

[Demo] NLP Dataset for Customer Service Automation

Company Type	Smartphone Manufacturers
Inquiry Category	Technical issues and troubleshooting assistance
Inquiry Sub-Category	Storage and memory
Description	Customers face problems with limited storage space, memory management, and device slowdowns, and seek guidance on how to optimize storage, transfer data, and clear cache to enhance their smartphone's performance.
Data Size	5,048 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Smartphone Manufacturer" customer inquiry. (Purchased data will not be masked.)

Are there ____ adjustments ____ background ____ affect device performance?

Modification of settings ____ be used ____ activities.

____ should settings ____ changed in order to ____ background ____ a negative impact ____ the ____.

Is ____ way to change settings so that ____ in ____ back ____?

____ should ____ altered to help reduce ____ and ____ device ____?

____ the background processes of ____ so that ____ improves?

Can ____ reduce ____ processes ____ device ____ improve it's ____?

____ should settings ____ to diminish unneeded background ____ and affect ____?

____ it possible ____ cut down ____ unused background processes ____ device ____?

____ settings ____ a ____ having background ____ and making my device performance ____?

How should ____ altered ____ reduce background ____ and have a ____ device performance?

Can I ____ the background ____ my ____ to improve ____ performance?

____ the settings ____ to ____ processing?

____ settings ____ to ____ unneeded background procedures and have a ____ impact ____?

Is ____ possible to adjust ____ so ____ tasks ____ run in ____ back ____?

____ there a way ____ adjust ____ so ____ fewer ____ are run ____ the ____?

____ there tweaking ____ reduce ____?

____ modifying ____ the background ____ how ____ the devices perform?

It is ____ to ____ to ____ background ____.

____ we ____ the ____ background stuff and increase device speed?

Is it possible to ____ in ____ background ____ improve ____?

Is ____ a way ____ reduce ____ activity ____ background?

Changing ____ would ____ reduce ____ processes and affect ____ performance.

____ should be ____ to help reduce ____ background ____ and affect ____.

____ we make changes ____ settings ____ background stuff and boost ____?

____ it ____ to ____ settings so ____ there are ____ unneeded tasks ____ end?

____ it possible to ____ specific settings to ____?

____ settings ____ that ____ background ____ that ____ device performance?

There are ____ that decrease ____ to device ____.

____ settings ____ to reduce redundant ____ on ____ speed?

How should ____ changed in ____ to reduce ____ procedures ____ negatively affect ____ ?

Is it ____ to ____ background processes ____ my device ____ performance?

____ the settings ____ changed to help ____ unneeded background ____ and ____ ?

There are settings ____ background ____ to ____ performance.

____ are ____ that decrease ____ processes that ____ device's ____.

____ be ____ help ____ unneeded processes ____ affect device performance

____ there ____ changes that ____ that ____ the device's performance?

Changing settings would ____ background ____ and impact ____.

Setting ____ be altered ____ to reduce unneeded ____ and affect ____.

____ I modify my ____ to not ____ processes ____ my ____ better?

____ can settings be altered to ____ background ____ device ____?

How ____ settings ____ as ____ reduce extraneous ____ and affect device ____?

____ there a ____ to alter ____ in a way ____?

____ settings will help reduce ____ device performance.

____ settings be ____ in order ____ background ____ and negatively affect device ____?

What should ____ be ____ in ____ reduce ____ and impact device ____?

____ are ____ modify ____ less of ____ device's unneeded processes.

What ____ to reduce ____ impact device performance?

Can ____ my ____ do a ____ having ____ making the device perform better?

Are ____ settings that decrease background ____ that ____ performance?

Modification of settings ____ background activities.

____ settings ____ unnecessary ____ and affect device performance.

Do ____ settings ____ the effect ____ operations?

____ settings ____ background processes connected ____ performance possible?

Which settings ____ to ____ unnecessary ____ processes ____ device performance?

____ should ____ altered to ____ background processes ____ affect device ____

Does ____ settings ____ background process?

Is ____ way to ____ device ____ decreasing background ____?

Can ____ make my settings do ____ better ____ having background ____ and making ____ better?

____ there ____ adjustments ____ reduce the ____ the device's performance?

____ it ____ the settings ____ there aren't ____ unnecessary tasks ____ the back end?

____ there a way to ____ activity ____ the ____?

Is there settings ____ processes ____ affect ____?

Modification ____ settings could ____ activities.

Setting ____ be changed to ____

____ settings be changed ____ help ____ unnecessary ____ processes and ____?

Will ____ in ____ settings ____ excessive ____ processing?

How ____ be changed ____ procedures, and have ____ positive effect ____ performance?

____ unneeded tasks in the back end ____.

____ a ____ to limit ____ background ____ and improve device ____?

____ it possible to ____ in a way ____ activities?

____ settings be altered ____ as ____ reduce unneeded ____ and ____ negative effect on device ____?

____ are ____ that change ____ background processes that ____ device ____.

There ____ that ____ reduce ____ activity.

____ possible to alter ____ in ____ reduces unnecessary activity?

Is it ____ settings ____ boost ____ and kill ____ background stuff?

Can ____ my settings to help boost ____ performance ____?

____ are ____ that ____ reduce background ____ that can ____ device ____.

_____ help reduce extraneous processes _____ affect _____ performance.

Can _____ background settings improve the _____?

_____ I modify _____ settings _____ boost device _____ minimize background _____?

How can settings be _____ unnecessary _____ and _____ device performance?

There are _____ background processes that _____ the _____ performance

_____ be adjusted to _____ on device speed?

_____ my settings do a better _____ background processes _____ increasing device _____?

Should _____ be _____ in order to _____ unneeded background _____ and _____ positive _____?

_____ it possible _____ background processes of my _____ that _____ can perform _____?

How should settings _____ changed to reduce _____ in order _____?

Is _____ any _____ that _____ unnecessary _____ activity?

_____ any _____ that _____ activities improve _____ performance?

Can you modify settings to _____ processes?

Should settings _____ altered _____ order _____ unneeded _____ and have _____ negative _____ on the device _____?

_____ changing _____ help _____ background processes that impact _____?

Is _____ to improve _____ by limiting background _____?

_____ settings _____ with background operations _____ device efficiency?

Can I make _____ run more _____ by _____ useless _____ tasks?

How should _____ so _____ help reduce extraneous _____ affect device performance?

_____ it _____ to limit excessive background processes?

In order to _____ unneeded background _____ the _____ performance, settings _____.

_____ settings be altered _____ unnecessary processes and _____ device _____?

How can _____ changed _____ reduce _____ background processes _____ affect _____ performance?

What settings _____ be _____ to reduce extraneous _____ and _____ device _____?

How should _____ be altered in _____ to _____ affect _____ performance?

_____ settings _____ changed _____ order to _____ unneeded background _____ make _____ device perform _____?

_____ it possible _____ background _____ that _____ connected _____ device performance?

_____ there settings adjustments that _____ background processes _____ connect _____?

Will _____ be adjusted effectively _____ background _____?

_____ operations' impact _____ speed _____ accomplished by changing settings.

_____ should _____ changed _____ help reduce _____ and affect _____ performance

Can I _____ device _____ better by cutting _____?

_____ would _____ reduce _____ background processes and _____ the device's _____.

How _____ settings _____ reduce extraneous processes _____ affect _____ performance?

Changing background _____ might _____.

_____ device _____ with _____ background settings?

Should _____ to _____ unneeded background procedures _____ have a negative impact on _____?

Do settings _____ effect _____ background operations and _____?

_____ are settings adjustments that decrease background _____ that _____

How _____ be adjusted _____ help _____ processes and _____ device _____?

Can I _____ to _____ have background _____ make device _____ better?

Can I _____ settings do _____ job not having _____ and _____ my _____ work _____?

_____ the device _____ background settings?

Can _____ background processes _____ impact the devices' _____?

Will _____ the _____ help eliminate _____ background _____?

_____ redundant operations _____ on _____ is something that might _____.

_____ should settings be altered _____ unnecessary _____ and _____ device's performance?

How can settings be altered in _____ to _____ extraneous _____?

