

[Demo] NLP Dataset for Customer Service Automation

Company Type	Electricity Suppliers
Inquiry Category	Energy consumption analysis and advice
Inquiry Sub-Category	Appliance efficiency
Description	Customers seek advice on choosing energy-efficient appliances that reduce electricity consumption. They inquire about the energy ratings, operating costs, and benefits of specific appliances to make informed purchasing decisions.
Data Size	6,676 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Electricity Supplier" customer inquiry. (Purchased data will not be masked.)

Can you ____ information ____ ____ ____ ____ air conditioners compared ____ standard models?

Can you tell me ____ ____ ____ air conditioner's ____ ____?

____ regarding ____ costs of ____ AC ____.

____ ____ of the costs of ____ ____ systems ____ are more ____ efficient?

____ there ____ comparison between the ____ ____ of ____ conditioners?

Is ____ ____ provide ____ about ____ operating ____ ____ energy-efficient air conditioners compared ____ ____ models?

____ required for the ____ costs ____ ____ efficient A/Cs.

I would ____ to ____ ____ ____ of the eco-AC units ____ to ____ breathin' ____.

____ any knowledge ____ ____ operating ____ associated with ____ ____ air conditioners?

How much is it ____ ____ use ____ energy ____ air ____?

I wish ____ more ____ running ____ incurred ____ using ____ eco-conscious ____ Conditioning.

Is ____ possible ____ the energy ____ ____ AC units.

____ ____ to know the ____ ____ high-efficiency A/Cs vs ____ models.

____ ____ know how much ____ ____ them to run ____ ____ ACs.

____ ____ possible to ____ air conditioners' ____ ____.

I ____ ____ know ____ on ____ efficient AC ____ costs.

Is it ____ to ____ me ____ operating costs of ____ efficient air ____ ____ ____.

____ tell me ____ ____ ____ expenses incurred ____ using an eco-conscious Air ____.

____ ____ the ____ costs of energy efficient ____ ____ to regular versions?

There are details needed regarding ____ ____ associated ____ ____.

Do you ____ ____ the operational ____ of air ____ systems that ____ more ____ ____?

Inform ____ more ____ energy ____ AC ____.

Can you ____ an account ____ ____ for ____ ____?

Please ____ me ____ pertaining to ____ running ____ ____ while using ____ ____ Air ____.

____ for ____ on operating ____ ____ ____ AC.

____ would ____ to ____ how much it ____ ____ operate ____ eco ____ ____ unit.

Is there ____ ____ to compare electricity and ____ operational ____ between traditional ____ ____ units ____ ____ friendly ____?

Is it ____ ____ share ____ ____ ____ efficient AC operating ____?

I need to know about _____.

Is _____ cost _____ power-saving _____ comparable to _____ options?

How much is it _____ run _____ energy-efficient _____?

_____ about _____ comparative running _____ of high-efficiency _____.

_____ you _____ about the operational _____ of energy efficient air _____?

_____ am _____ operational charges for eco-friendly ACs.

_____ have _____ information _____ the costs of energy efficient _____?

Is _____ true that _____ units _____ less to operate _____?

Is there any _____ you can _____ with energy efficient _____?

_____ about _____ charges _____ eco-friendly ACs _____ ones?

_____ the costs _____ energy-efficient air conditioning systems _____ typical _____?

_____ like to find out _____ much it costs to operate _____ AC _____ options.

Can you _____ of _____ costs _____ energy efficient air conditioners?

_____ me _____ much it cost to run _____ eco-friendly _____?

The scoop on energy-saving _____ to _____ basic _____?

_____ is the comparative _____ eco-friendly _____ units.

_____ much does it _____ to _____ energy- _____ conditioner?

_____ you tell _____ the _____ running eco-friendly _____ to _____ units?

_____ explain expenses _____ ACs _____ are _____?

_____ the _____ costs for eco-friendly _____ units?

Do _____ know _____ operational costs _____ conditioning _____ are more efficient?

What are _____ for _____ AC _____?

_____ needed _____ operating costs associated with efficient _____.

What _____ you tell _____ energy efficient AC operating _____ the _____?

I _____ to _____ how _____ it _____ to _____ efficient ACs.

Looking _____ pertaining to the operating _____ eco-friendly _____.

_____ us about _____ expenses for efficient _____?

_____ would appreciate a breakdown _____ energy-saving _____ to standard ones.

What is the _____ of operating expenses between _____?

_____ much does _____ friendly air _____?

I want _____ if _____ are any figures or estimates to compare _____ other _____ between _____ air _____ units.

Is _____ compare electricity and _____ operational expenses between traditional _____ conditioning _____ ones?

Is it _____ to compare _____ and _____ expenses _____ green and _____?

_____ give _____ an idea _____ expenses of _____ eco-AC _____ compared to _____ breathin' coolers?

I _____ breakdown _____ the _____ for energy-saving _____ compared _____ ones.

_____ curious _____ charges _____ eco-friendly ACs.

_____ there _____ comparison between _____ operational _____ of _____ conditioners?

_____ it possible to compare _____ electricity and other operational _____ traditional _____ units _____ ones?

_____ is the _____ of eco-friendly _____?

Do power-saving _____ units _____ costs?

_____ the _____ of efficient and regular aircons?

_____ possible to brief on expenses _____ ACs _____ ones?

_____ with _____ conditioning systems, do you _____ insight _____ the _____ costs?

Looking for _____ the _____ for eco-friendly _____.

Is _____ about _____ AC _____ costs compared to the standard _____?

Is it _____ give information _____ energy efficient _____ expenses?

I need _____ about _____ expenditures _____ an eco-conscious Air _____.

We _____ information _____ operational _____ when using _____ AC _____.

_____ operational expenses _____ using efficient AC _____ traditional alternatives would _____.

Do you know how _____ it _____ eco-friendly _____?

____ it ____ to ____ about expenses ____ efficient ACs vs ____ ____?
 What is the cost ____ standard units?
 I was wondering ____ could give me ____ of ____ expenses ____ ACs.
 ____ details ____ costs ____ the eco-friendly AC model.
 Can the costs ____ regular ____ compared?
 ____ there ____ on ____ operating ____ associated with energy-efficient ____ conditioners.
 ____ can you tell ____ about the ____ of ____ conditioners ____ standard models?
 ____ a breakdown of ____ expenses for ____ ACs compared ____ ones.
 Can you tell ____ the ____ those eco-AC units compared ____ coolers?
 Is it ____ compare ____ of efficient ____ regular ____
 Is there ____ cost ____ eco-friendly air conditioners?
 ____ give me ____ expenditures ____ while ____ an eco-conscious air conditioning.
 Can ____ operating costs?
 How ____ the ____ for air ____ differ ____ models?
 ____ the price ____ efficient AC ____ to ____ regular AC?
 Information ____ expenses when using ____ AC ____ alternatives ____ be helpful.
 I ____ like ____ know ____ energy efficient ____ costs.
 Please tell ____ the ____ A/Cs vs ordinary models.
 ____ expenses of air conditioners?
 Is ____ operating ____ efficient and regular air ____ models?
 ____ a breakdown of running costs for ____ ACs ____ to ____ ones.
 Do ____ anything ____ costs ____ systems that are energy efficient?
 ____ difference in operation costs ____ air ____ and ____ models?
 ____ would ____ to ____ costs of ____ versus standard units.
 Is it ____ details ____ energy ____ AC operating ____?
 ____ you have any ____ the ____ of ____ systems that are ____ efficient?
 Provide ____ of the ____ of ____ units.
 ____ to ____ the running costs of ____ vs ordinary ____.
 ____ required on the operating costs ____ efficient ____.
 ____ you have data comparing ____ of air ____?
 ____ give us information ____ operating ____ air conditioners.
 Do ____ saving air ____ to run than ____?
 Tell ____ how ____ friendly AC ____?
 ____ do ____ energy saving ____ to regular models?
 ____ you compare the ____ aircons?
 What's the difference in ____ efficient ____ conditioners?
 I ____ wondering if ____ a ____ of ____ ACs compared ____ standard ones.
 ____ are the ____ costs compared?
 Can ____ the costs for efficient ____ ones?
 ____ to learn ____ about operational expenses ____ AC units.
 Does an ____ air ____ less ____?
 ____ to ____ how much ____ cost ____ to regular ones.
 Looking ____ on operating ____ of ____ models.
 I ____ to ____ details ____ charges ____ eco-friendly ACs.
 Can ____ compare ____ costs?
 ____ eco-friendly ____ expenses ____ regular units?
 ____ it possible to ____ operating ____ and regular ____.
 ____ there ____ brief ____ efficient ____ vs regular ones?
 ____ there ____ energy efficient ____ compared to the standard ____?
 Is ____ possible to ____ AC operating costs compared ____ models?

