

[Demo] NLP Dataset for Customer Service Automation

Company Type	Water and Wastewater Utility Companies
Inquiry Category	Meter reading and usage questions
Inquiry Sub-Category	Low water usage
Description	Inquiries concerning unusually low water usage, such as when tenants are away, but the meter seems to indicate regular usage, or if there are inconsistencies in the meter readings.
Data Size	5,025 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Water and Wastewater Utility Company" customer inquiry. (Purchased data will not be masked.)

What _____ water use on meters _____ times of low or _____ occupancy?
_____ reasons can _____ to variations between actual _____ is _____ on _____ meters when the location _____?
_____ there something that _____ the _____ water metrics _____?

During times of _____ or illusoryOccupancy, _____ water _____ on meters?
It isn't _____ inconsistencies _____ water usage on meters during _____ perfectOccupancy.
How _____ you _____ differences _____ water _____ on meters _____ unoccupied _____?
_____ would cause _____ usage of _____ and actual use during times _____

What _____ the _____ for _____ real water _____ to _____ during vacant _____?
_____ possible that there _____ be discrepancies _____ recorded _____ usage _____ meters _____ unoccupied periods?
Do _____ know what causes the discrepancy _____ amount _____ when _____ are _____?
There is a question about _____ are any _____ for metered _____ use _____ during _____ of _____.
_____ way for _____ water _____ different during _____ with _____ or _____ room in the house?
_____ differences _____ water usage on meters during _____ periods?
_____ can _____ in _____ water usage _____ periods of _____ or non-existentOccupancy?
_____ a low rate _____ why do _____ water meters _____ readings.

What causes _____ between metered and true _____ used _____ present?
There is _____ question _____ whether there are _____ causes for _____ being different _____ low _____ no _____.
Why does the water _____ show _____ the _____ is _____?
Water _____ might _____ unoccupied times.
_____ could you _____ us _____ the _____ the differences in _____ and _____ water _____ unoccupied periods?
_____ do _____ results _____ real water _____ there _____ a reduction inOccupancy?
Is there _____ chance _____ the _____ use _____ may be _____ unoccupied periods?
Is it _____ for _____ to vary during _____ or _____ room in _____ house?
What factors can affect _____ metered _____ water _____ during _____ little or _____?
There _____ be discrepancies _____ the _____ usage _____ water _____ actual _____ times _____ low _____ meaninglessOccupancy on _____
There is a chance that _____ water _____ on _____ can _____ different _____.
Why _____ show _____ if there's a _____ utilization?
_____ do _____ meters _____ different readings when _____ occupied?

There are possible ____ for ____ use ____.

Is ____ explanation ____ the differences ____ water ____ on metered ____ properties ____ empty?

There ____ be ____ usage ____ water and ____ use during ____ of ____ or ____.

____ periods ____ low ____ what ____ lead to inconsistent recorded ____ on ____?

____ is ____ chance ____ water usage ____ if ____ is noOccupancy or lowOccupancy.

There ____ a question ____ whether ____ any causes for ____ water use changing ____ of ____

____ do water ____ different ____ is a ____ rate ofOccupancy

Do you ____ the cause ____ accounts changing ____ during ____ there ____ living?

____ cause discrepancies between ____ use on ____ ones ____ times of low ____ illusoryOccupancy

There ____ a question about ____ water ____ to ____ periods ____ low activity.

____ is a ____ not ____ are any causes for metered ____ usage ____ during low or ____ usage ____.

____ is ____ chance that water use on ____ during unoccupied ____.

Why do metered and ____ amount of water ____ home?

____ water meters ____ different ____ there's a lowOccupancy?

____ possible for the ____ and ____ consumption ____ when theOccupancy is low?

Is there ____ that ____ water usage could be ____ during ____ lowOccupancy ____?

____ a question regarding what causes metered ____ use ____ change during ____.

What would ____ a discrepancy between water ____ times of lowOccupancy?

There is ____ there are ____ causes for ____ use changing when ____ is no ____.

Is there ____ for the ____ in metered ____ low or ____?

There is ____ that ____ use on ____ change ____ unoccupied ____.

____ is the ____ of water ____ on ____ meters ____ there ____ little or ____?

There's a question ____ water use changes during periods ____

Is ____ a ____ metered ____ different amounts ____ water ____ times ____ properties are ____?

What would ____ discrepancies ____ use ____ the meters and recorded ones ____ low ____ illusoryOccupancy?

There ____ in ____ usage ____ periods of low ____ non-existentOccupancy.

There is ____ question ____ causes ____ metered ____ being different during low or no ____ periods.

____ a question concerning ____ metered ____ usage ____ different during ____ occupant periods.

____ the differences in water ____ the meters different ____?

____ lead to differences in ____ and ____ water consumption in ____ noOccupancy?

What may ____ to ____ in recorded ____ during ____ low ____ occupancy?

Why do ____ different readings ____ periods ____ low ____ no ____?

____ can ____ discrepancies between recorded usage of water ____ times ____ lowOccupancy ____.

There is a question ____ are ____ causes for the ____ water usage ____ guests.

____ it ____ that recorded and ____ water ____ meters might be ____ periods?

____ water ____ show ____ if there ____ a high ____ ofOccupancy?

Is there ____ cause ____ metered water ____ during ____ or no ____?

____ may ____ a ____ for ____ usage to ____ during periods of ____ or ____.

Why are ____ between ____ and ____ of ____ used ____ residents aren't ____?

____ there ____ differences in water use ____ on meters ____ a ____ illusory ____?

There ____ be discrepancies between actual ____ on meters ____ recorded ones ____ of ____.

What are the reasons for ____ in ____ what is ____ the meters while ____ is ____?

____ factors ____ to ____ and metered ____ times of ____ or no room?

____ is ____ question ____ the causes for metered ____ during ____ of ____

____ would ____ to ____ of water and actual use whenOccupancy ____ low.

____ is a question regarding the ____ for ____ water use ____ of low or ____.

During times of ____ what may cause inconsistencies in ____.

____ can lead ____ in ____ usage ____ periods of low ____ non-existentOccupancy?

What ____ cause discrepancies ____ the ____ water ____ meters ____ recorded ____ times of low or ____?

____ a low rate ofOccupancy, why ____ water ____ show ____?

There ____ be ____ in ____ on the meters ____ a low ____ illusory ____.
 Why is it ____ inaccurate ____ registration ____ occur ____ meters ____ one occupies a ____?
 ____ there is ____ low ____ of Occupancy, why ____ meters show different ____ than ____?
 ____ there a ____ for metered ____ usage to ____ noOccupancy and lowOccupancy?
 If ____ is ____ low rate ____ do ____ meters show ____ readings?
 There would ____ discrepancies between actual ____ ones during ____ of low ____ non-existent occupancy.
 ____ is ____ reasons ____ metered ____ usage being ____ during low or no ____ periods.
 ____ the ____ the different ____ meters during unoccupied periods?
 Is there ____ for metered water ____ to ____ periods?
 ____ metered results ____ water use volumes ____ theOccupancy ____ low?
 How come ____ versus real ____ meters during periods ____ minimal occupation?
 ____ any reason for the different water ____ empty times?
 ____ you have any ____ for ____ water use ____ isn't anyone living?
 How could there ____ in measured ____ periods ____ minimal occupation?
 Is ____ cause for the ____ metered ____ of low or no ____?
 ____ does ____ show ____ readings if ____ is a low ____?
 ____ are differences ____ metered water use ____ periods ____ activity.
 ____ what ____ cause ____ between ____ true water use on meters during ____?
 ____ there an explanation for ____ in ____ on metered accounts ____ properties ____?
 ____ is ____ cause of discrepancies ____ amount of water used ____ present?
 Is there ____ reason ____ the ____ use ____ different ____ periods of low or ____?
 ____ differences in ____ on the meter on a ____ or ____ day?
 There ____ be a chance ____ usage to ____ different ____ periods ____.
 ____ meters show different readings ____ low or ____?
 Is ____ for ____ water usage ____ be ____ there's noOccupancy ____ lowOccupancy?
 Is ____ possible that recorded ____ water ____ on ____ can ____ unoccupied periods?
 There may be ____ in ____ on meters ____ low or ____.
 ____ do metered results differ ____ real ____ there is a reduced ____?
 There is ____ question ____ whether ____ are ____ for ____ water usage ____ be ____ during low ____ periods.
 ____ you ____ causes ____ in water ____ when residents ____ not ____?
 What ____ to ____ between ____ usage of ____ actual use ____ theOccupancy is ____?
 ____ what ____ metered ____ use to change during low or no ____.
 ____ not ____ what may ____ in ____ water ____ during ____ than ____ periods.
 ____ meters have different readings during ____?
 ____ that water ____ be ____ during unoccupied periods?
 There is ____ chance ____ metered ____ could be ____ periods ____ and noOccupancy.
 ____ a ____ about ____ causes of ____ use ____ during periods of ____
 ____ know ____ causes ____ accounts to change ____ use at times ____ there ____?
 Why do water meters ____ readings ____ the ____ is ____?
 There ____ question ____ the ____ metered water usage changing ____ of ____ activity.
 ____ is a ____ metered ____ use changing during periods ____
 There might be a chance ____ water usage to ____ with ____.
 Is it ____ there ____ be disparity ____ true water ____ during unoccupied periods?
 Is there ____ reason ____ use during ____ low or ____ use?
 Is there a ____ the difference ____ and ____ water ____ during unoccupied ____?
 ____ there a reason ____ metered accounts ____ of water during ____?
 ____ not known ____ inconsistencies ____ water usage on meters at ____.
 Why do ____ meters ____ different ____ if there ____?
 There could ____ measured ____ water ____ on ____ during periods of ____ occupation.
 There may ____ water ____ inconsistencies on the ____ is ____ no ____.

