

[Demo] NLP Dataset for Customer Service Automation

Company Type	Natural Gas Companies
Inquiry Category	Gas appliance installation guidelines
Inquiry Sub-Category	Gas Appliance Clearance Requirements
Description	Educating customers about the minimum clearance distances needed around gas appliances to prevent fire hazards and ensure proper air circulation, including guidelines for placement near combustible materials, walls, windows, and ventilation sources.
Data Size	5,871 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Natural Gas Company" customer inquiry. (Purchased data will not be masked.)

What are ____ clearance requirements ____ placing ____ gas ____ combustible ____?
____ to ____ space ____ gas appliance and fire.
____ are clearance requirements ____ a gas appliance ____ dangerous.
How much space ____ gas ____ that are hazardous?
Is ____ permissible ____ put gas things next ____?
Is there ____ about the ____ gas appliances to ____ ignitable ____?
____ clearance ____ installing a ____ appliance?
____ the ____ with ____ a gas appliance ____ something ____ explode?
Is there a set ____ gas ____ and ____?
Do ____ know the rules ____ a ____ fire?
I don't ____ away ____ gas appliances ____ be ____ materials ____ combustion.
Can ____ tell ____ what the ____ clearance ____?
Can I ____ my gas appliance next ____?
Do ____ have any ____ the distance ____ appliance ____ possibly ____ materials?
____ a gas ____ be ____ near things ____ catch ____?
Is installing ____ gas ____ burnable materials ____?
____ could ____ restrictions on placing ____ devices ____ burnable ____.
____ proper spacing between gas ____ and ____ burn ____?
Can I place ____ something that is ____?
Can I ____ gas appliance by ____?
____ deal ____ a gas appliance ____ to ____ that is dangerous?
When ____ appliance near ____ what are the ____ clearances?
____ distances ____ necessary between gas ____ and ____?
There ____ guidelines ____ placing a ____ unit near ____ can catch ____.
____ should ____ clearance standards ____ for fitting a ____?
____ know the clearance ____ a gas ____ near an ____ is ____ to ignition?
There ____ needed for ____ gas ____.
Do ____ know ____ clearance ____ for situating ____ appliance near ____ dangerous ____?

What are _____ required between a gas appliance _____ materials _____?

What _____ are needed _____ gas _____ and _____?

_____ needs _____ be _____ for placing _____ gas device.

Can _____ a _____ near burning _____?

Can _____ appliance _____ near _____ that can _____?

_____ distance _____ gas appliances and _____ items?

Where _____ required distances _____ and gas appliances?

_____ for _____ a _____ device

What _____ should _____ needed between a gas _____ and _____?

_____ it ok _____ gas _____ is close _____ can catch fire?

Please let _____ the clearances needed _____ gas _____.

There are _____ regarding _____ near dangerous _____.

There are _____ regarding _____ placement _____ gas appliances _____.

I _____ the clearance _____ for _____ a gas appliance near _____.

What _____ are needed for installing _____ close to _____?

There _____ clearances _____ placing a _____ device _____ a _____.

_____ clearance _____ installing _____ appliances _____ to fire?

Is there proper _____ guidelines _____ placing _____ substances _____ burn?

_____ clearances _____ necessary for having _____ gas appliance.

Do _____ have information _____ for _____ appliances?

Clear _____ machine _____ near _____ objects?

What distance _____ appliances and fire-prone _____?

There are requirements about _____ space between _____ appliance _____.

_____ distances _____ required _____ fire-prone _____ and _____ appliances?

_____ are the _____ from dangerous materials when installing _____ appliance?

Please _____ me the _____ a gas appliance _____ fire.

There _____ clearance rules _____ installing _____.

The _____ gas appliances _____ ignitable materials _____ question of _____ specific _____ protocol.

_____ there any _____ needed _____ gas appliance _____ dangerous materials?

Is it necessary _____ appliances _____ clearance around flammable _____?

_____ you _____ about clearances between gas appliances _____ dangerous _____?

Can you _____ us about _____ between _____ appliances _____ dangerous _____?

What _____ clearances for placing a gas _____?

What _____ for _____ a gas _____ close to _____ material?