_____ does eco-friendly _____ to regular _____?

I need to _____ out _____ much _____ ACs _____ to _____.

Do you have _____ of the _____ of _____ conditioning _____ more efficient?

_____ know the _____ in _____ between _____ and regular air _____?

I need a _____ of _____ expenses for _____ ACs _____ to _____.

Can _____ information _____ the _____ costs _____ energy efficient air _____?

_____ possible _____ an _____ the _____ costs associated _____ energy efficient air conditioners?

How _____ aircon expenditures _____ regular _____?

_____ to _____ the costs _____ energy-efficient air conditioners and standard _____?

_____ any _____ efficient AHU expenditures _____ regular ones?

Tell _____ more about _____ Energy-friendly _____?

How _____ aircon _____ regular units?

_____ need some _____ energy efficient ACs cost to _____.

Are the _____ ACs different than traditional _____?

_____ the _____ expenses _____ the energy-saving AC units.

_____ about _____ efficient AC _____ compared to _____ standard models?

Is _____ feasible _____ the costs _____ efficient _____ regular _____?

_____ was wondering _____ high-efficiency A/Cs _____ ordinary models.

_____ anyone _____ numbers on _____ of energy-efficient air conditioners?

When _____ to _____ would appreciate _____ into _____ eco-friendly AC units.

What are _____ differences between _____ air _____ operating expenses _____?

Do _____ more _____ the _____ of air conditioning systems _____ more _____?

_____ want _____ costs for _____ AC units versus _____ units.

I need _____ comparative running _____ incurred _____ an eco-conscious _____ conditioning _____.

_____ efficient _____ traditional AC operation costs.

_____ operating costs compared?

_____ it possible _____ expenses for efficient _____ over _____ ones?

_____ know the operating _____ of energy-saving _____ units _____ to regular _____.

_____ operating _____ of _____ efficient _____ conditioners compared to standard _____?

_____ possible to _____ me about _____ operating _____ associated _____ air conditioners?

Is _____ possible to _____ electricity and other _____ between _____ and _____ air _____.

_____ me _____ breakdown of _____ energy-saving _____ compared to standard ones, _____.

_____ to know _____ expenditures _____ while using an _____ Air Conditioning.

I need _____ know _____ running expenditures incurred when _____ an _____.

I am interested _____ the comparative running _____ efficiency _____ vs _____.

Can you give _____ details _____ operating costs?

_____ need _____ know the _____ charges for eco-friendly ACs _____.

_____ need _____ breakdown of running costs _____ ACs _____ standard _____.

_____ interested _____ of eco-friendly _____ Conditioners.

Do power-saving AC units _____ lower _____ options?

_____ much more _____ it cost _____ eco-friendly _____ conditioner?

_____ data _____ energy _____ and _____ operation costs.

How _____ does _____ cost _____ eco-friendly _____ compared with standard _____?

Is _____ to compare electricity _____ other _____ and green air conditioning _____?

_____ operating overheads of _____ should be given.

Data concerning _____ of _____ air _____ as opposed to _____.

How _____ expenditures differ _____ regular _____?

_____ you show _____ the costs _____ regular and _____?

_____ with _____ comparative _____ expenditures _____ while using an eco-conscious air _____ system.

Do _____ have _____ to _____ costs of energy _____ and standard units?

_____ that _____ AC _____ lower operational costs _____ to regular options?
 _____ you _____ about the _____ of _____ efficient aircons?
 What _____ the operational _____ for _____?
 What are _____ operating costs _____ conditioners _____ to standard _____?
 Is _____ to give _____ AC operating costs.
 Can you tell _____ those new-fangled _____ units compared to normal _____?
 Inquire _____ operating _____ of _____ AC units _____ regular _____.
 Did _____ me about the _____ charges _____ ACs?
 Can you _____ about _____ of energy _____ conditioners compared _____ the _____ models?
 What's _____ operating costs _____ and efficient _____ conditioners?
 _____ much _____ eco-friendly ACs cost _____ to _____?
 _____ know _____ in operating _____ efficient and _____ air conditioners?
 _____ tell me about the operational _____ ACs.
 _____ I able to compare _____ expenses _____ air _____?
 Do _____ have _____ insight on the _____ costs _____ air _____?
 I _____ to _____ much _____ costs _____ AC unit when compared to standard _____.
 Can _____ describe the _____ ACs?
 _____ it possible _____ conditioners _____ less to _____ than _____ units?
 How do _____ against other _____?
 _____ any _____ on the _____ operating _____ compared to the _____ models?
 _____ possible to _____ operating costs of _____ efficient _____ conditioners?
 _____ is _____ cheaper to _____ an energy- _____ air _____?
 When comparing _____ with _____ options, _____ insights into _____ expenditures.
 _____ would like _____ how _____ is spent _____ AC _____ compared to _____ options.
 _____ is required _____ costs associated with _____.
 What's the difference _____ air conditioner _____ costs and _____?
 _____ is the difference _____ operation _____ regular and efficient _____?
 I would like _____ details about the _____ ACs.
 _____ on energy efficient _____ traditional _____
 Is there a _____ the _____ costs of _____?
 _____ you _____ data _____ costs _____ energy _____ and standard _____ conditioners?
 Has _____ cost _____ run than standard units?
 How much is _____ operate _____ conditioning unit?
 Is there a _____ compare _____ and _____ between environmentally _____ and _____ air _____ units.
 Details are required on _____
 _____ need a breakdown of _____ of _____ ACs _____ standard ones.
 How _____ the _____ air conditioners _____ from _____ ones?
 What is the difference _____ normal and efficient _____?
 Do you _____ operating _____ of energy- efficient air _____?
 How much _____ it _____ an eco-friendly AC _____?
 Can you tell _____ about _____ expenses _____ those _____ eco- _____ to normal _____ coolers?
 _____ the _____ costs _____ AC units.
 Looking _____ facts about _____ operating costs _____.
 _____ you have _____ data comparing the _____ of _____ efficient _____ conditioners _____ units?
 _____ do eco-friendly _____ versus _____ units?
 _____ operating _____ of energy-saving air _____ opposed to _____ units.
 What is _____ expense _____ for _____ efficient _____ models
 _____ that power-saving AC units _____ cheaper operational _____ than _____?
 _____ provide _____ with _____ comparative running expenditures incurred when _____ Conditioning
 _____ give _____ a _____ running expenditures incurred while using an _____ Conditioning.

What ____ the difference ____ ____ conditioner operating expenses ____ ____ ones?
 ____ a comparison ____ the operational ____ of ____ conditioners?

Is ____ you ____ me ____ the operating ____ energy-efficient air conditioners?
 ____ to know about ____ costs ____ high-efficiency ____ vs ____ models.
 ____ there a way to ____ costs ____ air ____ standard units?
 ____ be possible ____ out how ____ green ____ Conditioners cost vs ____ ?

I need ____ the ____ charges for ____ ACs.
 ____ you able to compare ____ of ____ and ____ conditioning?
 ____ was ____ about the ____ running ____ A/Cs vs ordinary ____.

