that are _____?

_____ social, _____ into account when _____ sustainable portfolio returns

How are _____ social _____ factors _____ decide _____ sustainable portfolios?

_____ have _____ such _____ the environment, _____ and _____ weighed when choosing returns _____ a _____?

_____ calculating returns _____ sustainable portfolios, _____ social, and _____ are _____?

How _____ the _____ of the environment, social and _____ on returns _____ that are _____?

_____ returns for sustainable portfolios _____ are given _____ each _____?

When _____ returns _____ green _____ do _____ weight _____ environmental, social, _____ governance aspects?

Is the breakdown _____ to environmental, _____ and _____ factors _____ returns _____ portfolios?

_____ should be given _____ governance when calculating returns _____ sustainable _____?

_____ calculating _____ for sustainable _____ which _____ are _____?

_____ depend on individual weightings of environmental, social _____?

_____ the weightage taken _____ the _____ social, governance _____ calculating returns for _____?

What factors are _____?

_____ assign _____ to environmental, _____ and _____ while calculating _____ from _____ focused on sustainability

How environmental _____ when calculating _____ to sustainable portfolios?

Is _____ a specific _____ for _____ in return _____ for _____ portfolios?

_____ variables _____ when calculating sustainable portfolio returns?

How do _____ the _____ social, _____ governance factors _____ portfolios?

How _____ factors _____ as the environment, social and _____ deciding _____ returns _____?

When computing returns _____ portfolios, do _____ exist _____ and governance factors?

_____ are factors like the environment _____ social _____ calculating _____ estimates _____ sustainable _____?

_____ do _____ give _____ to _____ when calculating returns _____ green _____?

_____ social _____ sustainable portfolio returns

How _____ you determine _____ of environmental, _____ and governance in _____ for _____?

_____ you tell _____ weightage _____ assigned _____ in calculating _____ on sustainable investments?

_____ clear how _____ impact _____ environmental, social, _____ governance _____ is factored _____ returns for _____ portfolios?

What _____ have _____ weighed when _____ for portfolios _____ sustainable?

Is _____ way _____ weigh _____ social, and _____ sustainable portfolios?

_____ returns _____ sustainable portfolios _____ is given to each _____?

How are _____ like environmental _____ social _____ returns _____ sustainable _____?

_____ you clarify _____ placed on _____ while computing returns for _____?

_____ sustainable _____ do _____ weights _____ for environmental, _____ and governance factors?

What _____ the environmental, social, _____ weightage taken _____ returns _____ portfolios?

_____ environmental _____ responsibility been weighed _____ calculating returns for _____?

_____ weighs _____ social, governance _____ to calculate _____ for sustainable _____?

_____ considering returns for _____ sustainable _____ factors _____ environment, social _____ governance been _____?

_____ you _____ the _____ placed on _____ while calculating returns _____ portfolios?

_____ is the importance of _____ and _____ when calculating returns _____?

_____ are _____ weights assigned to _____ factors when calculating _____ sustainable portfolios?

_____ in calculating sustainable portfolio returns are environmental, social, _____.

_____ is the _____ to _____ social, and _____ when _____ profits _____ focused _____ sustainable development?

_____ like the _____ social _____ been weighted _____ decide _____ for portfolios _____ are sustainable?

When ____ sustainable portfolio ____ are ____ and ____ weighted?

____ breakdown of the weights ____ environmental, social, ____ governance ____ when calculating ____ returns?

Do ____ the environmental, ____ and governance ____ calculating ____ a ____ portfolio?

How ____ factors considered in sustainable portfolio ____?

____ should ____ do ____ the environmental, ____ and ____ aspects ____ calculating ____ on ____ portfolio?

____ have factors like ____ environment and social responsibility ____ when ____ portfolios?

____ have ____ as the environment, social ____ been weighted ____ deciding returns for ____?

____ returns for sustainable portfolios, how ____ and governance ____?

How much ____ does ____ in the ____ for sustainable ____?

____ factors such as the environment, social and governance ____ weighted ____ a ____?

____ weight ____ given ____ environmental, social, governance ____ sustainable portfolios?

____ much weight should ____ the ____ governance ____ calculating ____ for sustainable portfolios?

The weightage ____ the ____ social, ____ calculating sustainable portfolio returns is ____.

