

[Demo] NLP Dataset for Customer Service Automation

Company Type	Electricity Suppliers
Inquiry Category	New service connection requests
Inquiry Sub-Category	Construction and infrastructure requirements
Description	Customers inquire about the infrastructure needed to connect their property to the electricity grid, such as the need for new poles, transformers, or underground cables, and the responsibilities of both the customer and the electricity provider.
Data Size	5,578 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Electricity Supplier" customer inquiry. (Purchased data will not be masked.)

_____ would _____ get connected be affected if _____ lacks proper power _____ facilities _____ delays?

Lack _____ power _____ affect _____ connected.

Is our connection _____ by _____ insufficiency _____ power _____ in _____?

When _____ insufficient _____ infrastructure, _____ our connection process?

_____ quickly might be hampered by _____ of _____ facility.

Is it possible _____ facilities _____ delay or impede _____?

_____ lacks _____ distribution equipment, what _____ we expect?

How _____ of electricity infrastructure _____ our _____?

Should _____ infrastructure affect our _____ to connect?

Does _____ delivery systems _____ it difficult to connect?

Is getting connected _____ to take longer _____ enough power _____?

If _____ neighborhood doesn't _____ power distribution _____ how _____ ability to _____ with _____ be _____?

Can _____ connect _____ affected _____ lack of power infrastructure?

_____ would _____ lack of power _____?

_____ is lacking power _____ connection _____?

_____ the _____ lacks suitable electricity _____ equipment, _____ can _____ expect?

_____ our ability _____ be affected _____ the power _____?

How can we _____ up _____ setup in _____ area?

_____ the _____ of _____ power distribution facilities affect our _____?

Insufficient _____ affect our _____.

How _____ of power _____ affect connection _____?

_____ to _____ power _____ our ability to connect _____ greatly?

Can we _____ connected if this power _____ out?

_____ we _____ connected _____ if _____ don't _____ good power distribution?

_____ of electrical _____ affect _____ ability _____ connect with _____ another?

Would a lack _____ affect _____?

_____ ability to _____ hurt by the _____ infrastructure?

Does _____ electricity _____ affect our _____?

_____ our _____ suitable _____ distribution equipment, what can _____ expect?

_____ our _____ distribution equipment, what can _____ expect?

_____ of power distribution _____ connections.

Will _____ connected take _____ there _____ not enough _____ running power _____ ?

_____ terrible _____ of the _____ affect our ability to _____ connected?

_____ should _____ about _____ effects of _____ of _____ facilities on our _____ options?

Is _____ insufficient power _____ affect _____ connected?

_____ connection be affected by _____ the area?

_____ not _____ power infrastructure _____ connections?

Can we _____ get connected _____ is _____ up?

_____ is insufficient power _____ capabilities?

We _____ to know about _____ effects of _____ efficient _____ options _____ connecting.

Will _____ of our _____ system affect us _____ getting _____ ?

Can _____ suffer due to _____ lack of _____ ?

Our _____ get connected _____ be _____ by poor electricity _____ .

_____ ability _____ get _____ quickly might _____ by the lack of _____ .

_____ area _____ proper power distribution facilities, _____ affect _____ ability _____ connect?

_____ insufficient _____ distribution facilities _____ availability?

_____ our ability to _____ suffer _____ lack _____ power?

Getting _____ time _____ suffer if _____ was no _____ .

If this _____ distribution _____ isn't _____ we _____ connected?

Will getting _____ taking longer _____ aren't _____ systems nearby?

Will the _____ state _____ the _____ system _____ hard to get _____ ?

Does poor _____ quickly _____ connect?

Our ability to _____ may be _____ lacking _____ .

_____ distribution _____ is _____ sorted out, _____ we actually _____ connected?

We are _____ about the effects a lack _____ utilities could _____ .

Delayed _____ if there is no _____ distribution.

It could _____ to connect _____ unfavorable _____ provisions.

If our _____ have good _____ distribution, will we _____ connected on _____ ?

If there is not proper power _____ in the area, _____ ?

_____ may _____ able _____ get connected _____ due _____ the lack _____ power _____ .

How _____ sufficient _____ infrastructure _____ connections?

_____ of power hamper our _____ to _____ quickly?

How will _____ to connect _____ our neighborhood _____ we _____ have good _____ distribution _____ ?

_____ would _____ lack _____ proper _____ infrastructure _____ connections?

_____ have proper _____ facilities, how would our connection _____ affected?

The lack of a _____ power facility _____ our ability _____ .

_____ do we _____ connected when there's a _____ power _____ ?

We wonder if a shortage of _____ distribution _____ .

Does _____ electricity _____ hard _____ us to get _____ ?

Is it _____ that connectivity _____ by unfavorable _____ provisions?

Given _____ our region lacks _____ equipment, what _____ expect?

_____ happens _____ aren't _____ power distribution _____ ?

_____ possible for insufficient _____ facilities to _____ hinder our _____ ?

_____ ability to _____ be harmed _____ lack of _____ infrastructure?

What _____ the effects of _____ power facilities on our _____ ?

_____ connected _____ the power distribution _____ sorted out?

_____ be _____ connected _____ time if we don't _____ a good _____ facility?

_____ connected timely may _____ affected _____ lack _____ facilities.

If _____ power distribution _____ in the _____ we be able to _____?
 Is our _____ affected _____ inadequate _____?
 _____ the _____ to get connected on _____ be affected _____ the lack _____?
 Due to the lack _____ power _____ ability _____ suffer _____?
 Would _____ of _____ smooth connecting?
 Would it be hard _____ if there _____ no _____?
 How _____ this _____ our ability to _____ with _____ neighborhood doesn't have _____ power _____?
 _____ connecting would be _____ by _____ suitable _____ distribution.
 Does _____ power _____ affect _____ connections?
 If _____ don't have proper _____ distribution _____ the area, will _____ be _____?
 _____ proper power _____ facilities, will _____ get connected be _____?
 _____ curious _____ the lack of power _____ utilities _____ affect _____ speed.
 Can _____ connection suffer _____ of _____?
 _____ we actually get connected _____ isn't fixed?
 If we _____ have good _____ will we _____ to _____ electricity?
 How _____ our _____ get connected _____ lack proper power _____ facilities?
 _____ facilities, _____ ability to _____ instantly could be _____.
 _____ poor electricity supply _____ ability _____ get connected _____?
 _____ it _____ connection could be hampered _____ unfavorable _____ provisions?
 _____ of proper _____ facility _____ affect our _____ get _____ quickly.
 Could _____ lack of _____ ability to get _____?
 _____ still _____ if there are _____ caused _____ insufficient _____ in our area?
 Our _____ get _____ would _____ affected _____ area lacks proper power _____.
 _____ shortage might _____ our _____.
 _____ take longer _____ there _____ enough _____ systems nearby?
 If _____ area lacks proper _____ distribution facilities, our _____ affected.
 How does a _____ of power _____?
 Is _____ get _____ impacted if we _____ power _____ facilities?
 Is our _____ by the _____ distribution?
 How _____ lacking _____ getting connected?
 Is _____ possible _____ lacking _____ power distribution _____ ability to _____?
 Without sufficient _____ would the _____?
 What _____ know _____ the effects of _____ having _____ facilities _____ our _____ connect?
 Our ability _____ get connected may _____ the lack _____.
 _____ connected more _____ would be _____ lack _____ facilities.
 How _____ the _____ proper electricity _____ affect _____?
 _____ lack of efficient _____ systems affect _____ speed?
 Will _____ connected be adversely affected by _____ of power _____?
 _____ we _____ get _____ if there are delays due _____?
 _____ our ability to _____ be hampered by _____?
 _____ power _____ can _____ connection.
 _____ connections _____ affected _____ lack of electricity infrastructure?
 _____ will be affected by lack _____ electricity.
 How would _____ facilities affect your _____?
 The _____ power _____ make _____ difficult _____ get _____ quickly.
 How _____ facilities affect _____ connected?
 _____ our area _____ power distribution facilities, will it _____ ability to get connected _____?
 _____ lack of _____ facilities _____ our ability _____ get connected _____?
 We are curious about _____ shortage of power _____ utilities _____.
 Can the lack of _____ get _____ quickly?

