

[Demo] NLP Dataset for Customer Service Automation

Company Type	Property Insurance Companies
Inquiry Category	Property inspections and risk assessments
Inquiry Sub-Category	Exterior vs. Interior inspection queries
Description	Customers seek clarification on whether the property inspection focuses on external factors only or includes an evaluation of interior risks and conditions. They want to understand the scope of the inspection and ensure all crucial aspects are covered.
Data Size	5,466 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Property Insurance Company" customer inquiry. (Purchased data will not be masked.)

Does focusing _____ outward features suffice _____ assessing _____ compared _____ considering _____ circumstances that _____ comprehensively?

Is _____ appropriate _____ only _____ external attributes when considering _____ ?

_____ it possible to _____ what meets the eye and not _____ impact _____ whether inside or _____ ?

Is _____ better _____ influencing security _____ of just the _____ attributes?

_____ possible to assess overall vulnerability _____ only _____ features _____ circumstances?

_____ okay to _____ judge _____ qualities _____ analyzing susceptibility, _____ not _____ affecting protection capacity?

Is appraisal of _____ qualities _____ to _____ ?

Do surface-level _____ adequate measures of vulnerability, _____ do _____ to _____ into _____ for a comprehensive _____ security

_____ it _____ to _____ judge how _____ compared to _____ underlying causes?

Does _____ superficial _____ risk _____ way as _____ into account all the _____ conditions affecting safety?

_____ limiting the evaluation _____ attributes adequately _____ vulnerability compared _____ taking _____ the _____ factors _____ impact security?

When it comes to determining _____ vulnerability, is _____ adequate or _____ bigger picture?

_____ outward elements _____ broader security _____ ?

_____ it _____ to only _____ susceptibility through _____ ?

_____ we only _____ on external _____ deep-rooted conditions affecting security _____ a _____ ?

Is _____ necessary _____ focus _____ outward features _____ assessing _____ vulnerability?

Is _____ possible _____ assess vulnerability _____ taking _____ underlying _____ that impact _____ security?

_____ comprehensively addressing underlying conditions _____ a _____ than superficial _____ ?

_____ it _____ to _____ rely on _____ features _____ overlooking nested circumstances _____ security?

Is relying on _____ features _____ comprehensive _____ ?

Is _____ to _____ the _____ on external factors?

Is it possible to _____ the exterior qualities without _____ underlying _____ ?

_____ relying _____ outward characteristics suffice to measure vulnerability _____ considering _____ circumstances _____ ?

Is _____ to _____ evaluate _____ without considering the _____ of influences _____ safety?

Is it _____ to just _____ exterior qualities, _____ considering _____ scope _____ ?

_____ judge overall vulnerability by _____ elements?

focusing the surface be enough vulnerability?
 it possible to only qualities when acknowledge issues?
 Should we take into account the that or should outward ?
 Does superficial measure the total risk to taking account all internal ?
 Is it only secure in comparison addressing causes?
 surveilling outer appearances reason vulnerabilities without looking entwined ?
 possible assess comprehensive security just features?
 Does using outward measuring ?
 Do adequate measures vulnerability or do we need dig into contextual influences of ?
 it to consider circumstances security you rely on outward ?
 we be concerned with outward or the circumstances play a in ?
 can appraisal external suffice should the entire security situation?
 possible to qualities analyzing susceptibility and not acknowledge root ?
 By aspects that impact security or can what the eye comprehend the total ?
 Does outward features assessing ?
 Is it to gauge or should circumstances be ?
 sufficient by external elements?
 only in measuring vulnerability?
 Are outward to fully should take into the impact overall security?
 Is adequate only external when security?
 alone susceptibility, or should we look at the surrounding that affect ?
 outward characteristics measure to considering overarching circumstances that ?
 if on external aspects neglect deep-rooted conditions as whole?
 Do the circumstances play bigger in vulnerability should with outward traits?
 we rely when evaluating instead of considering the underlying and security?
 to rely external when vulnerability, rather considering the and effect security?
 addressing give a thorough compared to superficial
 characteristics to fully vulnerability, or should take factors?
 Is it to limit the physical consider impact security?
 Can only features when evaluating than the underlying effect of ?
 Do qualities offer a comprehensive of susceptibility must the circumstances for a ?
 on surface appearances enough to riskiness to ?
 opposed to considering the wider circumstances impact extensively, it to qualities?
 it possible to assess vulnerability ?
 enough outward when analyzing susceptibility, is important to acknowledge root ?
 Is it ok only consider attributes levels?
 Is it enough to vulnerability by or should we factors affecting ?
 Will exclusively the surface ?
 appropriate to only at attributes for determining levels considering all-inclusive conditions ?
 it solely appearance, or we take account other factors?
 Is it evaluate exterior into account the larger scope of underlying ?
 limiting the physical to overall vulnerability take into account underlying factors security?
 Is necessary to only features to comprehensive ?
 Is enough to focus solely outward traits evaluating as opposed to wider protection ?
 Is it enough to characteristics or should we factors that ?
 concerned only with or should the more important in assessing total ?
 or should take into account underlying factors that impact security?

Is it _____ judge outward _____ when _____ instead of _____ root _____ that _____ protection capacity?
 _____ broader _____ play _____ more _____ role in _____ vulnerability, or _____ only concerned with outward _____?
 _____ we _____ underlying circumstances that _____ than focusing on outward _____?

Does _____ only _____ outward features compare _____ considering underlying _____?

Should _____ entire security _____ vulnerability or should _____ just look _____ the external _____?
 _____ on external _____ enough for _____ security _____?

_____ the general susceptibility calculation _____ than examining _____ conditions?
 _____ only on the _____ vulnerability _____?

_____ be concerned _____ or should the underlying circumstances play a _____ part _____ vulnerability?
 _____ it possible _____ evaluate _____ weighing _____ bigger impact of _____ influences _____ safety?
 _____ it _____ to assess comprehensive security by _____ external _____?

Do _____ aspects give _____ measures of vulnerability or do _____ contextual _____ for _____ comprehensive assessment?

Is _____ only _____ at external attributes for _____ exposure _____?
 _____ it necessary to rely solely on external _____?

_____ take _____ account _____ underlying factors that affect _____ are outward _____ enough _____ fully assess _____?
 _____ characteristics suffice for determining vulnerability compared to _____ affect security?

Is _____ possible to _____ evaluate exterior _____ without _____ into _____ influences that impact safety?

Are _____ characteristics enough to _____ assess _____ take into _____ the underlying _____?

Is _____ external traits _____ evaluate _____ is it more _____ to account _____ comprehensive and influential _____?
 _____ it _____ analyzing the _____ factors _____ instead of _____ the outer _____?

_____ External _____ enough _____ assess _____ susceptibility or should _____ influential circumstances?
 _____ dwelling _____ surface appearances _____ determine riskiness _____ examining _____ influences?

Is evaluating _____ enough to _____ broader factors _____ security and _____?

Is _____ possible _____ traits _____ fully judge how _____ is _____ the underlying causes?
 _____ it enough _____ judge overall _____ on _____?

_____ it better to _____ only _____ taking into _____ all the _____ conditions affecting _____?
 _____ it _____ on _____ features when assessing _____ security?
 _____ surveilling outer appearances sufficient _____ for figuring _____ vulnerabilities without _____?

Do the _____ circumstances play _____ more significant _____ in assessing total _____ should _____ only _____?

_____ the evaluation _____ attributes adequate to _____ overall _____ compared to _____ underlying factors?
 _____ possible _____ outer _____ can _____ judge how _____ something _____ comparison with _____ causes?
 _____ limiting the _____ attributes _____ overall vulnerability, _____ to _____ account underlying factors _____ impact security?

_____ surveilling _____ sufficient _____ assessing vulnerabilities _____ looking _____ entwined consequential _____?
 _____ an _____ of external qualities _____ determining overall _____?

_____ external _____ representations of _____ should we take into _____ affecting safety?
 _____ we _____ consider external _____ when _____ vulnerability, not _____ the _____ and _____ effect _____ security?

Is _____ possible to focus _____ outward _____ when evaluating _____ as opposed _____ wider _____ impact protection?
 _____ necessary _____ only on external _____ when looking at _____?

Is _____ focus _____ external _____ to evaluate _____ susceptibility or _____ more _____ to _____ for influential _____?

Is calculating general susceptibility based _____ satisfactory compared _____ examining _____ conditions _____?
 _____ using _____ outward _____ measuring vulnerability compared to considering _____ affect security?
 _____ calculating general _____ solely _____ on noticeable _____ compared _____ thorough _____ fundamental _____?

Is it enough _____ fully assess vulnerability or _____ we _____ account _____?

_____ possible to _____ consider _____ traits when evaluating general security, _____ opposed to _____ impact protection?

_____ appraisal _____ external _____ suffice _____ determining _____ vulnerability or _____ one _____ at _____ whole _____?
 _____ it possible to only rely _____ outward _____?

_____ it ok _____ to _____ look _____ external attributes _____ judging _____ levels?

Is _____ possible to just focus on _____ and _____ consider the _____ aspects that _____ or out?

_____ sufficient _____ look at external attributes _____ judging _____ levels?

Is it _____ to _____ based _____ external elements?

_____ the outward _____ broader _____ implications?

_____ solely _____ the surface _____ enough to assess _____?

Does _____ aspects _____ adequate measures _____ dig deeper _____ contextual influences for _____ comprehensive assessment of security?

Is it _____ outer traits to _____ judge _____ secure _____ compared to _____?

_____ dwelling on surface _____ enough _____ compared to _____ influences impacting _____ profoundly?

_____ to just evaluate exterior _____ and not consider _____ bigger _____ of _____?

_____ it _____ just evaluate _____ exterior _____ without considering the _____?

_____ it possible to _____ vulnerability _____ appearance?

Should surveilling _____ for determining _____ without looking into _____ consequential _____?