Is _____ for _____ water usage to _____ different during _____.

Is _____ possible _____ metered water _____ vary during low or _____ house?

_____ way for _____ water _____ to _____ different during periods with _____ and _____?

There _____ a question _____ to whether there are _____ causes for metered water _____ when _____.

_____ the reason _____ recorded and real _____ conflicting during _____?

Do _____ know _____ discrepancy _____ the _____ of water _____ are not present?

_____ or barely occupied _____ why does _____ water on _____ change?

_____ are _____ for differences in _____ true water _____ on meters _____ unoccupied _____?

_____ a question _____ metered water usage _____ during _____ no occupant _____.

_____ relating to metered water usage _____ during _____ or no usage _____.

_____ there factors that explain deviations _____ not _____?

_____ is a _____ any causes for _____ water _____ being different _____ periods of low _____ use.

Water use _____ meters _____ different during _____.

There _____ water use _____ during periods of _____ or noOccupancy.

What _____ recorded _____ water use different _____ hours?

_____ there are any causes for metered water use changing _____ periods _____ noOccupancy.

If _____ low rates ofOccupancy, why _____ meters _____ readings?

If _____ low rate _____ why _____ meters show different _____ than _____?

Is there _____ metered and _____ amount of _____ used _____ residents _____ not present?

_____ water use vary when people don't _____ in the house?

_____ a question regarding _____ are any causes _____ water _____ during _____ of low or _____.

_____ it _____ use to differ _____ of low or no _____?

What causes _____ and true _____ water used _____ there _____ a _____ present?

Do you know what might cause _____ water _____ meters during _____?

There is a _____ if _____ are any reasons _____ water _____ low _____ usage periods.

Is _____ a chance _____ usage could be _____ during _____ and lowOccupancy?

There _____ differences between _____ actual _____ amounts of _____ meters _____ vacant _____ barely occupied _____.

_____ it _____ could _____ discrepancies _____ recorded and _____ water utilization _____ meters _____ unoccupied periods?

_____ is _____ question regarding the _____ water usage being _____ during low _____ no _____

What _____ usage inconsistencies on _____ when there is little _____ no _____?

There _____ question _____ there are any _____ water _____ changing during periods _____ lowOccupancy

_____ do water _____ different readings _____ the _____ ofOccupancy _____ low?

What factors _____ changes _____ metered factual water _____ times of little _____ room?

Is there a _____ for metered _____ different during _____ or no _____ in _____.

_____ may _____ differences _____ actual _____ what is reflected on _____ when the location is _____.

There _____ a _____ if _____ any _____ for metered water use _____ during periods _____

_____ a question about _____ there _____ difference in _____ water _____ while there is _____ guests.

_____ whether _____ causes _____ usage being different during low or no usage periods.

_____ a _____ metered accounts _____ water use _____ times when _____ anyone _____ in?

What _____ cause _____ between _____ the _____ and recorded ones during _____ of _____?

_____ low or _____ to _____ between recorded usage _____ and _____ use.

If there _____ a _____ ofOccupancy then why _____ water _____ readings?

There _____ a question _____ whether metered water _____ low or _____.

Is there _____ reason for _____ recorded _____ amounts _____ it's _____ occupied?

During _____ of _____ than perfectOccupancy, it's _____ known _____ may cause _____ usage.

It is not known what may _____ usage _____ lowOccupancy.

Is there _____ reason for _____ water use on _____ accounts _____ are _____?

What _____ discrepancies _____ recorded _____ true water _____ on _____ during unoccupied _____?

_____ not _____ inconsistencies _____ water _____ on the meters during _____ of _____.

There is _____ regarding _____ any _____ metered _____ being different _____ low or no usage periods.

There ____ be ____ between ____ water ____ during times ____ or non-existentOccupancy
 ____ you ____ the cause ____ metered ____ changing water ____ anyone in it?
 ____ do metered ____ amount of ____ use differ when ____ not living ____?
 ____ do ____ water ____ different ____ if the rate ofOccupancy ____?
 ____ be discrepancies in recorded ____ usage ____ meters ____ of ____ or ____.
 ____ lead to ____ and metered factual ____ in times of ____ or ____ occupancy?
 ____ is ____ metered water use ____ change during periods of ____
 There ____ for ____ watering ____ to be different at low ____.
 ____ you ____ the ____ the ____ amount of water ____ residents ____ not present?
 ____ factors ____ and ____ water ____ during times ____ little or no ____?
 Is ____ a reason ____ the ____ on metered ____ when properties ____ empty?
 During ____ of low or ____ what ____ cause ____ in ____ usage?
 In ____ of ____ metered ____ differ from ____ water ____ volumes.
 ____ might be differences between recorded and ____ utilization ____ unoccupied periods?
 What are the ____ differences ____ meters in unoccupied periods?
 Is ____ reason ____ difference in water use ____ when ____ empty?
 ____ a ____ for metered ____ usage to be different ____ of low or no ____?
 There ____ be ____ usage inconsistencies ____ meters when ____ are ____ or ____.
 Is there any reason ____ to differ ____ periods ____ low ____?
 There ____ discrepancies between water use on the ____ and ____ of ____ or non-existent ____.
 Is ____ a ____ for metered water ____ to be ____ low or ____?
 Do you know what ____ to change ____ isn't anyone living ____?
 What ____ lead to ____ between recorded ____ and ____ usage during ____ lowOccupancy on ____
 There ____ between ____ of water and actual ____ onMeter ____ low.
 ____ might be discrepancies between ____ recorded water ____ on the ____ empty space.
 Is there a ____ for ____ use to be ____ noOccupancy?
 There ____ chance for metered ____ usage ____ different during ____ and noOccupancy.
 Is ____ a reason for ____ use ____ metered ____ properties are ____?
 Do ____ the cause of ____ accounts changing water ____ living ____ the house?
 ____ you ____ what ____ cause disparity ____ true ____ use on ____ during ____ periods?
 ____ be water usage inconsistencies ____ the meters when there ____.
 How ____ results differ from ____ use volumes ____ of reduced ____ absent ____?
 Is there a ____ metered ____ use to be ____ periods ____ usage?
 ____ a low rate ofOccupancy, ____ the ____ meters ____ readings?
 There ____ water usage ____ be different during ____ of lowOccupancy ____ noOccupancy.
 Why do our ____ register differing ____ during ____?
 Is there ____ known cause for ____ changing water use ____ there is ____?
 Is there a reason ____ different ____ on ____ accounts when ____ properties?
 ____ would lead ____ between recorded usage ____ and ____ use ____ times ____ meaninglessOccupancy ____.
 ____ possible that ____ on ____ could be different during ____ periods?
 ____ are differences ____ use ____ low ____ noOccupancy periods.
 Is ____ reason for different actual and recorded ____ when ____ or ____?
 ____ you ____ causes ____ of water used when residents are ____ present?
 ____ is a question ____ metered ____ usage is different ____ or no ____.
 ____ a ____ regarding whether ____ water ____ is changing during periods ____ and ____
 ____ meters may ____ different readings if there is ____.
 There ____ between recorded ____ actual use ____ periods of ____ on meters
 What factors ____ variances in ____ and metered ____ water ____ is ____ no room?
 ____ times of lowOccupancy, ____ not ____ causes ____ in ____ usage ____ meters.
 The question ____ if ____ are any causes ____ water use ____ periods ____ or ____.

