

[Demo] NLP Dataset for Customer Service Automation

Company Type	Online Banks and FinTech Companies
Inquiry Category	Password and login problems
Inquiry Sub-Category	Multifactor Authentication
Description	This category involves customer queries related to setting up, troubleshooting, or managing multifactor authentication methods, such as SMS codes, biometric authentication, or hardware tokens.
Data Size	7,833 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Online Bank and FinTech Company" customer inquiry. (Purchased data will not be masked.)

____ multiple ____ share ____ ____ ____ of hardware tokens for ____ accounts?
 Is a single array of hardware ____ ____ ____ ____ ?
 ____ users, one ____ token set ____ ?
 Can ____ people share ____ group ____ ____ token across ____ ____ efficiently?
 ____ lots of ____ have access to ____ ____ ____ hardware token?
 ____ users have the same hardware ____ ____ ____ ?
 ____ ____ ____ for multiple user ____ ?
 ____ ____ ____ set ____ ____ ____ good for many account holders?
 ____ ____ possible ____ several ____ to ____ ____ same ____ ____ for access to their accounts?
 ____ you support ____ ____ pool of hardware ____ between ____ ____ holders?
 Is it possible for multiple ____ ____ to have ____ ____ ____ ?
 Can many people ____ ____ ____ using ____ same ____ token?
 ____ it ____ for all of ____ ____ ____ ____ hardware token for their ____ ?
 Can multiple people ____ ____ ____ set ____ hardware ____ ?
 ____ sharing ____ ____ among accounts ____ ?
 Can multiple ____ ____ ____ unified set ____ hardware ____ ?
 ____ ____ ____ use one hardware ____ for everyone?
 Is ____ possible ____ ____ ____ to ____ the ____ hardware tokens?
 ____ several ____ have the same ____ ____ for ____ accounts?
 Do ____ ____ have ____ ____ to use the same ____ ____ physical ____ ____ accounts?
 Do a lot ____ ____ have ____ ____ a shared set of ____ ____ ____ ?
 ____ ____ ____ token allowed ____ multiple ____ accounts?
 Multiple ____ ____ ____ token set, is it ____ ____ not?
 ____ you believe ____ pool ____ ____ ____ should ____ shared among ____ holders?
 ____ ____ ____ possible ____ multiple users to ____ the same ____ token?
 ____ users ____ ____ ____ token set is feasible, ____ not?
 ____ ____ people use the ____ hardware token ____ ____ accounts?
 Is ____ possible to have ____ ____ ____ ____ token for multiple ____ accounts?

multiple _____ hardware token _____?

_____ a shared hardware token for _____ accounts.

_____ users _____ same hardware token for their _____?

_____ token _____ shared _____ user accounts.

_____ it possible for _____ have the _____ token?

_____ multiple account _____ share a pool of _____ tokens?

Will _____ be able to _____ the _____ hardware _____ sets to _____?

_____ can _____ use the _____ physical security token.

_____ a _____ to share a _____ token _____ accounts?

One common set of _____ be used _____.

Is multiple _____ accounts _____ shared _____?

_____ have _____ option to _____ set of hardware _____ their _____?

Is it _____ for _____ to _____ the same _____ hardware token _____?

Can _____ use one _____ of _____ for all of _____?

Is _____ for multiple _____ to _____ hardware _____ their accounts?

_____ possible for a _____ to be used _____ multiple user _____?

Can _____ use _____ same hardware token _____ all _____?

_____ several accounts able to _____ the _____ token?

Is _____ allowed _____ to have the same _____?

_____ users might _____ shared _____ token

_____ hardware token _____ feasible or not?

_____ can _____ multiple user _____ the same hardware _____.

Will _____ to use _____ hardware token for _____ users?

_____ number of users have access _____ shared _____ hardware _____ token?

_____ share a _____ group of hardware _____ each other?

_____ possible to _____ one set of _____ keys _____ users?

Can _____ users use _____ set _____ hardware _____?

Do many _____ to a shared set _____?

Is _____ provision _____ one _____ between _____ user accounts?

_____ it _____ individuals _____ the same hardware token _____ their accounts?

Is _____ users to share _____ same hardware _____?

Is it possible _____ several user profiles to use _____ same _____?

_____ it possible to share _____ across _____ user _____?

Do _____ users _____ the option _____ sharing one _____ token?

_____ possible that _____ individuals _____ the same _____ token?

_____ more than one person _____ hardware _____ for all _____?

Is it _____ one set of _____ token?

_____ have separate _____ are they _____ to use a _____ together?

Is it possible _____ can _____ shared _____ multiple people for _____?

Can _____ a set _____ to _____ accounts on your platform?

Are _____ user _____ to _____ hardware token _____ the same way?

_____ a _____ set of _____ holders to access the same _____?

_____ hardware _____ set is viable or _____?

Do several _____ have _____ ability _____ a set of _____?

_____ we have _____ set of hardware _____ for _____?

Is _____ multiple _____ to _____ a _____ token for their accounts?

One _____ credentials can _____ used _____ multiple individuals _____ access _____.

_____ there _____ for _____ account holders to use _____ hardware _____?

_____ you mean _____ a set _____ hardware token _____ accounts?

Can several users _____ hardware _____ the same time?

_____ possible _____ multiple individuals to _____ with _____ set of _____ credentials?

_____ anyone use _____ set of hardware _____ all their _____?

Hardware _____ shared between _____ user _____.

_____ users _____ the option of sharing _____ their accounts?

_____ token _____ among multiple _____ accounts can _____.

_____ way _____ of hardware token between different users?

_____ some _____ able to access _____ using shared _____ sets?

Can several _____ share _____ same group _____ across their _____?

Is it _____ have shared hardware tokens?

Several _____ use the _____ hardware _____ their accounts.

_____ different _____ use _____ common set _____ hardware _____ to _____ accounts?

_____ possible to have multiple _____ set _____ credentials to access their _____?

_____ possible _____ one set _____ hardware token across their accounts?

Is _____ permissible _____ share _____ of _____ token _____ several accounts?

_____ of _____ can be used _____ multiple users.

_____ it possible _____ few _____ accounts _____ use the _____ security token?

Is it _____ for multiple _____ to have _____ set _____?

Is it _____ for _____ set of hardware token?

Is _____ possible _____ one _____ of hardware _____ multiple accounts?

Is _____ for multiple _____ to access _____ hardware token?

Can _____ simultaneously _____ a _____ token?

Do _____ right to _____ a common group _____ hardware _____?

_____ it _____ user accounts can use _____ same hardware _____?

What do _____ think about sharing _____ among account _____?

_____ there a possibility for _____ to use _____ same _____?

Is it possible _____ multiple _____ to _____ token?

Is _____ a _____ share one hardware _____ between _____?

_____ acceptable for _____ user _____ to _____ hardware token?

Should _____ holders _____ use the same hardware _____?

_____ the ability to _____ a set of _____ across _____ accounts

Is _____ multiple _____ accounts to use _____ same hardware _____?

_____ it cool to _____ token amongst _____ users on a _____?

_____ okay _____ share _____ group of _____ among different accounts?

_____ there _____ multiple users to access _____ accounts _____ the same _____?

Can _____ use _____ hardware token

_____ it _____ to _____ hardware token with other _____?

Multiple users may _____ able to _____ set _____ token.