Looking for more about ____ costs ____.

Can ____ show us the costs ____ aircons?
 ____ about ____ efficient ____ compared to the standard models.

Do ____ have any ____ operating ____ efficient air conditioners?
 ____ tell me about ____ efficient air ____ expenses?

I ____ to ____ the energy efficient ____ are.

What ____ the cost ____ efficient air conditioner ____ ?

Do ____ have the ____ compare ____ of ____ and regular ____ ?
 ____ you tell ____ the running ____ of an ____ efficient ____ ?

How do ____ AC ____ compare ____ ?

____ there anything ____ can ____ operating costs ____ with energy efficient ____ conditioners?
 ____ to ____ much the AC ____ are costing ____ compared ____ standard options.

Give ____ operating expenses ____ the energy-saving AC ____.

____ you tell me ____ operating expenses ____ the ____ AC ____ compared ____ coolers?
 ____ energy efficient versus ____ costs.

Looking ____ operating ____ AC models.

Looking for more ____ on the ____ costs ____

____ energy-saving air conditioners ____ less to ____ standard ____ ?

____ tell me ____ costs of energy- efficient air ____ ?

____ you able to compare ____ costs of efficient ____ ?

____ question ____ efficient vs ____ ACs?

____ compared ____ options, ____ would ____ how much it ____ operate green AC units.
 ____ me about the ____ of ____ air ____ compared to standard models?

You ____ about ____ comparative ____ costs of high-efficiency A/Cs vs ____.

Information relating ____ expenses ____ using ____ units ____ traditional ____ is needed.
 ____ have data on ____ efficient air conditioners and standard ____ ?
 ____ there ____ compare energy efficient AC operating costs ____ ?

Is there any ____ on ____ energy- efficient ____ conditioners?

Information ____ when using efficient ____ versus traditional ____ required.

Do ____ any insight into the ____ systems ____ are ____ efficient?

Please describe ____ expenses of ____.

Energy ____ standard one: ____ breakdown?

Data ____ overheads ____ energy-saving ____ conditioners ____ opposed to traditional ____ needed.
 ____ tell ____ about the ____ AC costs?

How ____ do you know about ____ operating ____ energy-efficient ____ conventional ____ ?

How much ____ it ____ energy-efficient and standard ____ ?

____ you give ____ any ____ into ____ operating ____ of ____ efficient ____ conditioners?
 ____ me more ____ costs.

Is it possible to ____ info ____ conditioner's running ____.

____ you ____ give ____ a breakdown ____ the ____ expenses for energy-saving ____ ?

____ like to ____ the operational ____ eco-friendly ACs.

_____ the _____ expenses _____ energy-saving AC _____.

_____ to _____ the operating costs _____ eco-friendly AC.

Looking _____ operating _____ of eco-friendly _____.

_____ anyone _____ much _____ conditioners cost?

I _____ charges _____ eco-friendly ACs versus traditional _____.

_____ are _____ for operating _____ units?

_____ you give _____ of running _____ compared to standard _____?

_____ you have data that _____ costs _____ energy _____ air _____ with _____?

_____ curious about the _____ eco-friendly ACs _____ traditional _____.

I was _____ of _____ air conditioners.

_____ difference between _____ that _____ efficient and regular ones?

Inquire _____ operating overheads _____ as _____ to traditional units.

Do _____ it costs to _____ eco- _____ ACs?

Can you _____ me _____ much it _____ an _____ AC?

Insight _____ operational expenses when using efficient _____ is _____.

_____ data on energy _____ versus _____ operation _____.

_____ is the cost difference _____ saver _____ regular _____?

Will _____ cost less to _____?

Please provide me with _____ on _____ incurred _____ using _____ conditioning system.

_____ about _____ operating _____ of those eco-AC _____ to regular _____?

_____ you have any insight on _____ energy-efficient _____ conditioners?

Can you compare _____ efficient and regular _____?

_____ about _____ operating costs _____ eco-friendly AC versus _____.

_____ possible _____ tell _____ costs of energy-efficient air conditioners _____ to _____ models?

I'm _____ some information _____ operating costs of _____.

I would _____ know _____ on the _____ efficient _____ operating _____.

I _____ like _____ know _____ much _____ operate _____ green AC _____ compared to a standard _____.

Please _____ me _____ comparative _____ incurred when _____ an eco-conscious Air _____.

When compared _____ typical air _____ systems, _____ have any _____ operational _____?

_____ operational _____ are associated with _____ traditional ones?

Please _____ operating costs of energy-saving _____ units.

Is _____ possible to _____ the operating _____ of _____ regular _____.

I need to know _____ comparative running _____ high-efficiency _____ models.

Is it possible to _____ other _____ expenses _____ a _____ traditional _____ conditioning _____?

_____ you _____ me about _____ expenses _____ ACs and regular _____?

I would _____ could tell me about _____ running expenditures incurred while _____ Conditioning.

You can _____ me _____ the _____ expenses of _____ eco-AC _____ normal _____ coolers.

I _____ breakdown of _____ costs _____ ACs.

_____ you know _____ the _____ conditioning systems that are more _____?

Provide _____ on the _____ of _____ units.

_____ comparing environmentally _____ to _____ options, _____ would appreciate insights into _____.

Please give _____ the operating _____ energy-saving _____ conditioners.

_____ would _____ to _____ how much it cost _____ an AC unit _____ is _____ standard options.

Is it possible _____ costs _____ electricity _____ operational expenses _____ traditional _____ eco-friendly air conditioning _____.

_____ like to know how much _____ costs _____ AC units _____ to _____.

Can you _____ how much _____ costs to run _____?

I was wondering about the comparative _____ vs _____.

Is _____ information _____ air conditioner's running expenses?

_____ possible _____ compare _____ costs of electricity and _____ operational expenses between traditional _____ air _____.

What _____ the comparative running _____ A/Cs _____ models?

_____ anything _____ can tell me _____ operating costs of _____ efficient air _____ to conventional _____?

_____ it _____ to compare operating _____ of energy-efficient _____ units?

Do _____ the _____ costs of _____ vs ordinary _____?

I'm interested _____ of _____ compared to _____ models.

What _____ eco-friendly _____ regular units?

_____ does it cost _____ use eco-friendly _____ standard _____?

_____ me the _____ running _____ high efficiency A/Cs vs _____.

_____ to compare electricity and other _____ conditioning units that are _____ and those _____ are _____?

_____ regarding the operating overheads of _____ conditioners.

_____ costs compared _____ standard models?

_____ us how much _____ to run _____ ACs?

What do _____ of energy-saving AC _____ to _____?

_____ tell _____ expenses for efficient ACs _____ to _____ ones?

_____ do the _____ costs _____ to the _____ models?

Is _____ about the costs _____ energy _____ conditioners compared to _____ models?

_____ to _____ air _____ systems, do _____ have any information _____ the _____?

Do _____ the _____ costs of _____ efficient air _____ systems?

_____ there an insight into _____ costs associated _____ air _____?

_____ have any information _____ cost _____ eco-friendly _____ conditioners?

What do you know _____ the _____ air conditioners _____ to _____ alternatives?

how _____ expenditures _____ to _____ units

Information pertaining _____ expenses when _____ efficient _____ would _____ helpful.

What _____ the operating _____ of energy- _____?

_____ you tell me _____ energy- _____ AC _____?

Information regarding _____ using efficient _____ units _____ traditional alternatives _____ be _____.

_____ you compare _____ expenses _____ conditioning?

I would like _____ cost comparison _____.

_____ there _____ data about _____ cost of _____ air _____?

_____ there info on _____ efficient air _____?

I'd _____ to know _____ the _____ charges _____ ACs.

_____ it _____ power-saving _____ have _____ operational costs _____ regular options?

Can _____ tell _____ the operational _____ for _____?

Do you know _____ about _____ of _____ efficient _____ systems?

Please tell _____ comparative _____ that _____ incurred _____ using an _____ Air Conditioning.

