

[Demo] NLP Dataset for Customer Service Automation

Company Type	Electricity Suppliers
Inquiry Category	Renewable energy options availability
Inquiry Sub-Category	Renewable Energy Integration
Description	Customers seek guidance on integrating renewable energy sources into their existing electricity supply, including the feasibility of retrofitting their homes or businesses with solar panels or implementing microgrid solutions.
Data Size	10,509 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Electricity Supplier" customer inquiry. (Purchased data will not be masked.)

Can I retrofit solar _____ to _____ on traditional _____ sources?

I am _____ if _____ installation of _____ my _____ on electricity.

Is it possible _____ I install solar panels _____?

_____ think you should _____ solar _____ on the _____?

We _____ about modifying our _____ to harness _____.

It would _____ install _____ panel _____ in order _____ dependence _____ electrical sources.

Is _____ to retrofit _____ panels _____ a _____ reliance _____ power grids?

_____ I use _____ panels to reduce _____ electric _____ on _____?

Can _____ modules on _____ to cut _____ electrical energy?

Is _____ to install _____ panels on _____ to use _____?

_____ my _____ with solar _____ my _____ consumption?

Can _____ at home for energy _____?

Is _____ to lower _____ conventional _____ by installing _____ panels?

It is _____ install _____ technology _____ reduce our dependence _____ electrical sources.

_____ solar panels on my house _____ I don't _____ on fossil _____?

_____ to attach photovoltaic _____ to _____ house?

I wonder _____ it's possible _____ retrofit my home _____ power _____.

_____ think to install solar cells _____?

Is _____ that _____ rooftop solar systems _____ the need _____ electric _____?

_____ adding solar power at _____?

Will _____ be _____ retrofit _____ panels for energy _____?

Will solar _____ reduce _____ reliance _____ sources _____ power?

I _____ if _____ my house _____ will _____ less electricity.

Adding _____ panels _____ our home _____ reduce dependence _____ traditional _____.

_____ adding _____ to _____ my reliance on conventional _____?

_____ be willing _____ help me _____ installing _____ panels?

_____ be able to retrofit _____ on _____ house?

_____ the installation _____ down my dependence on _____?

If you install solar _____ it will _____.

_____ it possible _____ my home for less reliance _____ electricity?

Can solar panels _____ put _____ premises _____ decrease _____ power sources?

_____ it _____ possible to install solar _____ technology to reduce _____ sources in _____?

_____ our _____ harness solar _____ reduce our dependence _____ electricity.

Is _____ on traditional electricity _____ by adding _____ panels to _____ home?

Can _____ some solar panels on _____ to _____ I _____ depend _____ the _____?

_____ photovoltaic cells on my _____ would _____ decrease traditional _____ needs?

_____ possible _____ retrofit _____ with _____ panels _____ reduce reliance on traditional _____ sources?

Can _____ my house to make it use less _____?

_____ of solar _____ dependence on _____ electricity sources.

_____ possible to _____ a _____ traditional electric _____ by incorporating residential rooftop _____?

_____ it possible _____ attach photovoltaic modules to _____ to _____ standard _____?

Is it _____ that fitting _____ my _____ traditional electricity needs?

_____ you _____ to _____ solar _____ home?

_____ possible _____ residential _____ systems _____ decrease _____ need for electric utilities?

Home installation _____ panels can _____.

_____ I _____ home with solar _____ to reduce _____ electricity?

Is _____ possible _____ diminish _____ for electric _____ with rooftop _____?

Is _____ to _____ panels at home?

_____ I _____ solar panels in _____ for _____ reliance on _____?

_____ want to install _____ panels to less _____?

_____ solar panels to the _____ reliance on _____.

_____ use _____ non-renewable _____ services _____ be _____ by the _____ of _____ in a building.

_____ be possible to retrofit _____ with solar panels to _____?

Could _____ solar _____ reduce dependence _____?

Is it feasible _____ panel _____ order _____ decrease _____ on conventional electrical _____?

Is _____ to _____ on electrical providers by installing _____?

_____ you _____ to _____ solar-energy stuff _____ my _____?

Can _____ retrofit solar panels _____ for _____ independence?

Is it possible to _____ photovoltaic _____ homes _____ order to decrease _____ standard electrical _____?

Can I _____ solar _____ house _____ less electricity?

_____ I _____ my home with _____ reduce _____ on electricity?

_____ possible _____ attach _____ my house to reduce use _____ electrical _____?

_____ fitting photovoltaic cells on _____ going to _____ electricity _____?

_____ durable _____ decrease dependence on electrical power _____?

_____ is _____ solar panels to cut traditional _____.

_____ need _____ Retrofit _____ home _____ panels.

How less dependent _____ with the _____ solar _____?

Is it _____ install _____ panels in order _____?

_____ it _____ to attach solar modules to _____ dwelling _____ usage _____ energy?

_____ modules be _____ homes _____ a _____ dependence on standard _____ grids?

Should _____ put up _____ to switch _____ solar energy?

_____ you think _____ solar _____ on _____ house?

_____ the _____ of _____ photovoltaic _____ in decreasing _____ on _____ power sources?

You can _____ solar _____ house.

Can the installation _____ durable _____ help _____ reliance on _____ power _____?

Is _____ to _____ solar panels _____ home _____ energy _____?

Can the _____ sun's panel _____ to _____ energy?

_____ panel retrofits _____ reduce _____ successfully.

Is it _____ panels to get _____ of _____ electricity?

Is _____ me _____ reduce _____ grid usage by attaching _____?

Can one _____ with home _____ of _____ panels?

_____ want to know _____ installation _____ panels _____ decrease my dependence on _____.

Adding _____ to our house will help _____.

Will retrofitting my _____ with _____ reduce _____ need for _____?

_____ solar will _____ on conventional sources of _____.

How _____ on house?

_____ solar _____ reduce my _____ on conventional _____ sources?

Can _____ panels _____ to reduce _____ usage _____ my _____?

_____ possible _____ install _____ cells on a _____?

_____ to harness _____ energy reduces _____ on electricity.

_____ panels _____ put in my _____?

_____ reliance _____ fossil fuel-based _____ providers might _____ lessened _____ my _____ with _____ cells.

It _____ possible _____ solar _____ reduced reliance on _____ grids.

_____ it possible _____ the panels at _____ for _____?

_____ solar _____ to _____ will _____ us _____ on traditional electricity sources.

Should I _____ solar panels _____ my _____ my reliance _____?

_____ possible _____ a household's _____ for _____ utilities by _____ residential _____ solar systems?

_____ it _____ to _____ panel technology _____ dependency on conventional _____ sources?

_____ it _____ possible to install _____ technology _____ to _____ dependence on conventional _____ sources _____ homes?

Can _____ solar systems _____ in _____ reliance on _____?

Will _____ be _____ my _____ make _____ less _____ on power grids?

_____ modifications _____ active _____ utilization _____ be done by homeowners?

_____ it possible to retrofit _____?

Can _____ install _____ panels _____ order _____ dependence _____ regular electrical _____?

I wonder _____ retrofitting _____ with solar _____ make me _____?

_____ utility power by _____?

Should _____ to minimize dependency on _____ providers?

_____ solar cells at home _____ on fossil _____.

_____ dependent can _____ become _____ the home _____ solar panels?

Can _____ done to _____ solar panels _____ on _____ grids?

_____ to _____ self sufficient energy by _____ panels?

Can I _____ solar _____ to _____ reliance on _____?

_____ I _____ in solar _____ reduce my _____ on _____?

_____ it be feasible _____ install solar panel _____ in _____ reduce _____ dependence _____ electrical _____?

_____ installing _____ panels reduce _____?

_____ install solar _____ order to reduce dependency.

_____ of _____ systems _____ reduce _____ need _____ conventional _____ usage.

Will _____ cells help reduce _____ reliance _____ fossil _____ utility providers?

