

[Demo] NLP Dataset for Customer Service Automation

Company Type	Electricity Suppliers
Inquiry Category	Complaints regarding high electricity bills
Inquiry Sub-Category	Faulty meters
Description	Inquiries about faulty meters or equipment that are not accurately measuring electricity usage, leading to inflated bills for customers.
Data Size	6,157 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Electricity Supplier" customer inquiry. (Purchased data will not be masked.)

Are ____ signs ____ in a household's ____ measurement ____ monthly expenses?

Are there errors ____ home's ____ usage ____ can lead to ____?

There ____ discrepancies in ____ utility ____ which can ____ higher ____ expenditures.

Is there ____ chance ____ utility ____ equipment is ____ my bills?

Is ____ increase in monthly ____ to the ____ with ____ measurement ____?

The utility ____ system ____ causing ____ costs ____ up.

____ it possible ____ utility measurement system ____ more money?

Is it possible that higher charges ____ by ____ in ____?

Can ____ in the utility measurement system ____ inflated costs?

____ it ____ errors ____ the ____ monitoring ____ can cause ____ increase in ____?

Is ____ within their utility ____ contribute to increased ____?

____ the household's measurement system ____ data that ____ to ____?

Is there ____ of ____ flawed ____ to increased ____?

____ possible that errors in the utility ____ system are ____?

____ may ____ discrepancies ____ our ____ utility measurement ____ which ____ to higher ____.

Is there ____ suggesting ____ the ____ are ____ leads to ____?

There ____ in ____ measurement system ____ could lead ____ higher ____ each month.

Are ____ in ____ home's utility measurement ____ to ____ costs ____ a ____?

____ evidence that ____ utility ____ setup causes ____ bills?

Is ____ possible that the ____ spending more ____ the inaccuracies ____ measurements?

____ is it ____ within their utility ____ setup will cause an increase ____ this ____?

____ family's monthly ____ could ____ due ____ readings ____ their utility measuring ____.

Increased spending ____ be ____ inaccurate readings from ____.

Are ____ expenses ____ due ____ utility ____ inaccuracies?

The home's utility measuring arrangements may ____ expenditures.

____ it possible that ____ the ____ system are ____ expenses?

____ discrepancies in the home's ____ measuring ____ that can cause ____.

Are ____ expenses ____ households due ____ measurement inaccuracies?

Is there a ____ between ____ and ____ bills?

____ may ____ in measuring home utilities that lead ____.

Is _____ in the home's utility _____ to _____ costs?

Will _____ the _____ measurement system _____ to inflated _____?

_____ possible that _____ a residence's _____ monitoring _____ could _____ expenditures?

_____ family's _____ expenses _____ readings in their home's utility measuring.

_____ you think I'm _____ more every month _____ inaccurate _____?

The _____ measurement _____ in _____ costs if there are discrepancies _____.

_____ measuring utilities _____ higher _____ expenses in households.

Is _____ readings from the _____ utilities _____ to _____ spending?

Is _____ spending _____ readings _____ the household's utilities.

A _____ in monthly expenses _____ in their home's _____ measuring system.

It's possible _____ our _____ utility measurement _____ to _____.

_____ any _____ that discrepancies within _____ utility _____ to increased expenditure?

How likely _____ it that errors _____ utility _____ increase _____ cost for this residential _____?

Is _____ household's _____ malfunctioning which leads _____ bills?

Is _____ that errors in a _____ can lead _____ increased _____?

Is it _____ errors _____ the _____ usage tracking _____ lead _____ increased _____?

_____ flawed utility _____ system causing _____ costs each _____?

_____ the _____ spending _____ each _____ the utilities readings _____ inaccurate?

_____ there a _____ their utility measuring _____ contributing _____ increased expenditure?

_____ there a chance _____ utility _____ equipment _____ increasing _____ bills?

_____ a flawed _____ setup _____ leads to higher _____?

_____ it possible that _____ shoddy _____ equipment is increasing _____?

Is _____ correlation between inefficiencies in the home's _____ costs?

_____ flawed _____ system _____ costs to go up?

Is _____ possible that my _____ is _____ and _____ monthly _____?

_____ the household's utility _____ recording _____ that _____ higher expenses?

Prices are higher due _____?

_____ caused by _____ utility readings.

Is _____ possible _____ the utility _____ system _____ elevated _____ month?

Is _____ household's _____ causing high _____?

Is it possible _____ utility _____ system leads _____ increased _____?

Is it _____ that errors _____ a residence's _____ to increased _____?

Are _____ spending more _____ utility _____?

_____ system at _____ home to _____ increased monthly expenses?

Does a household's utility measurement _____ problems _____ costs?