Do _____ of _____ have _____ same hardware token?

_____ possible to have more than _____ individual _____ a _____ of _____?

Is it permissible _____ users _____ a _____ hardware token?

_____ user accounts to _____ the same set of hardware _____.

Is it _____ hardware token can _____ shared _____ several _____?

Multiple account holders _____ hardware token would _____.

_____ possible for Multiple _____ to _____ same hardware _____?

_____ there _____ way to share _____ set _____ hardware _____ between _____ accounts?

_____ they _____ of hardware _____ for their accounts?

_____ it possible _____ have _____ individuals using _____ token _____ their accounts?

_____ about using one set _____ hardware _____ multiple _____.

_____ it possible _____ multiple _____ the same _____ of hardware _____?

Is it _____ for several _____ of hardware token?

Is _____ to be shared by several people?

_____ users use the _____ hardware _____?

_____ it _____ hardware token to _____ shared _____ schmucks for _____ accounts?

Do _____ agree _____ multiple _____ share a _____ of hardware _____?

Several individuals might be _____ hardware token.

Multiple _____ one _____ set?

Would multiple account _____ be _____ the _____ Hardware _____?

Do _____ users _____ ability to _____ the same _____ physical token _____ accounts?

Are several user _____ capable of _____ the _____ physical _____?

_____ possible _____ multiple user accounts to have _____?

_____ it possible _____ some _____ use the _____ hardware _____?

Will _____ users be allowed _____ same _____ sets?

Common hardware _____ for _____ user _____?

Do _____ have _____ same hardware token for _____.

_____ possible _____ share _____ single set of hardware token?

Is it _____ to have more _____ one individual _____ of _____?

You can _____ hardware _____ for several _____ accounts.

_____ it possible _____ have a _____ token for multiple _____.

Is it _____ multiple users to _____ their accounts _____ the _____ hardware _____?

_____ use one _____ of hardware token for _____ of _____?

_____ possible _____ users to share one _____ hardware _____ across accounts?

_____ a _____ of _____ shared _____ accounts?

_____ it possible for _____ users _____ use _____ single _____ of _____ token _____?

_____ it _____ to _____ a common _____ hardware token _____ users?

_____ have _____ ability to _____ a single _____ token _____ their accounts.

Would _____ account _____ able to use _____ hardware _____?

_____ people use the _____ token?

_____ multiple user _____ able _____ the _____ across their devices?

A group _____ users _____ use the _____.

_____ there a _____ to _____ hardware _____ between _____ accounts?

Can _____ hardware _____ be _____ multiple _____?

Can _____ be more than _____ user _____ accounts _____ a _____ hardware token?

_____ account _____ be _____ use the shared _____ token?

_____ it _____ for different _____ to _____ same hardware Tokens?

_____ users access _____ using _____ same hardware token?

Is it okay to _____ a common _____ hardware _____?

Can we _____ one _____ people?

_____ hardware token _____ user _____?

Many people have separate _____ allowed _____ token together?

Is _____ way to have multiple individuals using _____ of _____?

Is _____ individuals _____ share a _____ of hardware token?

_____ users could _____ the _____ token.

_____ users _____ ability _____ share a _____ set of hardware _____?

_____ token set is _____ users.

Do several _____ the ability to share a _____ their _____?

_____ share _____ compatible hardware token?

Do a number _____ have _____ to _____ hardware token?

Do users have _____ share _____ set of _____ token?

Is it possible to share _____ user accounts?

Does a set _____ hardware token allow _____ people _____?

_____ several _____ a single set _____ hardware _____ their accounts?
 Is it _____ for _____ have the _____ hardware _____ accessing _____ accounts?
 _____ may be _____ to _____ the same _____ for their _____.
 Is it _____ to _____ among _____ user accounts?
 Are multiple individuals capable of _____?
 Is _____ possible for _____ the same _____ access to their accounts?
 _____ you think _____ sharing _____ token _____ multiple account _____ a _____ idea?
 _____ sharing _____ group of _____ token permissible _____ accounts?
 Is _____ for multiple _____ to have _____ hardware _____?
 _____ possible _____ people _____ user accounts to have _____ same _____ token?
 _____ many individuals who _____ to use a _____ hardware _____?
 Can anyone share a _____ across their accounts _____?
 _____ possible for multiple users _____ use _____ hardware token _____ their accounts _____?
 Is _____ for several _____ to _____ hardware _____ to access _____ accounts?
 _____ be _____ to use _____ single _____ of hardware token _____ their _____.
 Is it _____ to _____ accounts _____ shared hardware _____.
 _____ ok to share a _____ of _____ token among _____?
 Can some _____ group of hardware token _____ accounts?
 Is _____ multiple _____ the same hardware token for their _____?
 Is _____ user accounts to _____ common group _____ hardware token?
 Can _____ person use the _____ set _____ hardware token _____ their _____?
 One hardware _____ set _____ is feasible _____ not.
 _____ it _____ for people _____ use _____ batches _____ ID _____ for _____ their accounts?
 Is _____ multiple _____ accounts to _____ shared _____ token?
 _____ it _____ several users to _____ same _____ token for _____ accounts?
 Is _____ that _____ users _____ the same _____ hardware token?
 _____ for _____ to _____ unified set of hardware token?
 _____ for some users _____ a _____ array of hardware _____?
 Hardware token _____ multiple _____ questionable.
 Are _____ hardware token _____ multiple _____?
 Does _____ shared set _____ hardware _____ allow _____ their accounts?
 _____ a single _____ of hardware _____ all their accounts?
 _____ people _____ the _____ hardware token _____ accounts?
 _____ there a way to _____ across _____ accounts.
 _____ users _____ use _____ set of _____ token for _____.
 Can different users _____ token to _____ to _____ account?
 _____ set _____ physical credentials _____ be used _____ multiple _____ access _____ accounts.
 Can more than _____ use a _____ array _____ token _____ accounts?
 _____ permissible _____ user account to _____ a _____ of hardware token?
 _____ should be provisions _____ token _____ user accounts.
 _____ possible to _____ multiple _____ the same _____ credentials _____ their accounts?
 Is it possible for multiple _____ to have _____ same _____?
 _____ to use _____ same amount _____ physical token _____ their accounts?
 Can the hardware _____ several _____ for _____ accounts?
 Is it _____ to _____ a _____ of _____ with _____ accounts?
 Hardware _____ allowed _____ accounts?
 Is shared _____ to _____ multiple user accounts?
 Multiple users can use _____ shared hardware _____.
 _____ a _____ allow _____ individual account holders _____ access the same _____?
 Can different users _____ same set of _____ token to _____ platform?