_____ tweaking settings help _____ unneeded _____ affect device _____?

Is it possible _____ modify _____ to _____ activities?

Is it _____ to _____ that _____ is less _____ the back end?
 _____ it possible _____ modify _____ settings _____ there _____ less _____ tasks running in the _____?
 How _____ we _____ settings _____ less of _____ device's _____?
 Is _____ adjustments _____ down _____ needless _____ affecting performance?
 Is there a way to _____ activities in _____?
 Will adjusting certain _____ cut _____ activity _____ the _____?
 How _____ limit unwanted background _____ device performance?
 _____ should _____ order to _____ unneeded background _____ improve device performance.
 _____ I _____ the _____ processes of _____ device for _____?
 _____ settings _____ be _____ to _____ reduce unneeded _____ and _____ device _____.
 _____ in _____ settings eliminate _____ processing?
 Is _____ a way to adjust _____ for less _____.
 Can _____ reduce background processes _____ device _____ performance?
 What should _____ in order _____ reduce unneeded _____ and _____ a _____ on the device?
 _____ there ways _____ settings _____ of _____ device's processes?
 Is it possible to _____ settings so that less _____ the _____?
 _____ it possible _____ the settings _____ useless background _____ device speed?
 _____ a _____ less of a device's unneeded processes?
 There _____ settings adjustments _____ can _____ background processes _____ device _____.
 _____ changes _____ background _____ that are _____ to _____ performance
 _____ are settings _____ can kill _____ stuff _____ boost device _____.
 _____ settings _____ to _____ reduce unneeded _____ and impact device _____?
 Can _____ be _____ eliminate _____ processing effectively?
 _____ should _____ be _____ to help _____ affect device performance?
 _____ I make my _____ do a better _____ background processes and _____ better?
 How should settings _____ reduce _____ processes _____ affect the _____ performance?
 _____ settings _____ decrease _____ background processes?
 Should settings be _____ in _____ reduce unneeded _____ procedures _____ a _____ effect on _____?
 Changing settings _____ reduce _____ background _____ and impact device _____.
 _____ cut _____ on background _____ that affect my _____?
 Is _____ possible _____ of my device so it _____ better?
 _____ efficiency _____ be _____ by changes that _____ tasks.
 Is there _____ reduce background operations _____ efficiency?
 _____ settings be _____ order to _____ unneeded _____ procedures and have _____ impact on _____ device's _____?
 Is _____ a _____ cut _____ on unused _____ that _____ my device _____?
 _____ changing settings able _____ decrease background _____ device _____?
 Is there settings _____ that _____ connected _____ performance?
 Can _____ make my _____ do _____ job _____ background processes _____ make _____ device _____ better?
 Are _____ settings changes _____ decrease _____ connected to device _____?
 There are _____ for less of a _____.
 _____ for _____ to limit unwanted _____ processes?
 Changing _____ reduce extraneous _____ affect device performance
 There are _____ that _____ that _____ to _____ performance.
 Can _____ settings do _____ better _____ background _____ when I use my _____?
 _____ we modify _____ limit background _____ that _____ well _____ devices perform?
 Is _____ settings helpful in decreasing _____ speed?
 _____ to help reduce unnecessary background _____ performance
 _____ settings help _____ unwanted background _____?
 Are _____ settings that _____ reduce background _____ that _____ improve _____?
 _____ settings be changed to _____ reduce _____ impact _____ performance?

_____ be possible to change settings _____ decrease _____ ?
 _____ we _____ changes to _____ boost _____ speed and kill useless _____ ?
 Is _____ possible to _____ settings to _____ activities?
 Can we _____ the _____ to _____ background _____ device speed?
 _____ should settings _____ in order _____ reduce unnecessary background _____ and _____ device's _____ ?
 The _____ changed _____ to reduce unneeded background procedures and _____ performance.
 _____ there settings adjustments that decrease _____ background processes _____ ?
 Should settings be changed to _____ background _____ the _____ performance?
 _____ change settings to _____ performance _____ reduce background _____ ?
 _____ altered in order to _____ unneeded background procedures _____ have _____ positive _____ on _____ performance?
 To _____ and _____ device performance, settings _____ altered.
 Can _____ make my _____ do a better job _____ processes and _____ device work _____ ?
 Will adjusting _____ settings _____ ?
 Will the settings be _____ excessive _____ ?
 _____ there a way _____ down on _____ performance?
 _____ we _____ limit the amount of _____ processes?
 _____ possible _____ excessive background _____ impacting the devices' _____ ?
 _____ settings be _____ to help _____ processes and impact _____ ?
 _____ should be _____ help _____ unneeded _____ and _____ device performance
 Do _____ know _____ that _____ unnecessary background activities _____ performance?
 Can I improve _____ settings _____ not _____ background _____ and _____ better?
 _____ it _____ to _____ settings _____ tasks are run _____ the back _____ the device?
 How should settings be _____ to _____ unneeded _____ procedures and have _____ ?
 _____ certain options be _____ to _____ excess _____ in the _____ ?
 _____ settings _____ changed _____ to _____ unneeded background procedures _____ have a _____ effect on device _____.
 How should settings _____ to _____ device performance and reduce _____ ?
 _____ are _____ reduce background activities and _____ device _____.
 How _____ be altered _____ to decrease unneeded background procedures _____ effect on device _____ ?
 There _____ settings that _____ processes _____ impact device _____.
 _____ be _____ reduce _____ procedures and have a negative impact _____ device.
 Could adjusting _____ performance?
 _____ settings limit _____ background _____ that affect how _____ device _____ ?
 How should _____ reduce unneeded background procedures and _____ performance?
 There _____ take less _____ a _____ unneeded processes.
 How should settings _____ to _____ background _____ and _____ a beneficial _____ device's performance?
 Is there _____ way to adjust _____ of a _____ unnecessary _____ ?
 How should settings be _____ help reduce _____ processes _____ device _____ ?
 _____ adjusting certain options decrease _____ in _____ performance?
 _____ reduce background processes affecting _____ device's performance?
 Is there a way _____ cut down _____ the _____ ?
 _____ should _____ changed _____ order to reduce _____ procedures and have _____ positive _____ on the _____
 _____ we _____ the settings _____ kill useless background _____ ?
 _____ we change the _____ background _____ and increase the _____ of _____ device?
 Is it _____ improve device _____ the _____ settings?
 Are _____ that decrease background processes _____ connected _____ device _____ ?
 _____ possible _____ excessive background processes _____ how well _____ devices perform?
 _____ operations' impact _____ speed, is it _____ to _____ settings?
 _____ alter _____ to _____ background _____ and boost device speed?
 _____ settings _____ decrease unwanted _____ process?
 _____ background _____ adjusted _____ increase _____ performance?

_____ to _____ the _____ there are fewer _____ tasks in _____ back end?

_____ should settings _____ in order to _____ background _____ and have _____ effect _____ device _____?

There may _____ to adjust _____ less of a _____.

_____ of adjusting _____ for less of a device's _____.

_____ should _____ help reduce _____ processes and impact device _____

_____ it _____ control the settings to _____ unused _____ processes?

_____ reduce unnecessary _____ affect _____ settings should be altered.

_____ settings that _____ processes that _____ device performance?

_____ should _____ be changed _____ to help _____ background _____ and affect _____?

How can _____ be changed _____ reduce _____ procedures and _____ a _____ effect _____ device performance?

settings adjustments _____ decrease background _____ affect the _____

How should settings be altered _____ processes _____ affect _____ device's _____?

Setting should _____ changed to _____ processes _____ impact _____ performance.

_____ be _____ eliminate background processing?

_____ possible to _____ settings to _____ irrelevant _____ activities?

_____ the _____ be changed to _____ reduce unneeded _____ impact _____ performance?

Changing _____ could decrease _____.

What _____ settings be altered to reduce unneeded _____ have _____ positive effect _____?

_____ a way to adjust the _____ that there are _____ tasks _____ back _____?

Setting changes that decrease background _____ performance.

