

[Demo] NLP Dataset for Customer Service Automation

Company Type	Internet Service Providers
Inquiry Category	Internet connection troubleshooting
Inquiry Sub-Category	Intermittent Connectivity
Description	Customers experience regular disruptions or dropouts in their internet connection, which may be due to signal interference, faulty equipment, or issues with the ISP's network infrastructure.
Data Size	5,103 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Internet Service Provider" customer inquiry. (Purchased data will not be masked.)

____ there peak hours when these ____ overall reliability?
 ____ hours ____ frequently ____ disruptions impact ____?
 Do disruptions ____ times?
 ____ often do ____ affect ____ reliability during peak ____?
 Isn't reliability ____ hours?
 ____ more disruptions happen ____ busy ____?
 Is it ____ that ____ number ____ disruptions ____ peak ____ higher?
 ____ it ____ that ____ disruptive incidents will be ____ busy ____?
 ____ reliability on ____ broader ____ impacted ____ the disruptions ____ peak ____?
 Is it possible ____ more ____ are observed at ____?
 Is ____ of the system more ____ to ____ by ____?
 The ____ impact ____ peak ____.
 The dependability ____ system could ____ the disturbances happen in ____.
 ____ they happen ____ peak hours the reliability ____ be ____.
 Is it ____ that ____ experience ____ frequent incidents ____?
 ____ this ____ at ____ times?
 ____ peak ____ how ____ do ____ impact reliability?
 Does peak ____ overall reliability?
 ____ harmed during ____ hours ____ disruption ____?
 Are ____ times when these ____ have ____ reliability?
 Does ____ suffer during ____ peak ____?
 ____ of disruptions ____ during peak ____?
 ____ peak hours result ____ increased ____?
 ____ this ____ dependability during ____ hours?
 ____ there more ____ the peak ____?
 Do disruptions ____ frequently during ____?
 ____ often do ____ during peak ____?
 ____ busiest periods,Disruptions ____?

____ there ____ specific ____ disruptions are more ____ and affect ____?
 Is ____ bothering ____ peak ____?
 ____ reliability affected ____ occurrences ____ disruption during peak ____?
 ____ during ____ hours may affect ____.
 ____ there a certain time where interruptions ____ reliability?
 Will these ____ more ____ periods?
 ____ reliability suffer ____ there are more disruptions ____?
 Is peak ____ reliability?
 Is ____ possible ____ disruptions happen ____ in peak ____?
 ____ it true that ____ windows ____ overall dependability?
 Does ____ often ____ time ____ that affect ____?
 Does overall ____ during ____?
 ____ disruptions ____ during ____ busiest ____?
 What ____ do ____ hours have ____?
 During high-demand ____ frequent incidents ____?
 ____ they ____ at ____ the reliability can be impacted.
 Is there a ____ time ____ impact ____ most?
 ____ disruptions happen ____ peak hours?
 Are disruptions ____ peak ____?
 ____ reliability worse during peak ____ more ____?
 ____ peak hours are the ____ more ____ hamper the ____ of ____?
 Does ____ happen ____ in ____?
 Are there ____ hours ____ mess ____ service?
 ____ busy ____ there ____ disruptions?
 ____ the ____ suffer ____ peak ____ periods?
 During ____ periods ____ disruptions ____ frequently?
 ____ overall reliability ____ by ____ of disruption?
 ____ peak ____ disruptions affecting ____?
 Is ____ a ____ interruptions are ____ and affect reliability.
 Are we ____ with more disruptions during ____?
 ____ a higher rate ____ with ____ hours?
 ____ it possible that ____ disruptions happen more ____?
 Does ____ reliability ____ affected ____ there ____ disruptions?
 Is the ____ disruptions being more ____ certain hours?
 Does ____ decrease ____ disruption ____?
 What can you ____ about peak hours ____ disruptions ____ reliability?
 ____ hours ____ more disruptions ____ reliability?
 Do peak ____ lead to an ____ in ____?
 ____ reliability ____ the ____ happening ____ often during ____ hours?
 Does ____ reliability ____ hours?
 The reliability ____ affected if ____ during peak ____.
 Is ____ of ____ during ____ hours?
 Does ____ hours due to disrupted services?
 ____ times when reliability is ____ these ____?
 ____ periods when these ____ occur more ____ are ____ impacts ____?
 ____ worse during peak ____?
 ____ possible ____ number ____ disruptive ____ increase at busy times?
 Is ____ more ____ peak ____?
 ____ there more frequent ____ reliability during ____ periods?
 Is ____ disruptions during peak ____?

What _____ disruptions and _____ impact on _____ reliability?
 Is it _____ that _____ incidents _____ observed at _____ times.
 _____ there _____ times _____ impact reliability?
 _____ more _____ busy periods that will affect reliable _____?
 _____ you _____ when _____ disruptions _____ reliability the most?
 _____ there any _____ regarding _____ hours _____ disruptions _____ impact _____ reliability?
 Is it possible _____ incidents _____ concentrated _____ times?
 Is _____ by _____ disruptions occurring during _____ hours?
 Is _____ number of disruptions _____?
 Is _____ more likely _____ by _____ during peak hours?
 _____ there a specific time _____ disruptions _____ reliability _____?
 Increased disruptions may _____ overall _____ during _____ hours.
 Is the _____ affected _____ certain _____ disruptions?
 Does _____ affect _____ hours.
 _____ overall _____ during _____ disruption hours?
 Does overall reliability _____ during _____ due _____ increased _____?
 _____ to be _____ with _____ disruptions _____ busy hours?
 _____ periods are disruptions _____?
 At peak _____ guaranteed _____ alterations _____ lot?
 Does reliability get _____ the _____?
 _____ periods when _____ disruptions occur _____ affecting reliability?
 Will the _____ incidents be _____ by _____ periods?
 Reliability _____ if _____ happen more during peak _____.
 Does _____ the reliability _____ larger scale _____ peak _____?
 _____ dependability _____ a _____ during peak _____?
 _____ hours _____ more problems?
 _____ there be _____ disruptive _____ at busy _____ that will _____?
 _____ experience _____ frequent _____ affect dependability during _____ periods?
 _____ overall dependability _____ in _____ disruption _____?
 Is it _____ disruptive incidents _____ be more _____ certain _____?
 _____ it _____ dependability during _____?
 _____ disruptions _____ frequently _____ the _____ hours?
 _____ can result _____ an _____ in _____ impacting reliability.
 _____ peak hours, _____ disruptions affect _____?
 Is the _____ affected _____ more frequently during _____ hours?
 Do _____ occurrence affect reliability?
 Is there a _____ time _____ where _____ are more _____?
 Does _____ fall _____ peak _____?
 During _____ we experience _____ frequent _____?
 _____ peak hours of disruption _____?
 Has _____ during peak _____?
 _____ frequently do _____ disruptions affect _____ during _____?
 Will _____ of disruptive incidents _____ busy times?
 _____ affected by _____ at _____ hours?
 _____ it _____ that _____ occur _____ peak hours?
 Is _____ peak hours _____ disruptions and their impact on _____?
 Is _____ more _____ at _____?
 _____ peak _____ the _____ of _____ go up?
 _____ reliability _____ during _____ peak hours?
 During busy periods, _____ happen _____?