____ eco-friendly ____ reliant ____ individual ____ of ____ and governance elements?

____ importance ____ given ____ the ____ of ____ governance ____ computing returns for sustainable ____?

In calculating ____ for ____ portfolios ____ weightage ____ given ____ factor?

How have ____ environment and ____ responsibility ____ weighted while ____ return ____ portfolios?

Is it possible ____ significance ____ environmental, ____ governance factors ____ calculating ____ from ____ focused ____ sustainability?

____ the significance placed on each factor ____ for sustainable ____?

What is the weightage taken by ____ factors when ____?

____ environmental, social, and governance factors looked ____ sustainable portfolios?

When ____ sustainable portfolio ____ significance are assigned ____?

____ much ____ is ____ to ____ factor ____ the ____ of ____ for sustainable ____?

____ governance ____ specific share in calculated sustainable ____ returns?

____ calculating ____ for ____ that are sustainable, have factors ____ the ____ responsibility ____?

How are environmental and ____ considered ____ calculating ____?

____ sustainable portfolios, how ____ you ____ the ____ environmental, social, and governance factors?

How ____ governance factors accounted for in sustainable ____?

How ____ you weigh factors ____?

How do ____ social, ____ governance factors ____ sustainable portfolios?

The factors that ____ weighted in calculating ____ for ____ governance.

When calculating returns ____ green ____ do you ____ the ____ of environmental, ____?

What weight is ____ to ____ calculating ____ returns for ____?

____ and ____ factors ____ weighted for calculating ____ portfolio ____.

____ is the ____ environmental, ____ factors to calculate returns ____ sustainable portfolios?

____ given ____ of the ____ when ____ sustainable portfolio returns?

Can ____ the impact of environmental, ____ and ____ aspects ____ factored ____ determining ____ for ____ portfolios?

Weight ____ between environmental, ____ and governance ____ when calculating ____ for ____.

____ responsibility been weighted in the ____ of ____ portfolios that are ____?

What ____ the ____ of ____ and governance ____ when calculating ____ on sustainable development?

How ____ weight ____ to ____ factor ____ calculating returns for ____?

What ____ given ____ each ____ when ____ returns for ____ portfolios?

____ is the difference ____ between ____ social, and ____ factors ____ sustainable ____ returns?

____ do ____ with the ____ environmental, ____ and ____ calculating returns ____ green investments?

How ____ and ____ used to calculate sustainable ____ returns?

What are ____ and ____ are weighted ____ portfolio returns?

How have factors ____ as ____ environment ____ social responsibility ____ the calculation ____ for ____ portfolios?

How have ____ and ____ been ____ returns for portfolios?

How ____ environmental, social, ____ calculating sustainable ____ returns?

____ have ____ like ____ social and ____ been considered when deciding ____ returns for ____ that ____?

____ is the weightage ____ each ____ in determining ____ portfolios?

____ are environmental and social ____ taken ____ when ____ a ____ portfolio?

How are ____ the environment and social responsibility ____ for ____ portfolios?

____ weights exist ____ environmental, ____ and ____ factors when computing ____ sustainable ____

____ social, and ____ weighted ____ returns for sustainable _____.

____ you explain how ____ social, and governance ____ are factored ____ returns for ____ portfolios?

____ does environmental, ____ carry ____ return calculations ____ sustainable portfolios?

____ much consideration is ____ to ____ social, ____ determining returns for ____ portfolios?

____ like ____ know how ____ of ____ social, and governance ____ factored ____ determining returns ____ sustainable _____.

When choosing ____ for portfolios that are ____ have factors ____ social ____?

How have ____ factors been ____ when selecting ____ for portfolios that ____?

When ____ sustainable ____ environmental, ____ and governance weighted?

____ much ____ carry in sustainability portfolios return ____?

Environmental, ____ and governance variables ____ for sustainable portfolios.

What is the ____ by ____ social, governance factors in ____?

How have ____ the ____ and governance ____ weighted when ____ a sustainable ____?

How ____ the ____ and governance been weighted ____ choosing returns _____.

____ environmental, social, ____ are weighted in calculating ____ returns.

How much do ____ the ____ affect ____ environment ____ your ____ portfolio ____?

Is ____ environmental, social, ____ factor taken into ____ for ____ portfolios?

How ____ you weigh ____ environmental, and ____ factors ____?

How should environmental ____ social ____ be weighted ____ on ____ sustainable ____?

How ____ and governance ____ in determining ____ sustainable portfolios?

How do ____ distribute ____ between ____ social, ____ when ____ returns ____ green ____?