Is external _____ enough to assess overall _____ should _____ influential _____?

_____ it enough _____ by appearances, _____ should _____ look _____ all _____ factors _____ affect security?

Is it possible _____ by _____ surface appearances _____ of _____ everything?

Is it _____ to _____ on _____ meets _____ eye and not consider _____ deeper aspects _____ inside _____?

_____ focusing _____ external characteristics enough _____ susceptibility or is it more _____ account for _____?

Does _____ make _____ to consider overarching _____ that _____ than relying _____ characteristics?

Is focusing _____ on _____ enough _____ evaluate overall _____ is _____ important to _____ for _____ and _____ factors?

_____ it necessary to _____ at _____ attributes for judging _____ all-rounded conditions impacting _____?

Would _____ evaluation to _____ attributes _____ reflect _____ vulnerability compared to taking _____ affect security?

Would it be _____ to limit _____ than taking into account _____ that impact _____?

Is it _____ using _____ outward characteristics when considering _____ circumstances that _____?

Is _____ necessary to _____ on outward _____ when evaluating _____ considering the wider _____ impact protection?

Is it _____ to _____ solely _____ external _____ rather _____ the underlying circumstances?

Is _____ necessary _____ only _____ outward _____ analyzing overall susceptibility and _____ acknowledge _____?

_____ using external _____ adequate for _____?

_____ enough _____ safety, _____ do we need _____ the bigger picture?

_____ the _____ external traits enough to evaluate _____?

Does relying _____ on _____ suffice _____ vulnerability?

Do _____ aspects give _____ or _____ deeper into contextual _____ for an assessment of security?

_____ to only depend _____ appearance for assessing _____?

_____ it _____ to _____ outward qualities when _____ overall susceptibility, rather _____ root _____?

_____ appearances sufficient _____ determining holistic _____ looking at entwined consequential points?

Is _____ that _____ focus on external aspects while _____ deep-rooted _____ affecting _____ as _____?

_____ solely _____ characteristics suffice _____ measure vulnerability compared to _____ overarching _____?

Do surface-level aspects _____ adequate _____ of vulnerability, or _____ need to dive _____ into _____ a comprehensive _____?

Is _____ enough _____ vulnerability _____ to considering overarching circumstances?

Would limiting _____ evaluation _____ attributes _____ vulnerability compared _____ taking _____ underlying factors?

Do external _____ alone offer _____ of _____ must _____ also look _____ surrounding circumstances that _____ security?

Do _____ offer _____ comprehensive understanding of _____ we _____ look at the _____ circumstances _____ security for _____ complete picture?

_____ proper _____ outward qualities when analyzing susceptibility, _____ than acknowledging root issues that _____?

_____ assessing comprehensive security, is it _____ rely _____ features?

Is _____ qualities to _____ judge how secure something _____ compared to _____?

_____ surface-level _____ provide _____ measures _____ vulnerability or do _____ dig deeper _____ influences for a comprehensive _____?

Is _____ possible _____ assess _____ vulnerability with only _____ considering underlying circumstances that _____?

Can _____ gauged _____ by external _____?

_____ appropriate _____ only _____ at _____ attributes _____ judging total _____ when considering _____ conditions impacting safety?

Does _____ of _____ the _____ security implications?

Do external _____ give _____ a _____ understanding of susceptibility or _____ to look _____ surrounding _____?

Is surveilling outer appearances _____ grounds for _____ consequential points?

Is _____ scrutinize _____ on external elements?

_____ possible to consider _____ that _____ protection _____ instead _____ focusing _____ outward traits?

_____ aspects _____ measures _____ vulnerability or do _____ need to dig deeper _____ influences _____ a _____ of security?

_____ possible to just evaluate _____ qualities _____ at _____ bigger _____ the safety?

Is it possible to _____ focus _____ outward _____ when _____ opposed _____ considering _____ wider circumstances _____ protection?

Should _____ with outward _____ the underlying circumstances play a bigger _____ in _____ vulnerability?

_____ it possible to assess overall vulnerability if _____?

Is it _____ to _____ focus on _____ qualities _____ looking _____?

Are we _____ or should _____ into _____ all factors affecting security?

_____ surface-level _____ give adequate measures of _____ we _____ deeper into contextual _____ for a _____ of security?

_____ external _____ vulnerability, or _____ we _____ account _____ circumstances that affect _____?

Is _____ on outward features enough to assess overall vulnerability _____ considering _____ security _____?

_____ only _____ to measure vulnerability compared _____ considering broader _____ that _____ security?

_____ it possible _____ surface appearances instead of _____ influences impacting safety _____?

_____ external _____ alone _____ complete _____ of susceptibility or should we also _____ at _____ can _____ security?

Do _____ alone _____ a comprehensive _____ susceptibility, _____ must we also _____ circumstances that can affect _____ broadly _____ complete _____?

Should _____ only _____ with _____ characteristics, or should the _____ a _____ role?

_____ make sense to look at overarching circumstances that _____ only _____ outward _____?

Is considering _____ superficial aspects _____ to _____?

Is _____ to _____ look _____ looking at the bigger picture?

_____ we rely _____ external features _____ evaluate _____ rather than _____ the _____?

_____ focus _____ external traits _____ overall susceptibility _____ is it more important to account _____?

Do _____ qualities alone _____ a full _____ of _____ or _____ need _____ look at _____ circumstances?

Is _____ appearances enough to _____ susceptibility _____ we _____ other _____ circumstances?

Is _____ outer _____ adequate _____ assessing _____ looking into consequential _____?

_____ it _____ overall vulnerability if you only _____ outward features?

_____ it enough to evaluate _____ or should _____ at the _____ factors _____ affect _____ and _____?

Is _____ only _____ on _____ or is _____ more _____ underlying factors?

When _____ is it _____ surface _____ or _____ one look at _____ picture?

Is it _____ to _____ evaluate _____ into account the larger _____ underlying _____?

When determining _____ vulnerability, is judging _____ should one _____ bigger picture.

_____ to _____ look _____ external _____ when evaluating _____ susceptibility or _____ it more _____ to account _____ factors?

_____ outward characteristics _____ fully assess vulnerability _____ we take _____ account the underlying factors _____?

_____ it possible to _____ focus _____ what _____ eye and not _____ deep _____ impact security _____ or out?

_____ enough to _____ external _____ or should _____ the bigger picture of _____ and _____?

_____ it possible to limit the evaluation _____ taking into account _____ factors _____ impact _____?

Do surface-level aspects provide _____ of _____ do _____ need to _____ into contextual influences for _____ security?

Is _____ depend _____ outward appearance _____ assessing vulnerability?

Is it _____ to _____ outward _____ when evaluating _____ considering wider circumstances _____ affect protection extensively?

_____ the _____ circumstances _____ a _____ in _____ total vulnerability, or should we _____ about outward _____?

Do external _____ vulnerability _____ should _____ into account comprehensive _____?

_____ not enough _____ qualities _____ considering the larger scope _____ underlying influences?
 _____ to only _____ outward qualities when _____ susceptibility, rather than _____ issues _____ affect _____ capacity?
 When determining overall _____ is it _____ surface _____ enough _____ the _____ picture?
 Is _____ appearances _____ to _____ susceptibility?
 _____ possible to gauge _____ surface appearances instead _____ examining _____ influences?
 Is _____ possible _____ qualities without taking into _____ the _____ picture _____ safety?
 As opposed _____ considering _____ circumstances _____ impact _____ is _____ to _____ solely on outward qualities?
 Is it _____ to assess overall vulnerability _____ only _____ and _____ circumstances?
 _____ that outer traits can fully judge _____ something _____ to _____ causes?
 Is _____ better _____ evaluate _____ superficial _____ than to take _____ all _____ affecting safety?
 _____ possible _____ riskiness _____ compared to examining all-encompassing influences _____ safety profoundly?
 Is _____ at external attributes for _____ total _____ levels when considering _____ conditions _____ safety?
 _____ it possible _____ only rely on _____ appearance _____?
 Is _____ judged _____ appearances or _____ take _____ account _____ the factors _____ security?
 _____ characteristics _____ to _____ assess _____ or _____ we consider _____ underlying factors that _____?
 _____ possible _____ rely _____ on _____ vulnerability, rather than considering the underlying _____?
 Is _____ enough to judge _____ by _____?
 _____ characteristics _____ fully _____ vulnerability, or _____ we consider the underlying _____?
 Should surveilling _____ appearances _____ used to _____ without looking _____ consequential _____?
 _____ on the _____ adequately assess _____?
 _____ it possible to _____ characteristics when considering _____ that affect security?
 _____ it possible to _____ solely _____ outward qualities _____ general insecurity, _____ the wider circumstances that
 affect _____?
 Does _____ aspects _____ security implications?
 Is it _____ to judge vulnerability _____ on _____?
 _____ possible _____ outer _____ how secure something _____ in comparison to the _____?
 _____ we _____ outward _____ should _____ underlying circumstances play a more important role _____ assessing total
 _____?
 For a _____ assessment of _____ surface-level aspects _____ adequate _____ of _____ we _____ to dig deeper into _____?
 "Do _____ a comprehensive understanding _____ susceptibility, or _____ we _____ analyze the surrounding _____
 affect security broadly _____?
 Is _____ to assess _____?
 _____ qualities _____ comprehensive understanding of _____ or should _____ also look at the _____ circumstances _____
 affect _____?
 Is _____ ok to _____ outward _____ when analyzing susceptibility, _____ of _____ at _____?
 Is it enough _____ only _____ at _____ factors _____ overall _____ or _____ account for influential factors?
 _____ possible to assess vulnerability only on surface features _____?
 _____ focus on _____ characteristics _____ evaluate _____ susceptibility _____ is there more _____ it?
 Is _____ only on _____ traits enough to evaluate _____ or _____ more important _____ factors?
 While neglecting _____ conditions affecting security as _____ if we _____ external _____?
 Should we be concerned _____ characteristics _____ the _____ play _____ role in assessing _____ vulnerability?
 Is it necessary _____ only _____ attributes _____ total _____ levels when considering _____ impacting safety?
 _____ evaluation be limited solely _____ physical attributes and _____ underlying _____ impact security?
 Is calculating general susceptibility _____ observable _____ to thoroughly _____ conditions?
 _____ evaluating the _____ security implications?
 _____ surveilling outer appearances _____ grounds for _____ without _____ into consequential _____?
 _____ external _____ for _____ exposure levels when considering all-encompassing _____ impacting safety?
 _____ relying _____ characteristics _____ in _____ compared to considering _____ circumstances that _____ security?
 Would _____ evaluation _____ physical _____ reflect the overall _____ compared _____ taking into account underlying _____
 _____?
 _____ look at the broader factors _____ the outer attributes?
 _____ we rely on external _____ vulnerability, instead of considering _____?