_____ be _____ to _____ reduce unnecessary processes _____ impact _____ performance?

_____ we change _____ settings _____ we _____ useless _____ stuff?

Is _____ to change settings _____ decrease _____ processes?

How _____ settings _____ changed _____ order _____ unneeded background procedures _____ effect on device performance?

_____ there _____ that _____ processes that can affect _____ performance?

_____ adjust settings _____ that _____ tasks are run in the _____ end _____ device?

_____ adjusting _____ a _____ to _____ unwanted background _____?

How should settings be _____ in _____ unneeded background _____ and _____?

_____ my settings do a _____ job of _____ and _____ device _____?

_____ be changed _____ reduce unneeded background _____ and _____ device performance.

_____ background _____ changed _____ device performance?

_____ are settings changes that _____ that can affect _____.

How _____ settings be altered _____ order to reduce _____ background _____ a _____ effect _____ device

_____ should settings _____ changed _____ procedures and _____ device performance?

_____ change _____ settings to not have background _____ improve _____?

_____ to make _____ the settings _____ kill useless background _____.

Is _____ to modify specific settings _____ excessive background _____?

How _____ settings be changed _____ reduce background _____ and _____?

Is there a _____ to change _____ there _____ unneeded _____ the back end?

Can settings _____ changed to _____ and have a positive effect _____?

_____ it _____ to change the _____ that _____ fewer unneeded _____ running?

_____ I change _____ background processes _____ to improve _____?

_____ possible to _____ excess _____ in the _____ improve your device's _____?

Is _____ a _____ to _____ less _____ a device's _____?

Is it possible to _____ decrease _____.

Is _____ possible to make _____ eliminate _____ processing?

Setting should _____ changed _____ reduce _____ processes _____ affect _____.

Is it _____ to change _____ that fewer _____ run _____ back end?

Modification of settings _____ limit _____ processes _____ affect how _____ the _____.

How _____ changed _____ procedures _____ a negative impact on device performance?

_____ should be changed in _____ unneeded _____ procedures _____ a negative _____ on _____ performance

Can _____ the _____ processes _____ device in the hopes _____ its _____?

_____ should settings be _____ to reduce unneeded background _____ an _____ on _____?

_____ possible _____ change settings to reduce _____ tasks in _____?

_____ possible to _____ specific _____ to _____ background processes that impact _____ well _____ perform?

_____ settings _____ changed _____ reduce _____ background procedures _____ have a _____ effect _____ performance?

_____ possible to make _____ to _____ down _____ unused _____ processes?

_____ should _____ settings be changed to reduce _____ processes _____ performance?

How _____ the settings _____ to _____ background procedures and have _____ negative _____ on the _____?

_____ for _____ performance limit _____ processes?

_____ limit excessive background processes?

_____ it possible to _____ my _____ work _____ by _____ having _____?

_____ adjusting the _____ eliminate _____ processing?

_____ should be _____ order to reduce _____ processes _____ performance.

_____ should _____ be _____ in _____ reduce _____ background _____ have a _____ effect on _____ device performance?

How should _____ altered _____ help reduce _____ background _____ impact _____ performance?

_____ should settings _____ in order to _____ unneeded _____ and have _____ negative _____ device performance.

What _____ settings _____ changed _____ help reduce extraneous _____ performance?

_____ should settings be _____ to _____ extraneous _____ improve device _____?

_____ that decreases _____ processes _____ affect _____.

It could _____ change settings to _____ activities.

_____ settings _____ in order to _____ background _____ and _____ device performance?

Is _____ can _____ background activities and improve device _____?

_____ should be altered _____ to _____ unneeded background processes _____ device _____.

How _____ be altered to _____ unneeded _____ procedures and _____ an _____ on _____?

How should settings _____ in order _____ reduce background _____ a negative impact _____ device _____?

_____ settings are _____ to reduce _____ processes _____ device _____

_____ less _____ a _____ processes may be possible.

_____ in _____ to reduce unneeded background procedures and _____ on the device performance?

Changing settings to _____ reduce _____ processes _____ performance.

_____ I _____ background processes of _____ device _____ order to _____?

How can settings be _____ reduce _____ and _____ the device's _____?

How _____ be altered to reduce _____ and _____ positive effect _____ device?

_____ adjusting settings _____ unwanted background _____?

_____ should be _____ background processes and affect _____ performance.

_____ I make _____ a _____ of _____ having background _____ and make my device _____ better?

What _____ cut background processes and _____ device _____?

_____ can _____ changed to help _____ extraneous _____?

Can settings be _____ to _____?

_____ tweaking _____ to decrease _____ processes?

In order _____ unneeded _____ device performance, _____ should be altered.

_____ it possible _____ alter settings _____ activities?

_____ redundant operations' _____ on _____ speed is _____ could _____ done.

_____ may _____ possible to modify _____ background activities.

_____ extraneous processes and _____ performance, settings should _____ altered.

_____ should settings be _____ to _____ unnecessary background _____ and _____ device _____?

How _____ settings be _____ in _____ to _____ unneeded background _____ and _____?

_____ should _____ be _____ reduce unnecessary background _____ impact _____ performance?

Can I _____ settings _____ decrease _____ number of _____?

How should settings _____ reduce background _____ and improve _____?

How _____ settings be altered _____ to _____ procedures and _____ a negative _____ on device _____?

_____ should _____ be altered _____ help _____ unnecessary processes _____ impact _____?

What should _____ changed to help _____ processes _____ device performance?

_____ it _____ adjusted _____ less unneeded _____ are run in the back end?

_____ it _____ cut _____ background processes to improve device _____?

_____ should settings _____ changed _____ order to _____ background procedures and have _____ positive effect _____?

_____ I _____ better _____ not having background processes _____ my _____ work better?

Is _____ possible _____ adjust the _____ fewer tasks _____ run in the _____?

_____ tweaking _____ to decrease _____ processes _____ affect device _____?

_____ changing _____ the device perform _____?

_____ a _____ modify settings to decrease irrelevant _____?

_____ settings that reduce _____ processes _____ connected _____ device performance?

How should _____ be _____ unnecessary processes _____ device performance

Is _____ to _____ redundant operations' _____ on device speed?

_____ there settings that _____ background _____ that _____ the _____?

Will _____ background _____ device performance?

How _____ be _____ order to reduce unneeded _____ procedures _____ device _____?

Can modifying specific settings limit _____ well _____ devices _____?

_____ device _____ improve by _____ settings?

What should the settings _____ reduce _____ and _____ device performance?

_____ should settings be altered _____ reduce _____ background _____ a _____ on device _____?

Is _____ any way _____ settings _____ of a _____ unneeded _____?

Can I modify my _____ to make _____ better _____ not _____?

Setting can _____ reduce unneeded _____ procedures _____ a negative _____ on the _____.

_____ the settings _____ excessive background processing?

_____ that reduce background _____ to device performance?

Is there settings changes that _____ background _____ performance?

_____ should be _____ to _____ processes _____ affect device performance.

_____ make my settings do a better job _____ background _____ performance?

_____ may be _____ adjustments _____ decrease background _____ device performance.

_____ modify settings _____ speed and kill _____ background stuff?

Can I _____ my settings _____ of keeping background processes _____ work?

_____ settings _____ reduce _____ background procedures _____ have _____ beneficial effect on _____.

Is there settings _____ reduce the _____ processes _____?

Are there settings that decrease _____ that _____ to _____?

Are there _____ processes connected _____ performance?

Setting should be _____ order _____ background procedures _____ a _____ effect on device _____

_____ settings _____ the _____ of background _____?

Is it possible _____ background processes _____ so _____ improve its performance?

Is _____ in decreasing unnecessary background _____ that _____ device _____?

settings should _____ altered _____ reduce extraneous processes _____ device _____

_____ tweaking _____ to decrease unnecessary _____ processes that impact _____?

_____ settings _____ changed in order _____ reduce _____ background procedures and have a _____ the _____?

Can _____ certain options _____ extraneous _____ the _____?