Is it _____ to _____ single hardware token?
 _____ several people share _____ of hardware _____ across their _____?
 _____ multiple account holders to _____ the same _____ token?
 Is there _____ way _____ several user _____ the _____ hardware token for _____?
 Will several _____ use _____ same _____?
 Is _____ possible for _____ single _____ of _____ be used _____ people?
 Is _____ for a _____ set _____ to _____ used by many _____?
 _____ you _____ favor _____ pool of hardware _____ multiple account holders?
 Is it possible _____ have the _____ hardware token _____ accounts?
 Are different _____ allowed _____ hardware token in _____ accounts?
 Is _____ for several users to _____ same _____ concurrently?
 Many account _____ may be able to access their _____ token.
 Can _____ people use a _____ token simultaneously?
 _____ multiple _____ the same hardware _____ multiple accounts?
 Is it possible for _____ people _____ for their _____ the _____ time?
 _____ it possible that _____ shared between several _____?
 Can we _____ unified set _____ token to _____?
 _____ the same hardware _____ to _____ their account?
 Hardware _____ can be shared among _____ user _____.
 Is it possible _____ different _____ the same _____ their accounts?
 Is it _____ to _____ set of _____ token for _____
 _____ for several _____ is _____?
 How _____ would be able to _____ same hardware _____?
 Is it _____ share a group _____ hardware _____ various _____?
 Can _____ share a _____ token _____ their _____ efficiently?
 _____ several user _____ use _____ same _____ token?
 _____ many _____ have access _____ a _____ set of hardware _____?
 Hardware token _____ be _____ multiple _____
 Is _____ users to _____ a single _____ of hardware token?
 _____ have the _____ to share _____ hardware token _____ their accounts
 Can _____ group of hardware token?
 Is it _____ to _____ accounts using the _____ hardware _____?
 _____ token for _____ accounts is _____?
 _____ several people _____ a single set _____ hardware _____ at the same _____?
 Is it _____ multiple _____ to utilize _____ set of _____?
 Can _____ use _____ for multiple _____?
 Are _____ to use the same _____?
 Is it possible _____ people _____ single set _____ physical security _____?
 Do many _____ ability to _____ hardware token?
 Is _____ provision to _____ hardware token between _____?
 _____ the sharing _____ common pool of hardware _____ among _____ holders?
 _____ users _____ able _____ one _____ of hardware token for _____?
 Can we _____ one _____ of _____ for multiple _____?
 _____ possible for several _____ share the _____ hardware _____?
 Are there _____ the same physical security token?
 Can we use _____ single hardware _____
 Can _____ among multiple _____ at once?
 Hardware token _____ multiple _____ is _____.
 Can different _____ using a common _____ of hardware _____?
 _____ a _____ set _____ allow all account holders _____ access _____ accounts?

Is it ____ for ____ users ____ the ____ hardware ____ their ____ concurrently?
 ____ to have ____ one ____ of physical credentials to access ____ accounts?
 ____ possible to have ____ the same set ____ hardware ____?
 ____ some users share the ____?
 ____ a ____ be shared with ____ accounts?
 ____ set of ____ token allow ____ account holders ____ access ____ same ____?
 Can ____ hardware token ____ between ____ user ____?
 Is ____ possible that hardware ____ could ____ by several ____ for ____?
 Can the ____ shared by ____ schmucks be ____ for ____?
 ____ there ____ pool of hardware token ____ among account holders?
 Multiple users ____ same hardware ____ for ____ accounts.
 Is ____ possible for ____ hardware token ____ be ____ different ____ accounts?
 Can more ____ one ____ access ____ using the ____ hardware ____?
 Can multiple people use ____ same ____ all ____?
 Is there ____ way for multiple ____ accounts ____ use ____ physical ____?
 Several ____ may ____ able ____ a ____ set of ____ token ____ accounts.
 Can ____ using a ____ set of physical ____?
 Are ____ many ____ particular hardware token together?
 Is ____ possible that ____ can be shared ____ for their ____?
 ____ hardware token ____ multiple account holders to ____ the ____ accounts?
 Can we use a ____ set of ____ to ____?
 Will ____ be able to ____ the same ____ for ____?
 Is ____ several people to ____ the ____ hardware token for ____.
 Several ____ can have ____ hardware ____.
 Do users have ____ to share ____ token for their ____?
 ____ users ____ access ____ the same ____ account token?
 ____ some people ____ same ____ token for ____ accounts?
 ____ it ____ to swap hardware ____ user ____?
 ____ a shared ____ token for ____ accounts.
 ____ use the ____ set of ____ token ____ accounts?
 ____ it ____ several ____ to share ____ hardware token?
 Is it ____ token to be ____ for their accounts.
 ____ more ____ one ____ share ____ same ____ for their accounts?
 Is there a ____ token ____ can be ____ accounts?
 Can a single ____ of hardware ____ users?
 Is it ____ different ____ same physical ____ token for account ____?
 Can several ____ compatible ____ of ____ across accounts?
 ____ many ____ accounts are allowed ____ hardware ____?
 ____ possible ____ multiple people to use one ____ for ____ at the ____?
 ____ multiple ____ one set of ____ token for accessing ____?
 Can ____ be shared by a few people ____?
 ____ there ____ share ____ set ____ hardware token ____ user accounts?
 ____ multiple users use ____ hardware token on ____?
 Is a ____ token ____ multiple user ____?
 ____ a shared ____ of ____ token ____ several account holders ____ access ____?
 ____ it possible ____ several users ____ use ____ hardware ____ together?
 Does several ____ to ____ set of hardware token?
 Can different ____ use the ____ hardware ____ access the ____ on ____?
 ____ it possible ____ accounts with ____ hardware ____?
 ____ you use ____ set of hardware ____ to ____ multiple ____?

_____ hardware _____ for multiple user accounts?

_____ may _____ the _____ hardware _____ for their accounts.

_____ lot _____ to the same hardware account token?

_____ feasible _____ use the same hardware token?

_____ set _____ physical _____ be used for _____ individuals to _____ their _____.

_____ token _____ accounts?

Have _____ accounts been _____ same physical security token?

_____ different _____ use _____ hardware token?

Is _____ a _____ several people _____ same hardware token?

_____ number _____ users have _____ to _____ single hardware token?

_____ user accounts permissible?

Will the _____ token _____ people for their _____?

_____ a lot _____ the ability to share _____ set _____ hardware _____?

Is there _____ for users _____ hardware _____ for their _____?

Is _____ to _____ one set _____ hardware _____ all _____ accounts?

_____ that _____ shared by _____ people?

_____ identical hardware token _____ users?

Multiple users, one _____ is _____

Is it _____ to use one _____ for several _____?

Is _____ shared _____ users?

Is it _____ to share a _____ of _____ accounts.

Is _____ multiple _____ to _____ a shared hardware token?

_____ acceptable to share _____ group of _____ token with _____?

_____ it possible to _____ people with _____ set _____ physical _____.

_____ share hardware _____ for _____ accounts?

Is it _____ for multiple _____ to _____ exact _____ hardware _____?

Multiple people can _____ hardware token _____ accounts.

_____ profiles _____ the same access _____ same hardware token?

Is it _____ for _____ have multiple individuals with _____ credentials?

_____ individuals be able to _____ same _____ token _____ their _____?

Can _____ users use _____ for their _____?

_____ you _____ a _____ of hardware token _____ multiple _____ holders?

Is _____ possible for _____ token _____ with _____ user accounts?

Wouldn't account _____ to use _____ same hardware _____?

_____ can _____ between multiple _____ accounts

_____ it possible _____ to share _____ hardware token?

Is _____ a _____ one set of hardware _____ different _____?

Do users _____ ability to _____ hardware _____ their _____?

Multiple _____ one _____ token _____ feasible or not?

Can _____ common group of hardware _____ shared _____ user _____?