_____ solar panels _____ are less reliant on regular _____?

How can _____ get rid _____ electric _____ solar _____?

Can I _____ some _____ on _____ so _____ don't have to depend _____?

_____ it _____ for _____ to fit _____ gizmos _____ my _____?

_____ I _____ solar panels _____ on my _____ decrease _____ on power _____?

_____ panels an _____ to decrease dependence?

_____ make my property less _____ electric _____ solar panels?

_____ cells at home decrease dependence on _____?

Is it _____ to _____ dependence _____ regular _____ with _____ installation of _____?

Can I _____ solar _____ my _____?

_____ panel retrofits _____ able to _____ traditional _____ dependency _____.

_____ I _____ panels in _____ home _____ less electricity?

Is _____ possible _____ use _____ reduce the _____ for conventional power _____ residential _____?
_____ to _____ traditional _____ and use solar power _____?

Attaching _____ modules _____ house will reduce _____.

_____ the use _____ traditional _____ by the _____ retrofits?

_____ of solar _____ might _____ dependence on _____ power _____.

_____ modules may _____ grid _____ at _____.

Is _____ to make solar _____ energy-independent _____ home?

_____ it possible _____ use _____ panels _____ home?

_____ less reliance, can _____ at _____?

_____ my home _____ use less _____ with _____ panels?

Is it possible _____ panels _____ order to diminish dependency _____?

_____ possible _____ panels at home.

If _____ want to _____ lower power _____ can _____ cells at _____?

Can _____ solar panels on my premises _____ decrease _____ traditional _____?

Can I _____ the _____ house?

_____ rid _____ my dependence on _____ power _____ installing solar panels _____ house?

_____ it _____ to _____ in my home _____ less use _____ electricity?

Can _____ panel retrofits _____ dependence _____ grid?

_____ it _____ add solar panels on _____.

Can _____ use solar _____ my _____ use less _____?

I wonder _____ should _____ my _____ with solar _____.

_____ attaching _____ to my residence _____?

Can _____ solar _____ reduce my _____ electricity sources?

Is it _____ put solar _____ house?

Can solar _____ be added _____ to _____ usage?

Is it _____ install _____ panels on _____ premises for _____ reliance _____ sources?

_____ I use _____ on my _____ to _____ dependence on _____ power?

Is _____ possible _____ dependency _____ sources by installing _____ panel technology?

Changing our home to use _____ energy could _____.

_____ it _____ to _____ solar _____ to reduce power _____ my _____?

Is it _____ fit _____ panels _____ depend on _____?

_____ retrofitting my house with solar _____?

Adding _____ panels to _____ home _____ reduce _____ on _____.

_____ attaching solar _____ house a _____ of _____ electrical energy _____?

It's possible that incorporating _____ rooftop _____ diminish _____ for electric _____.

_____ solar panels _____ will _____ dependence _____ traditional electricity sources.

Is _____ to decrease _____ with rooftop solar _____?

Would it be _____ technology _____ reduce our dependence _____ conventional electrical _____?

_____ it _____ to _____ my home with solar _____ to _____?

Is it _____ my home with _____ panels to _____?

I _____ if _____ photovoltaic _____ on _____ house would _____ use.

_____ residential rooftop _____ reduce the _____ for electric _____.

_____ about adding solar _____ our _____?

Adding solar panels to our _____ may _____ sources.

_____ solar _____ my reliance?

_____ put solar _____ my home to _____ reliance on _____?

_____ to use sun-powered _____ to minimize _____ power _____ residential areas?

_____ it possible _____ retrofit solar panels to use _____.

Changing our _____ to _____ reduce electricity dependence.

_____ I put solar _____ on _____ use of electrical _____?

Do you _____ to _____ panels to minimize _____?

_____ to place _____ panels _____ my _____ for _____ power usage?

_____ it possible _____ fit solar _____ for _____?

Can _____ use _____ to _____ dependence on electricity?

Can the installation _____ decrease my _____ on _____ electricity?

_____ it _____ install _____ panels _____ order to limit _____ regular _____ providers?

_____ time to _____ to harness solar energy.

Is it possible _____ incorporating residential _____ decrease a household's _____ for _____?

How _____ sun _____ of electric?

Is _____ feasible _____ install solar panels _____ reduce _____ on _____?

_____ I fit a _____ house?

Is _____ to _____ traditional grid _____ home by _____ photovoltaic _____?

Can _____ put solar panels _____ house _____ energy?

_____ can _____ retrofit _____ panels for _____ on grids?

Do _____ think about _____ home?

_____ the use of solar panels _____ my premises _____ on _____?

_____ panels _____ put _____ my home _____ use _____ power?

_____ it _____ to _____ household's need _____ electric _____ by _____ residential rooftop _____ systems?

I want _____ put solar _____ house _____ I _____ to _____ on _____ grid.

_____ I put in _____ panels _____ reduce _____ regular _____?

_____ modify _____ home _____ use solar energy.

_____ solar _____ house so that I _____ depend _____ fossil fuel?

Is it _____ a person _____ home installation of _____ panels?

_____ possible _____ my house with solar to _____ electricity.

_____ be possible to install solar _____ technology in _____ to reduce _____ sources?

_____ it _____ use photovoltaic _____ my _____ to decrease traditional _____ needs?

Should _____ panel retrofit _____ allowed _____ traditional energy _____?

Can I place _____ on my _____ reduce _____ use of _____?

_____ panels to our _____ could help reduce _____.

Can adding _____ at home _____ less _____ on _____?

Replacing _____ my house would greatly _____ needs.

_____ using _____ home for less _____?

_____ panel retrofits may _____ to reduce _____ dependency _____ households.

Will I _____ longer _____ on fossil _____ based _____ providers if _____ my _____ cells?

_____ have solar panels in _____ home _____ grid _____?

The use _____ power _____ residential _____ be lessened _____ installing _____.

_____ panel retrofits _____ to reduce traditional _____ dependency.

_____ panels _____ dependence?

Options for _____ with solar _____.

_____ is possible _____ panels for _____ on electricity.

_____ it _____ possible to _____ panel technology in order _____ reduce _____ dependency _____?

_____ a way _____ retrofit solar panels on my _____ electricity?

Retrofitting _____ home with solar _____?

Is it possible to _____ premises for decreasing _____ on _____ power _____?

_____ solar _____ to reduce _____ reliance _____ electricity?

_____ possible to _____ solar panels for _____ electricity?

Add solar panels _____ to _____ on electricity _____.

Can a _____ used to cut _____ dependence?

_____ panels can be _____ my _____.

_____ I want lower _____ put photovoltaic cells at _____?

Retrofitting my _____ might _____ the need for _____.

Is it _____ solar _____ for energy independence?

Did you _____ at home for _____?

I _____ if _____ my house with solar _____ less _____.

Can add _____ cells _____ on fossil fuels.

_____ possible to install solar panels in _____ eliminate _____ electrical _____?

_____ I _____ some _____ panels on _____ so I _____ to _____ on your _____?

How _____ solar power _____ house?

Will adding _____ help _____ my reliance on _____?

Can _____ solar _____ my _____?

Does adding _____ power _____ home _____?

_____ at home _____ less _____

_____ should _____ do when I _____ to _____ photovoltaic _____ home?

Is there a _____ to _____ at _____?

Is _____ solar panels can _____ my premises?

Is _____ possible to attach _____ at _____ want _____ power bills?

Is it _____ to fit _____ panels that _____?

Is _____ solar panel _____ to cut _____ energy _____?

Is _____ add _____ to my home for less _____?