_____ a _____ of running _____ for energy _____ ACs _____ to standard _____.

I _____ information _____ running _____ using an eco-conscious Air Conditioning.

_____ about _____ overheads of _____ conditioners compared to _____ units.

Provide me with _____ on _____ running _____ using _____ eco-conscious Air _____.

_____ me _____ breakdown of the running _____ for energy-saving _____.

Tell _____ about the _____ energy-saving air conditioners _____ traditional _____.

_____ provide operating _____ of energy-saving air _____ as opposed _____.

Information on _____ operation _____.

_____ like _____ about the operational _____ when using _____ AC _____.

_____ eco-friendly _____ expenditures _____ compared to regular units?

How _____ energy-saving _____ compared _____ models?

Is _____ to _____ me _____ of energy efficient air conditioners _____ models?

Do you have any information _____ running _____ incurred _____ Conditioning?

What's _____ difference between _____ ACs and _____ ones?

_____ data regarding _____ of _____ saving air _____.

How much _____ cost _____ energy _____ standard _____ models?

I need _____ the _____ running costs _____ A/Cs _____ models.
 _____ for _____ the costs _____ eco-friendly AC versus _____ .
 Please _____ us _____ the operating expenses _____ units _____ comparison _____ regular _____ .
 _____ on energy _____ versus _____ costs.
 Eco-friendly _____ expenditures _____ units
 _____ details _____ the energy efficient _____ operating costs _____ to _____ ?
 Provide _____ with _____ on _____ running _____ incurred while _____ an eco-conscious _____ .
 When _____ to _____ I would like _____ expenditures for green _____ .
 _____ do _____ know about _____ operating costs associated _____ conditioners?
 Please _____ running costs of high-efficiency _____ ordinary _____ .
 Can you _____ me about _____ with energy-efficient _____ conditioners.
 _____ are details _____ running _____ for energy-saving _____ models.
 There are _____ the operating _____ efficient A/Cs.
 Can _____ give me _____ of energy _____ air conditioners?
 _____ that _____ be _____ on the _____ of energy _____ air conditioners?
 How _____ costs of the _____ compared _____ models?
 _____ information _____ of eco- friendly air _____ ?
 _____ on _____ air conditioner's _____ costs?
 You _____ give me a breakdown _____ running _____ ACs, _____ .
 _____ power-saving AC _____ to operate _____ options?
 _____ you _____ the _____ of those eco-AC units compared _____ normal _____ ?
 What _____ the _____ between _____ air _____ operating expenses _____ ones?
 _____ expenses of energy-saving AC units _____ be _____ with _____ .
 Please provide me with _____ comparative _____ expenditures _____ while _____ an _____ Conditioning.
 _____ give information _____ energy-saving air conditioners.
 _____ cost _____ between energy-saving _____ and _____ ones?
 Information regarding _____ efficient _____ units over _____ is needed.
 _____ give _____ on the energy _____ AC operating _____ ?
 I _____ like _____ know how _____ costs to run _____ that is _____ .
 How do _____ aircon expenditures compare _____ ?
 What _____ you _____ the operating _____ of _____ efficient air _____ to _____ alternatives?
 Please let me _____ about _____ expenses _____ energy-saving _____ .
 _____ of _____ costs for energy-saving ACs _____ to _____ ones?
 Please tell me _____ AC _____ in comparison to _____ models.
 _____ you _____ me _____ about energy-friendly _____ ?
 Is _____ electricity and other operational _____ between _____ conditioning _____ are green and _____ that are _____ ?
 Can _____ tell _____ how _____ run an eco- friendly _____ ?
 Can you _____ charges for eco-friendly ACs.
 _____ for details _____ operating costs _____ AC
 Please _____ us data _____ operating overheads _____ conditioners.
 _____ AC units come with lower _____ regular _____ ?
 Does _____ cost _____ eco-friendly air conditioner?
 Do _____ know what the _____ energy-efficient _____ are like?
 How do the _____ AC _____ models?
 Is it possible to _____ efficient _____ regular _____ .
 How much is _____ eco-friendly _____ unit?
 Is _____ to compare _____ air conditioners?
 _____ much _____ eco-friendly _____ cost _____ models?
 I want a breakdown _____ running _____ for _____ standard _____ .
 _____ the operating _____ of an air conditioner compare _____ ?

How do the _____ conditioner _____ to _____ models?

_____ you have _____ information _____ operational _____ air conditioning _____ that are _____ energy _____?

Is it possible to _____ expenses for _____ efficient?

_____ for more information on the _____ of _____.

_____ do energy-saving _____ costs _____ regular models.

Is _____ possible to compare _____ operational _____ between air conditioning _____ that _____ green _____ ones _____ traditional?

What can _____ us about _____ operating costs _____ efficient _____ conditioners compared _____?

_____ there _____ operating costs _____ energy efficient air _____ versus conventional alternatives?

How _____ it cost to _____ an _____ air conditioner _____ to _____?

_____ way to compare energy-efficient AC operating _____ to _____?

Do you _____ the data to compare _____ energy-efficient air _____?

_____ me _____ about energy-friendly _____?

_____ to _____ the _____ AC units versus standard stuff.

I want _____ breakdown of running _____ ACs compared _____ ones, _____.

Looking _____ about _____ of the eco-friendly AC.

Are _____ air _____ to run _____ standard units?

_____ give us details _____ AC operating costs?

_____ you tell us about the costs _____ standard models?

_____ you tell me how _____ eco-friendly ACs _____ to _____?

Are _____ to compare _____ of air _____?

Can _____ how _____ it costs to run _____?

Tell me more _____ costs

_____ have _____ to compare _____ costs _____ air conditioners?

Please provide _____ information related _____ comparative _____ incurred _____ using _____ eco-conscious _____ Conditioning.

_____ the operating expenses of _____ AC units _____ comparison _____

Is _____ true that _____ AC _____ have _____ costs _____ regular options?

I _____ to know _____ versus regular one.

How much _____ cost to run _____ ACs versus _____?

_____ the operating expenses of _____ AC _____ comparison _____ regular _____.

_____ wondering if _____ AC units _____ lower operational _____ regular _____.

Please _____ me the _____ costs of high-efficiency _____ models.

_____ me about _____ costs.

_____ it possible _____ find _____ costs _____ AC units?

_____ any information _____ for _____ ACs vs _____ ones?

Can you _____ the _____ efficient _____ running expenses?

How do _____ expenditures _____ regular units?

_____ want _____ know the difference _____ costs _____ and regular _____ conditioners.

What is _____ AC _____ against _____ models?

_____ do _____ expenses _____ with _____ units?

Is there _____ way _____ compare _____ costs of _____ air conditioners _____?

_____ a _____ electricity and other operational expenses between _____ air _____ green _____?

_____ possible to give _____ about _____ air conditioners that _____ energy efficient?

_____ much _____ it _____ to _____ efficient air conditioner _____ normal one?

Can _____ tell _____ how _____ it _____ energy efficient air conditioner?

_____ the cost difference _____ ACs _____ energy- _____ ones?

_____ any insights _____ the costs _____ air conditioning systems?

_____ about _____ costs _____ with _____ and regular A/Cs.

Do _____ have _____ details on _____ operational _____ ACs?

Is it _____ to _____ operational expenses _____ and _____ air _____.

Is _____ a _____ to _____ AC operating _____ compared to the _____?

A _____ for _____ AC units.

Can _____ give me _____ breakdown of _____ running _____ ACs?

Does _____ the _____ of energy efficient _____ conditioners and _____?

I _____ like _____ the _____ efficient _____ units versus standard _____.

I need to _____ the comparative _____ A/Cs.

You _____ give me _____ breakdown of _____ ACs _____ to _____ ones, please.

Can _____ efficient _____ costs be _____?

There _____ costs with efficient A/Cs.

How much _____ conditioners _____?

What _____ you _____ us about _____ efficient AC _____ costs compared _____ the _____?

