

[Demo] NLP Dataset for Customer Service Automation

| | |
|-----------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Company Type | Auto Repair and Maintenance Shops |
| Inquiry Category | Brake squealing and grinding noises |
| Inquiry Sub-Category | Brake System Diagnosis |
| Description | Customers seek professional assessment of their brake system to determine the underlying causes of squealing or grinding noises and to receive an appropriate diagnostic report for further action. |
| Data Size | 6,091 paraphrases |
| Want to buy data? | Please contact nlp-data@gross.me via your business email address. |

Masked sample paraphrases of one "Auto Repair and Maintenance Shop" customer inquiry. (Purchased data will not be masked.)

Are _____ underlying issues besides worn-out brake _____ could cause _____ annoying _____ ?
 _____ that something _____ is playing a _____ the screeching _____ braking?
 _____ there any _____ while braking?
 _____ there _____ causing the _____ noises during _____ apart _____ worn-out _____ ?
 Is there something _____ causing _____ annoying _____ ?
 Is it possible for _____ beyond _____ the unnerving _____ ?
 Is there _____ than _____ brake components that _____ sounds?
 _____ these noises come from _____ ?
 _____ more _____ dragging _____ my braking system and making those _____ ?
 _____ could be _____ factors _____ on the brakes that cause _____ .
 There _____ be _____ issues _____ annoying _____ while braking.
 I _____ it is anything _____ those annoying _____ when I hit the brakes.
 _____ there other factors _____ wear on the _____ parts _____ ?
 _____ it necessary _____ consider _____ problems _____ ineffective brake components _____ a cause _____ noises?
 _____ there a _____ way to _____ sounds _____ rather _____ just _____ on outworn _____ ?
 Is it _____ that _____ stops are attributed _____ something _____ components?
 Is _____ cause _____ those _____ other than malfunctioning brake _____ ?
 _____ there _____ other problems _____ the old _____ cause these noises _____ process?
 Is _____ noise _____ stops _____ wear on the brakes?
 _____ an alternative reason for these _____ deteriorated _____ components?
 Is _____ to _____ irritating _____ noises _____ worn-out brakes?
 _____ annoying sounds when coming to _____ could be _____ exhausted braking apparatus.
 _____ brakes _____ other _____ cause these _____ stopping sounds?
 _____ there any _____ the wretched sounds while _____ ?
 _____ any other reason for _____ annoying _____ ?
 _____ any reasons _____ while braking?
 _____ you _____ any _____ reasons for _____ noises?
 Is _____ reason _____ the troublesome _____ during braking and _____ wear _____ on _____ system?

Is there any other ____ besides ____ that ____ annoying ____?

Is there an ____ for ____ the ____ brake components?

Are ____ any ____ than ____ old ____ that ____ to these sounds?

Are ____ noises caused ____ else?

____ brake noises ____ caused by other hidden ____.

Can ____ be other issues ____ lead ____ the ____?

____ know ____ any issues ____ the worn brake parts?

Any mention ____ the ____ degraded brake ____ elements?

____ there ____ issue behind ____ annoying sounds when ____?

____ causing those irritating ____ while braking?

____ possible for something else ____ brakes ____ contribute to ____ unnerving ____?