Does _____ utility _____ show _____ can result _____ higher expenses?

Are households _____ more _____ due _____ discrepancies?

Is it _____ to _____ the utility _____ system within _____ in _____ costs?

_____ possible that the home's utility measuring arrangements _____?

_____ in the home's utility _____ process _____ costs _____ monthly?

Is inaccurate readings _____ utilities connected _____ spending?

_____ home's _____ measurement _____ to _____ costs _____ a monthly basis?

The _____ of _____ home's _____ services _____ be pushed _____ information.

Is _____ error in _____ energy usage tracking _____ lead to _____ costs?

Can _____ detect discrepancies in _____ that could lead _____ costs?

_____ there _____ wrong _____ household's utility _____ that could _____ to _____ charges?

_____ family's _____ going to _____ up because of _____ in their utility _____?

Is it possible that _____ in a _____ utility _____ lead _____?

_____ possible _____ inaccurate measuring _____ can lead to _____ bills?

_____ think _____ readings are _____ me pay more?

Monthly costs _____ be _____ up by _____ utility _____.

_____ utility measuring arrangements _____ be the reason _____ higher _____.

Can _____ discrepancies in _____ system that _____ inflated costs?

Is _____ tracking mechanism to _____ the _____ expenses?

_____ be higher monthly _____ because _____ utility _____ inaccuracies.

_____ the _____ metering system _____ blame for increased _____?

_____ be _____ within a _____ Utili-metering systems impacting their _____.

Is _____ flawed _____ measurement _____ the _____ costs each month?

Is there _____ measurement system to have _____ bills?

Is _____ household's _____ that result in _____ monthly expenses?

_____ it _____ that _____ utility measuring system _____ increased expenditures?

_____ are discrepancies _____ the home's _____ may cause _____ monthly expenditures.

_____ inefficiencies _____ the _____ utility measurement _____ making _____ costly _____ monthly basis?

_____ measurement _____ for _____ utility leading to higher _____?

Is it _____ that inefficiencies _____ the home's _____ process can _____ on a _____ basis?

_____ a household's _____ measurement _____ show accuracy _____ add _____?

Are _____ signs _____ the household's _____ measurement _____ that leads to higher _____?

Is _____ a _____ setup causes bills to _____?

_____ possibility _____ expenses due to the _____ metering system?

Is the _____ measurement system making _____ that _____?

Problems _____ utilities may _____ higher _____ expenses _____ households.

Is _____ an issue with _____ household's utility _____ expenses?

Is higher monthly _____ to discrepancies _____ utility _____?

_____ the _____ monthly expenses related _____ the utility _____?

_____ an _____ utility measurement _____ that might explain _____ increase _____ expenses?

Is _____ monthly expenditures due _____ discrepancies _____ home's utility _____?

_____ experiencing higher monthly _____ due to _____ inaccuracies.

_____ to suggest the _____ of home _____ may cause _____ bills?

_____ measurement _____ recording inaccurate information leading to _____ expenses?

Is _____ a possibility _____ per _____ due to the utility _____?

Is _____ the _____ measurement system _____ to higher charges _____ month?

Do _____ expenditures happen due _____ in the _____ utility _____?

_____ measurement system show accuracy _____ can lead _____ higher _____?

Is higher _____ with the _____ utility measurement _____?

_____ that inaccurate meters are _____ me pay _____ month?

Are there issues _____ the _____ system _____ the _____ in _____ expenses?

_____ it _____ your utility _____ is jacking up _____?

Is _____ possible that errors _____ residence's utility _____ scheme _____ monthly expenditures?

Is our _____ system flawed _____ leads to _____?

Monthly costs may be _____ because _____ the _____ system.

_____ a rise _____ for this family _____ of _____ utility readings?

Is the home's _____ tracking _____ elevated expenses?

Is _____ that errors _____ the home's _____ tracking mechanism _____ elevated _____?

Does _____ flawed measurement _____ costs?

_____ of a _____ setup that leads _____ bills?

_____ readings from the household's _____ contribute to overspending?

Is the _____ utility measurement _____ causing _____?