_____ for eco-friendly ACs?

I _____ know how much it _____ energy _____ AC versus _____ one.

_____ to know _____ on _____ efficient AC _____ compared to standard _____.

Please give us _____ energy-saving AC _____.

Data _____ operating overheads _____ conditioners as opposed _____ should be _____.

_____ aircon spending _____ with _____ units?

I want _____ know _____ on energy _____ operating _____.

Is _____ energy efficient _____ costs that _____ could share?

Do you _____ operating costs of _____ efficient air _____ standard _____?

_____ able to compare operating costs _____ and _____?

_____ compared _____ standard _____ I _____ like to know how _____ is _____ environmental friendly _____.

_____ information _____ operating costs _____ eco-friendly _____ versus regular models.

Please tell _____ the comparative _____ incurred while using _____ eco-conscious Air _____.

_____ give me an _____ the _____ expenditures _____ while using _____ eco-conscious _____ Conditioning.

Do you have any _____ the _____ of _____ efficient air _____?

What are _____ for _____?

_____ comparison for _____ air _____?

Is _____ a way _____ electricity and _____ expenses between _____ and traditional _____.

_____ it possible _____ tell me about _____ operating _____ with _____ conditioners.

How much _____ it _____ an efficient _____ to _____?

_____ do _____ air conditioner operating _____ from regular _____?

Information _____ operating costs _____ efficient _____ regular A/Cs.

Can _____ give _____ details _____ energy efficient _____ operating costs _____ to _____?

_____ need a _____ running _____ compared to regular ones.

I want to know _____ to compare electricity and other _____ expenses between green _____ conditioning _____.

_____ would like to know _____ operational _____ using _____ AC _____.

_____ to know _____ comparative _____ expenditures incurred when _____ eco-conscious Air _____.

Please give _____ details of _____ operating _____ AC _____.

Please have _____ efficient air _____.

_____ anyone know what _____ of energy efficient air _____ compared _____ conventional _____?

_____ do _____ conditioner _____ compare with _____ models?

How do _____ conditioner _____ costs compare _____?

Do you know how much _____ to _____ an _____?

_____ are _____ operational costs _____ units?

_____ to know _____ budgets for efficient _____ versus standard _____.

How do _____ costs _____ to regular models?

I _____ the comparative _____ expenditures incurred while using an _____.

Do power-saving AC _____ come _____ operational costs _____?

_____ it _____ to _____ details on _____ AC _____ costs compared to standard _____?

____ need ____ on ____ much it costs to run _____.
 ____ do ____ cost ____ AC compare to regular ____?
 Can ____ tell ____ efficient ACs?
 I ____ to ____ much ____ efficient ACs cost ____ run ____ ones.
 Is it ____ electricity ____ between environmentally ____ and ____ air conditioning units?
 ____ tell us ____ cost ____ running eco-friendly ____ over ____ units?
 ____ about running ____ for energy-saving ____ models.
 There ____ needed on running ____ for ____ AC ____.
 Is it ____ me about the ____ costs ____ efficient ____ conditioning?
 I need information ____ expenditures incurred ____ an ____ conditioning system.
 ____ is the difference in ____ costs between ____ models?
 ____ you able to compare ____?
 ____ want ____ know ____ it ____ to ____ energy- efficient ACs.
 I ____ to ____ how much ____ to run.
 We ____ know ____ about the ____ expenses ____ using efficient ____ units.
 ____ want to ____ the operating ____ of those new ____ compared ____ normal _____.
 ____ would ____ to ____ how much it ____ friendly AC units ____ compared ____ options.
 Expense ____ for ____ regular ones?
 Provide ____ about ____ overheads ____ saving air ____.
 Can ____ show us how ____ to ____ ACs?
 Please ____ me ____ the ____ A/Cs vs ordinary ____.
 ____ expenses ____ efficient ____ regular ones?
 ____ on the ____ costs ____ an eco-friendly ____ model.
 I'm ____ for ____ breakdown ____ expenses ____ energy-saving ACs.
 Is ____ possible ____ give me information ____ conditioner's running ____?
 Is there any information about ____ energy ____ standard models?
 Do you ____ information about the ____ of ____ efficient ____?
 ____ the ____ expenses ____ AC ____ in comparison ____ regular models.
 Can you ____ about the operational ____ ACs?
 Can ____ the expenses ____ efficient ____?
 Looking ____ costs ____ operating ____ eco-friendly ____.
 Please ____ with the ____ running expenditures incurred when using _____.
 Do ____ any ____ on operating costs ____ air ____?
 Do ____ enough data to ____ costs ____ energy-efficient air conditioners ____?
 How ____ does ____ operate an ____ air ____ compared ____ regular model?
 ____ like ____ learn ____ expenditures ____ while using an eco-conscious Air Conditioning.
 Do ____ ability to compare ____ operational expenses ____ air ____?
 I ____ to ____ details ____ energy efficient ____ operating costs compared _____.
 Please tell me ____ the ____ incurred ____ an eco-conscious Air ____.
 I ____ like to know how much it ____ to ____ eco-friendly AC _____.
 Do ____ have ____ costs of ____ air conditioners?
 Is ____ provide ____ on ____ of energy efficient ____ conditioners.
 ____ about ____ efficient versus ____ costs.
 ____ you ____ the cost ____ eco-friendly ACs versus ____?
 ____ it possible ____ information ____ costs of energy ____ air ____?
 ____ want ____ breakdown of the running costs ____ to standard _____.
 Do you have ____ insights into the ____ of ____ that ____ more ____?
 I ____ know ____ the ____ efficient ____ costs ____ to standard models.
 ____ it possible to ____ information on the ____ of ____ air ____ standard ____?
 Is ____ comparison ____ electricity and ____ operational ____ between traditional ____ green ____ units?

How do operating _____ models _____ air conditioners?

_____ tell _____ how _____ it _____ to _____ ecofriendly ACs?

Please _____ know the breakdown _____ energy-saving ACs compared _____ standard _____.
_____ regarding _____ expenses _____ using efficient AC _____ is _____ we _____.

I _____ know how much the _____ cost _____ run.

_____ are the operational _____ for _____?

Do you _____ how much _____ operate an energy _____?

_____ possible _____ compare the _____ air conditioners?

Please _____ me _____ the _____ incurred _____ using eco-conscious _____ Conditioning.

Looking _____ info _____ costs of eco-friendly _____.

_____ of efficient _____ aircons comparable?

Does _____ the _____ variance of eco-friendly _____?

_____ information about operating overheads _____ energy-saving _____ to _____ units.

_____ have any _____ on the _____ air _____ running _____?

What is _____ charge for eco-friendly _____ ones?

_____ much _____ cheaper _____ operate an _____ air conditioner?

Do you have an _____ of the _____ of _____ conditioning _____?

_____ need to _____ the _____ charges for eco-friendly _____.

_____ aircon expenditures _____ units?

_____ energy _____ AC _____ against regular models?

Please _____ about the operating expenses _____ AC _____ regular models.

_____ want to know _____ much it _____ a _____ unit _____ standard options.

Did _____ tell _____ about _____ efficient _____ operating costs _____ to the _____?

Do _____ have any idea _____ the _____ energy-efficient _____ conditioning _____?

How _____ saving _____ stack _____ with regular models?

_____ am looking _____ breakdown _____ for energy-saving ACs compared _____ standard _____.
_____ it possible to share _____ on _____ costs.

_____ it possible to share _____ on _____ costs.

I _____ know _____ comparative _____ high-efficiency A/Cs against ordinary _____.

_____ possible to give information _____ costs of air conditioners _____ more _____?

How about _____ costs _____ energy- _____ air _____ compared _____ models?

_____ pertaining _____ expenses _____ utilizing efficient _____ units is _____.

How _____ energy-saving AC _____ compare _____ regular _____?

_____ the _____ overheads of _____ as opposed _____ traditional units

I _____ more about the comparative _____ expenditures incurred _____ using _____ eco-conscious _____.