_____ to _____ settings eliminate _____ processing?

_____ are settings _____ reduce background _____ that can _____.

_____ device's _____ be enhanced _____ adjusting that _____ background _____.

_____ tweaking _____ helping decrease background _____ that impact _____?

_____ change settings _____ increase performance _____ background processes?

_____ altered in _____ unneeded background procedures and _____ a positive _____ performance

_____ should settings _____ changed to reduce _____ procedures and _____ effect _____ performance
 Setting should _____ order to _____ reduce _____ and impact device _____.
 How _____ settings _____ unnecessary background _____ impact device performance?
 Is _____ settings _____ decrease background processes that _____ performance?
 Can specific _____ be _____ amount _____ background processes?
 Can _____ the _____ processes _____ my device _____ performance?
 _____ of settings _____ background _____ that _____ how well the _____.
 Reducing redundant operations' _____ device speed _____ be _____ are _____.
 _____ changed to _____ unneeded procedures and have _____ effect _____ device performance?
 _____ should _____ settings _____ the device be _____ to _____ background processes?
 _____ possible _____ excess _____ background and _____ the performance of your device?
 _____ should _____ be _____ procedures and have a positive effect _____ the _____ performance?
 _____ can _____ be changed _____ help _____ extraneous processes _____ improve _____?
 How should _____ changed _____ order _____ the device's _____ reduce _____ processes?
 _____ a way to _____ unwanted background processes _____?
 Changing settings is _____ to reduce _____ processes _____ performance.
 _____ should the _____ extraneous processes _____ affect device performance?
 _____ my _____ help _____ background _____ boost device performance?
 Does _____ settings have _____ on background _____ efficiency?
 Can _____ my _____ help minimize background _____ and make my _____?
 _____ are settings that decrease _____ background _____ affect _____.
 _____ it _____ change settings _____ that less tasks _____ the back end _____ device?
 How _____ device _____ order _____ reduce extraneous processes?
 How should _____ in order _____ procedures _____ the device perform better?
 Can background settings be _____?
 Can settings be _____ processes?
 _____ settings can help _____ background _____ and affect the _____.
 _____ adjusting options cut down on _____ of _____ the _____?
 _____ adjustments be _____ the settings to _____ processing?
 Are _____ settings doing a better job of _____ device _____ better?
 How do settings _____ device _____?
 _____ performance _____ improved _____ changing _____ settings
 Should settings _____ to _____ unneeded background _____ and have _____ negative effect _____ device _____?
 _____ there _____ way _____ unnecessary activity in the _____?
 _____ settings be _____ reduce _____ procedures and affect device _____.
 Is _____ processes in order _____ improve device performance?
 _____ there any way _____ cut down _____ activity _____ the _____?
 There _____ used _____ reduce background processes _____ performance.
 How should _____ device _____ and _____ unneeded background procedures?
 _____ it possible to _____ to _____ background _____ boost _____ performance?
 Is it _____ to change my settings _____ make _____ do _____ better _____ background _____?
 How _____ altered to _____ unneeded _____ processes and _____ performance?
 What can _____ changed _____ unnecessary _____ and _____ device performance?
 _____ should settings _____ altered to _____ reduce _____ improve _____ performance?
 _____ be changed to _____ background _____?
 How _____ changed _____ as to reduce _____ background _____ improve device _____?
 _____ operations' impact on device _____ question that is _____.
 Is _____ background processes _____ how well the devices _____?
 Is _____ a way _____ excessive _____ phone performance?
 Is _____ way to _____ operations' impact _____ device _____.

____ there ____ settings that ____ background activities and ____ performance?
 ____ changed to limit excessive ____ processes?
 Are ____ settings ____ that decrease ____ processes connected ____ the ____?
 ____ order to reduce unneeded ____ and affect device ____ changed.
 ____ should ____ changed in order ____ unneeded ____ and have ____ effect ____ device performance
 ____ be altered to ____ a positive ____ device ____ reduce ____ background procedures?
 ____ in the ____ eliminate excessive ____?
 There ____ settings ____ decrease the background ____ that connect _____.
 Is it ____ to ____ so ____ there ____ as many ____ tasks in ____?
 How should settings ____ to ____ unneeded processes ____ affect ____ performance?
 ____ changing ____ the amount ____ processes?
 ____ background settings be changed ____ improve ____?
 How ____ be changed to reduce ____ and ____ device ____?
 ____ are ____ processes that ____ connected to device performance
 Any ____ on how to improve device ____ processes?
 ____ can we make ____ of a device's ____?
 ____ adjusting ____ able to improve ____ device ____?
 ____ settings ____ decrease ____ and improve device ____?
 ____ should settings be changed to help reduce ____?
 ____ settings ____ changed effectively ____ eliminate background ____?
 ____ make ____ make my device work better ____ not ____ processes?
 Changing settings ____ reduce ____ can have a ____ impact ____ device.
 What ____ altered to ____ and affect device performance?
 How should settings ____ processes ____ affect device performance?
 ____ be adjusted for ____ a ____ unneeded processes?
 Setting should be changed ____ order ____ reduce ____ and _____.
 ____ modifying settings limit background processes ____ affect how ____?
 Can ____ limit unnecessary ____?
 ____ should be changed ____ reduce unnecessary ____ and ____ device performance
 ____ it possible to ____ the settings ____ unneeded ____ in ____ back end?
 Can ____ make ____ settings do ____ not ____ background processes ____ devices ____ better?
 Any suggestions on ____ device ____ better ____ background processes?
 ____ settings ____ changed ____ order to decrease ____ processes ____ device performance?
 ____ settings ____ changed to reduce unneeded background ____ and ____ positive ____ the device ____?
 Changing settings ____ background procedures ____ affect ____ performance.
 ____ background settings ____ device performance?
 ____ my ____ do ____ of protecting ____ device from background processes?
 ____ there ____ to ____ on excess activity in ____ background?
 How ____ settings be altered in ____ unneeded ____ procedures and ____ a ____ device performance?
 ____ be ____ to help ____ extraneous processes?
 Can ____ to the ____ that they ____ background stuff and boost ____?
 ____ to ____ device ____ by adjusting background settings?
 ____ unneeded background ____ device performance, settings should be ____.
 Are ____ adjustments that ____ background processes that ____ the ____?
 ____ settings be ____ to reduce ____ have a ____ impact ____ the ____ performance?
 Are ____ settings ____ can improve ____ reducing background ____?
 Is ____ to ____ operations' impact on device ____?
 ____ it ____ adjust the ____ eliminate excessive ____ processing?
 How should ____ be ____ so ____ reduce extraneous ____ device performance?
 Changing ____ help ____ extraneous processes ____ performance.

Can I _____ the _____ of _____ to make _____ perform _____?

How _____ changed _____ reduce background _____ that have a _____ on device performance?

Can I make _____ device _____ by _____ background _____?

Can _____ minimize _____ processes and _____ my _____ perform better?

Is _____ settings _____ reduce background processes _____ are _____ to _____?

Is _____ way to trim _____ backdrop _____ phone _____?

Can I make _____ better _____ not having background processes and helping _____ better?

_____ adjusted to reduce _____ activities?

Can _____ changed to reduce unneeded _____ and _____ device _____?

_____ be changed _____ to improve _____ performance and _____ unneeded background _____?

_____ to change _____ settings _____ there is _____ work running _____ the back end?

Can _____ the _____ activities of _____ device to _____ performance?

There are settings _____ processes that _____ affect _____.

_____ settings be _____ reduce unneeded background _____ have _____ impact _____ the device _____?

_____ it _____ to _____ settings so _____ run in the _____ end, _____ effectiveness?

How _____ adjusted _____ reduce unneeded _____ procedures and _____ device _____?

Can _____ be _____ for _____ of _____ unnecessary processes?

_____ my _____ do a better _____ of _____ processes _____ making my device _____?

How should _____ changed _____ diminish _____ processes _____ impact _____ performance?

Is _____ settings _____ that _____ background _____ connected _____ device _____?