_____ be _____ in _____ of home utilities _____ higher monthly bills.

_____ utility _____ arrangements _____ lead to higher monthly _____.

____ it ____ that errors in the ____ measurement ____ are ____ expenses?
 Is it ____ in the ____ usage ____ to increased costs?
 ____ a connection ____ discrepancies ____ their ____ measuring system ____ increased ____?
 ____ measuring ____ utilities ____ cause ____ monthly bills.
 Have ____ noticed an ____ in ____ the utility measurement system?
 ____ are ____ higher monthly ____ due to utility ____.
 ____ it ____ for ____ in the ____ to ____ to higher ____ month?
 Is ____ in the ____ measurement process ____ costs ____ monthly basis?
 Is ____ measurement ____ causing ____ costs?
 Is ____ utility ____ system ____ this residence ____ for ____ increased ____ expenses?
 ____ utility measuring ____ might ____ to blame ____ higher ____ expenditures.
 The household's ____ system ____ that cause higher ____.
 ____ spending ____ to inaccurate ____ from ____ household's utilities?
 There ____ within a residence's ____ that contribute ____ increased expenditures.
 Is it possible that ____ energy ____ tracking ____ monthly costs?
 Is inaccurate readings ____ the household's ____ spending?
 There ____ flaws ____ how ____ measured which ____ lead to ____ expenditures.
 Is it possible ____ utility ____ system ____ making us ____?
 There could ____ a ____ measurement setup leads ____ bills.
 Could there ____ errors in ____ measurement system ____ to ____?
 ____ it ____ that ____ a ____ utility ____ could lead to ____ each month?
 Difficulties ____ can result in higher ____ expenses ____.
 Is it possible that ____ reading is ____ the ____ bills?
 Is ____ possible that mistakes ____ utilities may ____ higher ____?
 Is it possible that ____ up because ____ in ____ system?
 It ____ your metering system are out of ____.
 ____ between ____ within their ____ measuring system and increased ____?
 ____ be linked to inaccurate ____ the ____ utilities.
 Are discrepancies ____ arrangements a cause of ____ expenditures?
 ____ the ____ utility ____ and inflating its ____ bills?
 ____ possible ____ a residence's utility monitoring ____ can lead ____ increased ____.
 Is the household's ____ flawed ____ may ____ higher bills?
 Is it ____ that ____ are increasing ____ of inaccurate ____ measurements?
 ____ error in ____ home's ____ usage ____ that ____ to increased costs?
 ____ experience ____ expenses due ____ utility ____ inaccuracies.
 Have ____ noticed an ____ in ____ expenses ____ to some ____ with ____ system?
 Is ____ that a ____ to ____ going up?
 Does ____ measurement system cause ____?
 ____ possible ____ meter ____ to make ____ pay ____ each month?
 ____ possible for a mistake ____ our utility ____ device ____ each month?
 ____ their home's utility measuring lead ____ a ____ monthly expenses?
 ____ it ____ inaccurate measuring of ____ may lead ____ higher ____?
 ____ likely is ____ that errors ____ the utility ____ an increase in ____ cost of ____ residential ____?
 ____ measurement ____ recording incorrect information that leads ____ expenses?
 ____ possible that errors within the utility ____ scheme ____?
 Is ____ within their utility ____ system and ____ expenditures ____ month?
 How likely ____ it ____ within the ____ will ____ increase ____ cost ____ this residential unit?
 How ____ it ____ their measurement setup will increase ____ cost for ____?
 ____ it ____ the costs ____ going ____ due to ____ inaccurate utility measurement?
 ____ there ____ issues with ____ measurement system ____ explain the increase ____?

