

[Demo] NLP Dataset for Customer Service Automation

Company Type	Home Security and Alarm Companies
Inquiry Category	Alarm system troubleshooting and maintenance
Inquiry Sub-Category	Power supply problems
Description	Customers may encounter issues with the power supply to their alarm system, such as unexpected power failures or battery drain. Troubleshooting and maintenance procedures involve inspecting power sources, replacing batteries, or resolving electrical problems to ensure continuous power supply and system functionality.
Data Size	7,613 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Home Security and Alarm Company" customer inquiry. (Purchased data will not be masked.)

Are there any _____ to _____ when replacing batteries in our alarm _____ straightforward process?
_____ batteries for _____ system _____ or _____?

_____ for the _____ replacement of alarm system _____?

Do _____ have _____ be _____ taken _____ replacing _____ alarms' batteries _____?