____ may be discrepancies in ____ water ____ during ____ of ____ meters.
 ____ discrepancies ____ actual ____ use ____ and recorded ones during low or ____.
 Is there a chance ____ water usage to ____ periods ____ low ____ in the ____?
 Why do ____ amounts ____ water on meters show ____ vacant ____?
 During ____ non-existent ____ what may cause ____ in recorded water ____ meters?
 Is ____ possibility ____ usage to be ____ when ____ is noOccupancy ____ lowOccupancy?
 What ____ reason for ____ differences ____ on meters ____ unoccupied periods?
 Is it ____ that ____ and ____ water utilization ____ meters will ____ during ____?
 ____ be water ____ inconsistencies ____ there are ____ or no uses.
 Is it possible that ____ use ____ can ____ during ____.
 ____ metered and true amount ____ water use ____ when residents aren't ____?
 Is ____ a ____ water ____ be ____ during periods with noOccupancy ____ lowOccupancy?
 What would ____ discrepancies between actual water use ____ and ____ during ____?
 ____ there ____ possibility for metered ____ to ____ during periods ____ lowOccupancy.
 There could be differences in ____ use ____ meters ____ or ____.
 How ____ the water ____ the meters be ____ a ____ day?
 ____ possible that ____ be ____ recorded and true water ____ on meters during ____?
 ____ there ____ for ____ use misalignment ____ low ____ empty periods?
 ____ there ____ metered watering ____ different at low ____ noOccupancy?
 What factors ____ in ____ and ____ water ____ there ____ little or ____ room?
 There would be discrepancies ____ of ____ when ____ were ____ or meaninglessOccupancy on meters
 What ____ lead to ____ in recorded ____ metered ____ during ____ of little ____?
 What ____ discrepancies between recorded ____ of ____ during times of lowOccupancy?
 ____ water ____ show different ____ during ____ Periods?
 ____ is a ____ regarding the causes for metered ____ low activity
 ____ would ____ discrepancies ____ actual water use ____ meters ____ ones during times of ____
 ____ factors affect recorded ____ metered factual water ____ of little ____?
 Is ____ that ____ be differences between recorded and ____ usage ____ meters ____ unoccupied ____?
 ____ there is little ____ water meters, what may ____ to ____?
 Is ____ water usage could ____ different ____ low or ____ room ____ the ____?
 Is ____ use varies during periods of ____ noOccupancy?
 There would be discrepancies ____ of water ____ onMeter ____ low.
 ____ for the different water usage on ____ during unoccupied periods?
 There ____ a question pertaining ____ whether ____ are ____ causes ____ usage ____ low or no ____ periods.
 There is a ____ water ____ during low and no ____ periods.
 There ____ a ____ regarding the causes ____ metered water ____ low ____ no occupant ____
 There may ____ inconsistencies in recorded ____ usage ____ or ____.
 ____ be ____ in measured and ____ water ____ the meters ____ minimal occupation.
 Is ____ a ____ for ____ watering ____ at ____ or noOccupancy?
 ____ not ____ what causes ____ in water usage on ____.
 ____ is a question ____ there ____ any causes ____ metered ____ usage being ____ low or no ____.
 ____ may ____ usage ____ during periods of low or non-existentOccupancy.
 Is ____ a ____ for ____ in metered water usage when ____?
 Is ____ for the differences in metered water use ____ low ____?
 ____ possible ____ water ____ can ____ during periods of low ____ no use?
 ____ can ____ to differences in recorded and metered ____ consumption ____ little ____?
 ____ would cause ____ between actual water ____ meters ____ recordings ____ of ____ illusoryOccupancy?
 There is a ____ regarding ____ any ____ for ____ water ____ being different during ____ or no ____.
 What ____ lead to ____ in ____ and metered ____ water ____ during ____ or ____ use?
 What ____ discrepancy ____ water use on meters ____ during times of ____ or ____?

What causes _____ water _____ meters during unoccupied _____?

Will _____ be differences _____ and _____ water _____ on _____ during unoccupied _____?

During _____ of minimal _____ there _____ differences _____ measured versus _____ usage.

What factors lead _____ in recorded and _____ water consumption _____ activity?

What _____ recorded _____ metered _____ water consumption in times _____ or _____?

_____ that the actual and recorded water _____ are _____ when _____ is _____ or _____?

What would _____ between recorded _____ of _____ and actual use _____ times _____?

_____ factors can _____ discrepancies _____ recorded _____ water consumption _____ little or no room?

_____ low _____ empty periods, _____ water _____ discrepancies?

_____ do _____ actual _____ log _____ of _____ consumed _____ meters _____ during _____ or barely occupied _____?

There would be discrepancies between actual Water use _____ and _____ low _____

_____ can lead to discrepancies in _____ usage _____ non-existent occupancy?

_____ would _____ to discrepancies between _____ of water _____ actual use during _____ low _____?

Why _____ metered _____ water use _____ residents _____ not living at the _____?

Is _____ possibility _____ metered water _____ different when there is _____ or _____?

_____ would _____ discrepancies between recorded usage _____ and _____ usage _____ times of _____.

There are possibilities _____ differences in _____ water _____ or noOccupancy

What _____ water usage _____ the meters _____ there _____ much use?

_____ is a _____ about the _____ metered _____ changing during _____ no _____ periods.

What would be the _____ actual and _____ use on the meters _____ low _____ empty _____?

There might _____ discrepancies between _____ water _____ meters and recorded ones _____ low _____.

_____ there a _____ accounts _____ water use when _____ one living in _____ area?

_____ any reason _____ the _____ in _____ on meters during unoccupied _____?

There _____ be discrepancies in recorded _____ meters _____ periods _____ or _____.

_____ lead _____ between _____ water and _____ during times of meaninglessOccupancy on meters.

_____ could _____ differences _____ measured _____ water usage on _____ of minimal activity.

Is _____ for metered _____ use _____ periods of low _____ noOccupancy?

_____ come _____ are differences in water _____ meters _____ periods of _____?

What _____ to _____ usage _____ meters _____ there is little _____ usage?

Is _____ chance for metered water _____ to be _____ with low _____ no _____ house?

Is _____ possible that _____ might be _____ between _____ and true _____ during unoccupied _____?

_____ a _____ for _____ usage to be _____ when _____ is noOccupancy or _____?

What would cause discrepancies between _____ actual _____ use _____ and _____ recorded _____ times _____?

_____ possible _____ metered _____ usage to be different during periods _____ low or _____ in _____.

What _____ lead to _____ and actual use during _____ or meaninglessOccupancy?

_____ can _____ tell _____ about why _____ water usage _____ meters _____ different _____ periods?

There _____ a _____ about causes _____ water usage being _____ low or _____.

_____ is _____ question about the _____ water use _____ during _____ noOccupancy.

When _____ aren't _____ their _____ what causes _____ true _____ of water used?

Is there _____ known _____ for _____ changing _____ when _____ isn't anyone living _____?

_____ question _____ the causes of metered water _____ changing in _____ periods.

What factors _____ recorded _____ metered water consumption _____ times _____ or _____?

Why do water meters show different _____ low _____?

_____ meters show different _____ during _____ lowOccupancy, _____?

_____ might _____ disparity _____ recorded _____ true water _____ on _____ unoccupied periods?

There _____ a _____ are any _____ for metered water usage to be _____ when there _____.

_____ a _____ for metered water usage _____ during low or _____ room _____ house.

There _____ possible causes of _____ metered _____ use _____ of low or _____.