In what _____ would _____ of power _____ getting _____?
 _____ distribution is _____ sorted out, _____ actually get connected?
 I wonder _____ we _____ get connected even if _____ delays _____ distribution.
 _____ it possible that _____ distribution would _____ our _____?
 Is _____ getting connected?
 If we lack proper _____ distribution _____ our ability _____ would _____.
 _____ us _____ lack of _____ distribution affects us?
 Can we _____ connected if _____ not _____ out?
 Our ability _____ get _____ might be _____ by _____ lack _____.
 _____ would _____ insufficient power _____ affect _____ timely?
 _____ want to _____ we can _____ even if _____ are delays caused _____ lack _____ power.
 How _____ deficit _____ efficient power distribution _____?
 Will _____ to get _____ time be affected _____ the lack _____ power _____?
 _____ it _____ we _____ issues without proper electricity _____?
 Will _____ take _____ if there aren't _____ power distribution _____?
 _____ capabilities _____ be affected _____ inadequate power _____.
 _____ there is _____ facility in the area, will _____ to get _____?
 If we don't _____ distribution facilities, how _____ we _____?
 _____ does _____ of _____ infrastructure affect _____ connections?
 How _____ lack of power _____ affecting _____ ability?
 Is it possible that insufficient _____ our _____?
 _____ getting _____ take _____ because there _____ power distribution _____ nearby?
 _____ lacking power _____ affect _____ getting _____?
 Will _____ get _____ on time if our area does _____ power distribution _____?
 _____ actually get connected if _____ is not _____ out?
 The _____ electricity distribution equipment, so _____ we _____?
 Is it possible _____ inadequate _____ facilities _____ delay _____ connections?
 How does _____ power _____ connection?
 Will our _____ connected _____ affected by _____ proper power _____ facilities?
 _____ power distribution _____ to affect _____?
 Can _____ affect our _____ capabilities?
 Is it _____ for _____ facilities _____ delay or hamper _____?
 Due to _____ distribution, _____ our _____?
 _____ affect _____ scarce and _____ energy provision _____ connected?
 _____ power distribution _____ affect connection _____?
 _____ the _____ of _____ distribution facilities affect _____ get connected _____ time?
 Is there inadequate _____ can _____ or _____ connections?
 _____ we _____ enough power _____ facilities, will _____ able _____ get connected?
 _____ does _____ lack of _____ affect the _____?
 How _____ electricity _____ be _____ by a lack _____?
 _____ power _____ facilities _____ connection availability.
 Will _____ lack of good _____ facilities _____ ability _____ connect with _____?
 _____ the _____ of _____ facility affect _____ ability to get _____?
 _____ connecting be hampered _____ the _____ of _____ distribution?
 If _____ have good power _____ facilities how will we _____?
 What should _____ about _____ effects of _____ having _____ on our _____?
 _____ if unreliable _____ provisions _____ inter...
 _____ our area _____ distribution facilities with minimal delays, _____ would _____?
 _____ still _____ connected if there _____ delays _____ by _____ lack _____ power?
 _____ the _____ to connect _____ by the _____ power _____?

Would ____ lack ____ electricity ____ smooth ____?

How does ____ of ____ link ____?

____ state ____ our power ____ us from getting connected?

Would ____ of electricity ____?

Will ____ take ____ if there isn't enough ____ systems nearby?

____ of power distribution affects ____ connection ability?

____ lack of power ____ utilities ____ connection ____.

____ may not ____ able ____ get connected ____ lack of ____ power facility.

____ the ____ isn't ____ properly, can we get connected?

Would lacking ____ affect ____?

Smooth ____ be affected ____ of ____ electricity distribution.

If ____ thing is not sorted ____ can ____ get ____?

The ____ of power may ____ hard ____ quickly.

Is it ____ that ____ could be hampered ____ power ____?

____ does not have adequate ____ distribution facilities, ____ we ____ able ____ get ____?

The lack ____ distribution ____ can ____ seamless ____.

The ____ of ____ power infrastructure will ____ to ____ suffer.

____ limited power ____ our ability ____?

Does lack of ____ our ____ to connect?

____ lack ____ suitable ____ distribution ____ it ____ to connect?

Does poor electricity ____ how ____ we ____?

If we don't have ____ power distribution ____ it affect ____ get ____?

How would the ____ of ____ facilities affect ____?

We are curious ____ consequences ____ shortage ____ utilities that might ____ connection ____.

____ will ____ ability to ____ with electricity ____ if ____ don't ____ power distribution facility?

The ____ of efficient ____ affect accessibility.

____ neighborhood ____ have good ____ facilities, how ____ we get ____ electricity?

How ____ of power ____ our ____ ability?

____ shortage might affect ____.

____ will we be ____ to connect ____ if ____ don't ____ good ____ distribution ____?

____ poor electricity ____ affect the ____ connected?

When there ____ power ____ happens to our ____?

____ does ____ of ____ affect ____ capabilities

____ curious ____ how a ____ of ____ utilities might ____ speed.

How ____ proper ____ infrastructure ____ connections?

Can ____ distribution ____ our ____?

If ____ thing ____ fixed properly, ____ we ____ get connected?

____ a lack of ____ connecting?

____ get connected would be affected ____ the lack ____ power ____.

____ our connections ____ affected if there is ____ infrastructure?

____ lack of efficient ____ delivery ____ hamper ____?

Does the ____ a power ____ ability ____ get ____ quickly?

____ lack of power ____ impact connection ____?

Can ____ to connect ____ electricity be affected ____ of ____ power distribution facilities ____ our ____?

Are ____ in ____ lack ____ power distribution ____ our ____ ability?

Does the ____ proper ____ facilities affect seamless ____?

Getting connected ____ be ____ by power ____.

Will ____ affect ____ connections?

____ distribution equipment, what can we expect?

Will ____ capabilities ____ hampered by inadequate ____?

Due _____ power provisions, could _____ to connect?

Will _____ terrible state _____ power _____ system _____ ability _____ connect?
 _____ connection _____ suffer if there _____ delays _____ power _____?

Would _____ difficult to connect if there _____ not _____?

Would it _____ hard _____ suitable _____ distribution?
 _____ our _____ to _____ affected by lack _____ power distribution _____?
 _____ insufficient power infrastructure, what _____ our connection?

How do _____ connect _____ a messed _____ power _____ in _____?
 _____ getting connected _____ longer because _____ enough _____ distribution _____ nearby?
 _____ lack _____ power _____ make _____ to get connected quickly.

How does _____ lack _____ power _____?

How _____ a _____ facilities affect getting _____ timely?

Will the _____ power distribution _____ us _____ getting connected?

Does _____ of _____ supply affect _____ ability to get _____?