____ it possible that inaccurate ____ to pay ____ each ____?
 ____ it possible that ____ measurement ____ is ____ expenses ____ up?
 Is ____ spending possible ____ inaccurate readings from ____?
 ____ inaccurate ____ in ____ home's utility ____ cause ____ rise ____ monthly expenses ____ this ____?
 ____ family's monthly expenses ____ rise ____ utility readings.
 ____ errors ____ a residence's utility ____ scheme ____ to increased expenditures?
 ____ expenses may go ____ due ____ inaccurate ____ their ____ measuring.
 There could ____ with ____ household's utility measurement system ____.
 How likely ____ that errors within their ____ measurement setup are ____ a rise ____?
 ____ that the ____ expenses per month ____ due to the ____?
 Is it possible that errors in ____ measurement ____ expenses?
 Is ____ their utility measurement errors are ____?
 ____ household meters ____?
 Is ____ readings from the household's ____?
 Is it ____ that ____ present ____ the utility monitoring ____ to ____?
 ____ possible ____ measurement ____ has ____ are affecting the monthly expenses?
 ____ household's utility measurement ____ errors that result ____ expenses?
 Is there ____ on ____ basis due ____ inefficiencies in ____ home's ____ measurement ____?
 ____ any correlation ____ in ____ utility measuring ____ higher monthly expenditures?
 ____ of ____ our household's utility measurement ____ leading to ____ bills?
 There may be ____ the home's ____ that ____ lead to ____ monthly ____.
 Is a household's ____ system ____ monthly expenses ____?
 Is a household's ____ measurement ____ expenses more ____?
 A household's utility ____ causing ____ monthly expenses.
 Is it possible ____ the costs for ____ are ____ due to ____?
 ____ in a residence's utility ____ scheme can ____ increased expenses?
 ____ measurement system could ____ lead ____ higher charges each month.
 Is it ____ that ____ readings of ____ utilities ____ cause ____?
 ____ with ____ measurement system ____ may explain the increase ____ monthly expenses?
 ____ possible ____ cost ____ living ____ household is ____ due ____ inaccurate utility measurements?
 Is monthly ____ higher due ____ in the ____ arrangements?
 ____ may be ____ that flawed utility ____ setup ____ to ____.
 Increased ____ could be linked ____ readings from ____.
 ____ flawed ____ system the ____ of increased costs?
 There ____ be flaws ____ utilities are measured, leading ____.
 ____ it possible that ____ process ____ lead ____ higher costs ____ a ____ basis?
 ____ going up ____ of incorrect ____?
 Is ____ system at this house ____ blame ____ monthly ____?
 ____ is it that errors in their ____ measurement ____ are ____ an ____ cost ____ a ____?
 Is ____ that errors ____ the utility ____ increasing ____ monthly expenses?
 Is it possible ____ utility measuring ____ is ____ in ____ bills?
 ____ may ____ some discrepancies in ____ system that may ____ higher bills.
 ____ flawed ____ setup the cause of ____?
 Is it possible ____ measurement system can ____ inflated ____?
 Is ____ possible that ____ discrepancies within their ____ contributes to ____ each ____?
 Is ____ discrepancies in the utility measurement ____ that lead ____?
 ____ family's monthly expenses could ____ readings in ____ home's utility ____.
 ____ that ____ system leads ____ higher charges each month?
 ____ household's ____ system ____ be malfunctioning, ____ inflated ____ bills.
 ____ it ____ costs for ____ household are ____ up ____ utility measurements?

Is _____ readings from _____ spending each month?
 _____ the _____ measurement system have errors _____ higher _____?
 Could _____ utilities contribute _____ overspending?
 Is a _____ inflated bills?
 Increased _____ a result _____ readings from the _____ utilities.
 _____ increase in monthly _____ due to _____ with our _____ measurement _____?
 _____ monthly _____ a home's utility _____ may _____ by inaccuracies.
 _____ possible that errors in the _____ to blame _____ expenses?
 _____ that flaws in how utilities are measured _____ increased _____?
 Is _____ households _____ more due to utility measurement _____?
 Is _____ utility measurement _____ the monthly _____ increase?
 _____ might _____ a flawed measurement setup _____ increased bills.
 _____ household's _____ utility measurement system _____ lead _____ costs.
 The _____ utilities tracking _____ lead to elevated _____.
 _____ it possible that the utility _____ contributes _____ per _____?
 _____ there _____ possibility of _____ in our _____ energy usage _____ increased _____ costs?
 _____ possible that errors _____ measurement system are _____ our _____?
 _____ household's utility measurement system could _____ charges _____ month.
 What do _____ think _____ the _____ that _____ readings are _____ pay _____?
 _____ a household's utility measurement system _____ monthly expenses?
 _____ signs that _____ household's utility _____ leads _____ higher bills?
 There could be _____ home's utility measuring arrangements _____ monthly _____.
 Problems with _____ utilities could _____ monthly _____.
 Is _____ that a _____ utility _____ system _____ higher monthly expenses?
 _____ errors within a residence's _____ contribute _____ increased _____?
 Do _____ experience higher monthly _____ to _____ measurement _____?
 Is _____ household's _____ measurement system leads _____ higher charges each _____.
 Does a household's _____ that lead _____ higher costs?
 Are _____ higher _____ of _____ utility _____?
 On a _____ basis, do inefficiencies _____ result in _____ costs?
 There _____ be _____ in _____ utility _____ system _____ lead _____ bills.
 Is _____ that _____ a residence's utility monitoring _____ leads _____ expenditures _____ month?
 _____ utilities _____ mechanism may lead to _____.
 _____ it possible that _____ our _____ could _____ increased monthly costs?
 _____ the _____ measurement system _____ inaccurate _____ that results _____ bills?
 _____ can be attributed to inaccurate _____ the _____.
 _____ household's utility _____ system recording errors _____ higher _____ bills?
 _____ measuring _____ can lead to _____ expenses _____ households.
 On _____ monthly basis _____ inefficiencies in _____ process lead _____ higher _____?
 _____ be problems with our _____ utility _____ system _____ charges each month.
 _____ you _____ an increase _____ monthly _____ because of _____ utility _____ system _____?
 _____ it possible _____ utility metering system results _____ costs _____?
 _____ see if _____ are errors _____ our _____ usage tracking?
 Problems with _____ in higher monthly expenses _____.
 _____ home's utilities tracking _____ be to _____ expenditures.
 There may _____ in how utilities are _____ lead to _____.
 Is the _____ inaccurate information _____ higher monthly expenses?
 _____ there a flawed _____ setup _____ going up?
 _____ in the home's _____ measuring arrangements _____ monthly _____.
 _____ may be experiencing higher monthly _____ because _____.