____ external qualities ____ offer a complete understanding of ____ or ____ we ____ at ____ that ____ affect ____?
 ____ on external features ____ evaluating vulnerability ____ considering the underlying circumstances?
 ____ general susceptibility calculated ____ on ____ rather ____ examining fundamental ____?
 Is there ____ gauged by dwelling ____ surface appearances ____ influences?
 Is it ____ focus ____ outward ____ when evaluating general ____ as opposed to ____ wider ____ that affect ____?
 ____ the evaluation ____ physical ____ overall vulnerability ____ taking ____ account underlying ____ that impact security?
 Is ____ adequate ____ on external ____ assessing security?
 ____ possible ____ exclusively ____ external aspects while neglecting ____ a whole?
 Is it enough to judge outward ____ when ____ it ____ important ____ root ____ affecting ____ capacity?
 Do ____ aspects give ____ measures ____ vulnerability, or ____ to ____ into ____ influences ____ assess security?
 Is ____ to assess ____ by ____ on outward features ____ underlying circumstances?
 ____ we ____ only ____ features when evaluating ____ instead ____ considering ____ underlying circumstances ____ their effect ____?
 Do ____ aspects give ____ measures of ____ or do ____ deeper ____ contextual ____ for a comprehensive ____ security?
 ____ possible to only ____ without considering the larger scope ____ safety?
 ____ determining overall ____ can evaluation ____ traits ____ or ____ the whole security?
 Is it wise ____ on ____ features when ____?
 ____ evaluating ____ will ____ on the surface ____?
 Is it ____ to ____ outward characteristics ____ insecurity, as ____ considering the ____ that impact protection extensively?
 Is ____ when evaluating security?
 Does ____ superficial ____ compare to taking ____ account all ____ affecting ____?
 ____ overall vulnerability, ____ the surface ____ or should ____ at the bigger ____?
 Is ____ enough to judge ____ by appearances, ____ should ____ take ____ account ____ factors ____?
 Is ____ to ____ susceptibility solely ____ on ____ compared to examining fundamental ____?
 Does ____ capture broader security ____?
 Do ____ qualities alone ____ or ____ also ____ the ____ circumstances ____ can affect security broadly for ____ complete picture
 Is it sufficient ____ vulnerability solely ____?
 Is ____ okay ____ look at ____ qualities ____ analyzing ____ and ____ acknowledge root ____?
 Is it ____ to just evaluate ____ the ____ picture of ____?
 Is it ____ only ____ outward ____ vulnerability?
 Does ____ account all the internal ____ affecting safety measure ____ better ____?
 Is it ____ to ____ focus on what ____ eye ____ not consider the ____ that ____ security inside ____?
 Is ____ to calculate general ____ solely based ____ noticeable ____ thoroughly ____ fundamental ____?
 ____ dwelling ____ appearances more indicative ____ than examining all-encompassing ____?
 Is ____ to ____ what meets ____ eye ____ not consider the ____ aspects that ____ inside ____ outside?
 ____ better ____ at all-encompassing ____ safety profoundly than to look ____ appearances?
 Is using ____ characteristics enough to ____ vulnerability ____ to ____?
 ____ on external ____ when evaluating vulnerability ____ than considering the ____?
 Can ____ on surface features ____ assess ____ and ____ the ____ circumstances ____ security?
 Is ____ necessary to ____ exterior ____ considering the ____ scope ____ impacting safety?
 ____ it possible to ____ on ____ evaluating general insecurity?
 ____ it ____ to ____ if ____ only focus ____ the surface?
 Can ____ of ____ determining overall vulnerability, or should ____ whole security ____?
 ____ rely solely ____ external features when ____ vulnerability, ____ than ____ underlying circumstances and ____ security?
 Is ____ possible ____ external ____ when evaluating ____ of ____ the ____ circumstances and ____ effect on security?
 ____ it ____ features when evaluating vulnerability, ____ than considering the ____ circumstances and ____ on security?
 Can we ____ on external ____ when ____?

Is calculating _____ solely based _____ indicators _____ compared _____ examining fundamental _____.

Is it _____ focus _____ meets the eye, and _____ the deeper _____ impact _____ inside or _____?

Is _____ gauge overall _____ solely _____ external features?

While neglecting _____ affecting _____ whole, what if we focused solely _____?

Is _____ possible to only consider external features _____ vulnerability, _____ underlying _____?

In determining _____ vulnerability, can _____ attributes suffice _____ one consider _____ security?

Does _____ make sense _____ on _____ instead of considering _____ that affect _____?

_____ possible _____ calculate _____ susceptibility _____ noticeable indicators _____ than examining _____ conditions?

_____ determining _____ appraisal _____ external traits suffice _____ should _____ look at the _____?

When _____ vulnerability, can _____ only _____ features, _____ considering _____ underlying circumstances?

_____ focusing _____ outward _____ affect _____ vulnerability?

Is it _____ enough _____ consider _____ wider circumstances _____ impact protection _____ of _____ solely on _____?

Is it enough _____ riskiness _____ examining _____ influences?

_____ to just evaluate exterior _____ taking into account _____ bigger picture _____?

_____ focusing exclusively _____ surface _____ evaluate vulnerability?

Is it possible to _____ on _____ characteristics when _____ general _____ considering _____ wider circumstances _____ extensively?

_____ appropriate _____ judge _____ vulnerability based _____ external elements?

Is surveilling _____ an adequate basis _____ assessing _____ without _____ entwined _____?

Is _____ possible to just _____ exterior _____ without considering _____ bigger _____?

Is _____ to only judge outward _____ when _____ susceptibility, rather than acknowledging _____ issues _____?

_____ it _____ to just _____ exterior _____ without taking _____ picture of _____?

Is _____ to fully assess _____ should we _____ into account _____ underlying _____ that _____?

_____ the _____ a more significant role in assessing total _____ or _____ worry about _____?

Is it _____ measure vulnerability when _____ overarching circumstances that _____ security?

Is it possible _____ vulnerability _____ only _____?

_____ just _____ qualities without considering _____ bigger influence on safety?

_____ looking _____ at external attributes _____ for _____ exposure _____ when _____ all-rounded _____?

Is it better to judge _____ solely _____ or should _____ take _____ all _____?

_____ it enough _____ at external characteristics _____ should we look _____?

Is it appropriate to _____ qualities _____ analyzing susceptibility, _____ not acknowledge _____ affecting _____?

_____ evaluating external characteristics _____ consider the bigger _____ that _____ security _____?

_____ possible to determine _____ only _____ on looks _____ factors?

_____ it possible _____ the surface _____ evaluating vulnerability?

Is it _____ to assess overall _____ by focusing _____ outward _____ to _____ circumstances that _____ security _____?

_____ it possible _____ only _____ on _____ assessment of _____?

Is _____ use external _____ when _____ vulnerability, _____ considering the _____ circumstances and their _____ on _____?

_____ only external _____ enough _____ security?

_____ evaluation to physical _____ only reflect overall _____ not _____ account underlying factors _____ impact _____?

_____ it possible to _____ on outward _____ when evaluating general _____ of considering _____ that _____ extensively?

_____ it _____ to gauge _____ compared to _____ all-encompassing _____ that _____ profoundly?

_____ it possible to _____ the _____ to _____ while _____ account _____ underlying factors that impact _____?

Is _____ general susceptibility _____ indicators satisfactory when _____ to _____ fundamental _____?

_____ external _____ enough to _____ overall _____?

Is _____ enough to _____ vulnerability _____ factors _____?

_____ outward _____ sufficient to _____ vulnerability _____ we take into _____ underlying _____?

Is _____ enough for _____ be _____ by _____ should we consider all _____?

_____ be _____ characteristics, or _____ the underlying _____ more _____ in assessing total vulnerability?

_____ outward _____ capturing _____ security implications?

Is it _____ only _____ on _____ features to _____ while overlooking _____ affecting security?

Do the broader circumstances _____ more significant _____ total _____ we _____ worry about _____ characteristics?

_____ qualities _____ offer a comprehensive _____ susceptibility, _____ must we _____ at _____ surrounding circumstances _____ can affect _____?

_____ look _____ the _____ appearance for vulnerability?

Do the _____ circumstances _____ significant _____ in _____ vulnerability _____ should _____ only _____ about outward attributes?

_____ it adequate to only _____ external features _____?

Is _____ assessed solely _____?

Is focusing _____ enough to evaluate overall _____ or is it _____ important to _____ for _____?

Is it _____ to _____ overarching _____ affect security _____ of relying _____?

Are _____ characteristics enough _____ assess vulnerability, _____ should we take _____ underlying _____?

_____ only at _____ sufficient for judging _____ exposure _____ considering all aspects _____?

_____ underlying conditions give a _____ evaluation _____ superficial indicators _____?

_____ possible to just _____ at _____ taking into account the _____ influence _____?

_____ only _____ adequate when assessing _____?

Are we judging _____ solely _____ appearances _____ take into _____ the _____ affect security?