_____ settings be _____ in _____ to reduce unneeded _____ procedures _____ boost _____?

_____ should _____ be _____ in order to affect _____ reduce _____ processes?

How _____ be _____ in _____ to reduce unneeded _____ affect the device _____?

Can _____ settings do _____ better job of _____ background _____ and making _____?

_____ it possible to adjust _____ for _____ of _____ unnecessary _____.

_____ should _____ in _____ to reduce _____ background procedures _____ device performance?

Can I _____ number _____ unused _____ that _____ device's performance?

_____ it _____ change _____ to reduce _____ in the background?

_____ settings limit _____ background _____ affect _____ device's performance?

Should settings _____ in order _____ reduce extraneous _____ affect _____?

_____ settings be changed _____ background _____ less _____?

Is _____ a way that _____ unneeded background activities?

Can _____ background processes of my _____ in _____ to make _____?

_____ it possible to _____ amount _____ processes _____ how _____ devices perform?

_____ changed to _____ reduce unnecessary processes _____ affect device _____?

Setting _____ in order to reduce _____ and affect _____.

Are settings adjustments _____ decrease background processes _____ connected _____?

_____ to _____ my device run more _____ altering settings?

_____ are ways _____ minimize _____ processes.

_____ should settings _____ in _____ unnecessary background processes _____ impact device _____?

_____ should _____ changed _____ order to help reduce _____ processes and _____ device _____?

Can _____ performance _____ changing the background settings?

_____ are used to reduce background _____ performance

Is _____ a _____ less _____ a device's _____ processes?

Can _____ make _____ do _____ better job of reducing _____ processes _____ improving _____ performance _____ device?

Can _____ device work better and _____ a better _____ of _____ having _____ processes?

_____ possible to _____ background _____ for device performance?

_____ I reduce the _____ device in _____ to improve _____ performance.

Is there settings _____ decrease background processes _____ device _____?

Can _____ my _____ perform _____ not having _____ processes _____ making _____ performance better?

Is _____ settings to _____ that less unneeded tasks _____ run in the _____ end?
 _____ I reduce the background processes _____ performance?
 _____ should _____ altered to _____ unneeded background _____ impact _____ performance?
 Can _____ decrease background _____ affect _____ device's performance?
 _____ my settings _____ not _____ background _____ or by _____ my device work better?
 Is _____ changes _____ decrease _____ processes that affect _____ ?
 _____ should _____ settings be _____ to reduce unneeded _____ procedures _____ have a positive _____ on _____ device _____ ?
 Is _____ a _____ maximize device _____ by limiting _____ ?
 Is it possible _____ decrease _____ processes that _____ ?
 _____ should _____ order to decrease _____ procedures and have a _____ impact on the _____ ?
 _____ settings improve device _____ ?
 Setting _____ be _____ unnecessary _____ processes and affect _____ performance
 How should _____ to reduce _____ background procedures _____ a positive _____ the device's _____ ?
 _____ the _____ be adjusted _____ background _____ ?
 There _____ settings _____ decrease _____ processes _____ the device's performance.
 Is it _____ to _____ less _____ tasks _____ run in _____ back end?
 _____ should settings be _____ unneeded _____ procedures and improve _____ ?
 Changing _____ will affect _____ and reduce unneeded _____ .
 _____ can help _____ processes _____ affect device performance.
 _____ it possible for settings to be _____ so _____ unneeded tasks _____ end?
 Does setting changes affect background _____ ?
 How should _____ changed to _____ reduce unnecessary _____ and _____ ?
 _____ should settings _____ to _____ unnecessary processes and impact _____ ?
 _____ certain options _____ cut down _____ excess _____ in _____ background?
 Can _____ my settings _____ job _____ not having _____ processes _____ work better with _____ device?
 _____ it _____ to change the settings _____ and _____ background stuff?
 There _____ decrease background processes _____ affect _____ performance
 _____ be _____ in _____ reduce unneeded _____ and increase device performance?
 How should settings be _____ procedures and _____ a _____ effect _____ the _____ ?
 There _____ settings _____ may decrease _____ to device _____ .
 Is _____ change _____ for _____ of a _____ unneeded processes?
 How can _____ unwanted background processes in _____ to _____ ?
 _____ settings that _____ background _____ that _____ affect device _____ .
 _____ I make my settings _____ not _____ processes on _____ device?
 How _____ be _____ to help _____ background processes _____ affect _____ ?
 How should settings _____ extraneous processes and affect _____ ?
 Is _____ in background _____ connected to _____ performance?
 _____ be _____ to _____ device performance?
 _____ make my settings _____ a better _____ blocking _____ processes _____ making _____ device work _____ ?
 _____ settings that _____ background processes that _____ device's performance.
 Is it possible to _____ the _____ of _____ to _____ ?
 _____ altered in _____ to _____ reduce unnecessary _____ processes _____ affect the _____ performance.
 Is _____ possible to _____ tasks are run in _____ back end?
 _____ tweaking _____ settings _____ performance?
 _____ settings help _____ unnecessary _____ that impact _____ speed?
 _____ background _____ for device performance?
 Can _____ improve my _____ that _____ don't _____ and that my device _____ ?
 How _____ changed to reduce _____ background _____ have _____ negative impact _____ the _____ performance?
 _____ be possible to _____ to decrease background _____ .
 _____ tweaking _____ decrease _____ processes that impact device _____ ?

_____ certain _____ the amount of activity in the _____?
 _____ to adjust _____ so that _____ are less _____ tasks running in _____ back _____?
 Setting _____ be changed _____ reduce unnecessary _____ impact _____ performance
 Changing _____ _____ unneeded processes and _____ device performance.
 Can changing _____ limit background _____ that _____ the devices _____?
 _____ you adjust _____ options _____ cut _____ activity in _____ background?
 How should settings _____ background processes _____ affect device _____?
 How _____ settings _____ to _____ and have a _____ effect on _____ performance?
 Is _____ to adjust settings _____ from being _____ in the back _____?
 Changing settings _____ help _____ extraneous _____ device performance.
 Is there a _____ change _____ in _____ way _____ background activities?
 _____ there a _____ to _____ device _____ by _____ background _____?
 _____ to _____ made _____ reduce unneeded processes and impact _____ performance.
 Can _____ be _____ background activities?
 Can _____ be ways _____ activity in the _____?
 _____ possible _____ that will cut down on _____ processes?
 There _____ decrease background _____ affect device performance.
 How should settings be _____ to _____ unnecessary _____ device _____?
 Changing settings _____ help to reduce unnecessary background _____.
 _____ be altered to reduce _____ background procedures _____ have a _____ on _____ device _____?
 Can _____ limit the _____ that _____ the devices?
 Do settings trim _____?
 _____ settings be altered to _____ unneeded _____ and _____ the device's _____?
 _____ improve _____ so _____ don't have _____ processes _____ make my _____ work better?
 _____ decrease the background processes _____ affect _____ performance?
 _____ there adjustments _____ decrease background _____ device performance?
 _____ ways _____ remove _____ processes from _____ device.
 How _____ be changed _____ reduce _____ processes and _____ the _____?
 Should settings _____ to _____ reduce unnecessary _____ affect _____ performance?
 How _____ be altered _____ decrease background _____ and impact _____?
 _____ adjusting _____ reduce _____ and improve your device's performance?
 _____ should _____ changed in order to _____ unneeded _____ procedures and _____ effect on _____ performance?
 _____ adjusting background _____ improve _____ device _____?
 _____ should be changed _____ reduce unneeded processes _____ device _____.
 _____ it possible to _____ excess _____ the background, _____ performance _____ device?
 _____ are _____ that _____ background processes that could _____ performance.
 Reducing the impact of _____ on _____ is _____.
 _____ redundant _____ on _____ is something that _____ be _____ with settings.
 Should settings be _____ order _____ background procedures and _____ a negative _____ the device _____?
 Is _____ settings _____ processes that impact _____ speed?
 _____ it possible to make my _____ better _____ not having _____ and to _____ device _____ better?
 Do _____ of _____ background tasks?
 There are _____ that _____ background _____ that are _____ the _____ performance.
 Is it possible _____ the _____ affecting how well _____ perform?
 _____ there settings _____ that _____ background processes _____ the _____?
 _____ settings should _____ made to _____ processes _____ affect the device's performance.
 _____ are _____ of _____ for _____ of a device's _____ processes.
 Can I _____ improve the _____ my device?
 _____ should _____ to help reduce _____ and affect device _____?
 _____ should _____ to reduce unneeded _____ benefit device performance?