____ it possible ____ readings from ____ to increased spending?
 Could incorrect ____ the household's ____ increased spending?
 Is our household's ____ leading ____ higher ____?
 ____ be something ____ our household's ____ system ____ leads to higher ____ each ____.
 The household's ____ measurement ____ might have ____ cause ____.
 Is it possible ____ measurement ____ utilities ____ lead ____ higher ____?
 Could inaccurate ____ their utility measuring ____ a rise ____ family?
 ____ flawed utility measurement ____ can lead to ____ bills.
 Is it possible ____ in our ____ device ____ result in ____ month?
 ____ a ____ have discrepancies ____ their ____ systems impacting ____ month-to-month ____?
 ____ there ____ that ____ utility ____ bills to go up?
 ____ it possible ____ errors ____ our home's energy ____ is leading ____ monthly ____?
 ____ the increase ____ expenses related ____ utility measurement system?
 A ____ in ____ be caused by ____ readings ____ utility measuring.
 How likely ____ it ____ errors in ____ measurement ____ cause ____ increase ____ cost ____ residential ____?
 How ____ inaccurate ____ making me pay ____ every month?
 ____ deficiencies ____ a household's utility measuring ____ for inflated ____?
 Is it possible ____ measuring ____ home ____ lead to ____ bills?
 How do ____ utility ____ process affect monthly ____?
 ____ there evidence ____ measurement setup leads ____ bills?
 Difficulties with measuring utilities ____ expenses.
 ____ possible ____ the utility measurement ____ within households that can lead ____ costs?
 ____ it possible that inaccurate readings ____ could ____ a rise ____ monthly expenses for ____?
 ____ utility measuring system could ____ malfunctioning, leading ____ bills.
 ____ be discrepancies in ____ measurement system which may ____ higher ____.
 ____ that ____ readings in their ____ measuring could cause a ____ expenses?
 How ____ is ____ that ____ measurement ____ are causing an ____ in cost for ____ unit?
 ____ the ____ system ____ inaccurate ____ that results ____ higher expenses?
 Is ____ that the costs for ____ household are ____ to ____ measurement?
 ____ that our ____ utility measurement ____ lead to higher ____.
 ____ a possibility ____ my utility ____ malfunctioning and ____ my ____ expenses?
 ____ utility ____ system ____ blame for increased costs ____ month?
 Households are ____ higher ____ expenses ____ to ____ utility ____.
 ____ possible that ____ measuring utilities results in higher ____?
 ____ utility ____ system ____ costs to go up.
 ____ possible that our utility measurement ____ making ____ more?
 ____ the household's utility ____ recording ____ that results in ____ monthly ____?
 ____ it ____ for errors in ____ to lead to higher ____?
 Is ____ possible that ____ shoddy ____ measuring ____ is ____ up ____?
 ____ possible that ____ of home ____ may lead ____ higher ____?
 How ____ is ____ that ____ within ____ utility ____ are causing ____ increase in ____ cost ____ this residential unit ____?
 ____ likely is it ____ errors in ____ causing an ____ in ____ cost of this ____ unit ____ examined?
 There might be a flawed utility ____ to ____.
 ____ it possible ____ system cause increased expenditure each month?
 ____ household's utility measurement system making ____ higher?
 Is ____ possible that elevated expenses ____ might ____ a result ____ system?
 ____ it ____ that ____ shoddy utility measuring ____ inflating my ____?
 Is ____ household's utility measurement ____ blame ____ expenses?
 ____ inaccurate ____ the household's utilities ____?
 ____ it possible that ____ the ____ contribute ____ increased expenditure ____ month?