_____ is the _____ a _____ appliance and _____ dangerous materials?

_____ okay if my _____ is close _____ can catch fire?

_____ are the _____ between _____ gas appliance _____ materials _____ may be _____?

_____ guidelines for _____ gas appliances beside _____ that _____ readily?

Is _____ any _____ for placing _____ next to substances _____ burn _____?

_____ rules for installing a gas _____?

How should _____ appliances be _____ next _____ that _____?

Do I _____ put gas stuff _____ to _____?

_____ specifications is _____ for _____ between _____ gas appliance _____ dangerous materials?

There _____ be clearance criteria _____ gas _____ something.

There are guidelines _____ a gas _____ that can _____ on _____.

Is there _____ rules _____ gas device near _____?

What distance _____ required _____ a _____ appliance _____ materials that _____ dangerous?

Which _____ the _____ for clearing _____ a _____ and a _____?

Do _____ know _____ distances _____ and fire-prone items?

I _____ to know the minimum _____ between _____ and inflammables.

_____ a _____ appliance is _____ easily ignitable _____ what _____ the rules?
_____ placing a _____ device _____ inflammables _____?
_____ set _____ distances _____ of _____ appliances from burning things?
_____ are clear _____ can gas machine _____ close _____?
Can _____ appliance near _____ things?
_____ it necessary _____ have _____ stuff that burns?
_____ are the _____ clearances _____ gas _____ next to fire?
_____ clearances _____ to install a _____ close to _____ material?
Tell me the _____ gas _____.
There are required _____ between _____ items
There _____ necessary to place _____ device by _____.
Can _____ gas appliance _____ something that could _____?
_____ me the clearances necessary _____ have _____ appliance near _____.
There _____ be _____ appliance clearances.
The distance between _____ gas device and _____.
What _____ necessary clearances _____ you _____ gas appliance?
_____ requirements for _____ a gas appliance?
Installation _____ a gas _____ close _____ burnable _____ needs _____.
Can _____ give _____ the _____ distances for _____?
Are there any _____ between _____ potentially _____ items?
_____ I _____ a gas appliance _____ fire?
How about _____ for _____ device?
Tell _____ the required _____ a gas _____.
_____ are rules _____ putting a gas _____.
_____ there _____ placement of gas devices _____ burnable objects?
_____ are _____ rules when installing _____ near fires.
I _____ there _____ restrictions on _____ next to _____ objects.
_____ it ok for _____ be close _____ materials _____ can catch _____?
_____ clear _____ machine be _____ burny things?
_____ there _____ specific clearance for _____ unit near _____ catch fire?
_____ about the gas _____ clearance.
There are posed _____ clearances _____ appliances next _____ fire.
Is _____ alright for _____ appliance _____ materials that can _____ fire?
There are _____ putting _____ gas _____ next _____ fire.
Can a _____ some kind of _____ danger?
Tell me _____ clearances _____ for a _____ appliance.
_____ are clearance rules _____ appliance _____.
Can you tell _____ the _____ clearances _____ appliances _____ potentially _____?
What are the clearances for _____ a _____ that _____?
_____ are _____ between a gas appliance _____ flaming objects.
_____ the necessary _____ for _____ a _____ appliance?
_____ there restrictions on placing _____ near _____?
_____ should _____ specific guidelines _____ a _____ near _____ that _____ catch fire.
_____ the rules _____ positioning _____ gas appliance _____ something.
What _____ rules _____ device near something that may _____ dangerous?
_____ far away should I keep _____ appliances _____ materials _____ prone _____ burning?
_____ the required _____ between gas _____ items?
Is it possible to _____ a gas appliance _____?
Is _____ placing _____ appliances next _____ substances _____ burn well?
Do _____ know _____ there are _____ requirements for _____ gas _____ items _____ are vulnerable _____ ignition?

There ____ rules for ____ appliance ____ .

Do ____ the clearance requirements for situating a ____ appliance ____ susceptible ____ ?

What ____ the ____ a ____ device and ____ material?

What ____ to ____ space for ____ gas appliance?

____ machine ____ near ____ items?

There is ____ safety ____ for ____ proximity ____ to easily-ignitable ____ .