Is _____ a specific _____ are _____ common and affect _____?
 _____ the dependability of _____ system _____ by the _____ in _____?

Are there _____ time frame for disruptions _____ the _____?

Is there _____ specific time _____ more common and _____?

_____ busy _____ disruptions occur more _____?

Is it _____ hours _____ more _____?

Is _____ that _____ disruptions happen more _____ busy _____?

_____ hours _____ disruptions, _____ reliability?

During peak hours, _____?

Reliability _____ be _____ by _____ more _____ peak hours.

_____ hours _____ disruptions happen more _____?

_____ peak hours do _____ more?

_____ disruptions _____ frequent in _____ hours?

Does _____ get _____ by _____ specific times?

Will _____ incidents _____ busy times?

Is the reliability _____ happening at _____ hours?

_____ time _____ these disruptions occur more and impact _____?

_____ peak _____ causing _____ problems?

_____ overall _____ during peak _____?

How _____ do these disruptions _____ during peak _____?

Is it possible _____ during peak _____?

Is overall _____ by _____ during peak _____?

Do disruptions happen _____ times?

peak _____ disrupt _____.

Peak _____ of _____?

If they _____ frequently at _____ hours, _____ have _____ impact _____ reliability.

_____ it possible that _____ of disruptive _____ increased at certain _____?

During the busiest _____?

_____ number _____ higher _____ peak hours?

_____ of _____ be greater at certain busy _____?

_____ that disruptions _____ more often during _____ hours?

Is it _____ that _____ hours increase the _____?

_____ times when reliability _____ affected by _____ disruptions?

_____ dependability affected during _____?

_____ specific _____ these annoyances _____ up service?

Is _____ by peak _____ of _____ occurrence?

Are peak _____ with a higher _____?

There _____ disruptions during _____ hours.

_____ dependability _____ hit _____ peak hours?

Does overall _____ peak hours _____?

_____ during peak hours _____ reliability?

_____ during peak hours affecting _____?

_____ there _____ of disruptions _____ peak hours affecting _____?

_____ want _____ disruptions occur more during peak _____.

_____ they _____ at peak hours it _____ reliability.

_____ that disruptions are more _____ during _____ hours?

Is _____ a specific _____ when _____ to affect reliability?

Is _____ true _____ more _____ peak hours?

_____ be more disruptive incidents _____ at _____?

_____ reliability _____ of disruptions during _____ hours?

Do these _____ happen _____ time windows _____ dependability?
 During peak _____ this affect _____?
 _____ peak hours _____ increase _____ disruptions affecting reliability?
 Are there _____ at busy _____?
 _____ result in an increase in _____ reliability?
 _____ by _____ peak hour periods?
 _____ can more _____ happen?
 What if _____ peak hours?
 _____ overall is _____ if these disruptions _____ during certain _____.
 _____ reliability get worse _____ the _____?
 _____ you tell me _____ of peak _____ on _____?
 _____ the reliability on _____ impacted _____ disruptions during _____ hours?
 _____ these _____ frequent at _____ times?
 Is the _____ prone to be _____ peak _____?
 _____ more frequent at _____?
 _____ hours, is _____ affecting _____?
 Is _____ true that disruptions _____ during _____?
 Are _____ disruptions _____ reliability the most?
 _____ peak _____ affect dependability?
 _____ number of _____ higher _____ peak _____?
 Is there _____ effect _____ during _____?
 Are there _____ at _____ peak _____?
 Overall _____ during _____ might be affected _____.
 Are _____ periods _____ these _____ and affecting reliability?
 Is _____ an increase _____ the frequency _____ peak _____?
 _____ there _____ when _____ disruptions impact _____?
 _____ dependability of the system _____ if the disturbances _____ during _____?
 Are disruptions more _____ to _____ your reliability _____?
 Does overall dependability _____ disruption _____?
 Do _____ more frequently at _____?
 _____ frequencies _____ at certain hours may affect _____.
 _____ these disruptions _____ during _____ periods?
 Overall _____ be affected during _____.
 _____ it possible that disruptive _____ be _____ at busy _____?
 _____ the reliability _____ a larger scale affected _____ hours?
 Have peak _____ in an _____ disruptions _____ reliability?
 Does _____ suffer during _____ peak _____?
 _____ affecting reliability during _____?
 Is _____ a _____ when an interruption _____ more _____ affects _____?
 _____ dependability _____ during peak _____ hours?
 Is higher rate _____ hours?
 _____ due to _____ hour disruptions?
 Is _____ these disruptions impact reliability the _____?
 Is there a _____ for _____ affects _____ reliability quotient?
 _____ more likely _____ times to affect your _____?
 Do the _____ peak hours affect overall _____?
 _____ disruptions _____ more frequently _____ periods?
 Are _____ overall reliability?
 _____ frequent _____ reliability _____ high _____ periods?
 _____ more, are _____ busy times?

Does _____ during disruption _____?

Is this having _____ effect on _____?

Is _____ more _____ incidents that _____ during high-demand _____?

_____ worse _____ the _____ hours?

If they happen _____ at _____ can be _____.

_____ the _____ suffered during peak _____?

_____ may be _____ disruptions happening _____ during peak _____.

_____ more during peak hours?

_____ be _____ more frequently during peak hours.

_____ take _____ when there is peak _____?

Do peak hours _____ an increase _____ number _____?

If they happen _____ frequently _____ peak _____ could _____.

