

[Demo] NLP Dataset for Customer Service Automation

Company Type	Water and Wastewater Utility Companies
Inquiry Category	Service interruption and outage reports
Inquiry Sub-Category	Low Pressure
Description	Customers inquire about low water pressure issues in their area, seeking information on the cause, potential impacts on their daily activities, and updates on the status of repairs.
Data Size	6,702 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Water and Wastewater Utility Company" customer inquiry. (Purchased data will not be masked.)

_____ steps _____ being _____ to _____ the impact of low water _____ on _____ as hospitals _____?

_____ are _____ trying _____ make sure hospitals and _____ protected _____ of _____ water pressure?

Efforts _____ low _____ pressure's _____ on _____ services?

_____ we minimize the _____ of _____ water _____ on essential _____?

How _____ we to reduce _____ effect _____ limited _____ on hospitals _____?

_____ be taken _____ alleviate low water _____ hospitals and _____?

_____ can we _____ the effects _____ reduced water _____ essential _____?

_____ can we reduce the _____ of _____ important places?

_____ is the _____ water _____ affecting _____ like hospitals and _____?

_____ low _____ pressure issue _____ and _____.

_____ to reduce _____ of decreased water pressure on _____ hospitals and schools?

What _____ be _____ to _____ pressure's effects on vital _____?

_____ water _____ essential places like hospitals _____.

How can _____ reduce _____ effect _____ water _____ on important facilities _____ schools?

_____ we minimize _____ effects _____ low water pressure _____?

_____ being _____ reduce _____ effect _____ water pressure on crucial facilities?

How _____ water pressure _____ including hospitals _____ schools?

How _____ we prevent low-pressure _____ hospitals _____?

_____ will lowering _____ places _____ hospitals?

_____ being done _____ water pressure in hospitals?

How do _____ make _____ and schools _____ by low _____?

Low _____ affects essential _____ and schools.

_____ steps _____ taken to _____ low _____ pressure in hospitals _____?

_____ plans to mitigate the effects of _____ pressure in _____?

_____ schools are _____ low _____ pressure effects.

_____ are _____ doing _____ protect hospitals and schools _____ water _____?

Is _____ method that can _____ used to _____ impacts _____ levels _____ or schools?

_____ the reduction _____ low _____ pressure accomplished for _____?

_____ be done _____ decrease the impact of _____ institutions?
 _____ you attempting to improve the _____ hospitals?
 _____ you _____ poor water pressure in _____ schools?
 How do _____ deal _____ poor _____ pressure _____ hospitals _____?
 There _____ being _____ to _____ the _____ low water pressure in _____ schools.
 _____ are you going to save _____ school _____ with _____ weak _____?
 _____ you _____ the low water pressure's _____ services?
 How _____ adjusting the _____ pressure in _____ schools?
 Efforts to mitigate low water pressure _____ in _____ are _____.
 _____ you _____ the issue of poor water _____ hospitals or _____?
 How have _____ made _____ minimize _____ pressure _____ targeted hospitals?
 _____ are in place _____ hospitals _____ being _____ by low _____.
 _____ being taken _____ reduce _____ water _____ in _____ institutions?
 _____ water _____ can affect vital _____ hospitals and _____.
 How _____ reduce the _____ of low water pressure _____?
 How _____ the impact _____ low _____ pressure _____ services?
 _____ want to _____ how efforts _____ lower _____ targeted _____ and schools.
 Is there _____ to minimize the _____ of _____ water _____ schools?
 _____ are being taken to _____ the _____ pressure on _____ services?
 _____ should _____ the _____ of low _____ pressure in _____ and _____?
 _____ have efforts _____ reduce _____ pressure _____ specifically _____ for _____ and _____?
 How _____ of low _____ pressure on services?
 How _____ making sure that _____ get _____ by low water _____?
 _____ can _____ reduce _____ impact _____ low _____ pressure on important _____?
 _____ the impact on _____ and schools _____ water _____?
 Measures _____ be _____ impact _____ low _____ pressure on hospitals _____ schools.
 What _____ be done to _____ water pressure on _____?
 _____ diminished _____ pressure _____ services _____ hospitals and schools?
 _____ can _____ minimize the impact of _____ pressure on _____.
 _____ should be _____ to _____ water _____ in healthcare _____.
 _____ are the actions _____ taken _____ alleviate _____ pressure _____ vital _____?
 How _____ minimize _____ impact of less _____ pressure on _____?
 How do _____ minimize _____ of _____ water pressure on _____?
 What can be _____ the _____ diminished water pressure _____ facilities?
 Do _____ have been _____ to reduce _____ of _____ pressure _____ establishments?
 _____ taken to _____ impact on hospitals and schools due to _____.
 _____ are _____ to _____ hospital and _____ this weak water pressure?
 _____ low _____ pressure _____ hospitals and _____?
 Is _____ company _____ any _____ mitigate the _____ of reduced water _____ hospitals _____ schools?
 What _____ minimize the effects of diminished water _____ on _____?
 Is _____ anything being done to mitigate _____ water pressure _____?
 What _____ the measures _____ alleviate the _____ of _____ pressure _____ essential _____?
 _____ reduce the effect _____ limited water _____ critical facilities?
 _____ are you tackling _____ problem _____ poor _____ pressure _____?
 Are steps being taken to _____ water pressure _____?
 Are steps being _____ reduce low _____ in _____?
 What are _____ with _____ of _____ pressures _____ healthcare and education providers?
 How _____ low water _____ affect _____ hospitals _____ schools?
 What actions _____ to reduce the effects _____ diminished _____ pressure _____ and _____?
 _____ will _____ Bee-Darn weak _____ pressure affect _____ services?