____ we ____ do to ____ between a gas ____ and ____ fire?

____ be ____ where gas devices can ____ put ____ burnable objects.

____ clearing standards for fitting a ____ ?

____ there clearance for ____ appliance ____ something ____ is potentially dangerous?

How far ____ should ____ my gas ____ that ____ to burn?

____ there proper ____ gas appliances and ____ flammable ____ ?

____ you have ____ guidelines ____ spacing ____ to substances ____ burn easily?

clearance restrictions ____ devices next to ____ ?

What amount ____ do you need ____ gadgets ____ ?

____ to ____ you have ____ about ____ requirements when situating a ____ .

There may ____ clearance ____ for ____ a ____ unit ____ .

Is ____ appropriate to ____ appliances ____ to substances ____ burn ____ ?

Do ____ what ____ a gas appliance ____ items ____ to ignition?

Is there a ____ for ____ ?

There ____ specifications regarding ____ between ____ gas ____ potentially ____ materials.

____ about ____ fitting a gas ____ combus material?

Are there any ____ regarding ____ between a ____ dangerous materials?

Do ____ have any guidelines ____ up gas appliances ____ ?

What ____ the rules ____ putting ____ device ____ to a ____ ?

Is ____ requirement for situating ____ gas ____ items ____ to ignition?

____ can gas machine ____ to burn ____ ?

____ is ____ necessary ____ to ____ appliances next ____ materials ____ are hazardous?

____ a gas ____ be ____ some sort ____ fire ____ ?

____ there clearance for ____ device ____ combus material?

What is ____ required clearance for ____ by ____ fire?

____ there a safety ____ appliances ____ be ____ to easily ____ materials?

Tell me ____ required for ____ gas appliance to ____ .

Can you ____ the ____ clearances ____ gas appliances ____ potentially ____ ?

The distance ____ appliance and something ____ dangerous.

There are ____ gas ____ flammable materials.

Do ____ know ____ for situating ____ gas ____ a fire?

Can gas things ____ flammable ____ ?

____ necessary ____ have a gas appliance.

Tell ____ the clearances I ____ a ____ .

Measure ____ must be followed when installing ____ in close ____ that can ____

How much room ____ need ____ a ____ appliance and ____ ?

____ you ____ the ____ requirements are for situating ____ gas ____ near ____ to ____ ?

____ it okay ____ my gas ____ near ____ catch fire?

Do ____ clearance requirements for sitting ____ appliance ____ that are ____ to ____ ?

How ____ room ____ you ____ between gas ____ ?

Do ____ if ____ clearance ____ for gas appliances ____ that are susceptible ____ ?

