

[Demo] NLP Dataset for Customer Service Automation

Company Type	Auto Repair and Maintenance Shops
Inquiry Category	Issues with car's exhaust system
Inquiry Sub-Category	Check engine light due to exhaust issues
Description	Customers contact shops regarding a triggered check engine light, suspecting that it could be related to their exhaust system. They inquire about diagnostic services to identify the specific problem causing the light to illuminate and the subsequent repairs required.
Data Size	7,356 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Auto Repair and Maintenance Shop" customer inquiry. (Purchased data will not be masked.)