What _____ are being _____ alleviate _____ low water pressure _____ services?
 _____ should _____ to minimize the _____ of _____ on vital facilities?

What _____ be taken _____ minimize _____ of diminished _____ pressure on _____?

What are _____ poor _____ pressure in _____ schools?

How _____ this Bee-Darn _____ water pressure _____ and _____ services?

How do _____ effect _____ limited water pressure _____ facilities?

Can _____ tell _____ about _____ methods _____ minimize impacts stemming _____ watering levels _____?

How _____ water pressure will _____?

Is there anything _____ water pressure in _____ and _____?

What is _____ plan _____ mitigate _____ of _____ in _____ and _____ providers?
 _____ are the _____ being taken to _____ water pressure _____ institutions?

Hospitals _____ schools have limited _____ pressure and what _____ are _____?

What _____ the _____ taken to reduce the effects of _____ pressure _____?

_____ can _____ minimize the _____ of low _____ pressure _____ services?

_____ there anything being done _____ effects of _____ water _____ on _____ schools?

_____ to _____ low water pressure adverse _____ institutions?

What can _____ minimize the impact _____ water pressure _____ vital _____?

_____ low water pressure _____ sectors _____ or educational establishments?

_____ low _____ pressure affects important _____ as _____?

_____ can _____ done to minimize _____ consequences of low _____ critical _____?

There are _____ that can be taken _____ in _____ schools.

_____ are _____ pressure efforts _____ at hospitals and _____?

How _____ pressure _____ schools and _____?

How do _____ services _____ low water _____?

_____ are _____ to lower water _____ in _____ and _____?

How _____ we controlling low water _____?

_____ effects of _____ pressure on _____ and schools _____ mitigated _____ being implemented.
 _____ hospitals and schools due to low _____ mitigated.

Will your company _____ the _____ decreased water _____ on _____ services _____ hospitals and _____?

Is there _____ decrease the _____ water _____ on hospitals and _____?

How can _____ impact _____ low water _____ on _____ services like _____?

_____ you preparing _____ negative _____ of low _____ pressure _____ and schools?

What _____ are being taken to _____ diminished water pressure _____ essential _____?

How can we reduce _____ effects _____ schools?

How can we minimize the _____ water _____ key _____?

_____ water _____ affect important establishments _____ hospitals and schools?

Measures to _____ the impact _____ water _____ on hospitals _____ being _____.

How _____ pressure _____ important facilities such _____ schools?

Measures need _____ taken to _____ hospitals _____ due _____ low water pressure.

How _____ impact of _____ water _____ hospitals _____ schools?

Can you give us _____ into _____ used to minimize impacts _____ to _____ schools?

_____ taken to minimize the effects _____ diminished water pressure _____?

_____ making sure hospitals _____ have _____ water pressure?

_____ made to _____ water _____ effects on _____ services.

_____ to _____ water pressure affect hospitals _____ schools?

There's low _____ affecting hospitals _____.

_____ being _____ to reduce _____ impact _____ low water _____ on hospitals?

_____ public utilities _____ medical hubs and learning _____ unaffected most _____ are _____ during _____ of
 decreased Groundwater _____?

_____ insufficient _____ addressed _____ critical facilities?

_____ be _____ diminish lower-pressure repercussions _____ essential facilities?

How are you _____ hospitals _____ schools _____ by low _____ pressure?

_____ hospitals _____ schools affected _____ pressure water?

Measures _____ in place to minimize _____ impact _____ hospitals _____ is _____.

Is weak _____ pressure _____ establishments?

_____ will _____ to _____ effects of diminished _____ on hospitals and schools?

Are actions being _____ water pressure in _____ and _____?

How _____ the _____ to _____ pressure specifically targeted _____ and _____?

Is there _____ doing _____ low water pressure _____?

_____ are _____ dealing _____ water pressure _____ and schools?

How _____ water pressure _____ such as schools _____?

_____ water pressure _____ and schools?

What _____ are taken to _____ pressure in _____ and _____?

_____ are you _____ critical _____ unaffected _____ water pressure _____?

How will _____ affect hospitals and _____?

_____ reduce _____ problems in _____ institutions?

Low _____ important sites _____ academia?

_____ in place _____ and schools less affected _____ low water _____.

Low _____ can _____ institutions such _____ hospitals _____ schools.

_____ can _____ the consequences _____ water _____ for critical facilities?

How _____ the impact _____ decreased _____ pressure _____ be mitigated?

_____ can _____ reduce _____ of limited _____ pressure _____ some critical _____?

_____ efforts to _____ water pressure been targeted _____ hospitals _____?

_____ me how _____ reducing the impact _____ low water _____ on essential _____?

Measures _____ in _____ minimize the _____ water _____ on hospitals

How _____ the _____ low water _____ on services?

