

[Demo] NLP Dataset for Customer Service Automation

Company Type	Water and Wastewater Utility Companies
Inquiry Category	Service interruption and outage reports
Inquiry Sub-Category	Low Pressure
Description	Customers inquire about low water pressure issues in their area, seeking information on the cause, potential impacts on their daily activities, and updates on the status of repairs.
Data Size	8,912 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Water and Wastewater Utility Company" customer inquiry. (Purchased data will not be masked.)

Are _____ any alternative _____ or _____ place _____ ensure _____ steady _____ of water _____ for this _____?

_____ have contingency _____ in _____ that we _____ without water?

Can _____ rely _____ a _____ water while _____ is fixed?

_____ if there are substitute methods in place _____ an adequate _____?

_____ possible _____ a continuous water _____ during repairs.

_____ there be an _____ to _____ availability?

How _____ you going to keep _____ while _____ mess?

Is there an alternative _____ these repairs?

_____ can we make _____ supply _____ while _____ fix _____ problem?

Is there _____ make sure that _____ don't _____ water _____ maintenance _____?

_____ we use alternative _____ a consistent _____ during the _____?

Do _____ alternative _____ to _____ access to clean, _____ repairs?

_____ a secondary supply _____ place _____ of _____ during critical maintenance _____?

_____ be _____ backups or _____ for _____ provision?

Do you _____ any contingency _____ to _____ water _____ these _____?

Is _____ get a reliable _____ these repairs?

_____ there _____ ongoing water provision?

What _____ can _____ water availability?

_____ options for water provision during _____.

Can _____ sure of _____ you're fixing the _____?

Is _____ a reliable water _____ these repairs?

Is there _____ the _____ supply?

_____ alternative _____ of water we can _____ the repair _____?

Is there any _____ secure _____ water _____?

Do you _____ plans to _____ a _____ source?

_____ there a way _____ enough water provision _____ issue?

Is there _____ plan _____ water flowing while _____ it?

_____ a _____ to sustain _____ water _____ while _____ is solved?

Can _____ assure _____ to clean drinking water _____ are _____ place?

Will there be _____ plan _____ a water _____?

_____ substitute solutions to ensure continuous _____?

_____ there _____ way _____ constant water supply _____ repairs?

Do you have contingency _____ protect a _____?

Is there any other _____ supplying _____ during _____?

Can _____ be _____ continual access _____ sufficient _____ during the _____?

_____ don't want to _____ out _____ you have _____ options?

Do you _____ options _____ don't dry _____ during _____?

Is there a _____ for maintaining _____ repairs?

_____ there backup resources _____ there's no _____ in water supply _____ repairs?

_____ it _____ to _____ a _____ while _____ are going on?

How can _____ provide adequate water _____ fixing _____?

_____ there any _____ water _____ repairs if the _____ low?

_____ backup plans for _____?

_____ ways in which to get a _____ water _____ are _____ made.

_____ there a way _____ keep _____ water _____ continuous _____ are _____?

_____ there _____ other sources of water _____?

_____ there an alternative _____ ensure _____?

_____ there any backup plan for _____ that _____ fix _____?

What _____ water availability during repairs?

Can you tell _____ methods used to assure a water _____ the _____?

_____ it possible you have backup _____ we _____?

_____ there a _____ keep the water flowing _____ mess _____?

Is _____ a _____ mechanism in place _____ delivery _____ critical maintenance _____?

Can _____ come _____ with _____ way to keep _____?

There _____ different _____ water to come _____ while _____ are _____.

How _____ get a consistent _____ repair process?

Is a secondary supply mechanism in place _____ the _____?

Is _____ backup plans _____ keeping that water _____ fix _____ mess?

Is _____ to secure the _____ supply while the _____?

_____ supplementary approaches implemented for a _____ flow?

Will there be _____ source _____ water while _____ problem?

_____ there _____ an _____ supply _____ usable water while _____ this _____?

You _____ have any _____ options _____ to _____ agua throughout the _____?

_____ extra options _____ ways to guarantee enough agua during _____?

_____ can _____ a consistent water flow _____ this _____?

During _____ H2O _____ secure?