_____ can _____ water usage on _____ during periods _____ or non-existentOccupancy?

_____ do water meters show _____ readings during _____?

_____ there a _____ metered water usage _____ different during _____ lowOccupancy?
 _____ for _____ water usage to vary during periods _____ or _____ room _____ the _____?
 _____ there _____ metered _____ usage _____ different at low or noOccupancy?
 _____ the reasons _____ differences _____ water usage on the _____ during unoccupied _____?
 Is _____ chance _____ use to be different _____ periods of lowOccupancy _____?
 _____ may _____ in water usage _____ meters during _____ lowOccupancy.
 _____ readings _____ be different during _____.
 _____ reasons for _____ metered water use _____ periods of _____ or _____.
 _____ are _____ in _____ use recorded on the _____ on _____ or _____
 There is a chance for _____ usage _____ be different _____ periods _____.
 _____ are _____ the _____ in water usage on meters _____ unoccupied _____?
 There is _____ question relating _____ water _____ during _____ or no occupant _____.
 _____ the _____ for _____ differences between _____ usage on _____ during unoccupied _____?
 _____ there be _____ between _____ recorded on the meters _____ or _____ day?
 _____ there a chance that _____ use on meters _____ unoccupied _____?
 _____ is _____ water use _____ during periods of low or _____.
 _____ might cause water utilization _____ to _____ different _____ unoccupied _____?
 There could _____ between _____ of water and actual _____ or meaninglessOccupancy _____.
 _____ do _____ have _____ in water use _____ the meters _____?
 Is _____ possible _____ differences _____ water usage on _____ unoccupied periods?
 _____ a _____ metered water use _____ during _____ of low or noOccupancy.
 There would be _____ between _____ of water and actual _____
 It is not _____ may _____ inconsistencies in _____ usage on meters _____ times of _____.
 Water meters _____ different _____ use _____ is _____ low rate ofOccupancy
 There _____ possibility for metered _____ be _____ periods _____ noOccupancy and lowOccupancy.
 It's not _____ what _____ inconsistencies in _____ usage _____ during times _____.
 There _____ question _____ to whether metered _____ use changes _____ periods _____ or _____.
 _____ want _____ what causes _____ between _____ and _____ of water _____ residents are not present.
 There's a _____ usage is _____ during _____ or no _____ periods.
 _____ there _____ reason for _____ vary _____ periods of _____ or no occupancy?
 _____ discrepancies between recorded usage _____ water and actual use _____ low or _____ meters.
 _____ are the _____ for _____ differing water _____ on _____ unoccupied _____?
 Is it possible _____ there _____ between _____ and _____ water usage _____ unoccupied _____?
 There _____ a _____ of _____ water _____ during _____ low or noOccupancy.
 What factors lead to _____ recorded _____ water _____ is little or _____?
 There _____ inconsistencies _____ recorded water _____ meters _____ of _____ or non-existent _____.
 Do you _____ what causes metered _____ to change their _____ use _____?
 What _____ to _____ usage _____ when _____ is little _____ no _____?
 There would be discrepancies between actual _____ on meters _____ ones _____ non-existent _____.
 _____ unclear what _____ and real _____ usage conflicting _____ vacant _____.
 _____ might _____ water use and what _____ reflected on _____ meters _____ the location is _____?
 How _____ in _____ real water _____ meters during _____ of minimal occupation?
 Is there _____ for _____ actual _____ amounts when occupancy _____ low?
 _____ of low _____ occupancy _____ may _____ inconsistencies in recorded water _____ meters?
 _____ lead _____ inconsistencies on the _____ when there is _____ usage?
 Is it possible _____ discrepancies between _____ true water _____ during unoccupied _____?
 _____ would be discrepancies _____ usage of _____ and _____ use during _____ meaningless
 _____ reason _____ metered water use _____ be _____ during periods of _____ or _____?
 _____ for metered _____ usage to _____ during periods _____ or no room?
 Why _____ meters _____ differing water _____ when _____?

____ not ____ causes ____ water usage on ____ during times ____ lowOccupancy.
 ____ be differences ____ measured versus ____ on meters ____ periods of minimal ____.
 There may be variations ____ actual ____ what ____ reflected on the ____ location ____ empty.
 ____ lead ____ variations in recorded ____ water ____ times of little ____ activity?
 There could ____ differences in real ____ usage on ____ of ____.
 There can ____ divergences in ____ during periods of minimal occupation.
 Why would there be discrepancies between actual ____ ones during times ____ low ____?
 In ____ or ____ what ____ water use ____ be ____?
 ____ is ____ question regarding ____ are causes for metered water ____ of low and ____.
 There ____ a ____ there are ____ water usage ____ different during low ____ occupant periods.
 ____ not known what causes inconsistencies ____ water usage ____ during times ____.
 ____ possible ____ for ____ water use being ____ during ____ of low ____ no ____.
 What factors can ____ to ____ and metered water ____ of ____ or ____ activity?
 Why do our meters ____ use ____ vacancies occur?
 ____ usage on ____ different during periods ____ low or non-existentOccupancy?
 If there is a ____ rate ofOccupancy, ____ meters ____ than ____ usage?
 ____ there is ____ rate ____ why ____ meters have different ____?
 ____ reason ____ different actual and ____ consumption ____ is low or not?
 ____ may be ____ chance ____ metered ____ usage to ____ different ____ lowOccupancy ____ noOccupancy.
 ____ there a ____ accounts ____ water ____ there isn't anyone ____ it?
 ____ be ____ between ____ recorded ____ of water and actual use ____ is ____.
 If ____ is ____ low rate ____ do water ____ show different ____?
 ____ lead to ____ in ____ usage ____ periods of low or ____?
 Is ____ possible ____ water ____ to ____ during periods with ____ lowOccupancy?
 It's not ____ usage on meters during ____ less than perfectOccupancy
 ____ cause for ____ accounts changing ____ use when ____ in the house?
 ____ inconsistencies ____ may happen when ____ is ____ or no usage.
 Do you have a cause for ____ accounts ____ use ____ house?
 It ____ discrepancies ____ recorded usage ____ water ____ use during ____ low or meaninglessOccupancy
 ____ there be ____ in water use on metered ____ are ____?
 ____ you ____ about the reasons for the difference ____ unoccupied periods?
 ____ periods ____ how ____ could ____ differences ____ measured and ____ water usage on meters?
 Is ____ for differences in metered water ____ periods ____?
 What factors ____ recorded and ____ factual ____ consumption in ____ activity?
 ____ between recorded usage ____ water ____ use during times of low ____ occupancy.
 ____ a reason for metered watering ____ at ____ and ____?
 Is ____ a reason for metered ____ usage ____ low and ____?
 During periods of low ____ may ____ discrepancies in ____ on meters?
 There is a chance for ____ be different ____ low ____ in ____ house.
 What ____ recorded ____ metered factual water consumption in times ____ no use?
 Why do ____ water ____ during ____?
 ____ it possible that ____ discrepancies between recorded and ____ water ____ during unoccupied ____?
 Is ____ chance ____ use ____ might be different during ____ periods?
 ____ may ____ a ____ metered ____ usage to ____ different at low ____.
 ____ true amount of water use ____ when ____ no one living ____ home?
 During periods ____ less ____ perfectOccupancy, ____ be ____ in ____ water ____.
 ____ possibility ____ be different ____ periods with low or no room.
 ____ possible for metered water ____ to ____ during periods ____ and ____.
 ____ there ____ different water ____ accounts during times ____ properties are empty?
 ____ be ____ versus real ____ usage on meters during ____ minimal occupation.

Why does metered results _____ from _____ volumes _____ there _____ people?
 _____ there _____ reason metered watering _____ be _____ or noOccupancy?
 _____ may be _____ for metered water _____ be _____ during periods of _____ no _____.

Is there a _____ for differences _____ water _____ periods _____ low _____ no _____?

What could possibly result in _____ actual _____ what is reflected _____ while the _____ empty?
 _____ water _____ different readings on lowOccupancy _____?

If _____ ofOccupancy is _____ water _____ show _____ readings than use?

What are _____ differences in _____ on meters during _____ periods?
 _____ factors lead _____ in _____ metered factual _____ during _____ of _____ or noOccupancy?

Why _____ it _____ registration to _____ inaccurate when no one occupies _____?
 _____ be discrepancies between _____ of _____ actual usage during _____ of lowOccupancy _____

What are the _____ of variations _____ actual _____ use and what is _____ meters while _____?
 _____ the _____ in recorded water _____ on meters during _____ or non-existentOccupancy?
 _____ do water meters _____ different _____ the rate ofOccupancy _____?

_____ any reason for the _____ in actual _____ water consumption amounts _____ or _____?

There is _____ question _____ whether _____ are causes for _____ use being _____ of low or _____.

Is _____ differences _____ recorded and true water use on the _____ unoccupied _____?

Is there any reason _____ the _____ and _____ amounts _____ differ when _____?

There is _____ regarding _____ there are causes for metered _____ usage _____ different _____ there _____.

_____ is _____ of whether _____ are _____ causes for metered water _____ periods of _____ and _____.

There would be _____ and actual _____ during _____ low or illusoryOccupancy.

There is a _____ the causes _____ metered water usage being _____ no _____.

_____ could be divergences _____ measured vs real _____ meters during periods _____.

There is _____ question about whether _____ any _____ water _____ being different during low _____ no _____.

Is _____ differences in metered _____ during _____ of low or no _____?

There _____ a _____ whether metered water use _____ periods _____ low _____.

_____ would _____ discrepancies _____ recorded _____ water _____ actual use _____ times of _____?

There _____ be discrepancies _____ the actual water _____ on _____ and _____ times of low _____.

_____ do _____ and _____ use differ _____ residents aren't living _____ the homes?

_____ what causes metered water usage to _____ different during _____ or no _____.

_____ is a _____ differences _____ metered water use _____ periods of _____.

_____ factors lead _____ discrepancies _____ water _____ in times _____ little or noOccupancy?

_____ can you tell us _____ reasons behind _____ in recorded and true _____ periods?

_____ do _____ meters show different _____ use if there _____ lowOccupancy?

_____ the root _____ the water _____ on the _____ in a _____ empty space?

_____ lead _____ discrepancy between recorded _____ of _____ and _____ use during times _____?

_____ question _____ whether there are any causes _____ metered water use _____ change during _____.

_____ possible reasons for variations in actual _____ use _____ reflected _____ the meters when _____ location _____?

There is _____ chance _____ water usage to _____ different _____ there _____ and _____.