_____ there _____ when _____ occur more frequently and _____ they affecting _____?

_____ be _____ greater number _____ incidents at busy _____?

Is _____ an _____ during peak _____?

_____ disruptions occur _____ in _____ peak _____?

During _____ hours _____ occur _____?

_____ service alterations _____ mostly during _____?

_____ disruptions _____ more _____ peak _____?

_____ peak _____ associated with _____ higher rate _____ disruption _____?

_____ a hit during _____ hours.

_____ suffer _____ certain periods?

Does _____ in peak hours?

Does _____ impact _____ peak _____?

_____ we experience more frequent _____?

Is _____ a _____ they _____ reliability the most?

The _____ disruptions during _____ hours.

_____ hours disrupting _____?

_____ there _____ specific _____ when _____ disruptions _____ reliability the _____?

Will the _____ of _____ more frequent _____ busy _____?

_____ hours when these _____ more _____ impacting reliability?

_____ see more _____ incidents _____ affect reliability during _____ periods?

_____ more _____ are there _____ times _____ they impact reliability?

_____ occur _____ often at peak _____?

Does _____ increase _____ at certain _____ overall reliability?

The dependability _____ the system _____ hampered by _____ frequent _____ during _____.

_____ do overall dependability _____ a _____?

_____ busy times _____ happen?

_____ overall dependability _____ hit when _____ disruption hours _____?

reliability gets worse _____ hours _____

_____ overall reliability suffer _____ peak hours _____ to _____?

During peak hours _____?

Do _____ experience more _____ problems _____ demand times?

Is _____ true _____ peak _____ increase in disruptions?

_____ hours, does overall reliability _____?

_____ think service _____ at _____ times?

_____ reliability affected if disruptions _____ more _____?

_____ disruptions affecting _____ during _____ periods?

Do disruptions _____ at _____?

Is _____ higher number _____ during peak _____?

_____ increase _____ peak _____?

Is disruption _____ during _____?

_____ hours cause an increase _____ the frequencies _____?

Is _____ system more likely _____ in _____?

_____ reliability _____ a larger scale _____ by peak _____ disruptions happen _____?

Do peak _____ the _____ broader scale?

Does _____ happen _____ busy times?

Does overall _____ get _____ by _____?

_____ it affect overall _____ during _____?

At _____ hours, _____ there _____?

_____ it _____ dependability _____ hours?

Does this _____ the _____ during _____?

_____ overall reliability suffer _____ times due _____ increased _____?

Is _____ affected _____ peak disruption _____?

_____ more _____ during high-demand times?

Is _____ during peak _____ hours?

_____ it _____ that _____ incidents will _____ at certain busy _____?

_____ during peak times?

_____ busiest _____ disruptions increase?

Does disruption _____ at _____?

Do _____ happen often in _____ windows that _____?

_____ this _____ during _____ hours?

Is it _____ that _____ are more _____ affect _____?

_____ times _____ service disruptions more _____?

_____ it _____ these disruptions _____ more often during the _____?

Do _____ more frequent _____ that affect _____ during _____ demand _____?

_____ peak _____ do _____ service _____ more often?

Does disruption occur _____ frequently _____?

When _____ issues _____ things less _____?

How _____ do _____ disruptions impact _____ peak _____?

What _____ have _____ higher rate of _____?

If they _____ frequently during peak _____ it _____.

Does _____ worse during _____ peak _____.

_____ disruptive incidents _____ observed _____ busy _____?

_____ may _____ affected if _____ more during peak _____.

When are _____ more _____ peak _____?

Is the overall reliability affected _____ the _____?

_____ the _____ reliability suffer _____ times?

_____ happen more _____ peak _____?

_____ it possible that _____ suffers _____?

_____ worse _____ peak hours because of _____?

_____ there a specific _____ when _____ are _____ and affect _____?

_____ peak hours, is _____ affecting _____?

_____ it possible that the _____ is _____ breakdown _____ hours.

_____ there specific _____ when these _____ problems mess _____?

peak hours _____?

Does overall _____ a hit _____ hours?

Is it possible _____ frequent disruptions occur _____?

Did you know _____ peak hours for _____ impact _____?

_____ overall reliability _____ peak hour _____ to disruption?

_____ peak _____ when _____ more _____ impacting the reliability?

_____ more _____ reliability during _____ hours?

_____ it affect reliability if _____ are _____ certain _____?

_____ disruption occur _____ often at _____?

Is this _____ peak hours?

_____ possible _____ number _____ is _____ during peak hours?

Is there a _____ when these _____ the _____?

Is _____ disruptions can impact _____?

Does _____ occur _____ hours?

_____ during _____ hours?

_____ peak _____ of disruption _____ reliability?

Are _____ specific _____ when _____ significant impact on reliability?

_____ disruptions _____ more frequently at _____ hours it can _____.

Is _____ true _____ certain time _____ affect _____ dependability?

_____ hours do disruptions _____ more _____?

_____ system more _____ to _____ in peak _____?

This _____ be _____ overall dependability _____.

Does _____ peak hours _____ occurrence?

_____ if disruptions occur _____ frequently during _____ hours.

Is it affecting _____ in _____?

_____ there certain hours _____ notice a lot _____?

_____ hours _____ disruptions _____ affect reliability.

_____ the _____ affected by these _____ hours?

_____ more _____ at peak hours?

Do _____ problems happen _____ in time _____ affect _____?

Do disruptions _____ more _____?

_____ disrupting _____ frequently during peak _____?

_____ there more _____ busy times?

Do _____ happen frequently _____ that affect _____?

If they are more _____ affect reliability.

_____ dependability _____ peak hours.

_____ happen _____ in peak _____?

Increased occurrences of disruption _____ peak hours.

_____ we experience _____ frequent _____ hamper reliability during _____?

_____ happen _____ peak hours.

Will _____ number _____ incidents be _____ during busy _____?

_____ during high hours?

Is _____ reliability _____ number _____ disruptions higher during _____ hours?

_____ it possible that peak _____ are _____ occur _____ frequently?

_____ the _____ incidents increase at busy _____?

_____ on a _____ scale affected by peak _____ where _____ more _____?

Has overall dependability taken _____ during _____?

Do _____ occur more _____ the _____?

_____ disruptions occur more _____ hours?

During peak _____ more likely _____ reliability?

Is _____ possible _____ peak hours _____ affect the _____ broader _____?

_____ are more _____ hours it can impact _____.

Is it possible _____ reliability?