How do ____ to ____ social, ____ to calculate profits from investments ____ on sustainable ____?

____ returns for sustainable ____ you ____ the significance placed ____ factor?

Can you tell ____ how environmental, ____ are taken ____ account to ____ for ____ portfolios?

What are the ____ weights ____ environmental, ____ decide returns for ____ portfolios?

How ____ the ____ of environmental, social, ____ factored into ____ returns ____?

____ the weightage assigned ____ factor ____ calculating a ____ portfolio's ____?

How ____ weighted when determining sustainable portfolio returns?

When ____ for ____ portfolios ____ is ____ to each factor?

What is ____ attributed to each ____ calculating ____ returns ____ sustainable ____?

What ____ and social factors that ____ calculating ____ returns?

What ____ the weights ____ environmental, social, governance ____ calculating returns ____ sustainable ____?

How have the ____ factors been weighted when ____ for ____ portfolio?

____ much ____ value governance, environmental, ____ factors ____ your sustainable ____ returns?

____ social, environmental, and governance factors weighted ____ sustainable ____?

How ____ social and governance factor into ____ sustainable ____?

____ environmental, social, ____ factored ____ return calculations for sustainable ____?

How ____ the ____ weighted ____ calculation of return for ____?

What ____ the ____ given ____ certain ____ when calculating returns ____?

How ____ weight ____ be assigned ____ each ____ when ____ for ____ portfolios?

____ environmental, social, and governance ____ for sustainable ____?

What is the weightage ____ by ____ returns ____ sustainable ____?

____ are the environmental ____ weights for calculating ____ for ____?

Does computing ____ sustainable ____ have ____ weights for ____ governance?

How ____ social, ____ governance ____ considered ____ sustainable portfolio returns?

Is social ____ environmental ____ calculating returns ____ portfolios?

Are ____ impact ____ environmental, social, and ____ factored into ____ for ____ ?

____ different ____ exist for environmental, ____ when computing ____ on ____ portfolios?

What ____ are ____ crafting ____ for sustainable ____?

____ are ____ environmental, ____ and governance ____ considered in ____ for ____ portfolios?

____ ____ ____ governance factors taken into account ____ returns for ____ portfolios?

____ ____ ____ social, and ____ factors ____ calculating returns for sustainable ____?

____ you ____ me ____ significance given ____ each ____ returns for ____ portfolios?

The weightage taken by the environmental, social, ____ calculate ____ not ____.

What ____ environmental ____ weighted when ____ returns ____ portfolios?

____ consideration is given ____ the environment, ____ and ____ while ____ returns ____ portfolios?

How much ____ environmental, social, and governance in calculating ____?

Environmental, social, ____ are factors that ____ weighted ____ sustainable portfolios.

____ are environmental, ____ and governance ____ weighed ____ sustainable ____.

What is ____ weightage taken by ____ environmental, ____ factors ____ calculating ____ sustainable ____.

____ do ____ assign weight between ____ social, ____ aspects ____ calculating returns ____ investments?

____ weightage taken ____ the environmental, social, ____ governance factors ____ calculating sustainable ____?

Factors are ____ portfolio returns

Can ____ tell me what the ____ of ____ is ____ for ____ portfolios?

How are ____ portfolios ____ how ____ considered ____ environmental, social ____ governance factors?

____ importance of environmental, ____ factors ____ calculating returns for ____ portfolios.

How ____ weigh the ____ governance ____ of sustainable portfolios?

____ much ____ does each factor ____ the ____ calculations for ____ portfolios?

____ environmental and social factors ____ when calculating ____?

____ weightage ____ to ____ factors in ____ returns ____ sustainable portfolios?

____ Environmental, Social, ____ specific share of calculated ____ returns?

What ____ breakdown of ____ weights ____ to environmental, social, ____ returns for sustainable portfolios

____ are ____ relative weights ____ governance factors in computing ____ portfolio ____?

When calculating ____ portfolios, how do ____ determine ____ social and ____ factors?

To ____ returns for sustainable ____ what ____ to ____ factor?

How do you ____ environmental, and ____ factors ____?

How much ____ given ____ each ____ when calculating ____ portfolios?

What ____ breakdown ____ the weights ____ environmental, ____ and governance factors ____ calculating returns for ____?

How are ____ environmental, social, ____ weighted for ____ for sustainable ____?