____ are guidelines ____ of ____ unit ____ something that ____ catch fire.

____ there ____ for ____ gas appliances ____ to substances that burn ____ ?

____ a ____ machine ____ burny areas?

_____ requirement for clearance _____ sitting a gas _____ near _____ ignition?
 _____ between gas appliances _____ fire-prone items are _____.
 Do _____ know _____ is _____ clearance criteria _____ a _____ appliance.
 Is there a _____ placing _____ appliance _____ something that _____ dangerous?
 Is _____ a safety _____ for _____ next to _____?
 _____ you give _____ safe _____ a gas appliance _____ fire?
 There are _____ a _____ device _____ something that is _____.
 _____ clearance _____ when _____ a gas appliance?
 Do _____ on placing gas _____ next to _____?
 _____ it _____ appliance near some dangerous material?
 _____ for gas _____
 When _____ gas device _____ inflammables, _____ are _____.
 There are clearances _____ gas appliance _____ a _____.
 Clearance _____ placing _____ gas _____ a fire?
 How much space _____ between a gas _____ a _____?
 When installing gas _____ next _____ what _____ the _____?
 Can you _____ about _____ appliance clearance around _____?
 There _____ requirements _____ between a gas _____ and _____ dangerous.
 _____ between _____ gas appliance and something that _____ be _____.
 _____ have _____ about _____ requirements _____ a gas appliance?
 _____ it possible _____ guidance on clearances between _____ and _____ dangerous _____?
 The _____ gas appliances and _____ items _____ known.
 There _____ needed distances _____ appliances _____ fire _____ items.
 When _____ a gas device _____ clearances _____.
 _____ rules for _____ gas appliances next _____ substances that _____?
 Is _____ a _____ appliances' _____ around fire?
 _____ is _____ minimum distance _____ a _____ and inflammables?
 What's _____ to _____ a _____?
 _____ you _____ the clearance requirements _____ situating a gas appliance _____ items _____ ignition?
 There _____ requirements for _____ between _____ gas appliance _____ materials.
 The _____ for _____ a gas _____ something that _____ dangerous.
 _____ distances should be considered _____ fire-prone items?
 What is _____ distance _____ a gas _____ inflammable _____?
 _____ are _____ a gas _____ by inflammables.
 _____ are restrictions on the _____ of _____ devices _____ objects.
 Is _____ a _____ for _____ of gas appliances _____ easily _____ materials.
 There _____ a gas _____ next _____ something _____ is dangerous.
 What are _____ safety clearances _____ positioning _____ adjacent _____?
 What _____ the clearances _____ placing _____ appliance near a _____?
 Do _____ know _____ clearances are required for situating _____ gas _____ susceptible _____?
 Can _____ a _____ appliance _____ to something _____ burns?
 Do you _____ for _____ up _____ appliances _____ risks?
 Clear _____ machine _____ burny things?
 _____ is _____ between a gas appliance _____ potentially _____?
 _____ are supposed _____ clearances _____ gas _____?
 Do _____ to be clearance _____ for placing a gas _____?
 _____ there clearance _____ for installing _____ fires?
 Is thereposed _____ for _____ appliances _____ to fires?
 _____ are the _____ gas appliance _____?
 _____ are requirements to _____ the _____ appliance _____ a fire.

Is ____ okay ____ gas ____ is near something ____ fire?
 ____ you have ____ when installing ____ gas appliance?
 There ____ clearance requirements for placing a ____ fire.
 ____ relating ____ gas appliance clearance.
 What is ____ between a ____ device ____ inflammable substance?
 Can a gas ____ placed ____ that ____ dangerous?
 Any ____ pertaining ____ appliance clearances ____?
 There are ____ requirements regarding ____ combustibles?
 What requirements exist ____ and ____?
 ____ about ____ appliance clearances near ____ materials.
 ____ it possible to have ____ gas ____ can catch fire?
 What ____ space do ____ a gas device ____ fire?
 ____ is ____ to ____ space ____ appliance and a fire?
 Is a gas ____ things ____?
 ____ supposed safety ____ positioning of gas appliances?
 ____ to put gas appliances ____ to ____ that ____?
 ____ standards for ____ device ____ combus?
 ____ is ____ clearance ____ for fitting ____ gas ____ combus material?
 ____ there ____ standards for ____ a ____ by ____ material?
 There are ____ space ____ gas appliance and ____.
 Can I put ____ gas ____ near ____ that ____?
 ____ gas ____ clearances?
 What is it ____ must ____ to ____ gas ____ by inflammable ____?
 There ____ rules for installing ____ something.
 Is there a ____ guidelines for ____ unit near ____?
 There are requirements for ____ the ____ the ____ flammables.
 What ____ required distance between ____ fire-prone ____?
 ____ gadgets okay if ____ to materials ____ can ____ fire?
 What ____ the ____ clearances ____ appliances ____ to fire?
 ____ important clearances ____ installing a gas ____?
 ____ there restrictions ____ placing gas ____ burnable ____.
 Is there guidance for ____ gas ____ and ____?
 There ____ needed for a ____ to ____ near ____ fire.
 ____ devices be put ____ to ____?
 Is it ok ____ a ____ be ____ something that ____?
 Can I store ____ next to something ____?
 ____ guidelines ____ be followed ____ device next to ____ that can ____ fire.
 Is there proper ____ for ____ next ____ burn readily?
 ____ be clearances for ____ a gas appliance ____ to ____.
 ____ you ____ about gas ____ clearances?
 ____ you ____ if ____ clearance ____ sitting a gas appliance ____ susceptible to ignition?
 Can you ____ us ____ the ____ clearance ____?
 Can ____ gear be ____ fire ____?
 ____ me ____ about the safe distance for ____ gas ____?
 Is ____ safe ____ gas ____ near ____ potentially dangerous ____?
 Is it ____ to ____ space ____ a gas appliance ____?
 Is ____ clarify gas ____ clearance around burning ____?
 ____ a ____ on ____ from ____ appliances to burning items?
 What ____ the clearances needed to install ____ gas ____?
 There is ____ need ____ when ____ gas ____.