We're _____ about how a _____ utilities might _____ connection _____.
 _____ the _____ electricity _____ our ability to get _____?
 _____ insufficient power _____ affect _____ connected?

What _____ the _____ of lack of efficient _____ on _____ options for _____?

Can _____ lack of _____ hamper _____ ability to _____?

Our _____ quickly _____ be hindered by _____ lack of _____ facility.
 _____ our _____ be affected _____ lack of proper power _____?
 _____ poor _____ supply _____ our ability to _____ connected _____?
 _____ would _____ of power _____ affect _____?
 _____ not have _____ infrastructure affect connection _____?
 _____ absence of _____ power _____ systems _____ accessibility?
 _____ area _____ not have proper power _____ how do we _____?

How would our ability _____ by the _____ of _____ facilities?

How would _____ of _____ our connections?

What _____ power _____ affect _____ availability?

Does _____ scarcity of _____ electrical _____ our _____ to _____?
 _____ poor electricity supply _____ from _____ connected _____?

How does _____ power distribution affect our _____?

Our ability to _____ be _____ by _____ lack _____ power _____.

Will getting _____ take _____ if there _____ enough good _____ distribution _____?

How will _____ to connect _____ electricity _____ neighborhood _____ not have good power distribution _____?
 _____ our ability _____ connected be _____ by _____ of power _____?
 _____ of _____ would _____ getting connected.

A _____ of _____ facilities _____ connected.
 _____ does lack of _____ affect _____?
 _____ lack of _____ affect our ability _____ quickly.
 _____ isn't enough _____ power _____ systems nearby, what _____?
 _____ the lack of _____ impairing _____ ability _____ connected?

Will _____ our _____ distribution system _____ us _____ getting connected?

Did the absence _____ power delivery _____?

How _____ the _____ of power _____?

Would _____ shortages _____ our _____?

Will _____ power _____ abilities?
 _____ smooth connecting be _____ lack _____ distribution?

How _____ infrastructure affect connection _____?
 _____ of suitable _____ distribution would affect connecting?

_____ getting _____ longer if _____ aren't enough _____ running _____ distribution systems _____?
 Connection _____ hampered due _____ power _____.
 Will _____ of the power _____ system prevent _____ connected?
 What will happen if there's not _____?
 Does _____ lack _____ efficient power _____ impede _____?
 Our connection _____ be affected _____ there _____ power _____.
 Getting connected _____ time _____ hampered _____ lack _____ electricity.
 _____ connected if we don't have a proper _____?
 _____ there _____ enough _____ systems nearby, _____ would happen?
 We _____ wondering _____ of power _____ will impede connection _____.
 _____ neighborhood _____ have _____ power _____ facilities, how can _____ connect with _____?
 Will our ability _____ the lack of _____?
 If this _____ isn't fixed _____ can we _____ get _____?
 Will _____ power distribution _____?
 How _____ lack _____ suitable _____ infrastructure _____ capabilities?
 Smooth _____ might _____ lack of suitable _____ distribution.
 _____ do we _____ with _____ messed _____ power system _____ our _____?
 How _____ lack of _____ distribution _____ our ability _____ get _____?
 If _____ area _____ proper _____ facilities, how _____ we be _____?
 _____ don't have _____ distribution _____ will the ability _____ get _____ be _____?
 _____ smooth connecting be hindered by _____ electricity _____?
 _____ of electricity _____ affect _____?
 Will getting _____ if _____ enough _____ running _____ distribution systems nearby?
 If there are _____ distribution systems _____ what will _____?
 If _____ messed up, can _____ actually _____ connected?
 _____ of power _____ ability _____ get connected quickly.
 _____ getting connected take _____ there _____ enough smooth running _____ nearby?
 _____ of _____ infrastructure affect our connection?
 Is _____ that insufficient power _____ facilities _____ connection _____?
 _____ our neighborhood _____ power distribution _____ how _____ we connect _____ electricity?
 _____ does _____ of _____ affects _____ connection ability?
 _____ connection _____ be _____ by _____ power _____
 How _____ of adequate _____ facilities _____ getting _____?
 Does _____ power facility affect our _____ connected?
 The _____ of _____ will affect our _____ connect.
 Is inadequate power _____ affecting _____?
 Would the _____ distribution make _____ difficult to _____?
 _____ ability _____ get _____ impacted by _____ of power distribution _____?
 _____ the lack _____ power _____ capabilities?
 Will it take _____ to _____ not enough _____ systems nearby?
 _____ of our _____ distribution system make _____ difficult _____ to _____ connected?
 Can _____ connected if the _____ is not _____?
 What should we _____ effects _____ lack _____ power facilities _____ options _____ connecting?
 _____ connection _____ be affected _____ insufficient _____.
 _____ connecting _____ be _____ lack _____ suitable electricity distribution.
 _____ a _____ of electricity _____ connecting more _____?
 We wondered if a _____ utilities would affect _____.
 How _____ power _____ connecting?
 _____ connecting _____ be _____ by _____ of suitable _____ distribution.
 _____ don't _____ adequate _____ distribution facilities, will we be _____ to _____?

If we don't _____ power _____ how _____ our _____ be _____?
 _____ ability to _____ connected _____ time _____ we _____ have good _____ distribution facilities?
 We _____ to know _____ effects of _____ having _____ on _____ options for _____.
 _____ are interested _____ the effects of _____ of _____ utilities on _____.
 _____ suitable electricity _____ affect smooth connecting?
 _____ our _____ going to suffer _____ to _____ distribution?
 How _____ lack _____ power distribution _____ have a connection?
 How will _____ to connect _____ electricity _____ we _____ good _____ distribution facilities?
 _____ our _____ by the lack of _____ power _____?
 _____ possible _____ can't _____ to inadequate power facilities?
 _____ power shortage _____ connections?
 _____ inadequate power facilities _____ delay or _____ our connection?
 _____ power _____ make _____ to get connected quickly.
 _____ happens _____ power infrastructure _____ connection?
 _____ state _____ the _____ distribution system _____ us _____ getting connected?
 Will it be hard _____ there _____ enough power _____ nearby?
 Can we _____ the _____ distribution _____ isn't _____?
 We _____ to _____ lack _____ power _____ on our options to connect.
 _____ our connection affected _____ there is _____ enough _____?
 _____ getting connected take longer, _____ aren't enough smooth-running _____?
 Getting connected _____ time _____ affected by lacking _____.
 _____ our ability _____ time be affected if our area _____ good _____?
 There would _____ no _____ there _____ no suitable _____ distribution.
 _____ the lack _____ our ability to get _____?
 We should _____ any _____ setbacks to _____ ability _____ stay _____ there is no _____ power distribution _____.
 _____ disrupted _____ insufficiently distributed _____ resources?
 What _____ we _____ about the effects _____ efficient power _____ connections?
 Will _____ terrible state of the _____ distribution _____ connecting?
 Would _____ of _____ impact connecting?
 Would _____ lack _____ electricity _____ the _____?
 Will _____ ability _____ connected _____ time be affected _____ our _____ has no _____ facilities?
 Does _____ power facilities _____?
 How _____ insufficient power _____ connection _____?
 How would the _____ electricity infrastructure impact _____?
 How _____ our ability _____ electricity _____ if we _____ good power _____ facilities in our _____?
 Our ability _____ get _____ would be affected if _____ facilities.
 _____ it _____ that our connection will suffer due _____?
 How _____ lack _____ infrastructure _____ connection _____?
 _____ the lack of _____ delivery _____ for access?
 If our area doesn't have good _____ what will happen _____ get _____ time?
 How _____ the lack _____ energy affect _____?
 _____ the _____ state _____ our power distribution _____ getting connected?
 Is insufficient _____ our _____?
 _____ will _____ energy _____ have on getting connected?
 _____ facilities _____ getting connected timely?
 _____ area _____ proper power distribution _____ the _____ connected would be _____.
 Our ability _____ connect _____ affected _____ we lack _____ facilities.
 _____ the scarcity _____ electrical _____ to connect quickly?
 If _____ not have good power _____ it will _____ our ability _____ connect _____.
 Is _____ distribution _____ our connection?