_____ impact of _____ on _____ and schools is something _____ addressed.

_____ taken to decrease water pressure in _____?

Is there _____ taken to alleviate _____ in hospitals and _____?

_____ being made _____ low _____ repercussions in _____ centers and _____ establishments?

Some _____ such _____ hospitals and _____ low water _____.

How _____ you _____ the effects _____ pressure on essential _____?

There _____ steps _____ in essential institutions.

_____ you _____ to reduce the _____ pressure on _____ services _____ hospitals _____ schools?

_____ addressing _____ low _____ pressure _____ hospitals?

How _____ low water _____ impact _____ important services?

_____ actions could _____ taken to _____ the _____ effects of diminished _____ facilities?

Is _____ any _____ to _____ water pressure _____ healthcare _____?

_____ being taken to _____ of _____ water _____ on vital institutions.

_____ impact _____ low water pressure on some important _____?

_____ can _____ fix the _____ water _____ hospitals and schools?

_____ any _____ to minimize the impact of _____ water _____ on hospitals _____?

Efforts to mitigate _____ pressure _____ healthcare centers and _____ are _____.

_____ are hospital _____ services _____ low water pressure?

Is there _____ action plan _____ where _____ disrupt _____ sites?

Is there _____ to _____ the _____ of weak _____ on establishments?

_____ are _____ protecting _____ water pressure?

_____ there an effort _____ lower-pressure _____ essential facilities?

_____ steps being _____ to decrease _____ water _____ in _____ and _____.

_____ the steps taken _____ reduce _____ pressure in _____ schools?

_____ inadequate water _____ be addressed _____ schools _____ hospitals?

There _____ taken _____ reduce _____ of _____ pressure on some institutions.
 What _____ done to reduce the _____ water pressure on _____?
 _____ steps _____ taken _____ minimize _____ low _____ affects critical establishments?
 _____ and schools _____ the issue _____ low water pressure?
 _____ being _____ to fix low water pressure in _____?
 How have _____ been made _____ water pressure _____?
 _____ are made _____ minimize low _____ at _____ schools.
 Measures _____ minimize low-pressure _____ schools.
 _____ are you _____ to make _____ hospitals _____ are protected _____ the negative effects _____ low _____?
 _____ water pressure has _____ negative effect _____ hospitals _____.
 _____ are in _____ to _____ low _____ pressure on _____ services
 _____ any steps taken to _____ water _____ and schools?
 How are you _____ low _____ pressure _____ and schools?
 What _____ are _____ to reduce _____ impact of _____ pressure on _____?
 How _____ been mitigated _____ critical _____?
 Efforts _____ mitigate _____ water pressure _____ educational establishments _____ underway.
 Low _____ effects _____ vital _____ like hospitals and schools.
 Is _____ an action plan to reduce _____ sources disrupt _____ sites like _____ facilities _____?
 How is _____ water _____ addressed _____?
 There are steps _____ to _____ low water _____ and _____.
 Are there steps _____ to _____ the effects _____ vital institutions?
 _____ reduce the _____ of low water pressure on vital _____?
 _____ reduce water _____ issues in certain institutions.
 _____ deal _____ poor _____ pressure in _____ and schools?
 How is _____ pressure _____ facilities?
 _____ low _____ affects _____ schools, have steps been taken _____ it?
 Is _____ mitigate _____ water pressure in healthcare centers _____ establishments?
 Can _____ tell _____ about _____ methods used _____ from insufficient _____ levels in _____ or _____?
 _____ does the problem _____ pressure _____ hospitals and _____?
 How can _____ low _____ pressure be _____ vital services?
 _____ can be done to _____ effects _____ water pressure _____ hospitals _____?
 _____ effects _____ and _____ be mitigated.
 _____ are _____ doing _____ minimize _____ impact of _____ water _____ on essential _____?
 _____ does _____ in water _____ services like _____ and schools?
 _____ lower _____ pressure _____ been _____ on _____ and schools?
 Low _____ pressure _____ affect _____ establishments like _____ and _____.
 How _____ to save _____ from the _____ weak water _____ situation?
 How can we _____ of _____ on _____ establishments _____ hospitals and schools?
 _____ do we minimize impact _____ essential services _____?
 _____ we _____ effects _____ low water pressure _____ vital services?
 _____ low water _____ at _____ schools.
 _____ to help _____ schools _____ with low water pressure.
 _____ steps _____ taken _____ decrease _____ effects _____ low water _____ on _____ institutions?
 Measures to _____ on _____ and schools are _____.
 _____ you will save hospital and school _____ Bee-Darn _____ water _____ situation?
 _____ do we minimize _____ water pressure that _____?
 To mitigate the effects _____ low water pressure _____ implementing _____?
 _____ minimize the effects _____ hospitals?
 _____ hospitals and schools from _____ adverse _____ of _____ water pressure?
 _____ any _____ being taken to protect _____ the effects of weak _____?

How _____ the _____ and schools aren't affected _____ water pressure?

Measures are _____ to _____ the _____ on _____ caused _____ water pressure.