_____ enough _____ solely _____ appearance _____ should _____ take into account all factors _____ security?

_____ depend _____ outward appearance for _____ assessment?

_____ only gauge safety _____ features?

Is it _____ focus _____ on outward _____ general security, _____ opposed to considering _____?

Is it possible _____ traits _____ fully judge _____ secure it is _____?

_____ it possible to focus only _____ characteristics _____ evaluating _____?

_____ it _____ to scrutinize _____ influencing security _____ of _____ the _____ attributes?

Should surveilling _____ seen as sufficient grounds _____ assessing _____ looking _____ consequential _____?

Does it _____ sense _____ only _____ outward _____ when _____ at _____ vulnerability?

Should _____ appearances _____ be _____ gauge holistic vulnerabilities without _____ at consequential _____?

_____ the evaluation _____ physical attributes only _____ not _____ the underlying factors that impact security?

Is relying only on _____ for _____?

_____ possible _____ outer traits _____ judge how secure something _____ with addressing _____?

_____ for outer characteristics to _____ judge _____ is _____ comparison to underlying _____?

_____ evaluation _____ attributes adequate to _____ overall vulnerability compared to taking _____ account _____ factors _____ security?

Is _____ enough _____ external _____ should we _____ the broader _____ impact security and vulnerability?

_____ may _____ be enough _____ understanding of susceptibility or _____ surrounding _____ can affect security broadly.

Would limiting the evaluation _____ physical _____ adequately reflect _____ compared _____ taking _____ account underlying _____ impact _____?

_____ it _____ evaluate _____ characteristics or _____ we consider the _____?

Is it _____ solely on _____ neglecting _____ conditions affecting _____ a whole?

_____ appearances _____ be _____ grounds for assessing vulnerabilities without _____ points?

Is there _____ focus on _____ overall _____ or is there _____ to _____?

Does _____ give adequate _____ of _____ do we need _____ deeper into _____ for a _____ assessment _____ security?

Is surveilling _____ enough for _____ without _____ into _____ points?

Should _____ outer appearances alone _____ enough for _____ looking at _____?

When _____ characteristics adequate or _____ you _____ at the bigger picture?

Is looking _____ at external _____ total _____ levels when _____ conditions?

_____ limiting _____ evaluation _____ physical attributes _____ reflect _____ compared to _____ factors that _____ security?

Is _____ possible _____ solely on outward qualities when evaluating general _____ as opposed _____ considering _____ that _____?

_____ better to analyze the _____ affecting security _____ just _____ attributes?

_____ outward characteristics suffice for measuring _____ considering _____ circumstances?

_____ solely on the _____ evaluate _____ effectively?

_____ it _____ only _____ at _____ qualities when analyzing _____ rather than _____ at root _____?

Does _____ addressing _____ conditions provide _____ better evaluation _____ alone?

_____ it possible to only _____ at outward _____ general insecurity, _____ to considering _____ circumstances _____ impact _____ extensively?

_____ using _____ features _____ when _____ security?

_____ qualities alone _____ a _____ of _____ do we have _____ the _____ for a complete picture?

_____ it _____ to judge vulnerability _____ appearances, _____ should _____ into _____ all _____ affecting security?

Can _____ the surface _____ effectively?

"Do external _____ alone offer a _____ of susceptibility _____ must _____ the _____ circumstances _____ security for a _____ picture? _____

Do external features accurately _____ must _____ into _____ affect overall safety?

Is it possible to gauge _____ looking _____ safety profoundly instead of _____ appearances?

_____ it _____ just _____ exterior qualities and not consider _____ larger _____ impacting safety?

_____ judged solely by _____ or _____ into account all _____ factors _____ security?

Is it _____ to _____ features _____ assessing comprehensive _____?

Is _____ possible that we _____ external aspects _____ the deep-rooted conditions _____ security as _____?

_____ focusing _____ external characteristics _____ to evaluate overall _____ or _____ more _____ to _____ for important _____?

Is it _____ for surveilling _____ alone _____ gauge _____ looking _____ consequential _____?

Is _____ features enough when _____?

Is it _____ to _____ the external elements?

Does _____ of _____ aspects _____ the _____ implications of _____?

Is _____ to judge vulnerability by appearances _____ or _____ we take into _____ factors _____?

_____ qualities alone _____ comprehensive _____ of _____ or should we also _____ at the _____ circumstances that _____?

_____ external qualities _____ offer _____ comprehensive understanding _____ susceptibility, or _____ we _____ look at _____ that _____ security?

_____ external qualities alone _____ a comprehensive _____ susceptibility or _____ we also look at the _____ can _____?

Is _____ enough _____ by _____ take into _____ all the factors affecting security?

_____ the _____ external features adequate _____ at comprehensive _____?

Is calculating general susceptibility _____ based _____ indicators _____ to _____ examining _____?

_____ calculating general _____ solely based _____ indicators _____ examining _____ conditions _____ dictate _____ measures?

_____ the appraisal _____ traits suffice _____ determining _____?

_____ at external _____ for _____ exposure levels when considering all-rounded _____?

Does _____ outward _____ measuring security vulnerability?

_____ the broader circumstances _____ a _____ role in assessing total _____ only _____ with _____ tendencies?

Can an _____ of _____ in determining overall _____?

_____ evaluation only _____ attributes and not take into _____ underlying factors _____ affect _____?

Is it possible to _____ focus _____ what _____ the _____ and _____ deep root aspects that _____ security _____?

_____ limiting _____ evaluation to physical _____ reflect _____ to the _____ that impact _____?

_____ surveilling _____ appearances the _____ for _____ vulnerabilities without _____ consequential points?

_____ it _____ to assess _____ solely _____ outward _____?

Is general _____ the _____ of noticeable indicators, _____ fundamental conditions?

_____ it _____ to fully _____ is _____ more _____ the _____ factors that _____ security?

Is the _____ on _____ to _____ is it more _____ account for _____ and influential factors?

Is it possible _____ if you _____ look at _____?

_____ surveilling _____ enough grounds _____ without _____ at entwined consequential points?

Is _____ appraisal _____ external traits _____ to _____ overall _____?

_____ it make _____ only _____ compared _____ considering overarching circumstances that affect security?

_____ general susceptibility _____ visible indicators _____ compared to _____ for protective measures?

_____ to considering the _____ impact _____ is _____ appropriate to focus _____ on outward traits?

_____ it possible _____ gauge vulnerability _____ appearances _____ should _____ circumstances be _____?

Does ____ suffice ____ vulnerability ____ on external ____?

Is it ____ to ____ qualities ____ looking ____ the bigger ____ of ____?

____ enough to judge overall ____ only ____ elements?

____ relying ____ suffice ____ vulnerability compared ____ considering overarching ____ that affect security

____ relying ____ enough ____ a comprehensive security assessment?

Is it okay ____ through outward characteristics?

____ external qualities ____ susceptibility, or must we analyze the ____ circumstances ____ affect security

____ a complete ____?

Is it possible to ____ overall ____ on outward ____ and ____ circumstances?

Is it ____ evaluation ____ physical ____ take into ____ underlying security factors?

Should surveilling ____ appearances ____ enough to ____ vulnerabilities without ____ entwined ____?

____ only ____ outward ____ when analyzing ____ not the root ____ that affect protection capacity?

____ external appearances be ____ overall ____?

Should ____ evaluation ____ on ____ attributes ____ encompass the underlying ____ influence security?

____ outward ____ suffice for ____ vulnerability?

____ external ____ for ____ total ____ levels when considering all-encompassing conditions ____ safety?

Is it ____ to only ____ attributes ____ total exposure levels ____ considering ____?

____ external features ____ when ____ security?

____ we take into ____ overall ____ do external features represent ____?

Does ____ only outward ____ help ____ measuring vulnerability ____ to ____ circumstances ____ security?

Is it ____ to ____ look ____ outward ____ when analyzing ____ root issues ____ protection capacity?

Is ____ possible to focus on external ____ ignoring ____ deep-rooted ____ whole?

Is ____ to just ____ without ____ into account the bigger ____ of underlying ____ safety?

Is it ____ solely on external ____ when ____ instead ____ the underlying ____ and effect on ____?

____ appraisal ____ external ____ suffice or ____ one consider the whole security?

Can ____ on ____ only when evaluating ____ of considering the underlying ____ effect on ____?

____ you ____ on ____ surface in ____ vulnerability?

Is the ____ on ____ overall ____ or is it more ____ to ____ comprehensive ____ influential factors?

Is it ____ to focus on the broader ____ of ____ attributes?

Can ____ only ____ outward appearance ____ vulnerability ____?

____ features accurate ____ or ____ we ____ account comprehensive circumstances that ____ safety?

____ it possible ____ overall susceptibility ____ you ____ focus ____ factors?

____ it possible ____ evaluate ____ qualities without ____ the ____ influence on ____?

____ focusing on ____ suffice ____ assessing overall ____ compared to ____ circumstances ____ security?

Is ____ to evaluate only superficial ____ in comparison ____ the ____ conditions affecting safety?

____ it possible to ____ solely on ____ when ____ security, ____ to considering wider ____?

____ external ____ sufficient ____ should we consider other influential circumstances?

____ be concerned only ____ characteristics, or should ____ underlying ____ be ____ important in ____?

____ we ____ external features ____ vulnerability instead ____ considering the underlying ____?

Is ____ enough when ____ comes ____ security?

While neglecting deep-rooted conditions ____ as ____ what if ____ focused ____ aspects?

Can ____ fully ____ how secure ____ is ____ comparison ____ addressing underlying ____?

Is ____ possible to ____ solely ____ outward characteristics ____ general ____?

____ only judge outward qualities when ____ susceptibility, instead of acknowledging ____ that ____ capacity?

Does ____ the ____ capture ____ implications?

Is only external ____ assessment?

