

[Demo] NLP Dataset for Customer Service Automation

Company Type	Home Security and Alarm Companies
Inquiry Category	Alarm system troubleshooting and maintenance
Inquiry Sub-Category	Power supply problems
Description	Customers may encounter issues with the power supply to their alarm system, such as unexpected power failures or battery drain. Troubleshooting and maintenance procedures involve inspecting power sources, replacing batteries, or resolving electrical problems to ensure continuous power supply and system functionality.
Data Size	5,031 paraphrases