_____ the _____ hardware _____ be _____ different accounts?

Would _____ holders _____ able _____ use the _____ hardware token _____ the _____?

Do many _____ have the _____ hardware token _____?

Do _____ account holders have access to _____ accounts _____ a shared _____?

Do _____ makes _____ multiple account holders _____ a _____ of hardware token?

Do _____ of users _____ to the same _____ token?

_____ accounts use the _____ token?

_____ multiple user _____ use the same set of hardware _____.

_____ multiple accounts make use _____ physical security _____?

_____ users _____ shared hardware token.

_____ individuals _____ separate _____ use the same hardware token?

Multiple _____ might _____ shared hardware token _____ their _____

Can more than _____ use _____ set _____ hardware _____?

Do you believe _____ sharing _____ pool of _____ token _____?

Is it possible _____ use one _____ token for _____.

_____ it _____ for _____ account _____ to use _____ the same way?

_____ a _____ of hardware token be easily _____?

Do _____ account _____ a pool of hardware _____?

Is it possible to _____ hardware _____ users?

_____ can multiple users share _____ hardware token?

Would accountholders be _____ use the _____?

_____ use the _____ hardware _____ for their accounts.

_____ a group _____ account holders _____ able _____ the same _____?

_____ it _____ the same set _____ physical _____ to work _____ multiple _____?

_____ common hardware _____ users?

_____ set _____ hardware _____ be used by multiple _____?

Can _____ users share the _____ hardware _____ accounts.

_____ it _____ have the same hardware _____ by multiple _____?

_____ possible to have _____ same hardware _____ used _____ multiple _____?

_____ same set of _____ keys _____ for _____ users?

Is _____ for _____ users _____ their _____ the same set of hardware _____?

Are some _____ accounts _____ use _____ security token?

_____ multiple _____ the same amount of _____ token across _____?

_____ possible to _____ one set of _____ everyone?

_____ to _____ same hardware token for multiple accounts _____?

Is _____ option to _____ set _____ hardware token _____ accounts?

_____ it _____ to share hardware _____ user _____?

Can _____ use one _____ token for _____ accounts _____ same time?

_____ it possible _____ multiple user accounts _____ hold _____?

Is _____ for many individuals _____ particular hardware _____ together?

_____ several individuals to share one _____ hardware token _____ their _____?

Does it possible for several user _____ the _____?

_____ possible to _____ multiple individuals _____ single _____ of _____ credentials?

_____ there _____ way _____ several _____ share _____ set of _____ token?

Can there _____ set _____ token _____ multiple users?

Is _____ a _____ to _____ one set of _____ user _____?

Hardware token can _____ shared _____.

_____ users _____ able to _____ their accounts _____ hardware _____ sets?

_____ group of _____ token be _____ various user _____?

_____ it _____ for multiple _____ the _____ set of hardware _____?

Will multiple users be _____ to _____ to access _____?

Is _____ have _____ of _____ token for multiple users?

There _____ be provisions _____ share a _____ of _____ between _____ accounts.

_____ for different users to use _____ set of _____ token to _____?

Is _____ okay _____ various _____ accounts _____ group _____ hardware token?

_____ people share _____ across their accounts?

_____ use _____ same _____ token?

Do _____ know _____ have access to a shared _____ account _____?

_____ different people to share a same _____?

_____ account holders _____ be able _____ use _____ hardware _____

____ more ____ one ____ use a unified set ____ ____ ____ ?
 Are ____ accounts able ____ the same ____ token?
 ____ different users on your ____ the same ____ token ____ access ____ ?
 Is it possible ____ set ____ between different accounts?
 Do ____ users ____ the ability to ____ one set ____ ?
 Is ____ a ____ of people to ____ technology-based authentication gadgets?
 ____ you for ____ a ____ of hardware token ____ ?
 ____ profiles access ____ same system of hardware ____ ?
 Do ____ the same hardware token ____ accounts?
 Can multiple ____ same ____ token?
 Is it possible to ____ a ____ hardware ____ accounts?
 Is ____ same hardware token for different ____ .
 ____ there a ____ set ____ token ____ allows multiple ____ to access ____ accounts?
 ____ possible to use ____ set ____ hardware token ____ by several ____ ?
 Is it possible to access multiple ____ a ____ .
 Can ____ share hardware ____ their ____ ?
 Is ____ possible ____ many people to use ____ token ____ ?
 ____ it ____ all ____ have the same hardware token?
 Do you ____ many ____ have access ____ a shared ____ of ____ ?
 ____ hardware ____ shared ____ multiple users for ____ ?
 ____ one ____ of hardware ____ between different user ____ ?
 Can a lot ____ people use ____ token ____ ?
 ____ possible ____ to ____ the same hardware token ____ their accounts?
 Does ____ of ____ for multiple account holders?
 Is ____ possible ____ several ____ one group ____ token across ____ accounts?
 ____ it appropriate for multiple ____ to share ____ hardware ____ ?
 Is ____ possible for ____ to ____ set ____ hardware token?
 ____ people have access to a ____ account ____ ?
 ____ token ____ user accounts can ____ done.
 Can several ____ share ____ same ____ of ____ ?
 Is it ____ for ____ use a ____ hardware ____ together?
 Can ____ share hardware ____ across ____ ?
 ____ possible ____ have a ____ hardware token for several ____ ?
 ____ several users share ____ token?
 Several ____ of hardware token ____ their accounts.
 Will multiple users ____ able to ____ using ____ shared hardware ____ ?
 Is ____ multiple ____ to have the same hardware ____ accounts?
 Is ____ the ____ to ____ the ____ hardware token?
 ____ it ____ for multiple ____ to access ____ hardware token?
 ____ happen among ____ user accounts.
 ____ users ____ hardware ____ set?
 ____ use the ____ hardware ____ for ____ accounts?
 ____ several ____ one ____ hardware token across ____ accounts?
 Is ____ multiple ____ to use ____ same set ____ credentials?
 Can ____ all ____ the same ____ token for ____ ?
 ____ people ____ the ____ to share ____ of ____ for their accounts?
 Can the ____ several people be used ____ their ____ ?
 Are ____ user ____ able ____ the same ____ hardware token?
 Is ____ possible ____ different ____ their account ____ your ____ the same ____ token?
 ____ may be provisions ____ hardware token ____ accounts.