____ adjusting some ____ excess activity ____ the ____?
 ____ settings be changed ____ to reduce extraneous ____ affect device ____?
 Can I ____ settings to ____ device performance ____ processes?
 Is ____ possible to ____ my ____ do ____ better job not having ____ make ____ device ____?
 ____ you modify ____ boost ____ and reduce background ____?
 Can you ____ to ____ background ____ that affect how ____ perform?
 ____ it possible ____ background ____ by adjusting settings?
 ____ settings ____ processes that affect the performance ____ device.
 Can I ____ so as to ____ my ____ performance?
 ____ background ____ be adjusted to ____ the ____ perform ____?
 ____ could ____ cut down on ____ in the background.
 ____ are ____ that decrease background processes ____ connect ____.
 ____ I reduce the ____ to ____ device ____ better?
 There are ____ decrease background processes ____ connected ____ performance.
 ____ adjusting ____ settings ____ performances?
 Can ____ changed to cut down on activity ____?
 ____ it possible ____ a better job of not ____ and improve device performance?
 ____ should ____ altered to reduce unnecessary ____ and ____ device ____.
 Changing settings ____ reduce ____ background ____ have ____ negative ____ on ____ performance.
 ____ there a way ____ modify settings ____ decrease ____?
 Is there ____ way to ____ unnecessary ____ that ____ improve ____?
 Can ____ better by cutting down ____ useless ____ tasks?
 How should ____ be ____ in order to ____ background ____ and ____?
 How ____ be changed to reduce ____ and ____ device ____?
 How should settings ____ in order to ____ unneeded background ____ positive ____ on ____ performance ____ device?
 ____ redundant operations' impact ____ device ____ be achieved ____.
 ____ possible to ____ settings so ____ are ____ tasks running in ____ back end?
 Is there ____ that diminish ____ that ____ performance?
 Is ____ a ____ to ____ down ____ useless ____ make my device ____ better?
 Setting should be ____ reduce ____ processes and ____ performance.
 Can we change ____ to increase ____ and ____ useless ____?
 ____ that reduce ____ that ____ connected to device performance.
 ____ be ____ irrelevant background activities
 Changing ____ is ____ to reduce ____ background procedures ____ affect ____.
 Reducing unneeded background processes and ____ altered in ____.
 ____ possible to modify ____ settings ____ excessive ____ processes on ____ devices?
 Can settings be ____ to limit ____ processes that ____ devices ____?
 ____ help reduce ____ processes ____ device ____ should be altered.
 How ____ settings be ____ in ____ reduce ____ background procedures ____ have a ____ effect ____ device ____?
 ____ be ____ to ____ unneeded background ____ and ____ device performance?
 ____ changes reduce ____ operations?
 ____ adjusting ____ decrease ____ background process?
 ____ be altered to reduce unneeded ____ and ____ effect ____ device performance.
 ____ be changed to ____ performance?
 ____ it possible ____ trim ____ background ____ device speed?
 Does adjusting background ____ performance?
 ____ are ____ affect ____ background processes ____ connect ____ device performance.
 ____ changed to ____ unneeded ____ and have a negative impact ____ the ____ performance?
 Are the ____ adjustments ____ decrease background ____ performance?
 Can ____ make my settings ____ a ____ job ____ having background ____ and help ____ better?

The settings should be _____ help _____ and _____ device performance.

Can _____ settings _____ of _____ having _____ processes and having my device work better?

Can I make _____ settings _____ a better _____ of not _____ background _____ for my _____?

_____ should settings _____ in _____ unnecessary background _____ and _____ a _____ impact _____ the device performance?

Is there _____ to _____ the settings _____ that _____ tasks _____ in the _____?

Reducing redundant operations' _____ would _____ if settings were _____.

_____ there _____ way _____ reduce _____ background activities _____ improve _____ performance?

How should settings _____ so _____ to help _____ processes and _____?

_____ I _____ background processes _____ order to _____ device's _____?

What should settings _____ to reduce unnecessary _____ performance?

_____ it _____ change the settings _____ there are less unneeded _____?

What should _____ altered _____ reduce _____ have _____ beneficial effect _____ device performance?

_____ adjustments be made _____ to eliminate background _____?

_____ there a _____ to _____ less of _____ device's superfluous _____?

_____ settings _____ altered _____ order to reduce unneeded _____ improve performance

_____ possible _____ for less of a device's _____ processes?

_____ possible to _____ settings _____ cut down on _____ processes?

_____ I _____ the _____ processes on _____ device so _____ improve it's _____?

_____ be _____ to reduce unneeded background processes _____ device _____?

How should settings _____ to _____ extraneous processes _____ affect _____ performance?

_____ tweaking settings _____ to _____ background processes?

Can _____ make my _____ work _____ by _____ background processes?

_____ altered in order to reduce unneeded _____ procedures _____ negative effect on _____ performance?

settings _____ be _____ in order _____ reduce _____ background procedures _____ a positive _____ device _____

Is there _____ to adjust _____ for less _____ process?

_____ should be changed _____ to reduce unnecessary _____ processes _____ affect _____.

What should _____ settings be changed _____ reduce _____ processes _____ performance?

Can _____ the _____ processes of my device _____ its _____?

Setting _____ that _____ are connected to _____ performance.

Can _____ reduce _____ the background _____ adjusting your _____?

_____ I reduce the background _____ so _____ my _____?

_____ settings be _____ cut _____ on background _____?

_____ there settings that _____ processes that _____ connected _____ device performance?

Is _____ to _____ device performance _____ changing _____ settings?

Is _____ settings _____ decreasing _____ processes that _____ speed?

What _____ the settings _____ altered _____ unneeded background _____ negative effect on _____ performance?

_____ settings be _____ to help _____ unneeded background processes _____ impact _____ performance?

_____ background settings _____ device _____?

Setting _____ changed to help _____ background _____ and _____ device's performance.

_____ the settings could eliminate _____ processing.

_____ should settings _____ background procedures and have _____ negative impact _____ the _____.

It is possible to reduce _____ operations _____ device _____.

_____ the background _____ of _____ device so _____ make it better?

_____ adjusting _____ options cut _____ on _____ of _____ in the _____?

How should settings _____ to _____ background _____ and affect _____ performance?

_____ settings tinker with _____ to improve _____?

There _____ settings changes _____ decrease _____ processes that _____ performance.

_____ settings be _____ reduce _____ background procedures _____ have a negative impact _____ the _____?

_____ adjustments _____ background _____ that can affect device performance.

Changing settings will _____ unneeded background procedures and _____ on _____.

How _____ to _____ unneeded background processes _____ device performance?

Can I make _____ settings do _____ better job of not having background _____?

_____ should _____ order _____ reduce _____ processes and affect device _____
_____ reduce extra processes?

Is _____ reduce unnecessary background processes _____ device _____?

_____ to make _____ better job of _____ having _____ processes and making my _____ work better?

Reducing redundant _____ impact _____ be possible with _____.

How _____ settings _____ changed _____ help _____ extraneous _____ and impact device _____?

Is _____ possible to _____ in a _____ that _____ activities?

_____ should settings be altered _____ to _____ unnecessary _____ and _____ device _____?

settings _____ to help reduce unneeded processes _____ device _____

_____ background settings improve _____?

Is there settings _____ the background processes _____ the device _____?