Will our _____ on _____ affected if our _____ have power _____ facilities?
 _____ will _____ connection _____ be affected _____ insufficient power _____?

Will the _____ state of the _____ distribution _____ getting _____?

How does lack _____ proper power distribution _____?

How would _____ facilities affect _____?

What if _____ facilities _____ ability to connect?

Does _____ absence of _____ power _____ hamper _____.
 _____ our ability to _____ due to _____ lack _____ power _____?

Does _____ of _____ distribution _____ connection?

Would _____ make _____ difficult?

Did you _____ that _____ power distribution affects _____ connection _____?
 _____ our neighborhood doesn't _____ distribution facility, _____ will we _____ to _____?

Is it _____ for inadequate _____ to delay _____ connection?

Lack _____ access _____ affect our _____.

Can _____ if the _____ distribution problem is _____ solved?
 _____ the absence _____ power _____ systems hamper _____?

If _____ thing isn't _____ out, _____ actually connect?
 _____ of _____ facilities would affect _____
 _____ electricity _____ block a smooth connecting?

_____ take more _____ if _____ isn't enough power distribution _____?

_____ the _____ of a _____ ability to _____ connect with _____?

_____ are _____ how _____ shortage of _____ distribution utilities may _____ speed.
 _____ will _____ scarce and _____ provision affect _____ quickly?

How do we _____ messed _____ power _____ in our area?

If _____ power distribution is _____ out _____ can we _____?

_____ lack _____ efficient power delivery _____ affect _____ accessibility?

Will we lose _____ connect due _____ of _____ infrastructure?
 _____ get connected _____ might be hampered by _____ proper power _____.
 _____ insufficient power _____ affect our _____?

Is it _____ that _____ affects _____ connection?
 _____ it _____ difficult _____ connect if _____ a _____ electricity distribution?

Will _____ poor _____ of _____ power _____ system _____ ability _____ get connected?

How _____ a _____ of _____ impact _____ connections?
 _____ enough power _____ would our _____?

Will _____ take more _____ there _____ enough _____ running _____ distribution _____ nearby?

What would happen _____ our connections _____ was _____ proper _____?

Is our ability to _____ connected _____ by _____?

Is _____ connected _____ by not _____ electricity?

Is _____ efficient power delivery _____ limiting _____?

Getting _____ on _____ would _____ affected _____ lack of _____.
 _____ does not have good _____ distribution facilities, _____ we _____ electricity?

Would it _____ hard _____ connect _____ there were _____ electricity _____?

Would _____ lack of _____ distribution _____ it hard _____?

_____ it possible that _____ facilities _____ or delay _____?

Can _____ affected by _____ distribution?

Will the _____ our power _____ system affect _____?
 _____ the _____ proper _____ distribution _____ our connection ability?

_____ you explain how _____ by lack of _____ distribution?

There _____ insufficient power _____ delays our _____.

Will _____ able to get connected _____ our _____ doesn't have good _____?

_____ distribution would make connecting _____.

Will our _____ to connect _____ due _____ lack _____ proper _____?

_____ by the insufficient _____ distribution in the _____?

_____ lack _____ power distribution _____ affecting seamless _____?

_____ our connection _____ the _____ of power distribution?

How _____ appropriate electricity infrastructure affect our _____?

Will it take _____ if _____ aren't enough distribution _____?

Is it _____ us to still get _____ by inadequate _____ distribution?

_____ we don't _____ proper _____ ability _____ get connected will be _____.

_____ poor _____ mean we can't _____ quickly?

If we don't _____ power distribution _____ will _____ to get _____.

_____ terrible state _____ power _____ system make it _____ for us _____ get _____?

Will _____ state _____ our power _____ it difficult _____ get _____?

_____ does not have _____ facilities, how will _____ be connected?

Is it possible _____ distribution _____ connections?

_____ it _____ ability _____ get connected _____ if _____ is no good power _____?

_____ the power _____ out, _____ we really get connected?

The lack _____ power _____ it _____ to _____ connected.

_____ lack of efficient _____ delivery _____ affect _____ and _____?

_____ our _____ due to _____ power _____?

_____ terrible state of _____ power distribution _____ us from _____?

Is _____ because _____ power distribution?

Is it _____ that our _____ connected on time will _____ by _____ of _____ power distribution _____?

How do you _____ how _____ ability to connect?

Our _____ quickly _____ be affected by _____ lack of _____ facility.

Will our _____ get connected _____ we don't have proper _____?

I _____ know if _____ can still get _____ even _____ there _____ caused _____ power.

Does _____ power _____ affect accessibility?

Will _____ connected be disrupted _____ don't have proper _____ distribution _____?

_____ can be _____ by _____ lack of _____ facilities.

How would _____ power _____ affect _____ connected on _____?

Our _____ to connect _____ might _____ by _____ power facilities.

_____ getting connected _____ longer _____ aren't _____ power distribution systems _____?

Will getting connected _____ longer if _____ smooth-running _____ distribution _____?

_____ scarcity _____ affect our ability _____ connect quickly?

_____ it possible that _____ won't _____ to _____ on time if _____ have good _____ distribution _____?

If there is no proper power _____ the _____ ability _____ get connected _____?

_____ our connection _____ by insufficient _____?

How does limited power _____?

How does inadequate _____ infrastructure _____?

_____ our connection _____ by _____ of power?

Is it _____ insufficiently _____ resources _____ our connections?

If _____ area _____ not have _____ facilities, how _____ connected?

How _____ lack of power _____?

How is lack _____ infrastructure _____?

How _____ power distribution impact our connection _____?

How _____ our ability _____ get connected _____ if we _____ facilities?

_____ insufficient power distribution _____ connect?

How _____ your ability to connect?

Can our _____ by _____ distribution in _____ area?

_____ facilities, _____ happens to our ability to _____?

Can the _____ power _____ systems _____ accessibility?

_____ electricity facilities, how will it _____ connections?

_____ of proper power _____ affects _____.

Does _____ of _____ facilities _____ connected _____?

Could the lack _____ power impede our _____?

If _____ distribution _____ sorted out, will _____ actually _____ connected?

How might _____ power facilities _____ getting _____?

Will our _____ to connect _____ by lack _____?

_____ there insufficient distributed _____ that could disrupt _____?

How _____ affect our connections _____ not proper electricity _____?

Our _____ to _____ be _____ by _____ of power facility.

_____ it be a problem to connect _____?

Will _____ ability to _____ be damaged by _____ lack _____?

If _____ don't _____ power distribution facilities, _____ can _____ connect _____?

_____ may be affected if the _____.

Can _____ to _____ impacted by _____ of power infrastructure?

_____ we _____ since _____ region lacks electricity _____ equipment?

How _____ electricity _____ getting connected?

_____ will our ability _____ be affected _____ our neighborhood's _____ of power _____?

_____ we _____ have _____ distribution _____ in the _____ will _____ ability to _____ be _____?

Would _____ a _____ connecting _____ there was _____ electricity distribution?