_____ account holders _____ able _____ the same _____ token, right?
 Multiple _____ use _____ hardware _____ for their account.
 _____ it _____ user accounts to share _____ group _____ hardware _____?
 _____ capable _____ using the same _____ token _____ their _____?
 Is _____ possible _____ multiple _____ have _____ set _____ for accessing their accounts?
 _____ users can _____ same _____ hardware token
 Can some _____ have _____ same _____ token _____ their _____?
 Multiple _____ may _____ a _____ hardware _____
 _____ possible _____ several user _____ a single _____ security token?
 _____ it possible _____ share _____ pool of _____ among account _____?
 Multiple _____ share hardware _____.
 Do _____ think it's _____ multiple _____ share a pool _____ token?
 _____ several users _____ ability _____ hardware token across accounts?
 Several users _____ the _____ to share one set _____.
 _____ someone share the same _____ token _____?
 _____ it possible _____ use the _____ physical _____ across accounts?
 Do _____ support _____ hardware token _____ account holders?
 Can multiple _____ the same _____
 _____ single set of _____ used _____ multiple accounts?
 _____ reasonable for multiple users to _____ same _____?
 Do _____ the option to _____ of _____ for their _____?
 _____ we use one set _____ physical _____ to _____?
 _____ users might be able _____ hardware _____ for their _____.
 Will _____ be _____ same _____ of physical _____ across their accounts?
 Is it cool to have _____ amongst _____ users on one set _____ it _____ problem?
 _____ a _____ users _____ access _____ a shared set of hardware _____?
 _____ share a compatible group _____?
 _____ hardware token _____ among _____?
 Is it _____ to share _____ physical _____ for different accounts?
 Can _____ a common _____ hardware token _____ different users _____ your _____?
 _____ have the ability to _____ a _____ token?
 Can more _____ one _____ use a _____ hardware _____ for _____?
 Multiple users _____ token _____ accounts.
 _____ different _____ use the same _____ token to gain _____ account _____ platform?
 Is _____ multiple account _____ to use _____ token?
 You support sharing _____ pool _____ hardware _____ among _____?
 _____ it _____ one set of hardware _____ for more _____ person?
 There _____ provisions to _____ hardware token between _____.
 Is _____ users to _____ set of _____ token to _____ their account on _____ platform?
 _____ user _____ may be _____ same hardware token across all _____.
 Is _____ for several users _____ same _____ for their accounts?
 Can _____ few _____ share one compatible group _____ accounts?
 _____ holders would _____ able _____ use _____ same _____ token?
 Do _____ it _____ possible _____ several _____ to use _____ same hardware _____?
 _____ possible _____ multiple folks _____ use _____ hardware _____ for all _____ accounts?
 Is _____ possible _____ users _____ share _____ same _____ authentication gadgets?
 _____ share one _____ hardware token for their accounts.
 Many users may _____ access _____ set _____ token account.
 Does a _____ hardware _____ allow several account _____ the same _____?
 _____ people _____ of _____ the _____ hardware _____?

____ a shared set ____ hardware ____ for many ____ holders ____ access ____ account?
 ____ for multiple ____ access their ____ the same hardware token?
 ____ have multiple individuals using the same ____ credentials?
 ____ possible ____ users to ____ same ____ for different accounts?
 ____ possible ____ many ____ to have one hardware token ____ ?
 ____ use ____ of hardware token for your ____ ?
 ____ there provision to ____ one hardware ____ different ____ ?
 Do several users ____ to one ____ of ____ ?
 ____ user accounts to have ____ hardware token?
 Can one ____ of hardware ____ for ____ users?
 Can ____ the same ____ for ____ accounts?
 Is there any ____ share ____ between different ____ accounts?
 Can you share ____ of ____ across ____ accounts?
 Can a ____ people ____ the ____ access accounts?
 Is ____ possible to ____ hardware ____ between different ____ .
 ____ it possible to ____ hardware ____ across multiple ____ ?
 ____ accounts capable ____ using ____ same physical security ____ ?
 ____ more than one ____ unified ____ of hardware token?
 ____ users should be ____ to share one ____ of ____ across ____ .
 Is ____ possible ____ user ____ to ____ the same system ____ hardware ____ ?
 Would multiple ____ access to the ____ hardware ____ ?
 ____ could use ____ single set of ____ .
 Do you believe ____ of ____ be ____ among account holders?
 ____ all ____ use the ____ physical security ____ ?
 ____ several individuals ____ same ____ token ____ their accounts ____ ?
 Does ____ use ____ hardware token for ____ accounts?
 ____ it ____ various ____ to share ____ of hardware token ____ their ____ ?
 ____ it ____ for different people ____ one ____ security ____ their account?
 ____ you use one ____ token ____ ?
 ____ possible for ____ user ____ use the same ____ ?
 Is it ____ to ____ across ____ .
 ____ use ____ of hardware token for their ____ once?
 ____ it possible ____ several ____ to ____ group ____ hardware token across ____ ?
 Is it ____ to share a ____ group ____ among ____ ?
 Is there ____ way ____ different individuals ____ share ____ hardware ____ ?
 Is ____ possible ____ several users ____ share ____ token ____ accounts?
 Common hardware token ____ ?
 ____ it ____ for several users ____ use a ____ hardware ____ at ____ ?
 Is it ____ to use ____ token for ____ their accounts?
 ____ common hardware token ____ accounts?
 ____ user ____ use the ____ hardware token ____ ?
 Multiple ____ and ____ hardware ____ ?
 ____ users can ____ token ____ their ____ .
 ____ for multiple ____ accounts to use ____ token together.
 ____ several ____ use ____ same ____ token for their ____ ?
 ____ multiple individuals ____ hardware token across their accounts?
 Is ____ to share the same hardware ____ .
 ____ possible for ____ set of ____ to ____ shared between ____ accounts?
 Is it ____ problem ____ hardware ____ for several people ____ one set ____ ?
 Can ____ share a single ____ of hardware ____ accounts?

____ individuals ____ to ____ same hardware token ____ accounts?
 ____ it possible to ____ one ____ token ____ all ____?
 ____ users ____ the ability ____ share a ____ token?
 Multiple ____ use ____ shared hardware ____ for ____ account.
 ____ than ____ user ____ able to ____ their ____ using shared ____ token ____?
 ____ possible ____ many ____ to ____ one hardware token ____ their ____ the ____ time?
 Can a ____ of users use ____ token ____?
 Is ____ of ____ token allowed ____ multiple user ____?
 Is it possible ____ lot ____ users ____ the same technology-based ____?
 Is it ____ to use the ____ token?
 ____ it permissible ____ group of hardware token ____ users?
 Can ____ hardware ____ shared with ____ for ____ account?
 ____ hardware token ____ among ____ accounts ____?
 ____ a ____ group of hardware ____ different user ____ is ____.
 Is ____ a way ____ user ____ to ____ the ____ hardware token ____ all ____?
 Can we have ____ people with the ____ of ____ access ____?
 ____ it ____ for several ____ to have ____ same hardware ____ across ____?
 Can ____ user ____ access ____ same integrated ____ token?
 ____ the ____ set ____ hardware ____ allow ____ to access their accounts?
 Can multiple ____ use the ____ batches ____ token ____ accounts?
 ____ it possible ____ multiple ____ the same ____ of physical ____?
 Will users be able ____ use ____?
 Can people ____ group ____ token across ____ accounts?
 The ____ token ____ be ____ user accounts.
 Are ____ share ____ same hardware token?
 Is ____ possible ____ account holders to ____ hardware ____ the same ____?
 Do ____ can use the ____ security token?
 Will multiple ____ able ____ their hardware ____ to access their ____?
 ____ different platforms ____ a ____ of ____ token to access ____ accounts?
 Is it ____ multiple ____ one ____ of hardware token?
 ____ a set ____ hardware ____ multiple account ____ to ____ the same ____?
 Can the hardware ____ be ____ bunch of ____?
 ____ you use a unified ____ of ____ token to ____?
 ____ bunch of ____ have access ____ the ____ token?
 Is ____ cool to ____ some hardware token ____ set of ____?
 ____ make ____ of hardware token across different user accounts?
 ____ accounts of ____ users be ____ using shared ____ token ____?
 Is ____ a ____ hardware token permissible ____ different ____?
 ____ to share ____ token among ____ user ____ simultaneously?
 Can ____ people ____ the ____ hardware token ____ their ____?
 ____ multiple ____ able ____ the same ____ token across ____ accounts?
 Multiple account holders ____ possibly ____ the ____.
 ____ it possible ____ to ____ hardware ____ for ____ accounts?
 ____ can use ____ set ____ token for ____ their accounts.
 Is it ____ people ____ use the ____ different ____ at the same ____?
 Multiple ____ might ____ able ____ their ____ using shared ____ token ____.
 Is it ____ for multiple ____ to ____ of ____ credentials ____ their ____?
 ____ different ____ have a ____ set of ____ token to ____?
 Can multiple users ____ their accounts with ____ hardware ____?
 Is ____ hardware token among multiple ____ accounts ____ same time?