_____ the clearances for _____ device?

Can _____ be _____ fire _____?

Do _____ to _____ a _____ appliance close _____ easily ignitable _____?

_____ there _____ for placing a _____ appliance _____ that _____ be dangerous?

There _____ be clearances needed _____ device.

_____ are _____ clearances _____ positioning _____ next to a fire?

Is _____ needed _____ a gas device by _____?

The minimal _____ inflammables should be specified.

_____ of a _____ close to burnable _____ requires _____ clearances.

_____ gas appliance clearance _____ flammable _____?

Can _____ me a safe _____ for _____ appliance?

There are _____ for distance _____ combustible _____ installing _____.

Is _____ safety clearance for _____ appliances _____ to the _____?

_____ for having a gas _____.

Please tell me _____ are needed _____ a _____ appliance.

There may _____ clearance criteria _____ gas appliance near _____.

_____ a required _____ between gas _____ and _____ items?

There are requirements _____ clear _____ gas appliance _____ a _____.

Can _____ have a _____ something _____ burns?

Installation of a _____ near _____ requires certain _____.

_____ me if there are clearance _____ for _____ appliance?

_____ for clearance _____ a _____ appliance?

Do you _____ guidelines _____ setting _____ gas appliances _____?

Do I _____ to put _____ things _____ to _____?

There _____ rules for _____ gas _____.

There are _____ rules _____ gas _____ fire.

Can you _____ about _____ appliance _____.

_____ ok for my _____ to _____ materials _____ can catch fire?

The _____ putting _____ gas device near _____.

_____ are _____ for gas _____ clearance _____ flammable _____

_____ the _____ clearances for _____ gas _____.

_____ is a need _____ gas appliance's _____ around _____.

Is _____ any specific _____ about placing _____ fire?

When putting _____ close to easily ignitable materials _____?

_____ required distances between _____ and fire-prone _____.

_____ of _____ appliances to _____ materials _____ the question of _____ safety _____.

_____ there _____ restrictions _____ gas devices near burnable _____?

Does the gas _____ have to be _____?

What _____ do to clear space _____ a gas _____ and _____?

_____ are rules _____ the installation of a gas _____.

What _____ the clearance _____ need _____ gas _____

Tell _____ what the clearances are required _____.

There _____ surrounding the _____ appliance _____.

Do you know _____ rules _____ for _____ device near _____ fire?

Rules _____ gas appliance _____ materials?

_____ on _____ gas devices can _____ next to burnable _____?

_____ there _____ spacing norm _____ placing _____ appliances beside _____ quickly?

I _____ if _____ a _____ for the proximity _____ appliances _____ easily ignitable _____.

There _____ clearance rules for _____ gas _____ near _____.

Isposed safety clearances _____ gas _____ next _____?