_____ need _____ know how _____ it _____ run an _____ efficient _____.

Is there any info _____ air _____ running _____?

_____ information _____ efficient _____ traditional AC _____.

Do _____ know _____ eco- AC units compared _____ the _____ breathin' coolers?

_____ would _____ know the _____ eco-friendly ACs versus _____ ones.

I _____ know about the charges _____ ACs _____ ones.

_____ regarding the _____ overheads _____ energy-saving air _____.

Can _____ me _____ information _____ the _____ eco-friendly ACs?

_____ about the charges for _____.

_____ provide data about operating _____ for _____.

_____ it possible to _____ expenses _____ conditioning units?

I want to know _____ of _____ conditioners.

Is there a way _____ the costs _____ aircons.

_____ much it _____ cost _____ run _____ ACs _____ standard _____?

_____ tell _____ the _____ of _____ units that are _____.

I want _____ an energy efficient AC costs _____ run _____ regular _____.

_____ are the costs _____ with _____ an energy-saving _____?

How are _____ costs compared to _____ models?

_____ it _____ to compare _____ conditioner _____?

Looking for details on _____ costs of _____.

_____ you _____ details _____ the operational _____ for _____ ACs?

_____ insight _____ the operational costs _____ air conditioning systems?

What _____ difference _____ operating expenses _____ efficient _____ and _____ ones?

_____ there a _____ of _____ expenses between _____ conditioning units and environmentally friendly _____?

Are _____ to compare the _____ of _____ air _____ and standard _____?

Do _____ any _____ about _____ of energy efficient _____ conditioners and _____?

_____ energy _____ air conditioner costs _____ to _____ ones?

_____ to _____ how much _____ ACs cost to run, _____ ones.

What _____ the _____ operation costs _____ and regular air _____?

I _____ to know _____ it _____ AC units.

_____ would like to _____ the costs _____ AC units when compared _____.

Can you _____ energy-friendly AC _____?

_____ it true that power-saving AC _____ come with _____ than _____?

How _____ energy efficient AC _____?

_____ we compare the energy _____ units?

_____ tell me what _____ of the _____ units _____ compared _____ breathin' coolers?

_____ a comparison _____ electricity _____ operational _____ between air conditioning units that _____ green and _____?

_____ to compare the _____ of efficient and _____ air _____.

_____ provide information _____ operating expenses _____ AC units.

I would like _____ know how much _____ environmental friendly _____.

Please show me _____ comparative running costs _____ vs _____.

_____ do _____ conditioner operating costs _____ from _____?

What _____ the _____ for _____ ACs _____ traditional ones?

Is _____ a way to compare _____ other _____ traditional _____ eco-friendly air _____.

_____ me _____ operational charges for _____ ACs?

_____ the _____ energy-saving AC _____ to these basic junks?

_____ conditioners less _____ run than standard units?

_____ compare electricity _____ other operating expenses _____ traditional air conditioning _____ and _____ friendly _____?

What _____ the difference in operating _____ normal and _____?

_____ it _____ give _____ information _____ the _____ costs of energy efficient _____?

How does _____ cost _____ operating _____ air _____ compare to _____?

_____ detail _____ expenses of _____ AC _____ to regular models.

Do _____ cost less to _____ normal units?

Looking _____ the operating costs of _____ eco-friendly _____.

I _____ the expenditures for _____ AC _____ to standard options.

_____ would like to know what _____ expenses _____ associated _____ using _____.

_____ on _____ versus _____ AC operation _____.

_____ it possible to _____ AC expenses for _____?

What _____ the _____ air _____ compared to conventional alternatives?

_____ give me _____ comparative running _____ when _____ an eco-conscious _____ Conditioning.

Tell _____ the _____ of _____ AC.

_____ on _____ traditional AC _____ costs.

Can _____ tell _____ about the _____ associated _____ energy-efficient air _____?

I want to know _____ a breakdown of _____ ACs _____ to _____.

How _____ conditioner operating costs _____ models.

_____ about operational expenses when _____ units _____ traditional _____ what we _____ like.

_____ the _____ operating _____ of energy-saving air conditioners.

Is there any information _____ costs?

_____ about _____ when using _____ versus traditional alternatives _____ be helpful.

What is the _____ AC _____ normal ones?

Will power-saving AC units _____ lower _____ options?

Does _____ air _____ cost _____ operate?

Do you have a _____ expenses _____ conditioners?

_____ you tell _____ the _____ of _____ units are _____ compared _____ breathin' coolers?

What do the operating _____ units _____ like?

_____ can you _____ us _____ the _____ associated with _____ conditioners?

_____ energy _____ air conditioners _____ run _____ standard units?

_____ for _____ operating costs of _____ eco-friendly AC _____.

I want _____ operational charges _____ eco-friendly ACs.

informative _____ pertaining to operational _____ AC units

Is _____ compare the _____ of _____ and efficient air _____.

Can _____ tell _____ operating _____ of _____ eco-AC units compared to _____ breathin' _____?

Do you _____ a breakdown _____ for energy-saving _____?

Do you _____ data _____ operating costs of _____ air _____?

_____ data comparing operating _____ of _____ conditioners _____ standard units?

_____ to know about _____ AHU expenditure _____ ones.

_____ it _____ to give details on _____ efficient _____ operating _____ compared _____?

Please give me _____ expenses _____ ACs compared _____ standard ones, _____.

Do power-saving _____ come with _____ than _____ options?

_____ provide _____ with information regarding _____ comparative _____ using _____ eco-conscious _____ conditioning system.

I _____ a breakdown _____ for _____ ACs, _____ to _____ ones.

Please _____ the _____ of high efficiency A/Cs _____ ordinary _____.

_____ much _____ an _____ air conditioner than a standard one?

_____ you know _____ expenses for energy-saving ACs compared to _____?

I would _____ to know _____ it costs to _____ unit _____ compared to other _____.

Can _____ tell _____ of the _____ units compared to _____ normal breathin' _____?

Is _____ information _____ the _____ costs associated _____ energy-efficient _____ conditioners?

Is it _____ to give insight _____ the _____ efficient air _____.

How much _____ it cost _____ efficient air _____ models?

I would _____ to know how _____ costs to operate _____ to standard _____.

_____ the _____ of high-efficiency A/Cs vs ordinary _____.

Do you _____ insight into the _____ efficient air _____?

Is _____ possible that _____ units _____ lower _____ costs _____ regular options?

I _____ to know how much _____ energy-efficient _____.

_____ about operating costs _____ A/Cs.

_____ would like to know _____ it _____ to run _____ AC _____ that _____ green when _____ to _____.

_____ compare _____ efficient and regular aircons?

_____ know _____ of _____ AC units in comparison _____ regular models.

Is _____ information _____ efficient _____ operating _____ compared to _____ models?

_____ possible to _____ energy _____ air conditioner's running expenses?

_____ want _____ if there _____ any figures or _____ comparing electricity _____ other _____ between traditional and green _____.

_____ operating costs _____ conditioners be _____ to regular models?

We _____ know _____ comparative _____ costs of _____ A/Cs _____ ordinary _____.

_____ you give us _____ about _____ costs _____ efficient _____ conditioners?

Is _____ to compare electricity and _____ between _____ conditioning units _____ green _____?

_____ eco-friendly _____ expenses _____ regular units?

Data concerning _____ overheads of energy-saving _____.

_____ regarding operating overheads of _____ as opposed _____ traditional _____ power-saving _____ come _____ operational costs?

Explain the operating expenses of energy-saving AC _____.

_____ about the _____ expenses of the _____ eco-AC units?

Looking _____ information _____ of eco-friendly AC models.

_____ you have _____ operational costs of energy-_____ conditioning systems?

I want to _____ comparative _____ A/Cs vs _____ models.

How much do _____ ones?

Is it _____ the _____ for _____ vs regular ones?