Will _____ to access _____ accounts _____ the _____ hardware token _____?

Does anyone have _____ option _____ share one _____ hardware _____ with _____?

Can the hardware _____ be _____ by _____ their _____?

Is _____ to _____ a set of _____ in _____ accounts?

_____ the option _____ sharing one _____ of hardware token _____ account?

Is _____ to share _____ among different accounts?

Do _____ support _____ pool of _____ sharing _____ account _____?

Is it _____ set of hardware keys for _____?

_____ logical for multiple accounts to _____ the _____?

Do users have _____ sharing one _____ token?

Can multiple _____ access _____ accounts with _____ same _____?

_____ possible for _____ users _____ the _____ hardware token in _____ accounts?

Is _____ several users _____ have one hardware _____?

_____ shared among _____ users?

_____ it _____ multiple user accounts _____ set of hardware _____?

_____ individuals can _____ same _____ token for their _____.

Is it _____ for them _____ a _____ array _____ token?

Multiple _____ token set?

Hardware _____ multiple users is _____.

_____ several _____ the _____ one hardware token across _____ accounts?

_____ it possible for _____ to _____ a _____ token?

Do _____ have the same _____ token _____ their _____?

_____ there a _____ several people to have _____ token?

_____ many user profiles _____ same system _____ token?

_____ different _____ use a _____ hardwaretokens to _____ their account?

The same set _____ be _____ many users.

Multiple _____ may _____ hardware token sets to _____ their _____.

There _____ to _____ one _____ of hardware _____ between _____ accounts.

_____ with _____ single hardware _____ set

Is _____ token _____ acceptable?

_____ of _____ have access to a _____ of hardware account _____?

Multiple users and one _____ or _____?

Multiple _____ would be _____ to _____ same _____ token, would _____ be _____?

Can we _____ single hardware _____ for a _____?

_____ user _____ able to use _____ hardware token _____ multiple _____?

Can different _____ use _____ same _____ bits for _____?

Can _____ have more than _____ person using _____ credentials?

_____ a group of hardware token _____ other _____?

_____ hardware _____ users ok?

_____ more than one hardware _____ used for all _____?

_____ for several user accounts to use _____ tokens?

Is there _____ for _____ users _____ a single set _____ token?

Many _____ have _____ they allowed _____ the same hardware _____?

_____ profiles able to _____ the same _____ token _____ all _____ devices?

_____ okay _____ users to share _____ of hardware _____?

Can _____ use a _____ of _____ for _____ accounts?

Is it possible for multiple _____ holders _____ use _____ token _____?

Some _____ the _____ hardware token for their _____.

_____ it possible _____ users _____ use _____ of hardware token?

Multiple _____ can _____ the _____ hardware _____.

_____ share the same set _____?

_____ way _____ to share one _____ of _____ for their accounts?

Are there _____ people _____ allowed to use _____ same _____?

Does _____ set of hardware _____ account _____ to _____ same account?

Multiple users _____ be _____ the _____ hardware token _____ accounts.

_____ the _____ use _____ same _____ token?

Is it _____ user to _____ the same _____ token _____ their account?

_____ several _____ have the ability _____ share _____ hardware _____?

Multiple users _____ use _____ hardware _____.

Is _____ possible to share _____ set of _____ token _____?

Do _____ user profiles have _____ ability _____ access _____ token?

Multiple _____ using one _____.

Multiple users can _____ token _____.

Is _____ way _____ to _____ a _____ of hardware token?

Is it possible for _____ users _____ single _____ for their _____?

Several _____ might _____ ability _____ a set of _____ token.

Will users _____ able _____ share one set _____ token _____?

_____ possible for multiple _____ to have _____ security token _____ their _____?

More than _____ user _____ have access _____ shared _____ hardware _____ token.

Several _____ accounts _____ the _____ physical _____ token.

Are _____ able to use the _____ physical _____?

_____ the hardware _____ for _____ accounts _____?

Can _____ single set _____ be _____ multiple users?

_____ people _____ use a _____ set _____ hardware _____

_____ different users to _____ their account on your _____ using _____ same _____?

_____ common _____ token _____ accounts?

Is it _____ for _____ to _____ the _____ hardware token?

_____ it possible _____ many _____ profiles to _____ integrated system _____ token reliably and _____?

Multiple _____ can use _____ set _____ token _____ their account.

Common _____ token for _____?

_____ users might _____ option to share a _____ token.

Is _____ use _____ same hardware _____ more _____ one account?

Multiple _____ holders would _____ ability _____ the _____ hardware token.

Are _____ hardware _____ different people?

Is it _____ multiple _____ accounts to _____ hardware _____?

Do several _____ have _____ to share _____ set of _____?

Is there _____ way _____ share _____ of _____ token between _____?

Can _____ people share _____ single _____ across _____ accounts?

_____ users be able _____ access the same _____ using _____ same _____?

_____ users have the _____ share hardware token _____?

Is it possible that _____ use a _____ of _____?

Can _____ people _____ of hardware token _____ their _____?

Is it _____ share _____ hardware _____ another user?

Several users _____ to _____ one hardware _____ across _____ accounts.

_____ people access their accounts with the same _____?

Is it possible _____ users _____ one hardware token _____ their _____?

Multiple _____ may _____ the _____ hardware _____ for _____ accounts.

Is _____ among _____ ok?

Can _____ be more _____ user with _____ set of _____?

_____ it ok to share a _____ of hardware _____?

_____ for _____ user accounts _____ the same hardware token _____.

_____ the _____ hardware _____ be _____ by _____ users?

Multiple _____ hardware _____ set?

Some users may be _____ use _____ hardware _____.

_____ it possible for _____ users _____ hardware token _____ accounts?

Can someone use _____ set _____ hardware _____ all _____?

_____ there a _____ many _____ the same hardware token?

Is _____ token _____ for their _____?

_____ a shared _____ hardware token _____ account holders _____ access each _____?

Are _____ people able _____ use the _____ token _____ accounts?

_____ the hardware token be _____ others _____ accounts?

Do _____ support sharing _____ holders?

Is it _____ assign _____ hardware token to _____?

Is _____ possible for _____ same set _____ token _____ for multiple _____?

_____ different _____ hardware token to access their account?

Do _____ hardware token among account holders?

Do _____ shared _____ for their accounts?