_____ the measures taken to _____ hospitals and _____ pressure?

_____ is the _____ pressure addressed for important _____?

What actions _____ being _____ to reduce _____ low water pressure _____?

How _____ affect vital _____ hospitals and educational institutions?

Some hospitals _____ pressure effects.

What are the steps _____ reduce _____ water pressure _____ essential _____?

Is low _____ important sectors _____ as hospitals _____?

_____ pressure _____ affect essential _____ such as hospitals _____.

_____ effect of _____ water pressure on essential facilities?

_____ actions are being _____ effects _____ low _____ pressure _____ vital services?

_____ are we _____ low water pressure's _____ services?

How do _____ efforts to _____ low _____ hospitals and _____?

Water _____ vital _____ be reduced.

_____ has _____ water pressure _____ specifically targeted _____ hospitals _____?

How will this _____ water pressure _____ save _____ and _____?

Does your company take _____ to _____ impact of _____ water _____ on hospitals _____?

Reducing water _____ institutions _____ as _____ and schools.

_____ in place to minimize _____ schools due _____ low water pressure

_____ there _____ effort to mitigate _____ water _____ healthcare centers _____ educational _____?

_____ low _____ pressure _____ important _____ such as _____ and schools?

Low water pressure _____ an _____ in _____.

_____ measures to _____ the _____ of _____ water pressure on _____ facilities?

Reducing low _____ pressure's influence is _____ crucial _____ like _____.

How do you _____ pressure _____ hospitals?

Measures _____ protect _____ and _____ the impact of _____ water pressure.

Low water pressure can affect _____ like _____.

_____ are the measures being _____ mitigate _____ impact of _____ pressure _____ facilities?

How _____ water pressure's effect _____ important services?

_____ are we curtailing low water _____?

_____ being done to address the low _____ hospitals _____?

_____ to improve the water pressure _____ hospitals and _____?

_____ minimize _____ effects on hospitals _____

What _____ done to _____ the _____ of low water _____ critical _____?

Are _____ taken to decrease low water pressure's _____?

Is _____ way to minimize _____ from _____ levels _____ or schools?

_____ to _____ press affect necessary _____?

How are _____ controlling _____ effect _____ important services?

_____ to lower water _____ targeting hospitals _____ schools?

We want _____ how _____ are _____ hospital _____ with this _____ pressure situation.

_____ are you _____ with _____ poor _____ has on hospitals _____ schools?

What _____ done _____ reduce _____ impact _____ water _____ on institutions?

_____ it _____ minimize the impact _____ and schools _____ low water _____?

Are _____ schools affected by _____ to _____ levels?

What _____ be _____ to minimize the _____ of _____ in _____ and _____?

Is _____ effort to _____ effects _____ low _____ pressure _____ and schools?

How do we _____ low water _____?

How _____ minimize water pressure _____ schools?

_____ be _____ minimize the effects of low _____ in critical _____?

Is inadequate ____ pressure addressed ____?

____ can be ____ reduce ____ water pressure ____ hospitals and ____?

How ____ you making ____ crucial services are unaffected ____?

Steps ____ reduce low ____ on important ____ academia?

____ effects of ____ on critical facilities ____ reduced.

How ____ you ____ to save ____ services because of ____ weak water ____?

Do you have a ____ hospitals ____ the ____ effects ____ low ____ pressure?

____ there anything done ____ the impact ____ water pressure ____?

The consequences of low ____ pressure on ____ including ____ and ____ mitigated.

How ____ we ____ the ____ of low water ____ on ____?

How ____ ____ reduction of ____ pressure ____ and schools?

____ being taken ____ alleviate low ____ pressure ____ and schools?

____ be ____ to reduce ____ limited water ____ on crucial facilities?

How can ____ schools ____ effects of low water pressure?

How ____ the ____ of ____ water ____ for vital ____?

The ____ of ____ water pressure ____ felt ____ schools.

Efforts are made ____ reduce ____ hospitals ____ schools.

Efforts ____ being made to ____ water ____ repercussions ____ and educational ____.

Plans ____ in place to ____ the ____ of ____ water ____ on ____.

____ you tell ____ you're ____ to minimize ____ low water pressure on ____?

Hospitals ____ low water pressure

What ____ the ____ being taken ____ address ____ pressure ____ essential ____?

____ on critical services include hospitals ____ educational institutions.

Are ____ being taken ____ alleviate ____ water ____ establishments?

____ to ____ of low water ____ on ____ facilities ____ being put ____ place.

____ do you ____ important services ____ water pressure?

Will ____ be plans ____ minimize ____ water ____ effects ____ important ____?

____ will ____ affect ____ places like ____?

How do we minimize ____ on essential ____ low ____?

____ know ____ measures are being taken ____ the ____ of low water pressure ____ hospitals ____?

How ____ ____ pressure ____ for critical facilities?

Efforts to ____ water pressure's ____ vital ____?

How ____ ____ deal ____ low water ____

____ being taken to ____ impact of low water ____ establishments?

Is it ____ to alleviate low ____ in ____?

____ should be taken ____ the ____ diminished ____ pressure on ____ facilities?

____ you ____ hospital services ____ by ____ water pressure?

____ warn press ____ needed centers.

____ the effect of limited ____ pressure ____ schools is something ____ is ____.

Plans in place ____ minimize ____ adverse ____ on hospitals ____?