What ____ is given to each factor ____ portfolios

How are ____ weighted ____ a ____ portfolio's returns?

Why are ____ social, ____ in calculating ____ sustainable portfolios?

____ social, ____ governance ____ considered when ____ for sustainable portfolios?

Does ____ portfolio ____ on weightings ____ social and governance ____?

____ weight is taken by ____ environmental, ____ calculating ____ portfolio returns?

____ do ____ the environmental, ____ and ____ aspects ____ calculating returns ____ investments?

How ____ of environmental, social, ____ be ____ returns for sustainable portfolios?

____ have ____ environment ____ been weighted in the ____ return for sustainable ____?

Can ____ tell ____ the ____ assigned ____ factor ____ calculating ____ on ____ investments?

How ____ assign to each factor ____ for sustainable portfolios?

What ____ taken ____ governance ____ to calculate returns ____ sustainable ____?

How ____ you ____ environmental, ____ governance ____ calculating returns for green ____?

What ____ environmental, social, ____ governance ____ calculating ____ portfolio returns?

What ____ the ____ environmental, ____ governance when ____ for sustainable portfolios?

____ social responsibility and ____ been weighted while ____ for sustainable ____?

____ environmental, ____ and ____ factors ____ to decide ____ returns ____ a sustainable portfolio?

Is ____ weightage assigned ____ each factor ____ calculating ____ sustainable ____?

____ environmental and social ____ when ____ returns on a ____?

____ are factors ____ environmental and ____ Weighted ____ calculating returns ____ portfolios?

____ weightages of ____ governance when determining ____ for sustainable portfolios?

How do y'all ____ governance ____ for sustainable ____?

How ____ each factor carry for Sustainability portfolios' ____?

____ weights ____ environmental, ____ governance ____ when ____ returns to sustainable portfolios?

____ are ____ calculated ____ portfolios ____ considering environmental, ____ and ____ factors?

How do ____ on ____ environmental, ____ and governance factors ____ calculating returns ____ portfolios?

____ weight ____ the environmental, social, ____ aspects when calculating ____ for green ____?

Can ____ tell me ____ the ____ assigned ____ returns on sustainable investments?

How have ____ social and governance ____ weighted when ____ portfolios ____ are ____?

____ is ____ weightage ____ to the ____ calculating returns ____ sustainable ____?

What ____ the ____ by ____ factors in calculating ____ portfolio ____?

How are the ____ and ____ when calculating ____ sustainable ____?

How ____ the ____ and social ____ been ____ returns for portfolios that ____?

____ there ____ assigned to each factor ____ calculating ____ sustainable ____?

____ weights taken by the environmental, ____ governance ____ in calculating ____ sustainable ____?

How ____ is ____ environmental, social, ____ when calculating returns to ____ portfolios?

How ____ and ____ weighted when ____ returns ____ portfolio?

____ environmental, ____ and governance factors weighted ____ portfolio ____?

How much ____ carry in ____ for sustainable ____?

____ environmental, ____ and governance ____ determining returns for ____ portfolios?

How ____ environmental, ____ and governance ____ weighted when calculating ____?

____ have ____ and ____ been weighed during ____ calculation ____ return estimates ____ portfolios?

____ weightage is given ____ each factor ____ calculating ____ for ____ portfolio?

____ weightage ____ by the ____ governance factors ____ used ____ portfolio returns.

The ____ environmental, ____ weighted ____ calculating ____ for sustainable portfolios.

____ factors like the environment, ____ been weighted when ____ returns ____ a ____.

____ computing returns ____ portfolios are there ____ social, and ____ factors?

What is ____ significance ____ social, governance ____ in calculating ____ investments?

When calculating ____ for ____ investments, ____ do ____ balance ____ social ____ governance ____?

____ the weight between ____ social and ____ in calculating ____ for ____ investments?

Is ____ environment, ____ taken into account when ____ on ____ portfolios ____ are ____?

____ is the ____ the weights assigned to ____ and ____ factors when ____ returns ____ portfolios?

____ are the different ____ of ____ social, and ____ factors ____ influence ____ for ____?

Can ____ tell us ____ much ____ is ____ factor while computing ____ for ____?

____ the importance of environmental, social, and ____ when ____ portfolios?

Can you ____ how environmental, social, ____ into ____ returns for sustainable ____?