_____ possible _____ a group of _____ use common hardware _____?

_____ a way for several _____ to _____ hardware token across _____?

_____ it possible _____ hardware token can _____ shared _____?

_____ people use _____ same _____ token _____ their _____?

_____ have _____ ability to share _____ set of hardware _____.

Is it _____ user accounts could use _____ token?

_____ problem if you have _____ hardware _____ for several _____ set of _____.

_____ it _____ have _____ individuals _____ a single _____ of _____ credentials?

_____ feasible for several _____ accounts _____ the same _____ token?

_____ can be _____ several _____ accounts.

_____ several people to have access to the _____ accounts?

_____ possible _____ a _____ bunch of physical security keys _____ multiple _____?

_____ hardware token _____ accounts?

_____ those _____ token _____ by _____ people?

_____ hardware _____ user accounts?

Is it possible _____ multiple _____ physical token across _____?

Is there a shared _____ multiple _____ accounts?

_____ hardware _____ shared by _____ their accounts?

_____ possible for _____ users _____ use a common _____ token?

Can _____ access _____ the _____ hardware token?

_____ possible _____ a single hardware token for _____?

Can multiple _____ receive _____ hardware _____?

Can _____ access their _____ with _____ set _____ token?

_____ it possible to _____ set _____ hardware tokens between _____?

Can those hardware token _____ people _____ accounts?

_____ a group of _____ use _____ token for _____ accounts?

_____ users _____ to use the _____ batches of physical _____ across _____?

_____ can _____ same hardware token for _____ accounts

_____ possible _____ profiles to use the same batches _____ hardware token _____?

_____ it possible for _____ people _____ use the same _____ of _____ accounts?

_____ it _____ multiple users to share the _____ authentication _____?

Does _____ shared set _____ give multiple account holders _____ accounts?

Do _____ one _____ of hardware token _____ different _____ accounts?

_____ people may be _____ the same _____ token.

Can _____ user profiles _____ same system of _____?

_____ it possible _____ have _____ user accounts use _____ token?

Is it possible to have _____ for _____?

_____ may be _____ user accounts.

Multiple users _____ the _____ set _____ hardware _____

Is _____ for many user profiles _____ the _____ of hardware token _____?

_____ one set of hardware _____ between different _____ accounts.

_____ for multiple users to use one _____ token for _____?

_____ a shared _____ of hardware _____ account _____ to _____ access _____ their accounts?

Multiple users may _____ hardware _____.

_____ you _____ sharing _____ in a _____ among account _____?

_____ for more than _____ user account?

Can there _____ more _____ one _____ using _____ unified _____ token?

_____ be possible _____ user _____ use the same hardware _____.

Will _____ users _____ able _____ use _____ physical token _____ accounts?

_____ users have _____ amount of physical token in _____?

Is _____ a way _____ hardware _____ can be _____ by _____?

_____ way to _____ one hardware _____ different accounts?

_____ for _____ have one _____ token for their accounts?

Is it _____ for some _____ a _____ array _____ hardware _____?

Is _____ possible to _____ a set _____ for _____ accounts?

_____ several _____ a _____ group _____ token across accounts?

_____ access _____ shared set of hardware token?

Are multiple users _____ use _____ same _____ token _____ their _____?

Can _____ users share one _____ of _____ across _____?

_____ token sharing for _____?

_____ it possible _____ users to use hardware _____ same time?

_____ users might _____ the _____ token for their _____.

_____ it _____ that hardware token _____ be shared _____ people _____ their _____?

_____ there a way _____ hardware token to _____ shared _____?

Hardware _____ for _____ of _____?

_____ it possible for more than one person to _____ accounts?

People _____ able to _____ the _____ hardware _____ for _____ accounts.

_____ hardware token shared _____ multiple _____ accounts?

Is it _____ that multiple _____ the same _____?

Can _____ be multiple users _____ the _____ of _____?

_____ it _____ user accounts to _____ the _____ set of _____ together?

Is _____ possible _____ multiple _____ accounts _____ use _____ same _____ of _____ tokens?

_____ be possible for _____ to have a single _____ token?

_____ multiple _____ share _____ token?

_____ plausible that _____ use the same hardware _____?

_____ different users _____ the same _____ token _____ access _____ on your _____?

Is _____ possible _____ accounts to _____ the same _____ together?

_____ it _____ multiple account holders _____ use same _____?

Do users _____ the _____ hardware _____?

Is there a way _____ several individuals _____ the _____?

_____ it possible to share a set _____ token _____?

Is it _____ a _____ array _____ token _____ be _____ multiple accounts?

Is it _____ for _____ accounts _____ the same hardware _____?

_____ token _____ shared among _____ accounts?
 _____ different _____ use _____ same _____ token to log _____ platform?
 _____ people use a single set _____ token _____ all _____?
 _____ to _____ hardware token _____ multiple user _____ at once?
 Are everyone _____ to _____ same _____?
 _____ it permissible for _____ accounts to _____ a _____ token?
 _____ people _____ to share _____ same hardware _____?
 Is _____ possible for _____ hardware _____ be _____ across _____ user accounts?
 Is it _____ to _____ people _____ same physical credentials _____ their _____?
 _____ Multiple _____ share the _____ token?
 Is it _____ for multiple _____ accounts _____ hardware token?
 Some users _____ to _____ a set of _____ token _____ their _____.
 _____ large _____ of users have _____ a shared set _____ account _____?
 Is shared _____ allowed for _____?
 _____ token _____ be _____ for _____ accounts.
 _____ it _____ a single _____ hardware token _____ different accounts?
 _____ group _____ people _____ the same _____ token?
 Can _____ group _____ use _____ hardware token to _____ accounts?
 Can _____ users use a _____ to access their _____.
 _____ it _____ that the _____ can be _____ several accounts?
 _____ it _____ for _____ use the same hardware token _____ separate _____?
 _____ a single _____ hardware token for _____ respective accounts?
 Is it _____ a hardware _____ among different _____.
 _____ group _____ people use a _____ hardware token?
 _____ it possible for _____ people _____ the same physical _____ their _____?
 Is it _____ to share a _____ of hardware _____?
 _____ it possible for _____ accounts to use _____ same _____?
 Can _____ token _____ shared with _____ for their _____?
 _____ they _____ use the _____ token?
 _____ possible _____ have _____ people using one _____ physical credentials _____ access _____ accounts?
 Is _____ users _____ use hardware _____ for their _____ at the same _____?
 _____ there some hardware _____ on _____ set of _____ or am I _____ fa _____?
 _____ token shared _____ multiple _____ their accounts?
 _____ possible _____ share _____ hardware token for _____ accounts?
 Can _____ users use _____ same _____ to access their _____.
 _____ it possible _____ several people _____ one compatible _____ token across _____ accounts?
 Is it _____ several user profiles to _____ same _____ devices?
 Is _____ possible for _____ users _____ use _____ same hardware _____?
 _____ it possible for different _____ same _____ bits to log _____?
 Multiple people may _____ hardware _____.
 Is it possible _____ multiple _____ a shared _____?
 _____ hardware _____ shared for _____?
 _____ you _____ allowing multiple _____ to _____ a _____ of hardware _____?
 Are there many _____ accounts that _____ the same _____?
 Is it possible _____ users _____ use the same _____ accounts?
 Is _____ multiple user _____ to use _____ same _____ tokens?
 Is it _____ for _____ separate accounts and _____ hardware token?
 _____ people are capable _____ using the same _____ accounts?
 Is it _____ to share _____ hardware token with _____?
 Is _____ possible for _____ share the _____ token across _____ accounts?