Tell _____ the _____ are _____ for _____ a gas _____.
 Is there _____ limit on the _____ that are burning?
 Can _____ a gas _____ to something that _____?
 _____ the _____ for a _____ appliance.
 There _____ clearances _____ installing a _____ appliance.
 Is _____ a _____ for _____ gas appliances _____ that burn _____?
 Are there _____ guidelines _____ appliances next to _____ that burn _____?
 _____ should the _____ of _____ be _____ substances _____ burn easily?
 _____ are _____ for placing _____ gas _____.
 _____ appliance clearance.
 Is _____ distance required _____ a _____ and inflammables?
 _____ there _____ spacing norm for _____ gas appliances next _____ that _____?
 Rules _____ clearances _____ a _____ appliance?
 _____ might _____ restrictions on _____ devices _____ to _____ objects.
 Can _____ gas _____ near _____ danger?
 _____ a _____ between gas appliances and _____ that burn _____?
 _____ clearances _____ required _____ having _____ gas appliance near a _____.
 _____ clearances in _____ to place a _____ device by _____.
 Was _____ authorized _____ have _____ inflammables?
 _____ know the clearance _____ situating _____ gas appliance near _____ vulnerable _____ ignition?
 _____ is the _____ for gas _____ combustibles?
 _____ spacing _____ for placing gas appliances beside substances _____?
 There may _____ gas _____ near things that can catch _____.
 _____ place a gas _____ right _____ that burns?
 _____ any _____ regarding _____ next to substances that _____ easily?
 What _____ do I need when installing _____?
 _____ is _____ protocol for the _____ of gas _____ ignitable materials
 Gas appliances _____ clearance _____.
 _____ proximity of _____ appliances to easily ignitable materials?
 What is the minimum distance needed _____ device _____?
 Is there _____ placing a _____ near a _____?
 Do gas _____ need _____ clearance _____?
 What _____ the clearances _____ placing a _____ next _____ fire?
 _____ clearances to install _____ appliance?
 _____ you have _____ guidelines for _____ gas _____ near _____ danger?
 I _____ know the safe distance for _____ around _____.
 Can I keep a _____ to something _____?
 _____ standards _____ gas devices _____ material?
 _____ far _____ keep my gas _____ materials that _____ prone _____ burn down?
 There _____ a _____ protocol _____ the proximity _____ gas appliances _____ ignitable _____.
 What is the _____ for _____?
 What _____ the necessary clearance _____ next _____ fire?
 Do _____ guidelines _____ a _____ unit near things _____ catch _____?
 _____ should _____ clearance _____ placing _____ gas _____ close to _____.
 _____ are _____ when fitting a _____ device?
 _____ appliances _____ clearance around _____ are _____ dangerous.
 _____ installing _____ to burnable materials what _____ the clearances?
 Is _____ possible _____ clarify _____ around potentially _____ objects?
 Tell _____ are for gas _____.
 _____ are _____ for _____ distance between a _____ appliance _____ materials.

Can _____ the _____ distance _____ for _____ gas device _____ inflammables?
 _____ any _____ on _____ between gas appliances _____ dangerous items?
 _____ are _____ clearance _____ for placing _____ gas appliance _____ a _____?
 _____ there a _____ about positioning a _____ close to _____?

Can you tell me _____ gas appliances _____ potentially _____?
 _____ clearance for _____ gas appliance close to something _____?
 Are _____ clearance _____ situating _____ gas appliance _____ that _____ susceptible _____ ignition?
 Do we _____ to clear the stuff _____ thing?
 _____ requirements _____ appliance clearances?

Is _____ a set _____ rules _____ gas device _____ fire?
 _____ have _____ when placing a gas _____.
 _____ restrictions on the _____ near burnable objects?

Can _____ tell me _____ a _____ device and inflammables?
 _____ must _____ gas device be _____ inflammable _____?

There _____ to _____ safety _____ for _____ gas appliances _____ to _____.
 _____ have _____ a gas appliance close _____ easily ignitable materials?

What are _____ placing a gas _____?
 _____ there _____ for placing _____ appliance near _____ is _____ dangerous?

There _____ guidelines _____ placing _____ near things _____ can cause a _____.
 Do _____ guidelines for _____ appliances near _____ hazard?
 _____ amount _____ space do _____ between gas and _____?
 _____ about clearance standards _____ device?

Does _____ protocol for the proximity _____ appliances to easily _____?
 Is _____ limit _____ the distance from _____ appliances to _____ are _____?
 Does fit _____ by combus _____ have clearance _____?
 _____ when there _____ a gas appliance.

Are you _____ to give _____ about _____ appliances and _____ items?
 _____ are _____ distances _____ a gas appliance and potentially _____?
 _____ the gas machine _____ burny _____?

Is there _____ the safety of _____ near _____ ignitable _____?
 Is there _____ a gas _____ that might be _____?
 _____ the _____ to gas _____ clearances?

There _____ guidelines _____ installing _____ natural-gas device near _____ that can _____.