____ have the ____ social and governance ____ when deciding on ____ for portfolios ____ sustainable?

____ social ____ governance factors ____ to determine returns ____ portfolios.

What ____ the ____ of weights ____ governance factors ____ calculating returns for ____ portfolios?

____ is ____ breakdown of weights ____ to environmental, social, ____ governance factors ____ calculating ____?

____ are environmental, ____ and ____ factors considered ____ sustainable ____ returns?

____ much consideration ____ paid to environmental, ____ governance ____ when ____ returns for ____?

How ____ factors like the ____ and ____ weighted for calculating ____ portfolios ____ sustainable?

When it comes ____ portfolios, how ____ do ____ environmental, social, ____ factors?

____ environmental, ____ factors ____ in sustainable portfolios?

How are environmental ____ social ____ returns ____ portfolios??

____ tell ____ much you value ____ environmental, social, ____ governance factors ____ your sustainable ____?

How have _____ to the _____ social and governance been _____ choosing returns _____?

Do _____ the _____ and governance _____ in your _____ returns?

_____ is _____ by the _____ social, governance _____ returns for sustainable portfolios?

How _____ such as the _____ social and governance been _____ portfolios _____?

How _____ the environment _____ social _____ for _____ returns for _____ are sustainable?

_____ the _____ of environmental, social, _____ be taken into _____ returns _____ sustainable _____?

_____ for sustainable _____ into account _____ social, _____ governance factors?

What _____ attributed _____ each _____ calculating _____ for sustainable portfolios?

_____ much importance _____ the environment, _____ governance, _____ returns for _____ portfolios?

_____ computing _____ portfolios, should there _____ different _____ environmental, social, _____ governance?

_____ given _____ each factor when it comes to _____ returns _____ portfolios?

_____ weigh environmental, social, _____ for sustainable portfolios?

_____ weights are assigned to _____ social, and governance factors _____?

_____ much _____ the _____ attributed to _____ when calculating _____ for _____ portfolios?

What _____ by the _____ governance _____ in _____ sustainable portfolio returns?

When _____ returns _____ sustainable portfolios, what _____ taken by _____ governance factors?

_____ portfolio _____ depend on _____ environmental, social, and _____ elements?

Can you tell me _____ weight of each _____ when _____?

How much weight should _____ each _____ for _____ returns _____ portfolios?

_____ are _____ assigned for environmental, _____ governance _____ calculating returns _____ sustainable _____?

How _____ environment, _____ governance been weighed when _____ returns for _____ sustainable?

How much consideration is given to _____ factors _____ calculating _____ sustainable _____?

_____ you account for _____ and governance in calculating returns _____?

_____ much _____ does _____ factor carry in _____ for the sustainability _____?

_____ do you consider environmental, _____ factors _____ portfolios?

Will _____ return _____ sustainable _____ assign specific _____ each factor?

Does computing _____ to _____ different weights _____ social, _____ governance factors?

How _____ are _____ social, governance _____ in calculating returns _____.

_____ you weight the environmental, _____ when calculating returns _____ green _____?

_____ sustainable portfolio _____ how significance _____ each factor?

When _____ for green _____ do you distribute _____ between the _____?

Can _____ tell _____ much _____ each _____ has while _____ sustainable portfolios?

How have _____ and the _____ in the calculation of _____ return _____?

When _____ sustainable _____ what are _____ social and governance _____?

What _____ taken by _____ social, governance _____ when calculating _____ sustainable _____?

The weightages _____ environmental, social, and governance _____ to _____ returns _____.

_____ have _____ as _____ environment and social responsibility been weighted in _____?

_____ different weightages of _____ social _____ determining returns _____ sustainable portfolios.

_____ returns _____ sustainable portfolios _____ weights _____ for _____ social, and governance?

What _____ of _____ factors _____ you _____ in _____ sustainable portfolio returns?

The _____ and _____ factors _____ weighted in _____ for sustainable _____.

What _____ you do _____ the _____ when calculating returns in a _____?

_____ are social, environmental and governance factors _____ to _____?

_____ is the _____ certain _____ estimating returns for _____ portfolios?

What _____ environmental, _____ and _____ factors _____ when _____ for sustainable _____?

_____ much _____ value governance factors in your _____?

_____ for environmental, social, _____ governance when _____ returns _____ portfolios?

How have _____ social and governance _____ to _____ returns _____ sustainable portfolio?

What's _____ breakdown of _____ social, _____ governance _____ in calculating returns _____ sustainable _____?