Is ____ better to ____ superficial aspects than take ____ account ____ conditions ____?

____ it possible ____ measure vulnerability ____ on ____ characteristics compared to considering ____ that affect ____?

Is it ____ based ____ external elements?

Is ____ to only ____ based on physical ____ not take ____ account ____ impact security?

_____ appearances _____ grounds for assessing vulnerabilities without looking _____ points?
 _____ calculating _____ susceptibility _____ on _____ satisfactory _____ to _____ fundamental _____ for protective measures?
 Is it _____ for the outward _____ fully _____ vulnerability or _____ we _____ underlying factors?
 Is _____ external characteristics _____ to take _____ factors that _____ security?
 Can _____ external traits _____ overall vulnerability?
 Is _____ to focus only on _____ while _____ deep-rooted conditions _____?
 Is _____ to fully _____ vulnerability, _____ we take _____ account the underlying factors _____ impact _____?
 _____ to consider overarching circumstances _____ security instead _____ relying _____ on _____ characteristics?
 For _____ assessment of _____ do the surface-level aspects provide adequate _____ vulnerability or _____ we _____ to _____

 Is _____ to limit the evaluation to physical attributes _____ account _____ impact security?
 _____ outward characteristics _____ measuring vulnerability _____ considering _____ that affect security?
 What _____ external aspects while _____ conditions affecting security as a _____?
 Is it possible to _____ based _____ compared _____ thoroughly examining _____ conditions?
 _____ possible _____ on outward characteristics _____ evaluating _____ opposed to _____ the wider circumstances that
 impact _____?
 Is _____ to _____ when evaluating general insecurity, _____ to considering the wider circumstances _____
 impact _____ extensively?
 _____ outward characteristics sufficient to fully assess _____ we _____ into account _____ underlying _____ security?
 _____ on _____ appearances enough _____ a _____ of riskiness?
 _____ measures of vulnerability, _____ do we _____ dig _____ for a comprehensive _____ of security?
 Is _____ only on outward features _____ to assess _____ affect security?
 _____ evaluation only be _____ to physical _____ and not _____ into _____ the _____ that _____ security?
 Is _____ on _____ adequate?
 Does using only outward characteristics _____ measuring _____ to considering overarching _____?
 _____ possible _____ focus exclusively on _____ aspects _____ the _____ affecting _____ as a whole?
 Is _____ to just evaluate exterior _____ the _____ of influences impacting _____?
 Is _____ better _____ the evaluation to physical attributes _____ to _____ factors that _____ security?
 Is it _____ to _____ look at outward _____ overall _____ looking at _____ issues?
 _____ general susceptibility _____ indicators _____ compared to examining fundamental _____?
 _____ possible _____ evaluate _____ appearances to _____ vulnerability _____ should there be _____ circumstances _____ affect _____?
 Is _____ sufficient _____ assess _____ or should _____ take _____ underlying factors?
 Is _____ necessary _____ qualities without considering _____ picture of safety?
 _____ we only _____ concerned with _____ or should _____ circumstances play _____ bigger _____?
 _____ evaluating outward aspects _____?
 Do _____ aspects _____ adequate measures _____ or do _____ need _____ dig deeper into _____ a full _____ of _____?
 _____ calculating general _____ based _____ indicators satisfactory _____ examining fundamental conditions?
 _____ evaluating _____ aspects _____ adequate measure of total _____?
 _____ we gauge safety _____ by _____?
 Is _____ vulnerability by appearances _____ than _____ account _____ affecting security?
 Should we _____ be concerned _____ outward characteristics, or _____ the _____ play _____ more _____ assessing _____?
 Are the _____ aspects _____ for _____?
 Is _____ to _____ look at _____ qualities _____ analyzing susceptibility _____ issues _____ affect protection capacity?
 _____ external _____ accurately represent _____ or do _____ take _____ account comprehensive _____?
 _____ relying _____ on _____ features adequate for _____?
 _____ it _____ only _____ for judging _____ when considering _____ conditions impacting safety?
 _____ to _____ vulnerability solely on external _____?
 _____ evaluating _____ enough to account _____ factors _____ impact _____ and vulnerability?
 _____ adequate measures of _____ surface level or do we need _____ influences for _____
 comprehensive _____ of security?
 Is _____ possible _____ just evaluate exterior _____ without _____ the _____ on _____?
 _____ it _____ to _____ solely by _____ or should we take _____ affecting security?

_____ only _____ surface evaluate vulnerability _____?

Is _____ analyze the _____ that _____ security _____ just _____ outer attributes?

_____ need to _____ the _____ circumstances that affect _____ a _____ picture, or _____ external qualities alone offer _____ _____?

Is _____ to _____ look _____ external attributes _____ judging _____ when considering all _____ the _____ impacting _____?

Should _____ be used _____ vulnerability or should _____ account comprehensive _____?

_____ it _____ assess vulnerability _____ the outward appearance?

Is it _____ to just _____ without _____ account the _____ impacting safety?

_____ taking into _____ all _____ affecting _____ total risk _____ comparison to evaluating _____ superficial _____?

_____ exterior _____ for _____ vulnerabilities?

Do external _____ alone _____ we also _____ the surrounding _____ affect security broadly for a complete picture?

_____ ok to only _____ outward _____ analyzing _____ than acknowledging _____ affecting protection capacity?

_____ it _____ to _____ one's susceptibility solely through _____?

Is relying _____ enough to _____ to _____ overarching circumstances _____ affect security?

Is _____ to show a _____ picture of total _____?

_____ possible to focus solely on outward characteristics _____ evaluating _____ to considering _____ wider circumstances _____ extensively?

Is _____ acceptable to _____ qualities when _____ susceptibility, _____ not acknowledge root _____ affect protection _____?

Is _____ possible to just _____ exterior _____ into _____ larger influences _____ affect _____?

Do _____ features represent _____ or _____ we _____ into _____ comprehensive circumstances _____?

_____ evaluating _____ appearances adequate to _____ vulnerability _____ should _____ circumstances _____?

_____ we be _____ broader factors influencing _____ of _____ outer attributes?

Does evaluation _____ outward _____ implications?

_____ the assessment _____ comprehensive security _____ if only _____ used?

_____ at underlying _____ affect security more _____ outward features?

Is _____ enough to judge _____ or should we _____ all _____ security?

_____ necessary _____ only look _____ attributes _____ judging total _____ levels _____ considering _____ conditions?

Is it a _____ idea _____ analyze _____ factors affecting _____ just the _____?

_____ it _____ judge _____ on _____ basis of _____ elements?

_____ it _____ to _____ vulnerability _____ only _____ elements?

_____ surveilling _____ enough _____ vulnerabilities _____ looking into entwined consequential points?

Does _____ the outward _____ capture _____ broader _____?

_____ it _____ vulnerability, _____ should _____ for _____ underlying factors that impact security?

Is focusing _____ traits _____ evaluate overall _____ or is _____ important _____ account for _____ factors?

_____ using only _____ characteristics suffice _____ vulnerability _____ overarching _____ that affect security?

_____ look at _____ attributes for judging exposure _____ considering all-encompassing conditions _____ safety?

_____ it _____ to judge _____ based _____ the external _____?

_____ possible _____ just _____ exterior qualities without _____ at _____ picture of _____?

_____ evaluating external _____ or should we look _____ the broader _____ security _____?

Is _____ outer _____ to judge _____ secure _____ is in comparison _____ causes?

_____ we _____ measure _____ external features?

Does _____ account _____ internal conditions affecting _____ to only _____ aspects?

_____ it _____ analyze _____ factors that _____ than just the _____ attributes?

Is _____ enough to judge _____ solely _____ should _____ take into _____ other _____?

_____ it _____ only _____ at _____ for _____ exposure levels when considering all-encompassing conditions _____ safety?

_____ features represent vulnerability or _____ we _____ into account _____ that _____?

_____ possible to measure vulnerability _____ relying solely on _____ characteristics _____ considering _____?

_____ focusing _____ on _____ surface be _____ to _____ vulnerability _____?

_____ sufficient to _____ vulnerability based _____ elements?

Is looking only at external _____ adequate _____ levels when considering _____?

Is it _____ exterior qualities _____ taking _____ account the larger _____ underlying influences _____ safety?
 _____ enough to _____ vulnerability solely on _____?
 _____ to only _____ at _____ attributes for _____ total _____ when considering all aspects of _____?

Is _____ possible to focus solely on outward _____ evaluating _____ consider _____ circumstances that _____ extensively?
 _____ limiting the _____ physical attributes only _____ overall _____ to _____ into account _____?
 _____ deeper _____ matter while evaluating _____ we _____ on _____ alone?

Is it possible to measure _____ by _____ compared to _____ circumstances that _____?
 _____ considering _____ circumstances _____ security more _____ only on _____ features?

Does appraisal _____ external _____ suffice for _____?
 _____ overall _____ can appraisal _____ characteristics _____ or should one _____ at the _____?

Is only _____ features adequate _____?
 Is it possible to _____ basis of _____ instead of thoroughly _____ fundamental _____?

Would _____ the _____ to physical _____ vulnerability compared _____ the _____ factors that _____ security?
 _____ surface-level aspects give _____ measures _____ vulnerability or _____ we need _____ for a complete _____ of security?
 _____ surface-level aspects _____ adequate measures _____ vulnerability or do _____ have to dig _____ a _____ assessment _____ security?

_____ it possible _____ without _____ the larger impact of underlying _____ safety?
 _____ it _____ assess _____ surface features _____ overlooking nested circumstances affecting _____?
 _____ possible to _____ safety solely _____ features?
 _____ rely on looks _____ assessing safety, _____ matter while _____ vulnerability?

Is _____ possible _____ qualities without considering the _____ picture _____ influences?
 _____ it _____ judge vulnerability _____ on _____ elements?
 _____ to _____ solely _____ when _____ vulnerability, rather than considering the underlying _____?
 _____ external _____ represent vulnerability or should _____ take into account comprehensive _____?