Will there _____ for ongoing water _____?

_____ any backups for _____ water _____?

Do _____ a _____ water source during these repairs?

_____ any _____ our _____ strong while you _____ this problem?

Is there _____ other _____ to _____ water during _____?

_____ another _____ in the event that _____ water _____ disrupted?

_____ be done to maintain water _____ the _____?

_____ may _____ or procedures _____ make sure _____ water supply _____ not _____.

Will you have _____ extra _____ enough _____ the repair job?

_____ an _____ to maintaining water _____ when _____?

When _____ this _____ have a _____ for water?

_____ there _____ sufficient water throughout the repairs?

Can _____ us that we won't run out _____ ongoing _____?

_____ there be backup systems used _____ sure _____ service _____ not _____?

Will _____ be backup systems _____ for the _____ the water service?

_____ a way _____ maintain a _____ supply?

Will _____ any arrangements _____ regular _____ of freshwater?

Do _____ any _____ for _____ water _____ while the repairs are _____?

_____ is being _____ are there _____ extra _____ constant water availability?

_____ backups _____ to make _____ the water supply is _____?

During these _____ there _____ plan _____ reliable water source?

Is there _____ way to get _____ for _____ repairs?

_____ methods for steady water _____ repairs?

Are _____ contingency _____ so that _____ won't _____ during maintenance work?

Will there be provisions _____ throughout _____ repairs?

_____ plans in place so that we won't be _____ maintenance _____?

_____ are your plans for _____ water _____ repairs?

Can _____ be _____ ways to _____ the _____ the issue _____ fixed?

_____ there _____ plan to keep that _____ flowing _____ mess?

Is _____ possible _____ access to _____ drinking water _____ when repairs _____ taking _____?

_____ possible to find _____ source of _____ while _____ fix _____ problem?

_____ secondary _____ mechanism _____ for delivery _____ liquid during _____ maintenance _____?

Do you have any plans to _____ you _____?

Are there alternatives _____?

How _____ we _____ water availability _____?

_____ have _____ for water during the _____?

_____ backup resources or _____ to protect the _____ supply?

Can _____ on _____ source _____ water while you fix _____?

Should _____ have _____ in _____ so that _____ don't lose water _____?

What _____ be done _____ ensure _____ when _____?

_____ there any extra effort made _____ availability _____ work _____?

_____ different ways for a continuous _____ come _____ repairs are _____.

H2O alternatives _____ maintenance?

_____ don't _____ without water during maintenance _____ have contingency options in _____?

Is there _____ way _____ ensure a _____ of _____ during repairs _____ issue?

Is there _____ keep the _____ supply _____ the repairs _____ ongoing?

Is _____ way to _____ while _____ fix it?

We don't want _____ during maintenance _____ do you have _____ in _____?

_____ there _____ for _____ water supply?

_____ maintenance, will _____ be _____?

Did you _____ any _____ plans for _____ water _____?

Is there a backup plan for _____ amounts _____?

Can _____ me _____ alternatives to assure a water _____ during the _____?

Could _____ another way _____ guarantee _____ continuous water _____?

_____ a _____ to secure _____ water supply _____ resolving _____ problem?

Is _____ way _____ make _____ a _____ supply _____ during repairs?

If the supply _____ do _____ any _____ sources _____ repairs?

Is _____ make sure constant water _____?

Is there _____ backup plan for _____ that _____?

Is there _____ way _____ maintain adequate _____ provision _____ fixing _____?

Should there _____ backups or _____ provision _____ the _____?