_____ unoccupied _____ readings may be _____.

What _____ lead _____ usage inconsistencies on the _____ there _____ much _____?

What _____ lead _____ variances _____ water consumption _____ of little _____ no room?

There _____ regarding _____ water _____ being _____ during periods of low or _____.

There _____ a _____ about _____ there _____ causes for _____ water _____ to _____ different during _____ or no _____.

There is _____ regarding _____ water use _____ periods of _____ activity.

There _____ a question about the cause _____ water _____ being different _____ of _____ no _____.

There _____ a possibility for metered _____ be _____ times _____ low or no _____ house.

_____ a question _____ metered water _____ can change _____ periods of low _____.

Why _____ water _____ vary _____ during _____ periods?

Is _____ possible _____ and _____ water use _____ meters could be _____ unoccupied _____?

_____ lead to _____ recorded and _____ factual water consumption _____ times of _____ or no _____?

Is _____ water usage _____ meters may be _____ during _____?

Is there any _____ for the _____ water _____ amounts to _____ theOccupancy _____ low _____ not?

_____ lead _____ discrepancies between _____ of _____ and _____ in times of lowOccupancy?

There is _____ question _____ use _____ change during periods _____ low or _____.

_____ factors _____ to variances in recorded _____ consumption when there _____ or _____?

_____ there any _____ why _____ use different amounts _____ water when _____ empty?

What _____ to fluctuations in recorded and _____ water consumption _____ times _____ no _____?

_____ are _____ variations _____ actual _____ use _____ what is reflected _____ the _____ while the location is _____?

_____ question about whether there are any _____ for _____ difference _____ water _____ while there _____ no _____.

Why do _____ have _____ readings _____ there is _____ low _____?

There's a _____ as _____ metered water usage _____ low or no _____.

What _____ differences in actual water _____ what is _____ on the meters _____ is empty?

There is a _____ about _____ there _____ for _____ water usage being _____ low _____ periods.

_____ a chance for metered water _____ different _____ there is low _____ no room _____?

Is it possible that _____ might _____ recorded _____ use during unoccupied _____?

_____ come the recorded _____ differ from actual _____ levels on _____ are _____?

There _____ a question about _____ causes _____ water _____ being _____ during low _____ no _____.

Why do metered and _____ amount of water _____ when _____ homes?

_____ were discrepancies _____ recorded _____ of water and _____ use _____ times _____ meaninglessOccupancy on _____

There may _____ a _____ for _____ water usage _____ be _____ periods _____ noOccupancy.

During _____ low or _____ would there _____ between actual _____ on _____ and recorded _____?

What _____ discrepancies between the metered _____ true _____ of _____ when _____ are _____?

_____ might be _____ water _____ during periods _____ low or _____.

_____ discrepancies _____ recorded _____ water and _____ use during low _____ meaninglessOccupancy times.

Why do _____ meters _____ different _____ there _____ low _____ no _____?

It _____ possible _____ in _____ consumption registration to occur _____ meters _____ no _____ occupies _____.

There _____ question _____ there are _____ causes for _____ changing during periods _____ lowOccupancy.

_____ for the different recorded and true _____ on meters _____ unoccupied _____?

There _____ question regarding whether _____ during _____ or no occupant period.

_____ might be _____ chance for _____ water usage _____ be different _____ with low _____ no _____ the _____.

Is _____ possible that there are different _____ and _____ water _____ is _____?

_____ regarding what causes _____ water _____ to _____ during _____ of low and _____.

During _____ periods, _____ does the amount _____ water _____ the meter _____?

_____ be _____ in the water use recorded _____ the _____ low _____ illusory _____?

Do you _____ the _____ metered accounts _____ use _____ one is living in _____?

Do you _____ causes the _____ water usage when _____?

There _____ regarding _____ for metered water _____ during periods _____ low and _____.

_____ a _____ metered _____ usage to be different _____ of lowOccupancy.

_____ vacant or _____ periods, _____ the actual _____ log _____ water _____ meters differ?

_____ is _____ chance that metered _____ could _____ different _____ periods _____ noOccupancy and _____.

What is _____ reason recorded and _____ differ _____ hours?

If _____ low rate ofOccupancy, _____ meters _____ different readings than actual _____?

_____ times _____ low _____ illusoryOccupancy, what would cause _____ between actual _____ recorded _____?

What _____ to water _____ inconsistencies on the meters _____ is _____ no _____?

There is a _____ water _____ during periods of _____ noOccupancy.

_____ may be _____ during periods of low _____ noOccupancy.

_____ reason for _____ recorded _____ consumption _____ when there is a lowOccupancy?

_____ would be discrepancies between _____ of water _____ use _____ low _____ meaningless.

_____ cause _____ between the actual water use _____ meters and _____ during _____?

_____ the cause _____ accounts changing water _____ when _____ isn't anyone living _____?
 _____ is _____ of if there are _____ causes for _____ water _____ different _____ no occupant periods.
 What would _____ to _____ between recorded usage of water _____ usage _____ meaninglessOccupancy
 Why _____ meters show _____ during _____ of _____ occupancy?
 There is a _____ of _____ water _____ being _____ and no usage periods.
 _____ think there _____ in water usage _____ meters _____ unoccupied periods?
 _____ there _____ or _____ do water meters show different _____?
 _____ differences in _____ water _____ during periods of _____ noOccupancy
 There is _____ whether metered _____ during periods _____ or noOccupancy.
 Is there _____ cause _____ metered accounts _____ use when _____ isn't _____ living _____?
 What _____ the reasons _____ is different during unoccupied periods?
 Why _____ meters _____ different readings in _____?
 _____ there _____ different _____ water use _____ low or no occupancy?
 There _____ be discrepancies _____ and _____ water _____ on meters during _____.
 _____ would be _____ recorded _____ actual _____ during times of _____ or illusoryOccupancy.
 What _____ cause discrepancies between water _____ on _____ times of _____?
 There could _____ and measured _____ on _____ during periods of _____ occupation.
 There _____ be _____ between actual water use _____ ones _____ low.
 _____ what causes metered _____ to change _____ use when there _____?
 How _____ are differences between measured and real _____ meters _____ occupation?
 _____ are _____ reasons for the _____ water _____ on meters during _____ periods?
 Is there _____ that _____ deviations in _____ unoccupied?
 _____ not _____ what can _____ inconsistencies in _____ water _____ on meters during _____ less _____.
 There _____ a _____ whether the metered water _____ different _____ or _____ periods.
 _____ different readings _____ periods of low or _____ occupancy, _____?
 Why do _____ show _____ is a _____ rate of utilization?
 _____ would be discrepancies _____ use _____ and recorded ones at _____ of low _____
 _____ the _____ metered water usage _____ different during a low or no _____ period.
 If the _____ is _____ do water _____ show different _____?
 Is it _____ use is _____ during periods of _____ or _____?
 _____ can _____ tell _____ the reasons for _____ recorded _____ true water _____ during unoccupied periods?
 _____ may be causes _____ metered _____ use _____ periods of _____ noOccupancy.
 There could be differences in _____ real _____ usage _____ during _____ of _____
 There is _____ whether there are any _____ water _____ being _____ during low _____ usage periods.
 _____ any _____ for _____ water metrics _____ not occupied?
 _____ show different _____ if the _____ ofOccupancy _____ low
 _____ ofOccupancy is _____ why _____ water meters _____ different readings?
 There is _____ question _____ whether there _____ any causes _____ water _____ of low _____ noOccupancy.
 There _____ a _____ if _____ are _____ causes _____ metered _____ different during low _____ no occupant periods.
 During periods _____ or non-existent _____ lead to _____ recorded water _____ meters?
 What are the reasons _____ the _____ water _____ the _____ unoccupied _____?
 When residents _____ not living in the _____ metered and _____ use _____?
 _____ may _____ inconsistencies _____ water usage _____ meters _____ of _____ or non-existentOccupancy.
 _____ know what causes _____ to _____ water _____ in _____ when _____ isn't anyone _____?
 _____ affect _____ and _____ factual _____ during times _____ little or noOccupancy?
 What _____ cause water _____ to be different _____ lowOccupancy?
 _____ is a question regarding if _____ are any _____ metered _____ changing during _____ activity.
 _____ metered _____ use _____ vary during periods _____ low or _____ occupancy?
 Why do _____ and _____ of _____ consumed on _____ differ during _____ or barely _____?
 _____ the _____ for the _____ recorded and true _____ meters during unoccupied _____?

_____ a question _____ water _____ different during _____ and _____ occupant periods.

What could be the cause _____ water use _____ low or _____?

Water Meters show different _____ is _____ of Occupancy

Why _____ water _____ differing _____ low Occupancy periods?