While _____ the _____ conditions _____ as a whole, what _____ we _____ on _____?

Is it _____ to evaluate _____ to _____ vulnerability _____ underlying circumstances _____ impact security?
 Do _____ wider circumstances that _____ protection extensively if we only focus _____?
 Does _____ only surface _____ a _____ picture _____ total _____?
 _____ possible to evaluate vulnerability _____ focusing only _____ surface?
 _____ okay _____ look _____ external attributes for _____ levels when _____ all-encompassing conditions?

Is it ok _____ look _____ analyzing overall _____ versus acknowledging root _____ protection capacity?
 _____ on the surface _____ enough _____ evaluate _____?

Do _____ qualities alone _____ of _____ or do _____ at the surrounding _____ for a complete picture?
 _____ adequate to _____ only on external _____ security?

Do _____ provide _____ or _____ we need to look deeper into contextual _____ a comprehensive _____ security?

Is _____ possible _____ evaluate _____ external features, _____ the underlying circumstances _____ effect on security?
 _____ it possible _____ only _____ external _____ when _____ considering the underlying circumstances?
 _____ rely _____ on external features to evaluate _____ rather than _____ the _____ circumstances _____ security?

Is it _____ the _____ to only _____ attributes _____ not _____ into account the _____ factors _____ security?
 Can we rely solely _____ to _____ considering the underlying _____?
 _____ looking only at _____ adequate _____ judging exposure _____ considering _____ of _____ conditions impacting _____?
 _____ it possible _____ rely _____ external _____ when _____ vulnerability, _____ considering the underlying _____?
 _____ enough to evaluate external _____ should we _____ the _____ factors?

Is it _____ to fully _____ or should _____ at _____ affect security?
 _____ better _____ on _____ broader factors affecting _____ than just _____ outer _____?
 _____ we rely _____ external _____ in _____ vulnerability _____ considering _____ circumstances and their effect _____ security?

Can _____ use only _____ vulnerability, rather than considering _____ underlying _____ and _____ effect on _____?

____ the ____ capture ____ overall security implications?
 ____ assessing comprehensive ____ is ____ of external features ____?
 Is ____ external features ____?
 ____ evaluation of ____ capture wider ____?
 Is ____ assess overall susceptibility?
 Is ____ only ____ at external ____ for ____ total exposure levels ____ considering ____ impacting safety?
 ____ it ____ look ____ outward ____ analyzing susceptibility, ____ are there root ____ affecting protection capacity?
 ____ aspects ____ the ____ security implications?
 Can ____ give ____ evaluation compared ____ superficial indicators alone?
 ____ one's ____ solely through ____ appearance ____?
 ____ we need ____ consider the wider ____ that ____ if ____ focus on outward ____?
 ____ it ____ determine vulnerability ____ looks rather ____ underlying factors?
 ____ the exterior ____ for ____ vulnerabilities?
 ____ it ____ to just focus ____ not consider the ____ root aspects of ____ whether ____ or out?
 ____ to measure vulnerability ____ only outward ____ compared ____ overarching ____ that affect ____?
 ____ it ____ to just ____ without ____ the larger impact ____ safety?
 Is limiting the ____ attributes ____ overall vulnerability compared ____ the underlying ____ that ____ security?
 ____ possible to only focus ____ what ____ and ____ think about the deeper ____ that impact ____ inside ____?
 Is ____ possible to assess ____ by ____ features?
 Is general susceptibility ____ on ____ indicators, ____ to ____ examining ____ conditions?
 ____ on ____ suffice to measure ____ to considering overarching ____ that impact ____?
 ____ it ____ only ____ qualities when analyzing ____ rather than acknowledging root ____?
 Is relying ____ outward characteristics ____ vulnerability?
 Are ____ appearances enough to ____?
 ____ it enough to ____ on ____?
 Are outward ____ enough ____ fully ____ vulnerability ____ we ____ account of ____ underlying ____?
 ____ outer appearances ____ for determining vulnerabilities ____ entwined ____ points?
 ____ possible to ____ without considering the bigger scope ____ underlying ____?
 Can we rely ____ external ____ rather ____ considering the underlying ____ their ____ on security?
 ____ external appearances ____ to ____ we consider other important ____?
 ____ possible to only rely ____ for assessing ____?
 ____ possible to ____ evaluate exterior ____ without taking ____ the larger impact of underlying ____?
 We ____ to dig deeper ____ contextual ____ assessment of ____ but do the surface-level ____ give ____ vulnerability?
 ____ possible to only ____ exterior qualities without ____ at ____ safety?
 ____ judge vulnerability on the ____ of only ____ elements?
 ____ it enough ____ solely ____ appearance?
 Is it ____ outward traits when evaluating ____ to considering the wider ____ affect protection extensively?
 ____ using ____ adequate when assessing ____?
 ____ we ____ solely on external features ____ evaluating vulnerability instead ____ underlying ____ the ____ of ____?
 ____ worth analyzing ____ that ____ security instead of ____ the outer ____?
 Is it okay ____ one's ____ solely ____ outward ____?
 Does ____ make ____ consider ____ circumstances ____ security ____ of ____ on outward characteristics?
 ____ outer ____ judge how ____ is in ____ underlying causes?
 Can ____ only ____ features ____ evaluating ____ of ____ the ____ circumstances and ____ effect on security?
 Is ____ ability ____ judge ____ on ____ elements enough?
 Should ____ only ____ concerned with ____ the ____ circumstances play a bigger ____ assessing ____ vulnerability?
 ____ it possible to focus ____ on ____ characteristics when evaluating ____ of ____ wider ____ protection extensively?
 ____ we ____ solely ____ evaluating vulnerability ____ of ____ the underlying ____ and their effect ____ security?

____ the broader ____ play a role ____ assessing total vulnerability ____ only ____ concerned ____ outward ____ ?
 ____ it possible ____ traits ____ secure something is in ____ to addressing ____ ?
 Is ____ true that external features ____ represent vulnerability ____ must ____ into ____ ?
 ____ vulnerability judged ____ by appearance, ____ should we ____ all ____ that affect ____ ?
 ____ only outward ____ suffice in ____ vulnerability compared ____ overall ____ that ____ security?
 In determining overall vulnerability, can ____ suffice or ____ one ____ the ____ ?
 Is ____ enough ____ based on ____ external elements?
 ____ to solely rely ____ outward ____ for assessing ____ ?
 ____ it ____ to evaluate external ____ should ____ look at ____ broader ____ ?
 Is it possible to focus ____ and not consider ____ deeper aspects ____ or out?
 ____ surface appearances ____ to gauge ____ ?
 ____ alone ____ comprehensive understanding ____ susceptibility ____ we also look at the ____ circumstances?
 Is it ____ to ____ external elements?
 ____ aspects provide ____ vulnerability, or do ____ to ____ deeper ____ contextual influences to ____ security?
 Can ____ not rely on external ____ vulnerability, rather ____ the underlying ____ effect on ____ ?
 Do ____ give ____ complete understanding of susceptibility, or do we ____ to ____ the ____ ?
 ____ to ____ vulnerability or should ____ the underlying factors ____ affect security?
 ____ it okay ____ look at external ____ for ____ total exposure ____ considering all-inclusive conditions ____ ?
 ____ external ____ enough to evaluate ____ susceptibility or is ____ more important to account ____ ?
 ____ of external ____ for determining overall vulnerability ____ consider the ____ security?
 ____ it ____ calculate general susceptibility ____ the ____ indicators rather than examining ____ ?
 ____ it ____ limit ____ to physical attributes, but not ____ into ____ underlying factors ____ security?
 ____ it possible ____ what ____ the eye ____ not think about ____ deeper ____ that affect ____ or out?
 ____ solely through external features?
 ____ appraisal of external qualities ____ vulnerability or should one take ____ entire ____ ?
 Is ____ to just evaluate ____ qualities ____ the larger influences ____ ?
 ____ it possible ____ evaluate ____ qualities ____ the ____ scope of underlying ____ safety?
 ____ safety, do ____ accurately represent ____ or must we consider comprehensive ____ ?
 ____ account comprehensive circumstances ____ influence ____ or do external features ____ vulnerability?
 ____ appearance enough ____ assess ____ or ____ we consider ____ circumstances?
 ____ qualities alone offer ____ understanding ____ susceptibility, or should we also ____ surrounding ____ that
 can ____ ?
 Do the ____ circumstances play ____ role in ____ or should we ____ worry about ____ ?
 ____ the use of external ____ assessing ____ ?
 ____ possible to just ____ at exterior ____ considering the larger ____ influences ____ ?
 ____ focusing only ____ qualities ____ a ____ picture ____ insecurity?
 ____ the evaluation ____ adequately reflect overall vulnerability compared to ____ into ____ factors that ____
 ____ ?
 ____ it adequate to ____ judge ____ qualities when ____ susceptibility, ____ root ____ ?
 Should we only be ____ with outward ____ the broader ____ a ____ in ____ vulnerability?
 ____ external ____ a ____ understanding of ____ or ____ have ____ look ____ the ____ circumstances for a complete
 picture?
 ____ not enough to just evaluate ____ looking ____ bigger picture ____ safety?
 Will ____ the surface ____ to ____ ?
 Is ____ necessary to rely ____ outward ____ measure vulnerability compared ____ circumstances that affect ____ ?
 Should ____ outer appearances ____ for ____ into consequential points?
 Do the broader ____ more significant ____ in assessing total ____ should we ____ outward
 characteristics?
 ____ the evaluation ____ outward ____ capture the ____ security ____ ?
 Is it possible ____ just ____ on ____ and not consider the deep ____ whether inside or ____ ?
 Is ____ for ____ outward characteristics to fully assess ____ or ____ underlying factors ____ into ____ ?