____ it ____ my utility ____ is ____ and ____ inflated ____ expenses?
 Is ____ utility measurement ____ flawed ____ to higher bills?
 ____ a correlation between ____ in ____ utility measurement process ____?
 Is it possible ____ meter readings ____ pay more ____?
 ____ it possible to detect ____ in the ____ system, leading ____?
 Have ____ an ____ in ____ due to an issue ____ the ____ system?
 ____ the cost ____ home's ____ services ____ pushed ____ by inaccuracy?
 ____ issues with the utility measurement system that ____ in monthly ____?
 Our household's ____ system could ____ higher charges ____.
 Are ____ more ____ inaccurate ____ measurement?
 ____ any issues with ____ utility ____ the increase in ____ expenses?
 Is ____ cost ____ home's ____ services ____ pushed up by ____ information?
 ____ possible ____ your shoddy utility ____ equipment ____ raising my ____?
 ____ bills due ____ discrepancies between ____ utilities and ____ consumption?
 ____ our ____ measurement ____ which could lead to higher ____ each month.
 ____ possible that discrepancies arise that result ____?
 Can ____ find ____ utility ____ that ____ lead to inflated costs?
 ____ household expenses ____ because ____ measuring ____?
 ____ household's ____ system recording inaccurate ____ can lead ____ higher monthly ____?
 ____ that ____ errors in ____ monitoring ____ can lead to increased ____?
 Is ____ correlation ____ inefficiencies in the ____ utility ____ process ____ monthly ____.
 ____ likely ____ it ____ errors ____ measurement setup will cause ____ residential unit to ____?
 Is ____ monthly ____ for this family due ____ inaccurate ____ in ____ utility ____?
 ____ it possible ____ tracking ____ leads to elevated expenditures?
 Mistakes in ____ measuring ____ result in ____ charges.
 ____ it ____ within ____ utility monitoring scheme ____ cause ____ expenditures?
 ____ you ____ an ____ expenses due to ____ utility measurement ____?
 Is ____ possible ____ inaccurate measuring of home ____ cause ____?
 Is there ____ of discrepancies ____ their utility ____ system contributing ____?
 ____ you know how inaccurate ____ readings ____ pay ____ each ____?
 The ____ tracking ____ may ____ that result in higher ____.
 Is ____ in our ____ an inaccurate meter reading?
 ____ likely is it ____ their utility measurement ____ an increase ____ cost for ____ unit being examined?
 ____ the utility measurement ____ at ____ residence ____ increased expenses?
 Is ____ possible that ____ a residence's ____ an increase ____ expenditures ____ month?
 Is there a correlation ____ utility measuring ____ increased expenditure ____ month?
 Is the ____ home's utilities ____ pushed ____ inaccurate information?
 The family's monthly expenses ____ rise ____ utility ____.
 Is it possible ____ month are ____ to the ____ system?
 Is ____ measurement system messing ____?
 ____ in ____ home's ____ measurement process lead to ____ month?
 ____ discrepancies ____ the utility measurement system ____ could ____ to ____ charges.
 Is ____ a flawed setup ____ increased bills?
 Is the monthly costs ____ a home's ____?
 There ____ in ____ household's ____ system ____ lead to higher bills.
 Is it ____ that inefficiencies in ____ measurement ____ leads to ____?
 ____ possible ____ measuring home utilities will ____ higher monthly ____?
 ____ a chance ____ your utility ____ is costing ____ more?
 ____ it possible that ____ monthly bills ____ going up ____ of ____ utility ____?
 ____ possible to detect ____ the utility measurement system ____ to inflated ____?

_____ increase _____ of difficulties with measuring _____?

_____ a flawed _____ measurement _____ costs to _____ up?

How _____ it _____ errors _____ utility measurement _____ will cause _____ cost _____ for this residential _____?

Is it possible there _____ in _____ usage tracking _____ lead to _____ costs?

_____ it _____ that _____ in their utility measurements _____?

_____ it _____ metering system _____ result in elevated expenses?

_____ the _____ utility _____ leads to higher costs?

Is the household's _____ system _____ errors that _____ expenses?

_____ we know if _____ utility _____ system _____ pay higher bills?

_____ that the household's utility measurement _____ is _____ monthly _____?

_____ monthly costs of a _____ up by inaccurate _____.

How _____ it that errors _____ setup are causing _____ in _____ for _____ unit being examined?

_____ it _____ problems _____ utilities result in higher _____ expenses?

Is it possible _____ there _____ in _____ usage tracking _____ to increased _____?

Households may _____ higher _____ difficulties measuring utilities.

Is _____ possible _____ inaccurate _____ the household's utilities _____ spending?

_____ possible that the _____ costs are going up _____ measurement?

_____ any evidence _____ setup causes bills to increase?

Have you _____ monthly _____ because _____ some _____ with the utility _____ system?

_____ the monthly _____ a home's utility _____ being _____ up _____?

_____ the _____ utility measurement _____ malfunctioning _____ it more?

Is it _____ errors _____ residence's _____ monitoring scheme can _____ increased _____?

Is _____ measurement _____ this _____ for increased monthly expenses?

Is _____ due _____ mistakes in our utility _____?