_____ my home with _____ affect my dependence on _____ fuel-based _____?

_____ adding _____ cells _____ help _____ on fossil fuels.

_____ it be possible _____ solar panels _____?

_____ my property make me _____ reliant on power _____?

_____ am wondering _____ it is _____ to _____ solar _____ house.

Will _____ possible to retrofit solar _____ traditional power grids?

_____ solar _____ on _____ property reduce _____ on _____ power _____?

_____ I get rid of _____ with the addition of _____ panels?

_____ it _____ to _____ photovoltaic modules _____ are _____ dependent _____ standard electrical grids?

Will _____ my _____ with solar panels _____ my _____ fuel-based utility _____?

_____ it _____ for _____ solar panels on my _____?

_____ the installation of solar panels _____ dependence _____ the _____ my _____?

_____ to use solar panels to retrofit _____?

Can I put _____ solar _____ my _____ so _____ am not _____ fuel?

_____ possible to minimize the _____ power usage _____ residential _____ by _____ systems?

It would _____ retrofit _____ panels at _____.

_____ solar _____ decrease _____ dependence on electricity in _____ house?

Can _____ at home reduce dependency on _____.

_____ help _____ my _____ on regular electricity in my house?

_____ retrofit _____ at home to make _____ independent?

_____ to reduce the _____ for _____ electricity consumption by retrofitting _____ with _____?

_____ solar will _____ reliance on conventional sources _____.

Is _____ to _____ solar _____ a lower _____ on electricity?

Is it _____ retrofit _____ at home, _____ energy _____?

_____ put _____ panels on _____ don't need to rely on the _____?

Can _____ panels _____ on _____ property to _____ my _____ on _____ power?

_____ of solar _____ could _____ reduce _____ on electricity _____.

Is _____ to install _____ in _____ our dependence _____ conventional electrical sources?

I would _____ solar panels in order _____ dependency _____ regular _____.

Integrating _____ solar _____ a household's _____ for electric utilities.
 _____ be done to retrofit solar panels for _____ reliance _____?
 Is _____ possible _____ solar panels _____ premises for less _____ on conventional _____?
 Could _____ dependency in households?
 _____ it _____ rooftop solar _____ could _____ need for electric utilities?
 _____ I can _____ photovoltaic cells _____ home.
 _____ of durable photovoltaic _____ help _____ reliance _____ electricity?
 Adding _____ is _____ reliance on traditional electricity sources.
 Is _____ to _____ solar panel technology in _____ dependency on _____ in _____?
 _____ I install some solar _____ my _____ so _____ on _____ grid?
 Maybe _____ solar _____ house?
 Will _____ help reduce my dependence _____ sources _____?
 _____ possible _____ some _____ panels on my house _____ that I _____ on _____ grid?
 _____ possible _____ traditional electricity _____ fitting photovoltaic cells?
 Is _____ possible that incorporating _____ rooftop _____ systems will diminish _____ for _____?
 Do _____ panel retrofits make a _____ dependence _____?
 Incorporating _____ solar systems _____ diminish a _____ for traditional _____.
 _____ I _____ on my _____ so _____ I don't _____ to _____ the grid?
 _____ I retrofit _____ panels in my _____ to _____?
 _____ I _____ solar panels _____ premises?
 _____ it possible _____ become _____ reliant _____ home _____ of _____ panels?
 Can _____ panels _____ in _____ for less grid _____?
 _____ it possible _____ my home _____ attaching photovoltaic modules _____?
 _____ it possible to _____ on my home _____ reduce _____ reliance _____?
 _____ put _____ in _____ home to save money on _____?
 I want to add _____ home _____ less _____ on _____.
 _____ okay to retrofit _____ cut energy _____.
 _____ to retrofit _____ at _____ for less dependence.
 Is it _____ that _____ house with _____ lower _____ electricity _____?
 _____ put solar _____ house to reduce usage _____ electrical _____?
 Will _____ help _____ my _____ electricity?
 How to get more _____ power _____?
 Will the use _____ photovoltaic cells _____ home _____ reliance _____ utilities?
 _____ up _____ to my house?
 _____ fuel-based utility _____ may be _____ if I _____ my _____ photovoltaic cells.
 _____ help reduce my _____ conventional sources?
 _____ modify our _____ to _____ energy.
 Are solar panels feasible _____?
 Is it _____ enhance _____ house _____ attaching solar _____?
 _____ to the house _____ dependence on the grid?
 Will _____ use _____ in my home _____ dependence _____ fossil fuel-based utility _____?
 _____ if the _____ of solar _____ can reduce _____ dependence _____.
 Can I _____ on _____ to _____ on power use?
 Retrofitting _____ home _____ reduce _____.
 Will _____ my _____ cells make me less reliant _____ based _____?
 Adding photovoltaic cells _____ on fossil fuels.
 Should solar _____ used to reduce traditional _____?
 I _____ attaching photovoltaic _____ will enhance _____ grid usage at _____.
 _____ fossil fuel-based utility _____ lessened _____ retrofit my _____ with photovoltaic cells.
 Can _____ be possible to _____ regular _____ by installing durable photovoltaic _____?

Should _____ install solar _____ minimize dependence on _____?

Is it _____ to decrease electrical _____ installing _____?

Is there a way _____ my _____ with _____?

_____ solar _____ help reduce dependence on _____ in _____?

Is _____ permissible _____ solar panels on _____ premises for _____ conventional power _____?

Is _____ possible to install _____ panels on _____ use?

Should _____ photovoltaic modules _____ my home _____ grid usage?

_____ it possible _____ panels _____ be installed _____ to decrease reliance _____ power _____?

_____ attach solar modules on _____ reduce usage of _____ energy?

Is _____ to _____ solar _____ on my home _____ dependence on _____?

Adding _____ my _____ electricity sources.

_____ my house with solar _____ result _____ electricity _____.

_____ possible to _____ our _____ harness solar energy?

_____ it _____ to _____ in _____ to lower dependency?

_____ my house _____ could make _____ less electricity.

_____ panels _____ our home _____ reliance _____ traditional electricity sources.

Will the installation of _____ panels _____ my dependence _____?

_____ solar _____ to _____ will decrease our reliance _____ electricity.

Is _____ to _____ solar _____ on _____ home _____ reliance on traditional electricity _____?

Is it possible _____ a household's need _____ usual _____ including residential _____?

_____ possible for _____ to reduce grid usage _____ my _____ by _____?

_____ in a home?

Adding _____ will _____ reduce _____ on _____ sources of _____.

_____ sources onto households, _____ as solar panel _____ power dependency.

Is the use _____ conventional _____ reduced _____ systems?

The _____ be retrofit _____ panels.

Is _____ a _____ idea _____ solar _____ home for less _____?

Will adding _____ with _____ conventional electricity sources?

How _____ panels be _____ to _____ dependent _____ traditional _____ grids?

Is it possible _____ panels _____ my _____ for less _____ on _____?

_____ help _____ dependence _____ the regular electricity in my house?

Is _____ to install _____ panel technology to _____ electrical sources?

_____ it _____ high-tech sun-energy stuff _____ my house?

_____ it be _____ to _____ solar _____ order _____ reduce our _____ on _____ sources?

_____ dependence _____ fossil fuel-based utility _____ be lessened by _____ photovoltaic cells.

_____ installation of _____ panels _____ dependence on electricity _____ my house?

_____ panels _____ our home could reduce _____ traditional _____ sources.

Can the _____ of solar panels _____ electricity in _____?

_____ reliance _____ traditional _____ lessened by solar _____?

_____ the _____ help decrease the amount _____ electricity I _____?

_____ it _____ better _____ add _____ power _____ home?

Is _____ an _____ reduce electrical dependence?

Is _____ to install solar panels in _____ to _____?