Do external _____ of susceptibility _____ need to look at the surrounding circumstances for _____ picture?

Is focusing on external _____ overall _____?

_____ focusing only _____ the _____ to _____ vulnerability effectively?

Is it enough to _____ by _____ or _____ we _____ all _____ factors affecting _____?

Is it _____ to rely on _____ vulnerability _____ of considering the _____?

_____ it possible to only _____ outward appearance _____?

Do _____ aspects offer _____ measures _____ vulnerability _____ we need to dig deeper into _____ influences _____ a _____?

As opposed _____ considering _____ wider circumstances _____ extensively, _____ it _____ focus solely on _____ characteristics?

_____ it ok to _____ qualities when _____ versus acknowledging root issues _____ protection _____?

Can outer traits _____ something _____ to the underlying _____?

_____ outer appearances _____ determine holistic vulnerabilities _____ looking into _____ consequential _____?

Does an evaluation _____ capture broader _____?

_____ is _____ question if _____ only surface _____ a _____ picture _____ total _____.

Does _____ capture security implications?

Can _____ evaluation of _____ suffice _____ determining overall _____?

_____ into _____ internal _____ affecting safety _____ total risk _____ evaluating only superficial _____?

_____ appropriate to _____ at external _____ exposure levels _____ considering all-encompassing _____ impacting safety?

Is it _____ on _____ traits when evaluating general _____ as opposed _____ considering _____ wider circumstances _____ protection _____?

_____ conditions _____ a thorough evaluation compared to _____ alone

_____ the _____ aspects sufficient _____ determining _____?

_____ to evaluate external characteristics or _____ we consider _____ that affect _____ vulnerability?

Will _____ only on the _____ evaluate vulnerability _____?

_____ to _____ assess one's _____ through outward characteristics?

_____ the underlying _____ play a _____ significant _____ in assessing total _____ should _____ only _____ outward qualities?

Is _____ to evaluate overall _____ by _____ at external factors, or is _____?

_____ vulnerability, _____ judging surface _____ or should one look _____ the _____ picture.

Is vulnerability judged _____ or _____ we _____ account _____ affecting security?

_____ it _____ look at outward _____ analyzing _____ and not _____ root issues that _____ capacity?

_____ it _____ to _____ assess _____ through _____ characteristics?

_____ it _____ to _____ vulnerability based _____ external elements?

_____ concerned only with _____ or should the _____ circumstances _____ a more _____ in _____ total vulnerability?

_____ only _____ aspects measure the _____ risk _____ comparison to taking into account _____ safety?

Is _____ outer traits can fully judge _____ something is _____ comparison _____ the _____?

_____ external _____ offer _____ comprehensive _____ of _____ or must we also _____ the surrounding _____ that _____ security broadly? _____

Is it possible to _____ riskiness _____ examining _____ influences?

Should we be _____ with _____ should the broader _____ play _____ significant _____ assessing vulnerability?

_____ possible to only _____ external features _____ evaluating vulnerability instead _____ the _____?

Is _____ possible _____ limit _____ physical attributes and not _____ account underlying _____ that impact _____?

_____ it _____ assess one's susceptibility _____ based on _____?

_____ it _____ to _____ susceptibility _____ their outward appearance?

_____ accurately _____ overall vulnerabilities _____ aspects sufficient?

_____ we only look _____ safety through _____?

_____ it _____ to _____ on _____ meets _____ eye _____ take _____ account deep root _____ impact security whether _____ or out?

Do _____ aspects _____ measures of _____ or _____ need _____ dig deeper into contextual influences _____ a _____ of _____?

_____ enough _____ look at external characteristics, _____ should _____ at _____ bigger picture?

Is _____ external _____ sufficient when _____?

external accurately represent vulnerability into account comprehensive safety?

Do surface-level aspects adequate of vulnerability, or do we need to contextual _____?

Is to the to physical taking underlying factors affect security?
vulnerability solely by should at underlying factors?

Is general on compared to thoroughly fundamental conditions dictate ?

Is possible only when evaluating general insecurity, and not that protection extensively?

susceptibility solely based noticeable satisfactory?

comprehensively addressing underlying give a evaluation alone?

Is it qualities without account the bigger impact underlying influences safety?

Is possible to exclusively surface vulnerability?

it to qualities when analyzing rather acknowledging root issues affect capacity?

Do surface-level adequate measures of do we to into influences a comprehensive security?

Is use the appearance for assessing ?

Is it enough to or we take account ?

Is indicative of or should we into ?

Is evaluation and not taking into account the security?
of external determining vulnerability?

Is surveilling outer for vulnerabilities without insight consequential ?

at the broader factors impacting just outer attributes?

Do the broader circumstances play a significant in vulnerability or we with ?

Does relying solely outward characteristics suffice measuring to ?

Should be concerned with characteristics, circumstances important assessing total vulnerability?

Should we broader factors that affect instead of outer ?

Is vulnerability only on appearances should underlying ?

Do external qualities alone of susceptibility or we the complete picture?

it to focus outward when looking at overall ?

it possible to vulnerability by ?

Is to evaluate take account all conditions affecting ?

Is looking attributes adequate judging exposure levels considering safety?

it not enough qualities without picture of safety?

Should surveilling appearances only for vulnerabilities without looking into ?

it to look outward when analyzing overall susceptibility look at issues protection ?

Is possible only on outward traits general to wider circumstances impact protection?

for trait fully judge secure is compared to causes?

Is it to simply outward assessing ?

to look at the factors influencing security instead outer attributes?

Should we be concerned with or do underlying more in total vulnerability?

Is features enough security?

surface-level aspects provide adequate measures or to influences for a comprehensive of ?

surface-level give measures of vulnerability, or do look into contextual a comprehensive security?

Do qualities alone of susceptibility, or must analyze the circumstances that can ?

it to only focus on trait evaluating general to considering the protection extensively?

Is general susceptibility based on indicators bad compared fundamental ?

Is okay outward qualities when analyzing susceptibility, acknowledging ?

Is looking external for judging levels?

Is focusing _____ outward _____ enough _____ overall security _____?

_____ we _____ rely _____ features when evaluating vulnerability, _____ circumstances and their _____ on security?

Do _____ aspects give _____ of _____ need to dig _____ contextual influences _____ order to _____ security?

Is it _____ enough to _____ evaluate exterior qualities _____ larger _____ influences _____ safety?

_____ outer appearances enough _____ vulnerabilities?

Does considering _____ affect _____ more _____ on outward _____?

Can _____ rely on external _____ rather than _____ underlying circumstances?

_____ focusing _____ features enough to assess vulnerability compared _____?

Is _____ to focus on analyzing the _____ factors influencing _____ attributes?

Is it _____ to assess _____ vulnerability _____ outward _____ only?

Is _____ on _____ features _____ only way to _____?

_____ it necessary to _____ solely _____ outward _____ when _____ general insecurity, as opposed to _____ the _____ extensively?

Is _____ sufficient _____ look _____ external attributes _____ exposure levels?

_____ it _____ vulnerability _____ appearances or should underlying _____ be considered?

Is riskiness gauged by _____ than _____ influences?

Is the use of _____ when _____?

Is calculating _____ based on indicators _____ to _____ that _____ protective measures?

Do _____ aspects _____ adequate measures _____ vulnerability _____ do we _____ deeper into _____ for a _____ of security?

_____ surveilling outer appearances enough to _____ without _____ into _____?

_____ to _____ evaluate exterior qualities _____ taking into _____ the bigger _____ influences?

Do the _____ in _____ total vulnerability, or should _____ only be concerned with _____ characteristics?

Is surveilling _____ for assessing vulnerabilities _____ looking _____ entwined consequential _____?

_____ external characteristics enough _____ take into _____ the _____ that affect _____ and _____?

Is _____ sufficient _____ judge _____ only _____ external elements?

Will _____ focusing _____ the _____ adequately _____?

Is only _____ features _____ in _____?

For a _____ assessment _____ do _____ aspects _____ adequate _____ or _____ we _____ at contextual influences?

_____ it _____ to _____ on _____ evaluating _____ than considering the underlying circumstances _____ effect _____ security?

_____ relying _____ to assess security?

Is _____ possible to _____ outward features compared _____ underlying circumstances that affect security _____?

Does _____ underlying conditions give _____ comprehensive _____ indicators alone?

_____ enough _____ gauge _____ without _____ at entwined consequential points?

_____ enough _____ exterior qualities without taking into account the larger _____?

_____ the broader _____ a _____ significant _____ in assessing _____ or _____ only be concerned _____ outward traits?

_____ calculating _____ susceptibility solely _____ satisfactory compared to _____ fundamental _____ for protective measures?

Is _____ to _____ on outward _____ when evaluating _____ security, _____ opposed to considering _____ affect _____ extensively?

In _____ vulnerability, can an assessment _____ characteristics _____?

Will focusing _____ on the _____ evaluating _____?

_____ outer _____ how secure _____ is in comparison _____ underlying _____?

_____ broader _____ play _____ more _____ role _____ assessing vulnerability _____ only be concerned _____ outward traits?

_____ it okay _____ qualities when analyzing susceptibility, and _____ acknowledge _____?

_____ external _____ be enough to understand _____ should _____ the surrounding circumstances that can affect _____?

Is it _____ to _____ external features _____ assessing _____?

_____ good idea to _____ outward qualities _____ susceptibility, rather than looking _____ root issues?

Is _____ surface appearances _____ riskiness?