Is it _____ for _____ to be _____ burny _____?
 _____ placing a gas _____ to something dangerous?

What can you _____ gas _____ potentially dangerous items?
 _____ know what _____ clearance _____ installing _____ appliances _____ to fire.
 _____ you _____ me clearance rules _____ installing _____ appliance?

It's _____ away a _____ appliance _____ be from dangerous _____.

Can _____ gas gear _____ stuff?
 _____ needed to place a _____ an inflammable area.

When placing _____ to be clearances?
 _____ placing a gas _____ close _____ something that _____ be dangerous.
 _____ rules: _____ be close to burny _____?
 _____ are some specifications _____ between a _____ appliance _____ potentially _____ materials.
 _____ you _____ me about _____ safe distance _____ gas _____?
 _____ are _____ standards _____ fitting _____ gas device.

There might _____ for _____ a gas _____ near _____ can _____ fire.
 _____ are rules for gas _____ clearances _____.
 _____ the clearance required _____ placing _____ appliance near _____ fire?

_____ gas appliance's clearance _____ items.

_____ if _____ are _____ for placing _____ gas appliance next _____ something.

Is there a _____ appliances' _____ items?

Is _____ necessary for this _____ to be _____ stuff _____?

How much clearance is needed _____ a _____ device _____?

Imposed safety _____ gas appliances: what are _____?

_____ gas appliances and fire _____ are unknown.

_____ appliances authorized to be _____?

_____ the _____ to _____ gas appliances close _____ burnable _____?

_____ a _____ distance _____ gas device and inflammables?

What _____ be _____ for _____ distance _____ a _____ appliance _____ dangerous materials?

_____ there _____ protocol for the proximity _____ gas appliances to _____ ignitable _____?

Is _____ restrictions _____ placing _____ devices _____ to _____ objects.

How to _____ gas _____ to substances that _____?

There _____ clearances needed to place _____ by _____.

There _____ clearance rules for _____.

_____ there _____ a _____ appliance near something that's _____?

Is _____ on the _____ gas _____ and potentially dangerous _____?

Can a gas _____ flammable _____?

The required distances _____ appliances.

There are restrictions _____ placing _____ devices _____.

_____ guidelines must _____ followed when _____ a natural-gas device _____ that _____?

_____ any clearance for placing _____ gas _____ close to _____ that _____?

_____ a _____ safety _____ for _____ close proximity of easily ignitable _____?

Is _____ clearance for _____ appliance _____ something _____ could _____ dangerous?

Is it _____ for _____ gas appliance _____ placed _____ something that could _____?

Can _____ a gas appliance near something _____?

Is _____ for my gas device _____ that _____ catch fire?

_____ to gas _____ clearance?

Installation _____ gas appliance _____ requires clearances.

There _____ gas appliance _____ near flammable _____.

_____ gas appliance be from dangerous _____?

_____ types _____ are needed to install _____ appliance?

_____ which _____ are _____ having _____ gas appliance near _____ fire.

_____ the _____ if you _____ to _____ a _____ near a fire?

_____ placing a _____ unit near things _____ catch fire.

_____ there a _____ protocol for the proximity _____ easily _____ materials?

_____ must be _____ rules _____ a _____ appliance.

Do I _____ a gas _____ next _____ that burns?

Does anyone know _____ any _____ appliance _____?

Should _____ appliances _____ around flammable _____?

clearance around _____ items _____ needed _____?

When _____ gas appliance, _____ are _____ clearances?

_____ is a need _____ clearances around _____ items.

_____ some _____ for _____ a gas unit near things _____ can _____ fire.

There is _____ for _____ gas _____ easily ignitable material.

There are _____ for _____ gas device _____ a _____.

_____ are specifications _____ between a _____ and _____ dangerous materials.

The _____ distances _____ fire-prone items.

_____ amount _____ needed between _____ gas device and a _____?

_____ the _____ for fitting a gas _____ combus material?

There are _____ appliance clearances near _____.

Is there _____ specific rules about _____ items?

_____ for placing _____ gas appliance.

Do _____ any guidelines for setting up gas _____?

_____ much room _____ you need between _____ gas device _____?

_____ for placing gas appliances _____ things that burn _____?

Tell me _____ the clearances needed _____ install _____.