How is the _____ of environmental, social, _____ factored _____ returns _____ portfolios?

Determine ____ importance of environmental, social, ____ in ____ returns for ____

____ you ____ me how the ____ governance is used to determine returns ____ portfolios?

How ____ and ____ factors been weighted ____ selecting a ____?

____ much ____ does each factor ____ calculating returns for ____?

____ are ____ weighted when calculating ____ for sustainable ____?

When calculating ____ green ____ how do ____ the ____ environmental, ____ and governance?

____ are environmental, social ____ weighted ____ for portfolios?

How ____ you ____ the ____ and governance ____ calculating ____ for sustainable portfolios?

When computing ____ do there ____ weights ____ environmental, social, and ____?

Why ____ the weightage taken ____ environmental, social, ____ in calculating ____?

How ____ is given to ____ other ____ calculating returns for sustainable ____?

____ from investments focused on sustainable development, ____ assign significance to environmental, ____ governance ____?

How much importance is ____ when ____ returns for ____?

How ____ governance weighted ____ for sustainable portfolios?

____ the ____ taken ____ the ____ social, governance ____ for calculating ____ for sustainable ____?

____ are factors ____ weighted when ____ returns to sustainable ____?

How ____ Social Weighted when calculating ____ a sustainable ____?

How ____ significance ____ environmental, ____ and governance factors ____ from ____ focused on sustainable living?

Do you know the ____ of ____ assigned to ____ governance ____ calculating returns ____ sustainable ____?

How ____ the ____ social, and ____ in ____ returns ____ green investments?

____ returns for ____ how do you ____ between environmental, ____ and governance?

When ____ returns on ____ sustainable ____ what do ____ with ____ environment, social, ____?

____ is ____ importance ____ environmental, social and ____ in calculating ____ green ____?

____ are sustainable portfolios ____ consideration ____ given to environmental, social, ____ factors?

When ____ for sustainable ____ what factors ____?

____ environmental, ____ into account in calculating sustainable ____ returns?

____ to know ____ of weights ____ to environmental, social and ____ when ____ sustainable portfolios.

What ____ weighted ____ calculating sustainable ____ returns?

____ factors ____ weighted ____ returns for a ____ portfolio?

____ social and ____ factors included ____ return ____ sustainable portfolios?

What ____ environmental ____ factors weighted when ____ for ____ portfolios?

What's ____ breakdown ____ weights ____ governance factors when calculating ____ for sustainable ____?

How ____ sustainable portfolios ____ how much ____ given ____ environmental, ____ governance factors?

____ the ____ by the environmental, social, ____ in ____ sustainable portfolios?

How much ____ and ____ responsibility ____ weighted ____ returns for ____ that are ____?

____ for environmental, ____ and ____ factors in ____ portfolio returns.

The ____ social, ____ governance factors ____ weighted ____ determining ____ portfolios.

What ____ different ____ of environmental, social, ____ when determining sustainable ____?

When calculating returns ____ sustainable ____ weightage ____ to certain ____?

Is ____ difference of ____ for ____ and governance ____ when ____ returns ____ portfolios?

____ do ____ with the ____ aspects when calculating returns on a ____?

How ____ environmental, ____ and ____ for sustainable portfolios?

The weightage taken ____ the ____ social, governance factor ____ for ____ is ____.

____ much significance is given ____ factor in calculating ____?

How ____ is ____ society, or ____ measuring ____ of sustainable ____?

How have ____ environment and social ____ weighted during ____ calculation ____ return estimates ____ sustainable ____

When ____ portfolio returns, ____ does ____ weight differ from ____ governance ____?

____ are ____ and ____ in ____ calculation of returns for ____ portfolios?

Do _____ environmental, social, and governance factors _____?

What is _____ factor _____ the calculation of returns _____ portfolios?

How _____ is _____ factor _____ return calculation _____ sustainable portfolios?

_____ determining returns for _____ portfolios, _____ the _____ of _____ social, and _____?

_____ returns _____ portfolios _____ different _____ exist for environmental, social, _____ factors?

Do eco-friendly portfolio _____ individual _____ social, and _____ elements?

How _____ environmental, social and _____ been weighed _____ portfolios that _____ sustainable?

The _____ by environmental, _____ factors _____ returns _____ sustainable _____ is unknown.

_____ environmental, social _____ governance factors _____ the _____ when _____ sustainable portfolio _____?

_____ much _____ does each _____ carry in _____ the sustainable _____?

How have the _____ been _____ to _____ return _____ for _____ portfolios?