_____ it possible _____ reduce _____ at _____ by attaching _____ modules?

_____ it make sense _____ solar _____ on the _____?

Can _____ install _____ panels _____ less dependence _____?

_____ it _____ to reduce the need _____ conventional _____ usage when _____?

Will _____ renewable energy sources like _____ panels onto _____ property _____?

Is _____ possible _____ put _____ solar _____ on my _____ so I don't _____ depend _____ your _____?

_____ be used _____ reduce _____ on electricity.

____ I ____ panels on ____ house ____ I ____ have ____ rely on ____ grid?
 ____ use ____ non-renewable ____ services ____ be ____ with the ____ of sun-powered devices ____ ____ ____ building.
 Can solar ____ installed ____ in order to ____ reliance on ____ sources?
 ____ ____ of ____ panels ____ to decrease ____ dependence on electricity?
 ____ installing ____ systems ____ with decreasing reliance ____ regular ____ sources?
 How ____ ____ our home to ____ ?
 ____ it possible to ____ panels on ____ .
 ____ panels be ____ to ____ premises to decrease reliance on ____ ?
 ____ ____ add solar ____ to my house ____ less electricity.
 ____ I ____ solar ____ my ____ to ____ less electricity?
 ____ renewable energy sources like solar ____ my ____ my ____ on power ____ ?
 ____ solar ____ put ____ my ____ to make it less ____ grids?
 Will ____ fossil ____ utility ____ be lessened ____ my ____ with photovoltaic cells?
 ____ rooftop solar ____ an option to decrease ____ ?
 Can ____ photovoltaic ____ home if ____ want ____ save money?
 ____ it ____ decrease dependence on electricity grids by ____ ?
 ____ rooftop ____ panels an ____ for ____ dependence ____ electricity?
 Is it possible ____ my ____ solar ____ ?
 ____ it possible ____ solar ____ that ____ depend on ____ electricity?
 Can I reduce ____ dependence on electric ____ by ____ solar ____ ?
 Can ____ decrease ____ on power?
 Is ____ to install solar ____ order to ____ our dependency ____ conventional ____ sources ____ homes?
 ____ rooftop solar ____ diminish the need ____ electric utilities.
 ____ photovoltaic ____ at home ____ the use ____ fossil ____ ?
 ____ solar panels ____ house in order ____ not depend on the ____ ?
 Solar ____ to ____ dependence?
 ____ to our home reduces ____ on electricity.
 ____ solar ____ our home will ____ us less ____ on ____ sources.
 Will solar panels ____ property ____ reduce my ____ power ____ ?
 Do ____ want ____ solar ____ to reduce ____ need ____ electricity.
 Do ____ how to ____ sun's ____ my house?
 ____ of our ____ harness ____ could make us ____ dependent ____ electricity.
 ____ add solar ____ use ____ power?
 Is ____ of conventional ____ usage in residential ____ by installing ____ ?
 Can I put solar panels ____ to have ____ dependence ____ power?
 Can installing solar ____ help ____ my dependence ____ ?
 ____ it ____ to install ____ in order ____ reduce ____ on ____ providers.
 ____ photovoltaic ____ at ____ lower dependence on ____ fuels.
 ____ adding ____ help decrease my dependence ____ electricity?
 We ____ think of ____ our home to ____ .
 Integrating renewable ____ sources like solar panels ____ reduce ____ grids.
 ____ it possible ____ photovoltaic ____ on homes ____ less ____ on standard ____ ?
 ____ I install ____ on ____ to ____ less energy?
 Should I retrofit ____ solar ____ ?
 ____ solar ____ be ____ dependence on conventional ____ sources?
 ____ wonder ____ photovoltaic cells ____ traditional electricity needs.
 ____ it possible ____ retrofit ____ my home ____ reduce dependence on ____ ?
 ____ dependence on ____ power ____ adding solar panels to ____ property?
 Is ____ possible to ____ panels ____ house
 ____ it ____ to ____ solar panels ____ reduced dependency ____ ?

Could ____ panel ____ traditional power ____?

Is it possible to ____ solar ____ to ____ on ____ electrical ____?

I ____ wondering ____ I ____ attach photovoltaic ____ home.

____ it possible to ____ a household's ____ for ____ the ____ rooftop solar systems?

____ cut ____ dependence?

Place ____ at ____ less ____.

____ to put high-tech ____ stuff ____ my house?

____ it possible ____ panels in order to not have ____?

____ to ____ solar ____ reduce dependence on ____ electrical sources in homes?

Can ____ retrofit ____ panels on ____?

Should ____ home ____ upgraded ____ solar ____?

Can ____ have solar ____ in ____?

Can I put ____ at ____ home ____ I want to ____?

____ solar ____ help ____ my ____ on the electricity in my ____?

____ wondering if ____ possible ____ panels at ____ energy independence.

____ I ____ my home ____ more ____ panels?

____ solar will reduce ____ sources.

Is it possible ____ installation ____ to reduce ____ dependence ____ electricity?

____ possible ____ allow self sufficient ____ if you ____ components?

Can the ____ solar panels make my ____ electricity?

____ I install solar panels ____ property to ____ dependence ____ power?

____ panels ____ our ____ our reliance on traditional electricity.

____ it appropriate ____ my home with ____?

____ it ____ panels on my ____ to use ____ conventional ____ sources?

____ would ____ to ____ solar to ____.

Is it ____ to ____ panels on ____ use ____ power?

____ I do ____ switch to solar ____ home?

____ panels onto my property ____ on ____ grids.

____ solar panel retrofits ____ on ____?

____ solar ____ on traditional power?

Is ____ possible ____ sun-powered systems in residential ____ to ____ usage?

____ I install ____ panels in ____ to ____ my ____ on ____?

____ be a successful way to reduce ____ dependency.

____ the ____ of ____ panels ____ reduce ____ dependence on ____?

How ____ dependent can one ____ they install ____ at ____?

____ wonder if solar ____ can be ____ my premises ____ decrease ____ conventional ____.

Do you ____ panels ____ reduce need ____ electricity.

Is ____ possible ____ panels so they ____ regular electricity?

____ renewable energy ____ solar panels on ____ decrease ____ on power ____?

Is ____ for ____ panels ____ be installed on my ____ decrease ____ traditional ____ sources?

____ it ____ install ____ panel technology ____ on conventional electrical sources?

The installation of ____ devices ____ building ____ its ____ non-renewable utility ____.

Can I ____ panels on ____ property to ____ on ____ power?

____ it ____ to install ____ to ____ on electrical providers?

It ____ be ____ to ____ consumption ____ non-renewable ____ services ____ retrofitting a residential ____ sun-powered devices.

Reduce utility ____ by ____?

Will ____ solar ____ my ____ sources?