_____ there _____ differences _____ measured _____ real _____ usage _____ meters during _____ minimal occupation?

_____ is _____ metered water _____ different during periods with low Occupancy.

_____ there a _____ of metered water usage _____ different _____ periods _____ no room in _____?

_____ a reason _____ the difference _____ usage when _____ no guests?

_____ any reason for _____ water _____ amounts _____ be _____ when the Occupancy _____?

_____ be _____ inconsistencies _____ the meters when there's little or _____.

_____ it _____ are _____ between metered _____ true _____ of _____ used _____ residents are not present?

_____ a _____ whether there are _____ causes for metered water _____ changing _____ low _____ activity.

There is a _____ for _____ water usage to _____ during _____ or _____.

_____ there a _____ for _____ different during _____ no usage periods?

_____ would be _____ between _____ use on _____ the _____ ones during times of low or _____.

How _____ there _____ discrepancies between metered _____ true _____ used when _____ present?

There _____ regarding the _____ for metered _____ during periods of _____ activity.

_____ there _____ a low _____ of Occupancy, why _____ water _____ readings than actual _____.

_____ question regarding _____ causes _____ use changing during periods _____ low Occupancy.

_____ is a question regarding _____ there _____ causes _____ water use _____ during _____ activity.

What _____ in metered and true amount _____ when _____ aren't _____?

_____ may _____ differences _____ recorded _____ the meters on low _____ illusory _____.

_____ does metered and true _____ of _____ living in the home?

What _____ lead to discrepancies between recorded _____ and actual _____ times _____ on _____.

Do _____ know _____ accounts to _____ water use _____ there isn't _____ on?

_____ causes _____ between metered _____ amount _____ residents are not present?

There _____ question as _____ causes _____ metered water _____ changing during periods of _____ or no Occupancy

How could there _____ differences in _____ meters _____ a low Occupancy _____?

metered _____ differ _____ water use volumes in times _____ absent _____

_____ there can be inconsistencies _____ water usage on meters.

_____ a chance for _____ usage _____ be _____ during _____ with _____ and low Occupancy?

_____ be discrepancies _____ measured versus _____ water usage on _____ periods _____ minimal _____.

There is a _____ whether _____ water _____ during _____ or no occupants _____.

What _____ discrepancies between _____ use _____ meters and _____ ones _____ times of _____ or _____?

Is _____ a reason for _____ different _____ use _____ metered _____ at _____ empty?

Is _____ for water _____ metered accounts to differ _____ empty?

Water readings are _____ the _____ periods

There would be _____ actual _____ recorded ones during times of low _____.

_____ is _____ question about _____ use changing during periods of _____ no Occupancy.

What would cause _____ water use _____ meters and _____ times?

_____ are the _____ water usage on meters _____ unoccupied _____?

During _____ periods, water readings _____?

What are the _____ for _____ differences _____ true _____ use _____ the _____ unoccupied times?

There is _____ if there _____ causes for metered _____ changing _____ low and no Occupancy.

Is there a _____ metered _____ use varies _____ periods _____ or _____?

_____ the _____ in _____ of water used when residents are _____ present?

It is _____ known _____ might cause inconsistencies _____ on meters _____ low Occupancy.

_____ it possible _____ be different during _____ with no Occupancy _____ low Occupancy?

_____ the reasons for _____ differences in the recorded _____ water _____ on the _____ unoccupied _____?

There _____ be discrepancies _____ usage of _____ actual use _____ is low.

_____ question about whether there are _____ causes for _____ usage being _____ during _____ or no _____

There _____ inconsistencies _____ usage on meters during _____ low _____ non-existentOccupancy

Is _____ possible that recorded and true _____ meters _____ unoccupied periods?

There is a question about _____ there _____ for the _____ in _____ water _____ no guests.

There could be _____ water usage to be different _____ periods _____ in the house.

There _____ water usage inconsistencies on the meters when _____.

_____ question _____ the causes of metered _____ different _____ low or no _____ times.

_____ discrepancies between the _____ use on the _____ the _____ during times _____ low or non-existentOccupancy

During _____ low _____ illusoryOccupancy, _____ cause _____ water use on meters and _____?

_____ is a _____ regarding whether _____ water usage _____ be _____ during _____ no _____.

_____ lead _____ of water and actual use during _____ of low or _____ on _____.

_____ periods _____ less than _____ known what causes _____ water usage _____ meters.

There could be discrepancies _____ actual water _____ recorded _____ during times _____ or _____.

_____ possible for metered water usage to be _____ periods _____?

_____ metered and _____ amount _____ water use vary when people _____ not _____?

_____ be reasons _____ variations in _____ water use _____ reflected on the meters _____ is empty.

There _____ that the _____ use _____ the _____ be different during _____ periods.

_____ do metered _____ true amount of _____ use vary _____ at _____ house?

What _____ reasons for _____ differences between _____ use _____ reflected on _____ when the location is _____?

There _____ question _____ whether _____ water _____ changes _____ of _____ and noOccupancy

How can _____ differences in _____ use during periods _____ no _____ use?

_____ accurate recording of _____ building's water usage _____ its meters could be _____ reduced _____ occupancy.

_____ do _____ and _____ of water _____ when _____ are not present?

How could _____ water use on _____ on a low _____?

Is it _____ that water _____ on _____ different _____ unoccupied _____?

How _____ recorded readings _____ from actual water _____ meters _____ houses remain _____?

There is _____ for metered water _____ different during low _____ no occupant _____.

_____ be _____ between recorded _____ actual use _____ times of lowOccupancy onMeter

_____ the _____ meter show _____ readings if _____ a _____ rate ofOccupancy?

There _____ between recorded usage _____ water _____ use _____ or meaninglessOccupancy _____ meters.

_____ differences in water use _____ on the meters on _____.

Why _____ readings _____ the rate ofOccupancy is low?

What _____ in variations in _____ water _____ is reflected _____ the meters while _____ location is _____?

_____ is a question of whether _____ is different _____ low or _____

There _____ about _____ of _____ use changing during low _____ noOccupancy periods.

There _____ a _____ regarding _____ causes _____ water _____ change during _____ and noOccupancy _____.

Is _____ the differing _____ on metered accounts _____ properties are _____?

_____ for _____ water usage _____ be different _____ periods _____ noOccupancy and lowOccupancy.

Is _____ recorded and true _____ on meters _____ be different _____ periods?

_____ the _____ meters show different readings during _____?

Why _____ show _____ when _____ is a low rate _____?

There is a _____ are _____ for metered water _____ changing during periods _____ activity.

_____ the actual and log amounts _____ water consumed on _____ vacant _____ periods?

_____ there any reason for _____ amounts to _____ is low or _____?

Is _____ a _____ for _____ water use _____ during periods _____ low _____ occupied?

_____ metered water usage _____ during periods of _____ noOccupancy?

Is _____ metered _____ be different during periods with _____ or no _____ in _____ house?

There _____ possibility for metered _____ different during _____ of _____ or noOccupancy.

Is it _____ there might _____ between _____ and _____ water _____ meters during unoccupied _____?

It's unclear _____ makes recorded _____ water usage _____ vacant _____.

What factors affect _____ metered _____ during _____ little or no _____?

Is there a _____ metered watering usage to be _____.

_____ the reasons for _____ differences in recorded _____ use on _____ during _____?

_____ there a cause _____ in _____ water _____ during _____ of _____?

There is _____ usage to _____ during periods _____ no room in the house.

Is there a _____ water _____ the meters will _____ different _____ unoccupied _____?

There are _____ differences in metered water _____ low or no _____.

_____ you know _____ causes metered _____ change water _____ there isn't anyone _____ on?

_____ would lead _____ discrepancies _____ recorded _____ water and actual _____ during low _____?

There _____ be discrepancies _____ usage _____ water _____ actual usage _____ of low or _____ meters.

What _____ you say _____ for _____ differences in _____ true _____ use _____ unoccupied periods?

What is _____ metered _____ from _____ water use volumes _____ are fewer _____?

There _____ chance _____ metered water _____ to _____ different during periods _____ or _____.

_____ discrepancies _____ recorded _____ of water and actual use at _____ or _____

What _____ on _____ recorded ones during times of low or _____

_____ are there differences _____ true water use _____ meters _____ periods?

_____ of _____ are any _____ metered water use _____ during periods of lowOccupancy.

_____ there a reason _____ differences _____ metered _____ low or no activity?

Why is it possible for water _____ registration _____ inaccurate _____ meters _____ a _____?

_____ do _____ true amount of water _____ are _____ living _____ the home?

Is _____ water usage _____ be different _____ periods _____ noOccupancy and lowOccupancy?

_____ water meters show different readings _____ there _____ use?

Why do _____ true amount _____ use vary when _____ in _____ homes?

_____ may lead _____ differences in _____ water _____ what _____ on the meters while _____ is _____?

_____ any _____ cause for _____ accounts changing _____ there isn't anyone _____ in?

During periods _____ low _____ non-existentOccupancy what can _____ inconsistencies in _____ water _____ _____?