How _____ social _____ weighted _____ on returns for portfolios?

What is the breakdown of _____ given _____ environmental, _____ calculating returns for _____ portfolios?

What is the _____ the weight between _____ and _____ factors _____ portfolio _____?

_____ much is _____ the environmental, social, _____ in _____ for sustainable _____?

When _____ returns for _____ what weightage _____ to each _____.

_____ the weightage taken by _____ calculate returns _____ sustainable _____?

How much consideration _____ given to environmental, social, _____ returns _____ sustainable _____?

Is a _____ assigned to _____ return calculation _____ portfolios?

_____ calculating returns _____ how much weight _____ given _____ factors?

_____ governance factors that are weighted _____ calculating returns _____ portfolios.

_____ are _____ weighted when calculating _____ a sustainable portfolio?

_____ you _____ the weightage _____ each _____ calculating _____ on sustainable investments?

_____ environmental, social, and governance aspects _____ for sustainable _____?

_____ and governance _____ are weighted _____ calculating sustainable _____

What _____ average _____ environmental, social, governance factors _____ returns for sustainable _____?

_____ much weight is given to _____ in _____ portfolios' _____?

For sustainability portfolios' _____ calculations, how much _____ factor _____?

_____ calculating returns for _____ factors like environmental _____ weighted?

_____ much _____ environmental, social, and governance factors _____ returns?

How do you _____ and governance factors _____ portfolio?

How _____ the environment _____ responsibility been weighted _____ for _____ that _____ sustainable?

How have the environment _____ responsibility been weighted _____ portfolios _____ are _____?

How much weight _____ factor _____ returns for sustainable _____

_____ weights _____ environmental, _____ and governance _____ in _____ sustainable _____ returns.

How much consideration _____ to environmental, _____ and _____ factors _____ returns for _____?

What _____ weights for environmental, _____ when calculating _____ for _____ portfolios?

_____ the _____ social, _____ factors taken _____ when _____ returns _____ sustainable portfolios?

How _____ environmental, _____ governance _____ to _____ returns on sustainable _____?

What _____ social, _____ governance factors are included _____ portfolios?

How _____ social, governance _____ the returns for green investments?

_____ weightage is given to _____ factors in calculating _____?

Can _____ how much _____ factor _____ your sustainable portfolios?

_____ and social _____ when calculating _____ to _____ portfolios?

_____ is _____ to each _____ for sustainable portfolios?

What's _____ breakdown _____ the _____ assigned to _____ social, and _____ when calculating _____ portfolios?

How _____ social and _____ when calculating _____ a _____ portfolio?

How much _____ is given _____ each of _____ for sustainable _____?

_____ is _____ the social, governance and environmental _____ when _____ for _____ portfolios?

_____ environmental and social _____ been _____ calculating _____ for portfolios that _____?

_____ returns _____ how _____ consideration _____ given _____ environmental, social, and governance factors?

When calculating returns _____ how _____ weights are assigned _____ and governance _____?

How _____ weight does _____ carry _____ portfolios' return _____?

_____ the _____ social _____ been _____ when _____ decisions on returns _____ portfolios _____ are sustainable?

_____ are _____ social, and governance factors _____ the _____ calculations _____ sustainable _____?

What _____ the _____ social, governance factors _____ calculating sustainable _____ returns.

How _____ responsibility and _____ been _____ in _____ of return estimates _____ portfolios?

_____ has _____ social and _____ been _____ when making decisions _____ for portfolios that _____?

_____ it _____ clarify the significance _____ on each factor _____ computing returns _____?

_____ weights assigned to environmental, social, _____ governance _____ in _____ calculation of returns _____?

Is the _____ assigned to _____ return calculation _____ sustainable _____?

_____ green _____ how do _____ account for environmental, _____ and _____ aspects?

How are _____ and governance _____ used _____ calculating _____ sustainable _____?

How _____ environmental and _____ when calculating returns _____ portfolio?

When calculating sustainable portfolio _____ weighted?

_____ calculating _____ for _____ portfolios, _____ is _____ weightage _____ to _____ factors?

_____ environmental, _____ factors weighted in calculating returns for _____?

_____ the weightage _____ by _____ social factors in _____ sustainable _____?

_____ returns for _____ how do you _____ environmental, _____ and _____ factors?

_____ returns for _____ portfolios, what _____ the _____?

When _____ returns _____ green _____ how _____ distribute weight between environmental, social, _____?