____ by Solar upgrade ____?

____ want ____ solar ____ can you ____?

____ solar ____ retrofits ____ less reliance ____ power?

____ I ____ power bills, can I ____ cells ____ home?
 ____ use ____ residential ____ solar systems could possibly diminish ____ utilities.
 Will ____ reliance ____ fuel-based utilities be ____ by ____ home with ____?
 ____ would it ____ to ____ solar ____ less reliance ____ power grids?
 ____ solar ____ to our ____ our ____ on ____ sources of electricity.
 ____ rooftop solar ____ an idea to ____?
 Is ____ possible ____ a ____ need for electric utilities by ____ rooftop ____?
 Can I put ____ panels ____ my house to ____ dependence ____?
 ____ I attach photovoltaic modules ____ to ____ usage at ____?
 ____ grids can be achieved with ____ panel ____.
 Can I ____ house to reduce dependence on ____?
 Is it possible to ____ solar ____ my ____ to ____ of electrical ____?
 The solar ____ retrofit could ____.
 The installation of ____ panels ____ help me ____ dependence ____.
 Modification of ____ to ____ solar energy will ____ electricity.
 Is there ____ way ____ add ____?
 Can ____ dependence ____ conventional ____ sources?
 ____ I place ____ my ____ decrease my reliance on ____?
 ____ it ____ retrofitting ____ home with ____ panels?
 For ____ reliance on ____ can I ____ panels ____ home?
 ____ possible ____ solar panels for ____ dependency on ____?
 Installation ____ solar ____ at home can make ____.
 Do ____ to install ____ panels ____ reduce ____ for electricity?
 Is ____ possible ____ panels on ____ reduce reliance ____ power grids?
 ____ I ____ solar ____ my house ____ way of reducing ____ use?
 ____ panels ____ on my ____ in order ____ reliance ____ power sources?
 Is ____ to fit ____ panels ____ their dependency ____ electricity?
 ____ I put ____ my home ____ use less ____?
 ____ possible ____ attach ____ modules to ____ to ____ on the ____ grids?
 Reducing traditional energy reliance can ____ retrofit.
 ____ it possible ____ put ____ solar ____ on ____ house ____ don't need the ____?
 ____ solar modules to ____ house ____ a ____ of ____ use of ____ energy?
 ____ to attach ____ modules ____ houses to decrease ____ electrical grids?
 Is ____ possible ____ decrease ____ electricity grids ____ solar ____ retrofits?
 ____ retrofit your solar ____ at home?
 ____ to place ____ on my ____ use less electricity?
 I was wondering ____ fitting ____ cells on ____ house ____ needs.
 Is it ____ to attach ____ modules to my ____ help ____ of ____?
 Can somebody ____ me ____ solar ____?
 ____ installed on my premises ____ decrease reliance ____ sources?
 Adding ____ panels to ____ reduce dependence on ____ sources.
 ____ retrofit my ____ to ____ panels?
 ____ it possible for ____ be ____ on my own ____?
 Is it ____ to ____ in ____ to reduce dependency ____?
 ____ I ____ modules ____ my dwelling ____ reduce usage of ____?
 ____ time to ____ at home for ____ reliance?
 ____ if we ____ our home to ____ energy?
 Solar ____ retrofits can ____ power.
 ____ solar ____ on my ____ in ____ to reduce ____ on ____ power?
 ____ possible ____ fit ____ panels for less ____ use?

Is it possible _____ install solar panels _____ my _____ to _____ dependence _____ sources?

Is _____ possible for _____ photovoltaic _____ to _____ on _____ sources?

_____ about _____ home with solar _____?

_____ solar panels will reduce _____ electricity _____.

_____ panel retrofit to _____ on _____?

_____ less dependent _____ a person be _____ of _____ panels?

_____ photovoltaic systems _____ decrease _____ electrical power sources?

Reduce _____ electricity _____ modifying _____ home _____ harness _____ energy.

Can _____ at _____ for energy independence?

Are rooftop solar panels an _____?

Is it possible _____ solar _____?

_____ it _____ to _____ photovoltaic cells at home if _____ power _____?

_____ it _____ decrease _____ on _____ electrical power _____ durable photovoltaic systems.

Does _____ solar panels help _____ dependence _____ regular _____ my house?

_____ it possible _____ get _____ power bills by _____ solar _____?

Should _____ modify _____ home to use _____ to _____ dependence?

_____ there a _____ retrofit _____ at _____ for _____ reliance?

_____ photovoltaic cells on _____ house _____ decrease _____ electricity needs?

How _____ become _____ the installation of _____ panels at _____?

_____ utility _____ by _____ solar _____?

_____ it possible to _____ renewable energy _____ such _____ solar panels _____?

Can _____ installation _____ panels _____ my dependence _____ electricity _____ house?

_____ possible to _____ renewable _____ sources _____ my property, like _____?

_____ it possible _____ with solar panel?

Is _____ possible _____ fit _____ panels _____ dependent _____ regular electricity?

Do _____ know _____ to _____ traditional electric and _____?

_____ it _____ to _____ grid usage by _____ modules to my _____?

The _____ of non-renewable utility _____ will be lowered _____ equipped _____ devices.

_____ adding _____ at _____ reliance on fossil fuels.

_____ solar _____ reduce my _____ on _____ of power.

Might _____ panel _____ be _____ traditional power dependency?

_____ be possible _____ install solar _____ in a _____?

Could _____ systems _____ the need _____ usage _____ residential areas?

_____ want _____ put _____ panels _____ house?

_____ attaching solar modules _____ my _____ able _____ reduce _____ of _____?

_____ attach solar _____ house _____ order to _____ of electrical energy?

_____ solar panels could _____ decrease _____ on electricity.

Is _____ good _____ install _____ panels to _____ less need for _____?

Put _____ on _____ building?

_____ reliance should _____ solar _____ home?

Is _____ solar panels _____ the home.

_____ solar panel _____ reduce reliance _____ power _____?

_____ possible _____ systems would reduce the need for _____ utilities?

_____ it possible _____ fix _____ home _____ less reliance?

Can _____ panels reduce _____ on _____?

_____ solar might reduce _____ on _____ electricity _____.

Is _____ possible _____ put photovoltaic modules _____ to _____ standard electrical _____?

_____ possible to fit solar _____.

_____ wonder _____ fit solar _____ my house.

_____ panels be retrofitted _____ home _____ independence?

It's OK to _____ panels to cut _____ .
 _____ solar panels _____ my _____ so I won't depend _____ fuel?
 _____ reliance on conventional power _____ can _____ installed?
 _____ it _____ to install solar panels _____ my premises for _____ ?
 Should the need for electricity _____ by _____ ?
 Can _____ have _____ on my property _____ decrease my _____ power?
 Was it possible _____ retrofit _____ with _____ ?
 Is it possible to retrofit _____ to _____ dependence?
 Solar _____ power dependency.
 _____ it _____ to install _____ to minimize dependency on _____ .
 Can _____ to reduce dependence?
 _____ possible to _____ panels _____ reduce traditional power _____ ?
 Changing our _____ to _____ solar _____ our _____ on electricity.
 Can _____ installation _____ solar _____ help _____ reduce my _____ electricity?
 _____ solar _____ be _____ for _____ on power grids?
 Can _____ get _____ of my dependence _____ by _____ panels to my _____ ?
 Will _____ renewable _____ like solar panels on _____ reduce my _____ grids?
 Can solar panels be added to _____ decrease _____ power?
 _____ power with solar _____ ?
 _____ I put _____ panels on _____ house _____ save _____ ?
 Can I put solar _____ my _____ to cut _____ energy _____ ?
 _____ rooftop solar _____ an option to _____ on _____ ?
 Is it _____ to install _____ decrease _____ need _____ electricity?
 You _____ solar _____ on the _____ .
 Solar panel _____ be _____ to _____ traditional _____ successfully.
 Is _____ to _____ solar _____ at _____ ?
 _____ it possible to _____ on conventional _____ solar panels?
 What _____ my _____ with solar _____ ?
 _____ I _____ panels to my property _____ reduce dependence _____ ?
 Can _____ solar _____ in my house _____ use of _____ ?
 Is installing solar _____ dependence?
 I wonder _____ photovoltaic _____ on my house would _____ the _____ .
 Incorporating residential _____ systems _____ possibly _____ the need for _____ .
 _____ can we get rid _____ traditional _____ in _____ power?
 Is _____ photovoltaic modules onto homes to _____ on _____ electrical _____ ?
 _____ solar panels _____ reduced reliance _____ traditional power _____ .
 Can _____ solar _____ order to _____ my _____ on _____ electrical providers?
 Can _____ me _____ it is _____ to retrofit my home _____ ?
 Is _____ put high tech _____ stuff _____ my _____ ?
 _____ solar _____ home for energy independence?
 Is it possible to _____ onto _____ in _____ US to _____ dependence _____ grids?
 _____ to _____ durable _____ systems that _____ reliance on _____ power sources?
 I wonder _____ I _____ solar panels _____ my _____ .
 Is rooftop solar panels an _____ to _____ ?
 Would _____ be _____ to _____ technology in our _____ ?
 Can installing _____ photovoltaic systems help _____ regular _____ sources?
 Can _____ put _____ solar panels _____ to use less _____ ?
 _____ we _____ to lighten _____ need for electricity?
 _____ to _____ home with _____ panels.
 _____ rooftop _____ systems _____ household's need for regular electric _____ ?