_____ are _____ expenses for _____ AC _____?

What is the _____ difference _____ standard _____ models _____ models?

_____ information _____ comparative running expenditures incurred when using _____ eco-conscious air _____.

I _____ know how _____ it _____ for efficient AC _____ versus _____.

Please explain _____ costs _____ high efficiency _____ vs _____.

Do _____ know _____ the cost _____ eco-friendly _____ is?

Please _____ the details _____ expenses of _____ AC _____.

_____ you look _____ the _____ of _____ and regular _____?

What's the _____ efficient air _____ operating _____ and _____ one?

Please give details _____ the _____ of _____ AC _____.

_____ tell _____ the _____ overheads of _____ conditioners as _____ to traditional _____.

Is there _____ information _____ operating _____ of energy-efficient _____ conditioners _____ to _____?

What are _____ for _____ to traditional ones?

_____ to _____ there _____ figures or estimates for _____ electricity and _____ expenses between traditional and _____ air _____.

We _____ like _____ know _____ expenses _____ with efficient _____ units.

Please _____ me _____ comparative running _____ using _____ Air Conditioning.

_____ compare _____ of efficient and regular _____ conditioners?

_____ do _____ AC costs compare _____ regular _____?

_____ me about the expenses for efficient _____ vs _____?

Is it _____ to _____ operational _____ between _____ and environmentally friendly _____ conditioning _____?

_____ do the _____ air conditioner differ from _____?

What _____ difference _____ expenses _____ efficient and _____ air conditioners?

_____ with _____ air conditioning systems, _____ have any _____ of _____ costs?

_____ you know what _____ of eco-AC _____ are compared _____ normal _____?

_____ in _____ operating _____ efficient and normal air conditioners?

Can you _____ expenses _____ conditioners?

Please compare efficient _____

_____ eco-friendly _____ expenditures compare _____ units?

_____ possible _____ find _____ how _____ green _____ Conditioners cost versus regular _____?

_____ would like _____ know the _____ operation for _____ that are _____ to _____.

_____ to standard options, I would _____ how _____ the environmental _____ AC _____.

Data on _____ versus _____ AC _____ be _____.

_____ about operating overheads of _____ opposed to _____ units.

Is _____ any insight into _____ associated with _____ air _____?

I want to _____ charges for _____ ACs.

Please compare the _____ conditioning

What's _____ in running _____ modern and _____ AC _____?

_____ would _____ know how _____ would _____ a _____ unit when compared to standard options.

_____ energy-_____ traditional AC costs.

_____ you tell me _____ the operating _____ for _____?

Information _____ using _____ units versus traditional alternatives would be _____.

_____ the operating expenses _____ energy-saving AC units.

_____ like to know _____ about _____ energy _____ AC _____ compared to the _____.

Please _____ pertaining to _____ running expenditures incurred _____ using an eco-conscious _____.

_____ you _____ the expenses for _____?

Is there a _____ in air _____ and _____ models?

Looking for _____ about _____ costs _____ AC

How _____ costs compare _____ models?

Please give _____ the comparative _____ were _____ eco-conscious Air Conditioning.

Are _____ us about _____ operating costs _____ energy _____ air conditioners compared _____ standard _____?

_____ possible to _____ information on the _____ air conditioners compared to _____?

_____ can compare _____ operating costs of _____ aircons.

I _____ there were _____ figures _____ for _____ electricity _____ other operational _____ between traditional and eco-friendly air _____.

_____ a _____ in _____ costs _____ units and regular options?

Are you able to _____ operating _____ of energy efficient _____.

Is _____ expenditures _____ to regular _____?

_____ much _____ eco-friendly ACs _____ traditional _____?

Looking for _____ the _____ costs of _____ AC.

_____ like to _____ how much _____ operate a green AC _____ compared to standard _____.

_____ to compare the _____ of _____ air conditioners _____ standard units?

Are you _____ on the _____ for _____ ACs?

I need _____ know _____ much _____ efficient _____ costs _____ regular ones.

_____ friendly aircon expenditures compare _____ units?

Please _____ information on the _____ air conditioners.

Any _____ on the cost _____?

A comparison _____ for _____ AC _____

_____ much will it _____ to _____?

_____ any data on the _____ costs _____ energy _____ air _____?

_____ do energy- saving _____ costs _____ up against _____?

I _____ to know how _____ they _____ cost _____ run.

_____ there details _____ energy-efficient AC _____ compared to _____ standard _____?

Information _____ AC _____ could be _____.

Please _____ running _____ A/Cs vs ordinary models.

_____ you _____ information _____ the costs of _____ air _____?

Please _____ me _____ information on the _____ expenditures _____ using an _____ Air _____.

How _____ does _____ cost _____ eco-friendly air conditioners _____?

I need to understand _____ high efficiency A/Cs vs _____.

Are you able _____ compare the _____ energy-efficient _____ conditioners _____?

_____ to _____ the electricity and other operational _____ of _____ conditioning units that _____ or _____?

Is it possible to _____ out _____ air _____?

Details are _____ on _____ efficient A/Cs

Is _____ a _____ to compare _____ operating _____ to standard _____?

Is it possible _____ expenses _____ ACs _____ regular _____?

_____ have _____ idea _____ of air conditioning _____ that _____ more efficient?

Is it possible to compare _____ operational expenses _____ and eco- _____?

Is it _____ compare _____ costs of _____ and _____ operational expenses between traditional _____ environmentally friendly _____?

I want to _____ about the _____ expenses _____ compared _____ breathin' coolers.

_____ the _____ expenses of energy-saving AC units.

Do ____ have the ____ to compare ____ of ____ and ____ units?

Can ____ me ____ operating ____ of ____ units compared ____ normal ____ coolers?

Is there any figures or estimates ____ electricity ____ other ____ between ____ conditioning ____ and ____?

____ do energy saving AC ____ up ____ regular ____?

Is ____ possible to ____ operational costs of ____?

____ the ____ of energy-friendly ____.

What are the energy ____ operating costs ____ standard ____?

____ about energy efficient air ____?

Is there any ____ on the ____ conditioners?

Tell ____ about Energy-friendly ____?

____ air conditioners ____ less energy cost less ____?

____ us ____ of energy-saving AC ____ in comparison to regular ____.

____ you compare the operating costs ____ efficient ____?

When compared to standard ____ I ____ to ____ how ____ the ____.

When compared ____ I ____ like ____ know how much ____ units ____.

Are ____ compare operating costs of energy-efficient ____ conditioners ____?

____ information on operating ____ energy efficient air conditioners.

____ are the differences ____ running ____ and regular AC ____?

____ to ____ how much an energy-efficient ____ costs ____.

____ are ____ AC operating ____?

____ air conditioners cost less ____ run ____ standard ____?

____ way ____ compare operating costs of efficient ____ regular ____?

____ have any ____ the operational costs ____ air conditioning ____?

____ much ____ it ____ use the ____ air conditioner?

____ for ____ the ____ eco-friendly AC models.

Any information on the ____?

____ about running expenses for ____ is ____.

____ operating costs ____ with ____ A/Cs.

Is ____ any ____ on ____ costs ____ energy- efficient ____ conditioners.

____ appreciate ____ for energy-saving ACs compared to standard ones.

Do ____ any information ____ air conditioner's running ____?

____ the operating ____ of energy-saving air ____.

Mention the ____ expenses ____ energy-saving AC units in ____.

____ the difference between ____ and regular ____ units?

What do ____ for ____ units ____ like?

Can you tell ____ about ____ operating expenses of ____ normal breathin' ____?

Is it possible to tell ____ how much ____ an ____?

____ there an ____ for eco-friendly ____ traditional ones?

How ____ do ____ it will cost ____ run ____ AC?

Please tell ____ about ____ running expenditures ____ an eco-conscious Air ____.

____ would like ____ the environmental friendly ____ when ____ with standard options.

Please ____ us about ____ of AC units ____ regular models.

Looking for ____ regarding the ____ eco-friendly AC.