Setting should be _____ in order _____ processes and _____

_____ possible to reduce the _____ processes _____ my _____ to improve _____?

_____ it _____ to _____ settings in a way _____ reduces _____?

_____ settings that decrease _____ could _____ device performance.

_____ should be changed _____ unnecessary _____ affect the _____ performance.

_____ cut _____ on _____ and make my _____ run better?

_____ make my _____ a _____ job of keeping background _____ my _____?

_____ possible _____ settings to _____ on unused background processes?

_____ I _____ my settings reduce _____ and boost _____?

Can we _____ changes _____ kill useless background stuff?

Should settings _____ to help _____ unnecessary _____ processes _____ the device's _____?

_____ there _____ recommendation on _____ to improve _____ unwanted background processes?

Should _____ be adjusted _____ a device's _____ processes?

How _____ settings be _____ reduce unneeded _____ procedures and _____ effect _____ device _____?

Changing _____ help reduce unnecessary processes _____ device _____.

_____ modify settings to _____ activities?

I want _____ it _____ possible to _____ redundant _____ impact _____ speed.

_____ settings be altered _____ reduce _____ processes _____ performance?

_____ should _____ be _____ order to _____ unneeded _____ procedures _____ have _____ negative _____ on device performance?

_____ it possible _____ change settings _____ are _____ unneeded _____ running in the _____?

_____ can impact my device's _____.

_____ way to change the settings so that _____ in _____ back _____?

_____ should be changed in _____ background _____ and improve device _____.

Does _____ device _____ background tasks?

_____ should settings _____ altered in order _____ reduce _____ a _____ on device performance?

Can _____ reduce _____ activity in the _____ adjusting _____?

_____ there settings that _____ processes _____ connected _____ device performance?

_____ changing _____ limit _____ processes that _____ how _____ the _____ do?

_____ settings _____ adjusted _____ less _____ a device's _____ processes?

Is it possible _____ settings _____ that reduces superfluous _____?

_____ settings _____ that decrease _____ processes that _____ affect device _____.

_____ it _____ to adjust the _____ less _____ is run _____ back end?

How _____ device settings _____ changed in _____ background processes?

_____ be changed _____ reduce unneeded _____ and have a negative effect _____ the _____ of _____ system

Is there setting _____ that _____ background _____ affect _____?

_____ settings be changed _____ help reduce _____ processes _____ device _____?

_____ way to _____ settings _____ a way that reduces unnecessary _____?

_____ that decreases background processes that _____ to device _____?

Can we _____ stuff and _____ device _____?

_____ to _____ background _____ impact device performance, settings should be _____.

_____ to _____ a way that reduces _____ background activities?

_____ should _____ be _____ order _____ unneeded background procedures and _____ a positive _____ device performance?

Can I _____ processes of my _____ to improve its _____.

What should the _____ changed _____ background processes _____ affect _____ performance?

_____ order to _____ processes and affect _____ performance, _____ should _____ changed.

Can _____ settings _____ excessive _____ processes that affect _____ devices _____?

How should _____ reduce _____ background procedures and _____ on device performance?

How should _____ in order _____ reduce _____ background procedures in order _____ positive _____ on _____ performance?

Can I _____ processes _____ in _____ to improve performance?

_____ to alter _____ to reduce redundant operations' _____ on _____?

_____ are _____ decrease background _____ that _____ affect device _____.

_____ possible to _____ settings in _____ way that _____ extraneous _____?

_____ should _____ in order to reduce unneeded background _____ have _____ beneficial effect on _____?

Is it _____ way that reduces unneeded background _____?

_____ used _____ reduce unnecessary background _____ and _____ performance

_____ settings _____ in order _____ reduce background procedures and _____ a beneficial _____ device _____?

_____ be enhanced by adjusting to _____ background _____.

Changing _____ will _____ reduce _____ and _____ device performance.

Setting _____ that _____ processes _____ device's performance.

How can settings _____ unneeded processes and impact _____?

_____ be _____ to _____ reduce extraneous processes and _____ device performance.

Can _____ reduce _____ processes to _____ performance?

Is there _____ that _____ that _____ device performance?

Device speed _____ be _____ settings _____ unneeded background _____.

Is _____ to cut _____ on _____ processes that impact _____ performance?

How should settings _____ adjusted in _____ to reduce _____ background _____?

Is it _____ settings in _____ that decreases _____ background _____?

_____ some _____ in the background and improve _____?

_____ would reduce unneeded _____ affect device performance.

_____ you _____ certain options _____ on extraneous activity?

_____ adjusting options _____ on _____ the background?

_____ anyone _____ to control _____ processes that slow _____ my _____?

What _____ are used _____ diminish unnecessary _____ and _____ performance?

How can _____ be _____ help _____ unnecessary _____ affect the _____ performance?

_____ should _____ to reduce _____ processes and affect device _____?

_____ settings _____ background _____ that connected to device _____.

Reducing _____ on device speed is something _____ can be _____.

What _____ are used _____ reduce unneeded _____ and impact _____?

Changing _____ to decrease _____ background _____ done.

_____ it possible to _____ redundant _____ on device _____.

How _____ settings _____ reduce unneeded background _____ and _____ on device performance.

_____ way to decrease _____ processes that _____ device performance?

_____ make _____ settings _____ job not having _____ processes _____ have my device work _____?

_____ settings changes that decrease _____ processes connected _____ performance.

_____ to _____ background processing effectively?

Can I _____ settings _____ a _____ having background _____ with my device?

_____ be _____ to _____ unneeded background _____ and have a _____ effect on _____

Are _____ adjustments _____ decrease the _____ connected to device _____?

_____ there _____ way to _____ a _____ that reduces background _____?

_____ possible to _____ settings _____ redundant operations' impact?

Can I _____ amount of _____ processes _____ my device's _____?

Can I modify _____ settings _____ make them _____ not _____ background processes?

_____ it _____ modify settings to _____ background processes _____ performance.

_____ are settings that decrease background _____ to _____.

_____ useless _____ stuff and increase device _____?

How should the _____ be changed to _____ reduce _____ affect _____?

_____ should _____ altered _____ help _____ processes _____ impact device performance.

_____ changing some _____ cut down _____ in _____ background?

Is it _____ to adjust _____ less _____ in the _____ end?

Is it possible to _____ a _____ of not allowing _____ making my device _____ better?

How _____ settings _____ adjusted _____ reduce unneeded background _____ a positive effect on _____?

What should settings _____ to _____ unneeded _____ and _____ device performance?

Can you reduce _____ activity _____ the _____ options?

_____ it possible _____ set _____ cut down _____ unused background _____.

Is _____ possible _____ excessive background _____ that _____ how well _____ perform?

There are _____ that decrease _____ processes that _____.

Will _____ adjustments _____ reduce background _____?

_____ device _____ reduce _____ processes?

How should _____ changed _____ the _____ perform _____ reducing _____ background procedures?

_____ should _____ be changed to reduce _____ background procedures _____ to _____ a _____ device _____?

_____ are _____ adjustments that _____ background processes _____ can _____ device's _____.

How should _____ be _____ background procedures and _____ on _____ performance?

_____ device _____ by _____ unwanted background processes?

_____ that decrease _____ processes _____ can affect _____ performance.

How can _____ be changed to _____ and _____ device _____?

Can _____ certain options cut _____ activity _____ the _____?

_____ should _____ be _____ help _____ procedures and affect device performance?

Is it _____ to _____ activity in _____ background _____ your _____ performance?

_____ I make _____ settings do _____ background processes and improve _____ performance?

_____ limit background processes that _____ well _____ devices perform?

_____ wonder if _____ settings _____ device performance.

_____ be altered to help reduce _____ and affect _____ performance?

_____ we make _____ settings that kill _____ stuff?

There are ways _____ less of _____ processes.

By _____ background _____ can _____ improved?

There are adjustments that _____ that _____ device _____.

settings to _____ background processes _____ performance

Is there _____ that _____ can _____ background activities and _____?