Did _____ of retrofitting _____ home?
 _____ to our home to _____ solar energy _____ electricity.
 Is it _____ solar at _____?
 _____ want to _____ to less need _____ electricity.
 _____ to install _____ panels for less _____ electricity?
 _____ solar _____ help _____ decreasing reliance on electrical _____?
 Could _____ reduce _____ sources of electricity?
 _____ adding solar help _____ my use _____ sources _____?
 _____ the _____ to harness solar _____ reduce electricity _____.
 _____ of _____ our home to _____ solar energy.
 It _____ possible that _____ rooftop solar systems _____ reduce the _____.
 _____ if retrofitting _____ with solar _____ my electricity consumption.
 _____ panels _____ my house?
 _____ there _____ way to _____ dependence _____ conventional electricity sources _____ panels?
 _____ possible _____ attaching _____ will improve my residence _____ grid _____ at home?
 Solar _____ be _____ for reduced reliance _____ grids.
 Will adding _____ reliance _____ sources?
 Should _____ cells _____ fitted _____ my _____?
 Is _____ possible to enhance _____ by _____ modules?
 _____ panel retrofit is _____ traditional energy _____.
 _____ it possible to _____ systems _____ minimize the need _____ residential _____?
 Is _____ to install solar panels _____ my premises _____ decrease _____ on _____?
 Is it _____ install solar _____ technology _____ our _____ conventional electrical _____?
 How _____ less _____ one _____ with home _____ panels?
 Do you want _____ on _____ house?
 _____ solar _____ reduce _____ dependence?
 Is it feasible _____ retrofit _____ panels _____ reduced _____ power _____?
 Is _____ feasible to _____ panels _____ reduce dependence _____ sources?
 _____ should _____ if _____ want to install photovoltaic _____ home?
 _____ of solar panels _____ to _____ on electricity?
 Is _____ possible to _____ panels to _____ home?
 Are I _____ to _____ my _____ panels?
 _____ of non-renewable _____ be _____ when _____ residential building _____ with sun-power devices.
 Can I _____ my _____ to decrease dependence _____ electric _____?
 Will _____ possible _____ my reliance on _____ sources by _____ solar?
 _____ it make sense _____ panel technology _____ order to _____ our dependence _____ conventional _____?
 _____ use _____ panel retrofits _____ on traditional power?
 _____ attach photovoltaic _____ for less _____ on _____ grids in the US?
 _____ attach _____ modules _____ my dwelling _____ reduce electrical _____ usage?
 Retrofitting _____ at home _____
 _____ wondering _____ it is _____ retrofit my _____ with _____ panels.
 Can _____ of solar panels help decrease _____?
 Is it _____ to _____ solar panels _____ electricity.
 _____ solar panel _____ dependency?
 Consider retrofitting _____ at _____ reliance.
 Is the _____ panels _____ way to _____ dependence _____ electricity?
 _____ I _____ panels _____ to decrease my use _____ electricity?
 Can _____ to reduce reliance on _____ sources?
 Can I _____ solar panels on _____ house _____?
 Can I _____ on my house, _____ don't _____ to _____ the grid?

____ it possible ____ install solar ____ in ____ to ____ on regular ____ ?
 Is it ____ enhance ____ residence ____ to my house?
 ____ installation of solar panels ____ on regular electricity?
 Should ____ home be ____ panels?
 ____ it ____ my ____ with solar panels?
 Is ____ to attach ____ to homes to ____ standard electrical grids?
 Can the installation ____ make ____ reliant on ____ electricity?
 ____ integrating ____ sources ____ solar panels ____ dependence on power grids?
 Is ____ possible ____ solar ____ for less dependence ____ ?
 Will solar panels ____ on typical ____ grids?
 ____ panels reduce dependence on ____ ?
 ____ possible to install ____ technology ____ our dependency on ____ electrical ____ ?
 Are ____ able to ____ me ____ installation of ____ ?
 Is ____ to ____ the use ____ power in residential ____ installing ____ systems?
 ____ fit solar ____ in ____ house?
 ____ to ____ of ____ favor of sun power?
 ____ house with solar could ____ need for ____ .
 The ____ retrofit ____ okay to ____ dependence.
 Is it possible ____ reduce my ____ electricity?
 ____ solar panels an ____ to ____ on ____ power?
 Is ____ a ____ idea to ____ for less dependence?
 Will ____ of traditional ____ be lessened by ____ ?
 ____ I put ____ panels ____ home to ____ dependence ____ grid?
 ____ solar reduce ____ on electricity?
 ____ it ____ to retrofit ____ panels on ____ home ____ dependence ____ electricity?
 It's ____ that incorporating ____ solar ____ diminish the ____ for ____ utilities.
 Changing ____ at ____ for ____ ?
 Should solar ____ to decrease dependence ____ sources?
 ____ panel ____ reliant on traditional power.
 Is ____ put some solar panels on my ____ don't ____ on ____ ?
 Is ____ to ____ solar ____ home?
 Adding solar ____ house ____ reduce reliance ____ traditional ____ .
 Is ____ to get lower power ____ by ____ cells at ____ ?
 ____ you ____ to install ____ panels ____ need for electricity?
 ____ for reduced reliance on ____ power grids is ____ .
 Can ____ panels ____ on the ____ dependence ____ conventional power sources?
 ____ add solar panels to my ____ electric power?
 ____ I ____ solar ____ my house to ____ electricity usage?
 Can I ____ solar ____ house ____ reduce ____ use ____ regular electrical ____ ?
 Will retrofitting ____ cells make me less ____ on ____ utility ____ ?
 ____ am wondering if it is ____ at home.
 ____ I ____ panels on ____ house to ____ power?
 Can I add solar ____ to ____ decrease ____ electricity?
 Incorporating residential ____ solar systems may diminish ____ need ____ .
 The ____ for ____ residential ____ may be ____ by installing ____ .
 ____ solar ____ be placed ____ house?
 ____ cells ____ home can decrease ____ on fossil ____ .
 ____ solar ____ fit for reduced ____ ?
 ____ solar panels be installed on ____ house ____ conventional ____ sources?
 Could ____ rooftop solar systems ____ household's need ____ ?

Can I _____ solar _____ if I _____ a _____ power bill?

Should I install _____ in _____ my dependency on _____ electrical _____?

Can _____ photovoltaic _____ decrease _____ on electrical power sources?

_____ I _____ solar panels on my house _____ save _____?

_____ it _____ the home with solar _____?

Should we _____ on our _____?

_____ fit solar panels for _____ reduction _____ dependency?

Can solar _____ fitted for _____ electricity?

_____ possible to retrofit solar _____ home?

_____ reliance on _____ power _____ solar panel retrofits _____?

Can I put solar _____ house _____ rely _____ your _____ fuel-loving grid?

_____ systems _____ in decreasing reliance _____ power sources?

Adding _____ to the home _____ traditional _____ of electricity.

_____ panel _____ be _____ reduce _____ on conventional electrical sources?

Can _____ have solar panels _____ to cut my _____?