Is _____ particular _____ disruptions impact _____ the most?

Is _____ possible _____ disruptive _____ be observed at busy _____?

____ it ____ worse ____ more interruptions ____ peak ____?
 Do ____ peak ____ occur ____ often?
 Do these ____ during peak ____?
 ____ overall ____ disruptions happening during ____ hours?
 ____ it ____ incidence of ____ will go ____ certain busy periods?
 ____ peak ____ affect ____ reliability?
 ____ more at the ____ hours?
 ____ affecting overall ____ peak times?
 If ____ frequently ____ peak times, ____ can ____ reliability.
 ____ occur more ____ during ____ hours?
 Does ____ overall ____ suffer ____ hours?
 Are busy ____ when ____ disruptions ____?
 Is ____ specific time ____ are more common ____ affect ____?
 ____ when the disruptions affect ____?
 Is ____ specific time when interruptions ____ frequently ____ reliability?
 ____ times when ____ these disruptions?
 During ____ hours ____ disruptions ____?
 ____ there certain ____ more ____ to affect reliability?
 ____ peak hours, ____ disruptions impacting ____?
 Is ____ a ____ more disruptions?
 Does ____ get worse ____ times?
 Are there more frequent ____ that ____ certain ____?
 Reliability ____ be affected if ____ often during ____.
 ____ happen ____ peak moments?
 ____ there ____ incidence of ____ incidents ____ certain busy periods?
 Does ____ suffer ____ hours ____?
 ____ during the busiest ____?
 ____ the ____ on overall ____ caused ____ disruptions ____ more frequently?
 ____ peak ____ with ____ higher ____ of problems?
 Is ____ reliability ____ peak ____ when these ____ happen ____ often?
 Do disruptions ____ frequently ____ peak ____?
 Does this impact ____ when ____ are ____?
 ____ overall reliability suffer during peak ____ to ____?
 Is ____ during peak hours ____?
 Are there times when ____ affect ____?
 ____ busy ____ service disruptions happen more ____ make it ____?
 ____ specific ____ when these disruptions ____ reliability ____ most?
 ____ this ____ dependability during ____ peak ____?
 Does ____ disruptions during ____ reliability?
 ____ may ____ during peak hours.
 Do ____ see ____ disruptions ____ times?
 If ____ happen more frequently ____ peak ____ impact ____.
 ____ that more disruptive ____ during certain busy periods?
 ____ this bad for ____ hours?
 ____ it possible ____ number of disruptive incidents will ____ at ____?
 ____ adversely affected during ____ hours ____ disruption ____?
 ____ the increase ____ at ____ hours ____ overall reliability?
 ____ is wondered ____ happen ____ peak hours.
 ____ reliability on a ____ scale ____ the disruptions at ____?
 Do ____ disruptions impact ____ peak ____?

Is _____ affected by _____ disruption _____?

_____ these _____ happen _____ frequently _____ times?

_____ of _____ increased _____ peak hours?

_____ hours result in _____ disruptions _____ reliability

Are there _____ when _____ frequently and _____ reliability?

Is _____ affected _____ peak hours?

_____ get worse _____ peak _____?

Does _____ disruption hours?

Does _____ happen _____ in _____ windows _____ affect dependability?

_____ hampered by _____ frequent _____ during high-demand _____?

_____ get _____ peak periods?

_____ hours associated _____ increased _____ of disruption?

_____ during peak hours?

_____ that more _____ be observed at some _____ periods?

_____ does _____ suffer _____ of disruptions?

Is _____ possible _____ disruptions happen _____ peak _____.

_____ the _____ frequently _____ peak _____ it will affect reliability.

_____ there _____ disruptions occur more frequently, and _____ their _____ reliability?

_____ dependability of the system at _____ is disrupted _____ peak _____?

There _____ times _____ service _____ make it less reliable.

_____ overall _____ by peak disruption _____?

If _____ frequently _____ peak hours, _____ can _____ affected.

Does _____ more _____ at peak _____?

_____ a time _____ disruptions _____ more _____ impacts reliability?

Does the _____ during _____ hours?

Is reliability _____ by peak _____?

_____ reliability suffer during peak _____ periods _____ increased _____?

_____ of _____ hours can impact reliability.

_____ there be more _____ incidents at _____ that will _____?

Are _____ hours when disruptions _____ more _____?

Are the _____ disruptions _____ during _____?

_____ be _____ by disruptions _____ peak _____.

Do peak _____?

_____ the frequent _____ peak hours affect overall _____?

Are _____ disturbances _____ to _____ peak hours?

_____ the disruptions _____ in _____ hours?

Is _____ affecting _____ dependability _____ peak _____?

During peak _____ disruption occurrence do _____?

Do _____ increase _____ hours?

Is this _____ total _____ during _____?

Peak _____ affect _____?

_____ more frequently _____ peak hours they _____ reliability.

_____ hours impact overall _____?

_____ disruptions at certain _____ affect _____?

Has _____ a hit during _____?

_____ it conceivable _____ disruptive _____ will be _____ at certain _____?

_____ hours have _____ impact _____ reliability?

_____ reliability _____ worse _____ peak _____?

What _____ do _____ have on _____ peak hours?

_____ possible _____ there _____ be _____ incidents observed _____ busy periods?

Does disruptions _____ peak _____ reliability?

_____ disruptions _____ during _____ periods?

Is it _____ that _____ hours?

Will more _____ busy _____?

Is _____ overall _____ peak hours?

Do _____ disruptions _____ busy times?

Is _____ a _____ period _____ more common and _____ reliability?

_____ occur more _____ peak _____ that can _____ reliability.

_____ more disruptions occur _____ at _____?

Has overall _____ affected by _____ during peak _____?

Is dependability _____ peak _____?

_____ under peak disruption hours?

_____ see lots _____ problems in _____?

_____ about peak _____ for _____ on reliability?

Do these _____ more _____ during _____ to compromise _____?

Does _____ hit during peak _____?

Do _____ at peak moments?

_____ these disruptions _____ frequently and _____ their impacts on reliability?

_____ there _____ more disruptive _____ at _____?

_____ reliability _____ disruptions at particular hours?

Are peak _____ connected _____ an increase in _____?

Does _____ suffer _____ hours?

Do peak _____?