Do you _____ different _____ or methods _____ water _____ repairs?
 _____ the options for steady _____?
 _____ to _____ maintenance _____ is _____ secondary supply mechanism established?
 Is _____ backups for _____ supply _____?
 Is _____ any way _____ sure _____ consistent _____ is implemented?
 How can we _____ water availability _____?
 Is there _____ secondary supply of _____ maintenance _____?
 Will _____ systems _____ used _____ avoid _____ the _____ service?
 _____ alternative _____ to _____ a steady _____ of water during _____?
 Is _____ a _____ plan _____ a _____?
 _____ you _____ water availability while you fix _____?
 Can _____ assure _____ of continuous _____ you're repairing this _____?
 There are _____ steady water _____.
 _____ there _____ backup plan _____ maintain sufficient _____ water during _____?
 _____ any _____ so we _____ dry out during repairs?
 Do _____ plan for _____ water _____ during maintenance?
 Do _____ have a _____ water service?
 _____ there any _____ to ensure _____ constant supply _____ during _____?
 Is _____ resources or procedures _____ make sure _____ available?
 How will _____ keep _____ flowing _____ you _____ mess?
 _____ on a _____ source of water while _____ fix _____?
 Can _____ alternative water _____ for a _____ supply _____ the _____ process?
 _____ you provide us with _____ constant source _____ you _____ problem?
 _____ there another _____ to provide _____ supply?
 _____ there _____ alternative to maintain water _____ when _____ are _____?
 Is there any _____ water _____ repairs?
 Is there _____ way _____ continuous _____ of water?
 _____ there _____ in _____ water during the repairs?
 Should _____ other _____ for _____ supply during _____?
 There _____ approaches _____ could _____ used to _____ the _____ flow issue.
 _____ you _____ if there are substitute methods _____ unbroken water _____?
 There are _____ backups _____ options _____ could be set up _____.
 When work _____ being done, do _____ extra _____ in _____ water _____?
 _____ there a plan _____ keeping _____ while _____ fix this _____?
 _____ backup _____ for keeping enough _____ for repairs?
 _____ extra efforts made _____ ensure _____ water _____ when _____ being done?
 _____ any _____ sources _____ water supply?
 _____ there _____ steady _____ water during the _____ for _____ issue?
 _____ you able _____ continuous water availability with _____?
 What _____ do to _____ water supply during _____?
 Is _____ a way _____ improve _____ flow _____ fixing _____ issue?
 _____ other sources _____ water supply during _____?
 _____ can be used _____ maintain water _____ repairs.
 We _____ be without _____ during _____ work _____ contingency _____ in place.
 _____ you _____ contingency plans to take _____ of your _____?
 _____ the _____ way to supply water _____ repair _____?
 _____ there be provisions _____ access to _____ during _____?
 Can _____ of water during the _____ for this _____?
 Are there backup _____ place to make _____ there _____ no interruption _____?
 Can we _____ while you fix the problem?

During maintenance, can _____?

_____ are _____ ways _____ get _____ water _____ while repairs are being done.

How can _____ supply throughout the repair _____?

Are there _____ water sources _____ repairs _____ runs low?

Are _____ backup _____ sources _____ be _____ for repairs?

Do _____ have _____ ways to _____ flowing?

_____ any substitute _____ guarantees constant _____ supply during _____?

Is _____ way to _____ consistent _____ supply?

_____ conducting _____ are _____ alternatives to _____ continuous _____ flow?

_____ contingency options in place _____ we _____ go _____ water?

Is there _____ that _____ stays strong while _____ issue?

Are there _____ to _____ continuous _____ availability?

During maintenance can _____ on _____?

_____ can our _____ while you _____ this issue?

Do _____ have any backup _____ for steady _____?

Is _____ a way _____ guarantee _____ water _____ repairs.

Are there any alternatives to _____ to _____ during _____?

_____ you have backup water _____?

Is there another _____ water flowing _____ we _____ this _____?

_____ can _____ get adequate _____ while _____ the issue?

_____ systems be used _____ avoid interruption _____ service?

_____ options _____ maintain enough water during repairs?

Are _____ alternatives for _____?

_____ you tell _____ if _____ are substitute _____ assure _____ unimpeded _____ provision throughout _____ repair process?

Is there _____ other _____ for this issue?

Is _____ another _____ for access _____ during _____ fixes?

Is there any _____ keep _____ flowing _____ you _____ mess?

Is _____ place for a reliable _____ of _____?

Are _____ backups _____ options for water _____?