_____ we _____ features when _____ vulnerability, instead of _____ the _____ circumstances?

____ it possible ____ just look ____ exterior ____ without considering ____ of ____ influences?
 Is it ____ to focus solely ____ outward ____ evaluating ____ security, ____ opposed ____ considering the ____ impact ____ extensively?
 Is ____ possible ____ outer ____ to ____ how ____ something is compared ____ the ____?
 ____ focusing only on ____ features suffice ____ overall ____?
 Is ____ sufficient for judging total ____ levels?
 ____ underlying circumstances ____ security on a ____ considered when evaluating ____?
 Is ____ ok to only ____ qualities ____ overall ____ not acknowledge root ____ affecting ____ capacity?
 ____ relying on ____ when ____ security?
 Is ____ adequate for ____ when assessing security?
 ____ focusing solely on ____ surface ____ to ____ vulnerability ____?
 Is ____ possible to just ____ without weighing ____ scope of ____ influences ____?
 ____ possible to just evaluate ____ qualities ____ considering ____ impact of ____ influences ____?
 Is it enough ____ external elements?
 ____ it possible for ____ traits ____ to addressing underlying causes?
 ____ enough to ____ assess ____ more ____ the underlying factors ____ affect security?
 ____ comprehensively addressing underlying ____ to a ____ superficial indicators alone?
 Does ____ make ____ consider ____ circumstances ____ affect ____ instead of relying ____ on ____?
 Does evaluating only ____ total ____ in ____ way ____ taking into account ____ conditions affecting ____?
 Should we take into account ____ factors that impact ____ outward ____ assess vulnerability?
 Is it ____ to ____ on looks and ____ underlying ____?
 ____ it ____ to assess one's ____ on their ____?
 ____ possible to focus solely on outward ____ when ____ as ____ considering wider ____ impact protection?
 ____ comprehensive ____ is ____ on external features ____?
 ____ surveilling ____ alone ____ enough to ____ vulnerabilities without looking ____ points?
 ____ susceptibility ____ based on ____ that are satisfactory compared ____ examining ____ conditions?
 ____ it possible to ____ vulnerability based ____ external ____?
 Is it ____ simply ____ meets ____ eye and not think about ____ impact security ____ or out?
 ____ it better to analyze ____ larger factors ____ instead ____ outer ____?
 Is ____ at external ____ exposure levels when ____ all-encompassing conditions impacting ____?
 ____ it enough to ____ characteristics, or should ____ consider ____?
 Is considering ____ wider circumstances ____ important ____ solely on outward ____?
 ____ only consider ____ vulnerability instead of ____ the underlying circumstances and ____ effect on ____?
 ____ possible that outer traits ____ judge how ____ something ____ to underlying ____?
 ____ it ____ evaluate exterior ____ taking ____ account the bigger ____ on safety?
 ____ susceptibility ____ appearance satisfactory?
 ____ to ____ exterior ____ without ____ account the ____ influence on safety?
 ____ surface appearances enough to ____ riskiness compared ____ all-encompassing ____?
 When ____ overall vulnerability, is ____ characteristics sufficient ____ should ____ look ____ picture?
 Is ____ to rely ____ features when ____ vulnerability ____ of ____ underlying circumstances?
 ____ solely on the ____ suffice in ____?
 Can we rely ____ external ____ when ____?
 ____ appraisal ____ external characteristics ____ overall vulnerability?
 Are looks ____ to ____ safety or are we better ____?
 Is ____ possible for ____ judge ____ something ____ compared to ____ underlying causes?
 ____ we only be concerned ____ qualities, ____ should ____ play ____ role in assessing total ____?
 Should we be concerned ____ outward characteristics, ____ the ____ a bigger role ____ vulnerability?
 ____ looking only at external ____ enough ____ judging ____ levels when ____?
 Is surveilling outer ____ gaugeholistic ____ without ____ at ____ points?
 In determining overall vulnerability, can evaluation ____ characteristics suffice ____ should ____?
 ____ using only outward ____ determining ____ compared to ____ circumstances?

_____ sufficient _____ determining _____ without looking into consequential points?

_____ possible _____ solely _____ traits when evaluating general _____ instead of considering _____ that impact protection _____?

Is _____ with only outward characteristics _____ overarching circumstances that _____ security?

_____ we rely on external features only when _____ vulnerability, _____?

Is _____ the evaluation to _____ attributes _____ overall vulnerability compared to _____ into _____ that impact _____?

Can we only _____ appearance _____?

_____ comprehensive understanding of _____ or _____ we also analyze the _____ that can _____ security _____ a complete picture?

_____ it _____ to determining _____ surface characteristics _____ should _____ look at the bigger picture.

_____ evaluating outward aspects _____ the larger _____?

Is it possible to _____ evaluate _____ qualities _____ taking _____ account _____ impacting _____?

_____ alone offer _____ comprehensive _____ susceptibility, _____ must we _____ the _____ circumstances that _____ affect security _____ a whole?

Is it _____ to only _____ at _____ when analyzing _____ acknowledge _____ are affecting protection capacity?

_____ it possible _____ solely _____ outward _____ for evaluating _____?

Is _____ outer _____ enough to gauge holistic _____ into entwined _____ points?

Do _____ offer _____ of _____ should we look _____ the surrounding circumstances?

_____ it _____ focus only on _____ features _____ assess overall _____?

_____ using only outward _____ in measuring _____ considering overarching _____?

_____ it possible for _____ traits to _____ security _____ comparison to _____?

Does _____ superficial aspects measure _____ risk _____ to _____ into account _____ the internal _____?

Is _____ appearances enough for _____ without _____ at _____ points?

_____ only _____ concerned with _____ the _____ circumstances play a bigger role _____ assessing total _____?

Is it possible _____ evaluate exterior qualities _____ not _____ larger _____ of _____?

Is _____ outer _____ for assessing _____ looking into _____ points?

_____ we be _____ only _____ outward _____ or should the underlying _____ play a _____ vulnerability?

_____ to only _____ external attributes _____ judging _____ exposure _____ when considering _____ conditions _____ safety?

Is it enough _____ judge vulnerability by _____ or _____ account _____ the factors _____ affect _____?

_____ for outer tendencies to fully _____ how secure _____ in _____ causes?

Is there _____ to _____ only external elements?

Is it _____ judge overall vulnerability _____ only _____?

_____ vulnerability judged _____ by appearance or should we _____ account _____ security?

_____ appraisal of external traits _____ determining _____ vulnerability _____ one _____ the entire _____?

_____ external traits suffice in determining overall _____ at _____ whole security?

Is it acceptable _____ assess _____ solely _____ characteristics?

Is _____ outward characteristics sufficient _____ measuring _____ overarching circumstances that affect _____?

Is it _____ to _____ what meets _____ and _____ consider _____ aspects of security _____ or outside?

_____ on outward features enough _____ assess _____ when _____ circumstances that affect _____?

_____ it _____ to _____ look at exterior _____ without looking _____ picture of _____?

Is _____ possible _____ focus on external _____ neglecting the deep-rooted _____ affecting _____ as _____?

_____ evaluating _____ we _____ solely on _____ instead _____ considering _____ underlying circumstances?

Is looking _____ at external _____ for judging _____?

_____ it _____ just _____ what meets the eye and not consider the _____ aspects _____ out?

_____ external _____ adequate for _____?

_____ we _____ on external features _____ considering the underlying circumstances?

Is it _____ outer _____ fully judge how _____ is compared with _____?

_____ enough _____ external characteristics, _____ should we _____ into account other _____?

_____ characteristics enough to _____ into account all _____ impact security _____ vulnerability?

Is _____ to _____ the _____ the physical attributes and not _____ into _____ factors that impact _____?

Will focusing _____ on _____ surface _____ evaluate vulnerability?

_____ external features adequate?
 _____ possible _____ only _____ appearance for assessing vulnerability?
 _____ make _____ consider overarching circumstances that affect _____ compared _____ relying _____ characteristics?
 _____ it possible _____ outer _____ judge how _____ something _____ comparison to _____ causes.
 _____ it _____ to _____ solely on external _____ to _____ rather than _____ the underlying circumstances _____ on _____?
 _____ it possible _____ limit _____ to physical attributes and not take into _____ factors _____?
 _____ determining _____ vulnerability, can evaluation _____ external _____ suffice _____ one _____ whole security?
 _____ possible to only judge _____ susceptibility, _____ than _____ root issues _____ protection capacity?
 _____ to fully assess vulnerability _____ we take into _____ factors?
 Do _____ aspects _____ adequate measures _____ or do _____ need to _____ deeper _____ for a thorough _____ of _____?
 Does _____ only superficial aspects adequately _____ total _____ all _____ internal conditions _____?
 _____ vulnerability judged solely by _____ should _____ take _____ account _____ factors affecting _____?
 _____ possible to only focus on external factors when evaluating _____ it _____ important to _____?
 _____ surveilling _____ appearances enough to _____ vulnerabilities _____ looking _____ consequential _____?
 Is _____ acceptable to only look at external _____ judging _____ when _____ all-inclusive _____ safety?
 In determining overall vulnerability, _____ features _____ should one _____ whole security?
 Is _____ appropriate _____ assess one's _____ through _____ characteristics?
 _____ surveilling outer appearances _____ grounds _____ vulnerabilities without looking _____ entwined _____?
 Will _____ solely on the _____ enough _____ vulnerability _____?
 _____ vulnerability solely _____ on _____ or should _____ look _____ the _____?
 _____ it enough _____ vulnerability _____ appearances or should we _____ all the factors _____?
 _____ to focus _____ on outward qualities _____ evaluating _____ security, _____ to considering _____ that impact protection extensively?
 Is _____ for assessing vulnerabilities _____ into consequential points?
 Is _____ general _____ based on _____ compared _____ examining fundamental _____?
 _____ assessing _____ solely _____ outward _____ satisfactory?
 _____ focusing _____ external characteristics _____ to evaluate _____ susceptibility, _____ it more _____ to account _____ factors?
 _____ external _____ alone offer a _____ understanding _____ susceptibility _____ do _____ need _____ look at _____ surrounding _____ complete picture?
 _____ to _____ on _____ surface in evaluating vulnerability?
 Is _____ appropriate _____ only _____ attributes _____ judging total _____ levels when _____ all-rounded conditions _____ safety?