____ a ____ set ____ Tokens ____ multiple account ____ to access their ____?
 Would the ____ holders be ____ to ____ the ____?
 Can there ____ one ____ a unified ____ hardware tokens?
 Can different ____ use the ____ hardware token ____ your ____?
 ____ it ____ to ____ set ____ token by multiple people?
 Is it ____ for multiple people to ____ same amount ____ across ____?
 Can ____ use the ____ token ____ their accounts ____ platform?
 Is it ____ for ____ to ____ hardware token together?
 For ____ purposes can different users ____ the ____?
 Can ____ users use ____ same ____ token ____ access ____ their ____?
 Would ____ able ____ use ____ same hardware ____?
 Is ____ okay ____ share ____ user accounts?
 ____ numerous ____ have access ____ set ____ hardware token?
 Can different ____ have ____ to ____ their account on ____ platform?
 Do ____ account ____ access ____ the same ____ token?
 Are several individuals ____ to ____ hardware ____?
 Is it ____ for ____ a single ____ of ____ token to ____ their ____?
 ____ we have ____ set ____ token ____ many users?
 Are ____ for ____ accounts?
 ____ user ____ able ____ use the same hardware token ____ devices?
 Can the ____ be ____ by ____ different ____?
 ____ it possible for ____ accounts ____ have the same ____?
 ____ use same hardware ____ for login ____?
 ____ feasible for multiple user accounts ____ same set ____ hardware ____?
 Is ____ multiple users to ____ using a ____ set of hardware ____.
 Were ____ individuals allowed to ____ hardware ____?
 ____ people ____ share ____ same hardware token ____ their ____.
 Is ____ some ____ amongst ____ on ____ of ____ or is it fa ____?
 ____ multiple users to use one ____ token for ____ to ____ accounts?
 ____ it cool to have hardware ____ users on ____ set of ____ or is ____?
 ____ for multiple ____ have a hardware token?
 Do ____ have the ____ for ____ accounts?
 Will ____ able to ____ their respective accounts ____ hardware ____ sets?
 Is ____ token amongst ____ one set of ____ or is I askin' ____?
 Can more than ____ a ____ of ____ token?
 Is shared ____ allowable ____ user ____?
 ____ it ____ different ____ the same physical security token for ____?
 ____ it permissible to have ____ token ____ multiple ____?
 ____ multiple user ____ is ____ token ____?
 Can ____ users ____ common set ____ hardware ____ gain ____ to ____ account?
 Many individuals can ____ the same ____ token ____.
 Could multiple ____ the same ____?
 Is it possible ____ multiple users ____ use ____ their accounts.
 Is ____ permissible to share ____ group ____ various users?
 Can ____ be ____ by several ____ people?
 ____ share a ____ compatible group of ____ their accounts?
 Can we ____ use ____ set of ____ credentials?
 Hardware ____ sharing ____ allowed?
 Is ____ for ____ use ____ single set of physical security ____?
 ____ users ____ the ____ to share their ____?

____ users might ____ to use ____ hardware token.
 ____ users ____ accounts to have the same ____ token?
 ____ multiple ____ same hardware token ____ different accounts?
 Is it possible ____ accounts ____ hardware ____?
 Will there ____ provisions to ____ one set ____ hardware ____ user ____?
 Is it possible for ____ to use a ____ set ____?
 Is ____ possible ____ user accounts ____ the ____ set ____ token?
 ____ many people to ____ same hardware token, ____ different accounts?
 Can different ____ your platform use the same hardware ____?
 ____ it possible ____ people to ____ set ____ hardware ____ across their ____?
 Is it cool to ____ token amongst ____ one set ____ it problematic?
 Is it ____ for multiple user ____ own ____?
 Would multiple ____ holders ____ the same ____ token?
 ____ it doable ____ to ____ the ____ hardware token?
 Is ____ way ____ share a hardware ____ across multiple ____?
 ____ more than ____ share a compatible ____ of hardware token ____?
 Is ____ possible for ____ users ____ the ____ hardware ____?
 Multiple ____ sharing hardware ____ accounts?
 Is ____ multiple users to use the same ____ devices?
 ____ everyone ____ a compatible ____ token across ____ accounts?
 Is ____ for several user ____ to ____ the same ____ together?
 ____ user accounts ____ shared ____ of hardware token?
 Is ____ token ____ among other ____ for ____?
 ____ a group of ____ token ____ accounts efficiently?
 Is it ____ for ____ have ____ using ____ set of ____ credentials?
 ____ one set ____ be ____ between different user ____?
 Can those ____ some people?
 Multiple ____ could use ____ set ____ hardware ____
 Can those ____ token ____ several ____ for their ____?
 Is it possible ____ can ____ same ____ token?
 ____ it ____ for multiple users to ____ token in their ____?
 Is ____ many ____ use a single set ____ token?
 ____ users ____ access ____ accounts using shared ____ token sets?
 ____ people may ____ able ____ same hardware token ____ accounts.
 Is ____ possible ____ to ____ one ____ of hardware token?
 Is ____ a group ____ hardware ____ with different user ____?
 Can ____ users use ____ access the same account?
 Can ____ use ____ set of ____ token ____ multiple ____.
 Is ____ possible ____ hardware token ____ be shared ____ people?
 ____ people use the same hardware token?
 ____ users share ____ for their ____?
 ____ use the same hardware ____?
 Is ____ for ____ users ____ use the ____ physical token ____ their ____?
 Can ____ users use ____ hardware bits in ____?
 ____ shared set ____ token allow multiple ____ holders?
 ____ share hardware token?
 ____ user ____ their accounts using the ____ of hardware token?
 Are ____ use the ____ token for their ____?
 Will multiple users ____ to share ____ same ____?
 Can ____ same hardware ____ for their ____?

Is ____ possible ____ ____ to use one ____ token?
____ anyone ____ ____ of ____ one ____ of ____ token for their accounts?
can ____ users ____ the same ____ ____
____ a ____ token ____ others?
____ it possible for ____ holders to use ____ ____ token?
Can you share ____ ____ group ____ hardware token ____ ____?
____ it possible ____ have a ____ ____ security ____ for multiple ____?
____ accounts ____ be able ____ the same ____ security ____.
____ ____ is appropriate to ____ a ____ hardware ____ among account holders?
____ it possible ____ someone to have ____ same ____ ____ accounts?
Multiple ____ ____ possibly ____ ____ hardware token.
____ ____ might ____ ____ hardware token for ____ accounts at the ____ time.
Does everyone ____ ____ token for their ____?
Is it possible ____ people ____ have ____ accounts ____ the ____ hardware ____?
A ____ ____ token for ____ ____ allowed?
Can ____ ____ token ____ shared by ____ ____?
____ different ____ ____ similar hardware ____ for login ____?
Will several ____ the ____ token ____ their accounts?
Do many ____ have ____ the ____ hardware account ____?
____ ____ have the ability ____ share a ____ ____ token.
____ account holders ____ use ____ same ____ ____.
Is it ____ to ____ a ____ hardware token ____ different ____?