Are _____ higher _____ to difficulties _____?

_____ monthly _____ could _____ up if the _____ in _____ are inaccurate.

_____ may be some _____ in our _____ measurement system that _____ to _____.

There _____ with our household's _____ measurement _____ leading _____ charges.

There could be _____ in _____ household's _____ measurement _____ that _____ each month.

The family's monthly expenses _____ increase _____ readings in _____.

Is a household's _____ measurement _____ cause _____ higher _____?

_____ there _____ relationship _____ flawed utility _____ setup and _____?

_____ you confirm if _____ are _____ in _____ home's energy _____?

_____ household meters could _____.

_____ chance _____ in the utility _____ system are affecting _____?

Is it possible that _____ measurement system _____ expenses?

Problems _____ utilities _____ result in _____ expenses.

_____ it true that _____ utility measurement _____ leads to _____ costs on _____ monthly _____?

_____ of a _____ utility measurement _____ to increased bills.

_____ home's utility measuring _____ higher monthly expenditures.

_____ there errors in our _____ energy _____ which _____ increased _____ costs?

_____ household's _____ system _____ be _____ higher monthly expenses.

Are households _____ more money _____ to _____?

_____ the household's _____ recording errors _____ are _____ in higher monthly _____?

_____ there _____ with the household's _____ higher monthly expenses?

Is inaccurate _____ a rise _____ monthly expenses _____ family?

_____ are _____ higher monthly expenses due _____ inaccuracies.

Is _____ that errors in _____ utility measurement _____ affecting monthly _____?

The _____ metering system _____ expenses _____ month.

Is _____ possible _____ home utilities may cause _____ bills?

home's arrangements could blame for higher monthly .
 it possible home's utilities causes higher ?
 discrepancies in measuring reason higher monthly expenditures?
 likely is it within is an increase in cost this unit?
 there a discrepancies the system and increased each month?
 it inaccuracies may lead to higher bills?
 a the household's utility measurement charges each month?
 Is the measurement system linked each ?
 it possible that readings household's affect spending?
 Is possible inaccuracies costs of utilities?
 Does the increase costs?
 measurement system higher expenses?
 it inaccurate household's utilities contributes to each month?
 Is it for in utility to to higher each ?
 any with utility measurement might explain the increase monthly expenses?
 Is it in home's tracking lead increased costs?
 The flawed system costs.
 malfunctioning a household's system blame inflated bills?
 How in the measurement setup are increase in the this residential unit?
 due to from the household's utilities.
 Does the household's measurement cause ?
 Is it true inefficiencies in the utility measurement ?
 household more money because inaccurate the utilities?
 the utility system the of costs?
 Is possible for family are of utility measurement?
 it our household's utility measurement leads to charges ?
 be a utility measurement causing higher monthly .
 possible their utility system to increased each month?
 it detect discrepancies in the system within result in ?
 difficulties with measuring result higher ?
 Is the utility measurement monthly expenses?
 Is within the monitoring scheme can result in ?
 possible that of home may higher bills?
 the flawed measurement system ?
 Problems measuring might higher within households.
 How that errors within their measurement cause a in for this ?
 may within a utili-metering their month-to-month liabilities.
 Is it that usage can cause increased monthly ?
 discrepancies measuring arrangements lead to monthly expenditures.
 Is our utility measurement that explain increase in monthly ?
 it possible the of living because the utility measurements?
 utility system recording incorrect information higher expenses?
 in utility measuring arrangements higher monthly expenditures?
 possible inaccurate meter reading is the recent in bills?
 be our measurement that may to higher bills.
 be errors the that lead higher charges each ?
 true that with measuring utilities higher monthly ?
 possible inaccurate readings cause me pay every ?
 possible that household's contribute to spending?
 measuring utilities lead to monthly households.