_____ you _____ up water _____ during _____?

_____ an _____ to _____ water flow when repairing.

Is _____ resources or _____ ensure continuity _____ supply?

_____ me _____ are substitute methods in place to _____ an unspoiled _____?

_____ repairing _____ issues, what measures _____ taken _____ ensure _____?

_____ have backup options if _____ don't _____ out _____?

Can you tell _____ there _____ provisions to ensure continuous _____ to _____?

Is there _____ substitute solution _____ guarantees _____?

_____ it _____ to depend on _____ enough _____ during _____?

_____ to get _____ consistent _____ supply throughout the _____ process.

_____ me _____ there are any _____ water _____ for repairs?

Do _____ have contingency _____ place so _____ be without _____ during _____?

_____ you make _____ a continuous water _____ during _____ repairs?

Is _____ backup methods for _____?

When you _____ you _____ a plan for _____?

I _____ to know _____ there _____ way to _____ a continuous _____.

_____ supply during _____ secure with _____ sources.

Is _____ a way to _____ a continuous water _____?

Is _____ any way _____ make _____ there _____ a _____ water?

_____ use alternatives to make sure _____ have continuous _____ clean _____?

Is there a substitute _____ water _____?

There are different ways in which _____ water _____ can _____ supplied _____ .
 _____ there another way _____ a steady supply _____ repairs?
 _____ guarantee watersupply when repairing such _____ ?
 I want _____ know _____ any _____ ways _____ keep _____ flowing?
 Should _____ other _____ of _____ supply _____ repairs?
 _____ you tell me _____ are any _____ provisions that _____ continuous _____ drinking _____ ?
 Is there any way _____ of _____ for repairs?
 _____ plans _____ keeping that water _____ while you fix _____ mess?
 Do you have a backup _____ water _____ ?
 Is _____ a _____ to have _____ availability _____ work?
 How _____ water supply _____ these repairs?
 Will _____ be arrangements _____ provision during maintenance?
 Do you _____ plans _____ a water _____ during _____ repairs?
 _____ the _____ water involve other ways _____ it?
 Is there _____ contingency plan _____ a _____ source _____ during _____ ?
 _____ possible for _____ secondary supply _____ to _____ during _____ maintenance activities?
 _____ be _____ source of _____ during the _____ works?
 Is there _____ or _____ to _____ sure the water _____ always _____ ?
 _____ on a consistent source _____ water _____ work on the _____ ?
 _____ fixing _____ have _____ Plan B for water?
 _____ there _____ guarantee constant _____ supply?
 Is _____ way to _____ a _____ water flow _____ conducting _____ ?
 Is there any _____ supply secure?
 There _____ ways in _____ to get a _____ water _____ repairs _____ .
 _____ a backup water _____ in _____ repairs?
 _____ assure us that _____ will _____ access _____ clean drinking _____ repairs are _____ ?
 Is _____ plan in _____ consistent water flow?
 _____ there _____ in _____ there _____ an interruption _____ the water _____ ?
 _____ you got _____ the water service?
 _____ this _____ can _____ on continuous water availability?
 When conducting repairs, are _____ other _____ the _____ ?
 _____ there a backup _____ for water _____ ?
 Is there _____ or _____ to make _____ no _____ to _____ supply?
 _____ you _____ backup _____ for _____ service during maintenance.
 _____ you have _____ for _____ enough _____ ?
 _____ you _____ if there _____ to assure _____ unbroken water provision _____ the repair _____ ?
 During _____ keep H2O _____ ?
 _____ repairs, what _____ of water supply _____ you _____ ?
 Is _____ an _____ sure constant water access?
 Are we _____ steady water _____ amidst _____ ?
 Will _____ any _____ made to ensure _____ steady _____ of _____ ?
 How _____ there is a constant _____ water during _____ ?
 _____ we _____ approaches to ensure continuous _____ to clean, _____ water _____ ?
 Howbout _____ alternatives _____ ?
 Can you _____ there _____ substitute methods put _____ place _____ assure _____ constant _____ ?
 _____ maintenance _____ alternatives _____ secure?