_____ it possible _____ panels for _____ reliance on the _____?

Is it _____ to _____ solar _____ lower dependence _____?

I wonder if retrofitting my _____ the need _____.

Is fitting _____ in _____ house a _____?

Adding _____ to our home will _____ less _____ traditional _____ sources.

Is _____ on _____ lessened _____ solar panel retrofits?

_____ I _____ money on power bills, can I _____ home?

Is _____ to _____ solar panels to my _____ to _____?

Is _____ to retrofit _____ panels _____ my _____ to _____ less _____?

_____ home _____ use _____ energy will reduce _____ dependence.

Is it _____ to attach _____ cells at _____ power _____?

I _____ retrofit _____ with _____ panels.

Is _____ fit sun gizmos to _____?

Solar _____ be able to reduce _____ power _____.

Adding _____ to _____ home would _____ on traditional electricity _____.

_____ possible for _____ installation of solar panels _____ my _____ on _____?

Can I _____ solar _____ my _____ to _____ less _____?

Can I put _____ my house to cut _____?

Is _____ photovoltaic modules _____ likely _____ reduce grid _____?

_____ possible to install solar _____ technology _____ order _____ dependency _____ traditional _____ sources?

Does it _____ sense _____ solar _____ order to _____ dependency?

_____ it _____ to fit _____ for _____ reduced dependence _____ electricity?

_____ photovoltaic _____ be placed on _____ for _____ electrical grids?

_____ I put up _____ cells _____ home _____ I _____ to _____ to _____?

_____ reduce my _____ on conventional sources _____ electricity?

_____ panel retrofits _____ traditional power?

Is _____ possible _____ panels in _____ home.

Can the _____ solar panels help decrease _____ electricity _____ my _____?

What _____ I _____ if I _____ to put _____ at _____?

Does _____ dependence on traditional _____?

How _____ our home _____ energy?

The installation of solar _____ at home _____ less _____.

It _____ possible _____ retrofit _____ at home _____ reliance.

_____ solar _____ to decrease _____ on electrical energy?

Using _____ for _____ place _____ reliance.

Adding ____ cells at ____ could ____ dependence ____ fossil ____.

____ retrofits can be ____ cut ____ dependence.

Is ____ to put ____ on ____ to ____ usage ____ electrical energy?

Incorporating residential ____ systems might ____ household's need ____ electric ____.

Is it ____ that ____ rooftop solar systems ____ decrease the ____ ____ ____?

____ it possible ____ put solar ____ my ____ to save ____?

Is ____ possible ____ panel technology ____ order to decrease ____ on conventional ____ ____?

____ durable photovoltaic ____ help decreasing ____ electrical ____ sources?

____ to put some ____ my house so ____ don't have ____ depend ____ the ____.

____ solar panels ____ our home will make ____ ____ on ____.

Can ____ put ____ cells ____ my ____ I want a lower ____ ____?

____ it possible ____ solar ____ my home to ____ usage?

Is ____ that ____ my house with solar ____ less ____ electricity?

Add solar ____ to decrease ____ reliance on traditional ____.

Can I retrofit ____ panels ____ my home ____ on ____?

Is there a ____ solar ____ less reliance?

Is it ____ house ____ solar will ____ electricity?

Is ____ feasible to ____ solar panels ____ less ____?

Should I ____ solar ____ to ____ less electricity?

____ for ____ my home ____ panels?

____ I ____ panels in order ____ minimize dependence on ____?

Add solar panels to ____ home ____ sources of ____.

____ possible ____ attach photovoltaic cells at ____ save ____ bills?

Is it ____ put ____ panels ____ to have ____ grid dependency?

Will ____ photovoltaic cells in my ____ reliant on fossil ____?

Can solar ____ fit ____?

Is it ____ to ____ photovoltaic ____ be less ____ on standard electrical ____?

____ it possible ____ reliance on ____ electrical power ____ the installation ____ photovoltaic ____?

Adding solar ____ dependence ____ electricity ____.

____ I ____ to ____ house to ____ less electricity?

____ it possible to attach ____ onto ____ dependence ____ standard electrical grids ____ US?

Can ____ solar ____ on the ____?

____ incorporating ____ energy ____ solar panels onto my ____ power grids?

Is ____ feasible ____ put ____ panels ____ house?

Can ____ at ____ home if ____ want ____ switch to utilizing ____ energy?

Should my ____ retrofit with ____?

Will ____ my ____ of conventional ____ sources?

____ home ____ solar panels?

Is ____ solar panels that ____ dependent on electricity?

____ photovoltaic ____ to the ____ reliance ____ fossil fuels.

Can ____ use of ____ retrofits ____?

____ installing ____ in my house reduce my ____?

____ solar help reduce ____ power?

Can I ____ solar ____ house to ____ of regular ____ energy?

____ adding photovoltaic ____ reduce ____ on fossil fuels.

Should I retrofit my ____?

____ possible ____ retrofit solar panels at ____ to ____ them ____?

Think ____ the ____ to ____ energy.

Will ____ solar panels in ____ to reduce ____ providers?

Adding ____ cells at ____ is possible to decrease ____.

_____ modify _____ home _____ solar energy _____ reduce electricity dependence?
 Can _____ panels _____ installed _____ my premises _____ reliance _____ conventional _____ sources?
 _____ panel technology _____ order to reduce _____ on conventional electrical sources?
 Can I _____ panels _____ to reduce _____ on electricity?
 _____ solar _____ to help reduce my _____ electricity?
 solar _____ retrofits _____ on _____ power
 Can _____ photovoltaic _____ if I _____ less power bills?
 Can _____ be _____ reduced dependence on regular _____?
 Will installing solar _____ need _____?
 Solar _____ could possibly _____ electricity.
 _____ about retrofitting solar _____ home _____ less _____?
 Solar upgrade _____?
 Is _____ to have solar panels _____ on _____ premises _____ decrease _____ sources?
 _____ there _____ options for retrofitting my home _____?
 Can _____ on _____ property _____ decrease dependence on _____ power?
 _____ it _____ to add _____ to _____ home?
 Do _____ lower reliance on _____?
 Can the _____ panels _____ to decrease _____ on _____?
 _____ my home _____ me less reliant on fossil _____?
 I _____ if attaching _____ will _____ house and reduce _____?
 _____ it possible to retrofit solar _____ on _____ to _____ back _____ traditional _____?
 _____ solar panels _____ our _____ reduce _____ reliance _____ electricity.
 Is it _____ to add _____ at _____?
 Adding photovoltaic cells at _____ could _____ fossil _____.
 _____ ok to cut _____ dependency.
 Can _____ retrofit _____ panels _____ house to _____ less _____?
 _____ panels be retrofit for _____ on grids?
 Could _____ solar systems _____ a _____ less reliant _____ electric _____?
 _____ solar _____ home can reduce our _____ traditional electricity _____.
 _____ am _____ if I _____ fit _____ my house.
 Is _____ install sun-powered _____ that reduce _____ need for _____ usage?
 Can I _____ solar _____ on _____ house _____ depend on the _____?
 Adding _____ home could _____ reliance _____ fossil fuels.
 Is _____ possible to _____ home _____ solar panels?
 Is _____ to upgrade my _____ with _____?
 _____ solar _____ be _____ to _____ traditional energy _____?
 _____ it possible to _____ systems _____ the need _____ power usage?
 Can I retrofit _____ with solar panels _____ my _____?
 Installation of _____ cells _____?
 How much _____ can one be _____ of solar _____?
 How to _____ rid _____ the _____ get more sun _____?
 _____ it _____ make my _____ more energy _____ solar panels?
 _____ retrofit is _____ to cut _____ traditional energy.
 _____ to _____ sun-powered systems _____ residential areas?
 Can solar modules _____ put on _____ reduce the use _____?
 _____ photovoltaic _____ home _____ reliance on fossil fuels.
 Is it possible to become _____ dependent _____ installation _____?
 Can I _____ on my house _____ don't need _____ depend _____ fuels?
 _____ panel retrofit _____ cut dependence _____.
 Is it _____ retrofit solar _____ so _____ don't _____ grids?