_____ use recorded on the meters _____ low or _____ days.

If _____ no _____ why are _____ meters showing different _____?

_____ residents _____ at their _____ what _____ and _____ amount of _____ to differ?

_____ there a _____ metered _____ use _____ during periods of low or _____.

Is _____ a _____ different actual and _____ water consumption _____ theOccupancy is _____ not?

Why _____ different readings _____ low occupancy periods?

_____ is _____ question about what causes _____ during low or no _____.

_____ would _____ actual water use _____ meters and the recorded ones _____ times of _____.

There is _____ question _____ can change during _____ of _____ or _____.

_____ are _____ in _____ use versus what is _____ the meters _____ the location is empty?

There _____ be _____ usage _____ water and actual use during _____.

_____ a cause for _____ in metered _____ during low _____ noOccupancy _____?

_____ that metered _____ usage can _____ different during periods of lowOccupancy _____.

There _____ inconsistencies _____ recorded _____ on _____ meters _____ periods _____ low or _____.

_____ a _____ regarding whether metered water _____ is _____ low or _____ occupant _____.

_____ the homes, why do metered and _____ amount _____ water use _____?

There is a question _____ of metered water use _____

_____ there _____ problem with _____ use during periods _____ noOccupancy?

Do _____ causes for metered _____ use when there _____ anyone living in _____ area?

_____ be _____ in _____ water usage on meters during _____ low _____?

There _____ a question _____ metered _____ changing during _____ of _____.

There is _____ about whether there _____ any _____ water usage _____ or no usage periods.

_____ be _____ in _____ water usage _____ periods of _____ non-existent occupancy.

_____ cause discrepancies in actual _____ use _____ meters and _____ during times _____ ?

There is a _____ metered _____ being different during periods _____ or _____ use.

_____ factors _____ recorded and _____ water consumption in _____ of little _____ ?

Is _____ a _____ for _____ use to be different _____ no room in _____ ?

_____ there are differences _____ versus _____ water usage on meters _____ minimal _____ ?

_____ there _____ the _____ use _____ the meters is different during _____ ?

_____ causes _____ between metered and true _____ water _____ aren't present?

In low or empty _____ causes _____ change?

There is _____ whether _____ water use _____ of low _____ noOccupancy

There _____ be differences _____ on the meters on a _____.

There _____ possibility _____ metered _____ being _____ during periods of _____ or no _____ in the _____.

There _____ in recorded _____ meters during periods of low _____.

Is there a reason for _____ water _____ to _____ no _____ ?

_____ is a _____ about _____ there are causes _____ water use _____ low or _____.

What _____ to _____ in _____ metered water consumption when there _____ no room?

There is a _____ about _____ water _____ is affected _____ or _____

_____ show different _____ lowOccupancy periods

Please _____ about _____ for the differences in _____ and true _____ on meters during _____.

What _____ lead _____ discrepancies _____ usage _____ actual use in _____ of low or _____ ?

There may _____ inconsistencies _____ recorded _____ periods of low _____

There would _____ use _____ and recorded ones when _____ were low or _____.

What _____ to _____ usage _____ the meters when there _____ use?

Why do water meters show _____ readings _____ ?

If a _____ rate _____ causes _____ meters _____ show _____ readings, _____ ?

_____ be _____ recorded usage _____ water and actual use _____ times of _____

Why _____ metered _____ of _____ vary _____ residents are not _____ in the _____ ?

_____ differences in the water use _____ the meters _____ low _____ day?

_____ you know what makes the discrepancy _____ of _____ when _____ not _____ ?

_____ there a possibility _____ usage _____ be _____ periods with low or _____ ?

_____ lead _____ between recorded _____ of _____ actual use whenOccupancy is _____ ?

_____ were discrepancies _____ actual _____ and recorded ones during times of _____ or illusoryOccupancy?

_____ would be discrepancies _____ actual water _____ on _____ when there _____ a _____ or non-existentOccupancy.

There _____ a question _____ cause _____ water _____ low or no usage periods.

There is _____ question _____ whether _____ water use _____ by _____ of _____ and _____

What leads to _____ in _____ meters _____ of low _____ non-existentOccupancy?

_____ could _____ in _____ use recorded _____ the meters on _____ low _____ day

It _____ between actual water _____ meters and _____ ones _____ times of low _____.

There _____ question regarding the causes of metered _____ or _____ activity _____.

What _____ water _____ on meters to _____ different _____ times _____ ?

It _____ what _____ inconsistencies in _____ usage _____ meters during _____ of _____

Is there a _____ use during times when _____ isn't _____ in?

There _____ a _____ about _____ any _____ metered water use _____ during periods _____ lowOccupancy

There could be discrepancies between _____ of _____ and actual _____ during _____ meaninglessOccupancy.

_____ there's _____ ofOccupancy, why _____ water _____ show different readings.

What are the _____ differences _____ recorded _____ use on _____ during unoccupied _____ ?

There is _____ question regarding _____ of _____ water _____ during _____ periods.

_____ would cause a discrepancy _____ of _____ actual use during _____ lowOccupancy?

What can you tell us about the reasons for _____ true _____ during _____ ?

_____ is a question _____ there _____ for _____ water usage being different during low _____.

Why _____ water _____ the _____ differ during _____ or _____ occupied periods?

_____ unclear _____ cause _____ in _____ usage on meters during times _____.
 There _____ discrepancies between _____ water use _____ meters in a low or _____.
 There _____ be _____ actual _____ use _____ what is _____ on _____ when _____ location is not _____.
 _____ could _____ between recorded _____ of water and _____ during times _____ on Meter.
 Is _____ that _____ be discrepancies between _____ and true water use _____ meters _____?
 _____ come there could _____ differences in _____ water _____ on _____ during _____ minimal _____?
 During periods _____ could be _____ measured water usage on _____.
 _____ not known what may _____ recorded _____ on _____ periods _____ less than perfect Occupancy
 During _____ or _____ occupied periods, _____ actual _____ of _____ meters differ?
 _____ are the _____ for _____ water use versus _____ on the _____ while the location is _____?
 _____ periods _____ low or _____ occupancy, _____ may _____ in _____ water usage _____ meters.
 _____ there _____ reason _____ water _____ is different _____ low _____ no _____ periods?
 _____ are the _____ for _____ in _____ usage on water _____ during _____?
 There would be discrepancies between _____ actual _____ during times _____ meter
 There is _____ for _____ usage to be _____ periods _____ no Occupancy.
 _____ want to _____ reasons _____ the _____ usage on meters during _____ periods.
 _____ you _____ the cause _____ use when there _____ anyone in them?
 _____ there is a _____ does _____ water meters show _____ readings?
 _____ could contribute to discrepancies _____ readings _____ actual _____ times of _____ no _____.
 Is _____ for _____ differing actual _____ consumption amounts when Occupancy is _____?
 There could be discrepancies _____ of water and _____ use _____ times of low _____
 In _____ of reduced or _____ results _____ from _____ water _____ volumes.
 What can cause _____ between _____ meters _____ recorded _____ during times _____ low _____ illusory Occupancy?
 When _____ are _____ factors _____ deviations in _____ metrics?
 _____ would _____ actual _____ on meters and recorded ones during times _____ non-existent occupancy
 _____ discrepancy _____ recorded usage of _____ during times of low _____ meters
 _____ question about whether _____ are any _____ metered _____ use being _____ during periods _____ low or _____.
 Errors between recorded _____ use _____ times of _____ meaningless Occupancy on meters
 _____ meters _____ readings _____ periods of _____ or no _____
 Why does _____ water meters _____ different _____ is _____ low rate _____?
 Water meters _____ different _____ periods _____ or no Occupancy
 There is _____ question regarding _____ usage _____ for _____ or no occupant _____.
 Do _____ what might cause disparity _____ water _____ on _____ during unoccupied _____?
 Is _____ reason _____ the _____ use during _____ of _____ or no occupancy?
 _____ the reasons for _____ differences _____ and _____ usage during unoccupied _____?
 There's a _____ of _____ usage being _____ during _____ or _____ occupant periods.
 It _____ water usage on meters during times of _____.
 There is a _____ of _____ usage _____ different during _____ low _____ no _____.
 What factors _____ to differences in _____ and metered _____ in times _____ room?
 _____ of _____ on _____ could be _____ during periods of _____ occupation.
 There are possible _____ for _____ water _____ being _____ during periods _____ occupancy.
 There is a _____ metered _____ being _____ during periods of no _____.
 _____ a _____ metered water _____ to be different during periods _____ or _____ room _____ house.
 _____ lead _____ recorded usage of _____ use during times of _____ on Meter
 Is it _____ that _____ usage _____ are incorrect during _____?
 Is there _____ differences in _____ water use _____ of _____ no Occupancy?
 _____ could contribute _____ discrepancies _____ meter _____ and actual _____ during _____ little _____ occupancy.
 Is _____ water _____ are incorrect during low/no _____ times?
 There could be a chance _____ metered water _____ different during _____ with low _____ the _____.
 _____ different readings _____ use if there's a low rate _____?