_____ with measuring _____ in _____ monthly expenditures.
 Is it _____ errors _____ home's _____ can lead _____ elevated expenditures?
 Is _____ inaccurate readings from the _____ utilities could _____ to _____?
 _____ in the _____ utility _____ process _____ monthly costs?
 _____ the household's _____ have _____ that increase _____ expenses?
 The household's _____ system _____ cause _____ costs.
 _____ indications of _____ their utility _____ to increased expenditure?
 _____ possible that inaccurate _____ of home utilities _____ result _____ monthly _____?
 _____ family's _____ might go up _____ inaccurate utility _____.
 _____ household's utility _____ be malfunctioning, causing _____ bills.
 _____ discrepancies _____ the home's _____ measuring arrangements _____ monthly expenditures?
 Could _____ measurement _____ be malfunctioning, _____ to higher _____?
 _____ any _____ that a _____ setup _____ to _____ going up?
 Is _____ possible that _____ shoddy utility _____ equipment _____ bills?
 _____ that _____ in a residence's _____ scheme cause _____ expenditures?
 Is _____ possible _____ in _____ measurement _____ leads to _____ on a monthly basis?
 _____ it possible _____ there _____ their _____ system that _____ to increased expenditure _____ month?
 _____ in our _____ measuring device can _____ to _____.
 Do _____ issues with our utility _____ that could explain the _____ monthly _____?
 Does _____ utility measurement _____ show accuracy _____ in _____ expenses?
 Is it possible _____ the _____ household _____ due _____ in their utility measurement?
 _____ it possible _____ utility measurement _____ could lead _____ higher _____ each _____?
 _____ the household's _____ lead to increased _____?
 _____ expenses due to _____ in _____ utility measurement _____?
 _____ rise in _____ expenses for _____ caused by _____ utility readings.
 _____ it possible _____ up my monthly bills?
 _____ possible that _____ measuring system _____ to increased expenditure monthly?
 _____ in _____ home's utility _____ process making _____ more _____ monthly basis?
 _____ discrepancies in the _____ system _____ inflated costs?
 Can you _____ if _____ mistakes in _____ home's _____ usage _____?
 How _____ is _____ that errors _____ measurement _____ will _____ spike in _____ for this _____ unit?
 _____ possible that _____ in _____ are increasing costs for this _____?
 Does our _____ measurement system lead _____?
 _____ elevated expenses per month _____ due _____ the utility metering system?
 There might be _____ expenses _____ measurement inaccuracies.
 _____ in _____ utility measuring device can lead _____ higher _____.
 A rise _____ monthly expenses _____ to inaccurate _____ in their utility _____ device.
 Could _____ system _____ expenses per month?
 _____ likely is it that _____ in their _____ setup are _____ an _____ this residential _____?
 _____ more money due to _____ measurement _____?
 On _____ basis _____ in _____ home's _____ process lead to _____ costs?
 Is there higher _____ due _____ discrepancies in _____ home's _____?
 _____ higher monthly _____ observed due _____ home's utility measurement _____?
 _____ it possible _____ errors _____ a residence's utility _____ to increase?
 _____ there are _____ utility metering system results _____ per month?
 _____ possible that _____ utility measuring _____ to increased expenditures?
 Is _____ a connection _____ measurement inaccuracies _____ expenses?
 A _____ in monthly expenses _____ by _____ in _____ home's utility _____ device.
 _____ between _____ readings from the _____ and increased spending _____ month?
 _____ possible that _____ measuring equipment is hiking up _____?

_____ in the _____ measurement system _____ expenses?

_____ you noticed an _____ because of problems _____ utility measurement _____?

_____ it _____ in a residence's _____ scheme _____ lead to _____ spending _____ month?

Is _____ possible _____ inaccurate readings from the _____ can _____?

Is _____ household's flawed _____ system _____ increased _____ each _____?

_____ our _____ measurement _____ likely to _____ higher bills?

_____ likely _____ it that errors _____ their _____ measurement setup are _____ the cost _____ this _____ unit?

_____ it possible that _____ in a residence's _____ scheme can _____?

Is _____ home's utility measurement process _____ to higher _____?

_____ might be _____ home's _____ usage tracking _____ increased monthly costs.

The _____ monthly expenses _____ go _____ of _____ utility _____.

_____ issue with our _____ energy _____ tracking _____ leads to _____ monthly _____?

_____ expenses might be caused by inaccurate _____.

Our household's _____ measurement system _____ higher _____.

Is it possible that _____ utility measuring _____ to _____ expenditure _____.

The _____ flawed utility _____ may _____ higher costs.

_____ the utility _____ errors driving _____ monthly _____?

Monthly costs _____ be _____ utility measurement system.

_____ the _____ measurement system _____ bills?

_____ of _____ home's _____ may be pushed _____ inaccurate information.

Is it possible that _____ month are _____ result _____ system?

Incorrect _____ can _____ bills.

Is it possible _____ metering _____ causes _____ expenses _____?

Monthly _____ might _____ up because _____ in _____ measurement system.

Are households _____ more each _____ due to _____?

_____ the household's flawed utility _____ system _____ increased _____?

Is the _____ system _____ more _____?

Is _____ possible _____ in our home's _____ tracking can _____ increased monthly _____?

_____ there _____ that flawed utility _____ setup leads _____?

_____ the household's utility costs are _____ incorrect measurements?

_____ the _____ system _____ accuracy issues that _____ bills?

_____ the home's _____ tracking mechanism making _____ result in _____?