_____ solar be _____ in _____?

I _____ like _____ dependence _____ regular _____ by _____ solar _____ on my house.

Can I _____ panels _____ my _____ don't depend on _____ grid?

_____ solar for _____?

Should _____ house _____ decrease my reliance on electricity?

_____ possible to attach _____ panels _____ less dependence _____ electrical grids?

_____ of _____ panels may _____ electricity sources.

Is _____ possible _____ place _____ homes _____ less _____ on _____ electrical grids?

_____ possible to add _____ panels _____ my _____ grid dependence?

_____ to _____ photovoltaic modules _____ homes for less dependence _____ standard electrical _____?

Is _____ my home _____ solar panels?

Can I _____ solar _____ to _____ power _____?

_____ possible to _____ my residence _____ attaching photovoltaic _____?

How _____ get rid _____ traditional _____ power instead?

_____ my dependence _____ utility providers _____ if _____ my home _____ photovoltaic cells?

Is it possible that _____ decrease the need _____ utilities?

Solar upgrade _____?

_____ it possible to add _____ panels to _____ for _____?

_____ I put solar _____ house _____ reduce usage of _____ energy?

Are _____ solar panels a _____ for decreasing _____?

Is _____ possible to _____ my home.

_____ I _____ solar modules on _____ electrical usage?

Will _____ be possible _____ retrofit the _____ home?

_____ retrofitting my _____ solar _____ going to _____ reliant on _____ utility providers?

Is _____ possible to attach _____ onto houses _____ dependence _____ standard _____?

_____ it _____ possible _____ solar _____ to reduce _____ electrical sources in homes?

_____ possible to reduce reliance _____ adding solar _____?

_____ solar panels _____ fit _____ dependency on _____ electricity?

Is it _____ install solar panels on _____ reliance _____ power sources?

Maybe _____ should _____ our home _____ harness _____?

_____ installation _____ solar _____ help decrease my _____ on regular _____?

_____ it possible _____ panels at home _____ energy _____?

Can _____ in my house.

_____ it _____ to _____ solar _____ for _____ use _____ electricity?

_____ to harness _____ energy _____ reduce _____ dependence on electricity.

Is _____ panels on my premises _____ decrease reliance _____ conventional power _____?

_____ our home _____ reduce reliance on electricity _____.

_____ power bills, can I have photovoltaic cells _____?

Is it possible to _____ electric _____ use _____.

Is it possible to install _____ dependency on _____?

Can _____ be _____ reduced dependency _____ electricity?

Changing _____ home _____ harness _____ could lower _____ dependence on _____.

Can I _____ solar _____ my home _____ less _____ on the _____?

_____ reliance on fossil fuel-based _____ providers be _____ my home with _____?

Can installation of _____ photovoltaic _____ power sources?

Is _____ possible to enhance _____ by _____ to my _____?

_____ I _____ on my _____ I can't depend on your _____?

Installation _____ could _____ dependence on conventional _____ sources.

If _____ to get _____ power bills, can _____ attach _____ at _____?

Is it _____ that _____ panel retrofits can decrease _____?

____ sun's panel ____ to ____ could allow ____ energy.
 Is ____ possible to ____ sun-powered ____ need as ____ power?
 Is ____ possible to ____ need for ____ utilities ____ rooftop solar ____?
 ____ solar panel ____ ok ____ energy reliance?
 ____ power ____ solar upgrade?
 ____ consider modifying ____ to ____ solar energy?
 Solar ____ is ____ cut traditional ____ dependency.
 ____ it possible to decrease ____ need ____ electric utilities ____ residential rooftop ____?
 Can you ____ solar ____ home?
 Is ____ to fit a solar ____ my ____?
 ____ retrofit ok ____ cut ____ energy dependence?
 ____ it possible to ____ home ____ reduce my power usage?
 Will ____ renewable energy ____ panels on ____ property make ____ less dependent ____?
 ____ I ____ added ____ my home ____ use less electricity?
 ____ use solar panels to ____ at home?
 Can I ____ solar ____ my ____ reduce ____ on electric ____?
 Can I ____ solar panels ____ my ____ on electricity?
 ____ solar panels to ____ my reliance on ____?
 Is ____ possible ____ solar ____ home ____ less reliance on electricity?
 ____ it possible ____ fit ____ that use ____ power?
 ____ feasible to retrofit ____ my home?
 Can solar ____ be installed ____ my ____ decrease ____ power sources?
 ____ it ____ reduce ____ power dependency ____ panel retrofits?
 Can ____ put ____ solar ____ so I don't use ____ grid?
 Can ____ put ____ my house so I don't ____ to ____ the fossil ____ grid?
 Is it ____ to ____ on ____ home to ____ power?
 The ____ of ____ in ____ may be ____ sun-powered systems.
 ____ solar ____ the ____ reduce ____ reliance on electricity.
 ____ possible that fitting ____ on my house would ____ electricity ____?
 Can ____ have ____ home ____ have less grid dependency?
 Will ____ cells in my home ____ reliance ____ utility ____?
 Can homeowners attach photovoltaic ____ to ____ for ____ standard ____ grids?
 Can ____ at home cause ____ dependence on ____?
 ____ it ____ to ____ my house ____ to save on ____?
 Does solar ____ help reduce ____ on ____?
 ____ solar systems ____ reduce the ____ for ____ electric utilities.
 ____ in place of traditional electric?
 ____ the installation ____ house reduce electricity needs?
 ____ the ____ cells at home?
 Should ____ solar ____ in ____ reduce dependence ____ electrical providers?
 Is ____ possible to ____ panels ____ use of ____ electricity?
 ____ solar panels at ____ become ____ dependent.
 Is ____ to ____ solar ____ house?
 Is it ____ solar panels ____?
 Can ____ solar ____ house ____ that I don't depend on ____ fuels?
 ____ to retrofit my home.
 I ____ if ____ my ____ with ____ will result in less ____.
 ____ solar ____ an ____ to decrease electric ____?
 Is it possible to ____ order ____ reduce ____?
 ____ it ____ to attach ____ modules ____ to decrease dependence ____ grids?

Options _____ my home with _____?

_____ attaching photovoltaic modules will _____ usage at _____ house?

Is it possible to install durable _____ in _____ reliance on _____?

_____ it possible _____ photovoltaic _____ homes to _____ dependence _____ electrical grids?

For reduced reliance on traditional _____ grids, _____ retrofit _____?

_____ energy _____ be _____ home _____ reduce electricity dependence.

_____ it _____ to _____ sun _____ to _____ house?

_____ have _____ on my premises _____ on conventional power sources?

_____ is possible _____ add photovoltaic cells at home _____ on _____.

_____ it possible to _____ on my _____ reduce _____ of electrical _____?

_____ _____ install solar _____ in _____ to _____ dependency on _____ electrical providers?

_____ help reduce my _____ on conventional _____?

Can I _____ panels on _____ property _____ dependence _____ power?

I wondered if fitting photovoltaic cells on _____.

_____ panels to _____ reduce _____ the traditional electricity sources.

Is _____ put _____ panels at _____?

Solar panel retrofits _____ by _____ energy sources onto households.

_____ to _____ self enough energy _____ solar panel components?

Is there _____ add _____ power to _____ house?

Installation _____ cells _____ house would decrease _____ electricity _____.

Is it _____ to install _____ panel technology in _____ to _____ our _____ on _____ homes?

Options _____ house _____ solar panels?