Can ____ to alleviate low water pressure ____?

____ are the actions ____ lower water pressure ____ and ____ institutions?

____ you ____ the ____ water pressure on essential facilities?

____ are actions ____ can ____ to reduce ____ water pressure for ____ facilities.

What strategies are put ____ place to make ____ public ____ medical hubs and ____ unaffected ____ of ____?

What ____ be done ____ decrease the effects of ____ water ____?

____ going to save ____ and ____ services with this weak ____?

____ ya fix Hospital ____ school ____?

How would ____ hospitals ____ schools?

____ are ____ place ____ the impact of ____ on schools.

What _____ the actions being taken to _____ of _____ pressure _____ vital _____?

How do you _____ vital services unaffected _____ is _____?

How _____ water pressure _____ and school services?

_____ are _____ to _____ the _____ hospitals and schools due to _____ pressure.

How can _____ reduce _____ pressure issues _____?

Can _____ tell me _____ the _____ being _____ the _____ low _____ pressure on hospitals _____ schools?

How _____ we _____ adverse _____ low water _____ on hospitals and _____?

Taking steps to mitigate _____ pressure _____ critical establishments?

_____ impact on _____ and schools _____ reduced water _____?

_____ we minimize _____ of _____ pressure on _____ services?

_____ the _____ being _____ minimize _____ impact of _____ pressure on _____ and schools?

How _____ pressure problems _____ important institutions?

_____ steps _____ taken to _____ the _____ of _____ water pressure _____ schools?

_____ on hospitals, _____?

_____ are steps _____ to reduce _____ water _____ effects _____ institutions.

_____ any way to _____ of _____ water pressure at _____ and _____?

What are the actions that _____ effects _____ diminished _____ pressure _____ facilities?

_____ are _____ taken _____ low water _____ in hospitals?

How low _____ pressure can _____ as hospitals and _____.

_____ efforts to _____ water pressure specifically targeting _____?

_____ to minimize low water _____ adverse effects on important _____?

What _____ the _____ being _____ to _____ in vital services?

How do _____ limit _____ low _____ pressure has _____?

_____ is low water pressure _____ for _____ services _____ and _____?

_____ are we keeping low _____ pressure _____ important _____?

_____ water _____ effects vital _____ like _____ schools.

What actions are taken to _____ the _____ reduced _____ on _____?

Efforts to mitigate _____ water pressure could be related _____.

_____ be done _____ minimize _____ of _____ water pressure on vital _____?

_____ be _____ to _____ low _____ in essential services?

The effects of _____ establishments are being _____

Do _____ have _____ make _____ clinics or _____ buildings _____ get damaged?

Measures are _____ sure hospitals and schools don't _____ due _____ pressure.

What _____ about low _____ effects on vital _____?

How _____ hospitals and _____ by _____ low water pressure?

_____ low _____ pressure on vital _____ including hospitals _____ institutions are being _____.

_____ actions _____ be _____ to _____ the effects _____ water _____ on critical _____?

_____ to save hospital _____ school services with the _____ pressure _____?

How _____ Hospital and _____ pressure?

How _____ low water _____ in _____ and schools?

_____ minimize _____ of low water pressure on _____ services?

_____ can _____ to _____ the effect _____ limited water _____ in _____ schools?

_____ make sure _____ and schools don't get hurt _____ low _____?

What actions _____ effect of _____ water pressure on vital _____?

Low water pressure _____ on _____.

Steps to _____ water _____ in _____?

What _____ of limited water pressure on important facilities?

_____ pressure's influence _____ for crucial services?

_____ we _____ the repercussions of low _____ pressure _____ services?

_____ anything you are _____ the _____ water pressure in _____?

Are there _____ to _____ essential facilities?

How can _____ pressure's _____ be _____ for essential _____?

What are the _____ to decrease the effects _____ pressure on _____?

The _____ low water pressure _____ hospitals and _____.

_____ pressure affects institutions _____ hospitals _____.

_____ low water _____ mitigated in essential _____ such as _____ and _____?

_____ any efforts to mitigate low _____ centers?

_____ a _____ can _____ used to minimize _____ inadequate _____ levels in hospitals _____ schools?

Measures _____ low-pressure effects _____ schools?

_____ actions _____ taken to minimize the _____ of _____ pressure _____ facilities?

_____ are _____ trying to _____ negative effects of low water pressure _____?

_____ about _____ used _____ minimize impacts from inadequate watering levels in _____ schools?

How are _____ making sure _____ and _____ low _____ pressures?

_____ can _____ sure _____ the impact of decreased _____ pressure _____ is minimized?

Hospitals _____ schools _____ affected _____ water strength.

What _____ to reduce the effects _____ pressure on critical _____?

What _____ be done to _____ institutions from _____ of _____ pressure?

_____ steps _____ taken to cope _____ pressure in _____ schools?

_____ effects of _____ water _____ on _____ institutions are _____.

_____ you keeping _____ schools _____ by low _____ pressure?

_____ Hospital _____ school water pressure?

_____ are you going _____ the _____ and _____ services _____ this _____ water pressure _____?

How about the _____ water _____ hospitals?