Will _____ affect _____ connected on time if _____ area lacks _____ facilities?

_____ a _____ power distribution _____ affect us _____ getting _____?

I wonder if _____ power _____ connection.

_____ the lack _____ efficient power delivery _____ it _____ connect?

_____ it _____ to get connected _____ power distribution facilities are _____?

_____ power _____ affect our ability _____ connect.

_____ our _____ doesn't have _____ power _____ we connect with electricity?

If there _____ insufficient power _____ delay _____ process.

What does lack _____ connection capabilities?

Can a _____ of _____ affect _____?

Will _____ to _____ suffer _____ to the lack of _____?

_____ lack _____ power distribution affecting _____ ability?

_____ will being _____ good _____ affect our ability _____ connect with _____?

_____ sufficient power _____ connection be _____?

_____ would be _____ by not _____ enough power _____.

_____ you _____ how lacking _____ distribution affects _____ connection _____?

Our ability to _____ could _____ by lacking _____.

_____ facilities _____ ability to connect instantly _____ affected.

If _____ area _____ not have _____ facilities, how _____ we going to _____?

_____ we don't have proper _____ distribution _____ ability _____ connected _____ adversely affected?

_____ sufficient power access, would _____?

Will _____ connection suffer _____ lack _____ distribution?

How would the lack _____ distribution _____ ability to _____ connected?

Will getting connected _____ if there isn't enough _____.

_____ connected may be hampered by _____ of power.

_____ having _____ power _____ facility affect our ability _____ connected?

Does a _____ of _____ affect how _____ connected?

_____ our _____ connected be affected _____ we _____ power distribution facilities?

What ways ____ lack ____ power ____ getting ____ ?
 ____ scarcity of ____ workable electrical grid ____ our ____ connect?
 We are curious about ____ a ____ of ____ affect connection ____ .
 ____ we don't have ____ power ____ facilities, ____ be ____ connected on time?
 ____ would ____ of suitable ____ distribution ____ connecting?
 ____ possible ____ distributed electrical ____ could disrupt our ____ ?
 If ____ doesn't ____ good power ____ ability to connect with ____ change?
 Without ____ access, would ____ impacted?
 How can ____ and delayed ____ getting ____ ?
 ____ be ____ any potential ____ ability to stay connected ____ there ____ not ____ power distribution infrastructure.
 How ____ stay connected ____ there ____ lack of ____ distribution?
 ____ reconnected on time ____ be ____ by lack ____ .
 Is ____ to ____ suffer because of ____ lack ____ power infrastructure?
 ____ insufficient ____ delays our connection ____ ?
 ____ are ____ about the ____ lack of ____ utilities might have on ____ .
 ____ to ____ be impacted by the ____ of power ____ facilities?
 Will it ____ to ____ if ____ aren't ____ systems nearby?
 ____ lack ____ power distribution ____ connections?
 Can a lack of ____ distribution ____ affect our ____ to ____ ?
 Is ____ to get ____ the lack ____ power distribution facilities in ____ ?
 Is ____ lack ____ efficient ____ affecting ____ and accessibility?
 ____ power facilities, ____ our ability ____ be like?
 ____ take longer ____ there ____ enough ____ distribution system nearby?
 Would ____ to connect with ____ lack ____ suitable ____ distribution?
 The lack ____ a ____ facility ____ affect ____ get connected ____ .
 Is ____ on time affected ____ of electricity?
 ____ connection capabilities ____ be ____ power distribution.
 How ____ it ____ our connections if ____ no ____ ?
 If there ____ electricity ____ how will ____ area ____ ?
 How would the ____ get connected be ____ the ____ of ____ ?
 ____ our ____ affected due ____ distribution?
 How ____ the ____ power distribution facilities ____ ability ____ connect ____ power?
 ____ to ____ lack of proper ____ our ability ____ connect ____ ?
 Would the ____ power ____ connections?
 ____ be ____ any potential setbacks to our ability ____ stay connected ____ lack ____ sufficient ____ infrastructure.
 If our ____ distribution facilities with minimal ____ how ____ ability ____ get connected ____ ?
 Lack ____ impact ____ ability to connect quickly.
 ____ about ____ the lack ____ power distribution ____ might ____ connection speeds.
 ____ the ____ to connect ____ by ____ of power distribution facilities?
 Is it possible that ____ hampered due ____ unfavorable ____ ?
 What ____ we don't have ____ power ____ facilities in ____ ?
 Failing to ____ sufficient ____ would ____ getting ____ .
 ____ of ____ delivery systems affect accessibility ____ speed?
 Is the ____ efficient power ____ affecting ____ ?
 Does ____ absence ____ efficient ____ delivery ____ diminish ____ ?
 How ____ power ____ affect ____ ability to connect?
 Is it ____ that connecting ____ to ____ power provisions?
 ____ power ____ affecting our ____ ?
 ____ our connection ____ inadequate power ____ ?

____ loss of ____ distribution facilities ____ ability to ____ connected ____ time?
 ____ our connections be ____ insufficient ____ infrastructure?
 ____ lack of ____ distribution ____ difficult?
 If ____ power, ____ happens ____ our connection process?
 ____ would be ____ by ____ power ____.
 What ____ know ____ effects ____ lack of ____ facilities on our ____ connect?
 Will lack of ____ power distribution facilities ____ to ____?
 ____ connection going to ____ because ____ inadequate power ____?
 ____ power distribution ____ isn't ____ can we actually get ____?
 Should ____ ability to ____ be ____ by ____ lack of ____?
 Can our ____ suffer ____ to ____ lack ____ in the ____?
 Does ____ proper ____ affect our ability to ____ connected?
 ____ we ____ the effects of ____ facilities on our options for ____?
 ____ can ____ infrastructure ____ connections?
 Can the lack ____ power ____ our ____ connect ____?
 Can we ____ the power distribution ____ messed ____?
 ____ connection ____ by ____ lack of power ____?
 ____ it be ____ connect ____ the ____ distribution ____ not suitable?
 Can we ____ get ____ even if there ____ due to ____?
 ____ of ____ will hurt ____ ability to connect.
 ____ of ____ power ____ system make it hard ____ us to get ____?
 Would smooth ____ disrupted ____ lack ____ electricity ____?
 Do you know how lacking ____?
 ____ access, would ____ communication ____ affected?
 ____ the ____ of ____ our connections?
 Will ____ of ____ power ____ system ____ us from getting ____?
 ____ we stay connected if ____ deficiency ____ power distribution?
 ____ if there ____ power distribution systems nearby?
 How ____ power distribution affect connection ____?
 Will ____ affect our ability to get ____ on ____ our ____ not ____ good power ____?
 How ____ insufficient power ____ ability ____ connect?
 ____ smooth ____ be ____ the ____ of suitable ____ distribution?
 Will ____ distribution impact ____ connection ____?
 Does ____ electrical grid ____ our ____ quickly ____ with others?
 How ____ be ____ if proper ____ infrastructure is ____?
 ____ are ____ effects of a ____ of ____ distribution utilities ____ speeds.
 Does ____ power infrastructure affect ____?
 ____ the absence of efficient ____ delivery ____ accessibility?
 Will lack of ____ distribution ____ our ____?
 ____ it ____ that connection ____ be ____ unfavorable power provision?
 ____ the ____ power ____ ability to get connected?
 ____ will ____ to connect ____ electricity be impacted if we ____ facilities?
 ____ our ____ did not have ____ power ____ how would ____ get ____?
 If ____ thing ____ fixed ____ can ____ get connected?
 ____ poor electricity ____ our ability to ____ connected ____?
 How can we get ____ a messed-up ____?
 ____ are ____ how a lack ____ power ____ utilities ____ speed.
 ____ the bad state ____ our power ____ us ____ being ____?
 ____ the ____ of ____ prevent smooth ____?
 How ____ lack of ____ infrastructure affect ____ connections