_____ happen more _____ hours?

_____ there _____ frequent incidents _____ high-demand periods _____ hamper _____?

_____ overall _____ during peak _____ due to disruption?

Is _____ possible _____ disruptions occur more during _____?

_____ more _____ during peak hours?

_____ peak _____ affect _____ dependability?

_____ peak _____ the _____ of disruptions _____?

_____ disruptions happen _____ peak hours?

_____ it affect overall _____ times?

_____ there specific _____ when the disruptions _____?

_____ disruptions _____ reliability _____ hours?

Is peak _____ interfering _____?

Is _____ likely _____ hours?

_____ possible that disruptions _____ more _____ during peak _____?

Are _____ affecting the reliability on _____ scale _____ hours?

_____ there _____ specific time _____ these disruptions _____ dependability _____?

_____ likely that _____ will _____ observed _____ certain busy periods?

_____ disruptions _____ more _____ peak _____?

_____ can _____ reliability

_____ peak hours _____ reliability _____?

At _____ hours, _____ disruptions can have an _____.

_____ that the _____ of _____ disruptions?

_____ it affecting overall _____ when _____ more _____?

Are _____ specific _____ when these _____ can affect _____?

_____ a _____ scale _____ by peak hours where disruptions happen _____?

Is _____ when these disruptions _____ reliability _____?

_____ these _____ happen frequently in time _____ dependability?

____ peak ____ a negative ____ reliability?
 Is ____ dependability ____ the ____ in question if ____ disturbances ____ in ____ ?
 Things ____ become ____ when the issues ____ .
 Does this impact overall ____ ?
 ____ overall dependability ____ during ____ disruption ____ ?
 ____ there be peak ____ disruptions?
 ____ the number ____ higher ____ peak ____ ?
 How ____ these ____ impact ____ peak hours?
 Peak ____ may affect ____ more.
 ____ hours ____ dependability?
 Is ____ when these disruptions ____ impacting ____ a larger ____ ?
 Does ____ dependability ____ disrupted ____ ?
 Does reliability ____ frequent ____ hours?
 ____ there ____ these ____ impact reliability most?
 ____ of disruptions higher ____ peak ____ ?
 Does overall reliability suffer ____ hours ____ disruption?
 Is ____ a more ____ disruptions at ____ hours?
 During peak ____ can disruptions ____ ?
 There ____ disruptions occur ____ and ____ their impacts on ____ ?
 ____ a ____ when these ____ impact reliability ____ most?
 At peak ____ do guaranteed ____ happen ____ ?
 Is disruption ____ peak ____ ?
 Is ____ more during ____ hours ____ ?
 ____ these ____ occur frequently in certain ____ dependability?
 ____ worse during certain ____ ?
 Does overall ____ suffer ____ periods due ____ disruptions?
 The reliability ____ be affected if ____ more ____ hours.
 What ____ the times ____ these ____ ?
 Increased ____ of ____ overall ____ suffer during ____ hour periods.
 Is ____ prevalent during ____ ?
 Is this ____ during ____ hours?
 Do we ____ more ____ that ____ ?
 ____ a ____ disruptions ____ more likely to affect reliability?
 Are ____ more likely ____ hours?
 Is the ____ of the ____ at risk when ____ disturbances ____ ?
 ____ reliability get worse ____ peak ____ ?
 Is there ____ frequent ____ that hamper reliability ____ .
 If ____ occur more ____ at peak ____ affect reliability.
 ____ affected by disruptions ____ peak ____ ?
 Are these ____ peak hours?
 ____ disruptions are more ____ hours, ____ can affect ____ .
 Does the ____ the peak ____ ?
 Does overall ____ disruption hours?
 ____ disruptions occurring during ____ hours?
 Does overall ____ suffer during peak ____ due ____ ?
 ____ reliability ____ hours of ____ occurrence.
 ____ affected by peak hours ____ occurrence?
 ____ the disruptions more ____ peak ____ ?
 Is ____ affecting overall ____ peak ____ ?
 ____ more frequent ____ peak ____ ?

This _____ dependability _____ hours.
 Is _____ true that _____ often during _____ periods?
 _____ high-demand periods may have _____ frequent _____ reliability.
 _____ reliability suffer _____ during peak hours?
 Are there _____ disruptions occur _____ and _____ the impacts _____ reliability?
 Is _____ reliability affected by _____ peak _____?
 _____ more frequent incidents that _____ reliability _____ periods?
 When service _____ happen more, are there _____ less _____?
 Is disruptions _____ in _____?
 Is _____ on a larger scale _____ at _____ hours?
 It _____ happen more during peak _____.
 The _____ of _____ be at risk if _____ disturbances _____ hours.
 _____ there _____ is _____ by disruptions?
 _____ affected by the _____ happening more frequently at _____?
 Will _____ during peak _____?
 _____ service _____ during _____ times?
 Does _____ suffer _____ disruptions?
 _____ dependability take _____ at peak _____ hours?
 _____ service _____ during _____ times?
 _____ affected by disruptions _____ peak hours?
 Are _____ numbers _____ disruptions _____ peak _____?
 Is _____ that _____ often and impact reliability?
 Is reliability worse _____ if _____ are more _____?
 _____ disruptions during peak _____ affect _____.
 Has _____ been _____ by the frequent _____ peak _____?
 Is _____ time where interruptions are more _____ reliability?
 Is _____ can tell _____ about _____ hours _____ their impact on reliability?
 _____ there times _____ service disruptions happen _____ and make _____?
 _____ we going _____ with more problems _____ the busy _____?
 _____ reliability _____ worse under _____?
 _____ to be dealing _____ more _____ during the busy _____?
 _____ reliability worse _____ hours _____ disruptions?
 _____ hours _____ reliability
 _____ frequent _____ affect reliability during high demand _____?
 Reliable _____ may _____ disrupted _____ times.
 Is peak _____?
 _____ there _____ incidents _____ during certain high-demand periods?
 _____ the dependability _____ the system _____ when _____ disturbances _____ during peak _____?
 _____ increase _____ the _____ periods?
 _____ a _____ time for more _____?
 Is _____ possible _____ observed at busy periods?
 Is there _____ disruptions _____ affects overall reliability quotient?
 _____ disrupting _____ hours affect _____?
 Does overall _____ take a _____ disruptions?
 _____ more _____ at peak _____?
 Is _____ reliability _____ a broader scale _____ these disruptions _____ often during _____?
 _____ hours, _____ disruptions increase?
 _____ reliability affected _____ during _____ times?
 Is _____ reliability on a _____ during peak hours?
 Is peak _____ an _____ rate _____ disruption?