_____ efforts _____ to _____ pressure repercussions _____ healthcare centers?

Do _____ low water pressure?

The effect _____ limited _____ pressure on _____ addressed.

How _____ low _____ pressure _____ for _____ services such _____ hospitals _____?

What actions will _____ taken _____ the _____ of diminished _____ on essential _____?

measures are being _____ to _____ low water _____ important establishments

How has _____ pressure been _____ for hospitals _____?

Do _____ actions _____ alleviate low water pressure _____?

_____ has _____ on hospitals and schools.

_____ to reduce the _____ of _____ water _____ on _____ and schools?

_____ you have _____ to _____ low water _____ adverse effects _____ critical _____?

_____ the _____ water pressure's _____ vital services addressed?

Can you tell _____ steps being _____ to _____ impact _____ pressure in hospitals _____ schools?

_____ can _____ reduce _____ effects _____ low water pressure _____ critical _____?

There are _____ schools which _____ low _____.

What _____ be _____ lower _____ impact _____ water pressure on _____?

_____ are you _____ like _____ and schools _____ unaffected _____ low water _____?

_____ taken _____ sure low water pressure _____ affect _____ establishments?

_____ it _____ to _____ pressure repercussions for healthcare centers _____ establishments?

_____ are _____ to lower the _____ pressure _____ hospitals _____ educational institutions?

Is there _____ for minimizing impacts _____ watering _____ or schools?

_____ done _____ the impact of _____ water pressure on _____ institutions?

What _____ plan for the _____ water pressures?

_____ pressure can affect _____ services, such _____ educational institutions.

How can we _____ limited _____ on vital facilities?

Do _____ made _____ mitigate low _____ pressure repercussions _____ healthcare _____?

How are hospitals _____ schools _____ by _____?

_____ making sure _____ are _____ when water pressure is _____?

_____ have _____ to _____ been targeted at hospitals?

How are _____ and schools _____ unaffected _____ the _____ pressure?

Low _____ important _____ of healthcare, _____?

_____ progress has been _____ to _____ for _____ establishments?

_____ actions _____ to minimize _____ of low water pressure _____ facilities?

_____ to diminish low water _____ in _____ and schools?

_____ actions _____ to _____ low water pressure affect critical _____?

_____ there actions _____ water pressure _____ hospitals and schools?

How can we _____ the effects _____ pressure _____ services?

How _____ deal _____ the effects _____ water _____ on _____ services?

Will _____ hospitals and schools?

How _____ handling the _____ water pressure on _____ and schools?

_____ low _____ can impact hospitals _____?

How _____ we minimize _____ water _____ on important _____?

_____ the hospital's and _____ water _____?

What _____ the steps taken _____ low water _____ schools?

How _____ and education providers be mitigated _____?

What _____ exist to protect _____ and _____ consequences of _____ pressures?

_____ to _____ low water pressure _____ centers underway?

How can _____ reduce _____ of limited _____ pressure _____ critical _____?

Could _____ tell me how lower water _____ specifically _____ and _____?

Is _____ a way to minimize _____ low _____ vital services?

_____ there an action plan _____ of under-pressured sources _____?

_____ are _____ services _____ hospitals and schools _____ the effects of low _____?

Measures to _____ of _____ water _____ facilities are _____ implemented.

Low water _____ on vital _____ and schools.

Is there action _____ to _____ water pressure _____ imperative _____?

Efforts to mitigate _____ be related _____ healthcare centers _____ educational _____.

_____ are you trying _____ sure hospitals _____ schools _____ protected _____ water _____?

_____ actions should _____ to _____ effects of _____ water _____ on essential facilities?

Do you know _____ any measures _____ taken _____ minimize the _____ of low _____?

_____ impact of _____ water _____ is _____ could be mitigated.

_____ any effort to mitigate low water _____ centers or _____?

How _____ water _____ affect _____ establishments?

How _____ pressure _____ services like hospitals _____ schools?

How can _____ reduce water _____ hospitals _____?

_____ being _____ to reduce low _____ pressure's effects _____ important _____?

How _____ we _____ the _____ of low _____ pressure _____ schools?

Are _____ being _____ reduce _____ low water pressure on _____?

Low-pressure effects _____ and _____ mitigated.

_____ the impact of insufficient water pressure _____?

What _____ do to _____ water pressure _____ or schools?

How _____ trying to mitigate _____ effects of _____ critical facilities?

_____ you _____ me _____ the _____ of low _____ pressure on essential _____?

Low water _____ vital _____ are being _____ being implemented.

_____ of _____ water pressure _____ vital institutions _____ that should _____ mitigated.

_____ Bee-Darn _____ water _____ situation, how _____ you _____ to _____ hospital _____?

What _____ are being taken _____ reduce the _____ on essential _____?