_____ power _____ affecting our _____?
 _____ getting connected take _____ if _____ aren't _____ distribution _____ around?
 _____ that insufficiently _____ resources would disrupt _____ connectedness?
 _____ sufficient power facilities _____ getting _____.
 _____ us of _____ to _____ to stay connected given the _____ power distribution _____
 _____ will _____ affect _____ connect with _____ if _____ doesn't have good _____ facilities?
 How is _____ of _____ distribution affecting _____ ability _____?
 _____ this power distribution thing _____ sorted out properly, _____?
 Will the _____ state of _____ power _____ make _____ hard _____ connected?
 Our ability to _____ could _____ by _____ of _____ proper power facility.
 _____ poor electricity _____ our _____ get connected fast?
 Does _____ absence _____ power _____ systems _____ access?
 _____ insufficient power _____ going to _____?
 _____ to _____ if there were insufficient electricity _____?
 There _____ insufficiently _____ that disrupt our connectedness.
 _____ area _____ power distribution _____ how would we get _____?
 _____ affect our connection?
 Will getting connected _____ longer _____ systems _____ enough nearby?
 Smooth _____ hampered by _____ of suitable electricity _____.
 Is our _____ inadequate power _____?
 Without _____ what _____ happen _____ ability to connect?
 The lack _____ could _____ difficult to _____ connected.
 _____ of power _____ our _____ to get connected.
 Is it possible _____ lack of _____ our _____?
 Can we _____ connected _____ there _____ a _____ distribution?
 _____ getting connected take longer, _____ there _____ power distribution _____ nearby?
 Is _____ going to _____ connection _____?
 _____ our ability _____ connect be _____ affected by _____ lack _____ power _____?
 Getting _____ timely would _____ by _____ power facilities.
 _____ of power infrastructure _____ abilities?
 We _____ wondering if the _____ a lack _____ distribution _____ will impede _____.
 _____ be _____ potential setbacks _____ our ability _____ stay _____ to the lack of power distribution _____.
 How _____ power infrastructure _____ connection _____?
 The _____ of _____ may affect our ability _____ quickly.
 Does _____ efficient power _____ systems _____ an impact on _____?
 _____ would _____ of power facilities _____ getting _____?
 How _____ infrastructure affect connection _____?
 The _____ of _____ systems _____ affect accessibility.
 _____ suitable electricity distribution _____ connecting.
 _____ power access _____ our _____ affected?
 _____ the _____ of _____ delivery systems _____ access?
 _____ of _____ distribution affecting _____ connection ability?
 _____ ability _____ get connected could _____ by _____ of power.
 Is _____ connection going _____ suffer _____ lack _____ power?
 _____ have proper power _____ facilities our ability _____ will be _____.
 _____ lack of electricity distribution _____?
 _____ if _____ can't connect because _____ insufficient _____ infrastructure?
 Will _____ ability to _____ affected if we _____ facilities?
 Will _____ bad state _____ the _____ system hamper _____ from _____?
 How will _____ ability to _____ with electricity _____ not have _____ distribution facilities?

The ____ of ____ difficult to get connected quickly.
 ____ lack ____ hamper our ability ____ get connected?
 ____ would ____ infrastructure affect our ____?
 ____ does ____ infrastructure ____ connections?
 ____ will the lack of ____ affect ____?
 Does ____ power ____ affect our ____ to ____?
 ____ our ability ____ connect with electricity be ____ our ____ have ____ distribution facilities?
 How ____ not having ____ facilities ____ getting ____?
 Will ____ ability to connect ____ due ____ power infrastructure?
 We ____ have suitable ____ equipment so what ____ in ____ of ____ issues?
 Will ____ to ____ we don't have proper power ____ facilities?
 I ____ if we can ____ even ____ there are ____ caused by inadequate ____.
 Our ability to ____ quickly ____ be ____ by the ____ proper ____.
 ____ insufficient electricity ____ affect ____?
 Can ____ connected ____ isn't sorted out?
 ____ the ____ have electricity facilities, will ____ affect ____?
 Can we ____ connected ____ the ____ distribution ____ is ____?
 Can you tell ____ how ____ of power ____ affects ____?
 If ____ doesn't have good power ____ able to get connected ____?
 ____ there ____ proper power distribution facilities in ____ our ability ____ be ____?
 If this power ____ with ____ can ____ actually get ____?
 ____ will ____ having good power ____ affect ____ ability to ____ electricity?
 ____ our neighborhood ____ power ____ facilities how can ____ to electricity?
 ____ does lack ____ connection possibilities?
 How ____ our ____ to ____ be ____ if we ____ power ____ facilities?
 What are ____ of ____ efficient ____ facilities on ____ options for ____?
 The lack of power facility ____ connected quickly.
 Will a ____ power distribution ____ affect ____ ability ____?
 Does ____ electricity supply make ____ get connected ____?
 ____ hampered by insufficient ____ distribution?
 How will our ____ connected ____ our ____ does ____ have proper ____ distribution facilities?
 What ____ of ____ facilities ____ on getting connected?
 ____ our ability to get ____ be ____ of power ____?
 ____ would a ____ of ____ affect ____ connections?
 ____ connecting may ____ by lack ____ electricity distribution.
 ____ power ____ might ____ our ____.
 Will it take ____ aren't enough ____ nearby?
 ____ will the lack of good power ____ to ____ electricity?
 If there is ____ electricity ____ in ____ the connection?
 Can ____ get ____ our area ____ have ____ power distribution facilities?
 ____ are ____ the ____ of ____ lack ____ utilities that might ____ connection speed.
 ____ power supply ____ worried ____ connection ____.
 How can ____ of ____ distribution affect ____ connect?
 ____ of electricity ____ our ____ to ____ quickly?
 Will getting ____ longer ____ there ____ smooth running ____ distribution ____?
 ____ connection ____ will ____ insufficient power distribution.
 ____ our ____ affected ____ powerdistribution in the ____?
 ____ of ____ affect getting connected.
 Will our ability ____ connect ____ by the lack ____?
 ____ do we ____ about the effects of ____ of ____ facilities on our ____ for ____?

Smooth connecting could be _____ by _____ distribution.

_____ efficient _____ delivery systems effect accessibility?

_____ affect _____ ability _____ get connected _____ we don't have _____ distribution?

How would getting _____ time be _____ by _____ electricity?

How do we get _____ a bad _____?

Will insufficient power distribution _____?

_____ power facilities _____ getting _____ timely?

_____ if there aren't _____ power distribution systems near?

Is the lack _____ power _____ affect our ability _____?

_____ insufficient power _____ connected?

If there is insufficient _____ infrastructure _____ connection.

_____ the power _____ thing _____ sorted out _____ we actually _____?

Please inform _____ potential _____ to _____ ability _____ stay _____ given _____ lack of sufficient power _____.

What affect _____ of _____ distribution _____ our _____ ability?

We _____ the _____ of not having efficient _____ facilities on _____ connect.

_____ connection _____ be affected _____ not enough power _____.

The _____ of proper _____ facility could make _____ get _____.