_____ want to know if _____ more _____ peak _____.
 Is _____ by _____ disruptions _____ peak hours?
 _____ overall reliability _____ disruptions at _____ hours?
 _____ there _____ frequent _____ high-demand _____ that affect reliability?
 Does _____ of disruptions go _____ peak _____?
 If disruptions occur _____ during _____ affects _____.
 Do peak _____ contribute _____ rate of _____?
 _____ the _____ impacted by _____ number of _____ peak _____?
 _____ frequencies _____ disruptions _____ hours affect _____.
 _____ this _____ dependability _____ peak _____?
 _____ take _____ hit during _____ hours.
 Is _____ will be _____ more often _____ busy times?
 _____ it possible _____ incidents will _____ observed _____ busy times?
 _____ are periods when disruptions _____ and _____ reliability.
 Do the _____ happen _____ at _____?
 _____ reliability get _____ during _____?
 Is _____ during _____ hours impacting _____?
 Are these disruptions _____ peak _____?
 There _____ be _____ times _____ these _____ reliability the _____.
 What _____ do these _____ on reliability during _____?
 _____ worse during peak _____?
 _____ peak _____ an increase _____ disruptions?
 There are certain _____ when disruptions _____ affect _____.
 Are peak hours where disruptions _____ the _____?
 _____ the disruptions _____ common _____ peak _____?
 Is it _____ more disruptions?
 Peak hours _____ to an _____ in _____ reliability.
 Are _____ able to _____ about _____ for disruptions _____ on reliability?
 Are the _____ more _____ affecting reliability?
 Are the disruptions _____ certain _____?
 _____ experience more frequent _____ during _____?
 _____ we going to _____ with _____ disruptions during _____ busy _____?
 Things _____ not be _____ occur most.
 _____ happen _____ often _____ busy times?
 If they occur _____ peak _____ can _____ reliability.
 Does _____ reliability _____ in _____?
 _____ associated with a higher rate _____ disruption?
 Does _____ dependability take _____ hit _____ disruption _____.
 Is there _____ frequent _____ hamper reliability _____ periods?
 Is there _____ disruptions _____ frequent _____ make it less reliable?
 _____ the _____ reliability _____ certain times?
 _____ suffer during _____ times?
 _____ the number of _____ be higher at _____?
 _____ reliability _____ the _____ disruptions during _____ hours?
 _____ these disruptions happen more _____?
 _____ overall _____ taken _____ peak hours?
 Does _____ suffer _____ time?
 _____ a _____ time when _____ occur more?
 Do they _____ frequently _____ certain _____ affect dependability?
 Is there _____ higher _____ of _____ hours?

_____ reliability _____ scale _____ by peak hours of disruptions?
 _____ there a correlation between _____ hours _____ an _____ impacting _____?
 _____ peak _____ cause _____ that affect _____?
 Is _____ peak _____ affect _____?
 _____ more frequent _____ hamper _____ during _____ periods?
 Does _____ take _____ disruption hours?
 _____ this affect _____ at peak _____?
 If _____ occur more frequently at peak _____ an _____ reliability.
 Will disruptions _____ hours?
 Is _____ affected when _____ occur _____?
 Are _____ is _____ by disruptions?
 _____ dependability affected _____ peak _____?
 During _____ hours does disruptions _____?
 _____ hours _____ an affect on _____.
 _____ the _____ dependability suffer during _____?
 _____ overall _____ weaken during _____ hours?
 _____ overall _____ because of frequent _____ peak hours?
 _____ disruptions more _____ at _____?
 _____ the number of disruptive _____ at certain _____?
 Do _____ frequent _____ that affect _____?
 _____ peak hours when _____ reliability?
 Does overall _____ during _____ hours _____ additional disruptions?
 Do _____ in peak hours?
 Do these _____ occur _____ in _____ affect dependability?
 _____ there _____ frequent incidents _____ hamper reliability during _____?
 _____ more during peak _____?
 Does _____ suffer during _____ hours?
 _____ peak hours, _____ affecting _____?
 Does _____ a hit _____ peak _____?
 _____ reliability _____ by frequent _____ peak hours?
 Is the _____ when _____ disruptions _____ certain hours?
 The number _____ disruptions during _____ hours _____ be _____.
 Does _____ disruption _____ impact _____?
 Is there a _____ between disruptions happening _____ frequently _____?
 _____ disrupting incidents be _____ frequent _____?
 At peak times _____ more _____?
 Is overall _____ the _____ at certain hours?
 _____ are _____ occur more frequently and _____ on reliability.
 _____ peak _____ result in an increase _____ reliability?
 Does _____ hour _____ affect _____?
 _____ at _____ times messing _____ your _____?
 During peak hours, _____ of _____?
 _____ more at _____ affecting reliability?
 Do more _____ during _____ hours?
 _____ we experience _____ incidents during _____?
 _____ reliability affected by _____ hour _____?
 _____ wonder if _____ occur more _____ peak _____.
 Is _____ reliability on _____ by _____ disruptions _____ peak hours?
 Is _____ possible that the number _____ during peak _____?
 _____ dependability _____ system _____ be hampered _____ the _____ of disturbances _____ hours.

_____ may _____ more _____ peak hours.

_____ wonder _____ is affecting dependability _____ peak _____.

Do peak _____ disruptive _____ causing _____?

_____ reliability _____ the frequent _____ occurring during _____ hours?

Are _____ associated _____ a _____ rate of _____ reliability?

Does disrupting _____ during _____ hours affect _____?

Will there _____ times _____ the _____ impact _____?

_____ disruptions _____ during peak _____?

Does _____ go _____ peak _____?

_____ busy hours, _____ we going _____ with more disruptions?

The dependability _____ system _____ be hampered by _____ disturbances happen _____ peak _____.

Are _____ hours _____ service _____ get _____?

Do _____ happen _____ the _____ hours?

What are _____ these disruptions impact _____ the _____?

_____ affected by _____ disruptions?

Reliability _____ be _____ by disruptions _____ during _____ hours.

_____ reliability if disruptions _____ during _____ hours?

_____ can be _____ if _____ more often _____ peak _____.

Does reliability _____ of disruption?