How do you _____ how _____ and _____ factors _____ when calculating returns _____?

How do _____ assign _____ environmental, _____ and _____ calculating profits from _____ unsustainability?

_____ do you _____ environmental, social, _____ governance _____ calculating returns for _____ investments?

How _____ you _____ and governance factors for _____?

How have _____ and governance been _____ choosing _____ portfolios _____ are sustainable?

_____ are _____ weights _____ social, and governance _____ calculating _____ for sustainable portfolios

How _____ social weights calculated when calculating returns _____?

_____ are the _____ and governance _____ weighted in sustainable _____ returns?

_____ computing returns to _____ portfolios, _____ weights exist _____ environmental, _____ and _____?

_____ question regarding the _____ given to certain _____ when _____ for _____.

_____ do you _____ with regard to _____ social _____ governance factors?

_____ returns _____ sustainable portfolios _____ are environmental _____ factors weighted?

When _____ returns for _____ portfolios, _____ the _____ assigned to _____ social, and _____?

Can _____ me how _____ environmental, _____ and _____ is considered in _____ returns for _____ portfolios?

_____ weightage taken _____ environmental, social, governance factors _____ portfolio _____.

What _____ the _____ of _____ assigned _____ and governance factors _____ for sustainable portfolios?

What _____ exist for _____ governance factors _____ returns on sustainable _____?

_____ you determine _____ value of environmental, _____ calculating returns _____ sustainable portfolios?

What _____ you _____ factor _____ returns for sustainable portfolios?

_____ by the _____ social, _____ factor when calculating _____ for sustainable _____?

How _____ taken _____ environmental, _____ governance _____ returns for sustainable portfolios?

_____ you _____ how the impact of environmental, social, _____ is _____ account in _____ sustainable _____?

_____ returns to sustainable _____ are _____ weights for _____ social, _____ factors?

_____ calculating return for _____ specific weightage assigned _____ each _____?

_____ environmental, social, _____ included in sustainable _____ return _____?

Do _____ social, governance aspects have _____ share of _____?

_____ is the weightage given _____ certain _____ returns for sustainable _____?

What's _____ weightage _____ each factor in _____ portfolios?

_____ you _____ social, _____ governance _____ are taken _____ in _____ returns for sustainable portfolios?

How are ____ for sustainable portfolios calculated ____ consideration ____ and ____ factors?

How ____ returns ____ portfolios ____ on ____ social, and ____ factors?

What do you do ____ environmental, social, and governance ____ sustainable ____?

____ have factors ____ environment, ____ and governance ____ deciding ____ returns ____ portfolios?

What ____ and ____ factors are weighted ____ returns?

____ when calculating ____ for sustainable ____ weighted?

How ____ like the ____ social and ____ when ____ returns for portfolios ____ are ____?

____ you determine ____ environmental, ____ governance factors ____ calculating returns for ____ portfolios?

How ____ social weighted when determining ____ portfolio ____?

____ are the environmental, social, ____ factors ____ for ____ investments?

When calculating ____ sustainable portfolios, ____ should each ____?

____ environmental, social, ____ governance factors weighted ____ calculations?

How ____ factor carry in ____ calculations ____ a sustainable ____?

Can you tell ____ environmental, social, and ____ in determining returns ____ sustainable portfolios?

____ weightage is given ____ each ____ the ____ calculating returns for ____?

When ____ on ____ sustainable ____ how have ____ social ____ been weighted?

What ____ the factors that have ____ weighted during ____ that ____?

Can you tell ____ significance ____ governance in computing returns ____?

How have ____ such as the ____ weighted ____ the ____ of sustainable ____?

What ____ with the environmental, ____ governance aspects ____ a sustainable ____ return?

When ____ returns, what significance ____ associated ____ each ____?

How ____ the ____ and ____ factors ____ sustainable portfolio returns?

____ much ____ you assign to each factor to ____ on ____?

____ are returns calculated ____ sustainable portfolios ____ how ____ consideration ____ given ____ environment, ____ and ____ factors?

____ with the ____ social and ____ calculating return ____ a sustainable portfolio?

How ____ you determine ____ of environmental, ____ and ____ calculating returns ____ portfolios?

____ environmental, social, ____ governance factors that ____ for sustainable portfolios?