____ me ____ can give me a breakdown ____ expenses ____ energy-saving ____.

I ____ like to ____ much ____ AC ____ cost ____ standard options.

Where does energy-saving ____ stack ____ against ____?

____ information about operational expenses when ____ units.

____ the ____ expenses ____ units compared to ____ breathin' coolers?

How ____ is ____ to operate ____ eco-friendly ____ unit?

Please ____ with ____ about comparative ____ expenditures ____ using an ____ Air ____.

_____ there a difference in operating _____ between regular _____ ?

Please give the _____ operating _____ energy-saving _____ conditioners.

_____ you tell me _____ the expenses _____ versus _____ ones?

I _____ know how much it _____ run _____ versus _____ units.

_____ would like _____ costs of green _____ when _____ to standard _____.

I _____ to _____ how _____ an _____ AC _____ run versus _____ ones.

_____ does energy-saving _____ costs _____ to _____ ?

_____ are associated _____ eco-friendly air _____ ?

_____ the _____ compare _____ of energy efficient air conditioners _____ standard units?

_____ it _____ compare _____ other operational expenses of _____ conditioning units _____ are green _____ that _____ traditional?

_____ conditioners cost less to _____ than _____ units?

I'm _____ in the running _____ high-efficiency A/Cs _____.

_____ give us _____ on _____ of energy-saving air _____.

Is _____ on the costs _____ energy-efficient air _____ standard models?

_____ on the energy _____ air conditioner's _____ costs?

_____ need a breakdown _____ expenses _____ energy-saving _____ to standard ones.

_____ you tell me _____ the _____ costs of _____ AC units _____ to the _____ ?

_____ you point _____ efficient ACs?

Is there any _____ for efficient _____ vs _____ ?

Are you _____ how much _____ costs _____ run eco-friendly _____ ?

_____ there _____ operating cost _____ units?

_____ you _____ about the operating costs of energy-efficient air _____ ?

_____ you give _____ a _____ of _____ costs _____ energy-saving _____ standard ones?

I _____ to _____ you _____ on the _____ AC units.

Is it _____ on expenses for _____ AC?

I need _____ much the energy _____ ACs _____ run.

_____ looking for _____ about the operating _____ eco-friendly _____.

_____ with efficient _____ regular A/Cs _____.

How _____ comparing _____ costs of _____ aircons?

_____ it _____ give information _____ costs of _____ efficient _____ conditioners compared to _____ ?

How _____ for _____ AC units cost?

_____ me with the comparative running _____ when _____ Conditioning.

Looking _____ information _____ the _____ costs of _____ AC.

Can you tell _____ about the _____ costs?

Can _____ about the operating costs _____ energy _____ air _____ ?

What operational costs _____ units?

We want _____ know _____ when _____ efficient AC units.

Inquire about the _____ of _____.

_____ you _____ about the energy efficient air _____ running _____ ?

_____ about operating _____ of energy-efficient _____ standard models?

What is _____ of _____ conditioning?

Does energy-saving air _____ to use than _____ ?

Is _____ way _____ compare _____ costs of _____ air conditioners _____ standard units?

_____ much _____ eco-friendly air _____ cost?

Please _____ data about _____ costs of energy-saving _____.

_____ like to _____ the _____ expenses when using _____ units.

Do you _____ what _____ operating expenses _____ the _____ units _____ compared _____ normal _____ ?

_____ some info on _____ cost _____ eco-friendly _____ conditioners.

_____ possible to _____ operational expenses of _____ conditioners

Data on energy efficient _____ can be _____.

I _____ know _____ much _____ would cost _____ operate a _____ AC unit _____ standard options.
 _____ information _____ of _____ air conditioners as opposed _____ units.
 Information _____ costs of _____ AC.
 How _____ green _____ expenditures _____ units?
 _____ a _____ running _____ for energy-saving ACs compared _____ one.
 _____ saving _____ conditioners cost less _____?
 Do _____ the comparative running costs _____ and ordinary _____?
 _____ me know how _____ it _____ eco-friendly ACs.
 _____ to provide details on _____ AC _____ costs.
 I'm looking for details _____ operating costs _____.
 _____ is _____ cost difference _____ that are _____ and _____ ones?
 Does the cost _____ energy-saving _____ standard units?
 Do you have data _____ the _____ air _____ and standard _____?
 Do _____ know _____ about the operational _____ of air _____ that _____?
 _____ tell me _____ running _____ when using an eco-conscious Air _____.
 _____ you _____ about the _____ expenses _____ the eco- _____?
 How much _____ an _____ cost?
 _____ me know about _____ operational charges _____.
 _____ tell _____ operating _____ of energy-efficient air conditioners?
 Can you tell _____ costs to run _____?
 How much _____ it cheaper _____ an energy _____ conditioning _____?
 _____ want to _____ of _____ for _____ compared to standard ones.
 How _____ conditioning _____ compare _____ regular _____?
 _____ describe _____ for efficient ACs?
 Is _____ possible _____ information _____ the costs _____ air _____ compared _____ standard _____?
 I _____ to _____ how much _____ would _____ to _____ AC unit when compared to _____.
 Is _____ possible _____ and other operational _____ between traditional air _____ and _____ units?
 Looking _____ details _____ operating _____ of _____ AC models.
 Is _____ compare electricity and _____ operational _____ air conditioning units and _____ ones?
 Do you _____ any _____ the operating _____ energy-efficient _____ conditioners?
 Does _____ aircon expenditures _____ regular _____?
 _____ like _____ more about operational _____ when _____ efficient AC _____.
 Information is _____ regarding operating _____ efficient _____
 _____ have any _____ costs of _____ conditioning _____ are more efficient?
 _____ me _____ the comparative running expenditures incurred while using _____.
 Details _____ operating costs _____ with _____
 We need _____ know the _____ expenses _____ AC units compared _____.
 _____ do _____ air conditioner _____ from regular models?
 How _____ would _____ run eco-friendly _____ to standard units?
 How much _____ cost to run _____ air _____?
 Is _____ a _____ compare _____ other operational expenses between a traditional _____ unit _____ unit?
 I _____ to _____ operating _____ of eco-friendly _____ regular models.
 Running _____ energy-saving ACs compared _____ ones, _____?
 _____ energy efficient _____ operating _____ to the standard models.
 How much _____ cost _____ energy-efficient air conditioner?
 Are there operational _____ for eco-friendly _____ traditional _____?
 _____ eco-friendly _____ how much _____ cost?
 How do energy-saving AC _____?
 _____ you tell _____ the operating _____ energy- efficient _____ conditioners compared to _____?
 _____ about the cost _____ air _____.

What _____ difference for _____ standard AC models?
_____ on the _____ expenditures _____ while using _____ air conditioning system.
_____ would _____ to _____ the _____ of eco-friendly _____ conditioners.
_____ do air conditioning _____ costs _____ regular _____?
Can you tell _____ for efficient _____ and _____?
_____ have _____ of the operating costs associated with _____ conditioners?
_____ you have the _____ compare _____ costs _____ regular aircons?
_____ have any insight _____ the operating _____ with _____ efficient _____ conditioners?
You _____ be _____ to _____ breakdown of running expenses for _____ compared _____ ones.
_____ provide information concerning operating overheads _____.
I'm in _____ about _____ expenditures _____ while using an eco-conscious _____.
_____ you _____ me a breakdown _____ energy-saving ACs compared _____ standard _____?
Can you tell us _____ it would _____ to _____?
_____ aircon expenditures _____ units
_____ possible to share details _____ efficient _____ operating _____?
I _____ operational charges for _____ ACs.
_____ talk _____ for efficient _____ vs regular ones?
_____ compare the operating _____ of aircons.
_____ to compare electricity and _____ between _____ and eco-friendly air conditioning _____?
_____ like to _____ how _____ units cost _____ compared to the standard _____.
Is _____ possible _____ operating _____ of energy _____ air conditioners _____ standard _____?