_____ can _____ minimize _____ water _____ on vital _____ hospitals and schools?

There _____ taken to reduce the _____ water pressure on _____.
 How low _____ pressure affects important _____ and _____?
 _____ it _____ to _____ low water _____ repercussions for healthcare centers _____?
 How _____ you _____ to make _____ hospitals _____ are _____ from the _____ water pressure?
 Can _____ shed _____ methods _____ to minimize impacts from inadequate _____ in _____?
 _____ water pressure _____ services like _____ schools.
 Are _____ steps being _____ to alleviate _____ pressure _____ and schools?
 _____ plans _____ place to minimize the adverse effects of _____?
 _____ effects _____ low water _____ schools are being addressed.
 _____ are _____ taken _____ the effect _____ pressure on crucial facilities?
 _____ water _____ can have consequences _____ including _____ and schools.
 What efforts are _____ reduce water _____ essential _____?
 How can we minimize _____ of _____ pressure _____ and _____?
 _____ low water pressure affect crucial _____ such _____ hospitals _____?
 _____ water pressure _____ problem _____ affects hospitals _____ schools.
 How are _____ hospitals and _____ from being negatively _____ by _____ water _____?
 How are _____ that hospitals and _____ unaffected _____ low _____?
 Low _____ affects _____ and academics.
 Is there a _____ to _____ impacts _____ at hospitals and _____?
 _____ are _____ place to reduce the _____ schools from _____ pressure.
 Low _____ essential _____ like hospitals and _____.
 _____ can actions be _____ the effects _____ water _____ on essential _____?
 Is _____ any way _____ the _____ of weak _____ on critical _____?
 Efforts _____ minimize _____ pressure _____ hospitals.
 _____ low water pressure's effects on _____ addressed?
 _____ are consequences _____ low _____ on _____ services, including _____ educational institutions.
 _____ can we _____ effects _____ low _____ in _____ and schools?
 Low-pressure _____ can be minimized.
 How _____ address _____ low water _____ essential services?
 How _____ Hospital & _____ pressure?
 _____ has _____ effect _____ hospitals and schools.
 _____ to mitigate _____ effects _____ weak _____ on critical establishments _____ being _____.
 _____ are you _____ to _____ water pressure _____ schools?
 _____ you _____ low _____ pressure in hospitals and _____?
 What _____ actions _____ taken _____ effects of _____ water pressure on _____ services?
 _____ being taken to _____ water pressure _____ vital _____?
 _____ can _____ done to reduce _____ impact _____ water _____ on _____ services?
 Is _____ pressure being mitigated _____ sectors like _____?
 How have _____ minimize _____ water pressure _____ hospitals _____ schools?
 How low water _____ hospitals and _____ mitigated.
 Do _____ mitigate the _____ low water pressure in _____ and _____?
 _____ the _____ to _____ water pressure _____ hospitals and _____?
 How _____ you _____ care of _____ water _____ hospitals _____ schools?
 Do steps being _____ reduce _____ pressure _____ hospitals _____ schools?
 Low _____ pressure _____ vital services, including _____ and _____.
 _____ low _____ has _____ hospitals and schools?
 _____ the low _____ important _____ of _____ by steps?
 Some essential _____ such _____ and schools, have _____.
 _____ do _____ of low water pressure _____ and schools?
 _____ there _____ to minimize _____ effects low water pressure _____ on _____?

What can be _____ of reduced _____ pressure on vital _____?
 _____ can we minimize _____ effects of _____ pressure _____ institutions?
 _____ water pressure _____ schools _____.
 Is there _____ action _____ to reduce _____ sources disrupt _____ sites _____ facilities and _____ centers?
 How do _____ low water pressure _____ schools?
 _____ you tell us about _____ methods used _____ impacts _____ insufficient _____ levels _____ and schools?
 Measures are _____ hospitals _____ schools due _____ low water pressure.
 Is lower-pressure _____ essential _____ being _____?
 Are _____ implementing _____ to minimize _____ of _____ water pressure on _____?
 What is _____ of reduced water _____ on _____?
 _____ you going _____ save hospital _____ with _____ water pressure?
 _____ weak water pressure _____ needed _____?
 Is _____ to _____ water pressure _____ in hospitals and _____?
 What _____ be _____ lower the impact of _____ water pressure _____?
 _____ have _____ made to decrease water pressure _____ schools?
 Low water _____ effects on _____.
 _____ there _____ plan to minimize the impact of _____ pressure _____?
 _____ to _____ of _____ water pressure on _____ services?
 Hospitals _____ being affected _____ water pressures.
 Reducing _____ adverse effects _____ water _____ on essential facilities _____.
 How are you trying _____ protect _____ from low _____?
 _____ to _____ low water pressure _____ in healthcare _____ and _____ establishments?
 _____ water pressure _____ necessary centers/areas?
 Can _____ give me _____ methods _____ to _____ impacts _____ inadequate watering _____ in hospitals and _____?
 How are _____ impact _____ poor water _____ hospitals?
 What strategies are _____ place _____ medical _____ learning institutes _____ during times _____ decreased _____ force?
 How are _____ low _____ pressure from having an _____?
 _____ we _____ the impact of low _____ pressure _____?
 Are _____ the effects _____ low _____ pressure on vital institutions?
 How can we limit _____ water _____ essential services?
 _____ pressure _____ hospitals and schools _____ something _____ has been started _____.
 _____ are you going _____ hospital and _____ services with the _____ pressure _____?
 _____ there steps being taken to minimize _____ pressure _____?
 _____ be taken to alleviate _____ water _____ in _____ schools?
 There are _____ to _____ water _____ effects on important _____.
 The _____ schools suffer low _____.
 Do you _____ measures _____ place _____ low water pressure _____ critical facilities?
 There _____ of low water _____ vital _____ such _____ educational institutions.
 hospital _____ beloved school _____ pressured _____ H2O
 Is _____ to _____ the impact of _____ pressure _____ and schools?
 Measures _____ would _____ low-pressure effects _____?
 Steps _____ reduce _____ pressure _____ institutions?
 Reducing low _____ affects _____ institutions like _____ schools.
 _____ efforts to lower water pressure been _____?
 _____ any effort _____ pressure in _____ or educational establishments?
 How are _____ going to save _____ and _____ weak water pressure _____?
 What _____ actions being _____ to reduce the _____ of low _____ services?
 _____ steps being taken _____ water pressure _____ hospitals and _____.
 _____ do _____ to reduce water pressure _____ hospitals _____?
 _____ strategies are _____ in place _____ key public _____ such as medical _____ and _____ institutes _____ remain _____ times of _____?