_____ any _____ that _____ background processes _____ affect device _____?

_____ possible to _____ the background processes of my _____ improve _____.

_____ I make _____ better job _____ and my device work better?

_____ be changed _____ reduce unneeded background procedures and have _____ impact _____?

_____ settings limit background _____ affect how well the _____?

_____ settings be changed _____ help _____ background _____ and _____ performance?

_____ there settings _____ decrease _____ processes that affect _____?

_____ that decrease background processes _____ device's performance.

_____ can _____ reduce background activities.

_____ settings be _____ background activities?

_____ I modify _____ processes _____ to improve performance?

_____ making adjustments _____ eliminate _____ processing?

_____ possible to _____ so that _____ tasks are run?

settings _____ decrease background _____ can _____ device _____.

_____ adjusting options _____ on _____ activity _____ the background?

Setting _____ be _____ to _____ unnecessary _____ processes _____ impact _____ performance.

How _____ settings be _____ reduce extraneous processes _____ affect the _____?

_____ change _____ processes of my _____ to improve _____ performance?

_____ settings _____ that _____ processes _____ to device performance?

_____ should _____ be _____ in order to reduce _____ procedures _____ of the device?

Is _____ to change _____ a way that reduces _____.

Setting might be _____ irrelevant _____.

Setting should be _____ order _____ unnecessary processes and impact _____.

_____ be settings _____ decrease background _____ can affect device _____.

_____ should be changed in _____ reduce _____ processes _____ affect _____.

_____ it _____ to _____ the settings so _____ there _____ less _____ tasks _____ the _____?

_____ of _____ background activities could _____ done.

There _____ adjustments _____ decrease background _____ impact _____ performance.

Will adjusting the settings be _____ eliminate _____?

_____ it _____ settings to reduce _____ impact _____ redundant operations?

_____ should _____ be changed to help _____ background _____ affect _____ performance?

_____ settings to help reduce _____ background processes _____ the _____.

Changing _____ may help reduce unnecessary _____ affect _____.

_____ changes _____ decrease background _____ connected to device _____?

_____ suggestion on how to _____ device performance by _____ background _____?

_____ settings be changed _____ to reduce _____ background _____ and _____ device performance?

How _____ settings _____ in order _____ device _____ reduce unneeded background _____?

_____ that decrease _____ background processes _____ are _____ to performance.

_____ possible to _____ so _____ there _____ any unneeded tasks _____ back end?

Is _____ to change settings _____ less of a _____?

_____ should _____ be changed to _____ unneeded _____ procedures _____ order to _____ a _____ effect on _____?

Can _____ of my device by decreasing _____ background _____?

How should _____ be changed _____ reduce _____ background processes _____ the _____ performance?

_____ be _____ help reduce unneeded processes _____ affect device _____?

_____ help _____ unnecessary background _____ and affect _____ performance, settings _____ be _____.

_____ could be _____ to _____ background activities.

How should _____ be _____ reduce _____ background processes _____ impact _____ performance.

Is there _____ decrease _____ affect device performance?

_____ settings _____ be _____ to _____ unneeded background _____ and _____ a positive effect _____ device _____.

Is it _____ to _____ settings do a _____ processes and boosting device _____?

Is there a way _____ modify _____ settings so _____ are _____ the _____?

Are _____ any settings _____ be _____ to _____ activities?

_____ the _____ to prevent _____ background processing?

Can I shorten _____ background processes of _____ to _____?

_____ setting be _____ help reduce unnecessary _____ and _____ performance?

Can you modify _____ settings _____ background processes?

_____ settings is a _____ to reduce _____ procedures _____ affect _____.

Is _____ possible _____ alter settings _____ superfluous background activities.

____ modifying settings limit the ____ on the ____?
 How ____ unnecessary background procedures and improve device ____?
 Can ____ limit ____ amount of ____ impact ____ well ____ devices perform?
 ____ settings be changed ____ irrelevant ____?
 ____ settings adjustment that decrease ____ processes ____ affect the ____?
 To ____ background processes and impact device ____ settings _____.
 Is there ____ way ____ performance by ____ background activities?
 How should ____ be ____ order ____ unnecessary ____ procedures and ____ device ____?
 ____ settings ____ unnecessary ____ have ____ positive effect on the performance.
 ____ settings be changed in ____ to decrease ____ background ____ have a ____ effect ____ performance?
 Can ____ make my settings ____ job ____ having background ____ and ____ my ____?
 ____ adjusting ____ make a ____ to ____ performance?
 How should ____ order to reduce unnecessary ____ and negatively ____ device ____?
 ____ decrease ____ background processes of ____ device so ____ to ____?
 ____ a way to ____ the ____ activity in ____ background?
 ____ device performance be ____ setting ____ settings?
 Reducing redundant operations' impact ____ interesting question.
 ____ may ____ modified to ____ activities.
 Can ____ trim the ____ of ____ device ____ improve ____ performance?
 How should settings be ____ background procedures and have a ____?
 ____ be altered to ____ unnecessary background ____ device's performance.
 Is there ____ cut ____ unnecessary activity in the ____.
 ____ settings ____ changed to reduce extraneous ____ and ____ device ____.
 ____ be ____ to help ____ processes and ____ device performance?
 Can ____ the ____ to kill ____ background ____ and ____ speed?
 Changing settings ____ background procedures should have ____ effect ____ performance.
 Is ____ possible ____ change settings ____ a ____ reduces extraneous ____?
 Is ____ a ____ to reduce unnecessary background ____ impact ____?
 What ____ the ____ be ____ to help ____ background ____ device performance?
 There ____ settings ____ that decrease ____ that ____ affect ____ of ____ device.
 ____ possible ____ settings in a way that reduces ____?
 ____ should ____ changed to help ____ unnecessary ____ and ____ device performance
 In order to ____ unnecessary background ____ device ____ be altered.
 ____ setting ____ background ____ improve ____ performance?
 ____ settings to limit ____ background processes ____ affect how ____ devices perform?
 ____ settings be ____ to make ____ less ____?
 ____ change ____ settings to kill ____ stuff and ____ device speed?
 ____ settings ____ to ____ unnecessary ____ processes?
 Is it ____ settings do a ____ of ____ having background processes and devices ____?
 ____ settings ____ with ____ that will improve device ____?
 Can ____ the background processes in my ____ to ____?
 ____ settings be altered to decrease ____ background ____ and ____ effect ____ device ____?
 Is it ____ modify specific ____ limit ____ background ____?
 ____ possible to ____ so ____ less unnecessary tasks in ____ back end?
 ____ should ____ be ____ to ____ unnecessary ____ a negative effect on ____ performance?
 Should settings be ____ reduce ____ processes and affect ____?
 Can ____ the background processes ____ my ____ that ____ better performance?
 Is tweaking ____ background processes that impact ____ speed?
 ____ should ____ be ____ to reduce unnecessary ____ procedures and have ____ effect ____?
 ____ adjusting some options reduce the ____ the ____?

_____ it _____ to modify settings to _____ background _____?

_____ should settings _____ to _____ reduce unneeded _____ processes _____ performance?

Is _____ to _____ the _____ so _____ tasks _____ the back end?

Can I change _____ make _____ do _____ better job of _____ processes?

In _____ reduce _____ procedures and _____ negative _____ on the device performance _____ settings _____ altered?

There _____ adjustments that _____ processes that can affect _____.

_____ settings _____ that _____ background processes?

_____ settings be changed _____ reduce unneeded _____ impair _____ performance?

_____ can settings be _____ reduce unnecessary _____ processes _____ device performance?

How should settings _____ changed _____ to _____ extraneous processes and _____

Can I _____ background processes of my device _____?

settings adjustments that decrease _____ performance

_____ any way _____ maximize device performance _____ processes?

Are there _____ adjustments _____ decrease _____ that _____ to device _____?

_____ settings _____ reduce unwanted _____ process?

Changing _____ settings _____ improve _____.

Setting _____ be changed _____ background _____.

How _____ device settings _____ order _____ unneeded background procedures?

_____ my settings doing a _____ not having background _____ and _____ device _____?

_____ settings _____ with background operations _____ improve device _____?

Are _____ that reduce _____ processes _____ can _____ device performance?

Is it possible _____ to reduce _____ unneeded _____ in the back _____?

Can _____ that _____ unnecessary background _____?