Can our _____ a lack _____ power?

Does a _____ supply impact _____ ability _____ get _____?

Could the _____ affect _____ ability to connect _____?

_____ lack _____ electricity _____ getting connected?

Will _____ lack of a _____ power _____ facility _____ our ability to _____?

How _____ electricity affect your _____?

Is _____ connection _____ to _____ without sufficient power _____?

If _____ neighborhood doesn't _____ facilities, how _____ we get _____?

_____ doesn't have electricity facilities, how will _____?

Will _____ state of our _____ system stop _____ from _____?

_____ connect _____ electricity will be _____ our _____ doesn't _____ power distribution facilities.

_____ we don't have proper _____ distribution, _____ our ability _____ connected _____?

_____ the _____ infrastructure is _____ what happens _____ connection _____?

If our _____ proper _____ distribution facilities _____ affect our _____ get connected.

Will _____ connected on time _____ lack _____ electricity?

_____ connected _____ would be _____ by a _____ facilities.

Is _____ connection affected due _____ lack of power _____?

If _____ lack _____ distribution _____ how _____ we _____ able to get _____?

_____ connected take longer if _____ power distribution _____?

_____ lack _____ connected on time?

Will _____ ability to _____ be hampered _____ of _____ power _____?

_____ the power distribution issue _____ not sorted _____ we actually _____?

Will _____ on time _____ affected if our _____ lacks _____ distribution facilities?

Will the _____ state _____ distribution system prevent _____ being _____?

What happens _____ we _____ due to _____ power _____?

_____ there _____ impact _____ connection _____ due _____ delays _____ power distribution?

_____ insufficiency _____ distribution affect our _____?

Does the _____ of _____ electrical grid affect _____ connect _____ others?

If our _____ not _____ power distribution facilities, _____ will _____ ability _____ connect with _____ affected?

_____ power _____ delays our _____ process, what _____?

Will _____ ability to get _____ be affected _____ the _____ of _____ facilities?

_____ our _____ to get connected _____ a _____ of power _____?

Without _____ we connect _____?

_____ there _____ enough power distribution _____ nearby, will it _____ to _____?

What _____ would not _____ enough _____ facilities affect _____?

Can _____ still _____ connected if there _____ inadequate _____ distribution?

_____ there _____ in _____ area, how will it _____?

_____ we don't _____ electricity distribution?

If _____ lacks the proper power _____ how _____ we _____?

How would _____ facilities affect _____?

Does lack of electrical _____ our ability _____ quickly _____?

_____ there are _____ distribution facilities in the _____ will _____ be _____ to _____?

Can you _____ us _____ distribution _____ connection ability?

Without _____ facilities, _____ our ability _____ be _____?

Can _____ be affected _____ the _____ in the area?

Getting connected on _____ could _____ affected _____ lack _____.

Is our ability to _____ facilities?

_____ our _____ to _____ affected by inadequate _____ distribution?

_____ our _____ the proper power _____ will we be _____ to get _____?

Will _____ affect our _____ to connect?

_____ have enough _____ infrastructure _____ connection abilities?

There _____ power _____ delay our connection process.

_____ our ability _____ connected _____ by poor electricity _____?

_____ insufficient _____ distribution affect our _____?

Will our ability _____ hurt _____ lack of power _____?

Is our ability to connect _____ power _____?

How will _____ not _____ distribution facilities _____ our _____ to _____ electricity?

How can connection capabilities _____ lack _____ power _____?

Would _____ of electricity _____ hard to connect?

Does _____ poor electricity _____ harder to get _____?

_____ does lack _____ distribution _____ our connection _____?

_____ will _____ ability to connect _____ change if we _____ have _____ distribution _____?

_____ lack _____ electricity distribution prevent smooth _____?

What _____ the lack of _____ on _____ connections?

If _____ neighborhood _____ have _____ distribution _____ will we _____ to electricity?

Will _____ hinder _____ to connect?

_____ a lack of _____ connections?

Is our connection affected _____ distribution in _____?

_____ poorly supplied electricity disrupt _____ connected?

_____ there's insufficient power infrastructure it can _____.

_____ would our _____ be affected?

Our _____ to _____ would _____ by lack of _____ distribution _____.

If _____ does _____ power distribution _____ will _____ be _____ to connect _____ time?

Will _____ state of the _____ prevent us _____ connected?

Lack of _____ affect getting _____.

Our _____ process _____ be _____ there's insufficient _____ infrastructure.

_____ the _____ suitable _____ affect the connection?

Does the lack _____ electricity _____ our _____ get _____?

_____ our _____ does not _____ power distribution _____ how can _____ connected?

_____ our _____ insufficient power distribution?

What _____ lack _____ have on _____ connection ability?

_____ ability to connect _____ suffer _____ lack of _____ infrastructure?

How does _____ affect connection _____?

_____ connecting _____ be impeded by _____ of _____ distribution.
 _____ could be hampered by the lack of _____ facility.
 How _____ not having _____ affect _____?
 _____ does _____ of proper power _____?
 _____ power _____ affect our _____ stay in touch?
 _____ to get connected quickly _____ hampered by _____ of a proper _____.
 _____ lack _____ electricity _____ our connections?
 Delayed _____ could be _____ if there isn't _____.
 What _____ if _____ power distribution systems nearby?
 _____ don't know if inadequate _____ affect _____ capabilities.
 _____ may _____ impeded by _____ of suitable electricity _____.
 _____ to _____ with _____ be _____ if our neighborhood doesn't have a _____ power _____ facility?
 Please tell _____ any _____ ability _____ given the lack of power distribution infrastructure.
 We are curious about _____ of power distribution utilities _____.
 _____ get connected if there _____ a _____ system?
 The lack _____ proper power _____ could affect _____ ability _____.
 _____ it _____ that _____ could be hampered _____ unfavorable power _____?
 _____ power distribution thing is not _____ connect?
 _____ connected _____ power distribution is not fixed?
 _____ our _____ doesn't have good power distribution _____ what will _____ connect with _____?
 _____ efficiency _____ be _____ insufficient _____ facilities.
 If _____ have proper power _____ affect our ability _____ connect?
 How _____ a lack of _____ infrastructure _____?
 _____ connections _____ by the lack _____ proper _____ infrastructure?
 _____ this power _____ dealt with properly, can _____ connected?
 _____ our _____ suffer due to _____?
 _____ insufficient power _____ affect _____ to connect?
 Would not have _____ affect _____?
 I want _____ lack of proper power _____ connection _____.
 If there _____ proper power distribution _____ the _____ our _____ connected be _____?
 Our ability _____ because _____ the lack of _____ infrastructure.
 Does the _____ of efficient _____ accessibility.
 I _____ if we _____ still _____ if there are _____ by insufficient power _____.
 How would lack _____ connected
 _____ terrible state _____ our power _____ system _____ it _____ to _____ connected?
 _____ lack _____ efficient _____ delivery systems _____ harder to connect?
 Getting _____ time _____ be _____ by _____ of electricity.
 _____ getting _____ take _____ if there _____ smooth-Running _____ distribution systems _____?
 Is it _____ that inadequate _____ affecting _____ connections?
 Due to _____ proper power _____ will _____ to _____ suffer greatly?
 _____ our _____ to _____ if we didn't have proper power _____?
 _____ connect with electricity _____ our _____ does not have good power distribution _____.
 How _____ our ability _____ with electricity be affected _____ have good _____?
 _____ there _____ distribution _____ the area, will our _____ get connected _____ affected?
 _____ quickly _____ be hampered _____ the lack of power.
 Is _____ connected could _____ insufficiently distributed _____ resources?
 _____ do missing power infrastructure _____?
 _____ it possible that _____ connection _____ sufficient power access?
 _____ the _____ proper _____ affect our connections?
 Will _____ connection _____ to the lack _____ in the _____?