_____ do water meters _____ readings in _____?

There _____ be _____ in the _____ recorded on _____ on _____ or illusory _____.

There would _____ recorded _____ of water _____ during _____ of lowOccupancy on _____

During _____ minimal _____ could be differences in _____ water usage.

_____ causes discrepancy _____ and _____ amount _____ water _____ residents aren't present?

_____ the _____ for metered water use _____ during _____ or no periods.

Is _____ for metered water _____ during _____ of low _____ different?

Is _____ any factor _____ water metrics when _____?

There _____ be _____ chance _____ metered _____ usage to _____ during _____ of _____ lowOccupancy.

There could be divergences between _____ real water usage _____.

_____ you _____ why there _____ differences _____ on meters during unoccupied _____?

_____ there _____ metered water usage to _____ different at _____ or _____?

_____ be discrepancies _____ water use on _____ meters and recorded _____ times _____ or non-existentOccupancy

_____ can cause _____ in _____ water usage during _____ of _____ or _____?

What _____ discrepancies between _____ water _____ recorded ones _____ times _____ or non-existentOccupancy

_____ you know of _____ causes _____ metered _____ when there isn't _____ living in?

_____ possible _____ water usage to be different _____ low and _____?

_____ there any known cause _____ metered _____ water use _____ there _____ in _____ area?

Is there a possibility for metered water _____ or _____ room _____ house?

_____ might _____ a chance _____ water usage _____ be different _____ periods of _____.

There is _____ about whether there _____ causes for _____ changing _____ periods _____ low or _____

_____ are factors that _____ variations _____ recorded water _____ buildings are _____.

What _____ water use versus what _____ on the _____ the location is empty?

What's _____ reason _____ in recorded and _____ water _____ unoccupied periods?

There could _____ in _____ and _____ water _____ on meters _____ times _____ minimal _____.

There is _____ question as to whether _____ are _____ for _____ use changing _____ of _____.

Do _____ know of _____ known _____ for metered _____ changing _____ during _____ when _____ anyone living?

What are _____ on meters is _____ unoccupied periods?

_____ factors can _____ to variances _____ recorded _____ metered water _____ in _____ of little _____?

_____ you _____ metered _____ to _____ use when _____ isn't anyone in use?

There _____ a question _____ metered water _____ during periods _____ low _____.

_____ a _____ illusory _____ could _____ be differences in water use _____ on _____ meters?

There _____ question if there _____ causes _____ water _____ changing _____ periods _____ lowOccupancy

_____ question about _____ causes for _____ water _____ changing _____ or no activity.

Is there _____ differences _____ water use on _____ when _____ are empty?

_____ it _____ that _____ usage _____ different _____ with low or _____ room in the house?

_____ can cause inconsistencies in recorded water _____ meters _____ or _____?

_____ there be a _____ for _____ usage to be _____ low _____?

What _____ cause discrepancies between _____ on meters and recorded _____ during _____ illusoryOccupancy.

There _____ discrepancies _____ water and actual use _____ times whenOccupancy _____ meters _____ or low.

_____ there is _____ rate _____ why _____ water _____ show different _____?

There are _____ in _____ on meters during _____ or non-existentOccupancy.

_____ there _____ low _____ ofOccupancy _____ do water meters _____ different _____ actual use?

_____ little _____ use on the _____ what may lead _____ usage inconsistencies?

_____ is _____ on _____ water usage is _____ or no occupant periods

What _____ the _____ for _____ different recorded and _____ water _____ on _____ unoccupied _____?

What _____ cause _____ use on meters _____ theOccupancy is _____?

Why would _____ between _____ of _____ actual use during times of _____?

Why does _____ true _____ of water _____ when residents _____ living at _____?

_____ not known what may cause _____ water _____ times _____

There ____ inconsistencies in ____ water ____ during periods of ____ or ____ occupancy.
 metered ____ usage ____ during ____ with noOccupancy and ____
 ____ are the ____ difference ____ on the ____ during unoccupied periods?
 During ____ minimal occupation, there ____ in measured ____ real ____ usage on ____.
 ____ it ____ true ____ usage on meters ____ different during unoccupied periods?
 ____ there a ____ for metered ____ usage to ____ during ____ of ____?
 Do you know what might ____ between recorded ____ water ____ during ____?
 ____ there ____ chance that ____ will be ____ during unoccupied times?
 ____ is ____ regarding ____ metered ____ to change ____ periods of low or ____
 How come there ____ measured versus ____ water ____ during periods ____?
 There ____ a ____ regarding ____ water use ____ during ____ low and ____.
 Why ____ water meters ____ different readings ____ low?
 ____ may cause inconsistencies in recorded water ____ on ____ during periods ____ than ____.
 ____ causes ____ empty ____ to have water ____ discrepancy?
 What can you ____ for the ____ recorded and true ____ during unoccupied periods?
 Why do ____ actual and ____ water on the meters ____ during ____ or ____?
 ____ could ____ between recorded ____ actual ____ during low or meaninglessOccupancy.
 ____ lead to ____ in recorded water usage on meters ____ low ____?
 If there ____ rate ____ water ____ show different readings.
 ____ is ____ whether ____ use change during periods ____ or noOccupancy
 ____ inconsistencies in ____ recorded water ____ meters ____ of ____ or non-existentOccupancy.
 ____ a ____ the ____ metered ____ use changing during ____ of ____ or noOccupancy
 Why do ____ different ____ if there ____ lowOccupancy?
 ____ it possible that recorded ____ meters ____ different during unoccupied periods?
 ____ be ____ recorded usage of water and ____ during times whenOccupancy ____.
 Is ____ a ____ for ____ to be different ____ and noOccupancy?
 Is ____ chance for ____ usage to be ____ during ____ or lowOccupancy?
 ____ recorded and ____ consumption ____ there is ____ or no room?
 ____ be a ____ for ____ usage ____ be different ____ periods of ____ or no room in ____.
 ____ for ____ in water ____ on meters during unoccupied periods?
 There ____ a possibility ____ metered water ____ to be ____ there ____ and ____.
 Is ____ a possibility ____ metered ____ usage ____ during ____ of ____ or ____?
 ____ you know of any ____ causes for metered ____ use when ____ the house?
 What ____ between ____ water ____ use during ____ of low or meaningless occupancy on meters.
 ____ known what could ____ in ____ usage on meters during ____ of ____ than ____.
 ____ is ____ reason for ____ differences in recorded and true ____ unoccupied ____?
 What would ____ water use ____ meters and recorded ____ during times ____?
 ____ may ____ discrepancies while vacant.
 ____ would ____ to discrepancies ____ the ____ of ____ and ____ use during ____ meaninglessOccupancy?
 ____ do metered ____ true amount of ____ use ____ not ____ at ____ home?
 There ____ question ____ the ____ of ____ use ____ during ____ or no activity.
 There ____ question ____ the causes of ____ different in low and ____ periods.
 ____ would cause the discrepancies ____ actual ____ use on ____ of low or illusoryOccupancy?
 ____ do ____ true ____ of ____ vary when residents are not ____ the ____?
 During ____ of low ____ non-existentOccupancy, what might cause ____ recorded ____?
 There could be ____ recorded usage ____ water ____ actual ____ whenOccupancy ____ or ____.
 ____ there ____ possibility ____ usage ____ be ____ during low and noOccupancy ____?
 ____ is ____ reason metered results ____ from ____ water use ____ of reduced ____ occupancy?
 It's ____ what ____ usage on meters ____ times of lowOccupancy.
 Is ____ possible for ____ water ____ different ____ periods with ____?

Is there _____ the difference _____ use on metered _____ during _____?

How _____ there be _____ water use _____ on the _____ low or _____?

Why _____ metered and true _____ of _____ use vary when _____ living _____?

_____ factors affect _____ metered _____ consumption in _____ of little or _____?

There _____ be _____ between _____ on meters and recorded _____ low or non-existent Occupancy _____ a low rate of Occupancy so why do _____ than _____ use?

What _____ to discrepancies in _____ and _____ times _____ or no occupancy?

_____ for different recorded _____ consumption amounts when Occupancy is low?

If _____ why do _____ water _____ show different readings?

There _____ question _____ whether metered water use _____ of low and _____.

Why do different _____ water _____ meters _____ during _____ and _____ periods?

_____ would _____ discrepancies _____ usage _____ water and _____ use during _____ of low Occupancy?

What may lead _____ water usage _____ meters _____ is little _____?

When _____ are there _____ water metrics?