_____ are clearance _____ a gas _____ by _____ material?

Can I _____ gas appliance _____ something _____?

_____ the rules for _____ gas _____ to easily ignitable _____?

There are _____ placing a _____ unit _____ objects _____ fire.

_____ there any _____ a _____ appliance close to _____ is _____ dangerous?

_____ a _____ close to potentially dangerous _____?

Do _____ restrictions _____ placing gas _____ objects?

Is it okay for _____ gas _____ that burns?

Is _____ necessary _____ clearance _____ appliances _____ items?

The required distance is _____ appliances _____.

The required _____ between _____ fire-prone _____.

 There may _____ placing gas devices _____ burnABLE _____.
 There _____ to be _____ when _____ gas _____ that is _____.
 Is the _____ needed _____ flammable items?
 _____ you tell _____ appliance clearance
 Is _____ between a _____ and inflammables _____?
 _____ clearances for placing _____ gas appliance _____ to _____ fire?
 _____ are the _____ the _____ between the _____ appliance and the _____?
 _____ installing _____ next _____ materials _____ are _____ what is the required _____?
 _____ about clearances _____ devices by combus _____?
 What's _____ installing _____ appliances?
 _____ are needed _____ a gas _____?
 _____ it necessary _____ obtain clearances _____ gas device?
 _____ there _____ limit on _____ distance _____ appliances and _____ are on _____?
 _____ for _____ a gas device next _____ is dangerous.
 _____ tell me _____ the _____ clearances _____ gas appliances and _____ dangerous _____?
 _____ is _____ clearance _____ need _____ next to a fire?
 _____ there clearance rules _____ installations?
 What _____ guidelines _____ be _____ for _____ appliances beside substances _____ easily?
 Do _____ clearance restrictions _____ gas devices _____ burnable _____?
 _____ clarify the _____ of _____ appliances

There needs to be ____ before ____ gas ____.

I ____ if ____ were ____ clearance criteria ____ a ____ appliance.

Is ____ clearance ____ fitting gas ____?

There ____ installing a ____ to burnable materials.

Do ____ restrictions on placing gas ____ burnable ____?

____ have ____ standards for ____ a ____ device?

I'm wondering ____ can put gas ____ near ____.

Is ____ gas appliances' ____ items?

There are rules for putting a ____ things ____.

____ is ____ clearance required for placing ____ next ____ a ____?

Is it ____ to place ____ unit ____ things ____ catch ____?

____ are rules ____ appliances near ____ items.

The distance between ____ gas ____ should ____ specified.

Is there clearance for placing a ____ something ____?

Is it permissible ____ put ____ next ____ flammable ____?

____ the ____ gas appliance next to ____ that ____ dangerous?

clearance ____ placing ____ gas unit near ____ that ____?

____ safe to ____ a ____ appliance ____ flammable material?

Can ____ place gas ____ near ____?

____ are rules ____ clearance near dangerous ____.

____ the clearances ____ installing ____ appliance?

____ to ____ installing a gas ____?

Is ____ clearance ____ a ____ appliance ____ to something?

There ____ requirements ____ space between a ____ appliance and ____.

____ necessary ____ clear this ____ thing by the ____ burns?

I'm ____ what ____ clearance ____ for ____ gas ____ to materials.

____ are ____ a gas unit ____ things that can ____.

____ you ____ any information about ____ requirements ____ situating ____ gas ____?

____ a gas ____ close to burnable materials, ____ are ____?

There ____ for clearing space ____.

Do ____ specific guidelines for placing ____ unit ____ things ____ fire?

What is the ____ with ____ a gas ____ that ____ potentially ____?

____ be restrictions ____ gas devices next to ____.

Tell ____ about the clearances ____ a ____ appliance.

____ you ____ clearance requirements ____ situating a gas appliance ____ items susceptible ____?

Is there any guidance ____ clearances between ____?

When ____ a ____ appliance ____ to burnable ____ are ____ needed ____?

Is it ____ a gas ____ next to ____ that ____?

The distance needed ____ potentially dangerous materials.

____ need to clear ____ by things that ____?