How would _____ your connection?

_____ the _____ proper _____ distribution facilities, how _____ our _____ get connected _____ affected?

The _____ facility may _____ ability _____ get connected.

_____ infrastructure affect the ability to connect?

_____ isn't _____ power _____ the area, _____ to get connected be affected?

_____ lack of _____ power _____ hamper accessibility?

_____ would a _____ of _____ affect _____?

_____ lack of _____ would _____ getting connected.

Will it affect _____ time if the area doesn't _____ good power _____?

_____ does lacking _____ connection capabilities

_____ connect will be affected by _____ power infrastructure.

_____ area does not have _____ distribution _____ will we not _____ able _____ connected _____ time?

Can we _____ connected _____ time _____ we don't _____ good _____?

_____ scarcity of electrical _____ affect our _____ connect?

_____ connection may suffer _____ the _____ of power _____.

How would _____ power _____ getting _____ timely?

_____ would _____ connections _____ by _____ of proper electricity infrastructure?

What _____ isn't enough smooth-running power _____ nearby?

Can _____ if _____ power distribution _____ not _____ out?

Will the _____ the power _____ system _____ it _____ get _____?

_____ lack of electricity _____ getting _____?

_____ to know if we _____ even if _____ delays caused _____ insufficient _____ distribution.

Can our _____ by insufficiency _____ power _____?

_____ would _____ electricity _____ connections?

Insufficient _____ the area may cause _____ connection _____.

_____ is not proper power _____ in the _____ to _____ be impacted?

_____ the absence of efficient _____ affect _____.

_____ have _____ electricity _____ affect _____ connecting?

_____ of _____ facilities affect getting connected _____?

How would our connections be _____ of _____?

Please _____ us _____ any possible setbacks to _____ ability _____ stay _____ the _____ distribution infrastructure?

Is _____ that _____ be _____ unfavorable power provisions?

Would _____ connection _____ by not _____ power _____?

_____ can insufficient _____ infrastructure impede _____?

_____ lack of power _____ affect _____ to connect?

Would the _____ of _____ with _____ connecting?

We _____ curious about _____ the shortage _____ utilities might affect _____.

Can lack _____ power _____ our ability _____?

If _____ have proper _____ facilities, _____ to _____ connected be compromised?

Let us know if _____ setbacks _____ our ability _____ stay _____ lack of power distribution _____.

Is it possible _____ distribution _____ our connections?

_____ connected take _____ if _____ are _____ smooth-running power _____ systems nearby?

Our _____ process _____ be delayed if _____ infrastructure.

_____ that _____ of power facilities would _____ connected.

_____ insufficient power distribution _____ capabilities?

_____ curious _____ consequences _____ a _____ of power distribution utilities

_____ neighborhood doesn't have good power distribution _____ connect _____?

Will _____ our ability _____ connected on _____ if _____ distribution facilities are _____?

_____ lack _____ power infrastructure _____ our ability _____ connect.

What do we _____ to _____ about the effects _____ of _____ facilities on _____ connect?

How would _____ getting connected _____?

_____ our ability to connect _____ lack of _____ infrastructure?

The _____ of power facilities _____ affect our _____.

_____ tell me _____ lacking _____ distribution affects _____ connection _____?

If our area _____ power distribution facilities _____ our ability _____.

_____ connected will be impacted _____ the lack _____ power distribution _____.

Will the lack _____ facility _____ ability to get _____?

Is _____ that _____ distributed electrical _____ disrupt our connection?

_____ ability to connect _____ affected by _____ lack _____ infrastructure.

_____ the _____ distribution issue is _____ out, _____ we actually _____?

_____ power _____ sorted _____ can we get connected?

_____ area didn't have _____ power distribution _____ how _____ be able _____ connected?

Will the _____ state of _____ it hard _____ to get connected?

_____ of _____ facilities can affect our ability _____.

How _____ have _____ affect getting connected?

_____ lack _____ power _____ to affect our ability _____ connect?

How _____ of _____ power distribution _____ affect our ability to _____?

If our area _____ power _____ how _____ our _____ get connected be affected?

_____ electricity impede connecting?

Can we _____ the power distribution is _____?

Given _____ lack of sufficient _____ distribution infrastructure, _____ of any _____ setbacks _____ our _____ stay _____?

Will the _____ the _____ distribution _____ from getting connected?

Will _____ enough _____ affect _____ connection _____?

We _____ to _____ aware _____ setbacks _____ our ability to stay connected _____ the _____ of _____ infrastructure.

If our _____ power _____ facilities _____ will _____ our _____ get connected.

How might the _____ getting _____?

_____ power provisions, could _____ be hampered?

How _____ missing electricity infrastructure _____?

Will our _____ suffer _____ the lack of _____?

We _____ wondering _____ of power distribution _____ impede _____ speed.

Will _____ ability _____ be affected _____ insufficient _____ infrastructure?

_____ interested in the _____ effects of a lack _____ connection speed.

Our _____ get connected _____ by the lack _____ proper power _____.

_____ connecting be affected _____ lack _____ electricity distribution?

_____ our _____ suffer _____ power distribution?

Will _____ to connect _____ of _____ of power infrastructure?

_____ our _____ by the _____ distribution?

_____ power distribution _____ our _____ to _____?

How does _____ connections?

Will _____ ability _____ be affected _____ don't have good power _____?

_____ our _____ be _____ power distribution?

How does _____ lack _____ infrastructure _____ your ability _____?

_____ power _____ affect _____ to connect?

_____ effective are we _____ connected when there is _____ lack _____?

_____ ability _____ by lack of power facilities?

_____ going to affect _____ connections?

_____ power facilities _____ ability _____ instantly might be _____.

Lack _____ power facilities may _____ ability _____ instantly.

Will _____ ability to _____ be _____ lack of power?

_____ of power distribution _____ might _____ connection _____.

If we ____ have proper ____ distribution ____ to get ____ be ____.

What if ____ connect ____ impacted ____ of power facilities?

Will our ability ____ don't ____ proper power infrastructure?

____ that the region does ____ have suitable ____ can we ____?

Will ____ insufficient ____ affect ____ capabilities?

Will insufficient ____ make it ____?

____ does ____ our connection abilities?

If we don't have ____ distribution ____ how ____ we ____?

If ____ area lacks ____ distribution facilities with ____ how would ____?

Will ____ of ____ hurt our connection ____?

____ would happen ____ our ____ get ____ if our ____ power ____ facilities?

____ be ____ by ____ electrical resources.

How ____ our ____ get ____ be ____ if ____ area doesn't ____ proper ____ distribution ____?

____ electricity supply impact ____ ability to get ____?

If ____ isn't electricity in the ____ it ____?

Does ____ of ____ power ____ systems affect ____ speed?

____ our power distribution system impede ____ from ____ connected?

Our ____ could ____ disrupted by ____ distributed ____.

____ does the ____ power ____ communications?

____ possible ____ power ____ delays our connection?

____ supply ____ it harder to ____ connected quickly?

Does ____ lack ____ power ____ connections?

____ we lack proper power distribution ____ how ____ ability ____ be ____?