_____ they are more _____ at _____ hours, _____ reliability.

Is there a specific _____ interruptions _____ common _____ reliability?

_____ the _____ on a _____ affected _____ these disruptions _____ hours?

During _____ this _____ dependability?

_____ the peak _____ reliability?

Is it _____ in _____ peak _____?

reliability _____ during peak hours.

_____ there _____ occurrence of disruptive _____ at busy _____?

_____ peak disruption _____ dependability _____ a _____?

Does _____ reliability when _____ are _____ disruptions _____ hours?

_____ disruptions happen _____ busy periods?

Does _____ suffer _____ disruptions during _____?

_____ it true that we _____ more _____ during _____?

_____ peak _____ of disruptions higher?

_____ disruptions at _____?

_____ increase _____ certain times affect overall reliability?

The reliability _____ be affected by _____.

_____ the number of disruptive _____ be _____ certain busy _____?

_____ affects _____ during _____ hours.

Does _____ result in an increase _____ reliability?

_____ you tell _____ the _____ of _____ hours _____ reliability?

Are _____ at peak _____?

Is _____ that the _____ of disruptive _____ at certain busy _____?

_____ more _____ that _____ reliability _____ certain high-demand periods?

_____ they _____ more frequently at _____ hours, the _____ be _____.

Is _____ higher rate of disrupting?

_____ reliability hurt by _____ disruptions during _____?

Does _____ due _____ the _____ disruptions during _____ hours?

_____ dependability of the system may _____ risk _____ the _____ in _____.

_____ reliability affected _____ of _____ occurrence?

Will the _____ disruptive _____ at specific busy _____?

Are there specific times _____ have a big _____?

_____ that _____ time _____ affect overall dependability?

Is it possible that _____ incidents can _____ periods?

_____ overall reliability _____ hour periods _____ to disrupted _____?

Is _____ frequent during _____?

Does _____ dependability _____ during _____?

Are disruptions _____ hurt _____ reliability at certain _____?

Are disruptions affecting _____ periods _____ they _____ frequently?

_____ number of disruptive _____ frequent during _____ times?

Do the _____ increase _____?

Do _____ increase _____ peak _____?

Is _____ by _____ disruptions _____ hour periods?

Does overall dependability _____?

How _____ disruptions _____ reliability during peak _____?

At peak _____ the _____ impact _____.

_____ is disrupted _____ busy _____?

Is _____ during peak _____ with _____?

_____ there a _____ disruptions impact reliability more _____ others?

During _____ can reliability _____ hit?

_____ the reliability _____ down _____ disruptions happen more _____ hours?

Does overall _____ suffer during _____ hours _____ disruptions

_____ you have _____ about peak hours for _____ and _____ impact _____?

_____ many disruptions _____ reliability _____ hours?

_____ happen more _____ make it _____ reliable, are there _____?

Does _____ peak hours?

Is the reliability affected by the _____ occurring _____?

Does overall _____ go _____ disruption _____?

_____ at _____ messing with your _____?

Is _____ dependability _____ hours?

How much do _____ during _____?

_____ the _____ a _____ scale impacted by peak hours _____ more _____?

During busy _____ occur more _____?

_____ you _____ more _____ incidents _____ high demand _____?

_____ there times _____ disruptions happen _____ often that _____?

_____ higher during peak _____ impacting _____?

How many _____ overall _____ peak _____?

_____ periods _____ these _____ frequently and impact on reliability?

If _____ occur more _____ hours _____ impact reliability.

If _____ happen _____ peak hours, _____ can affect reliability.

_____ there _____ time when interruptions _____ affect the reliability?

_____ affected _____ frequent _____ during peak _____.

Is _____ possible that _____ suffers during peak _____ of _____?

Will _____ number of _____ be _____ at busy _____?

_____ reliability _____ the frequent disruptions at _____?

_____ there _____ when the disruptions _____ significant impact on _____?

There _____ a question _____ peak _____ associated _____ a _____ rate _____ disruption.

_____ with _____ higher rate of disruption?

Do _____ of disruptions _____ overall _____?

Does _____ often at _____ moments?

Does _____ hours increase _____ chances of _____?

Is it possible _____ can _____ reliability on _____ larger _____?

_____ it possible _____ more disruptive _____ will be observed _____?

Is there _____ the disruptions _____ reliability the _____?

_____ the frequent _____ happen _____ hours?

_____ dependability _____ affected by the occurrence of the disturbances in _____.

_____ periods when these disruptions _____ more _____ reliability?

_____ during peak _____ reliability?

Does dependability take _____ peak _____.

_____ peak hours bring _____?

Is _____ time when the disruptions _____ the _____?

Are _____ specific hours when _____ messed _____?

Is it _____ that _____ more frequent _____ during _____ periods?

_____ reliability _____ in _____ hours?

Does _____ at certain hours affect _____?

Do _____ frequent incidents _____ can hamper _____?

_____ any time when _____ impact _____ the most?

_____ service alterations _____ often _____ peak _____?

Does overall reliability suffer _____ hours _____?

At peak hours, _____ affect _____.

During _____ do _____ happen _____?

_____ the _____ affected by _____ at _____?

_____ there times _____ disruptions _____ that affect reliability?

Is there more _____ peak _____?

Is _____ possible _____ peak _____ are when these _____ often?

_____ rush moments may reliability _____?

Do peak hours _____ reliability?

Are _____ specific _____ reliability incidents are _____?

Will the _____ of _____ incidents be _____ at _____?

Is it _____ that _____ less reliable _____ the peak _____?

Is there _____ time when the disruptions are _____?

_____ overall reliability _____ disruptions _____ hours?

Reliability _____ be affected if disruptions _____ hours.

Is _____ more _____ at _____ times?

_____ occur _____ peak hours?

_____ worse during _____ with more _____.

Are there more _____ incidents that _____ periods?

During peak _____ disruptions _____ frequently?

Will _____ be _____ dependability during _____?

_____ during peak hours.

Is _____ more disruptive _____ observed at _____ times?

Are the number _____ the _____ hours?

_____ there _____ greater _____ of _____ at certain busy periods?

Is it possible that _____ incidence of _____ at certain _____?

_____ it possible _____ more _____ incidents _____ be _____ during busy _____?

Do _____ more often _____ periods, compromising _____?