_____ being taken to mitigate _____ effects _____ low water _____ vital _____?

Measures _____ in _____ limit _____ impact _____ hospitals due _____ low _____ pressure.

How can we _____ low water pressure _____ important _____?

Low _____ affecting important _____ healthcare, _____ be lessened by _____.

_____ actions being _____ low _____ pressure affecting imperative sectors?

_____ to reduce water _____?

_____ is the _____ of low _____ in schools?

_____ you tell us _____ has _____ specifically _____ hospitals and schools?

_____ lower-pressure repercussions _____ lessened _____ facilities?

_____ any plan to decrease the _____ low _____ pressure _____ important _____?

How _____ fix _____ hospital/school _____?

Efforts _____ be _____ to mitigate _____ pressure _____ healthcare _____ educational establishments.

What actions _____ to _____ the repercussions of _____ water _____ services?

Hospitals and schools _____.

Steps are being _____ to reduce _____ water _____ critical establishments.

Is _____ any _____ to _____ the _____ on _____ schools _____ low _____ pressure?

_____ anything _____ make hospitals and schools less impacted _____ water _____?

_____ can be taken _____ reduce the effects _____ diminished water pressure _____?

_____ you _____ save _____ services with _____ water pressure?

Hospitals _____ have _____ with _____ strength.

_____ water _____ affects _____ institutions such as _____ schools.

How will _____ of _____ water _____ on critical _____ mitigated?

How do you deal with _____ hospitals?

_____ you _____ school _____ hospital water _____?

There _____ to _____ issues in institutions.

Is _____ taking any specific action _____ reduce _____ impact _____ reduced _____ in _____ and _____?

The _____ of poor water _____ schools?

Measures are _____ place to _____ the _____ on _____ as _____ result _____ pressure.

_____ water pressure's effects on important _____?

_____ the impact _____ pressure on essential services be _____?

What _____ minimize the _____ effects _____ diminished water _____ essential facilities?

Plans are _____ place to minimize _____ adverse _____ and schools.

Measures to _____ on _____ schools?

_____ are made _____ water pressure _____ hospitals _____ schools.

_____ efforts _____ made to _____ the water _____ hospitals?

What _____ done _____ reduce _____ in hospitals and _____?

Do you _____ to reduce _____ of _____ water _____ on critical _____?

_____ hospitals and _____ decreased _____ pressure?

_____ reduce lower water pressure _____ targeted hospitals _____ schools?

_____ there _____ taken to fix _____ in _____ and schools?

Low water _____ can affect _____.

_____ can _____ to minimize the _____ of low water _____?

How is _____ pressure _____ critical _____?

_____ you taking steps _____ and schools _____ negative effects _____ low _____ pressure?

How have _____ been made _____ reduce _____ pressure _____?

How _____ you making _____ unaffected when there is low _____?

Do steps have _____ taken _____ the _____ of low water _____?

_____ there _____ method _____ minimize _____ stemming from _____ watering levels _____ and _____?

_____ we minimize the consequences of _____ hospitals _____ schools?

_____ be _____ to reduce _____ of decreased water pressure _____?

The _____ low water pressure on _____ are _____ mitigated _____ what _____ being _____.
 _____ being done to address _____ pressure in essential _____?
 _____ reduce _____ effects _____ and schools
 _____ we _____ impact on essential services _____ water pressure?
 _____ action be _____ alleviate _____ water pressure _____ hospitals and _____?
 _____ water pressure _____ have adverse _____ institutions such as _____ schools.
 How does _____ vital facilities _____ as schools _____ hospitals?
 Are _____ being made _____ pressure in healthcare _____?
 _____ should _____ do about the _____ water pressure _____ hospitals _____?
 How will _____ save _____ services _____ weak water _____?
 The effects of _____ institutions are _____ addressed.
 _____ water _____ affect essential _____ like hospitals and _____.
 _____ are _____ minimize the _____ on hospitals.
 _____ impact of decreased _____ pressure _____ being mitigated.
 How _____ water _____ impact hospitals _____?
 _____ there _____ plans to reduce _____ of low _____ on hospitals _____?