_____ more _____ incidents be seen _____?

_____ the _____ a _____ scale impacted _____ these disruptions _____ hours?

_____ the disruptions occur _____ peak _____?

_____ affecting the dependability _____ peak _____?

Is _____ during _____ hours?

Is disruption more _____ hours _____?

Do _____ hours have _____ on _____?

_____ the _____ suffer _____ the peak _____?

_____ be more _____ the busy _____?

Is _____ by the _____ being _____ often at _____ hours?

_____ certain _____ times _____ more _____ occur?

Are peak hours _____ happen more likely to _____?

_____ could _____ dependability during peak _____.

Is _____ affected by _____ certain _____?

Do _____ more frequently _____ busy _____ overall dependability?

_____ an _____ in _____ at _____ hours?

Does _____ hours affect _____?

_____ the incidence of disruptive _____ going _____ at _____ periods?

_____ that more disruptive _____ will be _____ at _____ periods?

_____ the _____ more _____ to occur during _____?

_____ affected if _____ more _____ at peak hours.

Is _____ affected by more _____ incidents _____ high _____?

_____ this _____ dependability _____ peak hours?

Will _____ incidents _____ more _____ at _____?

Is the _____ higher _____ the _____ hours _____ reliability?

_____ a time _____ disruptions _____ likely _____ affect reliability?

_____ on _____ may be impacted _____ where _____ disruptions happen more often.

_____ during peak disruptions?

_____ reliability _____ during _____ of disruption occurrence?

_____ this _____ dependability in peak _____?

_____ you _____ hours for disruptions have _____ impact on _____?

During _____ occur _____ frequently, are their impacts on _____?

_____ a specific _____ an interruption is _____ affects reliability?

Is _____ time when _____ is _____ disruptions?

Is _____ worse _____ reliability _____ peak _____.

Is _____ time when the disruptions _____ reliability _____?

_____ of _____ peak hours may _____ reliability.

_____ more prevalent during peak _____?

_____ the _____ affected when the _____ more often _____ hours?

_____ reliability get _____ the peak _____?

_____ disruptions _____ overall _____ during _____ periods?

_____ hours intensify disruptions _____

Is _____ busy hours?

_____ these disruptions _____ more often _____ busy _____ dependability?

_____ more _____ in peak hours?

Is _____ in _____ disruption occurrence?

The _____ be more _____ peak _____.

_____ it _____ disruptions are more common at _____?

Are there _____ disruptions _____ more _____ that _____ reliability?

_____ it possible _____ hours have _____ disruptions _____ reliability _____ a larger _____?

_____ may cause _____ to _____ during peak hour _____.

_____ reliability suffer during _____?

If disruptions occur _____ during _____ hours, it _____.

_____ a specific time _____ occur _____ often that impacts _____?

Is _____ specific timescale _____ are _____ and affect reliability?

_____ during peak hours?
 _____ hours when _____ more disruptions _____ reliability?
 _____ frequent _____ that affect reliability during high-demand _____?
 Is _____ a _____ period _____ more frequent and affect _____?
 What happens when the _____ occur _____ things _____?
 _____ might cause _____ increase in _____ impacting _____.
 _____ service alterations _____ at _____ moments?
 _____ certain times when _____ disruptions?
 _____ periods, do these _____ happen more _____?
 _____ see lots of _____ hours?
 _____ it _____ that disruptions happen more _____ hours?
 _____ the _____ increase _____ peak hours?
 _____ of disruption may _____ during peak _____.
 Is _____ reliability affected by these disruptions _____ hours?
 Is _____ reliability on _____ broader _____ affected _____ hours where _____ more often?
 Did overall _____ take _____ during _____ disruption _____?
 Does _____ reliability _____ to _____ disruptions during peak _____?
 Does _____ peak hour _____ to more disruptions?
 _____ dependability take a _____ hours?
 Are _____ specific _____ these _____ mess up _____?
 During peak _____ frequent?
 Are _____ disruptions _____ frequent _____ busy periods, _____?
 _____ disruptions _____ during peak _____?
 _____ this _____ during peak hours?
 Is _____ peak disruption times?
 If _____ and _____ it _____ reliable, _____ there busy times?
 Is there a particular _____ more _____ affects dependability _____?
 Is _____ reliability _____ peak _____?
 Is _____ dependability during _____?
 Is _____ overall reliability affected by _____ during _____?
 Is _____ a _____ disruptions _____ more _____ during _____ hours?
 _____ reliability _____ during peak _____ of _____ occurrence?
 Disruptions _____ the _____ times?
 _____ affect your _____ during certain _____?
 _____ busiest periods?
 It's _____ that _____ more _____ peak _____.
 Are peak hours _____ these _____ occur _____ reliability?
 During the busiest _____ disruptions _____?
 _____ possible _____ disruptions occur more often than _____?
 Is _____ period _____ interruptions are _____ frequent _____ affect reliability?
 Does the _____ suffer during peak _____ to _____?
 Service _____ it less reliable, _____ there _____?
 _____ more disruptive _____ observed at _____ periods _____ will affect _____?
 What _____ happen more _____ peak _____?
 _____ it worse for _____ at _____?
 _____ service _____ usually happen _____ peak _____?
 _____ reliability _____ by _____ often at certain hours?
 _____ more _____ incidents that impair _____?
 Does reliability _____ peak _____?
 _____ in increased frequencies of _____?

_____ reliability suffer during _____?

_____ suffer during peak _____ due to increased _____?

_____ there _____ when _____ disruptions occur _____ are their effects _____ reliability?

Peak hours _____ occurrence _____ affect _____.

If they _____ more often _____ peak _____ reliability.

_____ be more _____ at peak _____?

_____ can have an effect _____.

_____ there times _____ the disruptions _____?

_____ peak hour disruptions _____?

_____ the _____ will be less reliable _____ peak hours?

_____ the _____ less _____ during _____ hours _____ if _____ why?

_____ the reliability _____ when _____ disruptions _____ at _____ hours?

If _____ peak hours, they _____ affect reliability.

_____ affect _____ peak hours.

Is there _____ these disruptions affect reliability _____?

_____ they _____ more _____ at peak _____ they can _____.

Is there _____ these disruptions are _____ to impact _____?

_____ busiest periods _____?

Do _____ happen more _____ busy _____?

_____ the _____ a larger _____ affected by _____ hours _____ these _____ happen more _____?

If _____ hours _____ it _____ reliability?

Is reliability _____ peak _____?
